This Company will sell its instruments at prices ranging from \$10 to \$25 per set. These instruments are under the protection of the Company's patents, and purchasers are therefore entirely free from risk of litigation.

This Company will arrange to connect places not having telegraphic facilities with the nearest telegraph office, or it will build private lines for firms or individuals, connecting their place of business or residence. It is also prepared to manufacture all kinds of electrical apparatus.

Full particulars can be obtained at the Company's offices as above

**Very Important to Architects and Builders.**

If you want the most perfect plumbing you must use the "Sanitas" goods. They have no equal as to perfect sanitary arrangements. The leading hotels and large buildings throughout the United States use the "Sanitas" adjustable traps to save venting,

### ROOFING!

**Sparham Fire-Proof Roofing Cement COMPANY.**

The only roof that has stood the test of the Canadian climate, for twelve years it has given nothing but the most perfect satisfaction. All other cement roofs have been utter failures.

All roofs laid have the guarantee of the Sparham Company, which has \$100,000 capital paid up—a substantial guarantee—not on paper.

Roofs laid in Montreal with our cement TEN YEARS ago are as good today as when laid and have had no repairs.

For further information and testimonials apply at head office, 37 St. James Street, Montreal.

#### INSURANCE NOTES.

A. Morin de Premion, of London, Foreign Manager of L'Union des Propriétaires Belges, of Brussels, is now calling in all its policies in force in the United States, and says he will pay the return premiums. L'Esperance of Brussels and Paris, we understand, has also become weary, and will not write any more policies covering there. The remaining three French companies represented by A. Morin de Premion have temporarily suspended operations there as their correspondents will send no further business until outstanding claims are satisfactorily liquidated.

The "Spectator" narrates the case of a wife preventing her husband from increasing his life assurance after the second payment on the first policy had been made. Within a few months after the man died of typhoid, and the widow was left without a cent except the policy she had fought hard to prevent being taken out, and without the amount she would have had enough to keep her and the family in comfort, had she not been so foolishly prejudiced against life assurance. A wise wife will strain every nerve to help in keeping up, and increasing the insurance on her husband's life.

An action has been brought to trial in the Superior Court of Emory M. Van Tassel against Henry B. Beccher and others by which the latter, who are insurance brokers, were sued for the amount of insurance which they failed to renew on policies which expired in January, 1891, aggregating \$30,000. Van Tassel's property was insured for the amount of \$30,000.

## THE CANADIAN AND EUROPEAN Export Credit System Co.,

Head Office, NEWARK, N. J., U. S.

Guarantees Against Excess Losses Arising by Reason of Bad Debts.

\$100,000.00 Deposited with Dominion Government as  
Security for Canadian Policy-holders.

**G. E. SEYMOUR,**  
IMPERIAL BUILDING, 107 ST. JAMES STREET, MONTREAL.

General Agent for Eastern Ontario and Province of Quebec.

It was considered an extra hazardous risk, and when the brokers were asked to have the policies renewed they were unable to do so, as Van Tassel was not willing to pay the extra sum demanded. The property was destroyed by fire before the policies could be renewed, and it is now attempted to hold the brokers liable for their failure to have the policies renewed.

A conference of underwriters, with lumbermen and mill-owners is being held at Ottawa. The insurance men present are Messrs. G. F. C. Smith, of Liverpool, London and Lancashire; and C. J. Heaton, of the Guardian, of Toronto, and E. D. Lacey, of the Imperial, of Montreal. Among the lumbermen and mill-owners present were J. R. Booth, C. J. Booth, A. W. Fleck, W. C. Edwards, M. P.; H. K. Egan, E. A. Crannell, Hiram Robinson, C. Hughson and others. The question of the introduction of sawdust burners in the lumber mills here which will be necessary if the legislation of last session prohibiting the further throwing of sawdust and mill refuse into the Ottawa River is not rescinded during the approaching session, was considered. The fact was brought out that if the burners are introduced the rates of insurance will go up, not only on the mills, but on all Ottawa property within reach of the dangers of fire from them.

#### AN INVESTMENT THAT PAYS.

Purchase an annuity on your life in a successful and well-managed company having an excellent record for strength and surplus earnings, and thus secure a return of from 4 to 6 per cent interest according to age on the amount invested.

The North American Life Assurance Company, Toronto, has justly earned for itself the above reputation, and you could select no better institution in which to secure an annuity.

Write the company for full particulars or make application to any of its agents.

After the great Chicago fire insurance rates were universally advanced and the rate on the Philadelphia lumber yards was made three per cent. To this trade objected, and combined stock and mutual company, which was named the Lumbermen's Insurance Company, was formed and the rates were reduced to two and afterward to one per cent. The other companies all followed the example set, and the last named rate was continued until 1892, when the tariff combination ordered an advance. The Lumbermen's Insurance Company is still in existence and is doing a prosperous business, but it is no longer the champion of the lumber dealers. The mutual plan at first adopted was abandoned, and now it is a full fledged, get-all-it-can, high premium stock company. Although a number of the lumbermen are still stockholders, and its president was formerly a member of the trade, it joins in the cry for a

general advance in rates. The office admit that lumber has been a very profitable line, but claim that advanced rates on other lines cannot be secured if lumber rates are left unchanged.

Menzie, Turner & Co., of Toronto, have secured the good will, plant and stock in trade of the Macfarlane Shale Co. (Ltd.), which purchase places them as one of the heaviest manufacturers of such goods on the continent.

"The Grosvenor" a big Temperance Hotel in Hull, (England), the cost of building which was \$15,000,000 has been making a loss of \$3,000 per year on its working. The directors have moved for and obtained a license under rigid restrictions to remedy this. One of the odd things about prohibitionists is that they never can manage hotels, and more, they do not patronize temperance hotels when travelling.

The Glasgow "Herald" points out how British coal is found no longer necessary at a number of coaling stations. Australia and Chili are sending fuel to points on the Pacific coast. Japan mines are furnishing large supplies for that part of the east, and even India is now turning out a large amount of coal, which is supplying Bombay, Madras, Burmah, etc. Siberia as a coal shipper also is coming into the market by a new railway. A vein of coal 9 feet thick has been opened at Sydney, New South Wales. The effect of these recent discoveries of distant coal beds will be serious to Great Britain, as they mean not only a loss to shipping and mining interests, but a development of manufacturing in countries where hitherto England had a monopoly.

A recent decision of the Supreme Court Rhode Island will be of some interest to associations who are listing wholesalers. The National Association of Master Plumbers has a branch in Rhode Island. It recently sent circulars to the wholesale dealers plumbers' supplies, warning them not to sell supplies to plumbers who were not members of the association. These circulars were aimed at McCauley Brothers, of Providence. This firm undertook to purchase supplies in the open market, but in some instances failed, being thus put to some inconvenience. The brothers applied to the Supreme Court for an injunction to restrain the association from interfering with their business. Judge Tillinghast, says that, undoubtedly, the members of the association have the right to purchase their supplies where they please, and to combine, and agree that they will not patronize wholesalers who sell to non-members of their own association. Yet they have no right by their threats to coerce wholesalers not to sell to non members of the association.

#### BANK OF MONTREAL.

NOTICE is hereby given that a DIVIDEND OF FIVE PER CENT. upon the paid-up Capital Stock of this Institution has been declared for the current half-year, and that the same will be PAYABLE at its Banking House in this City, and at its Branches, on and after SATURDAY, the FIRST DAY OF DECEMBER next.

The TRANSFER BOOKS will be closed from the 16th to the 30th of November next, both days inclusive.

By order of the Board,

E. S. CLOUSTON,  
General Manager.

Montreal, 16th Oct., 1894.

The lead at Smithfield, N.S., is to be worked by the Dominion Smelting and Refining Co.

To the general trade, a well-dressed window is an advertisement and encouragement to business which should not be overlooked.—"Trade Magazine."

All to be erected by Arthur Hill, of Saginaw, in Ontario, will, it is said, have a capacity of 60,000,000 feet annually, and will be one of the most complete in the world.

The man who advertises only once a year has no abiding place in the public memory. It is his rival who reaches the public every day, and whose statements are to be relied upon, who achieves the greater measure of success.—"Denver Times-Union."

The Ottawa Post Office department has received official notice from the imperial post authorities, that authority has been granted for the acceptance at the post offices of business cards with a postage stamp attached, to take the place of ordinary post cards, also that private return post cards may be issued with the necessary postage stamp attached, which

Will be good for replies. These latter cards though the postage stamp will be English, will be perfectly good when posted in a Canadian post office.

The "Watchman" says: "Any one who cares to look over the list of Boston aldermen or common-councilmen, will look in vain for a single name that would be recognized in business, or professional, or social circles in Philadelphia, or New York, or Chicago. The personnel of the administration of the City of Boston was never so low as it is in the present year. It is likely that the city institutions of charities and correction were never so unskillfully and wastefully conducted as at present. Instead of correcting crime they manufacture it."

This year proves that Kootenay is not only British Columbia's greatest silver and lead producing district, but that it has wrested from Cariboo the palm of being the great gold-producing district of the province. The gold output of Cariboo comes from gravel mines; none, so far, coming from quartz mines, and as quartz mining in Kootenay is not fairly commenced, the present output is likely to be greatly exceeded in the near future. Gravel mining gives employment to but a few men, and at best is not a lasting industry. Quartz mining necessarily gives employment to a large number of men, and the industry is a lasting one. The gold output of Kootenay will this year approximate a total of \$250,000, as follows:

Mining Division	Gravel Quartz
Trail Creek.....	150,000
Nelson.....	20,000
Toot lake.....	2,000
Revel-stoke.....	10,000
Fort Steele.....	10,000
Total.....	200,000

— "Nelson Tribune."

Over one million U.S. electors "flopped over" from one side to the other in the recent elections.

The government of South Africa has issued \$2,500,000 3 per cent bonds at par all of which have been bought by the local colonists.

The "Produce Exchange" gives the following returns of wheat production for last 15 years. We have changed the form our contemporary's table for it to be read more easily. In each case the figures represent millions of bushels of wheat.

### BUSINESS TROUBLES.

Charles Hill, Lucan, Ont., has assigned to H. M. Wilkinson. The estate is a small one.

William M. Morse, foundry, St Thomas, Ont., is offering to compromise at 50c on the dollar.

Francis Brisson, Jr., grocer, Montreal, who recently failed, will be sold out by the Curator.

W. F. Beck, crockery, has made an assignment to Chas. Desmarcain. He has been financially weak for some time.

M. Hamel, trader, Quebec, who was reported to have arranged settlement with creditors at 50c, finds difficulty in doing so.

L. H. Chouinard, Matane, Que., has assigned to Lefebvre and Taschereau. No statement of affairs has yet been prepared.

W. Bernard & Co., Sutton West, Ont., have assigned to E. R. C. Clarkson, Toronto. The business was run by William Bernard.

Adelard Lapointe, carriage maker, Lotbiniere, Que., obtained an extension of time of 18 and 24 months. His liabilities are only trifling.

Ferrault & Co., furniture, 1510 St. Catherine st., held a meeting of creditors this week, at which C. Desmarcain was appointed Curator.

The Essex Glass and Iron Co., London, Ont., are endeavoring to compromise at 50c on the dollar, but the creditors have not yet been accepted.

F. Loucy, grocer, Quebec, has assigned with liabilities of \$6,000 and assets \$3,000. Messrs. De Lisle & Co. have been appointed provisional guardians.

W. A. Harper, whose business trouble we referred to last week has now assigned and R. Kennell has been appointed Provisional Guardian. The principal creditors is Wm. Morgan & Sons for \$1,800.

J. Lehtie, boots and shoes, Quebec, has found it necessary to compromise at 25c on the dollar. The liabilities are said to be about \$2,500, and assets \$1,000. Geo. Daryau has been appointed curator.

Hugh W. Meahan, general store, Bathurst, N.B., has assigned to Jacob White.

T. R. Allison, grocer, Toronto, recently assigned to Henry Barber & Co. The assets are not known yet.

W. Mayhew, Huntsville, whose failure was noted recently, has assigned in trust to Richard Tew, Toronto, with \$1,480 liabilities.

Levi Adam Lour, carpenter, Aylmer, Ont., who has been in business for some time past has now found it necessary to assign to A. W. Pearce.

David Burrows, North Gower, Ont., harness maker, who has been in business for several years in a small way has assigned to John Kerr. The liabilities are only small.

W. H. McClure, crockery dealer, Lindsay, Ont., held a meeting of creditors on the 15th inst when McClure offered 12 1/2 on the dollar. The liabilities are said to be about \$8,000, and assets about \$3,000.

Joseph Armstrong & Co. dry goods and mens furnishings. This firm made an assignment on the 13th inst to John Ferguson in Toronto. They owe \$12,000 and their assets are said to be about \$9,000.

McEwen, dry goods and clothing, Sudbury, Ont. held a meeting of creditors on 20th inst. The principal creditors are Holden & Co. Toronto, J. A. Seybold, Ottawa, and Gault Bros. & Co. Montreal.

Champagne & Senez, St. Valier de Bulstroee, Que., whose financial trouble we noted last week, are now offering to settle at 40c in three, six and nine months. Liabilities are about \$225 and assets \$2012.

H. Bernier, general store, Edmondston, N. B. who has been in business a year or so, has assigned to F. Laforest with liabilities of \$3,118 and assets 1,200. The estate is not expected to turn out favorably for creditors.

Miss Annie Fitzpatrick, milliner, Montreal, who came to the latter city from Quebec, has failed. Principal creditors are J. D. Ivey & Co., Toronto, \$500; John Maclean & Co., \$280; D. McCall & Co., \$300; Reid, Taylor & Bain, Toronto, \$300.

J. Rivet & Co., dry goods, Montreal, recently assigned at the instance of Alphonse Racine, who has been appointed provisional guardian. Racine heads the list of creditors with \$2,989, J. Grenier & Co. \$1475, and L. d'ell, Lesperance & Co. \$1312.

Ovide Julien, general store, Scott Junction, Ont., has assigned to Charles Olette, with liabilities \$3,000 and assets \$1,000. Julien has been in business about nine years. Recently judgment of the courts went against him, and this embarrassed him.

A. W. Garbutt, Picton, Ont., has made an assignment to James Gillespie, sheriff. He commenced in the general store line about ten years ago. He failed in March '91, but afterwards resumed. Garbutt has been working under a chattel mortgage for some time and has enjoyed comparatively no credit.

Thivierge, Morin & Morin, who have been in the tanning business for the past year or so, have found it necessary to seek settlement with their creditors at 10c on the dollar cash. The liabilities are said to be in the neighborhood of \$3,000 or \$4,000, and assets are calculated to bring very little.

A. N. D. Livingstone, general store, Yorkton, Assiniboia, N.W.T., has failed with liabilities of about \$2,000 and assets about the same, which are, however, mostly in book debts. He has succeeded in arranging settlement at 60c on the dol-

lar. The settlement is considered a good one.

F. C. Miller, livery, Montreal, has made an assignment at the instance of W. Lefebvre, and James Scott has been appointed provisional guardian. Among the creditors are Samuel Ephraim, \$1,000; Wilfrid Lefebvre, \$215; Alex. Ouimet, \$225; Jas. Scott & Co., \$1024, and B. Le-doux \$264.

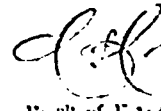

David A. Fraser, Causo, N.S., general store, who has been in business a good many years recently assigned to A. Kirk & Co., of Antigonish, which firm obtained a judgement against him for \$966. Fraser was noted in the locality for evasion of the Scott act. His liabilities are said to be \$2,500, and assets about \$2,000.

Lally & Cavanagh, cigars and fruits, Cornwall, are endeavoring to compromise at 30c cash. Lally & Cavanagh are two young men who commenced about two and a half years ago. They appear to have had very little capital, and they were obliged to obtain an extension from their creditors in January last.

George S. Hinch, general store, Tamworth, Ont. who succeeded Hinch & Hinch, some years ago has assigned to James Aglesworth. The old firm Hinch & Hinch commenced business at Centreville '82, and opened up a branch at Tamworth, the following year which latter was subsequently conducted by Geo. H. Hinch. The stock is small and liabilities are believed to be in proportion.

Alphonse Bernier, general store, Cap St. Ignace, Que., is offering to compromise at 75c on the dollar, one third cash, one third in three months and one third six months secured. Bernier was recently sued by Gault Bros. & Co. for \$266. At a meeting of creditors held recently in Quebec the insolvent showed a surplus, but it is said that this is not the case.

# DAUNTLESS SHINGLE and HEADING MACHINE

CAPACITY FROM 5,000 TO 50,000 PER DAY

Will make more shingles per day than any self-acting machine with vertical saw in existence, and more shingles from the same quantity of timber.

**THE FRAME**

Is of iron throughout, very heavy and rigid, strongly bolted and braced.

**THE CARRIAGE**

Is very light and strong, and made of galvanized iron plates, running on steel ways or tracks. Will take in a block 18 inches wide and 9 inches long, adjustable for 18-inch or 18-inch shingles.

[COPY.]

LINGSAY, May 5th, 1893

Mr. F. J. DRAKE, Belleville.

Dear Sir,—The shingle-machine we bought of you over a year ago is doing well. Last year we averaged over 25,000 shingles per day all through the season. We did not lose 15 minutes' time from all stoppages, and all repairs for the year not cost a cent. We expect to make a still higher average on this year.

All our other machines purchase of you is as good as the shingle machine. Your heading saw, with friction drive, can be beat-ten. We run ours 180 strokes per minute; with 6 ft. saw it would easily make blocks for two shingle-machines. The spring, with balance wheel, has done very well, giving 100 lbs. per foot and a saw about the low 1 ft. The iron frame shingle mill with bench saw is the only good lumber we ever saw. In fact, all your machinery, like saws, pulleys, etc., give us the best satisfaction.

We expect to purchase another mill in a few days, and if we do, will send you the order for complete outfit.

Truly yours, M. DOVEY.

P.S.—If any one wants to see a good working shingle mill send them to me.—M. D.

## F. J. DRAKE, SAW, SHINGLE AND LATH MACHINERY, Belleville, Ont.

*Patentee and Manufacturer of*

The C. P. R., has just put on 300 men in its car shops.

The Good Government Association now numbers 260 members.

It is estimated that two and a half million vehicles are in use on the world's railways.

At a meeting of the Directors of the Windsor Hotel Company, a dividend of three per cent was declared.

Australian money orders will in future be settled direct with that colony instead through England as heretofore.

A dividend of 7 1/2 per cent has been declared in the James Eaton estate. There is a small sum to be divided next March, but it is expected this will not exceed 1 per cent, making a total dividend of 8 1/2 per cent.

Mr. F. W. Hodson, the new Director of Farmers' Institutes is well and favorably known to stockbreeders of almost all classes throughout the Dominion. The Daily British Whig of 19th inst., contains a very interesting sketch of Mr. Hodson's career.

The Boston "Producer and Builder" describes a cold storage chest built out into the air on a level with the kitchen, which is an excellent arrangement. The windows are slatted and covered with fine wire to secure a current of air and keep out the flies. In our upper tenements which have no cellars, this idea might be adopted with advantage.

The last bulletin of the year just issued by the Bureau of Agriculture gives the following estimate of Ontario crops for the year: Fall wheat 12,512,100 bush, as against 17,545,248 last year; spring wheat, 3,567,851, as against 4,186,013; Barley, 10,

930,104 against 9,896,088; Oats 69,867,716 against 58,581,520; Peas, 14,622,888 against 14,168,955; Buckwheat 2,531,335 against 2,380,476; Corn 16,275,352 against 14,072,961 and Hay 3,575,200 tons against 4,963,557 tons.

The Drummond mine, N.S., owned by Montreal capitalists, is one of the best equipped collieries on the continent. This year its output, 225,000 tons, is the largest in its history. Had not two of its chartered steamers, running up the St. Lawrence, been wrecked, its output would have been larger. Five hundred hands are employed, and a large sum is being spent in development. The Acadia company caters to the domestic trade, and its output of about 100,000 tons varies but little.

Application will be made for letters patent incorporating the Laurentian Summer Resort company. The purpose is the building of hotels along the Lower St. Lawrence river, from Murray Bay to Gaspé. The chief office of the company will be in Montreal. The capital stock of the company will be \$50,000, divided into 500 shares. The petitioners are Messrs. Shipman, railway agent, Quebec; McDonald, Stocking, railway agent, Quebec; Connolly, contractor, Montreal; Dufresne, merchant, Montreal; McDonald, railway superintendent, Fraserville, who will be the first directors.

The Newfoundland asbestos property owned in Halifax has been examined by experts this season, but still remains unopened. The producers of Quebec may therefore rest for another six months before fearing a deluge of the Newfoundland mineral.—"Canadian Mining Review."

The stockholders of the "property owned in Halifax" are not anxious for "winter development" in Newfoundland but prefer to "rest" until more favorable weather comes and they will then doubtless turn on

the deluge, evidently so feared in Quebec and Victoria chambers, Ottawa.—"Colliery Guardian."

The Royal Electric Company has declared its regular quarterly dividend of two per cent.

The Chairman of the Peninsular & Oriental Navigation Co., says the possible maximum speed of ocean steamers has not been reached. In speaking on the subject he said recently: "Nowhere else is the maximum speed equal to that of the Atlantic route, for the simple reason that only between America and Europe does a colossal passenger traffic exist to pay for the cost involved. I need hardly tell you that it is passenger traffic and not freight which pays for speed. Indeed, as regards freight, the demand is for lower and still lower rates; and if shipowners advance much further in the groove of cheap freightage, they will, I suppose, carry goods for nothing and pay a bonus to merchants for the privilege of doing their work gratuitously. As you doubtless know, the English mails have been conveyed between Charing Cross and Bombay in 13 days, which brings India very near to our doors, and probably this record may be improved ere long. The run from Southampton to the Cape has been accomplished in some 11 1/2 days. If any gentleman now listening to me happened to be in a great hurry to make the voyage round the world (as it is called)—namely, to go via America to Japan, China and India, returning thence to this country, he might accomplish the journey in perhaps less than 50 days, provided the steamers and trains dovetailed in point of time at the various ports of transshipment."

# GRAND TRUNK RAILWAY CO.

## CHANGE OF TIME.

Taking effect at 6 10 p.m., October 7, 1891.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Beaulieu Work," will be received at this office on Friday, the 7th of December next, inclusively, for the construction of protection works above the Grand Trunk Railway Bridge over the River Richelieu, in both County of Vercheres, Quebec, according to plan and specification to be seen at the Post Office, Beaulieu Station, and at the Department of Public Works, Ottawa. Tenders will not be considered unless made on the form supplied and signed with the actual signatures of tenders. An accepted bank cheque payable to the order of the Minister of Public Works, equal to 5 per cent of amount of tender, must accompany each tender. This cheque will be forfeited if the party declines the contract, or fail to complete the work contracted for, and will be returned in case of non acceptance of tender. The Department does not bind itself to accept the lowest or any tender.  
 By order,      E. F. E. ROY,  
 Secretary.

Department of Public Works,  
 Ottawa, 10th Nov., 1891.

statement, two minutes after, that there is no fire in the building will not prevent the shock and mad frenzy that any one who has ever been in such an audience will vividly recall. "The Watchman."

An English syndicate has bought 1 more British Columbia canning factories.

It is astonishing, says the "Jeweller's Guide," how much time some manufacturers devote to the subject of advertising—thinking up arguments against advertising—and why they should advertise but why they should not. How best arguments have gone down in defeat before facts? No manufacturer, purchasing space in a legitimate trade journal, operated on business principles, at a fair price for the space, can lose money on the investment, provided his advertisements are properly prepared, and he is selling a saleable article. This fact has been proven time and again.

 Toronto, 18th October, 1891.

Secretary Carlisle makes a lame reply to Senator Frye's charges, as to his famous statement of April 21, 1893, that he had been "paying gold for the coin treasury notes issued for the purchase of silver bullion and that he will continue to do so as long as he has gold lawfully available for that purpose." Mr. Carlisle says that this language meant that he would preserve the parity between gold and silver at all hazards. This may have been what Mr. Carlisle meant, but it is not what his language meant, nor what the public understood it to mean. Mr. Carlisle's statement was justly interpreted to indicate that silver certificates might be paid in silver. This statement, we have always maintained, was one immediate and decisive cause of the panic of 1893. The selling of American securities by Europe began on April 22, 1893, in enormous volume. Public confidence in the ability of the Treasury to maintain the parity of silver with gold was disturbed. Two days later the President felt called upon to contradict the impression of Secretary Carlisle's statement, and to deny explicitly that the administration contemplated the redemption of any kind of treasury notes except in gold. This statement was one of the best things that Mr. Cleveland ever did, but those who claim that Secretary Carlisle's announcement did no harm because Mr. Cleveland two days afterwards put his foot on it, forget that it is much easier to disseminate distrust than to dissipate it. The man who in a crowded audience-room calls out "fire" will probably cause a panic, and the authoritative

### THE DAIRY.

The annual convention of the Quebec Dairymen's Association will be held at St. Joseph de Beauce on Tuesday, Wednesday and Thursday, Dec. 4, 5 and 6. The Commissioner of Agriculture will be present. The proceedings will be for the most part carried on in French, but a special English session will be held on Wednesday afternoon. Many prominent agriculturists and dairymen from different parts of Canada will address the convention.

The charge made that Canadian shippers labelled cheese as "September" fraudulently, turns out, as we suspected, to be wholly false. The President of the Montreal Butter and Cheese Association, Mr. Niven, declares the report to be without foundation, but its source will be ascertained. Mr. A. W. Grant, who, this season has shipped 155,000 boxes thinks the charge absurd. Mr. John McKergow, of Ayer & Co., says, no one in the trade could be deceived into taking June for Sept. cheese. Sir Charles Tupper will we trust, sift this matter to the bottom. Probably it originated in the States.

Mr. Wilkins, of Mansonville Station sends the following to the "Gazette"; "The Gem factory's report shows the receipt of 608,281 pounds of milk. The quantity of cheese made was 57,507 pounds, the average quantity of milk to each pound of cheese being 10.56 pounds. The amount received of cheese sold was \$5,410.45; the cost of making and selling \$741.58, and the patrons received \$4,668.81, or 76.75 cents per 100 pounds of milk. The sale price of cheese ran from 8 1/2c to 9 1/2c in June to 10 1/2c in September. The number of "made" days was 173, the number of patrons 23 and the number of cows 300.

The cows were graded and mixed and in addition to the pasture grass they received a small quantity of fodder corn."

The "Voice," prohibition organ of New York, admits that two thirds of the voters of that party did not vote with the party in recent elections.

The general superintendent of the C. O. R. has issued an order, that all employees of the road, whose wages have been garnished for just debt, will be dismissed from the service.

Canadian white, or black cotton has been cut in price about 1 to 1 cent a yard. The reduction will be made as follows: Under 6 cents, 1 to 1 cent reduction; over 6 cents, 2 to 1 cent reduction. This was done partly to bring white cotton on a par with grey, which was long ago reduced.

A company has been formed, and is seeking incorporation, to acquire certain patents for heating and ventilating cars, steamships, etc., which are owned by Mr. Hughes M. P. of Lindsay as inventor of the process. The stock is \$500,000. The directors of the Toronto Street railway are the chief incorporators.

Mahogany and other fancy woods are sold by auction in Liverpool, buyers being given a chance to examine logs before sale

day. It is proposed to introduce this custom into the States. African mahogany is pushing Honduras hard in the English market's.

The Dundas Town Council declines to pay any portion of its bonus to the T. H. and B. road until it is finished to Toronto. It believes in not paying for goods before delivery.

The population of London is 33,427, an increase of 856 within the past year. The value of real property has advanced in the same period from \$12,955,660 to \$13,201,110, and the total assessment is \$15,650,060, a gain of \$282,150.

Bowmanville, Ont., will miss Mr. Prower who recently died in England, his public spirit and energy made him a valuable citizen. His family have our condolences. No kinder, more hospitable man, nor a more loyal Canadian ever lived.

The French Ambassador, through the Department of Agriculture, apprises wine growers and manufacturers of spirits and fermented liquors that, from May to November next year, an International Liquor Exposition will be held in Bordeaux, France, under the auspices of the Philomathic Society of that city, and cordially invites them to avail themselves of the opportunity to extend a knowledge of their resources in these products to the people of Europe. All classes of alcoholic liquors are to be included, and exhibitors will have to pay an initial fee of 20 francs at a rate of 50 francs per square metre for space occupied. Those not desiring a special display can exhibit a half dozen bottles for 20 francs, a charge of 2 francs being made for each additional bottle. In connection with above we may advise all, whether in the trade or not, to visit Bordeaux, if opportunity offers, they would very greatly enjoy a trip through the "charet country" and find a pleasant reception from owners of the large vineyards.

# The Wm. Clendinneng & Son Co., Ltd.

TO OUR FRIENDS:—

*Our new works at St. Henry are about finished, in fact we are working two-thirds of our men there now. We hope to have the works complete and in full working order this year, when we will have the finest Foundry and Pipe Works in the Dominion, and one that is excelled by but a few in the United States. Everything is new. We have the latest and most expensive machinery, a thorough practical superintendent, skilled foremen and capable workmen. We are now in a position to turn out any class of work in our line SECOND TO NONE, and our increased facilities will enable us to cut prices close.*

VERY TRULY YOURS,

The Wm. Clendinneng & Son Co. Ltd.

MONTREAL & ST. HENRY, QUE.

Summerside P. E. I. recently shipped 1000 barrels of oysters to this port.

It is stated that the G. T. R., is about building a short line to give it direct connection with Brantford.

The Niagara Falls Park and River Railway Co. is opening valuable limestone quarries near Queenston.

The terra cotta brick work on Messrs. Catto & Son, new building, King st., Toronto, supplied by the Rathbun Co., is much admired.

A vessel left B. Columbia last week for England with 69,608 cases of salmon in board. Halibut by the 25,000 tons are being brought in for shipment to eastern markets.

The total of steerage immigrants into the States in October was 15,383. They came from, Ireland, England, France, Germany, Italy, Switzerland, Norway, Hungary, Coraica, Russia, some too from Asia, and South America. The coming American will be a racial curiosity.

The London Eng. "Caterer" says. "The present stock of champagne, we learn from Messrs. J. R. Parkington & Co., is the largest ever held in the Champagne country. It was recently equivalent to almost 170,000,000 bottles. This is fortunate in one respect, because phylloxera trouble has seriously threatened the vineyards of the Marne districts. The insect is said to have been discovered at about thirty-five different places in the Department this year, but the area affected is small, and every effort is being made to overcome the pest. In any case, however, the world is assured of its champagne supply for five or six years to come, and it is further

pleasing to find that the wines of the last two years are developing satisfactorily, whilst the quality of 1894 champagne is likely to prove much above the average." The production of whiskey in the whiskey manufacturing states during the year ending June 30th last, is as follows says "Wine and Spirit Gazette":

State.	Gallons.
Pennsylvania.....	5,478,365
Maryland.....	2,610,262
West Virginia.....	193,340
Kentucky.....	20,135,803

The cost of running a train is about \$1 per mile, without any allowance for wear and tear, or interest on capital.

The exports (exclusive of specie) from New York to foreign ports for the week ending Nov. 13th, were \$1,389,818 below those of last week. The following enables comparisons to be made with the corresponding period of last year:

	1894.	1893.
For the week... reported.....	\$6,944,519	\$6,583,893
Previously reported.....	308,766,343	319,084,268

Since Jan. 1. \$311,759,872 \$325,668,161  
The exports for the week include: 15,534 bbls apples, 5 do potatoes, 3,331 lbs. bees-wax, 149,109 bbls wheat flour, 71 bbls rye flour, 2,610 bbls corn meal, 256,562 bush wheat, 5,513 do oats, 2,684 do peas, 21,229 do corn, 1,307 boxes candles, 1,387 tons coal, 19,832 bales cotton, 9,202 do hay, 531 bbls spirits turpentine, 1772 do resin, 202 do tar, 124 do pitch, 9,084 gals lard oil, 1,193 do linseed oil, 12,738 do cottonseed oil, 7,781,273 gals petroleum, 2,330 bbls pork, 2,562 do beef, 438 tres beet, 3,123,605 lbs cutmeats, 80,441 do butter, 750,978 do cheese, 3,686,625 do lard, 889 bbls rice 251,362, lbs tallow, 3,557 hhds tobacco,

1560 pkgs tobacco, 88,347 lbs manufactured tobacco and 3,806 do whalebone.

The California grape crop is reported very short.

The Farmers' Binler Twine Co., held its annual meeting at Brantford on 14th inst.

The Architect and Builder gives the following list of recent Canadian patents: Patent No. 17,069, has been granted to Jules Colas, Montreal, for a draining well. A patent No. 17,944, for a door knob, has been granted to Albert E. White, Dutton, O. t.

Messrs. Darling Bros., Montreal, have been granted a patent, No. 46,561, for a combined bracket and shelf. John Heard, Strathroy, Ont., has been given a patent on moulds for forming concrete into pipes for drains, &c. Patent No. 46,969 has been granted to Geo. Belanger and others of Quebec, for a cement formed of quartz and other substances. Samuel John Laughlin and James H. Hugh, of Guelph, Ont., have received a patent No. 47,003, for a sketching and designing table. Theophile E. Ayotte and Arthur A. Charbonneau, Montreal, were given a patent, Sept. 26th, on a process for making brick and artificial stone. Hugh C. Baird and Oliver Baird, of Parkhill, Ont., assignees of James and Eli Elliott, of Wingham, Ont., have obtained a patent No. 47,054, on a brick and tile machine. Charles H. Dalrymple, Detroit, Mich., and Chas. E. Hassey, Hamilton, Ont., have been granted a patent, No. 47,031, on a roofing composition, consisting of sheets of wood fibre, rendered impervious to moisture, and having abutting up-turned edges, the battens provided with a groove in their outer edge which receives the up-turned edges of these sheets to close the joints.

The statement of exports for the month of October shows that the export of goods, the produce of Canada, is still keeping up, and although the produce of other countries continues to show a material falling off from last year, still the total exports for October were \$599,663 more than the corresponding month last year. The total was \$14,603,666 as compared with \$13,706,003 last year. This shows an increase for the month of \$1,640,882 in goods the produce of Canada, but a decrease of \$743,219 in produce of other countries. For the four months of the fiscal year the total exports have been 4,915,137, as compared with \$52,741,554 for same period last year. This decrease is wholly in the produce of other countries, and is accounted for either on the ground that the Western states have less surplus wheat to export at the low rates or it is not reaching the seaboard by way of the St. Lawrence. For the first four months of the last fiscal year the export of agricultural products not the produce of Canada was \$5,479,684, while this year it only amounts to \$1,639,468, coin also shows a decline of \$300,000,

	45,372,364	45,310,497

The value of goods entered for consumption during October was \$8,357,741, and duty collected \$1,426,039 showing a decrease of \$443,776 in value and of \$127,241 in duty as compared with the same month last year.

Mr. C. M. Higginson, an expert Chicago engineer, in a paper on the abatement of the smoke nuisance, gave the following rules as essential to good combustion.

1. A good draught.
2. Open grate bars.
3. Means for supply of air above the fire.
4. Means for mixing the air with the volatile gases.
5. Distance in which so complete the combustion of the mixtures.

Mr. Higginson says the grate bars should have air spaces equal to 50 per cent. of the grate, and that unrestricted space of 20 feet is needed for the flame. With an 18 foot boiler this can be secured. For locomotive boilers and tugboat boilers a combustion chamber should be placed midway between the tubes. In no case should the draught for the flame be direct from the fire-box through the tubes, for the temperature in the tubes rarely rose above 320 degrees, and 1,500 degrees was requisite for the combustion of the volatile gases, which was the chemical character of smoke.—Ex.

A Washington despatch says the revenue of the postoffice department for the year ended June 30, 1894 shows a falling off while the expenditures have increased. The deficiency for the fiscal year, 1893, was \$5,066,763, while the deficiency for 1894, is \$9,243,935. The decrease of receipts was \$316,454 and the increase of expenditures \$3,250,309. The total expenditure for 1894 was \$84,234,414, and receipts \$75,080,479. The department suffered losses amounting to \$63,882 by outstanding bad debts and compromises with debtors. There has been a falling off in registered letters during the year 1894 of 510,856, the total pieces registered amounting to 15,050,554. There have been 5,926 complaints of cases of registered packages lost during the year, of which 4,296 were investigated by the chief inspector, and 1,357 are still outstanding. Of those investigated there was no loss in 2,427 and loss in 1,826, with an actual loss of being traced of 923.

Following the example of the Ontario government that of Quebec proposes to devote 1,619,640 acres, comprising large parts of the counties of Montmorenci, Quebec and Charlevoix, to form a public park. The object of the park is described to be the preservation of the primeval forest, the fish and game, the maintenance of an even water supply and the study and culture of forest trees. It is declared that such forest reserves have been beneficial in the United States and elsewhere and the territory above described "is well adapted for the purpose, being largely unfit for settlement, not under license to cut timber, well provided with fish and game, comprising the head waters of several large rivers and with easy access from the centres of population." The park is some 6 miles from St. John railway from which an open line will undoubtedly be built. The government should take steps to have a large hotel built in the park.

The Tasmanian government together with the lumber manufacturers of that country, recently shipped 300,000 superficial feet of blocks nine inches long and three inches thick wood blocks to be used in paving the streets of London. The government is paying all freight, and it is interesting to note that they expect a profit even after shipping so far, and the difference between the cost to the manufacturers, delivered at the wharf in Hobart, and the sum received by the government is to be divided as profit by the government and the manufacturers furnishing the blocks.

JOHN HAGUE, Editor.

MONTREAL, FRIDAY, NOV. 23, 1894.

### BANK STATEMENT FOR OCTOBER.

The bank returns for October present no features of marked interest, or in any way out of the usual course for that month. Circulation increased \$1,161,495, the total being \$34,516,651, which is \$2,400,000 lower than at corresponding date 1893, the increase for September being much less this year than last. The Dominion Government reduced its credit balances with the banks by \$229,082, and the Provincial Government theirs by \$722,312. Public deposits on demand, balances of current accounts, were increased by \$1,365,922, in equal proportions amongst the banks of Ontario, Quebec and Nova Scotia. Those of New Brunswick were diminished, business there being in a fairly active condition. This increase is almost identical with the change in October last year. Deposits payable after

notice were also increased by \$801,293. In 1893 these deposits were diminished in October by \$447,000, a very trifling sum indeed, which probably indicates the extent of disturbance caused by the American panic. It is noticeable that, despite the intervening period having been one of general depression, the deposits at notice in our banks have increased since October 1893 by \$8,327,624, which is not only very striking evidence of public confidence in the banks, but shows too that the people have been able to keep on laying up a surplus of earnings even in hard times. During October the balances held in the United States have increased \$1,164,170, these funds standing at \$22,604,212, against \$14,829,370 at same date 1893, an increase of \$7,774,842, but little above the amount so utilized prior to the financial disturbance of last year. The balances due from United Kingdom banks and agencies were increased \$307,505, last year they decreased in October by about the same amount. A decrease occurred of \$531,083 in Canadian municipal and other public securities. The decrease was the aggregate of reductions made by the Bank of Montreal, the Bank of British North America and the Quebec Bank. Railway securities were unchanged. An increase of \$747,789 took place in Call loans, which now stand over 2 millions in excess of last year's figures. Current loans decreased, \$885,445, the total now standing at \$198,888,480, which is \$5,966,000 below the total in October 1893. The decreases were, banks of Ontario, \$1,183,828, and of Quebec, \$747,111, from which must be deducted the increase of \$1,273,941 which occurred in the current loans of the banks of Nova Scotia. The growing accumulations of money so far beyond the demand for discount, is not a promising outlook for bank profits. But, in the event of trade reviving the banks are in a position to supply all the funds that would be called for at moderate rates, and cheap money is very stimulating to enterprise, and business development.

### PREVENTIVE FIRE LOSSES.

The following prepared from an article in the "Finance Chronicle and Insurance Circular," London, England, will be found of much interest, and otherwise valuable to those interested in fire insurance on this continent. In view of the recent increase in the frequency and extent of fires at home and in other countries, it is desirable to consider whether any steps can be taken towards the mitigation of the evil. That many fires are due to preventable causes, and that many losses might be confined within narrower limits, are facts which have long been within the cognizance of all, but the means for combatting the carelessness and criminality which are responsible for the fire waste are not so evident.

It may be suggested that losses being the *raison d'être* of insurance, it is not to the interest of underwriters to seek to reduce them, seeing that altered conditions of insurance can be met by charging com-

mensurate rates. This is, however, a fallacy. The inevitable losses will always afford sufficient employment for insurance offices, and it is as much to their interest as it is to the interest of policyholders to lessen the annual fire waste by the elimination of preventible fires. It is far easier, for the offices to secure a satisfactory margin of profit from the business when the rates fall lightly upon their insured than it is to do so when the insurance tax is a heavy one.

So far as the home business is concerned it may be remarked, that, in the absence of any reliable statistics, the apathy and ignorance of the general public respecting the national loss by fire is not a matter for surprise. The fact that insurance does not repair but only diminishes a loss is very generally overlooked, and comparatively few realize that every addition to the British fire loss is, in a monetary sense, as great a national misfortune as the sinking of an ironclad of equal value. With the object of inquiring to what extent our home losses are preventible, it will be useful to compare the fire experience in this and other countries. Although our ratio of loss to sum insured is naturally far less than in America and other places subject to climatic and other special influences, it will be found to compare unfavorably with those of several of our neighbors on the continent. In the absence of any better data, the cost of insurance must be taken as a guide, and a recent compilation gave the following average rates current in various countries:

France.....	0.08 per cent or 1s 7d per £100
Germany...0.15	" " 3s "
England...0.25	" " 5s "
Australia...0.36	" " 7s 2d "
Russia.....0.61	" " 12s 2d "
U. States...1.00	" " 20s "

The estimate of 5s per cent for England is difficult to check, as the insurances in force and the home premiums are not given in the reports of British offices. It is, however, sufficiently correct for our present purpose. In order to confirm the continental rates, we have taken the combined figures of three representative offices in each of the countries named, and the results thus obtained by France and Germany are even more favorable than those above shown. Our figures for Austria are a little higher, and for Russia somewhat lower than those given. The average

rate received by three Belgian, three Italian and three Scandinavian offices are respectively 1s 8d, 2s 2d, and 3s 7d per cent. When comparing the average cost of insurance in different countries, the general character of the business, such, for instance, as the comparatively large number of commercial and manufacturing risks in the United Kingdom—must not be disregarded. The conditions are also dissimilar, and companies insuring property here do not enjoy the advantage of the average condition which is universally applied in continental policies. The exceptionally low rates in France and Belgium are also in a measure attributable to supplementary assurances to cover liabilities respectively incurred by the landlord and tenant, to each other, and to their neighbors, under the Code Civil.

But, after making full allowances for features of this kind, it is evident that the cost of insurance in the United Kingdom is generally than elsewhere in Western Europe. It will, therefore, be of interest to examine a few of the conditions surrounding insurances in France, Belgium and Germany. The Code Civil adopted in the first two countries enacts: (1) That a tenant is liable to his landlord for any damage which his carelessness or that of his servants may cause to the building he occupies. (2) That a landlord is liable to his tenants for any damage by fire they may suffer through defects in the building.

(3) That each person is responsible for any damage which may be caused to his neighbors if the fire commenced on his premises, and is originated by his own or his servants' carelessness. No doubt the code has had an excellent effect in regard to the construction of dwelling houses and other buildings; especially in the past, when insurance was not so widely resorted to. Houses in towns are usually tenanted by a number of families, and a fire resulting from carelessness may involve very heavy civil penalties, while the strict police or criminal jurisdiction which prevails renders fires caused by design of comparatively rare occurrence. In Germany the police take a considerable interest in fire insurance. They keep particulars of each proposal, and no policy may be delivered until the insurance has been approved and recorded in the police registers. A small fee is charged for the registration, and the management is effective in preventing over insurance and in reducing the moral hazard. Every agent must announce his appointment to the police within a specified delay. While we are far from advocating any such stringent measures in this country, we think some useful hints may be derived therefrom. Insurances are sometimes granted here without inspection or sufficient inquiry, and unsatisfactory circumstances often transpire upon a loss occurring, or during its settlement. Attempts have occasionally been made to estimate the losses which occur in the leading countries of the world. Figures of this class are doubtless very far from exact, but they afford some clue to the magnitude of the destruction of property by fire. We append an estimate of insurance and losses by

fire which was authoritatively offered ten years ago. The losses appear to have been over estimated, and the figures require revision; but even if the present national losses be taken at considerably less than the sums given, the total is sufficiently suggestive:—

Countries.	Annual fire insurance premium.	Ratio of insurance loss.	National loss by fire annually.	Loss per inhab. unit.
United Kingdom.....	5,000,000	0.25	1,250,000	51
France.....	3,760,000	0.10	3,200,000	20
Germany.....	6,500,000	0.21	6,100,000	32
Russia.....	900,000	0.50	21,000,000	60
Belgium.....	400,000	0.10	500,000	21
Scandinavia.....	300,000	0.27	1,000,000	33
United States.....	11,070,000	0.90	22,300,000	105
Canada.....	1,551,000	1.10	1,700,000	280
The World.....	31,010,000	0.27	67,300,000	59

The actual premiums received by the British fire offices approximate to £10,000,000 annually—in 1893 the amount will be nearer to £20,000,000—but that includes the sums received for insurance in other countries, and for purposes of this estimate it is necessary to give each country credit for the entire sum paid by it in insurance premiums, quite irrespective of the nationality of the companies by whom the insurances are effected.

## SENSATIONALISM IN THE PRESS.

Within the last month three notable protests have been made against sensationalism in the Press. Lord Roseberry declared that the manner in which foreign news is dressed up by the Press in England, in order to create excitement, was at times a source of embarrasment to the Government in its dealings with foreign powers, who are prone to take British newspaper utterances too seriously. The President of the American Bankers' Association, in his recent address at Baltimore, affirmed that the panic of 1893 had been very materially aggravated by sensational articles in the Press. Later, the Grand Jury at Toronto in their presentment denounced the style in which murder cases, with their revolting details, were dished up in newspapers in order to pander to the depraved taste of a certain section of the public.

The mischief caused by what Lord Roseberry referred to we in Canada have no opportunities for creating. From that against which the American banker complained the Press of Canada is happily free, it will be remembered that Mr. Clouston, at the Bank of Montreal meeting in June last, complimented the Press on

its judicious attitude during the panic, by which, we beg to say, the banks were placed under great obligations to all our trade and financial journals who have any influence, as, had they followed American examples, our banks would have been seriously troubled. It is true a slight attempt was made to create excitement at a very critical time, but the quarter it appeared in was too obscure for any mischief to arise, and it was stamped out like an incipient fire.

In regard to the third protest, there is unfortunately too much reason for complaint. It is very suggestive, to say the least, that, after one murder of a most revolting character, the details of which were worked up in the latest style of reportorial sensationalism, two others followed strikingly like it. This may have been merely a case of *coincidence*, but it looks very much like one of *imitation*, of the second and third murders having been the result of the morbid excitement stimulated by sensational descriptions of the first. It is well known to social students that many crimes are committed from this cause. It was owing to this that many years ago stage representations of "Jack Sheppard" were prohibited, as many other plays ought to be which are lessons in criminal arts, and stimulants to crime by glorifying its perpetrators as stage heroes. It is most degrading to the Press to treat criminals as it does distinguished public characters, by interviewing them, and publishing all manner of details as to their looks, diet, and opinions, as though any decent person could possibly read such descriptions without disgust. Instead of murderers being held up to infamy they are sought to be made objects of sympathy. The only rational, healthy interest the law abiding have in those who have earned the gallows is in their extinction.

We trust the Press given to the disreputable practice of serving up the ghastly and sickening details of crime, and giving us such garbage as sensational descriptions of miscreants as though we were longing to be on terms of intimacy with them as interesting public personages, will leave this wretched business to "penny dreadfuls," and those who cater to the tastes of the rowdy element.

Other forms of sensationalism in the Press are highly offensive to literary taste, being vulgar in tone, and mendacious in spirit. One of these is seen in the virulent attacks made on persons in public life, which lose all force from being so manifestly inspired by reckless sensationalism. Flinging the party stink-pot can be done by the brainless; such work is unworthy of a literary profession. Sensationalism indeed lowers the dignity, weakens the utility, and neutralizes the moral influence of the Press. "It is not, nor can it come to good."

#### FAVORITE DRINKS OF GREAT MEN

There is a peculiar interest attaching to the lives and habits of great men; men who have made a nation's history, or a nation's ballad, guided its philosophy or

initiated its laws. We have gathered some interesting facts concerning the beverages which have from time to time found favor with those, who in working out their own destiny, have "left foot-prints on the sands of time."

We are told that even the moderate drinking of wines, spirits, or alcoholic beverages, is alike destructive to body, soul and intellectual development. History shows that this is wrong. Poets from the time of Anacreon have woven the vine into the warp of their social songs, Pindar, Euripides, Virgil, Horace, all sung the praise of wine. Brilliant orators, leaders of senates and debate, have drunk, and some deeply of the ruby cup. Profound thinkers, astute politicians, erudite scholars, have found no exception, and apparently suffered no diminution in the activity of their brain power, or the keen force of their analytical acumen. It has been said, "he who drinks beer, thinks beer," yet the man would be bold who would apply the adage to glorious *John Milton*, the author of "Paradise Lost," who was a beer drinker. The stern inflexibility of *Cromwell's* iron will was not weakened by his taste for Malvoisie or ale.

There are no traces of alcoholic fumes in the lucid logical orations of the great English statesmen *Pitt* and *Fox*, though both were connoisseurs of Port; nor are the speeches of *Mr. Gladstone* ever characterized by confusion of ideas, although punctuated by application to a mixture of egg and sherry. *Dickens* was a lover of good wine. *Tennyson*, whose ideal of moral and religious life was of the highest, enjoyed port wine, and the hard-headed, clear-brained sage of Chelsea, *Thomas Carlyle*, took his "grog" with unflinching regularity. *Humboldt's* "penchant" for Sauterne did not militate against his accurate observations and orderly mental methods. So far we have quoted from the "Wine and Spirit Gazette," to whose list we add *Blackstone*, the great English jurist, loved good Port wine; indeed we doubt if any British judge could be named who was not a wine bibber. *Lord Chancellor Eldon* was fond of porter. *Queen Victoria* takes whisky, and has drunk wine daily since she reached womanhood, as do the vast majority of the most cultivated women of Great Britain. *Tombal*, the great scientist was not an abstainer. The greatest divines of all the churches were moderate drinkers. One of the hardest-headed business men in Canada, and most generous philanthropist, after many years of abstinence, was compelled, for his health's sake, to become a regular user of beer and wine. There is not a book of any fame in any department of literature that was written by a prohibitionist. The men who allow a beverage to do them injury are fools, whose abuse is their shame, but is no argument against its use.

## THE CURFEW BELL.

A number of towns have adopted the use of what is called, "Curfew Bell," which means the ringing of some noisy bell at 8 p.m., after which all children found on the streets are to be arrested. It is well for youngsters to be at home at that hour no doubt, but to bring in the police to enforce domestic discipline in such a purely family matter is not wise. If children must be kept off the streets after 8 p.m., the parents should be made to fetch them or keep them in. In this climate for a term the only time children can enjoy play is the evening, and those who live in small cottages, or in tenements, are far better playing in the open air than in a stuffy room. So long as the young are doing no harm, nor making a nuisance of themselves, they have as much right to use the streets as adults.

If any municipality is anxious to befriend youngsters it should establish play grounds for them, or play rooms; juvenile gymnasiums would be a great blessing.

The mischief done by the young in the streets would be stopped if their exuberant energies were able to find occupation in some healthy games. To call the signal for children to go to rest "curfew bell" is ludicrously misappropriate, and will give children a very silly notion as to the object of the custom. But history is a very weak feature in modern education, so, probably, some of our sapient rulers think William the Norman ordered a bell to ring at nightfall to warn naughty English youngsters against roaring around in the dark. It is interesting to know that, in some ancient English towns the Curfew bell is still rung as it has been there for many centuries.

The father of a large family recently said, "I would like a bell rung every night to summon home, or warn against going out, my wife and daughters, for what with meetings of Templar lodges and of this society and that, and committees of ladies for all manners of purposes, I might as well be a bachelor."

## CHIMNEYS AND TALKERS.

A London paper remarks that a smoking factory chimney is of greatly more value than a man who talks and talks. The saying is smarter than wise, indeed its wisdom is only visible by the eye of faith. Our contemporary is a Free Trader; he holds the opinion that the manufacturing industries of Great Britain have been vastly developed by that fiscal policy, an opinion for which much can be said.

We should like to hear an explanation of how Free Trade was brought about in England. Was it not by the men whom business at, the men who "talk and talk"? Before the Corn Law agitation there were plenty of smoking chimneys in England, but their belchings of smoke are not thought to have had anything to do with the reform of those laws, and the subsequent changes in the English Tariff. It

was the "talk and talk" of Villiers, Cobden, Bright, Thompson, Fox, Elliot and other talkers which converted England to Free Trade. As therefore their agitation is credited with having greatly increased the number of smoking factory chimneys, it is clear that the chimneys went up as a result of "talk and talk." The inference then seems fair and logical that the power and the value of "talk" in developing the resources of a country are greater than those exercised by a "smoking factory chimney."

The same may be said in regard to the growth of Canadian industries under the protective policy, that growth is the direct result of "talk and talk" of those who converted Canada to Protection. Those who are seeking to destroy these industries; who are so working as to make our factory chimneys smokeless, but eloquent protesters against such folly, are using "talk and talk" to effect this disastrous result. In that connection we freely admit that a smoking chimney is incomparably more valuable to this country than all the talk of those who seem to look on such signs of activity as a "smoke nuisance." We beg our London friend to put the above in his pipe and smoke it. Chimneys are good, but, unless the policy under which the business they represent is vigorously defended, they will become as worthless as they are hollow, and as useless and empty as the "talk and talk" of Free Traders.

## NOTES.

Mr. Burn, manager of the Bank of Ottawa, is in the city, on the business of that institution.

Thanksgiving day being the most inconvenient that could possibly be selected was more honored by labor than rest. To be industriously occupied is a source of, and ground for thanksgiving. *Labore est oratio*, was a common motto on this day.

Sir Charles Tupper, speaking in Scotland, said, the embargo on Canadian cattle had nothing to do with tuberculosis, it was a political affair—just as we have repeatedly declared it to be, that is, it is done to curry favor with English cattle raisers.

The Provincial Legislature opened this week with a lengthy Speech from the Throne of no very great interest. The debate on the loan will be lively, but is not likely to develop serious opposition to the course of the government.

The result of the London election was one of the worst blows the prohibitionist party has had at the polls. With a fatuity which, in these enlightened days, is amazing, this fantastic, irrational fall was made a prominent issue, and the non-prohibitionist candidate was elected by double the majority his most sanguine supporters predicted. It is believed that

these who actually voted on that line could be put in a china closet without crowding.

The cause of the collapse of the street railway building is affirmed by the architect to have been as we last week stated was the most probable explanation, that is, the girders were too short.

These 20 cent pieces that are such a nuisance, and instrument of fraud, are said to have been imported from Newfoundland by the St. John St. railway Co., for use in giving change. The use made of them in giving change is to pay them out as quarters on the cars, such is a common experience in this city.

The conspiracy case instituted by Mr. Grose, Manager of the Burglar Guarantee Co., against persons who cut the wires of that company, has resulted in a verdict of guilty against Mr. Wood, one of the accused and the acquittal of Mr. Daniels. The verdict was rendered too late for further notice of this very serious case.

In carriage making Canada takes a high place, indeed, for the vehicles most used, and best adapted for this country Canadian factories turn out goods equal to any made in the world. In the front rank of our carriage builders stands Mr. H. Canuiff, proprietor of the Ashley Carriage Works, Belleville. From this factory no inferior piece of work is ever allowed to pass. If a carriage was made at the Ashley Works that stamps it first-class in materials, in design, in workmanship, in enduring qualities and, considering these valuable attractions is an assurance that it was bought at a very moderate price, as cheaply indeed as it is possible for sound work to be turned out.

The demonstrations of mourning made by the people of Russia are woefully misrepresented as signs of affection for the late Czar. If any man in Russia showed indifference to his death, or an indisposition to manifest some sign of regret, the result would almost certainly be his removal to Siberia. Already several persons who had expressed satisfaction at the Czar's fate have been sent into exile. As to the Russian peasantry they are too degraded to be conscious of their degradation, humanity cannot sink lower than that. Mr. Forbes, the celebrated war correspondent, attributes the late Czar's desire for peace to his physical infirmities making him anxious to lead a quiet life.

The Street Railway Co. declares it is impossible to prevent the cars being jammed to suffocation. What about such a sight as this, a crowd waiting 22 minutes at corner of Craig and Beatty, while in that time 7 cars passed along Craig on another route with an average of about 10 passengers? The St. Denis route is the pet of the company. It can hold the cars on that route were placed on others there

would be less overcrowding. A conductor placed at the entrance of the cars could prevent this nuisance, as they do in London busses. More trailers are wanted and a better distribution of cars. We know Mr. Cunningham to be one of the oldest men in street car service, let him try to solve this problem, and it will be done.

Mr. Groce, manager of the Watkins Fire Alarm Co., has received two highly complimentary letters showing the value of that service. The Dominion Rolled Plate Co. writes as follows: "A fire occurred in the building in which our factory is situated, and we have no hesitation in saying that a disastrous conflagration was prevented by the promptness with which the Watkins system gave the alarm. We are confident that in any city possessing an efficient fire brigade the Watkins' system furnishes an invaluable protection against losses by fire." The Montreal Silk Mills Co. writes also to Mr. Groce in similar terms. Such unsolicited testimony should be weighed by factory owners and others, to whom prompt extinction of any fire that occurs so much in the saving of money, and often more in keeping the business from being temporarily stopped.

Mr. J. F. Drake, of Belleville, is turning out a class of machines which give the highest satisfaction. They comprise an improved lath boiler, gang lath machine, solid iron frame log jack, X X X shingle packer, X X X shingle boiler or splitter, Drake's patent "Dauntless" shingle and heading machine—very highly recommended by those who possess one—the Belleville saw guide, Drake's X X X shingle edger, an improved "Swing" shingle and heading machine, and a semi-automatic saw sharpener and gummer, which does not only more excellent work, but does it more economically than other machines. The success of these machines is a striking proof of the great advantage of a manufacturer having a thorough practical knowledge of his business. Any person needing any thing in this line should interview Mr. Drake.

Lady prohibitionists in the States have furiously attacked Mrs. Cleveland for using a bottle of champagne to christen the St. Louis, in spite of their protest. They say "it is an insult to Mr. Hayes," who once lived at the White House. Where the "insult" comes in is a very profound mystery. But it is quite clear that these ladies constantly "insult" Queen Victoria, who is a "wine bibber," by their fish wife style of abuse of all who moderately use wine, and they "insult" also the vast majority of their own sex of all classes. So far as Mrs. Cleveland's act goes, she was in no way responsible for the contents of the christening bottle. On such occasions the performer of this ceremony is handed a bottle, which is suspended on a string, by order of the owners. It seems, however, to us a pity to spill good wine over the hull of a ship. Mrs. Cleveland's rude critics need to learn that one marked feature in a true lady is—she minds her own business and

leaves impertinent remarks on others to the vulgar who know no better.

The position of the "Empire" is being freely canvassed just now, as an effort is being made to call up the unpaid portion of its capital. The "World" is especially busy with the affairs of its imperial brother, going so far as to charge the "Empire" with being unsound on the N. P. We might hint that it is not for everybody to efficiently defend a protective policy, any more than it was for striplings to bend the bow of Achilles. A grave mistake was made when negotiations for amalgamating the "World" and the "Empire" were allowed to fall through. There is no abler newspaper manager in Canada than the proprietor of the "World." The wisest course for the "Empire" stockholders would be to effect the union of these two papers. The dash, snap and enterprise of W. F. MacLean, combined with the plodding industry and steady judgment of David Creighton, would make a splendid team, and the paper would be materially strengthened in influence by having a touch of independence.

Montreal Wholesale Markets.

THURSDAY, Nov. 22, 1894.

GROCERIES.—Business in all lines during the week has only been moderate. In sugar, the two refineries report a good demand for granulated from local jobbers, and wholesale merchants in the Dominion at the low price at present ruling, namely 43-1/2c for ear lo's, and 41 less in quantities. Yellows are quoted at 31 to 32c.

The movement in teas at the moment is small, and prices a shade easier than hitherto. Customers seem to have stocked up enough, and have got over the scare of high prices. London advices show only normal business, and for the most part there is little in the tea business to warrant excitement, present or future. We quote Japan low grade 12 to 13c, medium 14 to 15c, good 16 to 17c, China black low grade 11 to 11 1/2c, medium to good 13 to 11c, choice to choicest 15 to 20c, Indian and Ceylon pouchong 19 to 20c, pekoe 25 to 20c. The tone of the coffee market is quiet. There is a brisker demand for spices, since the cold weather set in, but prices are easy, and stocks quite ample in all lines.

Canned goods dull, a little enquiry for tomatoes at inside prices being the only comment. We quote: tomatoes 57 to 30c, corn 30 to 35c, peas 30 to 35c, canned salmon at \$1.27.

The usual enquiry for dried fruits has not yet developed. Early in the week the demand looked reasonable enough, but it was only for small quantities, to get over Thanksgiving trade. Retailers have not yet done anything for Xmas dried fruit show, next week is likely, however, to see a change and perhaps greater firmness to the market, advices from Denia going to show that Canada has about all the raisins she will get this season. The break in the week materially affected business all round, and there is no other grocery line exhibiting any particular change.

 P.O. BOX 357. TELEPHONE 7068.

**MONTREAL**

**PROVISIONS.**—The market shows considerable activity for dressed hogs, but for cut pork things are quiet. Canada short cut is quiet, but this is no factor in the feeling, for the reason that Canada short cut is only coming forward slowly. Lard is quiet and unaltered. We quote:

Canada sh't cut mess, per brl.....	17.00 @	18.00
Beef, extra mess, per brl.....	00.00 @	11.00
Beef, plate, per tierce.....	00.00 @	16.00
Hams, city cured, per lb.....	0.10 @	0.11
Bacon, per lb.....	0.10 @	0.12
Lard, pure Canadian, per lb.....	0.08 1/2 @	0.10
Lard com. refined, per lb.....	0.06 1/2 @	0.07 1/2

**FLOUR.**—The flour market remains steady to firm under fair demand both from local and outside buyers. Quotations:

Winter wheat.....	\$3.35 @	\$3.50
Spring wheat patents.....	3.35 @	3.50
Manitoba patents, best brands.....	3.50 @	3.00
Straight Roller.....	2.90 @	3.00
Extra.....	2.65 @	2.70
Superfine.....	2.50 @	2.60
Man. Strong Bakers.....	3.50 @	0.00
Man. Bakers, best brands.....	3.50 @	0.00

**GRAIN.**—There is no more animation to the market than was recorded last week. Chicago advices report corn and oats very dull, the former from absence of buyers, the latter from lack of sellers. Locally the conditions for oats is one of fair enquiry, peas also are in fair request. Breadstuffs report an increase of 2,300,000 this week has an upward influence upon the market in Chicago, a 1c advance being registered. Other news of importance consists of reports of dry weather in the winter wheat belt, but this last is not likely to have any influence on the immediate position. We quote:

No. 1 hard Manitoba.....	0.66 @	0.67
No. 2 hard Manitoba.....	0.64 @	0.65
No. 3 hard Manitoba.....	0.60 @	0.60
Peas, per 66 lbs.....	66 1/2 @	67
Oats, per 34 lb.....	34 1/2 @	35
Corn, per bush, duty paid.....	.00 @	.00
Barley feed.....	45 @	46
Barley malling.....	50 @	53
Rye.....	49 @	50
Buckwheat, per 48 lbs.....	46 @	46 1/2

**CHEESE.**—The market is dull. There is quite a lot doing in the warehouse way but that does not count. The situation in New York is reported as follows: There is very little large full cream cheese available as yet, and scarcely enough actual business so far to test the market, but the fact of bulk of cheese having been sold in Western New York, only a few left in Lewis County, while in Jefferson and St. Lawrence Counties the stock has about all been used up, and so little more fancy cheese to come forward the outlook is certainly very strong, and we feel warranted in advancing prices on both colored and white, though the outside figures, 11c on colored and 10 1/2c on white, are perhaps anticipating the market and represent more the ideas of re-

ceivers than based on actual business, though doubtful if any strictly fancy could be obtained much less; in fact we hear of 10 1/2c bid for fancy colored to arrive and refused. Following is a fair idea of local values:

Finest Western colored.....	9 1/2 @	9 1/2
Finest Western white.....	9 1/4 @	9 1/4
Finest Eastern colored.....	9 @	9 1/4
Finest Eastern white.....	8 3/4 @	9
Under grades.....	8 1/2 @	8 1/2

**EGGS.**—Receipts are large, and altogether the market is very busy, full prices being obtained, it would not be surprising if this state of things continued for sometime, lined eggs are quoted at 9c and up; held fresh at 13 to 14c, fresh boiling stock 16 to 18c.

**OTMEAL.** The demand for oatmeal is fairly well sustained, but no great consumption is noticeable, and prices remain stationary. We quote:

Granulated, bbls.....	4.00 @	4.10
Roller Oats, bbls.....	4.00 @	4.10
Standard, bbls.....	3.90 @	4.00

**FEED.**—There is a better feeling for bran and shorts and on the whole prices show higher and firmer tone. Bran is fairly held at 17c, millie is quiet. We quote:

Bran.....	\$15.25 @	\$15.75
Shorts.....	16.75 @	17.50
Millie.....	21.00 @	22.00

**BUTTER.**—Jobbers continue to take their usual supplies, which are only very small. There is nothing doing in shipping, we quote:—

Fine new creamery.....	18 1/2 @	19 1/2
Creamery seconds.....	18 1/2 @	18 1/2
Fine new Townships.....	16c @	17c
Fine new Western.....	14 1/2 @	16c

**TORONTO MARKETS.**

(Revised by Telegraph.)

Nov. 22, 1894.

**CHEESE.**—Jobbing demand is fair and prices steady. Commission houses quote as follows: August and September makes, 10 1/2 to 11c, and half-sizes at 11 to 11 1/2c. Small Siltous are quoted at 12 to 12 1/2c. Last Liverpool quotation 5 1/2c.

**FLOUR.**—Owing to the continuous rise in Manitoba wheat Manitoba grades are higher. Broken lots of bakers' are now held at \$3.45 and patents at \$3.65. Ontario patents, Toronto freights, are quoted at \$2.80 to \$3. Car prices are: (Toronto freights)—Manitoba patents, \$3.65 asked; Manitoba strong bakers', \$3.45 asked; Ontario patents, \$2.75 to \$3; straight rollers, \$2.60 to \$2.75; extras, \$2.50 to \$2.35; low grades, per bag, 90c to \$1.

**FEED.**—Millfeed—Steady. Car lots of bran, middle freight west, are quoted at \$11 and of shorts at \$12 to \$13. Bran—\$12.50 to \$13. Shorts—\$14.50 to

\$15. Wheat (west points)—White, 55 to 56c; spring, 58c; red winter, new, 55 to 56c; good, 53c; No. 1 hard, 70 1/2 to 71c. No. 2 hard, 68 1/2c; winter wheat, on the Northern, 54 to 55c. Peas—50 to 50 1/2c. Barley (outside)—Feed, 37 to 38c; No. 1, at interior points, 44 to 45c, and No. 2, at 40 to 41c. Oats (west)—26 1/2 to 27c. Rye (east)—41c. Buckwheat (east)—39c.

**BUTTER.**—Low grade and medium grades of dairy butter are pressing for sale, but buyers are few. Prices very easy. Creamery tub is in slow demand, but pounds are scarce and wanted at 23c, an advance of from 1 to 2c. The reason of this is that summer creameries have closed and winter creameries are not yet in running order. Fresh made dairy tubs from 1 to 2c above quotations below. Quotations are: Dairy tubs, choice to extra choice, 16 1/2 to 17c; good to choice, 14 1/2 to 16 1/2c; store-packed tubs, choice, 13 to 14c; inferior to medium 10 to 12c; large dairy rolls, 16 to 16 1/2c; pound rolls, 18 to 19c; creamery, pounds, 23c; creamery, tubs, 19 to 20c.

**PROVISIONS.**—Receipts of hogs on the street were fair and demand active. Prices were higher, farmers' loads selling at \$5.25 to \$5.50, and singles up to \$5.50. The live hog market advanced 5c again, making a 10c advance in the week. Provisions are steady and in excellent demand. Quotations are as follows: Mess pork, Canadian, \$15.50; short cut, \$16; shoulder, mess, \$13.50; clear mess, \$14; bacon, long clear, car lots, 7 1/2c; ton lots, 7 1/2c; lard, Canadian, tierces, 8 1/2c; tubs, 8 1/2c; pork, 9c, and compound, in pails, 7 1/2c, and tubs, 7 1/2c; smoked ham, 10 1/2c for large, 11c for medium and 11 1/2c for small; bellies, 10 to 10 1/2c; rolls, 8 to 8 1/2c; green hams, 9 1/2c.

**GRAIN.**—Wheat—Late cable from Liverpool and London reported a rather easier feeling. Chicago opened easier, sold down, but recovered 1/2c toward the close. The situation locally is scarcely so strong as during the past few days, but values are well maintained. Car lots of white wheat were held west at 56c. Red on the Northern, sold at 56c; and spring, on the Midland, at 58c. Manitobas are steady. No. 1 hard was held west at 71c. Car lots sold east at 72c, and Montreal freights at 73c. Peas—Quiet. Car lots of No. 2 sold, G. T. R. west, at 50 1/2c. Oats—Steady. Car lots of white, sold west, at 27c, and of mixed at 26 1/2c. Car lots of white on track here are quoted at 30c. Barley—Steady. Car lots, by sample, were bought west at 38c and 39c. A round lot of 10,000 bush No. 1, a little off-color, offered outside at 41c and 42c was bid for bright heavy No. 1. Rye—Steady. Car lots east are in demand at 41c. Buckwheat—Car lots, spot, outside, are quoted at 39c. A bid of 38c was made from New York for 10,000 bush for December delivery.

## J. H. LEFEBVRE,

### CIVIL ENGINEER

—AND—  
INVESTMENT & BROKER,  
MONTREAL.

Office with "Central Vermont  
Railway,"  
136 St. James Street,

GENERAL NOTES.—Eggs unchanged. Commission houses quote five and ten-cent lots of held fresh at 15c, and lined at 14 to 14½c.

POTATOES.—Rather firmer. Car lots on track were wanted at 45c. Dealers quote five and ten-bag lots out of store at 55c.

POULTRY.—As noted a day or two ago the drop in prices largely increased consumption. It also curtailed supplies, holders at outside points refusing to ship here at the low figures. Receipts were light, and there was insufficient for demand. Prices were firmer. Quotations are.—Chickens, choice, 35c, and poor to medium, 20 to 25c; ducks, 40 to 60; turkeys, 7 to 8 cents, and geese, 5 to 6c.

BATED HAY.—Jobbing demand is fair and prices steady. Car lots of timothy on track here are quoted at \$8.50 to \$8.75. Straw is quiet, at \$3.20 on track.

HONEY.—Unchanged; demand fair; extracted is quoted at 2c for 60-lb. tins, and 3½ to 4c for small tins; sections, 12½ to 14c.

ONIONS.—Easy. Good stock offers at 70c per bag, and choicest at 75c.

DRESSED MEATS.—Quotations are: Beef, fore, \$4 to \$5.50 per cwt; hind, \$6 to \$7.50; lamb, carcass, 4 to 5c per lb; mutton, 4 to 5 per lb, veal, 6 to 8c; pork, \$5.25.

BEANS.—Car lots of medium white beans offer outside at \$1.17 to \$1.20 per bush. There are some export enquiries, but at figures too low to admit the business at anything but a very light margin. Jobbing prices here are: Medium white, per bush, \$1.25 to \$1.30, and choice, \$1.10, Lima, 4½c.

The judgment of a U. S. Court is that a restaurant keeper is responsible for the hats, coats, umbrellas or other articles, placed in the room by a guest, even if notice is given that the proprietor will not be responsible for such goods.

A contemporary says, "The Coates gas contract and its ending is causing much discussion in civic circles. A well-known alderman says that the scheme which was being put up on the city was quite apparent to anyone who gave it a moment's thought, although some of the alderman had not as yet seen through it. It the City Council was foolish enough to be led into calling for tenders before May 1—when the Coates contract had to begin—it would lose the \$15,000 deposit put up by the Coates Company, as well as any other hold it had upon it. As soon as the tenders were called the Coates Company would then boldly step forward, claim the city had broken its contract by calling for tenders after it had been awarded, and then demand back the \$15,000 deposit. 'Whatever we do,' continued the alderman, 'we must not call for tenders before May.' Ald. Leclerc said that if the city after May 1 would commence and make its own gas that it would make a yearly profit of \$200,000. He pointed out how the city supplied water, and did it successfully, and that gas could be supplied just as successfully."

CONTRACTS OPEN.

This column is to furnish Advance Reports of Building Projects, before the Closing of Contracts, for the special use of Material Men, Supply Men, Manufacturers, Builders, Architects, Roofers, Plumbers, Gas Fitters, Bridge Builders, Foundrymen, Hardware Men, etc.

Kars, Ont., Methodists will erect a new church next spring.

North Bay, Ont., dockage is contemplated to be improved.

A new Anglican church is to be built at Dunrobin, Ont., at a cost of \$3000.

Toronto city council has voted \$3,750 for the purchase of a steam road roller.

S. J. Cherry, Preston, Ont., will rebuild his grist mill, which was recently burned down.

The Roman Catholics of St. Paul de Chester, Que., will build a new church at cost of \$30,000.

Quebec Road Committee will call for tenders immediately for the erection of the new city hall.

The work of constructing a system of sewerage for the town of Aylmer will be prosecuted in the spring.

Extensive repairs will be made next year by the government to the Negrotown breakwater, St. John, N.B.

Wilson Bros., Collingwood, Ont., are building a three storey brick addition to their planing factory 45x46 feet.

The trustees of the Herkimer Baptist church, Hamilton, Ont., have purchased a site and will probably build a church next spring.

Windsor, Ont., Water Commissioners have recommended filtration as the best system of water supply. Estimated cost \$30,000.

London, Ont., is asking the Government for authority to issue debentures to the amount of \$50,000 for the extension of the waterworks.

Parrsboro, N.S., may soon have an electric light plant, local capitalists having applied to the town council for the necessary authority.

The Toronto Masonic body have appointed committees to consider the advisability of erecting a building for the use of the fraternity.

The Canadian Pacific Railway intend to construct a branch line to the Sault Ste. Marie rapids, along the river shore from Sault Ste. Marie city.

A new hotel is proposed to be built upon the present site of the Armstrong House, Whithy, Ont., by Mr. Thomas Deverill. Estimated cost \$40,000.

There is some talk of adding to the capacity of the Northwest Electric Light Company plant in Winnipeg next year. Estimated additional expenditure \$40,000.

George Matthews & Son, large pork packing establishment, Peterboro, Ont., is to be removed to Hull, Que., where two large factories will be built at a cost of \$100,000.

The Montreal Protestant School Board of Commissioners recommend that the old school on Sherbrooke st., be sold and a more commodious building erected on another site.

Revel St. George, the Montreal city engineer, has informed the council that the repairs to the roadway and sidewalk on St. James st., will cost \$16,000, and the macadamizing of Jacques Cartier square \$24,000.

Hiram Walker & Sons, Beamsville, Ont., have had plans prepared for the proposed creamery. It will be 136x40 ft. two stories high, and equipped with modern machinery.

The Lorne bridge at Wellington, up the Rideau canal, Ottawa, is to be rebuilt this winter. The piers are to be of wood and the superstructure of iron. The bridge will be built 500 feet in length.

An electric railway is contemplated between St. John and Yarmouth, N.S., to which end E. F. Clements and others of St. John, N.B., are applying for incorporation. Water power is to be used.

Hintonburg, Ont., Methodists have bought a lot on which to build a church in the spring, to seat 250 people. The church will be built with allowance for making additions later on when funds are forthcoming.

Niagara Falls ratepayers voted down recently a by-law to raise \$83,000 for the construction of a system of sewerage. It is now proposed to re-new the request on the ground that the rat-payers failed to understand its urgency.

Plans are being made by D. Ouellet, architect, Quebec, for a Presbytery 38x32 feet for the curate of St. Jean Evangeliste, cost \$1,100, and for another presbytery 36x32 ft., for the curate of St. Valerin, Temiscouata Co., to cost \$2,500 frame work, inside wood finish.

Until Friday 30th, tenders are invited for supplying 250,000 ties, and 100,000 fence posts, rails and braces, also for the construction of 90 miles of fencing on the line of the Coast Railway, address A. H. Chadbourne, Sit, t. of construction, Nova Scotia Development Co., Yarmouth, N.S.

David Ouellet, architect, Que., is preparing plans for two churches to be built in the parish of Can d'Espoir Gaspe, 120x57 feet, cost \$13,000, and the other to be built in the parish of St. Clement, Temiscouata county, cost \$10,000 framework buildings, inside wood finish.

Messrs. Davey & Fobey, pump manufacturers of Thorold, Ont., intend to erect a large pump mill to cost \$79,000 at Sturgeon Falls, Ont., and also to supply electric light to the town. They recently examined

Sturgeon Falls water power. \$7,000 bonus will be asked from the township of Springer.

Building permits have been granted at Toronto as follows: A. W. Smith, additions and alterations to 7 Front st. e., cost \$4,000; H. Langlois, det. 2 story and attic bk. dwelling, 149 Rusholme rd., cost \$4,500; Anson Jones, det. 2 story and attic bk. dwelling, n. e. cor. Sherbourne and Howard st., cost \$5,000.

Until Monday, December 3, D. Pottinger, manager of the Intercolonial Railway will receive tenders for the following work in connection with the construction of branch lines of railways. 5 1/2 miles grading from Windsor Junction to Station 290; 5 miles of grading from Tufts Cove, Dartmouth, N.S. via Lake William to Station 290.

The following permits have been granted by the London, Ont., City Engineer: James Laing, Horton st., brick residence, cost \$1,000; W. H. Wooley, Dundas st., frame st. re and dwelling; Dundas street Methodist church, frame mission hall on Hill st., A. Willis; King st., erection of a brick residence and alterations to residence.

The following building permits have been granted at Hamilton, Ont., W. A. Edwards, two-story bk. dwelling on East avenue, cost \$0,200, similar dwelling on St. Catharine st., cost \$2,000; Thomas Allen, two bk. dwellings on Morden st., between Locke and Pearl sts., cost \$2,400; John Faulkner, two-story bk. dwelling corner Queen and Bold sts., cost \$1,100.

Application will be made to Parliament next session to incorporate a company to build a railway from Quebec to Norway House, north of Lake Winnipeg, thence to Fort Simpson on the Pacific coast, with power to construct a branch from Montreal to the main line north of Montreal, and a branch from the main line at Pine Island lake, west of Lake Winnipeg, to a deep water harbor on Hudson bay.

Negotiations are in progress for the establishment of a large factory in Ottawa for the production of porcelain ware, carbons and electrical supplies. The plans of the company comprise the erection of a two-story building, having two kilns for burning carbons and several workshops. A well-known electrical man is said to have been engaged as manager. The names of those interested have not yet been made known.

**FINANCIAL.**

The new loan of the U. S. Government is said to have been subscribed for by three New York trust companies, who have gold enough to place the 20 per cent required on acceptance of bids. It is time this everlasting worry about the gold held by the Treasury were stopped, or mitigated by some more rational system of financing than making loans. This is expected to be one of the leading topics in the forthcoming Presidential address in which some important measure will be foreshadowed dealing with the currency and banking systems of the States. In his statement at the opening of the Legislature Mr. Taillon said the reasons for Mr. Hall's resigning the treasurership were because Mr. Hall considered the amount due by the Canadian Pacific on account of the purchase price of the Q. M., O. & O. railway and

the subsidy voted by the Dominion Parliament towards the same ought to be employed in redemption of the provincial debt, and so avoid the necessity of a new loan, because the loan was made without due competition, because the duration of the loan is too long, and because the rate realizable from a 3 per cent bond is not as favorable as from a 4 per cent issue. The formal debate on the loan will probably open to-day, but beyond a re-statement of criticisms made in the opposition press, there will be little said, and no action taken threatening the Government. The October bank statement is commented upon in an earlier column. Grand Trunk's are improving in London, some re-action having set in from the bear influences so strong before, and just after the meeting. Local stocks are inactive, with a downward tendency, and rates for money remains as last week.

SCHOOL OF COOKERY. Contrary to all precedent in opening up a new building, the Young Women's Christian Association beg to announce that there is no debt whatever on their latest branch—the School of Cookery. The great generosity of the Montreal and Toronto merchants, obviating any necessity of calling for help to pay for the furnishings. Cheques toward the carrying on of the School by which deserving girls having no money, could be given the training necessary to make good cooks and laundresses, will be gratefully acknowledged. JEAN SINGLAI, Hon. Secy.

Use Holden's Cylinder And Engine OILS. N. J. HOLDEN & CO. Montreal.

cats, containing 127,013 cattle 325,960 hogs, 123,039 sheep, 8,919 calves, 2,434 horses. The local shipments were 121 cattle, 8,235 sheep and 702 horses. The shipments were chiefly from Western points to Buffalo." The Commission appointed to enquire into the Pullman strike has reported, giving the railways, the Pullman Co., and the strikers an equal portion of blame. "Six of one and half a dozen of the other," is a verdict easy to find, but not worth the cost and trouble of getting it delivered. The results of the clean up on the Horse Fly hydraulic claim at Cariboo have been received. The cuts have been frozen in, so that the heaviest portion of the claim is unapproachable, but the sluice-boxes yielded \$13,000 worth of gold, the result of a half month's work. It is claimed that the mine will yield \$40,000 worth of gold a month. Varnish says of bicycles, "about thirty pounds of steel and a few pounds of rubber, costing not over ten dollars and fashioned into shape by machinery at a trifling cost were put on the market and sold for \$150. Were the tariff fixed properly the home made bicycle would control the home market. We note that the Kingston Vehicle Co., is to make bicycles.

The Canadian Government Inspector of stock, Dr. Bromlee, of Windsor, in his annual report regarding the stock that crossed the river, says: "There were nearly 2,000 cars more in 1894 than in 1893. In 1893 there were in transit 13,982 cars, containing 133,782 cattle, 228,913 hogs, 179,251 sheep, 5,383 calves, 1,822 horses. The local shipments were 39 cars, 45 sheep and 228 horses. This year there were 13,915

**ROSSIN HOTEL**  
MONTREAL, CANADA  
A. NELSON, Proprietor.

The proprietor has found it necessary owing to the increased patronage of this popular Hotel to increase its capacity by an addition of 7 rooms, elegantly furnished en suite with baths, now ready for occupation. The latest exposed sanitary plumbing has been adopted throughout. THE ROSSIN is admittedly the largest, best appointed, and most liberally managed hotel in the Province, having accommodation for 500 guests.

### ST. LAWRENCE HALL.

THIS HOTEL was opened on the First of May, 1917, by the former Proprietor, so long and favorably known throughout Canada, the United States and British Empire, who has spared no expense in entirely RE-FURNISHING the whole house; also adding ALL MODERN IMPROVEMENTS, which will considerably enhance the already enviable popularity of this first-class Hotel.

**H. HOGAN, Proprietor.**  
S. MONTGOMERY, Manager.
