Mr. Johnston began very calmly by asking the witness if he remembered where the examination ended last night. Mr. Gamey thought the questions had to do with a letter of the 17th October, and added, "I am not sure; I don't know where you left off. Go head wherever you like."

Mr. Johnston then quoted from the Manitoulin Conservator of Oct. 2 a paragraph headed "Denial," and saying in effect that a flop rumor had originated in Toronto that R. R. Mr. Gamey, however, had asked the editor to explicitly deny the rumor, which was absurd on the face of it, as the Conservative party would probably be in power in a few months. Dr. Sproule protested against the reduction of Ontario's representation, and moved an amendment that the second reading be deferred until a judicial determination has been had on the disputed points.
Sir Wilfrid Laurier said the Govern-

The Government was consenting to a reference to the Supreme Court not because it had any doubt on the matter, but in deference to the views of the provinces. If the contention of New Brunswick were correct, it would mean that the unit of representation in Quebec would be 25,367, while in Ontario it would be 23,777. # TO SUBSIDIZE FAST STEAMERS

London Stock Market Greatly Affected by Northern Securities Decision.

London, April 15.-The once blessed name of Mesopotamia is no longer a conjuring word in Britain. The practical interpretation placed by financiers and leader writers on the revelations from Berlin, Paris and Constantinople, respecting the Euphrates Valley Railway to Bagdad and the Persian Gulf, is that British money is needed for completing a German and French investment. The energy with which the railway enterprise is attacked indicates a general apprehension lest Lord Lansdowne and Premier Balfour have already committed the Government to another German intrigue.

The opponents of the railway scheme urge that the only possible advantage Britain from the extension of the Anatolian Railway would be the saying of two or three days in the delivery of the mails for India, and that this is not worth the 40 per cent of capital for the enterprise which British investors will be asked to supply. Subsidies for fast mail steamers to India and a heavy reinforcement British squadron in the Persian Gulf are considered better investments than a railway through Mesopotamia, which would inevitably be a source of complications.

The effect of the Northern Securi ties Company decision was not felt here, owing to the holidays, until yesterday. The downward movement of all American railway stocks was a direct result of the collapse of the New York and Chicago markets, the declines in values closely corresponding and operators tumbling over one an other toward the close of business in their eagerness to learn the opening prices across the Atlantic. Notwithstanding the heavy fall in American stocks, there were no signs of uneasiness, and much less of panic, nor was there anything like a rush to sell railway securities.

Berlin, April 15.-An incident recalling the notorious Brusewitz scandal, and like it, illustrating the ugly side of German militarism, has just occurred at Essen. Two youths named Huesener and Hartmann, forlong friends, went to their homes to spend the Easter holidays and the street. Hartmann who was serving a compulsory term as a private in the artillery, greeted Huessner familiarly, whereupon the latter, who is naval cadet, angrily upbraided him for not saluting him as an officer. Hartmann either misunderstood what Huessner said or treated his remarks as a joke and the matter ended by Huessner thrusting his sword through the body of his friend. IN THE SPRING.

### Nature Teaches a Lesson That Tired Exhausted Men and Women Should Follow.

The spring is the season when nature prepares for summer. All the trees and plants are filled with new sap to build and brace them up to withstand the coming hot season. Without new sap in the spring a plant would wither and die beneath the midsummer sun. It is the same with men and women. All physicians are agreed that everyone needs a fresh supply of new blood in the spring. Without the new blood you would be as helpless in the summer as a tree without new sap.

What you need at this season is tonic to give you new blood, and the very best tonic medical science has discovered is Dr. Williams' Pink Pills Every pill makes new, rich, red blood, braces the nerves and overcomes all weakness, headaches, backaches, indigestion, loss of appetite, skin eruptions and other troubles so common in spring. This is an established fact, proved by thousands in every part of

Miss A. M. Tuckey, Oxdrift, Ont., says: "I do not know what would have become of me had it not been for Williams' Pink Pills. My blood I was troubled with dizziness, headaches and nervous prostration. I got so weak that I could hardly go about and notwithstanding that I was constantly doctoring I got no relief until I began using Dr. Williams' Pink Pills They completely cured me and have given me back all my old-time health

and strength." What these pills have done for Miss Tuckey and thousands of others they bright, vigorous and strong. The election his old age when he occupies a posipetition against him was dismissed on Oct. 24. On Jan. 24 he signed a statement prepared by Mr. Stratton, in the form of an interview, publicly announcing his intention to support the Government. He gave this interview to a Globe reporter in a room adjoining Mr. Stratton's office. He was then informed by Mr. Stratton that he (Stratton) had given Frank Sullivan

Under cross-examination, new light has been thrown on Mr. Gamey's story and his methods. He admitted that he spent in his own business the \$1,500 which he alleged he received from Stratton. On April 7 last, when he was required to restore this sum for Tupper refused to talk to a reporter the purpose of the present investigation, he had only \$454 62 to his credit in the bank. He managed to raise \$1,500 by selling some business stock to W. R. Smyth, M. P. P. for Algoma. He had known "Cap" Sullivan, the father, for many years, and would not live to study it and that there are not swear that he had not had dealings with him on previous occasions. On Sept. 10 he attended a Conservative caucus in Toronto, made a speech praising Mr. Whitney, and this speech was reported in the Mail and Empire on the morning of Sept. 11, the day on which he says Stratton gave him the \$3,000. Yet he had never met Stratton until Sept. 10. Cross-examined fur- he says: ther, he could not say whether the money was given him on Sept. 10 or Sept. 11. He admitted that he had expressed dissatisfaction with Whitney before Aug. 7, the date on which the Sullivans approached him. He had also praised Ross as a leader. He denied that he had told James Conmee, M.P.P., G. F. Marter, ex-M.P.P., or John Mackenzie, of Poplar postoffice, before the Sullivans approa him, that he would support the Government; but from the drift of Mr. Johnston's questions, it is evident that these gentlemen will swear that he did. Gamey confessed that he had preseed the Government to make appointments long before there was any talk of bribing him. On Nov. 4 he had tried to borrow \$2,000 from Mr. Stratton, but received no answer. He (Gamey) swore he did not need the money, but wanted it as evidence against Stratton.

That's just the trouble. The skillful reporter relies too much on his memory and that's one reason why the interview in cold type is often much more satisfactory to the man who wrote it than to the man who gave it. We recollect on one occasion Sir Charles from one of his chief organs because the young man was not a shorthander. Every reporter is the more efficient if he uses the winged art, and he can command more money, other things being equal. There is plenty of incenmore shorthanders shows a lack of application somewhere.

The committee in charge of the Toronto Old Boys' reunion, to be held there July 1-4, is offering prizes for the best poems on the subject of old home sentiment. The secretary, Stewart Houston, sends out a circular in which

"These valuable prizes should in-terest a very wide field of poets, especially as among the best known names in American poetry today are those of such men as Bliss Carman, Charles G. D. Roberts, Arthur Stringer and Ethelwyn Wetherald."

This is all right except that Miss Wetherald isn't a man. She was a resident of this city for some time. She has written some delicious prose and verse, and her latest volume of poems has been enthusiastically received. Arthur Stringer is a London boy, and every Londoner is proud of him. If the Toronto Old Boys who return must be bombarded with poetry, it ought to be good poetry, and no one in America can produce a better article than the ex-Londoners we have mentioned. In this city the home-coming Old Boys and girls will get something more substantial.

[Special to The Advertiser.] Toronto, April 14.-The discomfiture of Mr. Gamey in Monday's cross-examination was but a forecast of what he had to undergo for the six hours of

today's session. Mr. Johnston kept up an incessant fusillade of questions all day, and under the fire Mr. Gamey weakened perceptibly and became 12th of August Sullivan and the witbadly entangled in the intricacies of his involved story. He contradicted himself on many important points and had to admit that many points of his In answer to this apparent contradicmarrative in the House were incorrect and misleading. The result of Mr. Johnston's searching cross-examination was to weaken immensely, if not destroy utterly, whatever of value Mr. Gamey's story contained. Judging by some of Mr. Johnston's questions, he has in reserve some important testimony which will throw considerable

On the resumption of the inquiry after the noon recess, Mr. Johnston again began the cross-examination of Mr. Gamey on the subject of his meetings with Frank Sullivan in August The meetings took place at the Walker House, said Mr. Gamey, and were not by appointment. Mr. Gamey was staying at the hotel, and so was

Frank Sullivan's father. Asked as to whether a conversation was held with Frank Sullivan on Aug. 9, Mr. Gamey replied: "It vis very likely that I met him and that a conversation of that kind took place." On Tuesday, Aug. 12, the meeting took place with Mr. R. A. Grant. Frank Sullivan told witness that no money payment would be mentioned by Grant, but that he would speak of a stock transaction. The French admiralty will build a submarine boat larger than any hitherto attempted. It will be 160 feet long, of 360 tons burden and will cost \$250,000. young ladies' seminary at Paris.

NO ALCOHOL IN IT.—Alcohol or any other volatile matter which would impair strength by evaporation, does not in any shape enter into the manufacture of Dr. Thomas' Eclectric Oil. Nor do climatic changes affect it. It is as serviceable in the Arctic Circle as in the Torrid Zone, perhaps more useful in the higher latitudes, where man is more subject to colds from exposure to the elements.

NO ALCOHOL IN IT.—Alcohol or any other name will cost \$250,000. THEY ARE NOT VIOLENT IN ACTION.—Some persons, when they wish to cleanse the stomach, resort to Epsom and other purgative salts. These are speedy in their action, but serve no permanent good. Their use produces incipient chills, and if persisted in they injure the stomach. Nor do they act upon the intestines in a beneficial way. Parmelee's Vegetable Fills answer all purposes in this respect and have no superior.

# SENT FOR A CENT

A postcard with your address on sent to John Labatt, London, will bring you in return an interesting booklet about ALE and STOUT, of vital importance to consumers.

Ayer's Hair Vigor has been 1011 restoring color to gray hair for fifty years, and it never fails to do this work, either. And you can rely upon it for stopping your hair from falling, L.C. Andregeiste. Lovell, Mass

There was considerable business done on the market here today.

Twenty loads of hay were on sale, and the demand was brisk; most of the loads sold at \$9 and \$9 50 per ton.

Three loads of straw sold at \$2.75 to \$3.25 by the load.

As intimated in yesterday's report that there would be a good demand for the oats offered for the next few days, the farmers secured an advance of from 7c to 10c per cental for the 12 loads which were offered today; all the loads sold at 95c per cental, with the exception of two, which were not properly cleaned, and they went at 90c.

An advance of 10c per 100 pounds will be paid here on Monday for live hogs, at \$5.85.

NEERLY REVIEW

### WEEKLY REVIEW.

Owing to the unfavorable weather or

Grain—Oats are about the only grain offered, and prices have advanced about 10c per cental, at 95c; this is probably owing to light deliveries.

Hay and Straw—There has been considerably less hay offered than in the previous week; only 90 loads were on sale, and prices ruled at \$8 to \$10 per ton, only a few loads going at the latter figure.

Straw is in good demand at present at

Straw is in good demand at present, at \$5 to \$550 per ton.

Butter and Eggs—The supply of butter has been large, especially on Saturday last, and as a consequence prices are a trifle easier, at 18c to 19c for crocks and 20c to 21c for pound rolls. Eggs are in fairly good demand and the supply is large and prices about steady.

Potatoes—Owing to the large deliveries on Saturday last, the prices dropped about 10c per bag, to \$110 to \$120.

The demand for apples is not brisk, and prices are steady at \$1 per barrel and vices are steady at \$1 per barrel and vices are steady at \$1 per barrel and 40c to 50c per bag for medium quality; some real choice barrels have sold as high as \$150 to \$2.

CHICAGO.

Chicago, April 14.—Wheat—The trade in wheat today was of a local professional character, the general public taking no interest. The bull interests sold July openly and is supposed to have bought about the same quantity through commission houses, apparently with the idea of creating activity. Trade, however, was light, and the market quiet until near the close, when reports of freezing weather in Texas and strength in the St. Louis market caused shorts to cover freezing, carrying the May 1½c above last night's close. English cables were unchanged to ½c lower from Thursday's closing. Indications point to fair and warm weather throughout the west. Cars tomorrow, 10.

Corn.—The market was very firm al-

ruled quiet but very firm. Cars tomorrow, 50.

Provisions—Today's market was a small affair and almost entirely local. Hogs were higher early on smaller receipts, due to bad roads, and weaker later. The market opened stronger, then declined sharply, but rallied with wheat, and clossed about as yesterday. Local crowds are trying to follow the leaders, and the latter are evidently content with present prices, and packers generally are waiting to see how hogs come forward and whether the cash demand will improve or not. There are eight scientists in the party, assured that the audience will be a very F. W. Volz, a famous Indian trader at Canon Diablo, will assist in the work. He is convinced that, buried perhaps thousands of feet below the surface of the mountain's crater, is a monster meteorite. The famous mountain has held

half a century. Meteorite Mountain stands on a wide plain of the Colorado plateau. The top of the mountain is the rim of an immense round hole one mile wide and 600 feet deep with almost perpendicular sides. The hole was evidently much deeper at one time. Its bottom is a

plateau of about 40 acres. Mr. Volz, who has lived here for 20 years, agrees with several noted scientists that the mountain and crater was formed by a huge meteorite striking the earth with such force that it heave up on all sides. The mountain top is covered with fragments of white sandstone, like that found only in the

In the vicinity of the mountain about ten tons of meteorites have been found fraction of an ounce to 1,000 pounds and more. Recently Prof. G. K. Gilbert, of the United States Geological Survey, tried to prove that the mountain was caused by volcanic steam explosion, but this theory is not generally accepted by other scientists. Mr. Volz has discovered fragments of iron shale which are "dead" or "burned," indicating they must have been thrown from a blazing meteorite. It was found that while large pieces of meteoric stone would not affect the magnetic needle, this shale elicited quick and emphatic responses. Another peculiarity of the Canon Diablo meteorite is that it contains diamonds. This fact was verified by Messrs. Friedel and Maisson, and Prof. Crookes declares this proves absolutely the meteoric origin of the strange mountain, whose secrets the

"Yet you intimate that additional burdless is has within the hour betrayed the confidence of his client." nothing left for me to do save wait in the dim hope that Noel Brent might return with news.

Clinging to this hope, I would not go to bed. But when 5 o'clock came and he had not returned, it seemed that for an hour or two at least I must give up the idea of seeing him. I undressed, therefore, and went to bed.

When I awoke and looked hastily at my watch, to my dismay it was after 11 o'clock. I was wild with fear lest the servants in their well-meaning stupidity had sent important visitors away, refusing to disturb me. But when Agnes came flying in answer to ed as an important contribution to the my violent ringing of the bell, she said literature of the past few years, and that no one had been. There were letters and a telegram, and Henri had

The telegram proved to be from Maxime, saving that he had not recovered what was lost, or learnt anything concerning it. From Noel Brent there was no word at all; and I could not understand his silence. Not to come or to write, or even to wire!-it was cruel -unless something had happened to him. I determined to send Henri to the Elysee Palace Hotel to inquire, and

I would have flung the papers aside without a glance when Henri's back was turned had it not suddenly occurred to me that, if Noel Brent had had an accident of any sort, it might be reported.

When I read what had happenedhow he was accused of murder, and and power while declaring his innocence, had refused to state how and where he had spent the time between midnight and a quarter to two in the morning, my heart went out to him in a wave of gratitude for his brave loyalty. Here was a man! He declined to speak the words which would prove me a liar to Maxime and compromise me beyond repair in the eyes of my lover.

My first impulse was to hasten to the Chief of Police, with whom I was personally acquainted, and say: "Monsieur, this gentleman cannot have committed a murder in the Rue de la Tour between midnight and a quarter to two, for at 20 minutes past 12 he came to my house and did not leave it till nearly half-past one, as my servant can prove.

I even sprang from my chair to ring for Agnes, and call for my hat and oves, and order my carriage. But-I sat down again, and deliberately crushed the impulse. I could not yield

THE TRIALS CONTINUED. Weymouth, April 14.—A race of 16 miles to leeward, from off Weymouth, and a beat back, was laid out for the Shamrocks today. Shortly after leaving their moorings a weak spot developed in the cup challenger's gear. When the boats got outside the shelter wealth, station, and title, a strong, hard gusts, and the yachts seemed to have all they could stagger under, and required an occasional luff up to ease them. The strain found a weak spot in Shamrock III.'s peak halyard gear. A man was sent aloft, and on his report the yacht fetched into sheltered water and anchored. All her sail was then dropped on deck. Shamrock I. also anchored and dropped her head

sails. The wind subsequently softened, and the boats were sent off on a trial spin to leeward and return. There was no formal start. Shamrock I. led by a length, but the new boat in a few minutes closed the gap and ran clear ahead. Club topsails were added as the yachts went down the wind, and the challenger spun out a constantly increasing lead. > SEASON OPENS TODAY. New York, April 14.-As the National baseball season will begin tomorrow at Philadelphia and St. Louis, and at New York and Cincinnati, Thursday, President Pulliam, of the National League, announced today the assign-ments of his umpires for the initial games as follows: At Philadelphia, Moran and O'Day; St. Louis, Johnston: New York, O'Day, and Cincinnati, Emslie. According to President Pulliam, all the financial claims of clubs on players have been satisfied, with the exception of the affairs of Edward Delehanty and George Davis. Delehanty has made arrangements to pay back to the New York Club what money he owes to that organization within a week, so that he can fulfill his contract and play with the Washington American League team when the season begins, April 22. Davis has given no intimation as to what he in-tends doing in reference to his indebtedness to the New York National League Club or his contract obligations to the Chicago American League Club. Davis says that his affairs are entirely in the hands of his legal adviser, John M. Ward, and that he will abide by his lawyer's instructions.

# RACE HORSES

Local Horseman Says They Are an Infrequent Quantity—Have You Seen One?

"Why is it that you never see a white race horse?" asked a local race unusual things, while with a reporter the other day. "Did you ever see a pure white race horse? I venture the assertion that you never did. No doubt you have seen an iron gray horse now and then, or a fica bitten gray, but you have never seen a white horse among the thoroughbreds of your time. Mind you, I am not saying that there is no such thing as a white race horse. I am simply commenting upon a fact which I have observed, a fact which may have been noticed by others. I have seen a gray horse now and then. A few years ago I remember to have made a small bet on a horse named Boaz, a sort of fieabitten gray, owned by a woman, who, by the way, was not red-headed. But during my experience around race tracks, which is not as broad as the experience of others, the pure white norse, or anything approaching it nearer than the gray, has been conspicuously absent, and I have often wondered why. Of course, there must be some good, deep-rooted reason for this extraordinary fact. Bay horses, sorrel horses and black horses are common enough at the various race.

Also low rates in effect until June 15, 1903, to points in Montana, Colorado, Utah, Oregon, Washington and British Columcommon enough at the various race bia courses of the country, and they are in all shades, so far as these colors Leave London at 12:35 or 3:32 a.m. daily, are concerned. Occasionally one may arriving New York 4:33 p.m. and 8:38 p.m. find a horse bordering on the clay bank in color, horses with blaze faces, or with white hind of fore feet, or sometimes having other distinguishing color marks. But where is the white horse?

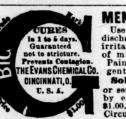

He is not at the race track where the interest of the color running races are on the card, and they are very scarce on trotting and pacing tracks. I have never mentioned the

SOUTH WESTMINSTER CONCERT

SOUTH WESTMINSTER CONCERT. The Harold Jarvis concern at St. -Miss Maggie Pearse, 442 Central Andrew's Presbyterian Church, South Westminster, Monday evening, was a magnificent success, notwithstanding the downpour of cold rain and the bad condition of the roads. The night altogether was one of the worst of the Yet an audience more than double the size of what was expected filled the church. Mr. Jarvis was at his best. Every number was enthusiastically received and encored. His rendering of "The Holy City," and other sacred numbers was superb. Miss Wynifred Logan, of London, elocutionist, was heard for the first time by a Westminster audience, and her num-bers gave great satisfaction. Miss Logan has a fine presence on the platform, a voice of great sweetness and purity and is entirely free from affeetation. Mrs. Archibald Glanworth, was the accompanist of the evening and performed her part per-fectly. Dr. McCrae occupied the chair in his own happy manner, and Rev. J. Currie. Such concerts have an edu cative influence which is of great value in any cummunity, and the Presbyterians of St. Andrew's are to be heartily congratulated on their success in th

Love Song Left Unsung.

Dr. Charles H. Zimmerman, the leader of the college choir at Battell Chapel, New Haven, Conn., and Yale's ex-champion golf player, surprised his pupils in the Hill House high school, where he is professor of Latin, by singing a fove song to them.

The occasion was the closing exercises in the old high school building, which has been in use for 30 years. Professor Zimmerman's part on the professor has been in use for 30 years. Professor Zimmerman's part on the programme was a song of the sea, which he sang with a dash and abandon that pleased his youthful audience. For an encore Dr. Zimmerman started "Oh, Promise Me." the impassioned love song from "Robin Hood." Dr. Zimmerman had only proceeded a little way in his musical lovemaking when the young women began to titter. The thought of Mr. Zimmerman, who had always been associated in their minds with Latin roots, in the role of an impassioned lover, was too role of an impassioned lover, was too much for their self-control, and before the professor had gotten half through the song the room was in an uproar. Rising from the piano, Dr. Zimmerman said: "I hardly expected such a reception, and I shall be unable to continue."

It was pointed out that much credit was due the pastor, Rev. Dr. Sowerby, for the healthy state of affairs in which the church was. The members were very grateful that he had given his decision to remain with them, though in the past six months he had received three calls, which were tributes to his ability and the esteem in which the church throughout Canada and the United States holds him. Small Audience.

An undeservedly small audience greeted Lewis Morrison, "the only Mephisto," last night, when he appeared in his production of "Faust." Mr. Morrison seems to improve each year, and his artistic portraval of Mephisto is well worth seeing. Rosabel Morrison made a delightful Marguerite, and the balance of the support was fairly good. The audience were treated to a picture of the lower regions made very realistic by the adequate scenic effects that Mr. Morrison carries. "HUNTING FOR HAWKINS" TO-MORROW.

"Hunting for Hawkins," which comes to the Grand tomorrow night, bids fair to become popular for the genuine merit of both the play and the presenting company is undoubted, both having received the most flattering praise of critics. Many of the players are deidedly favorites of theater goers.
