KERENSKY PUT IN CHARGE OF RUSSIAN ARMY

Premier Will in Future Punish Slightest Disobedience to Authority.

PLEADS FOR UNION
Time Has Come to Cease Playing With Fate of Russia.

Petrograd, Sept. 12.—(British admiralty per wireless press)—The following statement, which was signed "Kerensky," prime minister and commander-in-chief, was given out here today.

"On this date, in accordance with the decision of the provisional government, I am charged with the office of commander-in-chief of the armed forces of the country. The senseless effort at military mutiny by the late commander-in-chief and a small group of generals has ended in complete failure. The guilty mutineers will be delivered to the revolutionary military tribunal.

"The bloodless liquidation of the mutiny shows the wisdom of the Russian people and its army and navy in the persons of the generals, admirals, officers, soldiers and sailors, who, in the face of a stern enemy, remained loyal in their duty to the fatherland and their legal government.

"Having assumed chief command of the armed forces of Russia, I declare my complete faith in all ranks of the army and the fleet, in generals, admirals, officers, soldiers and sailors who have borne upon their shoulders the heavy trial of the past days.

"The half-year's experiment of free existence could not fail to convince anyone that all the extreme fractional demands not instantly carried out, wherever such demands may have come from, duly cause disturbance to the country. Let everyone remember, whatever he might be, general or soldier in the ranks, that the slightest disobedience to authority will henceforth be punished.

"It is time to cease playing with the country's fate. Let all Russians who strive to save the revolution and to achieve freedom and a renewal of the common order of the government, understand and become imbued with the conviction that in this moment all our ideas of strength should be directed first and foremost toward the defense of the fatherland from the external enemy, who is aiming to subjugate it."

LABOR CONGRESS MAY RESULT IN A SHAKE-UP

Proceedings Which Open at Ottawa Next Week Will Be Lively.

Ottawa, Sept. 12.—On Monday, Sept. 17, two hundred-odd labor men, representing unions throughout Canada, will convene here for their annual convention. Among local labor men, many of whom are dissatisfied with the present labor events, there is an opinion that some surprising shake-ups will be decided on by the assembly.

Organized labor in England will be represented by J. D. Wilson, M.P., president of the South Wales Miners' Federation, while Emanuel Kowalewski will represent the American Federation of Labor. It is expected that Samuel Gompers, head of the labor men in the United States, will attend the convention, but this is not yet definitely announced.

C.N.R. BILL GIVEN ITS THIRD READING

Senator Bostock's Motion for Six Months' Hoist Voted Down.

FINAL MAJORITY EIGHT

Fair Progress in Committee on the Military Voters' Act.

Ottawa, Sept. 12.—The third reading of the Canadian Northern bill was given in the senate at the afternoon sitting. Senator Bostock moved that the bill should have a six months' hoist. The amendment was declared lost on the same division as voted down the amendment offered by Senator Belue, at the morning session, declaring that within five years the equity of redemption in the system may be revived by the re-employment of interest of advances made by the Canadian Northern. The amendment was defeated by 38 to 30. The bill was given its third reading by the same division.

The house then took up the discussion of the Military Voters' Act. Fair progress was made in committee, but the bill was not reported, and its further consideration will be resumed tomorrow morning.

ONE CANADIAN SOLDIER KILLS FIFTEEN OF FOE

Comrades Find Body Surrounded by Dead Germans—New Record is Made in Annals of British Army.

By Stewart Lyon. Canadian Army Headquarters, Sept. 12.—Since the heavy fighting of 10 days ago, and the failure of the enemy's effort to win back the lost ground north and west of Lens, the Canadians holding this part of the front have had an extremely quiet time.

With little interference from the Germans, new trenches have been dug and outposts established well in advance of the front line held immediately after the battles of mid-August. The ground for which the enemy fought furiously at the time mentioned has been given up recently without a struggle, and our grip on Lens from the north has been so strengthened that a counter-attack now made would have no hope of success.

In one case the body of a Canadian who had penetrated the enemy line alone during an attack was found surrounded by the bodies of 15 of the enemy, whom he had killed with bombs or his bayonet before he himself was slain. No other instance is known in the annals of the army where one man has accounted for so many foes.

FRENCH ADVANCE AGAIN BY MACEDONIAN LAKES

Allies Capture Village of Pogradets—Drive Enemy Back Two and Half Miles, to Important Mumulishta Heights.

Paris, Sept. 12.—An official communication issued tonight says: "Eastern theatre, Sept. 11.—At the Cerna bend, Italian troops repulsed an enemy detachment. In the region of Monastir troops continued their success, capturing by brilliant attack the village of Pogradets, on the southwest bank of Lake Ochrida, and have driven back the enemy northward as far as Mumulishta Height, four kilometres (2 1/2 miles) north of Pogradets."

BIG DECREASE IN U-BOAT SINKINGS

Twelve Large British Vessels Succumb to Enemy Attack.

London, Sept. 12.—A very marked decrease in the destruction of British merchant vessels by mines or submarines is indicated in the weekly admiralty statement issued this evening.

Twelve vessels of more than 1,400 tons and six of less than 1,600 tons were sent to the bottom, as compared with twenty in the large and three in the small category sunk the previous week.

Tonight's statement shows that four fishing vessels also were lost. The summary: Arrivals, 2,744; sailings, 3,868.

British merchant vessels sunk by mine or submarine of over 1,600 tons, including one previously, two; under 1,600 tons, including one previously, six.

British merchant vessels attacked unsuccessfully, including three previously, four.

British fishing vessels sunk, four.

The above admiralty statement shows the smallest number of the larger British vessels sunk since Germany, last February, began its intensified submarine campaign. The previous low record was for the week of March 11, when thirteen vessels of over 1,600 tons were lost.

ATTITUDE OF SWEDEN IS PUZZLING BRITAIN

Formal Assurances Given Some Time Ago Count for Nothing.

London, Sept. 12.—The British minister at Stockholm called at the Swedish foreign office yesterday, drew attention to the charges made against the Swedish Government by the state department at Washington, and expressed his amazement that it was possible for such charges to be brought after the formal assurances given Great Britain some time ago.

The minister added that the British Government was surprised that it had not yet received any official explanation from Sweden.

BUYING \$1 WORTH FOR 15 CTS. That is the calculation. It involves a transaction in men's hats. You buy a regular three-fifty unpart Dineen's hat or soft felt hat at Dineen's for \$2.85—which said Dineen has is one dollar better value than its nearest competitor, the generally available two-fifty hat. Dineen's special selling on Thursday and Friday—140 Yonge street.

ANTI-HUN RIOTING IN BUENOS AIRES

Several Blocks of German Business Houses Destroyed by Fire.

THOUSANDS IN MOB

Extraordinary Precautions Needed to Guard Luxemburg.

Buenos Aires, Sept. 12.—The downtown section of the city was the scene of the wildest disorders tonight in connection with great anti-German demonstrations, in which thousands of Argentines took part. Many of these in the mobs carried firebrands, and as a result scores of buildings were set on fire. Several blocks of German business houses in Calle 25 de Mayo were destroyed.

Among the structures attacked were the German club, one of the finest edifices in the city, and the building of the German dairy, La Brea. The first of these fires was extinguished, but they were started again. The entire fire brigade was called from one point to another trying to extinguish the flames. In several instances police who were attempting to shoot at those wielding torches were set upon by the crowds and dispersed. Extraordinary precautions have been taken by the authorities to protect Count Luxemburg, the German foreign minister, when he arrives here tomorrow morning to receive his passport.

READING MISSION PUZZLES OFFICIALS

Washington Knows No Particular Reason for Visit.

Washington, Sept. 12.—Treasury officials expressed surprise today on learning of Lord Reading's arrival in this country on a special mission concerning finances.

Whatever the mission may be, it was a surprise to the government. It was not known that the government was having to do with a special mission of this nature. It was not known that the government was having to do with a special mission of this nature.

British officials have had no difficulty in obtaining credits from the government for purchases in this country and none of the usual formalities were observed. It was said, it is anticipated, that Lord Reading's mission had to do with the possible establishment here of a credit institution.

Some officials were inclined to regard the mission as having to do with the government's financial position. It was regarded as possible that the government might be requested to meet some of its obligations as they fall due, to some extent, if not fully, by lending great Britain the money with which to pay them.

FRANCHISE BILL IS THRU COMMITTEE

Measure Advanced Early This Morning Under Closure Rule.

Ottawa, Sept. 12.—The federal franchise bill was adopted in committee under the closure rule at two o'clock this morning.

SENATE CURBS PRESS PRINTED IN GERMAN

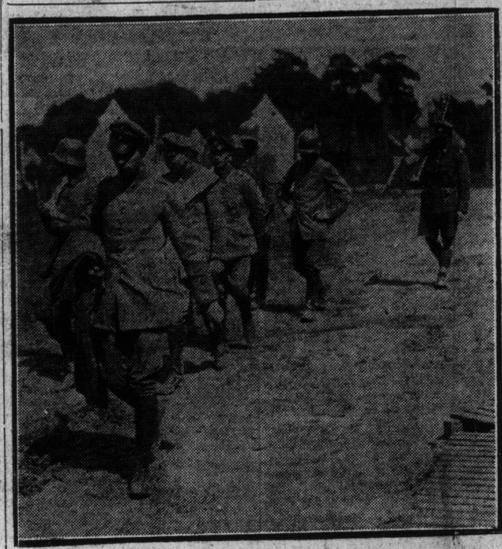

United States Takes Action Against Enemy Propaganda.

Washington, Sept. 12.—The administration trading with the enemy bill, which passed the house without a dissenting vote last July, was passed by the senate late today with many amendments, including one giving the president power to embargo imports and prohibiting publication of war reports in the German language unless accompanied by a parallel column of the translation in English.

GEN. MACLACHLAN, D.S.O., REACHES UNITED STATES

An Atlantic Port, Sept. 12.—Brigadier-General MacLachlan, D.S.O., arrived here today on an American ship from England to become military attaché to the British embassy at Washington. He held the same position in 1911 and 1912, when he returned to England. At the beginning of the war he went to France in command of a battalion and was wounded early in action. Brigadier-General MacLachlan was accompanied by Lieut.-Col. A. C. Murray, a former member of the house of commons, who will be his chief assistant.

FORCES OF KORNILOFF IN DESPERATE POSITION

LORD READING ARRIVES ON SPECIAL MISSION

British Commissioner Praises Determination of United States to End Military Tyranny, Menacing Security of World.

An Atlantic Port, Sept. 12. Right Hon. Viscount Reading, lord chief justice of England, arrived here today on an American steamer from England. He is accompanied by Lady Reading.

Lord Reading was last in this country two years ago, when he came as head of the British financial commission which, with a French commissioner, arranged for the \$500,000,000 Anglo-French loan from American bankers in 1915.

Lord Reading announced on the arrival of his ship at New York that he was on a special mission in behalf of the British war cabinet, having to do with finances. He was accompanied by Col. D. Swinton, an assistant secretary to the British war cabinet, and J. M. Keynes of the British treasury.

In an interview, Lord Reading said: "I am very glad to find myself again in the United States. Two years ago when I was here on a mission to negotiate the Anglo-French loan, America was neutral. She was then striving to uphold, according to public law, the rights of neutrals and non-combatants and to protect woman and children from outrage and slaughter. The efforts of your government were then directed to the safeguarding of American and neutral interests and the furthering of the cause of justice and humanity by reason and by moral force."

"On this occasion I come on a mission from the British war cabinet, and America is at war—America, a nation built on the basis of liberty and distinguished by its great love of peace, has been forced by Germany to fight for freedom and humanity and for the peace of the world. Your president has left no doubt that you are not warring this war for military conquest of territory or to impose your will on weaker nations, but in his own words, to make the world safe for democracy."

"I need not enlarge to you upon the encouragement we and our allies derive from the entry of America into the war. Great as is the material assistance you are contributing, it is not of greater value than the moral stimulus to those who for more than three long years have been engaged in continuous conflict and have made daily and hourly sacrifices of blood and treasure surpassing the wildest notions of pre-war prophets. Many missions come to this country to discuss and arrange with you important details of co-operation in the war; but the result of these missions, however successful, cannot have as far-reaching an effect on the world's history as the determination of the free people to end a military tyranny which is a perpetual menace to the security and liberty of the world."

"Whatever these sacrifices, we have never faltered in our decision to achieve our object, and depend upon it we shall not falter, assisted and encouraged by your genius and resources and by your unconquerable spirit the allies must win."

"The struggle is stern and costly, but the cause is great and worthy. It is the vindication of right and the protection of the weak. Victory, delayed perhaps, but ultimately certain, will bring the triumph of the people's will over autocratic will and will dig the graves of unscrupulous schemes of world aggression and of military tyranny. Then and then only will there be lasting peace."

GREAT NAVAL PARADE SHOWS ALLIED STRENGTH

Action Emphasizes Friendship Existing Between U. S. and Britain.

Newport, R. I., Sept. 12.—The friendship that exists between naval men of this country and Great Britain was emphasized by Lord Aberdeen, former governor-general of Canada, in a brief speech today at a review of the 4000 sailors of the naval brigade at the training station, a salute of us exercises was the report of the national anthem of the United States and Great Britain, 10,000 voices joining in the singing on the parade ground.

Austrian Empress Candid In Letter to the Kaiser
Geneva, Sept. 12.—A despatch from Innsbruck says that the Austrian empress has written a long personal memorandum to the German emperor dealing with the coming fourth winter of the campaign. The empress expresses many facts which have been hidden so far by Vienna statements and diplomats, and the memorandum is reported to be a striking document.

Provisional Government Will Tolerate No Compromise, and Preparations for Defence of Petrograd Are Complete.

Petrograd, Sept. 12.—According to statements made by members of the cabinet late last night and the news officials this morning, the situation of the provisional government continues steadily to improve, although in view of what is said to be the desperate position of General Korniloff and his associates, with whom it is said the government will tolerate no compromise, there still exists the danger of armed collision.

The measures for the defence of the capital are complete. Troops upon which the government can rely continue to arrive, while the small minority of Korniloff sympathizers in Petrograd appear thoroughly cowed. Similar conditions are reported from Moscow, where a notable effect was produced thru the issuance of a proclamation in favor of the government by Mayor Rudnoff, whose address of welcome to General Korniloff on his arrival for the recent Moscow conference was at the time regarded as a demonstration of the Moscow industrial leaders' counter-revolutionary sentiments.

Tosna Not Occupied. Finance Minister Nekrasoff, Premier Kerensky's multiplex for the giving out of news, again declared today that the government's position was satisfactory, and that it was untrue that Korniloff troops had been allowed to occupy Tosna; that dissensions among the Korniloff forces was general, and there was absolute solidarity among the government troops.

Many additional assurances of loyalty from generals and political organizations have been received by the government. The provisional military committee of the workers' and soldiers' group, in a proclamation to all the contingents of the army at the front and the navy, declares that the regiments in the capital and outskirts support the government. It announces that the committee has decided to organize departments for supplying the needs of the army and for creating a bond between the regiments and district committees, a department for creating a union with the army organizations, a department for the defence of Petrograd against police provocations, as well as secretarial departments. All will start forthwith.

Women Support Kerensky. The proclamation also states that the committee is working in close addition with the government and reports a number of arrests of officers and others. The women soldiers of Russia will fight for the government. The women's battalion declares it is its duty.

(Continued on Page 2, Col. 5.)

AMERICANS TO RUN RAILWAYS

United States to Send Traffic Experts to Russia.

Washington, Sept. 12.—Immediate aid in solving Russia's transportation problems will be given by the American Government. Shipment of locomotives and cars to Vladivostok will be rushed across the Pacific in Japanese vessels, and American railway men will be sent to serve as inspectors along the trans-Siberian railway.

The breaking down of Russia's transportation system has been one of her chief handicaps in prosecuting the war. Thousands of tons of freight piled on the ground at Vladivostok, which Russian railway men have found no way to move. The arrival of American locomotives in large numbers is expected to be of great assistance. In starting this freight westward, American officials are considering proposing to the Russian government that a section of the trans-Siberian railway men for operation. The American railway men for operation. The American railway men for operation. The American railway men for operation.

LOCOMOTIVES TO GO

Japanese Vessels to Carry Immense Motive Power to Vladivostok.

A few of these garments have slight imperfections in the materials. Colors black and navy, brown and tweed mixtures. Friday, \$12.50.

YORK COUNTY — AND — SUBURBS

TOWN COUNCIL DISMISSES CLERK

George D. Scott, Writes Out Bylaw Giving Effect to His Discharge

VERY STORMY SESSION

Resolution Passed Temporarily Appointing W. H. C. Millard to Position.

At a special meeting last night, the New Toronto council passed a bylaw formally dismissing from his position the clerk of the municipality, George D. Scott. It went through unanimously and without a word of discussion from the five members of the council, who also stipulated that it take effect September 15.

At the same time a resolution was passed temporarily appointing W. H. C. Millard as clerk. Mr. Millard has for the past two years been in the civic service of New Toronto. He was for a time tax collector and assessor, and at present is secretary of the New Toronto water and power commission.

George D. Scott was first asked to resign his office, but when Reeve Lovejoy finished reading the resolution the clerk protested that it was not the correct procedure and demanded that the council pass a bylaw dismissing him, and even offered to make out the bylaw himself. As the council had no objection he was given leave to make out his own dismissal, which was unanimously adopted.

This completed, the former clerk rose and demanded specific reasons for his dismissal, as he thought that "general dissatisfaction" was not sufficient to warrant the council's action. In fairness to him, he asked the reve to name the reasons for his dismissal.

Reason for Action.
Reeve Lovejoy said it was decided by the whole council that you be dismissed for failing to take care of the office and for running around without the consent of the council on matters not pertaining to the business of the council. The reve further charged Mr. Scott with attending a ball game when he should have been in the office at New Toronto and also that he once absent himself from the office without the permission of the council from Saturday till Wednesday morning. Another matter which Reeve Lovejoy leveled at Mr. Scott was alleged to have kept him on the employees doing civic work.

Mr. Scott admitted the ball game charge as well as the fact that he had been absent from the office on Wednesday holiday, but he heatedly denied that he was running around on other but municipal business and added that in the four years he had been in the office he had worked faithfully and kept the entire municipal business up-to-date.

Charge Personal Grudge.
Speaking directly to the reve, he said: "Since you have shown all kinds of confidence in me you are now playing a double game and it is a personal grudge that you have against me." By this time the atmosphere was getting quite heated and personalities were indulged in, and Councillor Fraser called Mr. Scott "a liar." Mr. Scott kept up a fusillade of talk against the members of the council in which he intimated that he would make it interesting for the reve and councillors at the coming municipal elections. This caused Councillor James to retort that they were not afraid of him.

At this point of the acrimonious debate, which lasted about an hour, the council adjourned the meeting, as it was over-reaching itself.

PARADED TO FUNERAL OF COMRADE'S WIFE

Veterans From Spadina Military Hospital Were Pallbearers at Funeral of Mrs. P. A. Davis.

As a mark of respect to Sergt. P. A. Davis, who is at present convalescing in the Spadina Military Hospital, six of his comrades acted as pallbearers at his wife's funeral, which took place yesterday morning from the family residence, 1012 Logan avenue, to St. John's Cemetery, North York.

Mrs. Davis was in her 36th year and also born in Scarborough, lived in Toronto the most of her life. She leaves besides her husband, three children: Sergt. Davis, who was of the 1st Division of the mechanical transport, was invalided home from the front last November.

The pall-bearers were: Sergts. W. R. Gash, E. S. Fenwick, E. L. Kemaley, F. Fish, W. A. Black and Corp. B. McKie. These men, with a further quota of men, consisting of Gnr. O. Booth, Trooper J. Hay, and Ptes. C. Robertson, W. Turner, F. Robertson, D. Kelsey, W. Scott, and W. Kingsberry, under command of Major A. L. Burch, chaplain at Spadina Hospital, represented the men and officers of that institution.

AN UNUSUAL ACCIDENT.

Boys playing in a field at the rear of 219 Nairn avenue, Earls Court, yesterday broke a window with a ball, knocking a box of matches from the window ledge, which set fire to the curtains. The flames were noticed in time by the inmates.

SCHOLARS GIVE TO RED CROSS.

The children of the Hotel Minnegoshane have, during the summer, been gathered together in a Sunday school by Mrs. Wilkes of Bradford. The scholars were drawn from Toronto and other places.

Their offerings amounted to \$12.28, for which amount a cheque has been received at the head office of the Canadian Red Cross Society.

"The doctor, the lawyer, the merchant" may choose a fine black or gray vienna morning coat and waistcoat during the Score's estate sale at \$25.

"SPEEDWAY" COURT HAS ONLY THIRTEEN CASES

Port Credit Magistrate Imposes Small Fines on Motorists Guilty of Speeding.

Only thirteen cases of speeding engaged the attention of the "Speedway" court at Port Credit yesterday afternoon, and as they were all of a minor character, Magistrate Gordon imposed the regular \$10 and costs fine upon each. These were: John Burakowsky, 227 Gibson avenue, Hamilton; J. W. Burgess, 24 Wellington street, Brantford; Mrs. E. Eversfield, 11 Evelyn crescent, West Toronto; Geo. Fried Co., Ltd., 6 Mount Royal avenue, Hamilton; Jerry Gerold, 1235 West Bloor street; Garnet Heslop, 3 Victoria boulevard, Mount Dennis; Dr. Chas. A. Jarvis, 41 Peel street, Brantford; W. B. Rolison, Hamilton beach, and H. G. Smith, 67 Stanley avenue, Hamilton.

For operating their motor cars without a rear light A. F. Taber, 821 Pape avenue, and Harry Hague, 959 Logan avenue, were allowed to go on payment of costs, obtaining the victims of a smash at Oakville, which resulted in their cars being run together, impairing the working of the lamps.

The charge of careless driving on the Toronto-Hamilton highway laid against Mrs. (Dr.) Arthur E. Winkins, 119 East King street, Hamilton, was dismissed by Magistrate Gordon after she stated that a tire collapsed, which was the cause of her motor being ditched. Constable Hunter, who saw the accident, corroborated her statement.

COUNTY POLICE COURT DOCKET FAIRLY LIGHT

Italian Fruit Dealer Fined for Reckless Driving and Some Family Troubles Ventilated.

In the county police court yesterday before Mayor Brunton Mark Catalofe, an Italian fruit dealer of the city, was charged with reckless driving while in a motor car in the Township of Vaughan. He ran into a buggy and smashed it. He was fined in all \$64.10. He was also charged with reckless driving, the evidence proving that he was traveling at the rate of 37 miles an hour. For this offence he was fined \$10 and costs.

William Kelcher, a butcher at the West Hospital, Weston, was charged with selling liquor. In a previous case one man, also employed at the hospital, was convicted of drunkenness and said he got the liquor from Kelcher. The magistrate ruled that there was not sufficient evidence to prove this and the case was dismissed.

Mrs. L. Young was charged by Mrs. L. Charter, a neighbor, with assault. It was stated that there had been bitter enmity existing between the two women for some time past, and the ill-feeling culminated last Saturday. The major was of the opinion that both were to blame and he gave them a lecture as to their conduct and make up their differences.

George Buskey of Todmorden was charged with abusing his wife, but the evidence of abuse that was forthcoming was the fact that he would not hand over the whole of his wages to the share of his wife, being content with parting with \$12. During the hearing Mrs. Buskey gave a display of temper and the magistrate told her that she was the worst specimen of a termagant that he had ever seen in his court and dismissed the case.

DELINQUENT MOTORISTS PAY FOR CARELESSNESS

Over Four Hundred Dollars Paid in Fines at Oakville Police Court.

Thirty-four motor car speeders on the Toronto-Hamilton highway appeared yesterday morning in the Oakville police court before Magistrate Shields, and left an aggregate total of \$434 in fines.

Most of the offenders were up for speeding for the first time, but F. G. Morris of Hamilton had to pay \$40 and costs for his excessive speed while the following were fined \$20 and costs: H. C. Hawkins, 323 John street, Hamilton; Hodgins and Roberts, 169 East King street; George Lawrence, 65 Carr street, and Rose Frank, 88 Strachan avenue, Hamilton.

D. Chapman of Oakville was fined \$10 and costs for driving at an excessive rate and \$2 and costs for forgetting to have his rear light lit. Those fined \$1 and costs for not keeping to the right side of the highway were: E. L. Bochmer, 17 Cork street, Guilph; J. Gilchrist, 13 Gore Vale avenue, and F. W. Urquhart, Oak avenue, Hamilton.

The first offenders who paid \$10 and costs were: F. W. Bullie, 146 Crescent road; Capewell Horse Nail Co., 54 Duke street; Robert Emerson, Oakville; R. W. Hart, 28 Rosehill avenue; J. R. Lee, Queenston road, St. Catharines; A. Leutz, Hunter Bay; W. W. Magee, High Park street; Geo. Milligan, 163 Crescent road; A. G. McDonald, Hilton Apartments; B. Rickman, 467 Grace street; and W. W. Wood, 78 Crawford street; Woodward Construction Co., Mall and Empire Building; Capt. H. R. Smith, Hart House; M. Wexler, Ekester; Canadian Pacific Railway Co., 5100 Queen street; S. L. Clark, 48 Lansdowne avenue, Galt; O. H. Manning, Montreal, and W. J. Irvin, Fort William.

TO INSPECT YORK ROADS.

The road commissioners are to make an inspection of all the roads under the jurisdiction of the York Highway Commission and will start today. The trip will take about two days.

"The Victor Shop" and Victor records are anonymous for both quality and distinction coupled with satisfactory results. National Piano Company, Limited, 266 Yonge street.

The Supreme Court of the Independent Order of Foresters

The Supreme Court opened promptly at 10 a.m. yesterday. The Supreme Chief Ranger, Mr. Elliott G. Stevenson, presided. The reports of the Officers were distributed.

The membership on December 31st, 1916, stood at 186,930, with an amount of insurance of \$181,947,224.

There are fifty-four High Courts in the Order, which operates in Great Britain and Ireland, the United States and Canada. There are 3,151 Subordinate Courts and 402 Companion Courts made up exclusively of women.

Officers' Reports.

According to the Supreme Chief Ranger's report the surplus over and above the necessary reserve to make the Order 100 per cent. sound was in 1914, \$586,188; in 1915, \$644,999; and in 1916, \$716,274, which proves the adequacy of the 1913 readjustment.

According to the Treasurer's Statement there were paid out since last Supreme Court meeting the following amounts: such as mortuary, total and permanent disability, old age and expectation of life, \$1,114,884.20. The balance on hand at the close of the year, December 31st, 1916, was \$43,817,759.71.

The report of the Medical Board showed that 59,270 applications were received for membership since the meeting, of which number 53,755 were accepted, the amount of insurance being \$41,516,250.00.

Conditions incident to the War. The five standing committees of the Supreme Court met last week at the call of the Supreme Chief Ranger to consider the conditions arising from the war as they affect the liabilities of the Order and its balance sheet.

In the report submitted by Bro. Savage, of Michigan, it is stated: "Up to the present over 4,000 members of the Order are in active military service. The fatalities have been in excess of any war of modern times. Now that the United States are also engaged, 33,247 of our members resident there are between the ages of 21 and 31 and subject to draft. It is quite probable that in the United States fully 15,000 may be drafted. The first group has already been called. Under the Military Service Act in Canada 1,000 members of the Order are likely to be engaged in military service."

This has created an altogether unexpected condition, and calls for action. It was felt that, though the Order was protected by war clauses on certificates issued after the war, that the Order should extend its protection to members serving their country. To meet such increases in insurance liabilities and maintain its reserve unimpaired, the committee

recommended the placing of an assessment of fifty dollars on every thousand dollars of insurance issued by the Order prior to the 1st January, 1917. This can be either a lien against the policy or can be paid by the member."

It was the judgment of the committee that it would be more than ample to meet all possible contingencies, and the recommendation of the committee was, after careful consideration and full explanation by the Supreme Chief Ranger, "this was adopted by a vote of 192 to 4."

Any portion of this special assessment that may not be required will again be placed to the credit of members.

Unwavering Resolve To Uphold the Honor of Their Nations.

The committee closed their report with the following declaration which was received with cheers: "We stand firm and unwavering in our belief that the honor and integrity of our nations must and shall be upheld. We are firmly of opinion that it is the sacred duty of each and all of our one hundred and eighty-six thousand members whose loyalty and patriotism stands unchallenged and unquestioned, to send the helping hand of fraternal brotherhood to those of our brethren who go forth to sacrifice their lives in the universal struggle for freedom and freedom shall be maintained for all mankind. As members of this great fraternal brotherhood we cannot do more and must not do less."

Notes.

Amendments to the Constitution and election of officers will be among the orders for today.

The first day was partly given to pleasure. The second day was wholly devoted to business.

For business capacity and debating ability, the Supreme Court compares favorably with any representative gathering.

A committee on memorial was appointed to pay fitting tribute to the members who have joined the great majority.

Dr. Dickson of Los Angeles, a member of the Medical Board, who gives his services without fee to Lopez Canyon Sanatorium, made an invocation when he presented the report of that model institution.

The sudden death of E. J. Hiesler, High Secretary of Nova Scotia, created a profound and painful impression in Supreme Court. Mr. Stevenson made fitting reference to the brother's worth and work. The Order will take charge of the funeral, and the Maritime Province delegates will accompany the body to Halifax.

socials and euchres for the members and friends.

BRITANNIA L.O.L.
Britannia L.O.L., No. 1388, met last night in Victoria Hall. It was decided to take immediate steps to get in touch with the families of those members overseas. Pte. J. McManus was reported to have fallen in action, and the secretary made a banner in his supreme sacrifice. This lodge has a bigger percentage of its members at the front than any other lodge in the city. The list of members who are overseas names out of a total membership of 96.

BANNER MADE IN TRENCHES.
Lady Alexandra Lodge, I.O.O.F., Rescues Unique Presentation.

Lady Alexandra Lodge, I.O.O.F., met last evening in the S.O.E. Hall, the chair being taken by Sister Mackay, noble grand. There was on view in the lodge since a banner that was specially made in the trenches for the lodge by a member, Pte. Brooker, and it was formally presented to the officers by Bro. W. W. Minns, P.O.M. A surprise visit was paid by fourteen members of various city lodges, and after the business a social evening was held. The committee were invited to the order, and among the visitors present were T. Hastings, provincial grand master, and H. P. Gilbert, deputy P.O.M.

WELCOMED VETERAN.
An enthusiastic welcome was extended at last night's meeting of Earlscourt L.O.L., No. 387, in the Victoria Hall to one of the members, Sergt. R. J. Brown, past worshipful master, who gave an interesting address. This was his first appearance in the lodge since he left. R. Senior, worshipful master, presided.

Great War Veterans Organize Company in Earls Court District
A well-attended organization meeting of "C" company, Earls Court, in connection with the Great War Veterans' Association of Canada was held last evening in Earls Court School, North Dufferin street. The following officers were elected: Platoon sergeant, C. T. Lacey; platoon second in command, J. Campbell; secretary, Joseph Wines; section sergeant, J. Livingston, W. Freeston and Thomas Smith.

Previous to the election of officers a motion to exclude the press provided a heated discussion. Contradictory points out that the meeting being held in a public building the members of the press could not be excluded. The motion was lost.

The secretary reported a net sum of approximately \$200 on hand at headquarters as a result of the recent concert held in Earls Court for the purpose of establishing a club in the district.

A vote of thanks was accorded Comrade H. D. G. L., his work in connection with the event.

Sergt. T. Barcey declared there was a sufficient number of returned men in Earls Court to form a company of its own.

This matter was laid over for further discussion.

RUSSIAN ARRESTED.
Charged with having committed a breach of the Dominion Immigration Act, Samuel Shulman, a Russian, residing at 295 Manning avenue, was arrested last night by Inspector Mitchell of the Dominion immigration department. Inspector Mitchell stated that Shulman was deported from Canada as an undesirable several years ago, and that he violated the act by returning here from the States.

LODGES

BUSINESS MEETING.
Thirty Members of District 35, I.O.O.F., Conclude Work for Year.

A special business meeting of district 35, I.O.O.F., was held last evening in the Oddfellows' Temple, the chair being taken by T. Love, deputy grand master. There were over thirty members present and W. J. Gordon, past district deputy master, concluded the business and cleared up a very protracted and interesting presentation. T. Love, the new D.D.G.M. of United Lodge, then assumed office. Following the business the following officers were elected for the ensuing term: Secretary, W. J. Rogers (re-elected); B. Smith, warden; J. Stokes, guardian; H. W. Minns, marshal.

LODGE PRESTON, S.O.E.
A special vote was taken on the hospital board by Lodge Preston, No. 67, S.O.E.B.S., at their meeting in the S.O.E. Hall last evening. It was unanimously decided to carry all the members now overseas on the hospital board and that the lodge should pay their dues. The chair was taken by F. A. Jay, president, and there was a large turnout of members.

LORD ERNE LODGE, L.T.R.
Various reports of the recent grand lodge meeting were presented at last night's meeting of Lord Erne Lodge, No. 40, L.T.R. in the Victoria Hall, and were adopted. The chair was taken by W. J. Farley, master.

GLENDALE LODGE, I.O.O.F.
The regular business meeting of Glendale Lodge, No. 76, I.O.O.F., was held last evening in the Oddfellows' Temple. The chair was taken by N. Marsalis, noble grand, and one suggestion was received, which will be taken up at the next meeting.

MEETING POSTPONED.
On account of the absence of Chief Hugh Macdonald, who is away in Ottawa, the regular business meeting of Alexander Camp, No. 179, S.O.S., which was to have been held last evening in the Foresters' Hall, was postponed.

LODGE ST. ALBANS, S.O.E.
At last night's meeting of Lodge St. Albans, No. 76, S.O.E.B.S., in the S.O.E. Hall, it was decided to hold a white rose meeting at an early date, at which other lodges are to be invited. Many candidates are to be put thru at this meeting, and the ritual grand, a well-carried out by the past president.

NEW OFFICER WELCOMED.
At last night's meeting of Prosperity Rebekah Lodge, No. 141, I.O.O.F., in the Canadian Pacific Railway Co. building, Mrs. Corner, noble grand, a welcome was extended to the new district deputy president, Mrs. Warwick, who entered on her duties last night. She replied in a few well-chosen words and asked their co-operation during her term of office.

SOCIAL LODGE, I.O.O.F.
At last night's meeting of Social Lodge, No. 318, I.O.O.F., in the Oddfellows' Temple, a report was received from the special committee recently appointed, and arrangements were made to hold an "old boys' reunion." It was also decided to hold a series of

City Will Assume Charge of Viaduct in Two or Three Weeks

According to City Engineer Powell the Don section of the Bloor street viaduct will not be handed over to the city by the contractors for two or three weeks yet. The deck of the section has to be cleared and several parts of minor construction have to be completed.

COMMITTS SUICIDE.

Mrs. Bertha Sellors inhales Illuminating Gas While Husband is at Work.

Mrs. Bertha Sellors, aged 33, of 6 Manchester avenue, committed suicide yesterday by inhaling gas from a tube attached to the gas range in the kitchen of her home. She was found dead by her husband, George Sellors, when he returned from work at 6 o'clock. The door leading to the kitchen was locked and plugged with small pieces of cloth. The chief coroner was notified, and after the police had investigated the case he decided that an inquest was not necessary.

MASTER PAINTERS' PICNIC.

Large Attendance at Annual Outing in North Toronto.

After many disappointments thru unfavorable weather the Master Painters' Association finally succeeded in holding its annual picnic yesterday afternoon at Week's Grove, North Toronto. Representatives of the supply houses were the guests of the occasion.

A splendid program of athletic events was run off, including a baseball match between the representatives of the supply houses and the association, the former proving the winners. The women's committee served refreshments at the close of the games.

CHARGED WITH THEFT.

Inez Lovelace, 327 Sumach street, was arrested last night by Acting Detective Wickett charged with theft of a pair of shoes and furs from Mrs. Coverley, 339 Gladstone avenue.

While the Canadian farmers bend to the soil, and the nations cry out for cheaper food, the crafty food profiteers continue in business and, smiling, say--

WANTED IN TORONTO.

Fraud Charged Against Man Living in Blind River.

Detective Cronin left last night for Blind River to bring back Joseph Shames on a warrant charging him with fraud. According to the police Shames conducted a grocery store in Toronto and assigned to L. N. Martin of 24 West Wellington street. The Swift Canadian Company are the complainants, and they allege that Shames acted by making an assignment purchased \$100 worth of goods from them by fraud.

ONLY ONE LARGE SHIP OF FRENCH DESTROYED

U-Boats Sink Five Small Vessels in Past Week.

Paris, Sept. 12. — The statement of the ministry of marine issued this evening shows that for the week ending September 9, one French vessel of more than 1600 tons and five vessels under 1600 tons were sunk by mines or submarines. Two fishing craft also were sent to the bottom. Unsuccessful attacks were made on three vessels.

The Host—I thought of sending some of these cigars to the front. The Victim—Good ideal. But how can you make certain that the Germans will get them?

Teacher—Do you know the population of New York?
Mamie Backrow—Not all of them, mam, but they've only lived here two years.

THURSDAY MORNING, SEPT. 13.

A National Railway.

With the passing of the bill providing for the nationalization of the Canadian Northern Railway, the Dominion is committed to a policy of public ownership of its railways.

These have been adopted in the management of railways everywhere except in the United States, and even there state control has gone some distance.

Sir Robert Borden pledged himself recently to such a disposition of the railway as would ensure success in its management, and Sir Thomas White declared that the government would in the very near future, take over the Grand Trunk Pacific, and probably the old Grand Trunk as well.

Casualties and the Draft.

There should be conviction for any who are still unconvinced about the selective draft, in the figures just published of our casualties around Lens.

A New Name.

CANADIAN OFFICERS INVESTED BY KING

Distinguished Service Order and Military Cross Awarded for Valorous Deeds. Canadian Associated Press Cable. London, Sept. 12.—The following Canadian have been invested by the king at Buckingham Palace (Infantry, except otherwise stated): Distinguished Service Order: Col. Henry Oak (Home Artillery); Col. Albert Hobbs, Col. Robert Patterson (Cavalry); Majors Daniel Mackinnon (Artillery), Cecil Forrier, George Reid, Maurice Vanderstuyf, John Reid. Military Cross and bar: Capt. John Grey (Mounted Rifles); Lieut. Oliver Matthews.

LIEUT. MIDDLETON DEAD

Canadian Associated Press Cable. London, Sept. 12.—Lieut. J. H. Middleton, Flying Corps, is reported as having died while a prisoner. He has been missing since April and was formerly with the Strathcona.

HIS PRICE WAS TOO LOW

Young Man Undervalued His Services and Nearly Lost His Job. Numerous incidents go to prove that it does not pay to cut too little for one's services. This is one of them: Recently a firm anxious to engage in South American trade wanted its catalog translated into Spanish. It got in touch with a young Spaniard, who had the reputation of doing such work well, and asked his terms. As it happened, he was very anxious to get the job, and after some hesitation made a price of \$125, although this was less than the work really was worth.

ABOLISH CASTE DISTINCTION

One of the many results of the war in England is an agitation for the abolition of class distinctions on the railroads and a change to a system similar to that followed in the U.S. and Canada. It is urged that the new plan would be an economic measure in view of the shortage of coal, as at present the third class coaches are nearly always crowded while the first class coaches seldom carry more than a few persons. Commercial travelers, who suffer severely from the higher rates now charged on the railroads and tickets, are active in the movement.

ROYAL FAMILY GET HUGE MAIL

The number of letters delivered at Buckingham Palace every day is greater than many big business firms receive. It may be explained that all the royal letters are delivered in mail bags direct from the General Post office to the private postoffice at Buckinghams. The mail is then sorted in the royal postoffice, the letters for the King and Queen are put into two large leather bags bearing a crown and the words "H.M. the King" and "H.M. the Queen" respectively, and these bags are delivered to the Buckingham Palace postoffice by the private attendants of the King and Queen.

THE WEATHER

Observatory, Toronto, Sept. 12.—The high pressure is passing off the middle Atlantic coast and a shallow depression is approaching the great lakes from the northwest. Thunderstorms have occurred in Manitoba, while in all the other provinces the weather has been fine and moderately warm. Minimum and maximum temperatures: Vancouver, 45-53; Victoria, 52-52; Calgary, 44-72; Edmonton, 48-74; Battleford, 50-52; Medicine Hat, 48-74; Regina, 51-72; Saskatoon, 46-80; Moose Jaw, 56-78; Prince Albert, 44-78; Winnipeg, 48-82; Port Arthur, 44-68; Fanny Bay, 46-82; London, 35-72; Toronto, 40-68; Ottawa, 40-72; Montreal, 44-66; Quebec, 44-66; St. John, 40-68; Halifax, 34-66.

STREET CAR DELAYS

Wednesday, Sept. 12, 1917. King cars, both ways, delayed 7 minutes at 9:45 a.m. at G.T.R. crossing, by train. Bathurst cars, delayed 6 minutes at 7:31 p.m. at Front and John, by train. Bathurst cars, delayed 5 minutes at 9:40 p.m. at Front and John, by train.

RATES FOR NOTICES

DEATHS

ARTHURS—On Wednesday, Sept. 12th, at her home, 12 Metcalfe street, Margaret Arthurs, widow of the late John Arthurs. Funeral Saturday, Sept. 15th, at 8:30 a.m. to St. Paul's church, the interment in St. Michael's Cemetery.

URGED TO EAT APPLES

"An Apple a Day Keeps the Doctor Away." It may seem strange that all the machinery of a formal "campaign" should be necessary to induce people to eat apples, but this is what is indicated by the recent action of the associated apple shippers of the country. This is because the apple men to dispose of their crop to advantage will have to induce every American to eat an apple but two or three or half a dozen apples. The British embargo on apples is responsible. England will not receive the fruit because it takes up ship room that is needed for wheat. England was the largest foreign customer of the American apple man, and to make up for her absence from the market loyal Americans will have to eat apples as they never did before.

EIGHT MAJORITY ON SNAP DIVISION

Borden Government Has Tight Squeak, Owing to Misunderstanding.

WIELD CLOSURE CLUB

Debate on Franchise Bill Goes on Methodically in House.

By a Staff Reporter. Ottawa, Ont., Sept. 12.—The government had a tight squeak this afternoon, when upon a snap division, their majority was reduced to eight. This came about by a misunderstanding on the part of several government supporters who supposed their votes would not be needed until two a.m. Thursday morning.

When the house met at three o'clock Sir Robert Borden tried to get some commitment from Sir Wilfrid Laurier respecting the final vote on the bill, but Sir Wilfrid said that a man could not bargain with one who held a pistol in his hand. The government spoke in conciliatory way, but it was brandishin gthe closure club at the same time.

Closure Necessary. Sir Robert said he would have no choice but to apply closure, and moved that the further consideration of the franchise bill be postponed. The motion was carried in committee upon a standing vote of 39 to 25.

Then the house adjourned to discuss the bill, but the closure rule was not strictly enforced. There was a running informal discussion on various clauses of the bill until the closure shut down further debate at 2 o'clock. Much of the discussion was of a more or less technical nature. An effort was made to have the hours of polling in large cities extended from 6 a.m. to 8 p.m., but this was voted down by 6 a.m. to 6 p.m.

The closure was applied within a few minutes of the opening of the house. When the order of the day was called, Sir Wilfrid Laurier expressed his regrets that the government should see fit to move to close the house. "I have no objection to the closure," he said, "if they want to do so. But whether they want to do it or not, all we desire is a proper discussion of the bill."

Sir Robert Borden suggested that Wednesday, Thursday and Friday should be given to discussion in committee of the bill, and the third reading on Saturday. He asked if the opposition would be willing to give assurance to that effect.

Sir Wilfrid said: "My hon. friend must realize that it is not conducive to the making of agreements to have them offered under threat. We are not going to do this or that or that we shall have the closure. So far as I am concerned, I do not intend to prolong the discussion one minute more than is necessary to a thorough understanding of the bill. Under such circumstances I cannot make any agreement whatever, and I am satisfied with that I cannot say more. I have no intention at all of prolonging the discussion."

Sir Robert Borden replied that he had made what he considered an exceedingly reasonable proposal, but he would not move that further consideration of clauses 1, 2, 3, 4 and 5 "shall be the first business of the day and shall not further be postponed."

Hon. Mr. Pugsley immediately raised a point of order that the motion should be made in committee and the motion was submitted. It carried by 45 to 35, and the committee proceeded to further consideration of the bill.

Referring to a question at a previous sitting Hon. Mr. Hasen, minister of marine and fisheries, asked that question in the naval forces were: East coast, 2028; west coast, 652; and the overseas division, chiefly in the British navy, 1202. He asked that the overseas division be entitled to vote, but not the relatives of cadets of the Royal Naval College at Halifax.

Replying to a. Mr. Macpherson, he said there was no reason for leaving out the female relatives of the men. The men were engaged in war work to which considerable peril was attached.

"Complete Demobilization." Defining the term "complete demobilization" as his opinion that the overseas soldiers were released from their obligations as expeditiously as their obligations would be by-elections.

By an amendment Mr. Meighen made a concession in regard to numerators. Under the bill as introduced, voters' lists had to be posted at least ten days before election day, and from that till within three days of election day the names could be added or struck off as provided. By his amendment Mr. Meighen extended the ten days to fifteen days, and the three days to five days.

Mr. Carvell again protested that he could not understand the provisions in regard to the amendment. "I don't understand how in the world we shall work it out," he declared. "You say you will appoint some friends."

"We don't say that," Mr. Meighen interrupted. Mr. Carvell: "Yes, that is what it means. The most obvious thing a partisan makes up his list. We have nothing to say about it. We have no representation. We are not entitled to the election he puts up a list and he gives notice that he is going to sit somewhere two hours day."

The member for Carleton asserted

ly Sisters. For next week he will offer an entire new repertoire of original songs and sayings. John P. Wade will be featured in John B. Hymer's newest playlet, "The Coral Cane." The sketch is laid in "Hancock."

There will be introduced to Toronto at the Grand Opera House next week, a magician, who has achieved fame in nearly every country on the globe. He is Carter, the great, whose work has been highly commended on account of the magnitude of his many illusions and the most brilliant manner in which they are presented.

Next week at SHEA'S. Harry Fox, vaudeville favorite, musical comedy star and "The Star Theatre" next week. Mr. Fox will be remembered here for his excellent work when appearing with the famous "Do."

Ringworm on Child's Head

Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effected When Right Treatment Was Recommended.

Grand Bend, Ont., Sept. 12.—There is no disease of the skin more obstinate or of more annoyance than ringworm, and the mother who writes this letter does so fully realizing what it will mean to other anxious mothers to know about Dr. Chase's Ointment.

This remarkable cure was brought about two years ago, and as there has been no return of the distressing disease there can be no doubt that the cure is permanent.

Mr. D. Stebbins, Grand Bend, Ont., writes: "I am going to tell you of my experience with Dr. Chase's Ointment. My little girl had sores come out on her head which looked like ringworm. She was spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yolk of an egg. The doctor gave me to put on was very severe, and the poor child would cry for an hour or more after an application. For six weeks she continued to spread all over her head, and came down to her neck and ears. She suffered terribly. At last some kind friend told me about Dr. Chase's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling of the first box the sores were nearly all gone. I have told all the people around here about your Ointment, and I cannot praise it too much. It is now two years since my little girl was troubled in this way, and it never comes back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner."

Joseph Brenner, J.P., endorses this statement as follows: "This is to certify that I am personally acquainted with Mrs. D. Stebbins of Grand Bend, and believe her statement with reference to Dr. Chase's Ointment to be true and correct."

Dr. Chase's Ointment, 60 cents a box at dealers, or Edmondson, Bates & Co., Limited, Toronto. Be suspicious of the druggist who tries to talk you into accepting a substitute.

LEAFS WIN FIRST 3-2 ROYALS THE SECOND 8-7

SPLIT DOUBLE BILL WITH THE ROYALS

Still Retain Two-Game Lead in Desperate Fight for Pennant.

The wild scamper for the International League pennant goes merrily on. The local situation remains practically unchanged this morning. The Leafs still maintain their two-game lead, but that about a point and a half in yesterday's shuffle. Richmond did their duty manfully and split a double-bill with Jack Dunne's Birds. The Providence Grays played a single game and downed Newark. This boosted Beane's men into second place, the Orioles being one point behind.

his roller. Leake moved Lalonde up to third with a single. Truesdale rolled out, but Jacobson was purposely walked, filling the bases. Hoyt could not find the plate, men went toward transportation to Whitman, forcing in the winning run.

SIXTEEN INNINGS WITHOUT DECISION

Red Sox and Senators in Great Battle—Tigers and Indians Divide.

At Washington (American)—Boston remained a nosebleed American League pennant contender yesterday as the result of a great sixteen-inning one to one tie battle with Washington, while the home run and two singles, one late to head floor, a safe hit by Leonard and a double play on Alvin's second at bat, were the highlights of the second at bat. Boston led 1-0 in the fifth on a home run by Leonard. The Senators scored in the sixth on a home run by Leonard. The game was tied in the eighth on a home run by Leonard. The game was tied in the eighth on a home run by Leonard.

GRAYS PASS OROLES IN THE GREAT RACE

At Providence—Providence baited Ennam's bats through yesterday's game, the hits being bunched in the scoring innings.

At Rochester—Rochester and Buffalo divided their schedule double-header. Rochester won the first, 3 to 2, while the visitors took the second, also 3 to 2. The Chicago Americans led the race to the terrace in center-field for a home run. The Chicago Americans led the race to the terrace in center-field for a home run.

BEGINNING PLANS FOR WORLD SERIES

New York Giants Have What Appears to Be Unbeatable Lead in National.

The shadow of the coming world series is already beginning to cast itself across the major league baseball diamond, although there is no absolute or mathematical certainty as to which generally will be the contenders. In the National League, the New York club has what appears to be an unbeatable lead, but the struggle for American League pennant honors, between the Chicago and Boston teams is still too close to permit a definite selection of the winner at this time.

TRY THIS ON WITH A NERVOUS, FIDGETY MAN

Professor of Science Suggests Four Tees Instead of One to Improve Play.

New York, Sept. 11.—To declare that there is anything new in the world of golf is to bring down the wrath of the gods on a poor defenseless head, as it is playing with fire or edged tools to declare anything an innovation these days. A professor in residence at a leading university, no claim is going to be made for his originality.

"Beware of Strangers" Should Have Been This Man's Saving

Elmer Bates, erstwhile Cleveland newspaper man, more recently a country journalist, was coming up West Sixth street from the Union Depot the other morning when he was halted by an old-time pensioner.

German Waterplane Upset in Dutch Territorial Waters

The tables were neatly turned on a German waterplane a few days ago in Dutch territorial waters. The small Belgian fishing boat, Vlasingen 53, of Middelburg, was engaged in fishing when a German waterplane swooped down upon it. The machine held two flyers, and one was put aboard the fishing "scoop" such a small vessel that it is worked by only two Belgians—a "prize crew."

Geneva—The German semi-official newspapers warn the public that the battle in Flanders has hardly begun and that grave losses must be faced.

As Charlie Says—Lonesomeness and ARABELA Cigars are not on speaking terms, nor have they any "mutual" friends. 4-for-25c.

GAS SUPPLY CUT OFF.

The people of Apolda, a big town in southwestern Germany, have had a punishment for their extravagance in the use of fuel recently had their gas supply cut off for 24 hours. People whose gas bills do not show a seemingly fall are threatened with having their gas meters removed altogether.

EVEN BREAK ON SEASON PHILLIES AND BRAVES

At Chicago (National)—Cincinnati hit Doulos opportunely yesterday and won the second game of the series, 3 to 2. The Chicago Americans led the race to the terrace in center-field for a home run.

DAY BETWEEN GAMES IN BIG CLASSIC

Chicago, Sept. 12.—A day will elapse before the world's series games played in New York and Chicago. President Johnson of the American League announced that the series will be played on the following day, but President Johnson decided the risk of delay of the special train in the second. Carey singled, stole second and scored on Boeckel's two-base hit. Boeckel scored on a single by Smith.

EAST V. WEST MATCH.

Play in the East v. West game on Saturday will commence promptly at 2:30 and finish at 5 o'clock. This will enable the club outside of the city to reach home in good time. From the entrance now in use as if Lawrence Park will head the list. At the Queen City are close after them, and may yet increase their entry. The draw will be made on Thursday at 8 p.m. at the Granite rink, 25 Lombard street. Phones Main 637 and Main 991.

FOR THE LAST DRIVE.

Toronto's baseball fans will not have to go to Rochester to see Toronto win the championship, as the Star Theatre has arranged to show both games Friday and Saturday at Rochester on the wonderful Paragon score board. In conjunction with the Lid Lifters show, both ball games and shows each day one admission. Reserve your seats early.

FINAL GAME TODAY.

The final league game of the season at the Island grounds will be played this afternoon between Montreal and Toronto. The championship virtually depends upon the result of the contest, and another hip-rotter such as those of yesterday may be expected. The game will be called at 1:15. The Leafs leave tonight for Rochester, returning home on Monday for the big exhibition game, with Chicago.

RECEIVE MODELS.

RED CROSS SHIPMENTS

Mrs. Stearns-Hicks reports for the Toronto branch of the Canadian Red Cross Society, 88 West King street, the shipment of 100 cases of Red Cross supplies for the month of August, 1917, containing 7983 articles.

The Canadian Red Cross Society has received a request from England to furnish 30,000 Christmas stockings for our men overseas. It is necessary that they should be ready for shipment by the first of October at the port, as they must be in London by the beginning of November in order to ensure distribution in time for Christmas.

From many letters received from overseas, we are told that nothing they receive is as much appreciated or has given the cheer and comfort as these loving tokens of Yuletide.

Flight Sub-Lieut. A. M. Walton Returns Home to Recuperate Flight Sub-Lieutenant A. M. Walton, 10 South drive, returned from overseas service yesterday. The strain he was subjected to in almost a year's flying with the Royal Naval Air Service proved too much for his nerves and he was given leave of absence to recuperate.

PASTOR WELCOMED HOME.

St. Francis' Parish Celebrates Return of Rev. W. A. McCann.

To honor the homecoming of Rev. W. A. McCann, pastor of St. Francis' Parish, after an absence of some weeks touring western Canada, the parishioners packed the parish hall, when a fine musical program under the direction of the organist, Miss Annie Connor, was given.

E. W. GILLETT CO. LTD. TORONTO, CANADA WINNIPEG MONTREAL

Society—Mrs. Edmund Phillips

Quartermaster-General A. D. McRae, C.B., who is in Canada on a two months' leave of absence, spent a day with his sister, Mrs. E. D. Earle, Leslie street, on his way home to Vancouver, and visited Gen. Sir Sam Hughes in the evening at the King Edward.

Col. Bob Low was in town yesterday, en route to Lindsay.

Mr. and Mrs. Henry Stuart Fleming, their son and daughter, New York, are the guests of Sir William Mulock at his farm on Lake Simcoe. Mr. Fleming is chairman of the executive committee of the Canadian collieries at Dunsuir, and has also large railway and mining interests in Brazil.

Col. McElnay was in Toronto yesterday en route from a trip across the lake to Ottawa.

Major-General Lessard is at the Chateau Frontenac, Quebec.

Sir John Willison has been in Ottawa this week.

The marriage took place very quietly last night of Mrs. M. C. Lorin to Mr. William Brymner, C.M.G., P.R.C.A., in Montreal.

Miss Helen White, Edmonton, is visiting Mrs. Wignmore, and later will stay with Mrs. Gooderham Mitchell.

Major Tom Anderson, M.C., has returned from England.

Miss Gordon is in town from New York, and is at the St. Regis.

Col. and Mrs. Gordon Morrison are in town from Saranac Lake. The former is returning to England soon, and then Mrs. Morrison will go back to Saranac Lake.

Miss Gladys Edwards, who has been in Toronto staying with Mrs. Thomas Morrison, returned to Niagara yesterday afternoon.

Capt. Joffis has returned from Saranac Lake.

Miss Laura Newman, who has been in Winnipeg for a year, has returned to town, and is en pension at Mrs. Leslie's, 66 Bloor street.

The Toronto Hunt met on Monday morning at Thorncliffe.

Mr. Dickson Paterson is in town from Montreal.

Lieut.-Col. Peuchen gave a garden party last week at his country house at Barrie.

The marriage took place very quietly yesterday in St. Michael's Cathedral, of Mr. Armand M. Heintzman, only son of Mr. and Mrs. Gerhard Heintzman, to Margaret Isobel, youngest daughter of the late Mr. Edward Foley. Mr. and Mrs. Heintzman left immediately after the ceremony on a motor trip to New York.

Mr. Gerald Ponton, Lieutenant C.E.F., and Mr. Frank Marshall, Lieutenant C.E.F., were in town from Ottawa for the week-end.

Mrs. Macdonald, Goderich, after her trip up the Saguenay and stay in Quebec, has remained in Toronto for a few days, the guest of Miss Nordheimer, Mr. Macdonald having returned to Goderich.

Mr. and Mrs. C. H. Eason have moved from Eberard avenue to 28 Bedford road.

Mr. and Mrs. Robert Walkie have bought the Misses Boulton's house in Cluny avenue.

The Misses Boulton, who have taken a house at St. 17, Yonge street, will be at their island in Muskoka until October.

Captain Pirie, C.A.M.C., who has been in the 3rd Canadian Base Hospital since its inception, has been moved to Moore Barracks Hospital.

Mrs. A. J. Magee, who was lately connected with the government vocational training of soldiers, is spending a few days in town.

Mrs. Colin Campbell leaves Winnipeg on Friday for Toronto.

Mr. Frank Hamilton, R.F.A., and Mrs. Hamilton are the guests of Mr. and Mrs. Wallace R. Campbell, Walkerville. Mr. Hamilton has returned from the front.

Dr. Garret Ellis-Brown and Captain Ponda, who have been several months in Toronto, leave this week for Washington, where Dr. Ellis-Brown's marriage to Miss Eleanor Kent Curtis will take place.

Mr. Shaughnessy, of the machine

gun section of the imperial cavalry, son of Mrs. Shaughnessy, Glen road, has been transferred to Harroby Camp, Grantham.

Mr. Frank Young, Lieutenant Royal Field Artillery, has arrived in Canada on leave and is with his parents, Mr. and Mrs. A. J. Young, Avenue road hill.

Mrs. Charles Fergie, Montreal, who is spending the summer in Halifax, gave a dinner at the Saragay Club recently.

Miss Kathleen Cloran, Ottawa, is spending a few weeks in Toronto with her aunt, Mrs. L. Stone. In the latest list of knightships appeared the name of William Watson, the distinguished English poet. Sir William and Lady Watson have two little daughters, the eldest Millicent Dorothy, being named after Millicent, Duchess of Sutherland, whose god-daughter she is. Lady Watson is a sister of Mrs. James Kennedy Clarke, Ladysmith, N. Y.

Mr. and Mrs. Peter Jack, who have been at the Wickhamack inn, Chester, are now motoring thru the Province of Nova Scotia.

Pictou, N.S., Sept. 12.—The marriage of Miss Constance Mary Macdonald, only daughter of Mr. E. M. Macdonald, M.P., and Mrs. Macdonald, to Mr. Lemire Terasatauroff, functionary of the special missions for the Russian ministry of finance, in the United States, was celebrated today at noon in Knox Church, Pictou.

The ceremony was conducted by Rev. A. W. Thompson, pastor of the church, assisted by General Sir Sam Hughes, Toronto, uncle of the bride, who was given away by her father. The guests were confined to the immediate members of the family, but the church was crowded.

Miss Macdonald was very popular at home and in Ottawa as evidenced by the large number of gifts she received from friends at home and abroad, including gifts from Sir Wilfrid Laurier, General Sir Sam Hughes, and many other parliamentarians.

Mr. and Mrs. Terasatauroff will reside in New York until the war is over. Mr. Terasatauroff occupies an important position as representative of Russia in financial matters on this continent.

A wedding took place at St. Joseph's Church on Tuesday morning, September 11. Rev. Dr. O'Leary officiating, when Mr. John Leonard Fahey was married to Clara Alberta, youngest daughter of Mr. and Mrs. F. A. Flint, 70 Montrose avenue, is visiting Mrs. R. G. Clement and Mrs. J. T. Farrell, Niagara Falls, Ont.

Mrs. A. A. Flint and Mrs. J. T. Farrell have returned from a motor trip to Buffalo and Rochester, N.Y.

WOMEN'S CLUBHOUSE SCHEME IS POPULAR

Would Form Centre for Branches Throughout Canada of Women's Business Club.

The proposition of Miss Wiseman to the Canadian Women's Business Club to work for the establishment of a residential club house which would not only be of value to the members, but should form a centre for branches all over Canada, is something that should commend itself to thousands of women in the city. Many projects for procuring a women's building have been launched from time to time and have failed, chiefly because no organization has been large enough to see the matter thru to a successful finish.

INCURABLE ILL.

So you say you no longer sleep of nights? Why don't you consult a doctor? It would do no good. It's not his fault that keeps me awake. It's the baby.

HOUSEHOLD HELPS FOR WINNING THE WAR

Herbert C. Hoover Appeals to Women for Food Conservation.

Mr. Herbert C. Hoover, Food Controller for the United States, with whom Hon. W. J. Hanna, Food Controller for Canada, is working in close harmony, has issued the following card of instructions to housewives:

Win the war by giving your own daily service. Our wheat harvest is far below normal. If each person weekly saves one pound of wheat flour, that means 150,000,000 more bushels of wheat for the allies to mix in their bread. This will help them to save in democracy.

Save the Wheat—One wheatless meal a day. Use corn meal, oatmeal, or barley bread, and non-wheat breakfast foods. Order bread twenty-four hours in advance, so your baker will not bake beyond his needs. Cut the loaf on the table and only as required. Use stale bread for cooking, toast, etc. Eat less cake and pastry.

Our wheat harvest is far below normal. If each person weekly saves one pound of wheat flour, that means 150,000,000 more bushels of wheat for the allies to mix in their bread. This will help them to save in democracy.

Save the Meat—Beef, mutton or pork not more than once daily. Use plenty vegetables and fish. At the post office.

HELP WIN THE WAR BY USING CORN

Kellogg's TOASTED CORN FLAKES

For breakfast, for that after-school hunger, for tea or Sunday supper, few dishes can be served with so little trouble or such wholesome, appetizing satisfaction as

Get the original—made from carefully selected southern sweet corn by a strictly Canadian Company in their up-to-date plant at London, Ontario.

Ask for the red, white and green package—the kind Canadian families have been buying for over eleven years. Refuse all substitutes.

ONLY MADE IN CANADA BY

The Battle Creek Toasted Corn Flake Co., Limited. Head Office and Factory: London, Ont.

Announcements

Notices of any character relating to future events, the purpose of which is the raising of money, are inserted in the advertising columns at 25 cents an advertisement.

Announcement for churches, societies, clubs or other organizations of future events, where the purpose is not the raising of money, may be inserted in this column at two cents a word, with a minimum of fifty cents for each insertion.

A MEETING to protest against the high price of coal combine will be held in Givens Street School at 8 o'clock to-night (Thursday). His Worship the Mayor and prominent speakers will attend. All welcome.

PREPARATIONS COMPLETE FOR BIG THRIFT DRIVE

Women Representing Food Controller Will Call at Every Home in City.

When the women go on their house-to-house campaign next week for the purpose of interesting every woman in Toronto to the conservation of food, they will likely have many difficulties to encounter in the way of making people understand their exact mission. The food controller, whom the women will represent is not asking that the public take upon themselves any great sacrifice. Fortunately no such need has yet arisen. He is only asking that we readjust our ideas somewhat as to the kind of food we use and instead of eating as much of the bread that has been our ordinary diet, that we substitute various kinds of brown bread and also eat beef and bacon less often than formerly. This, that the soldiers overseas may not want for these articles of food which are essential to their being "fit."

ORDER BLANK—TEAR OUT—MAIL TODAY

THE TORONTO WORLD, TORONTO, CANADA. Gentlemen: Enclosed find \$1.00, for which please ship me, all charges prepaid, one complete set of RIDPATH'S LIBRARY OF UNIVERSAL LITERATURE in 25 volumes, bound in Houghton Library, and I agree to pay the balance of \$27.00 at the rate of \$3.00 per month, beginning on the first day of the month following receipt of books. When I have paid for the library it becomes my property.

No Collectors to Annoy You

I understand that in order to economize in clerks and other collection expenses, the United Newspaper Association has consented to send out all notices of monthly dues and issue receipts therefor, and to whom I will make all future payments direct by mail.

Name..... Street..... Occupation..... Town..... I have lived here since..... (If under age, father, mother or guardian should sign this order). FOR CASH IN FULL WITH ORDER, DEDUCT 10 PER CENT. REMITTING \$25.20 ONLY.

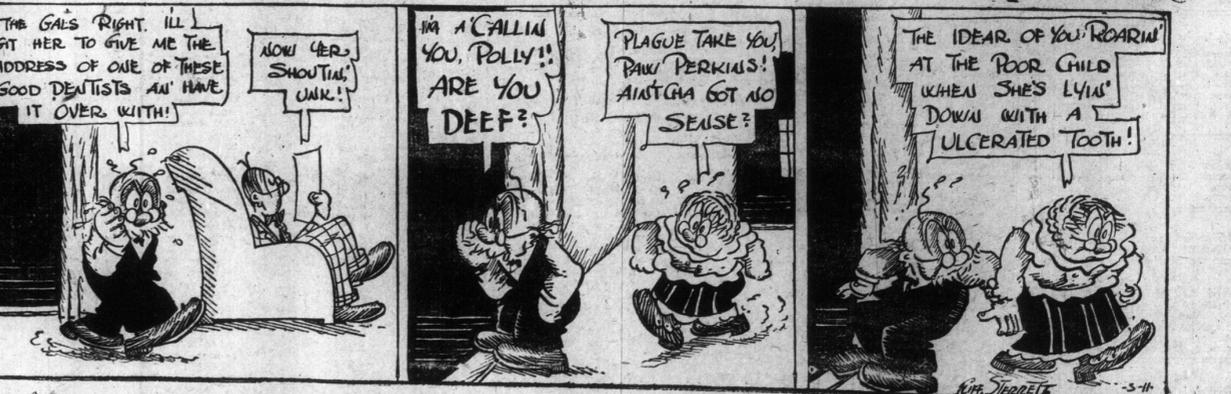

LEADERSHIP CONFERENCES

National Advisory Sunday School Committee Has New Scheme. The National Advisory Sunday School Committee, for co-operating in girls' work, are planning to hold four leadership conferences in Ontario. This committee is parallel to that on boys' work, formed by heads of Sunday school boards of Protestant churches, Ontario Sunday school associations, and of the Y.W.C.A. teen age department. Leadership in Sunday school work will be discussed, and the organization of "Canadian girls in training" explained. This program, a very simple beginning, lays emphasis on the all round development of the girl by Sunday school classes and special meetings. Remember when you wish to buy a piano or Victrola or Victor records, the most satisfactory shop is "The Victor Shop," 268 Yonge street. National Piano Company, Limited.

PAGE TWELVE
**EYES OF MINING WORLD
CENTRED ON KIRKLAND LAKE**

**Second Gold Camp of North Company Coming
Ahead With Great Strides.**

World Special Correspondent.
Kirkland Lake, Ont., Sept. 11.—This camp is about five years old. It is situated east of Swastika on the T. & N. O. Railway, 61 miles north of Cobalt. The oldest mine in the camp is the Tough-Oakes and for the present it is the only dividend payer. It is just six miles north-easterly from the railway station at Swastika. Its total production to the end of 1916 is \$1,384,808. This came from 69,574 tons of ore and a little calculation will show that values run almost \$20 per ton. In 1916 the mill treated 39,863 tons. The total value of this was \$711,525, and the value per ton \$17.58. The Kagan operation in 1916 by shipping 101 tons from which \$44,000 was obtained. This ore was carefully cobbled and it will be seen that values are \$43.50 over in places. The mine has paid \$265,750 in dividends.

Prior to the 4th of August, 1914, it had been arranged that this property should be amalgamated with the Burnside and also with the Sylvanite, both of which adjoin the Tough-Oakes, but the transaction has not been fully carried out and there is litigation pending in London, England and also here, and no doubt this has affected the progress of the mine and has in some measure affected the working costs.

Ore High Grade.
Eighty-five per cent. of the ore at the Tough-Oakes is hard felspar porphyry, and even the balance is not all quartz, a considerable portion of it being conglomerate and greywacke, and this condition prevails throughout the whole camp, and some of the veins have no cappings of sedimentary rocks. The fact is that there are practically no veins in the ordinary sense in this camp. There are impressions of the porphyry or what Dr. MacLaren calls lode formations, but the ore is of unusually high grade and in fairly large volume.

There have been three flows of the porphyry, only one of which is surficial. The lower porphyry is practically barren, and it is now proved that the Timiskaming series of sedimentary rocks represented here by conglomerate and greywacke have nothing to do with the presence of the gold.

The Wright-Hargraves, which adjoins the properties already named, appears to be entirely in the porphyry. At all events there is no contact to be seen, therefore the igneous and fragmental rocks. This is one of the big properties of the camp. There are "breaks" or lines of probable ore 1000 feet long on this property. It places the ore zones are nearly 15 feet wide.

The Lake Shore.
Coming still farther west and nearer to the railway we find the lake shore. In the old workings on the south side of Kirkland Lake there have about \$500,000 in ore blocked out above the 300 foot level, while under the lake at a depth of 200 feet some very high grade ore has been covered up within the past six months. Apparently the principal "break" or ore zone is under the lake and extends to a depth of 400 feet the Lake Shore and Wright-Hargraves will probably join in connecting their workings under the lake. The ore here will be fully 1200 feet long and judging by what can now be seen in the Lake Shore this will be a very profitable operation for both companies.

In continuing to trace the working properties from east to west we now arrive at the Kirkland Porphyry. This company is bounded on the east by the Lake Shore and the Miner, on the north by the Teck-Hughes, and on the

**OUTLOOK IS PROMISING
FOR HARGRAVES MINE**
Ore Shown in Three Faces—
Fleming Vein Fabulously Rich.

A private wire from Cobalt to Kieley, Smith & Amos says:
The Hargraves mine is looking promising. They have ore now in three faces and like other properties in Cobalt, have thousands of tons of ore broken that was waste rock two years ago and can now be milled at a substantial commercial profit.

The Ferguson Lake, we are informed, have abandoned their north workings and are at present concentrating the old lease. This territory is in the conglomerate geology and is adjacent to the Savage and Provincial mine and this undeveloped ground is looked upon as an important asset of the Ferguson Lake with every chance of developing rich ore bodies.

The famous Fleming vein on the Kerr Lake Property, in the conglomerate, just above the keowatin, contains a rich ore on the upper levels was always considered to be a low grade vein, but nearer the surface it has been proven in this contact, as is so often proven in this wonderful camp, the vein increases in strength and value. From one round shot from this vein recently, viz., about five feet of rock the company bagged three tons of ore that gave them 38,000 ounces of silver, which on today's price of the white metal would net them \$35,494.00.

The annual report which will be out in a few days will show over 3,000,000 ounces of silver in ore reserves and approximately \$2,000,000 in current assets. They are now breaking down ore over a stopping width of 75 feet.

**OPHIR BOUGHT ON
NEW DEVELOPMENTS**
One of the features of yesterday's trading was heavy buying of Ophir on orders attributed to the north. It is stated that this buying is inspired by results of late development and the expectation that the vein now being drifted upon at the 200-foot level will shortly yield high-grade values.

west by the Kirkland Lake, locally known as the Beaver. Harry Cecil, the veteran mining operator, is president and general manager, and he is quite perked up in consequence of the success already attained. From a shaft not quite 50 feet deep, free gold is now coming to the surface with every bucket, and this property is certainly on the line of the greatest mineralization we now know to exist.

At Teck-Hughes.
The Teck-Hughes seems to be situated rather far to the north, and its ore is not equal in grade to that of some of the other properties, but nevertheless it is making good.

On the Kirkland Lake there is one ore sheet seven feet wide carrying values of over \$48 per ton, and there are others over 40 feet wide in places with values up to \$3.25 over in whole width.

The Timiskaming Mine were not well advised in declining an interest in this property. Big mines are hard to find, and many years may pass before such a favorable opportunity again comes their way.

The shaft is now down to the 700-foot level, and the big ore zone is now being cut at that depth. A new dining camp capable of accommodating 200 men is now nearing completion, and all operations are being advanced on an extensive scale.

Shaft Deepened.
The Elliot-Kirkland adjoins the Kirkland Lake on the west. The shaft is now down 230 feet and it will be continued to depth of 320 feet. This property is owned by the Seneca-Superior of Cobalt. It is well situated, but the land is swampy in the vicinity of the shaft and there is no outcrop of importance to be seen. A cross cut will, however, likely intersect an ore zone on the south as well as on the north.

If we take six miles as the total length the anticline belt then the United Kirkland lies about midway. It is the most westerly property of importance now working.

The management is also sending out the dump is being added to almost as fast as it is being emptied. There is a ready market for cobalt, which averages around 150 a pound. The management is keeping a force of men busy cleaning down some of the old pillars and stopes in the No. 1 shaft, getting out rock which was left from the old days when it was used for handlings, as dollar silver is more profitable than 55c silver.

The management is also sending out the dump is being added to almost as fast as it is being emptied. There is a ready market for cobalt, which averages around 150 a pound. **U. S. ENGINEER
MOST PAINSTAKING
Making Study of Conditions of
Northern Mines.**

World Special Correspondent.
Timmins, Ont., Sept. 11.—After spending four days at Kirkland Lake, Hamilton W. Baker, E.M., of Alderson, Baker & Baker, consulting mining engineers, Boston, Mass., arrived here on the 8th instant. He has since devoted himself to a very careful study of the ore deposits and mining and milling conditions in the camp. He is unusually painstaking in his investigations, and not only examines properties above and below ground, but also enquires into the methods of mining and milling and the costs thereof in detail. He even seeks information as to the price paid for the property and as to all other factors which may in any way make for success or failure.

One cannot help being struck with the great difference between this practice and that of some pencil pushers who are wont to make extravagant pronouncements as to the value of mines on data gathered wholly within the limited confines of their own offices. There is much to be learned in the mining game, and paradoxical as it may seem, the more one really knows the less confident he becomes.

KERR LAKE PRODUCTION.
Kerr Lake Mining Company produced 200,826 ounces of silver in August. This compares with 189,392 ounces in July, 251,367 in June, and with an average of 215,600 for the twelve months ended August 31.

Mr. Baker is a native of Pennsylvania. His brother and partner, John M. Baker, is a graduate of the University of Pennsylvania, and both gentlemen have had extensive experience in the Western States and elsewhere.

Showing progress in the construction of the new mill unit at the Schumacher, which is generally regarded as one of the "comers" in Porcupine.

**DEVELOPMENT GOING
ON AT HARGRAVES**

High Silver Permits of Profitable Treatment of Low-Grade Ore.

Cobalt, Sept. 12.—The rapidly rising prices of silver are creating a big stir in Cobalt, and labor is coming in here in better supply, attracted by the high wages which are dictated by the bonus system resting on the price of silver in the market. The company management report much better labor conditions, not only from the standpoint of the tempo of the men, but the available numbers of men in all departments of mining.

Silver conditions are bringing into the limelight the junior companies of the camp headed by Hargraves, Adanac and Gifford. The Hargraves management is going right along with 25 or 30 people working. The area has been very fortunate in holding its labor organization together since resumption last November.

The shaft is now down to the 700-foot level of the No. 1 shaft, where drifting is being run north and south in the camp. A small bunch of ore at this level. In the No. 3 shaft the management is driving an upraise from the 375-foot level, where the shaft is bottomed, to the 255.

The indications in this section of the mine shaft being opened up. Manager Shaw is thinking of putting in another machine on stoping on the 375 level where there is a promising ore body. The vein assays about 10 per cent. cobalt and runs 25 ounces of silver. The cobalt in the vein will pay for the development work, and there is an excellent chance at any time of running into a big tonnage of high-grade ore.

The Hargraves interests expect to make another profitable shipment this fall, and this is being applied to the No. 1 shaft, running about 1800 ounces, helps towards getting this shipment together. The company has made some big strikes this year. The first was in February on the 75-foot level, running 4000 ounces in the conglomerate. Later another strike was made on the same level, and still later—last May—near the Kerr Lake line on the same level, there was one and a half tons of ore taken out, running 2000 ounces to the ton.

**U. S. ENGINEER
MOST PAINSTAKING
Making Study of Conditions of
Northern Mines.**

World Special Correspondent.
Timmins, Ont., Sept. 11.—After spending four days at Kirkland Lake, Hamilton W. Baker, E.M., of Alderson, Baker & Baker, consulting mining engineers, Boston, Mass., arrived here on the 8th instant. He has since devoted himself to a very careful study of the ore deposits and mining and milling conditions in the camp. He is unusually painstaking in his investigations, and not only examines properties above and below ground, but also enquires into the methods of mining and milling and the costs thereof in detail. He even seeks information as to the price paid for the property and as to all other factors which may in any way make for success or failure.

One cannot help being struck with the great difference between this practice and that of some pencil pushers who are wont to make extravagant pronouncements as to the value of mines on data gathered wholly within the limited confines of their own offices. There is much to be learned in the mining game, and paradoxical as it may seem, the more one really knows the less confident he becomes.

**RICH ORE BODY
AT HOLLINGER**

**In Entirely New Ground—
Will Be Opened Up
This Year.**

World Special Correspondent.
Timmins, Sept. 12.—There is an excellent reason for the recent advance in the value of the shares of the Hollinger Consolidated. This has been heretofore a surprising property. In 1909, who could have foreseen the fact that in the northern wilderness there would be in a few years the greatest gold mine in the world? But the repertoire of surprises in connection with this wonderful property is not as yet by any means exhausted. In fact, during the present year there will be fully opened up one of the greatest ore bodies ever found on this great property, and it is in ground entirely new and heretofore unknown—ground also which on the surface gives no indication of the remarkable values beneath. At a depth of 300 feet an ore deposit has been met with which carries \$10.50 in gold over the enormous width of 65 feet. At 300 feet in depth the same wealth and values obtain. This is indeed a world's record, when considered in connection with the fact that the Hollinger property and the unusual production of gold to date.

The directors of the Hollinger Consolidated are most astute in their selection of the Hollinger property. Veins twelve to fourteen feet wide, carrying normal values, full to arouse any particular interest. They are of a nature that they have heretofore been burning more than is actually necessary. Nature has been a prodigal and the management the highest efficiency in mining and milling are not now to be looked for. The mine will stand the strain of labor shortages and of overhead charges which would paralyze any ordinary property. But after the reveal, it is now reasonably certain that the mine will be far the greatest profit maker in the world.

**MINING CORPORATION
IN STRONG POSITION
High Price of Silver of Greatest
Benefit.**

The stock of the Canadian Mining Corporation is shortly to be listed on the Standard Stock Exchange. The par value of the company's share is \$5, and until a short time ago a large amount of the capital was held in England, but owing to the exigencies of the war more of the stock has been transferred to Canadian holders. The Mining Corporation is the largest silver producer in Cobalt, and for the past two years the largest producer of the white metal in the world. For the first seven months of the present year the net returns to the company have been about \$1,700,000, which is a record for the same period of last year. Perhaps no other mining company is so strongly entrenched in cash assets as is the Mining Corporation. These are estimated at over \$6,000,000 at the present time. Dividends of 15 per cent. a year are now paid by the company, and it will necessitate the payment of bonuses as has been the case this week by Nipissing. Brokers are looking for an active market in the shares as soon as they are listed. Recently \$4.25 a share has been bid for the stock, but no sales have been reported at this figure.

**TALK OF HOLLINGER
RESUMING DIVIDENDS**

According to Kieley, Smith and Amos the recent developments on the Hollinger have demonstrated that the ore at depth is consistently higher grade than any bodies of ore on the upper levels, and the mill is fast being brought to its capacity, chiefly with ore from development.

The return of harvesters and the closing down of many munition plants has resulted in the return of hundreds of miners who were attracted to the factories by the high rate of wage that was being paid. It is more than possible that Hollinger will be placed on a regular dividend basis again by the end of the year.

The Casey-Cobalt has decided to erect new mine buildings that were wiped out by the disastrous fire last year. Mr. William Berry, contractor, of Halesbury, began this morning with a gang of carpenters to erect the new buildings. We are informed the company has decided to erect a new mill. Developments during the past year have opened new ore bodies and they now have sufficient tonnage to warrant these heavy expenditures.

ISBELL PLANT
Mining Talks

**Dollar Silver's
Big Boom**

It's a case of stopping the press to move up prices of silver day by day. The prices are getting into the upper registers. The familiar illustration of "leaps and bounds" applies to the advancing quotations of the white metal, which jump 1c and 2c an ounce almost day by day of late.

Yesterday's quotation was 98 3/4c and an established price of \$1 an ounce is now practically a reality. Sundry sales have been made at even more than \$1 an ounce recently, and Pacific coast prices today are at a premium above \$1. It will be remembered that the differential between the New York market and that of the Pacific coast is a matter of 2c or 3c an ounce, and this must be taken into account when calculating San Francisco, Seattle and Vancouver prices as compared with those of the Eastern markets. While silver has been selling in New York above 98c, sales have been registered in Vancouver up to \$1.02. The Tonopah Mining Company reports through Philadelphia a sale of 200,000 ounces of silver at over \$1 an ounce, this being presumably at the Pacific coast end.

Leading authorities are now freely predicting that silver will go to \$1.29 an ounce, placing the metal on a parity with gold. While the present selling price of silver carries up back to 1886 for a precedent, when silver averaged 99 3/4c an ounce, silver selling at a parity with gold—\$1.29 an ounce—carries us back to the year of demonetization—1873—when the average price was \$1.298 an ounce. After demonetization it must be admitted that the price of silver held very firmly for 18 years, or until 1891. The years 1874 and 1875 recorded only slight decreases, the latter year the metal holding at an average price of \$1.246. For the next 10 years—1876-1885, inclusive—silver held above \$1 an ounce. The first break under \$1 came in 1886, when it sold at 99 3/4c. From this time on silver slowly tobogganed until a low average annual figure of 49.7c was reached in 1915. The lowest price for silver was touched just two years ago—September, 1915—when it reached 46 3/4c.

The remonetization of silver can only be made permanent by the decree of all the governments, but it is claimed by some that conditions are now such in Europe that the remonetization of the metal will benefit more that country than on this side.

The solid and steady strength of the metal at the high altitude prices reached is said to be due to persistent, though quiet, buying by the various governments, realizing that they must supply themselves with silver for coinage purposes to meet the demands of their soldiery. It is argued that so far from the close of the war relieving the silver tension, it will simply be renewed, and in this respect the silver outlook will be different from that of other metals, such as copper, spelter, steel, etc. Already the heads of the United States Mints are calling a meeting in the West to determine problems of increasing silver mining capacity, which is already being fully utilized.

The countries at war realize that their silver requirements must necessarily be enormous, and it is nothing more than good business to use foresight and make preparation for these requirements by laying in supplies as rapidly as possible without inflating prices. After the war armies will have to be paid off, reconstruction must be attended to, and the nations formerly at war will be fighting for markets for their products in other countries, the chief populations of which are on a silver basis.

It is said that the European nations are already looking with more favor on the remonetization of silver than are Canada and the United States.

The silver congestion is causing New York to make a fight against London for control of the silver market. London has been the silver market of the world. New York and San Francisco have been taking London prices, less freight, insurance, etc., as the basis for their markets. But war conditions, with submarine menace, heavy insurance tolls, increased freight charges, etc., have been diverting shipping destinations from London directly to the Far East via the Pacific. The last effort of London to hold control of the silver market was through making a rule to restrict gold and silver imports to India. This action seems to have had no real effect. After a temporary reaction in the silver market, prices recovered, and with it the fact has been brought out in bold relief that the control of the silver market is slipping by degrees from London bankers. A few years ago New York made the same fight to get control of the copper market, which had formerly been dictated by London, and succeeded. Today we no longer have G. M. B. quotations sent out from London as ruling the world's copper markets. New York is the clearing house of copper quotations. It is now striving for the same degree of control of silver quotations. New York is not yet in control of silver markets, which still follow London quotations, but it is keeping up the fight to get white metal control, encouraged by its successes by having gotten control of the copper market.

The new high prices for silver are revitalizing Cobalt and the northern camps generally; both gold and silver are acting sympathetically with the boom. The labor difficulties of the spring and early summer have disappeared, and the high wages, adjusted by the bonus system, based on silver quotations, are attracting labor into Cobalt. Some of the displaced munition workers will presumably find their way into these camps, where the pay is very attractive. Gold mine operators are bidding high in the market for labor also, finding it necessary to meet competitive conditions.

Dollar silver is already directing attention to the possibilities of finding sources of white metal production in the silver areas around Cobalt, such as South Lorrain, Gowganda, Elk Lake and other sections. Such distinguished mining engineers and geologists as Messrs. A. A. Cole, the government expert of the Timiskaming & Northern Ontario Railway, and A. R. Whitman, of Cobalt, the specialist on silver geology, have publicly expressed their confidence in silver discoveries of importance being made in the north outside of Cobalt.

The South Lorrain camp, nearest to Cobalt, claims first attention under the new order of things. The Pittsburgh-Lorrain interests, which have been operating consistently for the past four years, have taken over the Wettlaufer mill and are getting ready to mill ore and to make shipments of concentrates and high-grade ore to the smelter during the fall. Belle-Ellen, which probably ranks next to Wettlaufer in its production of gold, is being consistently developed at depth. We understand that arrangements are progressing for resumption at Lorrain Consolidated, with ample financial provision for the needs of the management, which suspended operations just at the time its underground prospects were at their best and the silver market was offering the biggest incentives in a generation to development and production.

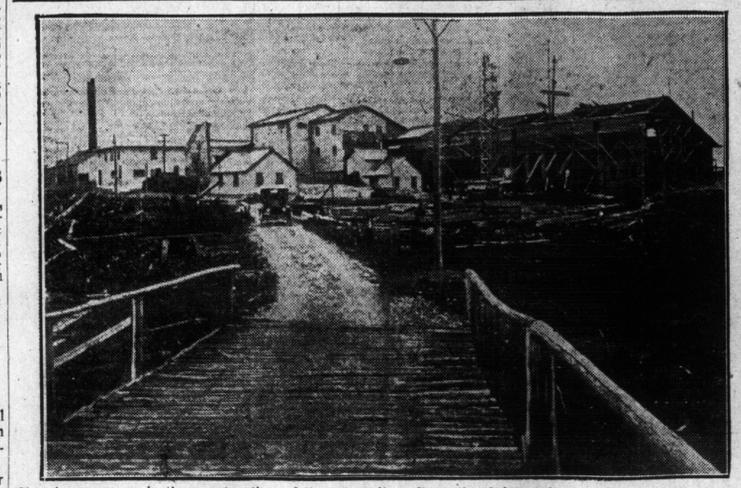

Gowganda has always been under a great handicap of remoteness from transportation, but notwithstanding this has developed three or four properties which have substantial records of production and profits. And at the same time Cobalt itself is having a rebirth. The high silver prices are causing exploration to be carried on in the conglomerate territory, which has been the chief source of production, and also in the keowatin and diabase. Kerr Lake's No. 3 vein, which has been mined both by Kerr Lake and Hargraves, and has yielded millions of ounces of silver, is in the diabase formation. Hargraves, Adanac, Gifford and other development propositions in Cobalt are coming along rapidly. Hargraves has made a remarkable record for steady earnings and spectacular ore since last November, when it was reopened, following a three-year shut-down.

The big Cobalt producers, such as Nipissing, which this week declared an extra dividend; Kerr Lake, the biggest little silver mine in the world; McKimley-Darragh, which has just cut a new ore body at the 400 level; Beaver, which is one of the best 1 1/2 ups in the list, because of its own resources and on account of its rich holdings in Kirkland Lake, where its life of productiveness will be lengthened by the Kirkland Lake property, as Crown Reserve's life was lengthened by acquiring Porcupine Crown; Timiskaming, which will mine "positive" ore, as stated by the last engineer's report, to the amount of 400,000 ounces and will then doubtless mine another 400,000 of "probable" ore, and after that 200,000 or 400,000 of "possible" ore; Conlags and the rest—these are all special beneficiaries of high silver prices and are putting forth every ounce of effort to get every ounce of silver they can. Oil flotation is saving them two ounces to the ton, and two ounces now mean in the neighborhood of \$2.

We invite correspondence on the subject of silver securities and will undertake to make up for inquirers good combination lists of investment and speculative issues which should give the best results, according to the desires of the purchaser. We will send the special silver edition of the "Canadian Mining News"—out Friday, September 14—to all who write us for same. It will be the biggest silver edition published to date.

TRADING WAS DULL AND PRICES HEAVY MINES HELD WELL UNDER PRESSURE

Another Day of Light Business on Toronto Exchange, With Easier Quotations. In only four of the listed stocks on the Toronto Stock Exchange yesterday were fully bound orders of 25 shares or more executed. The total transactions were insignificant, and any movement was again paralyzed by renewed liquidation on Wall Street. It is certain that any volume of offerings at the present time of prices whose values are gauged rather by the market quotations than assets would mean materially lower prices, and especially so if no inside support was tendered. Articles are appearing in the large returns that can be had on such stocks as a kind of prospectus. If these dividends would be paid, the stocks would not be selling at the prices that are being asked. The truth is that the heavy dividends on super-profits stocks are gone and sellers of the shares are acting accordingly. The market situation will ultimately be determined, and in the meantime correct prices will be paid for those who are out of the market will make money by staying out, unless they confine themselves to dividend-paying stocks of recognized merit.

STOCKS STILL FALL FROM WEAKNESS

Disturbances in Russia Play Considerable Part in Decline. New York, Sept. 12.—A wave of selling in which high-grade railroads and industrial figures conspicuously, brought about a sharp and general decline in stocks today. Trading increased substantially, the total sales amounting to \$140,000,000. Although there was no outstanding feature of the situation as accounting for the weakness displayed by the market, the disturbances in Russia played a considerable part in shaping sentiment. Russian bonds suffered a further relapse abruptly after a late recovery to 144 1/2, compared with about 142 1/2 in normal times. There were few traders operating confidently, and with little opposition most of the day. In the last hour the list retreated sharply, regaining a considerable amount of the ground lost. Selling was heaviest in steel, which was down 1/2 to 1 1/4. Changes in the price of wheat, forcing down the price of flour, were another feature of the day. Further weakness appeared in the market, and the list closed lower. Duwara and Hudson, Louisville, Canadian Pacific and St. Paul were among the stocks that were sold. Total sales, par value, \$137,500,000. Liberty bonds were unchanged on 98.88. United States bonds were unchanged on call.

Shipments—Yesterday 1,494,000, Week 1,494,000. Carried forward—\$99,725. The balance sheet of the consolidated companies, the Spanish Silver and Lake Superior Paper Company, shows current assets of \$5,700,000 and current liabilities amounting to \$2,274,000. Depreciation charges of \$517,328 were written off in addition to \$103,244 for miscellaneous reserves.

MONTEAL EXCHANGE. Montreal, Sept. 12.—A renewal of recent weakness in the New York market brought in a little selling of Canadian stocks today, but business expanded slightly from the record volume of the previous day with prices slightly higher in most directions. A fair demand sprang up for Ontario Steel Products and that issue rose 1/4 to 99, a new record price, and closed at the best. The steel stocks, Canada Steamship, Civil Power and Smelters, the bulk of what little selling came on the market. Iron fell back to 10 1/2, lower at 5 1/2, recovered half the loss. Smelters 1/2 bid; Smelters 1/2 lower at 27 1/2 at one time, closed 27 1/2. Civic was off 1/2 to 10 1/2. Other changes in the market to attract attention were a decline of 1/2 in Shawinigan, which sold at 10 1/2, and a decline of 1/2 in Steel Canada, preferred, which sold at 8 1/2, both new low prices for the day. The steel stocks were well maintained, and the market was steady, except for a slight weakening in the 10 1/2 issue, small lots of which sold at 10 1/2. Total business for the day was 1270 shares, \$53,000, some ten mining shares.

COTTON LETTER. J. P. Bickell & Co. report: After a good opening with prices moderately higher, a selling wave developed that brought about a serious decline. The reasons for the selling are largely outside of the cotton situation itself, being based mainly on weakness in stocks and a general pessimistic feeling which has been developing since the outbreak of the war. The immediate future will depend on the development of the tropical storms.

LONDON STOCK MARKET. London, Sept. 12.—The stock market was steady today, but with prices generally lower than on the previous day. The Russian situation is obscure, Russian bonds and oil shares were easy and Argentine rails flat on poor traffic returns. Oil-seed securities and colonial bonds were well maintained, and oil rubber stocks and a few specialties in the mining section were active and dearer. Chinese bonds were firm with silver. Money was in better demand and discounts were steady. Russian exchange jumped to 450 early, but later declined to 370.

SPANISH RIVER ANNUAL. The annual statement of the Spanish River Pulp and Paper Mills for the year ending June 30, 1917, shows an increase in net revenue of approximately \$775,000 from the previous year. The increase, which, according to the president, was due to the higher prices for news print and to greater efficiency in operations. The income account summarized is as follows: Total net income \$2,117,734. Less depreciation 269,821. Less interest on funded debt 719,400. Net surplus \$1,128,513. Balance at profit and loss \$899,631. June 30 1917 \$899,631. Appropriations to deficiency account 835,899. Carried forward \$63,732. The balance sheet of the consolidated companies, the Spanish Silver and Lake Superior Paper Company, shows current assets of \$5,700,000 and current liabilities amounting to \$2,274,000. Depreciation charges of \$517,328 were written off in addition to \$103,244 for miscellaneous reserves.

ITALIANS CHECK Foe ON SAN GABRIELE

Desperate Attempt of Austrians Fail to Secure Crest. Rome, Sept. 12.—The Austrians yesterday made an extremely desperate effort to drive the Italians from the positions they occupy along the crest of Monte San Gabriele, northeast of Gorizia. The battle lasted from dawn until nearly noon, when the Austrians, having failed to capture the crest, were defeated in the struggle, gave up the crest, and the war office announced today. The statement reads: "The enemy yesterday made various attacks, which were at once repulsed. The Austrians were then driven back to their original positions. The battle was a tactical one, and the Austrians were defeated. The Italian forces were victorious and held the crest of Monte San Gabriele."

Simpson's Great Two-Days' Sale of Boys' Better Class Clothing Starts Today

Ends Friday at 5.30 p.m.

Here are six items with which to begin the sale. Each one is offered for today at so unusual a saving that you cannot afford to miss them. However, the chief point concerning these six lines of boys' clothing that we want you to remember is that these are all high-grade goods, dependable materials, and perfectly made---clothing that no parents need be ashamed to let their boys wear.

Boys' Fall Overcoats, \$5.95

150 coats that are well-tailored from imported Donegal and English tweeds, in rich greys and browns, showing neat patterns; slip-on and pinch-back styles. Sizes 25 to 35, ages 7 to 17 years. Sale special at **5.95**

English Tweed Raincoats, \$8.95

135 of our finest imported Tweed Raincoats, in rich shades of greys and browns, with big check linings. These coats are warm and perfectly rainproof. Slip-on styles with convertible collars, full length. Sizes 26 to 36, ages 8 to 18 years. Dollars less than their value. Sale price **8.95**

Boys' English Tweed Suits, \$4.85

Smartly tailored from neatly woven tweeds, in dark greys and browns, also dark olive browns, showing neat stripe patterns. Ideal school suits that will stand hard wear. Single-breasted yoke styles, with box pleats to belt at waist, and full-cut bloomers. Sizes 25 to 33, ages 7 to 15 years. Sale price **4.85**

Sale of Fine Serge Reefers

125 Fine Blue Serge Reefers, in double-breasted styles, with gold-plated buttons and emblem on sleeves. Styles are suitable for girls or boys. Splendid value. Sizes 26 to 33, ages 8 to 15 years. Remarkable saving on every one. Sale price **5.85**

Boys' Tweed Bloomers at 95c

Odd Bloomers of strong English tweed, full-cut styles, with belt loops and straps, with buckle at bottom. Made from dark grey and brown tweeds in neat patterns. Sizes 6 to 16 years. Sale price **95c**

Blue Serge Suits, \$6.95

100 Imported English Navy Blue Serge Suits, in single-breasted yoke Norfolk and pinch-back styles, with full-cut bloomers. Splendidly tailored and we guarantee the colors. For ages 6 to 12 years. Extraordinary sale special, at **6.95**

Big Value in Men's Shirts

Negligee Shirts, made from good quality shirting materials, in a large variety of striped patterns; light and dark grounds; a separate collar to match with each shirt; soft French cuffs, and laundered neck-band. Sizes 14 to 16½. On sale today at the special price of... **.79**

Other Furnishings

Men's Flannellette Nightrobes

Fine, soft English cloth, with striped patterns; extra length; wide cut, turn-down collar; sizes 14 to 18. Today, special price **1.00**

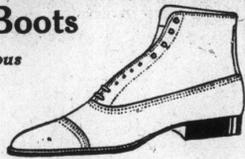

Men's Fleece-Lined Underwear

For fall and winter; soft, downy, fleecelined; natural shade; shirts and drawers; sizes 34 to 42. Today, per garment, special at **.75**

Includes the Famous

"Victor Gold Medal"

The increasing popularity of the "Victor" Boots has convinced us that there is a growing demand among the men of Toronto for high-grade footwear. This fall we have included in our range the "Victor Gold Medal" brand. It includes all the best features that a good boot should possess.

"Victor Gold Medal" Baby Kangaroo

It is a straight lace boot, made of baby kangaroo, on Earl last, with tip, highest grade of English oak, tanned soles, medium heel; a suitable boot for men of all ages. Widths A to D. Sizes 6 to 10. Per pair **14.00**

Women's Boot Special

Women's Boots, button or lace style, in gunmetal, patent colt and dongola kid leathers, with dull calf and black kid tops; Goodyear welt and McKay-sewn soles. All sizes 2½ to 7. Regular \$4.00 and \$4.50 values. Per pair **2.95**

Two Specials for Today

Semi-Indirect Fixtures, as illustrated, including 10-inch white moulded bowl **5.50**

Art Glass Domes, like illustration, with fringe and overlaid ornament **18.70**

Other Art Glass Domes, **\$13.00** and **\$13.70**. Special 6-room outfits **18.75**

Hosts of Artistic Wall Paper To Benefit Your Home

Estimates Furnished Free of Charge. Our paperhangers and painters will do your work to your satisfaction. Phone 4141, 7641, Wall Paper Dept., for Estimator.

Suggestions for Living-rooms

Imported Tapestry Papers, foliage and scenic subjects, colored in new buff, grey and neutral tones, with other shades of brown, greens and old blues intermingled. These papers have a distinctive charm and lend themselves to tasteful decorating. Prices range at 35c, 50c, 85c and \$1.25.

Attractive Bedroom Papers

Chintz and Cretonne Papers are very popular, and they do make sweet and dainty rooms. New English designs in complete range of colorings. Many of these quaint styles have birds perched among the flowers. Large selections at 35c and 50c single roll.

Sanitas—Washable Wall Covering

For kitchens and bathrooms, new designs, including block and tile patterns, with figures in blue, green and brown. 48 inches wide. Per yard **.30**

Nursery Papers

"John Gipsy" and "Nursery Rhymes" Papers, showing literary prints, clear-cut and extra well made; 21 inches wide. Per roll **.50**

New Curtain Materials

Imported Bungalow Nets In this much wanted curtain material the range comprises nets suitable for every requirement, from the inexpensive yet durable qualities for use in kitchens and bedrooms up to the finest flax and fancy weaves appropriate for parlors and living-rooms. Conventions white, ivory and ecru in each of different varieties. 16c to \$1.65 yard.

Scrims and Marquisettes

To those who prefer something plain on their windows our new scrims and marquisettes will appeal very strongly. Every season brings new styles, and those we have just opened up are extremely effective, some having double fancy borders in lace effect and others with durable lace edging, which are so easily made into popular sill length. 16c to \$1.45 yard.

Scotch Madras Muslin

Made in Glasgow, Scotland, madras muslin is one of the best wearing of all curtain goods, besides which it drapes softly and it is no trouble to launder, requiring neither starching nor ironing. The new designs are really most charming and include the daintiest of floral patterns and finest conventions effects in both white and ivory, while for side drapes there are some lovely self-colored muslins in rose, blue and fawn. Per yard, 26c to \$1.25.

Bag Lengths of Lovely Chintzes, 25c to \$1.50 Each

We have gathered together on a large table a wonderful assortment of short ends of chintzes, measuring from ¼ to 1¼ yards in length, suitable for making linings or sewing bags, which are so much in demand at the present time. Practically every color is included, and the range is so large that choosing will be a pleasant task.

The Register Will Close on Saturday Join the Home-lovers' Club Today

The Home-lovers' Club will receive applications for membership only three more days this season. Responsible persons who wish to buy furniture, rugs and draperies, and enjoy the privilege of deferred payments in addition to the Simpson low cash prices, are advised to make application at once.

Club members do not pay for this convenience in any shape or form; it is purely a store help to responsible people of moderate means who may not be able to pay all cash for their furnishings just when they are needed.
