FOUR HEATS TO DECIDE THE MI . CH

Buffalo, Aug. 8.—For the third time this year Joe Patchen defeated Robert J. To-day the game son of Patchen Wilkes convincingly demonstrated his superiority over the little kneesprung pacer, and as a result of the struggle Hamlin's champion will be retired from the track until he regains his old form. It was truly a battle royal, but one in which Jack Curry had all the best of the argument. In the two fastest heats he sat in the sulky as immovable as a statue when the horses were fighting it out in the home stretch, while Geers worked like a demon, and lashed Robert with the whip time and again.

The business situation in Toronto is ithout material change. Prospects, hower, seem to be improving, with an excited increase in crop yield. The grain tops are said to be in better condition an was thought probable a short time for. This fact has given much encourage cont, and a hopeful feeling with regard a sutumn and winter business now profiles. Many buyers from the Northwest ave made their appearance, and these collection of the sanitary arrangements at the Sunnyside Orphanies. Many buyers from the Northwest ave made their appearance, and these collections of the assurance that the field of grain there will be much larger his season than ever before. The corage companies and agricultural implement makers are at present driving a large rade in the western provinces. There is particular increase in the wholesale rade at Toronto as yet, but merchants ave little to compain of. Remittances have been most satisfactory this month. In leading staples are firm in pricestotions, woolens and sliks ruling at the algest figures of the season. Money is identiful and easy, but requirements for the moving of the crops will tend to keep rates steady. Prime commercial paper is discounted at 6 to 6 1-2 per cent., and call loans are quoted at 4 to 4 1-2 per cent. on gilt-edged securities. The high rates at which Toronto bonds and other choice securities are selling are due in a measure to the cheapness of money. In fact, current rates at leading money centres are the lowest on record. Stock speculation has been more active this week, and the higher price is owing to an expected improvement in the general trade of the country.—The Daily Bulletin.
