Allies Now Near Combes—Gen. Ruzsky Leads Russia's Northern Armies

London, Aug. 16—Count de Salis has been appointed to succeed Sir Henry Howard as minister of the special mission to the pope.

The French and British, striking with terrific force in three directions on the Somme front, have stormed nearly three miles of German trenches, driving forward at points to a depth of 300 to 500 yards.

The most important gains were made by the British and French troops striking north from the point where the Allies' lines meet, Maurepas and Clercy, two of the most important points held by the Germans in this sector, have been flanked on both sides, according to the official statement issued by Paris. The road has also been reached between Maurepas and Guillemont, the latter town being the immediate objective of the British. This advance, if maintained, brings the Allies directly in front of the large railway town of Combes.

South of the Somme the French troops striking north over a length of about three-fourths of a mile, driving forward in a southeasterly direction from Ballyon-Santerre. Paris reports that a considerable number of prisoners were taken in these operations.

For the first time in many days no important action is reported from the Russian front, and the same dearth of news prevails in regard to the Italian operations. The most interesting item of news regarding the Italian advance against Trieste is contained in a news despatch from Milan, which says that German troops are to be employed in the defence of the big Austrian port. If corroborated this means that Italy and Germany at last enter an active state of war.

The allied forces on Aug. 10 captured the railroad station at Petrograd, according to a French war office statement dealing with the Balkan front. In the fighting covering the period from Aug. 1 to Aug. 15, dealt with in the French official statement, the allied forces also took four other points on this front.

Petrograd, via London, Aug. 17—General Nicholas V. Ruzsky has been appointed commander-in-chief of the northern armies of Russia.

U. S.-CANADIAN TREATY FOR PROTECTION OF SMALL BIRDS ON BORDER

Washington, Aug. 16—A treaty between Great Britain and the United States for protection of insects-destroying birds on both sides of the Canadian border was signed at the state department today by Secretary of State Lansing and Ambassador Spring-Rice. The treaty is very broad and covers practically all kinds of bird life. Its administration will be left to local authorities. So far as is known this is the first treaty of its kind ever signed.

Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulled coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulled coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Keith-Saunders. The wedding of Miss Mary A. B. Saunders and Percy E. Keith of Havelock was solemnized on Tuesday morning in the St. Peter's church, Derby, Picard. The ceremony was performed by the rector, Rev. H. Tully Montgomery.

Just as a young lady entered one of our pay-as-you-enter cars an old gentleman sitting at the other end got up from his seat.

"O, no, really I couldn't think," said the blushing maiden.

"I really don't interrupt," I should feel so terribly selfish and," expostulated the damsel, as she waved the courteous passenger back to his seat.

"I really don't mind a little bit, and in fact I -" said "beau"; with the sweetest of smiles.

"Can't you see, madam, that," said the old gentleman, suavely, "it's very charming of you, but really I can't stand to see the young lady said firmly, as she proceeded to "strap-band."

"You are perfectly at liberty to do just as you like about that, miss," said the old gentleman, advancing toward the door, "but I want to get out."

Recommend Steps Gradually To Provide New Hospital

Important Inquiry Ends—Verdict on Death of James A. Ryan

We, the jury empanelled to inquire into the cause of the death of the late James A. Ryan, from the evidence submitted find as follows:

That the said James A. Ryan, a patient of the General Public Hospital, died at 10:05 p. m. on July 20, 1916, at the hospital of St. John (N. B.) from shock and hemorrhage as the result of injuries received by dropping from a window in the third story of the General Public Hospital to the pavement, between the hours of 6:30 and 7 p. m. on July 20, being possessed of a desire to leave the building while temporarily deranged.

We are of the opinion that the deceased received all possible care and attention from the hospital authorities but recommend that the windows of the rooms in which patients liable to become mentally deranged are placed, be more securely guarded.

We are heartily in accord with the views expressed by the hospital commissioners in regard to a new power house and would emphasize the necessity that its location be such as will meet the requirements of any additions that may be made.

From the evidence submitted we are convinced that immediate steps should be taken to gradually provide a modern and thoroughly equipped hospital.

MASTER WORKMAN

SMOKING TOBACCO

It is a continuous strain for a builder to watch his buildings go up.

A pipe-full of MASTER WORKMAN tobacco is a great soother when some deep thinking has to be done. This world-famous brand may now be had at all tobacconists for 15c. per cut.

This was the verdict that was rendered by the coroner's jury which has been taking evidence relative to the death of James A. Ryan at the General Public Hospital on July 20. In the course of his address to the jury, Coroner Roberts said in part:

Coroner's Views.

It appears to me, gentlemen of the jury, this occasion furnishes an opportunity of approaching the public mind, awakening the public conscience and stimulating public thought. Darrall once said: "To save the lives and promote the health of the people is the soundest economy." I do not believe the years that has passed since he gave expression to that sentiment have changed its logic for one moment. It was truth yesterday, is truth today and will be tomorrow. Then why should we not act upon it?

The man in the street is beginning to grasp the fact that it is his individual concern that the community should be healthy and for selfish reasons, if for none other, he is commencing to insist that these questions be given proper attention and that money spent in this direction is money well spent.

The main reason why I would have you optimistic regarding the beginning of a campaign in favor of hospital development is that the people themselves are awakening to the great importance of public health problems and are taking an active as well as an intelligent interest in their solution. Those of our citizens who are not acquainted with the facts concerning conditions herein referred to should be so advised through the public press.

What more important municipal institution is there than the General Public Hospital? If it is the most important then it should receive the attention which its status demands. Our city and our fair province should be cherished by us as the home of our fathers—the land of our nativity—and our aim and ambition as loyal sons and daughters should be to develop, to beautify, to make practical, to so care for our several institutions, placing them on a plane with others of similar character as to needed capacity, architecture (if practical) and efficiency, that they will serve the objects fully and freely that they were intended to serve.

What we should now do is to feel satisfied that conditions as outlined by the several witnesses re improved hospital accommodation are correct. To whom shall we go to ascertain? Will it be to any learned representative of the legal profession? No. Then to whom shall we go for such information? To a contractor? A merchant? You say the information is not forthcoming. Then where shall we go? Is it not natural that we should go to those whose life work it is to know all about hospitals and their equipment, and from the profession in St. John what better representative could we have, especially regarding hos-

pital matters, than Dr. Thomas Walker, whose evidence shows he has been connected with that institution now for thirty-five years and has practiced medicine and surgery in this city for fifty-three years?

Do you doubt his word regarding the need of hospital improvement? What has Dr. Walker to gain, I say, by the erection of a new hospital and power house? Is it not so that he has sacrificed of his time during this nearly four decades full and free without remuneration for the benefit of the general public? His advice is for the benefit of medical conditions in the community.

Then we have Dr. White's testimony recommending hospital improvements. Dr. White is counted among the leaders of his profession throughout Canada, and today, coincidentally, occupies the president's chair of the executive of the medical profession of Canada—a fact of which I feel every citizen is naturally proud. What has he to say? "I do not think there is a city of the size and importance of St. John in Canada or anywhere else that I know of where there is as poor a hospital as there is in St. John."

And as you know I could go on and quote each medical man that appeared as a witness, and they all have the same to say. In addition we tapped the layman and had M. E. Agar, and you have had read to you this evening what he feels about the matter. It seems to me the case is a clear one, and your duty clear as to what form of recommendations, if any, should take.

WAS GEORGE B. HALL.

The body found in the harbor yesterday morning has been identified as that of George B. Hall, at one time a patient in the Provincial Hospital here. Mr. Hall was sent back from the states, where he went to work, as being mentally weak and was placed in the hospital. He was allowed to work in the fields, as he was perfectly harmless. On May 8 he left the institution and no word was since received about him. He has relatives in Westmorland county. Pending an answer from them the body is at Brennan's undertaking parlors in Main street.

Six weeks ago Harry Thomas, aged 16, of Allouez, Wis., broke his right leg. Two weeks ago, Francis Thomas, aged 19, a brother, broke his right leg while stepping out of a milk wagon. A few days ago Louis Thomas, aged 12, another brother, was kicked by a horse and his right leg was broken.

The 8th installment
This fifth installment of the interesting trip to the noted Russian penal colony holds the attention of the watcher from beginning to end. Siberia as a name just means snow, ice and zero weather to most of us but truly the layman has little conception of its vastness and natural resources. Today we show the natives trading furs with Russian dealers; we also start on a 4,000-mile journey with dog sledges and reindeer to the trading town of Pentikaya. Hundreds of interesting scenes en route.

Plank's Style of Pitching
"I have been pitching this way for sixteen years," said Eddie Plank, when called to task the other day for stepping off the rubber before delivering the ball. Eddie's way is unique, however, as well as tiresome, in that he usually drags a game over two hours.
His endless delays fret the batters and amuse the fans. The former Mackman's routine in delivery is approximately as follows:
Hitches belt, adjusts cap, walks back to box in half-circle, faces batter and stretches arms, steps on rubber with left foot and taps right foot to ground eight times when ball is delivered to batter, tucks in shirt with every third ball pitched, gazes into sky over third base on every called ball, dislodges imaginary pebble in pitcher's box every time batter has three balls and one strike or three and two.
Red Sox Get New Pitchers
The Red Sox management announced Tuesday the purchase of Pitchers Tyson and Engel and Outfielder Koops, from Buffalo, of the International League. Options have been exercised on these players, who were released by the Boston club under optional agreements. Pitchers Gregg and Pennock and Catcher Wilder from Buffalo, and Outfielder Shorten from Newark, of the International League; Catcher Devine from New Haven of the Eastern League, and Infielder Thomas from New Orleans of the South League.
Gregg and Shorten have already reported to the Red Sox but the club does not expect any of the other players to report until spring.

WILL WORLD'S SERIES BE PLAYED IN BOSTON?
Broadway Betting Men Choose Braves to Win National League Pennant; Red Sox Picked to Repeat

McGraw Denies That He Will Quit
Says He Loves the Game and the Giants and Wants to Stick to Them

To defeat Washington in a thirteen inning game and the next day to trim the White Sox in a sixteen inning contest is an achievement of the Boston Red Sox. The present series with these leading teams is the most crucial of the year and if Carrigan can hold his team out in front he stands a good chance of clinching the pennant.
St. John fans always like to see a team in the Hub win because it affords them an opportunity of getting up to see some of the games. The season has a long while to run yet before any team can lay claim to the pennant.
The Red Sox are now three full games ahead of Cleveland, their nearest competitors.
New York defeated the Indians quite handily in the first game of their series.
The Chicago Cubs won from Cincinnati in a loosely contested game. The Reds had errors which were accountable for several of the runs scored by their opponents.

New York, Aug. 16.—The New York Herald publishes the following on the baseball pennant races:
Baseball prognosticators who last spring selected Boston as the city to entertain next October America's "fans" are beginning to realize complete satisfaction in their early predictions. From the recent trend of events in major league circles there seems about to descend upon the rest of the nation a deluge of Hubbitts base hits and victories with the Red Sox in the American League and Braves in the rival organization once again enjoying a triumphant entry into the annual classic of the national pastime.
Just at present William Carrigan's world champion Red Sox have only a slight lead over several struggling, fighting combinations and the Braves still to climb to the top rung; but close followers of the game can see greater strength, better spirit and a clearer right to the ultimate honors in the two Boston outfits than in any other aggregation in this chase. Boston seems about to quit baseball and would give up the management of the New York Giants at the close of this season.
Here is what appears under McGraw's own name in a weekly letter on baseball:
"Are you going to quit baseball in a couple of years, Mac?" a friend of mine asked me the other day after reading the reports that I would no longer manage the Giants after my present contract with the club expires.
Probably these reports have originated from remarks I have made when I have been sore, overheard by some one who took me seriously.
"I wouldn't care if I never saw a ball field again," I declared one day in the clubhouse recently after the boys had blown a game in extra innings. "When I get through with this contract, I am going to take a rest."
But I have never thought seriously of quitting, until I am no longer fit to hold a job. Of course, I don't think I would do at all as a bench manager because I am too nervous and restless during a hot battle. I would have to break out there on the field when an umpire called a close one against me or when one of my players pulled a bone, and you can't do that unless you wear the "spangles."
Several times I have wanted to take a financial interest in different clubs and, in fact, was figuring on a deal with Capt. Houston before he bought the Yankees to purchase the Cubs. This was two or three years ago, and the New York management would not release me from my contract. I love the game and I love the Giants, and I want to stick to both.

The habit in agricultural districts of referring colloquially to a farmer by the name of his farm is fraught with dangerous possibilities to a stranger.
In such a district a gentleman had been a resident for a few weeks and in conversation one day with a farmer received a long tale of the shortcomings of Stonepark, a neighboring farmer recently gone to his last account. A few days later the visitor fell talking with Hillhead, another farmer.
"I suppose you know old Stonepark who died lately?" remarked the visitor.
"Aye, I did that," replied Hillhead, slowly chewing a straw.
"Rather slippery customer, I hear," ventured the visitor.
"Wadna wonder," replied Hillhead. "In fact," continued the visitor, "a regular daylight robber, and no friend of yours, I imagine."
The farmer fixed his gaze on the far horizon, and said: "Well, yes, we were kind o' friendly. Ye see, Stonepark was my father."

An Embarrassing Question
Five men went into a shop recently to buy a hat each. Seeing they were in a joking mood, the shopman said: "Are you married?" They each answered "Yes." "Then I'll give a hat to the one who can truthfully say he has not kissed any other woman but his own wife since he was married." "Hand over the hat," said one of the party. "Ye won't," was the reply, and the hat was handed over. One of the others was laughing heartily whilst telling his wife the joke, but suddenly pulled up when she said: "I say, John, how was it you didn't get one?"

WALTER McCLUSKEY MAY BE A PRISONER

The schooner Thelma, which is loading lumber for a port in South America, shifted from Warner's wharf, off Chesley street, to Long wharf this afternoon.

OF ENGLISH BIRTH; HE BECOMES A GERMAN

Augsburg, Bavaria, Aug. 17.—Houston Stewart Chamberlain, an author of English birth, and son-in-law of Frau Gosima Wagner, has now legally become a German citizen, following his application for naturalization in last April. Mr. Chamberlain has been a resident of Bayreuth for many years.

Chamberlain, whose father was a British rear-admiral, married Eva, reputed to be the eldest daughter of Richard Wagner, composer, until Frau Gosima Wagner declared, several years ago, that Mrs. Chamberlain was the child of her first husband, Hans Von Blower. In several of his articles Mr. Chamberlain has supported the cause of Germany, and held that Great Britain was responsible for the war. The Iron Cross was conferred on him by Emperor William last year.

John McCLUSKEY of 45 Erin street has received the following letter from Major C. H. McLean, dated Flanders, July 29, relative to his son, Walter J. McCLUSKEY, who has been missing since June 2:

Dear Sir—

I am in receipt of your letter of July 4. I presume that ere this my letter of June 8 to Mrs. McCLUSKEY has been received. We are now holding the same trenches that the Germans took on June 2.

I am writing this in a dug-out by poor candle light, consequently the poor character of the writing. I have made every search for Walter's body, but there is no sign of it, which gives me strong hopes that he is a prisoner of war, probably badly wounded, and unable to write. It is known that the Saxon regiment took good care of our wounded.

You can be assured that I will communicate with his relatives as soon as I get information of any kind. His comrades believe that he is a prisoner, there is nothing to show that he is killed. It must be a great anxiety to his relatives and friends during this anxious waiting and they certainly have my deepest sympathy.

Yours sincerely,
C. H. McLEAN, Major.

LIEUT. KNOWLTON ONE

Has Three Months Furlough—Signaller Lou Lelacheur Back After Two Years Abroad

Lieutenant Charles D. Knowlton of the Fighting 26th Battalion, son of F. J. G. Knowlton of this city, is home from the front on a three months' furlough. He arrived this morning and has been warmly greeted.

Lieutenant Knowlton has been through the heaviest fighting on the western front. He received his first baptism of

Lieut. Knowlton, fire in the crater fight in last October. From that time on the 26th was one of the foremost battalions on that section of the front. He was wounded on November 17 in six places by shrapnel and as a result was in a hospital in France for about one month and a half. Lieutenant Knowlton was assistant adjutant of the battalion for a time after returning to the front. He left his battalion on April 2. When asked as to how many of the original 26th were left he said "I will leave that to the casualty list, but there are not 800 men."

Lieut. Howarth, Signaller Lou Lelacheur

Signaller Louis Lelacheur, son of Mr. and Mrs. John Lelacheur of Mecklenburg street, arrived home this morning after spending two years at the front. Leaving here under Major Powers on August 20, 1914, he crossed to France in Feb-

ruary, 1915, and took part in the first battle of Ypres and also at Festubert in which battle he was wounded on April 22, 1915, being struck by shrapnel in the thigh. As a result of his injuries he is lame. After spending fourteen months in the hospitals in France and England he was able to get around and was given a position in the Canadian pay and record office in London.

In speaking of the treatment given Canadian soldiers in the hospitals both in France and England, he says, "too much cannot be said in their favor, and Signaller Lelacheur can speak from experience, having spent more than a year in them. He crossed on a steamer which made the trip in five days, arriving in Halifax yesterday. He does not expect to return to the front as his injury renders him unfit for further overseas duties."

L. Corp. Pincombe
Lance Corporal Pincombe of the fighting 26th, son of Major Pincombe of the 104th Battalion, is in the city today, the guest of Signaller Lelacheur. Corporal Pincombe's home is in Fredericton and he will leave tomorrow morning. The young soldier was wounded in the face, arm and body on May 1 and is home on furlough. He also speaks of the excellent way in which the Canadian boys are used in the hospitals in France and England and says that everything that is in the power of those in charge is done for the wounded soldiers.

Corp. Hagan
Corporal Robert Hagan, of the First Canadian Field Ambulance, arrived in the city this morning, en route to his home in Fredericton. He is the son of the late Sergeant William Hagan of the R. C. R. at Fredericton. He has been two years at the front and was wounded some time ago. He is returning to take

IS IN FAVOR OF EXTENSION TO SPRUCE LAKE

Clarence Goldsmith, hydraulic engineer, who is in the city going over plans and specifications with Commissioner Wigmore is strongly in favor of the extension of a twenty-four inch water main to Spruce Lake. Falling in this he recommends that a permanent stretch be laid from the reservoir to Moore's hill on the Manawagonish road.

It is known that a considerably larger quantity of water will be wanted this winter than last as the pulp mill is going full blast, and it is understood that more will be required for winter port service. The C. R. are anticipating greater need of water and are installing a tank with a capacity of 20,000 gallons to replace the present tank of 4,000 gallons capacity.

Speaking of the cost of a renewal of the pipe to Spruce Lake, Commissioner Wigmore said the estimate cost would be \$195,000 and if this was decided on a bond issue would be necessary. To place a twenty-four inch main from the reservoir in Lancaster to Moore's hill would cost \$14,000 and from the reservoir to Ludlow street approximately \$18,000. The installation of an electric pump and special piping at the reservoir would cost \$1,500 making a grand total of \$80,800. Out of that amount \$18,000 would be practically lost as it would be expended for temporary work, whereas this amount, which represents over five per cent of the total expenditure would be saved if the extension to the lake was made.

TODAY AT THE A.M.E. CONFERENCE

A session of the Nova Scotia and New Brunswick conference of the A. M. E. church was held in St. Philip's church this morning. Bishop C. F. Smith gave the usual conference address. He traced Christianity from its inception to the present day and pointed out what it was to the average man of the present time. He traced the Christianity of today, as it is with some people, churchly, saying that there were churches in America today wherein the poor man was not welcome and there were churches in many parts of the States where the colored man was not welcome and if admitted the reception would be so uncomfortable for him that he would be compelled to withdraw. This, he said, was not Christianity in its real sense, but merely churchianity.

In the southern States where the feeling was most evident against the colored people, the bishop said, there were two institutions and the south was not undergoing any reconstruction in man's make up.

The appointment of a chief secretary for the conference resulted in the choice of Rev. Mr. Pinkey with Rev. S. King as his assistant.

Rev. C. W. Duckkill of the New Hampshire Methodist Episcopal church, paid a visit to the conference and addressed a few words to the members. He said the union of the Episcopal churches between the North and South would never be consummated unless the 850,000 colored people were included. Rev. Mr. Duckkill visiting his brother, R. H. Duckkill of this city.

The conference went into a private executive session at 11:30 o'clock.

The opening session of the conference, which was held last evening, took the form of a reception for the bishop and the visiting ministers. Mayor Hayes tendered a welcome on behalf of the city of St. John. Bishop Smith returned thanks to the mayor for his welcome. The greetings of the Methodist conference of N. B. and P. E. I. were conveyed by Rev. T. Thomas Hicks. Other addresses of welcome were given.

CHIEF GETS WORD FROM FORMER POLICEMAN WHO WENT TO WAR

Chief of Police Simpson has received a letter from Corp. F. W. Storm, written in Flanders. Corporal Storm was given leave of absence so that he might serve his king and country. Writing under date of July 30, he says that his battery had been in a warm position, but had escaped with only one man being killed and three others wounded. All the men of this battery were in fine health. They had stood up against some terrific heavy shelling from the enemy with great courage, which, writes Corp. Storm, speaks well for St. John and the province. "We are attached to the imperial forces," he says, "and consequently are separated from our own Canadian divisions. There is hardly six feet of smooth ground visible here, as it is all torn up with shells."

Corporal Storm went across in August, 1915, and has since then seen considerable service. He is a member of the 97th Canadian Siege Battery, R. G. A.

THE LATE HARRY RILEY

The late Harry Riley of 141 Mecklenburg street, is survived by his mother as well as the other relatives mentioned yesterday. The funeral will take place from the Salvation Army Citadel, Charlotte street, on Saturday afternoon.

the position of hospital sergeant with Colonel Guthrie's kiltie battalion. Lance Corporal Joseph Hagan, of the First Battalion, who was blown up by a shell recently and is at present recovering in a hospital in France, is a brother.

Pte. Percy Davis
Private Percy Davis of the 38th Battalion, arrived in the city today, en route to his home in Sussex, having crossed from England to Halifax a few days ago. Private Davis was one of the unfortunate ones, having been taken ill while in England, and as a result, rheumatism set in. In speaking of the 38th and 64th Battalions, he said that the balance of the men left in these two battalions that were not taken to France in drafts were all transferred to the 40th Battalion.
