The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The London Times, England, says: It is the best and most useful Dictionary of the English Language ever published.

The Toronto Globe says: It has long since established its claim, past the power of even envy to dispute, to a place in the very highest ranks of such publications.

The Toronto Week says: It may be regarded as the one final authority, safely to be relied on where others are emphatically differing among themselves.

The Montreal Herald says: It is the Standard Dictionary in the United States, and its use is becoming universal in Canada.

The Canada Educational Monthly says: There should not be a school in the Dominion where access cannot readily and constantly be had to it.

The New York Tribune says: It is recognized as the most useful existing "word-book" of the English Language all over the world.

Every scholar and literary man, from his first beginnings to the last day of his life's work, should have a first rate dictionary. After trying others for years, I came to the conclusion that Webster's was the best, and have used none other for a long time.—*Very Reverend G. M. Grant, M. A., D. D., President Queen's University, Kingston, Ont., Nov. 1885.*

In journalistic work I have long kept close company with Webster's Unabridged, and regard it as the one great Dictionary of the English language.—*J. E. B. McCready, Esq., Editor Daily Telegraph, St. John, N. B., July, 1885.*

I know of no other Dictionary which places within easy reach of the ordinary purse, such a bounty of useful and really necessary information, and which is at the same time so complete and thorough an exposition of our noble language.—*Hon. John V. Ellis, M. P. P., Editor Daily Globe, St. John, N. B., August, 1885.*

Explanation of the Articles in the Calendar.

These pages are calculate for Toronto, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

NOTE.—Standard times* are given in all columns headed Toronto. In calculating, the mean time has been taken as 17m. 34s. slower than standard.

The times* of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 16"	-3' 35"	-1' 50"	0' 00"	+1' 56"	+3' 59"	+6' 19"	+8' 28"	+10' 50"
2nd Correction for each minute of latitude	+ 1".7	+ 1".8	+ 1".8	+ 1".9	+ 2".1	+ 2".2	+ 2".3	+ 2".4	+ 2".5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'... 1st correction = - 3' 33"	2nd correction + 1.8 × 20 = + 0' 36"
" " 47° 40'... " " - + 3' 59"	" " " + 2.2 × 40 = + 1' 28"
" " 45° 10'... " " = 0' 0"	" " " + 1.9 × 10 = + 0' 19"

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto only, the standard times at other places not differing much from it in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto and subtracting four minutes for every degree east of Toronto.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude. To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

CLIMATE OF CANADA.

The climate of Canada is dry, healthy and invigorating, and owing to the great area of the country, extending over 20 degrees of latitude, or from the latitude of Constantinople to the North Pole, has a wide range of temperature. The extreme dryness of the atmosphere, however, makes both cold and heat less acutely felt than the readings of the thermometer would lead people to expect. In the Maritime Provinces the climate somewhat resembles that of the British Isles; in Ontario, Quebec and Manitoba the summers are warm and the winters cold, but the cold is pleasant and bracing, and the snow that generally covers the ground during the winter is of the greatest benefit alike to the farmer, the lumberman and the merchant. In the North-West Territories cattle graze at large all through the winter months; and on the Pacific slope, west of the Rocky Mountains, the climate is milder than any other part of the Dominion.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar, having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centurial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should not be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centurial years should, as in Pope Gregory's arrangement, not be bissextile or leap years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia, alone, of all Christian countries, is the old style retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: ^{12th} 24th March, or ^{25th September} 7th October; or, it may be, ^{26th December, 1800.} 9th January, 1801.

CANADIAN TARIFF OF CUSTOMS.

Revised and Corrected to latest date.

NOTE. As far as possible articles have been grouped under general headings, as Iron and Steel Goods of all kinds under "Iron and Steel Manufactures," all kinds of Oil, Fish, Vegetable or Mineral, under "Oils," those relating to Vehicles, under "Carriages," and so on. And to avoid the enormous bulk of duplicate or triple references the principal word only in each article has been taken for reference, as "Cans, Tin," under "Tin;" "Wax Candles," under "Candles;" "Plated Cutlery," under "Cutlery," and so on. We believe that the table will be found easy of reference and thoroughly reliable.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present only maintain a garrison at Halifax, and a naval establishment there and on the Pacific coast.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Queen and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 51 Vic., chap. 40. The Act was subsequently amended in various ways, but is practically embodied in the present Consolidated Militia Act, 46 Vic., chap. 2, passed 25th May, 1863. By it the militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:—

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children. The second class comprises those between the ages of

30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Judges, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The number of men to be trained and drilled annually is limited to forty thousand, except as specially authorized, and the period of drill is to be sixteen days and not less than eight days each year.

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the eligible men not serving in the Active Militia of the time being.

The period of service is three years.

The strength of the Active Militia (including a Permanent Force, limited by the present Militia Act to 1000 men) was, in 1889, as follows:—Cavalry, 1,987; Field Artillery, 1,410; Garrison Artillery, 2,392; Engineers, 179; Infantry, 31,506; Total, 37,474.—Statistical Record.

All postage must be prepaid by Postage Stamps. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee must, in all cases, be prepaid by stamp.

Registered Letter Stamps have been issued of the denomination of 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Book Post, &c.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerotypes when not on glass, or in frames containing glass; and the books, maps, &c., may be either written, printed or plain, or any mixture of the three, provided that no letter be enclosed or any writing intended to serve the purpose of a letter; and may be either British, Colonial or Foreign. Limit of weight for domestic post, 5 lbs.; for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at both ends or both sides, and must not contain any letter or sealed inclosure.

The rate on Book Packets is between any two places in Canada, and to Newfoundland is 1 cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain and the United States is 1 cent per 2 oz.

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of a rate of 1 cent per 4 oz. The limit of weight is 4 lbs. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all books, pamphlets, occasional publications, printed circulars, prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttings, bulbs, roots, scions or grafts, patterns or samples of goods or merchandise, the rate of postage is one cent for each four ounces or fraction of four ounces; and on all book and newspaper manuscripts, printers' proof sheets, whether corrected or not, maps, prints, drawings, engravings, lithographs, photographs, when not on glass or in cases containing glass; sheet music, whether printed or written; documents partly printed or written, not being letters, or intended to serve the purpose of letters—such as deeds, insurance policies, militia and school returns, or other documents of like nature,—and on all other miscellaneous matter transmissible by post and not otherwise herein expressly provided for, the rate of postage is one cent for each two ounces or fraction of two ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or wrappers; provided that no letter or other communication intended to serve the purpose of a letter be sent or enclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes marked at the ends or sides, or with the corners cut off, letter rate of postage will be charged); and that the postage rate be prepaid by postage stamp or stamped post bands or wrappers in all cases. Limit of weight, 4 lbs.

No packet of miscellaneous matter can be transmitted by mail if it exceed 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

Newspapers and Periodicals.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted to and from the same for transmission by mail to regular subscribers or news agents in Canada, the United States and Newfoundland, are sent free; if addressed to Great Britain, they may be posted by the same on prepayment of a rate of one cent for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, and *bona fide* specimen copies, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp $\frac{1}{2}$ cent each.

The postage on specimen newspapers is one cent per lb.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers in Canada.* When addressed to any place within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.
If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers posted from the office of publication to subscribers in the United Kingdom—if to be sent in the Mails forwarded via New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet, such papers may pass, as now on repayment by the publisher, at the rate of one cent per pound. All newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires each newspaper or periodical to be stamped. If sent in packages the English Post Office declines to accept them.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:—

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage, and a line of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

United Kingdom and United States.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom and United States, must not exceed 8 oz. in weight, and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of mis-sent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the County and Province in which the office addressed is located. Place a stamp on the right hand upper corner of the address side. Put your own name and full address in or on a letter, to insure return if it cannot be delivered.

Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 3 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps. Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post.

Parcel Post with the United Kingdom and Newfoundland.

An arrangement has been entered into with the Post Office of the United Kingdom and Newfoundland for a Parcel Post, under which closed Parcels not exceeding 5 lbs. in weight may be posted in the United Kingdom and Newfoundland, when addressed for delivery at certain Post Offices in Canada, and may in like manner be posted at those Canadian Post Offices for destinations in the United Kingdom and Newfoundland.

The Parcels exchanged with the United Kingdom will pass exclusively by the Weekly Mails conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent via New York.

The Parcel Post with the United Kingdom and Newfoundland will be governed by the following regulations:—

1. A Parcel must not exceed 5 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed.
5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.
6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by muffleage or paste to the Parcel to which it relates.

Parcels from the United Kingdom will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

Parcel Post Charge.

All the Dominion, except British Columbia, 25 cents per pound or fraction of a pound. British Columbia 30 cents per pound or fraction of a pound.

Prepayment by postage stamp is required, but when a Parcel is posted in the United Kingdom or Newfoundland, for British Columbia, and by inadvertence prepaid at a lower rate than that applicable to that Province the Parcel will come to Canada, liable to collection by the Canada Post Office on delivery, of the deficient postage, and it will moreover be optional with the Canada Post office to impose a fine in addition.

Fifth class matter must be so packed or put up as to be opened to examination of contents and must not exceed 4 pounds in weight, nor 2 feet in length by 1 foot in width or depth. New Post Offices are established by the Department whenever it is ascertained that a sufficient number of inhabitants can be accommodated, and there is a probability of a sufficient amount of correspondence to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster-General at Ottawa, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the township and the number of the lot and concession on which it is desired the office should be established; the distance from the neighbouring offices; whether there is a village at the site of the proposed Post Office; the number of mills, stores, taverns and houses thereat; the extent of the settlement to be served, and the probable cost of the mail service; together with any other facts which may form any ground for giving the accommodation applied for.

THE CLERGY OF CANADA

THE CLERGY OF CANADA,

Alphabetically arranged, with their Post Office Address, except in a few instances where the return has been made with the name of the Congregation attached. This, however, is generally the same as the address.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where

there is only one school in the County. The head master must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of \$400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 89 High Schools and 23 Collegiate Institutes, with 17,459 pupils, in Ontario in 1887. J. E. Hodson, M.A., and John Ath, B.A., Inspectors of High Schools.

Public Schools.

Each Township is divided into School Sections of suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,506 Public (including separate) Schools, with 493,212 pupils, in Ontario in 1887.

Education al Museum.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

Total Number of Educational Institutions.

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1887 was 5,021, attended by 512,000 pupils, and expending upwards of \$1,500,000 in their support.

The Law Society of Ontario.

The Law Society was first established in 1797 by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society,

in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Howard.

COURTS FOR THE TRIAL OF CONTESTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a Jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions may, with their own consent, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a Jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the

granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

Division Courts, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over \$100 and under \$200 and the original amount was ascertained by the signature of the defendant, and to \$100 in other cases of debt, subject to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed \$400; injuries or torts; personal chattels amounting to \$50, and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor; ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

ELECTRO-THERAPEUTIC INSTITUTION

231 JARVIS STREET, TORONTO.

For the Treatment and Cure of Diseases not cured with medicine or other methods of using Electricity with the ordinary Batteries and Electrical Appliances of little or no value (curatively.)

Patients treated either at the Institution, their homes or in private apartments, for diseases Acute, Chronic, Obscure, Nervous or others. We employ superior medical skill for Special Diseases—the Eye, Ear, Nose, Throat, &c.—who have had experience in London and other Hospitals. **FEMALE WEAKNESSES**.—Uterine Diseases most successfully treated with Electricity; also, "Nervous Debility," (a lack of nerve force.)

With the proper knowledge of compounding the best qualities of Electricity and the use of our new improved Medical Batteries the subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus set upon the most obstinate forms of disease, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in spring-time mellow the frozen earth and infuse new life in the soil.

The mystery in making such marvellous cures is simply in knowing how to utilize the most potent and effective means in the world. Evidence in abundance of the highest type confirming all and more than we claim for this mighty agent properly manipulated from our superior machine. (A complete handbook with each Battery.) See the Electric Age for testimonials and references, such as Hon. T. B. Pardee, Sarnia; Chas. Stark, Esq., Merchant, 62 Church St., Toronto; Rev. G. M. Milligan, 384 Sherbourne St., Toronto; Rev. Dr. Kellogg, Pastor St. James Square Presbyterian Church, Toronto; Rev. J. H. Castle, President McMaster Hall, Toronto; J. R. Barber, Esq., Georgetown, President of Barber & Ellis Co., Toronto; Wm. Foster & Co., Wholesale Merchants, 18 Colborne St., Toronto; James Watson, Esq., Manager People's Loan and Deposit Co., Adelaide St. East, Toronto; Dr. L. Glasson, Toronto, Ont.; E. M. Call or send for circular, with testimonials all over Canada, and learn what can be done through science and art. A work on nervous Diseases, their cause and cure, 25c. in stamps.

Address **PROF. S. VERNON, 231 Jarvis St., TORONTO.**
