DRURY RENOUNCES **LAURIER TRADITION** HE TELLS HOUSE

Explains How He Broke With Old Liberal Chieftain.

0.T.A. NOT SUCCESS

Premier Drury and Major Tolmie were the headliners in yesterday's contribution to the debate on the address in the legislature. The premier's outstanding statement was his personal renunciation of the Laurier tradition. This came in the way of confession and avoidance of the double-headed reminder last week from the leaders of the Liberal and Conservative groups that he had been an out and out Liberal up to the time he mounted the U.F.O. platform.

Mr. Drury cited a letter he had made public during his candidature in Simcoe, disclaiming personal knowledge of Sir Wilfrid Laurier's en-dorsement and breaking with the Liberal leader upon the issue of mili-

The bulk of Mr. Drury's speech, familiar in the main, recalled the spirit of all his later public utterances. He threw out the suggestion that the importance of party pledges is passing from popular conscious-ness; that the party caucus may presently decline also; and the entire legislature develop the nature of a collective assembly, animated only by the desire to legislate in the interests of the whole people. He admitted, however, that his hopes had been somewhat chastened by the party addresses heard last week from the members for Southwest Toronto and

EARLSCOURT FORMS **NAVY LEAGUE BRANCH**

An Eariscourt branch of the Navy League was organized last night at a meeting held at the Royal George Theatre. Rev. S. Boal, chaplain to the league, outlined the object of the work and the following were appointed officers: J. R. MacNicol, chairman; G. P. Richardson, vice-chairman; H. Parfrey, secretary, and C. E. Johnson, treasurer.

The following were appointed an executive committee: J. A. McCuloch, H. Parfrey, C. E. Johnson, C. Wills, W. M. Maltby, Rev. A. J. Reid, Reg. A. Everett, Reeve F. H. Miller, J. J. Noad, T. R. Snary.

The newly-appointed chairman addressed the new members and said he hoped that the greatest good would result from the founding of this branch—Eariscourt deserved it for its work in the war.

The committee will call an early meeting and begin work at once. It was arranged to held a memorial meeting on the anniversary of the Jutland battle, May 31, when the Navy League will lend its assistance with naval men and boys. The name decided upon at last night's meeting was "The Eariscourt Branch of the Navy League," and twelve of those present signed the charter as first members of the league, and were presented with buttons by Chaplain Boal. A vote of thanks was passed to J. A. McCulloch for the loan of the Royal George.

The wedding is announced of Miss Evelyn Miller and W. H. Lewis, both of Earlscourt, who were married yesterday at the home of the bride's father, 1967 Dufferin street, by Rev. H. R. Young, rector of St. Hilda's, Fairbank. Rose Miller played the wedding march and Dora Miller was bridesmaid—both sisters of the bride, Fred. Lewis was best man, After a honeymoon trip to London, Ont, the couple will reside in Earlscourt.

MIGHT SERVE TO KILL MOUNT PLEASANT LINE

An omission in Toronto's transportation bill has been found that, if passed by the legislature in its present wording, may serve to kill the Mount Pleasant civic car line project and other civic car

civic car line project and other civic car lines, until 1921.

It was intended by the city council that they should have control of the civic lines until 1921, when they would be handed over to a transportation commission. This fact, however, is not given effect to in the bill as prepared by the city solicitor's department.

If this bill passes, it takes from the council the right to construct any further car lines between now and 1921 including

NEW BETHANY CHURCH.

The new Bethany Baptist Church, Todmorden, which is to be erected at an early date, on the site secured on the scutheast corner of Bee street and Pape avenue, will cost in the neighborhood of \$16,000, according to the statement of a prominent official of the church.

In connection with the completion of the several groups of houses contemplated for the benefit of the employees and others desiring to reside in Leaside, active preparations are now under way for an early start in construction work. Car loads of brick are being delivered by the C. P. R. and are stacked on the company's stiding and on the sites of the proposed buildings on Rumsey road and other streets. Considerable activity prevails at the C.N.R. plant and a number of additional men were taken on at the various shops during the past few days.

SHIPPERS BATTLE

Over Rule of Non-Prepayment of Freight for United States · Points.

CASE BEFORE COMMISSION

Shortly after 7 e'clock last night fire broke out in a frame house occupied by J. Dixen, about 1900 feet beyond the Humber bridge, and despute the best efforts of the neighbors, was burned to the ground with practically all the contents. Superintendent Deedie of the Surburban Railway telephoned the city fire department, and the Cowan avenue chemical motor truck was sent out. By this time two large trolley poles, carrying the feed wires for all the suburban service west to Port Credit, were ablaze, and the trolley service at a standstill.

A good deal of diffuculty was experienced in saving the Humber Beach Inn. Mr. Dixon's loss will be heavy on the contents. Ottawa, March 16 .- (By Canadian Press) - The battle between Canadian shippers and Canadian railways over the regulation whereby the latter have instructed their agents to refuse prepayment on freight consigned to points in the United States, was opened this morning before the railway commission. Before the hearing had been long in progress it became evi-dent that Chief Commissioner Frank B. Carvell was far from being satisfied that the railways were not justified in taking the ground that they should not be called upon to suffer by reason of the adverse exchange conditions now prevailing for Canadian money in the United States. He informed the counsel and representatives of boards of trade and manufacturers that the board had conferred with representa-tives of the railways a short time ago in an effort to find out what their attitude was, and to arrive, if possible,

The fortnightly meeting of the Harwood Ratepayers' Association, held in Harwood Presbyterian Church parfors on Monday evening, was well attended, President Parker in the chair, with Vice-Chairman Edgar Baillie and Secretary Morgan in attendance. The big need of the Harwood section is for better school accommodation, and much of the discussion of the evening centred around this subject. Trustee Duncan of S.S. No. 28 was present and gave a lot of valuable information as to the best methods to be adopted to get the matter under way. It is charged that the children attending school from the Harwood district are not alone compelled to go over a dangerous highway, but the distance is altogether too far. at some solution of the difficulty.

Doubts Powers. This discussion had left him with the impression that the commission could hardly interfere unless those interested in the case could advance

evidence and arguments which would warrant such action.

The chief commissioner remarked that he had been making inquiries Riverdale residents as well as those residing at the Beach have been very active lately in raising funds to help defray a mortgage on the home of a deserving widow, whose husband died of the flu and left eight small children. A circular letter was read in all the east end churches to this effect, and several well known people have been organizing concerts for the purpose. A rehearsal performance was given last night for the children, when the following artists appeared: Misses Agnes Adie, Muriel Robertson, Beatrice Prest, Kate Struthers, Midred Robertson, Caro Gourile, Mrs. W. Where All is Quiet and Secluded The Men's Clothing Section Will Stage Today, March 17th,

> A Showing Of What is New

In Spring Suits and Top Coats

Simultaneously the Men's Wear Section and the Men's Hat Section Will Display Their Array of Spring Merchandise on the Main Floor

Decisive Athletic Shoulder Lines and trim symmetrical waists typify the new suits and top-coats, and suggest verve or vigorous action that will set off to such an advantage the figure of the young man

Two-button, Single-breasted, and Doublebreasted Suits are much in evidence. Some have rather long rolling lapels, with a strip of darkly shaded cord down the centre. Quite a few have patch pockets without flaps. Some of the vests display patch pockets, too.

The majority of materials consist of tweeds, serges, worsteds and homespuns. The predominating shades consist of Oxford greys, dark blues, browns and heather effects.

The illustration represents a young man's semifitting, all-wool, softfinished tweed, 2-button, double-breasted suit, with a rather straight front. It is in a dark olive shade with a faint brown overcheck. Pockets are of the patch type without flaps. Cuffs are split and flare a trifle. Vest has five buttons and patch pockets. Lapels are long and rolling. Sizes 34 to 40. Price, \$42.50. 34 to 38.

At \$50.00—Is a suit of all-wool Oxford grey worsted. Specially designed for the man under the average height. has rather short notched lapels, three - button. single - breasted front, regular body pockets, a five-button vest, twill Italian body linings, well proportioned trousers with five pockets, belt loops and plain bottoms. Sizes

Also at \$50.00-Are men's and young men's soft finished, all-wool tweed suits, with singlebreasted, three - button fronts, regular pockets, and short rather wide notched lapels. Lustre lining and five-button vest, trousers have two side, two hip and a watch pocket, and belt loops, and may be obtained with or without cuffs, in greyish dark mixtures and bluish checked effects. Sizes 34 to 44.

The Topcoats are mostly in single-breasted slip-

on styles, though the ever popular Chesterfield is

well represented. Among the splendid variety of

shades are fawns, plain greys, blues and greens, and

Lined throughout with twill material, sleeves lined with fancy striped mohair. Sizes 34 to 44.

A Very Practical Part of the Showing Will Be the Special Offering of Men's Tweed Suits at \$24.75 and All Wool Blue Serge Suits at \$29.50

The Tweed Suits are in models for young men and men.

For Young Men are single-breasted, 2-button sacque models. Those who favor the smart waistline and belted models will find these also in the selection.

For Men are 3-button conservative sacque models. So you see it's an offer that affords a selection from which every man should have little difficulty in choosing.

Materials consist of wo l and cotton and cotton and wool, in tweed and worsted finishes. Shades consist mainly of greys, browns and fawns. Sizes 34 to 44. Special, \$24.75.

The Blue Serge Suits are in correctly proportioned models for most every type, there being regulars, tall, medium or short men's models, and semi-fitting models for young men. They may be obtained with a single or double-breasted, 2 or 3-button front. Material is in cheviot and worsted finishes, and offers a heaping measure of quality. It's material that was bought a year ago to be turned into smart, up-to-date business or best wear suits by skilled EATON tailors. Unforeseen delays have prevented it being made up into a large number of suits at one time; but for today another 100 or so suits are ready. Linings consist of lustre. Sizes. range from 34 to 44. Alice did not see her. After Lois had told her news, Alice had stayed in her room trying to stifle the sounds of her sobs as best she could—partly so her mother would not grieve, partly out of pride, so that Lois, in the next room, could not hear. Meantime, Mrs.

such a thing for years! You've never been able to stand that long. Are you sure you haven't hurt yourself?"

"There are times, daughter," Mrs. Fairbanks remarked slowly, "when the best thing in the world is necessity. You've petted and pampered me so I never had to do any work. I'm afraid I've not made strenuous enough efforts to get well. I didn't have to do the dishes—they could have walted, but I wanted to, so I made the effort—and I did them."

"Aren't you exhausted?" Alice forgot her own grief in her anxiety over her mother.

"The tired." Mrs. Fairbanks confessed. "I haven't walked about so much nor stood on my feet so long for years. But I believe it has done me good, and I shah always do the dishes in the future."

So a tiny ray of comfort crept into Alice's heart. This was the first sign her mother had shown of recovery.

Next day Alice arose early, prepared the breakfast. swallowed some hot coffee, and having hastily dusted and straightened the house, she went out and down the street. She heard Lois stirring, and she knew she could not face her. She did not want to say!

GROUP INSURANCE

A Suggestion to Employers

Why not look into a new feature of Group Insurance, offered by the Canada Life?

In taking Group Insurance your ultimate objects should be:

To lessen cost of labor turn-over.

To create in the minds of your men a feeling of security for the future.

To assist them in purchasing a home or other investment, when they become established as permanent employes.

To provide against total and permanent disablement which would otherwise mean a "pension" from the firm.

All these objects may now be established and valuable years of progress saved, by securing information about the Group Endowments of the Canada Life.

Varsity have played much better hockey in their O.H.A. group, and would have finished without being anywhere near their O.H.A. opponents, if they had stuck to last night's brand early in the season.

Nothing can be said as to whether the Quebec team can do better. The backers of the eastern champions before the game claimed that they would be satisfied if they could hold Varsity to a two-goal lead. The rest of the statement was that they would win the series! It was done. Varsity only got a two-goal lead. The rest of the Quebec team, took sick in Montreal, arrived in Toronto yesterday, but was unable to play. He will be ready on Thursday, and he is counted the star man and the big goal-getter of the team. This is the pivot that Sons of Ireland expect to turn the victory on in the next game.

The Quebec pair opened up badly, and a fast forward line would have no trouble in running in the attack at will. Lacombe also looked weak in the net. Fast shots found him slow in getting across every time.

In McNaughton, S.O.I. have a great centre man. He's as fast as lightning, and wigsled well in. All the visitors were good shots, but lifted from too far out. Hughes and Morency were strong Fushers.

Varsity's work around their own net was very loose. Langtry saved well, but his method in going after the lifts made a lot of trouble. The puck bounded out in front of the net ten to fifteen feet each time, and the Quebec forwards raced in and batted it back time after time.

Carson was the best for the winners, He checked bravely and worked in thruthed defence. Wright and Gouinlock were also bright, with Wright making the play for two goals, and Gouinlock bulging the net twice. Ramsay was also clever on the attack and a strong rusher.

WINNIPEG FALCONS FAST: WILL BE ABLE FINALISTS

Players Have Been Banded Together for a Long Time and Have Developed a Team Spirit That is Hard to Beat-About the Men That Compose Team.

Winnipeg, March 16.-The Falcon Hockey team, Western Canada cham-pions and Allan Cup finalists, go to Toplons and Allan Cup finalists, go to Toronto next week. This club has been a growth and development, rather than a sudden creation. The team did not rise to the giddy heights of fame and notoriety in a day or in a season. It did not "awake to find itself famous." Rather, its career from practical obscurity to a place in the full glare of the brightest limelight, has savored somewhat of natural evolution from a chrysalls stage, gradual, but sure. Its history, from its did not the company of the property of the prince of the romances of the game in the Dominion. The players had been together in the old for entrance into the senior league. They found their path beset with obstacles, and finally, after a regular storm of controversy, while unable to burst the old combine that held the reins in the city, they managed, by effecting an alliance with Selkitk and Brandon, to form a new league of equal rank with the existing Winnipeg League. What happened subsequently is recent history and needs no rehearsal. The point is that the Falcons grow u ronto next week. This club has been a growth and development, rather than a

The following is a thumbnail sketch of the players:

Wally Byron, goal—One of the best custodians playing amateur hockey in Canada; steady and brilliant game all winter. Wally played with the intermediate Falcons in 1913-14, and broke into senior company with the 233rd Battalion team in 1916-17. Correct lubrication is as important to your motor car as is the Keystone to the arch. Without correct lubrication your motor will not last or give you the full service built into it by the maker.

Imperial Polarine is the ideal winter lubricant for all motors. It lubricates freely, even at low temperatures—is fluid enough to flow between rubbing parts of the most delicate mechanism-preventing friction, minimizing wear and efficiently lubricating.

Correct lubrication by means of Imperial Polarine means a smooth running motor, instant accelleration and dependable power. By using Imperial Polarine you get more miles per gallon of gasoline, have fewer repair bills and use less oil. Every ounce gives full lubrication value. Three grades for cylinder lubrication

HOUSE OF CATTO IN ITS NEW HOME

Pioneer Dry Goods Store, After Many Years, Leaves King Street.

Irish linen and Scotch tartan, the best of both-these have been staples in the stock of John Catto & Son for many a year, and the pact they represent is continued today when the new store of the old firm opens its doors to the public under the smiling auspices of St. Patrick's Day.

To make way for the extension of the King Edward Hotel Mr. Catto sold his property at 59 East King street, which he had occupied for half a century, and where thru business acumen and an always judicious selection of a distinctive class of goods, a reputation was built up that will carry the firm on to repeated and ever growing success in the new location at the southeast corner of Yonge tion at the southeast corner of Yonge and Shuter streets. Alertness to supply the wants of customers and to even forestall their needs, has been a mark of the method of the Catto firm during its 56 years of service, and Mr. Catto, at the age of 88, was perhaps more busy than the youngest in his employ in the work of removal from the old to the new stand.

Unexcelled Display.

It is pretty safe to say that no other store in Canada can show a display of Scottish costumes and all that

of Scottish costumes and all that makes up the equipment of the native-dress of the Land o' the Heather in such a splendid way as does Catto & Son. The kilt, sporran, plaid, and all that goes to make up the dress of the Highland chief or one of his clan, are to be got in this noted emporium. The

Many weaves, too, appeal to women who live the out-ofdoors, and for sport skirts and cos-tumes the display is most inviting. The dressmaking department of the firm is up to date, and to have a costume with the Catto label is to have an outfit that carries with it assurance of quality and a distinction in line that are the hall-marks of a well-

Customers and clients, old and new, will be welcomed today at the new premises and the courtesy that has been no small factor in building up the business of the past will be extended to all patrons in making their purchases and selections under the new conditions, where for all there is waiting a real "caed mille failthe."

Witchcraft.

In December, 1918, Miss Maggie Pollock, sister and housekeeper of her brother, a Huron county farmer, was brought before the county judge at Goderich, and it was charged that, "In the month of December, 1918, she did unlawfully pretend from her skill and knowledge in an occult and crafty science to discover when and in what manner certain goods and chattels, to wit, certain grain and oats supposed to have been stolen from one, John Lienhardt, could be found." It was further said that she "did pretend to use a certain kind of witchcraft, correry, enchantment or conjuration."

The county judge registered a conviction, which Miss Pollock has appealed against to the appellate court, who will shortly hear discussion. Counsel for accused submitted that there was no evidence to justify a conviction.

Miss Pollock at the trial said she had been aware of a gift which she could not understand. It was in the other side of life." She claimed she could see people distinctly that had gene, tho she did not know them. She said. BAD FOR MORALS AS WELL AS HEALTH

Local Council of Women Want "More Dignified and Healthful Fashion of Dress."

Another milestone was passed yesterday in the work of the Local Council of Women, when the twenty-seventh annual meeting of the organization was held in the auditorium of St. Joseph's College, the president, Lady Falconer, in the chair, and representatives of between fifty and sixty affiliated societies taking part.

In her presidential address, Lady Falconer, referring to after-war conditions, said that recognition is being given to the right of every man and woman to a decent moral life. She appealed to the members to set right standards for living, and, as a sum-

The many works upon which the council had concentrated during the year were summarized in the splendid report of the secretary, Miss Florence Boland, and the financial receipts for the year, reported by the treasurer, Mrs. E. M. Bates, were \$692. Returns from the housing scheme of the council, as represented by the Aberdeen Club, were also presented, showing that in all receipts had been \$9,260.96, with a debt due to the war of some \$800 still to be met. A pleasing an-nouncement in connection with this was that not one bad debt had been experienced in connection renting of the apartments to business women during the past five years.

Reports from standing committees were read. Mrs. J. N. Wood pointed out the need for a woman physician in connection with the woman's court. In the discussion that followed, Mrs. L. A. Hamilton emphasized the statement that landlords should be held responsible for the kind of ten-ants they allow into apartments.

"Citizenship" was reported on by Mrs. J. B. Laidlaw, and a resolution, moved by Mrs. Hamilton and seconded by Mrs. Wood, asked that propaganda be launched for the purpose of getting all local organizations as affiliations of the council. In reporting for the committee on public health, Miss Jean Gunn drew attention to the situation of Toronto in relation to provision for patients with nervous diseases in which insanity is suspected.

That there is no reception home vet in Toronto, and that cases under investigation are at present taken either to the asylum or the jail was the re-port given, also that the psychiatric hospital under consideration, and for which plans are prepared, does not fit the needs of the city, was stated. After much discussion, a resolution was car-ried, by which a delegation will wait upon the city council, asking for some immediate provision in the way of a temporary reception house, and that the council will hear the ideas of those competent to give opinion before building on the proposed hospital be begun

MANY WON DECORATIONS

Ottawa, March 16 .- (By Canadian Press.)-An interesting story of the part that Canadian Indians played in the great war is told in the report of the department of Indian affairs for the fiscal year ending March 31, 1919, tabled in the house today by Hon. Arthur Meighen, minister of the in-

More than 4000 Indians from the various tribes enlisted with the C.E.F., and many of these men had exceptionally fine records with the forces. Several served as snipers, and Corporal Francis Pegahmagabow of Parry ind was credited with having killed 278 Germans. He returned to Canada with the Military Medal and two bars. Captain John R. Stacey of the Caugh-nawaga tribe was one of the airmen with Col. W. A. Bishop's flying circus, and served with great bravery until the time of his death in action. Deeds of Bravery.

Various deeds of bravery for which Indians were decorated are set forth in the report.

There were over 4000 enlistments of Indians in the C.E.F. This was over 35 per cent, of the male Indians of military age. The report points out that one man, John Campbell, a full-blooded Indian, traveled 3000 miles by trail, cance and river steamer to reach Vancouver to enlist. Many of the Indian soldiers who returned from the front succumbed to their natural enemy, tuberculosis, as the result of the exposures they had undergone while on war service. On March 31, 1919, the report said, there was a total Indian pulation in Canada of 105,998, and

Development of Reserves.
The report shows splendid progress made in recent years in the development of reserves from an agricultural

point of view.

A census of real and personal property of all Indians for three years shows a steady increase in value.

Values were as follows: 1917, \$62,885,915; 1918, \$65,285,112; 1919, \$67,-

The average per capita value of property in 1919 was \$667.95, and the average per capita of income, \$94.57.

ALTERNATIVE SCHEMES FOR NEEDED EXTENSIONS

Annexations to the City or Incorporation of an Independent Town Now Demanded to Supply Houses and Homes for Fast-Growing Population.

WHAT does the city of Toronto propose or the township of York propose to W do with the question of housing people and giving them some kind of municipal services in the country north of Danforth avenue and east of the Don river in the Todmorden district and beyond?

To Build Factory in Guelph

Guelph, Ont., March 16.—(Special.)—
Representatives of the large manufacturing company, who propose to open a branch of their factory in Guelph, were in the city again today. They have, it is understood, taken out a charter for \$1,500,000 and if their plans go thru as they anticipate, they will build a new factory and will give employment to be tween 350 and 500 men. Several Guelph men will have places on the board of directors and the concern has excellent prospects.

Don river in the Todmorden district and beyond?

This problem is now before both the city and the township. It comes up every day. Danforth avenue is becoming a great business thorofare. The city is asked to annex sections; York township threatens to make a new town. How are homes and houses for the great big industrial population in the east end of the city, and especially that would continue to be called for under the harbor improvements, including the big steel works, to be got? And for the hundreds of men who will be employed in the railway yards at Leaside, some of whome would like to live in Todmorden, half way to the harbor development? How are these people to get homes? It is the question before the tit to the people who want homes, and they will make money out of it. But that has been the result in every annexation heretofore. It is all very well for the critics to say that somebody is going to make money, but the real question is:

rotics to say that somebody is going to make money, but the real question is: How are homes to be provided for the people more or less convenient to their work, where they will have water and sewerage, street cars and other city

For several years now these questions have been delayed, partly on account of the war, and Works Commissioner Harris says he does not know how to supply water to all these people, and he also says the same in regard to drainage. But that does not deal with the problem. What are the aldermen going to do about it? What are the councillors of the township of York going to do?

The World herewith presents a map taking in a couple of hundred acres of that part of the township of York of land adjoining the city, leaving the lying east of the city limits and north rest in the township, a plan now before of Danforth avenue. CATTLE MARKETS

Receipts of cattle at the Union Yards continue only moderately heavy, even for this season of the year, and it would be hard to estimate exactly just what cattle did come in yesterday—probably around between 1500 and 2000 head by night, with the bulk of the late arrivals, of course, held over for today's mericat night, with the bulk of the late arrivals, of course, held over for today's market. Trading as a whole was inclined to be easier, with probably anywhere from 10c to 15c off from Monday's decline. A few fancy loads of extra choice butchers brought high prices, but the quality was there, and this always counts. It looks as the other worst of the roads is over, and we look for heavier receipts from this on, the some do not share this view. Deliveries of hogs continue very light, with a strong market, due to the keen competition among the small packers and local men, the big plants being, to all intents and purposes, out of the game for the time being. The bulk of the sales yesterday were made on the basis of from 20c to 20½c, fed and watered, and 20½c weighed off cars.

MARKET NOTES.

A Few Extra Good Ones.

One of the best sales on the exchange yesterday was that made by Jos, Wilson for the H. P. Kennedy, Ltd., when ne sold 24 cattle, weighing on an average 1200 lbs. apiece, to George Rowntree for the Harris Abattoir, at \$14.25, the high for the day. They were an exceptionally good bunch of cattle, consigned in by William Stinson of Gorrie, Huron County, and reflect infinite credit upon Mr. Stinson and the H. P. Kennedy Co., Ltd., who handled them.

Other Good Lots.

Charlie McCurdy, for the United Farmers, sold one extra choice steer, 1250 lbs., at \$15; 1, 880 lbs., at \$14.50, and 5 others, 1130 lbs., at \$14.

Dunn & Levack sold 9, 1130 lbs., at \$14.75, and 11 others, 1090 lbs., at \$13.40.

A Record Price.

Rice & Whaley yesterday made a new high record on the Union Stock Yards Exchange, so far as The World knows, when they sold a fat cow, weighing around 1600 lbs., to the Harris Abattoir, at 19c a lb. The firm sold 9 butchers, 7280 lbs., at \$13.50.

The Corbett, Hall, Coughlin Company's quotations yesterday were as follows:
Choice butchers, \$12.25 to \$12.75: good.

RICH GOLD VALUES IN IGNEOUS ROCKS

Formation in West Shining Tree Encourages Hopes of · Large Gold Deposits.

Silicated dolomites have not proved commercially valuable for their gold contents in any part of the world. and in composition from the ordinary and in composition from the ordinary Krist, for which considerable inquiry country rocks of gold regions. They has sprung up, rose 3-4 to 7 3-4. Lake are sedimentary rocks laid down in ancient oceans, and have derived their at 10. lime and magnesia from the sea, thru process of accretion somewhat simia process of accretion somewhat simi-lar to that now forming atolls or coral cellent annual report, continued islands in the Pacific ocean.

The keewatin schists, which form

are volcanic flows thru which in later times igneous eruptions came and brought in the precious metal. The dolomites or magnesian limestones, however, derived their gold, if any, from the waters of the ocean. igneous intrusions had brought the and Beaver at 1, showed the loss of precious metal into these dolomites a similar fraction. Timiskaming at they would be greatly changed and no 42 1-2, and Trethewey at 44 were unprecious metal into these dolomites dolomites. Limestones are readily altered by igneous intrusions. Contact metamorphism proceeds on an extensive scale when a molten rock comes in contact with limestone. Therefore, when we find unaltered dolomite it indicates that there has been no igneous action in the vicinity, and that the only auriferous impregnation has been from the waters of the former ocean. But many determinations have established that sea water contains less than 50 cents in gold per ton. And a greater difficulty arises in the fact that there are no veins or ore chan-nels in the unaltered dolomites. Therefore, precipitation of the precious metal is in scattered bunches, irregular both laterally and vertically. In Ontario, where capital is limited, it is unwise for inexperienced people with moderate capital to attempt to win gold even indirectly from sea

waters. The metal occurs in commercial quantities only under certain well-known conditions. Its principal eruptions of granite, diabase and por-phyry, ore channels were formed. The static heat of the earth was increased, hot water was set in circulation, and the gold was leached from all the rocks within reach and collected in these channels, or veins. These are the conditions at all the mines in Ontario now producing gold. Deceptive Dolomites.

At West Shining Tree there is no sedimentation or even the ordinary fragmental rocks. Near the very romising Herrick Gold Mine there are pyroclastic rocks, also schists, andisites and diabases, all the result of the action of fire. So the conglomerate of Cobalt is not a precipitate from sea water. Neither is that in the Rand. These gold and silver-bearing conglomerates are fragments of igneous rock now consolidated into a distinct series. Gold does occur in dolomites small scattered bunches. That makes them dangerous to the layman, for they impress and deceive a novice, and sometimes even an expert is led to believe that they are reliable.

A. G. Burrows of the Ontario Burreau of Mines and Dr. H. C. Cookers. makes them dangerous to the layman, reau of Mines and Dr. H. C. Cooke of He will be asked to explain this action the department of mines, Ottawa, have reported on the new Matachewan gold area. Both gentlemen are of exceptional standing, and have had much experience as field geologists. They, how-ever, make no mention of the dolomites which occur in considerable quantities in parts of that promising gold area. The reason is that these scientists do not believe that these dolomites are of any value as sources

Report Well Received.

McIntyre's 3-point advance to \$2.13 did something to redeem mining stocks from sinking to a level of deadly monotony yesterday. Brokers describe the market at the present time as an investors' one, meaning that speculative operations are reduced to a minimum, and yesterday's turnover of little more than 43,000 shares supplied ample confirmation At the same time experience has made it clear that sentiment can a dull, dragging market become transformed into one bubbling over transformed activity. The alter radically almost over night, and change should come soon if the customary spring rise is to be seen, and those who are in closest touch the situation profess confidence that extensive buying from the north, which usually heralds a broad movement, will speedily become a potent force in the market.

The demonstration in McIntyre came at a time when President J. P. Bickeil had just announced his severance from the well-known broker-age house which has borne his name for a number of years, that he may he able to devote his entire time to his mining interests. Reports from the north indicate that the McIntyre is speeding up production to record figures, and it will be recalled that at the McIntyre annual meeting Bickell, in reply to a shareholder's query whether the stock would be placed on a dividend basis of 5 per cent, quarterly, in 1920, said he hoped to do even better than that. It looks as the McIntyre is preparing to show a lead to the gold stocks, as in other notable market movements. Late in the day word was received that some abor troubles had developed at the property, but the stock, which closed at the high of the day with \$2.18 as the final bid, did not register any uneasy qualms. It assistant drillers, contending that they should have been granted a 500 instead of a 25c wage increase, had quit work. The boss drillers received 50c advance, which appears to have aroused jealousy. Indications were reported to be for a quick settlement.

MINING NOTES

Reports that the mining corporation had made a rich strike on the Buffalo mine are erroneous. The fact is that on known veins where the Buffalo formerly mined up to the party wall as also did the Mining Corporation, these walls are being taken out and are high grade.

The ore body indicated by diamond drilling on the Dome Extension property may be cut by the Dome miners any day now. The drift which is entering from the 1,050-foot level, has now progressed 270 feet into Extension property.

Anticipated.

Notice has been sent to shareholders of the Davidson Consolidated Gold Mines that the annual meeting, scheduled to take place in Toronto on March 29, has been postponed until

A charter has just been granted to the "Pinel-Kirkland Gold Mines, Ltd.," with an authorized capital of \$4,000,000. The head office of the company will be in Toronto.

The Pinel property consists of approximately 700 acres, lying in the eastern part of the Township of Lebel.

The northern customs concentrator treated some 33,531 tons of ore during the past year. From the Silver Leaf, which it has under lease, it secured 4,100 tons of ore and the balance came from the following mines: La Rose, 26,324 tons; Right of Way, 871 tons; Silver Queen, 1,610 tons; Wallman, 392 tons; Chambers-Ferland, 222 tons.

The mill of the company is now working at capacity.

In December the Timiskaming mine's output was 44,085 ounces. It is thought that the December record can be maintained thruout 1920. Should this prove to be the case, the output will be at the rate of over half a million ounces for the current year, or more than dou-

ble the 1919 figures. A property on the north limit of the Cobalt producing area, purchased at an auction sale by Messrs. Edwards and Wright, produced last year 72,569 ounces of silver which brought \$86,648. It is understood a good tonnage of ore has been sent out since the first of the year.

It is understood that the La Rose mine is ready to go ahead with production on a good scale on its University property. The switch which the railway built into the property has been completed. It is believed that regular shipments of milling rock should start not later than the end of this week.

The Argonaut Gold Mines, operators of the old La Mine D'Or Huronia, officially states that development work is proving up a substantial tonnage of commercial ore.

The option on the Robb-Clemens claims at Matachewan has been thrown up by the New York interests which held it. It is understood that not long ago they paid down \$12,000 on their option.

The Crown Reserve of Cobalt, which is developing the Canadian-Kirkland, is undertaking cross-cutting at the 150-foot level. The work is to locate a vein which the shaft followed to a depth of 80 feet, and which was strong, carrying satisfactory values.

The Whelpdale - Porcupine Company has disposed of its holdings here to a new company called the Hudson-Porcupine mines. It is understood that the new company plans to undertake de-velopment work in the spring. The hold-ings in question are at Gillies Lake,

FEAR FEDERAL LEVY ON STOCK DIVIDENDS

Speculative Leaders in New York Market React Sharply in Afternoon. .

EARLIER TONE STRONG

New York, March 16.-The reported breakdown of the German revolution, causing a spirited raily in foreign ex-change, contributed emerly to the early strength and activity of today's irregu-iar stock Market. Much of the advance was cost, however, when some of the highly speculative issues reacted snarp-

There were indications in other quarters that the recent upturn had created an unwieldly long account, and that bull poors were pressing their advantage to the point where further repressive measures by the rederal reserve bank might be beened advisable. the point where further repressive measures by the rederal reserve pank might be beened advisable.

The money market reflected no signs of such a contingency, call loans decining from the opening rate of nine per cent, to seven per cent, in the final mour, while time funds were in slightly better supply. Selling was broadest and reversals most severe toward the close, when reports from Washington alluded to the possibility of congressional legislation imposing a retroactive tax on the privilege of issuing stock dividends. Much of the day's unsettlement was provoked by Crucible Steel and General Motors, which duplicated their sensational movements of recent sessions. Crucible made a nearly moderate gain, reacted 21 points and closed at a loss of 12½ points. Motors at one time gained over eight points, but ended at a slight loss, and Texas Company replaced a forenoon rise of eight points with a net decline of five points.

Other industrials, shippings and specialties followed the course of these leaders and rails, in which improvement was moderate at best, also gave way at the active but irregular finish. Sales amounted to 1,235,000 shares.

Speculative rails were lower in the smaller bond dealings, but Liberty issues and internationals ruled within very nerrow limits. Total sales (par value) oggregated \$9,750,000.

Old U. S. bonds were unchanged on call.

BOTHWELL OIL WILL BROADEN OPERATIONS

Properties Have Normal Output of About 600 Barrels a Month. In connection with the Bothwell Oil

Company, the stock of which was re-cently listed on the Standard Stock and Mining Exchange, the following information is of interest: The company is incorporated for \$400,000 in \$1 shares, \$300,000 being issued and 100,000 shares still remaining in the treasury. The property consists of 580 acres, of which 154 acres are owned outright and the bal-ance in leases, all in one block in the Bothwell oil fields. There is a 220-acre lease in Dover township, near the Union Gas & Oil Co, and the

Petrol Oil Co.
On the Bothwell property there are

aged by a strong board of directors, has no debts and its treasury at the recent annual meeting showed some \$8000 cash assets. Negotiations for some valuable additional producing properties are well advanced.

STOCKS ARE LOWER ON NEW YORK CURB

New York, March 16.-Considerable selling developed during the last two hours of trading on the curb, apparently based on new legislation hatching at Washington regarding stock dividends. A solling wave was noted in General Asphalt, which closed at 103, off 51/2 points from the opening. Perfection Tire moved slightly lower Profit-sharing and U.S. Steamships also were lower. Tobacco Products Export was strong, moving up to 22, reacting slightly upon some profittaking.
The oils also moved to lower lev-

els. Carib. Syndicate got down to 30, while Salt Creek reacted 3 points. There was active selling in Dominion, and that stock closed at 14. The mines were easier. Eureka Croesus reacted to 1½. Tonopah Divide was a bit stronger, however, going at 21/4.

PRESSED METALS

Pressed Metals was quoted on the local curb yesterday at 274 bid and 278 asked.
