Not Only Moth-proof but Strongly Built, as Well

ONE of the biggest advances ever made in the upholstered furniture art, was, unquestionably, the introduction of Snyder's "Sani-bilt", guaranteed, moth-proof furniture. Other so-called "moth-proof" furniture must take secondary place to "Sani-bilt". Our process is absolutely colorless, odorless and non-poisonous. In addition, the fillings are as thoroughly treated as the cover.

The Frames Are Solidly Built The frame on which upholstered furniture is built must be strong, if the furniture is to give the service it should. The frames on which Snyder's "Sani-bilt" pieces are built are of exceptional strength and solidity. Some people say our frames are unnecessarily strong and solid. The answer to that is that Snyder's "Sani-bilt" Furniture is still in use years after other furniture, with weaker frames, has broken down and been discarded.

Sight Sense. Four in five need Glasses. Few know it. They think they see as well as anybody and as easily—and they have thought like that for years, not knowing the difference. But one examination and one look through the right Glasses soon shows the difference. Modern eyes have modern strains. And happily modern science has produced the help against the handicap. Glasses—that benefit four in five.

REAL CIVIC SPIRIT

Eight hundred citizens of Vancouver met at luncheon recently and decided to take immediate steps to establish a civic research bureau.

One of the speakers said that "the success of democracy depends on the knowledge of citizens and their sustained interest in public matters."

Vancouver is not trying an experiment. The value of research bureaus has been proved in Toronto, Winnipeg, Calgary and many American cities.

THE LAW AND THE CITIZEN

Dr. Nicholas Murray Butler has given the people of the United States a lecture on law observance and enforcement that ought to stir the public conscience of the country.

of course there cannot be one law for the newcomer and another for the native citizen, and so Dr. Butler quotes from another speech he made in January as follows:

An Ottawa despatch intimates that neither St. John nor Vancouver is likely to get a favorable response to the appeal for needed port facilities.

The New Jersey House of Representatives has voted in favor of compulsory medical examination of all persons applying for marriage licenses, and for postponement of the marriage of those afflicted with certain diseases.

TELLS OF TRAGEDY IN MOUNTAINS

Vancouver Paper Reports Finding of Body of David Spencer.

The Vancouver Sun, with an account of the tragedy which cost the lives of two young men, one of them David Spencer, a cousin of F. G. Spencer of St. John, has come to hand. It tells of the finding of the body of David Spencer, who, with Arthur Willis, set out on a Sunday to climb Crown Mountain.

With searching parties scouring every mountain on the North Shore, the body was discovered at the bottom of a

of the gulch, and were successful in their efforts. They placed it in a snow cairn and lashed it to a tree until morning, when a bearer party comprising eight men from the Caplano Timber company under Chief of Police H. Neale and Constable S. Grant set out on the long trip up the mountain.

There whereabouts of Arthur Willis is still a mystery, but the gravest fears are entertained for his safety. Searching parties have been increased, and it is expected that something definite will be heard tomorrow, as the searchers can confine their efforts to climbing Crown Mountain, knowing that the young men have not been in the vicinity of Grouse Mountain, which is three miles distant.

No Witnesses.

With no witnesses to the tragedy, the police believe that the young men climbed to a height of nearly 4,000 feet and, in attempting to make a short cut down the mountain, David Spencer slipped, and, with no Alpine stick to stop his descent, must have tobogganed at a great speed on the hard surface and finally shot through the soft snow into the gulch.

David Spencer was the son of H. H. Spencer, Bradford, England, woolen manufacturer and second cousin of Chris. Spencer, Lt.-Col. Victor Spencer, T. A. Spencer of Vancouver, and David S. Spencer and William Spencer of Vancouver, of David Spencer's, Ltd. He went to Vancouver last October on a trip for the benefit of his health and commenced work in the dress goods department. He was slight of build, but a very active young man, and previous to coming to Canada had been fond of mountaineering, having in his career scaled the Alps.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

NO. 3—IN BEAN STALK LAND

Nancy and Nick were hiding behind a big log in Beanstalk Land, for they had seen a giant coming...

THE INCESSANT NIGHT COUGH

Not only does it rasp and tear at the chest, but it breaks up the night's rest, and renders the patient less able to resist its ravages.

A single dose of Ayer's Cherry Pectoral will bring immediate relief.

For more than 50 years Ayer's Cherry Pectoral has been the remedy and standby of thousands of Canadian homes.

And he cracked his fingers like thunder. The Twins saw the dog coming right at them.

"Quick!" whispered Nick. "Jump into the giant's pocket."

"So holding tight to the cloth of his funny short coat, the Twins scrambled into one of his big square pockets.

But troubles were not over! Snap was hungry and started to sniff around his master's clothes for a piece of weeny or hologna.

"Oh, goodness!" gasped Nancy. "Daddy!" gasped Nick.

"Ah, ha! You got fooled that time!" roared the funny giant.

"Who are you, I'd like to know," he cried, his eyes as round as dollars.

"We're Nancy and Nick, the Twins," shouted Nick as loudly as he could.

"Well, well, well! You shall have time to go, I'd like first rate to have two twins for pets. Come, Snap!"

"Off they started."

"To Be Continued."

HAVE SLEIGH DRIVE.

The boys of Miss Alice Lockhart's Sunday school class of the Charlotte Street Baptist Church and the girls of Miss Elizabeth Cowan's class had a joint sleighing party last night on the Manawagonish Road and back.

On their return to the church they found a delicious hot supper prepared for them by Mrs. Kelly and Mrs. Freeman Gardner. The party thoroughly enjoyed the evening.

Your Health

BY DR. CLIFFORD C. ROBINSON

HOARSENESS

Hoarseness sometimes develops quickly after an ordinary type of the common cold, which frequently has as a part of its disturbance acute laryngitis.

We also are well acquainted with the type of hoarseness which one may acquire at a football game or at a political rally. If one knows just how to use his voice, he may be able to make a greater racket than his seat-mate and yet not become hoarse.

Hoarseness is a misuse, rather than overuse of one's voice. Acute laryngitis is the simple cause of this "game" hoarseness. The vocal cords may be said to slacken down and a deeper and huskier tone quality results.

Continued forcing of the voice may result in complete loss of speech for a time.

In women or girls there is usually no marked lowering in the pitch or tones of the vocal cords. The condition which plays a more important part causes a complete aphonia or loss of voice after a slight attack of laryngitis.

In connection with such loss of voice there is the condition known as "hysterical aphonia." Such a condition commonly precedes an ordinary attack of acute laryngitis.

It is not the result of purely psychic causes as a rule, and yet it bears on some psychic factors. The connection in such a case is brought about by a cerebral innervation (the will) and the result of the acute laryngitis. Sometimes this lost voice difficulty may persist and run into hysteria for a time.

In avoiding conditions which cause hoarseness be careful to protect the use of your vocal cords and rest them as much as possible. Chronic hoarseness or aphonia is due almost always to some disease of the larynx or to some unnatural pressure causing partial paralysis by tumor or other causes.

Hoarseness demands careful treatment and the avoidance of disturbing conditions. If you value the use of your voice after a slight attack of laryngitis, form and presented a bouquet by Miss Dunbrack which she graciously acknowledged.

Something really new in teas was inaugurated. E. L. Rising and S. H. Davis in the latest of fashions for women presided at the tea table and were assisted by Phillip Simms and C. H. Wasson, both gowned in pink with black picture hats.

This caused much merriment and the only drawback was that the service was rather slow as the men were not accustomed to the niceties of a tea. This was their first offence. The evening was voted one of the best by all.

Mrs. George W. Parker, teacher of the Philatheas, when introducing "Miss St. John," said that she wished to impress the girls with the fact that goodness was not only helpful in making them beautiful in character, but had an effect upon their personal appearance.

Miss Winifred Blair had been chosen not only as "Miss St. John," but as "Miss Canada." She was a faithful attendant and worker in Queen Square Methodist church. It was a cause for happiness that the Philatheas could claim the choice this year of one of their most faithful members in Miss Oatley.

Hot chowders are particularly good for winter luncheons. Vegetables are quite as satisfactory as fish for these dishes.

Many children who will not drink milk will like it if served hot in a vegetable chowder.

**Potato Chowder.**

Four cups milk, 8 cups diced potatoes, 1 cup diced carrots, 2 slices onion, 2 tablespoons flour, 2 tablespoons butter, 1 teaspoon salt, ½ teaspoon celery salt, 1-8 teaspoon pepper, 2 tablespoons minced parsley.

Put potatoes and carrots in kettle and pour over boiling water to barely cover. Cook five minutes. Add milk and cook, just below the boiling point for 20 minutes. Melt butter in a small pan with the slices of onion. Let stand over hot water for five minutes. Remove onion and stir in flour. **Corn Chowder.**

One can of corn, 2 tablespoons diced salt pork, 1 small onion, 2 cups milk, 1 teaspoon salt, 2 tablespoons butter, 6 large crackers.

Try out fat from salt pork and add onion cut in slices. Cook slowly for five minutes without letting the fat brown. Strain fat into soup kettle. Parboil potatoes for five minutes and drain. Add to fat in kettle, pour over boiling water and cook 20 minutes. Add corn and milk, season with salt and pepper and bring to the boiling point. Add butter. Split crackers and soak in cold milk for five minutes. Remove from milk and put in soup tureen. Pour hot chowder over them and serve at once.

Season with pepper and serve with large crackers prepared as in the preceding recipe or with croutons.

As with families served so economically by New System Wet Wash.

Nothing like it for economy, nothing like it for the cleanliness that is next to godliness.

Mrs. BIDDLE DUKE

As Miss Cordelia Biddle, young Mrs. Duke began her social life against the brilliant background of one of the most exclusive families. She is one of the most prominent and most admired of the younger women of society. Her captivating personality is coupled with a beauty that made Neysa McMein, well known illustrator, choose her as one of society's twelve most beautiful women.

*What one of Society's twelve most beautiful women says about the care of the skin*

"The woman who achieves loveliness must be exquisite at all times. Her skin should be so perfectly cared for that every situation finds it the same—smooth and transparently clear—unlined by fatigue, showing no trace of exposure. And this I believe any woman can accomplish with the careful use of Pond's Two Creams."

*Paula Beale Julia*

Of course if one did nothing but recline upon a chaise longue in a foam of Venise lace and chiffon, such terms as fatigue and exposure would be unknown.

But the woman who is active in society leads a very different sort of life. She is almost invariably an enthusiastic sportswoman, and skating, riding or golf is often followed by a night of dancing.

And yet sports and late hours combine in an insidious attack upon woman's dearest possession—her complexion. Wind and sun will crack and coarsen, and post-midnight dancing shows in faint lines of fatigue.

But—"exquisite at all times" is her code, as Mrs. Biddle Duke says. And exquisite at all times the society woman is. For long ago she discovered a sure and simple method of skin care that keeps her skin in the perfect condition her position demands.

This method is the famous one devised by Pond's and based upon the two skin essentials—a Rejuvenating Cleansing and a Delicate Protective Finish.

**Exquisite women use this method**

First—Pond's Cold Cream for Cleansing—a deliciously soft, pure cream that not only cleanses the skin but restores its natural satin suppleness. Apply liberally to your face and neck. The fine oil sinks deep into open pores to dislodge all impurities. Now wipe it off with a soft cloth. How clean your skin is, how soft and velvety! Use this cream every night and after severe exposure.

Next—Pond's Vanishing Cream for the enchanting fine texture and protective finish. Smooth on just a little every time you've cleansed your face. Why, there's a pearly glow to your skin, and how extraordinarily young you're looking! The powder will go on more smoothly than ever and will last almost indefinitely.

Begin this method at once and you will see the same clear loveliness that distinguishes the society woman, in your own mirror. The Pond's Extract Co.

RHEUMATISM

A Remarkable Home Treatment Given by One Who Had it.

In the year of 1893 I was attacked by Muscular and Sub-acute Rheumatism. I suffered as only those who are thus afflicted know, for over three years.

I tried remedy after remedy, but such relief as I obtained was only temporary.

Finally, I found a treatment that cured me completely, and such a pitiful condition has never returned.

I have given it to a number who were terribly afflicted, even bedridden, some of them seventy or eighty years old, and the results were the same as in my own case.

I want every sufferer from any form of muscular and sub-acute (swelling at the joints) rheumatism, to try the great value of my improved "Home Treatment" for its remarkable healing power.

Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of getting rid of such forms of rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair?

Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

Mr. Jackson is responsible. Above statement true.

YOUNG MEN OF ST. ANDREW'S DEBATE

Climate is the Subject—New Speakers Take Part in Discussion.

An interesting and instructive debate was held by the members of the Young Men's Club of St. Andrew's Church last evening. It was an open debate and all present were invited to participate.

One of the pleasing features of the debate was said to be that a number of those participating had never previously spoken in public, and their arguments were well presented and logical.

At the conclusion of the debate a game of indoor baseball was thoroughly enjoyed. The social committee then served refreshments. It is expected that in a few weeks members of St. Andrew's Club will meet the representatives from the Young Men's Club of German street Baptist church in a debate.

O'ROURKE MAKES RING SENSATION

Charges Tex Rickard With Being in League With Speculators.

Albany, N. Y., Feb. 20.—(Canadian Press)—Tom O'Rourke, veteran fight promoter, gave sensational evidence before the Ways and Means Committee of the State Legislature, which may lead to more drastic regulation of boxing in New York State.

O'Rourke charged Tex Rickard, promoter, with being in league with ticket speculators. He mentioned specifically a block of \$185,000 worth of tickets for the Firpo-Dempsey fight last September which he said Rickard turned over to speculators. These tickets, O'Rourke said, were held for fabulous prices and were not sold.

O'Rourke is a former deputy state boxing commissioner.

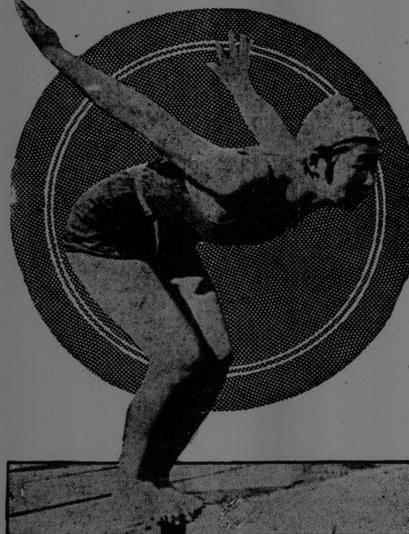

University Team Here Friday Night

Friday night will be a memorable one in the history of hockey in St. John. For the first time a team from the United States will invade the city and for the first time the St. John team will take part in an international contest for supremacy in this game.

The team to play here is one from the University of Maine and judging from the brand of athletics usually produced by American colleges it should prove a strong sextet.

CRIPPLED VETERAN LEADS CANDIDATES

The Loss of a Foot Does Not Prevent His Playing Baseball.

Ann Arbor, Mich., Feb. 20.—(Associated Press)—The loss of a foot "up Siemons way" while serving with the Twenty-sixth Regiment, First Division, has not deterred Stanley McBride from playing baseball.

McBride is on the University of Michigan baseball squad and according to Ray Fisher, the coach, he may displace a high class, two-footed player behind the bat.

McBride was one of the first Americans "over there." He was with Company C of the twenty-sixth, under the command of Major Theodore Roosevelt, and most of the time he was in France.

When the First Division came home and marched through the streets of New York and Washington McBride was not walking.

The war ended, McBride resumed his education. When Fisher sounded the call for baseball catchers a fortnight ago, McBride reported. For two days none of his companions knew that the candidate who showed so much brilliance was a disabled war veteran.

It became known when the squad went to the showers in a group one day and McBride hopped under the needle spray on one foot.

McBride, who was a high school player before entering the service, catches like a veteran. A watcher would have a hard time to pick him out of the squad of seven catchers now practicing. Big and broad shouldered, with long arms, McBride can "get 'em" almost anywhere and his throw is like a bullet. He appears to be one of the most promising of the 25 or more candidates for places on the team.

In the classroom McBride's task is to master a course in junior education which would fit him for teaching. On the baseball diamond his job is to replace Captain Jack Blott if he hopes to become Michigan's first string catcher this spring.

WALKER AND LYNCH ARE REINSTATED

Latter, However, Must Agree to Bout With Abe Goldstein.

New York, Feb. 20.—Two world's boxing champions—Mickey Walker of Elizabeth, N. J., welterweight title holder, and Joe Lynch of New York, bantamweight king—are restored to good standing and title recognition in this state under a decision of the state athletic commission.

However, they will be ordered to appear before the commission on Feb. 26, and it was understood Lynch would be returned to good standing only on condition he accept a match with Abe Goldstein of New York, who has laid claim to the bantamweight title.

FAVOR SUGGESTION FOR VOLUNTEERS

Y. W. C. A. Directors Hear Reports on Various Activities

The suggestion of Mrs. W. J. Angus that volunteers should be enlisted to give their services in assisting Y. W. C. A. activities was heartily approved by the board of directors of the Association at its meeting yesterday afternoon when Mrs. A. W. Estey, vice-president, was in the chair. It was announced that Mrs. R. C. Cruikshank and Mrs. Peter and Miss Parks were appointed to act with Mrs. Cruikshank in asking the I. O. D. E. members to undertake this volunteer service.

The opening devotions were led by Mrs. James F. Robertson and correspondence read included an encouraging letter from Mrs. Percival Foster, for many years secretary, who visited St. John last week. Mrs. Foster during her recent stay in the city had taken a practical interest in the work and had renewed many pleasant acquaintanceships. In her letter she enclosed a very welcome donation of \$50 as her gift to the girls' work activities.

The secretary of the National Association wrote regarding the biennial conference in Preston, Ont., and the matter of sending delegates was under consideration.

The treasurer's report showed the finances were matter of serious concern. Some drastic changes are contemplated and the loss in property in King street east as a residence. The recommendation of the Travellers' Aid committee that the Travellers' Aid home in Union street be retained for that work was approved.

The report of the physical committee told of basketball and skating and entertainments.

The report of the residence and cafeteria showed an average of 15 girls in the present time and were 21 girls in residence. While 1,716 meals were served to the public. Special meals had been served for several organizations. At the present time there were 21 girls in residence. A deficit was shown in both residence and cafeteria.

The girls' work report told of the preparations of the Loyalty Club was making for a sale to be held shortly and of the splendid meetings of both sections of the Boosters.

The Travellers' Aid report told of four immigrant girls having been cared for at the hotel and cited many special cases in which assistance had been given. A Polish boy of six years on his way to relatives in Sydney was aided. A French woman with five children, who was unable to speak English, was helped to return to her home in the province. Two German girls were helped on their way to Boston and a telegram was sent abroad to ensure their being aided at New York.

They also were not able to speak English. In all 96 major and 142 minor cases were aided during the month and 23 boats and 227 trains met. It was certain that the Travellers' Aid agent had been the means of saving a girl.

The kindergarten report showed an enrollment of 17.

MOTHERS SHOULD NEGLECT BRONCHITIS IN THE BABIES

Mrs. E. Langdon, Kingston, Ont., writes—"My baby boy had bronchitis when he was two weeks old, he recovered from the attack but took it again, several months later, and on account of the severity it was almost panic-stricken to know what to do for him. My mother advised me to try Dr. Wood's Norway Pine Syrup, and she had used it for several years with splendid results.

I got a bottle, and after I had used it I could see a decided improvement in my baby; after several bottles he was completely relieved.

My boy is now two years old, and he has never had an attack of bronchitis since.

As a mother, raising a family, I am very grateful to know that I have found a real remedy for bad colds and bronchitis, as it lifts care and anxiety from an anxious mother's shoulders."

Dr. Wood's Norway Pine Syrup is a safe, reliable, large family size 50c, put up only by The T. Millburn Co., Limited, Toronto, Ont.

Covey was the referee and starter last evening, while Hudson Breen and Elmer Ingraham were the judges and timers. These officials were quite complimentary on the wonderful showing of both boys and girls in the races.

MOTHERS SHOULD NEGLECT BRONCHITIS IN THE BABIES

Mrs. E. Langdon, Kingston, Ont., writes—"My baby boy had bronchitis when he was two weeks old, he recovered from the attack but took it again, several months later, and on account of the severity it was almost panic-stricken to know what to do for him. My mother advised me to try Dr. Wood's Norway Pine Syrup, and she had used it for several years with splendid results.

I got a bottle, and after I had used it I could see a decided improvement in my baby; after several bottles he was completely relieved.

My boy is now two years old, and he has never had an attack of bronchitis since.

ACTION OF UNION BLOCKS OPERA PLAN

Viennese Company Abandons Visit to London This Season.

London, Feb. 20.—The Viennese State Opera Company has decided not to come to London for the season of May and June because of "insurmountable obstacles" put in its way by the British Musical Union.

As soon as it was announced that the Viennese would hold forth in Covent Garden during the social season, bringing their own well-trained orchestra along, with Richard Strauss himself wielding the baton, the British musicians protested that they could play the accompaniments for the singers as well as the Viennese musicians. They also protested against the entrance of foreigners at a time when so many British players were unemployed, so the Viennese company, whose orchestra had been through many laborious rehearsals with its own singers, abandoned its plan to visit London, which has had no good Continental opera since before the war.

The protest of the British musicians was avowedly made "purely on economic grounds," and its result has evoked criticism and sarcasm from many quarters.

"We cannot help wondering," said a Times editorial, "on which side the members of the Musicians' Union who have thus made of music a 'key industry' voted at the recent general election. It cannot be but that each man and woman of them is an extreme protectionist who would tax if he might the very air that blows upon us from foreign shores."

"Hurricane's Girl"

Directors, of Varied Nativity, Raise American Film to Higher Plane

By JACK JUNGMEYER.

Hollywood.—The film industry, alternately derided "still in its infancy," is bursting out of its swaddling clothes. Its pituitary gland—the little thingamajig that governs growth, you know—has been powerfully stimulated. The end of 1924 should see the motion picture a sturdy adolescent, judging by its present promise.

Half a dozen producers-directors will be responsible. They have cast aside the old hokum nostrums and are opening the windows to the fresh air of sophistication.

They may not be exactly in consultation, but each in his way is adding a cubit to the young screen's stature.

Charles Chaplin, Douglas Fairbanks, Erich von Stroheim, Ernst Lubitsch, Rex Ingram, Victor Seastrom—these are the experts who are hastening the recovery from infantile paralysis.

Consider their current works and compare them to what has gone before.

Chaplin's "A Woman of Paris," an adult statement of realistic tragedy; a mature treatment of age-old material for those who are beginning to think as well as walk erect.

Fairbanks' forthcoming "Thief of Baghdad," heroic fantasy reared on a simple human theme—a novelty de luxe.

von Stroheim's "Greed," to be shown this spring; the most searching and biting study of character and heredity, of stark realism, yet conceived for the screen.

Lubitsch's "The Marriage Circle," soon to be in general circulation; pungently individualistic, the essence of film savviness, delectable spice for the audience of culture.

Ingram's "Saramouche," less distinctive, but a fine example of vigorous and direct story telling.

Seastrom's hints of unmistakable power in "Name the Man," promising greater things with more flexible material.

These outstanding figures—pioneers—will exercise profound sway over the picture personnel and plans of 1924, for motion picture making is largely a case of follow the leader. In this case, happily so.

An interesting phase of screen material development, observed in the current development of Chaplin, von Stroheim and Lubitsch, is its artist's declaration that man is not the master of his own elements the hero-and-villain cult. You will see the same assertion, more or less bold, in a number of other films prepared or in contemplation. Probably in some of Ince's. Circumstances making puppets of men. A hint for humanity and tolerance, cast out on the circumference of our social behavior.

Do you think the nativity of the screen's leaders? Chaplin, works Englishman, Seastrom, the Swede, Lubitsch, the German, von Stroheim, the Austrian, Ingram, Irish born, Seastrom of other lands, have enough in experience to appreciate and to encourage artistic reflections upon life's many facets.

Do we hail them because we too are approaching that inevitable decadence which is impatient with blatant boombooms?

SIX DIRECTORS, SIX NATIONALITIES. LEFT TO RIGHT: (ABOVE) ERICH VON STROHEIM, AUSTRIAN; DOUGLAS FAIRBANKS, AMERICAN; CHARLIE CHAPLIN, ENGLISH; (BELOW) ERNST LUBITSCH, GERMAN; VICTOR SEASTROM, SWEDISH; REX INGRAM, IRISH.

CHINESE DANCER GETS \$2500 A DAY

Is World's Greatest Artist, Better Even Than Pavlova—Is a Man.

Pavlova has long been considered the great dancing star of the world and is paid accordingly.

But she has a rival in China and, strangely, the rival is a man. Those who have seen both, declare that Pavlova is a mere amateur compared to the Chinese artist. Dancing is even greater an art in China than in Russia and Mei Ran-Fan, the Chinese dancer, is the greatest ever developed there.

The Keith interests have made many attempts to get Mei Ran-Fan to come to America, but although we are supposed to pay artists fabulous sums, the vaudeville people cannot meet Mei Ran-Fan's price. He gets \$2500 (American money) for one night's appearance in China or Japan, and his engagement book is full the year round.

Mei Ran-Fan is 24 years old and was born in Shanghai, China. He has been dancing but eight years and his rise to fame is meteoric.

He dances in women's clothing and plays women's parts (there being no women on the Chinese stage) and is the perfection of grace and skill.

Vaudeville agents who have seen him declare he would astonish American audiences and make a tremendous hit. He would put all the women dancers in shade.

He is, however, making too much money in China and Japan to come here. Mei Ran-Fan is the only theatrical artist in the world who cannot be tempted by American dollars. The Keith people have tried again and again in vain. He has been offered and refused \$5,000 a week and expenses for a 40-week engagement in America. This is the highest offer ever made in vaudeville.

TELLS OF WEALTH OF THE NORTHLAND. On the motion of A. M. Beidling, the Canadian Club, at a special meeting in the Hotel Dunlop last night, adopted a resolution increasing the annual membership dues from \$1 to \$2. This action was taken because of the necessity of the club having a little additional capital to prepare for the convention of the Associated Canadian Clubs, which is to be held in this city in September of this year. The speaker for the evening was G. E. Merritt, formerly of St. John, who chose as his subject "Copper and MacKenzie River District of Our Great North Country."

When asked by one of the members at the close of his address if he thought that the men he had just mentioned were right in hanging the two Esquimaux found guilty of murder in the northland, Mr. Merritt said that their action had been perfectly right. The natives, he said, fully realized the enormity of the crime which the men had committed, and had suggested themselves that the men be shot in their own country as an example to others. Only the Catholics and Anglicans, he said, had missionaries in this country, and they were doing a great work among the natives.

Dr. E. J. Ryan, president of the Canadian Club, who presided at the meeting, extended to Mr. Merritt the appreciation of the club for his address.

ELSIE JANIS' HOME DAMAGED BY FIRE

Costly Relics are Saved—Valuable Stairway is Protected.

New York, Feb. 20.—Caste Phyllis a famous colonial mansion in North Tarrytown, owned by Elsie Janis, the actress, was partly destroyed early on Monday in a fire which began in the room of Mrs. Josephine Janis, mother of the actress. The flames were confined to the southern part of the two and one-half story wood and brick building. A defective fuse caused the fire.

Castle Phyllis is situated in Phyllis Manor. It was built in 1683 by Frederick Phyllis, who owned a vast tract reaching from Spuyten Duyvil to what is now Peekskill.

Miss Janis and her mother returned home shortly before 6 o'clock from New York. They were about to retire, after chatting a while, when their eyes began to smart from smoke. They went to Mrs. Janis' room. The place was in flames. They called house servants, who used buckets without success. The fire department was called. Because of the historic value of the building and its contents a second alarm was sounded in within minutes of the arrival of the first group of firemen.

Miss Janis, her mother, the servants, neighbors, firemen and police worked energetically to save the Colonial furniture, with the result that few relics were lost. The firemen were able to protect the Colonial stairway, recognized as one of the best examples of Colonial stairways in Westchester County.

The building is valued by Miss Janis at \$140,000. She spent \$50,000 in renovations. The Westchester County Park Commission has been trying to purchase the place as a museum. The Colonial Dames in 1908 placed a tablet on the house, recognizing it as one of the finest Colonial show places in the county.

Nita Naldi Never Wears Stockings

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoons of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your drug-gist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

REPEAT PERFORMANCE. The Bonnie Doon Club of Knox Presbyterian church repeated its successful play, "Patty Makes Things Hum," in the Portland Methodist church hall last night before a large and delighted audience. The entertainment was held under the auspices of the Ladies' Aid of the Portland church and the proceeds divided equally between the two organizations. During the intermissions candy was sold. Miss Doris Corbett was the accompanist.

CHURCHMEN CALL FOR PLAY JURIES. Episcopal Commission Suggests How to Bar Objectionable Shows.

New York, Feb. 20.—The city administration should make effective at once the agreed plan for a citizen jury of twelve to pass on the moral acceptability of plays, the Social Service Commission of the Episcopal diocese declared in a report to Bishop William T. Manning. Censorship, the committee said, should be employed only as a last resort and upon the failure of an informed public opinion.

The report pointed out that the jury plan had been accepted by the Authors' League of America, the Actors' Equity Association, the American Dramatists and the Producing Managers' Association, which had agreed to write their contracts with the jury plan into agreement. The plan recommended provides that upon completion of a citizen jury of Licenses, he would draw by lot a jury from a panel nominated by the organization entering into the agreement.

"The importance of the drama, the report says, as a means of increasing men's understanding of life and giving them greater spiritual power in proportion as they gain larger insight into truth is recognized by the Episcopal Church. During the current year an unusual number of good plays have been offered to the public in New York. An effort to prevent undesirable performances must, gilded by the arts of sympathetic understanding of a citizen jury, which art requires for its best development."

"We believe that the only permanent means of preventing performances which are immoral in their appeal is to be found in an alert and intelligent public opinion, gilded by the arts of appreciation of artistic performances. Fortunately a voluntary method of maintaining high standards has been worked out among the co-operation of the city authorities to be made immediately operative."

"This jury," the report continues, "acting without publicity, might suggest the closing of a play or suggest changes in it to make it conform to higher standards or they might endorse the play." Nine votes out of twelve would be necessary for the adoption of the report by the jury. Its reports would be made to those responsible for the performance of the recommendation of the report, to be adopted by them without any necessity for court action.

"Our immediate recommendations are as follows:—That if the Commissioner of Licenses will co-operate with the agency for the inspection and voluntary censorship of plays already offered by the producers and actors and other interested parties, it will be immediately practicable to remove from the theatres the plays or parts of plays which now or in the future may offend a right moral sense; and this result would take place without publicity which advertises a questionable play."

"If the Commissioner of Licenses refuses to co-operate, we recommend that representative groups, which have inaugurated the plan for a voluntary jury of review, be requested to amend the plan in that respect which now makes it operative only in the case of complaints sent to the proper city authorities." We recommend that those groups which inaugurated the agreement should constitute some definite body of responsible persons to whom such complaints could be directly made, in order that these persons may invoke the services of the voluntary jury. Lack of co-operation on the part of the Commissioner of Licenses, regrettable though it would be, would not then, as it does now, prevent the setting in motion of a procedure which we believe offers the sanest and most immediate method of keeping the theatre in New York true to high and wholesome standards."

Oppose "Clean Book" Bill. The Writers' Club announced yesterday adoption of a resolution protesting against the reintroduction of the Clean Books bill in the Legislature. The measure was defeated at the last session.

"We, as members of the Writers' Club of New York," said the announcement, "regardless of the general question of censorship or of the penalization of undesirable literature, recognize in this bill a dangerous blow at freedom of expression, a promotion of appeal to ignorant prejudices and to the control of American authorship by the crudest manifestations of the mob spirit."

FLORA FINCH ENTERS THE CAST OF "POPPY". Recent Story Lifts One Time Star From Obscurity.

Following the story printed last week that Flora Finch, one-time stellar comedienne of the screen, was playing a tiny, unimportant part in Rudolph Valentino's newest photoplay, Philip Goodman, theatrical producer, gave her a chance to be restored to a modicum of her former prominence on the stage. He engaged her to play the role of Princess Yronsky Mamaluke Pasha Thubbs, one of the leading comedy roles of "Poppy," in support of Madge Kennedy and W. C. Fields.

On the same day Philip Goodman, producer of "Poppy," at present sojourning in Paris, was notified that Miss Emma Janvier, playing the Princess, was about to leave the cast at the Apollo, he read of Miss Finch's reduced circumstances.

He cabled immediately to Lawrence J. Anhalt, his general manager, suggesting that Miss Finch be offered the part. The one-time screen favorite was located and given the musical comedy script. After a rehearsal with Miss Kennedy and Mr. Fields she was assigned to the part and will open with "Poppy" next Monday night, February 25.

## CARL C. SCHMIDT, JEWELER, IS DEAD

Came Here From Denmark Years Ago and was a Good Citizen.

Carl Christian Schmidt died at an early hour this morning at his home, 74 Duke street. His death removes a citizen who had been well and favorably known by several generations of St. John people and one whose passing will be sincerely mourned by a large number of friends. He was in the 80th year of his age, but had been in fair health up to a short time ago. Mr. Schmidt and his brother Peter came to St. John from Copenhagen, Denmark, and were the first manufacturing jewelers in this city. They were for some years connected with the Sheffield House, conducted by the late Richard Thompson. Later, Mr. Schmidt opened and conducted for many years, very successfully, a jewelry business in King street where the building of Macaulay Brothers & Co. is now located. He was a good citizen, who numbered many friends. In the year 1906 he retired and had not been actively engaged since that date. He was a member of the Masonic fraternity, and a member of New Brunswick Lodge. He is survived by his wife, Mrs. Ella Schmidt, and one daughter, Miss Caroline, at home. Funeral arrangements have not yet been completed.

## ANOTHER HOUSE AT GATE OF CITY IS FIRE VICTIM

A house at 88 Marsh road, owned by Frank Hazen and occupied by Edward Jones, was practically destroyed by fire this morning. One of the firemen, William Allen, had his foot quite badly cut while fighting the flames. The fire was first seen about 9 o'clock and had gained such headway by the time the fire department arrived on the scene that the building was badly gutted and the occupants lost most of their furniture before it was extinguished. While chopping through the floor to let water escape Mr. Allan cut his foot and was rushed to the hospital where it was found necessary to take a couple of stitches on the wound. Mr. Hazen said he had some insurance on the building but not enough to cover the loss.

## WILL NOT AFFECT MEET AT ST. JOHN

### The Postponement at Placid Merely Means Finish There Friday.

The skating meet at Lake Placid will not be concluded until Friday, a day being lost by today's postponement, announced on page 1. That will not interfere with the arrangements for the big indoor meet at the Arena here next week.

### Here on Sunday.

The next jump is to St. John. This city will have the opportunity just four days from now to give a demonstration of its warm heartedness and its appreciation of sterling athletes, for on next Sunday Charlton Goodman, fresh from his triumphs on U. S. ice, will arrive home. And he will be accompanied by a string of the speedy skaters who have been setting the sport fans taking by their fine performances this year.

The skaters were roused to great enthusiasm by the tumultuous reception they were given here on the other occasions of their coming to this good old sport city. They had never encountered any such welcome, being received elsewhere as ordinary visitors who had come for a certain definite purpose, would attend to that and get away again, but because of the warmth of the reception here and the good friendship made they have always been anxious to get back to St. John. The executive in charge of the St. John meet has sent invitations to His Honor Lieut.-Governor Todd, Premier Veniot, the Mayor and city commissioners and U. S. Consul Culver to attend the Arena contests.

## As Hiram Sees It

"Hev you noticed," said Mr. Hiram Hiram, who has been to the Times reporter, "that whenever any old folks passes out the's a list o' sons an' daughters an' other relations that's living in the States?" "I have," said the reporter. "I have a number of relatives there myself." "Well," said Hiram, "it's too bad. I wish we could make it so's they'd all come back." "Youth will be served," said the reporter—"if not at home, then somewhere else." "That's so, too," said Hiram. "Well, we give 'em a good start afore they go—an' they don't hev to take a back seat. They're mighty glad over there to train up the kind o' folks they want an' send 'em over to help build up the country. This one thing we kin do—we kin git them Yankees to come down here an' hev a good time in the summer an' spend a lot o' money—an' I don't know why we don't do it after 'em. Why, if we had an industry that 'ud pay out as much money in a year as a bunch o' tourists would in two months we'd think we was made—By Hen!"
