CROTHERS' NOMINATION PAPERS OF THE ENEMY

Six Prominent Liberals Induced To Sign Names As Witnesses To Posting of Election Proclamation Later Appeared As Sponsors For Minister.

Charging that their names were obtained by deceit and fraud of a sort to disgust decent people of every political sympathy, six prominent Liberals of Southwold Township have directed to Hon. Thomas W. Crothers, minister of labor, and to the returning officer of West Elgin, an open letter, in which they repudiate their supposed indorsation of Crothers. For ways that are dark and tricks that are vain, the minister of labor is

well known. Today he is fighting a candidate who is certain to be elected, in the person of William Tolmie, and this Borden minister is resorting to the most deliberate trickery ever known in Ontario. The following is the letter addressed to the minister and to the returning

To THOMAS W. CROTHERS, K.C., Etc.

WILLIAM HEARD, Esq., Returning Officer for West Elgin:

The undersigned Electors of West Elgin complain 1. That the name of each of them, and of many others, appear in the public newspapers as having been signed to the Conservative nomination paper filed by Thomas W. Crothers at Dutton on nomination day.

2. That the above William Heard is a public official charged with the sacred public trust, for all the electors, of taking charge of the conduct, in this riding, of the election and the ballots and making a return to the crown thereof in an impartial and non-partisan manner. 3. That the returning officer is deprived of a vote that he may be as non

partisan as possible 4. That the said returning officer and one Balkwell obtained the names of the undersigned and others to said nomination paper by driving through the riding together, and in each case obtained our signatures by deliberate fraud and misrepresentation clearly designed to cheat, defraud and mislead the signers

5. That the following are the particulars of such fraud and design to cheat To obtain our signatures the said Returning Officer carried the said Thomas W. Crothers' nomination paper, WHICH HE SHOULD NOT DO, and was accompanied by said George Balkwell, and the said Heard personally presented it for signature to some of the undersigned and the said Balkwell to others, and in EACH case obtained the signature by clearly stating that they had just posted a proclamation of the election and wanted a witness to that fact, and the signature was then written

as such witness, but not as a nominator of said Crothers.

6. We state that we do not believe that Heard and Balkwell, although partie. to it, either originated or concocted the above base fraud and deception, and we think that it was done for the benefit of one individual only. 7. We are from Southwold and have reason to believe that the above deception was perpetrated in all the other townships in this riding.

8. We request that this letter be published and given the same publicity that the publication of said Crothers' nomination received. HUGH McPHAIL, Iona Station. ALEX, BUCHAN, Lawrence.

Berlin, Sunday, Nov. 25 .- A report re ceived from the western front tells of the capture of some American troops, and says:

"They know no reply to our query. Why does the United States carry on war against Germany?" The sinking of American ships by U-boats, which was the favorite pretext, sounds a trifle stale. One prisoner expressed the opinion that we had treated Belgium rather hadly. Another asserted gium rather badly. Another asserted that it was Lafayette who had brought America French aid in the War of Independence, and because of this the United States would now stand by

The roads leading to the battlefront showed increasing masses of
troops being brought up for concentration on the threatened lines.

Much artillery was coming in. The

in their hands which looked like

were opened it was not candy which

fit into the Italian rifles. Every

DIAZ HAMMERS A Rebuke for the "Traitor" Cry

[Canadian Courier, Toronto, November 24.]

We must remember that charging Sir Wilfrid with treason is no new thing. When in 1911 he advocated reciprocity with the United States, he was represented as a traitor to the Empire. The charges of today are no stronger, no more virulent, the cartoons Returning Officer Making Prono viler, than they were then. And yet today we have a fair measure of reciprocity with the United States; we have borrowed money from the United States by the scores of millions, and we are relying upon the United States to finance the grain crops of Western Canada. We have gone further towards continentalism than Sir Wilfrid advocated, and no one has suggested that treason has been committed. Thus it is only natural that men should Official Notice Says Men Who look upon the present charge of treason as the time-dishonored cry of "wolf" and consider the present charges as untrue, unjust, and reprehensible. There are few Liberals who do not believe that the accusations of treason to the Empire in 1911 were inspired by misguided party enthusiasm. Can they be blamed for regarding accusations of treason in 1917 in the same light? To attack Sir Wilfrid as a traitor, is to raise a battle cry for war horses retired from duty through lack of employment.

It must not be forgotten that six months ago Sir Wilfrid had the biggest personal following of any man in Canada. Leave Quebec out of the situation; Sir Wilfrid was the biggest Liberal in Ontario, the biggest Liberal in Manitoba, the biggest Liberal in each of the Western Provinces, in New Brunswick and Prince Edward Island. In Nova Scotia alone was his prestige disputed, and that by Premier Murray. To hold Sir Wilfrid up to the Liberals of Canad as in league with the kaiser, is to weaken confidence in urday evening. the statesman-like qualities of unionism. Sir Robert has not done so, and his example ought to be good enough for his followers.

TOMMY IS STAUNCH

London, Nov. 28. — The staunchness of the British Tommy is illustrated by an incident of General Byng's surprise attack. Everything depended on the entire ignorance of the Germans of the concentration of the tanks. The general staff was on pins and needles fest something might give away the show. The night before the attack the Germans raided the very sector where the tanks were waiting and captured forty prisoners. If one of these had talked the whole plan would have been a failure. Evidently not a single man among the prisoners gave away the information and thanks to their fidelity the surprise was

\$600,000 Institution at St. Hyacinthe Was Destroyed Early This Morning In Zero Weather.

St. Hyacinthe, Que., Nov. 28 .- The \$600,000 Hotel Dieu Hospital here was completely destroyed by fire this morning, and Chief of Police Foisy lost his life while assisting in the task of removing the thousand inmates of the hospital. The thermometer was down to zero

and after being got out of the hospital the inmates, who included patients, orphaned children and aged folk, had a hard time until accommodation in houses throughout the town was found for them. The institution, like similar hospitals dotted all over Quebec, was managed by the Grey Nuns. It consisted of three-story buildings.

Dies of Exhaustion. Dies of Exhaustion.

Chief of Police Folsey dropped dead from exhaustion and exposure just as the work of removing the aged and infirm was being completed.

The cause of the fire is not definitely known, but it is suggested by inmates in the wing where the fire broke out that somebody had thrown an unextinguished match into a wastepaper basket. The Montreal Fire Brigade sent down an engine and twenty men, who put out the fire in the ruins of the building.

WHITE LIQUID CAUSE OF MANY BURNINGS OF VESSELS AT SEA

Boston, Nov. 28.—An innocent-looking white liquid, timed to burst into flame by the strength or weakness of solution, has been the source of fires with which the American shipping has been menaced ever since the war began, according to Arthur Woods, police commissioner of New York, who delivered an address here last night.

The chemical, Mr. Woods said, was the cause of ruinous fires aboard sugar ships at sea some months ago. "For a long time," he said, "we could not find out how the inflammable material which caused the fires was put aboard ship. But we think we have it now—at least, no more ships are being burned. We discovered a kind of stuff that burst into flame after a period of time that may be closely calculated according to the strength of the solution when it is placed on a cloth and left reasonably exposed to air."

"NAMES IS NAMES"

Halifax, Nov. 27.—The increasing number of soldiers arriving in Halifax from overseas has made the authorities determined that the boot-legging menace must be completely wiped out. Last night Pte. Edward Legg, attached to the Engineers on home service, was arrested. On his person was found a bank book with a credit of \$350, and also a large roll of bills. In a little room he had rented on the vicinity of the chief hotels, was discovered tins of rum, mixing cans, funnels, corks and a complete bootlegging equipment. It is alleged that Legg's practice was to mix his decoctions in the room and with flasks and bottles in his pocket mingle with the returned soldiers and dispose of his adulterated liquor at an enormous profit. The police consider that by his capture they have secured the most flagrant offender.

THE WAR SITUATION

Representatives of the Allied pow ers are in Puris for a conference upon which the future course of war activities probably will depend. The French leaders have been joined by the representatives of Great Britain, Italy and the United States. A basis for joint action against the Central Powers will be determined at the conference, it is indicated, and the future policy toward Russia may be decided upon.

Bolsheviki Active.

Bolsheviki Active.
Although the Bolsheviki apparently have been unable to extend their power over Russia except in the cities of Petrograd and Moscow, they continue their efforts toward an armistice and peace. It is reported that German officers have arrived in Petrograd to aid the Maximalist leaders with their advice and

mailst leaders with their advice and counsel.
Indications are that the opposition to the Bolsheviki is rapidly gaining strength. A conference of anti-Bolsheviki leaders at Russian army headquarters for the purpose of forming a coalition government is reported. Among the men there are Professor Milukoff, leader of the Constitutional Democrat party and one of the prominent actors in the March revolution; members of the Socialist party and prominent military leaders.

Socialist party and prominent military leaders.

Kaledines' Power Grows.

Meanwhile General Kaledines, hetman of the Don Cossacks, who is reported to control the grain-producing territory of Southeastern Russia, is gaining in power. Many army officers opposed to the Bolsheviki regime have joined his forces, including members from the front. Government employees in Petrograd have refused to recognize the Bolsheviki and have been dismissed sheviki and have been dismissed from office.

As the British press toward Cam-oral from the west they encounter more stubborn resistance. Heavy more stubborn resistance. Heavy fighting is in progress around Fontaine Notre Dame, less than three miles from Cambrai, and near the village of Bourlon, about one mile northwest of Fontaine. The villages were occupied by the British last week, only to be lost in the face of strong German counter-attacks. General Bynd's men, however, are making progress against the strongly reinforced enemy, from whom more than 500 prisoners were captured Tuesday.

more than 500 prisoners were captured Tuesday.

On Italian Front.

Undismaved apparently by the
losses sustained in their fruitless efforts of the past two weeks to break
the Italian line betveen the Brenta
and the Plave valleys, the AustroGermans continue to hurl fresh
troops against the defenders of the
passes to the Venetian Plains. The
latest attempt was against the left
wing along the Brenta Valley. An
entire division was used in an attempt to break the Italian defences.
It attacked five times in massed
formation, but was unable to break
the defence of the Italians.

Seeking An Armistice.

Contact has been established between the Bolsheviki leaders in Russia and the German military authorities, and negotiations for an armistice are presumably in full swing
behind the German lines.

Whatever the ultimate result of
these negotiations, it seems clear
that at present the Russian negotiators are representative of only a
fraction of Russia. General Krylenko, nominal commander-in-chief
by Bolsheviki decree, whose representatives have crossed to the German side for the pariey, has been
unable to take over the actual command of more than the Northern
Russian armies.

Communication between North and
South Russia has been cut off and
General Dukhonin, the de facto
commander of all but the Northern
forces, whose headquarters is at

Bolsheviki Commanders Have Crossed To the German Side and Are Negotiating With Enemy Military Authorities-Many Officers Joining Kaledine's Forces In Southeastern Russia.

Petrograd, Nov. 28.—The Germans have set December 2 for a conference for negotiation of an armistice.

Petrograd, Nov. 28.—Representatives sent by Ensign Krylenko, the Bolsheviki commander-in-chief of the Russian armies, have been received in the German lines and informed by the German commander that the Germans have officially consented to immediate negotiations for an armistice on all the fronts of the belligerent countries.

Petrograd, Nov. 27, 10:30 p.m.—It is announced officially at the Smolny Institute, the headuarters of the Bolsheviki, that representatives of Ensign Krylenko, the Bolsheviki commander-in-chief, have crossed to the German side and entered into negotiations with the German military authorities.

GERMANY SPREADING LIES.

Washington, D. C., Nov. 28.—German propaganda in Russia is increasing in intensity, according to information received at the embassy here from the Russian ambassadors at Paris and Rome.

Every effort, they reported, is being made to misrepresent the attitude of the Entente powers and the United States, and misleading announcements of policy are being spread in Russia and in other countries.

In some circles it is believed that representatives of the Allied powers now in Paris already may have served notice on the Trotzky-Lenine faction that any intercourse with Germany would be looked on as severing relations. It was not apparent here if any such message had been

This Is Belief Expressed by Local Butcher On Hold-Up of Licenses.

LITTLE EFFECT NOW

Apparent Desire to Keep Out Substitute Until After Election Holds Price Up.

Unless the much advertised butter substitute, oleomargarine, appears for sale in Canada within the next thre weeks, it is predicted by local dealers that butter will reach its top winter price, which will be around the 60c per

pound mark.

If the provisions of the order-incouncil allowing the importation and
sale of oleo had been carried out at
the time of the Government sanction
of the law, it is certain, say these
dealers, that butter would have remained stationary and that present
prices would have ranged from 38c to
40c. Two weeks ago, when local butchers and cold storage man weeks and cold storage men were questioned on the probability of being able to purchase oleo in this city before December 1, they expressed the opinion that unless the food controller expedited its sale the advent of margarine into the country would be of the

that unless the food controller expedited its sale the advent of margarine into the country would be of little benefit to Canadians.

"The order-in-council allowing the sale of oleomargarine was passed with the object of reducing butter prices," a local cold storage man said. "The effect of margarine on butter would not be evidenced until a month or so after the coming of oleo into the country. If margarine had been allowed importation one month ago, today we could have obtained butter at 40c per pound. As it is, the present high price of butter will remain unchanged for the next few weeks, and unless oleo appears in the meantime prices will ascend as high as 60c and 70c."

Since it was announced that an order-in-council had been passed allowing the sale and manufacture of oleo in the country, the granting of licenses governing its sale has been postponed several times. Prospective dealers in oleo received word some days ago that the butter substitute will come into the country on December 10. One butcher in the city expressed the belief that margarine would not be allowed importation until after the election, owing to the Government fear of the antagonism which such a move would create among farmers.

"U" EXTENSION LECTURE

Second of Interesting Series Given on Monday Night in Public Library.

The personalities of the men who joined hands fifty years ago to bring together the provinces into one Dominion were sketched last night by Public Librarian Fred Landon, in the second of the series of university extention lectures being held in the public library. The chair was taken by Principal G. F. Rogers of the Collegiate Institute.

nstitute.
The lecturer pointed out that The lecturer pointed out that in English-speaking countries at least it was the custom to abuse and run down politicians individually and as a class. Those who would eulogize the Fathers of Confederation must remember that they too in their own day were politicians, and some of them regarded as of a pretty sharp type. There were thus the various stages by which a politician developed into a statesman and later into a father of his country. The special merit of these men was that at a critical time they all set themselves to a definite task, and didn't let go until they had accomplished it. Then they went back to party quarreling. Macdonald and Brown, who had not spoken to each other for ten years, came together on union, carried it through, and afterwards were as bad friends as ever in their lives.

The very great part that was played by Cartier in leading the French-Canadians was one of the interesting features of the address, in view of the attitude taken by French Canada today. Cartier possessed great influence in Quebec, and both Macdonald and Tupper had testified that without his help confederation could never have been accomplished. The part played by Macdonald and Brown was well brought out. Macdonald was, after all, the great factor in the carrying on of the union government. His hold on men was greater than that of any of his contemporaries, and his place in the public life of Canada was well shown by the fact that for 23 years after confederation he was the greatest political figure in the country. The human side of Macdonald was set forth, that combination of rare qualities which made his followers ready to go through fire and water for him.

Confederation, as accomplished by this group of men who gathered from all the provinces, had changed the character of half a continent, and had set an example that other Britfsh dominions had since followed. The The very great part that was played

character of half a continent, and had set an example that other British dominions had since followed. The adaptability of British constitutional government to other and newer lands had been proven, and it had been shown that self-government did not diminish, but increased attachment to the motherland.

Principal Rogers, in introducing the speaker, commended warmly the idea of extension lectures. He believed that the university was fulfilling a real duty to the community by arranging such evenings.

It is announced today that 235 students at the Normal School will write on examinations at Christmas equivalent to the Lower School exams, of the high schools.

reading, with a series of questions on that.

It would seem that the students who have graduated from Normal schools for the teaching professions have not been grounded sufficiently on these subjects, and the department is seeing to it that they are properly equipped for their work.

"About 235 students at the Normal will write on these examinations," said Dr. S. J. Radcliffe, the principal. "A few will escape on account of attending the Normal last year. I warned the students early in September, that they might expect this, and I think the majority are working hard on the subjects in question to prepare themselves properly."

"These women wanted to think the matter out for themselves, but they will not be given the chance if certain people can help it.

They have been told that all soldiers' wives are conscripted to vote for the Government and that they will be placed under arrest if they do not vote that way. But this threat only had the opposite to the desired effect, for these women came to me in a body and asked me the truth of the matter, and I told them. Intimidation in this case insured several votes for the other side." A lady, who describes herself as English and said she was the wife

War Veterans' Association bought a \$500 bond today. They not only went across, but are coming across.

Who puts in the most hours around headquarters? The answer is easy. Gordon Philip, London's industrial commissioner, is on the job early and late and has been the moving figure in the Victory Loan's great organization. He's the man on the job all the time. The Metal Polishers International Union of North America, Local No. 32, has subscribed for \$200 worth of

bonds. Good work. Come on the rest of you trade locals and invest your money at 5½ per cent instead of letting it lay in the bank at 3 per cent per annum. That surplus of the Western Fair Board, \$10,000, has been invested in

The Richard-Wilcox Canadian Company has gone 90 per cent efficiency. Another fine record. E. V. Hessian, who is one of the best canvassers, is also one of the best speakers. He will talk Victory Bonds to the firemen tomorrow af-ternoon at the various stations.

A. B. Greer has loaned a car and salesman to help out the overworked industrial department.

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

"Pape's Diapepsin" is the best antacid and stomach regu-

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "fiesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract fully assimilates the fiesh-making material in the food you eat.

Thanks to a remarkable new discovery in scientific nutrition, it is now possible to combine into simple and highly concentrated form the exact food elements needed by the digestive organs and to convert them into rich, fat-laden blood. This master stroke of modern food chemistry is called Saltogyn, and has been termed the greatest of flesh builders. Saltogyn not only feeds the stomach with a tremendous amount of fatmaking food material in highly concentrated form but in addition enables the stomach to literally soak up the fattening elements of your daily food and pass them into the blood, where they are carried to every starved and brokendown tissue of your body. You can readily picture the results when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from ten to twenty pounds of solid healthy hollows about your neck, shoulders and bust disappear and you take on from ten to twenty pounds of solid healthy flesh. Saltogyn is a food and contains no drugs of any kind, is absolutely harmiess, inexpensive and efficient, Standard Drug Company and leading druggists everywhere have it and will refund your money if you are not satisfied with the results it gives as per the guarantee found in every package.

CAUTION.—While Saltogyn has given excellent results in the treatment of nervous indigestion, it should not be taken longer than five days at a time by those who are not willing to gain at least ten pounds in weight.—Advt.

GAG IS GAG ANYWHERE, SAYS SIR WILFRID LAURIER, WHO IS SORRY PREMIER GOT DOSE OF HIS OWN PILLS IN KITCHENER

Hopes Sir Robert Borden Will Be LAURIER WILL NOT Given Every Privilege Due His Rank as Prime Minister of Canada.

RESENTS TORY INNUENDO REGARDING HIS LOYALTY

Refused to Serve on National Service Board Because It Was Bedeviled With Partisan Interference — Recalls Order to Sir Sam to "Go Slow" on Recruiting - Wonderful Reception to Old Chief in Canada's Capital.

OTTAWA, Nov. 27.—For over an hour tonight Sir Wilfrid Laurier addressed a crowd which crammed the Russell Theatre. Outside there was a long queue of people who vainly sought admittance. E. J. Daly, vice-president of the Ottawa Reform Association, in his introductory remarks as chairman, asserted that five thousand had been turned away.

The old chief was at his best, he fairly scintillated. Sir Wilfrid dealt with charges made against him in reference to recruiting, and with recent disturbances at public meetings. Referring more particularly to the incident at Kitchener, when Sir Robert Borden was unable to speak, Sir Wilfrid expressed sincere regret that it had occurred. "I do not approve," he said, "of any interference with free speech. The gag is the gag, whether it is applied by a turbulent crowd in a public meeting, or whether it is approved in parliament by the obedient majority of a cold-blooded Government."

The Opposition leader dealt at some length with the assertions of the prime

minister that Sir Wilfrid has not assisted in recruiting. After reading a list of meetings which he had addressed on behalf of recruiting, Sir Wilfrid said: "With such a record as this, I think it is very small potatoes on the part of The Liberal chieftain warmly repudiated any suggestion that he was

dominated by Bourassa.

"I want to say," he emphatically declared, "THAT THERE IS NO MAN ALIVE WHO CAN DOMINATE LAURIER. MR. BOURASSA IS AN ABLE MAN. I KNOW ALL THE HARM HE HAS DONE ME, AND ALL THE GOOD HE HAS DONE THE PRESENT GOVERNMENT, BUT HE SHALL NEVER DOMINATE LAURIER." In regard to conscription, Sir Wilfrid held to his position as set forth in

previous statements.. He declared that if returned to power he would not repeal the military service act, but would put it to a referendum. Sir Wilfrid said that conscription was not a racial question, for it had been rejected by Australia, a purely British country. Welcomed With Ovation.

Sir Wilfrid was received with loud cheering. He spoke of his twenty years' residence in Ottawa, and remarked that when he finally left public life, he would suggest that the Government of the day—whether Grit or wan Legislature yesterday afternoon

"I do not say that to a Union Government," he remarked, "although I see no difference between Unionism and Conservatism." He spoke of the pleasure he had in seeing so many returned soldiers present, "men who have borne the heat and the brunt of the war, who have met the enemy face to face and will continue here the battle for freedom they began

He then referred to a question put to him by Mr. Fripp (his opponent) a couple of weeks ago, whether Sir Wilfrid approved of the tactics of the crowd at St. Ansleme, in Dorchester County, Quebec, when they prevented the Hon. Mr. Sevigny from speaking.

Champion of Free Speech. "I am proud and happy that the question was put to me by Mr. Fripp," Sir Wilfrid went on, "all the more so because the question has been aggravated by what took place three days ago when the prime minister was refused a hearing what took place three tays ago when the prime limited was letased a healing in the city of Kitchener. He knows my sentiments upon that question. He knows them well. He knows that I am in favor of free speech. He knows that I disapprove of any interference with free speech, and I believe that Mr. Fripp himself disapproves of any interference with free speech when his friends are concerned. But I am not so sure of his sentiments when his opponents are gag the Opposition, to impose the closure and to interfere with free speech."

Gag Is Gag Anywhere. The audience broke into loud laughter and Sir Wilfrid continued:

"I disapprove of any interference with free speech, and I am sorry minister was not allowed to speak at Kitchener the other day. I want to have given to him every privilege that is due to his rank, due to the position he occupies and due also to the efforts he is making in support of a bad cause. I do not approve of any interference with free speech anywhere The gag is the gag, whether it is applied by a turbulent crowd in public meet ing or whether it is approved in parliament by the obedient majority of a cold-

Sir Wiifrid proceeded to contest the claim that the Unionst party was entitled to style itself the "win-the-war" party.

None More Loyal Than He.

"I object," he said, "to anyone in the Conservative party, claiming the privilege of alone wanting to win the Bode in the Conservative party.

Bir Wiifrid proceeded to contest the recruiting. When did Sir Robert den appeal to me to help him in recruiting? I ask, when did he? Sir Wilfrid continued that Sir Robert had asked him to assist in connection with the national service scheme, but he had refused, and, he said, for good privilege of alone wanting to win the Bodevilled With Partisanship. blooded government."

None More Loyal Than He.

"I object," he said, "to anyone in the Conservative party, claiming the privilege of alone wanting to win the war. We all want to win the war. I say that there is no one holding the position I occupy in this country—a position which is inherent to the system of Government we have, the position I occupy as leader of the position I occupy as leader of the position—I say there is not a man, in any one of the belligerent countries who has done more in his position to help his country to win the war than I have." (Applause.)

The Opposition leader reviewed efforts which he made to help the Government in its war policy from the day that war was declared. He had not done it, he said, from any love of the Government, but from love of the cause. He had given the Government every possible support to carry on the defence of the cause of liberty and civilization.

Must Review C.N.R. Deal.

Referring to the Canadian Northern Railway purchase, Sir Wilfrid said: "I denounce the whole transaction and insist that it is the duty of Parliament to review it."

Sir Wilfrid characterized the new franchise act as an iniquitous measure. The Government, he said, had manufactured a franchise law to suit itself, although the former one was perfectly satisfactory. Giving his reasons for asking that a referendum be taken, Sir Wilfrid stated that the Trades and Labor Congress of Canada had requested that this be done, and for the sake of the working classes who are most directly interested in the law, he felt that it should have been done. There was also, he said, a feeling in the province of Quebec to be considered. Hartley Dewart of Toronto criticized General Mewburn for a statement attributed to him that he regretted that the military service act limited the number of men to 100,000, and expressed the opinion that 25,000 men in the first six months of the act was a pretty poor record for the military service act. CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels needs a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the Bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never falls to effect a good "inside" cleansing. Directions for bables, children of all ages and grownups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

"I am often asked why Chamberlain's Cough Remedy is best for babies. Well, there are several reasons:

First: It is perfectly harmless and can be given with every confidence to the youngest or most delicate child. Secondly: It contains no alcohol, opium, chloroform, morphine or any other narcotic.

Thirdly: Children like it, and no persuasion is needed to get them to take it.

For the above reasons alone it is impossible to get a better medicine for babies than

Chamberlain's Cough Remedy

But aside from its safety it relieves coughs and colds, is the best remedy known for croup, and when given as soon as the croupy cough appears it will even prevent the attack."

HAS KEPT CANADA SAFE

VANCOUVER, Nov. 27.—The Duke of Devonshire, governor-general of Canada, addressed 700 members of the Vancouver Canadian Club this afternoon.

"Today," he said, "the city and harbor of Vancouver are being defended by those mysterious forces tucked away somewhere in the North Sea."

Applause greeted his comment that if any enemy warship had approached the Pacific coast of Canada, "its stay was only remarkable for its brevity." The governor-general paid generous tribute to what British Columbia had, with Canada in general, done for the common cause of the war. There was no cause for pessimism, but it is important that every individual accept his personal responsibility and devote his maximum of effort if such a peace were to be obtained as the Empire had determined should be obtained.

have done in the past, throws a doubt on my sincerity in advocating the war. It may not have been a very 'inspiring answer,' I admit.

Sir Willia detailed the meetings ne had addressed in various parts of the country since the declaration of the war.

"With such a record as this," he said, "I think this is very small potatoes on the part of the prime minister of Canada."

Replies to Guthrie.

Referring to his attitude on conscription, Sir Wilfrid said he felt bound to differ with the Government on its policy, and said so with all frankness. Referring to a statement recently made by Hugh Guthrie that there was "Quebec in Australia," he said: "There is no Quebec in Australia. It is a purely British country. There is not one of its inhabitants who has not come from the British Isles, yet that country, composed of races of the British Isles, deliberately rejected conscription. If Australia, which has no Quebec, which is all British, has rejected conscription, then it is not a racial question, as is affirmed by so many papers in this country. There must be in Australia some other reason than the race question to induce the loyal people to reject the system of compulsory enlistment. It is because Australia has remained true to the principles prevalent in all British, countries, prevalent in Great Britain, in its dependencies from time to time up till three years ago, that the British people will do their duty without being compelled to do it, and will come forward like men to defend their country."

The Fault With Quebec.

Sir Wilfrid then turned to the question of recruiting in the province of Quebec. He admitted that Quebec had not done her part as fully as the English-speaking provinces, but who, he

ARE THESE TRAITORS?

To the Editor of The Advertiser:

It would be pitiful if it were not tragic to see the hateful warfare being waged by the Free Press on their opponents in this campaign. My boy has been in khaki nearly two years, but I be-

ing a Liberal, am a traitor! His mother and sisters are spending their days in working for the soldiers at the front, but they, being

Liberal in their views, are traitors! The boy himself, being a Liberal, is a traitor! What a horrible thing is this that the Free Press is doing-vilely damning everyone who doesn't swallow all

its nauseous gibberings. If I had the thousandth part of thought that the Liberals would not fully support our glorious boys and loyally carry on to a finish I would leave them in a minute, and my message to my fellow-electors is to think, think,

Look around you and see who your Liberal neighbors are:

Are they, the people you know, traitors? Are their women's sweaters, socks and boxes trait-Are their Victory Bonds and Red Cross subscriptions

Is not that rather treachery that hides itself behind the dear old flag while it plunges its hands in the pockets of the soldier and the soldier's mother, wife and babies? Was it not tratorous to send our beloved boys to fight against a magnificently-equipped, but beastly foe, and arm them with rifles that jammed at the critical moment,

exposing them to a cruel death? Or that gives an Allison a million dollar graft and the boy a dollar ten a day? Or that gives millions to Mackenzie & Mann and

sixty cents a day to my boy's wife to keep herself and baby alive on? Or thirty cents a day to his widow? Or that permits millions to Premier Borden's packing house friends and compels my boy's mother to deny herself bacon for breakfast on account of its price?

These points could be multiplied ad lib, but-what's Fellow-electors, think this out and don't be misled by the windy war party!

The good old chief is true and safe and sane. He will "carry on" to the end-not only with men, but he will get after the boodling crew who are bleeding our boys and their people to death. Are we going to swallow another five years of the

same sort of graft as we have just been through? How big is a dollar today? What relief has the Government given us or what relief are we likely to get from it? Words! Words! Words!

WINDSOR, Nov. 27 .- The disturbance at Kitchener on Saturday night came in for some pretty hot shots from ex-Mayor Oliver of Toronto, speaking at the Borden meeting here

"I am not one who loves war, if it can be avoided," declared Mr. Oliver. "I do not think we should do anything "I do not think we should do anything to our fellow-citizens if we can help it, but when I hear of such things as happened in a neighboring city, I do say that somebody should be put up against a wall and made an example of. I say to the people of Kitchener, if they are going to perpetuate such row-dyism, we can take them to the end of the St. Lawrence, nearest to the province of Quebec, put them on a boat, and let them go where they like."

Col. E. S. Wigle, the candidate for the riding, said he was proud to see such a gathering to welcome the premier. He was all the more proud of that reception, in view of the disgraceful scene which had been enacted in another city on Saturday evening last. "I regret it," he said. "You regret it, all the people of Canada regret it; more than all, we regret that the council of that city/had not the bravery to pass a resolution regretting that such an affair had taken place."

Speaking of himself, he declared that he had given up three years of his life to the service of his country, two years of which had been spent in the first line trenches in France. He also had a son at the front and another in training in England.

There is also the feeling that friendly Allied support is near at a timely moment, and that the mingled ranks of grey, blue and khaki will combine to form the barrier that Italy has sustained alone untif now.

Many British officers were at head-ouarters today, and the streets showed almost as much khaki as grey. The Prince of Wales renewed his earlier visit, going about the streets and mingling with the officers at restaurants in the most democratic fashion.

It is reported from the Friuli region, occupied by the enemy, that the civil population has been required to turn over all copper articles, grease and oils in its possession within five days. Emperor Charles is said to have made another visit to the invaded region, going to the coast cities of Grado and Monfalcone.

Heroes Are Liberated.
The battle on the southern edge of Bourlon village continued last night. As a result of a determined drive against the German line the British were enabled to break through at one point and bring back a party of English troops that had been isolated for some time. No attempt was made to remain in the village after, this body of men had been rescued and gotten back through the gap in the German line. It was reported this morning is holding a position in the northern section of the village with Germans all about them, but this is uncertain. The enemy delivered a counter-attack against the northeast corner of Bourlon wood about 10 o'clock last night, but was repulsed. The British line this morning is holding along the northern fringe of the wood and up to the edge of Bourlon village.

Filled With Confidence.

The fluctuations of the great battle have now developed to a stage where the resisting power of the Italian army has been demonstrated to be sufficient to retard, if not to prevent, any sudden rush through the passes leading to the Venetian plains. This was regarded as a serious menace six days ago, but as each day has shown the Italian lines holding solid against repeated attacks and their defenders ready even to take the aggressive against heavy odds, the feeling of gravity that then prevailed is changing to one of restored confidence and unwavering determination, coupled with a spirit of buoyancy which pervades all ranks of the army and civilian lines in the supplementation of the army and civilian lines and the supplementation.

VOTING REASONS.

NE of London's ministers, Rev. Dr. H. S. Dougall, is reported to have taken advantage of a meeting in his church Sunday, school to give seven reasons why the Borden Government should be supported. There may be different opinions on the question of delivering pogiven was this:

"It (the Government) places upon every man duty of service. The duty of service lies equally on all, and a man will be used according as he is of most value to the country. Perhaps on the land, perhaps on the railway and perhaps at the front."

What is there in the military service act on which such a wild assertion can be based? The man of military age who has a flat foot, a "hammer toe" or one of a thousand minor deformities is exempted from service because he is not considered fit for the trenches. He is placed in a Equality of responsibility!

Why did not Dr. Dougall give his audience a fair picture of the whole political scene? Or might have presented some telling arguments, he replied: "I knew the man." many more than seven, why the Borden Government should not be supported. He might have rifles and money! He might have told them all about "Col." Allison, about binoculars, about revolvers, about the fact that Sir Robert Borden and company could not take time to consider the trifling matter of soldiers' pensions being much too busy providing the stockholders of the C. N. R. with a few millions for pin money, and disfranchising naturalized Canadians (except in Waterloo) and patriotic women. Dr. Dougall might have mentioned the fact that this leader for whom he asks support is the same who paraded Hon. Robert Rogers before the people of A ably to bring down the high cost of living.

If Dr. Dougall, as a minister of the gospel, Robert Borden, he should say so. If he disan- Newsprint." proves, surely it is his duty to so inform the young polities at all.

The utter contempt for the convenience, happiness and rights of others that characterized some of the drivers and owners of the new and more speedy form of conveyance was so marked that the farmers, who suffered most by reckless motor speeding on the country roads, could find only one expressive phrase by which to proclaim their resentment. The term "ROAD HOG" stuck.

which to express British contempt for the barbarian methods of warfare adopted by the Germans, he fastened upon the Prussian for all time the label "The road hog of Europe." Nothing in the English tongue could express so forcibly and so accurately the contempt which Germany has brought upon herself by her arrogant and brutal disregard of the rights of other peoples.

There are read hogs in every country. Every nation, however democratic, has to fight against the tyranny and autocratic pretensions that menace the liberties of the common people from within its own borders. Canada has its war lords and autocrats and Big Interests and haters of democracy who dispute the right of the people to rule, who lay grievous burdens on the backs of the harassed consumers and who make much riches out of the necessities and sufferings of the poorer members of the community. They are the road hogs of Canada. To a man these road hogs are to be found in the ranks of the Unionist party.

The whitewashing of Hon. Robert Rogers by a Borden commission which was a legal farce, was outdone by the premier when in his speech at Toronto last week he went out of his way to whitewash Sir Joseph Flavelle. Everyone knows that packers accumulate millions out of fractional profits, but the point which Sir Robert Borden evaded was the right claimed by Sir Joseph Flavelle to carry on war profiteering on as

The Borden Government tacitly admits that Sir Joseph Flavelle had a moral squint when he applied ordinary market principles to war-time contracts. They have limited the future profits of the packers. But does any sane man believe that the public grievance against the packers is redressed by locking the stable door after the horse has been stolen? Sir Joseph Flavelle and the other road hogs of Canada are getting away with the huge profits that have been wrung out of the sweat and misery of the people, and no Government hand is stretched out to recover the excessive profits for the country to which they belong. Why? Because the road hogs of Canada own the Borden Government body and soul. Canada is under the heel of the Big Interests that put obstacles in the way of voluntary recruiting and which are opposed to anything that interferes with their profiteering.

Sir Joseph Flavelle is not the only war profiteer whose ungoldly gains should be investigated. The public would like to know what profits have been made during the past three years by the companies in which Hon. C. C. Ballantyne is financially interested. That Union Government is not trusted by its friends is evidenced by the well-grounded fear in Unionist circles that Borden will be snowed under at the polls if the Unionist voters are allowed to think about war profiteering and the part the Big Interests have played in bringing the Union Government into existence. The road hogs who are behind the Union Government are exploiting the public of Canada, and amassing huge profits at a time when members of the Government are imploring the people to make sacrifices on behalf of their country and the allied cause. Having amassed fortunes in war time these profiteers, in an age when money plays a sinister part in the government of the nation, are making a determined effort to control the reins of power. What hope is there for reconstruction on democratic lines in Canada from a Union Government that represents the Big Interests? The people will best consult their own interests by refusing to vote for the road hogs of Canada.

"Well, Mrs. Jenkins, he isn't half as bad as that precious scamp, Teddy Possum," said old Farmer Miller, "Why! law-sakes alive, I've seen that rascal climb up on my old apple trees, and hitch that black halter of his, on the seat of his pants, around the limbs of those apple trees, and steal more bird's eggs, than you could shake a stick at!"

And all the old farmers exclaimed together, "Farmer Miller's right this time! That Teddy Possum is a bad one, and don't you forget it!" Then Farmer Jones spoke up. "Now look here, good neighbors. I am well acquainted with all these little neighbors of ours. They all come to call you of all the rogues in this section that handsome Jimmy Coon takes the cake!"

"Why, he will suck more hen's eggs in a minute than a little neighbors of minute than all my conserved."

GOVERNMENT FOUND WANTING.

GOVERNMENT FOUND WANTING. WINDSOR, Nov. 27.—More than 200 women interested perhaps for the first time in their lives in Canadian politics gathered at Oddfellows' Hall this afternoon and heard a fine address by Mrs. Thompson of Toronto, a member of the Liberal Auxiliary of that city. The meeting was called in the interests of William C. Kennedy, Liberal, candidate for North Essex, and was presided over by W. E. Gundy. Upon the platform with Mr. Kennedy were a number of prominent Windsor citizens, including Arch McNee and Will J. McKee, ex-M.P.P.

Arch McNee and Will J. McKee, ex-M.P.P.
Mrs. Thompson dealt with the high cost of living, and the relative place of women with regard to politics, as it affected the home. She made a brief dissertation upon the political crisis now facing the country.
Mr. Kennedy and Mr. McNee also spoke briefly, the former again making clear to the ladies the platform upon which he is appealing to the electorate for their votes. He criticized the Government of Premier Borden for what he termed its lack of initiation and inefficiency, declaring that as it was found wanting before, it could not be expected to show any improvement if re-elected.

Among the more prominent ladies in attendance at the meeting were Mrs. Edward C. Kenning, Miss B. Bell, Mrs. W. C. Kennedy, Mrs. Victor Raper, Mrs. W. J. Burns, Mrs. A. F. Healey, Mrs. William J. Pulling and many others.

Speaking at Morpeth last night, where he was enthusiastically received, Mr. McCoig denied the reports circulated about him. He decirred he was still the Independent candidate, and free to act in the best interests of his constituents. A meeting has been called for Wednesday afternoon, at which the proposals of the Plewes supporters to Mr. McCoig will be considered. Mr. McCoig refused absolutely to give any decision until he had placed the Plewes document before his supporters.

Thanksgiving Will Celebrate a New High Record of

New High Record of Prosperity.

Washington, Nov. 28.—Thanksgiving Day (tomorrow), finds the United States' horn of plenty with new high record fullness.
Responding faithfully to President Wilson's appeal and the needs of a war-torn world. American farmers produced a great gross total of \$21.000,000,000 worth of farm products, equalling in value the nation's total expenditure in one year of war. That great total, being the value of all crops, animals and animal products, was \$6,500,000,000 greater than last year's and more than the combined value of any two previous years. There were record crops of corn, oats, rye, white and sweet potatoes, tobacco and beans.

Corn, the country's greatest crop.

Corn, the country's greatest crop, accounts for about one-third of the increased total farm products value of this year. It is estimated at about \$4,659,000,000, compared with \$2,296,000,000 last year. In point of quantity corn this year saw its largest production, being 66,000,000 bushels more than the 1912 record crop, and 608,000,000 bushels more than last year.

Pennsylvania duplicated its recent minimum of 46, and Baltimore and Ohio made a new low mark under 50, while coalers and western issues continued to react. The srength of a few specialties, including Studebaker, was attributed to professional interests. Bonds were dull.

VOICE OF THE PEOPLE

A DISCLAIMER FROM MUNCEY. To the Editor of The Advertiser: I noticed in a recent issue of you valuable daily that a certain Muncey chief and a certain Chippewa, acting secretary of that respected band, are about to petition on behalf of their respective bands, His Majesty King George V. that the Middlesex Indians ought to be exempted from compulsory military service. Be it known to whon it may concern that the supposed chief and secretary had no such authority from their respective bands or council to put such silly stuff in the dailies on behalf of their supposed respective bands. I, Samuel John, legally elected chief and secretary of the Munceys of Thames Band. I also saw George Fisher Sen., legally elected chief of the Chippewas of Thames Band, Know nothing of the proposed petition to His Majesty King George V. Neither will we, as headsmen of our respective bands, soil our hands with such silly nonsense, for it is a known fact that when certain people are disfranchised they are legally exempt from military service, and such is the Indian. And, further, I know today in my band we have young warriors who are just anxious to enlist to fight the battles of the British Empire, but who are under age. So, good people, do not be misled, and think Middlesex warriors are cowards. We always have been loyal to our great father over the sea, and always will be, even to our last drop of blood. And, lastly, while we are going through a severe test, we would not falter, and pray the petition to our God may be answered in Hls own good time, viz., Thy kingdom come, which we believe when that day comes there will be peace, sweet peace, forever.

For the last two years the Canadian Pacific Railway, in connection with the Pacific Steamers of the Canadian Pacific Ocean Service, has carried a very large proportion of the passengers from the United States to Russia, and as these passengers have included a great many American railroad men, who have been surprised at the excellence of the service, a remarkable volume of trade is developing, greatly to the benefit of Canada itself. Among these passengers was the American Railway Advisory Commission, consisting of the leading railway experts of the United States, who travelled from Chicago to Vancouver, and thence to Yokohama via the Empress of Asia. CHRISTINE MILLER ILL.

The directors of the Musical Art Society have received word from the New York managers of Miss Christine Miller that she is ill in Kansas and must abandon her concert tour. While the keenest disappointment is felt because of the great success made here last season by this charming singer and a return engagement eagerly looked forward to, there is a bright side to the occurrence, in that arrangements have been made to bring the noted contralto, Emma Roberts, to fill the engagement.

Miss Roberts sings in Detroit next Sunday, and is engaged to sing in Buffalo on Tuesday, so that the London concert is a fortunate one for her as well as for the society.

Few singers within recent years have been greeted with such enthusiastic praise from the entire critical press of New York as was Emma Roberts.

The Most Wonderful of All Christmas Gifts is the Aeolian Vocalion. You Must Hear It Played to Understand Why

Music best expresses the spirit of Christmas, hence any musical instrument brings an appreciation

that no other gift can secure. But here—at no greater cost than an ordinary phonograph—is an instrument far, far greater than any other sound-reproducer

From this new and greater phonograph you get a tone richer, fuller than ever you heard from a phonograph before. In playing a vocal record it gives human notes without a suggestion of scraping—without the usual thin "phonograph" tone; and this different hopograph. ferent phonograph plays orches-tral records in a manner so true and full of rich tonal shading that, heard in the next room, it is

exactly like listening to the actual playing of the instruments themselves. But greatest of all the Aeolian-

Vocalian features is the "Gradu-ola"—which gives you the delightful new privilege of playing each record with your own indi-vidual expression. With this revolutionary expression device each note of voice or instrument is your own. You may "mould" the rendition to suit your own moodshade it as you please.

When you hear the Vocalion you will be impressed with its tone-When you see the Vocalion you will appreciate the unrivalled beauty of its exterior.

by means of the Graduola, you will realize that this invention lends this new phonograph a unique charm.

When you consider that the Vocalion, unlike other phonographs, is still selling at the same prices that have been in effect since its introduction, and that these prices will remain in effect only a few days more, you will be compelled to admit that the immediate purchase of this instrument is the only course for anyone seeking the ideal Christmas gift an investment in musical enjoyment compared to which other gifts seem paltry and insig-
