KIDDIES' CARNIVAL A GRAND SUCCESS

The Kiddies' Carnival held last Friday evening in the local rink under the auspices of the Miramichi Hospital Aid was a grand success. A large number of children many wearing beautiful costumes graced the ice. After the sixth band the public was given the privilege to skate to the fine music provided by the local band. There were many interested spectators in attendance. Prizes were awarded as follows:

Snow Princess—Davida Troy
Heavenly Twins—Rosamond and Roland Crocker.
Butterfly—Isabel Stables.
Indian—Frank Desmond.
Colored Gent—Everett Park.

An interesting game of hockey between the young ladies and the married men was played at the opening in which much fun was enjoyed both by players and spectators.

STEWART GODWIN FREED FROM CHARGE OF MURDER

Wednesday afternoon—After deliberation of only 25 minutes the jury returned a verdict of "not guilty" and Stewart Godwin, the 16 year old Little River youth was freed from the charge of being the murderer of Mrs. Clara Whiteside whose body was found in her house East St. John, last Christmas evening. The accused had been held by the police since December 28th. The case was commenced before Chief Justice McKeown in Circuit Court Tuesday morning and was concluded in a two days' session. After the addresses of William M. Ryan for the Crown and H.A. Powell K.C. for the accused and the charge of Chief Justice McKeown the jury retired at 4.55 o'clock and returned at 5.20 o'clock.

The accused maintained an attitude of indifference throughout the trial and appeared to be quite at ease during the time that the jury was out deliberating.

The contention of Dr. Powell, K. C. that any statements given by the accused to the officers should not be admissible as evidence, as the accused had not been warned by the officers before such alleged statements had been made that anything he might say would be used against him at his trial, was sustained by the Chief Justice who also stated that he would not admit as evidence any questions that had been put to the accused by his father.

Those alleged statements were the chief grounds on which the Crown officers were basing their case and when these were not allowed there was nothing left on which the officers could expect a conviction. Nearly the entire session was

NEWCASTLE HOLDS JARDINE CUP

The second annual contest between four rinks each of Newcastle and Chatham curlers was held Thursday afternoon and evening in the Newcastle rink and ended in a victory for Newcastle; the present holders of the Jardine cup by a majority of 4 points.

The Chatham skips had won victories in the afternoon games with a lead of 8 points to the good. This lead however; Newcastle was able to overcome in the evening and also notch up four more shots for their side; the match ending: Newcastle 56; Chatham 52.

CHATHAM DEFEATED BY NEWCASTLE TEAM

Playing 25 minutes overtime Newcastle Intermediate Hockey team Wednesday night defeated St. Thomas of the Chatham champions of Chatham Town League by the score of 8 to 5. The game was evenly contested throughout with the exception of the last overtime period when the locals outplayed their opponents and netted four extra goals to Chatham's one.

CHATHAM HOLDS LAWLOR MEDAL

Chatham retained the Lawlor Medal for 1924 by defeating the Newcastle curlers by 23 points; in a total point, eight rink match of 166 to 83 on the Chatham and Newcastle ice Tuesday afternoon and night. The score by skips follows:

ELECTRIC CAR IS TO BE OPERATED

The Town Clerk has been notified that the proposition recently submitted to the C.N.R. for supplying electricity for an electric car between Newcastle and Loggieville had been accepted by the railway authorities and that the necessary equipment for the charging of the storage batteries would be forwarded to Newcastle at once and the C.N.R. requested that the town have the wires extended to the railway property in the vicinity of the freight shed without delay. This will mean that the passenger service between Newcastle and Loggieville will now be operated by an electric car run by storage batteries. About 100,000 k. watts will be necessary for this purpose each year; which will be supplied by the town at a cost of 4c. per k. watt meaning an annual revenue to the municipality of about \$4,000. Newcastle received its power from the New Brunswick Hydro Electric Commission's plant at Bathurst.

CIVIC ELECTION

Little enthusiasm is being shown in arranging nominations for the Civic Election of next month. It is not surprising in that it is difficult to obtain the consent of our best to stand the test of a Poll and serve an office in which the electorate is ever to the fore with harsh criticism. The one big kick never gets into print and until that item is satisfactorily arranged it will be necessary to coax the candidates along rather than to see them voluntarily step forward with a willingness to serve at least one term.

The Biscuit Trick

It looks so easy they all fall for it: make a bet that it is impossible to eat five soda biscuits in five minutes unassisted by liquids. Eating one in a minute is hard enough.

That's because the sodas are so flaky, so crisp, they absorb a lot

of water when you are eating them and should be eaten slowly—a point in their favor.

Another good trick is to take a kettle of boiling water right off the red hot coals and balance it on the tips of the fingers. Strange to say it's easy provided you keep your fingers on the cool centre part of the kettle (where you expect to find the greatest heat.)

needs Zam-Buk, whether it result from an old sore or injury, or as is more often the case, through old-standing varicose weakness. How that powerful herbal Zam-Buk builds-up the weakened tissues and sets things right, is told by Mr. R. S. Reynolds, of Leesburg, Fla., U.S.A.

"As the result of inflammation set up by a horse kick," he writes, "terrible sores appeared all over the lower part of my leg. It was a year before the limb took a real turn for the better."

Needs
"I started out to try Zam-Buk, quite prepared to persist with the balm if it showed the least sign of doing good. Zam-Buk's first effect was to remove from the sores all their angry inflamed appearance. New skin and tissue formed as I persevered with Zam-Buk, and every sore was gradually but surely healed."

BATHURST BEATS CHATHAM 8 TO 2

The Bathurst team defeated Chatham Tuesday night by a score of 8-2 in the first of a two-game series of home and home games to decide the winner of second place in the northern section of the Maritime Hockey League. Chatham was outplayed from the first gong. In the last period only did they show signs of any ambition but their comeback was staged too late to be effective. The game was loose and uninteresting.

"Blind Man's Buff"

"Blind Man's Buff" is a poor game to play when we are spending our dollars. And that's exactly what we do when we send away to buy an article by mail.

The mail order house gets your letter and cash among a thousand or ten thousand others, and a clerk jerks your article from the huge pile and sends it to you. No picking over to suit your taste; no attempt to fit your special needs; you get no choice at all.

But when you trade at home you pick for yourself as your taste dictates; you can choose yourself for quality, and you can see to it yourself that your special needs are filled. Besides the man in the store is your neighbor and tries to please you. To please his customers he must buy his goods with quality in mind and in order to sell at all his price must be reasonable.

Don't invest your precious dollars in Blind Man's Buff.

Here and There

A dispatch from London, England, states that the Soudan Government, through Capt. E. C. Midwinter, general manager of railways and steamers, Soudan, Africa, has accepted a tender from a British Columbia firm for 150,000 railway ties of Douglas fir. The contract expressly stipulates that the railway ties shall be of Canadian origin.

British Columbia's shipment of water-borne lumber to overseas markets totalled \$21,707,132 board feet last year, against 273,146,800 in 1922, an increase of 4.1 per cent. This announcement was recently made by the provincial minister of lands and it is a remarkable index of the rapid expansion of the lumber industry in British Columbia.

Under a scheme inaugurated by the Provincial Government it is announced that British Columbia will advance loans up to \$300 a family to settlers on the Hebrides, on condition that the British Government advance a like amount. In view of the present depression in the islands, it is expected that the British Government will co-operate.

Keen interest in all Canadian manufactures and especially in mineral products, wood pulp, textiles, leather and rubber goods, heavy machinery and farm machinery, now manifested by France and Belgium, according to H. E. Tessier, of Montreal, who recently accompanied an exhibit of these manufactures to the building erected for the Hebrides in these countries. Mr. Tessier believes that the tour will bring great practical benefit to Canada as soon as French currency becomes more stable.

The exterior of the great Canadian pavilion at Wembley has now been completed, and the interior decorators are busily finishing the building, according to H. E. Tessier, who has just returned to Canada abroad the Canadian Pacific liner Montclare. The exhibits are being rapidly assembled and everything points to Canada's display being ready in time for the opening of the British Empire Exhibition.

That Canada's culture has nothing to fear from the promised flow of immigration from continental Europe was the message recently delivered by J. Murray Gibbon, Canadian author and litterateur, in an address on "Canadian Literature and the Foreign-born" given in Montreal recently. Of all the Scandinavian races contributing to the Canadian population, Mr. Gibbon considers the Icelanders to have the highest literary mentality.

More than 13,000,000 bushels of grain have been received at the Government elevator at Vancouver, B.C., from Canadian Pacific Railway cars since the opening of the crop year, according to a report issued by railway officials. Exported from Vancouver in the same period there have been 20,416,534 bushels, comprising 15,438,348 bushels to the United Kingdom, 4,630,105 to the Orient and 338,183 bushels to South America.

The aggregate value of all field crops in Canada in 1923, was \$891,755,200, according to a report of the Department of Statistics, a decrease of \$70,538,000 from 1922, caused mainly by the lower prices applicable practically to every crop. This sum was made up of the following items: wheat, \$316,605,700; oats, \$177,704,400; barley, \$52,055,700; rye, \$11,248,900; hay and clover, \$162,882,000; mixed grains, \$17,654,800; potatoes, \$57,076,800 turnips, etc., \$22,650,100; corn, husking, \$12,465,000.

A golden wedding, celebrated by Mr. and Mrs. R. H. Williams, of Regina, Saskatchewan, was one of the novelties enjoyed by the passengers on board the Canadian Pacific "Empress of Britain" when the ship was at Barbados during the West Indies cruise. "Here Comes the Bride" was played by the ship's orchestra, and a huge wedding cake was baked, adorned with 60 candles and presented to the happy couple at a surprise party, in which even the crew joined.

Earl Bridges, 17-year-old musher, from Le Pas, Manitoba, won the Eastern International Dog Sled Derby at Quebec, receiving the gold cup and \$1000 awarded for the team first past the winning post. The race was run on three successive days, February 21, 22 and 23, at daily laps of 40 miles, under extremely trying conditions due to heavy snowfall on February 22 which was the worst Quebec has known for half a century. The winner was the Le Pas Dog Sled team, which also captured a silver cup awarded for the best-matched team of dogs in the Quebec race. There were 18 starters.

BROKEN IN HEALTH

After an Attack of Influenza—Health Now Restored

I am writing to tell you what Dr. Williams' Pink Pills have done for me," says Mrs. J. H. Oulton, Firdale, Man. "A few years ago I was in a badly rundown condition, so much so that I was subject to fainting spells which would leave me in such a condition that I could hardly go about. Then I was stricken with influenza, which was epidemic at that time and this still further weakened me and throughout the whole winter, I remained in this condition. I was constantly taking doctor's medicine, but as it did not seem to help me, my mother advised me to try Dr. Williams' Pink Pills, and I got a couple of boxes to start on. When these were done I seemed to feel an improvement and I got a further supply to continue the treatment. I took in all about a dozen boxes, and by that time I was in the best of health and had gained in weight. My faith in Dr. Williams' Pink Pills is now unbounded, and I keep a supply on hand and take them occasionally if I am not feeling quite well. I often recommend them to others, and cannot praise them enough for restoring my health."

Dr. Williams' Pink Pills are useful in all cases where the blood is thin and watery as their mission is to build up and purify the blood. That is why they give new strength and vigor after an attack of influenza, and it is also the reason why they are beneficial in nervous disorders, neuralgia, rheumatism and that condition generally described as all run down.

The new sales tax will not increase the price of Dr. Williams' Pink Pills as the company pays the tax; you can get these pills postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

ON THE INCREASE

A substantial increase in the number of divorce applications to the Senate of Canada is probable this session. To date 102 applications have been received. There were 140 applications all told last session. Of these, two were thrown out and the rest granted. One of the applicants who was denied a divorce last year was a Toronto man whose wife is now applying for a divorce. The majority of the applicants are residents of Ontario, only Quebec and Ontario are compelled to apply to the Senate for divorces. The rest of the provinces have their own courts.

The Marvellous Fruit Medicine
Like thousands and thousands of other sufferers, Mr. Albert Varner of Buckingham, P.Q., tried many remedies and went to doctors and specialists; but nothing did him any good. Finally a friend advised him to try "Fruit-a-tives"—now he is well. As he says in a letter: "For seven years, I suffered terribly from Headaches and Indigestion. I had belching gas, bitter stuff would come up in my mouth, often vomiting, and was terribly constipated. I took Fruit-a-tives and this grand fruit medicine made me well." 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont.

Eminent Railway Builders

A unique record of Canadian railway pioneer engineers embodied in a photograph taken in Vancouver recently of three prominent members of the profession whose record of service in the survey and construction of railways is possibly without parallel. They are—reading from left to right, H. J. Cambie, M.E.I.C., eighty-seven years of age; T. H. White, M.E.I.C., seventy-six years of age; and J. H. Kennedy, M.E.I.C., seventy-two years of age. They are all resident in Vancouver.

Each has been identified with one of the three great transcontinental railroads now operating in British Columbia, as chief engineer on the location and construction of the original main lines within the Province, pioneered through the wilderness of mountains, canyons, forests and plains by feats of engineering skill and perseverance not surpassed and scarcely equalled in any other part of the world. Each one is enjoying excellent health, and occupies the very highest place in the respect and esteem of the members of the engineering profession together with the general public. Another very interesting coincidence lies in the fact that each one possesses the apparently magic name "Henry".

Henry John Cambie, M.E.I.C., was born on October 25th, 1836, in County Tipperary, Ireland. He had charge of the location of the present main line of the Canadian Pacific Railway from the Coast to Griffin Lake, and was chief engineer of the world-famous construction through the Fraser Canyon from Yale to Lytton, and also the construction of the section from Savona Ferry to Sauswap Lake. Mr. Cambie has been continuously associated with the Canadian Pacific Railway and its predecessor, the Government Railway, for sixty-eight years. His name is perpetuated by the station on the Canadian Pacific, Cambie, on the coast line below Glacier. Mr. Cambie explored, surveyed and planned the whole course of the Canadian Pacific through a large section of the province of British Columbia, and under his direct supervision the part that runs through the canyons of the Fraser was built. At the age of eighty-seven, he is still hale and hearty, enjoying the love and esteem of his fellow men.

Thomas Henry White, M.E.I.C., was born on January 27th, 1848, at St. Thomas, Ontario. He was chief engineer of the location and construction of the present main line from the Yellowhead Pass, down the North Thompson and Fraser Canyons to New Westminster. It is interesting to note that he was Mr. Cambie's right-hand assistant during the work in the Fraser Canyon. Mr. White has always been popular with his fellow engineers, being noted for abundant good nature, keen sense of humour, and an absolute fairness in all his associations.

James Henry Kennedy, M.E.I.C., was born on March 8th, 1848, in Carleton County, Ontario. He had charge of the location of the main line in British Columbia, under the Vancouver, Victoria and Eastern Railway charter, from Laurier to the Coast. As chief engineer, he built the first section in the Province, from Laurier to Grand Forks, through the Kettle Valley country and afterwards constructed the longer section from Chopaka to Brookmere, through the difficult Similkameen and Tulameen Valleys. The complete record of the life-work of each of these pioneer railroaders is full of interesting reminiscence, and the monuments of their handiwork are to be seen in practically every province of the Dominion. Although British Columbians take great pride in the achievements of these men, they nevertheless feel that they belong to Canada, from coast to coast.

"What Is The Meaning Of Neuralgic Pains?"

PERSISTENT attacks of Neuralgic or Sciatic pains point to an impoverished nervous system and a weak, watery condition of the blood.

Darting, stabbing pains with intervals of pain or aching are common to neuralgia, sciatica and lumbago.

The pain follows the nerve trunks or spreads to other nerves and there are tender spots.

In the head—neuralgia. In the back—lumbago. In the hip—sciatica.

Temporary relief is not sufficient for the attacks become frequent and more severe as age advances and it is more and more difficult to obtain relief.

Sleep, relaxation, nutrition are necessary to restore the nervous force exhausted by the activities and worries of life.

And in this connection Dr. Chase's Nerve Food is the most satisfactory treatment available as a means of enriching the blood, strengthening the nerves and building up the system, so that it is able to throw off ailments of this nature.

Why suffer these repeated attacks of pain and torture when by a few weeks' patient treatment with this well-known and

proven restorative you can bring your system up to a condition that throws off such ailments.

With vitality running low you are an easy prey to colds and all sorts of dangerous diseases.

Neuralgic and sciatic pains are a warning to you to fortify the system by the use of such reconstructive and invigorating treatment as Dr. Chase's Nerve Food.

Miss Margaret Conolly, Brantford, Ontario, writes: "For three or four years my health had not been very good, and especially in the Spring I used to become quite run down. For some months before I started using Dr. Chase's Nerve Food, I had a tired feeling continually, with pains up the back of my neck and head, and at times felt I would have to give up work. I could not think clearly and often had neuralgia, followed by dizzy spells. I was nearly 'all in' when I began using Dr. Chase's Nerve Food, but after I had completed a treatment of six boxes, I felt better than I had ever felt before."

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills. Edmanson, Bates & Co., Ltd., Toronto.

An Earthquake in Canada Many Years Ago

An earthquake in Canada of such intensity that it probably equalled that which laid the city of Japan in ruins is recorded by the early historians of New France; who tell us faintly that the cattle ran about the fields in terror; the dogs howled the church bells rang and the people prayed in the open fields. From the Laurentide Hills north of the St. Lawrence, all the way down to

New England the land rocked and quivered. Hot vapors broke from the earth and the snow melted away. Flying cliffs were hurled into the rivers to form islands while the ice the rivers was crumbled. The terrified settlers heard the noise of the earthquake hissing and crackling like a forest fire. At Tadoussac volcanic ash fell an inch thick while meteors flashed through the air. In the spring and summer months that followed the earth gave off poisonous gases. It occurred on Feb. 5 in 1663.

LATEST BIG NEWSPAPER DEAL IN ENGLAND

London, March 5—The latest big newspaper deal whereby Sir William Berry proprietor of the Sunday Times and the Daily Graphic is reported to have bought the papers formerly owned by Sir Edward Hulton and purchased last October by Lord Rothermere and Lord Beaverbrook in the name of the Daily Mail trust created considerable interest in Fleet Street and on the Stock Exchange.

The price said to have been paid by Sir William Berry is £5,000,000.

When the Hulton newspaper interests were bought last fall the price paid for some forty newspapers in London and Manchester was variously estimated at from £3,500,000 to £5,000,000. Lord Rothermere took most of the Hulton papers but Lord Beaverbrook took the Evening Standard, the Daily Sketch and the Sunday Herald. It is understood the Daily Sketch is not included in the present deal.

The report of the purchase by Sir William Berry is believed on the stock exchange today. The Daily Mail trust debentures which were quoted yesterday at 103 1/4 and last Friday at 102 1/4 went up to 106 on the stock exchange today.

It is stated that the intention of the papers in question is to issue £4,500,000 eight per cent debentures.

The Newspaper Man In Church

A preacher at the close of one of his sermons said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child with one exception rose to their feet.

The preacher seated them and said: "Now let every man not paying his debts stand up." The exception was a careworn hungry-looking individual clothed in the last summer's suit slowly assumed a perpendicular position.

"How is it my friend?" asked the minister "that you are the only one not able to meet his obligations?"

"I run a newspaper," he answered meekly "and the brethren here who stood up are my subscribers and—"

"Let us pray," exclaimed the minister.

LABOR LEADER IS GRANTED PAROLE

James B. McLachlan, sentenced to two years in the penitentiary for seditious libel growing out of the Cape Breton labor troubles of last summer left on ticket of leave.

The decision of the government to extend clemency to McLachlan was communicated to the prisoner several days ago. Warden G.T. Good stated, but the labor leader was engaged on an important job in the shoe department of the institution at the time and asked that he might be allowed to remain until it was completed. The warden spoke in the highest terms of McLachlan's conduct as a prisoner.

CONSIDERATION

It is genuine consideration for the feelings of others which constitutes the distinction between the courtesy of the true gentleman or lady (in whatever rank of life) and that mere external politeness which is nothing more than a social habit and which may veil the meanest and most selfish dispositions.—Carpenter.

Here and There

An addition to the Canadian Pacific Montreal-Toronto train service is a nightly train each way, making six trains every night between the two cities. The increase was found necessary on account of the heavy tourist traffic to Montreal from the West.

The opinion of Hon. T. D. Pattullo, Minister of Lands of British Columbia, is that "Canada can absorb at least 300,000 people annually, and this number can come on indefinitely. There is no limit to the requirements of the country. As many as we can get are wanted.

Nova Scotia is endeavoring to arrange an "old home" month during July or August of 1923, and it is expected that many from distant parts of Canada and the United States will visit the towns of their origin during the festival period set apart.

Incomparable Lake Louise has achieved new fame. The makers of the Gray-Dort car have put out a model in a new color which they term "Lake Louise Blue." It is of a lovely green-blue, and if it has caught anything of the glorious gleam of Canada's most beautiful mountain lake it should be a popular color for other than motor cars.

Big Bill, the last surviving buffalo at the Pinafore Park Zoo, St. Thomas, was recently shot. The animal had been suffering for some time from the same malady which carried off his mate a few months ago. Big Bill was said to have been the finest specimen of Buffalo east of the Government Park at Wainwright, Saskatchewan.

Albert Steedwell, Canadian Pacific Railway engineer at Fort William, has an airedale dog that is a wolf killer. Mr. Steedwell has a farm at Upsala, and while visiting the farm the dog routed out a brush wolf and chased it. During the subsequent battle one could hardly tell which was dog and which was wolf. Mr. Steedwell went to the assistance of his pet and together they finished the wolf.

T. W. McKenzie, Canadian Pacific Railway agent at Rosemary, Alberta, has received letters patent on a device for the purpose of locking automobiles. It is so constructed that when the switch is thrown off the car is automatically locked, thereby eliminating the possible chance of an owner leaving his car unprotected. The device cannot be operated nor the car started by an unauthorized person without causing an alarm.

The number of persons killed or injured while trespassing on railroad tracks were 50 per cent. less in 1922 than the average of the preceding fifteen years. The figures are 5,300 for nine months of 1922 compared with 10,736, the average for the previous year, according to an announcement made by the Safety Section of the American Railroad Association. This reduction in casualties is claimed to be due to the improved policing by the roads, and to success of the Safety First movement.

From September 1 to March 31 inclusive, the Canadian Pacific Railway has transported to Vancouver 7,884 cars of grain, representing 11,668,328 bushels. Last year during the same period the movement amounted to 2,902 cars or 3,967,632 bushels. From the beginning of the crop season 13,571,320 bushels had been exported from Vancouver, of which 11,128,620 went to the United Kingdom, 2,242,500 to the Orient, and 200,400 to South America. Last year during the same period export amounted to 5,000,000 bushels.

There was an increase of sixty-three per cent in the number of immigrants to Canada during the last three months as compared with the corresponding period of last year.

Canadian Pacific agents in Britain recruited nearly five thousand men for work in the harvest fields of Western Canada and, through lack of steamship accommodation closed their doors on as many more who, attracted by the special harvest rate, sought to enter Canada.

The branch lines program of the Canadian Pacific Railway carried out this year will bring into operation on the prairies a larger mileage than any one year since 1914.

A building has been acquired by the University of Toronto to be entirely devoted to the manufacture of insulin. This will be the only factory in Canada to manufacture the curative fluid in commercial quantities and, although it is manufactured in the United States, Great Britain and Denmark, the Canadian product will be sold throughout the world.

Here and There

The gold mines of Northern Ontario broke all previous records in the month of January, when they produced approximately \$2,100,000, based on preliminary reports received from the mines.

It is reported that arrangements have been made for the financing of a \$500,000 plant in Edmonton, Alta., for the manufacture of paving blocks from the tar sands of Fort McMurray.

The first of the private for auction sales which the Hudson Bay Company has decided to hold in future at their head office in Montreal took place recently, when a collection of various furs, estimated roughly at \$25,000 to \$30,000 value, was put up for sale by sealed bids.

Dr. Geo. H. Locke, chief librarian, Toronto, at the request of the Canadian Authors' Association, has undertaken to supervise the selection of volunteers for the Canadian literature exhibit at the British Empire Exhibition. The task involves the gathering together of 500 representative books and it is anticipated will take about a fortnight.

From all indications, the potato shipments to Havana this season from the port of St. John, New Brunswick, will greatly exceed those of last year. To date there have been 150,307 bushels sent forward in twenty steamers, while from September 1, 1922, until January 31, 1923, a total of 605,668 bushels were shipped in seventeen steamers.

With heavy enquiries from South American sources for Canadian flour, millers expect to see their export volume substantially increased during the month of February, as compared with January. The movement, together with offerings of a premium for wheat at Vancouver, has been the most encouraging trade feature of the past month in Winnipeg, Man.

Colonel Ges. H. Ham, of the Canadian Pacific Railway, who recently returned from Florida, reports that Canada was prominently featured at the South Florida fair, held at Tampa some time ago. A very striking exhibit of Canadian products and natural resources was displayed and a "Canada Day" was celebrated, all of which is said to have been a revelation to those who attended.

Buffalo meat from the park at Wainwright has recently been on sale throughout Canada and has been extremely well received. It is described as resembling beef but of a more gamey flavor. Government inspectors expect that this meat, with hides and other buffalo products, will become a regular source of income to the people of Canada in the future.

"There are hundreds of first class farm workers in Scotland anxious to come to Canada, and the finest material Canada could wish for, but their wages are sufficient to barely support them and they are unable to accumulate funds for the passage."

To J. K. L. Ross, director of the Canadian Pacific Railway, goes the honor of catching the world's record fish with rod and reel. At St. Ann's Bay, N.S., he landed a tuna weighing 712 pounds; length, 9 feet 2 inches; girth, 6 feet. Commander Ross used a Vom Hofe tuna rod and reel, No. 39 thread line, with mackerel for bait. His catch took three and a quarter hours to land.

The world's wheat crop this year is estimated at 3,318,000,000 bushels, as compared with 3,104,000,000 bushels last year, an increase of 214,000,000 bushels, according to figures carefully compiled by the International Institute of Agriculture at Rome. The estimated shipments from supply countries of the world for this year is 690,000,000 bushels, of which Canada is expected to supply 290,000,000 bushels, or about one-third.

Canadian trade with Australia is on the increase, according to returns made public by the Bureau of Statistics. Canadian exports to Australia for the twelve months ending with June were \$19,224,239 as compared with \$12,200,468 for the corresponding period ending June, 1922. Canada's imports from the Commonwealth have also increased. The imports from Australia for the last twelve months were \$1,545,622 as compared with \$1,276,271 for the year previous.

A record was established recently when one of the latest type of Canadian Pacific locomotives drew a train of 42 cars of newspaper, weighing more than 1,100 tons, from the plant of the Abitibi Pulp and Paper Company, North Bay, to Toronto, without mishap. Ordinarily, it would have taken two passenger engines to haul such a load for the 320 miles. After proving its worth by this feat the heavy engine, together with an all steel train consisting of the latest model tourist, dining and sleeping cars, and a baggage and compartment car, formed part of the Canadian Pacific exhibit at the National Exhibition at Toronto.

To Teach Doctors Insulin Treatment

Hon. Dr. W. F. Roberts Minister of Public Health announced last night that the free clinics for the instruction of the doctors of the province in the insulin treatment of diabetes would be held in the General Public Hospital on March 18 and 19. Dr. Fred W. W. Hipwell the associate of Dr. F. G. Banting will be the principal speaker and will direct the clinics with the assistance of Dr. H. L. Abramson; provincial pathologist and Miss Bunnell; dietitian of the General Public Hospital.

Invitations have been sent out to all the registered physicians in New Brunswick to be present at the clinics on these two days. The first day will be given over to lectures on laboratory methods and diets used in the treatment of diabetes and the second day will be devoted to clinical demonstrations.

The clinics will open at 10 o'clock in the morning and the lectures will be held in the nurses' home of the hospital while bedside care will be shown with patients in the hospital and laboratory methods demonstrated in the bureau of laboratories.

It is anticipated that there will be a very large representation of the physicians from all parts of the province in attendance.

Many of the physicians have written to inquire when the clinics were to be held and there is considerable general interest among both doctors and laymen in the opening of the clinics.

WEDDINGS

COUGHLAN—LANDRY

A very pretty but quiet wedding took place on March 2nd at St. Joseph's Church; Roxbury, Mass when Michael J. Coughlan son of Lawrence Coughlan, Chatham Head was united in marriage to Miss Iona Landry of Loggieville. The bride looked charming in a chiffon serge suit and hat to match and squirrel furs and presented a fascinating appearance. The bride was assisted by Miss Marguerite Coughlan and the groom was supported by Mr. Carroll Dolan of Nelson, N.B. After the ceremony the bridal party motored to the home of the groom's aunt where a breakfast was served to a few friends. The happy couple will make their home for the present at 21 Montrose St. Roxbury, Mass.

LOGGIE—MURPHY

A wedding of much local interest was solemnized at St. Mary's Academy Tuesday morning when Rev. P. W. Dixon united at nuptial mass; Miss Mary Macrina Murphy; R.N. eldest daughter of the late Martin A. and Mrs. Margaret Murphy of Newcastle and Wilbert George Loggie of Lower Napan. The bride who wore a tailored suit of navy blue with hat to match; was assisted by her sister Miss Annie Murphy as bridesmaid while Wm. Kelley of Loggieville acted as best man.

After the ceremony the bridal party drove to the home of the bride's mother where a dainty breakfast was served to the immediate friends of the contracting parties after which Mr. and Mrs. Loggie left for Lower Napan where they will reside.

The bride who is a graduate of the Maddigan Memorial Hospital (Houlton; Me. was for some time on the staff of the Miramichi Hospital and is well and favorably known in Newcastle where her many friends join in wishing her every happiness in her new life.

NORMAL NOT SATISFIED

Provincial Normal School is not satisfied with the treatment handed out by the cup trustees in the N. B. Interscholastic Basketball League. A W. Covey of the M. P. Branch of the A. A. U. of Canada is likely to be asked for a ruling. The trustees have cancelled an arrangement for home and home games with St. John High and ordered a "sudden death" game next Saturday the 15th on the Y.M.C.A. floor at St. John with E. Ketchum as referee. A guarantee that the floor is neutral as far as the St. John team is concerned is given but individual players are said to be acquainted with it.

RAY ASHFORD

(Biography from Sackville Argosy)
Ray is the impersonation of that happy combination of a Theolog and a good sport. While at Mt. A. his prowess in football; basketball and track have helped to gain many a victory for his Alma Mater. In his Senior year Ray was captain of the football team and well did he merit the honor for it can be safely said that he is one of the outstanding football players in these provinces.

Perhaps too little has been said of his college activities but why recount them. It is to the future that we must look; and for Ray, with his unfailing courtesy and fine personality there must be but one outcome—Success.

The above young man is a son of Mr. and Mrs. J. H. Ashford of this town and his many friends will be pleased to hear of his achievements.

GORMAN BROKE WORLD'S RECORDS AGAINST TIME

In trials against time Charles Gorman United States National and International outdoor champion broke both the rink records for the 440 yards and half mile; covering the former distance in 37 2-5 seconds which is one fifth faster than the world's indoor record made by Peppy McLean at Cleveland 1915. The half mile was skated by Gorman in 1.19 4-5 the former local indoor record being 1.21 2-5 held by Bart Duffy. St. John former Maritime champion. It is understood that Gorman's records do not hold good as they were not made in competition.

Don't Dose a Cold --Use Vicks

External Treatment With Vaporizing Salve Is Best!

Mr. Alex McDougall, Box 655 Regent St., North Sydney, Nova Scotia, writes: "I had a bad cold in my head. I tried many remedies, but had no relief until I used Vicks. It is also the best salve I ever used for a cold in the chest. Put some Vicks VapoRub on your chest, cover with a flannel and you have a sure remedy. For a cold in the head, melt a little VapoRub, and inhale the vapors. In a short time your cold will be gone."

Vicks VapoRub is an externally applied vaporizing salve. While it acts like a liniment or plaster, it is also inhaled as a vapor, and so gets into the throat and lungs immediately. The cold is often broken up overnight.

Vicks is the modern direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds, Vicks gives remarkably quick results and also avoid nauseating internal dosing. Just as good for adults and for skin inflammations, such as cuts, burns, bruises, bites, stings.

At all drug stores, 50c a jar. For free test size package write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Although Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

they will reflect the dignity and self-respect of the discriminating, and be an excellent advertisement for your business, for a business man may be judged by the quality and style of his printed matter.

SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

RUNNING A NEWSPAPER

Running a newspaper is not all beer and skittles and anybody who thinks it is should try for two weeks to run a paper and please everybody. This paper is not out to please anybody; so consequently it is a good deal easier for us to get away with a policy of this nature than it would be to get away with a policy of pleasing everybody. We have certain definite objects and aims and each week we are placing these before our readers. It is gratifying to us to receive so much approval from the many friends who continually are congratulating us on our stand.

The Advocate's Job Printing Department

is without doubt the best equipped on the North Shore, and consequently in a position to turn out all kinds of Job Printing *Neatly, Promptly and Satisfactorily*, at very reasonable prices. We are constantly adding new type and material to our already up-to-date equipment, and we have recently put in several of the newest type faces manufactured.

Prince of Wales a Canadian Rancher

This photograph of the Prince was taken on his first visit to the Dominion. To the left is seen a picture of his ranch, and above it is an interior view of one of the suites aboard the Empress of France, bottom right.

HIS Royal Highness the Prince of Wales will for a month or so become a simple Canadian rancher. That he will travel incognito on his coming to Canada does not mean that he will travel in disguise but that he will not take part in official functions or make official visits, and when approached with regard to his stay in the Canadian Dominion he has always stated that his time will be fully taken up by the affairs of the E. P. ranch.

The Prince of Wales exhibits a deep and marked interest in the ranch he purchased near Calgary on his memorable tour of the Dominion, and his desire to visit it is but a fresh indication of the importance he attaches to it and the work it is doing. Immediately after purchasing the ranch, and before returning to England, the Prince made arrangements for the shipment of some of the best stock in the British Isles to the Canadian West. Thoroughbred horses came from the Royal stud, short-horn from the King's farm, shropshire sheep from the Duke of Westmoreland's estate, and hardy Durham cows from the Devon moor. The latter importation consisted of a thoroughbred stallion and four mares, the finest obtainable in the British Isles. "Will Somers" which bears the stud at the E. P. ranch is a handsome five year old which at three years was the winner of several English classes.

Thus the Prince has demonstrated that his purchase of the ranch was not a matter of sentiment or commercial profit, but a genuine desire to foster the breeding of better livestock in the West. His efforts have been eminently successful. At all provincial exhibitions the animals from the High river ranch are attractive features, and last Fall, shorthorn cattle, constituting the first commercial sales the ranch has effected, commanded top prices.

Cattle from the E. P. exhibited at the stock show at the Calgary Stampede were heavy prize winners, and sheep and horses from the same ranch created an unparalleled standard.

The Royal rancher has planned to arrive at Quebec on September 12th on the Canadian Pacific steamship "Empress of France". The palatial liner, 15,000 tons, which was the flag ship of the 19th Cruiser Squadron on Northern patrol duty during the War is the most up-to-date vessel of its type and is most suited to the accommodation of its distinguished passenger. Recon-structed after the war, this ship is one of the most magnificent yet comfortable vessels in trans-Atlantic service. It holds the record for 2400 life rafts and ten comfortable suites and cabins, spacious promenade decks, numerous and excellently appointed public rooms and service facilities make the Empress one of the most popular ships in the Canadian Pacific fleet.

HEALTHY CHILDREN ALWAYS SLEEP

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax.

The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

I worked on munitions for two years,
and in the heavy lifting which my work
called for, I strained myself, causing

Panama canal tolls for April
amounted to \$1,878,987.

About \$2,300,000 is to be spent on
the construction of roads and bridges
in the province of British Columbia
this year.

The Customs and Excise revenue
for April amounted to \$20,500,000,
an increase of \$5,000,000 over the
receipts of April of last year.

Emigrants numbering 15,000 left
Scotland for Canada during the first
four months of the year, according
to consular estimates in Glasgow.

Canadian flour has at last been
placed on the Panama market. One
boat has just loaded the first con-

"Price Class"
The mysterious stranger in the motor industry

Does a difference in price indicate a difference in quality? Why is one car priced 25% to 50% higher than another of the same quality? The 4 questions that a buyer should ask when considering any car

HERE are facts based on world's engineering authority. If you have any intention of buying an automobile, you are urged to read them.

No "Price Class"
There are only two kinds of automobiles today. Economically produced cars which give you more for your money. And cars which are not, and give you less.

Hence two cars may show a price difference of \$400 to \$1,200 and more. And be of the same quality.

Where the difference comes in
Studebaker, producing 150,000 cars yearly, has reduced engineering cost to \$3.33 per car. Other fixed overheads have been reduced proportionately. And these influence Studebaker prices.

A set of body dies costs \$100,000. It will produce many thousand sets of body stampings, each one as perfect as though there were only a dozen made.

By building 50,000 bodies from a single set of dies, Studebaker reduces the die cost per body to only \$2.00.

The average small manufacturer has to charge each body \$20 for die cost. The difference of \$18 is in the price but not in the body.

Thus a car priced at \$1,700 to \$1,950 can be sold as low as \$1,465 when produced economically in quantity. Such a car is the Studebaker Light-

Another Canadian Railroad Record

1 Unloading new rail from a flat car. 2 A Canadian Pacific work train. 3 Placing a new rail unit. 4 Throwing the old rail to the outside of the track. Note how the wheels are edging the old metal over the new.

Although Canada owes its prosperity, and even its national life to the Railroads which stretch across the Dominion and send feeders north and south into its rich agricultural and mining countries, the Railroad history of the country does not yet cover fifty years. In their short existence, however, Canadian Railways have progressed, and been so forced to meet the increasing demands and requirements of the country that their development has been extraordinarily rapid. Not only were the engineers employed by the Canadian Pacific compelled to press the laying of steel to the Pacific at a pace hitherto unknown, regardless of the many difficulties and obstacles which they encountered both on the plains and in the Rockies which were once thought impassable, but competition with other lines and the demand of the travelling public for service, comfort and convenience has stimulated the activities of the operating departments to such an extent that in the matter of equipment and service railroads in this Dominion are not surpassed on the continent.

Experiences gained in "construction days" were not lost, nor has the standard of efficiency which signalized the Canadian engineer been lowered, and today Canadians claim to be the world's leaders in railway construction, maintenance and operation.

Using unusual and effective methods, the Canadian Pacific recently laid over 100 miles of 100 pound rail at the rate of a mile or more an hour securing total daily mileages up to 10 miles and over and thus establishing another record. This while the road was under heavy

traffic. First came the train with the new rail. By means of special handling appliances the rails were distributed along the track, outside the old steel. Following the distribution of the new steel, the rails were picked up by a special gang, set up end to end, and bolted into two rail units. Next, the inside spikes were pulled by a gang detailed off for this work, and the old rails were pushed in towards the centre of the track. The new rail was then lifted into place and spiked down against the shoulder of the old tie plates before being bolted into one continuous stretch. This ensured that the alignment and surface of the track remained undisturbed. The new tie plates were inserted later.

Perhaps the most interesting operation was the moving of the old rail to the outside of the track where it could be picked up by the salvage train. The discarded steel was not unbolted, being one continuous piece, sometimes half a mile in length. The end of this rail was thrown outside the new track and as a heavily weighted truck was pushed slowly by a powerful engine, so the planges on its foremost wheels shoved the old rail over the new to the outside of the track—a simple operation, but one which, in course of a few years saves the Company thousands of dollars. As a matter of fact, this system of re-laying track, practised first by the Canadian Pacific on the Megantic Subdivision, has attracted the attention of railroad officials all over the continent, many of whom have sent representatives from as far away as Texas to secure first hand knowledge of it and the special unloading equipment used.

There was some discussion at the Sewing Circle this week as to what should be done to develop the provincial tourist traffic. There is still a lot of careless tea making in this country and among a good many people who ought to know better. MORSE'S SELECTED ORANGE PEKOE is the best tea in Canada but unless you brew it properly it will not give perfect results. Always make your tea with fresh water, that has just come to a boil and brew it about five minutes then stir it and let it stand for two minutes longer. Do not make it so strong that you have to add hot water in the cup.

DOLLAR DAY
Notwithstanding that on Friday March 7th; Dollar Day; the weather was mild and inclement the merchants of Newcastle were fairly busy. The several mild days which preceded Dollar Day put the roads in a sloppy and "dirty" condition but nevertheless there was a fairly good number of people in town who drove in from the surrounding districts. From the customer's standpoint the day was a most satisfactory one as the merchants had spared neither prices or merchandise for their benefit. Many exceptional goods bargains were offered which were readily taken advantage of by the purchasing public.

Last Symbol of Frontier Passes Into History

The old-time stagecoaches, used for years over the historic Cariboo Trail in British Columbia, were recently replaced by Studebaker cars. These cars now make the 220-mile trip north, from Ashcroft to Quesnel, in about a quarter of the time required by the horse-drawn coaches, and the fare is only one-fourth of what it was when the passengers depended upon old Dobbin.
