WOMEN'S HAIR MADE GLORIOUS

Parisian Sage Stops Falling Hair and Dandruff

Nothing so delicate from the attractiveness of women as full, faded, lustreless hair.

There is no excuse for this condition nowadays because notice is hereby given to the readers of The Times-Star that Parisian Sage, the quick acting hair restorer is sold with a money back guarantee at 50 cents a large bottle.

Since the introduction into Canada, Parisian Sage has had an immense sale, and here are the reasons:

- It is safe and harmless. Contains no dye or poisonous lead.
- It cures dandruff in two weeks, by killing the dandruff germ.
- It stops falling hair.
- It promptly stops itching of the scalp.
- It makes the hair soft and lustrous.
- It gives life and beauty to the hair.
- It is not sticky or greasy.
- It is the simplest perfume hair tonic.
- It is the best, the most pleasant and invigorating hair dressing made.
- Eight eighths of the druggist who offers you a substitute, here is unworthy of your confidence.

Made only in Canada by the R. T. Booth Co., Ltd., Fort Erie, Ont. The girl with the Auburn hair is on every package.

All reliable druggists, department stores and toilet goods counters have Parisian Sage Hair Tonic. The girl with the Auburn hair is on every package. All druggists guarantee it.

WOMAN'S HAIR REACHES TO KNEES

A Year Ago Was Threatened With Baldness. Tells How She Made Her Hair Grow

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when loosened from its coils, falls to her knees. Moreover it is of soft, silky and fluffy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained the wonderful growth in so short a time, she said: "Had anyone told me such marvelous results could be accomplished so quickly, I positively would not have believed it. Twelve months ago my hair, which then reached barely to my shoulders, was falling out at an alarming rate and growing very thin, actually ceasing to grow in several spots. It was dull and lifeless in color, turning grey in patches, and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried fully a dozen different hair tonics, but they were all the same and never did me a bit of good. One day I chanced to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well-known physician. It said that by taking ordinary Lavona de Compose and mixing with Bay Rum and Menthol Crystals and applying to the scalp each night with the finger tips that new hair would grow very rapidly. I decided to try it and I had my druggist mix 2 oz. of the Lavona de Compose with 6 oz. of Bay Rum and 12 dr. of Menthol Crystals, and started to use it. My hair quickly my hair did grow. First the hair stopped falling, the itching ceased and the dandruff disappeared. Then tiny little hairs appeared all over my scalp. These grew and grew as though nothing would ever stop them. They are growing yet, and while, of course, I have used the treatment steadily and expect to continue it, at least until my hair reaches the floor. I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using the prescription as I have recommended it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it. Those who use it should be careful not to get it on the face or where the hair is not desired."

What Constitutes the Perfect Hand

All women desire beautiful hands, but it is only one woman out of ten who really knows how the ideal hand should look.

Because of this lack of knowledge, many of my sex go calmly on their way, quite content with their hands, when, if they did but know it, they are far from being perfect. They are round, plump, and do not say that, in this connection, "big is best," as it is a sin against nature to own imperfect hands when in the majority of cases a little care would make them beautiful to behold.

I will tell you just what constitutes the perfect hand; then you will know where in your lack, and knowing, can remedy the matter.

The hand that can not be improved upon possesses a palm that is plump and soft as that adorn the tips of these perfect fingers is to be found in transparent "finely pink, with well-defined half-moons at their base."

What about the knuckles? They are covered with a layer of pink-and-white flesh and bedecked with alluring dimples.

Last, but not least, the wrist should be slender and prettily rounded, with not a bone showing.

Daily Hints For the Cook

CREAM PUFFS

Boil together 1 cup of water and 1/2 cup of butter. While boiling, add 1 cup of flour, stir fast until smooth, then cool. When cool, add 3 eggs, not beaten. Stir till smooth again, then drop on a pan far apart, about a tablespoon of batter to each cake. Bake in quiet oven about 30 minutes. When cool, cut open and fill with sweetened whipped cream, flavored with vanilla or the following cream:—One-half cup of sugar, 2 large teaspoons flour, 1 egg beaten light. Pour this into 1 cup of boiling milk and boil for three minutes, stirring all the time.

BAKED STUFFED APPLES.

Bake carefully 6 apples. Core and fill with sugar, allowing a scant 1/2 cup of sugar to this number of apples. Cover bottom of your baking dish with boiling water, to which add 2 teaspoons of lemon juice. Bake the apples in sauce in a hot oven, basting often. When cooked remove to dish and fill cores with apple jelly and pour over all any juice left from baking. Then sprinkle the whole with chopped nuts and serve with cream, whipped or plain.

The Solar Plexus a Great Nerve Centre

With the single exception of the brain itself, the solar plexus is the most important nerve centre in the human body.

Situated just back of the stomach and close to the spinal cord, the solar plexus supplies the nerves to the vital organs. Injury to or weakness of the solar plexus consequently means incapacity of the vital organs of the body. This explains why a blow which reaches the solar plexus means helplessness to the person receiving it.

These nerve centres all demand an enormous quantity of good, rich blood, and failing to get this, the nerve cells are starved and depleted, and fail to supply vital energy to the digestive and eliminating organs.

The wonderful success of Dr. Chase's Nerve Food in revitalizing and reconstructing the broken-down nervous system is due to the fact that it supplies nutrition to nerve cells through the medium of the blood stream.

Weakness of the stomach, failure of the liver and kidneys to filter the blood, inactivity of the bowels and feelings of fatigue and discouragement usually arise from an exhausted condition of the nervous system. The nerve centres, such as the solar plexus, have not the nerve force to work the machinery of the body.

The most natural treatment imaginable is Dr. Chase's Nerve Food, and its benefits are lasting, because it actually rebuilds the wasted and broken-down nerve cells.

GRAY FADED HAIR, OR BEAUTIFUL, DARK, ATTRACTIVE--CHOOSE, MADAM!

Says Sage Tea Mixed With Sulphur Restores Natural Color and Lustre

Gray, faded hair turned beautifully dark and lustrous almost overnight, is a reality, if you'll take the trouble to mix sage tea and sulphur, but what's the use, you get a large bottle of the ready-to-use tonic, called "Wyeth's Sage and Sulphur Hair Remedy" at drug stores here for about 50 cents. Millions of bottles of "Wyeth's" are sold annually, say a well-known druggist, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

You just dampen a sponge or soft brush with Wyeth's Sage and Sulphur and draw it through your hair, taking one small strand at a time. Those whose hair is turning gray, becoming faded, dry, straggly and thin have a surprise awaiting them, because after just one application the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff gone, scalp itching and falling hair stops.

This is the age of youth, gray-haired, unattractive folks aren't wanted around, so get busy with Sage and Sulphur tonight and you'll be amazed at your youthful appearance and the real beauty and healthy condition of your hair within a few days. Inquiry at drug stores here shows that they all sell lots of "Wyeth's Sage and Sulphur" and the folks using it are enthusiastic.

NEWBRO'S HERPICIDE SOLVES THE PROBLEM OF GOOD HAIR

After Prof. Sabouraud confirmed the germ origin of dandruff, science was confronted by a new problem which was not solved until the discovery of Newbro's Herpicide. Herpicide being the first successful preparation compounded in harmony with this new theory, "the original remedy to kill the dandruff germ."

Since then, numerous preparations, said to be "just as good" as Herpicide have been known upon the market; others have adopted Herpicide claims, and without making any change in their remedies, but none have ever reached the same degree of popularity. Everywhere this remedy is recognized as the one genuine dandruff eradicator. As a result, Herpicide has more satisfied users than all hair preparations combined.

Being the original remedy, users expect more astonishing results from Herpicide than they would look for from any other preparation and they usually get them. So wonderful has been the success of this germicide that it is now recognized as the standard hair remedy of the world.

Herpicide destroys the dandruff, checks falling hair. It stops itching of the scalp almost instantly.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications obtainable at the good barber shops. Insist on having real Herpicide. Send 10c in postage for sample and book. The Herpicide Co., Dept., R., Detroit, Mich.

LARGE INCREASE IN THE U. S. SHIPMENTS

North Shore Paper Sees Need of Thorough Communication With Neighboring Country (Campbellton Graphic.)

In order to place before our readers an idea of the enormous trade done with us in the north paper or paper or border.

The increasing export trade of Restigouche and Gloucester counties with the United States should inspire all our people to greater efforts in the development of our resources, the improvement of our highways and the bringing of the St. John and Restigouche rivers.

In 1912 the exportations from these two New Brunswick counties were valued at \$1,100,000, an increase of 10 per cent over those of 1911.

The shipments (1911) were made as follows:— Gloucester county, 922 car loads and 29 schooner and 18 steamer cargoes.

Restigouche county, 1317 car loads and 29 schooner and 18 steamer cargoes. This is to say, that the shipments increased 740 over the preceding year.

Since January 24 and up to April 16 there were 629 individual shipments from Restigouche and Gloucester against 250 in the corresponding period last year, a gain of 57.9 per cent.

The increasing export trade of Bonaventure and Gaspé continues and the deplorable conditions of transportation call most loudly upon the dominion authorities to construct a railway bridge across the Restigouche, between Campbellton and Mission Point, and take over the line to the C. N. R. system, and give it connection also with the Malouin road.

The St. John Log Driving Company is making good progress with the hanging of its booms. The ice-run is practically over and the work is not interfered with by ice except that piled along the shores.

YOUR COUNTRY FRIEND. When you go to See Him Carry Him Something He Cannot Get at Home

An Indianapolis man went to Madison, Ind., the other day on the train. John P. Patton, of the Veray Democrat, now registry clerk in the State House, who was in the seat behind, started a conversation which proved more entertaining than gazing at the landscape.

"I am going down to visit some friends in the country," said the Indianapolis man, "and it always puzzles me what to take so they will know I appreciate their invitations. I don't like to take anything that amounts to much, because I'm afraid it looks too much like paying them for their hospitality. They live several miles from any town, but they have everything they desire."

"I have had lots of friends in the country. Live pretty close to the country in fact, a good deal of my life. Now country people like to have the little things, say, the cat in line, that they can get only when they go to town. It has not yet been old enough to butcher, and your country friends are probably tired of chicken and smoked meat, on which they have been living all summer. But did you ever see a farmer that wasn't crazy about fish and oysters and such things? When I go to the country I take such things. And the smile that always greets me tells me how rightly I have guessed."

"But," argued the other, "how do I know that these people like such things?" "You can't go wrong," said Mr. Patton. "Take 'em and see if I'm right."

The Indianapolis man bought some fresh oysters when he got off the train, and when he opened the package the farmer grinned and said: "By jing, if there's anything Mary and I like it's oysters. And we haven't had any this year." His problem of gifts had been solved. Indianapolis News.

WHY NOT MARKET GARDENS?

Why is there not a flourishing colony of market gardeners in the immediate vicinity of this city? The conditions are favorable, both in the matter of soil and climate, and there is a good and growing market. No special effort has ever been made to develop this branch of work.

There is talk of some changes in the Borden government. If Mr. Borden would go to the country he would be relieved of all worry on that score.

It is announced that there will be an increase in the salaries of school teachers in Prince Edward Island, amounting in all to about 25 per cent. The people of the island province realize the importance of retaining the services of skilled teachers, and they know that in order to do so they must meet the competition of the western provinces, where higher salaries are paid.

It is now reported from Ottawa that the Nationalists may bolt on the closure bill. The government will of course use every means available to keep them in line, but may not succeed.

St. John is to be congratulated that seven of its citizens yesterday subscribed to the sum of \$10,000 for the benefit of an educational institution. The institute at Mount Allison has played a very important part in the educational development of the province, and deserves the enthusiastic support of the whole Methodist body in the three provinces.

The discussion of the housing question at a meeting under the auspices of the board of trade and the Canadian Club this evening ought to prove a turning point in connection with this important matter. It is necessary not only to arouse public interest, but to concentrate public attention upon the conditions, and bring about through a general committee or in some other way a survey of the city and if possible some practical scheme by which the demand for good houses to let at a rental within the reach of people of small income may be provided.

The announcement that the government of the United States is about to launch a plan for the promotion of world peace is one of the most significant that has been made for a long time. Mr. Bryan, the secretary of state, contemplates the negotiation of treaties between the United States and all other nations, providing for a temporary limitation of armament and war preparations, and the setting up of international machinery for arbitration of disputes before an appeal is made to the arbitration of war.

Jersey City has adopted the commission form of government. Votes were taken in four municipalities in New Jersey on one day recently, but three of them rejected the commission plan. Jersey City, however, is the second city in the state, and the nineteenth in point of population in the United States. A vote was taken on the same question in 1911, and the commission plan was defeated.

Wilson, while governor, came out as a strong advocate of the new plan. It appears that out of thirty-six municipalities that have voted on the question in the state, fourteen have decided in favor of the commission form. The working out of the experiment in Jersey City will be watched with much interest, particularly in the east, where the new system has not had the vogue which it has attained in the west.

BIRTHDAYS OF NOTABILITIES

TUESDAY, APRIL TWENTY-TWO The Rev. George Bryce, of Winnipeg, clergyman, scholar and author, was born at Mount Pleasant, Ont., on April 22, 1844. He went to Winnipeg in 1871 and has long been prominent in church and educational circles. He was for years on the faculty of Manitoba University.

The Hon. D. M. Eberts, speaker of the legislature of British Columbia, was born on April 22, 1859. He is one of the leaders of the bar in Victoria and has sat in the legislature for many years.

The Hon. C. A. McGrath, of Lethbridge, was also born on this date in the year 1869, at Augusta, Ont. He is a surveyor by profession and has long been associated with development work in the west. He sat for Lethbridge in the local house for several years and was a member of the Health administration. He has also represented Medicine Hat at Ottawa.

CANADIAN COLLIER'S ON THE BORDEN POLICY

Premier Not Candid—The Bluff About a "Temporary" Policy (Canadian Collier's) Surely Mr. R. L. Borden is not living up to the reputation for candor and blunt honesty which has hitherto been his when he says that the proposal to contribute \$35,000,000 to the British Admiralty funds is only a temporary policy. Such a statement on the part of the prime minister is dangerously misleading. A great many people in this country might be led into supporting this policy in the belief that they are merely helping England out of a difficult position, and that the giving of his money would amount to nothing more than a gift such as John Jones might make to his father in order to help the old man meet some heavy draft on his resources. But, as a matter of fact, the giving of the \$35,000,000 in the manner proposed by the premier is really the first step in a permanent policy of centralization.

Mr. Winston Churchill already makes it clear that Canada's three ships would become part of an "imperial squadron" governed, we know not how. The Borden policy of contribution has only one logical object in view, and that is the centralizing of the whole empire and the creation some day of an imperial parliament or some other sort of machinery for governing the whole empire. Personally we do not believe that an imperial parliament is desirable. We feel that any attempt to bind the parts of the empire within one political fabric will not only fail, but will ruin the empire in its failure. However, our criticism of Mr. Borden is not based upon what may be our opinion of centralization, but upon the fact that he advances as a temporary policy what is obviously the beginning of a permanent policy.

Once committed to this "temporary policy" of Mr. Borden's, we shall never be able to go back upon it without creating hard feeling between ourselves and the mother country, or between ourselves and other parts of the empire. To carry through this proposed policy now means that Mr. Borden commits Canada to a most serious course. He is practically taking upon his own shoulders the responsibility for deciding what is probably the gravest matter that ever confronted the Dominion of Canada. If he carries

it through without having the explicit endorsement of the Canadian people, he shall have done us an injury. We are inclined to think that Mr. Borden is not so much deceiving us as deceiving himself. It would be much wiser and more statesmanlike were he to call his policy a permanent policy, and then look at it with clarified vision.

Positively intended for the market should be plucked, unless the market demands otherwise as plucked fowls are generally more salable than those unplucked. They should not be given any food for a period of at least 24 hours before being slaughtered, in order that the crop and intestines may be emptied. They should be given a small quantity of water just before they are slaughtered.

FATALITY IN TRAIN WRECK NEAR CAMPBELLTON

Dalhousie, N. B., April 21—A railway accident with fatal results occurred four miles below Campbellton today, when the Dalhousie branch train, on its usual Monday trip to Campbellton, ran off the track into the ditch, causing the death of Fireman James Jamieson and injuring two passengers, J. A. Laplante, buyer for A. & R. Loggie, Dalhousie, and W. D. Duncan, of Campbellton. Jamieson's death under such circumstances has cast a gloom on the town, as he was one of its best citizens and great sympathy is felt for his wife and growing family of six girls and two boys, one of the girls being employed as stenographer with the St. John Iron Works Company. He was fifty-five years of age, was once alderman here and took a prominent part in temperance circles. While the passengers were being removed, the train crew were busy endeavoring to extricate Jamieson, the fireman, who was pinned underneath the engine with his legs broken and it was feared internal injuries. He was removed to a neighboring house, where the medical men, who had been hurried to the scene, did all in their power for him, but he died about 3 o'clock without regaining consciousness. Engineer Scott escaped with but a slight shaking up, the conductor being unharmed and the brakeman receiving a slight bruise on the shoulder. The average man takes five and a half pounds of food and drink each day, which amounts to nearly one ton of solid and liquid nourishment annually.

FIFTY YEARS TEACHER

SHEA IS ACCORDED ROUSING WELCOME

is at Opera House With Strong Company and Opens With Marked Success

Just as he said last evening in a certain speech to which he was forced to respond after several encores accorded the climax of the third act in the drama, "A Man and His Wife," twenty years is a lengthy period in the life of an actor, and the fact that after that duration of time Thomas E. Shea has returned to St. John and been given such a hearty and enthusiastic reception, as was betokened upon his last night, speaks volumes for his popularity on former visits.

The Opera House was filled last evening and Mr. Shea and his capable company were well received in the play of which he is co-author, sharing honors with Samuel Shipman. It is a powerful drama of modern finance, life in "high society" circles, and gives Mr. Shea, particularly, but others of the company as well, opportunity to display his marked ability as an actor of sterling qualities, although it seems somewhat strange to witness him in the more or less staid role of a New York banker after his wonderful portrayals as Jekyll, Hyde, Richeieu, Mathias, and many other characters which have won him laurels.

The large audience last evening took very kindly to his newest play. They followed the thread of the story with appreciative interest, enjoyed the refreshing vein of comedy, and more especially took pleasure in the several farcical scenes in which the leading members of the cast held sway. It is the story of strained relations between husband and wife, the coming of the serpent to destroy the sanctity of the household, his plotting for the bankruptcy of the husband and the final scenes of triumph for the latter and restoration with his beloved.

But even though the drama may sound familiar, the portrayal is superior, for such a well-balanced company is seldom seen on local stages. Each scene was well handled and each part capably enacted. Curtain calls were numerous, but the most persistent was after the third act following a particularly dramatic banking-house scene while a run on the bank is in progress, and the audience were not satisfied until Mr. Shea had come before the curtain.

He made a brief, but pleasing speech. He expressed his hearty gratitude for the cordial reception, and spoke of the pleasure it gave him to again visit St. John after an absence of twelve years. He said he had always remembered his former visits here with pleasure, and now he appreciated being able to again renew acquaintance.

Mr. Shea last evening bore the brunt of the work and showed his capability in the stronger scenes, although equally at ease in the lighter demands. His scenes with his wife were tender and appealing; his playing with his rival in business and the man who was trying to rob him of his wife, was forceful and commanding, while as the banker in his office he was seen in the height of action directing the forces of his energy while all Wall street seemed against him. His best scene was towards the climax of the second act when he displayed wonderful ability, the anguished husband, heart-broken at having lost in the game of love and facing failure in the gambles of finance.

Miss Charlotte Burkett was well cast as his wife, and her emotional scenes were her strongest point. She has a good stage appearance and played her part cleverly. Mark Fenton, as the "heavy" of the company, had a distasteful role, but impressed the audience as an actor of merit, playing opposite to Mr. Shea in a manner most commendable and deserving of praise. Mr. Amory was pleasing as an old man character, and with Mr. Nichols and Mr. Cassidy added much to the humor of the piece. Miss Pearl Ford was most welcome in the ingenue role of Elizabeth Baker, and with Mr. News, Mr. Beach and Mr. Stamford, added to the success of the production. One of the biggest hits of the evening was scored by Wm. Dickerman in his portrayal of the role of Jim Mendall, a "Dove" Easter, who, though he appeared only for a short time in the last act, created roars of merriment.

Montreal, April 22.—The Gazette says: Such declines as were recorded in the local stock market yesterday were largely in stocks which have had fair advances in the last week or so, principally Toronto Railway and Textile. Cottons 1 1/2, which set in before the recent municipal vote. Cement held fairly steady on last week's rise, and C. P. R. after its slight decline in the closing days of last week, practically made up all the lost ground. The undertone of the market remained decidedly optimistic despite the absence of the visible improvement in the monetary situation.

Directors of the Montreal Light, Heat, and Power Co. met at noon yesterday and declared the regular dividend of 2 1/4 per cent for the quarter ending April 30. It will be payable on May 15.

The interesting feature with regard to the dividend just declared is that it is probably the last at the 9 per cent per annum rate. It is accepted as virtually settled that the company will reduce the rate to 8 per cent, or a year after the increase from 8 to 9 per cent per annum will be made.

The annual statement of the National Brick Co. submitted to the shareholders yesterday morning, was in line with recent estimates, net profits available for dividends amounting to 12 1/4 per cent on the common stock.

Wall Street Notes.
New York, April 22.—The United States Steel Corporation at its annual meeting in Hoboken, N. J., today re-elected the following directors, whose terms had expired: George W. Perkins, Alfred C. Hunt, Elbert H. Gary, J. P. Morgan and Henry Phlips.

Fireman's arbitration board to announce its award tomorrow. New committee conducting the arbitration, James A. O'Connell, and have their first conference with railroads over wage demands.

Its plan is to let any stockholder of fewer than 1,000 shares of Union Pacific subscribe to the new issue.

Court holds that White Star line cannot limit its liabilities for damages in the Titanic disaster.

As to stocks, the Balkan was all to practical purposes over and with the expense of the people who were formulating trouble between Germany and France, it looks like a political calm in Europe for some time.

Developments in the grain market, after a night's trading, look better, but being very large, higher prices look probable.

There is a general feeling of optimism in the market, and the buying in the active stocks are upward.

SURVEYING-LINE FROM LOCH LOMOND ROAD TO ROTHESAY HIGHWAY

Suburban Company Doing Work so as to be Ready For Future

The Saint John Suburban Railway is surveying a route for a line connecting the Rothessay and Loch Lomond Roads.

When asked about the route this morning a director of the company said that while their men were in the field they were securing the additional information, but that construction of a connecting line between the roads was not included in their plans for the present.

The marriage of Miss Thaw, daughter of Mrs. William Thaw, of Pittsburgh, to the East of Yarmouth, was of international interest. After two and a half years of married life, the couple had their first child, a son, named George.

ROYAL BAKING POWDER CO., NEW YORK

SAYS PIRATE TALE IS UNPLEASANT FICTION
Watchman on Manchester Shipper Gives Halifax Story a New Reading

The thrilling story of piracy on board the steamer Manchester Shipper at Halifax which was telegraphed to the St. John papers is contradicted by John Patrick Spring, A.B., the night watchman on board the steamer, who has another version of the affair, of almost equal interest, which he related to a 'Times' reporter this morning.

On the night in question, he says, he was on board and around the deck as usual and saw everybody who came on board. The chief steward, with some others, came on about 11:30, and about 12:30 in the morning the steward came to the watchman, who was in the galley, and asked him for a blanket to use in making a drink from a bottle which he had with him. A few minutes later the third officer came on board and went to his cabin. The next arrival was the lamp trimmer who also came into the galley. He was taken aside by the steward who told him that the third officer was down in the hold bracing the cargo. The lamp trimmer and the watchman started to investigate and the former descended into the hold. In the meantime the captain was told of the hold and planned their work for the forenoon. Four teams started out under the leadership of H. A. Powell, W. B. Tennant, E. R. Maclean and W. S. Allison. The members divided into pairs, each taking a section of the city or a lot of houses. This evening the workers will meet for supper in Centenary church.

Those members of the committee seen during the forenoon meeting, the campaign was going excellently, and that they anticipated securing the full amount of \$30,000 appropriation for the job. They urged that all of those upon whom the committee would call should have the matter settled in their own minds and be prepared to give their subscriptions at once, so that a second call might not be necessary. The intention to close the canvass tomorrow evening, and as there are a great many to see it will be almost impossible for the workers to visit anyone more than once.

In addition to the subscriptions announced elsewhere, \$200 has been promised by Rev. J. L. Dawson, making a total of \$19,200.

CONDENSED DESPATCHES
Montreal April 22.—Day and night shifts continue work to finish the big excavation and levee work at the Lachine Canal opposite the Wellington Bridge so that the canal may be opened for navigation when the season commences.

New Haven Conn. April 22.—Sir William Osler delivered the first of five Silliman lectures on "The evolution of modern medicine" at Yale yesterday.

Chicago, April 22.—Chif Gordon, a comedian known as "The German Senator," and author of several plays, was found dead in his hotel room last night.

BURIED TODAY
The funeral of Mrs. Elizabeth A. Murphy took place this afternoon at 2:30 o'clock from her late residence, 197 Bonaventure street, and was attended by many friends and acquaintances of Mrs. Murphy and her family. The funeral services were conducted at the house by Rev. Henry Pierce, at 2:15 o'clock and interment was in Fernhill. A large number of floral tributes were received, including a cross from Mr. and Mrs. C. H. Gibbon, present from Mrs. J. Herbert Crockett, houses from William Crockett, and cut flowers from Arthur Walker.

The funeral of Mrs. William G. Flowers was held this afternoon at 3:15 o'clock from St. George's church, West End, Rev. W. S. Porter conducted the services and interment was in Fernhill.

The funeral of Mrs. Mary Stanley took place this afternoon at 2:30 o'clock from St. George's church, West End, Rev. W. S. Porter conducted the services at the house and interment was in Cedar Hill.

The funeral of Mrs. Alice M. McKee was held this afternoon at 3:15 o'clock from St. George's church, West End, Rev. W. S. Porter conducted the services at the house and interment was in Cedar Hill.

An agitation is on amongst the people living about the upper part of Millford to have the street car lines extended there at least as far as St. Isaac's church. A petition is now being arranged and after being signed by the residents, will be presented to the company to see if some action will be taken.

THE SECRET
All true success is the outcome of real personal interest and genuine endeavor. You may be designing a battleship or you may be thinking out a bright idea for a 15 cent toy, controlling a commission or puzzling and experimenting with fruits and spices in order to perfect a new recipe for the home table, but the real road to success is just the same in one case as in each of the others. It is not what you are doing, but how you are doing your work that really counts. You cannot know, unless it were told you, how much personal interest was thrown into the manufacture of H. P. Sauce before its name began to be a household word. The manufacturers—the largest firm of manufacturers in the world—were determining upon producing a sauce that should touch perfection and so make a name for itself and bring success to the makers.

The Midland Vinegar Company of England are proud of their H. P. Sauce, proud of the reputation it has earned of being the richest, most pleasant, fruit sauce obtainable. Choicest Oriental fruits and spices and purest malt vinegar are the constituent parts of this sauce—but the manner of blending, the "knack" of fermenting so many different flavors into one delicious whole—that is the secret of H. P. You had better test it for yourself, it's easy. Grocers over here are already selling it freely.

McGraw's Review of the Big Leagues

By JOHN J. MCGRAW, Manager of the Champion Giants

(Continued from Monday)

The competition in the American League will be keen this year and undoubtedly confined to three teams—Boston, the Athletics, and Washington. My club has met both the Boston and Philadelphia teams in world's series in the past two years, and the Washington boys have been the opponents of the Giants on the two spring training trips. Therefore, I have a pretty accurate line on all three.

Of this trio, the Athletics have the greatest natural strength, and they have been showing it this year from the very start. Over-confidence kept the team out of the final weeks of the race last year. Injuries helped to reduce the efficiency of the club, it is true, but it was mostly the over-confidence which ate into its heart.

That was my own experience once, back in 1906. But "Connie" Mack and his men realize that they must hustle this year, and they have started out with that end in view. The Philadelphia club looks to me to be stronger than it was last season. The infield is unimpaired with McInnis, Collins, Barry, and Baker. This is a good collection of players and absorbs the attention of the keen observer for a few minutes. They are all hard hitters and very fast.

The outfield and pitching staff east of "Connie" Mack the pennant last year. The writers crashed in, "Eddie" Plank, the veteran southpaw, who is as old, baselily speaking, as Mathewson, being the only support which stood. Bender, the Indian, failed to keep in condition, according to Mack, himself, and Coombs was handicapped all season by a strain which he received in the world's series of 1911 while playing against the Giants. Oldring had a bad year in the outfield, and "Danny" Murphy contracted water on the knee, which kept him out of the game practically all summer. Mack is holding up his outfield by the addition of some new and promising talent, and the promise of a bonus to Oldring if he has a good year, so I am told. Bender is also one of those bonus players. He is to receive an extra bit if he can keep going along at a good and steady pace. Coombs is as strong as ever, and Plank acts as if he would retire along at the same rate he went in 1912, which was the best of any of the pitchers on the club.

Mack is a great man to give his players bonuses for a good year. He finds that the system works out very well. When a man asks him for more money in the winter, he attaches a bonus clause to the contract as an inspiration instead of giving a flat raise. At this writing, the Athletics are the only club in the American League. The apparent return to form of Mack's veteran trio of pitchers, besides the addition of a few young men who give promise, will strengthen the weakest link of last year.

The Boston American League club is a great team, but it had all the runs back in the race last year. It travelled through the season practically without an injured regular. The outfield is the strongest feature of Stall's machine, and the pitching staff falls in line next. Wood is a wonder, but he is not liable to enjoy as good a season this summer as he did last year. He pitched phenomenal and sensational ball then. Still, he will be one of the stars of the game. Bedient should be an improvement over the form he showed last season throughout the run of the race, since he was only a kid then. I liked the work of Bedient, cool and calculating, in the league. It does not strike me that Clarke, Griffith has quite the chance for the pennant of the other two contenders.

The new managers in the National League will be the subject of my article next week after I have had a chance to get a longer look at their showing and draw some conclusions on their ability.

With the exception of Walter Johnson and Milan, Washington does not possess the stars of either the Boston or Philadelphia clubs, but the team is carefully welded together and is always hustling. It is more of a unit club than the Boston team and plays closer together and better inside ball, I think. With Johnson in the box, there should not be a better club in the league. It does not strike me that Clarke, Griffith has quite the chance for the pennant of the other two contenders.

SOME TALK OF STEAMSHIP LINE FOR G. T. P. RAILWAY

Edmonton, Alta., April 22.—That the Grand Trunk Pacific Railway Company may establish a line of steamships between their terminals at Pacific coast ports and ports in Great Britain and other points in Europe in connection with opening up of their transcontinental road is being gathered from an interview given here by Mr. Dalrymple, the vice-president. He said the matter was under consideration, but no conclusion had been reached.

UNDERTAKERS TO HOLD MEETING WHILE ON SEA TRIP

Spokane, Wash., April 22.—Funeral directors of Washington and Oregon plan to hold their annual convention this year on the briny deep, while sailing over the waters off the coast of Alaska. Alex. Turnbull, of Spokane, secretary of the Washington Funeral Directors' Association, is communicating with all undertakers of the Pacific Northwest in an effort to charter the steamship State of California for an all-day cruise among the Alaskan islands, stopping at Prince Rupert, Juneau, Skagway, Douglas, Sitka and other points. It is planned to leave Seattle on July 6. During the ocean voyage the business of the annual meeting will be transacted.

Time Not Far Off When Yankee Ball Teams Will Play in France

By TOM ANDREWS

When Dick Klegin, a Yankee boxing promoter and manager and also a baseball booster, announced some time ago that the day was not far distant when baseball tournaments would be arranged between the best teams in the states and those of France, many laughed at him.

Nevertheless, I believe the time is coming and within the next ten years when the dream of Dick will be realized, judging from the feeling of many French sporting men regarding the project. They seem imbued with the idea that baseball is a great game for developing the young men, and that is what they seek at present—the development of their youths.

A wise baseball man like John Rawnes, who at one time owned the Minneapolis club, and who was later connected with the game on the Pacific coast, stated recently in a letter to the writer that he might become interested in the project himself, as he felt certain the game would be successful in France. This is in line with what Klegin has been preaching.

That the Frenchmen are not allowing the matter to die out is shown by the following item that appeared in one of the Paris dailies on March 24, and which I received the other day: "A large and enthusiastic meeting has been held in Paris to consider the promotion of the American amateur game of baseball through France. A baseball diamond is being laid out at Colombes by an expert from America, Val Floyd, and others are being constructed at Maisons LaFite, and "ball" is now being played at Bagatelle."

By this it will be seen that baseball is becoming a reality in the French metropolis and it will not be surprising to hear of international games being played there in the near future. One of the game gets a foothold in the European countries it is a good bet that it will become almost as popular as here, and then it will be that our British cousins will take it up along with their national pastime of cricket.

LIKES TO HAVE IT. At a penny savings bank for children run in connection with a Sunday school, a little boy attended one Saturday morning, and with an important air, withdrew a penny from his account. On the Monday morning following, however, he returned the money.

"So you didn't spend your penny?" observed the committee-man in charge. "Oh, no," he replied; "but a fellow just likes to have a little cash in hand over Sunday!"

LOCAL NEWS

MARINE NOTE.
Schooner Lady of Avon, Captain Steele, from Gulfport, was reported at Hamilton, Bermuda, last night.

TO SAY FAREWELL.
In the Ludlow street Baptist church this evening, the members of the congregation will have a farewell gathering for Mr. and Mrs. Kempton Gyles and their daughter, Miss Evelyn, who have been spending the winter months in the West End and who will return to their home in Port Williams, N. S., on Thursday next.

YOUNG PEOPLE'S MEETING.
A combined meeting of the young people of Ludlow street and Brussels street Baptist churches was held in the Brussels street church last evening and a very enjoyable time was spent. Miss Willis, the president of the Young People's Society presided. Solos were very nicely rendered by Miss Kierstead, Miss Stimers and Albert Belding. Rev. W. R. Robinson gave a short address on temperance. After the programme was completed refreshments were served.

DEATH OF MRS. MARY CORBIN.
Mrs. Mary Corbin, wife of Richard Corbin of Willow Grove, died at her home yesterday. She was born in Willow Grove more than ninety years ago and had lived there all her life. She had been failing in health for about a year. Besides her husband, who is nearly 100 years old, she is survived by two sons and one daughter. The sons are Alfred and John, both of this city. The daughter is Miss Rachel, at home. Mrs. Corbin was well known both in the vicinity of her home and in the city.

HEARD BY CROWDED HOUSE.
Every seat was filled in St. Andrew's church school room last evening to hear Mrs. E. A. Smith's lecture, "Through Canada with a Camera," which was delivered in aid of the flower guild fund. In the absence of the chairman, John D. Magee presided. This is the first of Mrs. Smith's best lectures, being filled with valuable information concerning Canada, presented in a most attractive way. She was heard with intense interest, and at the close a very hearty vote of thanks was tendered on motion of John H. McRobbie, seconded by D. R. Kelly.

MISS MURRAY'S CLASSES.
Miss Murray, the playground instructor, is getting along very well with her work. Eighteen ladies are taking the course of instruction for playground teachers, and there are also classes in grammar school girls and employed girls, and on all these occasions the assembly room of the high school is being put to a valuable use. The Amherst committee has consented to allow Miss Murray to remain until the 15th of May. It is hoped that a much larger number of employed girls will take advantage of the classes on Monday and Thursday evenings during the remainder of the period, and also that members of the Playgrounds Association, and especially its executive will heartily support Miss Murray in her work.

THE POLICE COURT

In the police court this morning, the case of a foreigner, from whom the police were unable to get any information as to his name or nationality, came up. He was arrested yesterday afternoon by I. C. R. Policeman Smith on charge of trespassing on L. C. R. property and stealing coal. The policeman told of seeing the defendant in the yards on last Friday with a wheelbarrow and again yesterday with a bag, picking up coal, and he placed him under arrest. During the hearing the prisoner stood like a statue, evidently ignorant of all that was going on before him. When the witness had finished his evidence, Magistrate Ritchie said: "Get down" and the man promptly turned around and made his way to the prisoners' bench, causing a ripple of laughter to run through the court room. He was then remanded.

Thomas Conboy, arrested yesterday on a warrant charging him with assault on Gladstone Johnstone, colored, pleaded not guilty and as the complainant did not appear in court to press the charge, the defendant was allowed to go. Another man, William Barrett, also named in the warrant in connection with the assault, but who could not be identified by the police appeared in court and denied having anything to do with the assault and was allowed to go.

Carlo Alto, charged with assaulting Charles Anderson on Rodney wharf, was remanded.

William Clever and Arthur Walsh, two article seamen from the steamer Kumara, were called upon to answer the charge of leaving the ship on Saturday and Monday without permission. They both pleaded not guilty. George Davidson, first officer, told of the sailors leaving without authority. The men were sent to jail until the steamer is ready to sail, which will probably be the last of the week.

James Davis, who has recently been in the Municipal Home was arrested last night and was charged this morning with being a common vagrant. He was remanded to jail.

One man was fined \$8 or thirty days in jail for drunkenness and \$16 or two months for resisting the police; another \$12 for being drunk and profane and another was fined \$8 or 30 days for drunkenness and one was remanded on a like charge.

WED AT CLIFTON

Miss Muriel Wetmore is Bride of J. F. H. Teed Today

A ceremony of great interest to their numerous friends took place this afternoon at three o'clock in the village church at Clifton, Kings County, when John Francis Hanington Teed, B. A., B. C. L., barrister-at-law, eldest son of M. G. Teed, K. C. of this city, was united in marriage to Miss Muriel Wetmore, daughter of Mr. and Mrs. A. K. Wetmore of Clifton. The ceremony was performed by Rev. A. Sherry of Stanley, a former class mate of Mr. Teed, in the presence of a large number of relatives.

The bride, who was beautifully gowned in white satin, with bridal veil and bouquet of orange blossoms, was attended by little Miss Mildred Flewelling, as flower girl, the latter clad in white and carrying a large basket of flowers. Philip Palmer, formerly of Dorchester and now of Winnipeg, and Mr. Wetmore, brother of the bride acted as ushers.

After a wedding supper at the home of the bride's parents the wedding party will return to St. John and Mr. and Mrs. Teed will leave for an extended trip. On their return they will reside at Renforth for the summer.

The presents were numerous and handsome, including many pieces of cut glass and silver. The present from the bridegroom's father was substantial check. The bridegroom's present to the bride was a beautiful diamond bracelet.

Mrs. Margaret Black Journeys Home From Portland — Her Birthday Celebration

A recent issue of the Sunday Telegram, of Portland, Me., contains an account of interest to many friends in this city, who are the subject of the article, Mrs. Margaret J. Black. It is well known particularly about the North End. It is written following her birthday when she reached the 86th milestone in her journey through life, and it gave an interesting description of her stay in Westbrook, Me., where she was residing with her daughter, Mrs. James A. Scribner. Her picture is published, together with a group picture showing herself and two sisters, children, and grandchildren. This picture was taken in North End some months ago at the home of her daughter, Mrs. J. O. Wilson, in Kennedy street, and the latter is in the picture along with G. T. Black, of Main street, son of the venerable lady.

The Telegram says that on the occasion of her birthday she was the guest of honor at a reception given for her, and she received many nice gifts. She received 234 postal cards, the largest number the letter carrier in Westbrook had ever delivered at one house. She has a distinct dislike to houses, and as evidence of this and of her domestic activities, the paper says that during the last few months she has made the patchwork of twelve quilts, assisted in tacking sixteen quilts, footed four pairs of men's socks and knid one pair, in addition to making her own bed each day and caring for her own room. Her many friends in St. John are pleased to learn of her continued good health, and were particularly pleased to see herself, for she arrived here last night to visit members of her family for the summer. She stood the journey with the vitality of one much her junior.

HAD A GOOD TIME AND PRESENTED A NICE PURSE TO MR. TIGHE

Marine Warehouse Checkers Union in Enjoyable Reunion in Keith's

The members of the Marine Warehouse Checkers' Union report a fine time last evening in Keith's Assembly room at a banquet and dance which they conducted with much success. There were about 100 in attendance, and all present enjoyed themselves thoroughly. J. Moore, president of the union, occupied the chair and made a graceful speech of welcome, and during the evening he presented to John Tighe, district organizer for the international union, a purse of gold, on behalf of those present, in appreciation of his services in behalf of the union.

Addresses were also given by W. F. Hatheway, James Suggs, chairman of the trades and labor council; W. J. Frazell, Ernest Taylor, Wm. Nichols, Mr. Tighe, and others. After the banquet, at which an excellent meal was provided by the Musee Ward as caterers, a pleasant time was spent in dancing. Music was provided by the Nickel orchestra. The committee in charge was composed of J. Moore, J. T. Haley, G. McCarthy, Wm. Irons, C. Allan, G. Bettles, C. Haley, J. Fitzgerald, T. Lee, H. Steins, L. Gallagher, S. Maxwell, W. McGowan, and S. Speight.

EGGS STILL CHEAPER

The fine weather is steadily forcing the price of eggs downward. The local dealers are reported buying at seventeenth and eighteen cents, and one who has been in the business for more than twenty years said this morning that he could not remember at any time when they were so low at this season of the year. The market in P. E. Island is also reported much easier and the quotation is given as being between cents. The price on the local market at this time of year has seldom been lower than twenty-five cents.

SYNOD COMMITTEE

Anglican clergymen are in the city today and the committee meetings of the Synod which are being held in the C. of E. Institute in German street. The committee on church manual convened yesterday, while this morning the committee on finance and church literature held their sessions. One of the most important meetings will be that of the mission work committee which will take place tonight and at which reports from the various parishes as well as upon mission work in general will be presented.

Why Our Men's \$25.00 Suits are as Good as the Suits Sold Elsewhere at \$30.00 and \$35.00

It's a question of profit—that's all. When you buy from us you buy directly of the makers and you pay only one profit over the cost of production.

When you buy elsewhere you pay two profits—the manufacturers and the retailers.

It is this combination of profit—the manufacturers plus the retailers—which makes the excess cost to the consumer.

This is why you pay \$5 to \$10 more in other stores for the suits you can buy at Oak Hall for \$25.

Why not save this extra \$5 or \$10.

Investigation will prove that in fabrics, in tailoring, in style and in general excellence our Suits are absolutely unsurpassed.

And we safeguard your purchasers here with this broad guarantee:

If anything isn't exactly as we represent it, or if it isn't exactly what you expect, don't keep it—you may have your money back on request.

Couldn't get fairer treatment than this, could you?

The same advantage applies to our entire line of clothing, which includes
