### CAMPBELLTON

Lieut. Gov. Tweedie's suggestion that work on new government and railway buildings and banks in Campbellton should be begun at once is wise and timely. There is no doubt about the rebuilding of the town. It is the seat of an immense lumber industry that will grow greater than it has been in the past. The town is a divisional point on the I. C. R., and a terminus or junction point of the International Railway. It is a very important distributing centre, and more commercial travellers were to be met at Campbellton hotels than at any other town on the north shore. As the region develops the town will grow and its industrial and commercial importance increase. The sooner, therefore, a beginning is made on the substantial buildings that will be the nucleus of the new town the better for all concerned.

Since the people must begin all over again, it would be well to have the town laid out along modern lines, and not allowed to spring up haphazard. The town should be planned as a model town in all respects. A little forethought now would prevent expensive changes in later years. Those in authority should take this question into serious consideration. The present needs of the people are fairly well supplied, although there is great need of tennis and blankets. Doubtless this will be fairly well met today. Patriotic little stories of human interest come from the stricken community, and tales of personal suffering and hardship, and unfortunately there are stories also of heartless wretches who are willing to make profit out of the sale of liquor at such a time, and others who would deliberately steal the little that is left to homeless people. Prompt measures should be taken to provide an adequate police service, and every such offence should be followed by severe punishment.

### MR. CARVELL'S CHALLENGE

The Times-Star some days ago printed a criticism by Mr. F. B. Carvell, M. P., of the Valley Railway survey being made for the Hazen government. Yesterday this paper printed a reply by Mr. D. F. Maxwell, engineer in charge, in which he flatly contradicted Mr. Carvell. Today we print Mr. Carvell's answer to Mr. Maxwell. It should be carefully read by all who are at all interested in having a real railroad constructed in the valley of the St. John. The Standard this morning features Mr. Maxwell's statement and accuses Mr. Carvell, but the member for Carleton effectively disposes of both, and points out that if the people want a railroad by the most direct line and with proper grades they must get away from the Maxwell route. Referring to this route Mr. Carvell says:—  
"The road from Woodstock to Lakeville is at least one and a half miles longer than necessary. It has hundreds of feet of unnecessary hill climbing. I am intimately acquainted with the country and know that the grades could be less and the line straighter, but this would not have answered the political necessities of the case. Mr. Maxwell does not say they are not exceeding one per cent. or fifty-two feet to the mile, and cannot say so and tell the truth. It may be true that the grades are no greater than the I. C. R. north of Moncton, but that road was built forty years ago and there has been considerable evolution in railroading since then."  
Mr. Carvell further says:—"If Mr. Maxwell wishes to place the matter beyond question, let him publish to the country generally his plan and profile and his communication will be answered without further comment. . . . I can tell him further that I have it from the man whom Mr. Hazen has brought into New Brunswick for the purpose of building this branch of the C. P. R. that he will be satisfied with one and one-third per cent. grade."  
Here is a statement that cannot be over-looked by the people, even if it is ignored by Mr. Hazen. Mr. Carvell charges that the Hazen government is fooling the people by this alleged railway survey, and demands that the result would be a branch of the C. P. R., with many curves and heavy grades, instead of a railway

American newspaper for the American people, that quickened the understanding and the national spirit of the American Senate and by unflinching advocacy converted a hopeless minority into a triumphant majority for a brave, wise and self-respecting policy which we shall never have cause to regret." Well, well!

The Women's Suffrage bill, which provides for parliamentary suffrage for women who possessed the franchise in municipal elections passed its second reading in the British commons by a large majority. Evidently the militant course pursued by the ladies has not been without its effect. The fight in England is being eagerly watched in the United States. One leading New York suffragist said the other day:—"I cannot regard it as possible that if Englishmen grant the vote to women the American men will care to refuse in our country."

That was a notable paragraph in Sir Wilfrid Laurier's speech to his compatriots at the French village of St. Anne de Chenes, Manicoba, yesterday, when he said:—"We are sons and daughters of the old world—English, Irish, Scotch, French. We love the past, we revere those gone before, but our duty is in the present. We have a great new country, our heritage, we are all Canadians. The opportunity is ours, the country is ours. Under the British flag let us unite—every one of us whatever our origin, loving the old not the less but our own the more—to make of our wonderful home land, Canada, le pays de justice, de liberte et de bonheur."

**VAMPIRE REVAMPED—OR, KIPPERED KIPING**  
(By N. P. Babcock.)  
Some fools there were, and they played their stock.  
(Even as you and I.)  
On a large white man to defeat a black (We called him the man with the deadly black.)  
But the fools now know he could never come back.  
(Even as you and I.)  
Oh, the time we spent and the thoughts we lent  
And the weight of the gold we lack!  
Belong to the Jeff who did not turn (And now we know that he never could know.)  
He never could come back.

Some fools there were, and their goods they spent  
(Even as you and I);  
Hens and loaves—their pace they went (And it wasn't the least what they thought it meant.)  
But a fool must follow his natural bent (Even as you and I.)  
Oh, the sleep we lost and the dough it cost  
And the excellent things we planned  
Belong to the Jeff who could never come back.  
(And now we know he could never come back.)  
Yes, now we understand.

And it isn't the shame and it isn't the blame  
That stings like a red hot tack;  
He coming to know he never knew why (Being at last he could never know why)  
The deuce he couldn't come back!

**IN LIGHTER VEIN**  
**THE COST OF LIVING.**  
"Do you call this a fresh egg, madam?" he asked, as he turned from his plate to the landing.  
"Sir," she said, in a voice meant to paralyze him, "I am simply poor, overworked landlady, who runs behind expenses every month."  
**OF COURSE.**  
"And is your milk pasteurized?" asks the prospective customer of the dairymaid.  
"Sure," he replies. "My boys pasturize the cows every morning."—Chicago Post.

**DIVIDING BY TWO.**  
"How many brothers have you?" the census man asked.  
"I have four and a half," replied the dense woman.  
"Nonsense!" cried the questioner. "How can you have four and a half brothers?"  
"How can I help having four and a half brothers?" she replied. "I have nine half-brothers."

**OF COURSE HE COULDN'T.**  
(Deineator).  
Little Paul had been accustomed to sleeping with his light in his room.  
One night he was put to bed and the light blown out. In a few minutes some one came to the door from the direction of Paul's bed. "What's the matter, son?" said his papa. "I can't see how to shut my eyes," sobbed the little fellow.

### TRESPASSERS' DEATH TOLL

**Fifty Thousand Die in Eleven Years on Various American Railroads**  
Chicago, July 12.—Trespassing on railroad property in violation of the law has caused the death of more than 50,000 persons in the United States in the last eleven years, according to a statement compiled and circulated by the Pennsylvania railroad. In the same period more than 25,000 trespassers have been injured.

With a view to reducing to a minimum the practice of trespassing the Pennsylvania has determined to redouble its efforts to secure on its lines that rigid enforcement of the law against trespassing which has done so much in foreign countries to decrease the number of fatalities. In 1907 the Pennsylvania inaugurated a vigorous campaign against trespassing and in 1908 the number of persons so killed was reduced to 757. In 1909 732 lost their lives in this way.

In the eleven years prior to January 1, 1910, exactly 7,972 persons who were on this system's right of way in violation of the law and in spite of thousands of warning signs, were killed, it is stated. This makes an average of two persons a day. The railroad declares that it is not only tramps who were killed and injured on the tracks, but men of the laboring class and their wives and children, who use the tracks as thoroughfares in the industrial sections. More than 10,000 trespassers were arrested in 1909.

In 1907, 5,612 trespassers were killed on American railroads, according to the interstate-commerce commission statistics—more than fifteen a day, and figures compiled for the Pennsylvania system alone show that while 465 trespassers were killed on its lines in 1889 in 1907 the number had reached 1,151, an average of almost three for every business day in the year. The railroad has posted its tracks and stations with notices to see that warnings against trespassing are heeded.

### OBITUARY

**Captain Samuel Kempton**  
Liverpool, N. S., July 13.—(Special)—Captain Samuel Kempton, collector of customs, died this afternoon. He was born in Milton sixty-two years ago. He was for some years in the employ of F. L. Seldon & Son and sailed for them the clipper packet "On Time" between this port and Boston.

**Thomas Lawless**  
Toronto, July 13.—Thomas Lawless, supreme treasurer of the I. O. F., died at the family residence in Leopold street, this morning.

**Mrs. Catherine Titus**  
Digby, N. S., July 13.—(Special)—Catherine E., widow of Timothy Titus, died suddenly at her home in Digby this morning, aged eighty-five years. She is survived by three sons and three daughters. The funeral will take place on Friday afternoon with interment in the Baptist cemetery. The services will be conducted by Rev. A. F. Archibald.

**CHARITY TO BLAME**  
Carbone is very amusing on the subject of his barber in America to whom he gave a hundred pounds because the man wanted to come to Europe and see Italy again. "I wish I'd never done it," said Carbone. "My Italian barber was so overcome with delight that he sang all the hair off one side of my head and cut half my chin off that morning. Then he went away and told the newspapers all about it. Next day I got fifty letters each asking me for \$100. Next week I got twice the number and several threatening letters from the writers of the first batch. And a few days afterwards the Black Hand people tried to blackmail me. It's very hard work being charitable."

**Mrs. Elizabeth Moses**, ninety years old, who lives alone at Newington, N. H., locked herself out one night last week and in order to get into the house had to pry open and climb through a window, with feet from the ground.

### BRITISH INVESTORS ARE SUSPICIOUS OF B. C. BOOM STORIES

Plenty of Money for Honest Entrepreneurs—Cabinet Ministers to Attend "Garden Party"—A Canadian Musician

The London correspondent of the Montreal Herald writes:—Here the very lethargic state of things political seems to have served to accentuate the veritable "boom" now on in regard to all things pertaining to Canada. In the case of the stock market there seems a disposition in certain quarters to take undue advantage of the great attention which the Londoner is receiving. Certain oil and timber issues have created an atmosphere of speculation. Today the papers are full of accounts and comments regarding gold discoveries in the Stewart district, as to which there is a good deal of scepticism, in view of the fact that the accounts of these reported discoveries were all published in a Vancouver paper nearly a month ago. In money matters it is not an easy job to fool John Bull on a large scale, and the representatives of the Canadian banks and the numerous splendidly equipped propositions which are largely held here, unite in denouncing exaggerated rumors and in warning investors to look before they leap. Mr. Vere Brown, the chief inspector of the Canadian Bank of Commerce, who is here on a visit, has given an interview to Canada, in which he emphasizes the point that all the machinery of the Canadian banks is at the service of the intending investor, great or small, to investigate and advise.

There is plenty of money here to go into anything issued under creditable auspices and the powers that be in the world of Anglo-Canadian finance will very actively discourage any schemes which may injure the growing confidence in the hon-

esty of their financial methods. When the prospects are so splendid for mineral, timber, pulpwood and general Canadian industries, how more than foolish it is to exaggerate in some cases and misrepresent in others.

July 14, when the Canadians give their "garden party" is likely to see an immense gathering of their fellow countrymen, including three cabinet ministers now here: Messrs. Fielding, Patterson and Sydney Fisher. Postmaster-General Sir William Mulock and a host of lesser "swells" in the political and social life of the dominion. The Dominion Day dinner will also be an extra big affair, but you will have cabol reports before this is in print. It is only of interest, perhaps, for me to remark the greater interest I notice is being taken in regard to this 1910 celebration than was even the case last year, and that was an eye-opener to one who remembered when it was rare to find a British newspaper man—particularly a Londoner—who knew what Dominion Day celebrated, though he was quite "wise" as to July 4.

In another sphere Canada was to the fore last night, the thoroughly successful debut of Miss Jean Nabitt at the fashionable Bechstein Hall, of which an authority says: "Miss Jean Nabitt, a young Canadian pianist, who has been studying for some time with Professor Leschetitzky, made a thoroughly successful London debut at the Bechstein Hall. With natural taste and talent, she combines a sound technique, and though forming her programme of such familiar works as Bach's Italian Concerto, Beethoven's Moonlight Sonata, two of Mendelssohn's Songs Without Words, and Chopin's Berceuse, G flat Study, and A flat Ballade, she courted comparison with most of the pianists of the day, she came very successfully out of the ordeal. She never, perhaps, soared to very great heights of interpretive power, nor did she show that her individuality is particularly striking. However, her playing was always sympathetic, neat and refined, and time and experience may very possibly give it that element of distinction which it is still a little lacking. In the new use, she certainly shows great promise."

**AMUSEMENTS FOR OURSELVES AND OTHERS**  
FINE PICTURE FEATURES AT THE GEM.

The new programme at the Gem Theatre last evening was greatly enjoyed by the large crowd that attended. The Pathé art production, "The Two Portraits," was greatly admired and proved most interesting. "Faith Lost and Won," a Lubin subject, is a very entertaining drama of western life, and depicts the genuine people in all their picturesque costumes and surroundings. "Cupid and the Motor Boat," is a comedy film that cannot fail to make the most sedate look and laugh heartily. Taken as a whole the bill is one of the best produced in some time at this popular pleasure house. Miss Evelyn Ellis, the blind soprano, rendered "ballad," "Daddy," by Behrend, with fine feeling and she was accorded generous applause. The same bill will be repeated this afternoon and evening and tomorrow there will be a complete change of programme.

**BIOGRAPHS AND GOOD MUSIC AT NICKEL.**  
The fog and the cool weather helped fill the theatres last evening, and the Nickel, as usual, got its big share. The programme seemed to please everybody, particularly the Biograph comedies, Never Again, and May and December, which were fully up to the standard of excellence for which this brand of film is noted. The western story, The Mexican's Fate, supplied plenty of melodrama, and The New Minister proved a pleasing serio-comic contribution. The Ladies' Quartette rendered a second new programme, as follows: (a) Old Black Joe; (b) Kiss of Spring Waltz; and (c) Lady Love, popular ditties. These were executed each show and double encore were demanded on several occasions. Tomorrow the picture and the song programme will change again.

**CHRISTOPHER COLUMBUS AT THE LYRIC.**  
A wonderful film depicting the life of Christopher Columbus, and showing all the principal events in connection with his discovery of America will be shown at the Lyric on Friday and Saturday of this week. This wonderful film production is not only a very interesting historical study, but is without a doubt one of the best film photographs ever manufactured. Rube Dickinson continues to draw packed houses and is proving a bigger success at every performance. The New York critics pronounce him the greatest rube in vaudeville, and although the rube act is not a well-known character in this section, St. John audiences are always ready for a hearty laugh. Dickinson would be funny if his character had never been heard tell of.

**ANOTHER GERM DESTROYER**  
Herpicide is Death to Dandruff Germs  
The germ burrows into the scalp, throwing up the cuticle in thin scales, called dandruff, or scurf, and digging at the root of the hair where it starts its growth. First comes the itching, then the scales and dead hair fall from the head, and finally begins the itching and the hair troubles are caused by dandruff. Without dandruff, hair will grow luxuriantly, as nature intended. "Herpicide" kills the dandruff germ, leaving the hair to grow unimpeded. It does with the American red man, sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.  
One dollar bottles guaranteed.

**Ready to Strike, They Say**  
Philadelphia, July 13—Representatives of the conductors, trainmen and yardmen of the Pennsylvania railroad lines, east of Pittsburgh, Erie and Buffalo, notified General Manager W. Heyward Myers this afternoon, that a majority of the men had voted for a strike unless they reached an agreement with the company on the matter of wages and working conditions.  
Mr. Myers informed the delegation that the Pennsylvania railroad is willing to meet the conditions which prevail on other roads providing the company is put to no additional expense. At the request of the union leaders, another conference will be held at St. John tomorrow morning.

**SPORT NEWS OF A DAY; AT HOME AND ABROAD**

Hard Not to Hit Batters.  
Baseball never has been considered a dangerous game, yet the death of young Louis Menz, of Freiburg, Ill., demonstrates that it is one of the most dangerous that young men can play.

Young Menz, at bat, was looking for a pitch to allow the anticipated bend to the ball. The pitcher "squeezed" him, as base ball players call it. Instead of an outcurve he threw an inshoot, a "fast ball," as professionals have it. This one hit the batter over the head, and he died.

It is really a tribute to the excellence of pitching that so few players are injured while at the bat. Considering the tremendous speed with which the ball is thrown, the dulness of the eye that has but once a week, the necessary proximity of the batter to the plate, the absolute necessity of the pitcher "putting it over," it will be seen that batters are very fortunate to escape serious injury while at the bat.

Oddly enough, the danger of being hit with a pitched ball is not feared so much by amateurs as by professionals. The amateur does not stand so close to the plate as the professional. The speed he throws is not so great. Of course, the control of the professional pitcher is much superior to that of the amateur, but his speed and the width of his shot are also much superior too.

**NATIONAL CONVENTION IN QUEBEC**

Knights of Columbus Will Hold Their First National Meeting in Canada—Programme for Entertainment of Visitors

With a series of hand concerts, illuminations, floral displays, river and harbor excursions, banquets and speech-making, and a visit to the shrine of St. Anne de Beaupre, the National Convention of the Knights of Columbus is to be held for the first time outside of the United States in the city of Quebec, in the first week of August. It is held fair to be the most interesting, entertaining and instructive in the annals of the organization.

The interest and importance of the convention and the fact that it is to be held at one of the most interesting cities on the continent, will bring a very large attendance from all over the country. Massachusetts will be well represented.

A delegation will probably attend from St. John but the personnel is not yet known.

Quebec is charmingly located on the left bank of the St. Lawrence river, and has been fifty styled "The Gibraltar of America." Its historical associations are numerous and most interesting and there are many points of interest in and about the city and suburbs, all of which will be of interest to the Knights of Columbus.

**BIG PROGRAMME PLANNED.**  
The programme arranged by the Quebec members as an elaborate scale. Everything which would have a tendency to please the visiting members has been provided. Nothing has been left undone.

Here is the roster of events given out by the executive committee of the order: Monday, August 1, 8 p. m.—Open the concert on Dufferin terrace by the band of the Royal Canadian Garrison Artillery. Electric illumination in honor of the visitors.

Tuesday, 8 a. m.—Procession of Knights from Knights of Columbus Building, No. 73 Grande Allée, to the Basilica.

Friday, 8 a. m.—Mass at the Basilica, the celebrant being His Lordship, Monsignor Roy, Auxiliary Bishop of Quebec. Sermon in English will be preached by His Lordship the Right Reverend M. F. Fallon, Bishop of London, Ontario, and in French by the Reverend Canon Gasthier of Montreal.

11 a. m.—Formal opening of convention by the Rev. Father James A. Faherty, welcome by Mayor Drouin, and by Dr. N. A. Dussal, State Deputy, Response by the Rev. Father James A. Faherty.

1 p. m.—First business session of the convention in the council chamber of the City Hall.

4 p. m.—Reception tendered to visitors at Spencerwood by the Lieut. Governor, Sir C. A. P. Pelletier, K.C., M.G., and Lady Pelletier. Automobiles and carriages will be provided to convey guests to a supreme court judge for ball.

Mayor William F. White, of Lawrence, Mass., was sentenced to serve three years in the Essex County House of Correction and also to pay a fine of \$10,000 for embezzling to secure from the board of aldermen confirmation of the appointment of James A. Hamilton as chief of the Lawrence fire department, and later to secure his removal. Mayor White was elected on a reform ticket about two years ago and Matthew Burns to two years and George D. Smart to a year and a half. E. Ernest Dube was also convicted but not sentenced his case being placed on file, because he had given evidence for the defense.

**PREMIER LAURIER OPENS WINNIPEG EXPOSITION**

Then Visits the Village of Ste. Anne De Chenes and Receives a Royal Welcome from the French Residents—His Inspiring Message

Sir Wilfrid and Lady Laurier start on their two months' tour of the west, chatting to friends just before getting aboard the special car.

Winnipeg, July 13—"I feel younger than yesterday and considerably younger than last week," said Sir Wilfrid Laurier, in opening the great Winnipeg annual industrial exhibition this morning. "You cannot grow old breathing the western atmosphere. If I were twenty years younger, I believe I would give up the east and come west."

Sir Wilfrid attended the directors' luncheon at noon and an hour later he pressed buttons which started the exhibition to the west.

He was introduced by Lieutenant-Governor Lord Dufferin, and again addressed the vast concourse of people. He had visited the various buildings and viewed the exhibits with President A. A. Andrews and Manager A. T. Bell. He declared the exhibition to be a "wonderful evidence of the progress in the west."

"I shall take this message back to the five eastern cities of Toronto, where I have many friends, except at election time," he said. "The national exhibition there has in Toronto and Winnipeg two of the greatest industrial exhibitions on the continent."

The premier was the recipient of a beautiful bouquet of flowers at the hands of the little daughter of Mayor Evans.

Ste. Anne de Chenes, Man., July 13.—Into the heart of the new western prairie lands there has been dropped a village of the golden age, a parish of 1,000 inhabitants with the race mannerisms and customs, ancient architecture and revered sanctuary with its vespers bells and the grass grown country church yard. To this picturesque French-Canadian village the premier came this afternoon and his welcome was of the best.

From the thrill of sturdy Saxon cheer, from the inspiration of stately Celtic enthusiasm, he passed at once into the close embrace of Latin affection. Everywhere he met organized welcome; here there was the spontaneous "bienvenue," an individual "hello." Elsewhere crowds clapped hands; here they must shake hands. Elsewhere they sang patriotic songs; here they chanted: "Vive Laurier!"

For a mile and a half from the station to the residence of Mayor Ritcher an elaborate cortege carried the premier, headed by a remarkable procession. On either side rode a horseman, one bearing the Union Jack, the other the tri-color of France. Then followed some 200 bugles, phantoms, wagons, carts, hayracks, all decorated with panmunt and small. The brightly colored was bounded by whistling fife. Attached to each telegraph pole was a steamer with the legend "Vive Laurier!"

The modest garden plot was too small to accommodate gatherings. One proud pro-

**PUGILISM**

There are all kinds of heroes, from the Christian to the rough;  
Of the latter far too many, of the former not enough.  
And many of opinion, 'tis the spirit of the day,  
That such as Jim and Jack are greatness (in a way).  
Great in health and muscle, yet in a way are they;  
When trained to stand a tussle and strike a heavy blow,  
As it takes a heavy one to knock the other out enough,  
Now what is great in this to be so talked about?  
If not higher than their knee or wider than their hand;  
Or both within a bottle found room enough to stand.  
Wouldn't it be greater heroes if through moral pride  
They curbed the fighting spirit and with peace be satisfied.  
Of course it is for money, and a passing fame,  
That sets the pugilist ones as doth the "pfeifer's" game.  
With the stakes immensely large and either nose or wrist,  
That, should he lose the prize, a fortune may secure.  
As it makes him a scorf, he may not be a Booby;  
But then he'll make the money and that's the thing to sough.  
'Twill compensate for bruises, a broken nose or wrist,  
And mainly why 'tis knightly to be broken with the fist.  
Carousal is their motto, excepting when their train,  
Not much inclined to moralize or to set their brain.  
On good and useful study, save to lower weight,  
So 'tis cultivate the body regardless of the pate.  
Hence in ethics they are dull, yet have a sprightly wit;  
And deftness in their tactics, shown in how to hit.  
Which in itself is clever, and but fair to show developed to a science, is greatness in a way.

"Any person attending a prize fight is also guilty of a misdemeanor and any pictures of a prize fight are illegal."

## Facts You Can't Rub Out

If rents were lower, and light, advertising and other modern business necessities were cheaper in the city stores they would not have to add more profit to the cost of their goods than we do. If they did enough business to control the production of all the makers of good goods in this broad land they would have a monopoly on style and quality. But, fortunately for us, it costs them a whole lot more to do business than it does us, and the makers who supply them are just as anxious to supply us, hence, "We can match the city's Best Styles and Best City's Best Prices." ## CLEANLINESS IN DENTISTRY

If people knew the fearful risk they run of infection from unclean dentistry they would better realize the awful chances they take and what a mighty important factor cleanliness is.

No one has ever disputed the fact that there are no cleaner offices in Canada than ours. This is worthy of consideration.
