OUTWARD, For the East at 3 30 P.M. every Tuesday and Thursday.

ARRIVE, From the East 8 40 on Wednesdays and Saturdays.

ROYAL MAIL LINE PASSENGER AND EXPRESS.

Calgary and Fort McLeod, Leaves McLeod Monday and Thursday at 6 a.m., arriving at Calgary Tuesday and Friday at 6 p.m.

Leaves Calgary Monday and Thursday at 6 a.m. arriving at Fort McLeod on Tuesday and Friday at 6 p.m.

For further particulars apply to KING & COMPANY, Agents, Calgary.

Silver City and Columbia River Mail Route.

THIS Mail Route was established previous to the C.P.R. being completed further west than Calgary, and has been the only Mail Line west of Calgary.

Express packages left at the office of Messrs. G. C. King & Co., Calgary, or sent from outside points by Dominion Express, care of Gen. Watson, will be delivered promptly at moderate charges.

Address all mail matters for points west of Calgary in care of Gen. Watson, Calgary, Alta.

North-west Council.

TUESDAY, 16th July. The Council met at 11 a.m. His Honor the Lieutenant-Governor presiding.

The minutes of Thursday's proceedings having been read and adopted.

The Lieutenant-Governor read a petition from the Rev. J. Stafford, President of the Methodist Church praying the Council not to sanction any change in the North-west Territories Act as regards the manufacture of beer.

Mr. Turfiff presented a petition from residents of Moose Mountain District praying certain improvements on roads between that District and Moosemount.

ORDINANCES INTRODUCED. Mr. Ross: "An ordinance exempting certain property from seizure and sale under execution."

The Lieutenant-Governor: "An ordinance authorizing companies outside the Territories to transact business therein."

MOTION. Mr. Ross: "That ordinance respecting auctioneers etc. be remitted to committee of the whole to alter the jurisdiction of an amendment providing that one half of the fees be paid to the municipality."

Stands for third reading on request of mover.

Council resolved itself into committee of the whole to consider the "ordinance respecting the registration of titles."

Council adjourned at one o'clock a.m. AFTER RECESS.

Council again went into committee to consider Registration of titles.

Committee rose and reported their progress. Council adjourned at 5 p.m.

WEDNESDAY, July 15. The Council met at 2 30 p.m. His Honor the Lieutenant-Governor presiding.

Council resolved itself into committee to consider "the ordinance respecting boarding house keepers."

Committee rose—ordinance reported and read a second time. Council again went into committee on "ordinance respecting Boarding house keepers &c."

Council again went into committee on "ordinance respecting livery stable keepers &c."

Committee rose and reported progress and asked to have matter referred to committee on Civil Justice to assimilate same with "ordinance respecting boarding house keepers &c."

Council resolved itself into committee on "ordinance on hire receipts."

Col. McLeod moved that same be referred back to standing committee with instructions to prepare a new ordinance.

The Lieutenant-Governor introduced a deputational resolution, manufacturers and moved "that any of its members desirous of addressing the Council should be heard."

Motion agreed to. THURSDAY, July 17. Council met at 7 p.m. His Honor presiding.

The minutes having been read and adopted Col. McLeod moved the following resolution: "That in the opinion of this council some marked evidence of recognition of the good faith and true allegiance to Canada should be shown to Cowfoot and the other chiefs of the Blackfoot nation who appeared in the council on the 9th inst. and His Honor be authorized to present the sum of \$50 to Cowfoot and his associates as a mark of esteem in which his nation is held."

Council went into committee to consider above resolution.

Mr. Oliver objected to the passing of the resolution on the ground that considering the few resources from which the revenue should be charged against the fund which is under the control of the Minister of the Interior and the Lieutenant-Governor.

They recommend that the Council impress on the Federal authorities the urgent necessity of payment of indemnity past due and to become due to the members—in the Council.

That the sum of \$1,500 voted in season of 1883 for Public Works the sum of \$750 for works in progress remains to be charged against the local expenditure fund.

SUPPLEMENTAL REPORT. Your committee advise that this committee might with propriety raise the question as to what is the nature of their executive capacity as it appears to your committee that they are called into executive capacity to aid the Lieutenant-Governor in the Government of these Territories and that the expenditure of the funds granted for the Government of the same should come within the province of such executive Council.

They would also call the attention of the Council to the fact that with the single exception of the sum derived from liquor permits the revenue of the North-west Territories which is under the control of the Receiver General of Canada is derived from such sources as come properly within the province of Municipalities the great need of providing some subsidy to take the place of and augment the local fund.

The House resolved itself into committee to consider amendments to Ordinance respecting fire receipts, &c.

Amendments introduced providing, in respect, that owner shall have lien only for balance due and discharging with necessity of registration, as originally was proposed.

Col. McLeod moved that the deputational resolution be referred to committee on Civil Justice.

The members of the deputational were then introduced and requested to address the Council on the proposed Ordinance as amended.

Mr. Jones, on behalf of his associates, said he saw no objection to the proposed act, and was of the opinion that had the matter been given as close consideration in Manitoba the existing act would never have been passed.

Mr. Watson thanked the Council for the satisfactory nature of the proposed act and for the attention they had given it, which he said speaks volumes in favor of its members compared with some members of the Manitoba Legislature.

The deputational then withdrew. Mr. Oliver moved: "That the Ordinance be not now passed, but laid before the council for mature deliberation," and in favor of his motion said that the original Ordinance had been changed so materially an opportunity of a consideration had been afforded to the council.

The Lieutenant-Governor considered there was no urgent necessity for the immediate passage of the bill.

Committee rose and reported progress. House went into committee on "Ordinance to amend ordinances respecting fences. Committee rose and reported progress. The council adjourned at 10 p.m."

FRIDAY, July 18. Council met at 2 p.m. His Honor the Lieutenant-Governor presiding.

The minutes having been read and adopted. Mr. Oliver moved a resolution "That a return be laid on the table of all correspondence between the Government of Canada and the Government of the North-west Territories in reference to placing the leading trails under the control of the council, also all correspondence relating to the method of the expenditure of the funds granted by the Federal Government for expenses of government in the North-west." Resolution concurred in.

ORDINANCES INTRODUCED. Mr. Oliver: "To define the respective rights of occupants of public lands."

Mr. Turfiff moved a resolution, "That the timber laws are not satisfactory to the inhabitants of the North-west Territories, and that the Lieutenant-Governor be requested to write the Minister of the Interior asking to have certain changes to be made in the laws, as follows:—1st. That no charge be made for dry wood used for fuel purposes, since by using the dry timber fires are kept from spreading, and growing timber thereby protected; 2nd. That such homesteaders be allowed 4,000 lineal feet of building timber on fire permit, instead of 1,800 feet as at present, that amount being necessary to build a house, stable and granary."

Mr. McDowell thought that the resolution should read so as to include green as well as dry wood, in order to discourage the practice prevalent in some districts of setting fire to the green wood in order to make dry timber.

Mr. Jackson moved the following amendment to the original resolution: "That all the words after the word 'that' in the first paragraph be omitted and the following substituted: 'That the memorial committee be directed to memorialize the Dominion Government asking to have the following changes made in the timber regulations.'"

Mr. Oliver objected to this course, and considered the right method was to forward a resolution to the Minister of the Interior and not to include so "burning" a question with other subjects embraced in the memorial.

His Honor admitted that the tax is unpopular, but presumed the object of its imposition was to protect the timber, which he contended should be done.

The amendment was carried on the following division: Yeas—Richardson, Robson, McLeod, Brodie, Reed, McDowell, White, Gaudin and Jackson. Nays—Oliver, Ross, Turfiff and Hamlin.

Mr. White moved the third reading of the "Herd Ordinance." The ordinance was accordingly read a third time and passed.

General News.

OTTAWA July 13. The report to the effect that the quarantine at Grasse Isle is to be continued against sailing vessels is untrue. There will be no exceptions made in respect to steamships. The strictest inspection will be made, every precaution will be taken by the Department, and the quarantine enforced against all kinds of vessels. Orders to this effect have been given.

BRECKENRIDGE, July 24.—The Manitoba local election to fill the vacancy caused by the resignation of Fanguer (Conservative), to take place yesterday. Dill's (Reform) majority as far as heard, is one hundred.

The Duke of Cambridge visited Whitby yesterday and inspected the successful Canadian team. He said he was gratified at their success and referred to the unity of England and Canada. Sir Charles Tupper in behalf of the association presented the cup to Mitchell who made the highest individual score.

PARIS, July 28.—The official report gives the number of deaths from cholera at Marseilles during the last twenty four hours at 45, and at Toulon at 22. The convent at Marseilles was compelled to close its doors, and the means to the number of eighty dead.

The lady superior has issued an appeal for prayers on their behalf, that they may be preserved from worldly temptations.

LOWA INTO IT. The prohibition law went into effect in Iowa on July 4th, and all saloons have been closed, and intoxicating liquors are only drunk on the sly. It will be interesting to watch that state for a year or two to see if a great people can actually get along without liquors, and live and transact business. It seems as though they could, but there is no telling what will come over a people that is forced by law to be sober. In time the people of Iowa who desire to drink will become proficient in evading the law, the same as they do in Maine, where an innocent kerosene lamp is liable to contain a slug of whiskey, a gas burner is arranged to draw beer from a concealed keg, and bottles of pickles contain brandy and mineral water is pure gin. Iowa will have to watch canned tomatoes for fear there is a quart of whiskey to one tomato, canned goods of all kinds will be objects of suspicion, while pewter kegs and pewter books may be made for the occasion and filled with the better grade that has to be brought to the Hawkeye state in disguise. However, the inventive genius of the country will supply drink—new to Iowa, same as it does to Maine.

The above is from Peck's Sun and we commend it to the careful consideration of the Herald's prohibition man.

THE NOR-WESTER.

WARNER & SON, Proprietors.

TUESDAY, JULY 29, 1884.

EDUCATIONAL MATTERS.

We have not received a copy of Mr. Oliver's new School Ordinance which has been submitted to the present session of the North-west Council and therefore we are not able to criticise it. We know nothing of its provisions, but we are led to understand that it has been prepared with a great deal of care and that it is intended to meet the wants of the various districts comprising the North-west territory. The education of our youth is a subject in which we take an especial interest aside from our duty as a public journalist and we hail with satisfaction any school legislation which will be enacted this session provided it is of a character that is adapted to the wants of a sparsely settled country like this. In the act to amend and consolidate the several acts relating to the North-west Territories we find the following under section 10: "When and as soon as any system of taxation shall be adopted in any district or portion of the North-west Territories, the Lieutenant-Governor by and with the consent of the Council or Assembly as the case may be shall pass all necessary ordinances in respect to education but it shall therein be always provided that a majority of the rate payers of any district or portion or sub-division thereof, by whatever name the same may be known, may establish such schools therein as they may think fit, and make the necessary assignment and collection of rates therefor, and further, that the minority of the rate payers thereon whether Protestant and Roman Catholic separate schools shall be liable only to assessments of such rates as they may impose upon themselves in respect thereof." We cannot for a certainty say how public school matters are in other places but speaking for this we regret to say that our public school is away behind. The youth of Calgary are cooped up in a small shack which might be mistaken for a wood shed but for the fact that it is isolated having no real or apparent connection with any other building and looking decidedly unlike a school house. Our people are zealous churchgoers. Already there are four churches with attentive congregations, but our school facilities are away below par. This state of affairs is not as it should be. True without municipal organization it has not been possible for our citizens to do more perhaps, than they have done, yet we should like to see them alive to the importance of educational facilities. It is not necessary for us to dwell upon the great necessity there is for the establishment of liberal educational facilities amongst us. It has been clearly shown by educators that education should begin at the first dawn of a child's intelligence. Ignorance is the fruitful source of crime and the barrier to true liberty. Man's temporal welfare is just as important as his spiritual and he is admonished to watch narrowly over the one as well as the other. A great deal is done here for the church, but nothing for the schools and we are compelled to say this is not right. There is a union between the internal and the external we admit, and they should go hand in hand. The stranger visits our churches and he is satisfied, but we do not ask him to visit our school because we have only one and we are ashamed of that; not of the teacher or the pupils, it is true, but of the poverty of our educational facilities. Our clergymen have not shown any special inclination towards our schools. They have been busy with their churches and their duties in that respect, and no doubt are quite excusable. It belongs to the true friends of education in our midst to take firm hold now and see if something cannot be done to place Calgary in a position educationally equal to if not ahead of Edmonton and McLeod. The new ordinance will doubtless place our people in a position to take hold of school matters and place them in a condition of which we may boast instead of feeling ashamed as we do now of the village shack which is courteously called a school-house. "Briefly summarised," says the Deputy Minister in his report, "the practical result of last season's surveys as distinguished from their technical and scientific results prove beyond dispute that large tracts of land represented upon the educational maps with which the present generation is familiar was useless desert, are found to be of good quality and well fitted for the varied branches of agriculture. This refers to but a limited portion

of the territories. As to the remainder there has not for many years been any doubt, either as to its fertility or its adaptability for agriculture and a closer examination of its resources confirms and even strengthens what was previously reported. There is no doubt of it, but what has annoyed the average land grabber of the east is that he could not get a township, where ever he took a fancy to it. The bona fide farmer has found no difficulty in suiting himself but the fortune hunter has been disappointed, hence he has found some relief in mischievous agitation. The Manitoba Free Press has come to the conclusion that Mr. Burgess, Deputy Minister of the Interior has returned east with a "meagre stock of evidence" relating to the country's condition compared with what he might have gathered. This conclusion is arrived at because Mr. Burgess did not visit Fort McLeod district and Southern Manitoba. The Free Press is bound to grumble. If the Deputy Minister had visited the districts referred to, the Free Press would still insist that the information derived was meagre because Mr. Burgess did not take in Dakota and Texas, The Free Press should have the decency to wait until Mr. Burgess' report appears. It will then know for a certainty whether the information is meagre or not. "It is pretty evident that prohibition in the north-west is a huge failure. Those who read the different newspapers published in Assiniboia, Alberta and Saskatchewan cannot arrive at any other conclusion. It is also pretty evident that the permit system is a huge fraud, a constitutive class affair which gives a certain privilege and right to one man not given or enjoyed by another. To adopt a prohibition policy and at the same time give permits a burlesque worthy of Gilbert and Sullivan. That prohibition should be a failure is but natural. Right or wrong, men will have liquor, and if they cannot procure it in a lawful, open, legitimate manner they will procure it in an illegitimate manner. This is exactly what is being done in the north-west to-day. Surely those who go liquor and those who wish its prohibition might compromise on the matter. Let a few breweries be licensed and let the comparatively harmless beer be sold to those who want it. If this were done the fearful stuff sold as whiskey in the north-west would be a drug in the market. Winnipeg Sitings. The Sitings is wrong in its conclusions. The permit system is not a huge failure. The temperance men are endeavoring to make it out such because they are opposed to permits on general principles, and the whiskey men are opposed to anything except licenses. The permit system is therefore between two fires. It is an easy matter for an editor to arrive at an incorrect conclusion when he is merely judging from what is said by those who do not want permits under any circumstances. The Sitings is, however, correct when it says let a few breweries be licensed. This we think, is a fair compromise. NOR-WESTERS EDMONTON. Messrs. E. Hall, Brenton, Spessman and Halpin left Monday to join Deady's survey party. The ferry blockade was raised on Monday morning, for five days the river was so high as to render it impossible to run the sloop with safety. Chief Factor Hardisty, Wm. Pearce, land commissioner, Rev. J. McDougall and David McDougall, arrived from Calgary Tuesday last. Shortly before the party left two Poles were killed at Devil's creek, being knocked off the pile driver car and run over. A Stoney Indian brought into Morley a splendid specimen of mica. D. McLeod arrived from Calgary yesterday evening, bringing as passengers Rev. Mr. Howard, Methodist minister for this district, and Mrs. Howard. Mr. McLeod reports the river in a very bad condition. The saw mill at Red Deer is in the bottom of the river owing to caving in of bank. Lumber all carried away. Alex. McDougal and John Hambley, accompanied by Blue Quill and another Indian, returned from an exploratory trip Monday last. They were induced to make the trip upon the representations of the Indians, who said they would show them where there was lots of mica. The party were absent twenty days and struck out south till they came near Battle River, thence they went in an easterly direction, passing Egg Lake chain of lakes, Beaver Lake, Vermilion river, till within half a day's travel from Ft. Pitt, from which point they turned homeward. They saw lots of lustrous mica, some stones and particles of mica. The supposed mica turned out to be sticky black mud of no use or value. Game was in abundance as was also rain, the country in the vicinity of Pitt being almost covered by water. J. Knowles, of Rosemont Farm, has full peas well formed, which were sown on the 3rd of May; radishes sown on the same day and fit for use on the 14th of June, six weeks from time of sowing. Onions sown at same time, stalks fifteen inches high and bulble fit for use on the table. Planted potatoes in the field on 10th of April and has potatoes now about the size of a common stone ink bottle; spring wheat out in head and looking well. Mr. Knowles' found one of his team horses lying dead, entangled in some bushes near his house on Saturday, the horse had been ailing for three or four months past, but when last seen was all right. P. V. Stevens, land agent for this district, arrived by steamer, North-west. The office will be opened as soon as instructions are received from Ottawa. Mrs. Governor accompanied him as far as Battleford where, owing to the prevalence of cholera, she was obliged to stop. The Indians reported to have passed Victoria with a band of stolen horses passed the crossing on the way in, but made no play, they were both horses. No reports have been received of horses being stolen near Calgary which would answer the description of these, although horse stealing is very prevalent along the railway line. PRINCE ALBERT. Mr. T. H. Demers, from Montana, arrived here this week, with about thirty Montana horses, which he will sell cheap for

Archdeacon McEly will leave for Winnipeg on the 23rd inst. on a visit to his family and also for the purpose of meeting the Bishop of Saskatchewan, who is expected to arrive there about the 19th of August from England, after which he will proceed to Cumberland, to take charge of that district. The Government rifles, accoutrements and saddles in charge of Captains Young, More, Hughes and McKay have been collected and stored in the Police Barracks, where they have been inspected by Lt. C. I. Houghton. The rifles 200 in number along with the other articles, are to be forwarded to Battleford by the first steamer. Louis Riel addressed a large meeting of settlers at Balzac's one day last week. He spoke of their grievances, which he seemed to thoroughly understand, and said that they must work together if they wished the Government at Ottawa to accede to their just demands. He also held a meeting at Lindsay school house this morning at 10 o'clock. FORT McLEOD. Mr. W. T. Finlay, lumber merchant of Medicine Hat, raised last month 60,000 feet of lumber down the Saskatchewan to the Temperance Colony at Saskatoon, and is now having rafted 80,000 feet more for the same place. After working all day yesterday on the ferry and part of this morning, the idea of getting it to work so that the sloop could be crossed in safety was abandoned. A wagon was secured from the other side of the river, the horses swam across, and the mail was ferried in a skiff. The river raised last night and is coming on today, with sawlogs running pretty thick. A boat was put on the sloop this morning. There have not been any such rains as we are having this month in this country since '78. The sloop had gone down so low that people were crossing on foot dry shoals, and the ferry on the river had been tied up for the season. Both have risen again to a much higher point than they reached during the spring freshets. The sloop could not get across yesterday morning, and was obliged to wait until the river was stretched and the ferry boat got into the working order. The chances are that we will not see our mail until to-morrow. No one is to blame for this unless it be the clerk of the weather, as such a sudden rise in the river was entirely unexpected. Mr. Walsh, Dominion Land Commissioner, thus describes Macleod, Fort McLeod is the most unique place he ever visited in the north-west. The site is on an island in the Old Man river, which passes through the town. The population numbers some three hundred souls. The buildings almost exclusively consist of one-story log houses, irregularly built. There several large mercantile houses in the town carrying large stocks and doing a good trade. The people are reputed wealthy, and that money is abundant in the place. BATTLEFORD. A settler came through from Prince Albert last week bringing with him two tons of loads of lumber. Further importations, in that line are now out of order as our own saw mills will shortly be in operation. A hail storm visited this place on Monday afternoon and spent almost its entire force on the town. The area covered was about a mile square, so that very little of the growing crop was touched, and some injured. Window-glass, however, suffered badly, especially at the north end of the town where most of the glass facing the south-west were broken. The barracks suffered to the extent of 90 panes, and of the large panes in At Macdonald's store only two remain unbroken. Bow River Mills CALGARY, PADMORE, SILVER CITY. Lumber! LATH SHINGLES. DOORS, WINDOW SYSH, Tar & Brown Paper Builders' Hardware, Brick, Lime, Stone, Coal & Cord Wood Contracts taken for all kinds of Buildings, Bridges, etc. JAS. North West Council

Wednesday, July 9. The Council met at 2.30 p.m. His Honor the Lt. Governor presiding.

On motion the name of Mr. Geddes was added to the committee on miscellaneous subjects.

The Lt. Governor read a copy of resolutions forwarded by the Regina Town Council petitioning the Governor in Council to give to municipal corporations power to tax livery and transient traders.

An ordinance to amend ordinance respecting the Licensing of Billiard Tables.

An ordinance to amend ordinance respecting Morgues and sales of personal property.

An ordinance for the protection of sheep and other animals.

An ordinance to amend ordinance respecting Auctioneers, Hawkers and Peddlers.

THE HERD ORDINANCE.

Ordinances agreed to in committee and ordered to be reported.

Thursday July 10. The Council met at 2.30 p.m. His Honor the Lt. Governor presiding.

Mr. Oliver strongly objected and advocated working every day.

The Lt. Governor was of the opinion no adjournment should be allowed that would cause any delay in furthering the work of the Council.

Judge Holean explained the object of the motion was to enable the Committee to advance their work.

Mr. Hamilton presented a petition from Grenfell District praying for their establishment as a Municipality.

Col. Richardson moved "That a special committee be appointed to enquire into return of Mr. Geddes as a member of this council."

After some discussion Col. McLeod moved an amendment "that this Council is of opinion that the trial of controverted elections relating to the one now before the council should be provided for by the ordinance."

ORDINANCES CARRIED.

An ordinance respecting fences. Mr. O. G. R. reports of committee on miscellaneous subjects.

Committee reported that the Ordinance as to Agricultural Societies be referred to Civil Justice Committee to decide if Council has power to deal with proposed Ordinance.

Committee reported in favor of Ordinance to amend the Ordinance respecting construction of chimneys.

Committee reported in favor of Ordinance for protection of game.

Committee reported "that proposed North-west Medical Ordinance is premature and be not now considered." Report adopted.

Council went into Committee to consider the following ordinances.

"Herd Ordinance." Ordinances agreed to as amended and ordered to be adopted.

Council resumed—Ordinances reported and read a second time.

Council adjourned at 5 p.m. till Tuesday at eleven a.m.

THE ROCKIES.

Mr. A. E. Walton, Mining Engineer, gives his opinion as to the "Mining West."

Mr. A. E. Walton, brother-in-law of Mr. J. C. Costarworth, who was in Galena a few weeks ago on his way to the mining regions of Canada, has returned and will shortly leave for his home in England.

It is necessary, however, that resources of the region that said development must be done by practical miners, who so well know their business that it will be an object for capitals to invest in them.

Flour mining on the Columbia is very light owing to the high stage of water in the river, but from what Mr. Walton could hear the boys expect to strike it rich.

The coal fields of the north-west which have only been discovered within the last few years have not been developed to any great extent but as the country is settled and as population increases so will the demand for the fuel the workings of these mines will be given a stimulus, and they will prove a source of wealth to their owners and will give employment to hundreds of men.

In the May number of the Review attention was called to the dissatisfaction which some of the classes in the Dominion Mining Regulations had created among miners and others interested in mining industries in the North-West Territories.

We took occasion at the same time to point out the advisability of the representative mining men in the North-west meeting together and formulating their objections to the classes in the regulations, forwarding the same to the Minister of the Interior for his consideration and pointing out to him wherein they are distasteful, and the nature of the alterations that would make the regulations generally acceptable to the miner and at the same

time be reasonable in the interest of the Government. Since the publication of the article referred to, Mr. Burgess, Deputy Minister of the Interior, on the 3rd instant left Ottawa for Winnipeg, and being most anxious that all dissatisfaction among the miners of the Northwest should be speedily dispelled he proceeded on the 6th inst. to Calgary, where he is now in conference with the leading practical mining men with whom he will engage in an exhaustive discussion of the various points at issue, and there exists no doubt that Mr. Burgess, who is invariably disposed to act impartially, will agree to any feasible and advisable alterations in the regulations that will have a tendency to encourage the prospectors and miners and to advance the mining industries of the North-west, which promise to become of so great importance in the country. Canadian Mining Review.

General News.

CANADIAN.

OTTAWA, July 20.—A. A. McDonald, postmaster at Charlottetown has been appointed Lt. Governor of Prince Edward Island.

The government gave notice that Hon. J. H. Gray and Hon. Mr. Chapleau are appointed a committee to enquire into Chinese immigration.

PARIS, July 19.—There were thirty deaths from cholera at Marseilles since nine o'clock this morning, and ten patients have been cured and left the hospital, in Paris three cases of cholera were reported to-day, two fatal, and five cholera deaths in the department of the lower Alps.

The officials at Marseilles are panic stricken because of the failure to stop the spread of the cholera and are fleeing. Six deaths from cholera occurred at Arles yesterday. The shopkeepers at Toulon are closing their establishments and the flight of the inhabitants is universal.

The man stationed at the arsenal is leaving. The Minister of the Interior, Commerce and Public Works, on a tour of inspection of the cholera infected cities has returned to Paris. They state that the adoption of sanitary measures is important, and that 2,000,000 francs will be inadequate for relief measures.

The Government has decorated Dr. Koch with the cross of the Legion of Honor, in recognition of his researches as to the spread of the cholera.

PARIS, July 20.—During the 24 hours ending at this evening, 56 deaths were reported. In the same time 170 cases were received at the hospitals. The refusal of the municipal authorities to allow a procession of women on the streets offering prayers for the cessation of the scourge has created a bad impression.

NEW YORK, July 20.—The Courier des Etats-Unis, of this city has opened a subscription in aid of the cholera sufferers in France.

PARIS, July 20.—Two fresh sporadic cases of cholera are reported. The noticeable fall in the temperature to-day is regarded as the best safeguard against the disease becoming epidemic.

The Pope gave 30,000 francs and President Grevy 10,000 francs for the relief of cholera sufferers.

LISBON, July 20.—Portugal has extended her quarantine to all the European shipping.

BERLIN, July 19.—Dr. Schweinfurte, the African traveller, who made an appeal to England to rescue Gen. Gordon, telegraphs that he has received the details of Gen. Gordon's position through an indirect source from the nubians. The news is believed to be recent.

LONDON, July 10.—Preparations for the expedition to Kartoum by way of Suakim and Berber are nearing completion. A train of narrow gauge trucks and passenger cars, ten for the railroad over the desert to Berber has shipped for Suakim. The passenger trucks will each carry twelve soldiers and a brakeman. They are ironclad and have loopholes at the sides. The War Office is inviting non-commissioned officers to volunteer their services for the autumn campaign in Egypt.

It is reported from Tangier that a French comely troop travelling through Algeria was massacred by Arabs near the Moroccan frontier.

UNITED STATES.

ROCHESTER, July 20.—Dr. Swift, director of the Warner Observatory has received news of the discovery of a comet by Professor Barnard of Nashville on the night of the 18th inst. which discovery was verified by the motion of the comet tonight. It is in the head of the wolf; right ascension, fifteen hours fifty minutes and thirty seconds. Declination, south, seventeen degrees ten seconds. It is moving slowly in an easterly direction. It seems to be growing brighter and is probably coming towards the earth. This is the first comet discovered in the Northern Hemisphere this year.

Red Deer.

What is about three feet ten inches high and is ripening rapidly and better grain is looking well.

McKenzie's saw mill has started running again after being fitted up anew.

Settlers are coming in rapidly and are locating between the Spruce and Red Deer crossing.

The Court.

Col. McLeod, Stipendiary Magistrate for this judicial District arrived from Regina (where he had been attending the N. W. Council) on Sunday to hold the adjourned session of the District court in this town.

The court was opened pro forma yesterday morning at 10 o'clock and adjourned until 2 in the afternoon at which time the docket of cases (about 120 in number) was called, many of which were marked settled, some continued and a number of others judgment was entered by default.

In the matter of appeal cases Col. McLeod decided that the right of appeal from magistrate's decisions was granted by the Act passed last session, but as a mode of proceeding had not yet been arranged, he would not try any appeal cases until that had been done.

This morning the judge was sharp on time, and his there were no lawyers or suitors on hand at 10 o'clock he promptly adjourned the court until 2 o'clock this afternoon.

The concert last night. The promenade concert and conversation which was held last evening in Boynton Hall in honor of the Rev. Jan's Turner, Methodist minister, who is about leaving Calgary, was in every respect a decided success.

The Greely-Schley Rescue.

WASHINGTON, July 18.—The following telegram was received at the Navy Department this morning.

St. JOHN'S, N.L., July 16th.—Hon. W. E. Chandler, Secretary of the Navy Washington. "The Thetis, Bear and Lock Gary arrived here to day from West Greenland, all well. They separated from the Alert 143 miles north during a gale. At 9 p. m. on June 22, five miles off Cape Sabine, in Smith's Sound, the Thetis and Bear rescued alive. Lt. A. W. Greely, Sergeants Brainard, Friedrichs, Lang, Hospital Steward Beiderbeck, Private Connel and Corporal Ellison, the only survivors of the Lady Franklin Bay expedition. Sergeant Ellison had lost both his hands and feet by frost bite died July 6th, at Good Haven, three days after amputation, which had become imperative. Seventeen of the 25 persons composing the expedition perished by starvation at the spot where the survivors were found. One man was drowned while sealing to procure food. Eleven bodies of the dead were rescued and are now on board the Thetis and Bear. One Eskimo, Turnvik was buried at Disco, in accordance with the desire of the Inspector of Western Greenland. Five bodies buried in the ice near the camp were swept away to sea by winds and currents before my arrival and could not be recovered.

MEMBER OF DEAD. Sergeant Cross, Wednak an Eskimo, Sergt Lynn, Lieut. L. Skwood, Sergt Jewell, Private Ellis, Sergt. Ralston, Private Menry, Private Schneider. The names of those whose bodies were buried in the ice and swept away are as follows: Sergeant Rice, Corporal Nator, Private Bender, Assistant Surgeon Patey, Sergeant Gardner. The man drowned by breaking through the ice while sealing was Jeno Edward an Eskimo.

THE EXPEDITION'S WANDERINGS. Greely abandoned Fort Conger August 8th 1883, and reached the ice on September 23 with the entire party well. He abandoned all his boats and was adrift for thirty days on an ice floe in Smith's Sound. His permanent camp was established October 21st at the point where he was found. During the nine months the party had to live on a scant supply of food brought from Fort Reliance. The supplies consisted of Payer Harbor and Cape Isabella by Sgt. Geo. Nares in 1875 were found much damaged by lapse of time.

They also had at each camp a small amount of Cape Sabine in 1882, and a small amount saved from the wreck of the Proteus in 1828 and landed by Lieut. Garlington and C. W. L. on the beach near where Greely's party was found. When their provisions were consumed, the party was forced to live on boiled blubber and seal blubber, and seal blubber and blubber, and seal blubber and blubber.

As it took 1,300 shrimps to fill a gallon measure, the labor was too exhaustive to depend on them to sustain life. The blubber did not do as well as seal blubber, and the party was forced to make excursions. As it took 1,300 shrimps to fill a gallon measure, the labor was too exhaustive to depend on them to sustain life.
