LEITCH, K.C., OF CORNWALL APPOINTED CHAIRMAN OF RAILWAY BOARD

Announcement Made Known Last Evening and Puts an End to a Problematical Topic-A Deserving Tribute.

Cornwall, June 1.-James Leitch, K. C., of Cornwell, to-night received notice of his appointment as chairman of the railway and municipal board for Ontario, at a salary of \$6000 a year. This is the new board brought into existence by ar act of the late session

of the Ontario government. Mr. Leitch was admitted to the Law Society as a student-at-law in 1871. He read law for one year with the late James Bethune, Q.C., and finished his law course with the firm of Crooks. James Bethune, Q.C., and imished has law course with the firm of Crooks, kingsmill & Cautanach of Toronto. He was called to the bar in the Easter term, 1876, and at once commenced plactice in Cornwall. During that year he became associated with R. B. Carman, now seniir judge of Lincoln County, the firm being Carman & Leitch. This partnership continued until 1883, when Mr. Carman was appointed to the bench and Mr. Leitch associated with him R. A. Pringle, M. P., the firm being Leitch & Pringle, Mr. Leitch was appointed a Queen's counsel by the Barl of Derby in 1889. His present firm, Leitch, Pringle & Cameron, has an extensive practice and represents several large corporations, including the Canadian Colored Cotton Mills Co., Cornwall Paper Co., the Ontario Bank and several municipal corporations.

porations.

Mr. Leitch was elected reeve of the Town of Cornwall in 1884 and mayor in 1885 and 1886 by accidenation. While mayor the town installed a system of waterworks which has been a great success, and had surveys and plans success, and had surveys and plans made for a system of sewers, we have since been built. motion to have him reinstated was lost. the effect that McKibbon be reinstated on June 15, which carried. McKibbon will be kept out of two scheduled games, Mr. T. F. Lennox pleaded McKibbon's case.

The following Brantford players who played Sunday lacrosse in Chicago were reinstated: J. J. Kelly, D. A. McLean and W. J. Kearney. Mr. Nelson, G.T.R. ticket agent, and D. A. McLean represented the Brantford players. Mr. Nelson stated that the game was arranged at the Paris Old Boys reunion and that he Nelson, picked the tram himself and took them over there. He stated that the Sunday game was arranged as a favor to the manager of the Chicago team, who was a personal friend of his. He thought the players had been sufficiently punished, both by the C.L.A. and the Brantford people themselves.

Goderich, June 1.—In the opening lacrosse game of the season in this district of the C.L.A. the Seaforth Beavers defeated the Hurons of Goderich here this evering by a score of 7 to 4. Lack of practice evidently lost for the home team. The ball was faced by Mayor Tilt before an attendance of about 500.

WHITE LABEL

Ask for and see that our brand is on every cork.

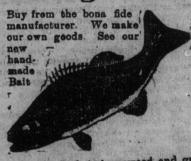

The fact that we've been on this corner for 30 years is argument enough for Jamieson clothing. If styles or qualities or treatment had been in any sense poor, trade would have slipped away from us long before this.

Best chance of the season to get a suit to order at \$16.00. Big purchase of highgrade woolens at a considerable saving, and sharing the benefit with you. It makes the store a better store because of the persistency with which we keep prices down.

When You Buy a Summer Suit

There's more than one good common sense reason why you should come here for it.

¶ A broader and more satisfactory assertment than you can possibly find elsewhere.

The high-class style and character which distinguishes good clothing from the commonplace.

¶ Most careful attention to details, which is essential to shape-retaining and lasting

¶ More skilfully tailored garments for less money than similar kinds can be had for elsewhere, which isn't mere talk, but a fact.

Here are three splendid values in two-piece summer or outing suits.

For 6.50-Single or double-breasted long sac coat, quarter lined; trousers have keepers for belt; made in a fashienable homespun, light gray or fawn, with handsome overplaids or stripes. Sizes 34 to 44.

For 8.50 - Single or double-breasted style; quarter lined; in pretty patterns of light fawn homespun with colored overplaid.

For 12.50-Latest New York model; single or double-breasted long cut coat with centre or side vents, broad shoulders and

full chested effect; trousers full at hip and of fashionable width; of a lightweight soft tweed with fine finish-in overplaids or stripe effects.

Gold, Silver and Arsenic.

Two and a half miles from Temagami Station, the mine of the Arseni-

of producing almost any of the edible commodities consumed in Ontario. The

inhabitants of Liskeard are very hope-ful. If confidence will build a town,

they have it. They have connection by steamer with all points on Lake

Temiskaming, and prosperity is seen verywhere. The storekeepers say the

credit system is in disfavor, that no-

set things right. According to his story, on one occasion he was told by the minister in charge that his claim was good, but that as he was a friend was good, but that as he was a friend was good, but that as he was a friend of the government it could not be granted. The minister rather shame-facedly admitted that the public facedly admitted that the public fac people, so are Halleybury and New Liskeard. They are reaping the benefit of the prosperity that has come to Co-bait, but values of corner lots, rentals, are admittedly fictitious. Lots in Hal-leybury. 100 x 50 feet have sold as bait, but values of corner lots, rentall, are admittedly fictitious. Lots in Haileybury, 100 x 50 feet, have sold as high as \$2000. A Cobalt town lot sold for \$12,000. A theatre is being erected in Cobalt, and the company paid speculators \$15,000 for the property. The speculators bought it for \$8000. A three-chair barber-shop in Halleybury is worth \$75 a month rental, because the barber can get that for it. Jake Gaudaur, ex-champion oarsman of the world brught the Vendome Hotel at Halleybury last year for \$17,000. In the spring he sold it for \$42,000 to some Buffaio people. These are some examples of inflated values in the new land, and tho there has been some talk that the bottom is falling out of the boom, it strikes the old Ontarioan that so long as the seekers for silver flock in the boom will continue, and they are flocking in.

This section of the road runs thru the clay belt, flat rolling country, capable of producing cereals and vegetables as fine as are grown in old Ontario. Eight miles beyond the end of steel is the lieight of land between James Bay and Lake Ontario. Beyond the height of land is another clay belt, capable of supporting a farming community. The visitors were impressed with three chief things, viz.; the mineral resources, the splendidy productive land in the clay belt, and the magnificent pine and spruce forests. If you tried every Automobile that's made

If you compared, by personal scrutiny and actual test, every automobile that is known to the motoring world, your choice at last would simmer down to a selection from these very twelve makes that comprise our offering to the Canadian buyer of an automobile

You would spend many months and many dollars making an examination so complete, a comparison so inclusive, and you would finally be no further towards certainty than you can be right, now if you deal with us for the automobile you think of buying. How do we know that? On what grounds do we make an assertion so positive and so unqualified? We make it upon these grounds: As the chief automobile concern of Canada it is our special business to know - not to guess or hazard, but to KNOW-which of all the world's motor cars are the absolute standard of value, each of its kind and for its price, and which best meet Canada's peculiar road conditions and the specific and distinctive requirements of the Canadian motorist, whose needs differ essentially from those of his cousin over the border. This too we must KNOW, and know how to provide for those nee Before we can know that, we ma have made the very comparison we ha outlined here we must have examine and contrasted the merits of ALL the good cars, and we must have considered the respective claims of each maker in

their relation to the special demands of the Canadian motorist. That much we must do, big as the task looks-and is. We must have done it, because we could in no wise afford to put our reputation back of any maker's cars unless we KNEW absolutely that no other maker could outvie him in merit, or outsell him in value. That's mere business logic, you see. For we can afford to sell only the supremely best-why should we sell any automobile less good than that?-since it is true that we could make no greater profit from the dubious car than from the car we KNOW is good. So we scrutinize the auto marketwith the judgment of experts, sharpened by the necessity of business. And, therefore, the fact that we have just twelve makes on our list instead of forty, as we easily could have with our purchasing power and our selling power, is of itself proof that we have chosen capably from the market as a whole, and that these twelve makes represent no dictate of commercial necessity, but merit - supreme, examined. compared - merit, judged against there are automobiles

CITRUS FRUITS. As an indication of the profits to be derived from raising oranges and other citius fruits, I quote from an official work on Cuba, recently published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, beging to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$300 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is

greater than the previous year.

limit is placed upon the age of the

orange tree; so in beginning an orange grove, remember, if four or five years

are required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath the shade almost in iddenses and have its shade almost in idleness and have an abundant competency."

ORANGES

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would be more than twenty years before the market would he supplied to the same extent that it was previous to the freezes in Florida.

It must be remembered that an orange grove will mature here in onethird less time than in California or

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income, sufficient to support a family in the best country style."

growing vegetables; as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have surplus money accumulated in other than agricultural pursuits.

It is easily within the bounds of probability to estimate a crop of vege-tables that can be grown during the winter months at a thousand to two thousand dollars' profit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around Havana it would be reasonable to say into thousands of dollars

FISH, GAME AND ANIMALS.

Seven hundred varieties of fish, also crabs, oysters, lobsters and turtles, are found in the waters surrounding Cuba. The sea and rivers which empty into it are literally alive with them. Sea-bass, red-snapper and pompano are the choicest eating.

Parokeets and beautiful humming birds, brilliant as winged jewels, quail and wild pifeons are found in the woods, and ducks along the coast. Such game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them.

There are positively no poisonous snakes or insects or dangerous wild animals on the Island. The largest four-footed animal found is the "hutla," about the size of a large squirrel. You about the size of a large squirrer. You can sleep in the open air in the woods or in a tent without the slightest danger from beast or reptiles. Mosquitoes and even common house flies are never troublesome in summer.

This is an opportunity now offered to the public of purchasing some of the choicest fruit, vegetable and tobacco lands at the low price of \$25 per acre, which land is bound to double in value within a short period. We have only one price, \$25 per acre. The same lands, we have no hesitation in saying, will realize over \$60 per acre within two years' time, and are unsurpassed for the profitable growing of all kinds of citrus fruits, oranges, lemons, pineapples, grape fruit and all small fruits. It has been demonstrated beyond doubt that every variety of vegetables grown in Canada is now growing on our estate, and when

Beaty, King Edward Hotel, at the close of the market to-day:

The movement looked uncertain and some pressure fell in various directions, but it was not of a kind to disconcert traders and during the afternoon rather well distributed support carried the market out of its temporary depression and without becoming distinctly strong a better tone developed.

The movement of money for the week to the movement of money for the week to the movement of money for the week to the strength of the str becoming distinctly strong a better tone developed.

The movement of money for the week eppears to favor a good bank statement to-

morrow and a gain by these institutions in cash of nearly \$7,000,000 is reported.

Meantime nearly \$9,000,000 has been transserred from San Francisco and that is expected next week.

The news to-day included the statement that large shipments of gold would shortly be made from Alaska and interest and dividend payments for to-day at Boston and New York amounted to \$47,000,000.

The London market will be closed to-morrow and Monday and a certain degree of duiness may be expected, as a resuit of this and the closing of the Chicago Board of Trade and the cotton exchanges. The meeting of the Amalgamated Copper Conpany Monday is expected to furnish a market incentive.

Meantime the security list looks strong enough to stand ordinary news developments, tho we are promised reports of furtner stree borrowings and increases of capital obligations from certain directions.

Ternaps the prospect of such developments hay explain the recent indifference of larger interests to the market's movement.

Ennis & Stoppani wired to J. L. Mitcheil, McKinnon Building:

The stock market to-day was narrow and professional, the only movements of note occurring in such stocks as L. & N., C.F. & I., Atlantic Coast, St. Paul and American Steel Foundry, all of which advanced sharply on what looked like mainpulative buying. The prospects of a large gain in cash by the banks, together with the belief of a fairly 2006 bank statement to puttree buying. The prospects of a large gain in cash by the banks, together with the belief of a fairly 2006 bank statement to puttree buying. The weakness in the grain market on the magnificent crop outlook helped the grangers. Insiders in T.C. & I. have advanced the stock to 156, making an advance of about 16 points from the recent low level, which represents forced covering of the short interest. It is a patter of comment that the market holds firm, while extremely dull, indicating an absence or any amount of stocks for sale. The crop situation has materially improved, the labor situation on the whole is satisfactory, business is active, especially in the iron and steel industry and money market should gradually work into an easier position. We do not, however, look for any sharp upward movement, altho if such stocks as Steel and Erie are taken in hand, the rest of the market will undoubted by follow.

Does Your FOOD Digest Well?

When the food is imperfectly digested the full benefit is not derived from it by the full benefit is not derived from it by the body and the purpose of eating is defeated; no matter how good the food or how carefully adapted to the wants of the body it may be. Thus the dyspeptic often becomes thin, weak and debilitated, energy is lacking, brightness, snap and vim are lost, and in their place come dullness, lost appetite, depression and langour. It takes no great knowledge to know when one has indigestion, some of the following symptoms generally exist, viz.: constipation, toms generally exist, viz.: constipation, sour stomach, variable appetite, headache, heartburn, gas in the stomach, etc. The great point is to cure it, to get back bounding health and viger.

BURDOCK **BLOOD BITTERS**

is constantly effecting cures of dyspepsia because it acts in a natural yet effective way upon all the organs involved in the process of digestion, removing all clogging impurities and making easy the work of digestion and assimilation.

Mr. R. G. Harvey, Ameliasburg, Ont., writes: "I have been troubled with dys-posis for several years and after using three bottles of Burdock Blood Bitters I was completely cured. I cannot praise B.B.B. enough for what it has done for me. I have not had a sign of dyspepsia

Important announcement to all those who have new houses to furnish or old ones to renovate. On Monday, June 4th, we start a new

Housefurnishing Club on the exact plan of those which so successfully preceded it last year. Probably most of our readers understand the

plan by which we have offered to sell Carpets, Curtains, Furniture and Pictures in a way that admits

a limited number of Charge Accounts. We hereby offer to open five hundred of such accounts this month by inaugurating a similar club, and announce that on Monday morning we will be ready to enter names for membership and allow you to select your goods.

This Club plan offers the following unique advantages to housefurnishers:

The Convenience of a Charge Account.

2. The Regular Simpson Cash Prices on

All Regular Goods. 3. The Benefit of All Special Prices That Our House Furnishing Departments Will Be Able to Offer During June and July.

4. A Stock of Carpets, Curtains and Furniture Unsurpassed in Canada From Which to Choose What You Want and Pay for it at Your Convenience.

5. A Chance to Buy Important Wedding Presents or Furnish Houses Entire for June Brides on Easy Terms.

The Housefurnishing Club Office will be re-opened in the Curtain Department on the 3rd floor. The Club Secretary will explain the very simple arrangements as to terms and times of payment.

The first cost of an Oriental Rug is greater than some other floor covers, but that wen't affect members of the Housefurnishing Club, because they can pay at convenience. An Oriental Rug is in the end the cheapest floor cover you can buy, because of its positively wonderful durability. Unquestionably they are most artistic. We have a larger and more varied stock of genuine Orientals at the present time than ever before. One of the best collections in Canada is thus at the service of members of the Housefurnishing Club, and Simpson prices rule in every case.
