Paris. Dec. 30.—In addressing the chamber of deputies last night, Premier Clemenceau made it piain that it was his intention to support Greet Britain in the peace negotiations on the question of the freedom of the seas. and he declared that his attitude in this matter was approved by President Wilson.

London, Dec. 30.—According to present arrangements, the members of commons elected this month will take their seats in parliament on January 21. The swearing-in of the members probably will continue for ten days or a fortnight. The actual business of the session is not likely to be reached until the early part of February.

It is anticipated in political circles that the provisional list of new appointments to the cabinet will be available before the end of this week. One of the most important vacancies is that of the chancellorship of the exchanged his intention to relinquish this office and confine himself to the government leadership in the house. All the coalition ministers have been re-elected to the house and are available for reappointment to the cabinet. The defeat of Arthur Henderson the content of the General Railwaymen's Union, has been elected to the vacancy, and his selection meets in party has considerably increased its strength and will be the largest party at Westminster outside the coalition majority. ## SUPREME COURT ORDERS THE RADIAL

Commands Service to Burlington and Makes Board Judgment an Order-in-Court.

Hamilton, Dec. 30,-Sensational developments occurred late tonight in the fight between Burlington and the Hamilton Electric Radial Company, when supreme court writs, ordering the company to operate and making the recent judgment of the Dominion Railway Board an order in court, were served upon E. P. Coleman, general manager, and the board of directors, which is composed of Sir John M. Gibson, Col. Moodie, W. C. Hawkins, and James Dixon, Failure to comply with the order will result in an application being made to the courts by the municipality of Burlington to prosecute Mr. Coleman and the directors for contempt of court. This step is the most drastic measure that has yet been taken by Town Solicitor Cleaver to force the company to live up to its agreement, and is an indication that the little town by the lakefront have no respect for persons or corporations when they think a square deal is not coming their way. Consent of the Dominion Railway Board was obtained to make the recent judgment of the board, in which the company was instructed to carry on a service, an order-in-court. This was forwarded to Sheriff Middleton this afternoon, and copies of the order, with writs attached, were served by Officer Perry tonight. supreme court writs, ordering the com-

### The Shannon Idea In Plumbing

It used to be, when a plumber was wanted, that you would sit and walt and twirl your fingers—probably "cuss" a little and get out of temper, WAITING, WAITING, WAITING. Shannon has changed all that. You do not have to walt—and you needn't cuss, or get out of temper. Just phone and one of the Shannon cars will be there—fully equipped for any kind of work you have. All necessary tools in the car.

That is something they cannot understand, especially after the board since Burlington made its first appeal for assistance.

From now on events should move rapidly as far as Burlington is concerned. The little town is jubilant in having at last got something definitely started by which it can bring the corporation to the courts. Late tonight the inhabitants were busy nominating their council, and it was stated that on election day the old council, which is so successfully flighting the radial, would be returned.

#### TAXES ON PROPERTY INTEREST WARD TWO

A well-attended meeting of the ratepayers of Ward 2 was held in Winchester Hall last night, presided over by
Joseph Russell, M.L.A. The chairman
in opening the meeting said that his
occupany of the chair was due to his
friendship for John Winnett, one of the
aldermanic candidates in Ward 2, and
during the course of his remarks paid
a fine tribute to Mr. Winnett, whose
business life, he said, had entitled him
to the respect and confidence of the
people of the city.

Joseph Kent, an aspirant for aldermanic honors in Ward 2, favored the
abolition of the court of revision, and
outlined a number of other reforms
which he would introduce if elected.

H. H. Ball spoke at some length on
the assessment and other live questions,
and said that his request for the appointment of a provincial assessment
commissioner would relieve the city of
a provincial tax which it now paid. He
dealt with the need for more playgrounds
and athletic field, and strongly combated the idea that the city would not ter Hall last night, presided over by

C. A. Maguire, candidate for the board of control, said he had nine years to his credit, and declared that every candidate elected should be four square on public ownership. He ventured to show how that industrial development can only be accomplished by cheap power.

R. H. Cameron also presented himself as a candidate for the board of control, and was more venturesome than of the others and said he was not quite agreeable to all of the proposals of the Central Council Ratepayers' Association was largely attended. ## TRUCK LICENSES HAVE BEEN RAISED

Annual Fees Are Increased Upon Graduated

Scale.

Motor truck owners are closely affected by one or two notable changes in the collection of provincial revenue thru the Motor Traffic Act, which will go into effect at the beginning of the new year. The annual fees for motor trucks have been increased upon a graduated scale. which recognizes the weight of cargo, as well as the weight of the truck itself, There will be taken into consideration as the basis of assessment the combined weight of the truck and its maximum load capacity. In future trucks of from two to eight tons will pay \$5 per ton or fraction thereof. Trucks upward of eight tons and not more than ten tons, will pay \$7.50 per ton, and trücks exceeding ten tons will pay \$10 per ton This schedule resembles that in use in New York State.

Another change in motor registra-tion affects the Gealers' markers. For-merly dealers in motor vehicles have paid a fee of \$10 for initial registrapaid a fee of \$10 for initial registra-tion, and a first set of markers with an additional \$5 for each extra set of markers. In future the government will charge dealers \$20 per set for markers. Dealers \$20 per set for markers. Dealers say,however, per-mit sets of markers issued to them to be used on any cars they may choose,

vehicles are now registered on the provincial register, no fewer than 102,000 of these being passenger cars, and 7400 motor trucks, giving an average of one motor car to every twenty-three of the total population of the Province of Ontario. The entire revenue received by the government from motor vehicle licenses is estimated at \$1,200,000, and it is expected that the additional \$100,000 will be raised as a result of the increase in motor truck charges.

eaking of the new rates. W. A McLean, deputy minister of high-ways, stated that it was hoped that by the higher rates levied on heavier cars, their use in this vince would be discouraged. BELGIAN RELIEF FUND.

The honorary treasurer of the Canadian Serbian Relief committee reports the receipt of \$2781.80 for the two weeks ending Dec. 27. The people of Serbia are facing a winter as severe as our own, and the Bulgarians and Austrians have stripped the country of everything. Without help the Serbians cannot survive this winter.

Out by the 14th of June practically \$10,000,000 before any corresponding revenue had been received. A large part of this money had to be temporarily borrowed, the city having no surplus working capital, and the interest upon it approximated \$150,000. This, of course, was paid by the tax-payer, it having been provided for in the estimates, and is just another factor which tends to increase the tax rate.

## **SAVING MONEY** AT HIGH PRICE

Dr. Noble Charges Child Death Rate to Overcrowded Schools.

One hundred thousand dollars was saved to the Toronto taxpayers by the board of education's 1917 war thrift policy, according to reports presented at the final meeting for the year, held yesterday afternoon, of the school finance committee. Trustee C. A. B. Brown, chairman, pointed out that the board of control has asked that the school estimates be cut by nearly \$200,000, itemized details totaling \$193,000, which was imossible, but the committee offered to attempt to cut the expenditures to the extent of \$50,000. By starving the schools in every possible way, the cut had amounted to one hundred thousand dollars. This had been reached by overcrowding class rooms and keeping the number of teachers down below the number which should be employed to allow the best results.

be employed to allow the best results. It was to be hoped that the new board of education would insist on the erection of many more schools.

Little White Coffins.

Dr. John Noble said that in Ward 2, which re-elected him by acclamation, every school was overcrowded. He also made the direct startling charge that the reason we are sending little white coffins to the cemeteries by dozens is because the schools are so overcrowded, thru the opposition of the board of control to the erection of enough schools.

## ENGLISH DERBY ON THE SCREEN

"Sporting Life" is Worthy Successor to "The Whip.'

Seldom has there been a motion pic ture production of such magnitude as Maurice Tourneur's "Sporting Life," which will be the attraction at the Allen Theatre all next week.
Produced on a lavish scale, this film is declared by critics to be the greatest of the year, replete with thrills and

An absorbing love story runs thru-out the entire production. The roman-tic element is provided by the Earl of Woodstock, who is in love with the daughter of his chief trainer. His sister loves Joe Lee, a prizefighter of unknown ability. When the latter is drugged just before stepping into the ring, Lord Woodstock takes his place,

and not only wins the fight, but thou-sands of pounds as well. Thrills follow each other in quick succession, which keeps the audience expectant at all times. One of the most notable achievements of this motion picture production is the scenes showing the famous Derby Day at Epsom Downs, the greatest event of the year in English sporting circles. Beautiful women in the latest and most stylish gowns add to the setting for the running of the famous English

Thomas Langton Church is still looding the country with his heartbreaking advertisements, but he has not yet stepped up to the front row with any really legitimate reason why he should be allowed to sit in the mayor's chair for another season.

However, since yesterday we have discovered something tangible which he has done, but it did not happen to be either for the soldiers or their families. Instead, it was the visiting haseball players who have fited by his baseball players who benefited by his greatness, and at the same time at the

QUIET MEETING

Under the auspices of the British Imperial Association, with H. Parfrey in the chair, one of the quietest election meetings in years was held in Earlscourt School last might. The majority of the municipal candidates were present and were allowed a few minutes to explain their platforms in the order in which they arrived. All of the candidates were given a good reception and there was very little interruption on the part of the gathering. During the evening a presentation to Bertram Lindo, secretary of the association, was made for his good services during the past year.

Garnet Archibald, for board of control, spoke at length on public ownership and cited the success of the hydro, and was of the opinion that the city should not take over the Toronto Electric Light Company. Mr. Archibald was in favor of assessment reform. He further intimated that he would favor the extension of the playgrounds system under the capable leadership of Mr. Armstrong.

Ald. Brook Sykes stated that he had never missed a council meeting since he was elected. He favokad local option as far as assessment is concerned, and intimated that the whole system of assessing was slipshod. He further advocated that a central purchasing department be established in the city hall to confine buying to Toronto merchants. He did not think the tax rate could go much lower.

He did not think the tax rate could go much lower.

Dealing with the housing question the alderman thought little could be done with it until the transportation difficulties had been solved, and advocated preference for returned soldiers.

Running for the board of education. Mrs. McIvor was the next speaker. She stated that the basements of Toronto schools were a disgrace and scored the board of education for allowing such overcrowding. "I am in favor of compulsory education up to the age of sixteen." In reference to the construction of the buildings Mrs, McIvor said: "I will try and have the building department of the board of education cleaned out."

It is safer to vote for the new men than the old, and Mr. Thompson in Ward Three, Mr. McClelland in Four, Mr. Bell in Five and Mr. McCrea in Elight are being favored by progressive educationists.

The cost of the board of education

We are always behind our schedule in school accommodation, and Toronto is by no means so prolific as Quebec. There is need, therefore, for the most careful business acumen in dealing in handling the minor details, about which such grave scandals have been rumored during the worry about being here to great the score of the schools, and to not particularly that the women can of trustees for the schools, and to not particularly that the women can didates are given votes.

Attempts are still being made to divide the ententeal since and the from the public office will regard to the schools and to come tout on a business-like manner, and if they cannot do that then let their refract from the limelight forever.

# AT EARLSCOURT TORONTO'S HOUSING PROBLEM

Toronto faces an acute housing situation which only a constructive building program, begun immediately and carried out systematically, can remedy. The prob-lem in Toronto must be faced and solved as it actually exists, irrespective of conditions elsewhere. Every effort must be put forth to maintain Toronto as a city of self-contained homes. Many small dwellings, obtainable at reasonable prices, will have to be erected in the outskirts, or "rim" of the city.

Another phase of the problem concerns conditions' in the "hub" or central district. This is mainly a question of reconstruction. Many large residences formerly occupied by single families are now used as rooming houses. At present we lack legislation to regulate these or even to secure the separate toilet facilities required under the Statutes in factories.

I believe that conditions in the "hub" section could be remedied to a great extent by permitting, under strict supervision, the conversion of such old residences as are suitable into three self-contained, apartment houses.

In Toronto, as in every large and growing city, there are those who require accommodation in the "hub" of the city as well as in the "rim." While increasing the number of homes, we should also improve conditions in the central district.

It is your duty as a citizen to use your vote to elect the best representatives to your civic government for 1919.

## CONTROLLER JOHN O'NEILL, **Mayoralty Candidate**

# Want MacGregor in Ward 6

Hundreds of the most influential ratepayers of Ward Six are solidly behind the candidature of former Alderman Donald MacGregor, who is seeking re-election as alderman in his old constituency. The splendid list of improvements secured for Ward Six during 1916 and 1917 as a result of the persistent efforts of Alderman MacGregor in council should not be forgotten by the taxpayers of the Ward, and, no doubt, when the vote is counted MacGregor will be at the head of the poll. Among Mr. MacGregor's supporters are noted such wellknown citizens as:

Dr. J. M. Palmer, Rev. Dr. Alex. MacGillivray, W. C. Davidson, R. J. Clarke, Dr. W. R. Cook, Joseph Bell, J. B. Westlake, Percy J. Quinn, John Laxton, Robert S. Burrows, Henry Parfrey, J.P., David McKee, A. P. Herbert, J. A. McCausland.

The Strand Theatre has an unusual attraction for the first part of this week in "The Testing of Mildred Vane," of his battalion in conjunction with May Alison in the leading role. This play has some of the most fascinating villainy in it, and no patron of this theatre should miss seeing it. The plot is fresh and fascinating and this theatre should miss seeing it. The plot is fresh and fascinating and packed full of thrills. It has all the elements of a dramatic story which holds the attention of the audience until the last reel. May Allison finds it an ideal medium for the distinctive charms and expressiveness of acting which have made her justly famous, and she is ably supported in the other characters of the play. "The Testing of Mildred Vane" is well worth seeing.

## LIGHTWEIGHT CHAMPIONSHIP FROM ABE HICKSON DOWN TO BENNIE LEONARD

Half a century ago Abe Hicken became the first recognized champion of American lightweights by defeating Pete McGulre, the scene of the great event being Perryville, Md. He turned the trick in five rounds, and thereby gained immortality and a big share of the \$2000 purse. The history of the American lightweight division from Hicken to Leonard would make mighty interesting reading but it would require several fat volumes to record what has taken place since that memorable day in 1868.

Hicken retired soon after his victory, and Arthur Chambers and Billy Edwards claimed the title. Chambers won by a crick, and later defended his title against Johnny Clark. Charlie Norton, George Fulljames of Toronto, and others then held forth as claimants, until in 1884. Jack Dempsey, the "Nonpareil." became the recognized leader of the division, Jack soon outgrew the lightweight class,

# 67 YEARS OF GROWTH

IN the early days the founder of this business made a few gross of matches a day. and sold them himself, driving his horse and wagon as far as Toronto. Today, from automatic machines, 70,000,000 matches a day are turned out to keep Canada's home fires burning. And not matches alone: indurated fibreware, household helps, and a host of paper products have been added to this line.

### The House of Eddy

has become an institution which touches the daily life of the Canadian public in a thousand different ways.

There is a reason back of this steady and consistent progress. Business institutions do not grow to such proportions by accident. It takes real merit to accomplish such a result; merit in the goods themselves, and in the concern which is back of them.

When you buy matches, see that Eddy's name is on the box. When you are in need of some of the familiar household helps, such as a washtub, a pail, or a washboard, remember that there is an Eddy product which will fill your needs, made from light and durable Indurated Fibreware. Remember also that Eddy's Paper Specialties are standard.

# MINING MARKET SHOWS STRENGTH

Petroleum and Maple Leaf McIntyre and Kirkland Lake Advance Sharply - Dome Sells Off in New York.

Despite the decidedly feverish aspect of this New York market yesterday, stocks dealt in on the Toronto Exchange showed, in the main, an upward inclination, altho several issues, including Twin City, were distinctly weaker. One of the features of the trading was the transfer of a block of 500 shares of Colonial Loan at 80, two points above the previous high level of the year. Next to Colonial Loan at 80, two points above the previous high level of the year. Next to Colonial Loan, the largest turnover was in International Petroleum, of which 400 shares changed hands. The stock sold at 20.50, a deliar a share above the previous record price, in recognition of the declaration of a dividend of fitty cents per share, but reacted to 19.75. Maple Leaf was also strong and active, selling up to 135% after opening at 13% and closing at the top price. Cemett was up half a point at 66½. The sank shares were featured by Bank of Ottawa, 100 shares being dealt in at 206, an advance of a point. Twin City, which is undergoing a vigorius raid in New York as part of the presistent drive against tractions in general, sold off 3% to 38%, and was ster offered at 37 with 34 bid. In New York Twin City sold as low as 32. Alto there are revived rumors of an impepding dividend on Canada Steamships common, the stock was off a point at 47½, and Brazilian was down ½ to 52½.

The war loans were less active than was the rule last week, with the bulk of the trading in the 1922 issue, which at 93% was off %. The other loans were also easier.

The day's transactions: Shares, 1957; war loans, \$20,900.

BRINGING IN GAS WELL

IN PINE ISLAND FIELD

### FALLING PRICES

The Castle Oil & Gas Company is bringing in a gas well at Pine Island. Louislane, and while official data as to the production are not yet available, it is very significant that at 925 feet the yell developed a greater pressure than had previously been demonstrated a a corresponding depth anywhere in the district. All arrangements for the isle of the gas have been completes, and the management is confident that the returns will be big, as a price of six cents per thousand cubic feet is being obtained.

Ambier well is to be started immediately on the lease, and it is expected that the income from the first well will be sufficient to, take care of all the expenditure of sinking this, and at the same time make up the cost of time. # HEAVY SELLING OF

Bonds Are Liquidated in Unprecedented Volume-Pressure on Utilities.

New York, Dec. 30.—Renewed liquidation of stocks and bonds, the latter in unprecedented volume, characterized the feverishly active trading on the stock exchange today, several important issues, including rails, recording lowest quotations of the year.

The movement was the most comprehensive of any session of the month and again lacked definite or plausible explanation other than the widespread belief that corporations and individual holders of securities are closing out accounts to adjust income tax returns for the year.

In all probability, much of the selling of rails was impelled by the many adverse statements for November submitted by the inter-state commerce commission, such systems as Pennsylvania, Reading, Baltimore & Ohio, Canadian Pacific, Chicago and Northwestern, St. Paul, Rock Island and New Haven reporting net losses, ranging from \$700,000 to almost \$2,000,000.

Recessions among standard rails ran from 1 to 2 points, but among issues of lesser importance losses were more extensive.

In all preferred railying sharply after its early setback, Southern Pacific and United States, the latter losing only the smallest fraction on the moderate raily at the close. Sales amounted to 1,200,000 shares.

# MILLING STOCKS RISE

Lake of Woods, Maple Leaf and St. Lawrence Are Prominent.

Montreal, Dec. 30.—The milling stocks were the strong group in a moderately active market for Canadian securities today. The general tone of the market continued good, with the price tendency again higher, but changes for the most part limited to fractions.

Lake of the Woods, relatively neglected during the recent rise in the milling stocks, became the feature of that group today, small lots selling at 165 to 167, against last previous sales at 154 about a week ago, and a high record price for the year of 162. Only 60 shares came out as bids were raised in an effort to out as bids were raised in an effort to secure offerings. Maple Leaf rose 2½ to 136½, and closed at 136 while St. Lawrence at 36 added 1 point to its recent advance, and closed at 96¼ bid, or within ½ point of the highest quotation on record. St. Lawrence with 350 shares and Maple Leaf with 280 shares were the more active features.

In bonds an active market in the 1927 Victory Loan, which advanced ¼ to 101¼, in board lots, but sold as low as 100½ in small lots, was the chief feature. Dealings in the issue totalled \$78, 550 par value, with closing bid firm at 101. The 1937 Victory Loan was firm at 102, but the 1922's reacted ½ to 98%. Nova Scotia Steel 5's sold at 83, a rise of 1½.

Total business for the day was 4488 shares and \$141,800 bonds.

## **CORN ADVANCES TO** HIGH PRICE LEVELS

Stormy Weather Regarded as Likely to Restrict Arrival of Supplies Further.

ed by many uncertainties. Monetary restraints will have to be carefully considered, since there is an unusual degree of inflation in both financial and commercial affairs. Commodities are upon a hazardously high level, 19,300 light octs of production, and some recessions must be expected. Should the declines come gradually, the result will be stimulating to business by aiding a partial return to more mormal conditions. In the agricultural regions there is much prospertity resulting from prevailing high prices; and in manufacturing districts the same is true, owing to high wages. In consequence there should be a wide distribution of all the ordinary necessities. What is most needed is a strict conservatism in all important business ventures, also a wide economy among the public at large. If these simple safeguards are carefully followed for the coming year, the effect will be to strengthen confidence and pave the way for a safe and certain recovery.

MONTREAL STOCK EXCHANGE.

Chicago, Dec. 30.—Corn ascended to day to new high price levels for the season, owing chiefly to prospects that stormy weather would further restrict the arrival of supplies. The market closed unsettled at the same as Satur day's finish to 2½ chigher with January \$1.35%. Oats gained a shade to ½c to %c net, and provisions 12c to 77c. Offerings of corn proved scanty on the way up, especially for nearby deliveries, but around the top figures of the day sellers became much more numerous, and there was a good deal of realizing by longs who had profits in sight. Shorts who feared the effects of a continued lack of freedom in the crop movement were the chief buyers. Farmero, were willing to sell at present prices, but the impassable condition of country roads has largely put a stop to hauling. With this circumstance in view, the deferred months falled to hold advances, altho December and January kept relatively firm throut the session.

Oats showed independent strength. Saster and certain recovery.
