

RUSSIANS CLAIM IMPORTANT VICTORY ON DNEISTER RIVER-- CAPTURED THREE THOUSAND

Teutonic Onslaught Reported Near Rawa Ruska, North of Galician Capital--Positions on the Left Bank of Dneister Lost on 20th Regained--Muscovites Making a Stand at Korpice.

Special Wire to the Courier. Geneva, June 22--Via Paris, June 22--The Tribune prints the following despatch from Innsbruck, which purports to have been received from Cernowitz, Bukovina: "The Russians have recaptured positions on the left bank of the Dneister lost on 20th, An Austrian force trying to cross the Dneister at its confluence with the Swica was defeated with the loss of 1500 men and was obliged to retreat in the direction of Kalischg. "At the cost of enormous losses General Planzer made a slight advance between the Stripa and the Dneister. The Russians are in their own at Korpice, and their losses on their side. "For the third time an attempt to invade Bessarabia has been repulsed with heavy losses." OFFICIAL REPORT. Petrograd, June 22--Via London, June 22--Only passing mention of the operations in the vicinity of Lemberg is made in an official statement issued to-night at the Russian war office. The assertion is made that desperate attacks were repulsed and 800 prisoners taken near Rawa Ruska, 32 miles northwest of the Galician capital.

New "Jess Williard" in Action

Paris, June 22--The longest range artillery duel ever fought occurred today between Dunkirk and Nieuport, across the Franco-Belgian border. At a range of 23 miles, the Germans' new "Jess Williard," as the British artillerymen have christened it, because of its remarkable reach, fired 14 shells into Dunkirk last night and to-day 29 shells, with a net casualty list of several civilians killed.

LEMBERG CITY HAS FALLEN TO THE TEUTONS, SAYS A REPORT FROM GERMAN CAPITAL TO-DAY

Claim Second German Army Has Captured the City -- Russian Sources of Information Are Silent as to Evacuation Taking Place.

Special Despatch to The Courier. BERLIN, JUNE 23--(BY WIRELESS TELEGRAPHY TO SAYVILLE)--LEMBERG HAS BEEN CONQUERED AFTER A VERY SEVERE BATTLE, ACCORDING TO AN OFFICIAL REPORT RECEIVED FROM HEAD-QUARTERS OF THE AUSTRO-HUNGARIAN ARMY. THE GALICIAN CAPITAL FELL BEFORE THE ADVANCE OF THE SECOND ARMY.

Lemberg, capital of Galicia, was occupied by the Russians on September 2, 1914, about one month after the outbreak of hostilities, in the course of the early Russian drive into Austria. It has therefore been in Russian control for over ten months. For the past twenty days, since the Austro-Germans took Przemysl, from the forces of Emperor Nicholas, it has been the objective of a series of fierce and concentrated attacks on the part of the Teutonic allies. Their success will have a far-reaching political effect, as the driving out of the Russians from Galicia is considered upon in Berlin to help maintain the status quo to the Balkans. The capture of Lemberg was one of the earliest important successes of the Russians. Following it, they pushed onward rapidly through Galicia. The highwater mark of the invasion found almost all the province in their hands. They approached within striking distance of Cracow, at the western end of the province close to the German frontier; stormed the heights and passes of the Carpathian Mountains, which separate Galicia from Hungary; and, to the east, swept down through the crown land of Bukovina to the Rumanian frontier. All this has been changed by the steady succession of Austro-German victories of the last few weeks. The change began with the launching of the great drive from Cracow eastward. Great numbers of German troops were sent in to assist the Austrians as well as a vast amount of field artillery. The use of artillery by the Teutonic allies has been described by correspondents as on a scale never before undertaken. Its effectiveness was relatively increased by the shortage of shells on the part of the Russians, which is believed to have contributed largely to the weakening of their resistance. The Austro-German armies pushed forward westward through Galicia, recaptured Przemysl, June 3, and then, without pause, struck at Lemberg.

LAKE ERIE AND NORTHERN OFFER \$26,000 FOR GALT END OF MUNICIPAL RAILWAY

A meeting of the Railway Committee of the City Council was held in the Mayor's office last evening at 7 o'clock. There were present, in addition to the members of this committee, the Mayor, the chairman of the standing committees of the Council, the Municipal Railway Commissioners and Mr. Ireland. Mr. Martin N. Todd of Galt, the general manager of the Lake Erie & Northern Railway Company, was not present, but he was in the city on Monday, and made a definite proposition to Messrs. Bunnell and Turnbull that he was prepared to recommend his company to pay the city the sum of \$26,000 in cash for the property and privileges desired. The Municipal Railway Commission had some little time ago informed Mr. Todd that they would accept \$34,000. Mr. Todd was opposed to acquiring the power equipment at Galt, which the commissioners considered represented \$4,000, and in making his offer of \$26,000 he was willing that the city should retain this property and dispose of it as might be deemed wise. The members of the committee decided to reject Mr. Todd's offer and passed a resolution expressing their willingness to recommend the Council to accept \$30,000 and turn the power plant over to the Lake Erie & Northern Railway Company. The offer to accept \$30,000 is, of course, subject to the electrification of the Lake Erie & Northern from Brantford to the lake as early a date as possible, and to the satisfactory arranging of all necessary details by the City Solicitor. The resolution was moved by Ald. Ryerson and seconded by Ald. Cuff, and all present voted yeas with the exception of Ald. Suddaby and Mr. C. H. Hartman, chairman of the Railway Commission. The property is the line from the Paris dam to Galt.

BOARD OF EDUCATION AWARDS PLUMBING CONTRACT LAST NIGHT

Lively Meeting and Much Discussion--Matter of Heating Left Over--Committee Appointed to Wait on City Council.

A special meeting of the Board of Education was held in the Council Chambers of the City Hall last evening for the purpose of discussing the important improvement question of the Central School. Those present were Chairman Coulbeck, Trustees Armstrong, Lahey, Coles, Lane, Andrews, Bentham and Gamble. The chairman explained why this special meeting had been called. The City Council had not passed the By-Law so it was up to the Board to do something. Trustee Andrews stated that the Board had power to carry out the matter, and he read the act which made this statement. He maintained that the Board was neglecting its duty in not carrying out the matter. Chairman Coulbeck agreed to this, but said that it was the financing that caused the uncertainty. Trustee Bentham thought that it would be much better to work in harmony with the Council and show them the necessity for the spending of the money. The Council felt that the taxes were high enough now, and should not be increased. By making all the improvements at one time, a saving of 25 per cent. could be made. "At any rate, it would be money well spent," concluded Mr. Bentham. Trustee Coles said that the heating and ventilating is of as much importance as the plumbing. There is no sense in going to work on the plumbing system when the ventilating is left untouched. It is the duty of the Board to go ahead with the whole work and not half of it. Trustee Armstrong asked if the money had to be raised at once, and how would it affect the taxes next year. The Board naturally wanted to do what was good for all. Ratepayers were willing to support the cost and the increase would only amount to very little. Trustee Lane said that at the special meeting of the City Council several aldermen had stated that Ward 3 was receiving more attention than other wards. In connection with this, there should be no comparison of wards made. And besides, there were many children who attended Central School who didn't live in Ward 3. The Buildings and Grounds Committee had been forced to hold a special meeting to consider the By-law in question. After going thoroughly into the matter of the tenders, a decision was made whereby the plumbing tender from R. Ballantyne and heating and ventilating tender from Anguish and Whitfield, were accepted. It would take six weeks for the boilers (for the heating system) to be made, so the order had better be sent in immediately, if the work was to be done in time. The matter should be definitely settled to night. If the Board takes the matter in its own hands, the question of financing is brought up. Mr. Cole wanted to know what had been done about the extra work in connection with the plumbing. It would mean that quite a few of the unemployed could be given work.

LT. COL. HOWARD GETS COMMAND OF 'TWELFTH'

Former Commander of Duffs Gets New Appointment on the Expeditionary Force.

Lieut.-Colonel Howard is now commander of the Twelfth Battalion. Colonel McLeod, who held that position, left for France, and by unanimous request of the officers Colonel Howard succeeded him. In a letter just received the former popular commandant of the Dufferin Rifles announces this fact, and also that Sergt. Crouch has been invalided home. He also states that the chocolates sent from here at Christmas had just arrived as he was writing, for which hearty thanks are expressed.

Sergt. Crouch and Pte. Webb Return Home

By Special Wire to the Courier. Montreal, June 23--A number of injured soldiers have reached here en route to their homes. The Ontario men include Corporal Lewis, Hamilton; Private R. C. Cockburn, Private C. Webb, and Private Lockhart, Toronto; Private M. J. Johnson, Ottawa; and PTE. T. D. WEBB and SERGT. CROUCH, Brantford, Ontario. Corporal Lewis, who has five sons fighting at the front, is 62 years of age. He was wounded in both legs. His friends tell of his reply to a question of the Duke of Connaught, who inspected the men when they landed at Quebec from the Linn Missanabie on which they crossed the Atlantic. His Royal Highness asked Lewis if he came from Ireland, and the soldier replied: "No, but I can go one better. I am from Wales and Hamilton."

Among the eight Victoria Crosses given, three go to Canadians. The Canadian recipients are Capt. Francis Schinger of the Army Medical Service. Color Sergeant Fred Hall, of the Eight Canadian Battalion. Lance Corporal Fred Fisher, of the Thirteenth Canadian Battalion. All were given for extreme bravery in the neighborhood of Ypres. Edward Kety of Toronto was arrested, charged with keeping a betting house.

KING PINS VICTORIA CROSS ON SERGT. MICHAEL O'LEARY

Hero Goes to Buckingham Palace To Receive Personal Congratulations of the Monarch.

London, June 23--Sergt. Michael O'Leary, of the Irish Guards, went to Buckingham Palace yesterday and received the personal congratulations of King George, who pinned the Victoria Cross on the soldier's breast. O'Leary, won this, the most coveted of the British military decorations, during the winter campaign in Alsace. According to the official account O'Leary formed one of a storming party at Cuincy. As the party was advancing against the German trenches O'Leary rushed to the front and killed five Germans, who were holding the first barricade which he captured after killing three more Germans and taking two others prisoner. The official report added that O'Leary virtually captured the German position by himself and prevented the remainder of the attacking party from being fired on.

UNABLE TO OBTAIN CASH FOR GOODS

American Firms Cancel Freights For Russia.

By Special Wire to the Courier. Seattle, Wn., June 23--Cancellation of large shipments of war materials for Russia by American manufacturers who are said to be unable to obtain cash payments for their products became known to-day when the Great Northern Steamship Company announced that the liner Minnesota probably will not include Vladivostok as a port of call on her next voyage. The Minnesota was scheduled to sail direct from Seattle to Vladivostok, June 27, with practically a full cargo for the Russian Government. Seventy-five per cent of these shipments have been cancelled by manufacturers, and it is said the Minnesota probably will follow her usual route to Hong Kong.

CARRY THEIR PASSPORTS INTO CANADA

Americans are Being Advised to Safeguard Themselves.

By Special Wire to the Courier. Washington, June 23--While American citizens generally are being advised to carry passports when they go abroad, the state department reiterated to-day to many inquirers that the Canadian authorities do not require passports of Americans entering Canada. "Nevertheless," the department advises, "what is deemed advisable that naturalized American citizens going to Canada, particularly those born in countries now at war with Great Britain, to provide themselves with passports in order to be in a position to readily establish their identity and citizenship, thereby avoiding possible delay and inconvenience." German and Austrian mail senders in the domestic service of American citizens, the department understands, may be granted special permission to accompany their employers into Canada. Employers are advised to apply through the chief commissioner of Dominion police, or the superintendent of immigration or through the American consul-general at Ottawa for permission to enter Canada.

LYOYD GEORGE CREATES VAST CIVILIAN ARMY

His Munition Bill Will Change Conditions in Britain Altogether.

By Special Wire to the Courier. London, June 23--Minister of Munitions Lloyd George, took the country into his confidence to-day in introducing in the House of Commons which will revolutionize the conditions under which ammunition and other war material is to be prepared in this country. The comprehensive project makes strikes and lockouts illegal; provides for compulsory arbitration; gives the power to fine "slackers"; limits the profits of employers, and creates a volunteer army of workmen pledged to go wherever they are wanted. Mr. Lloyd-George admitted that the shortage of munitions was serious, in view of the standard set up by this war. This fact, he continued, was doubtless as well known to Germany as it was in England. "The duration of the war; the toll of life; and the amount of exhaustion

Colonel Becher Buried in France

London, Ont., June 23.—Major-General Hughes effort to have a special case made of the body of Lieut. Col. Becher, of this city, who was killed at the front last week, with a view to having the remains returned to Canada for burial, has been unsuccessful. The Minister of Militia wired relatives here yesterday that the British War Office had declined the request in accordance with the standing regulations in that regard. Information sent General Hughes from England was to the effect that Colonel Becher had been buried in Verure cemetery, near Festubert, full military honors, in the presence of General Alderson, Gen. Mercer, Col. Seely, M.P., and other officers of the Canadian division. The body was placed in a separate grave and had been duly registered.

BRITISH "RECRUITS" HELD AT NEW YORK

Eleven Reservists Were on Way From San Francisco to England.

New York, June 22.—Acting upon instructions from Washington, Assistant United States District Attorney Roger B. Wood to-day obtained an order for the detention of eleven men alleged to have enlisted at San Francisco for the British army.

The order of detention was made in accordance with the Federal Criminal Code, which declares it to be unlawful for anyone in the United States to enlist or induce another to go beyond the jurisdiction of this country for service as a soldier, sailor, marine, or aviator.

THE SITUATION.

According to a despatch received over the Courier's leased wire to-day, Lemberg has fallen. The news comes via Berlin, but there is not much reason to doubt the authenticity of it, as recent events have clearly pointed to the nearness of such an event. It reads almost like an incredible thing, this sweeping of victorious Russian forces across Galicia and now their equally impressive sweeping back again. The addition of vast German forces and superiority in the matter of artillery tells the whole story. The losses to the troops of Grand Duke Nicholas have been enormous, but there is every reason to believe that the losses of the Austro-Germans have been equally large, and perhaps more so. The Russians are expected to retreat still further and then to make a concentrated stand. The struggle in such an event will probably be even more sanguinary than the other engagements, tremendous though they have proved. Meanwhile Petrograd to-day announces an important success for its arms on the Dnieper river. It is, of course, vitally desirable that the Germans in the eastern section should be kept so busy as to preclude the detachment of more troops for the fighting in the western arena. That they once more plan a way towards the coast would seem to gain some color by reason of the fact that they are again shelling Dunkirk.

The official French reports still continue to have a pleasing tone. Gradually but surely none the less they are wresting more and more soil from the enemy. The Berlin official report says that the Kaisersites have "transferred" their positions to the eastern bank of the Fecht river. In plain language this means an admitted falling back.

Too much credence should not be attached to the roundabout report to-day regarding the alleged destruction by German bombs of the famous Armstrong works.

GERMAN HATE.

As before noted, the hate department of the Kaisersites has been working overtime since the war started. They first of all spent all of their venom upon England, but have since added the United States and Italy to the "God strafe" column.

The "Sueddeutsche Monatshefte," a well-known Berlin magazine, has an article in its last number regarding Uncle Sam, by an officer who has visited our neighbors. The writer says that Americans have lost the characteristics of George Washington, who was "an English gentleman," and are a polyglot lot.

"There is certainly no American language, no American race either, but there are Americans. Even those Americans in whom the English blood has remained purest are nevertheless merely a vulgarised edition of their English cousins. The English humor of a Dickens has become converted into the grimace of a Mark Twain."

"Anyone can become an American," we are assured, "provided he be sufficiently inferior, sufficiently self-complacent, commonplace, and money-grubbing. The American is born not made. Many who emigrate to the United States bring with them already so much that is American in their mean natures that all they have to do to become admirable American citizens is to learn American English. There is more than enough cheap material for the reproduction of Americans, and room for them to spread also."

"The Americans have kept the practical side of their Anglo-Saxon cousins, but have lost the spiritual. It is only necessary to consult an Encyclopaedia to see how few scientific discoveries are really due to Americans; that is to say, the first idea of which took shape in an American brain. Neither the railway, nor the telegraph, nor matches, nor the quick printing press, nor motor cars, nor flying machines, nor radio activity nor electric railways, nor gas, nor electric light are of American origin. Somewhat grudgingly Fulton is allowed the credit of the steamboat, but he was "an altogether exceptional American inventor."

The whole life of America may be summed up in the word humbug, so this critic would have us believe—

humbug upon the bestowal of names such as Rome and Memphis on insignificant, unromantic little towns to Benjamin Franklin's modesty, the Republican party which has no aristocracy to fight, and, finally, the very name of America itself. "It is no pleasing prospect which is opened up to us in view of the increasing Americanization of the world, a prospect of the most prosaic business mind being the dominant one, hand in hand with snobishness and cant." One good point, however, even this officer assures his German public, the Americans possess, and that is the virtue of kindness and consideration to the weak, to women and children, which is "an inheritance from their English ancestors."

After this there would seem to be no other course open to Uncle Sam save that of putting his chin whiskers in mourning and clipping the tail feathers of the great eagle down to the buff.

NOTES AND COMMENTS.

June, what are you June?

Those of us who have to stay at home and work, have the laugh just now on those others who went to summer resorts in order to cool off.

Five billion dollars is John Bull's latest authorized pull on his purse strings and never to more ultimate effect than in war.

Grand Duke Nicholas has been falling back all right, but he has kept his forces intact during the operation and that is a great thing. A less skillful commander would have been out-flanked long ago.

If that deal with the Lake Erie and Northern Railway goes through the Municipal Railway will have cash on hand, part of which this paper would like to see devoted to a Terrace Hill service.

And still they go. Once again to-day Brantfordites bid farewell to a lot of brave boys destined for the front. They were smaller in number than some of the previous quotas from here, but not in either patriotism or the desire to do their bit on behalf of the Empire.

BOARD

(Continued from Page 1)

Since the tenders had been submitted by the contractors, the price of several metals had soared away up, and if steps were not taken immediately, the tenders would be withdrawn and the estimates increased.

Mr. Andrews said that the boards' hands need not be tied in the matter. The work has to be proceeded with if the committee on the whole deems it necessary. Under the existing conditions, it is the only move the board could conscientiously take.

Chairman Coubeck asked what steps could be taken to raise the money. The chairman of the buildings and grounds committee could satisfactorily arrange this matter, said Mr. Andrews.

It was moved by W. Lane, and seconded by W. Bentham, that the contract for plumbing be awarded to R. Ballantyne, with instructions to commence the work immediately. Mr. Lane said that the plumbing system positively had to be changed.

The motion was carried unanimously. Mr. Lane said that if the work was done in parts, two sets of tenders would have to be called for, and on each tender, a commission of 2 1/2 per cent is charged by the contractors.

Mr. Cole asked that the board should consider the matter of heating. He asked how it was to be financed. Secretary Bunnell stated that if the council refused to grant the money, a loan could be made from the banks, as the board was a responsible body.

Mr. Lane urged that if the money could not be secured by persuasion, it would take a long time to force the council to loosen up. Mr. Andrews protested against the fact that the heating system was not being installed with the plumbing, saying that a great mistake was being made—a mistake that would be repeated later. He suggested that a statement of the actual saving which would be made by installing both systems at once, should be drawn up and sent to the council.

that some recognition should be made to Major Balachev, for his ever efficient services on the board, prior to his departure for the front. He is the oldest member of the Board of Education. The chairman of the committee will attend to this matter. The meeting adjourned at 9.30.

LLOYD GEORGE

(Continued from Page 1)

created by the war; ultimate victory or defeat depends upon the supply of munitions," the minister declared. "That is cardinal. Where the allies are making progress on any part of the line, it is due to their superiority in munition. The allies have superiority in men, both in numbers and in quality. I have been told that the central European powers are turning out 250,000 shells a day. We can't merely equal, but if we are in earnest we can surpass that output."

Continuing Mr. Lloyd-George referred to his recent interview with Albert Thomas, who holds the post similar to his own in France, and said he had been very much reassured as to what France had done and could do in this regard. "If we can win the next few months," Mr. Lloyd-George went on, "produce as much ammunition as the French establishments, the allies will have an overwhelming superiority in the first essential of victory."

The Germans undoubtedly— we may as well recognize it—anticipated the duration of this war as no one else has done. They realized it would be a great trench war, and they had organized an immense supply of machinery applicable to these conditions. We assumed that victory was due to us as a tribute from fate. Our problem is to organize, not to take it for granted. To do this the whole engineering and chemical resources of this country and of the empire must be organized. When this has been done France and ourselves will overlap the entire Teutonic output."

BERLIN REPORTS ARMSTRONG WORKS WERE BOMBARDED

(Continued from Page 1)

Berlin, June 23.—(By wireless to Sayville)—The Overseas News Agency to-day gave out the following: "A message from Christiania says that the steamer Iotum, which has arrived at Stavanger, reports that several Zeppelins on the night between Tuesday and Wednesday (probably June 15-16) dropped many bombs on the Armstrong Works at South Shields, England, which destroyed the navy yards and arsenal. Several buildings burned all night. The damage was enormous. Seventeen persons were killed and 40 injured."

The foregoing evidently refers to the raid of Zeppelins over the north-east coast of England last week, Tuesday night. The British censorship prevented the publication of details of this raid, and there has been no previous intimation that the naval works at Shields were damaged. An official announcement from London on June 16, said merely that 16 persons had been killed and 40 injured, and that fires started by bombs were overcome the morning following the attack. The announcement did not say what town had been attacked.

Shields, on the bank of the Tyne, has vast docks and is a great seat of the shipping and subsidiary industries. The Armstrong Works are at Elswick Yard, near Shields.

The Armstrong Company in addition to its shipbuilding yards, has extensive ordnance works and steel works. The company employed 25,000 men before the war.

A SLIGHT PROTEST

By Special Wire to the Courier. London, June 23.—The hope that Germany will take steps to safeguard neutral shipping from submarine attacks was expressed by the Norwegian foreign minister, Mjhlén, at the opening of the Storting, says a Reuter despatch from Christiania. Discussing the torpedoing of the Norwegian steamships Belradge and Sveinjar, Mjhlén declared: "Whatever differences of opinion may exist regarding rights under international law, it is hoped that the German Government, having learned through experience how easily mistakes are made, will give commanders of German warships such instructions as will make neutral shipping safe."

ate attacks by the enemy north of the line of Gieszanow—Rawa Ruska and took 800 prisoners.

"On the Dniester we achieved an important success below Niezniff. The Austrians sent across the Dniester strong contingents with which we had been fighting desperately since the 15th on the front of Ostry, Koropuff, Uniche. At dawn this struggle ended in our complete success. Our infantry stormed several fortified farms near Snowidow, where the ene-

my resisted desperately. Here we took more than 3,600 prisoners and many machine guns. The enemy in full flight, fell back across the Dniester. Our Cossacks, pressing the enemy's heels, crossed four enemy bridges and continued the pursuit on the right bank. Near Koropetz and Kosmierjine the enemy also is retreating.

Near Jovava and Zale Szczyki the enemy is holding his ground behind barbed wire near the Dniester. "Monday night after a desperate battle we stormed the villages of Balamountovsky, Rawentz and Gromeshatz, taking one thousand prisoners, including the commander of the 42nd Honved brigade and numerous machine guns."

Nearly three hundred members of the Toronto Canadian club visited the Prison Farm and the Agricultural College at Guelph.

BISHOP, PRIESTS AND ELDERS, WERE CRUCIFIED.
Mr. M. S. Bacchus, a university student at Toronto, who is now in the city, has received the following letter: Tiflis, Russia, March 27, 1915. But how sorrow it was for me when we reached Cocassia there in each city or town were being hundreds and thousands of refugees from Urumia, needy, hungry and with old clothes. Here in Tiflis I met several of my friends and relatives, also some of my pupils. But how sad it was for me when I knew that my family was left in the Mohammedans' hands. They did not had any body to carry them, and my wife was not able to take them because they were too young to walk that long trip, also two of them were sick. Oh, my heart is broken. I am weeping and crying for my wife and children and for those 2,000 Christians who are left under the mercy of those Mohammedans, enemy of humanity and Christianity, whose lives are in danger of death any moment. Also for these thousands who are needy, hungry and with old clothes. When I came here I asked several of those refugees how do they come. One of them told this story briefly: Jan. 2, 1915, we left Urumia city at nine o'clock at night, without horses or camels or food or extra clothes. We walked towards Russia, 15,000 Christians, men, women and children. The weather was very cold, the roads were so muddy through mountain and valleys, on the road we were in hotel or resting houses, so travelling at daytime and resting somewhere at cold nights. Through these hardships many died from famine, cold and mud. Many parents on their back left their children on the road. Many wives were having babies by the road. Many parents lost their children. After seventeen days we reached Russia. About one third of people died from the road hardships. I am in Tiflis yet because the Urumia is still occupied by the Turks and Kurds. As soon as Russians go there what had become of them. Give Mrs. Stremmer my kind regards and give her this letter to read it.

LAST DAY
The many students in the city who have been trying their entrance examinations for several days, will at last get their long-wished-for vacation, after to-day's session.

WERE OMITTED
In the account of the funeral of the late Miss Winnie Drake, published a few days ago, the names of Miss Marion Bueling, Mr. and Mrs. Jos. Bueling and Mr. H. S. Pierce were omitted from the flower list.

SECURED CONTRACT
Mr. Robert H. Ballantyne, a well-known local sanitary engineer, has secured the plumbing contract for the Central school. The contract is placed in the neighborhood of \$6,000, and the installation will be started immediately.

A NOVEL SIGHT
Quiet and somewhat uncommon was the sight which greeted the eyes of travellers along West street, near dusk last night. A Hungarian bride, arrayed in all the blazon of her wedding array, replete to the minutest detail, snatched along the street coming from a frame dwelling near the G. T. R., accompanied by the bridegroom, bedecked in his Sunday best, and looking well pleased. Together they were going down to be photographed on the happy day in all their finery. It was a novel sight, and attracted much attention.

FELL ONTO PAVEMENT
A slight accident occurred last evening on the market square which attracted the attention of quite a few people about eight o'clock, a man, while lounging against the rear of the city hall, in an intoxicated state, fell over on the pavement. His head came into contact with the walk in a very unpleasant manner, and he had to lay there for a while until his head became clear. By that time the patrol wagon had arrived and it carried him off for the night to the station. He was not very badly injured, and only a slight bruise on his forehead resulted from his fall.

BISHOP, PRIESTS AND ELDERS, WERE CRUCIFIED.
The Dufferin Rifles assembling at the armories at 10 o'clock, were paraded under Major P. P. Ballachee, Capt. F. Hicks and Lieut. Pearce. Not a large body of men, but extremely sincere, and bearing themselves well, represented Brantford on this quota, and were heartily "God-speeded" by a large gathering of citizens. When the band struck up "Tipperary," a ripple of enthusiasm passed over the crowd.

PRESS CONDEMNS THE INTERVIEW

Doubt Expressed as to Authenticity of Words Attributed to Pontiff.

By Special Wire to the Courier.
Rome, June 22, via Paris, June 23.—The Italian press vigorously condemns the interview attributed to Pope Benedict by Louis Latapie, and published in Le Liberté of Paris, in which his Holiness is said to have voiced a complaint that the privileges of the Vatican have been seriously curtailed by the Italian Government as the result of the war.

People Are Rejoicing in Berlin

Berlin, June 23.—The news that Lemberg has been carried by Austrian Hunarian troops is being received to-day with great jubilation in Berlin. Thronging of people crowd the public squares and the parks, and flags are being displayed from windows and bands are playing patriotic airs. Extra editions of the newspapers are being shouted on the streets, and the church bells are ringing.

ITALIAN OFFICIAL

By Special Wire to the Courier.
Rome, June 23.—The following statement was issued last night at the headquarters of the Italian general staff:

"Enemy activity yesterday was confined to long range artillery fire at several points on the front."
"In the Monte Nero zone, one of our Alpine battalions encountered yesterday for the first time important enemy forces recently arrived, probably from Galicia. The Alpine troops attacked and repulsed them inflicting heavy losses and taking some prisoners."
"Night attacks by infantry were renewed against our positions at Plava with the most intense rifle fire and the use of hand grenades. All these attacks were repulsed."
"On the lower Isonzo we further strengthened our occupation. Floods caused by the enemy in the zone adjacent to the Monfalcone canal, although sensibly decreasing, still constitute a formidable obstacle."
"An enemy aeroplane dropped several bombs without doing any damage."

FARMERS CONSIDERED

By Special Wire to the Courier.
Chicago, June 23.—Farmers of today are different from those of twenty years ago, E. T. Meredith, of Des Moines, Iowa, publisher of the farm journal, told delegates attending the convention of the Associated Advertising Clubs of the World to-day. "Some of you advertisers act as if you didn't think the farmers wear coats or shoes," Mr. Meredith said. "Why, do you know that 50 per cent of all farmers wear garters? You haven't realized that the farmer can buy, that he pays from \$15 to \$45 for a suit of clothes and that he purchases motor cars ranging in price from \$500 to \$2,000. The advertising agencies should study the rural towns, should know the farmer of to-day."

Herman Kropf, of Stittsville, Mich., checked to death while eating his dinner in a Sarnia boarding house.

Conditions are Much Improved for Prisoners

By Special Wire to the Courier.
London, June 23.—The foreign office at a late hour last night gave out a copy of a letter received from American Ambassador Gerard in Berlin, enclosing a report on present conditions at the internment camp at Ruhleben.

The report shows that of 4,500 British civil prisoners interned in Germany, 4,000 were at the beginning of June held at Ruhleben, the remaining five hundred being scattered in small detachments in various other internment camps.

Fullerton Charges Are to be Heard

By Special Wire to the Courier.
Winnipeg, June 23.—When the Royal Commission sat this morning, Chief Justice Mathers announced it would not be proper for the present commission to take up the Fullerton charges in view of the fact that one of the commissioners is mentioned in connection with those charges as a witness. The commission, he said, would recommend to the attorney-general that a new commission be appointed to deal with the matters brought up by Mr. Fullerton.

The MASQUERADER

By Katherine Cecil Thurston, Author of "The Circle," Etc. Copyright, 1904, by Harper & Brothers

"Because"—she began, then again she laughed. "Because," she added quickly, as if moved by a fresh impulse, "Jack Chilcote made it very obvious to any one who was in his morning room at 12 o'clock today that it would be you and not he who would be found filling his place this afternoon. It's all very well to talk about honor, but when one walks into an empty room and sees a telegram as long as a letter open on a bureau—"

CHAPTER XXIX. Loder's frame of mind as he left Cadogan gardens was peculiar. Once more he was living in the present—the forceful, exhilarating present, and the knowledge braced him. Upon one point his mind was satisfied. Lillian Astrupp had found the telegram, and it remained to him to render her fluid valueless. How he proposed to do this, how he proposed to render triumphant in face of such a situation, was a matter that as yet was shapeless in his mind; nevertheless the danger, the sense of impending conflict, had a savor of life after the inaction of the day and night just passed.

The habit of self-deceit is an insidious and treacherous ally. For one moment on the night of his great speech as he leaned out of Chilcote's carriage and met Chilcote's eyes Loder had seen himself and under the shock of revelation had taken decisive action. But in the hours subsequent to that action the plausible, inner voice had whispered unceasingly, soothing his wounded self-esteem, rekindling stone by stone the temple of his egotism, until at last when Chilcote, panic-stricken at his own action, had burst into his rooms ready to plead or to coerce he had found no need for either coercion or entreaty.

GET YOUR FURS

I shiver to sing this tune
On the 23rd of June,
It was my wish to boat and fish,
Goose-flesh, my skin a grater,
It's up to me to duck, but still I won't
be stuck,
I'll be a Skater! I. C. E.

CHILDREN CRY FOR FLETCHER'S CASTORIA

ITALIAN ADVANCE IS VERY DIFFICULT

Highly Fortified Regions of the
Alps in Trentino Cause
a Slow-up.

By Special Wire to the Courier.

Verona, via Chiasso to Paris, June
23.—The Italian advance on the
Trentino Alps daily is growing more
difficult, owing to the formidable lines
of fortifications constructed by the
Austrians in valleys and on mountains
which are provided with excellent
guns, dominating all the passes.

Since the occupation of Cortina, on
May 30, the advance of the Italia is
on Austrian territory has only been a
few miles in extent. Front fighting
is constantly going on among
the high mountains, having reached
peaks at an altitude of about ten
thousand feet on the Marmolada
group, which dominates the famous
Dolomite road.

From their positions on Tascia Peak
the Italians, who have reached back
the Oblesik, erected to mark the Do-
loztoe road, built by Francis Joseph.
The command of this road between
Falzarego and Podestagno, it is con-
sidered by military observers, would
be of great advantage to the Italians
as it would interrupt one of the big-
gest military arteries of the Austrians.

GAINS RECORDED

Geneva, June 22, via Paris, June 23.
—A Tribune despatch from Laibach
says:
"The Italians have gained posses-
sion of all the positions defending
Malborgeth after a fierce struggle
against the Austrians, particularly
Honved detachments, which displayed
great tenacity. The Italians now are
violently bombarding the city.

"Arrival of Austrian reinforcements
stopped the Italian advance at Capo-
retto, but they have not gone back
across the Isonzo.
"Twenty thousand Austrians who de-
bouched from the Tervova forest are
marching against positions north of
Gorizia.

"Southeast of Flitsch, strong Aus-
trian forces sought to drive back the
Italians, who were before superior
numbers, and retired as far as the
frontier, where they concealed them-
selves in a forest and allowed the
Austrians to pass. When the Aus-
trians were installed in the positions
the Italians sent a murderous ma-
chine gun fire, killing over four hun-
dred of their adversaries and forcing
the rest out of their positions."

FRENCH OFFICIAL NOTICE

By Special Wire to the Courier.

Paris, June 23.—The French war
office this afternoon gave out a state-
ment on the progress of hostilities
which reads as follows:

"In the region to the north of Arras
bombardments have been continued
on both sides, and lasted throughout
the entire night. The Germans fur-
thermore endeavored to deliver new
counter-attacks, one near the Neu-
ville cemetery, and the other in the
direction of 'The Labyrinth.' Each
was completely repulsed.

"To the west of the Argonne, not
far from the road running from Bin-
arville to Vienne-le-Chateau, the fight-
ing is going on in the German tren-
ches, hand grenades being used. On
the remainder of the front in the Ar-
gonne, the Germans have expended a
vast amount of ammunition, but with-
out delivering any infantry attack.

"On the heights of the Meuse, at
Calonne, we, yesterday evening, re-
conquered a further section of the
second German line.

"In Lorraine yesterday saw fresh
counter-attacks against positions
which we have taken near Leintrey.
They were repulsed, and we retained
all our gains at the same time taking
some prisoners.

"In the Vosges, at Fontenelle, in
the region of Dan-de-Sapt, the enemy
yesterday evening after having thrown
nearly 4,000 shells in a few hours
against one of our works, advanced
along a front of 200 yards and suc-
ceeded in gaining a footing. At the
same time an attack upon neighbor-
ing trenches was delivered. This Ger-
man offensive was immediately checked
by a French counter-attack led
almost all the lost ground. The enemy
was successful in maintaining his po-
sition only at the extremity of our
work. We took 142 prisoners, includ-
ing three officers.

"In the region of the Fecht River
we have occupied Sondernach, and
we have pushed our line along the
slopes to the east of this village."

Calexico, Cal., June 23.—Martial law
has been declared here and in Mex-
ical, Mexico, just across the border
line, following a reign of terror in
both towns, resulting from three
earthquake shocks last night. Re-
ports of at least twelve dead and
many injured were brought here early
to-day by refugees from the Mexican
city. Most of the buildings there

time and San Diego and San Bernar-
dino also were visited by two
slight shocks.

stroyed by fire. At Imperial several
buildings were cracked and the walls
of one fell in, but no injuries re-
sulted.

GREAT BRITAIN'S Note Awaited at Washington

By Special Wire to the Courier.

Washington, June 23.—Great Brit-
ain's note concerning measures taken
by the British Government to miti-
gate the hardships suffered by neutral
traders under the order-in-council,
was awaited to-day by officials of the
American Government. It was ex-
pected that the memorandum which
has been handed to Ambassador Paiz
by the British foreign office would be
immediately transmitted to Washing-
ton.

While the British memorandum
probably will be taken into consid-
eration by the American note to
Great Britain, now in course of pre-
paration is finally prepared for trans-
mission, it was said that it would not
affect the sending of the communication
which the American government has
decided to make its temperance leg-
islation still more drastic. Hon. J.
A. Calder announced that the new
proposal was that "no liquor may be
kept or consumed after June 30 in
any hotel or other place of accommo-
dation." This will preclude either pro-
prietor or guest whether permanent
or transient from having liquor on
hotel premises. This total prohibition
buildings any portion of which is
used as a livery, or boarding stable,
lumber office, grain elevator or gar-
age. The director of prosecutions is
allowed to authorize liquor to be used
at banquets or other conditions
Such meetings cannot take place in
hotels.
