CONCESSIONS IN THE TARIFF FIELDING EXPLAINS NEGOTIATIONS—OPEN TO THE WORLD BARGAIN FOR BOTH PARTIES

About 40 Articles Slightly
Affected—Canadian In-
dustry Not Injured,
He Declares.

**TAFT WASN'T BLUFFING
PACT BEST ALL ROUND**

Reductions are made in thirteen classes, containing about forty items in all. The average reduction is about 2 1/2 per cent., that is, the average difference between the general tariff under which American goods have entered Canada hitherto, and the intermediate tariff under which they now enter.

The conceded items constitute about \$5,000,000 of Canada's American imports. These goods are, many of them, goods that are not extensively produced in Canada, and the reduction will go to reduce the prices on dates, figs, prunes and nuts, toilet articles, perfumery, tableware china, window glass, watch actions, sheet leathers and milliners' supplies.

OTTAWA, March 30.—(Special.)—Well, Canada HAS made concessions to the United States after all to secure the continuance of the United States minimum tariff and to avoid the imposition of the maximum tariff in its place.

But, according to the minister of finance, the arrangement will hurt no industry in Canada; does not give the United States any particular preference—because the concessions are granted in the general tariff and will apply to the whole world; will have no convenient effect on the revenue, and, as a matter of fact, serves a very useful purpose indeed.

"No doubt," said Mr. Fielding, "extremists on both sides will have the extreme view as to this arrangement. I have no doubt that some will say that the United States have the best of the bargain, and that others will say that Canada has the best of the bargain. In both cases I believe they will be wrong."

"In so far as the best kind of bargain is one where both sides meet each other in good spirit and are satisfied that the spirit of compromise has prevailed, I believe it is a good thing for Canada, and that it is a good thing for the United States."

Mr. Fielding said he had every reason to believe that President Taft, although sincere in his kindly references to Canada, had not been bluffing, but that, had Canada declined to do something, he would have had to impose the maximum duty.

And while this might have been avoided, and Canada emerged with a diplomatic triumph, such a course would only have created an ill-feeling which would have reacted unfavorably in some future negotiations.

Mr. Fielding emphasized the fact that the United States, although desirous of getting concessions concerning the exportation of wood pulp, had not insisted on these when it was explained that it was a matter for the provinces to decide.

The concessions provided by the agreement cover less than 3 per cent. of all the import business from the United States into Canada in a year.

They will cover business amounting to about \$5,000,000, against imports into Canada from the United States amounting to more than \$180,000,000 in the Canadian fiscal year of 1909. They include about forty staple commodities.

One of the most important concessions made by Canada is that of the so-called omnibus clause in the tariff. Heretofore all articles of the tariff which came from the United States have been subject to the general tariff of 20 per cent. ad valorem. Hereafter these articles will pay 17 1/2 per cent. ad valorem.

Our International Trade.
Mr. Fielding began by a reference to the fact that 50 per cent. of the total trade of Canada was with the United States, that 80 per cent. of Canada's imports came from the United States, and that 35 per cent. of Canada's exports went to the United States.

The Canadian government has maintained an attitude of independent action, and had declined to make any approach to the United States regarding the tariff, while the question of the Franco-Canadian treaty was under discussion.

Had the United States been approached, it would have been recognized that the United States had the right to restrict the liberty of Canada to enter into trade treaties with any country with which it might be convenient to do business. However, Washington took the first step of asking that negotiations be opened for better trade relations.

Col. Hughes: "Did not the editor of the Globe go down there with his hat in his hand?"

New Treaty Favors Us.
Mr. Fielding went on to say that the United States tariff had not been regarded in Canada as favorable to Canadian trade, but taking it all in all, it was calculated that the recent Payne-Aldrich tariff was better for Canada than the old Dingley tariff. On the basis of last year's imports, the change would mean an equivalent of one million dollars in Canada's favor.

Nevertheless the tariff of to-day was quite a high tariff, and if the maximum United States tariff was applied it would be practically prohibitive, and Canada would be obliged to adopt retaliatory measures. If a tariff war had been entered into, the United States would have suffered more than Canada, but both parties would have suffered in an enormous degree.

He had found that the men who would have suffered most were willing to bear the burden, if necessary, but in order to avert a great disaster, they suggested that it was the duty of the government to avert it if possible by making moderate concessions.

The government felt, therefore, that the moment the United States expressed a desire to open up negotiations, it was a duty to meet the representatives in the same spirit with which they came to Ottawa. H. C. Emery and C.

AN INVITATION TO CLOSER RELATIONS

WASHINGTON, D.C., March 30.—Following the proclamation of a complete tariff agreement with Canada to-day, it was announced that President Taft has invited Dominion Government officials to a conference looking to closer trade relations between the two countries and to a general readjustment of duties.

Writing Hon. Mr. Fielding, United States Secretary Knox says: "I am gratified that the recent tendencies toward a more perfect understanding between our respective countries, manifested so conspicuously in the maturing adjustments of boundary waters, fisheries, and other long-standing differences, will not be affected by the irritations which would have resulted from our failure to agree upon the tariff question."

"The president is confident that the policy of broader and closer commercial relations with Canada will receive the hearty support of the large majority of the people of the United States, and he has learned with much satisfaction of the existence of a similar sentiment in the Dominion. It may be added that the conditions of the present day, as contrasted with the traditions of the past, are bringing into clearer light the truth that not only mutual trade in this, but ethical and social conditions of the highest moment reinforce this common sentiment."

"Let me then take this opportunity to express, by his direction, the desire of the president, that your government will find it convenient to take up with this government, at such times and in such manner as may be mutually satisfactory, the consideration of a readjustment of our trade relations upon the broader and more liberal lines which should obtain between countries so closely related geographically and racially as indicated by the president in his recent public utterances."

OTTAWA, March 30.—(Special.)—Well, Canada HAS made concessions to the United States after all to secure the continuance of the United States minimum tariff and to avoid the imposition of the maximum tariff in its place.

But, according to the minister of finance, the arrangement will hurt no industry in Canada; does not give the United States any particular preference—because the concessions are granted in the general tariff and will apply to the whole world; will have no convenient effect on the revenue, and, as a matter of fact, serves a very useful purpose indeed.

"No doubt," said Mr. Fielding, "extremists on both sides will have the extreme view as to this arrangement. I have no doubt that some will say that the United States have the best of the bargain, and that others will say that Canada has the best of the bargain. In both cases I believe they will be wrong."

"In so far as the best kind of bargain is one where both sides meet each other in good spirit and are satisfied that the spirit of compromise has prevailed, I believe it is a good thing for Canada, and that it is a good thing for the United States."

Mr. Fielding said he had every reason to believe that President Taft, although sincere in his kindly references to Canada, had not been bluffing, but that, had Canada declined to do something, he would have had to impose the maximum duty.

And while this might have been avoided, and Canada emerged with a diplomatic triumph, such a course would only have created an ill-feeling which would have reacted unfavorably in some future negotiations.

Mr. Fielding emphasized the fact that the United States, although desirous of getting concessions concerning the exportation of wood pulp, had not insisted on these when it was explained that it was a matter for the provinces to decide.

The concessions provided by the agreement cover less than 3 per cent. of all the import business from the United States into Canada in a year.

They will cover business amounting to about \$5,000,000, against imports into Canada from the United States amounting to more than \$180,000,000 in the Canadian fiscal year of 1909. They include about forty staple commodities.

One of the most important concessions made by Canada is that of the so-called omnibus clause in the tariff. Heretofore all articles of the tariff which came from the United States have been subject to the general tariff of 20 per cent. ad valorem. Hereafter these articles will pay 17 1/2 per cent. ad valorem.

Our International Trade.
Mr. Fielding began by a reference to the fact that 50 per cent. of the total trade of Canada was with the United States, that 80 per cent. of Canada's imports came from the United States, and that 35 per cent. of Canada's exports went to the United States.

The Canadian government has maintained an attitude of independent action, and had declined to make any approach to the United States regarding the tariff, while the question of the Franco-Canadian treaty was under discussion.

Had the United States been approached, it would have been recognized that the United States had the right to restrict the liberty of Canada to enter into trade treaties with any country with which it might be convenient to do business. He had found that the men who would have suffered most were willing to bear the burden, if necessary, but in order to avert a great disaster, they suggested that it was the duty of the government to avert it if possible by making moderate concessions.

The government felt, therefore, that the moment the United States expressed a desire to open up negotiations, it was a duty to meet the representatives in the same spirit with which they came to Ottawa. H. C. Emery and C.

F. W. MERCHANT ROY SENTENCED PRESIDENT TO HANG, MAY U. E. A. ESCAPE

Educationists Elect Officers for Coming Year — Dr. Bailett Lectures on the Problem of Moral Education.

At last evening's session of the O. E. A. Convention the new officers of the association for the ensuing year were elected as follows: President, Inspector F. W. Merchant; general secretary, R. W. Doan; treasurer, W. J. Hendry. All the new officers are Toronto men.

The new president, Inspector Merchant, has been a teacher in the high schools at Ingersoll, Owen Sound and Sarnia. On leaving Sarnia he was appointed principal of the Normal School at London, where he remained till about one year ago, when he was made inspector of normal schools.

Dr. Bailett lectured once more, last evening to the delegates on "The Problem of Moral Education."

"This is a complex problem and belongs to the home, the church and society," said the lecturer, "as well as to the school. Before these other agencies can do their part of the work effectively, society must clear the moral atmosphere of the evil forces which undo their work. It is the duty of society to suppress the saloon, the immoral show and the vice that infests all our cities. It is the duty of society to see that all its criminal laws are enforced. Our courts are woefully behind the age in their methods of work, and as a result criminals escape punishment."

Problem of Moral Education.
"The problem of moral education involves a formation of right habits of conduct. They must be formed before the child is old enough to comprehend the reason for them. At this stage it is moral training not moral instruction that is needed."

The new psychology teaches us that there is a close connection between muscles and mind, and especially between muscles and will. Flabby muscles and a weak will usually go together, hence the moral value of muscular work. Men cannot long be idle on a strike before they begin to riot. Among savages periods of lazy inactivity alternate with periods of fierce fighting. Manual training, gymnastics, play, athletics and manual labor these have been proved to be powerful moral agencies. Another part of moral education is the inculcation of high ideals.

Tribal Morality.
"The human race developed gradually into morality. Moral ideas were recognized by our savage forefathers but only within their clan or tribe. With the organization of society into larger units the sphere of moral obligation widened. Even now morality is not universal among Christian nations. In Massachusetts as late as 1742 there was still a law on the statute books offering \$100 for every Indian scalp brought into the colony. What was that but tribal morality? What is race prejudice but tribal morality?"

No More War.
"When Christian nations once establish universal morality there can be no more wars between them. The will mean a 'parliament of man,' 'the federation of the world.'"

ST. CATERINE, Ont., March 30.—(Special.)—Robert Henderson, aged seventeen, was this afternoon sentenced to be hanged on June 23, for the murder of Margaret McPherson, who resided near Norwood. The sentence was pronounced by Justice Riddell, after the jury had brought in a verdict of guilty of murder, with a strong recommendation to mercy.

There is a possibility that the sentence may not be carried out on account of the jury's recommendation that executive clemency be shown the boy, Justice Riddell said he would forward their commendation to the department of justice and would also personally recommend that the clemency of the minister of justice be extended.

Henderson is hardly more than a boy. He hardly looks his seventeen years, being of slight stature, with a boyish looking face. He has maintained an attitude of indifference during the trial, and during the afternoon his lawyer, F. D. Kerr, of Peterboro, and the judge.

He showed no emotion when the sentence of the court was pronounced, and walked with firm step from the court room to his cell. Henderson is a native of England, and has only been in Canada since last May. He worked for a farmer near Peterboro, and also in Toronto. He was wanted by the Toronto police for the theft of money from a fellow boarder.

A Moral Degen-erate.
The expert testimony of Dr. Clark of the Hospital for the Insane, Toronto, and of Dr. Bruce Smith, provincial inspector of prisons and provincial penitentiary, was to the effect that Henderson was a moral degenerate and abnormally indifferent to the law. At the same time, his intellectual faculties were alert and he would realize the nature and quality of his act when he committed the murder.

In charging the jury, Justice Riddell said that the burden of proving that the prisoner was in a condition making him immune from the punishment of the law at the time he committed the act, rested with the defence. Broadly speaking, the judge held that the evidence went to show that Henderson was in a position to know the nature of his act when he committed the assault upon the two aged sisters. The jury was not there to consider the question whether Henderson was an epileptic, imbecile, or whether he was insane. He emphasized the point that insane persons could not run the country and still be held responsible. Vernet, K.C., of Toronto, was crown prosecutor.

Sister's Story of Crime.
The story of the crime, as related on the witness stand to-day by Susan McPherson, was:
"On the evening of January 21st, my name called and asked for a young man called John Thompson. He went out soon returned and asked for his dinner. He said he had a letter from him she was not in the habit of giving meals, but she consented to give him something to eat. He gave her ten cents for it. Then he asked the road to Havlock. The conversation was very friendly.

"We then sat down to dinner. My sister sat with her back to the door, and I sat looking out of the window. I saw the prisoner back up the road to the house. The axe was outside the door, and I saw him pick it up. He came in, and lifting the axe struck my sister on the head. She never spoke. The prisoner then struck at me, and raised my arm and warded off the blow. Henderson dropped the axe and ran out of the house, running towards Norwood. I ran screaming for help to my sister's home near by and gave the alarm. I then came back to the house to my sister. Two doctors were called."

Margaret McPherson, who died, was 77 years of age. Susanna McPherson was 75. Margaret McPherson died on Feb. 23.

The following jury tried the case: Theo. Blos, Jos. Ball, H. Allen, Harry Balfour, H. J. Christie, Robt. Collins, C. E. Coleman, Robt. Patterson, Ormy Callender, Robt. Cottrell, Archie Campbell, Bert Sanderson.

IN GOAL FOR FORTY YEARS.
Noel Marshall, our esteemed townsman, has been identified with the coal industry in Toronto for 40 years. That period is almost coincident with the real life of Toronto. The not always with the Standard Fuel Co., for he had earlier experience, still he brought it into existence, and its remarkable prosperity has been due to his business acumen and foresight, until to-day he occupies a commanding position in the financial affairs of this city.

A RETROSPECT.
March 21, 1831: McGill University, Montreal, established.
March 21, 1840: Sir William R. Meredith was born in Westminster, Upper Canada.
March 21, 1902: The famous battle of Hart's River, the most terrific of any while it lasted, in the Boer war, was fought. It brought the Canadians under Col. Evans great renown. Capt. Thomas H. Callaghan, D.S.M., of this city, who scouted and found the Boers, was mentioned in despatches, while Lieut. Bruce Carruthers' command, who fought no nobly, received great praise. In this fight the guns captured by Delarey from Methuen were recovered.

GRAND JURY INDICTS ATLAS FOR PROCURING OF PERJURY AND HE IS ARRESTED AGAIN

Star Witness of Egyptian
Preacher Declares Pay-
ment of Murdered Man's
Money to Widow in Mace-
donia Was Never Made.

Subornation of perjury is the latest charge to be laid against Rev. George M. Atlas, and upon this charge, upon which he was yesterday indicted by the sessions grand jury, he was arrested an hour later by Detective Tipton. The charge is based upon evidence given before Judge Winchester in surrogate court, upon the motion heard before him to have Atlas furnish further and better security for the administration of the estate of Ivan Simoff, murdered in Eastern-avenue, a year ago.

The man whom Atlas is charged with having procured to give false evidence is Charles Risk, a Macedonian, who accompanied him to Macedonia to bring back Simoff's body, the witness in the trial of Steffoff for the murder of Simoff. Risk has confessed to the perjury, and implicated Atlas and others in his crime. He was heard before the grand jury yesterday as was Tippo Tipton, who arrived in the city from Macedonia on Monday.

Atlas was secured by Detective Tipton in the Simpson store. He had no idea of the further charge laid against him until told that he was in custody. The arrival of the witness from Macedonia, had been kept secret and no hint had been given that Risk, who had also testified on an Atlas behalf in police court, and in the sessions, had gone to the crown with his story.

Direct indictment.
The proceeding of direct indictment before the grand jury without a previous hearing in police court, while not without precedent, is unusual. While not the authorities would say that it had been employed, it is said to have been taken because Corley, Price & Co., the firm of which the witness in the sessions is the head, are the solicitors of record in the application for letters of administration out of which matter the prosecution is proceeding. The Corley, therefore, did not care to be connected with the prosecution under the circumstances.

The indictment sets out that Atlas is guilty of wilfully and corruptly counseling and procuring Charles Risk to commit perjury before Judge Winchester in the hearing of the motion for further security as administrator. It sets out that Risk swore that he and Atlas went to Macedonia, as the Town of Florina, and that they went from there with an escort of soldiers to little village where they went to the house of the head man of the village, and entered the room where the widow of the murdered Simoff sat with her child. Atlas was the man who was present and saw a large paper signed in this room, and that he was with Atlas and the woman, and that other men, went into another room, where Atlas made out a smaller paper and laid eighty pounds out on the table.

Former Evidence False.
He swore that he saw the widow receive the money and sign the smaller paper in receipt. He swore and swore so yesterday before the grand jury that he never went with Atlas from Florina to the little village, never saw the money paid nor did he enter the house, but that the whole story was a lie and was told by him at the request and suggestion of Atlas. That he was to be paid for doing so, and that he was the man who really did bring the witness, Steffoff, to Toronto to testify in the Steffoff murder case, as Atlas did not accompany them all the way, and arrived here before them.

Tippo Tipton, who has come all the way from Macedonia, to tell the grand jury before the grand jury that he had met Atlas at Florina, that he had accompanied him to his brother's house, and that Risk had not gone with them. They went to his brother's house and he was with Atlas continually from the time he entered until he left the village. They saw the widow, Atlas told her of the murder of her husband and got from her a power of attorney or authorization to administer the estate. That he paid her no money, and that she did not sign any receipt for any. The only money that Atlas gave while in the house was a silver coin which he gave to the child. He swears that there are no such men in the village as those whose names appear upon the receipt, but that one man whose name is on the paper once lived there, but now lives in Toronto, but was not in that country at that time.

This is the case as made out before the grand jury. They took less than five minutes to consider the case. Judge Denton issued his warrant for Atlas' arrest, and a half dozen detectives were promptly sent out to execute it. He was taken by Tipton in the Simpson store. He was taken before Judge Denton, who explained that he would accept bail in two suralties of \$5000 each, but that the men must be property holders, and that he would require Atlas' personal bond for \$10,000. This was not immediately forthcoming, and Atlas was remanded until 10 o'clock this morning, when he will appear before Judge Denton in the sessions. In the meantime he is confined in the Easter-street police station.

IT IS FOR SPRING.
You may have put off the long coming for your hat for Easter, but remember it's a hat for spring you want. The Dineen Company is writing for your visit with the largest collection of hats ever attempted. There are hats by special makers that cannot be duplicated outside Dineen's doors in Canada.

FORGET LOSES ELECTION
WILL GO TO THE COURT

Sensational Struggle For Control
of N. S. Steel Co. by Montreal
Syndicate is in Vain.

HALIFAX, N.S., March 30.—(Special.)—The long drawn out struggle for the control of the Nova Scotia Steel and Coal Company, between the forces of the management and the Forget syndicate of Montreal, came to an end at a late hour to-night, and resulted in a victory for the management, whose state of fifteen directors were elected.

The victory was due to the confidence placed in the present controllers by the Maritime provinces people. President R. E. Harris, who is not on the ticket of the syndicate, is 2148 votes ahead of Forget, who was not on the management's ticket, and Frank Ross, the lowest on the administration ticket, is 2100 votes over Forget.

The management offered the Forget syndicate three seats on the board. The offer was declined and the management turned down a counter proposition to put seven Forget directors to eight administration men on the board. When the proxies were called for, Forget's big budget was noticeable, and the lawyers were at once on the alert to scrutinize them.

Mr. Forget accused the management's ticket of unfairness, and added that in the attempt to carry their slate the management had overruled the elected enough stock to carry the meeting. Mr. Harris denied this.

J. N. Greenfield, Forget's attorney, then objected to proxies by wire, as the management had done. President Harris ruled that they were valid when accompanied by a declaration from the telegraph office, and filed with the company at its head office.

J. J. Ritchie filed a protest, and Mr. Forget said, that his remark was not addressed to the chair, but to the management's injunction to prevent management's board from acting, should they be elected.

When the proxies were handed in and accepted the vote stood for present administration, 37,899; for Forget syndicate, 5,540.

ASKED FOR \$250,000
On the Strength of Certain Papers
He Had.

EDMONTON, March 30.—(Special.)—The royal commission investigating Alberta and Great Waterways Railway adjourns before the grand jury April 12, in order to give council the opportunity to examine the bulky departmental and private files of documents affecting the company's negotiations with the government.

Somewhat of a sensation was caused by the refusal of R. B. Bennett to produce all papers in his possession bearing on the case, at the demand of P. J. Nolan.

Another sensation came when O. M. Biggar stated that Alfred Hawes of Toronto had, thru certain lawyers, endeavored to get \$250,000 from J. K. Cornwall, M.L.A., for certain legal commitments he had had, and for a claim he had against the Athabasca Railway people, who held the original charter for Northern Railway.

G. B. Henwood, barrister, Edmonton, under pressure, admitted that certain papers that might have a bearing on the subject had been sent him by Mr. Davidson, Toronto, for whom he (Henwood) was acting in the matter, and who in turn were representing Hawes.

Solicitor Minty, of the G. W. Ry. Co., swore that there was nothing in the documents to show grounds for any blackmailing.

EXHIBITION PARK CHOSEN

The reunion celebration of the Queen's Own Rifles will be held in Exhibition Park. The Toronto Railway Company declined to run their cars to the Rosedale athletic field, so another place had to be secured. The company have guaranteed to give as good service to the exhibition grounds as they put on during exhibition time.

A DAY'S FISHING AT TAFT'S BLUFFS

UNCLE DICK: Git anythin', Willie? WILLIE: Got soaked.

Continued on Page 7, Column 3.

We Have Always Thought

If we made the garments right, and the styles correct, that the people will make the sales. And our immense business so far this Spring in the Boys' and Children's department proves the correctness of our theory. No house in Canada can equal our showing for children this season. Mothers are simply delighted, and Father pays the bill with pleasure.

We have made wonderful provision for all patrons, and our showing from \$5.00 up to \$25.00 is certainly one that you will be pleased to see and learn many new ideas in up-to-the-minute garments for children.

NEW SMART EFFECTS

in Buster Browns, Sailor Blouse Suits, Middy Suits, Smart Reefers and Toppers. New ideas in one, two, three and four button S.B. and D.B. Suits, with Bloomer trousers. Exclusive tones and ideas in wash suits, from \$3.50 to \$12.00. Oh yes, we are a long way ahead in Juvenile Clothing for boys of all ages, and we take a positive delight in showing the garments.

Oak Hall Clothiers

In our new store, Yonge and Adelaide Sts., about middle of April. 115 to 121 King Street East. J. J. COOMBES, Mgr.

HAMILTON HAPPENINGS

REV. DR. LYLE IS GRANTED PENSION OF \$1200 A YEAR

Only One Member of Congregation Voted Against It, Altho Hon. J. M. Gibson Asked Questions.

HAMILTON, March 30.—(Special.)—John Forsythe was arrested this evening by Constable Hill on a charge of stealing a pepper duster and several other small articles from Fong Young's restaurant on King William street. The prisoner is an ex-member of the Toronto police force. He said he was an attendant at the Hamilton Asylum, and asked the police to call up Dr. English, the medical superintendent. The deskman did so, and now the prisoner is an ex-attendant, as the doctor "fired" him over the phone.

There was a small fire this afternoon at the factory of the Gathersons Thompson Company. About 7 o'clock the firemen were called to the Dominion Tar Distillery Company's plant, Caroline street. An overheated evaporator caused the trouble.

Retiring Allowance.
The congregation of the Central Presbyterian Church met this evening and voted Rev. Dr. Lyle, who is retiring from the pastorate after a service of 32 years, a retiring allowance of \$1200 a year. George Robertson was the only one to vote against the allowance. Hon. J. M. Gibson was present, and he had a lot of questions to ask. He wanted to know if they were to have the benefit of a sermon once in a while from Dr. Lyle, and whether he would be able to accept a call from any other church. These questions were not answered. The question of Dr. Lyle's successor was not dealt with, tho it has been understood that the assistant pastor, Rev. W. H. Sedgewick, would succeed Dr. Lyle.

Y.M.C.A. Changes.
B. W. Sharpe of the local Y.M.C.A. has accepted a position as boys' secretary of the Peterboro Y.M.C.A., and will be succeeded by Harry Fleming. Ex-Ald. W. T. Evans, secretary of the Liberal Association, has been recommended by the Liberal executive for appointment as a high court judge.

William Line, 92 Earl-street, who was collared at the border bearing a letter promising him work with a Buffalo firm, was held a month in jail as a witness against the firm, which was charged with a violation of the Alien Labor Act.

The sixty-day option on the Hamilton Gaalight Company expired to-day without being taken up.

An energetic official, William Muller, the commissioner of industries, who has been on the job only a few weeks, has succeeded in getting the Ladian-Alnate Lumber Company, manufacturers of interior woodwork, to locate a factory here. He has about closed with several other concerns for branches here.

The people in the mountain annex are without water once more on account of a break in one of the pipes. It is rumored that Sergeant Finch will be retained on the police force as an inspector of one of the districts.

Do Not Show Your Age In Your Complexion

By DOROTHY VENN.

From San Francisco Examiner.
What woman would not look young if she had a clear, soft complexion? Perhaps the most wonderful skin treatment is one of the most simple. Dr. Takke Quoto, Japan's famous skin specialist, gives San Francisco women the following advice:
"Yes, we never grow old in Japan. I mean the women's faces never show age. All Japanese women use mayatone dissolved in witchhazel and massage the solution thoroughly into the face, neck and arms once or twice a day. This treatment is absolutely harmless even to a baby's skin and gives wonderful results, removing all manner of facial blemishes. It also prevents the growth of hair. You never saw a Japanese woman with hair on her face."
"Take a small original package of mayatone and dissolve it all in eight ounces of witchhazel, and you are supplied with this aid to youth."

A Pointed Argument.
"The dagger is a great weapon, but Oh you hatpin!"
Extract from the mournful meditations of Street Car Conductor George Samuels.
Samuels was severely scratched in the face by a big pin in the hat of a lady passenger on his Dovercourt car yesterday. He took her name and address and she gave him some advice to look out for the festive hatpin in future.

New York Canadian Society.
ALBANY, N.Y., March 30.—The Canadian Society of New York is incorporated to-day to promote social intercourse among Canadians in New York, and to provide relief for Canadians in need of assistance.

Couldn't Survive Shock.
NORTH BAY, Ont., March 30.—(Special.)—George Nelson, eighteen years of age, the young Englishman whose feet were frozen while walking from Winnipeg to Ottawa several weeks ago, died North Bay Hospital, amputation of both feet failing to save his life.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Hemorrhoids, Bleeding, Protruding Piles in 6 to 14 days, or money refunded.

VICTORIA POLICE ENQUIRY

Editors Decline to Tell Where They Got Their Facts.

VICTORIA, March 30.—(Special.)—Judicial investigation into the administration of the police department by Judge Lammpan, appointed by the provincial government, commenced to-day. Editors Robert Dunn, of The Times, and William Blakemore, of The Week, refused to divulge the names of informants on which editorials, attacking the administration, were based. Several dive keepers were examined, by a system of discrimination, gambling and notorious houses were being forced into the hands of Chinese. Blakemore had been informed that from \$350 to \$500 per month was paid for each of these houses, and the inference was that the money was paid for protection. Blakemore did not believe Chief Langley or the police commissioners were implicated.

SOLDIERS DIE IN TRAIN WRECK

Four Cars Telescoped—Twenty-One Killed, Scores Injured.

MULHEIN-AM-RHEIN, March 30.—The North German Lloyd express train from Hamburg and Bremen for Genoa ran past danger signals to-day and crashed into the rear of a train filled with soldiers who were returning to Strasbourg, following their Easter leave. Four cars of the latter train were telescoped and 21 of the soldiers killed outright, and about 150 injured.

CHIEF JUSTICE FOR PREMIER

Sifton of Alberta Being Urged to Resign Politically.

LETHBRIDGE, Alta., March 30.—(Special.)—An effort is being made to get Chief Justice Sifton to resign the judgeship and contest MacLeod constituency, made vacant by the death of Colin George. If he does so it means that he will succeed Rutherford as premier, as all Liberals would unite under his leadership.

CHARITY CONCERT

A very successful concert was given at the Conservatory of Music last night under the auspices of the Flower and Good Cheer Club, in aid of the charity wards of the West Hospital. The club itself is a society of ladies formed in connection with the Western Hospital for the purpose of alleviating, as far as possible, the distress among the sick and poor in the charity wards by collecting and distributing books, flowers, wearing apparel and other necessities, also by helping for a short period convalescent patients about to leave the hospital, who are not strong enough to provide for themselves and have no home.

PENNA. RY. INCREASES WAGES

Voluntary Raise of Six Per Cent, Affecting 195,000 Employees.

PHILADELPHIA, Pa., March 30.—It was announced to-day that the boards of directors of all the railroads composing the Pennsylvania Railway System, have ordered a voluntary advance of six per cent. in the wages of permanent employees who now receive less than \$300 a month. The increase affects 195,000 men and involves an additional \$10,000,000 to the payrolls of the companies. This is the third general voluntary increase in wages granted by the Pennsylvania in the last eight years, or a total of 23.28 per cent.

EARL GREY COMPETITION.

The opening of the sale for the Earl Grey musical and dramatic competitions to be held next week at the Royal Alexandra, kept the Royal Alexandra box office bustling during the forenoon of yesterday, and by 5 p.m. a solid block of the dollar-fifty section for every night in the week had been disposed of. The sale to the general public opens this morning. From far and near requests for seats have come, indicating that the attendance for each of the six performances next week will tax the capacity of the house.

Special Arrangements for Settlers Going West.

For the special low one-way settlers' rates to the northwest in effect during March and April, tickets will be good for passage on special homeseekers' trains leaving Toronto at 2 p.m. April 5th and 19th, as well as regular Winnipeg flyer from Toronto daily at 10.10 p.m. These trains will run thru to Winnipeg avoiding change of cars en route, and carry colonist and tourist sleepers, coaches etc. Accommodation in same may be secured on application to C.P.R. ticket office, northeast corner King and Yonge streets.

LITHOGRAPHERS ARE HIT BY TARIFF REDUCTIONS

Competition From U. S. Rivals is Bad Enough Now—Wholesale Druggists May Also Suffer.

According to the expressed opinions of representative business men in Toronto it would seem that the wholesale drug dealers and the lithographic industries only are inclined to complain.

Mr. MacArthur, of the National Drug Company, said: "The new arrangement simply means that the Canadian manufacturers who have striven to build up their business have been put up against increased competition of 2 1/2 per cent. It is a good thing for the Americans. It may mean that the American manufacturer will increase the price the extent of the reduction in duty, as their increase is so small that it cannot affect the consumer. Competition is strong in Canada, and there are a great many makers of the goods that are affected."

Mr. Hay, manager of Lyman Bros., said: "It is not a serious matter at all, as margins on this class of goods are larger than on many others. If a tariff war has been averted by reason of this we may be the gainers in other directions, altho we have been forced up against an increased competition from American firms."

The agent of one of the largest American firms said: "We are glad it has happened, because it will save our firm from establishing a works over here, which was the intention if the maximum tariff had gone into effect."

Lithographers Protest.
Frank Rolph, of Rolph and Clark, considers the reasonable claim that our chromos, pictures and engravings should come in at 35 per cent., or at 15 cents a pound, as an advertising matter, was a very reasonable claim. Seeing that the raw material—coated paper or cardboard—is subject to a duty of 35 per cent., I consider it a great injustice to the extent of 10 per cent. There is a considerable volume of trade in this line coming in from the United States, and it is increasing all the time. The country is flooded with American canvassers, and we have to contend with the large production which is possible in the United States."

Mackenzie & Co., and the Roberts Art Gallery, agree that the new tariff will not affect the picture dealing business in Canada, said H. B. Kent, most of them being imported from Switzerland. M. T. Ellis thought that the jobbers would be the only ones feeling the change.

Henry Nelich said that Canada gets no china and very little of the other lines mentioned from the United States, and Wm. Gray, of Lazarus, Rosenfeld and Lehman, said the reduction was not noticeable.

Wm. Cowan, of the Luxfer Prism Company, J. W. Hobbs, of the Continental Photo Engraving Company, and A. I. Forster, of the Queen City Glass Co., were united in the opinion that the reductions in glass will have no effect here.

Jewelers are also unaffected. Few American watch movements are imported into Canada, said H. B. Kent, most of them being imported from Switzerland. M. T. Ellis thought that the jobbers would be the only ones feeling the change.

Davidson & Hay, wholesale grocers, reported that only the charged duty on nuts would have any effect on imports from the States.

Wm. Robertson, of the Robertson Confectionery Works, said: "We have been buying in France, Spain and Japan. A great many of the peanuts we have been using come from Japan, and under the favored-nation clause of the tariff they have been coming in at two cents, against three from the United States. This means that most of the trade now going to Japan and France will be directed to Virginia."

COMPANY TORONTO
Phone M. 576 and Park 2930.
Ladies, don't be stampeded by the fur men in trying to make you believe that it is pure ice. You need the best weather. What you really do need is your refrigerator filled with ice—PURE ICE. We are ready waiting for your order. It is important that you should have Pure Ice in your business as well as your home.

All Our Ice is From LAKE SIMCOE
The Purest Water in Canada.
We have not one block of ice from any other source nor are we connected directly or indirectly with any of the ice companies that handle other kinds of ice.

Ring up M. 576 for ice, and your refrigerator will be filled at once.
KNICKERBOCKER ICE CO., Per Wm. Burns, Mgr.

where the peanut-growing areas are large. "I do not think it will make much difference," said Arthur P. Taylor, of John Taylor and Company, soap manufacturer, when asked his opinion of the reduction of the tariff last night. "The change is so slight it is not of very serious concern. It only amounts to a change of two and one-half per cent. I am not going to lose any sleep over it."

Is It a Humiliation?
S. R. Wickett, of Wickett and Craig, leather dealers, said that the concession to the United States appeared to amount to a national humiliation. "It is now time for us to know where we are going," he said. "It is time to have the tariff policy settled. If we are going to have preferential tariff or free trade, it ought to be decided."

THE T. EATON CO. LIMITED

Queen Citys Roll In Great Form Totaling 3017

Rolling against the Stanley's in the Toronto Bowling Club League series last night the champion Queen Citys beat their own record of last week by 42 pins and incidentally put up the first 300 mark for the Toronto Bowling Club alleys, their exact total being 3017. Commencing with a 102 count in the first game the record holders came back with six pins more in the second, getting 103, while the 90 mark, Pap Peelan leading with 64, 100 opened next with 63, while Lyman shot with his Highland fling delivery made the pins take the count for a 100 total. Harry Pucan was next in line with 53, while Charley Fletcher with 60 brought up the rear of the champion heavy hitters. It is needless to remark that up against this kind of rolling the Stanley's were never in the hunt, also some good individual work was put up by the 106-ers. Bill Hayes, that old reliable of years ago by and who has fought many the good fight on the alleys, was the leader with 56, while Walter Eby, manager, was next in line with 54 and David Warfield showed with 53. The score:

Table with 2 columns: Name and Score. Includes names like Stanley's, Peelan, Pucan, Fletcher, Hayes, Eby, Warfield, etc.

WHAT CANADA CONCEDES. Following are the 13 concessions made by Canada to the United States and upon which President Taft is enabled to issue the proclamation of minimum tariff in favor of Canada. The figures indicate the new reduced duty. They are: Dates and figs. dried, 55 cents on 100 pounds; formerly 62 1-2 cents.

Reduced One-Way Rates to California, Mexico, British Columbia, Oregon, Washington, etc. In effect via Grand Trunk Railway System, daily, until April 15th, making the rate to Vancouver, B.C., Seattle, Wash. and Portland, Ore. \$41.05; San Francisco, Los Angeles and San Diego, Cal. and Mexico City, \$43.00. Proportionate rates from principal points in Ontario to above and other Pacific coast points.

YORK COUNTY NOTES. It is expected that the new Markham Village post-office which has been in course of erection about three years, will be opened on April 1st. The report of Auditors John F. Davison and Walter Scott shows the total receipts from all sources in Markham Township for the year 1909 (including balance in bank) to have been \$40,575.43. The expenditure was \$33,771.23, leaving a balance to the credit of the township of \$7,804.20. Mount Joy has overdrawn its account \$223.25, and Unionville \$72.03.

Increased Pastor's Stipend. At the monthly business meeting of the Dovercourt-road Baptist Church last evening, the salary of the pastor, Rev. J. J. Ross, was increased by \$400. The increase is to date from the beginning of the year.

Don't Buy a Bill of Expense

AFTER all, the question of a good bicycle bargain is answered by the slogan; "Don't buy a bill of expense." It costs money to put "Cleveland" quality into a bicycle... If you buy a cheap wheel you are going to get a "bill of expense." It isn't the original cost that determines the value of the wheel; it's the cost of maintenance.

CLEVELAND

The cost of the "Cleveland" is a fraction when compared with the cost of keeping a cheap bicycle, also the "Cleveland" name-plate is worth a whole bushel of your ordinary guarantees... and the "Cleveland" name-plate is backed up by a legal guarantee.

The "Cleveland" has all the new equipment... The Hercules Coaster Brake... The Hygienic Cushion Frame... The Cushion Frame gives "Pulman Comfort" to bicycling.

THURSDAY MORNING, MARCH 31, 1910.

THE TARIFF ARRANGEMENT.

Mr. Fielding's concessions no doubt involve a departure from the standpoint which so commended itself to the country. Looking to the treatment meted out to Canada in the days when pilgrimages to Washington were undertaken under very different conditions, there was certainly strong temptation and ample justification to leave the United States to get out of the pit it had dug and itself fallen into as best it could.

But there is another side to the question which cannot be ignored. Canada might have derived considerable satisfaction from the president's surrender—a satisfaction that would only have been postponed had he chosen to save his face at the expense of a tariff war which could only have had one end.

That is of itself a sufficient triumph for the Dominion, and rendered it possible for the federal government to take a broader view of the problem. The world, therefore, as now advised, is not inclined roundly to condemn the government for making some minor concessions in order to avert the injury which a tariff war must assuredly have entailed for both countries.

GERMAN AGRARIANS AND THE CANADIAN AGREEMENT.

In a recent communication the Berlin correspondent of The Pall Mall Gazette says that the agrarians and landowners of Germany are up in arms against the recent arrangement made between Canada and Germany on the ground that it will lead to the dumping of wheat and other grains, and force them either to lower prices or to lose the greater portion of their home market.

Canada has indeed understood her position and secured her own interests very well. It is certain that the direct imports of flour and

grain from there into Germany will increase largely. Without doubt we shall have to reckon with Canada in future as a serious competitor to the farmers of Germany. It is a bad outlook for agriculture in this country.

Disaffection on the part of the landowners and agriculturists, who are largely conservative, may cause the government some trouble. But Germany is now an industrial as well as an agricultural country and the government recognize the need for opening up and developing foreign markets. With the prospect that in the near future the value of their greatest market may be seriously impaired thru the success of the British tariff reform movement, it is scarcely to be expected that the German government will prefer the agricultural interests to the industrial, however bitter their complaint.

LONDON PRACTICALLY FOG FREE

No winter visitor to the imperial metropolis, remaining any length of time, but made acquaintance, sooner or later, with that undesirable quantity, a real London fog. Those who have experienced its effect know how rapidly the streets became chaos and the feeling of absolute helplessness which it engendered. A full day's fog involves a cost to the city estimated at not less than \$750,000, so that when as in 1905 there were 44 sufficiently severe to be recorded, the aggregate loss ran well into millions of pounds sterling.

Since that year there has been a gradual diminution in the number of fogs, and last year only four happened along. During the winter now closing, London has been practically fog free, and an article in The Daily Mail notes that the falling off has corresponded with the diminution in the volume of smoke attributable to the introduction of gas fires and cookers and of electrical heating apparatus.

Half a million of these have been introduced into London within recent years, and experts declare that the electrification of the District and Metropolitan Railways, has also helped materially. A share in the deliverance has also been ascribed to the activity of the local authorities in the matter of excessive smoke prosecutions. Scientific authorities explain the cause of fog to an electric condition of the atmosphere, where the electrons act as nuclei to which the minute particles responsible for the fog are attracted.

FEMININE MAGNANIMITY.

Miss Agnes Murphy writes from Montreal to point out that in Rostand's new play, "Le Bois Sacre," the plot turns on the sacrifice by one of the female characters of her own passion to bring about the reconciliation between the husband and wife whose separation she might have caused by her guilty love for the husband, and the neglect of her own husband. Miss Murphy quotes, with approval, the words of a critic who thinks that "this comedy again emphasizes a species of feminine magnanimity which has been unusually conspicuous in several new plays in Paris this season, altho it is a characteristic probably not so rare in real life as many superficial observers would suppose."

If Miss Murphy believes that this testimony strengthens her case she is welcome to the view. The "species of magnanimity," which meditates unfaithfulness in the marriage tie and refrains, may not be so rare in real life, possibly, but is it anything to boast about? As superficial observers we would prefer to believe that the Canadian women, at any rate, who had to exercise such a "species of magnanimity" were the rare exceptions.

Handing out Bibles to foreigners is all very well, but something more must be done before the stranger and the foreigner turned into a good Canadian citizen.

John Redmond is credited with the remark that it would be a crime were differences of opinion to rupture the

political alliance that meantime controls the house of commons. But it is the Nationalist determination to control the policy of the alliance that renders it insecure. Redmond has to fight with one eye to parliament and the other to Ireland and the Independent Nationalists. His own position is none too safe.

Ontario teachers want to make examinations easier for bad spellers. Why not try simplified spelling and save the time wasted over the present litigious system, that is the stumbling block to both children and foreigners?

Ex-President Roosevelt has made the mistake of imagining that what appeals to Anglo-Saxons must be equally clear to men of very different race. Those who have been most closely associated with the eastern mind agree with Kipling that east is east and west is west and never the twain shall meet. No doubt he spoke with the best intentions, but his address at Cairo will not make the task of the British in Egypt more easy.

WINDOW GLASS EVERYWHERE

Not a Single Foot of it is Made in Canada, But It Will Be.

Every year marks a distinct step forward in the industrial enterprise of the Dominion. This year is to be made memorable by the introduction of an industry that has been carried on in various other countries for nearly three thousand years. We refer to the manufacture of window glass.

In the rapid development of the country vast quantities of building materials are being used, and there are but comparatively few people who know that not a single foot of window glass is being manufactured in this country. Millions of square feet of window glass is imported into Canada every year. The climatic conditions of the country and its rapid development makes Canada one of the largest consumers, per capita, of window glass of any country in the world.

Experts have been carefully investigating conditions in Canada for several months, and report that we have all the material in quantity and quality for the production of unlimited quantities of first quality window glass at a cost which would make an up-to-date plant a commercial and profitable proposition.

Silica sand forms the base of all glass, and these experts state that Ontario contains immense deposits of the finest silica to be found anywhere in the world. It is well-known that limestone, which is another of the natural products used in the manufacture of glass, is to be found in immense quantities in Ontario.

Recent improvement in the method of manufacturing sheet glass has simplified the process, and very materially reduced the cost of production. We are reliably informed that the new process is being commercially operated in the States and that the quality of the glass produced is superior to that manufactured by old methods.

The result of the investigations in Canada has led to the organization of the Welland Glass Manufacturing Company, Limited, and this corporation proposes to erect a plant, Ontario, the most modern window glass factory in the world. This will add another parent industry to our long list of progressive enterprises, furnish a market for our natural resources and give employment to a large number of Canadian citizens. It is the development of enterprises of this character that increases our independence.

PUBLIC OWNERSHIP SUCCEEDING THERE.

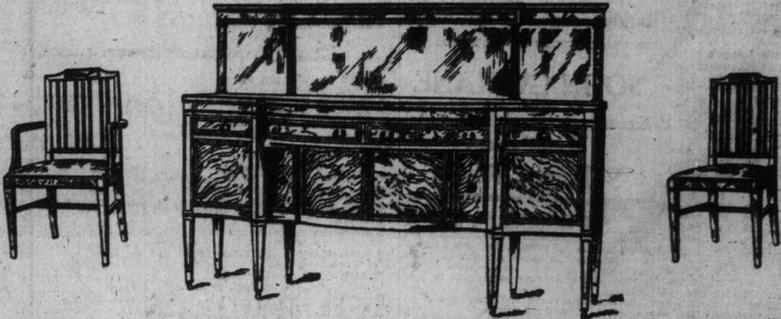

Weekly Sun: The net earnings of the Timiskaming Railway during January were over \$54,000. It is reasonable to expect that net earnings in most of the other months of the year will be larger, because activity in the mining regions served by the line is greater in summer than in winter. Moreover the cost of operation, owing to absence of snow blockades, etc., is less in the warm months. But, taking the figures as they stand, they are exceedingly satisfactory. They represent net earnings for the whole year of over \$600,000. That is equal to 4 per cent. on the entire amount charged to capital account of enterprises up to the end of October last. This publicly owned road is doing fairly well.

SIDEBOARD AND CHAIRS ON SHERATON LINES

The assemblage of furniture now gathered on four floors of this great store betters our best efforts of former years. It is the result of careful personal selection from the productions of foremost makers in Canada, England and the United States.

A collection so large and so thoroughly representative of the best in period and modern furniture design was only made possible by long years of experience in furnishing homes of the highest class.

We cordially invite you to visit our store, whether you have a thought of furnishing or not. If you reside at a distance from Toronto, write for our catalogue. A copy will promptly be mailed.

Advertisement for dining-room, drawing-room, bedrooms, and living room furniture. Includes text: "FOR THE DINING-ROOM We speak advisedly when we say that a showing of quality dining-room furniture comparable with that now displayed on our second floor can be found in very few cities on this continent. Colonial, Sheraton, Chippendale, Louis XVI, Tudor and other period designs are represented by fine examples in suits and individual pieces. Mahogany, Circassian walnut, fumed oak, early English golden oak, fumed ash, are all in evidence. Prices cover a wide range, as may be gathered from the fact that we sell a cleverly-designed buffet in fumed ash at \$21.00, and a magnificent Colonial sideboard in cretonne mahogany at \$400.00. There are a great many handsome sideboards at prices between these figures, with tables, chairs, cabinets, dinner wagons, etc., to complete the suites. FOR THE DRAWING-ROOM A magnificent collection of upholstered furniture for drawing-room and living-room occupies our spacious and well-lighted top floor. It embraces mahogany and gilded suites and individual sofas, chairs, arm-chairs, rockers, etc., etc. in period and modern designs. Stuff-over Davenport sofas, big deep seated, luxurious; club easy chairs in leather or denim, in large variety of size and price; lounges, sofa beds, etc., etc. Various pieces of these various upholstery are all done in our own workshops under the best sanitary conditions by men experienced in first-class work. We pride ourselves in the quality of our upholstery. It cannot be excelled. For parlor suites our prices range from \$34.00 to \$300.00. FOR THE BEDROOMS With the immense assortment displayed on our third floor to choose from the selection of tasteful and appropriate furnishings for any bedroom should not be difficult. Rosewood, mahogany, birdseye maple, Circassian walnut, oak and white enamel are all represented. There are Colonial suites in mahogany, with dressers of generous width, and four-poster or roll-end bedsteads; dainty sets in Louis XV, Louis XVI, Sheraton and other period styles; simply designed pieces at low prices for hall bedrooms or attics, and a very wide choice of individual dressers, chiffoniers, dressing tables, wardrobes, sunroom, toilet trees, brass bedsteads, iron bedsteads, etc., etc. At \$12.00 we sell a dainty little dressing table in mahogany veneer, and for \$600.00 a suite in English walnut that is equally good value—a range of prices that will cover any reasonable requirement. FOR THE LIVING ROOM The furnishings for this important room should, of course, be of a substantial character, made for use and comfort rather than for show. We devote a whole floor to a comprehensive showing of just such furniture—Davenports, Morris chairs, armchairs, lounges, card tables, writing tables, bookcases, secretaries, etc., in the Tudor, Craftsman and other admired styles. For the most part this furniture is made of oak in the fumed or early English finish. Many of the chairs and sofas have softly-stuffed cushions in Spanish leather, tanned in pleasing shades of green or brown. In mahogany sitting-room furniture also we have a wide variety most reasonably priced.

Advertisement for Hygienic Bedding and Furniture to Order. Includes text: "Hygienic Bedding We make a specialty of hygienic bedding—mattresses, springs, pillows, etc. Carrying always a full line of the very best kinds. Hair mattresses, cotton-felt mattresses, mixed mattresses, feather pillows, bolsters, etc., made under sanitary conditions of pure and healthful materials. Kay's Special Hair Mattresses, Kay's Super-felt Mattresses and Kay's Box Springs are known in every Province as ideally comfortable. Furniture to Order We aim to make this the complete furniture store; even in our immense stocks, however, we cannot hope to carry everything that may be desired. To meet this condition we are ready always to submit sketches and quote prices on furniture designed to meet your special requirements. Our prices on made-to-order furniture are always reasonable.

Advertisement for New Drapery Fabrics and New Wall Papers. Includes text: "New Drapery Fabrics New shipments of lace curtains, crepe curtains, madras muslins, taffetas, cretonnes, casement cloths and velours are to hand. They add interest to our already splendid showing of drapery and covering materials. New Wall Papers Our experts in interior decoration are enthusiastic over the new importations in wall papers, and with good reason. No such assortment of exclusively high-class papers has, we think, ever been shown here.

MARRIAGES. STONEBURG - PETERS - At St. Paul's Cathedral, London, Ont., by Rev. Canon Day, on Tuesday, March 29, Dorothy Roberts Lilly Peters, only daughter of the late William Peters and Mrs. Peters, to Clayton Stoneburg of Toronto.

DEATHS. CONLIN - On Tuesday, March 29, 1910, at his late residence, 108 Trinity street, John J. only son of Capt. Frank Conlin.

Funeral on Friday, April 1, at 2:30 a.m. to St. Paul's Church, Interment in St. Michael's Cemetery. O'CONNOR - On Wednesday, March 30, 1910, at the residence of her daughter Mrs. J. H. O'Connell, 29 Westminister-avenue, Toronto, Henrietta J. beloved wife of Thos. N. O'Connell, Interm. at North August on Friday.

Funeral on Friday, April 1, at 2:30 p.m. to Prospect Cemetery, Trenton, London and Ontario, interment please copy. KISSACK - At his late residence, 114 Fernmanagh-avenue, on Tuesday, March 29, James Kissack, aged 60 years.

Funeral on Wednesday, March 30, at 2 o'clock. SIMON - At 4 Devonshire street, on Wednesday, March 30, 1910, John Simon, formerly of the G.T.R., in his 74th year.

Funeral private. SMITH - On Wednesday, March 30, 1910, at his parents' residence, 9 Montrose-avenue, Toronto, Harry Fletcher, aged 11 years.

Funeral on Friday, April 1, at 2:30 p.m. to Prospect Cemetery. STEWEN - At the Western Hospital, on Wednesday, March 30, 1910, Emily, beloved wife of Lance Stewen, aged 49 years.

Funeral on Saturday, April 2, at 2:30 p.m. from the residence of her father, Thos. Norwick, 12 Macdonell-avenue, to Prospect Cemetery. THOMSON - Suddenly, at New York, on Tuesday, March 29, Robert Biggar Thomson, youngest son of James Thomson and Mrs. Wm. Thomson, 23 National-avenue, Toronto.

Funeral on Friday, April 1, at 2:30 p.m. to Prospect Cemetery. WALKER - On Wednesday, March 30, 1910, at his late residence, 122 Seaton-street, Jane Walker, relict of the late Thos. Walker, blacksmith.

Funeral on Friday, April 1, at 2:30 p.m. to Prospect Cemetery. LATE OF CRAIG & SON. Phone Park 266. Norman A. Craig (UNDERTAKER) 2361 QUEEN ST. WEST, - TORONTO.

Hon. A. B. Aylesworth, Hon. Chas. Murphy, Rev. D. M. McLaughlin, Rev. J. M. Macdonald, P. C. Larkin and W. K. George. Over 100 were present.

It is a great pleasure to have a representative of the Liberal cause, not only in Toronto, but the whole province. He has done a fine compliment on the eminence he has attained in the practice of law, but not hardened his heart, either. There were many unfortunate who had been down and out who had to thank his ability for their salvation.

UNKNOWN MAN KILLED. BRONTE, Ont., March 30.—An unknown man, about 25 years of age, was killed by a G.T.R. freight train just west of Bronte about 6 o'clock this evening.

CABLE BILL PASSED. OTTAWA, March 30.—(Special).—Hon. Rodolphe Lemieux's bill, one of the most important measures of the session, was passed by the common sense of the House of Commons this evening.

"An Aristocrat Among Pianos"

Be it known to every likely purchaser of a piano that it is an original and genuine Heintzman & Co. who are conducting this sale. This is the firm that are makers of that one particular piano that is the choice of Mark Hambourg and other world-famed artists when visiting Canada.

To-morrow, April 1, the recently-purchased Yonge street property—the big Brown building, our future home, comes into our possession—a fact that adds intensity to our determination to clear stock quickly before moving-day is on us.

Piano Salon: 115-117 King Street West, TORONTO, CANADA

Words mean little when not backed by deeds. The logic of sincerity and the real doing of things adds increasing success to the

REMOVAL SALE of Pianos, Player-Pianos and Organs of Ye Olde Firme of HEINTZMAN & CO.

(Limited) MAKERS OF CANADA'S GREATEST PIANO. The high quality of the stock offered; its size; the easy terms of payment to everybody—a trifle down and future payments to suit your convenience; the plain, common sense reason for this clearing of our whole stock—no "make-up" about it—make us leaders in selling, as we've ever been—for fifty years—in the manufacture of pianos.

IF OUT OF TOWN SIGN ATTACHED COUPON AND MAIL IT AT ONCE. Name Address

Heintzman & Co., Ltd., 115-117 King St. W., Toronto. Please send us by early mail price list of your special removal sale bargain in pianos, advertised in The World.

CONCESSIONS IN TARIFF BARGAIN FOR ALL PARTIES

Continued From Page 1. H. Pepper had spent some days in communication with Sir Wilfrid Laurier and himself, but no conclusion was reached which justified the anticipation of a favorable settlement.

As to the pulp wood question, Mr. Fielding said that while the Americans did not formulate any demand upon it, they had been pleased to be made, as respects the shipments to the United States of pulp wood, might be modified.

SIR JAMES REPLIES TO CRITICISMS OF PRIMERS

Government, Says Premier, Will Decline to Issue More Than One Book.

Questioned as to recent criticisms of the new readers, Sir James Whitney, who is acting minister of education in the absence through illness of Hon. Dr. A. A. R. Macdonald, replied as follows:

"As a public questioner has every reason to know that the new Ontario readers are perfectly satisfactory to the province. Another province has already adopted them, and others may follow. As to their literary excellence, we have the testimony of men like Sir Joseph Thompson of Cambridge University, who has specially referred to the skill and discretion shown in the selections."

"Criticism confines itself to one book in the series, the primer, because it is not based wholly on what is called the phonic system of teaching reading. The book was prepared by a committee of teachers, some of whom are advocates of the phonic system. They endorsed the book. Besides, it can be used for teaching reading by any system, and a teacher's manual to be issued before the next school year begins will make this clear."

"The government will not, as some urge, issue more than one book. The right of the parent to be relieved of the excessive cost of former text books must be considered. The phonic primer, which was displaced by the new one, cost more than double the present one. Naturally the publishers of the old book would like to have it restored, but their wishes cannot prevail."

"At the late session of the legislature it was stated that an inspector had reported against the primer and that it had been banished from many schools in Huron County. The government investigated the charge. It was without foundation. The book is in use everywhere except in the few cases, permitted by the law, where boards passed resolutions retaining the old one."

"Upon being asked whether he had seen the article in the Trinity University Review denouncing the new readers, the premier said: 'Yes, my attention has been drawn to it. Of course, such stuff can be purchased at a very low rate, but it is certainly astonishing that Trinity College or the Trinity University Review should be willing to act as a conduit pipe for the dissemination of it.'"

PLAYED MAD DOG; MAY DIE
Practical Joke In Dark Results in Perhaps Fatal Injury.

WOODBRIDGE, March 30.—Last evening a young boy named Wilcox made an attempt to play a practical joke on another boy called Sleight. Both boys were from the village of Sleight. Sleight had come to the village to get a seat for a drill, and when he was returning home, Wilcox hid under a bush and when Sleight came up jumped out and crawled on his hands and knees, barking like a mad dog and snapping at his heels. It was quite dark, and Sleight, thinking it was a dog, swung the iron around with force, hitting Wilcox on the head. Wilcox's head was split open and the skull fractured.

Six Licenses Are Killed.
SHERBROOKE, Que., March 30.—A bylaw at Lake Mégantic to close down the hotels was carried, only one vote being recorded against the closure. Four hotels and two liquor shops will have to close on May 1.

FOR SKIN
Cuticura
Cuticura Soap
MEDICINAL TOILET

AND SCALP
For every use in preserving, purifying and beautifying the skin, scalp, hair and hands of infants, children and adults, Cuticura Soap and Cuticura Ointment have no rivals worth mentioning. For affections of the skin and scalp of young and old that torture, disfigure, itch, burn, crust and scale, they succeed when all else fails.

Fire Caused \$2500 Damage.
Fire, which broke out at 5:19 yesterday afternoon on the rear side of 16 Ashdale-avenue, occupied by Alfred Shrubbs and J. Brown, did \$2500 damage to the building, and \$1500 to contents.

Curtailing Cotton Output.
BOSTON, March 30.—Fifty per cent. of the cotton in the world will be curtailed in the American wool and cotton report.

C.P.R. Boom at Galt, Too.
GALT, March 30.—(Special).—The C.P.R. is purchasing land to extend yard room and effect contemplated improvements here.

"Do You Object to My Smoking, Madame?"
"Not if Your Cigarettes Are TUCKETT'S."

Even if you've acquired a taste for inferior cigarettes, consideration for those about you should prompt the endeavor to find a brand that will prove inoffensive to your friends.

Tuckett's CIGARETTES
Aroma is a fairly true indication of cigarette quality, and the comparatively sensitive nostrils of the fair sex furnish a particularly accurate guide to the real worth of a cigarette.

TUCKETT'S "CLUB" CIGARETTES—made from an exquisite blend of Virginia leaf. 15c. a package of 10.
TUCKETT'S "T & B" CIGARETTES—for the man who likes a full-flavored Virginia. 10c. a package of 10.
TUCKETT'S "SPECIALS"—made from a mild Turkish leaf, rich in flavor and aroma. 15c. a package of 10.

HOW CANADA DICKERED WITH THE ADMIRALTY

Negotiations Which Ended in Acquisition of the Rainbow and the Niobe.

OTTAWA, March 30.—(Special).—Sir Wilfrid Laurier tabled in the house today the correspondence in connection with the purchase by the Canadian Government of the cruisers Rainbow and Niobe from the Imperial authorities for use as training ships.

On Nov. 6, 1909, Admiral Kingsmill sent to Mr. Debebarat, deputy minister of marine, a memorandum in which was quoted a telegram from the admiralty as follows: "Arrangement discussed with Brodeur was purchase of one cruiser of Apollo type, fitted for sea services in April next, money not being available for second vessel. Detailed report now received indicates such cruiser could be supplied for £50,000 sterling. First lord of admiralty desires to know whether this arrangement is to be proceeded with, having the approval of the cabinet, and for second cruiser. Otherwise Brodeur should state specifically what Canadian Government wish as an alternative."

Five days later a reply was sent to the admiralty to the effect that the Canadian Government was desirous of having the arrangement for one vessel of the Apollo class proceed with, and enquiring as to whether or not the Spartiate could be procured for a second training ship, and on what terms.

In a report made on Nov. 22, Hon. Mr. Brodeur stated that at the imperial defence conference, the admiralty offered to supply for service on the Canadian coast one third-class cruiser of the Apollo type, ready for sea in April, 1910. The report received the approval of the cabinet council, and in the course of time the admiralty was notified.

In reply to a cable sent on Jan. 12, asking when the Rainbow would be completed, the admiralty stated that it could not give definite information more than to say that the vessel would probably be out of the dockyard by the end of May.

The communications which passed between the Canadian and Imperial authorities in respect to the purchase of the Niobe show that there was some indecision as to whether the vessels of the Spartiate or Hawk class would be the best for training purposes. After some negotiations the admiralty, on Dec. 10, wired that "subject to approval of treasury, admiralty are prepared to sell Niobe to Canadian Government for lump sum of £215,000, made up as follows: For ship, in efficient sea going and fighting condition, £160,000; guns and torpedoes £20,000; ammunition and packages only, £25,000; sea stores, without coal, £10,000." After due consideration the government, on Jan. 18, sent a cable accepting.

On Dec. 23, Mr. Brodeur asked the admiralty whether it would be advisable to allow the Niobe to take the place of a Bristol or a Boadicea in the Canadian naval plan, to which the admiralty replied, "To simplify ammunition reserve, and to preserve homogeneity, suggest Niobe replace Boadicea."

When Going to New York Travel Via the Only Double Track Route.
Trains leave Toronto 4:32 and 8:10 p.m. daily, via Grand Trunk and Lehigh Valley. Former train has Pullman sleeper, Buffalo to New York, and 6:10 p.m. train has electric-lighted Pullman sleeper (individual berth lights) Toronto to New York.

Tobacco Habit
Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and does not touch the tongue with its causticity. Price \$2.00.

Liquor Habit
Marvelous results from taking his remedy for the liquor habit. Safe and inexpensive home treatment, no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed.

SOCIETY NOTES

Mrs. C. H. Kellan, 30 Concord avenue, will not receive again this season.

Mrs. J. R. Bone, Brunswick avenue, is giving a tea this afternoon.

Mrs. Frank Weisman is arranging the program for the Twilight Musicale at the new galleries this afternoon.

Mrs. John T. Moore, St. John's road, will receive to-morrow (Friday) for the last time this season.

Mr. and Mrs. Charles K. McGregor are at the Queen's, having just returned from Florida, where they spent the winter.

The officers and members of the Toronto Amateur Athletic Club have sent out invitations for a dance on Friday, April 1, at 8 o'clock.

Mrs. Duncan, Beach avenue, Balm Beach will not receive on Friday, or again this season.

Mrs. Wm. F. Hayden, 889 Euclid avenue, announce the engagement of their youngest daughter, Millie Ewart, to Mr. Donald Waters Douglas, Campbellford, Ont., eldest son of Mr. and Mrs. J. H. Douglas.

Mrs. Margaret Whyte, of Bradford, attended the at-home given by her friends, Mr. and Mrs. H. C. Cleidening, Orchard Park, Queen street east.

Mrs. Godwin, of 46 Walker-avenue, will not receive today, but will receive the first Thursday in April.

Young-Banks.
One of the prettiest weddings that have been solemnized this season took place Tuesday last at the home of Mrs. Thea Black, 24 Ossington-avenue.

Among those present were: Mr. and Mrs. Young of Winnipeg, Mr. and Mrs. Eady, Rev. J. C. Wright, Mr. C. Wright, J. S. Grey, Miss Bertha Hamilton of Laurel.

Mark Hambourg in the West.
Mark Hambourg, the Russian pianist, who is to present a Chopin program—commemorating the Chopin centenary—will play at Massey Hall, on April 11, at 8 p.m.

Mark Hambourg, on Tuesday, writes in enthusiastic terms of the recital given in Saskatoon a week ago.

Mark Hambourg is one of the few pianists capable of interpreting fully the masterpieces of the great composers, and his concert was a wonderful exhibition of his art.

"Hambourg's playing is so penetrating, so emotional, so living, it laughs or cries, sings or complains, sighs or whimpers, that it chooses to interpret. Sounds of liquid sweetness, of silvery clearness, of weird longing, of fiery vehemence are emitted in wondrous abundance."

The recital in Toronto will be under the distinguished patronage of the Lieutenant-Governor, Mrs. Gibson, and will prove an important social as well as musical event.

WANT A BOWLING GREEN.
A deputation of 15 residents in the neighborhood of High Park waited on the board of control to ask that a public bowling green be established in the park, but received little encouragement.

WHY DARN STOCKING BY HAND.
Get a Singer Darners. It's the best device ever invented for holding a stocking so it can be darned to the top, or any other point. For sale at Singer Store, 112 Yonge-street.

Banks Hard Hit by Failure.
MONTREAL, March 30.—It is estimated that the failure of D. Rattray and Sons, Limited, involves liabilities of about \$200,000.

SMITH'S FALLS, MARCH 30.—The death of Miss Jennie McDonald, a former Smith's Falls young woman, occurred in Montreal yesterday, under distressing circumstances.

TOOK POISON IN ERROR.
SMITH'S FALLS, March 30.—The death of Miss Jennie McDonald, a former Smith's Falls young woman, occurred in Montreal yesterday, under distressing circumstances.

DEFER STRIKING TAX RATE.
Controlled by the board of control in the absence of Mayor Geary, announced that it would be impossible to have the estimates in shape for a special meeting of the city council next Monday.

HOTELKEEPER FINE.
Harry Hawkins of the Commercial Hotel, Port Erie, has been sentenced by Police Magistrate Bayton to pay \$100 and costs for selling liquor without a license.

RAILWAY POLICY READY WITHIN THREE MONTHS

This is Ald. McCarthy's Hope, Altho 'Tis Big Problem to Tackle.

If the hopes of Ald. McCarthy, chairman of the special street railway committee, are realized, the committee will be able to report to council by the end of June what, in his opinion, should be done, both as to application to the Ontario Railway Board to compel the street railway to build new lines, and also as to where and how a tube system should be constructed.

Ald. McCarthy no announced to the committee yesterday, and while his colleagues seemed dubious about disposing of such big problems in so short a time, they agreed that everything should be done to expedite matters.

The object of the meeting was to confirm the recommendations previously made, touching the engaging of legal and engineering advice. When the committee last met, several of its members had not received notice. Each of the wards was represented yesterday, and the former action was fully concurred in.

To Respect Rights of Radials.
The chairman announced that he desired to respect to the utmost the rights of the radial railways, and that he thought the development of a plan by the city which would permit entrance of the radials should work out in their interest.

While unanimously of opinion that legal advice should be had, there was some discussion as to the advisability of having the city solicitor prepare a statement of the city's relation to the rights of the radials in the meantime.

Ald. Baird, who suggested a concise report along this line, asserted that not five per cent. of the aldermen really understood the position of the city upon the province of the special legal advisor, but it was finally agreed that a little more present light on the situation would do no harm.

Ald. Maguire pointed out that if the city had appointed a corporation counsel there would be no need of retaining special advice. "It's a disgrace that a counsel was not appointed long ago," was his opinion.

Ald. Baird undertook to silence the criticisms concerning the expenditure of \$7500 on former hope appeal to the city council. If the city hadn't done so, he said, the street railway would have laid tracks on the streets.

City Engineer Rust being sent for to get an opinion as to whether the city should investigate further before securing a special engineer, declared emphatically that an expert should be engaged at once. Otherwise, he said, a lot of time and energy might be wasted in evolving wrong theories.

It was too big a problem to be approached in a haphazard way. The increase of population in different parts of the city would have to be studied. An expert might decide that the tubes should be fifty or sixty feet below the surface and should run diagonally to the northeast and northwest.

Mr. Rust said he had already a good deal of information which would be valuable to the expert. He had statistics as to the amount of traffic on the different car lines, and regarding earth and rock formations in different parts of the city.

In the north end of the city there was very bad ground for tunneling, running sand being encountered. On motion of Ald. Hilton, the mayor, Ald. McCarthy and the city engineer were instructed to recommend the appointing of an expert, and to visit United States cities for the purpose.

Alternative to Tubes.
Ald. McCarthy suggested that when the street railway applies for the use of certain streets, the city, if unable to block the design, should ask the railway board to impose the condition that the company be compelled to give the city running rights.

In this way, the city, if it found the tube program too costly, could, by exercising its power to build tubes in the newer districts, be able to give a service on the surface from the outskirts to the centre of the city.

"It looks to me as though the railway's plan is more like tying up the centre of the city than serving the public," he said.

Ald. McCarthy suggested that, as the use of St. Clair-avenue for car lines was admittedly desirable, the question of widening that thoroughfare should be again taken up. He didn't think there would be opposition by the residents to widening the portion from Yonge-street to Avenue-road to 50 or 64 feet. The matter was, however, left to the works committee.

Fighting Radial Bill.
Mayor Geary and Controller Spence are at Ottawa today to battle once more with the Hamilton, Waterloo and Guelph radial bill.

TESTING LAKE WATER

Samples To Be Taken Two Thousand Feet Beyond Intake Pipes.

It was decided by the board of control yesterday on suggestion of Controller Foster to have the medical health officer take samples of water at 100 foot intervals from the shore to a point 2000 feet beyond the intake, so as to determine how the quality of the water varies according to distance from the shore.

Waterworks Engineer Fellows has completed his hydrographic survey of the lake in connection with the proposed extension of the intake pipe. The depth of water 300 feet out from the intake was found to be 100 feet, at 600 feet 115 feet, at 1000 feet it is 141 feet, and at 2000 feet 214 feet. The soundings taken covered a circle with a diameter of 2000 feet.

Will Proceed With Recreation Ground.
At a meeting of the directors of the Playgrounds' Association yesterday, it was decided to go ahead, with the assistance of Superintendent Bishop, with the preparation of the Oler recreation ground.

Morley Vickert was elected to the directorate, vice Arnold Haultain, resigned.

Secretary Lewis acknowledged with thanks a subscription of \$50 from the Toronto Teachers' Association.

Old Folks' Coughs

TELLS HOW TO CURE QUICKLY

Elderly people easily take cold. Unlike younger persons they recover slowly, often never. Have you noticed how many people after middle life die of pneumonia? This is because circulation is weaker and the tissues become congested and flabby; dangerous inflammation easily follows! Even when pneumonia does not develop and kill, coughs weaken elderly people both directly and by keeping them awake. Cough syrups seldom do good and they upset digestion. Cattarhosone is a remedy of marvelous effectiveness. Cattarhosone heals and cures the irritated surfaces of the throat and bronchial tubes. It soothes coughs and bronchitis remedy. Cattarhosone is a simple healing balsam. Cattarhosone is a substance that the air breaks up into little

Breathe drops and carries them Cattarhosone to every part of the respiratory tract. It acts just as the air of pine wood acts, as a healing antiseptic remedial agent. In many kinds of pneumonia has won its way. It has proved itself remarkable. It is convenient, most pleasant, free from drug remedy. The best cough, cold and bronchitis remedy known. Use Cattarhosone five minutes and it will prove to you more than we could tell you in an hour. Do try it. Buy a vial, please outfit \$1.00, with hard rubber inhaler, with liquid enough to last three months. Small size 50c. All dealers or The Cattarhosone Co., Buffalo, N. Y. and Kingston, Ont.

The Hat Secret

WE often wonder if the "man" who buys a hat in Toronto realizes just what a splendid chance he has to secure the world's best product at a reasonable price? The protective tariff of the great republic at the south of us has made "Millionaire Hat Makers," but it has given the public its money worth in quality.

The "English-made Hat" is the best in the world, both for quality and style. It sells on Fifth Avenue, New York, for twice the price asked for the best of "American Makes." In Canada the "English-made Hat" is marked at a lower price than the American product.

We are specialists on English-made hats. We handle exclusively in Canada those manufactured by Henry Heath of London, England, who has the honor of supplying His Majesty King Edward with the hats he wears—and "Edward Rex" has some good taste in the matter of headgear. Our exclusive hats are moderately priced also.

DINEEN

140 Yonge Street, Toronto

CONTROL OF STREETS UNDER ONE DEPARTMENT

Amalgamation of Three Civic Branches Favored by Controller Foster.

The amalgamation of the works, medical health and street cleaning and scavenging departments may result from the resignation of Dr. Sheard. Controller Foster announces that he is in favor of such a step, and it is probable that it will be given serious consideration by the board of control, as there has been for some time a strong feeling that the control of the streets should be under the absolute jurisdiction of one department. The controller's idea is to secure a strong administrator who would have supervision over the three branches. The position of medical health officer would be made a subordinate one, and would not demand strong executive powers. By adopting this plan, the city would be saved the difficulty of casting about for a competent medical man who would also be required to look after the street cleaning and scavenging. The importance of his duties being thus reduced, the salary could be also lessened. The position of city engineer would also be made subordinate, since Mr. Rust would be called upon to report to the general supervisor. Whatever is done, it is regarded as unlikely that the work of the medical

health and street cleaning departments will be combined, and apart from the works department. Ex-Controller Dr. Harrison is being mentioned along with ex-Ald. Dr. John Noble as a candidate for the vacancy, but until a general policy has been fixed, no appointments can be considered.

A CANADIAN'S INVENTION

Hopes to Be Able to Stop Battleship in Its Own Length.

WASHINGTON, D.C., March 30.—To stop a 10,000 ton battleship going at top speed within her own length is the problem which the United States navy department has set for a Canadian inventor. He has an arrangement like barbed wire on the side of a ship which he guarantees to fulfill this function. The department has authorized a trial of the device on the battleship Indiana off the Delaware Capes April 17, the cost to be defrayed by the inventor.

The Great Rug Sale Today. Mr. Chas. M. Henderson will sell, commencing at 2:30 this afternoon, the most magnificent collection of rugs, art furniture, bronzes, etc., ever offered at public sale in Canada. The sale takes place at the art gallery Nos. 87-89 East King-street. Great bargains may be expected as every lot offered will be sold without the least reserve whatever.

True Bill in Ore Case. A true bill was returned by the grand jury of the sessions yesterday against Dr. J. E. Wilkinson, charging him with purchasing silver ore from unauthorized persons. His trial has been reversed with the other Cobalt cases to the May sessions.

Some Facts About The Manufacturers Life During 1909

The death claims amounted to less than two-thirds of the income from Interest, Rents, etc. This is another demonstration of the careful selection of lives made by this Company. Without taking into account the profit on sale of securities, the Interest Rate on the Mean Ledger Assets amounted to 5.73 per cent. In view of the great care taken in investing the Company's funds, this rate must be extremely gratifying to everyone interested in the Company. Insurance in force over \$57,750,000. This is a good company in which to place your insurance.

WORK COUNTY West Toronto North Toronto East Toronto

N. TORONTO FIRE ALARM SYSTEM IN FULL SWING

Newsy Items From All Over the County—Suburban Matters in General.

NORTH TORONTO, March 30.—(Special.)—The fire alarm system is now in perfect working order, according to Chief Collins, and rumor credits the chief with being like a fish out of water until a real practical demonstration takes place. Tests there have been, but nothing will satisfy the town's fire custodian but a chance to get busy.

As already stated in The World, there are 18 gongs installed in the houses of firemen nearest the firehalls. It will not be long before this number is considerably augmented and this can be done from time to time as necessity demands.

A word as to the mode operated when a fire does occur. Run to the nearest fire alarm box, smash the glass in the door, which frees the lock and permits the door to fly open. Inside of this box there is another small round box with a lever on the outside; pull this down once and let go. After sending in an alarm, citizens are requested to await the arrival of the firemen, and direct them to the scene of action. Attention to these details will save needless delay and loss.

There are other details, but citizens will do well to remember these as being the most important. The system installed is that of the Holmes electric and is guaranteed for five years.

Toronto, A. F. and A. M., No. 15. G. R. C. held a delightful ladies' night on Tuesday evening, in the Masonic Hall. The reception committee was composed of Bro. C. C. Norris, W. Bro. A. J. Brown, Bro. H. J. Douglas and Bro. J. W. Wilson. Worshipful Master Charles Murphy presided.

Following an excellent entertainment, there was an equally enjoyable banquet, and this in turn was followed by a eucure party and a social dance. The whole affair was delightfully informal.

The continuation class under Principal Reed will, it is expected, re-open in the fall. There will be an increase in the number of pupils, and it is regarded as altogether likely that the school will be long taken some definite step toward the founding of a high school. A school of this nature ought to flourish here as well as at any other place in the city.

"I don't think that Canadian history records a similar case of such long continued warm weather at this season of the year," said S. J. Douglas to-night. "It is marvelous, and whatever the cause it is making itself felt upon the fruit trees, large and small, and upon the open grasses. The local 'Citizens' Band are practicing zealously for the coming April and summer concerts."

The fire, which the lighting committee meets on Friday night. A number of small real estate deals are being put thru every day. Burning, free from all disfigurement, a serious blaze in Bedford Park yesterday. York-street is dry and dusty, a marked contrast to other years.

WEST TORONTO.

WEST TORONTO, March 30.—The new paragon of the Methodist Church is rapidly nearing completion. There are 15 rooms in the new residence, and three open grates, while the rooms are all very beautifully finished.

The death occurred this morning of Frederick T. Ross, 59 Law-street, former owner of the hardware business, corner Keele and Dundas-streets. The deceased leaves a wife and family, and will be buried in Prospect Cemetery Friday afternoon by Victoria Masonic Lodge.

"Beatrice Arnold, daughter of Mr. and Mrs. Arnold, 72 Murray-street, died in the Sick Children's Hospital this morning. The funeral will take place from the Arnold home on Friday at 10 a.m. to Riverside Cemetery, Weston.

A new Orange Lodge was inaugurated in St. James' Hall last night. The officers are: W. Bro. J. E. Wilkinson, W. Bro. R. L. McCormack. A banquet was held at the close of the evening. Mr. Roy, who has been in charge of the men's Bible class of the High Park-avenue Methodist Church, was tendered a banquet by the young men of the church and presented with a hand bag, as he is leaving for the west early in April.

SCARBORO JUNCTION.

SCARBORO JUNCTION, March 30.—(Special.)—The Maple Leaf Football Club met on Saturday evening last and organized for the coming season. Officers elected were: W. Laurie, president; J. Bent, secretary-treasurer; A. Third, manager; Bert Gibson, captain; R. Reynolds, manager of junior team; honorary presidents, P. C. Clancy, W. Brown, Thos. Edward, F. Walton, W. Thomas, W. R. Bell. The following players are requested to be on the grounds on Saturday evening at 6 o'clock practices: T. Glenn, W. Glenn, Jos. Bell, James Butler, John Butler, Geo. Butler, Bert Gibson, R. Lowrie, J. Lennox, John Bell, Harold Hunter, Ed. Hammond, A. Willis, J. Crichton, and all others interested in the game. New players will be made welcome.

HUMBER BAY.

HUMBER BAY, March 30.—The people of this district are all wondering what will be done with the property adjoining that of J. Whitworth on Queen-street. The property was purchased recently for about \$120,000, and is generally thought will be the site for a factory.

Rev. A. B. Vincent, the pastor of the Baptist Mission, and his wife, will be tendered a reception by the ladies of the church on April 7 at 7:30 p.m.

George Horwood and his canoe "Dreadnought" were first up the Humber this year.

Mrs. McNicol of the postoffice is

said to be recovering slowly from a serious illness. Rev. Mr. Harrington will move here to Mrs. Brown's, "The Pines," early in May.

Auction Sale.

The cows, store hogs, farm implements, dairy utensils, etc., of Mr. W. F. Hinchley will be sold by public auction Saturday, April 2, 1910, at his residence, on Roseshill-avenue, one mile east of Deer Park. Sale at 1 o'clock sharp.

AND STILL THEY COME.

Mimico Hen Now Carries Off Honor for Laying Big Egg.

Mrs. E. Crowhurst of Church-street, Mimico, yesterday sent to The World office by trusty messenger a hen's egg which exceeds slightly in point of size anything so far received from York, or for that matter any other county. The exact measurements are: Length 3 1/4 inches, diameter 2 inches, and circumference 6 1/4 inches.

As in the case of the big egg brought in on Monday by George Robbins of Malvern this one was laid by a Plymouth Rock hen. The Rocks are having their innings, and it would be interesting to know if anybody can show anything to beat either the Mimico or Malvern productions. It is hard to say of these two which was the larger. The honors are evenly divided.

PRESBYTERIAN MISSIONARIES

Returning to Their Posts in the Far East.

Dr. J. M. Waters of the Presbyterian foreign missionary staff in India, who has been in Canada for a year on furlough, was yesterday granted permission by the foreign missionary committee, to return to his field. At his own request he will be allowed to take a brief course on tropical diseases in London, England, on his way back.

Some consideration was given to the need of better accommodation for the church offices, but the matter will be taken up by the full committee in May. It was reported that Rev. James Menzies, under appointment to Honan, China, desires to leave Canada in May, and arrangements will be made for his designation.

Plans of a residence for missionaries on the Mistawasis Reserve, Sask., were submitted, and suitable plans for an enlarged boarding school for the Pine Hills Reserve will be prepared. It was reported that D. G. Cook is in Winnipeg promoting the enlargement of the industrial school in the central mission.

The executive had with them again Cooper, Rev. W. J. Martin, who is now recovering from a long illness. On account of several matters being unfinished the committee will meet again on Friday next.

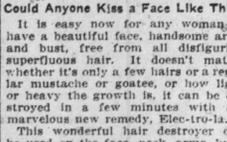

Surfaced as He Sat on Bed.

NEW YORK, March 30.—Alfred Payne, a clerk, set fire in an early morning tenement fire here to-day, because he stopped to put on his shoes. Firemen found his body seated upright on the edge of the bed.

Free Superfluous Hair Cure

A Positive Remedy That Removes Any Hairy Growth and Does Not Burn the Skin.

SENT FREE TO YOU FOR TRIAL.

Could Anyone Kiss a Face Like This? It is easy now for any woman to have a beautiful face, handsome arms and legs, free from all disfigurement, superfluous hair. It doesn't matter whether it's only a few hairs or a regular mustache or goatee, or how light or heavy the growth is, it can be destroyed in a few minutes with the marvelous new remedy, Elec-tro-la.

This wonderful hair destroyer can be used on the face, neck, arms, bust, or any portion of the body with perfect safety. It is not like other remedies. It positively will not irritate, burn or scar the most tender skin, no matter how long it is left on, and it never fails to remove even the most obstinate growth almost instantly. If you want a permanent, lasting cure, not merely temporary relief, Elec-tro-la is what you should use. If you want to have the hair roots and kills them.

We have decided to send a trial bottle of Elec-tro-la to any man or woman who writes for it, to prove that it does all we say, upon receipt of a two-cent stamp to help cover cost of mailing. The regular sized bottle is \$1 and your money will be refunded if Elec-tro-la does not do all we claim. We don't ask you to take our word for what Elec-tro-la will do. Just fill out our coupon below and mail with a two-cent stamp to-day.

FREE TREATMENT Fill in your name and address on dotted lines below and send it to Rev. A. B. Vincent, the pastor of the Baptist Mission, Chicago, Ill., enclosing a two-cent stamp to help cover mailing and we will send at once a free trial bottle which will show you what Elec-tro-la will do for you.

It's a vitalizing nourishing tonic—full of the properties needed for rebuilding the body—that's what Ferruzone is—try it—50c per box, six for \$2.50, all dealers or The Catarhozone Co., Kingston, Canada.

SPIRIT OF ICONOCLASM HOLDS THE CONVENTION

Present Education Methods Come In For Some Hard Knocks.

With still increasing enthusiasm the delegates to the Ontario Educational Association went thru the various resolutions of their different sections yesterday. Revolutionary statements were uttered all along the line, condemning different phases of the educational methods at present adopted by the schools throughout Ontario. A breaking away from the hard and fast routine methods and forms was proposed against by many capable speakers.

Another interesting address was given to a joint meeting of the association in Convention Hall yesterday afternoon by Dr. Ballet of New York University, on the "Function of Play in the Life of the Scholar."

The speaker referred to fighting, fishing and hunting as inherited instincts handed down thru generations to children from their remote ancestors. The lad of seven who runs away from home is merely following the roaming disposition of some of his predecessors. Dr. Ballet stated that the biological theory of play was that it was a rehearsal of ancestral customs. "The kitten seizes a ball in its paws and the puppy with its teeth." In both cases they are adopting the methods used by their ancestors.

When boys fight and play roughly they are merely finding an outlet for their inherited instinct. Playing football is merely following a strong racial habit, but saving work in a modern convention, and as yet has not registered itself on the nerve centres. Boys' marble-playing in April and kite-flying in September are as certain as the migration of the birds, and are from practically the same cause.

Physical exercises in a gymnasium are called work because they are based on physiology and anatomy. Wild animals exercise at play when they are young and at work when they grow older. If the state were so organized that every child had ample opportunity to play and every adult had to do work enough to earn his meals, it would do much toward keeping the race in a healthy condition. He argued that the child of play were those in which the child was allowed to follow his or her own racial instincts.

Why is History Taught? K. N. Bell, lecturer at the University of Toronto, gave a very interesting address before the English and history section on "History in Outline or in Detail." Why is history taught? He said that history is taught for three reasons: firstly, for patriotic reasons; secondly, to train the memory; thirdly, because history is a subject of which almost anybody can say something. All these reasons are bad because the daily press should do the first; Latin or mathematics are better for the second; and there is no necessity for the third. The real reasons are to train the imagination for educational purposes, and to train the reasoning powers. Can this be done by studying history in outline? No. Because in an outline there is nothing for the imagination to take hold of. To study in outline is like taking an American tour thru Europe, no good to man or child. By a detailed study of a short period, e.g., Elizabethan England or Great Britain in the time of Chatham, the child's interest may be excited, and that interest used to give him a very valuable intellectual asset.

Changes Advocated. A discussion was introduced in the inspector's section by Inspector Tom, who discussed the following changes suggested: 1. That the four works in English literature to be read by the pupils preparing for entrance examinations be selected by the department of education. 2. That the inspector should be made secretary of the entrance board, and the principals of the high schools are made chairman of the board.

The high school entrance regulations were discussed, and the following changes suggested: That every county inspector be a member of the high school entrance board with special powers, and that the inspector be secretary of the high school board in his inspectorate. The progress made during the year in the interest of improved spelling was the subject of a paper read by J. Dearnness. The lecturer stated that

Muscular and Mental Fatigue

Broken Sleep and Bad Dreams Cured by a Simple Remedy.

"My sickness had so many curious symptoms that I think I shall try and describe them," writes Mrs. A. Maury. "Muscular fatigue seemed to follow even slight exertion. I would soon feel the weakness of the muscles of the back, limbs and arms. Even the fixed position of light sewing would be sufficient to bring on tiredness. In a little while, if I picked up a book, the letters would look blurred, and if I didn't drop it, my head would reel. My thoughts would not flow freely—I was irritable, irrational, and insomnia seemed at last to be settling down upon me. Finally I saw I had to give up trying to do things, and began taking raw eggs and milk, which I ate for a week or so. I also took Ferruzone. I am glad now I did this. Ferruzone gave me an appetite and aided digestion of my food. I could see how my blood was being renewed, and its color reddened. When my blood improved my nerves also improved, and by persistence with Ferruzone, lots of food and rest, I recovered perfectly from the load of worries and sickness that made my life so miserable. I urge every ailing, weak or worried woman to use Ferruzone, one or two tablets with meals. It's a vitalizing nourishing tonic—full of the properties needed for rebuilding the body—that's what Ferruzone is—try it—50c per box, six for \$2.50, all dealers or The Catarhozone Co., Kingston, Canada.

SIMPSON COMPANY LIMITED

H. H. FUDGER, Pres.; J. WOOD, Manager. THURSDAY, MARCH 31

BARGAIN DAY

Hours: 9 a.m. to 9 p.m. DR. W. H. GRAHAM No. 1 Clarence Square, Cor. Spadina 2462

SHOT SHERIFF AND SUICIDES
A Tragedy in British Columbia—All the Result of a Love Affair.
VANCOUVER, B. C., March 30.—(Special.)—Word comes from Northport of the shooting of Marshal J. Dietrich by a man named Martin Close, who committed suicide when a sheriff's posse was after him. Close, aged 46, was paying unwelcome attention to a Miss Jellison, and the Jellison home being dynamited, Close was suspected. Dietrich went to arrest Close, shot him in the shoulder with a rifle, and when the officer fell, again shot him in the body, killing him.

Clark Duff Better.
Hon. James Duff, who returned to the city yesterday morning from Guelph, where he has been with his son, Clark Duff, received word by telephone that the lad is somewhat better, tho' not yet out of danger.

School Inspector Stricken.
BELLEVILLE, March 30.—As the result of a stroke of paralysis last night, John Johnstone, school inspector for Belleville and South Hastings for over 30 years, died to-day.

CARLING'S MALT EXTRACT
