LESSONS LEARNED FROM THE QUEBEC BY-ELECTION ARE RATHER BITTER

Criticism of Sir Wilfrid's Course in Cabinet Building as Having Led to a Weakened Government - Will the Premier Retire?

BOURASSA IS ASPIRING TO MINORITY CONTROL

MONTREAL, Nov. 4.—(Special.)—Everyone is after Sir Wilfrid's scalp now. His own friends to-day are condemning the insistence of so many of his followers for office. For example, if there was a man who could have afforded to have waited for a while, it was his chief whip and his old friend, Louis Lavergne. But he demanded a leadership the moment it became vacant. Members of parliament demanding jobs are poor kind of cattle as a general rule.

BY-ELECTION HAS A MORAL FOR BRITISH STATESMEN

London News Says Canada's Naval Policy Was the Result of a Deliberate "Scare." (Canadian Associated Press Cable.) LONDON, Nov. 4.—(Special.)—The Drummond by-election has a moral for British statesmen. The Canadian navy scheme springs directly out of the navy scare. One of the objects of the navy scare was to frighten the colonies into giving assistance before the people of the colonies had time to appreciate the need or curtail an attitude in response. It was an extremely dangerous policy for the empire, and it is embarrassing to Laurier, and that's bad.

CRIMINAL STATISTICS

Comparisons of Charges and Convictions in the Provinces. OTTAWA, Nov. 4.—(Special.)—The criminal statistics for the year ended Sept. 30, issued to-day, show that both during the year in Ontario and in the provinces of Saskatchewan and Alberta, while they have decreased in New Brunswick, Quebec, Manitoba and British Columbia. As for Ontario and Yukon, the figures show a decrease in charges and increase in convictions. The convictions during the last two years were as follows:

BOY ACCIDE TALLY SHOT

Was Taking Gun From Boat, Barrels Fired. CORNWALL, Nov. 4.—(Special.)—John Carter, the 15-year-old son of Thomas Carter, East Front, Lancaster, was accidentally killed this morning. He had been fixing a blind for duck shooting, and on his return to the shore took hold of his gun by the barrels, to draw it out of the boat. Something caught the triggers, discharging both barrels into his body. He lived about 20 minutes.

TRYING FLIGHT TO PARIS

Young Welshman in Small Dirigible is Lost to Sight. LONDON, Nov. 4.—(Special.)—The young Welshman, who recently made a flight of 160 miles at night in a small dirigible, although built by himself and established a British record, ascended in his dirigible at Winton, Wiltshire, at 3.25 this afternoon and headed for Paris.

BOURASSA MAY FORM LAURIER

Reported in Ottawa That Nationalist Leader Will Oppose Premier Next Election in Quebec East.

OTTAWA, Nov. 4.—(Special.)—Private advices received here tonight are to the effect that Henri Bourassa has decided to oppose Sir Wilfrid Laurier in Quebec East at the next general election. This news is of the most significant character for it will be remembered that after Bourassa left the federal house and went into provincial politics, he entered the lists against Sir Louis Gouin, the Quebec premier, in the James' division of Montreal, and finally defeated him in an enormous, strong government constituency. Since then Mr. Bourassa has grown much stronger.

WILL TAKE BACK MEN

Negotiations Between S. N. Berry and G.T.R. Officials Nearing Settlement. MONTREAL, Nov. 4.—(Special.)—S. N. Berry, president of the Order of Railway Conductors, had a conference to-day with Grand Trunk officials respecting the re-employment of men who have not been taken back by the G.T.R. Mr. Berry submitted a list of the men still out, and a settlement is looked for on Monday.

Their Majesties Kissed Each Other Repeatedly. POTSDAM, Germany, Nov. 4.—Emperor Nicholas of Russia, attended by Sergius Sazonoff, the Russian minister of foreign affairs, and a suite of fifty, arrived here to-day for a visit to Emperor William. He was received at the station by the emperor with the princes of the Hohenzollern family, Chancellor von Bethmann-Hollweg and the members of the cabinet. Their majesties kissed repeatedly. Emperor Nicholas will be lodged in the new palace.

NEW PAFAL DELEGATE

Is Fifty-Eight Years of Age—Has Lived in England. MONTREAL, Nov. 4.—(Special.)—The Archbishop of Montreal has no news of the announced appointment of Archbishop Stagni of Avulla as apostolic delegate to Canada succeeding Mr. Sbarretti. His grace says, however, that the Vatican never uses the cables when such appointments are made, the first notice generally appearing in the "Acts of the Holy See," a fortnightly publication, which is the official organ of the Vatican. The Archbishop of Stagni is 58 years of age, and belongs to the Servite Order, having resided eight years in England, speaking English and French quite well.

EXPRESS DRIVERS' STRIKE

MAY SPREAD OVER U. S. New Yorkers Decide to Stick Out For Union Recognition and May Involve 170,000 Men. NEW YORK, Nov. 4.—The express drivers' strike became more serious to-day in one respect at least. Indirectly, the men received assurances from their state board of mediators that their grievances would be favorably listened to if they will forego their demand for recognition of their union.

COLONEL GALLOWAY VERY ILL

Suffering From Neuralgia of the Heart—Requires Absolute Rest. Since Wednesday evening last Lieutenant-Colonel Galloway, D.D.A.G., has been in a critical condition with what is generally known as neuralgia of the heart. It is believed that over-exertion in the tactical manoeuvres on Thanksgiving Day is the cause for the return of the trouble, which threatened the colonel's life about three years ago.

EDWARD WHITE DEAD

Prominent Baptist Passes Away—Old Resident of Toronto. In the death of Edward Owen White at his residence, 14 Deer Park-crescent, yesterday, there was removed an old resident of Toronto, and one well known in Baptist Church work. Mr. White, who was born in Bedfordshire, Eng., in 1836, came to Toronto about 28 years ago. He was for a time in the wholesale lace business and was later connected with the Bible Society and the Bible and Tract Society. He was statistical secretary for the Baptist Sunday School Association, a position he had occupied since the organization was founded. He was engaged at the time of his death in writing a book on the early history of the Baptist Church in Toronto. Mr. White was a deacon of Immanuel Baptist Church, at the corner of Wellesley and Jarvis-streets.

THE SUNDAY WORLD.

THE ILLUSTRATED SECTION: Graphic picture stories of the recent big news events in and around Toronto. There are some splendid views of the Toronto Garrison sham battle at Erinville on Thanksgiving Day. Several snapshots of the play between the Ottawa Rough Riders and the Argonauts. The action photographs of the leading players in the holiday baseball game between the All Stars and the St. Marys, with "Lefty" McDonald and Dooney Hardy, two of the best of the local slab artists, doing their pitching stunts. Then there is one of Frank Halbaas, the university crack athlete, who participated in the intercollegiate meet at Kingston. A page is devoted to the hunting season which has just opened, and there is reproduced a striking picture of a night scene in Piccadilly Circus, which will be particularly attractive for old country people, who know the locality. THE COMIC SECTION: Here are our old friends again to chase away dull care. Everybody likes to see these funny people, and it won't do to go home to-night without The Sunday World if you are going to please the children. In addition to the splendid features begun in the last issue we have Jeff and Mutt, the creation of "Bud" Fisher, a series that will run in both The Daily and Sunday World. THE NEWS AND EDITORIAL SECTIONS: As usual The Sunday World intends to serve up the late sporting news thoroughly, covering all of the big Rugby games throughout the country. There will be four games in Toronto, as well as other important events in Montreal and Ottawa.

END OF TYRANNY FOSTER'S BELIEF

Ex-Finance Minister Comments Caustically on Nationalist Victory and Asks for Fair Play.

"Well, that's over for another year," said a stalwart as he walked away from the annual meeting of the Sixth Ward Conservative Association, held in Oudell's Hall, Queen-street and Northcote-avenue, last night, but he might well wait another year for such an arrangement of the Laurier Government as came from the lips of Hon. George E. Foster, M.P., with reference to its policy regarding the reciprocity negotiations, which commence to-day, and the interpretation of the Drummond and Arthabaska election at Thurston.

"The contest in Drummond and Arthabaska was not a contest of yours or mine," he said. It was absolutely a family quarrel, and was fought out by the members of the Laurier family. It must be made clear that the Liberal-Conservative party had nothing to do with it, and as members of that party they must be on their guard against any attempt to make the Laurier family reference to its policy regarding the reciprocity negotiations, which commence to-day, and the interpretation of the Drummond and Arthabaska election at Thurston.

"Australia's Model Policy." "I believe if Sir Wilfrid Laurier and his party had done as Australia did, and their basis of policy, the public chest and built a unit fleet as Australia built it, something that could fight and sail as well as fight, and could go right straight ahead and for war and peace, as the British navy, a complete and exercised unit, just as good as any unit in the fleet, with its Dreadnought to fight and its cruisers to scout, and its torpedo boats to be an accompaniment to the Dreadnought, and made it known, as Australia did from the first, that that unit was for the empire, and not to skulk in the harbors, that that unit was in the line of peace to gladden the hearts of the Canadians, that that was their noble contribution to the defence of the empire, but in time of war should go on the very trumpets of the earth, if necessary, wherever danger was to be met and range itself alongside the imperial navy, and become a part and parcel of it for offence as well as defensive." "I had good cause to be taken that stand, and then had been sacrificed in Drummond and Arthabaska, as would have had the sympathy of every imperialist in this Dominion." "Tried Too Much." "But, as Mr. Facing-both-ways, Sir Wilfrid had tried to make two faces and keep both serious. He would declare to the imperialists that he would build the empire. The navy he had tied to his wrist with a string, which, while useless, would still be held in tow. He could then go into another section of the country, and say to the people, 'Calm your fears, my fellow-countrymen. In your veins flows the same blood as in mine. (He is always careful to tell them that.) The navy won't fight anyway, and even if it could, I have got it to leave.'"

"Describing the issue in Drummond and Arthabaska, Mr. Foster said Henri Bourassa and Armand Lavergne came into public life as proteges of the Liberal party. There was a great deal of talk about a vote of \$3,000,000 to equip the Canadian militia with modern rifles and efficient field artillery, the present minister of marine and fisheries, Mr. Foster, had introduced into Quebec then Wilfrid Laurier's bill, and the Nationalists had used during the past few weeks. Mr. Brodeur said at that time that Canada owed the English nothing, and the government had no business to spend the people's money for armament which would involve the country in what they called the 'vortex of militarism.' I am not here to defend those methods. They were dashed in 1898, and they are no less dashed in 1910," said Foster.

"The trouble in the Province of Quebec, Mr. Foster asserted, was that Laurier had been a dictator. For the latter decade there had been no discussion of public questions, the cry was 'Vote for Laurier, and if you won't vote for Laurier, vote for the Liberal party.' Such a condition was only fair, and great province. That caused a revolt, and now the people had reversed the autocratic, one-man tyranny of Sir Wilfrid Laurier." "Free to Discuss Now." "There was no province in the Dominion which should be absolutely under the person, or race rule, of any one man. They would now have an opportunity to discuss public questions in the Province of Quebec." "With regard to Henri Bourassa, the people must be fair in judgment. They should find out just where he stands. If you do not agree with him, condemn him in so far as you do not agree." The position of Mr. Bourassa and Mr. Monk was that the government was going into the millions of money, deciding, involving millions of money, and no man knew how far it would take them. The question should be submitted to the people of Canada to ask their views. No argument was used in the recent election, but that the government should submit the question to the people and get their answer, yes or no.

NEW THEATRE PLAYERS SEEN IN "THUNDERBOLT"

Great Pinero Comedy is Given a Magnificent Presentation at the Royal Alexandra.

There will be a lot of disappointed people in Toronto to-day over "The Thunderbolt" at the Royal Alexandra last night, but they will be people who were not present. Since Sheridan wrote his "School for Scandal" there has been no such comedy of English composition put upon the stage in its inclusive and biting satire, its consistent and masterly portrayal of character, and its tremendous dramatic intensity. George Blisset dealt with English middle-class life in "Adam Bede" and "Middlemarch," but she never got to close grips with life as Sir Arthur Pinero does in his new play.

In addition to the merits of the play the company which has been brought together by the direction of Winthrop Ames of the New Theatre is one that rivals the very greatest that has ever been seen on any English-speaking stage. Productions like this go into history and set standards for generations to come. In last night's cast, every part was filled by a performer of the first rank, and was consequently a study of life such as one has never seen hitherto outside London or New York.

The heavier part of the work falls on Thaddeus Mortimore (A. E. Anson) and Phyllis, his wife (Miss Thais Lawton), the younger members of the Mortimore family, whose oldest brother, a brewer, has just died, apparently intestate, leaving brewery property worth a million dollars. The family are discovered in the house of mourning debating the settlement of the estate, when the illegitimate daughter of the dead man arrives from Paris. It had been expected that he would leave all his fortune to her and the play turns on the mystery of the missing will and the consequent stirring of avarice in the hearts of the relatives. This may not sound promising to the veteran playgoer, but it is a veritable Copart in Sir Arthur Pinero's development.

James Mortimore (Louis Calvert) is a middle class builder and contractor, vulgar, coarse and even brutal, as when he turns on Thaddeus, "Who the hell's your wife," and later, "What do you think of her now?" And yet he is the dominant overman of the play, who sees what must be done and flatters all opposition to his will; who throws his temperance scruples to the wind when the beer money is in question, and who leaves everyone in doubt as to whether he is an arch-hypocrite or merely a common-sense business man begging for his future. Mr. Calvert rendered this part in a way that can only be paralleled by Tyrone Power's "Drumman" in "The Servant in the House." While the other parts were not equally powerful they were equally well played. Stephen Mortimore (Albert Brumby) is the editor who echoes everyone and finds his bitterest pang in the possible triumph of his rival "Hammond and his filthy rag"; Colonel Ponting (Frankland Goschall) is a perfect study of a positive little cad, and the excellent work of the two soliters (Ben Johnson and E. M. Holland), and the ladies without exception contributed to this verdict.

The wonderful scene in the second act when Thaddeus discovers his wife's complicity is done with terrible passion in the stilled and undramatic, but so striking way of the self-condemned and sensitive. The scenes where the expectant family are deprived of all their hopes is not equalled anywhere else on the stage, and will remain as a typical picture of the vulgar soul under mortal stress. The acting of the company in this passage was magnificent comedy. The generosity and attractiveness of Mortimore's daughter Helen (Miss Olive Wyndham) is very pleasantly depicted. The play is not at all a repulsive one, but quite the contrary, and the laughter and the absorbed attention with which the dialog held them. The theatre should be filled at both performances to-day.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress. Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off. The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off. The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

It has a damper top and a cool handle. An indicator always shows the amount of oil in the tank. It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant. The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan of nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Do you spend coal dollars or heat dollars for your factory? Let ROGERS contract. INCREASED PHONE RATES Bell Company Have Made Application to Railway Board.

When the city council last year started a movement to get the telephone rates in the newer districts reduced to the level of those existing in older Toronto, Manager K. J. Dunstan intimated that the Bell Telephone Company would resist this by applying to the Dominion Railway Commission for power to raise the rate for phones throughout the city. Yesterday Corporation Counsel Drayton received notification that the company will apply to the commission to raise the rate on residence phones from \$20 to \$25 and on business phones from \$50 to \$55. The existing rate applies only to older Toronto, the annexed districts having to pay the regular rates with a mileage charge of \$5 a quarter of a mile to within half a mile of the nearest station.

While the adoption of the company's schedule would mean an additional tax of \$5 each on about 20,000 subscribers, considerable benefit would accrue to the customers in the outer districts, some of whom pay as much as \$90 or even \$100 a year for their phones. In West Toronto the method of charging is different. There is a local rate of \$30 for business phones and \$25 for house phones, and \$80 and \$40 for those having continuous connection with the city system. The new schedule also entails an increase in the rate for desk phones in houses from \$25 to \$27, and in business places from \$25 to \$27. Trunk lines in business establishments where there are switchboards, are increased from \$30 to \$35 each.

A new feature which it is proposed to add for the benefit, it is claimed, of the same all business telephone users is a slot machine telephone, which may be installed on a guarantee of two calls a day, the charge being five cents to any part of the city, the subscriber to receive a commission on all the revenue above the amount guaranteed. Manager Dunstan is credited with the statement that the company will be able to show before the commission that, so far from making big profits out of the Toronto branch of the Bell system, it has not yet begun to show a dividend return owing to the heavy expense to which it is claimed, the

Council's Protest. A special meeting of the city council was held this evening, when the notice served upon the city by the hydro-electric commission to the effect that it would not accept the pole line route selected by the city was considered. It was admitted that the commission had the power to build a line where it chose and the council refused to accept any responsibility for the commission's action should it decide to build on its own engineer's route. The council also rescinded a resolution previously passed giving the commission the permission of the city to build a line thru the city and also adopted the following resolution: "That the city council enter its strong protest against the arbitrary and unwarranted manner in which the commission has interfered with municipal rights in building a pole line thru Hamilton, in which no other municipality thru Hamilton is interested, and for which this city will be called upon to pay the full cost."

POINT LA NIM, Restigouche, Can. N. B., Nov. 4.—(Special.)—That as a result of using Dodd's Kidney Pills has no equal is the experience of John Nolan, the veteran postmaster of this place. Sixty years of age, but still strong and healthy, Mr. Nolan declares he owes his health to the great Canadian Kidney Remedy, Dodd's Kidney Pills. "For ten years I was a sufferer with Backache, Nervousness and Rheumatism," says the postmaster. "It was so bad at times that I was confined to my bed. I felt heavy and sleepy after meals, had flashes of light before my eyes and had difficulty in collecting my thoughts. After using several medicines without benefit, I began to take Dodd's Kidney Pills, taking in all fifteen boxes. That was four years ago, and though I stopped taking the pills two years ago, I had no return of my trouble." Backache, Nervousness and Rheumatism are all caused by diseased Kidneys. To cure them to stay cured you must cure the Kidneys with Dodd's Kidney Pills.

MR. H. A. HOLMES of Aberdeen, Scotland, has consigned to us for absolute sale next Tuesday some Registered Clydesdale Horses and stallions. These are sent out merely to try the Canadian market, and their owner states that there is not a dollar reserve on any of them, but they are fine stock, and have won prizes in Scotland, and it takes good ones to win right in the home of the Clyde horse. This filly "BRACELET OF FAIRFIELD," b.f., sired by "Baroness." This filly was awarded First Prize at the Braico Show and was reserve champion at the Dunblane, Scotland. "IDAHO OF FAIRFIELD," b.f., by "Baron of Buchlyvie," and the grand sire was Prince of Carruchan, who was four times winner of the Cawdor Cup. "HAMELI," b.f., by Prince Thomas. This filly has two first prizes to her credit. "PRINCE OF FAIRFIELD," b.f., foaled June, 1909, by Prince of Blacon. This stallion was only shown once, but was awarded First at Inverurie Show. There are other Clydesdales not mentioned above, and they are just as well bred, and like the rest will be sold without reserve. Breeders and farmers should not miss this sale. To make it convenient for any who may be especially interested in these Clydesdales we are selling them sharp at 11 o'clock on Tuesday, November 8th.

Also for Tuesday: "SCOTS' FIRE," brown Clydesdale stallion, by Royal Sturdy (1511), and foaled in 1902. This stallion is well bred, and is a splendid foal getter. Anyone wanting a good stallion could not do better than look at this one. "SCOTS' FIRE" will be sold shortly after 1 p.m. Tuesday next.

Also there are four 2-year-old horses by the Hackney stallion, "Cobhurst." Mr. G. W. Cook is well known as a thoroughbred horseman, and every Woodbine meet sees many of Mr. Cook's horses to the post, and he is consigning these horses direct from Cook's horses to the post, and these would make a his farm at Morrisburg. These horses have been used in the hardest of hard work, and are at for the most trying work for the future. AUTOMOBILES RACE 200-MILES

Marmor Car Ahead at the Finish Just One and Three-Fifth Secs.

SPEEDWAY, Atlanta, Ga., Nov. 4.—Joe Dawson's yellow Marmor car was just 3 1/5 seconds ahead of Ralph Mulford's Lozier at the finish of the 200-mile race here today.

The fight between these two began immediately after the hundred mile. Dawson was then far behind on account of a stop to change tires. There was no exchange about it, for he stopped at the pits with his right hand wheel devoid of the semblance of a tire and the iron rim showering sparks as it ground the track.

The Lozier stopped soon afterwards to make a rear exchange of tires, putting the car on even terms.

Thereafter luck kept out of the game and a new element, Mulford's daring, replaced it. The Harmon was running the faster, but on the bad turn of the track, where two drivers have been killed, Mulford with full speed on would shoot ahead of Dawson, who always played the bad corner safe. Dawson waited until there was less than 20 miles to go, and then shoved his car along side the Lozier. Mul-

ford played the turns desperately for the next few rounds and they went into the last two-mile lap with but a few inches separating the noses of their cars. As they struck the dangerous turn for the last time it was Dawson who took it at highest speed, shooting into a lead which he held to the finish. The winner took the Atlanta Trophy and \$1000 in cash; Mulford received \$500.

The meeting will end to-morrow with a 200-mile race as the feature for a \$5000 purse, \$3000 and a trophy going to the winner.

SATURDAY MORNING, NOV. 5, 1910.

THE REAL ISSUE IS IN ONTARIO.

The victory of Mr. Bourassa and the Nationalists in the County of Arthabaska, Quebec, has a far reaching significance as far as the peace and solidarity of Canada is concerned.

Mr. Bourassa and his friends do not believe in a united nation, but in two free and independent nations in the one federation with everything duplicated, everything double and everything in constant struggle and contention. Nay, it means more than this and as far as we can size up the policy it means, if it is possible, the replacement of English people, the English tongue and English institutions in this country by what the French-Canadians call "our laws, our language and our institutions." They would Frenchify the whole of Canada and they have a right to do this if we are willing they should do it.

But The World's fight, however, is not with our friends and fellow-countrymen in the Province of Quebec, but it is with our fellow-countrymen in this Province of Ontario, and especially with the so-called Liberal party in this province.

What we have been trying to tell the people of Ontario for years, and they are now coming to believe it, is, that the absolutely essential rights of the people of Canada to-day are of two kinds; first what we call the right of civil and religious equality—that there is no privilege in regard to either race or creed, but an absolute equality; second, the other thing that we regard sacred in this country the public rights in regard to the public utilities—that inasmuch as parliament and the legislatures and the municipalities have given franchises to private corporations to do public services, there are certain well defined rights pertaining to the public in this business that must be absolutely respected, and that never under any conditions must the private corporations be the masters or extortioners of the people.

And we wish to follow this up with one more statement, namely, that the so-called Liberal party in this province, headed by two newspapers, The Globe and The Star, published in this city, are in an alliance with a solid vote in the Province of Quebec, and the corporation interests throughout Canada to hold office at the expense of both these classes of rights, namely, the rights of religious and civil equality and the public rights in connection with the public utilities. That's the case that most concerns the people of Ontario.

Robert Jaffray and others associated with him in The Globe, are the champions of the corporations in this province and in this Dominion, and are with the railways and with the electric light interest and the traction interests and all the other interests that make up what is called "privilege" and they are in constant alliance with a solid Quebec. This is the alliance that denied educational liberty to the western provinces, that imposed educational conditions upon those provinces that to our mind were improper, unfair, unjust and against the public interest.

Nor for one moment is it worth while at the present stage to criticize or abuse Mr. Bourassa and his friends. The people of Ontario, the men who believe in civil rights and the men who believe in public rights, and who believe in equal rights in regard to race and creed, had better first settle with this so-called Liberal party and these so-called Liberal newspapers in Ontario. They are at the root of the evil and they have betrayed these great basic rights of the people for a mess of pottage for themselves. But if you read their articles you will find them groaning with fervor over church union, the righteousness that exalteth a nation, the untiring service of Sir Wilfrid Laurier in the cause of unity, and all such secondary matters, and they fought the battles of the Toronto Electric Light. They fought against the hydro-electric power policy. They defended the whole policy of the Canadian Pacific in cutting melons for shareholders, when they should have demanded a lowering of rates. Instead of having the bilingual abuses removed from the schools of Ontario, they helped to create them.

The fight is in Ontario first, not in Quebec. And we believe that the real English-speaking Liberals of Ontario who also profess to be for religious equality, will not be satisfied with the Macdonalds and the Atkinsons and the hair-tearings in the pulpits while great public rights are being stolen.

before in its career. President Gage, at the influential meeting on Thursday, stated that they knew no politics upon the board and that in its councils business was business. It is exactly this attitude that gives it its authority and influence.

Politics for most people is only a means to an end, and the end usually a section alone. Business means the breath of life to communities such as the Province of Ontario, or to any community that depends upon the superiority of its methods and the prosperity of its people for its position. There is never any difference of opinion among business men on their own ground. When they are unanimous their opinion deserves the most respectful attention.

This meeting of representatives of fifteen boards of trade on Thursday is, therefore, of considerable importance to the province as a whole. It is the intention to organize a provincial board of trade. Such a body will speak with great weight upon questions concerning the trade and commerce of the country. Its non-partisan character will be a guarantee of balanced and judicious counsel.

No doubt, the several boards of trade in the province, will take the question up with hearty alacrity, and in the field of their influence in regard to such great questions as railway and canal buildings, immigration, colonization, conservation, the expression of their views on such policies as were discussed by Sir George Ross on Thursday, must be regarded in future as indispensable factors in public life.

Where there is no opportunity for two parties, as appears to be the case in Ontario at present, an advisory body with such unprecedented opportunities of acquiring accurate information as a provincial board of trade must possess, would necessarily exercise a most important influence on public affairs. This in a private body might readily become a dangerous authority, but the Board of Trade of Toronto has given evidence of such public spirit that no alarm will be felt that any but good results would accrue from its organization.

Men like Mr. W. J. Gage, the president, set a standard which is well recognized by the rising generation, and the young men of business of Toronto have not been slow to follow the lead which has been so punctiliously, so modestly, and so patriotically given. The best interests of the province, not only as a whole, but in its related parts, would be the constant care of a properly constituted provincial board and of all its members.

SIR JAMES, PLEASE NOTE.

Sir James Whitney will please note the fact that the Bell Telephone Company expects to milk Toronto of another \$150,000 yearly without any compensation in respect of improved service or other consideration. When the city asks for permission to buy out the Bell Telephone Company he must remember that this \$150,000 is not actual revenue, but is desired by the company both as cash receivable and as a negotiable factor in the possible sale of the system to the city.

LATE MAJOR ORCHARD'S PICTURES.

On Tuesday, Nov. 8, there will be sold without reserve the interesting collection of oil and water color paintings, which belonged to the late Major Orchard. It includes representative works by well-known Canadian artists and others by British and foreign masters, many of conspicuous merit. Among them may be mentioned a particularly good view of the Scottish coast by W. Cutts, well and solidly painted, and a fine figure study from the same hand. F. M. Bennett is represented by a typical scene on the banks of the Thames, and a landscape by C. R. Jacobs, dated 1873, is a noteworthy example of his craftsmanship at that period. Vermer's "Shore Scene" arrests attention by its delicate color, and the "Quebec Citadel" by L. R. O'Brien, possesses interest apart from its clever handling. One of the gems of the collection is the sketch of a boy by D. Fowler. Other artists represented include Harry Britton, Owen Staples, G. E. Spurr, G. H. Reed, W. E. Atkinson, Yeon King, J. W. Beatty and G. Harlow White. The collection will be given in Messrs. Henderson's art gallery, 71-73 East King-street to-day, and until Tuesday at noon.

Successful Sale of City Work Horses At the Repository

The week end sale at Burns' & Sheppard's Repository was quite successful yesterday. Prices for work horses, that is, the city horses, were probably not quite as high as they have been formerly, but a fairly good quantity was sold. Jas. Glenn of Moose Jaw, Sask., picked up a good car of 18 horses. This was an exceptionally nice lot of horses, and selling was considered cheap for the lot. In fact, it was what would be called a first-class lot. They ranged in price from \$155 to \$225. Glenn is shipping them west to-day.

John Collins bought a nice bay mare for \$300, also a cream gelding for \$25. Geo. Lawrence bought a chestnut gelding for wagon use for \$75. The Consumers' Gas Company got a splendid black gelding for \$200. The Standard Chemical Company, a pair of bay geldings for \$400. Price & Son (Price's Dairy) got a pair of grey geldings for \$400, and the Canadian Express Company bought a cross match of a chestnut and bay gelding, paying \$450 for the pair. C. W. Lake of Portboro bought a pair of bay geldings for \$310.

Mr. Drowry of Winnipeg bought four good heavy ones for \$825 for the lot. A good heavy one for \$205 for the four, as they showed a lot of class. A good black gelding was knocked down to J. Nelson for \$150. Mr. McGregor bought a good serviceable bay gelding for \$220. Mr. Harkness got a good pair of grey chunks, the well matched pair, but had been worked sold separately, but had been worked together. He paid \$300. J. Holland bought a black mare for \$100. W. Curran got a nice useful chestnut gelding for \$85.

This was considered a pretty good sale for the week. Mr. Burns is making great preparations for his big Tuesday sale, when along with the many consignments that will be on hand he will sell the restored Clyde stallions and mares direct from Scotland. Mr. Burns personally conducted the sale, but would continue to occupy the presidential chair.

Lord Hawke has for more than a quarter of a century been one of the most prominent figures in English cricket. He began his cricket career at Eton, tho it was not until his fourth year that he got into the eleven. He came more rapidly to the front when he went to Cambridge and received his "blue" in 1882. He played in the inter-varsity matches until 1888, when he was elected the Cambridge captain.

Meanwhile he had been playing occasionally for Yorkshire, his introduction into the county team having been brought about by Canon E. S. Carter, the popular cleric and old Yorkshire cricketer.

In 1888 the county, M. B. Hawke, as he then was, was formally elected to the captaincy of the Yorkshire eleven, and twenty-seven years' unbroken occupancy of that position constitutes a record in county cricket.

He contributed many fine scores (among them centuries) to the county's total, but even had he never made a run his name would live as that of the man who was wholly and solely responsible, by his stem, yet kindly and just methods, for raising Yorkshire cricket to the high position it occupies to-day.

FAREWELL TO LORD HAWKE

Famous Captain of Yorkshire Cricket Team Announces Retirement.

After twenty-seven years' unbroken service as captain of the famous Yorkshire cricket team, Lord Hawke has decided that the time has come for him to resign, says a York paper just to hand. His decision was announced at a committee meeting of the county club at Leeds, and received with great regret.

In communicating his resolve to the executive of the county club, Lord Hawke expressed his regret that he was compelled to resign, but said that, as he could not now be expected to play regularly, he had come to what he thought was the proper decision. He added that he did not intend to sever his connection with the county, but would continue to occupy the presidential chair.

LEOPARD HUNTING ON YONGE

Quartet of Students Give an Interesting Exhibition.
Oh, you fraternalists! What larking is committed for thy fame!
In mid afternoon yesterday a curious parade passed down Yonge-street from Bloor, turning east on Wilton-ave, the subsequent proceedings being of no further interest.
A quartet of sheepish looking young men accompanied a very small, shabby wagon, on which a leopard's skin was decked out on a broom handle to give it form. One young chap wearing a toy fireman's hat led, tugging at a string which was tied to the leopard's neck. Flanking the beast, was one fellow with a youngster's st. cam military helmet, wearing white duck trousers and carrying a tin sword. Opposite him was another with a snuff hat and carrying a large salt sprinkler.
Ten paces in the rear marched the fourth man, with a red soldier's helmet and white pants, with a military rifle. At the end of every block he would give a stentorian command to "halt," and then, going down on one knee, he would take careful aim and shout "bang." Whereupon the others would upset the cart, and he with the salt would scatter some on the beast's tail. After which the wagon would be righted and the procession resume its way, accompanied by a parcel of interested snuff boys.
The gentleman who conceived the outfit should write the book for "The Rogers Bros. at College."

A HUSBAND AND WIFE GONE

Two Disappearances Are Reported by Mourning Relatives.
Mrs. William Lausted, wife of a market gardener at Humber Bay, and her brother, George, disappeared on Wednesday. William yesterday had a warrant issued in the county court charging George with theft of some money, which he also missing. George is 22 years old and was brought out from Scotland a year ago to help in the garden.
"All I want to know is that she is happy and well. I can't go back to that empty house. If I can't find her I will go back to Scotland," said William Lausted yesterday.
Mrs. Eveline Grimbley, 112 Sackville-street, reports that a week ago last Sunday her husband, Charles, disappeared leaving a note saying, "Good-bye. I am going to Buffalo."
Mrs. Grimbley has only been married since last February. Her home was in Waterlooville, N. Y., and until she was married she worked in Eaton's. Grimbley was employed at McLaughlin's on Sherbourne-street. He left there just before he went away.

DREDGE SANK AT MOORINGS

And Nine Men on Board Were Almost Drowned.
BRIDGEPORT, Conn., Nov. 4.—Nine men had a thrilling escape from drowning early to-day at Black Rock Harbor, when the dredge Capital City, on which they were sleeping, sank suddenly, carrying them down with it in ten feet of water.
In the early morning the nine men were awakened suddenly by the water pouring in on them. Some got out thru windows while others escaped by the doors. Five of them swam to a scow. The other four got hold of the dredge and were taken on the scow by the others.
A heavy gale was blowing at the time and the men for four hours had hard battle. They were without clothing.

WOUL FILL THE BILL

Editor J. J. Hunter of Kincardine, we see by The Port Eglis Times, is an applicant for the office of superintendent of the Printing Bureau at Ottawa. We wish him success. Having had the good fortune to learn our trade in the same office with Mr. Hunter, we know him to be a thoroughly competent printer. He knows the business from washing rollers to writing "leaders." We have heard from inside sources that Editor Hunter was looked upon as a successor to John Toimie, and apart from C. M. Bowman, is the strongest man the party has. He is an exceptionally strong debater and a prime favorite with all classes. As we saw on a previous occasion, Jack's great fault is his politics.—Warton Canadian.

GREAT NEWS FOR CHINA

Imperial Parliament to Be Convoked in 1913.

PEKIN, Nov. 4.—An official decree was issued to-day, announcing that an imperial parliament, the first in the history of China, would be convoked in 1913.
The police went from house to house informing the occupants of the edict. Presently the dragon banner and paper lanterns appeared above every door. Beyond this there was no public manifestation over the momentous news.
The importance of the throne's concession is appreciated when it is recalled that the provincial assemblies, the first step toward modern and popular government in China, are still in their infancy, and that the senate, the first general body approaching anything like the popular representation met for the first time on Oct. 3 last.
As constituted the senate did not promise much in the way of popular legislation, as one-half of its two hundred members were appointed by the throne. Nevertheless, it early took a stand in favor of the imperial parliament at an early date, and met with surprising success.
There was consternation in official circles to-day when an imperial edict was announced commanding all representatives of China in foreign countries to sever their queues.
The edict is believed to be only the forerunner of another commanding all Chinese to follow suit, and that a wholesale hair-cut as the world has never before witnessed.
The origin of the queue is not definitely known, but it is supposed that it was forced on the southerners, or Chinese, by the northerners, or Manchus, as a mark of conquest.

WOMAN KILLED WHILE FLEEING FROM BLAZE IN TENEMENT

NEW YORK, Nov. 4.—One woman was killed, several persons were injured and there were numerous narrow escapes in fires in various sections of the city to-day.
Mrs. Rebecca Abner is declared to have been kicked from a third floor fire escape to her death in the court yard below while she was fleeing with her husband and children from a fire set by an incendiary in the Clinton-street tenement in which they lived. The woman's assailant escaped unidentified. He is declared to have deliberately kicked the woman off the fire escape when she refused to get off in an effort to reach the roof with her children.

School Attendance of 41,000

For the first time in the history of the Toronto public schools has the monthly attendance passed the 40,000 mark. The records show the attendance for October to have been 41,000, an increase over the same month last year of 117. Besides, the average attendance has been unusually high for the past month, being 80.1 per cent. It is little wonder that 2000 pupils are only receiving temporary accommodation under the circumstances. Of this accommodation 15 rooms have been rented and 25 rooms constructed for the time being.

Commission Can't Be Taxed

NIAGARA FALLS, Ont., Nov. 4.—The Hydro-Electric Commission won their appeal against the City of Niagara Falls and Township of Stamford at the Court of Revision and Appeal's, held here this morning.
W. W. Pope, secretary of the commission, contended that crown property or property held in trust for a crown, is exempted from taxation under the commission of the act of 1904, on the grounds that the hydro-electric is supplying power, not distributing it.
Left Estate to Neighbors.
LONDON, Ont., Nov. 4.—By the will of the late Luke Risip of South London, who died Wednesday afternoon, a number of families in the neighborhood of York know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.
From the first sign of anything wrong with the Kidney Pills should be taken. They go to the seat of the trouble and strengthen the kidneys, thereby strengthening the back.
Mrs. John Fugh, of Kildale, Man., writes: "I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found so speedy a cure."

WAS REDUCED TO A SKELETON

GIVEN UP BY THE DOCTORS AND PREPARED TO DIE

"FRUIT-A-TIVES" SAVED HER LIFE

The days of the miracle have not passed away. Every day—almost every hour—"Fruit-a-tives" is performing miracles of healing in some part of our country! One does not ordinarily think of miracles in connection with fruit juices—and yet it is fruit juices that are changing sick, helpless, and sometimes dying, people into happy, healthy men and women. Here is just one case in which the cure made by "Fruit-a-tives" was nothing short of a miracle.

MADAME ARTHUR TOURANGEAU.

Madame Tourangeau suffered for eleven years and was finally given up to die by her physicians. Yet "Fruit-a-tives"—the marvelous remedy made of fruit juices—completely cured her and restored her to health.
Here is her letter—read it—study it—profit by it.
"I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia and Indigestion with Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate. Even water would not stay on my stomach.
"The doctors gave me up to die as the stomach trouble produced her weakness and I was frequently unconscious. I received the last rites of the church and looked forward to death in a short time. I was reduced to a skeleton.
"At this time a lady friend strongly urged me to try 'Fruit-a-tives,' and how thankful I am that I did so. When I had taken one box, I was much better, and after three boxes, I was practically well again and had gained 20 pounds. I have taken 13 boxes in all, and now weigh 134 pounds, and am absolutely well—no pain—no indigestion—no constipation—my heart is sound—and complexion clear.
"For the sake of other sufferers, I give you permission to publish my letter and photograph."
MADAME ARTHUR TOURANGEAU.
The stomach is a bag about a foot long and six inches wide, covered by a muscular coat and lined with delicate membrane. This lining membrane should pour out for each meal about a pint of Digestive Fluid, called Gastric Juice, which dissolves or digests the food.
During digestion, the muscular coat squeezes and presses the food from one end of the stomach to the other, and this churning mixes the food with the Gastric Juice. If the food is not churned properly, or if the Gastric Juice is weak—then the food is not dissolved properly and indigestion and Chronic Dyspepsia result. Blood pure by keeping the bowels and kidneys regular, and the skin active.
"Fruit-a-tives" will always cure indigestion, Chronic Dyspepsia because the fruit juices act on liver, bowels, kidneys and skin, purifying the blood. "Fruit-a-tives" relieve any irritation in the stomach—strengthen muscular coat—and ensure the Gastric Juice being full strength and abundant. If you have any Stomach Weakness or Trouble of Digestion, by all means take "Fruit-a-tives." 50c a box—6 for \$2.50—trial size, 25c. Sent on receipt of price. If your dealer does not handle them, by Fruit-a-tives, Limited, Ottawa.

INCURABLE CHILDREN'S HOME

Reports Presented at the Annual Meeting Held Yesterday.
"What impresses me most here today is the witness of the home to the sympathy and love of those who support it. From a cold, practical standpoint this charity is a waste of money; there's nothing practical behind it; but it shows how Christian people are willing to help even those who never can be of any practical use to anybody."
So said Rev. F. G. Plummer at the 11th annual meeting of the Home for Incurable Children, East Bloor-street, and later, Lieut.-Gov. Gibson, as chairman, echoed the same sentiment.
The home has now a capacity of 30, and there are 25 patients. During the past year ten have been admitted and the same number discharged; two were sent to the Home for Incurables, Dundas-avenue, and three have died. A new laundry, with appliances, has been installed. Financially the institution is rather a lady's maid. Some \$1800 is required for the new addition and \$500 more to be applied to paying off the mortgage. The running expenses of the home are well over \$500 a month, and they have only \$350 on hand for the current year.
The following officers were elected: Hon. president, Mrs. G. L. Robinson; president, Mrs. Gowdie; vice-presidents, Mrs. Hough, Mrs. E. G. Steward and Mrs. E. E. Oiler; treasurer, Miss Buchanan; secretaries, Mrs. R. A. Donald and Mrs. Charles Heron; committee, Mrs. Alley, Mrs. Baldwin, Mrs. Davidson, Miss Dewar, Mrs. Dundas, Mrs. Fudge, Mrs. Harman, Mrs. Harcourt, Mrs. Irish, Mrs. Kay, Mrs. Merritt, Mrs. Mene, Mrs. Matthews, Miss McLeod, Mrs. Nairn, Mrs. Ryerson, Mrs. George and Mrs. Vaux.
The annual meeting of the Nursing Mission, 55 Beverley-street, was held yesterday afternoon, the Rev. Dr. Davidson, pastor of Beverley-street Baptist Church, in the chair. The report of the secretary showed that 556 patients have been nursed during the past year and 5040 different visits have been made by the nurses. Mrs. Brodie, president, gave an interesting account of the work done by the members of the mission, apart from their regular nursing. Addresses were made by Rev. Rural Deed Carley, Rev. Dr. Wilson and others.

The Autonola

It is not what you are accustomed to think a piano-player is.

It will faithfully reflect your moods in music, from grave to gay, from tempestuous to sombre.

It becomes part of you from the moment you rest your feet on its sensitive pedals.

It is simple, natural and very human.

These claims may sound extravagant, but they are true.

Call at our warehouses and investigate. This is all we ask.

Could Not Rest at Night Back Was So Weak

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Heed the warning; cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.

From the first sign of anything wrong with the Kidney Pills should be taken. They go to the seat of the trouble and strengthen the kidneys, thereby strengthening the back.

Mrs. John Fugh, of Kildale, Man., writes: "I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found so speedy a cure."
Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. M. Burns Co., Limited, Toronto, Ont.
If ordering direct, specify "Doan's."

LONDON, Nov. 4.—Both the admiralty and board of trade are interested in a plan to revive the prosperity of St. Helena by again fortifying it as a naval station. It might also become a stopping place for vessels en route to Panama Canal.

PRESS COMMENT ON THE BY-ELECTION

Montreal Herald (Lib.)—"It was not readily believed that Sir Wilfrid could actually be beaten in one thoro French section of Quebec. Sir Wilfrid's home county, a place which he himself had chosen as the better ground for the purpose of defeating and destroying the Rouge in Bourassa, had dared challenge supremacy; but Sir Wilfrid's vanity was greater than his judgment. He over-estimated his own strength; he threw down the gauntlet to the wrong man; he egregiously failed. Quebec never had much use for a defeated champion. A young man might outlive defeat—quite another thing; an old champion cannot outlive the downfall of yesterday."

Montreal La Presse (Lib.)—"This defeat, this disagreeable incident, such as it is impossible to avoid in politics, should serve to shame the Liberal party, which has placed a little too much confidence in the worth of its cause and has neglected to follow up the Nationalist propaganda, to establish the true significance and the real meaning of the naval bill, and to still the prejudices before the eyes of the electorate in the minds of farmers. Moreover, we have no doubt that our French-Canadian population, once it has grasped the exact meaning and the real tenor of the law of the Canadian navy, once it has had explained adequately what the Conservatives in other provinces are asking, will be readily convinced that Sir Wilfrid Laurier has chosen the best policy."

Montreal La Presse (Lib.)—"The election of Gilbert is certainly one of the greatest surprises in our political history. The struggle centred exclusively round the navy question, and the result is significant. Either the electors have been insufficiently instructed or else they are strenuously opposed to the government's policy. It is true that Mr. Gilbert's majority was not considerable, but it shows a pronounced change of opinion that one cannot but understand its significance. And who can prophesy that that which has happened in Drummond and Arthabaska will not repeat itself in most of the counties of the province?"

Montreal La Presse (Lib.)—"The government candidate has been defeated in one of the strongest Liberal counties in Quebec. A remarkable sidelight of the election was that, contrary to all expectations, the English speaking vote was unfavorable to the government. This showed that the navy question was not the only one against which there was an objection. It was unfortunate, however, that the electorate should have been divided by nationalities and by races on so grave an issue. It had often been declared that the province allowed itself to be influenced by the nationalities, and some time ago a solid Quebec was spoken for by Sir Wilfrid Laurier. The Province of Quebec honors Sir Wilfrid, and has proved its devotion to him in many times. But above the names are placed still the principles: To have dared to turn against the great popular idol in his home county, the electors of Drummond must have had the most serious reasons."

Quebec La Vigie (Lib.)—"The majority of the electors were basely deceived. The most remote parishes were invaded by jokers who frightened the women, especially, telling them war was at hand and that their sons would be called to arms and sent to the trenches in the sea of Oceania."

Quebec Chronicle (Con.)—"The truth is that Laurier's prestige in the wane it had been on the wane for a long time, since even his own party have apparently been using him as a figurehead. Single-handed he was too much for any rival and anyone who dared to stand up against him was thrust out. But his present entourage is too wise to work single-handed. They have formed a ring which is evidently powerless to control and which is using him and his past prestige. His silver hair sets to purchase them a good opinion, and to reconcile public opinion to their palpable mal-administration."

Toronto Telegram (Ind.)—"Laurierism was yesterday pierced by the sword of church and state prejudice even as Laurierism pierced its enemies with that same sword every time Sir Wilfrid's followers were given a chance to pose as the defenders of Quebec's race and creed in the face of the alleged hostility of Canadians outside of Quebec. Drummond and Arthabaska do not grace the brows of Laurierism with the crown of the martyr. Drummond and Arthabaska does not adorn the plans of Laurierism with the fowl's coop of the misceologist."

Toronto News (Con.)—"At Confederation Dorian and his allies saw the doom of the French race in the union of the province. There was little sympathy in Quebec for the acquisition of the north-west territories. There was reluctant and sullen acquiescence in the despatch of Canadian contingents to South Africa. There is, as Drummond and Arthabaska shows, a formidable opposition to the naval policies both of the Liberal Government and the Conservative Opposition in parliament. But again the majority must govern, and in the end no legitimate right or interest of the Quebec people will be prejudiced. It is not necessary to 'smash confederation,' nor to delay the movement for imperial unity. Laurier became a noble servant of the confederation. Merle passed and no permanent evil resulted. Bourassa will not avail to turn Canada from its high destiny within the empire, and even though the Laurier administration may go to pieces."

Montreal Witness (Lib.)—"In a sense the victory of Bourassa, Monk, et al., may do good. It may bring the Conservative party to a grave sense of its responsibilities. It may teach imperialists not to be shrill."

St. John N. B. Standard (Con.)—"For Laurier it is the beginning of the end."

Toronto Globe (Lib.)—"It means that the Bourassa propaganda has made more progress than had been imagined, and that the most vigorous steps must be taken toward putting the actual conditions as to naval defence"

WAINWRIGHT WILL MAKE ONE OF THE LEADING CITIES OF WESTERN CANADA INVESTMENTS IN WAINWRIGHT PROPERTY WILL PROVE HIGHLY PROFITABLE

FOUR GOOD REASONS WHY

Trade Centre of Rich Farming District
WAINWRIGHT is situated on the Main Line of the Grand Trunk Pacific in Eastern Alberta. It is 127 miles east of Edmonton and 200 miles west of Saskatoon, and is easily the largest, busiest and best town between those points.

Distribution Point for Many Good Towns
WAINWRIGHT is rapidly achieving renown as a wholesale distributing point, and it is well known that it is distribution that makes cities. As a distributing centre, Wainwright is without a rival between Saskatoon and Edmonton. It enjoys a decided advantage over the latter point in through freight rates, an advantage which big concerns have quick to realize.

Divisional Headquarters G.T.P. Ry.
WAINWRIGHT is one of the principal divisional points on the Grand Trunk Pacific Main Line. That the railroad company expected it to be an operating base of no little importance is evidenced by the fact that it located there a 12-story roundhouse, repair shops, a \$12,000 depot and 14 miles of side tracks.

Location of the National Buffalo Park
WAINWRIGHT is the location of the Canadian Government's National Buffalo Park, the home of the largest herd of buffalo in the world. This park, which adjoins the town on the south, contains 10,000 acres of fine grazing land, fenced with an 8-foot woven-wire fence which alone cost \$75,000. In the park are upwards of 800 buffalo, gathered together from various points, principally from the few remaining herds and groups in the States. Recently, as told in the press dispatches, a shipment of 39 head was received from Montana, where the entire Pablo herd, the largest on the continent, was purchased. The park contains also several moose, deer and other animals.

WAINWRIGHT is but two years old, yet it has 1,000 population, property assessed for taxation at \$750,000, half a mile of cement sidewalks, an \$18,000 brick school, two brick yards, substantial business blocks and residences, some of them constructed from home-made brick, two big hotels, and all the various lines of business that go to make up a live, bustling town.

WAINWRIGHT, although but two years old, is the distributing centre for four large concerns—the International Harvester Co., the Massey-Harris Co., the Imperial Oil Co. and K. McDonald & Co.—who use it as a base from which to supply the retail trade for a distance of 50 miles east and 70 miles west on the Main Line of the Grand Trunk Pacific.

WAINWRIGHT has a wide-awake, energetic class of business men, who, through the local Board of Trade, are unceasing in their endeavors to advance the interests of the city. The city officials and councillors are men of the same stamp, and the permanent and substantial character of all public improvements shows that they believe in providing for its inevitable growth in population.

WAINWRIGHT, because of its Buffalo Park and other points of interest to visitors, is destined to become one of the leading attractions for tourists on the continent. It has now the only remaining herd of buffalo worthy the name. Under the conditions in the National Buffalo Park, it is believed that the animals will multiply in numbers and that as a result of the action of the Dominion Government in establishing this park the extinction of the North American bison will be prevented.

WAINWRIGHT has tributary to it one of the finest farming districts in the West, a district especially adapted to grain growing, mixed farming and ranching. Of the 100,000 acres immediately tributary to the town, 50,000 acres are the choicest Alberta Red wheat land which produced an average of 22 bushels to the acre in 1910 against an average of 19 bushels for all Western Canada; 20,000 acres are suitable for mixed farming, and 20,000 acres are the finest grazing land on the continent.

WAINWRIGHT will be the head and operating base of the Battleford Branch of the G. T. P. to be built along the fertile valley of Battleford River next year. This branch will tap one of the oldest and one of the richest agricultural sections of Alberta, and will make an important contribution to Wainwright's trade territory. The new town that will spring up along this line will look to Wainwright for their supplies, and the products of this district will go to Wainwright to reach the Main Line of the G. T. P. for shipment to eastern and western markets.

WAINWRIGHT has a wide-awake, energetic class of business men, who, through the local Board of Trade, are unceasing in their endeavors to advance the interests of the city. The city officials and councillors are men of the same stamp, and the permanent and substantial character of all public improvements shows that they believe in providing for its inevitable growth in population.

WAINWRIGHT and its Buffalo Park will be featured in the advertising of the Grand Trunk Pacific, and in the literature of the Dominion Government. With two such institutions as the greatest transcontinental railway on the continent and the Canadian Government back of it, there is little likelihood that the world will be allowed to overlook Wainwright.

GRAND TRUNK PACIFIC

Now Makes Its First Public Offering of Lots in Sub-Division Adjoining Original Townsite of Wainwright

Wainwright Has Never Been Boomed

You do not remember ever having seen before any newspaper advertisements offering for sale lots in the Grand Trunk Pacific Townsite of Wainwright. It is the first time that the G. T. P. has undertaken to call the attention of the public especially to Wainwright. Nevertheless practically all has been sold, and for several months past the G. T. P. has been importuned to put this sub-division on the market, in order that additional desirable building sites close in and convenient to the school and the churches might be available.

Millions Made in New Towns

A hundred million dollars was made in 1910 by investors in town lots in Western Canada towns—not by people who thought about investing, but by those who actually invested. This enormous sum represents the increase in value of town property resulting from the growth of the towns and the development of the surrounding country.

The Time to Buy for Big Profit

The time in the history of a new town to buy for big, sure profit is after its permanency has been assured, and before it has reached the stage where its value is discounted in real estate values. The opportunities for the investor of moderate means do not exist now in Edmonton, Calgary, Moose Jaw, Regina, Saskatoon and such towns that existed a few years ago. They have reached the point where their growth for years to come has been discounted, and where real estate values are based not alone on what they are, but on what they are expected to be.

Buy Now and Get First Choice

This advertisement marks the beginning of a campaign of publicity which will direct the attention of investors throughout Canada and the States to Wainwright. Naturally the best that the G. T. P. has to offer at Wainwright is included in this sub-division—the FIRST SUB-DIVISION ADJOINING THE ORIGINAL G. T. P. TOWNSITE that has been offered. This sub-division immediately adjoins the original town, which is built right up to it. The new \$18,000 school-house occupies a block across the street from this sub-division. The block recently purchased for the site of a new Catholic Church is right across the street from it.

Russell Sage, who accumulated an immense fortune, said—

"Real Estate is an imperishable asset, ever increasing in value. It is the most solid security that human ingenuity has ever devised. It is the basis of all security and about the only indestructible security."

Andrew Carnegie says in the "Empire of Business":

"Ninety per cent. of all millionaires become so through growing real estate. More money has been made in real estate than from all industrial investments combined."

Hetty Green's advice to women is:

"I advise women to invest in real estate. It is the collateral to be preferred above all others and the safest means of investing money."

before the electorate all over the province. The Nationalist-Conservative-Ultramontane coalition has won a victory in regard to the Canadian naval policy, it cannot be regarded with satisfaction by any Canadian with whom concern for our country's future outweighs political partyship.

Kingston Standard (Con.)—"Let there be no mistake. The Arthabaska election is not so much a victory for Bourassaism as it is a protest against the Canadian naval policy. The fact that it will be joined in by every section of Canada, when the opportunity is given the people at the polls to express their feelings in this matter."

Kingston Waig (Lib.)—"The cleavage made by this election is bound to spread. If French-Canadians will be misled by the mischievous Bourassa-Laurier-Monk faction to which representatives of the older parties and even church give their countenance, there must follow a division of the people along racial lines. Laurier may go on with his naval policy serene in the consciousness that he has behind him the great masses of the people, but he will realize that to his own countrymen he cannot turn for support and sooner or later they will discover their folly."

Hamilton Herald (Ind.)—"Altho the naval question was the sole public issue in the contest, it is probable that there were many whose antagonism to the government was based on other grounds, and who took advantage of the opportunity to express it, ignoring the naval question."

Ottawa Citizen—"After regretting that Sir Wilfrid Laurier curtailed the government policy to placate Quebec, it proceeds: 'Still, in the main, it represented an honest effort in the direction of assisting in the defence of the empire. The Citizen has therefore no sympathy with Bourassa and his Quebec agitators, whose sole object is apparently to prevent any assistance

whatever being furnished either directly to the imperial fleet or by taking up the defence of the Canadian coast."

Laurier's policy of treating Canada as an integral part of the British Empire?"

Montreal Witness (Lib.)—"In a sense the victory of Bourassa, Monk, et al., may do good. It may bring the Conservative party to a grave sense of its responsibilities. It may teach imperialists not to be shrill."

Toronto Mail and Empire (Con.)—"It means that the general policy of the government is not sufficient satisfactory to nullify the adverse sentiment which the naval scheme has evoked. It suggests that in a general election the slump in the government's popularity all over the province would be great as to make its defeat certain and a realignment of parties imperative."

Winnipeg Free Press (Lib.)—"If the result yesterday be regarded as having any significance in the way of indicating the attitude that the Province of Quebec is going to take in regard to the Canadian naval policy, it cannot be regarded with satisfaction by any Canadian with whom concern for our country's future outweighs political partyship."

He over-estimated his own strength; he threw down the gauntlet to the wrong man; he egregiously failed. Quebec never had much use for a defeated champion. A young man might outlive defeat—quite another thing; an old champion cannot outlive the downfall of yesterday."

Montreal La Presse (Lib.)—"This defeat, this disagreeable incident, such as it is impossible to avoid in politics, should serve to shame the Liberal party, which has placed a little too much confidence in the worth of its cause and has neglected to follow up the Nationalist propaganda, to establish the true significance and the real meaning of the naval bill, and to still the prejudices before the eyes of the electorate in the minds of farmers. Moreover, we have no doubt that our French-Canadian population, once it has grasped the exact meaning and the real tenor of the law of the Canadian navy, once it has had explained adequately what the Conservatives in other provinces are asking, will be readily convinced that Sir Wilfrid Laurier has chosen the best policy."

Montreal La Presse (Lib.)—"The election of Gilbert is certainly one of the greatest surprises in our political history. The struggle centred exclusively round the navy question, and the result is significant. Either the electors have been insufficiently instructed or else they are strenuously opposed to the government's policy. It is true that Mr. Gilbert's majority was not considerable, but it shows a pronounced change of opinion that one cannot but understand its significance. And who can prophesy that that which has happened in Drummond and Arthabaska will not repeat itself in most of the counties of the province?"

Montreal La Presse (Lib.)—"The government candidate has been defeated in one of the strongest Liberal counties in Quebec. A remarkable sidelight of the election was that, contrary to all expectations, the English speaking vote was unfavorable to the government. This showed that the navy question was not the only one against which there was an objection. It was unfortunate, however, that the electorate should have been divided by nationalities and by races on so grave an issue. It had often been declared that the province allowed itself to be influenced by the nationalities, and some time ago a solid Quebec was spoken for by Sir Wilfrid Laurier. The Province of Quebec honors Sir Wilfrid, and has proved its devotion to him in many times. But above the names are placed still the principles: To have dared to turn against the great popular idol in his home county, the electors of Drummond must have had the most serious reasons."

Quebec La Vigie (Lib.)—"The majority of the electors were basely deceived. The most remote parishes were invaded by jokers who frightened the women, especially, telling them war was at hand and that their sons would be called to arms and sent to the trenches in the sea of Oceania."

Quebec Chronicle (Con.)—"The truth is that Laurier's prestige in the wane it had been on the wane for a long time, since even his own party have apparently been using him as a figurehead. Single-handed he was too much for any rival and anyone who dared to stand up against him was thrust out. But his present entourage is too wise to work single-handed. They have formed a ring which is evidently powerless to control and which is using him and his past prestige. His silver hair sets to purchase them a good opinion, and to reconcile public opinion to their palpable mal-administration."

Toronto Telegram (Ind.)—"Laurierism was yesterday pierced by the sword of church and state prejudice even as Laurierism pierced its enemies with that same sword every time Sir Wilfrid's followers were given a chance to pose as the defenders of Quebec's race and creed in the face of the alleged hostility of Canadians outside of Quebec. Drummond and Arthabaska do not grace the brows of Laurierism with the crown of the martyr. Drummond and Arthabaska does not adorn the plans of Laurierism with the fowl's coop of the misceologist."

Toronto News (Con.)—"At Confederation Dorian and his allies saw the doom of the French race in the union of the province. There was little sympathy in Quebec for the acquisition of the north-west territories. There was reluctant and sullen acquiescence in the despatch of Canadian contingents to South Africa. There is, as Drummond and Arthabaska shows, a formidable opposition to the naval policies both of the Liberal Government and the Conservative Opposition in parliament. But again the majority must govern, and in the end no legitimate right or interest of the Quebec people will be prejudiced. It is not necessary to 'smash confederation,' nor to delay the movement for imperial unity. Laurier became a noble servant of the confederation. Merle passed and no permanent evil resulted. Bourassa will not avail to turn Canada from its high destiny within the empire, and even though the Laurier administration may go to pieces."

Montreal Witness (Lib.)—"In a sense the victory of Bourassa, Monk, et al., may do good. It may bring the Conservative party to a grave sense of its responsibilities. It may teach imperialists not to be shrill."

St. John N. B. Standard (Con.)—"For Laurier it is the beginning of the end."

Toronto Globe (Lib.)—"It means that the Bourassa propaganda has made more progress than had been imagined, and that the most vigorous steps must be taken toward putting the actual conditions as to naval defence"

Winnipeg Free Press (Lib.)—"If the result yesterday be regarded as having any significance in the way of indicating the attitude that the Province of Quebec is going to take in regard to the Canadian naval policy, it cannot be regarded with satisfaction by any Canadian with whom concern for our country's future outweighs political partyship."

Kingston Standard (Con.)—"Let there be no mistake. The Arthabaska election is not so much a victory for Bourassaism as it is a protest against the Canadian naval policy. The fact that it will be joined in by every section of Canada, when the opportunity is given the people at the polls to express their feelings in this matter."

Kingston Waig (Lib.)—"The cleavage made by this election is bound to spread. If French-Canadians will be misled by the mischievous Bourassa-Laurier-Monk faction to which representatives of the older parties and even church give their countenance, there must follow a division of the people along racial lines. Laurier may go on with his naval policy serene in the consciousness that he has behind him the great masses of the people, but he will realize that to his own countrymen he cannot turn for support and sooner or later they will discover their folly."

Hamilton Herald (Ind.)—"Altho the naval question was the sole public issue in the contest, it is probable that there were many whose antagonism to the government was based on other grounds, and who took advantage of the opportunity to express it, ignoring the naval question."

Montreal Witness (Lib.)—"In a sense the victory of Bourassa, Monk, et al., may do good. It may bring the Conservative party to a grave sense of its responsibilities. It may teach imperialists not to be shrill."

Market Has an Early Advance Selling is Resumed at Close
 Rumors of Assassination of Spanish King Inspire Selling in New York—Toronto Market Dull, But Generally Firm.

World Office, Friday Evening, Nov. 4.
 The Toronto market showed itself particularly susceptible to New York influence to-day when a rumor in connection with Spanish affairs caused a quick decline in the big market. A species of buoyancy was in evidence early in the day's business on the local market.

Twin City was the strong feature, with sales 1 3/8 points higher than last night's close. Mackay and Rio were also higher and strength was generally experienced in all the listed issues.

It was a debatable point after the close of the market whether the afternoon selling was the result of genuine market fright or a manipulated movement for effect. The latter was the accepted idea, and if this is correct, prices will recover without much difficulty.

Large dealings in Quebec Light and Power did not represent any local demand for the shares. The pools in the stock are using the market to attract buyers, but up to the present, have made very little headway in this market.

About an average amount of investment buying occurred to-day, these operations, however, being confined to the non-speculative issues.

Recent transactions have not been participated in to any great extent by the public and dealers are consequently confined to floor traders. Outside holders are really offering very little stock and the floating supply of securities is of a minimum character.

WALL STREET POINTERS.
 Copper trade reports continue favorable.
 Metropolitan proposed foreclosure sale to-day.
 General market in London irregular, with light volume of business.
 Building expenditure in New York City in October decreased 11 per cent.
 American stocks in London irregular, but showing strength in spots.
 Rumored in the New York Central will issue \$40,000,000 notes.
 St. Paul Sept. net decreased \$274,352, in spite of gross increase of \$216,276.
 Express strike peace negotiations held up by refusal of companies to recognize union.
 American Tel. and Tel. annual report shows 10-1-10 per cent. earned on stock, compared with 8-10 per cent. for 1909 and 9-9-10 per cent. in 1908.

NEW YORK CHAMBER OF COMMERCE
 reports strongly against Tri-boro subway on ground of expense and strain in city's credit.
Regular Dividend on Norfolk.
 Norfolk and Western has declared usual quarterly dividend of 1-1/4 per cent. on its common stock.

FAILURES IN OCTOBER.
 Commercial insolvencies in the Dominion of Canada during October, as reported by R. G. Dun & Co., were 30 with liabilities amounting to \$947,499, which compares very favorably with 26 involving \$1,322,180 in the same month a year ago, and 129 for \$1,075,451 in 1908.
 Compared with last year there is marked improvement in both the manufacturing and trading classes, but in brokers and transporters while the number is less, the amount of defaults in amount. Manufacturing defaults numbered 33 and involved \$1,075,451, a decided improvement over the 47 for \$206,378 of the same month last year, and the 33 for \$423,487 in 1908. In a comparison with last year the trading class makes an even better showing, 34 suspensions with defaulted indebtedness of \$74,537, against 17 with liabilities of \$808,222, but computed with the 90 for \$612,164 of 1908, also there is pronounced decrease in the amount of liabilities, there is some gain in number.

MARKET STILL WANTING IN BREADTH.
 World Office, Friday Evening, Nov. 4.
 The Toronto stock market did not broaden out to any great extent to-day. Some of the speculative favorites showed an arousing of interest, but only two attracted any immediate attention, viz., Twin City and Rio. Large trading in Quebec Light & Power was purely the result of operations between Montreal and Toronto brokers, and was not participated in by the public. Trying to make a market is the only explanation for the volume of transactions which occurred in Quebec shares. In most of the issues enquired after there was a scarcity of offerings, and in some instances asked prices were only made when the possibility of not losing stock was fairly certain.

Where to Buy Reputable Furnishings for Men
Men who have bought good honest suits and overcoats at this store are evidently following it up by investigating our other departments for men, and telling their friends about them.

Our Department of Men's Furnishings was never so busy, and never so deserving of the business it is getting. Men tell us quite frankly that they are new customers who have been attracted here by seeing the shirts, ties, waistcoats, etc., their friends have purchased from us. They are always anxious to look through our stocks, and this always means new customers.

So confident are we that this department has just the things men want, that we're almost tempted to lay a wager to the effect that no average man will come and see the goods mentioned here, without buying some of them.
