contact with each other; so will all kind of grease or oil. Having guaranteed against insect life as far as possible prior to the hatching of the chick, it is well thor-oughly to examine, the *i* head of the chick when taken from the hen; for if there are any lice about it they will be there are any lice about it they will be on the head. It is always safe to tub some sweet oil into the heads of the chicks, so as to kill all the head

the chicks, so as to kill all the head ince, or keep them away if they are not there. If later on lice get on the chicks or heas, the very best thing to use is very finely powdered anise seed; this will do no harm even if they eat it, and it will kill the lice. To be effective, however, it must be very finely powdered. The Dalmatian powder will do as welk; but if too much is used it will get finto their eyes and make them sore. Nothing is as pleasant to use as the anise seed if it is very fine. It is anturally wi classes to try to prevent it by every ans in their powel

sweet, By lonely road and crowded street, With never-resting, rapid feet, We travel home. The hours of every passing day Bring us good distance on our way, No hindrance can the march delay, We travel home. and as they become used to it more can be acided. In preparing the mash, scald it with boiling water or milk, The path we take is often fair Love's tender music thrills the air, The smile of God is everywhere, As we go home.

much is used it will get Into their system of the start to use as the anise seed if it is very fine. It is naturally in theories, and theories, and concess ways of doing this to be oily, and for this reason and theories, and endless ways of doing this to be oily, and for this reason is to be very fine and dry in order to get the best results from its use.
Following these precations and modes of keeping free from the lice transtances to any other. There are theories are one which is most requently nere to be the most necessary need, and that is cleanlases. If it were possible to have every hen house, every fowl, and all the surroundings, kept as clean as they should be, there would be little trouble in growing the key, and for the surroundings, and the would have cause to comera a hen paradise for earth or man to have; but at the same time we have been about poultry plants so cleanly kept that we could find neither dirt to complain of, nor a louse to this is as any first were availed to the second find neither dirt.
Teeding the chicks is of equal importance with other tangs. Ans done its work well about the strate is no reason why these neighbors, should not be equally successful. Eliminating the element of lack, there is no reason why these neighbors should not be equally successful. Eliminating the element of lack, there is no reason why these neighbors, should not be equally successful. The same the true cause for variation in results cannot be reduced to the question of method, and method alone. They is necessful the same methods be followed there there can get it if the asame with a streighbors, but they actually do similar conditions are found in all the were the true cause for variation in they want. If deprived of foot when they want the eat their taria from the formits, and let them alone. They will know when to eat their trans. Small rolled oats, bread erumbs, and they want to eat their taria frame continuous the methods are formits, and let them alone. They will know when to

want it, and let them alone. They will know when to eat their farming.
Small rolled oats, bread crumbs, or grumbled corn bread, is best at first. "Yer this, use the hardboiled egg mixed with bread crumbs—once of twice a day for this, not oftener."
With this tood, alternate the rolled oats, bread crumbs—once of twice a day for this motor of the association of the system oatneal, cracked wheat, very fine broken corn and some millet seed. This mixture of small broken grains and some corn bread crumbled ine will grow them to a size where they can have the whole to see where they can have the whole tracks are the oats taken out of the husks—same as wheat is taken from its chaff. You thus, which does them no good.
Mash feed if properly made and framing of it through the crim sits alse field for growing the young chicks, as they thus get the benefit of the inst, which does them no good.
Mash feed if properly made and framing of it through the crim sits alse field if or growing the young chicks as they thus get the benefit doft the uside food. The benefit dorive from using mashed lood is through the crim on sing mashed lood is through the crim to the system for distribution to the this reason such foods are benefit dorive for the size and vitality must be provided for dy the assimilation of the mand quicken the growth, and for encoked, and in the handling of the whole—bone, muscle in Miss Jones singing. The stock was started at \$I per s' are, and has advanced steadily to \$3. Next advance will likely to to \$5, and we expect that it will be quoted at par-\$10-in the Spring, based on **Ore** actually blocket out. Less than 1000 shares will be sold at the present figure of three dollars. Applications for Stock Should be Aldressed to

Alfred Bennett & Co., Fiscal Agents, 16 PRINCE STREET, HALIFAX, N. S. Agents Wanted in Each Locality. Write for Prospectus,

-"John," who lives in a Nova Sco -"John," who lives in a Nova Sco-tia village, was thought to be very-stupid. He was sent to a mill one day and the miller said: "John, some people say you are a fool. Now tell me what you know, and what you don't know." "Well," replied John "I know miller's hogs are fat." "Yes, that's well. John. Now, what don't you know?" "I don't know whose corn fats 'em!" GARDENING FOR AN INVALID. Several years ago I found myself too much of an invalid to be out in the garden sowing seeds; and with no one at my service who, in my opin-ion, could be trusted to do it for me.

ion, could be trusted to do it for me. A summer without flowers was too dreary a prospect to be contemplated. I secured a half dozen wooden boxes about the size of common soap boxes and had them sawed so that they were each about four inches deep. These boxes were so small that when filled with soil they could be easily lifted about. I had the boxes filled with acid from the grather and now imagine -Flitey .- 'I'm ashamed of my fit of temper last night. It was ridiculous for me to behave that way, and of course Miss Love and her mother noticed it." Ritey.-"Yes, they thought you rather crazy, but I fixed it up all right."

Flight. Flitey.--"Did you, old man?" Ritey.--"Surg, I. told 'em you were only drunk."

-Elschen.- "Mother,, when 'I get married shall I have a husband like father?"

about. I had the boxes filled with soil from the garden; and now imagine my comfort as I sat at a table sow-ing my seeds! There were no cramped limbs and aching back, as was us-ually the case when I had sowed my seeds in the seed bed. I had that year as fine a display of annuals as I ever had when the seeds were sown in the garden, in spite of the fact that the weather did not get warm enough for it to be prudent for an in-valid to sit on the ground to trans-plant them until between June 9 and 16.—Country Life in America. father?" Mamma.—"Certainly, my dear." Elschen.—"And if I stay single shall I be an old maid like Aunt Anna?" Mamma.—"I think you will." Elschen. (with a deep sigh)—"Well, I'm in a fix."

-The possibilities of the potato are many, and most housewives are fa-miliar with the common ways of cook-ing them. Potato soutfle is a nice dish for a change. Boil four large, Mother .- "I don't like the looks of Mother.—'I don't like the looks of that boy I saw you playing with on the street. You must not play with bad little boys, you know.'' Son.—''Oh, he ain't a bad little boy, mamma. He's a good little boy. He's been to the reform school two times, and they've let him out each time on account of good behaviour.'' dish for a change. Boil four large, mealy potatoes, pass them through a sieve; scald in a clean saucepan, half a teacupful of sweet milk and a table-spoonful of fresh, sweet butter, add to the potato, season with salt and pep-per, and heat all to a cream; add, one at a time, the yolks of four eggs, beating thoroughly; to the whites of the eggs add a pinch of salt, heat un-til stiff and turn into the potato mix-ture, beating only enough to mix well, then put into a buttered baking dish; bake twenty minutes in a hot oven and serve at once. -----

-"Do you allow drunken people on the train?" asked a clergyman at the City Hall elevated station in New

"Sometimes when the v are not very drunk," replied the brakeman. "Just take a seat near the middle of the car and keep quiet and you'll be all right."

-He-"Suppose I should ask your father if I could marry you. Do you think I would stand any chance?" She.-"No, your case would be hope-ber " -If you have an invalid in the fam-If you have an invalid in the fam-ily or a convalescent whose appetite needs coddling, give them an onion baked in its skin. It must be thor-oughly tender and well done, so allow an hour for the baking.
