CHARGE MAY BE MURDER Youth Struck With Stone by Italian Dies of His Injuries.

MONTREAL, Oct.29.-Henry Rowles, Il years of age, who was struck on head with a stone by Vincenso Guirrani, an Italian, while playing in Magdalen-street, Point St. Charles, a few weeks ago, died in the Royal Vic-toria Hospital last night.

Juirrani, who was arrested a couple of days after young Rowles was struck, and arraigned before Judge Lanctot, on a charge of wounding.
was re-arrested last Monday on a
charge of attempted murder. He will
now be held to await the verdict of the coroner's jury.

AN ARM EU DETECTIVE

Sat Beside Each Driver of U. S. Express Co. in Jersey and Hoboken.

NEW YORK, Oct. 29 .- For the first time since the strike, ten wagons of the U.S. Express Co. were driven thru. Jersey City and Hoboken to-day. Beside each driven sat a private detective side each driven sat a private side each drive with a rifle on his knee.

Meanwhile the Wells-Fargo Co.

brought a gang of strike-breakers over from Marhattan in taxicabs. About the company's stable, where they were landed, there was a strong guard of private detectives, each with a gun Slung over his shoulder.

The police in Manhattan were busy quelling several minor disturbances.

HELD BY A BOULDER Diver in Dire Peril at Bottom of the Harlem River.

NEW YORK, Oct. 29 .- Half covered with mud at the bottom of the Harlem River, thirty feet down, his left ankle securely held by a big boulder.

Frank Nystrone lay in a state of collapse in his diving suit early to-day. Jerks at the signal rope to ask if all

was well did not bring a reply.

Joseph Anderson then donned his
diving suit and descended to the river bottom. He groped about until his light flashed into Nystrone's face. He dug into the mud and strained at the boulder for three hours until he was able to give the signal to haul Ny-

ITED FIGHT MOVE OF C.P. IN NORTH END STIMULATES GRAND TRUNK

The World received confirmation Saturday of its announcement made a week ago in connection with the new plans of the Canadian Pacific in North Toronto.

A gentleman told The Sunday World that when Sir Thomas Shaughnessy showed his plans to the city they would include a new uptown station on the south side of the C. P. tracks, immediately east of Yonge, and that the freight sheds and offices would be on the south side, west of Yonge, and that the present station would be converted into a freight office. There would be a lot more sidings put in north of the present tracks and east of Yongestreet in the neighborhood of the new station, and there would be a three-track viaduct over the Rosedale ravine in the place of the present single track.

The World's informant said further that just as fast as this

The World's informant said further that just as fast as this could be done the C. P. would run its thru trains across the northern portion of the city, and for some time continue to run the local trains, like those of the Owen Sound Division, the Teeswater Division and accommodation trains, into the Union Station, but all the thru trains would go to the north of the city, and save at least an hour for all the passengers, making improved connections for Hamilton, Buffalo, London, Niagara, Chicago and the

The World also heard on Saturday that this move of the C. P. had stimulated the Grand Trunk into action, and eventually they would adopt a similar policy. They would cross the north of the city from Toronto Junction to Yonge-street by a straightened-out belt line at the cemetery, and then from Yonge-street run east across the belt line ravine and thru Todmorden and the Plains to east of York Station, where they would join the main line. He also stated that the belt line all the way round would be running in a very short time.

be running in a very short time.

The World was also informed that the Canadian Northern management are busy considering various suggestions for an underground entrance across the city between Queen and Collegestreet.

"LOTS OF ROOM IN THE AIR."

Joel Marvin Briggs Thought to Be Insane

Annual Candidate for Mayor Taken Care of by Police at Request of Friends.

Joel Maroni Briggs, who was it Gueiph last week seeking a nomination in South Wellington, in the riding opened by the retirement of Joseph Downey, M.L.A., who was appointed to the superintendency of the Orillia to the superintendency of the Orillia Asylum for Idiots, and behaved in 82 Asylum for Idiots, and behaved in so strange a manner there that he was escorted by the police there to his train and taken home by the police here, was yesterday arrested upon a warrant issued by his friends, charging him with insanity. He has been a candidate for Mayor Geary's position in Toronto. in Toronto.

His Fiance's Mother Charges Failure to Account for \$80,-000 Property Entrusted to Him.

MONTREAL, Oct. 29.-(Special.)-Ernest Lemoyne, a bank teller in the employ of the Hochelaga Bank, was arrested yesterday afternoon and held by Judge Lanctot on a charge of failing to account for \$80,000 worth of property belonging to Mrs. Lecompte, widow of a Ste. Therese merchant, Efforts to obtain bail for the young man

were futite.

Mrs. Lecompte, in the complaint which she laid before Judge Lanctot, said that some months ago Lemoyne, who is a well-known young man about town, and is of a prominent and highly respected family, made her acquaintance and that of her daughter thru a friend. He visited the ladies often, and in a short time, his friends were told that a marriage had been arranged between the young people. arranged between the young people.
According to the story told by Mrs.
Lecompte, the accused persuaded her
to give a procuration as trustee for her
late husband's estate. This she did,
because he told her he would be able because he told her he would be able to dispose of the properties at advan-tage thru his financial connections. A short time after the complainant alleges Lemoyne obtained from her the title deeds to the property. A month or so later Mrs. Lecompte de-clares she was told that Lemoyne had

offered the property much below its market value, and she ought to obtain back her titles and make Lenoyne account for his trust, but this, she avers, he declined to do. The complaint, which was prepared by Bisaillon and Brossard, is made acording to article 363 of the criminal code, which makes it a criminal of-

fence for a trustee to refuse to account for his trust when called upon to do so by its rightful owner.

When Lemoyne was brought to the court house, his friends tried to ob-

Picture shows scene at the International Aviation Meet at Belmont Park, New York.—Five aeroplanes flying at the same time.

Crack French and American Challengers for Gordon-Bennett Trophy Disabled

- Claude Graham-White Favorite

BELMONT PARK, Oct. 29.-Unless an aviator more daring and skilful than Claude Grahame-White can prove his worth to-day, the Gordon Bennett international speed trophy will go to Great Britain.

Great Britain.

The pick of the French challengers and American defenders are in the hospital, and the fastest time for the course is White's by a large margin. Brookins, of the Wright team, lost control of his machine 200 feet up, and shot to earth, whiring end over end, at terrific speed. His machine is a total wreck.

terrific speed. His machine is a total wreck.

Lebianc, the champion of the French team, was tossed from his course in a gust of wind, cut his machine in two against a telegraph pole, and was huried to the ground. Both Brookins and Leblanc were rushed to the field hospital, and a reassuring statement as to their condition was given out by the management, but fuller details were awaited with the greatest anxiety.

Latham, in his 100 horsepower Antoinette, got such a fright, when the wind almost blew him into the crowd, that he quit precipitately in the 15th round. The tips of his wings came not ten feet from the heads of the fashionable crowd which lined the turn into the far stretch.

With Brookins out of the race, America must depend on Hamilton and Drexel, but Grahame-White cut out a pace this morning that will be hard to beat.

beat.

Crowd Horror-stricken.

The crowd, which had been thrilled by a race between the daring Frenchman and Claude Grahame-White, the English aviator, for aerial supremacy, was horror-stricken at the accident, and a cry went up that Le Blanc had been killed. There was almost a panic in the grand stand and on the lawns, been killed. There was almost a panic in the grand stand and on the lawns, but immediately it was announced that altho Le Blanc had been badly hurt, his injuries probably were not fatal, altho there were fears that he had suffered a fractured skull. His face was badly slashed across the left eye.

While Le Blanc was being removed to the hospital Grahame-White and the other aviators continued their flight. Grahame-White completed his final lap in 1 hour 1 minute 3.81 seconds, a distance of 62.14 miles, at an average speed of more than 60 miles an hour.

Walter Brookins, the first of the American cup contestants to go up, crashed to the ground from a height of 60 feet on his first lap of the course. of 60 feet on his first lap of the course.
Brookins' machine was crumpled up
like tissue paper. The youthful American aviator was just letting out his
new Wright "Baby Flyer" to the full
speed of its cylinder motor when the
machine suddenly dove downwards.
Following so closely on the heels of
the Le Blanc accident the spectators
were thrown into a state of great panic
for a time

for a time.

Brookins was injured, but no bones were broken. His escape from death was miraculous. J. Armstrong Drexel, in a 50 horse-power Bleriot, crossed the line at 3.25, starting in the Gordon Bennett race for the international speed trophy. With only one minute to spare before the time limit to start, J. R. Molsant followed Drexel across the line.
Before he had finished the first round
the bomb exploded, and the time limit
expired with Hamilton still on the

The wind was still 20 miles an hour and it seemed unlikely that either Moisant or Drexel, in 50 horse-power Bieriots, could lower the time made by Grahame-White in his 100 horsepower Bleriot.

Motored 2000 Miles On Western Prairies

T. A.Russell Says Automobiles Are Growing in Popularity-Business on Sound Basis.

T. A. Russell, general manager of the Canada Cycle and Motor Co., has just returned from a prolonged wisit to the Northwest. He went out with the Manufacturers' excursion party, and atterwards visited the main cities in the western provinces, in the course of which he toured in an automobile upwards of 2000 miles in Alberta, Saskatchewan and Manitoba, which enabled him to visit a number of townshe would not otherwise have seen, and so was able to make a thoro observation of the conditions thruout the country.

fence for a trustee to refuse to account for his trust when called upon to do so by its rightful owner.

When Lemoyne was brought to the court house, his friends tried to obtain a liberation on parole, but this Judge Lanctot refused to grant, until he has proofs that Lemoyne did not dispose of any of the property entrusted to him. The enquete was fixed for next Friday.

New Engines for C. P. R.

KINGSTON, Oct. 29.—(Special.)—The Canadian Locomotive Works have received an order from the C. P. R. for ten ten-wheeler engines which will keep the works going all winter.

G.T.R. RESPONSIBLE FOR DURAND WRECK

Spencer-Railway Disregarded Order to Cease Operating Trains With Inexperienced Men.

LANSING, Mich., Oct. 29 .-- The state railroad commission to-day issued its findings in regard to the Grand Trunk passenger train wreck at Durand last August, which resulted in the death of ten per-

The commission exonerates Engineer Spencer of the second section, and says that Conductor Lacey and Brakeman Graham of the forward train were incompetent. Acting-Superintendent Joan Burke and Trainmaster Akers are mentioned as having disregarded the commission's orders to cease operating trains with inefficient men, and it is charged that Burke resented the demands of the commission, durates the Grand Trank artistics. ing the Grand Trunk strike, as unwarranted interference.

Railroad Commission of Michigan Exonerates Engineer

sons. The commission says:

We are of the unanimous opinion that the Grand Trunk officials, who, at the time had immediate supervision and authority over the operation of the trains and trainmen, are primarily responsible for this

THE MORNING CHAPTER

Unrest in Old Countries Diverts Money to Canada

How U.S. Trust Despots Control Legislation

T. P. O'Connor Portrays In-ner Life of House of Re-presentatives at Washing-ton—Pen Picture of "Uncle Joe" Cannon.

LONDON, Oct. 29.- I want to de-

It stands in the way so effectively that ! when Cleveland was trying to lower the protective tariff; this is also what happened during the years when Roosevelt was trying to carry antitrust legislation.

that if a dramatist wanted to put a tee on the stage so that everybody than they used to be. might know he was a Yankee, he billiards and a week or two every could not have a better model than Mr. Cannon. Imagine a thinnish but year at the seaside where they can robust man, with cheeks that are pose as swells, to a wife," he said. "I fresh and rosy altho he is over seventy, don't know what is coming over the with keen, steel-blue eyes, with a thin, young people of the country. It is the firm, compressed mouth, the upper lip clean glaven, a small, short, wide beard beneath the lower lip; dress this bood enough for their parents is not beard beneath the lower lip; dress this figure in a black frock-coat with black waistcoat, and spread over the black the white ashes of the cigar which he black comes to a choice between the luxuries in this year, will leave, at any rate South comes to a choice between the luxuries in the passion of the passion holds constantly in his hands, and has in his mouth as often and as long as he can, and impress the whole figure with the suggestion of indomitable courage, tenacity, alertness and narrowness of outlook, and you have an

He is perfectly honest, and patriotic and high-minded, so far as I know; but he is quite incapable of understanding how any man can he honest or intelligent who does not accept his views. And his views are those of the ardent

protectionist. To him America is the greatest country in the world, and the one secret of that greatness, in his Powerful Instrument.

I never realized what a terrible and tremendous instrument the committee may be until I became acquainted with America. Wherever you have a public gathering, there is always the committee; and it is within the narrow and sound-proof walls of the committee that the real fights take place. This is especially so in the house of represen-tatives. Debate in any real sense of the word—debate as we understand it -zeems to me to be banished from the great measure is debated for just one hour; and of that hour twenty minutes are given to the man who represents the whole opposition—the entire

It is the committee, then, which virtually decides the fate of all legislation. But, then, how is the com-Here comes in the strange peculiarity of the American system; here the powers that Speaker Cannon is able to exercise with such errible effect. The speaker of the house of representatives is not like our speaker; he is not an impartial and judicial officer whose chief function it is to give equal justice and fair play to all sections of the house, and, if anything, to lean towards the rights of the minority. The speaker in the minority. The speaker in the minority. The speaker in her stock. When the searched, however, a bank book show-searched, how speaker; he is not an impartial and judicial officer whose chief function it is to give equal justice and fair play to all sections of the house, and, it is said that she begged most of her food and never bought any clothes.

The speaker, in the case of Mr. Cannon, is the leader of the Republican majority in the house of representatives. It is his duty to look after the interests of that majority-too see that its will is carried out; above all to see that its enemies do not get any advantage that can be taken from them. Remembering these facts, you can see where the speaker can get to. The committee is the omnipotent in-strument of government and of legislation, and the speaker has the appoint ment of all committees. Of course, it is his business, according to the ideals of American parliamentary life, to see that each committee consists of a majority of the party of which he is the leader. It is his business to see-Johnson-that the Democratic dogs comes to pass that in the hands of this thin-lipped, sweetly-eyed, narrow, re- Helliweii, president of the lentless, daring, fearless man, the board, welcomed the guests.

The affair has caused a tremendous sensation, as the convent contains an image of the Virgin which has been worshipped all over Poland for six have suitable sign-boards affixed to the various "sights," telling exactly or at any rate approximately the cost hundred years.

WRECKED ON CUBAN COAST

Cargo of Coffee, Valued at More Than \$1,000,000, a Total Loss.

NEW ORLEANS, Oct. 29.—The steamer Crown Prince of the Prince line, from Santos to New Orleans, with a cargo of coffee, was wrecked off the western coast of Cuba on Oct. 16. Her crew of 24 and four passengers were rescued, and taken to Havana, where they arrived to-day. The steamer, with its cargo, valued at more than \$1,000,000, is a total loss.

Elgar Trio.

The Elgar Trio under the direction of Senorita Braziel, which appeared so successfully last summer in Minnicog, in popular and classical programs, is becoming very popular at teas and receptions.

The King next asked if they could read, and being eagerly assured that they could, they were asked to read something. They elected to recite a passage which they had learnt at school and knew by heart.

His Majesty highly commended the boys on their accomplishments, remarking that he doubted if his own boys could have given as good a rendition at their age.

The King then asked the hour they had to be at school in the morning.

and received the reply, "Nine o'clock, When do you get home?" inquired "We're gaun hame i' th' noo!" re-plied one of the boys with amazement. The King patted both lads on the head and departed smiling.

ODD MASONIC LODGE ROOM.

In the Open Air on the Summit of Canadian Mountain.

The only natural lodge room in the world is on the summit of Owl's Head Mountain at Lake Memphremagos, Canada, says The Masonic Bulletin. Here, in a great ravine, at an elevation of 2489 feet above the level of the lake, situated due east and west, and surrounded by massive rocks that afford perfect seclusion, is a ledge that seems as if hewn by the hand of nature for the use to which it is put.

The rocks offer suitable watch towers from which sentinels can readily observe the app each of eavesdroppers

ern" in 1898 no steamer has created such general interest, as the "Olvmpic," not only on secount of her surpassing size, but also because of the immense forward steps thus marked in other lines of marine accomplishment, the outcome of many centuries of conflict with the sea.

The "Olympic" will join the White Star Line's mail service between New York. Plymouth, Cherbourg and observe the app each of eavesdroppers should any by rare chance pass that

In such a spot as this, with only the In such a spot as this, with only the blue dome of heaven overhead and the impenetrable walls on both sides, Masons of to-day imitate the habit of their ancient brethren, who, tradition says, met in just such places to perform the ceremonies of the craft.

The spot is not easy of access. The ascent is difficult and at all times nazardous, tho at dangerous boints, whenever a meeting of the brethren occurs, ropes are stretched for the climbers.

This unusual lodge room has been in use for half a century. Golden Rule in 1857 granted a dispensation to upen and hold a lodge once in every year on this mountain top, the first meeting being held July 24, 1857.

The original dispensation for this

World's Largest Ship White Star "Olympic"

Interesting Facts About the B Steamer Recently Launched Belfast

The "Olympic" exceeds by near feet in length and 13,000 tons and er whin afloat. Her principal di

mous Bridal Ve! Fall in the Yose ite Valley. Indeed, if the "Olyme" and her sister-vessel. "Titanic,

pic" and her sister-vessel, "Titante," (soon to be launched) were placed end to end under the Brooklyn bridge, they would completely block the East River, and extend over the shore due hundred feet on each side.

In each ship three million steel rivets, weighing in all 1200 tons, have been employed to bind the massive steel plates, insuring the greatest stability; and the rudder of each vessel weighs 100 tons, yet will be moved by electricity almost as lightly as a feather.

These monsters of the deep will each accommodate 2500 passengers, carry-ing a crew of 860, and because of the several public apartments and the pas-senger staterooms, will be exception-ally spacious, while the beauty and luxury of the appointments will sur-pass anything hitherto attempted. swimming pools, tennis courts, sun parlors, sports decks and palm court will be provided in addition to re taurants, dining saloons, louismoking-apartments, elevators, all of which will add much to the pleasure of a voyage on these marvels of marine achievement.

The "Olympic" and "Ttanic" will be propelled by a unique combination of reciprocating engines with a low-pres sure turbine, such as the White Star Line has employed so successfully on its Canadian service steamer "Lauren-tic." By this ingenious system vi-bration is eliminated and mal-do-mer schauered. A speed of 22 knots per hour will be maintained.

Since the advent of the "Great Eastern" in 1858 no steamer has created such general interest as the "Olympic," not only on account of her surpassing size, but also because of the

Star Line's mall service between New York. Plymouth, Cherbourg and Southampton next summer, followed by the "Titanic" in the early fall.

The original dispensation for this purpose was granted by William M. Wilson, the first grand master of the grand lodge of Canada, and in 1869 the dispensation was endorsed and confirmed by John H. Graham, the first grand master of the Grand Lodge of Quebec. It is the only lodge in existence, it is said, that has a warrant for holding regular meetings on a mountain top.

Sons of Scotland Concert.

At their annual concert, which is to be held this year in Massey Hall, on the 3rd of November next, the Sons of Scotland have secured in addition to Jessie Maclachlan, the well-know Scotland donna, Mr. W. L. Cockburn, recently from Scotland, and whose first appearance in Toronto will be at this concert. He is considered the greatest bass singer of Scotlish music in Scotland.

THE NORTH POLE-ITS DISCOV-ERY IN 1909.

and acquired skill. If he had done the work a little later in life, after untiring labor had made his own style the supple slave of his thought that it finally became, doubtless it would have been as nearly flawless as translation can ever be. He began the work in 1875, soon after it was published, when he was but twenty-five years old, and one sees occasionally the evidences of youth. Transliterated classical words are sometimes used instead of their more forceful Anglo-Saxon equivalents, and now and then there is a clumsy or unmusical phrase that the Hearn of this one is This book tells now for the first time, and once for all, the final story of the discovery of the North Pole. It

and now and then there is a clumsy or unmusical phrase that the Hearn of twenty years later would never have allowed to pass into print:

Author and translator had a curiously similar experience with their completed work. Miss Bisland mentions pleted work. Miss Bisland mentions plaubert's deep resentment that his own countrymen preferred "Madame Bovary" to "The Temptation of St. Anthony," which he felt to be his greatest achievement, and his astonishaiready brilliant account of the final successful journey to the pole has been made into a book which will stand out from other histories of exploration as much by virtue of its intrinsic interest as by its subject. greatest achievement, and his astonishment that the world received this work with indifference. And of Hearn she says that "the young translator was filled with a sort of astonished despair

that he could not make others see the book as he did." In previous works of similar nature much space has been devoted to descriptions of the preparations made for the expedition. It is assumed that the public is now familiar with such details, and they are dealt with only at enough length to enable one not ac-Reminiscences of Goldwin edited by Arnold Haultain, is quainted with Arctic exploration to obtain a clear impression. "Standard Oil" in Germany Booming Canadian Fruit in England

From a Staff Correspondent.

LONDON, Oct. 29.—Among the few visitors left over here is the Hon. W. H. Grimmer of the New Brunswick cabinet, who intends to authorize a more active advertising campaign for his province, now that it has a London headquarters in the windows of which is a very fine display of New Brunswick apples.

The first arrival of this year's crop fetched exceptionally good prices despite the fact that there were plenty of the best English varieties in stock. In one of the best fruit stores in Piccadilly the other day I saw baskets of peaches marked "Peaches from Canada" priced at is.—or one dollar for a basket of five. I was informed that the inquiries are growing for this fruit. The shipment of Ontario peach—

From the Days of Good Queen Bess

During the last two or three years there has been somewhat of a reaction in public taste against the severe plainness of the Mission Style, and a demand for designs showing more of character and detail.

In furniture of the Elizabethan and Jacobean periods, still preserved in the "Stately Homes of England," designers found their inspiration for models which, while adhering to the straight outlines of the Mission, allow of handsome decorative effects in paneling, carving and moulding. Some fine examples of these modern adaptations of the dining-room furniture of our forefathers are shown on our second floor.

The sideboard above illustrated is one of the most admired of these designs. It is a fine example of cabinet work, built of selected quarter-cut oak of a small, close grain, and finished a rich nut brown color. The length is 7 feet and the price \$175.00.

Other sideboards in smaller sizes and at much lower prices-from \$25.00-are included in the collection, with tables, chairs, cabinets, etc., etc., to suit.

MURRAY-KAY

(JOHN KAY COMPANY, LIMITED) 36 and 38 KING STREET WEST

Shakspere at the New Theatre

Winthrop Ames, Director, Tells How Dramas Are Produced.

The care with which Shaks to pay, but the expense of product is tremendous. Mr. Ames is quoted in The New York Tribune concerning what must be done before one of Shakspere's plays is ready for production at the New Theatre.

'First," he said, "we have to selec our stage version. This sometimes sions—particularly in the case of the shorter plays—but usually it does not. We have to go over the play line for line, cutting here and there in order to reduce it so that it may be presented within the usual time occupied by a to reduce it so that it may be presented within the usual time occupied by a modern performance. We cut with the idea of sacrificing nothing that is essential to a proper understanding of the spirit of the play. The prompt books of the Shakespere plays in Shakespere's day probably, in no case, corresponded with the literary versions. So we feel justified in cutting the plays to suit our own uses. After we have determined our working stage version, we so ed our working stage version, we go back to tradition to see what other pro-

fucers have done.
"Then the next thing to do is to find "Then the next thing to do is to find out what Shakspere was talking about. Here begins our historical research. Our prompt book is full, from beginning to end, of explanations of Shakspere's words in an effort to make the meaning clear. This fixes the accent of the actors' lines. For example take Malvolio's reference to his watch in the fifth scene of the second act: I frown the while; and perchance wind up my watch, or play with my—some rich jewel. Watches at that time had just been invented. Malvolio boasted of his wealth when he referred to his watch.

A prompt book like ours means searching thru from 50 to 100 books and reading innumerable press clippings.

We have to determine even the accent and pronunciation of queer wor fore a rehearsal is thought of: tore a rehearsal is thought of. When we have finally determined our stage version, we rough out the "busines," of the play. We do this by playing thru the play with little figures dressed like dolls. In this way it is easy to determine the exits and entrances and just what we need for scenery. We work out the "business" as we go along. We can usually tell when we discover the "business" as Shakspere intended it by the smoothness with which the characters move. From playing out the drama with dolls the scene grows in our mind; we want a doorway here, a window there, a chair doorway here, a window there, a chair which the characters move. From playing oug the drama with dolis the scene grows in our mind; we want a doorway here, a window there, a chair at this point, a couch there. Then we call in the art director, Hamilton Bell.

"He is given the ground plan, showing a table here, a door there, a couch there. Meantime he has been reading the play. Most Shaki are as played is not in the period weight Night he has laid in Illyring in makes it about the period of liakspere. He consults his costume books, etc., sen's abroad for photographs, hunts up architectural pictures of the period and place.

Municipalities.

Municipalities.

The scheme of civic government by commission will soon be before the side of civic government by commission will soon be before the said, had worked well there, but the plan. Commission government, he said, had worked well there, but the stid, when who we call in the art director, Hamilton Bell.

"He is given the ground plan, showing a table here, a door there, a couch there. Then we call in the art director, Hamilton Bell.

"He is given the ground plan, showing a table here, a door there, a couch there are a played in the plan. Commission government, he said, had worked well there, but the vork to be done under the convention gate, but then came the midsummer and concentrate appointing power in the makes it about the period of weight Night has laid in Illyring the city council again. A committee was appointed some months ago to investing a to apply on the charged so as to apply on the charged so as to apply on the convention of the work to be done under the work to be done under the convention of the work to be done under the convention of the work to be done under the convention of the plan. Commission government. Lead worked well there, but the work to be done under the convention of the plan. Commission government, he also set apply the original worked well there, but the work to be done under the convention of the plan. Commission government. ments.

Some Opinions on the New Method of Civic Administration

and was, incidentally, made a vicepresident, there is abundant food for aldermanic reflection.

Before coming to the question of gives expression to a bit of optimism, namely, that the public are being methods of civic rule. It declares that the people are beginning to demand etter and more economical systems of running municipal affairs, and that the league is evidence that officials, too, are waking up.

This being so, it was natural that government by commission was a live

theme at the convention. The controller declares:

"Without doubt the most important of all questions before the convention was the commission plan of civic government. Five papers were read by representatives of cities under which the commission plan is now in operation. The plan most in force is one by which a mayor and four or five commissioners are elected over the city at large for from two to four years. In some places they have the recall. This plan is very much like our board of control system without the aldermen."

Is the plan sure to work out well? Here's the answer: That the success or failure of the commission form of government for cities depends, and always must depend, upon the selection by an intelli-gent electorate of upright and efficient commissioners, to whom they must then give a free rein in the administration of municipal affairs, was the keynote of all the speakers."

"Each of the speakers who discussed commission government looked at the problem from a different angle, yet all agreed as to the merits of th plen. Mayor Grant Conrad, of San Diego, saw in it a means of applying business efficiency to municipal administration. Mayor C. L. Davidson of Wichita expects it to make feasible longer terms of office for municipal administrators, and as a result higher efficiency in the handling of city business. Commissioner T. J. Powell of Fort Worth, Texas, found that it stimulates the interest of citizens in the city government, and makes for better conditions. He is not sure that the interest will con tinue. Mayor D. L. Love of Lincoln. Nebraska, would make it a means of putting in force the principle of unargued that the legislative or policymaking side of municipal government should be separated absolutely from the administrative side. One must be locked after by men in touch with people, and ready to reflect their will.

"Administration," said Mayor Love, particular specialties." He contended that elective office at high salary attracted men who could not earn so much in any other way. The ideal a portion of his time to service without pay. The administrators should be ap-pointed by the commission. They should be well trained, well paid, and kept in office as long as they gave good

Mayor Davidson advocated a sort "The time has come when the cities of municipal training school, supported must fight for local self-government-

second, the election of the members of the commission at larse, instead of the election of representatives or aldermen from the different wards; the reduction of the number of officials, and the centralization of authority; and fourth, the payment of adequate salaries for services rendered. Too much emphasis, said Mr. MacVivar, cannot be placed upon this plan of proper compensation for services rendered."

Mayor Maddox opined not. Business men should run a city and not politicians.

for services rendered."

One change which Mr. MacVivar said he would favor in Des Moines would be the election of five commissioners and a mayor. Under the present system the mayor has no more authority than any of the other commissioners. He can veto none of their acts. Mr. MacVicar thought that it would simplify the ballot and place the responsibility more directly where it belonged, on all the commissioners, were it left with them to select their own chairman, who could hold the title of mayor.

As to placing a check on the controller says:

One Thing in Which We Are Behind the title of mayor.

In street lighting, I regret to say our city is far palling in the policy and not politicals.

A good citizen should try to elect the best men and should axing personal prejudice or political clap-trap. He must support every movement for civic welfare, and must be willing, when called, to serve the people in public office.

As showing that the hydro-electric policy is not coming too soon, the controller says:

One Thing in Which We Are Behind the Times.

As to placing a check on the commission to guard against a possible especially in the mercantile districts.

All the mat uthorofares are lighted MacVicar said such a move would deteat the essential purposes of the commission form of government, which mission form of government, which high, and are about 100 feet apart, must be in the hands of upright men. The cluster has four small globes and to whom must be given the freest rein. one large one on top, and besides If the men selected for office are not thoroly illuminating trees, adds to their honest, no cheek can possibly make beauty."

How to Get Rid of Catarrh.

Here is a Simple, Quick, Effective digressing at this point, to leave to the voters the task of designating to Way and CUSIS NOTHING-Send For It and bee.

Those who suffer with it know well on the selection of experts for each department ,and this selection the the miseries of catarrh. There is just be done. To prove it to you, send your address and the means of a quick and safe cure will be sent to your home free in every way. The idea in giving "I find that some 70 cities in the Un-It to you tree is to p.ove to you that there is a home cure for catarih, scratchy throat, asthma, stopped-up ited States have adopted the commission plan of civic government, and it seems to be giving there satisfaction. "It was something of a surprise to feeling in the hose and throat, cafarrhme to find that the state legislatures al headaches, constant spitting, cahad even a stronger control over Am-erican cities than our provincial legtarrnal deafness, etc. The remedy that does it is the invention of Dr. J. W. Bicsser, and eminent doctor, who has for over 36 years been identified with islatures have over our Canadian cit-A city the size and importance of the cure of catarrh in all its worst

Toronto should not be at the mercy of a legislature largely composed of rural members who know nothing about our affairs or conditions and have less concern.

Toronto should not be at the mercy of forms,

His discovery is unlike anything you ever had before, as it is not a spray, douche, ointment, atomizer, saive, concern. However, he consoles himself, the line tried-and-true cure that clears out appointment of the railway and muthe head, nose, throat and lungs so nicipal board helped some. United you can again breathe free air and States cities resent an overpous of sleep without that choky, spitting feel-state interference, as illustrated in the ling that all catarrh sufferers have. It will save the wear and tear of inferaddress of Baltimore's mayor, which nal medicines that only ruin the sto-the state government had taken out of mach. It will prevent colds and heal the hands of Baltimore its police exer-cise and other municipal service. will not be constantly blowing your

cise and other municipal service. Home rule he put forward as the most If you have never tried Blosser's dis-covery, and know that you need such a cure, and want to make a trial of it without cost, send your address to Dr Blosser, 191 Spadina-avenue, Toronto, Can., and a thorough free trial treatment and also an elaborately illustrated booklet will be sent you at once, free, so that you can begin to

cure yourself privately at home.

ounted to 29 miles, and include about two miles of 24-inch pipe. The system now totals 423 miles.

"Six thousand two hundred and six-ty-eight new services have been put in during the year—an increase of nearly 500 over the largest number of

services introduced in vany previous

"So rapid has been the development of the company's business that it has again become necessary to largely increase the manufacturing plant, and contracts have been awarded for a complete coal gas unit of 3,000,000 cubic daily capacity."

NOT SUING THE CITY

A. J. Pattison Denies Story of \$25,000

world that the published report to the effect that his wife, Mrs. Lily Pattison, intended to sue the city for \$25,000 for injury to property in South Parkdale thru the erection of power transmission lines, was incorrect. He said only a complaint had been lodged.

Mrs. Pattison says the hydro-electric transmission line intended to say the part of the cardina and the public patronized it to make the city for \$25,000 for the standing room only. The Sherlock sharp Monday morning with overcoats rolled and haversacks, linesh will be provided on arrival at Erindale.

Koyal Grenadiers.

On account of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is cancelled. The regiment will parade at 7 o'clock sharp Monday morning with overcoats rolled and haversacks, linesh will be provided on arrival at Erindale.

J. H. PORTER, Cant discount of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is cancelled. The regiment will parade at 7 o'clock sharp Monday morning with overcoats rolled and haversacks, linesh will be provided on arrival at Erindale.

J. H. PORTER, Cant discount of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is account of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is account of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is account of the very unfavorable weather reports for Saturday night and Supday, the parade called for this even ingle is account of the very unfavorable weather reports for Saturday night and Supday for S

Mrs. Pattison says the hydro-electric transmission line injuriously affects transmission line injuriously and is her property. Water lots at 1, 2 and 3, south side of Laburnam-avenue. South Parkdale, will decrease the residential value of the locality and be a source of danger on account of the high voltage of current carried by the wires. The city authorities think that Mrs. Pattison is proceeding against the wrong party, because the transmission line is under the control of the hydroelectric commission.

NEW COLONELS.

It is announced in the Advanced Copy of General Orders that Majors Maunsell, P. E. Thacker, H. Thacker, Eaton, Paley. F. McDonald, and Helor 395,084,000 cubic feet more than the output for 1909, the rate of increase being 17.74 per cent.

"Street main extensions have amounted to 29 miles, and include about wo miles of 24-inch pipe. The system ow totals 423 miles.

Baxter and well. However,

and these only will they consent to move. The northern or Teutonic senius has attributes of its own—had sense enough, also strength enough to carry them into the arts and sciences of their own civilization. Greece had three great tragic poets—Sophocles, Euripides, Aeschylus. Rome and her daughter-nations also had a creditable arroy, but Shakspere seems the heir of them all; the melting pot in which they are all moulten, made over and given out again to the nations and the ages that were to irink at the full and flowing fountain of England's culture and civilization. Shakspere has been called the odd, irregular and erratic genius of the north. Exegesis, are critical with its stethescope and its scalpel; its lens and its mortar is proving every day that. Take one example. How one can see the fiery Celt in Lear and McBeth. Shakspere immself born on the borderland of Wales had the magical mercurial ar-

Shakspere has retained only one of the unities, that of action.

All else is incorrect, indifferent and anachromatic. Wittenburg of the 16th century is turning out very Luthers of logic in the 9th century. Bellarius and the boys is welded on to Cymbeline and the fusion is perfect, even accretive in its force. Bermuda is the home of Prospero in the Tempest and here Gloster as subalten and sympathizer of Lear is one of the great lynch-pins of the play. One couldn't imagine Lear without him. Where would Edmund and Edgar come from else? Gloster's indiscretion, his brazen cruelty creates the villain. His manly sympathy gives Edmund opportunity to incinerate his paternal holocaust, and his blindness gives Edgar cause to manifest the most spiendid devotion, the most sepultured agony, the most cruel kindness that ever child offered to a parent.

Thymol, Glycerine and other ingredients so carefully compounded that each ingredient has its proper effect.

This compound is now made up in the D. D. D. Prescription. Ten years of success and thousands of cures show the merit of this wonderful compound, but the most convincing proof is a trial of the remedy by any eczema sufferer.

Wedding at St. George's.

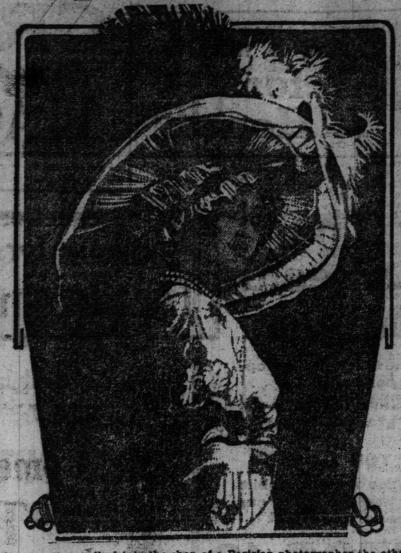

White and yellow chysanthemums and palms decorated St. George's tea on Tuesday afternoon, when she Church on Thursday afternoon for the asked a number of friends to meet her marriage of Miss Alberta Greening, second daughter of William Greening, mother, Mrs. Stapells, and her sisters. St. George-st., to Walter Bannerman Ramsay of Montreal. The service was read by the bishop of Toronto, assis-Cadwell, Jamestown, N. Y. The hostess was wearing a white satin and chiffon gown with pearl and diamond ornaments and Mrs. Stapells was in pearl ted by Canon Cayley, rector of the church, and the wedding music was grey charmeuse with diamonds and or-chids, Mrs. Caldwell wore cream colored chiffon over satin and Mrs. the bride's favorite songs, "O Promise colored chiffon over satin and Mrs. Me," and "Beauty's Eyes," being rendered during the signing of the register. The bride's four attendants, bouquet of white roses. Mrs. Morse, Sr., was also present, wearing black satin and diamond ornaments and Mrs. Constance Greening, Edna Cost, Ledda Ramsay, Montreal, and Dorothy Hen-Pitman Morse was in white satin with derson, were attractively gowned in black velvet and a bouquet of roses. gold colored satin, veiled with chiffon chrysanthemums and ferns and the cloth of the same shade. Their polished tea table was arranged with Richmond roses in cut glass. beaver hats were wreathed with crimson roses, and they carried armsful

of Richmond roses, tied with ribbon-to match. Their presents from the Mrs. Louis Saurin McMurray, for-merely Miss Suzanne Mara, held her post-nuptial reception on Tuesday and Wednesday last week at the residence bridegroom were pearl and gold tet hat pins. The bride's bouquet was an exquisite one of pale yellow and white orchids with lily of the valley and a spray of white heather, her present of her mother, Mrs. Mara, in Chestnut Park. The bride was in her handsome Park, The bride was in her handsome wedding gown of ivory satin with pearl and real lace and carried orchids and illy-of-the-valley; her sister, Mrs. Wienwayer was in deep rose embroidered cloth and Mrs. Mara wore a becoming gown of lavender satin and Brussels lace. The drawing-room was arrenged with abroad with a strenged of the face and caught with a strenged of the str

Mrs. Marseilles was the hostess on Wednesday of a miscellaneous kitchen shower, given in honor of Mrs. George Blaikie and Matthews. The table was sisted by the Misses Cross, Arnoid, Blaikie and Matthews. The table was arranged with some beautiful silver arranged with russet and real lace and centred with russet and real lace and

A large reception was held at Mr. Greening's beautiful residence on St. George-st., where an orchestra was in Miss Nan Gooch, a pretty debutante attendance and the decorations were lavishly carried out with chrysanthe-mums of all colors, interspersed with palms and ferns. The bride's table was set in a marquee on the lawn and was decorated with yellow and white flowers and centred with the large cake. The toast of the bride and groom was given by the Rev. Canon Cayley and speeches were also made by the groom and best man and Arch-These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from wemen who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations, as the tumors and ulcers had been removed by the action of Orange Lily; and others who had suffered from suppressed menstruation, leucorphoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific never-failing cure. It is its operation is certain and beneficial by offer to send, absolutely free, a boat, to every suffering woman who will itself. friend of the family, who was in town for the wedding. Mr. and Mrs. Ramsay left for a wedding trip to the States and on their return will be at home at the Trancour Apartments, Montreal; the travelling dress was of er hat and black lynx furs. Mr. Greening was assisted in receiving in the billiard room by his married daughter, Madame Pantazzi of Rourown of ashes of roses satin, with braiding of the same shade; her hat was of black velvet with a cap o

DOUBLE HAT AS IT'S WORN IN PARIS.

This creation walked into the shop of a Parisian photographer the other day to have its picture taken. When the camera clicked it caught a good view of the enormous hat, tilted to expose the cap below, which stays on when the wearer takes off the hat at the theatre or elsewhere. When mademoiselle came to settle for her picture, the photographer discovered that his customer was none other than our little friend Gaby Deslys, ex-King Manuel's "lady friend."

fon, over white satin, a bouquet of violets and black plumed hat. Miss Jessie Ramsay was in a pretty mauve crepe dress and black hat with shaded mauve feathers and carried orchids. Mrs. Frank Ramsay, Montreal, wore black satin and real lace and a black hat with willow plumes. Miss Henderson, Montreal, was in a pink chiffon broadcleath and black hat; Miss Joseph, Quebec prisk satin, velled with black chiffon and jet and a black plumed hat. Other out of town guests were: Mr. and Mrs. S. O. Greening, the Misses Greening, Mr. and Mrs. F. B. Greening, Mrs. Renrick, Mr. and Miss Herald, Mr. and Mrs. Norman Greydon, Mr. Edmonds, and Mrs. Edmonds (Mirlam Sweeny) returned from their wedding trip to attend the ceremony and are spending a few days at the See House. Mrs. Edmonds looked very pretty at the wedding,

Miss Isabel Muriel Barwick, second daughter of the late Walter Barwick Holland. The church was decorated with white chrysanthemums and palms and the service was taken by the Rev. Canon Plumtre, Dr. Ham playing the music. Hugh Barwick gave away his sister, who wore a hand embroidered white satin gown, tulle veil with orange blossoms and carried a show-er of orchids and illies. The matron of honor, her sister, Mrs. Ewart Os

in the Portland basis. And, if they deem it expedient, to recommend a substitute to the next international convention, as an alternate to the Portland basis, which shall in no way weaken the statement regarding the value and place of the Holy Scriptures and the deity of Jesus Christ, our Lori and Saviour."

The report of this commission of 15, hich had never met with more than we members in atteendance, rephrased se definition of the word "evangeli-

by we must and unto life atc.

Not Church Made.

Bishop McDowell, Chicago, was a member of the commission, and in a letter to the chairman, expressed his dissatisfaction with the definition of the term in the Portland test. His

F. S. BROCKMAN, CHINA. The addressed the Y. M. C. A. Convention on Saturday afternoon on "The Association's Message to Young Men."

dissatisfaction with the definition was that it was not church made, but as-sociation made, that it remained un-changed from 1869 to 1905.

Bishop McDowell referred to the un-lon movement among the evangelical churches of the United States, which is represented by the federal council of evangelical churches, which met in New York in 1906. He declared that New York in 1906. He declared that the association should not insist upon making its own declaration in order to retain a certain theological sentiment inserted forty years, and offered the test of the Federal Evangelical Council, which had been adopted by the united sisterhoods of the Young Women's Christian Associations.

"By evangelical churches are meant those churches which because of their essential oneness in Jesus Christ as

essential oneness in Jesus Christ as their Divine Lord and Saviour, are entitled to representation in the federal council of the Churches of Christ in nerica snder the action of the Inter-nurch Conference held in New York ty, Nov.ember, 1905." Opposed to Change.

Mr. Messer, Chicago, declared him-elf opposed to the change in the Port-land test, but was in fovar of the re-commendation of Bishop Dowell that the member of any church subscribing

to the resolution of the federal council, who believes in "the essential oneness of Jesus Christ as their Divine Lord and Saviour," be eligible for official member in the YMCA.

Secretary Lewis, Cierciand, was in sympathy with Mr. Messers' motion, and thought it would strengthen the hands of the YMCA, in extending its sphere of operations. sphere of operations.
"If the federation of churches had a

body to membership which we might adopt, it would be different, but membership in the federation can only be gained by a two-thirds vot and not ipon application in accordance with the est," said Mr. Gillespie, Pittsburg sented by the commission. To this Mr. King Quincy, Mass, was strongly in favor of widening the sopoe of the Portland test. He was in favor of including Unitarians, Universalists and Roman Catholics.

Indee Spencer, St. Louis, was strong-particular of attorious to give each an op-

ly opposed to amending the Portland Alfred E. Marling of New York said basis. "If this resolution of Mr. Messr's he would also like to see basis. "If this resolution of Mr. Messr's carried, we have emasculated the Portland resolution, and if you do that you have no further potency in your work."

The Portland test had stood for forty years, and if it was amended as suggested every so-called evangelical church in the world, except the Jewish, would have the right to governing.

Alfred E. Marling of New York said he would also like to see a reference back, "and let us for three years more live on the old Portland test." If the committee did not serve as in the case of the convention should appoint another committee of 15 or at least fill vacancies.

While the amendment was being

The fifty acres recently put on the market for gardening purposes was disposed of at once, and we're able to secure another sub-division close by, but one half a mile nearer to Weston, which we are putting on sale starting Thanksgiving Day.

This division adjoins Weston on its eastern limit. It is known as the Bull Estate, and is splendidly rich land with a running stream through it. It will be cut up in one acre lots or more.

Call at the Property Thanks-giving Day-The trip will be enjoy-able and you will see some real estate that, with a little work and some watching, will prove ideal garden land and an investment of sterling quality.

Weston Building Lots

We have the pick of the building lots in Weston. Most of them are located in the very heart of the town, and on the height of land. There is waterworks and a splendid electric lighting system. Next year the land will have advanced to twice its present values.

The terms are very easy. The price very low: Five dollars the foot and upwards. Fifty cents the foot down and the balance in \$5.00

monthly payments.

Get in touch with us to-day. If you don't want a lot for your new home you can make money quickly by turning over some of this property.

Goulding & Hamilton Westen and 106 Victoria Street, Toronto

Take the Weston cars to our Office, Main Street, Weston, and our rigs will be there to take you to the property.

The Price Is More Than Reason- \$375 to \$600 Per Acre. Fifty Dollars the Acre able—the Terms Inviting— \$375 to \$600 and Ten Dollars Monthly Payments.

membership in the association and in the policy of the Y.M.C.A. He refused to accept any declaration that did not admit the inspiration of the Holy Scriptures and the divinity of Christ.

Mr. Cooper, Washington, thought that Judge Spencer had confused the issue. There was no proposal to substitute a personal for a church test, but he thought the association could afford to leave, that question, so far 2s the evangelical churches were concerned to the ruling of the federal council.

Church Union in Canada.

A delegate from Quebec reminded

the evangelical churches were concerned to the ruling of the federal council.

Church Union in Canada.

A delegate from Quebec reminded the association that a movement toward church union was in progress in Canada, and the proposed amendment Canada, and the proposed amendment differed slightly from article 2of the resolutions embodies in the proposed basis of union. If the Portland test was retained there would likely be ed in the union movement from gov-

erning membership in the Y.M.C.A.

Dr. Warner, New York, defended the resolution of the federal council. He was present when it was passed, and declared that the Y. M. C. A. could safely trust the sincerity and safely trust the sincerity and earnest-ness of the members of that body.

Moved to Refer Back. Delegate White of Indiana moved the resolution to refer back in amendment to Judge Spencer's motion. He was supported by Mr. West, who thought the convention was not pre-

to a man in favor of the Evangelica basis. He was thunderously applaud-The Morning Session. The Saturday morning session of the Y.M.C.A. convention was of a business

After E. R. Wood, the new pro had been introduced by Alfred E. Marling, C. J. Joy of Keokuk, Iowa, if any, were needed in the methods of religious work. He said newspapers had stated the object to be the ac-quisition of wealth, but the speaker contended that religious work was the

rapers on the subject were read by A. G. Studer of Detroit, on "Large Modern Buildings"; by C. R. Tomson of New York on "Civil and Industrial Opportunities," and by W. K. Cooper on "Growth of Brotherhoods and Kindred Organizations."

\$60,000,000 in Property.

Mr. Studer said the large modern building dated back to 1905, and during the last five years that the phenomenal growth of the association had occurred. In 1890 the association had \$10,000,000 of such property; in 1900 \$20,000,000, in 1905 \$30,000,000, and in 1910 \$60,000,000. The past five years have equaled that of the previous 40, while the year 1909 exceeded that of any one decade by more than six mil-

Mr. Tomson of New York said there were two great facts which faced the association, and which would require considerable study before they can be

considerable study before they can be dealt with successfully.

One of these was that there was in the membership of the association a large number of professing Christians who were rendering no definite Christian service anywhere, and the other that the great non-Christian membership, which was crowding into the various activities of the association, needed evangelization, and if it was to be accomplished it must be within the short period of their association life.

o spoke to the Y. M. C. A. Conven-tion on Saturday evening.

Grown Seeks to Examine Prisoner's Counsel, Who Refuses to Produce Important Letter.

Once more the application for behalf of "Rev." G. M. Atlas, serving six years in Kingston for theft of moneys from the widow of the murered Simoff, was opened before Judge Winchtester Saturday. George Tate Blackstock, K.C., appeared for Atlas in the absence of T. C. Robinette, K.C. The crow astrove to examine Willlam Douglas of counsel for Atlas upon his affidavit upon which the application is based. The examination became a long line of refusals to answer uestions as to the authority of statements in the affidavit upon the ground of privelige. Mr. Douglas refused to produce a letter from the British Vice-Consul at Salonika, Turkey, which a question of Crown Prosecutor Mona-han hinted cast doubt upon the evi-dence of the witnesses which Mr. Douglas wants to have examined by commission. Mr. Douglas denied this but refused to produce the letter. The case was adjourned until December 15.

PORTLAND, ORE., AFTER NEXT

CONVENTION. Portland, Oregon, is making a strong bid for the next International Y. M. C. A. convention in 1913. They have issued a very attractive brooch, displaying on the face an American beauty rise, as emblematic of "The Rose City."

WILLIAM CHATTERLEY'S DEATH. William Chatterley of Thornhill, who was struck and killed by a Metropolitan radial car Friday afternoon, was over 83 years of age, not 75 years, as

published in error.

The funeral will take place at 2.30 p.m. Monday, to the Methodist Ceme-

the short period of their association life.

Message to Young Men.

F. S. Brookman, one of the general secretaries from China, delivered a stirring address on the subject, "A Message To Young Men." It was not because of the fine building and complete equipment, and the interest taken by men of business, that attributed to the success of the movement, but because of the idea liself. "The Y.M.C.A." he said, "is an idea around which the building has grown; it is an idea which has been approved of by business men, and an idea which has carried the young men along with it."

The only danger, so far as the speaker could see, which might cause destruction to the association would be the fact that in the large amount of machinery at present in motion, the idea he lost sight of.

Mr. Brookman went back to the idea in its original state, and showed how it had expanded into one of the greatest forces for good in the world to-day.

The short period of the general section into bis councity. "Enertielty." is the satire that William Cillette has woven into bis comedy, "Electricity." is the satire that William Cillette has woven into be comedy, "Electricity." is the satire that William Cillette has woven into bis comedy, "Electricity." is the exthermal into bis comedy. "Electricity aristorated into bis comedy. "Electricity aristorated into the association of the greatest forces for good in the world to-day.

You can move on your farm at once and your first

self. At once he entered a suit against the paper that made his confesson public property. This good man evidently did not mean to be taken seriously. So, too, it is with a deal of our political scandal mongering. If our country and society were as near the bow wows as some would have us believe, neither the scandal monger nor we would live in it. It is Edmund Burke who laughs at such alarmists by comparing them to the noisy, useless, destructive grasshoppers who make the day hideous while the useful oxen lie quietly beneath the British oak and chew the cud. Everywhere we have men who love their kind and who hold open the door whereby others may enter upon a share of life's good things. Examples of self-denying service abound. The message of those who cultivate alarm and discouragement should be carefully weighed. The politician who drags abit of an opponent's dirty linen into light amid yells of delight, may have an axe to grind. It is the crow or the vulture who are drawn with noisy clamor to the decaying carcases in the landscape, but the statesman and prophet see therein the field wherein men work out their destiny. Greedines and meanness never have conquered for long, but love never fails.

It's the person who makes good that counts. It doesn't matter much what one's occupation is if he wants to count he must make good. "The lawyer who wins most cases is the best lawyer," wise old Ciliver Mowat used to say. He might have added, "It's the politician who initiates and who enforces the best legislation who is the best statesman." Whether one's business is making shoes or making sermons, sweeping up the store, or building railroads, one must make good or get out. It isn't talk that counts. It's getting into the arena where things are being done and doing the work of at least one that avails. Fault finding takes us but a little way. The wisest and best have erred. The person who never made a mistake never made anything. Refinement is all very well, but if the delicate nostril and the

It's a great thing to be reliable. To

Reliable people are attentive and unselfish. They give themselves no rest till they are well informed regarding what their work is and give themselves no rest till their work is well done. They are harder on themselves than they are on others and are found very often bearing other people's burdens. Little wonder that the reliable come to the front ranks and have a good share in rewards that the permanent share in rewards that the permanent and abiding. Reliability is an old-fashioned habit, but it is worth while

THE NEW PATRIOTISM

The NEW PATRIOTISM

The wide awake tradesman delights in offering the public something new. To be able to do this constantly is almost sure to attract business. Very often, however, the new thing is largely a matter of labels and window dressing and advertising. The so-called new thing in such cases is merely an old friend with a new dress and under a new name—and a new price.

Just now there is a demand for a new patriotism. The old patriotism has too much of the "pork barrel" about it. It admits of judges being appointed because they have been party workers rather than because they know the law and have a passion of the wily getting almost anything they ask for, provided only they wine and dine the powers that be. "Its motto is, "Every man has his price."

The new patriotism conserves the best principles practiced by the Cromwells and Pyms and Hampdens and Encoins and Mackenzies and Macdenalds of the best; but assiduously endeavors to make the province of the year when opportunities for securing immediate employment are necessarily limited.

ORE FROM GOWGANDA

Rich Samples From Transcontinent Property—Shaft Down 112 Feet

Specimens of silver bearing one from the property of the Transcontinental Silver Mines. Limited, at Gowganda, were received yesterday by the president of the company, Mr. A. E. Donovan. The samples were taken from a fissure containing black muck at a depth of 30 feet in the shaft, and showed values which indicated that if the ore continued at depth it would run something like 5000 ounces to the too.

The Transcontinental have sunk a sinaft 112 feet and have drifted about 60 feet. A recent report on the property made by the well-known mining engineer Mr. G. M. Colvocoresses, indicated that they were in close proximity to a large quantity of of silver bearing ore and that the claim was undoubtedly a valuable one.

The property immediately adjoins the Bishop, which is working in good ore. The veins run towards the Transcontinental, and the management of these.

Because of the unfavorable weather predicted for Saturday night and Sunday, the parade of the Grenadiers was called off Saturday night. The regiment will parade 7 a.m., sharp, Monday, with overcoats rolled and haver-

production in the mines for September for August; while the total for Sep-tember, 646,899 ounces, is another re-cord for a 30-day month. For the nine months of the present

The total value of gold pro from January 1 to September 30, in the Transvaal mines, is £23,776,193 against £23,257,918 for the correspond-ing period in 1909. This is an increase of 2 1-2 per cent. Next year's gain is expected to be larger, because the plants are being enlarged and fresh reserves are being opened. In workmen employed in the gold mines, there was an increase of 2000

Co., the Nova Scotia Steel & Coal Co., the Lake Superior Corporation, the Canada Iron Corporation, the Steel Co. of Canada and the newly-formed Steel & Radiation Co. of Canada.

The Dominion & Iron & Steel Co. has turned out on an average, during the past five years, about 229,600 tons of pig-iron and 248,740 tons of steel ingots per annum. With the cessation oof the pig iron and steel bounties, earnings of the company in the current fiscal year will probably suffer a loss of about \$200,000 but the plant improvements nearing completion, which will increase capacity 50 per cent and lewer operating costs, are expected to more than counteract this loss in the future.

Dividend and interest payments due of the corresponding period in 1909 and \$90,000,000 in 1908. Dividend disbursements will aggregate \$38,661,000, as against \$26,279,000 for last year and \$18,346,000 for 1908. Interest payable with \$35,928,000 for last year and \$68,-817,000 for 1908.

During the first eleven months of

During the first eleven months of Concerning the bounty on wire rods, which expires next June, President Flummer says that if it is not renewed and there is no tariff to take its place, profits of 1911-12 may be affected, as the wire rod tonnage will have to have been paid in interest and dividend disbursements the grand total of \$1,473.600,000. as compared with \$1,307,561,000 for the same period last year.

Among some of the large dividend disbursements this November are \$3,-not he serious however as there are \$3,-not he serious however as the serious however as the serious however as the serious serious however as the serious how he had here.

not be serious, however, as there are 674,475 on Great Northern, \$4,340,000 on other varieties of finished steel quite Northern Pacific, \$1,965,000 on the as profitable as wire rods. At the same | Grand Trunk and \$2,400,000 on the as profitable as wire rods. At the same time it will afford an opening for the surplus product of American competitors, as the consumption of rods in Canada runs from 150,000 to 175,000 Investors E tons a year and is increasing.

Investors Buy Industrial Issues. Jaffray, Cassels & Biggar say in a

market letter:

out doubt earnings will be somewhat affected unless operations are broadened and new business secured. However, in view of the fact that the securities as Consumers' Gas Stock, Canada Permanent, Bank Stocks, etc., indicates that investors are not seeking such securities at present. Gas stock has eased off in price without present importation of pig-iron by Canada is about 300,000 tons a year and of steel about 240,000 tons, it would Canada is about 300,000 tons a year and of steel about 240,000 tons, it would seem that there is plenty of trade in the Dominion for all concerned as this tonnage could just as well be taken care of by local manufacturers according to a Canadian expert. The total production of pig-iron in Canada has grown from 165,900 tons in 1901 to 609,400 tons last year and steel ingots went to steel above. This is one of the 609,400 tons last year and steel ingots mentioned above. This is one of the from 33,300 to 570,600 tons during the results of the higher cost of living.

NEW CHINESE LOAN.

PEKIN, Oct. 29.-An imperial edict issued to-day authorizes the proposed loan of \$50,000,000 from the American group of financiers. Of the loan, \$5,-000,000 and possibly \$10,000,000 will be devoted to industrial improvements in Manchuria. A large portion will be used in the extension of the planned currency reform.

WALL STREET

ON WALL STREET.

Erickson Perkins & Co. had the fol- M.S.P. & S.S.M. lowing: Stocks sagged off at close. the reaction will go much further. A the reaction will go much further. A rally is due early next week. Buy for a turn on any further break. The local bank statement furnished the principal news of the day and doubtless induced some selling of stocks. It was not as bad as expected, but not what we would call a good one.

Chas. Head & Co. to R. R. Bongard:

There was little feature to the market

nere was little feature to the market There was little teature to the market this morning, and the absence of many brokers who went to the aviation grounds caused an inactive and uncertain speculation. Heavy selling of Steel tended to depress prices, the belief gaining ground that inside interests, while talking buildship, were, actually realizing on their holdings. The coming election tends to restrict speccoming election tends to restrict spec-ulation and to reduce commitments. For the next week we anticipate an ir-regular market and should take adregular market and should take advantage of strong railies to sell, and buy only on good breaks. Cotton was weak, notwithstanding the frost reports from the west. Wheat and corn were also a fraction down. The bank statement showed a loss of only \$1,000,000 in reserve actual, with a decrease of \$4,500,000 in loans, a more satisfactory showing than looked for. Closing prices were weak at near lowest.

CHICAGO GOSSIP.

J. P. Bickell & Co. say at the close: tons a year and is increasing.

Lake Superior Corporation, owns, among other concerns, the Algoma Iron Works, the Algoma Steel Co., Ltd., the Effect of the commercial confidence and the Lake Superior Iron & Steel, of rails and 500 tons of pig-iron a day. The Canada Iron Corporation, a consolidation of several companies, has a possible output of about 1200 tons of steel a day and 800 tons of rails. The products of the Steel Co. of Canada market is feeling the effect of the firmer money products of the Steel Co. of Canada market is feeling the effect of the firmer money markets, is showing the effect of the commercial confidence inspired by the generally good crops of the past season. The report of Canadian banks as of September 30, showed a substantial increase in despite the stock market is feeling the effect of the firmer money products of the Steel Co. of Canada market etter:

J. P. Bickell & Co. say at the close: Wheat—Continued dulness in cash demand in principal markets of America and light speculative support were again the factors in making new low canadian banks as of September 30, showed a substantial increase in despite to the stock market is feeling the effect of the firmer money but continue to believe that values market and some liquidation appears but continue to believe that values must decline to a continue to believe that values must decline to continue to believe that values must decline to continue to be the continue to the continue t steel a day and 800 tons of ralls. The products of the Steel Co. of Canada consists of pig-iron, open hearth steel, shapes, spikes, bolts, nuts, iron pipe, etc., etc.

Just how much these different or Just how much these different or securities have had substantial advances, and that a digestive period bulges. Modern rate profits to be accepted.

COTTON GOSSIP.

Erickson Perkins & Co. had the fol-lowing: Firm Liverpool cables and re-ports of wintry conditions at various during the early session and prices rold off sharply, with the absence of support a feature. The selling movement was attributed to a bearlsh crop estiwas attributed to a bearish crop estimate of 12,600,000, but many regarded it as a demonstration to offset frost damage reports and bring about a lower market next week, when weather conditions show the improvement indicated by to-day's forecast. Look for a resumption of trade demand towards 14 cents and doubt the market can work thru that level, unless southern markets show marked weakness. We advise purchases on a scale down on further weakness.

unchanged; receipts 3419. Cheese—Steady, unchanged; receipts

Eggs—Quiet; receipts 6359; fresh gathered extra first, 21c to 31c; frst, 26c to 38c

LIVERPOOL, Oct. 29.—John Robers & Co., Liverpool, cable to-day that, owing to the beef trade finishing badly thruout the country, and with great numbers of cattle coming into the home markets, there was a general decline in the Birkenhead market, averone-half cent all round, full quotations being: States steers from 12 3-4c to 13 1-4c; Canadians, from 12 1-4c to 13c. and ranchers from 1c to 12c per pound,

Peas-No. 2, 85c to 86c, outside.

Local grain dealers' quotations are as Wheat-No. 2 red, white or mixed, 84c to 85c, outside. eral opinion considers the first estimate, which is the government's, as CAUSES OF ADVANCE too low, the consensus placing the crop too low, the consensus placing the crop at between 12,000,000 and 12,500,000 bales. A difference of 1,000,000 bales is of vital importance to the cotton oll companies, since a large crop means low cost of raw material and correspondingly larger margin of profit. Oll prices at the present time are highest in the history of the industry, but seed prices are correspondingly up. It to ing, as one manufacturer paintively sald, "considerably higher than it is worth." Manitoba wheat-No. 1 northern, 9846; No. 2 northern, 8346, track, lake ports. Ontario flour-Winter wheat flour, \$3,60,

worth."

As other companies are dependent upon fluctuations in general business, so the cotton oil companies are dependent upon the cotton crop. A 11,500,000 bale year coming upon the relatively small 1909 crop would leave rather lean pickings for the oil companies, while a 13,000,000 bale year would permit them to show generous earnings, all other things being equal. Manitoba flour-Quotations at Toronto, are: First patents, \$5.70; second patents, \$5.20; strong bakers', \$5. Mill feed-Manitoba bran, \$19 per ton; shorts, \$21: Ontafio bran, \$20 in bags, Shorts, \$22; track, Toronto.

WHEAT EXPORTS

St. Lawrence granulated, \$4.85 per cwt., in barrels; No. 1 golden, \$4.85 per cwt., in bags.

These prices are for delivery here. Car. (01), lots 5c less. In 100-lb, bags prices are 3c less.

for new corn would be \$1.523,000,000. The next largest item is for live stock, including all classes of animals disposed of from ranges and farms. This is placed at \$1,500,000,000. The third largest item includes cotton and cotton seed, which together represent a value of \$998,200,000, or nearly \$1,000,000,000. Compared with earlier years, the crop values of the United States have

GRAPHOPHONE RECURDS

Continued From Page 1.

haltering of motkey, the howing and growling of larger game, was as a

After partaking of light reireshments and feeling weary and exhausted owing to the intense heat, we stratened our hammocks and prepared to sleep. Our simber was of short duration, as we were awakened by loud trumpeting of a herd of eiephants, which were on their way, as is their custom, to drink the cools waters of the evening after sindown. It was truly a grand sight to see these majestic beasts of the jungle filing and holding each other's tall in a procession at least of two hundred yards. Following them came several stray lions and black jaguars; the whole jungle surroundings seemed to be awake. The screeching of the parrots or "crows" in that country as they are called, and other noises from various animals and birds gave the effect of a huge pandemonium. Sleep also was impossible owing to the gigantic proportions of the mosquito, combined with the irritable sting of the sand fly. We contented ourseives by taking careful survey of the movements of the apes that we could see by the aid of our flashlights. The dawn of day was very welcome.

Fight Between Gorilla and Baboon.

As we were about to prepare to leave our cage, we were greeted by a tremendous roar. At first we thought it was that of a lion, but emerging from the undergrowth we saw a large gorilla followed by a baboon of much the same proportions. It was soon evident that a flerce encounter was taking place between the two beasts. The gorilla selzed the baboon by the throat and tore off great chunks of flesh. The baboon at the same time was using his feet with deadly effect on the gorilla, simply ripping him to pieces. The combat only lasted a few minutes, as the baboon gave one hideous dying yell and fell over—dead. A friendly bullet exterminated the dying gorilla, which was fired by Dr. Blake.

Ramble in the Jungle. Fight Between Gorilla and Baboon. Ramble in the Jungle.

Ramble in the Jungle.

Taking with us a receiving gramophone we penetrated into the heart of the bush to enable us to get in a secreted position, so as to catch the sounds of the ape at home unobserved. After having taken several records we were surprised at seeing a most curious specimen of manhood, known to the world as "a member of the Pigmy tribe." This little fellow, who was of some three feet in stature, hairy and carried bow and arrow, climbed like a monkey up a cocoa nut tree and proceeded to throw cocoa nuts down upon monkey up a cocoa nut tree and proceeded to throw cocoa nuts down upon us. We discovered that we were in the midst of a Pigmy kraal, as on peering into the trees we discovered numbers of small houses built in the branches of the trees. Now this tribe lives entirely on fruit and vegetables, which consist of yams, a vegetable similar to the potato, which grows profusely in its native soil. As is generally known, the Pigmies are the only known, the Pigmies are the only trible known to use as a weapon the puff and arrow to kill same for their daily food. The "puff" is made from bamboo, hollowed out and made much bamboo, hollowed out and made much in the shape of an ordinary bow. Stanin the snape of an ordinary bow. Stan-ley in his description of the Pigmy tribe gives us a short account of their habits and customs. They are the nearest approach or akin to the monkey in general habits and appear-

After five days of successful research and having obtained results which Prof. Lorenz thought he had achieved in achieving the solution of the monkey language problem, it was dicded to pen-etrate further into the jungle, with the object of not being discovered by the ubiquitous Pigmy, we were just in the act of packing our belongings when a low whistle was distinctly heard "a calling" peculiar to the African native. On peering around we could not discern from whence the sound came. Suddenly several arrows flew around us, one striking Dr. Blake on the chest. Fortunately the arrow was misspent having glanced off the bars of our cage We immediately prepared to defe ourselves with our small arms and gotour Garling gun ready for action.

Captured by Cannibals.

Much to our intense surprise at least a hundred warriors in their native at-tire appeared above the undergrowth, and with gestures of a threatening nature ran towards our cage. Nothing but surrender was available and we were carried on litters to their kraal. At first we thought that the tribe was hostile to the white people, but we soon learned that they had captured us for ransom from the British Government, which is a daily occurrence in the vi-cinity of the Congo and the Niger, owing to the fact that since the massacre at Benin in 1909, where 11 British offisunrise there is a sacrifice offered the king, a member of a neighboring tribe. This unfortunate individual is led be-fore the king and his warriors and the which is supposed to be sacred, and is bound with palm leaves, and ant hills are then built around him, the remarkawful ordeal the warriors are alternately dancing and feasting and hold-

NEW SY TEM OF FAT REDUCTION

The saying that "there is nothing new the surface, and smelting the same The saying that "there is nothing new urder the sun' does not now apply to fat people. Here is comething new for theman new sensation, a new pleasure, a new and graceful figure, easily found by anyone who is passing beyond the limits of slimness. Everyone has heard of the Marnola Prescription; that harmless combination of fat-defying elements discovered by one of our foremost physicians. Now, from the same high authority there comes another idea—the idea of condenses. cornes another idea—the idea of condensing the esame pure, harmless ingredients into a plea ant little tablet. Taken after eating and at bedtime they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you will at bodily exertion and self-denial cannot do and the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you will at bodily exertion and self-denial cannot do and the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets are sold by all druggists or sent post pold by the Marmola Co., 87 Monnoe Ave., Detroit, Mich. A large case—sufficient to bring lasting results—is but 75c.

The greatest rubber market in the world exists in Bibannia—Lagor, Acara and Forcados, and the Valley of Victoria Nyanza and Albert Nyanza, pot in Belgium as is generally supposed. The rubber market is not controlled by the King of the Belgians, but by Lonion syndicates controlled by the King of the Belgians, but by Lonion syndicates controlled by the Marmola Co., 87 Monnoe Ave., Detroit, Mich. A large case—sufficient to bring lasting results—is but 75c. omes another idea—the idea of condens-

ing a "pot-lach" similar to the Indians

Miss Blanche Martin, with the "Empire Burlesquers" at the Star

cers were killed, the natives now think in America. A more gruesome sight that they will be rewarded by every could not be witnessed by a white man. white trader or prospector they may deliver safely to the government officials. Our experience in the kraal of the King of Akassa was weird and also interesting. We were treated to their warlike festivities, which they termed a ju-ju dance—that is, that at every sunrise there is a sacrifice offered the rate, where we were well cared for until the British gunboat Sparrow took us aboard for England. Mining in Africa.

Theatre this week.

There is no doubt that the Queen of

Sheba derived her gold from Africa to bestow on Solomon, as we saw old mining shafts which were not more are then built around him, the the flesh able denizers which consume the flesh than 12 feet in circumference and not in about an hour's time. During this greater than 15) in depth. These mines have distinct traces of ledges or foothales cut in the decayed quartz, which the natives evidently used as a Jacob's ladder, bringing the pieces and dwelling house of T. M. Carpenter at quartz on the top of their heads to

GENTLEMEN SINGLES,

METROPOLITAN CARNIVAL Thursday Evening, Nov. 3, (the night for iun). No Costumes. All take part,

Select patronage. Mrs. George ri. Macdonaid (former-ly Miss Florence Crawford) held her wedding reception on Friday afternoon at her pretty new home in Rathnally-avenue, where the drawing room was decorated with pink chrysanthemums and the polished tea table was done with the same flowers in shades of yellow and was in the charge of Mrs. Moray Anderson and Mrs. Uren. The assistants were the bride's pretty young sister, Miss Hiadee Crawford, in her bridesmaid's gown of pale blue satin, with hat to match; Mrs. Temple and the Misses Beatrice and Ethel Webster. Mrs. Macdonald looked very handsome in her wedding gown of white satin, with real lace and pearls and a corsage bouquet cut of mauve orchids and lily of the vailey. A few of these calling at 5 o'clock were: Miss Foy, Mrs. Macdonald, Mrs. Boehme, Mr. Frank Johnston, Mrs. Frank Morgan, the Misses Moyes, Mrs. McWhinney, Mrs. Frank Polson.

mey, Mrs. Frank Polson.

Mrs. White's Dance on Friday Evening Mr. and Mrs. W. P. White were the host and hostess of a very jolly dance for young people at the Metropolitan Assembly Rooms on Friday evening, when about 150 young friends of their debutantes enjoyed a thoroly successful dance, the floor at no time being overcrowded, and music, decorations and supper being all of the best. Mrs. White was in an imported black gown over gold, with garniture of jet, and Miss Mabel White wore a cream satin and gold dress, while Miss Florence White was equally pretty in pale blue, both carrying beautiful bouquets. Some of the guests were: Mr. and Mrs. I A. M. Alley, Mr. and Mrs. R. J. Copeland, Mrs. Norman Sinclair, Mrs. Radley, Mr. and Mrs. Erik Jacques, Miss Elsie Jacques, the ape was the basis and origin of the human speech has never been proved conclusively, and the writer, from close observation and deep study.

tremely well, Mrs. Alley being in white brocade, with Brussels lace. Mr. Gib-son, Mr. Jolliffe, Mr. Emmet, Mrs. Snelson, Mr. Jolliffe, Mr. Emmet, Mrs. Shel-grove, Miss Madison, Miss Dunbar, in pale blue and white net over satin, Mr. Duff, Mr. F. Kechie, Mr. Harry Lati-mer, Mr. Hooper, Mr. Curry, Miss Ruth Curry in pink, Miss Ferguson in yel-low and pale blue, Miss Ruth Leoudon debutante, was one of the prettist girls present, wearing pale blue chiffon over satin; the Misses Gage, Miss Winona guire, Miss Beatrice Rough in a smart

Carroll in a becoming white chiffon frock over pink and white satin, with trimmings of roses; the Misses Brush, Mr. and Mrs. Ross Howard, the Misses MacLaurin, Miss Marjorie Brown in pink, Miss Muriel Bicknell, Miss Marguire Miss Restrict Revent Mauve and silver frock, Miss Hilda Kemmerer in a cerise satin gown, veil-ed with black chiffon; Miss Douglas looked lovely in white satin, with black chiffon tunic.

Three more deputantes made their bow to Toronto society at large teas on Friday afternoon—Miss Petika Gamble Geddes, brought out by her grandmother, Mrs. Edward Jones of Churchstreet; Miss Helen Stevenson, daughter of Mrs. George Stevenson; and Miss Margaret Eddis, the daughter of the third Mrs. Wilton Eddis third Mrs. Wilton Eddis. At Mrs. Jones' tea the debutante was in pink silk crepe, hand embroidered in the same shade, and carried pink rose. The tea table was done with pink roses and lily of the valley in an artistic basket and lighted by silver and pink shaded candles; the servers were: Mrs. Mossom Boyd, Miss Florence Heward, the Misses Edwards, Miss Yarker, Miss Florence Mackengie Miss Nan Grent Eleanor Mackenzie, Miss Nan Grant, Miss Gordon Mackenzie and Miss Violet Heward. At Mrs. Eddis' tea the hostess was in a mause crepe de chene embroidered gown, and her daughter the ape was the basis and origin of the human speech has never been proved conclusively, and the writer, from close observation and deep stully, after three successive trips to the banks of the Niger and Congo, must relevate the theory to that nebulous region which Andrew Lang is pleased to call "a myth."

FOUR PERSONS CREMATED.

LA PLATA, Md., Oct. 29.—Four persons lost their lives in a fire which destroyed the combination storehouse and dwelling house of T. M. Carpenter at Plsgah, Md., early this morning.

Mrs. Erik Jacques, Miss Elsie Jacques, debutante, in a pretty and becoming blue frock; Miss Marguerite Carrick, Miss Marguerite Cotton, in white lace; Dr. Norman Wilson, Mr. Victor Dyas, Mrs. Herbert Klotz, Mr. Reginald Forneret, Mr. Stanley Thompson, Dr. Stewson wore a handsome and becoming black velvet gown with jet and silver, and was carrying a bouquet of violets, while her pretty fair daughter wore white satin over gliver tissue and carried lily of the valley and pink roses and chrysanthemans, and the assistants were Miss was warning a beautiful dress of moire, brocaded with roses and velled with silver net, hemmed with blue satin, Miss Parry wearing white. The Misses Alley were in pale pink and pale blue ing to the house for an informal dance. wore white embroidered point d'esprit over satin and carried pink coses. Those

RESTIGUICHE, 4-5 Good . me at Rosedale Ends in Favor of Argos

Binkiey and Dissette Star -Score 11-4.

ROSEDALE, Oct. 29.-Argos defeated Ottawa in a hotly contested game by 11 to 4 here to-day before fully 3000 people. The game was not as good football as the Saturday previous, numerous fumbles behind the line marring the game. Binkley had somewhat the best of the exchange of punts with Williams and the Argo line were considerably better than the Ottawa Murray, the Argo outside wing, was ent factor in the victory and was Huether and Wigle was of great strength and was the necessary improvement over ast Saturday's line.

Ottawa Scores One Point.

First whatter—Ottawa won the toss and decided to kick with what wind was blowing and the ball was soon in Argo territory. Vaughan and Murray were penalized for two minutes. Both wings followed up fast. Addison and McCuaig were ruled off for two minutes with play around midfield. Gerard made a nice run thru a broken line and kent was ruled off for a trip. Murphy ran for 25 yards on a pass from Sinclair. Murray made a nice tackle of Johnston from a long kick by Binkley. Dissette ran back Williams' kick. Kilmartin stole the ball and Ottawa got 10 yards for an offside. Kilt secured when Levack fumbled. Williams kicked on first down and Binkley fumbled. He saved, but was forced to rouge. Ottawa 1, Argos 0. Argonauts gained on hocks by Baneroft and Newpert. Ottawa Scores One Point.

Fourth Quarter—on resumption of play, with a yard to go, Wilhiams kickeded and Murphy was forced to rouge. Argos 10. Ottawa 2. Sinciair bucked for nearly 10 yards, but Murphy was forced back on fine play. Williams made a grand run of Binkley's kick, undoubtenly the best Fun. of the game so far. Ottawa forced matters. An injury to an Argo player caused a delay. Williams kicked to binkley on resumption of play, and the latter was downed for a rouge. A delay was again caused, this time for a broken lace. Argos 10, Ottawa 3. Husher bucked well. Gerard fumbled binkley's kick, but saved. Meeghan had a beautiful chance, but overran his man. Williams again did good work, carrying the ball. Argonauts did not dowel bucking the line, and Binkley kicked into touch at nalf-way. Williams kicked on first down and Dissette carried into touch. Williams was tackled at midfield by Murray, but passed ball when he was downed to Gerard, who ran for a gain. Williams made a kick at Murray after he got up, a very dirty plece of work. Linkley kicked into his own scrimmage and an argument arose over possession of the ball. Argos secured, but lost on offside. Ottawa then ran around the end for a gain, but lost ground on the next buck. Williams kicked on third down and Murphy rouged. Argos 10, 113 and 114 argonalized, to be followed by Meeghan. Williams was forced into touch at Ottawa's 10-yard line on Dissette's kick. Argos had better of the play. Newport was penalized, to be followed by Meeghan. Williams was thrown back over his own line. A rouge was all that was allowed, tho a safety touch was the proper score. Game over.

ARGOS 11, Ottawa 4.

Summary: 1st quarter, Ottawa, rouge 1, Argos nil.

2rd quarter: Argos, rouge 1, try (Levack) 5, 20noverted (Binkley) 1, rouge 1; Ottawa nil.

3rd quarter: Argos, rouge 1, try (Levack) 5, 20noverted (Binkley) 1, rouge 1; Ottawa nil.

T. and D. Results, 3 All Saints

R.M.C. Win Intermediate Intercollegiate 18 to 0

KINGSTON, Oct. 29.—In a game on Royal Military College campus to-day, Cadets cinched their hold on the series of the Intermediate Collegiate Bugby Union by defeating McGill IL, 18 to 0. The haif-time score was II—0, and three-quarters 12—0. Cadets had all their own way thruout, showing great superiority over McGill. There were several accidents, both sides suffering from hard tackling. Cadets will play Varsity II. next week. Look for hard battle. The teams lined up as follows:

lows:
R. M. C. (18)—Full, Galt; halves, Smith, Robertson, K. Stewart; quarter, Lausen; scrimmage, Irving, Pierce, Young; wings, Sweeney, Arnoldi, Goldie, Roberts, Gwynne, Lewis.
McGill (0)—Full, Underhill; halves, Dujoie, Lee, Denylas; quarter, Lange; scrimmage, Gailagher, Carnuarth, Dixon; wings, Cockfield, Oughtred, Stanton, Digby, McLeod, Wilkes.
Referees—Dawson (R.M.C.), Matron (McGill).

Saturday at 16 o'clock on the Varsity oval, Varsity III. defeated O.A.C. by the overwhelming score of 23 to 2.

O.A.C. Seniors defaulted to Varsity II. but sent down their second team, strengthened by some of their senior men. Varsity drafted a couple of men from the Varsity II. to even up, which was evidently needless, as the score shows.

Queens Win Out.

Leckie sco ed 2 point for Queens in the first five minutes of the fourth quarter. McGill repeatedly bucked, but the local students stood staunch. Leckie kicked, but Forbes brought the ball out, only to lose it in the first scrimmage. Queens had the ball on the line, but could not back the ball on the line, but could not back for a touch. On the last down Leckle kicked for a point. Score: Queens 12, McGill 10. Forbes fumbled Leckle's kick, and Elliott pulled him down for a point for Queens. McGill lost the ball on downs and Leckle kicked to Murray, who fumbled the ball into Silter's hands. Leckle kicked, but Forbes brought the ball out in an exchange of kicks, Billington kicked out of his line and Elliott secured the ball. He was laid out in the scrimmage, but resumed play. Leckle kicked another point. Score: Queens 14, McGill 10, Queens were given the ball on a forward pass, and, with half a minute to play, Leckle kicked to Forbes, who brought the ball out. Game over. Score: QUEENS 14, McGILL 10.

900 FREIGHT CARS BURNED.

TOPEKA, Kas., Oct. 29.-Fire here to-day in the storage yards of the At-chison, Topeka and Santa Fe Raliway destroyed 900 freight cars, entailing a loss estimated at close to \$800,000. The his shops of the company were saved thru the efforts of the 3000 men employed in them.

OR TACKLING A GOOD MEAL.

Ben Simpson's Good Kicking Gains Victory for Tigers, Who Double Score and Take Lead in the League Racei

MONTREAL, Oct. 29.—George Kelly, Montreal's great line plunger, was miss-ing when the red and black lined up against the Hamilton Tigers this afternoon. Kid Smith was also missing from the Tigers and the teams showed the following make-up when they took the field

Montreal: Full back, Stinson; halves Craig, Williams, W. Baillie; quarter, But Balllie; serimmage, Ryan, McAllen, Calls; wings, Egan, J. Ballite, Cameron, Laidlaw, McMurtry, Savage.

Hamilton: Full back, George Smith haives, Ben Simpson, Art Moore, Burton quarter, Awrey; scrimmage, Craig, Cleiffer, Scott; wings, Glassford, Gatenby, Barrow, Isbister, Marshall, McFarlane. Phil McKenzie and George Ballard, of-

Even Up First Quarter.

First Quarter—Tigers got the first point on a rouge by Bill Baillie. Stinson's fumble on Montreal's 25-yard gave the Tigers their openins. Play continued in Montreal's quarters. Montreal worked it slowly to centre. Finally, after the Tigers had twice been hard pressed on their line, McMurtry forced Smith to rouge. Hamilton's Montreal's Buz Baillie and Camilton's Montreal's Buz Baillie and Camilton's Montreal's European and play mostly in centre field, with Montreal having shade the advantage Quarter ended with Montreal in possession at midfield.

MONTREAL'S TIGERS I.

Tigers Drop Behind.

Tigers started off by getting a rouge early in the second quarter. Craig fumbled on his ten-yard line and Ghassfurd got the bail From the first scrimmage Simpson kicked and Stinson rouged. Play continued in Moutreal quarter, and then worked to midfield. Williams' long kick gave Tiger backs some hard ones to handle, but they did it well until, from forty yards out. Williams booted to the line. Moore slipped going for the ball, and before Smith could get to it Craig, who was onside on the play, rushed thru and was over the Tigers' line under the goal posts for a try, which Colis converted. Montreal 7. Tigers 2. Tigers had the better of the play to the end of the quarter, and got one rouge. Montreal backs caught well under the constant kicking of Simpson, but were nearly all the time on the defensive. Half-time score:

Keynote of Struggie.

Boys, Monday is Hallowe'en. When "we" were boys there were many doings on the last evening of October. Nowadays, however, it isn't safe to cut up, for the police are alert, but here are some of the pranks that made Hallowe'en worth while in the days of long ago:

FORCE OF 3000 MEI

Paddlers Pile Up Big Score and Rivalry Between Toronto Win by 41 to 6 in Onesided Game.

St. Michael's met their "Waterloo" on Saturday afternoon in a Junior O. on Saturday afternoon in a Junior O. R.F.U. game with Parkdale at Trinity College campus. From the start, Parkdale seemed the better team, and they early commenced to pile up the score. Their back division was especially strong, and their wings held St. Michaels in great fashion. St. Michaels did some good tackling, but their line was lamentably weak, and did not hold at all against Parkdale's rushes. The final score was: Parkdale's 41, St. Michaels 6. The teams lined up as follows: rushes. The final score was: Park-dale 41, St. Michae's 6. The teams lined up as follows: Parkdale—Full back, Adams; halves, Hunter, Cumming, neuderson; quar-ter, Graham; scrimmage, Woods, ter, Graham; scrimmage, Woods, the rivalry is friendly and free from the slightest hatred, but for the fun of being rivals the two cities are such. Hamilton is a line place, and when

ter ended Parkdale made another rouge, and when the whistle blew the score was:

PARKDALE 8, ST. MICHAELS 0.

Second Quarter—l'arkdale started in whirlwind fashion and scored a try in the first minute of play, which Graham succeeded in converting, and the score stood 14-0. St. Miques, however, got vigorous at this stage and gradually made their way towards the Parkdale goal line, and forced the Paddlers to rouge. Following up their initial score, St. Miques got busy and secured a try, which they didn't succeed in converting. This was the end of their scoring, for Parkdale again assumed the aggressive, and got over for a try. Graham failed to convert, and time was called. Score at half-time:

PARKDALE 19, ST. MICHAELS 6.

Third Quarter—After some pretty even play had been gone thru, Pell got a try for Parkdale, but again Graham was unable to convert. The teams were pretty equal and some strenuous work was done. Parkdale gradually forcing their opponents back. Right on their own dead line St. Miques got the ball and drove Parkdale some 30 yards up the field again, but the green and white returned to the attack, and secured a try almost square on the dead line. Graham was successful this time in converting.

Parkdale 31, St. Michaels 6.

line. Graham was successful this time in converting.

Parkdale 31, St. Michaels 6.

Fourth Quarter—Parkdale continued to force the play, and Hunter got a try for Parkdale, but "Dago" didn't convert. Adams, the Parkdale full-back, made a pretty run half-way down the field at this stage, but St. Miques prevented further scoring and time was called. Final score:

PARKDALE 41, ST. MICHAELS 6. Brig-Gen. W. H. Cotton will be director of manoeuvres. The conference after the smoke has chared away, the wounded have been attended, and the dead hursed will be held somewhere near Erindale. The chief umpires are Lieut-Col. Bertram and Tiout-Col. Crowe. They wil jank over

THE BOXING TOURNEY

Seating Well Arranged—Semi-Finals and Finals Monday and Tuesday.

The big crowd on opening night of the The big crowd on opening night of the city boxing tournament in Mutual-street Rink was never better handled than or Saturday. The new ringside arrangement enabled every coupon-holder to secure his seat without inconvenience, still giving ample room for the boxers, seconds and trainers, who were not engaged, in the horth tiers.

The preliminary bouts were put on promptly, and indicate large crowds at the semi-finals Monday, and the final bouts on Tuesday night,

From present appearances this will be the only tournament of the season.

TEMPORARY FRINCIPAL Rev. Prof. Patton Will Act as Head of Wesleyan College.

MONTREAL, Oct. 29.—(Special.)— Rev. Prof. Walter M. Patton will act temporarily as principal of Wesleyan Theological College. This appointment neological College. This appointment has been made by the executive of the college board, pending the selection of a permanent head, in succession to Principal Shaw. Mr. Shaw's professional duties will be shared, for the present, among the different members of the staff.

A meeting of the college board will be called shortly to consider the sa-lection of a new principal. Rev. Dr. W. R. Young has been mentioned in well informed circles as a probable choice for the post.

"Broderick" clothing is better, much better, than you'll get at a similar price elsewhere. We know this because our business is growing by leaps and bounds, and nearly every new customer says to us, "I want an overcoat Made-to-Order same as Mr. So-and-So got here last week."

> Anyway, "Broderick" has been making good clothes for some time now, and he is increasing his reputation every day. If you want to know just how good "Broderick Overcoats" are, place that Fall order now.

"Overcoating" from the best mills in Scot-land and England. Worsteds from Wake-field, Holmfrith, and Barnfather. Cheviots. Also the famous "Leith Serge" in blue or black, made from the best of Botany Bay yarn dyed in the wool. All our clothes are guaranteed to fit, and are made and finished

"LEITH SERGE." We are sole Canadian agents for this splendid serge. We have tested it during the past ten years, and Mr. Broderick, while in England two years ago, secured the exclusive agency for "Leith Serge" in Canada. "Leith Serge" has more than lived up to our expectations, and is acknowledged to be the best product in that

On account of the cold, the Royal Grenadiers, who were to have left Toronto Saturday evening and spent Sunday near Port Credit, will not leave until Monday morning.

NEARLY 500-HUNTERS LEAVE BY C.N.R. TRAIL

'Twas a Busy Saturday at the Union Station-Emigrant Train Arrives.

Saturday was a great day for the railway companies. Altho no figures relative to the crowds were obtainable

interior of the Union Station was enough to prove that the business was the biggest since Laber Day : From the main entrace, thru the big waiting room and right down to the platforms, was one solid, seething mass of people, and all rules of order were completely suspended at the sacred gateway, beyond which no one is supposed to pass without a ticket. "Yell out where you want to go," was he oft-repeated request of the official in charge, and they surged thru in pairs and in dozens, scarcely waiting for their respective track numbers to be told them.

Down on the platforms all seemed confusion, but nevertheless order was constantly evolved out of apparent chaos, and most of the trains, regular and extra, pulled out marvelously close to "on time." Nearly every regular train both Grand Trunk and C.P.R., went out in two sections, and those that didn't had two engines and many extra cars. To add to the excitement, a long emigrant train pulled up from Montreal at about 8 o'clock, 27 Detied several hundreds of bewildered

tied several hundreds of bewildered strangers into the crowd.

The chief event of the evening was the departure of the C. N. R. hunters' special to Sudbury, at 10.20, which consisted of two sleepers. sisted of two sleepers, five coaches, and three baggage cars. Every seat was taken, and fully 450 people were on the community that the some muzzle law, which spoils part of the sport by preventing the use of dogs. The Grand Trunk train to Cobalt also took out a large party of sportsmen.

All the ticket offices, both uptown and in the station, did a land office business, as many passengers left the buying of their tickets until the last possible moment. Lines of twenty and thirty were continuously drawn up front of each of the wickets at the ation entrance, and a temporary oth, stationed in the middle of the allway, also served enormous numbers

urried holiday makers.

DETROIT, Oct. 29.-Ptomaine poi

oning, the after effects from which

FIRE AT SEAFORTH

Destroyed the Kidd Block, Occupied by Clothing and Drygoods Firms.

SEAFORTH, Oct. 29 .- A serious fire soning, the after effects from which he had suffered two years, resulted in the death of William C. Barr, former superintendent of the Algoma Central Steamship Line, at his home, this city. He is survived by a widow and the sister Mr. Barr was a veteran marine engineer, with friends in every port on the great lakes. About it years ago he became superintendent of the Algoma Central Steamship Line, and subsequently spent three winters in Europe looking after the interests of vessels of that fleet, that had been sent down to the Atlantic coast to engage in ocean trade.

SEAFORTH, Oct. 29.—A serious three broke out after midnight in the premises known as the Kidd block on the west side of Main-street, formerly occupied by W. Pickard & Son. Since Mr. Pickard's removal to Calgary, the building has been thoroly remodeled, and the time of the fire was occupied by the Greig Clothing Co., and J. F. Robinson & Co., dry goods. As far as can be ascertained at the present time, the insurance will about cover the loss. The origin of the fire is unknown.

Women were as prejudiced as men, departmental stores would go out of business.

When a big store advertises "\$25 suits for \$12.50," a woman does not say "I don't believe it" or "They can't do it."

No, sir-she has an early breakfast, is right in line when the bell rings, and she sees for herself if those suits are as good as the advertisement said they were.

When we say "NOBLEMEN" cigars equal any imported brand at double the price, don't sit back and say, "It can't be possible."

It can be possible—it is possible—and the first "NOBLEMEN" you smoke will prove it.

"NOBLEMEN" Size, 2 for a quarter. "PANETILAS" Size, 100 straight "CONCHA FINA" Size, 3 for 250.

8. DAVIS & SONS, Limited, Montres Makers of the Famous "PERFECTION" 100 Cigar.

The Brockton Shoe Company has used space in this paper nearly every Sunday during the last year to advertise its goods. To-morrow will be Thanksgiving Day and it seems only right that we should acknowledge in some way the very prosperous harvest that has come to us in the way of splendid support by the citizens of Toronto. The "Brockton Shoe Company feel very grateful and exceedingly thankful for all the prosperity that is reflected in the tremendous sales recorded since its opening in Toronto.

as there were only about a dozen and a half of bowlers in the City Two-man league last year it narrows the competition down and therefore would not be what it is intended to be a just sen of the city champion.

League games have always been look.
ed upon and defined as contests between
two sets of five men and any change
from that puts the rollers on a different plane, which should not be in a
fair competition. If two-man games
are admitted then individual contests
should also, which will include tournaments, match games, etc. However, as
match games, etc. However, as two sets of five men and any change two sets of five men and any change from that puts the rollers on a different plane, which should not be in a fair competition. If two-man games are admitted then individual contests should also, which will include tournaments, match games, etc. However, as ments, match games, etc. However, as made to settle the question, but in the made to fick the five man leagues.

Athenaeum A.—Red Rose V. Question in A.—Red Rose V. Question in the manual ma

There is certainly an abundance of leagues in the city this year and if we judge by their number the bowling game has taken an immense stride forward. Counting in the two and three-ward league there are at present fourman league there are at present four-teen in operation, two more start after the holiday and at least a half dozen more are in process of formation. The more are in process of formation. The natural tendency of this increase in the number would be to weaken the leagues individually, but in the majority of cases this is not apparent. leagues this is not appared to some construction of cases this is not appared to some conserver will see this retho a close observer will see this retho a close observer will see this retho a close observer will see this result in some. There are several novice w. Seager.

City Two-man-Gladstones at Domin. have the effect of bringing out a large ions, number of new bowlers so that all in Par all it is pretty certain that the g has taken a stronger hold upon Toronto public than ever before.

The classy rollers are beginning to show their form now, consequently the honor list is considerably larger this The best team score of he week which is also the best to date this season, was contributed by the B. 3. C. in the City League, their total being 2798, all three games being over the 900. The Parkdale bunch, with their new London recruit. Ayers, were a good second with 2751. The latter sucseeded in taking three games from the Gladstones, who ran into all kinds of spilts, while B. B. C. handed out three emons to the Paynes, who could not stave off defeat, the performing fairly considering that their captain is

HOW THE AVIATOR TELLS **RUNS FOR CONGRESS** THE HEIGHT HE REACHES

Individual Judgment Becomes Accurate, But Airmen Pepend on Barograph.

One of the marvels aviation presents to the ordinary man is how the experts are able to announce, after an aviator has become a mere speck in the sky, that he was up, say \$409 feet, and even may add a decimal for sake of accuracy.

The aviators themselves get accusomed to measuring altitude with their eye and sometimes become very accom-

The barograph is so delicate and so accurate, it is said, that a man might hang one of them about his neck in its glass case, or carry it in his hand, and climb a flight of stairs, the height of his ascent being graphically indicated by the needle on the machine.

AMERICA'S OLDEST BEACON. The Boston Light Was Built in 1715 by the English Government

From The Boston Common. The outer light of Boston Harbor is pile of rocks, partly grassed over in its gentle hollow on the sheltered side.

Three families live there—those of the head keeper and his two assistants. In all, the inhabitants number a dozen souls, besides two dogs, a cat and a raccoon. There are five chil-dren, and a teacher is provided by the Town of Hull in conjunction with the

The school is kept in the third storey a large, light room, looking out in all directions upon the sea, the children do their studying and recite their lessons. of the head keeper's house. There,

The light itself is said to be the oldest in America-built in 1715 by the Government of England. It is of rough, boulder stone, hooped with iron bands, and its clean, whitewashed form is a landmark and a seamark

far and wide.

A rustic iron railway for carrying coal leads up from the water side to the engine house, where is an engine and boilers in which steam is kept up and bollers in which steam is kept up continually to operate the siren fog-horns. Their great trumpet-like forms protrude thru the wall of the building on the seaward side. In foggy weather one can hear from the open windows the far off mooing of the foghern on the Boston lightship seven miles away, as the keepers on the miles away, as the keepers on the lightship can hear this one at Boston

An old cannon lies on the groun near the lighthouse; it was provided by the Cunard Steamship Company before the foghorn was installed to before the foghorn was installed to give signals. It is unused now. But in addition to the great revolving light on the tower there is a set of red and while range lights that give the location of anchorage for vessels in the channel. If they see red it means that they are out of their proper location, but if white, they are safe.

A Thanksgiving Note

At the Repository on Tuesday, November 8, will be sold a shipment of Chydesdale fillies and stallions consigned from a leading breeder in Aberdeen, Scotland. The sires of this stock are "Pride of Blacon," "Botanist," "Baronson," "Thomas of Buchlyvie" and "Sir Thomas." The filly by Botanist is out of a dam which was a warded first prize and cup for the

TORONTO

THE REPOSIT

"THE CENTRE OF THE HORSE TRADE."

ESTABLISHED OVER 50 YEARS

Tuesday, 200 Horses
Nov. 1st 200 Horses

We will have a great many shipments in for next week, and will be able to supply horses of any class. We will have many big Heavy Horses and angone wanting Heavy Horses for any kind of work will have a great many to choose from at The Repository. And we will have a great many horses suitable for Delivery and Express purposes, as well as the General Purpose, Wagon and Work Horses. Any wanting Horses next week could not do better than visit us Tuesday, if not before.

A SPECIAL FOR TUESDAY, NOV. 1st

"LOUISA A." bay mare trotter, by "Dico," out of "Leon Girl." This mare is 15.3 hands, thoroughly city broken and has been miles in 2.30. The owner states she can road 15 miles an hour, and would make a fine gentleman's road horse. This mare is standard-bred and registered.

W. B. REID, ESQ., TORONTO

to sell for him on TUESDAY NEXT, THE 1ST OF NOVEMBER, one four-wheel Dog Cart, rubber tired; one rubber-tired Runabout Buggy; two Gentlemen's Riding Saddles; one Ladies' Saddle, and one set of Rubber.

Thoroughbreds for Tuesday

"SPRINGSTEEL." ch.g., foaled March, 1907, by "Handspring," out of "Merry Jest." The sire of "Merry Jest" was the great "St. Frusquin."

"JOLIKA." ch.f., foaled March, 1907, by "Nasturtium," out of "Columbia." These thoroughbreds are in racing condition, and are being sold for the sole reason that their owner is too busy to look after them although he says he knows they are good horses.

Saddles for Tuesday

We have consigned to us for sale next Tuesday ten brand new pigskin Saddles of the best English make. These Saddles have never yet been put on a horse, and they are up-to-date in every particular. They are traveller's samples, and were left with us for sale. This will be the chance of the season for a Saddle at almost your own price, and there are no better Saddles made.

THE BEST SELECTIONS OF ALL CLASSES.
We will sell at each of our TUESDAY and FRIDAY AUCTIONS a great

REGISTERED CLYDES

AT AUCTION

Tuesday, Nov. 8th

Mr. H. A. Holmes of Aberdeen Scotland, has consigned to us for sale on the above-mentioned date some Registered Clydesdale Fillies and two Stallions. One of the fillies was awarded first prize at Braco Show, and first prize and reserve champion at Dunblane, Scotland. Another filly has two first prizes to her credit, and one stallion foaled June, 1909, won first

the only time shown. And it must be remembered that any Clydesdale which can win prizes right in Scotland, the home of the Clyde, must have the very best of quality and breeding, but they are consigned to the Repository to be sold for whatever they will bring, as the owner, who is a breeder of Clydesdales, wishes to thoroughly try out the Canadian market. Any further information on request.

When at a public dinner I advo- , vitions are altogether different to little island. The English Jockey Club is a self-constituted body, it is true but it is a body that is 160 years old. sceeringly remarked that I would like that organized the sport when no orgatization existed, that practically created the sport, that has grown up with the sport and the sport with it, that is governed, controlled and managed by a large leisure class, the honor of which is indisputable and which does not follow the game for purely sordid gain. The same conditions do not exist here. We have men who are in the sport for the love of it and who are above reproach in their dealings with it, but we have also many another sort with whom the party of the first part have been too timid in dealing and lenient in treatment. The result has been that they have flourished and become a power in the land. Had the Canadian Jockey Club organized and chartered fifteen years ago, taken a leaf from England's ex-

BURNS &

SHEPPARD

ample, enforced outlawry and adopted a system of recognition of tracks and recing, the situation would not have called for drastic legislation. But there were interests in high places that interfered with such a policy and legislative remedy was demanded and necessary. It was not then the writer who called for more law, but for the administration and usage of power already conferred and law already in existence. And now, when the oppor-tunity has been missed we are bid to "look at England."

As to New York. In the States the evils were allowed to flourish which are threatened here before any vicorous attempt was made to wine them out. The result was that undertrable interests sneurs up with the noner of money behind them that played traitor to the short and determined that if they were made to suffer the entire fabric should come down with them. In the first instance Concester and Cuttonhars willed Manmouth Park in the new Unwithoma Worlow and Roby Wilad Washington Dank and the anti-month alement herome so strong and the traiting open on his and movement that man of financial might and mone.

MILITARY HOPSEMANSHIP. Encouragement It is Receiving From Latter Day Horse Shows.

and death will follow to leaftiment in

One thing horse shows are doing They are giving great impetus to milialways been a feature of prominence it remained for the International Horsé show to set the fashion in the English-speaking world. Military tournaments equestrian displays in Europe, but have, it is true, been several times held in connection with the horse show in Toronto, but even at that the display of military horsemanship has been meagre compared with latter-day prominence. At the forthcoming horse show in New York, military competitions promise to be the star attractions. French cavalry officers are expected and four officers and eleven horses are to be on hand from Holland. As a New York paper puts ft:

"French dragoons and lancers, British hussars and royal artillery, Dutch Uhlans and chasseurs, United States cavalry officers from Fort Riley and staff officers from Canada, with fifty to sixty picked horses, will be the hard riding and plucky contestants for trophies and honors before New York's brilliant assemblage of beauty, fashion

A BRIGHT LIGHT GONE OUT. Death of the Little Daughter of Mr A. W. Bryan.

Thousands of the frequenters of the Woodbine race track will have heard with the deepest sorrow of the death of little Helen Bryan, daughter of A. W. Bryan, formerly lessee of the club house at the O. J. C. track. The club was a favorite with all who came across her and was uncommonly bright and intelligent. Some time ago she had an attack of pneumonia which sadly enfeebled her system. Up to a few days before her death she was cheerful and indited a letter to Santa Claus asking for a doll for herself and a football for her little brother. Then she wanted to know why she couldn't have the doll on the instant and to please her her father bought her a very pretty one. Alas! she did not live to enjoy its company and the inamimate make believe lies in the same coffin as the dearly beloved and once sweetly animate reality. Mr. and Mrs. Bryan, who feel their loss terribly, and are hadly broken up, have received

expressions of sympathy from hundreds of friends. BIG CLYDESDALE SALE.

Tuesday. On Tuesday, November 8, Messrs. Burns & Sheppard are selling at the Repository, Simcoe-street, a consignment of Clydesdale fillies and stallions which have just arrivel by the "Grampian" on its latest trip, from Mr. H. A. Holmes, a well-known breeder of Aberdeen, Scotland. These are sent to the farm as a trial of the Canadian market and are for absolute unreserved sale.

At the Repository, Simcoe Street, On

"Jake of Fairfield," b. c. (15639) foaled May, 1909, is sired by "Pride of Blakon." This colt has the blood of the great "Benedict" and "Prince Ed-

"Prince of Fairfield," bk. s. (15640) foaled June, 1909, is sired by "Pride of Blakon." This stallion was only shown once in Scotland and won first at Inverurie Show.

"Ellanora of Craigearn," b. f. (25672) foaled June, 1909; sired by Botanist and out of a dam which was awarded first prize and cup for the best Clyde filly at one of the great Scotch shows. "Bracelet of Fairfield," br. f. (25671) foaled April, 1908, sired by "Baronson." This filly was awarded first prize at Braco show, and first prize and re-serve champion at Dunblane, Scotland. "Idaho of Fairfield," b. f. (25673) foaled July, 1908, sired by "Baron of Buchlyvie" and has as grand sire, "Prince Carruchan," four times winner of the Cawdor Cup.

"Rameli," b. f. (25674) foaled in April, 1908, sired by Sir Thomas. This filly has two first prizes to her credit. In considering the foregoing horses it must be remembered that any Clydesdale hich can win prizes right in together. Scotland, the home of the Clyde, must have the very best of quality and breeding. These are for absolute uneserved sale, and come from one of the leading breeders to thoroly test the Canadian market, Any further SENGER TRAPS, steel and rubber tires; GOLF WAGONS, ETC., all to be sold information required will be furnished by the firm on request.

A Visit to Old Kaintuck

Castleton, Hamburg Place, E'mendorf, Walnut Hill, and Other Famous Horse-Breeding Establishments Looked Over.

KINGSTON AT 27 AND NANCY HANKS AT 24

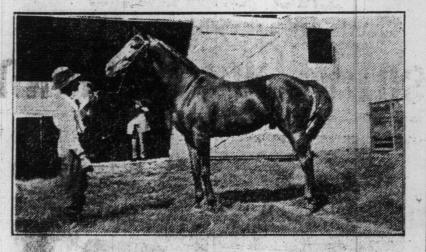

Messrs. Robert Davies, R. W. Da- collection of thorobreds that exists in vies, George Davies and T. J. Macabe have just returned from a visit Kentucky. While away they had the honor and pleasure of looking over J. R. Keene's Castleton Stud, under the guidance of the courteous but astute manager, Major F. A. Dainger-field, J. E. Madden's famous Hamburg Place, J. B. Haggin's Elmendorf Farm and the Walnut Hill Farm, the birthplace of that great horse The Harvester, for which \$75,000 was recently refused by his owner, Mr. Uhian or Milwaukee. Among the horses in-spected at Walnut Hill were the stallion of that name and Moko, sire of Miss Wilks' beautiful champion stallion Mograzia and other cracks. At Hamburg Place the party saw the fa-mous Nancy Hanks, now 24 years old. but queen of her time, and the first horse to trot in 2.04. This she accomplished at Terre Haute, Ind., Sept. 28, 1892, as a 6-year-old, accompanied by a running horse and against time, and driven by Budd Doble. They also had the pleasure of looking over that grand sire of speed and stamina, Peter the Great, and, among a host of others, the thorobred Ogden, Futurity winner in 1896, by Kilwarlin, and Yankee, winner in 1901 of the fastest Futurity ever run. They walked and drove over a goodish bit of the 8000 acres composing Elmendorf, once the greatest horsebreeding farm in the world, but now reduced, thanks to Governor Hughes and the Hart-Agnew bill, from an establishment comprising 30 high-class stallions and 480 superbly bred matrons to 15 sires and 150 mares. Mr. Haggin has gone in for breeding cat-tle on the same colossal scale that he formerly bred horses. His recently erected milking stables for Jerseys accommodates 400 head. It is built in four wings, running from a centre. where there is shower-bath equipment for the men and dressing-rooms, as they use two suits of linen per day. The building was erected at a cost of

At Castleton. But most time was spent at Castleton, where Major Daingerfield, the

any one establishment in America to day. Castleton, it may be mentioned land to be found in the Blue Grass State. Here were on view such celebrated animals as Optime, the great Sysonby's dam and by Orme (sire of Mr. Davies' Orme Shore and of Fly-ing Fox); Disguise II. third to the late King Edward's Diamond Jubilee in the Derby of 1900; Celt, the spiendid son of Domino; Voter, by Friar's Balsam, one of the greatest sprinters and fastest horses that ever raced, and that is proving a big success at the stud, one of his sons being that grand horse Ballot; Kingston, the magnifi-cent son of Spendthrift, now 27 years old, and this year for the third time at the head of the winning stallions in America, the 2-year-old Novelty providing the greater proportion of the winnings; Ben Brush, winner of many races and a grand horse generally Delhi, a grand racehorse, and Ultimo, the best son of Domino's grandest son Commando. Of course, these are only a few of the lordly horses seen at Castleton. Mr. Macabe succeeded in se-curing a number of capital snapshots, from which the pictures given in this number of The Sunday World of Nancy Hanks, Peter the Great and Optime are taken. An excellent picture is of fifty brood mares, all aristocratic matrons, in one field; another shows Major Daingerfield and a chestnut weanling, by Hippodrome, out of Lady Invercee. It is hardly worth while saying that the party returned de-lighted with all they had seen. KENTUCKY TODD'S GREATNESS.

Miss Wilks' Grand Horse Considered the Champion Sire of His Age.

The American Horse Breeder states that Kentucky Todd (3, 2.08 3-4) has been bred this year to over 90 mares. The foals by him that have been shown in the Blue Grass country have made a most favorable impression. He will

National Thanksgiving

Like the Danish custom, wherewith Shakspere's Hamlet makes us

familiar, Thanksgiving Day is too often honored in the breach than the

observance. The which may also be remarked of the time-scantified habit of grace before meals and still less customary habit of grace after

meals. For is it not of usua! observation that the most punctilious follow-

ers of pious tradition are the first and readiest to rail against the food that is set before them. Therefore we say that better say nothing and

eat in a thankful spirit than thank God openly for prospective comforts

This line of approach opens up many avenues, direct and indirect.

Any of them followed to its natural conclusion might lead to strange and

unexpected places. But, to pursue the original inclination, may the

question not be asked whether these annual National Thanksgiv-

ings serve any proper purpose or recall any sufficient number of Ca-

nadian citizens to a sense of their national obligations. It is

a fact, obtrusive enough not to escape notice, that only in compara-

tively few instances does the dominant purpose of the appointment re-

ceive adequate recognition. Thanksgiving Day, as commonly celebrat-

But here let a pause be made. The strength of the nation lies in the

family, and may it not well be that what makes for the permanence of the family is of national advantage? After all, the sentiment of national-

ity is as pervasive as the circumambient atmosphere. No one in normal

health considers each inspiration, tho it is essential to his physical exist-

ence. He lives and works, and if it means good living and profitable

working his duty is efficiently performed. Just so with nationality. Flag-

waving, anthem-singing, toast-drinking are not patriotism, tho they may

National Thanksgiving is a form of prayer, and prayer may be up-

lifted without the form of adoration or the concomitant of vocal utter-

ance. "Prayer," says the poet, "is the soul's sincere desire, uttered or

unexpressed; the motion of a hidden fire that trembles in the breast

Prayer is the burden of a sigh, the falling of a tear; the upward glancing

of the eye, when none but God is near." So is National Thanksgiv-

ing. It may, does not mean just the performance of an allotted func-

tion or attendance at a formal service. It may so permeate individual

souls that, even in a passing thought, a transient emotion, the sum total

kind of penance which is satisfied by the performance of specified ob-

servances or the repetition of certain formulas is easily satisfied. Too many

people are satisfied if they attend in body while their hearts and minds

are far removed from true participation in that they have engaged in ful-

filling. Which, then, is the better-whether the formal function and

the sense of duty performed or the holiday spirit and the occasional sense

of cause for genuine thanksgiving? It need not be questioned that the

ideal celebration combines both the outward participation and the in-

ward adjustment, but if that is not attained better the passing and real up-

lifting than the cold indifference that is satisfied with conventional observ-

Canadians have much to be thankful for. They are inheritors or

sharers in a land rich in resources, opulent in opportunities, instinct with

vigorous life. Happy are they who are born into the youth of nation-

hood, who derive from their environment the buoyancy, the optimism,

the faith in the future, the assurance of success that comes directly to

those who live among the origins of a great nation. But for that very

reason it is all the harder for them to place themselves in true perspec-

tive and to force themselves to forget the present in the promise it holds.

The prophetic eye seldom is given to youth. It comes with age and ex-

perience, in the day when vision is cleared because personal ambition is

either satisfied or abandoned. Thanksgiving Day commemorates the

past, acknowledges the present. To complete its purpose it should anti-

cipate the future, and so measure the responsibilities of Canadian citi-

TORONTO SUNDAY MORNING OCTOBER 30 1910

HIS THANKSGIVING BIRD

Immorality of Divorce

re is one thing in which it is de voutly to be hoped Canada will never imitate the United States, namely, in the laxness of its divorce laws. With the power that the churches wield it is astounding that this sort of thing should be allowed to continue. It is not marvelous that in the circumstances the American papers abound in sala. cious reading. Their revelations of intrigues, of illicit relationships, of the results thereof, are multitudinous, and, it is sad to relate, the largest number of readers of such things there is too much reason to fear are girls and women. This suggestion may be considered libelous on the fairest portion of humanity, but every man of the world knows that what is here laid down is more than probably true. "Tis true, the pity, pity The Way to Get Rich is true, but it is given to every man to tis, 'tis true." Clergymen and moral use his wits. You remember the para- teaching cannot mend this state of things without the aid of the law. You want to get rich. Of course ble of the talents. That does not mean everybody does. How are you going that you are to speculate and gamble, Why don't the American churches get but simply that you are to make the together and start and prosecute a campaign that will result in actors and acbest use of the means at your command and not to allow them to 1e- tresses and licentious millionaires and their licentious offspring ceasing to The stock broker and the whiskey bring reproach on a great nation and man, to your ideas, lead an easy and in making it the scoff of the moral comfortable life. of the funeral, the fee.

I should, myself, hardly have chosen that last quoted sentence,
the words "live interest" to describe!

OBSERVATIONS

on Monday last a paragraph was published informing us that the smart women in New York were carrying large dolls about the streets, and that seemed to me about as silly as taking a ham sandwich with you to a banquet. Next day I read another news item which tells us that "kissing has gone out of favor in New York." There seems something like cause and effect

It appears that one of the missing aeronauts is called von Phul. Sometimes there is something in a name

It so, clips thru the main. Always come to me, pets, when a little thing like that perplexes you.

This clear sidelight thrown by The There are, however, other things besides being born to be small which incline one to the hasty "cuss" word. One is indicated in that which follows:

Whenever I get to that bit of a book which I'm wholly enjoying, so surely as fate I am right if I look out for something annoying. Whenever I list to the chording of Chopin, or music of Moore, so certainly someone or other of Moore, so certainly someone or other of was not very dead.

will open, or bang at the door. Do I labor at lyric or strive with the heartstring, soulful sonnette, I find that the spark has departed from me and from my clgarette. This, indeed, is an age when, devoutly, I yearn for less blood-curdling fuss, and I have to admit that I'm quickly, acquiring the Cult of the Cuss.

Some of those Rev. gentdemen in ittendance at the Baptist Convention are refreshingly outspoken in their criticisms of the methods of their own shade of religion. One of them spoke on the "Problems of the Prayer Meeting." You would naturally think, wouldn't you? that there could hardly be a form of meeting less likely to be

Generally, however, whenever the layman forms a conclusion on any religious topic, he is apt to find himself in entire disagreement with the cleries who administer his creed. The Rever who administer his creed. The Rever mind that The Mail starts out by critic of the prayer meeting however, sums up: "I think, if I had my choice, I'd rather go to a funeral than a prayer meeting, there's more live interest there and more people."

And of course there is, in the case of the funeral, the fee.

But The Mail's final argument is more damning to someone—I don't know who—than anything prosecuting counsel, judge or jury thought of saying. This is the deally sentence. "With no proof of death," (never mind that The Mail starts out by saying that "the murdered woman is really dead,") "With no proof of death," (never mind that The Mail starts out by saying that "the murdered woman is a prayer meeting, there's more live in the case was a muddling amateur in deduction compared to The Mail man who wrote But The Mail's final argument is compared to The Mail man who wrote G. T. B.

The Pumpkin

where's the reason? A Brandon Oh, golden pumpkin, big and round gambling for plumbing.

Thanksgiving's here once more!

It's scriptural to turn the other cheek. Furthermore, it's irritating to the other man.

It's a safe principle that nothing in-creases a man's influence like a bit of wise unselfish regard for the interests

Criticism is sometimes an admirable tonic; often the it is administered too freely and then. His the very best medicines, it is poisonous in its ac-

And some pessimists state the man who marries loses a friend and gets a boss.

Most sermons fall to produce results because they are ill-proportioned. Few of them are nearly as deep as they are

Medical men assert that the national eyesight is failing. Judging from the colors seen abroad on the streets, the female hearing is also suffering

The crowd makes way for the man with the persistent push, whether he is preceded by a wheelbarrow or a revolving office door.

It is a wise man who recognizes that there is little sustenance in the spice of life.

All the modern languages are said to have been mastered by a professor in an eastern college. It is not stated whether he is bachelor or benedict, but we suspect the former.

Some people employ the same manners at church and at dinner. They pick out all the things that agree with them, carefully avoiding others.

In flaky crust you will be found, As you have been before,

And when I go to Grandma's, I Shall feast, of course, on pumpkin pie

But it is not for pie alone That you are used, I know, For as a chariot you shone A long, long time ago;

Poor Cinderella would have stayed At home without the coach you made And there was "Peter, Peter," too,

Who had a restless wife, He put her right inside of you. And then had no more strife; She must have liked it, strange to tell, "For there he kept her very well."

And, golden pumpkin big and bright, I quite forgot to say

How you, as Jack-o'-lantern, light The children on their way On Hallowe'en-what would Without such useful things as you? -Grace McKinstry, in Woman's Home Companion.

Lots of folk fail to size things up properly. Now there are men who regard marriage as a fallare because their wives snore.

on the other fellow.

RENNIE, THE RED FOX

he would roll there and sprawl there and behave for all the world like a sportive puppy-dog, all of which his mate, the slender grouchy red fox that guarded the litter in the den at the end of the ridge, did not like in the least. But Rennie was unlike other foxes in many respects. He was every bit as sly and cunning and sagacious as any fox of the great wild and quite as well qualified by nature to be a great hunter and food-producer, but Rennie was laxy and shifty. He was solfish too and a great deal of a coward. His red mate often chastised him soundly, for Rennie was a runt and lame and she was his superfor in size and strength. This being the case his home life was anything but happy and he sought the hurrow beneath the poplar trunk but rarely. But when the four little baby foxes arrived, Rennie hung about the den a great deal. He surprised his scolding, snarling mate by going forth and retigning, almost every night, with something for her to feel upon. Sometimes it was a grey rabbit or brown partridge, at other times it was nothing more than a wee wood mouse; hut he always brought her home a supper of some kind.

But when those baby foxes grew into strong, playful fellows with round yellow hodies and slate-blue eyes, the mother fox found it necessary to so shroad thru the night and seek cut her own supper for everything that Rennie chanced to bring in he fed to the bables.

When they grew into strong, sturdy

When they grew into strong, sturdy fellows, the mother fox weared them. Then they turned to Rennie for comfort and all thrucut the night the lame fox sought food and carried it home to the den so that he might not hear their whimpers of hunger. There came a day when the mother fox atyoung foxes, gave his crabbed mate such a whipping that the crept whim-pering to the darkest corner of the the chording of Chording of Chording of Chording of Moore, so certainly someone or other was not very dead.

Then The Mail proceeds, now, person of the den, where she lay all day nursing her than the mail proceeds.

After that Rennie took up the rein of government in his home and bosse the slender red mother fox unmerci-fully. In spite of her snarks of pro-test, he taught those mischievous youngsters, whose round vellow bod-les were taking on a deeper tings of red and whose blue eyes were deep-

ening to hazel brown, many things of which she did not approve. Every time she attempted to enforce an argument with her lean, warped-legged mate, she found it necessary to fight the whole family. So she became at first despondent, then reckless and took to staying away fram home for whole days and nights at a time. It was on such an occasion that Rennie and his pais held high carnival in den and in the open. The young foxes and howled and Rennie eaw another fox join her. Then he went back and lying down beside Bennie put his warped forepaws about the hurt pet's neck and snuggled him close to

By nature, Rennie was quite well qualified as a food-producer. He was sly and sagacious, but very much of a coward.

IMPRESSIONS of a Toronto Society Woman

forgotten.

Take away romance and life becomes

Take away romance and life becomes commonplace. Take away sentiment and imagination and we are brought face to face with realism.

Life, with its crude anachronisms, its comedies, which are in reality tragedies, which are turned to farces, before the tears of sympathy navedried upon our cheeks.

We see only that which we are capable of seeing. It is not the eye, it is the soul behind the eye, which looks out upon the world, spread like a panorama before it.

Do we not walk with Dante thru the valley of the shadow of death? And

valley of the shadow of death? And abandoning hope, enter, to suffer with him all the pangs and torments of the doomed? Do we not feel with Beatrice the joys and sorrows of an overwhelming love? Do we not hear the clash and roar of battle with Achilles? Share the fervent love of power with Helen of Troy and Cleopatra? Types of the passion of all the ages. The tear is hardly dry for Manon Lescant, sweet Juliet, or erring Marguerite, before we are forced to smile at the harlequins and columbines of felion. Perhaps it is some poor at the harlequins and columbines of fiction. Perhaps it is some poor Funchinello in the arena, whose laugh has almost a sob in its echoing ring. Are not these creatures of the mind more real to us than the mass of human belings about us with whom we have no part? What child of flesh and blood has ever had the fame of Cupid? Where is the woman who stands for a type as does Venus or a cupid? Where is the woman who stands for a type as does Venus or a man who is known as well as Mcphistopheles, that princely devil, who has a prototype in every known language? It is only when the real touches the ideal, when men or women, become far removed from the ordinary human far removed from the ordinary human being, either so exaited or so degraded, that they become types, and can be looked upon almost as ideal creations or horrors of the imagination—Florence Nightingale, whose example and knowledge in nursing the sick and wounded, has made her the patronsaint of women nurses throut the Luglish-speaking world. Nero, type

Lisbon, October 4, 1910.

Manoel. "Ay me, I see the downfall of our house!

The tiger now hath seized the grace and dignity of a "tail" sweeping behind its owner; and the gentle hind;

Insulting tyranny begins to jet

Upon the innocent and aweless through the many cat by day, throne."—Richard the Third.

Luglish-speaking world. Nero, type

The kingdom of the Greeks has waxed and waned, but their influence is still a power in art, tho the names of their artists may be forgotten. Men have died and women have eaten them but the expression of their imagination, live on, and are more real to the world than the artists themselves. To create! That heaven-born gift! To express, to people with vital living beings. This is everlasting. What are the joys of fame compared with the glories of a world graced by the imagination?

Fame, with its laured wreath which turns so often to a crown of thorns, and changes the honest sweat of work in to drops of neavy blood; fame, with its off-time tardy footsteps, placing the crown upon the grave, when ambition is stilled forever and the world forgotten.

Take away romance and life becomes

bars of its earthly cage. What profit then to strew the callous mound with the roses of a day. The epitaph of a genius is his ever living works.

The Seaguil. Pale prophet of the storm, that swift-

With dipped gray wing, circling the purple sea And soaring heavenwards. Thy mourn-

Re-echoes shrill from every crag and Like maniac shriek, lifting the dread alarm,
To lowering thunders. Cloud faces

The wind doth rise. Safe on the surg-

es lie Thou prophet of the storm. On comes Like mantle grey, while fog wreaths

fill The low horizon. Call again, again Lift up thy voice, thou bird of pre-

The debutante of 1910 may look forward with rejoicing, for the season promises to be a very gay one, and already there are several dances on the tapis. No amount of theatres or teas will satisfy a debutante who pants for balls and dances. The married and elderly may take delight in the concert or play as heard from the comercial depths of a box or orchestra chair without fatigue; but the debutante feels des fourmis dans les fambes, and has a horror of sitting still a whole evening. She wants to be flying round a ball room at topmost speed, or eating lees under a friendly paim with a pleasant partner, and in her heart she does not think that either Melba or Caruso are half as great artists or as well worth hearing as D'Alesandra's ofchestra or the Hungarian Band. She longs to skim the cream from the social milk, lapping it up like the dear little leitten she is. All the world loves a lover and all the world smiles on a debutante and commends the kindly hostesses who take pity on the lads and lasses and give them a chance to whirl about in the dance and get rid of some of their superfluous energy. The dressmakers too, are always glad to design dance freeks for the "coming out" girls. They are so eager and suthuslastic, and the world stretches before them, a glorious vision of untried delights. Except for dancing, the short skirts have not prevailed for evening wear, and The debutante of 1910 may look forcept for dancing, the short skirts have not prevailed for evening wear, and the women who started them speedily returned to the graceful "tails" when they saw the insignificant "bobshort" appearance they presented in a room they saw the insignificant "bobshort" appearance they presented in a room full of women in trailing gowns. The comfort of the short skirt for day wear and for walking is not to be denied and as few Canadians ever achieve the art of holding up theigowns gracefully, one is grateful fo a fashion which obviates the necessity of seeing a skirt clustered spasmodically at each side. But in the evening an entirely different effect is de-

CRUSTS & CRUMBS BY Albert Ernest Stafford.

meat and drink, and it has much information on those heads to impart. It all depends on a man's taste what direction he takes in Folk Lore. He may find infinite satisfaction in "Titat-Tot," or infinite life on Mount Meru. But most of the Folk Lore people I have met spend their lives explaining things away instead of spending their lives trying to explain things back. There was a time when everything was attributed to the Solar Myth. Max Muller was largely responsible for this state of affairs. He did so much besides that was good we will not harbor it against him. But there are still many who have not gone beyond the Solar Myth stage of thought, and who turn everything upside down in order to satisfy their theory. I invented a Solar Myth once myself. Perhaps some one else did also, but if he did I will forgive him, it is so obvious. Two thousand years

This myth will be told about a great king—the sun of course—who met a fellow monarch—evidently the moon, on a field of cloth of gold. This absurd idea evidently referred to the sky and the stars. Enraged with some of his subjects who obscured the light of his truth—obviously the clouds, he burned down their dwellings and scattered them abroad, and took their riches to himself. This is a beautiful metaphor of the sun drinking up the dew and himself. This is a beautiful metaphor of the sun drinking up the dew and vapor after it had been precipitated from the clouds. He reigned in great glory, and is always represented with a great circle of light around his neck. He is said to have married six wives, but these are of course the six planets which with himself make up the sacred seven. His daughter was also a great monarch of light and wore a similar great circle of light, which is of course the rays of the sun, around her neck. She was represented as of fair complexion with bright hair and with other attributes of the goddess of dawn. In however, pursued by a wicked king, who is of course the monarch of night, however, pursued by a wicked king, who is of course the monarch of night. Nox, the king of darkness. She appeals to the sun and he sends mighty winds which sweep the hosts of night out of existence, and she shines out with renewed strength and power. Some scholars have held that it was the storm-cloud, and not night, which was intended by the myth of the great host of ships at sea which were overpowered by contending elements. But the queen of day herself is independent of the attacks whether of storm or night and she shines on with unabated glory. Any folk-lorist (of a certain type) will tell you how a primitive people built up this and similar myths out of whole cloth just for the sake of accounting satisfactorily to themselves for the existence of day and night and summer and winter and seed time and harvest.

A good regulation's a mighty hand and sight of his not-self. And in a and slight of his not-self. And in a land slight

I had the privilege recently of listening to a talk on folk-lore, which some people regard as a sort of grown-up fairy tales, and some as a kind of in-

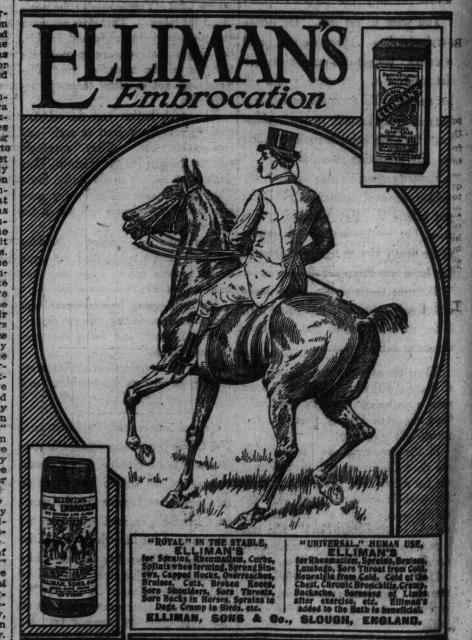

I believe in all the gods and I do not believe they were or are myths. Not more do I believe they were or are devils. Most of the devils appear to also, but if he did I will forgive him, it is so obvious. Two thousand years hence the folk lorists of that day will be telling the tale and explaining it away by the Sun and the Dawn and the Darkness.

This myth will be told about a great king—the sun of course—who met a fellow monarch—evidently the moon, This absurd You have not abolished the Fathers by identifying Him. He was just as real to those who called Him Varuna a many thousand years ago as to those who sought Him in the Ouranos 20000 years ago, or to me who seek Him in quite another firmament to-day. I object to the dogmatism of the folk lorist quite as much as to the dogmatism of the theologian or of the manterialist. And I am quite prepared to admit that I may be as wholly deluded as the next man, only I want somebody to show me. Folk lore Io am inclined to think is the only reliable history, the only history worth
remembering, and the only history
people had the heart to remember. It
affords me much keener pleasure and
much more valuable stimulus to read
the parable of the prodigal son in connection with the story of Odysseus and
Circe than to put Odysseus down as a
myth and the swine in each instance Circe and her swine are to be explained away so easily as that. I am inclined to think they represent hard facts that had to be faced and must be faced again. as records of man's thought of himself and sight of his not-self. And in all and sight of his not-self. And in all these scriptures, ancient, modern, medieval, poetic, prophetic, historical, allegorical, love of the gods, love of the angels, love of the folk of all times and all nations I find shadows and hints of myself and traces of "the small, old path stretching far away."

Most people do precious little and pend the greater part of their time explaining that little away.

Some men are guilty of honesty be-cause the wrong doing they have been up against has been no temptation to

If you ventured to suggest that the thing, but it deprives some folks of folk lorist was all wrong and that a lot of fun.

Gorgeous Ceremony by Which Heir to the Throne Will Become Prince of Wales in More Than Name

(From a Staff Correspondent). LONDON, Oct. 29 .- It was the adenturous Welsh novelist, Captain Owen Vaughan (he used to write under the name of Owen Rhoscomyl till he discovered that some of his readers couldn't pronounce it), who conceived the gorgeous idea of a coronation ceremony by which Wales should rival for its prince the affair in Westminster Abbey when George V. will be crowned. Prince of Wales is to indicate the forgotten fact that the Prince of Wales actually is the prince of that sturdy section of the British Empire known as Wales, and that the title isn't

as Wales, and that the title isn't merely compilmentary.
The gallant captain first thought of it in 1835, and has been at it ever since, because he is a kind of Welsh Patrick Henry, who thinks Wales has been shamefully misrepresented in English history books, and has been looked down upon generally by the English people. He has written new school books, and has poured forth eloquence in all sorts of channels to the end that the glory of Wales may be restored, and now that the investiture scheme has been adopted by the King the only fly in the captain's jam is that the great ceremony is to take or an investiture ceremony.

Here is Captain Vaughan's argument and his own description of the

res to add to the ceremony something in the state of corruption. Numbers of it is a neet of corruption. Wales in 1535 the allegiance of the Weish people is to the King, their good will to the prince. But now it is remembered that in ancient Wales the tribesmen swore no vassalage to their princes. What they swore was foster-kinghip, a tie more binding that mere blood kinghip. And so it is hoped that a Mound of Gorsedd' will be raised and that the by so doing he earned the bitter hat-

a 'Mound of Gorsedd' will be raised in Carnarvon courtyard and that the ceremony will begin with a full Gorsedd of the Bards.

"And where, in the coronation of the King, the peers and prelates and the rest swear their allegiance, we hope to bring in the whole people of Wales by their chosen delegates, three men to represent each of the masses and the ciasses and the trades and the professions as we find them in the Wales of to-day, and these delegates, beginning with the three shepherds and ending with three ministers of religion, would come forward and swear foster-kinship with the prince."

If this program is fulfilled Carnarvon Castle will see one of the most gorgeous ceremonies in history. The Mound of Gorsedd will be surrounded by the Druids in their many colored gowns and in the centre the Chief Druids when but the way is a Bantist. gowns and in the centre the Chief Druid, who, by the way, is a Baptist minister when he isn't druiding—will unsheath the great Gorsedd sword and ask "Is it peace?" The assembled Driuds will reply, "It is peace," and the Chief Druid will then sheath

Yellow Fever In Disguise

Believed That Disease Has Been for Many Years Mistaken for Malaria.

LONDON, Oct. 29.—Sir Robert Boyce, rofessor of pathology in Liverpool University, who recently returned from West Africa, says he has come to the conclusion, as the result of his own observations, reading and inquiries, that yellow fever is epidemic to the coast of West Africa and that for many years it has been mistaken malaria. If we keep on-attacking the mosquitos not only would we never hear anything more of yellow fever, but the death rate on the coast would go down "with a run" and many other diseases would disappear also.

Molly Coddle Sailors In Merchant Service

High Premiums Paid by English Fathers to Send Their Sons to Sea Have Had Serious Results -Poor Boys Crowded Out. "Dyfed." Who in private life is a Baptist minister. He will play an important part in the investiture of the Prince of Wales.

From a Staff Correspondent. LONDON, Oct. 29.-Discontent with has led to an alarming number of English officers resigning their posts to take up positions on land, In fact A Nest of Corruption the merchant service is threatened with a serious problem. According to the latest figures, the

average salaries of merchant officers Planned in Government Office - Public Money Purloined in steamships of over 2000 tons range from \$58 a month for a first mate to

secretary of the local marine board of London, was interviewed with reference to this situation, he said that the

"Now is it worth while for a father to send his son to sea when other pro-fessions offer more in return for the cost of preparation! These boys enter the service at about twenty years of age at a salary of \$40 or \$45 a month. They must stick to the company that took them on, if they expect any ad-

took them on, if they expect any advancement. Then at thirty-five years of age they are extremely lucky if they receive \$2000 a year. Meanwhile their commercial brothers on land are laying down the basis of their fortunes, and a young officer, therefore, often becomes discontented and careless. "Many of the young fellows who go into the service are those who failed to get into the navy, who were 'plucked' in their final examinations. They then find they have no social position in the merchant service,—a merchant captain, by the way, is thought less of in England than in any other nation on the earth. To these boys the life on board ship seems hard after being pampered at home. Most of them are too well provided for by their fathers. They have too many clothes, get too much to eat, and too much pocket money. The result is, they put on a great deal of 'side."

"Altho this is an old story it will or unemployment in Paris, he said, the first item on the agenda was "statistics." "I got up as soon as I had the chance," said Mr. Fels. "and I said,
"To the devil with your statistics! If you go outside into the streets of Paris, or go into the streets of London, or anywhere else, you'll need no proof of the extent to which unemployment

Next on the agenda was "Labor exchanges," and Mr. Fels' original comment was "To hell with labor exchanges," while when the question of insurance against unemployment came up, he rose and named several delegates from big New York insurance companies, who had come to the conference, he said, like pickpockets after watches and chains, looking for what they could get. "Altho this is an old story it will serve to illustrate the attitude of these boys: One day one of them was asked to climb up and stow the royal He watched the sail tearing in the wind but made no move towards it. When the captain enquired more or less po-litely if he was going to obey orders, the young man replied, 'Oh! let it rip and put it to father's account.'

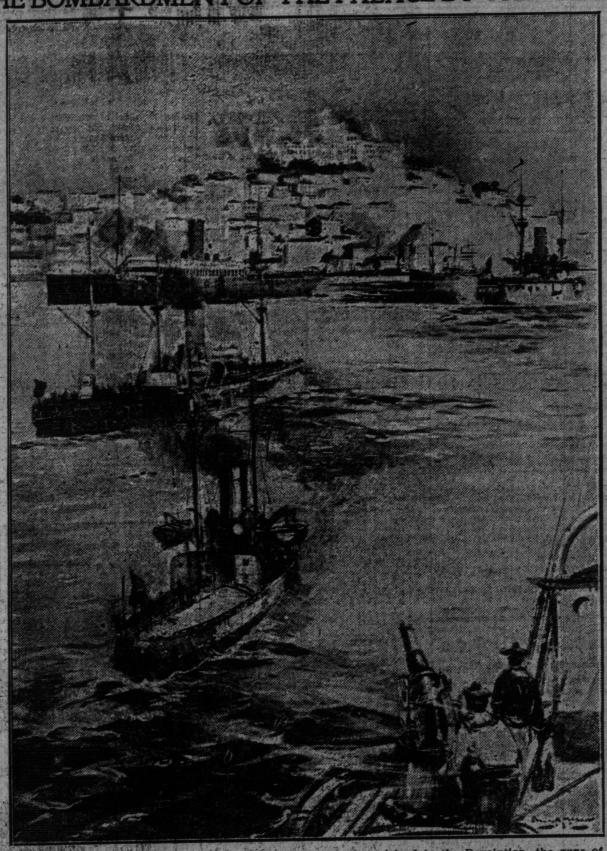

"In this way the code has become inverted. The other day the superin-tendent of a large shipping company walked into the saloon of one of the they could get.

Mr. Fels advocated the seizing by

taxation of all the values which accruel to land thru the existence of the population around it, and upheld the "single tax" as the one remedy company's steamers to find a cadet sitting at the head of the table while the junior oficers sat at the sides. "The great thing about the budget," he said, "was the valuation of the land. The income tax was not paid by any rich man. He himself paid no income-tax. He had spent two or three ordinary fortunes on promoting taxation of land values, but he had stolen all he had spent.

"The increment duty, and the superthe son of one of the directors. What "The increment duty, and the super-tax, and all the other proposals of the budget, except land valuation, in the have these boys got to look forward budget, except land valuation, 'in the classic words of Shakspere,' gave him the 'pip.'"

THE BOMBARDMENT OF THE PALACE BY THE FLEET STIMULATE

single ship all the Portuguese navy joined in the Revolution, the guns of the confidence when I say to the Republican forces. The bombardment of the Necessidades Palace, began on Tuesday afternoon and was continued until the Royal Standard, which M. P., has received to the palace, was named down as a mark of surrender. The Republic, indeed, King George and state had been floating on the soot was won by the revolting navy.

New Spirit in Ireland

Protestant Church Delegates
Cheer National Spirit and
Bishop Praises Catholic
Fellow Countrymen.

From a Staff Correspondent.

DUBLIN, Oct. 29.—One of the most remarkable pleces of evidence of the disappearance of sectional and religious bitterness in Ireland was furnished this week at the annual conference of the Protestant Church of the Protestant Church of the Catholic remarkable pleces in Ireland was furnished this week at the annual conference of the Protestant Church of the Catholic neighbors in the County of Catholic neighbors in the County of Catholic neighbors in the County of Cork.

"I cannot believe that this happy re-

Ireland, which was held in Belfast.
To begin with the president of the congress, the Right Rev. Dr. Crozier, Bishop of Down and Connor, referred to the new spirit which has thrown up in Ireland.
"Roman Catholics and Protestants," he said, "unite on the platform of various philanthropic and literary associations.
"Orange bandsmen and the platform of the country in the country in

"Orange bandsmen on the Twelfth of "Orange bandsmen on the Twelfth of July silence the flute and the drum while marching past the Catholic hospital on the Crumlin-road and the mother superior writes them a letter of thanks for their courteous consideration. Small things you may say, but life is composed of trides, and all these are but the cutward and visible sign of a spiritual grace which is spreading a little more than yesterday and a little less to-morrow."

Less Hostile.

But the most remarkable incident of the conference was a speech by Canon Flewett of Cork. In the past the Protestants of the south have been

English Don't Know Canada's Vast Extent

Envoys, Trying to Impress Truth on People at 'Ome

From a Staff Correspondent. LONDON, Oct. 29.—One of the visitors who recently has been diffusing some useful knowledge about the Dominion in England is F. C. Wade, K. C., of Vancouver, who told me that notwithstanding the greater interest shown in Canada as compared with his previous visits, it still seemed difficult to impress the average man he had met with the geography of the Dominion as well as its resources. Dominion as well as its resources.
Visitors from Canada who, like Mr.
Wade, have had the opportunity of
speaking in public here should never
lose a chance or rubbing in the facts:
For instance, that the Province of
British Columbia alone is twentyeight times larger than Switzerland
and here acqually attractive mountain

and has equally attractive mountain scenery for the tourist. Equally necessary is a repetition of the trite statement that Canada as a whole is thirty-one times larger than the United Kingdom. The writer is frequently told "I have a friend in Ontario" and the work of the less time than heart of the less time than heart of the less time than heart or given and should be removed as settlement."

In all the assumbly there were only half a dozen men who expressed dissent from Canon Flewett's views. The great majority cheered every word he Kingdom. The writer is frequently mer until giblets are tended. The avitable of the had come across him, or gizzard, and should be removed as without the slightest knowledge that soon as done. Split and spread six-Winnipeg is three times as far from teen common crackers with butter, almontreal as John O'Groats is from lowing one half tablespoonful to each Winnipeg is three times as far from Montreal as John O'Groats is from

Montreal as John O'Groats is from Lendon.

Another striking point made by Mr. Wade was that in the last seven months Canada had given away in free homesteads to settlers land the acreage of which equalled that of four big English counties put together—Hampshire, Dorset, Devon and Cornwall. This is quite a new way of 'mpressing the people of this land with the magnitude of Canada. A very useful point for the British investor is contained in his remarks about Vancouver, for latterly there has been a good deal of talk over here to the effect that in some of the larger Canadian cities there is a tendency to "have" the investor in the matter of "outside" properties. As regards Vancouver, he said the area property is released to the common crackers with butter, allowing one half tablespoonful to each half-cracker. Pour over crackers two and three-fourths cupfuls of stock in which giblets were cooked. As soon as crackers have absorbed the stock, add giblets finely chopped and season with salt and pepper, and summer savory sage or marjoram may be added as desired.

Remove hard outside crusts from a stale loaf of baker's bread and break in pieces. There should be three and one-half cupfuls. Pour over bread one cupful of boiling water and let stand twenty minutes, then squeeze out all the water that is possible. To bread add one tablespoonful of poultry seasoning, one and one-half teathers. Not Branch Church.

Another significant incident arose when the most Rev. Dr. Peacocke, Archbishop of Dublin, was discussing the flistory of the Church of Ireland and put forward the claim that it was the direct descendants in unbroken succession of the historic Irish church, strongly repudiating any historical connection with the Church of England. This may seem another small thing, but the way in which the clergymen and laymen present cheered this claim showed that the Episcopallans of Ireland are fully alive to their nationality and are content no longer to be considered an English garrison. The greatest enthusiasm of the day was aroused when a lay delegate finished a speech by declaring that hereafter the watchword in every part of the country would be "Irishmen all." "outside" properties. As regards Vancouver, he said, its area proper is ridiculously small as compared with
such cities as Seattle or San Francisand one-half cupful of melted butter. such cities as Seattle or San Francisco and inasmuch as its growth must surely be more rapid in the twentieth than in the ninteenth century "outside" areas now passing by other names—sometimes as separate municipalities,—must rise in value at a cupful of cooked giblets finely choprate which in Britain may seem incredible.

San Francisco and one-hair cupful of metted batter.

Mix two cupfuls of hot mashed potatoes, two cupfuls of cracker-crumbs, one-third of a cupful each of melted batter. By English Actorine Union Between Royalty and the

EMIGRATION

Statesmen Fear Imperial Tie Will be Weakened by Influx of Foreigners to Can-ada, and will take Steps to Offset It

From a Staff Correspondent. LONDON, Oct. 29 .- For some time past there has been a growing reeling in this country that a more active campaign in favor of emigration from England to Canada ought to be conducted. Rightly or wrongly it has been contended that if the number of emigrants from the United Kingdom were less than from Europe and America the Imperial tie must necessarily be weakened. Only a few weeks ago Sir Charles Tupper told me

countries 130,340; leaving Great tain over fifty thousand behind it like to put it that way.

"The foreign emigrant obtains franchise as quickly as anyone in Canada and becomes in conseque a determining factor in the government of the country. Naturally sympathies cannot be actively tish and while it has been held the freedom which is granted to

to disguise himself, Jennison becomes the clown's assistant, and loses his heart to "The Rose in the Ring," the loveliest of equestriennes. Naturally the romance bristles with difficulties, which even the confession of the real numberer does not wholly remove. Mr. McOutcheon may be trusted, however, to steer a love affair thru all manner of make and sheets and his hand has In the House of the Brotherhood.

the great Brotherhood of the Untamed!"

And it is to the noble Brotherhood of the Untamed that we are introduced. A band of rugged heroes with noble hearts who are ready to defend themselves but just as ready to make friends with their opponent when the misunderstanding is cleared away.

Character Types.

There are several characters who had their types in many Ontario settlements of the themselves of the sort of thing, this is the sort of thing he will like." How many do like "this sort of thing," Mr. McCutcheon "this sort of thing," Mr. McCutcheon well knows; and why should he not

The nature description is a strong feature of the book, but it is not at any time overdone. It is rather used who guesses it; but to preserve the mystery the author has sacrificed something of probability. It seems hardly fair to make all clues lead—let us say to A or B as a murderer, and then to declare quite suddenly at the end. "Not at all—it was Z!" But this is very much Mr. Hume's method, and is very much Mr. Hume's method, and he falls to make the motives of Z as convincing as we could wish. The story is skilfully managed, however, story is skilfully managed, however, the cryptogram ingenious, and a reader beginning the book is not likely to lay it aside until everything is cleared up. The heroine is rather inane, and the love-making is in accord with her. We note, too, certain slips in grammatical accuracy, "without" for "unless"; "no one, but I saw you." Jotty's iteration of "him es was good t' me" (whose name he knew) grates on one's perves—witness the following: "Sawa the companient of the knewly grates on one of the companient of th ful revision and the compression of the tale into two-thirds of its present bulk would add much to its strength. author has an almost fatal facility, which he will do well to curb if as subordinate to the action and for the purpose of supplying the atmosphere as well as the background of the story—an atmosphere that is always the sweet, fresh, wholesome air of God's great out-of-doors.

Blanche Ring &

By Margaret Bell

Miss Ring's dressing room. The stage manager was shouting his orders, the company were leaving, for the night. Everyone seemed in excellent spirits; everywhere was optimism, light heart-adness. For Toronto had received them favorably, with open arms, They could look forward to a week of pleasantry, among people who appreciated their songs, laughed at their lokes. The ordeal was over, the crisis past. The orchestra had ceased playing, and the players discussed the newest conquest.

Inside the dressing-room, was the best sign of satisfaction over the evening's performance. Miss Ring hummed and laughed in spells; the first night's nervousness still lingered with her, but not the nervousness of fear and dread; the excitement of having made good, the realization of a new victory. She could scarcely speak of anything but the audience, to great was her enthusiasm.

"Why, they were simply lovely." Right from the first, they received us kindly, and seemed to know just how we felt, coming into a strange city. I was afraid an American play might not be received kindly here, but I find that you are not prejudiced at all in that respect. It seems so foolish too, to let little prejudices come into our pleasures doesn't it? Those songs the public seem to like, the "Yip-I-Addy" and Rings on My Fingers, seem so trashy to me. I suppose everyone thinks they are my favorites too, but they are not. The music I tong in my own home is so different from my stage songs that the public would never recognize Blanche Ring if they heard me. But we must cater to public taste, more or less, I suppose. When I was over in Hungary, last summer, I happened to go into a restaurant, and the head waiter, and they wait the rings on your sing in my own follower man tage angers that the public from my stage angers that the public would never recognize Blanche Ring if they heard me. But we must cater to public taste, more or less, i suptopose. When I was over in Hungary, pose. When I was over in Hungary, pose. When I was over in Hungary, pose. When I was over the head waiter, a restaurant, and the head waiter, a restaurant, and the head waiter, inding out who I, was, some way or other, come up to me and said very drams and pantomime presented there during his connect the rings of your fingers. News and Notes of Interest to All Who Use Gasoline as a Motive Power

Loss of Compression And How it is Caused

in the cylinder is at times upward of 8000 degrees F. As carbon is present in all oils, a certain amount of carbon deposit must be expected, and this accumulation is largely collected on the

Madison Square Garden Taxed to the scenario and only Automobile Show.

Madison Square Garden already the scenario accumulation is largely collected on the faces and seats of the exhaust valves under ordinary running conditions, and providing the motor has been given good attention, the exhaust valves abound be "ground in" about once in 1000 miles, and the inlet valves once in 2000 miles.

To grind in a valve, it is first neces sary to remove the springs and cottars or keys. Since mechanically operated valves are provided with very strong steel springs, some mechanical add is necessary for their removal. This is best accomplished by using a tool specially designed for the purpose known as a "valve lifter." In lieu of this tool, a long flat file or, large screw-driver may be used set a lever, employing a small block of wwod as a fulcrum. After grinding, the spring may be conveniently replaced by the tool, or by compressing the spring and properous automobile show to eleven the attended to replace the convenient of the surgescore of the surgescore of the springs are vise and securely tieling each side of the spring with a stout cord. The spring with a stout cor or key inserted, after which the cord may be cut, and the trick is done. Valve Grinding.

Valve grinding is really a very simple operation, and if done as it should be done, is neither a mussy nor a disagreeable job. The first thing is to find out whether the valves are in need of grinding. Lift out the valves by, pushing up the stem, and if they are blackened and the faces appear rough, pitted and sooty, it is certain that the gas is leaking past them, and they should be carefully re-ground. Before grinding, a small piece of clean waste tied to a length of cord, should be jammed into the cylinder port. This be jammed into the cylinder port. This city's motordrome.

effectually prevents any particle of the Messrs. Cobb and Rucker will race

A Few Practical Hints on Valve Grinding—How to Locate the Leak—Carbon and its Results

To neglect the valves must certainly result in loss of power. In fact the chief reasons for power losses in a motor are as a rule either improper is nition or bad compression. While other things may contribute to the weakening of the motor—as faulty carburation—these two are most likely to be the real offenders. If a careful examination of the electrical plant falls to disclose the difficulty, look for it in the exhaust valves. In short, it the compression falls off to a marked despre, the valves are without doubt leaking.

Occasionally test the compression of the several cylinders by turning the motor over the compression of the several cylinders by turning the motor over the compression on the several cylinders by turning the motor over the compression on the several cylinders are ported to the condition only by the sent of the lands. Only a slight propose, as gasoline evaporates too rapidly and falls by the former is the case, as come in the crank-to control of the corp plate having the plate of the position rines are gummed up, or gas is leading part. The former is the case, as come in the crank-to control of the corp plate having the plate of the property to get an and carbonized clean, and to prevent any considerable carbon deposit from accumulating. Only a high grade gas engine cylinder of sumpsets of the cylinders. When the cylinders clean, and to prevent any considerable carbon deposit from accumulating. Only a high grade gas engine cylinder of sumpsets of the served when a communicating. Only a high grade gas engine cylinder of the former of the summed oil and carbonized creek. A high test oil is essential, for proper piston inbrication is impossible with a low test lubricant. The importance of this fact may be understood when we consider that the temperature with a low test lubricant. The importance of this fact may be carbon is present in all oils, a certain amount of carbon deposit from a considerable should be u

POINTS ON PAINTING

Novel Effects Will be Seen 1911 Models-Gay

Doubtless the automobile owner as well as the automobile painter will be interested in the subject of popular cctors for the sesson of 1911, writes M. C. Hillick in The Automobile. With the march of the season, of course, will come not a few color novelties intended to appeal to a class of buyers intent upon securing decidedly unique or sensational pigment effects. The great majority of colors, however, destined to be in evidence upon the horseless carriage next year will be the colors that have found favor this year, or pigments closely related to them.

ing its old paint structure in fair condition, and upon it is not feasible to apply rough stuff. In case of the apply rough stuff at least be done upon the first coat of surfaces in order to fill up all fractures, cavities, and shattered bits of word. Then apply over this putty a couple of coats of roughstuff, which in due course, are rubbed down to a level and smooth surface. The work is now ready to be coated in with color.

A Priming Coat:

Should the surface be a new one from the wood up it is first primed, then coated with two good coats of lead, next puttled, and then bodied up tull and strong with four coats of roughstuff and capped off with a stain coat for the guidance of the surfaces of an ounce of pigment to the proportion of the surface be a new one from the wood up it is first primed, then coated with two good coats of leadic rubbing varnish stained with a stain coat for the guidance of the surfaces of an ounce of pigment apply on the second-hand market, because that it is the popular idol.

This color is obtained in at least three different shades, this feature alone three different shades, this feature at least three diff

Should the surface be a new one from the wood up it is first primed, then coated with two good coats of lead, next puttled, and then bodied up full and strong with four coats of roughstuff and capped off with a stain coat for the guidance of the workmen invested with the duty of grinding mixture from failing into the cylinder. After grinding is done, the waste may be drawn out by means of the cord.

The grinding medium may be emery. Mr. Cobb will handle a Marmon and ground glass, carborundum, or one of Mr. Rucker a National.

The grinding medium may be emery. Mr. Cobb will handle a Marmon and ground glass, carborundum, or one of Mr. Rucker a National.

Top, the same order, and as follows:

Per Strinich istoceries a cit by adding a class and the color out to dry down flat. The following dy take some color, thinning the color out to dry down flat. The following dy take some of the lake Property with this flat, color the surface, laying the planear on with a camella safe brush. Permit the cost to dry until the day following, whereupon oreal, say, an onne of fine lake up flucly in turpers, the control of explanear or the explanear or the control of explanear or the explanear or the control of explanear or the control of explanear or the control of explanear or the explanear or the control of explanear or the e

the special control of the first control of the fir

business with horses, when you see a freight automobile whizzing by. Everybody realizes that the bell was rung on horses for city transportation long ago, and realize that the man who sticks by them is a back number. For a medium deep shade of carmine use light Tuscan red, laying the first coat of carmine as a flat color, then coat of carmine as a flat color, then glazing.

For a light carmine lay the carmine first as a flat color, then as a glaze color over a ground of English vermilion. In the use of carmine success depends in no small degree upon the quality of the pigment. Not a little of the No. 40 French carmine being sold to automobile painters and manufacturers, while chemically pure, has a muddy, lustreless tone, a defect which condemns it for good work. The carmine pleasing alike to critical buyers and connoisseurs carries a striking blood-red tone, unapproachable and inimitable.

The Grabowsky Power Wagon has had a large part in introducing the new era of automobile merchandise transportation. It fulfilled the requirements and showed that it could meet every test, proving that all seasons were alike. Its drivers snapped their fingers at the snow and whistled at the rain. It could be relied upon to do business the year round. It showed how horses were eating their own and their owners' heads off day in and day out.

THOMAS CAR FOR BUFFALO POLICE.

The Buffalo, N. Y. Board of Police Commissioners has installed a six cylinder forty-horsepower Thomas Flyer of the touting car type in the police department in connection with the dectective bureau to be used by Chief of Police Regan and the detectives, for hurry calls. The commissioners felt the unrent need of some As a result of a recent communica-tion from the fire commissioners to the mayor of Buffalo regarding auto-mobiles dripping oil on the pavements, automobilists of that city have been notified that arrests will be made if the present condition of affairs in this regard is not remedied.

It is claimed that automobilists in the city do not sive proper head to sioners felt the urgent need of some vehicle for the speedy transportation of men on hurry calls and selected a 1911 Model M Flyer as the best adap-ted car for that use. Chief Regan, the It is claimed that automobilists in the city do not give proper heed to the drip pans on their machines and that with proper attention these can be prevented from leaking. The commissioners in their letter to the mayornsaid that the present condition of the streets, resulting from oil of machines, was extremely dangerous to horses, and especially those attached to the fire department. new car.

THE COLUMBIA POLICY.

Commercial Vehicle Industry Increases at Phenomenal Rate in United States

SOME INJUNCTIONS

Don't decide before you see the car whether or not you will like it; the wish should not be father to the thought.

Don't look with a prejudiced eye; you might as well not look at all if you re-

Don't let some other pair of eyes do the looking for you; what is the matter with your own? Moreover, the other eyes might be near-sighted.

Don't look at the paint on the body while you are thinking of the carbureter. Don't examine the striping on the wheels while you are wondering whether or not a magneto is used in the ignition system.

Don't become fascinated with the brightness of the lamps and forget to observe the method of lubricating.

Don't spend all your time admiring the straight lines of the body; the cooling system remains to be looked at. Don't go hunting around for a place to put your baggage until you find the

place where the tools are stored. Don't just glance at the place where the tools are supposed to be; count them;

give a thought to the character of them; a bundle of wire is worth about a nickel; credit the "kit" with all that it has in its make-up, but

Don't try to figure out where the spare tire is to be stored on the car; let th maker of the car dispose of such details for you.

Don't assume that the lubricating oil can be carried in your hand; let th maker of the car provide a place for it.

Don't usurp the position of designer of the automo tice; buy a car that has been designed. Den't assume that a car that looks bad is good. True, beauty is as beauty

does; equally true, beauty is an outward sign of an orderly interior. Den't fool with the carbureter and after you put it out of joint assume that i is no good; the chances are that it is as bad as you make it; the equal chances are that any other carbureter will be in the same fix after you get thru tinkering with it.

Don't expect to go too far on a gallon of gasoline; some of the distances covered (theoretically) on this amount of fuel are past practical mention. Don't start out with a little lubricating oil; have as much as there is storage room for; it is marvelous how much damage that can result from the absence of lubricant for just five minutes.

Don't fall in love with the magneto to the extent of neglecting the battery ignition; an old friend comes handy in a pinch.

Don't expect a battery to be in good working order after it has stood in idle ness for a year and a day; it may be a wizened old man incapable or active service when you get to it.-The Automobile.

Motor Notes

A motor combination chemical and hose wagon, to cost from \$2000 to \$3000, has been ordered by the City of Reading, Pa.

A good roads congress will be held in Louisville, Ky., during Christmas week by the Kentucky Good Roads

A New York City magistrate was recently called upon to decide whether a tricycle is an automobile. After

There are now in dally use in the United States at present approximately 350,000 automobiles. The 1900 production may be placed at 180,000 cars, with approximate value of \$240,000,000.

The Reading (Pa.) Automobile Club has decided to offer prizes of \$175 to the supervisors of townships in Berks up the best roads in their districts. The prizes will be \$100 to the township supervisor having the best roads, \$50 to the second and \$25 to the third.
Lancaster County, a neighbor of Berks recently adopted this plan.

During the eleven months commenc-ing August 1, 1909, and ending June 30, 1910, rubber was imported into United States to the extent of 96,000,000 unds. This hows an increase of 13,-1,000 pounds over the corresponding riod preceding, and over 24,000,000 counds more than the same length of

September 26 to 29 were the new dates selected for the third annual National Good Roads Convention, held this year at St. Louis, Mo. The change from October to September was brought about by the insistent desire on the part of the American Contracting Engineers to hold their annual meeting at the same time and to work jointly with the National Good Roads Convention.

More than 300 road signs have been erected by the New Jersey Automobile and Motor Club within the past few weeks. Before the end of this month it is expected that nearly every road in northern and central New Jersey. will have been thoroly sign-posted and danger signals erected, and the work will then be continued into southern New Jersey.

pockets are fitted.

IGNITION CONTROL

Advantages of Both Systems-Quality of Mixture Used a Factor.

is doubtless a fact that the automatically timed spark is more efficient in the hands of the novice, it is & queshandled by one fully acquainted with the workings and principles of the

If the quality of the fuel, the humidty of the air, the efficiency of the cooling system and the adjustment of the carbureter were always the same, then the automatic control would unquestionably be ideal. But since such is not the case the greatest efficiency and power cannot be obtained at all

If the mixture is made richer by admitting more gasoline or if gasoline of a better quality is used, then the mixture will burn more slowly and hence should have a greater spark advance to procure proper results. If the proportion of air is increased or a poorer quality of gasoline is used, then the charge. In much the same manner the humidity of the air and the efficiency of the cooling system affect the time of combustion. Likewise, changes in compression, due to either throttle po-sition or engine speed variations alter the rate of combustion and necessitate a like alteration in the setting of the

AUTOMOBILE TO SUIT NEEDS OF INVALIDS

M. Bordelai, the French engineer, has designed a special motor car for invalids and convalescents. The necessity of daily drives in the fresh air for his grand niece, to hasten her recovery from a severe illness, was the incentive to the invention. The machine looks somewhat like a bathtub on wheels and has a long, low wheel base, with deep tonneau to prevent upsetting. The seat, at the extreme end of the car, has a very comfortable back, and the steering wheel is provided with a long shaft which the operator can handle without changing his comfortable position or tiring himself.

Royal Auto Club Most Luxurious

Will be the Finest Club House in London—Cost Over a Millien and Quarter—Thoroly
Modern

In January the new headquarters of the Royal Automobile Club will be completed, and the fortunate members will enter into possession of the finest club-house that has ever been built. Eight hundred men have been toiling ceaselessly on the magnificent structure in Pall Mall since March, and are already putting the finishing touches to the work. Over &250,000 is the estimated cost of the new building, and so enormous was the undertaking that no enormous was the undertaking that no fewer than 2000 plans have had to be prepared in connection with it.

Here are a few interesting items which show how much material the giant building has swallowed up:—

Sixty-five miles of electric wire. A hundred barges of cement. Three-and-a-half million bricks. Two thousand tons of steel work. Seventy thousand feet of Portland

The huge kitchen in the basement would, it is said, make the greatest hotel cooks in London green with envy. Each department is kept absolutely separate. The kitchens are carefully cut off from the other part of the club, so that no smell of cooking can offend the millionaire members aloft, and a special express service of lifts and a special express service of lifts considerable cogitation he gave it up. I timing is preferable depends upon con-passing it on to the district atterney. ditions, the most important of which placed hot and steaming on the tables is the skill of the operator. While it in the restaurant a second or two after they leave the oven or the stew-

The Entrance. There is a splendid double entrance to the club under a pediment, which immortalizes the motor car for the first time in marble; and inside a handsome oval hall, 56 feet in width. with spacious corridors, leads in one direction to a Louis Quatorze reception room, and in the other to an equally beautiful department, which is to be

used as the strangers' room.

In the basement is a "dream" of a swimming bath, finished in the most elaborate manner after a Greek pattern, 50 to 60 dressing rooms, racquet courts, a gymnasium, a hairdressing establishment, a chiropodist, Turkish baths, vapour baths, and everything else that the most luxurious clubite could possibly want.

The autimula hath which takes up

There is a terrace on the second floor, overlooking Carlton-gardens in the foreground and Big Ben, the houses of parliament, and Westminster Abbey spark should be advanced less on account of the quicker combustion of the Room has also been found in the new club for a great billiard-room, for cardrooms, servants' club-rooms, a rifle range, and a gorgeous lounge with a properly fitted stage for entertainments and lectures.

There are 125 bedrooms, with sitting-

rooms and bathrooms attached to most of the suites, and a telephone in every

One of the greatest of the many novelties is a system of heating, which is worked on the most hygienic prin-ciple. Two tremendous cylinders find an outlet on the roof, one being used for-collecting the freshest air London has to give, and the other for sucking out all the foul air from the building, and blowing it away into the clouds.

Many Medicos Use a Heavy Touriug Car and Waste Money.

Why do so many doctors use heavy four-seated touring cars in their professional rounds? I made an amateur census of the cars beloved by the medicos in a certain provincial town, and found that over eighty per cent of the profession were using cars of about 20 h. p., many with a lot of top hamper in the shape of heavy covered bodies, and others with hood, screen, and full touring kit, so that at a moment's notice the vehicle could be swept off for a long pleasure run with the family aboard. This means that the gentlemen in question were transducted on a farm near Six Mile Bottom, in Cambridgeshire. Its object is to determine what breed of sheep is the most suitable to the wants of the British household. In this matter the colonial producer showed himself in advance of those who remained a home, for long before our own farmers plicable to every unnecessarily heavy home, for long before our own farmers plicable to every unnecessarily heavy recognized the fact he saw that the want in Great Britain was for small transition stage in which it was a breach of etiquette for a doctor and his breach of etiquette for a doctor and his points.

Fifty years ago the fattest and biggest sheep was ever considered the best, but in those days the appetite for cold meat seemed to have been much greater than it is to-day, when the householder wants a small joint that can be practically consumed at a single meal.

breach of etiquette for a doctor and his man to sit alongside each other; but those days are gone for ever, and nowadays in every ordinarily level town, a doctor only needs an 8-10 h. p. "inside driving" coupe for his purely professional work, and it will actually, pay the motoring medico to keep two cars—one for touring work and another for his professional rounds. for his professional rounds.

Machine That Measures to Onehundredth of a Horse Power.

because of its setting and because le owners are asked to have tested free of charge, has been installed at the University of Kentucky,

which institution purposes to do considerable research work on the subject of power-plant efficiency.

The plant is so arranged that an automobile can be mounted on two drums revolved by a shaft, the other end of which contains a friction brake. The automobile is held in place in such position that the centers of the rear axie are directly over the centers of the shaft carrying the drums, this axie being connected to a system of levers which is in turn connected to a scale. The scale system is so sensitive that one-fourth of a pound pull can be accurately measured. By means of instruments, it is possible to determine the horsepower of a machine under any conditions of operation, within an accuracy of one-hundredth of a horsepower. The distance traveled by the tread of the rear tires is measured by a recording indicator. Majority of Cars Exported From

Official figures for August show that he exportations of American-made The United States Paint Manufac urers' Association has prepared five called "export season" and prove that

fall:

1. In the fall the surface is thoroly dry. During the spring a surface which needs repainting is sure to contain moisture and dampness or frost, and it cannot be successfully painted until it has thoroly dried out.

2. When the wood is dry it absorbs more of the paint; the paint penetrates deeper into the wood, therefore gets a firmer hold on it.

3. Paint cannot be as successfully applied in damp, cloudy or unsettled weather as in warm, sunny weather. In the fall the weather is more settled and uniform and generally warmer; therefore it is an excellent time for painting. during August, this year, were valued at \$1,033,759, as against \$658,556 for the

this protection.

5. It is easier to keep the winter's moisture and dampness out by applying a coat of paint in the fall, when the surface is dry and receives the oil and pigment so as to cover and protect the surface.

These reasons apply as properly to other nations, but here apparently we have the content and the protections.

A NEW ENGLISH CHAZE

Names May be Registered and Thus be Made Exclusive.

Here and there in this country may be found a motorcycle bearing a name fire, and may be taken up enthusiastically in this country, should some scheme of registering be decided upon.

neet in England the naming of machines is the topic of conversation, and painted on the gasoline tank. 'Registration headquarters have been arranged and no name is accepted for record that has already been registered by some one else.

The names given the machines by heir owners are of a varied nature, intheir owners are of a varied nature, in-cluding the humorous, the appropriate, and the grotesque. Among the hun-dreds of names already registered are found "Grey Ghost," "Fossil," "Puff-ing Billy," "P'raps," "Red Rati," "Au-togo," "Tired Tim;" "Gatling Gun," "Flying Dutchman," "Mighty Atom," "Red-ot," "Creeping Jimmy," "The 'Red-ot," "Creeping Jimmy," Snall," "Non-Stop," "Rob Roy, ome," and "Arrow."

THE NEGLECTED CARROT.

Without a Friend, Seemingly, in the Hotels and Restaurants.

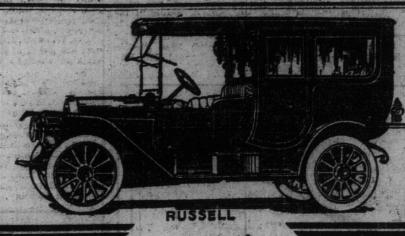

"If people did but know it," said a man who has made a study of the food question, "carrots are among the most nutritious and delightful vegetables that grow, and yet it is almost impossible to get them in the average restaurant."

sible to get them in the average restaurant.

"Mashed carrots, to my mind, make a delightful dish, tasty and healthful, and yet I have failed to find this dish on any bill of fare so far, and I have examined a good many carefully in the hope of finding the carrot recognized as it should be recognized. You can get mashed turnips almost anywhere you go, but the only use they have for carrots is to flavor soup or stews, altho now and then one does strike them served in cream as a delicacy.

"But why not serve them like potatoes and turnips? Carrots are splendid for the blood, good for the complexion, and at night are supposed to be quieting. Their digestibility, if served mashed, surpasses nearly all other vegetables. A delicate stomach will get away with them when other vegetables would work harm.

And yet the carrot seems to be with-

THE centre of all eyes at our Special Exhibit I of Closed Cars has been these Four Models:

Russell "30," Model R, Limousine \$3,350

Russell "30," Model R, Landaulet

Russell "30," Model R, Coupe

Russell "38," Limousine \$5,800 (Fully Equipped)

THE construction of these Russell Models will show you the importance we attach to the quality of a motor car.

There isn't one standard for the parts which show and another for the parts which do not show. USSELL "88" Limousine

You can see the quality of finish and fittings, but the Russell thoroughness soes to every working part—to every gear—yes, to every bolt and its very manner of fastening. No matter which of these cars pleases you most, bear in mind that high-grade quality possesses it in every detail.

Of Special Interest to Physicians Russell "30" Coupe is particularly designed for physicians. All the steering and driving mechanism is enclosed. No more practical or comfortable vehicle could be imagined.

You are cordially invited to inspect all these cars at our branch, where their merits will be carefully explained.

We are also at this time showing a number of desirable used cars which have been taken in exchange for Knight engine models and priced very low.

the leading car in this exhibit. It has the Knight motor. Its easy riding qualities are helped by its long wheel base, 127 inches, and its large wheels 36x4 1/2 inches front and rear. It accommodates six inside with comfort. All the luxury of finish and appointments known to the business are expended upon it.

Society at the Capital

The Earl and Countess of Lanesborough and Lady Eileen Butler who salled on their return to England at the end of the week and with whom everyone at the Capital parts regretfully, have been for the past week feted continuously at dinners, luncheons and teas. Lady Cartwright invited Ottawa's Four Hundred to bid farewell to Lady Lanesborough and Lady Eileen Butler one afternoon at the tea-hour, when Miss Frances Tupper of Vancouver was also a special guest of the brilliant gathering, and the rooms were charmingly arranged with violets and white carnations. Mrs. Frank Oliver was the hostess of a young people's luncheon in special honor of Lady Eileen Butler, when covers were laid for fifteen guests among whom were Miss Elizabeth Borden. Miss Florence Fielding, Miss Margaret Fitzpatrick, Mrs. David Gilmour, Miss Pauline Lemoine, Miss Marion Lindsay, Miss Glady's Carling. Miss Gladys Ewart, Miss Ethel Palmer and Miss Isabel Sherwood.

Mrs. Warren Y. Soper invited a large number of Ottawa's prominent hostesse's beautiful home, "Lornado," at Rockliffe. The decorations of autumn leaves and flowers were much admired and little Lady Betty Butler was present assisting the little daughter of the house, Miss Eleanor Soper, in waiting on her mother's guests.

The Misses MacLeod Clarke on the following afternoon entertained at the tea-hour as a farewell for Lady Lanesborough and Lady Eileen Butler. Exquisite feathery 'mums adorned the various rooms and those doing duty in the tea-room were Miss Jessie Clarke, Miss Vaughan Avery and Miss Louie Douglas.

Miss Vaughan Avery entertained at a 'uncheon of eight guests for Lady

A brilliant reception at Government House on Tuesday afternoon at which Her Excellency Lady Grey entertained as a "good-bye" to Lady Lanesborough was very largely attended, and, barring the necessity of saying farewell to the departing popular wife and daughter of the military secretary of His Excellency, was a most enjoyable gathering.

honored guest of a well-arranged din-ner at the Country Club by the various members of the club, and on Tuesday evening Lord and Lady Lanesborough were the host and hostess of a fare-well dinner at the same attractive rendezvous.

in' of the bees; heu haze days

Mystical, mysterious, misunderstood, the third degree takes vague shape in many minds as a shadowy something of horror, to which half-fainting wrong-doers are subjected by inhuman police officials, with night as an aliy, in the evil-smelling fail cells of a forbidding station-house.

The third degree, indeed, has been termed the police inquisition. This would not be a bad definition if it be understood that the victim's torture is of the mind, the heart, the soul, rather than that of the body. There used to be days when American cities, were the scenes of shocking physical brutality practiced as part of the third degree. There are stories, part true, part exaggeration, known to those brought into contact with police tradition, of deflant suspects who have been beaten senseless, who have had their teeth knocked out, who have been starved until so ravenous they would say anything for food. Who have been kept without sleep until on the brink of madness.

But such is not the third degree of today. In the worst days of the third degree physical violence was not used as a generality. It was a distinct exception. But to-day physical torture has been almost abolished, largely due to the exposures and scandals resulting from some flagrant cases of third degree application.

Nature of Third Degree.

What, then, is the third degree of 1910? It is the merciless, brutal, ingenious, incessant ordeal of cross-examination, with the aid of information secured by "digging" on the case or with colossal "bluffing" by the police officials, which is forced upon a suspect, with no friend present, absolutely in the power of the police. A bit of French method of "reconstruction" of a crime is sometimes employed as an adjunct to the application of the third degree. The object always is to make the swapect either confess to the crime or diviuge such guilty knowledge as he has of it.

"Make him tell" is the watchword of the degree.

Analyzed, the third degree shows on one side police prestige and power, po-

capped by arrest, in fear of the po-lice, dreading punishment, alone. His nerves are shaken. Often he has the blackest of consciences. Many times he is on the verge of exhaustion thru mental stress and lack of rest. He has no one to relieve him and he must continue, hour after hour, to defend himself against the thrusts of the examiners. He sees, himself, itch by inch, as the minutes drag, being driven slowly into the corner of guilt. It is not unlike the getting testher of a number of particular down the street.

May Be Hypnotized.

Hypnotism or hypnotic influence, it is charged by some critics of the police, has been used in the "make him tell" process. This probably means nothing more however, than the influence of a man powerful physically degree at once.

It came about in this fashion. There was a criminal and general tough character in New York named McGloin who was arrested on suspicion of havening and mentally over a weaker. Pit a police officer of massive frame and of keen wits against a criminal, a suspect of weaker physique, and of but average intelligence, and it is not improbable that the policeman will, in the course of a grilling extending over hours, get the best of the meeting. It is plain, too, that a police officer with some hypnotic power might well force the suspect into an unwarranted confession thru its influence.

But without any hypnotism being brought to bear against him, the subject of the third degree has a bad time of it. He is brought into the station, often after a chase in whilch the police of many cities have been looking for

the right man.

In the United States such elaborate reconstruction methods are not in vogue. Borrowing an idea, however, from the old French device. American police often confronted the suspect with the body of the victim at an unexpected moment. A common procedure is suddenly to flash the weapon with which the deed was done before the eyes of the suspect, or to show him blood-stained clothing of the dead. This has been found an important aid in administering the third dearee.

Reporter invented Name.

But why is the ordeal called the third degree, and, if it is the third degree, what are the first and second degrees?

That's the question which is asked many times when the third degree is under discussion. The answer is simplicity itself. The phrase was invented by a New York newspaper reporter,

ed by a New York newspaper reporter, and there are no first or second de-grees—one jumps right into the third degree at once.

How the third degree is applied and what its unspeakably unjust effects may be in forcing a confession from an innocent man is shown in vivid fashion by the play called "the Third Degree," which has caused widespread comment on up-to-date police methods.

It tells the story of a young son

comment on up-to-date police methods.

It tells the story of a young son of a millionaire, disinherited because of his marriage to a shop girl. This son, Howard Jeffries, calls one evening at the studio of a friend of his college days, Robert Underwood, to ask a loah. Underwood is on the verge of bankruptcy and also faces exposure of the dishonesty of which he has been guilty. Jeffries, a youth of neither physical nor mental stamina, whose nerves were shattered by a drinking hout and by his financial perpiexities, discusses his troubles with Underwood. His friend tells something of his own dire position, never drinks whiskey as he talks. Finally Jeffries falls asleep on a davenport in the studio.

Underwood is visited by an old-time sweetheart, to whom he has written, declaring that he will kill himself unless she aids him financially. She refuses aid and leaves. Underwood, seeing that he is at the end of his resources, passes into the next room of the suite. He kills himself there, the shot being heard from behind the closed doors.

awakens shortly before the arrival of the police, Captain Clinton, a sergeant, and the patroiman.

Clinton is a brutal, heartless, grafting police official with the face of a thug and the physique of a prize fighter. This man proceeds to put Jeffries, in his pitiable mental and physical condition, his faculties dulled with liquor, thru the third degree. For seven hours, all thru the night. Jeffries is kept on the rack by Clinton, backed by the other two policemen.

The audience sees Jeffries undergoing the finale of the third degree aftr seven hours have passed. Here is the way the application of the third degree ended:

Capt. Clinton: "Answer me. Answer me. You did it and you know you did it."

Jeffries: "No, I—"
Clinton: "Weil, we know you did it.

Eh, Maloney?"
Maloney: "Of course he did."
Clinton: "These persistent denials are useless. The evidence is hero."
Jefffics: "I—I'm no suspect. Good God! What's the use of questioning me and questioning me! I know noth-

ine and questioning me! I know nothing—of this—"
Clinten: "Why did you come here?"
Jeffries: "I told you over and over again. We are old friends. I came to borrow money; he owed me a few dollars when we were at college together—and I tried to get it—I told you so many times—hour after hour, question after question. Won't you please let me go? My wife will be waking up—and—why, it must be morning! I am tired out—tired out. I want to go home and—"

Confession by Suggestion.

Confession by Suggestion. Here Jeffries starts to sit down. Clinton speaks harshly, says: "Stand

Jeffries rises wearily and unsteadily. Clinton says, "How much did you try to borrow?"

Jeffries: "A thousand—two thousand. I forget! I think one thousand. I told you so many times-" Clinton: "Did he say he would lend

Jeffries remained motionless, Clinton, shouting, "Stand up!"
Jeffries rises slowly. He is dazed in helplescness.

Eye Focused on Pietol.

Clinton. "The motive is clear. You came for money, was refused, that led to words, there was a quarrel and you did the trick."

with a quick movement Clinton then got a p'stol and shoved it before Jeffries' eyes so that the rays of the one hanging light fell upon the gleaming burrel of the revolver. Jeffries gazes at it as the fascinated. His face becomes vacant. His eyes are fixed. Scientifically, explains Charles Kiein, author of the play, this accomplishes the act of hypnotism and Jeffries

Clinton: "You committed orime, Howard Jeffries!"

Jeffries continues to gaze at the pistol, his eyes riveted on it.

Chinton: "It is as clear as daylight, eh, Maloney! You did it Jeffries, you know you did! Come, come, own up! Let's have the truth! You shot Robert Underwood—with this revolver! You did it and you can't deny it. Speak—go on—out with it! You shot Robert Underwood!

Repeats Officer's Words,

There is a momentary pause. Jeff-

There is a momentary pause. Jies' eyes are still on the pistol. Jeffries speaking mechanically: not Robert Underwood."

Maloney now begins, to write d

"You came here for mon

"There was a quarrel."
"You followed than in

"And shot him."
"That's all." Jeffries: Clinton: Jeffries sinks into a sleep. Clinton pockets the pistol, their Clinton says, "Gee, he was a tough one." Get that all down, Maloney?"

Maloney: "Yes, Capt."

Clinton half smiles over the efficacy of the third degree. And Dr. Bernstein, an official physician, comes in after examining the corpse and states his belief that death was due to suicide. Clinton denies and says:

"This man just confessed."

"This man just confessed."

Wants No. "Psychic Theories."

Bernstelnlifts Jeffries' head, examines his eyes, and says: "Confessed. eh? Captain, I don't approve of these all-night examinations. When a man is tired and nervous, his brain is benumbed..."

"In the old days, a good many years

may make a hit with college students, and amateur professors, but they don't make a hit with us. You can't make a man say "yes" when he wants to say "no." I'm after results. None of the psychic theories for me."

Clinton: "Take him over to the station, write out that confession, and get him to sign it before breakfast."

Here, then, was the consequence the third degree after being admin-istered for seven hours. An innocent man is arrested, having confessed to a murder which has not occurred.

The remainder of the play deals with the devotion of Jeffries' wife and that devotion finally saved nim from the shadow of the gallows. It gives as striking an object lesson as could be demanded of the terrors of the third degree, and where it may lead when grossly atused.

Police Deny Brutality. It is said that the idea of the hird degree came to Mr. Klein after third degree came to Mr. Klein after reading in a newspaper of Marsailles, France, of a voluntary confession of a man confined in the Joliet, Ill., peni-dentiary, by which he declared him-self guilty of a crime for which an-other had been hanged several years

So much for the general subject of the third degree as it strikes the lay-man and the playwright. What have the police to say about this most dis-tressed ordeal? What is their atti-tude?

that there is such a thing as the third degree, if that phrase be used to designate a severe cross-examination, with every trick artifice known to the man skilled in dealing with criminals and in breaking down the fortifications of sulien denial or fluent falsification. But the police officials deny absolutely that there is such a thing as a third degree, if that phrase be used to designate physical violence or physical torture of any kind.

"All this talk that the third common continuation of the common that the third degree is the common than the common that the third degree is the common than the

"All this talk that you some-imes see in the papers and magazines of policemen knocking the magazines of policemen knocking the teeth of suspects, squirting them with a hose, scraping keys along the cells so they can't sleep, starving them, and all that sort of thing, is 'sheer rot,' said Captain Stephen B. Wood, head of the Chicago Detective Bureau, and an officer who has a most comprehensive experience in dealing with all kinds of cases.

"To come down to practical mattere, tho, one can say that the taird degree exists and always will exist, I presume, if the words are used to mean the hardest and most searching kind of a cross-examination, for all kinds of feints and attacks and knowledge of criminals are brought into play."

"My own method is to be friendly with the suspect, or known criminal, with the suspect, or known criminal, and let him tell his story in his own and the playwright. What have he police to say about this most discressed ordeal? What is their attitude?

When asked they declare readily that here is such a thing as the third ask and then efter I study the respect to the cross-examination of the suspect where the first officer left off."

"It is true, of course, that the third degree is not a pleasant process for the suspect, but the gruelling questioning for a long period of time is only kept up in the case of a person in the lies, get information of the actual facts, and then, efter I study the respect where the first officer left off."

"If I find that the whole story con coction, or largely so, and that ther is little doubt but that he committee

"De you think that the third degree ever forces an innocent man to con-fess to a crime he did not commit,"

"No. I do not," he declared. The third degree is only played to the limit when the police are dealing with a known criminal or a person against whom the prima facie evidence is so strong that it virtually amounts to conviction. Of course, if the public wants to, it can apply the title of the third degree to any questioning of a

refreshed man than the prisoner, or

"It is thus nonsensical to imagine that the third degree is used or could be used to force a confession from an irrocent person, who knew nothing about the crime."

TOBACCO HABIT

LIQUOR HABIT

strong that it virtually amounts to conviction. Of course, if the public wants to, it can apply the title of the third degree to any questioning of a suspect, or even of a witness, but as I understand the general meaning of the term as applied by the newspapers to Yonge-street. Toronto: Canada.

"THE GREEN LAMP"

LOUIS JOSEPH VANCE

Faraday's mother's watch to get food.
Faraday's mother's watch to get food.
Faraday shows a letter from his old guardian asking that he come back to Mississippi to clear up a mystery of Faraday's lineage. Dr. Spotzwood writes that Faraday's father was murdered and that the house has since been haunted. The pair secure funds and go to Culpepper on Faraday's sloop.

Faraday loses the control of the ghost disappears. Hammond gues upstairs in pursuit and is mocked by strange sounds. Suddenly he had more than half believed in the ghost theory), I with the fellow opened his eyes. And when he did so, I no longer wondered and that the house has since been haunted. The pair secure funds and go to Culpepper on Faraday's sloop.

Faraday loses the control of the ghost disappears. Hammond gues upstairs in pursuit and is expression of blank astonishment (for I think he had more than half believed in the ghost theory), I with the door and waits.

The flesh beneath his ragged coat seemed unwholesome somehow—flactid and yielding, entirely the food.

Knew it then for not physical indeed it was very filthy.

We walted, watching, Faraday with an expression of blank astonishment (for I think he had more than half believed in the ghost theory), I with the door and waits.

The flesh beneath his ragged coat seemed unwholesome somehow—flactid and yielding, entirely the food of the country of the country of the stairs and seemed in the ghost theory), I with the fellow opened his eyes. And when he did so, I no longer wondered at his surprising strength. I with the fellow opened his eyes. And when he did so, I no longer wondered at his surprising strength. I with the fellow opened his eyes. And when he did so, I no longer wondered and that the house has since been haunted. The pair secure the door and waits.

Faraday loses the pawn ticket for the watch, which has a mysterious in-scription on it, believed to be bearing on the mystery. On the way to the house and meets Miss Spotswood, whom Faraday loves.

Deal another severe whom they be be bearing at full speed. They see an emerald light and the old man disappears magically. As they return to the sleop, Zeb brings word of Dr. Spotswood's death. Hammond goes to the house and meets Miss Spotswood, whom Faraday loves.

Deal, another reporter, whom they suspect of having stolen the watch, returns and restores the timeplece. Haminond and Deal quarrel, Ham-Haminond and Deal quarrel. Ham-mend takes a slip of paper from the wetch, which proves to be a letter written by Faraday's father, telling how to find the jewels in the haunted house. Faraday accuses Deal of stealing ft. Hammond and Faraday decide to watch for Deal at the haunted house. They walk down to the sound and find a sloop tugging at the pier. They climb aboard and are cut loose by a mysterious hand. Their sloop is wrecked by the storm and they are cost on an island. All next day and night they float until finally bicked up by a cult start. decide to watch for Deal at the haunt-

Dicked up by a guif steamer.

Then they return to Culpepper. Deal is missing. 'Hammond goes to find him and learns that Deal has been missing from his home. Also a team of horses is missing from a livery stable. Hammond decides to visit the house. house of mystery at night. He goes at night and is accompanied by Faraday's dog. The green lamp burns on the library table, Hammond sees a mysterical state of the library table.

The flesh beneath his ragged coat seemed unwholcome somehow—flacted and yielding, entirely disgusting. My gorge rose as I grasped him, and it was with distinct relief that I let go of the fellow and allowed him to sink down into the chair wherein he had sat night after night going thru his ghastly pantonline. his ghastly pantonilme.

For a few moments he seemed sunk in a stupor-brought on, I suppose, by the unexpected attack of the dog and the fright it gave him. We had a good chance which you may be sure we improved, of observing him.

He was tall-a man of Faraday's inches-and excessively emaciated, so much so that I wondered where he

he have the characteristics of my friend-not only facial, but physical. More than once, e're we finally learned the truth. I found myself speculating as to whether or not he might have been Faraday's father in truth

and the flesh, miraculcusty risen from the grave. but he was different, too. The face with its Faraday nose and winning Faraday eyes and smile, was—as you "I have it," say—pock—marked with evil! The was anything else. Faraday eyes and smile, was—as you might say—pock-marked with evil; crime, dissipation, evil thoughts and woys of life had left their marks there as strongly as had his parentage.

The thin, stringy gray hair which fringed his temples even seemed some
The thin, stringy gray hair which fortune, and he has brought the displacement of the same way. The same way, Thomas—

"How I used to laugh, nephew, when I hid by the wall and saw them fortune, and he has brought the displacement of the same way. The same way is the same way is the same way. The same way is the same way is the same way. The same way is the same way is the same way. The same way is the same way is the same way. The same way is the same way is the same way is the same way is the same way. The same way is the same way is the same way is the same way is the same way. The same way is the same way is the same way is the same way is the same way. The same way is the sam

acal, and that explained much to us. He opened them, and they falling full on Faraday, he began to speak in a high, thin, strained tone of crazy sar-

"Ah, Thomas!" he oried; and while he continued speaking his eyes never left my friend's face, but rested there, blazing with insane fury. "Ah, Thomas, you are come at last!"

"Seems so," responded Faraday grimly, the while I made my revolver ready for posible emergency.
"Yes," continued our captive, "you are come—nephew! You don't know how long I have waited for you, Thomas, my brother's son;" and here Faraday started violently, and I too

much so that I wondered where he had found the strength in that wasted frame to dodge me and pursue me as he had for so long upstairs, and to do one other thing which we were yet to place to his credit—or to his debit.

His height, however, was not the only point wherein he resembled Faraday. There was that about him which was fairly sickening, so strongly did he have the characteristics of my the strength out of the last, could you Thomas?"

are come—nephaew! You don't know how long I have waited for you. Thomas, my brother's son;" and here Faraday started violently, and I too saw a great light.

"For I knew you would," the thin, cracked, repulsive voice rambled on. "I've been waiting and watching and knowing that you'd come, Thomas, many, many wears. You couldn't disappoint me at the last, could you Thomas?"

the last, could you Thomas?"
"Did you bring the memorandum with you, Thomas? Did you? Because you must have—ch, you must!"
He gripped at the arm of his chair, leaning forward like an animal about

as—and his good, rich blood spurted out—.

"Cain!" The man's mind took another turn. "Cain!" But he drove me to it. He took the woman I loved, the dog! Took her from me and married her and had a child by her—and you're the child, Thomas—. And he had the money, and kept !t—wouldn't give me, his own brother, a cent—not a red cent, Thomas. Was that right? I was of age and a man, and his brother, and I wanted money—.

"Not a cent—and took my sweet."

"Indeed, I was afraid to look at him.

"Not a cent-and took my sweet. heart from me-Amelia? heart from me—amens? was that her name? Took her, too, Thomas, married her, and left me to starve—me, his own flesh and blood!
"Well, it can't be said he hadn't warning. I warned him, Thomas, tane and again, that if he didn't give

ms my share of the money, I'd kill him—kill him, and did, that I did. Thomas, in this chair—. And his nigger, tou-. Only that was somewhere else-outside somewhere.

"But I killed 'em-killed 'em both—and that one other, too. who came smaking in ever so quietly, thinking to surprise me. I killed him, too.
"But I have waited, Thomas, waited ch so patiently for you to come. No one else would trouble me, I know for I kept my lamp trimmed and filed and let my light so shine. Thomas, none ever came but you—and that other one—. But he's dead and gone, and never mind him. Only you'll go the same way. Thomas—

rections with him, like a thoughtful, dutiful child.

"Well, give them to me."

He held out his hand, but didn't seem to notice that nothing was praced therein, but went on babling madly.

"He's brought them, the good, noble shead, close-fisted dog, the—That's with one hand up to ward off attack, with one

Indeed, I was afraid to look at him. The revelation that the lunatic had made us was horrid in the extreme. Knowing how it would affect me in his place. I pretended not to see Faraday; for a man does not like to be observed when he is wrung by great

served when he is wrung by great errotions.

"It's peculiarly unpleasant." Faraday went on, comforted by the sound of his voice. "My father wronged him, or he fancied be did, and he slew my father and the servant. I wonder if he was insane when he did that?

"And then he comes back to the scene of his crime and hangs out here for years, waiting for me to turn up, so that he can slay me and find the—the treasure, let's call it."

"Great Scott!" Think of the dog's life the fellow must have led!" I excelaimed. "Here alone for twenty."

"He didn't mind," said Faraday.

"He was crazy. That explains a

"He's liable to stay that way for most any length of time," said Faraday. "Let him alone—we've naught to fear from him now—and come and take a look at this contrivance."

I walked over to his side and saw him put his foot on a little spring which stood out from the wall a foot or so to one side of the window. Immediately he did so a heavy woolen curtain dropped silently over the window. He pressed it again, in a different fashion, and the curtain rose swiftly and furied itself.

"There you are," Faraday cried.

"There you are." Faraday cried. I'd like to know how that thing works, but I don't think we can spare time to investigate. Bus my uncle, the murderer, was no fool, if he is a homicidal maniac. This is ingenious, Luke. I'd rather like to have that memo. of my father's just now, and work out this hidden treasure business. It's plain enough that the compartment is somewhere behind the wainscoting. But I don't remember the instructions exactly, and— "And I'd like to get held of that

fellow, Deal."
He made this last remark somewhat

"Well, I'll see," said I, taking up the dark lantern, again. "You stay here and attend to your relative in case he comes to. I'll be back in a minute."

For some time I had been conscious of a peculiar, unpleasant odor about the house, and this strengthened my belief in my theory. Now, as I walked out into the hall and jerked open the door which gave to the stairs leading to the lower floor of the house, that floated up which staggered me.

It was some little time later when I was able to return. I came in by the front door, having left the cellar hastlijy by way of a window. Faraday eyed me curiously. "Goodness." (This is not the oath he used). "What have you been weep-

alone to recover as it suited me. Presently, looking up. I saw that he was fooling around the wainscoting. The

for years, waiting for me to turn up.

so that he can slay me and find the

the treasure, let's call it."

"Great Scoti!" Think of the dog's
life the fellow must have led!" I exclaimed. "Here alone for twenty—."

"He didn't mind," said Faraday.

"He was crazy. That explains a whole lot of things."

"The fits explain that pantomime business," I put in "but how in blazes do you account for that astonishing erasure of the light?"

"I don't know," confessed Faraday.

"Identify looking up. I saw that he was fooling around the wainscoting. The maniac was beginning to stir feebly in his chair.

"I wouldn't be too hard on Deal,"
I suggested. "De mortuls nil nist bonum."

"What do you mean?" He turned on me sharply. "Is Deal—dead?"

"You heard your—this lunatic talk about "the other one,' didn't you?"

"Good God!" he cried, herror stricken. "You don't think—?"

"Good God!" he cried, herror stricken. "You don't think—?"

"That he came here and was—eliminated by your uncle? But I do," I affirmed. "He hasn't been seen at affirmed. "He hasn't been seen at affirmed. "Continued Next Sunday.

"And the wainscoting. The maniac was beginning to stir feebly in his chair.

"Here, now," I heard Faraday say to his chair.

"Here, now," I heard Faraday say to his chair.

"Here, now," I heard Faraday say to his chair.

THE WORLD AT LARGE AND SPORT IN GENERAL & E.J. P. GOOD

Affairs of the Day

place the object of the fair is never ial attractions are special ats, and that without them the chew. The policy that has fostered the manufacturing industries of Canada has also fostered the agricultural industries. If the farmer doubts it let him compare the prices he obtains, for his produce today against the price he obtained in peace or nomal times thirty or forty years ago. Then again let him have regard to the improvements that have taken place in the implements and machinery he uses. He may think that foreigners can sell him some of those things cheaper than the home manufacturer can do. Perhaps they can, but would they do so if they hadn't the home manufacturer to contend with? Thus then encouragement of the industrial section of a fair should go on parallel lines with encouragement of the agricultural. And this brings me to the question that prompted these remarks, namely, do me derive all the benefit from fairs that might be derived? Would not a liftle more system bring greater results? Up to the present governmental effort has been pretty well confined to seeing that things are conducted in an orderly and becoming manner. So far, so good, and it is sure and certain that restricts here were advanced. seeing that things are conducted in an orderly and becoming manner. So far, so good, and it is sure and certain that matters have made a great advancement. Many fakes of a low description have disappeared, altho many that could well be dispensed with yet remain. But much could be done in the way of a further onward move. One of those things is the keeping of a record of every prize winner and the circulation of the literature.

Toronto is surely taking on the appearance of a metropolitan city. In no way is this more apparent than in the increase that is continually going on of the number of electric signs. Nor are these confined to the main streets. They are finding their use in out of the way places and are spreading to the auxiliary streets in immense flight of ducks about 3 manuers of a metropolitan city. In the increase that is continually going on of the number of electric signs. Nor are these confined to the main streets. They are finding their use in out of the way places and are spreading to the auxiliary streets in immense flight of ducks about 3 minutes of the castern section of an immense flight of ducks about 3

main streets. They are finding their use in out of the way places and are spreading to the auxiliary streets in the business section. An astonishing the business section. An astonishing thing is the lack of use of any signs at all about our public buildings and dicts the early arrival of severe cold the railway stations. Why shouldn't, for instance, the various colleges in for instance, the various colleges in the Queen's Park be suitably inscribed? Why shouldn't the custom house, post-office and inland revenue office be so backs of cars and make ingress and marked? None of these institutions have anything to be ashamed of, while the inscription would be of distinct advantage to strangers. Another singular thing is that in these days of advertising station after station can be passed without facilities being severy to allight they will consider the state of the severy to allight they will consider the state of the severy to allight they will consider the state of the severy to allight they will consider the state of the severy to allight they will consider the state of the severy to allight they will consider the state of the severy to all gifth they will consider the state of the severy to all gifth they will consider the state of the severy the can be passed without facilities being discovered for the identification of the locality. One would think that in hiding their lights under a bushel the places wished to indicate they had something to be ashamed of. Perhaps something to be ashamed of. Perhaps their insignificance! Now my idea is that no city, town or village can be too proud of itself and that by the manifestation of its pride it will present.

A New York paper has been taking prominent residents of New York to prominent places they have never seen. This is on a par with the suggestion that I have frequently put forth, that there are hundreds of thousands of Canadians who don't know their own country. Many of them can talk glibly about various places in the United States, but the Maritime Provinces are more than Greek to them and yet there are some of the most beautiful spots on earth in those same provinces. There are places in Toronto that the oldest inhabitant has not visited and knows nothing about. In fact it is notorious that at a meeting of a certain society that was kick- methods.

FAMILIARIZATION IN HORSES. How They Become Associated to Things and Prove Their Knowledge.

Almost the first thing a new-born foal does is to sniff, and most likely enough it finds its way to the teat by the power of the nose. This sniffing instinct (it is not a habit) is retained all thru after life, and will cause it to halt and back and look suspiciously at the knacker's gate The drudge that is bought by the manager of the passing menagerie to do its last pull sniffs danger more astern that ahead, and does its best on the steepest incline without the bit of a philosopher, it will neigh over the handful of oats which the driver may considerately give it from out of In a wild natural condition horses the nosebag of its young and more are said to show much intelligence,

Little more than half a century ago (at grass most of the summer when hay-time and harvest were on) farm horses lived within purely natural musical and unmusical notes of bird get 'laired' in a treacherous, thin-life, the lowing of cattle, and the crusted bog, the semi-wild Highland bleating of sheep, supplied all the ma-terial for the exercise of their tymminds. When broken to work the joint action of rein and voice minutive Sheltle upwards, they were made to incline to right or quickly to discriminate; so also does left, to start or to halt, and as time he know a light, soft hand from a wore on "to back." but the latter has coarse, heavy hand in the application nearly always had to be accomplished of the brush in grooming. There is nearly always had to be accomplished of the brush in grooming. There is by force on the tender parts of the nothing in this perhaps, as the cat laws. In the stalls they very soon learn to go over when wanted, but there has always been some pushing at the outset. In the army the bugle- that the Glpsy poacher "guddles" it with the others over the lee.

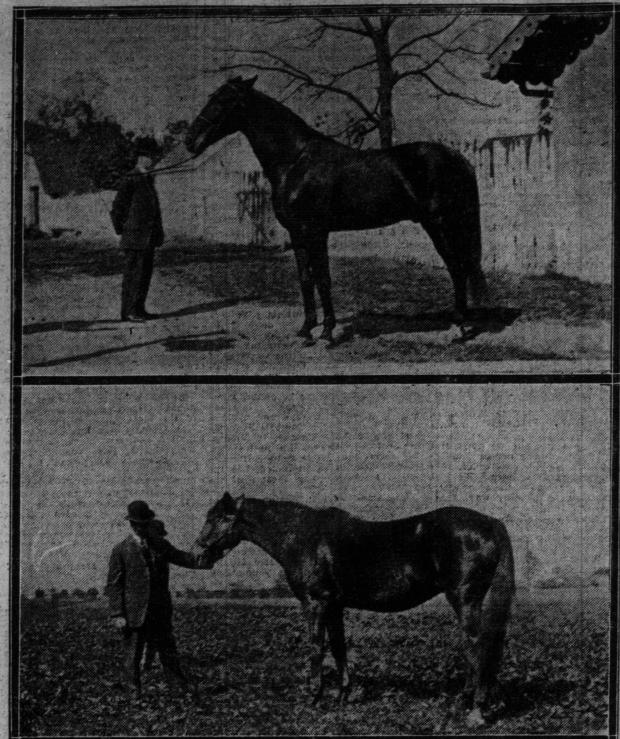

It is hardly possible that at this late ing up a great fuse about the inroads on the "old fort" when members who had seen the place were asked to stand up, not one felt justified in rising. If people always knew what they were talking about they wouldn't talk so

great intervals and so slowly that they ter in the past whose record, when ters. The champion record for four-are crowded to excess then too. Down made, more nearly approached the east I thought the service bad and world's champion trotting record at 2.16, and was held by Edgemark. The difference now between the world's

calls get to be known in time, and, as many a young recruit has found out, have been better obeyed by the steed than the rider.

When fairly broken to the service of man, the first thing a horse learns to do is to know its ewn stall. After a ertain period of regular occupancy it s wonderful to see how it will find its way to its own domicile, even above stairs. And it must have its own place as any intruder new in from the country will find out. Its collar, its saddle, and in fact, every bit of its harness—even to its own wagon—it seems gradually to find out with age, arity with the inclines and stoppingplaces, gets almost automatic in everything, giving its half of the road to an approaching vehicle and reverting signal.

more particularly the recognized leaders. Their acute senses of hearing and smell as in the case of the red deer of the Highlands, no doubt serve them well at times, and in their forethe sough of the trees, and the patter most delicate sense of touch. Whilst when hard pressed. Between the tender hand every horse, from the diTWO RENOWNED HARNESS HORSES.

farming element is concerned achievements may have lain much in night was performed by the grey mare of Tam O'Shanter. There have been sires, however, amongst Clydesdales, Shires and Suffolks which got horses of greater degrees of intelligence than others, and some whose stock were noted for quick and vicious tempers Even the most stubborn or vicious of such, however, can be made pliable, elastic, and self-controlling if be softly spoken to, tenderly handled harnessed with comfort, fed with reg-ularity, and watered when wanted. If pensable to himself, seeing that it costs nothing, he might easily his way to extend it to his dumb servant.

has a pretty fair one in Easter Sun-day, 2.194. Mr. Scott has been to several of the fairs and has not yet been out of the money. He has been stepping miles better than 2.05.

Jas. McPhee has a nice string at his barn, including Forest Pointer, by Slaney Pointer, Flying Jib (by De as), and a good trotter, King Jubilee. The first two have been to the races

At the close of 1907, the three-year-old trotting record had been lowered to 2.08%. The world's champion trotting record was then the 1.58% of Lou Dillon, but as she followed a runner pulling a cart, with a dirt shield attachment, her record cannot be placed on an equality with one made under the conditions of the 2.06% of General Watts. It would seem but fair under the circumstances to make an allowance in favor of General Watts, of two to three seconds. Placing it at the lesser figure, the actual difference between the records of Lou Dillon, world's champion trotting record then was 2.05% held by Maud S. The world's champion trotting record at that time was 10% seconds faster than the world's champion record for shortest rear-old trotting record at the shortest rear-old trotting record rear-old women usually past the flower of youth.

The city has decided not to buy out the Toronto Railway Co., at this juncture. In my view a wise decision has been arrived at. At the same time pressure should be brought upon the company to get a better service for the cutyling districts, as was suggested in these columns last week. The sed in these columns last week. The wonderful as was the performance of in these columns last week. The wonderful as was the performance of in these columns last week. The wonderful as was the performance of in these columns last week. The wonderful as was the performance of in these columns last week. The wonderful as was the performance of in these columns last week. The wonderful as was the performance of colorado E. in lowering the champion record for three-year-old trotters was held jointly by Sunol and Arion, but the world's champion record for three-year-old trotters was still held the champion record to 2:10%, hence at the 1.58% of Lou Dillon, hours the cars are so crowded that the crushing is indecent, and between the rush hours the cars are run at such great intervals and so slowly that they are crowded to account the three-year-old trotters.

**Company to get a better service for the every large of the table of champion record to 2:10%, hence at the 1.58% of Lou Dillon, but the world's champion record to three-year-old trotters was held jointly by Sunol and Arion, but the world's champion record to three-year-old trotters the record to three-year-old trotters the conditions already and the company to get a better service for three-year-old trotters and the tween the thorocompany to get a better service for three-year-old trotters.

**The city has decided not to buy out the Toronto Railway Co., at this junction to the record of the coredit of the executed the trotter that the condition the record to three-year-old trotters.

**The city has decided not to buy out the trotters the condition the record of the champion record to the condition the record of 2.10%, and the trotters t champion three-year-old trotin the past whose record, when ters. The champion tagend for three-year-old trotis, more nearly approached.

Which was only one and threethree-year-old trotplon record for three-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotlan, it will be seen that the land threethree-year-old trotland three-year-old trotland three-yea difference now between the world's champion record for three-year-old trotters is four and three-fourth seconds greater than it was twenty-one years ago. Judging by this it is liable to be some time before the world's champion trotting record will be held by a three-year-old colt or filly.

> THE PROHIBITORY CLAUSES. Wherein the Miller Bill Works to the Benefit of the Penciller and Against His Clientele. Apropos of the much talked about

seconds faster than the two-year-old trotting record.

The three-year-old records of Sunoi

a rather novel suggestion was made the other day by a veteran of the turf. It was to the effect that the prohibitinctly in favor of the bookmaker. "All kinds of information being withheld from the public," he said, the public at the mercy of the bookmaker, who, with his agents, gets a monopoly of such information as is procurable." That the withholding of information checks betting by placing difficulties in the way of "the dope fiend" is possible. But its beneficial effect, if there is any, is in the lack of encouragement given to people start. If a man is determined follow the races closely for the pur-pose of betting, no forbidding of open publication will deter him. On the contrary, it is well calculated to prointerests by making the knowledge he succeeds in acquiring of more value. Just as a reduction of licenses creates monopoly, so does the general distribution of racing information enhance the profits of those who willing to pay for it and sre determined to secure it at all hazards At that the fewer the facilities, the less will the road be traveled. Thus the ibitory clauses may be of benefit. But how long will it be before they either become a dead letter or the betthis year and have done well. The ting public have succeeded in overcom-last named will likely get his share ing them by less direct methods? Men yet hardly past their prime will

member that when the Blake bill pro hibiting prizefighting was passed the newspapers were expected to cease the publication of challenges and of reports of such things. The question then arose as to what was prizefighting. that head? Were contests for articles other than cash forbidden? In other words, the fire gave out so much smoke that the issue was lost in the haze and things went on about the same and are still going on. Will history re-peat itself as regards the prohibitory clauses of the Miller bill? Who can say, and who is going to define where the demarcation comes in between news and wagering information? Surely not the police, surely not the county crown attorney, and surely not every magistrate. The fact is that our legislators have not yet reached that point where they can make themselves perfectly understood.

Dr. Parks of Brunswick-avenue has been jogging and working his purchase, Bonnie Claud, 2.2714. looks as if it would be no trouble him to lower his mark when asked. In fact he has in his workouts been three miles better than his mark. He is a good acting fellow and good mannered and the Dr. should win some

ootball reigns in its stead,

the world's championship of baseball, and noticing that Toronto papers had representatives at the games, I found it impossible not to wonder if the time would ever arrive when the managers of United States newspapers would think sufficient of games piayed in Canada to send reporters across the border. I also found myself wondering if such enterprise on the part of our newspaper bosses had any effect towards Americanizing our people and whether it would help forward the cause of reciprocity. At present in spite of our loyalty to Great Britain it would seem that we are doing the major part of the leading in the direction of bringing Canada and the United States together. Leading statesmen go to them for health and leading newspapers go to them for news. Time was when British sporting events, such as the Oxford and Cambridge boat race, the Derby and the St. Ledger, filled columns in Toronto papers, but that time has gone and Americanism is rampant in this most loyal and roys! country.

quois, won the Derby; Jacob Lordlard, ir., and George Lordlard, who died in his youth. To Pierre Lordlard was credited the mark, "No gentleman can live on less than \$1000 a day." All the brothers were equally lavish and hospitable, but other qualities made Louis L. Lordlard one of the most popular men in New York society. Like his brothers, Louis L. Lordlard was a sportsman; he was fond of yachting particularly. His first yacht was the Eva. named after his sister. The beat was very fast and

The one thing to admire abo fashion. Therein they set an excellent example in sportsmanship that might well be generally followed. And, talking of this series, it may interest the truly pious to hear that it has been estimated that a million dollars changed hands over the result. There is means of recording the exact amount that was wagered, because there was no pandemonium of betting, as on a race course, but it was more general. It Toronto several thousands were was ered, but in Chicago and Philadelphit the sums as stated must have aggregated a quarter of a million. That is something for the ultra plous to beau in mind, for it proves that racing in the only thing to which attaches the iniquity of betting on a large scale.

It is astounding what people will stand for in the way of fakes. It is hardly possible that any sane person regarded the Oldfield-Johnson automo

Recent Rugby Reviewed

How the Referee Very Nearly Caused the Argonauts to Lose to Montreal in Their Recent Match-Standing of Clubs in the Different Unions.

One Referee Hayes of Hamilton, his fine ball carrying and plunging runs being the best seen this season on auts' chances of beating Montreal came very close to spoiling the Argonauts' chances of beating Montreal last Saturday at Rosedale. The Ambitious City official did not mean any harm; his failure to interpret the rules properly caused the scullers to work under a great handlcap. On the play be the local team should have won away off instead of a puny point. There never would have been any doubt about the result had not the element of luck coupled with the adverse decisions of the gentleman aforementioned entered into the affair. Montreal secured two tries that they did not earn, while the Argo's were deprived of a pair that they had fairly made. Because a Hamilton man offended against a rule the referee wrongfully took away a touch that the Argo's by their magnificent piece of work on the part of assumption that they are any many Murphy had made possible. Then on dangerous. They have beaten Oftawa College twice but even Parkdale could nearly do that. McGill took er had broken away clean and was sprinting to the line the arbiter stopped the play because forsooth an Argo ped the play because forsooth an Argo wing had shouldered savage the splendid outside of the Montreal team out of the way. He alleged interference and perhaps it was but in this caseit was perfectly legitimate under the rules. But the scullers won so what's the use. The victory was an undoubted surprise, tho it was nothing for the Argonauts to come to life when least expected. They made a good fight in both their games at Hamilton and Montreal and might have won on each occasion had their

write love."

The Argo's triumph and the Tigers The Argo's triumph and the Tigers' set-back at Ottawa makes the Inter-Provincial race a decidedly open one. As I pointed out last week, the championship is altogether likely to be decided upon the Rosedale field. Saturday's development amphasizes the correctness of that statement. Argos' will be a hard team to beat from now on but more especially at Rose. now on but more especially at Re

Varsity practically packed the championship away in their suit cases when they shoved McGill down into the mire of defeat at Montreal. The local students have at last settled into their stride and if they do not win all their remaining games I will be greatly surprised. Queen's may give them a great argument in Kingston but the the Kingston team's measure handily and expect to do it again, in the Limeproud boast at present is that their line has not been crossed this scason but even that shred of glory will be taken away from them when they

T. A. A. C. are now pointed for the top in the Ontario Union. Their win over St. Michaels has given them a decided edge in the race and if they Hamilton and Montreal and might have won on each occasion had their backs performed up to the mark. This they did Saturday, all four of the rear men playing splendidly, tho the laurels must be handed to Binkley and Murphy. The former gave a sensational exhibition, dropping three goals and coming within a foot of getting another. He is easily the peer of any half-back in the country, not even excepting Varsity's great captain, from a kicking point of view. As a punter he classes with Beatty, Flett and Hardisty, heroes of former days. Murphy showed grand form, can repeat their victory of two weeks ago over Dundas, in the valley town, the Toronto's will be one of the

"For Love's Sake." "What Love Did," "For Love's Sake," "What Love Did.
"The Growing Boy," "Oh. to Be Older!"
"Hardest Test," "His Father's Devotion," "His Father's Love," "Best of Children," "The Only Child," "The Manor, his vast estate at Rowayton, Parent's Darling" and "The Banker's Conn., where many week's end matches are fought out. The credited with being a capital host, Mr. Klein has

being a capital host, Mr. Klein hus never allowed his social position to "The Rising Generation" was the idea of Miss Edna Billinghurst, of 154 Dovercourt-road; while Miss Lillian Smith of 435 Concord-avenue, pinned her hopes on "Love Conquers All." Miss Lillian W. McMurty of 98 Jameson-avenue felt sure there ought to be a "test" in the title, so she submitted "The Super-Test," "Super-Tested," "The Crucial Test," "Crucial-ly Tested," and "The Winning Test."

The word test also occurred to Miss being a capital host, Mr. Klein has never allowed his social position to interfere with the sincerity of his dramatist, so far has no marks of defeat charged against him.

Toronto playgoers will be interested in knowing that Walter Craven, the distinguished actor who is playing in the city this week, was born in Australia, and that before going upon the

The word test also occurred to Miss tralia, and that before going upon the ets Billinghurst of 31 Church-street, stage he served as a mounted police-stewise "A Parent's Trial," "A man in various parts of the island Reta Billinghurst of 31 Church-street, likewise "A Parent's Trial," "A Mother's Devotion" and "Humanity Tested." Miss Lilly Miller of 56 Argylestreet, thought "An Adept Scholar" app"opriate: and Mrs. G. D. Martin of 14 Yarmouth Gardens, favored "A Devotion Tested." Miss Clara Curry of 634 Ossington-avenue, wrote "A visits to the wharfs in Boston made Father's Devotion" and "True and the yearning more pronounced. Still Tried"; while Miss Agnes Smith of 13 a lad in his teens he gave up the Sussex-avenue, put it briefly, "Love battle raging within him and, taking Sussex-avenue, put it briefly, "Love battle raging within him and, taking Conquers." Miss Sadie Beaton of 87 fate by the forelock, ran away from Shaw-street, had four suggestions, the guidance of his parents to ship in "An Idolized Son." "A Father's De- a fishing schooner. The vessel was realized." "An Idollzed Son." "A Father's Devotion," "The Great Question" and bound for Newfoundiand,
"A Banker's Son." "The Boy Man" shipwrecked off Nova Scotia in a tercame from Miss Lettie Bruce of 79 rific storm. Young Moore was fortunate in being numbered among the development of the storm whose lives were saved.

The shortest title to be submitted embryo admiral taught him the folly by a resident of Toronto was "Kin," of his ways, and he set out for home was the choice of Mrs. W. A. and mother with hardly the feelings of a jolly tar. Polson of 248 Seaton-street.

Polson of 248 Scaton-street.

Suggestions made by women outnumbered those by the man, tho there was a liberal representation from the latter sex. For example, Charles H. Keek of the Toronto Lithograph Co., "Chantecler." and her nights acting sent in "The Master Man": Gerald E. Maggie Wylie, the Scotch heroine in Harries of 39 McGill-street thought of "Partners in One." "The Link Between" and "Joint, Ownership," good names all. Richard Frey of 53 Bathurst-street had two suggestions—"The Twentieth Century" and Twen"The Twentieth Century" and Twen-"The Twentieth Century" and Twen- \$5500.

devotion to her husband, her belief in his innocence despite his confession, wrung from him by the police thru inquisitorial methods, and her soulstirring efforts to save him from the electric chair, make her the most loveable of creatures, one of those truly human and sympathetic admin-

Lee Baker, an important member of the New Theatre Company at the Royal Alexandra this week.

The character of Mrs. Howard Jeff-ries, jr., in "The Third Degree" is acknowledged to be one of those close touches of nature for which Mr. Klein is justly noted. In this, his latest The horrible experience suffered by the creation, however, he has outdone even himse'f, for every character in the play is a living, breathing prototype of the human being he or she represents here on the stage of the real life drama. The junior Mrs. Howard Jeffries. despised by her husband's rich family because she was not of his station in life before marriage, is deserted by her husband's father in her most trying hour, but heroically rises to the occasion, and by her perseverance and determination enlists the services of Richard Brewster, the City, and thereby ultimately clears her husband of the charge of murder. Her

Sixty Second-street and Central Park West, New York, and were greatly pleased at the splendid work done and expressed a hope that Canada would be favored by them with a visit in the near future, and this has been arranged for, Montreal (where they were playing last week to splendid houses) and Toronto this week, after which they return directly to New York for the opening of their regular sea-son, November 7.

The opening bill will be Shakspere's "The Merry Wives of Windsor," which will be performed here for the first time in many years, and it is announced for Monday, Tuesday, Wednesday nights and Monday and Wednesday afternoons. The version is almost the same as was used this past spring by Sir H. Beerbohm Tree at his Shaksperean revivals in London, the work being treated as a farce and not as a comedy.

The cast of "The Merry Wives of Windsor" includes Miss Edith Wynne Matthison and Miss Rose Coghlan as "Mistress Ford" and "Mistress Page," Miss Leah Bateman-Hunter as "Sweet Anne Page," Miss Helen Reimer as "Mrs. Quickly," Mr. Ben Johnson as "Shallow," Frank Gillmore as "Fenton," A. E. Anson and Lee Baker as "Ford" and "Page." Albert Bruning as "Sir Hugh Evans," E. W. Morrison as "Dr. Calus" and John Sutherland, Pedro de Cordoba and Stewart Baird as "Bardolph, Pistol and Nym."

"Fardolph, Pistol and Nym."

The incidental music for "The Merry Wives of Windsor" has been selected from old English works and will be rendered by a specially engaged or"Fagin's Decision." Miss Usher is the largest pachygerm performing on any stage or in any ring.

Claude and Fanny Usher are favorities with Sheagoers and will be as welcome as ever in the character sketch, "Fagin's Decision." Miss Usher is a second of twenty men.

In the cast of "The Thunderbolt" be-ides Mr. Calvert, Mr. Anson, Mr. Jottschalk, Mr. Holland, Mr. Johnson, Mr. Gillmore, Mr. Holland, Mr. Johnson, Mr. Gillmore, Mr. Bruning and Miss Reimer will be the following members of the company not heard in "The Merry Wives of Windsor": Mrs. H. Otis Dellenbaugh, Miss Thais Lawton, Miss Olive Oliver, Miss Olive Wyndham and others.

At the Grand

with its stirring race track flavor, is the attraction at the Grand Thankswith a special holiday matines. Monday (Thanksglving Day.)

That playgoers of this city appre clate "Checkers" is evident from the received on its previous visits here. It has been a long time since the American stage has had a more delightful drama, and it will no doubt be a long time before it will have a more enduring success, for "Checkers" is now in the seventh year of its pepularity, and grows stronger as the seasons go by. "Checkers" is as full of humor as an egg of meat. Its wit snaps like a breaking icicle. Its pathos is natural and despitifully unforced. There is a swift rapidity of action. The lump in the throat is quickly swallowed in a laugh and in the now famous race track scene, there is that which gives the tingle to the nerves and makes one forget the theatre in the rush of the story's unfolding, and the warring emotions of fear and hope in Checkers, who has staked his all and has so much to win or lose. received on its previous visits here

The player of the title role this season is Harry D. Beaumont, who has received much praise for the excellent way in which he interprets the many-sided character of the central figure in the story—Checkers himself. There is something true and sure about most of his work, and without effort seemingly, he reaches his point and drives thome without a miss. The company in support is a most excellent one thruout. The sweet gentleness of "Pert," capitally played by Miss Florence Heston, makes a splendid foil to the rough gentility of Checkers himthe rough gentility of Checkers him-self, and the love scenes of Checkers and Pert are delightfully refreshing by their freedom from the hackneyed and commonplace. Dave Braham, jr., who has been with "Checkers" since its first performance, remains as "Push"

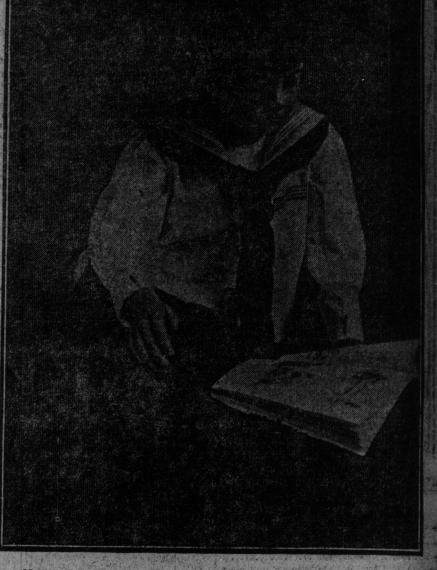

Besides the holiday matinee, the egular Wednesday and Saturday natinees will be given.

Bill at Sheas.

Amsterdam Theatre, New York, all summer. Jean Schwartz is the composer of "Piff, Patf, Poof," "The Ha.m Tree" and "Up and Down Broadway," Eddie Foy's starring vehicle this sea-

Patrons of Shea's will remember the name of B. A. Rolfe, producer of many enjoyable musical acts, miniature musical comedies and girl acts, and they will have an opportunity of en-joying his latest success, The Rol-fonians, a musical act, which plays here this week. Mr. Rolfe will personally head this act and has surround-ed himself with a cast of exceptional merit, including brass and string instrumentalists and grand-opera singers. A beautiful scenic production carried.

Captain Maximillian Gruber and Miss Adelina's equestrian review, which will be a feature of the week's bill, is the latest importation from bill, is the latest importation from Europe and it is one of the most important animal acts ever brought to America. Althe there are but three animals—an elephant, a horse and a pony—they are put thru a series of feats which show the limit of animal training. The rapidity with which they do their work makes it all the more pleasing and entertaining. The elephant is the largest pachyderm performing on any stage or in any ring.

Master John Tansey, one of the most talented juvenile actors on the stage, who will appear with the New Theatre Company at the Royal Alexandra, this week.

The Majestic Theatre is now in the

nd the entertaining vaudeville

on under the new management, has caught the audiences by storm. Thousands attended this popular play-house last week. Refined vaudeville of the highest order is attracting the good class of playgoers to this house, which is largely in evidence by the attendance of men, women and children, whose tamilies being seen every night turning out to enjoy the mirth, music, song and comedy, which is found at the Majestic,—a big two hours' show. For this week, commencing to morrow afternoon, the vaudeville bill will attend more than every Foremer. This week's bill at Shea's Theatre will be headed by Harry Williams and Jean Schwartz, the song writers, who have written dozens of songs until their incomes are measured by thousands. One of the Harry Williams songs, "I'm Afraid to Go Home in the Dark," earned for its author more than 355,000 in one-year. Others of his successes have been "In the Shade of the Old Apple Tree," "It Looks Like a Big Night To-Night" and "What's the Matter With Father?" The act to be presented by Williams & Schwartz is one of the season's noveltles. Good songs are always welcome and the opportunity to hear the newest sung by their composers will be awaited with interest. Among the musical shows Belle of Avenue A." "A Broken Ido" and "Girlies," that played at the New Amsterdam Theatre, New York, all summer. Jean Schwartz is the come.

during his engagement at the Majestic he will be the central character. His company of ten people comprises an all-star cast, each member being carefully chosen to fit the part. It is several years since Mr. Lindley last appeared in Toronto, and having been previously seen to advantage, he should repeat former successes.

The principal comedy offering of the bill is a tabloid farce called "The Neighbors' Troubles," which is to be The principal comedy offering of the bill is a tabloid farce cailed "The Neighbors' Troubles," which is to be presented by Frank Franklyn and company. It revolves about a misunderstanding between two neighbors of foreign extraction, which becomes so serious that a lawyer's services are necessary. There will be four other big vaudeville features. The Majesticograph animated motion pictures continuing the interesting travelogues will precede these acts. Owing to the increased demand for reserved seats the management have set aside a limited number of the orchestra at twenty, cents, while the prices in the parquet and balcony remain as at pressume of their versatile capabilities as singers, dancers, pantomimists, vaudevillians and comedians, which is of a superlative degree. There is not a dull period in this admirable comedy, which as its striking title implies, is a satirical potpourri of mirth and melody. Mr. Ritchie has a part that the him like a glove. His impersonation of the "drunk" in "A Night in a London Music Hall" was as relishing as a walk in the bright sunshine, but in "Vanity Fair" his role seems to be more finished and engrossing than ever. In an of the three acts of "Vanity Fair," Mr. Ritchie's inlimitable perquent and balcony remain as at pressionation of the "drunk" in "A Night in a London Music Hall" was as relishing as a walk in the bright sunshine, but in "Vanity Fair" his role seems to be more finished and engrossing than ever. Josef Hofmann, the great Polish planist, who comes to Toronto on Wednesday evening, Nov. 8, to be the assisting artist at the Toronto Sympton of a young man accused of murder, who made the six rate week of the play he has chosen the story in the concert at Massey of a young man accused of murder, who made the story in the content of the police officials as they are exploited in New York last week of the play he has chosen the story in the content of the police of the basic point of Mr. Wednesday evening, Nov. 8, to be the police officials as they are exploited the idea of the basic point of Mr. Klein's story. For the subject matter of his play he has chosen the story of a young man accused of murder, who, under the strain, of a rigid cross-examination continuing for seven consecutive hours confesses to a crime of which he is innocent. It has been Mr. Klein's aim in the development of his plot to present a sort of an expose of the third degree system as employed by police officers in obtaining confessions and he has shown that these confessions are not always just a clean-up for Push Miller, so he stood nonehalantly, with hands in pockets, talking learnedly with his new found friend until the bell for the run-out sounded. His friend took one look at the horses and said, "Excuse me. Braham, but that horse Doubt looks great to me, I'm going to slap another twenty on him. I'll meet you at the rail in a minute," and off he ran, while Braham sauntered down to the trackside to watch the race.

The race was run—it was all over in a minute—and Doubt, the sure thing, was never in sight. Braham still waited for his friend.

After a few minutes he came out of

Hall, arrived in New York last week from Europe, where he has been spend-

ing the past summer. Mr. Hofmann will devote a great deal of his time to the representative symphony societies and will play in the United States at more concerts the United States at more concerts than any other musician to be heard this season. Mr. Hofman is regarded as one of the greatest plants now living, and in some respects has surpassed all that has been done by others; a pupil of the belebrated Rubinstein, his playing, above all others, resembles that of his great master.

ally becomes a blank and he confesses on Monday. Nov. 7.

Brewster's Millions Coming to Grand

Frederic Thempson's production of "Brewster's Millions," a dramatization of George Barr McCutcheon's famous story of the same name, will be the attraction at the Grand next week, the first time here at less than dollar-

fifty prices.

The stage version of Mr.

that class of playgoers who enjoy an attraction embodying both entertainment and food for thought "The Third Degree" should appeal with particular force.

Hofman Will Assist

Symphony Orchestra

Celebrated Pianist Will Play D Minor Concerto by Rubinstein on November 9

Josef Hofmans, the great Pollsh planist, who comes to Toronto on Wednesday evening. Nov. 2, to be the

grandfather.

Frederic Thompson, the producer, has furnished a scenical equipment for the play which, from all accounts, has proved sensational. The third act—in the scene aboard the yacht—one of Brewster's money spending devices—there is a marvelous and particularly effective bit of stage craft. In this scene a storm arises and the stage settings, the movements of the waves, the lightning effects, all combine to make it a particularly realistic and interesting stage effect. The chief character, that of "Monty" Brewster, is in the hands of the well-known and versatile young actor, Carl Gerard. The broine will be essayed by the dainty and talented Grace Nite. The other long list of characters will be represented by names well known on the mimic stage.

A notable feature of his Toronto program will be his performance of the D Minor concerto by Rubinstein, instead of the Techalkowsky concerto as formerly announced. This change is an important one and will be interesting alike to the professional and the ordinary music lower. His short pleces will be the Ballade F Minor, Valse, A flat Major and the Andanie Splanato-e - Grande Polonalse, by Chopin.

The public sale opens at Massey Hall one of that playwright's last works, "The Happy Marriage."

the metropolis to the Princess Theatre next week.

The scene of this comedy is laid in a rural town called Rosedale, a sort of suburban resort the daily routine of which differs very little from one year's end to the other. The opening scene shows the twenty-fifth anniversary of the Wheeler's wedding day and the highlights of the town are assembled around the bounteous table of their host full of good wishes and substantial vlands. The peace of the rural community is all at once disturbed by the discovery made by a visiting lawyer that thirty-five of the marriages performed by the clerk of the justice of the peace are illegal. This plece of news is the means of the wives being left husbandless and the men going off in a body to live at the village inn. Even those who have been legally tied in wedlock join the happy band as happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution soon wears off and a happy and wholesale reconstitution. Montreal critics enthusiastic easts and productions READ THESE EXTRACTS

"What of the players? Let it be said outright, without mineing of words that no such competent company has been seen here since the days of Sir Henry Irving. Well nigh perfect in balance, cast with masterly judgment."-Star.

"It seemed like going back fif-teen years to the days of Ada Rehan and the Daly Co., and it was even better than that, as more notable players gathered together in one cast....It was a notable production and marked a new standard for the Canadian stage."-

"Last night's performance will ever be memorable in the annals of Montreal theatricals as a uniquely perfect effort by an allround cast . . . Never in the recollection of this critic has a Shakespearean comedy been made to live so thoroughly upon a modern stage. The audience remained to the end of the final beautiful tableau and then remained longer to cheer."—Herald.

International Press Bible Question Club

A CONTINENTAL CHORUS OF PRAISE

It is doubtful if any Bible study plan ever received such enthusiastic endorsation by the leading men of the nations as the "Suggestive Questions on the Sunday School Lessons" now running in The Sunday World. University presidents, leading Sunday school men, pastors of large city churches, as well as of smaller places, and the rank and file of the churches praise these questions to the skies. It is hard to make a selection from so many hundreds of testimonials, but here are a few, with a word or two culled from each:

President Hadley, Yale University: "They are certainly calculated to stimulate thought." Rev Wayland Hoyt, professor of religion and science. Temple University: "I think your questions suggestive and valuable." Vice-President Gobin, Depauw University: "I am very much pleased with your questions.

I will see what I can do to have them published here." President Burwash, Victoria University: "I have read with great interest your questions. Your method of dealing with the subject strikes me as most excellent." Principal Gordon, Queen's University: "The method adopted by you of issuing questions for the use of. Bible classes is a good one; I have tested its value in my own experience." Rev. Newell Dwight Hillis, pastor Plymouth Church, Brooklyn, N.Y.: "Your questions are suggestive and calculated to provoke thought and investigation." Rt. Rev. Bishop Fallows: "I hope you will continue to give them to the church and the world." Rev. Dr. Schauffler, chairman International Lesson Committee: "I have read your questions and find them most capital."

capital.'

We urge all our readers to take up the study of these questions and compete for the prizes. One big prize you are sure to get in any event.

You become a member of our Local Club by commencing this course of reading with our issue of December 4 and cutting a coupon out of this paper each week, from that time up to 52 weeks, certifying that the reading

has been done.

The anointing of Jesus. Matt. xxvi., 1-16.

Golden Text.—She hath done what she could. Matt. xiv., 2.

If we do what we can. is that as acceptable to God as if we could do a thousand times more? Why?

Verse 1.—Can it be demonstrated that the sayings of Jesus, which we have, made a complete statement of Christianity, even if they were not supplemented by any thing else? Give your reasons

What, if any, reason is there to believe that Jesus had eluded His enemies until He had said all He wanted to say?

Verses 2-5.—What was the underlying motive which induced that great and sacred body, the Jewish Sanhedrin, to plan to bring about the death of so good a man as Jesus?

If an assembly of Christian ministers or laymen gives way to jealousy or hatred, are they liable to do as cruel a deed as the crucifixion of Jesus, and then persuade themselves they are doing right?

What are the chances for the intellect forming right conclusions on matters of disputed personal religious experience and teachings of others, if the heart is not filled with love to God and man?

Verse 6.—Which place, the home or the pulpit, affords a minister the better opportunity to do spiritual work? Why?

Why, or why not, is a pastor under obligation to visit all his members, at their homes, for personal conversation on spiritual matters?

When a church gets too large for a pastor to visit all his members regularly ought it to divide into two churches or to let the members go without being visited, or what other steps should be taken in such circumstances?

This was a love offering, which got the more good from it the giver or Jesus? Many in these days are hungry for food, but more are hungry for love and sympathy, is it as much a duty to minister to the one craving as to the other, and why?

Verses 3-3-Why did the disciples object to this expensive love offering?

Notes that the long run does the more good, and why, those who wisely and byingly feed kungry mouths or those who feed hungry hearts? (This queston must be answered in writing by members of the club.)

What good is accomplished by sending flowers to funerals and to sick peole? Would the money be more wisely spent in feeding the poor or for mis-

Verses 10-12—What should be the degree of blame for criticizing a loving act? What effect is such criticism likely to have upon those who would do good, and upon the cause of God?

Verse 13—Does the influence of a work of love upon a human being ever

Verse 13-Does the interest cases. Since the control of the control Why? Lesson for Sunday, Nov. 6, 1910. The Last Supper. Matt. xxvl., 17-89.

How beggarly appear arguments before a defiant deed.—Of course the defirst president held weekly dinners at

tory? What is the practical benefit of anniversaries, religious, national and perkind of a club. The attendance ranged from one hundred and fifty to fifty. The higher number being reached on the evening that a vegetarian menu was provided.

It was Miss Budd who had charge of this dinner. The savory soup, the dainty chops—that many could not tell from spring lamb, the entree thought to be minced chicken and the delicious fruit desert forever disabused the minds of those present that meat was at all a necessity in getting up a delicious meal.

What is the practical benefit of anniversaries, religious, national and personal?

What is the practical benefit of anniversaries, religious, national and personal?

meetings? (This question must be answered in writing by members of the club.)

Verse 21—Did Jesus know that Judas was going to betray Him from passing events or supernaturally? Give your reasons.

If human actions are contingent and not necessary, how can God know in advance what they are going to be?

Verses 22-22—Were the loyal disciples actually in doubt as to whether they were going to betray Jesus, and, whether or not, what was their state of mind? Are there some acts which we may be absolutely sure we will never commit, or should we always stand in doubt of ourselves? Give your reasons.

Verses 24-25—Could Judas have refrained from betraying Jesus and have been loyal to Him had he chosen to do so? Give your reasons.

Verses 26-28—Did Jesus' blessing of the bread and the wine change its nature, and, if not, what effect did it have?

What was the precise thought Jesus meant to convey by the words "this is my body" and "this is my blood"?

What reasons are there to believe that Jesus meant this sacrament of the Lord's supper to be kept up perpetually?

What blessed purposes are served by keeping up the Lord's supper?

Verses 29-30—Will there be eating and drinking in heaven and, whether or not, what did Jesus mean by these words?

Lesson for Sunday, Nov. 13. World's Temperance Sunday. Matt. xxiv., bust of the supper supposed the sunday. Mov. 13. World's Temperance Sunday.

Labor Congress makes a grieve

hung or for life.

Trotter's Claim.

The organizations affiliated with the Trades and Labor Congress of Canada, and the delegates to the last two conventions will be surprised to learn that W. R. Trotter, late organizer for the congress, makes a claim upon the executive of that body for somewhere about \$300 back salary and expenses for work done while in Britain.

According to the accounts of the accounts of the congress with a constant of the congress and expenses for work done while in Britain.

According to the accounts of the congress of the congress and accounts of the congress of

for work done while in Britain.

According to the accounts of the congress audited and passed both at Quebec and the Fort William sessions, Mr. Trotter's accounts were considered closed and paid in full and he made no further claim. Now upon the congress rejecting a recomendation to establish a permanent immigration office in London, Eng., and later a resolution to appoint a western organizer with which Trotter's name was coupled—he lays claim to back salary

coupled—he lays claim to back salary and expenses.

The facts of the case as The World correspondent was able to gather them, are these: After Trotter got thru with his work in Britain in 1909, and the arrival in Canada he tendered his account for services in England, which was paid, he then took up the work was paid, he then took up the work or organizing in Canada until the Quebec congress and was again paid and no claim for the six weeks above referred to was mentioned. He was again employed in 1910 and at Fort William was again settled with, and not until recently did he tender a bill for the six weeks' salary and expenses; the rix weeks which the executive considered he was resting at his own request.

The congress executive has refused to pay the hill and

to pay the bill and the matter may likewise be an issue at the Calgary convention, and unless the facts are different from those gathered, it is altogether likely that the delegates present whose organizations pay the piper, will oppose the payment, and sustain the executive.

Tool Thefts.

The Amalgamated Carpenters of Toronto deserve credit for their continuous effort to have tool thieves severely punished and to make it harder for thieves to dispose of tools. The scheme is to make each person selling second-hand tools to pawn brokers or second-hand dealers prove ownership. There is no doubt but 'his would prove a remedy, as any would prove a remedy, as any carpenter desiring to dispose of slight-ly worn tools to secure newer or better ones, or a carpenter out of work in dull season desiring to part with surplus or tools not actually needed, could easily prove identity and ownership and be no hordship, while thieves not being able to do so—the incentive to steal would be done away with.

At the Fort William session of the Trades and Labor Congress delegates R. J. Nicholls and L. McCann represented the Amalgamated Society of Carpenters. They introduced the following resolution, which was concurred in manimously and ordered referred to the executive to take up with the solicitor and endeavor to have some suitable legislation enacted to cover the

Whereas, that in view of the pre valent and increasing crime namely, that of "theft of mechanics' tools," especially those belonging to mechanics of the building trades and more especially those of the carpenter trade, who have to assume somewhat means who have to assume somewhat more risk with regard to the safety of their tools than those of other trades owing to the temporary nature of lockers, sheds, or buildings in which they are confined after working bears they confined after working hours, the loss of which to those of the carpenter trade is proving a costly item. Therefore, be it resolved, that, the various provincial executives be authorized to confer with their respective provincial

needs no further mention, but it is worthy of notice that LaShelle before his untimely death had in mind a play to be constructed along the lines of Braham's peculiar methods, in which

DAVE BRAHAM. Who will be seen in his famous character creation of "the tout," in the racing play "Checkers," at the Grand this week.

QUEEN SHIP OF THE GREAT SEAS. "Olympic," the new triple-screw stea mer that was successfully launched at Belfast on Oct. 20. The "Olympic," which is the largest ship affoat, is 883 feet long and 94 feet broad and has a displacement of 66,000 tons. She was christened by the Countess of Aberdeen.

W. H. ROWLEY, ESQUIRE.

President of the Canadian Manufacturers' Association; president of the
E. B. Eddy Co., Hull. Que., the largest industry of its kind in the British

Empire.

It is not generally known, but it is true, that W. H. Rowley has had a military career. In 1866-7, at the time of the Fenian scare in Nova Scotia, W. H. Rowley was attending the military school at Halifax, the commandant of which was his father, Colonel J. W. H. Rowley. W. H. was there passed up and was given a commission as junior lieutenant in the garrison artillery by the then Lieutenant-Governor of Nova Scotia, General Sir William French Williams, the hero of Kars.

he intended to introduce that comedian

as a star.

George Ade in an article said, "Young Braham can give vent to slang expressions without being coarse." There is the whole story of Braham's success. His method is clean, artistic and legitimate. He is a real comedian. real comedian.

It is generally the man who tries to impress you with an idea that he is wealthy who finds it most difficult to make both ends meet.
