THE DUTIES ON FISH

Higher Than Under the McKinlev or the Present Law.

If Adopted Will Seriously Affect Trade in Provincial Fish.

Salmon, Herring, Mackerel, Dry Fish, etc., Doubled up on the New List.

Should the duties on fish be adopted by the U. S. congress as they are set forth in the Dingley bill, the result will be injurious to the fishing interests of these provinces. The following is a comparison of the proposed new tariff with the present law and the McKinley law:

THE LUMBER TRADE

Increase in Value of Lands—More Small Operators—A Lumberman's View.

The Sun recently pointed out that the rise in lumber in the last year or two and the advent of the portable mill had increased the value of timber land in this province, notably of small tracts heretofore regarded as inaccessible. Discussing this question a gentleman interested in the lumber business in the provinces said to a Sun man a day or two since.

There are a few years ago lumbering was chiefly carried on by comparatively few large operators, there are today a very large number of small as well as the large operators. Formerly if a farmer had a small amount of lumber on his property and wished to dispose of it he was at the mercy of the nearest lumber merchant. Now this has all changed. The portable mill has come on the scene. Instead of disposing of his lumber at a small price...

THE INDIAN MUTINY.

An Interesting Lecture by Rev. J. deSoyres on the 17th.

Many Facts Recalled in Connection With the Indian Mutiny.

A lecture was delivered at St. John's church school house on the 17th by the rector (Rev. J. de Soyres) on behalf of the Indian famine fund, which is about to be shortly closed. Judge Wedderburn presided, and there was a large attendance. The chairman opened the meeting by referring in eloquent terms to the memories, not yet extinct, of the great tragedy of the Indian famine. He felt the appeal on behalf of the famine fund should find access to all hearts, and especially in our city. St. John had known that it was to have been, and he was glad that it was generally recognized, and now it was our turn, under different conditions, to extend a helping hand to the distant land where claims on us were so well founded and the need so deplorable.

The lecturer explained his selection of the subject as one too generally cognate to the object of appeal, but of deep interest to all inhabitants of our great empire. It belonged to that time which had been rightly called the difficult period of national history, when the things came of the horrors of Cawnpore, Nana Sahib and Tantia Topi were names of dread then. And the great events of that fateful period contained more than the record of revolt, massacre, and rebellion. They were recorded in the most important lessons of our eastern government, learned at terrible cost; they told us of deeds of ferocity and endurance not paralleled in any nation or any time; they preserved for us the memory of heroes who rose to the great exigencies of a crisis, and who had left themselves an imperishable monument in the present imperial state.

After a brief sketch of the rise of the East India Company, some account was given of the state of affairs which Lord Dalhousie ended his eventful viceregency in 1858, and gave place to his successor, Lord Canning. To the superficial eye, and even to the eyes of trained eastern officials, it seemed prosperous and peaceful. "India is quiet throughout," was the declaration of a leading article in the Bombay Gazette, on the first of May, only ten days before the mutiny at Meerut started the world from its security.

The politicians of that day could see no deeper than the alleged grievance of the cartridges, supposed to be lubricated with animal fat. Far deeper lay the seed of animosity and revolt. The annexations of Lord Dalhousie, and especially that most recent of the great kingdom of Oudh, had filled the whole native world with a sense of intense burning grievance, which had ready precedence to the rumors of further encroachment upon national and religious rites. The agency of the mysterious "chapatias" (small cakes of unleavened bread) passed from hand to hand, until the direction of the famous Maulana, the arch-movet, in the revolt, was only realized later. Then, indeed, the question of the greased cartridges assumed a dangerous aspect. Here and there regiments declined to receive the new arms. The first outbreak was at Meerut, where the men of his regiment to mutiny, and wounded the officer who approached him. The troops remained passive, with the exception of one brave Sepoy, who left the ranks to protect his officer. General Halsey's appearance and nerve prevented the imminent mutiny, but only transferred the opening of the tragedy to another city. The complete mutiny at Meerut (Mirath) in May, with the accompanying massacre of the English, disclosed the nature of the crisis to all; and General Hewitt's inaction suffered the mutiny to escape to Delhi, and take possession of the imperial city.

Regiment after regiment in all parts of northern India rose in mutiny; there was panic in Calcutta itself; the admirable fidelity of great native rulers like Scindia, preserved Hindostan itself, but the great struggle was confined. From Delhi to Allahabad and southwest to Jhans composed all the scene of the more critical combats.

The lecturer described the different episodes in the history of the mutiny, pointing out the first successes of the revolted Sepoys, culminating in the hideous massacre at Cawnpore (July, 1857). Then the capture of Delhi, marking the turn of the tide, and the wonderful campaign of Havelock, ending in the first relief of Lucknow, and followed too soon afterwards by the death of the Christian hero. Then the final capture of Lucknow by Sir Colin Campbell in March, 1858; and finally the brilliant campaign of Sir Hugh Rose in Gwalior. After this only a spasmodic resistance was offered, and with the Queen's proclamation on the 1st of November, 1858, the mutiny might be considered at an end, although Tantia Topi held out for some months, and the Nana himself escaped to the fastnesses of Nepal.

Many incidents were related proving the heroism and endurance of the civilian population, under circumstances of the most terrible nature. It was pointed out that these things were to be remembered at the time when it was the fashion to paint Anglo-Indian society as essentially frivolous and immoral. Probably if Rudyard Kipling had been born in the mutiny and had experienced some of the trials, he would have learned to depict other and nobler types than the Gadabys and Hawkbees. The lecturer, in conclusion, dwelt upon the vast and solemn responsibilities accruing to us through the possession of this mighty territory, with its varieties of race, language, custom, and religion. If there was still a memory left of the sufferings of the mutiny, it should incline us to a generous repayment in our dealings with races which, although they were not the authors of the mutiny, were the victims of national childhood.

This was only one out of a long series of famines, and in every case the English nation had nobly accepted its responsibility, and in every case generosity but the performance of a real duty. He trusted that, as the fund would very shortly be closed, every citizen would contribute something to an offering which, in the purest and completest sense, embodied the assurance of peace and the expression of good will.

A vote of thanks was proposed to Judge Wedderburn by Col. Armstrong, seconded by Mr. Emerson. The collection realized \$105.00.

BRITISH BUTTER MAKING RULES. Simple rules for butter making have been issued in a revised form by the Royal Agricultural Society of England, and are printed as follows in our English contemporary: they are put in the following forcible manner: Prepare the churn, butter works, wooden hands and sieve as follows: (1) rise with cold water; (2) scald with boiling water; (3) rub thoroughly with salt; (4) rise with cold water.

Always use a correct thermometer, the cream when in the churn to be at a temperature of 66 to 68 degrees in summer and 60 to 62 in winter. The churn should never be more than half full. Churn at number of revolutions suggested by maker of churn. If manual, churn at least 100 revolutions per minute. Always churn slowly at first.

Wash the churn freely and frequently during churning until no air rushes out when the vent is opened. Stop churning immediately the butter comes. This can be ascertained by sound. Do not look. The butter should be like grains of mustard seed. Pour in a small quantity of cold water (one pint water to two quarts cream) to harden the grains and stir for five minutes to the churn, gently. Draw off the whey into a tub. Roll butter out on work fully till all surplus moisture is pressed out.

To dry salt butter place butter on work, let it drain 10 to 15 minutes, then work gently till all the butter salt is together. Place it on the scales and weigh. Then wash salt. For slight salting, one-fourth ounce heavy salting, three-fourths ounce to the pound of butter. Roll butter out on work and carefully sprinkle it over the surface, a little at a time; roll up and repeat till all the salt is used. Moisture is N. B.—Never touch the butter with your hands.

QUEEN'S CO. Olinville, March 10.—Last Monday morning the community was deeply moved with sympathy towards two children (one a boy about 12 years old, the other a girl nearly three years old), when it became known that their mother and their sister had both died of pneumonia. The boy and girl had been before. The mother, Mrs. John Lowery, was thirty-five years old. Her daughter, Miss Alice Lowery, was only sixteen years and six months. Mr. Lowery having died some two years ago, these two small children are left without any parental support, although they have a kind and generous grandmother and other loving relatives to care for them. On the afternoon of the 9th inst., their remains arrived from the city. The ladies meeting house was full of people eager to pay their last respects to the departed dead. The Rev. Mr. McCully of Wexford, preached a powerful sermon. The remains were taken to the Newburg graveyard for interment. A large procession followed the remains to the cemetery to bestow a last farewell.

RICHMOND, MARCH 15.—The pulpit of St. Andrew's Presbyterian church at Kingston, which has been vacant for the past two months, was occupied yesterday morning by the Rev. Wm. Aitken of Newcastle. A collection was taken up in aid of the Ladies Relief fund amounting to fifty-six dollars. Commencing next Sunday this church will be open to candidates.

Andrew J. Gorman, late of the Terrace hotel, Amherst, N. S., has leased the Bay View at Enclavour, from Isaac Trenholm. The latter leaves shortly for Rossland, B. C.

Mrs. Glendening, wife of Jonathan Glendening of Galloway, died yesterday from consumption.

Robert H. Davis of St. George, Charlotte Co., has opened up a law office on Water street. The latest report from Fredericton is to the effect that Mr. Davis will receive the appointment of stipendiary magistrate after the first of May, and the registrar of probates soon after.

A branch of the C. M. B. A. was organized at St. John's last week with fourteen members.

The schooner Avalon, which went ashore at Green Island, Cape Sable, some months ago, was got off and taken to Meteghan, where she has been thoroughly repaired. Capt. J. B. Wagner goes over there on Friday to take possession of her. She will look for some months, and the Nana himself

THE INDIAN MUTINY.

An Interesting Lecture by Rev. J. deSoyres on the 17th.

Many Facts Recalled in Connection With the Indian Mutiny.

A lecture was delivered at St. John's church school house on the 17th by the rector (Rev. J. de Soyres) on behalf of the Indian famine fund, which is about to be shortly closed. Judge Wedderburn presided, and there was a large attendance. The chairman opened the meeting by referring in eloquent terms to the memories, not yet extinct, of the great tragedy of the Indian famine. He felt the appeal on behalf of the famine fund should find access to all hearts, and especially in our city. St. John had known that it was to have been, and he was glad that it was generally recognized, and now it was our turn, under different conditions, to extend a helping hand to the distant land where claims on us were so well founded and the need so deplorable.

The lecturer explained his selection of the subject as one too generally cognate to the object of appeal, but of deep interest to all inhabitants of our great empire. It belonged to that time which had been rightly called the difficult period of national history, when the things came of the horrors of Cawnpore, Nana Sahib and Tantia Topi were names of dread then. And the great events of that fateful period contained more than the record of revolt, massacre, and rebellion. They were recorded in the most important lessons of our eastern government, learned at terrible cost; they told us of deeds of ferocity and endurance not paralleled in any nation or any time; they preserved for us the memory of heroes who rose to the great exigencies of a crisis, and who had left themselves an imperishable monument in the present imperial state.

After a brief sketch of the rise of the East India Company, some account was given of the state of affairs which Lord Dalhousie ended his eventful viceregency in 1858, and gave place to his successor, Lord Canning. To the superficial eye, and even to the eyes of trained eastern officials, it seemed prosperous and peaceful. "India is quiet throughout," was the declaration of a leading article in the Bombay Gazette, on the first of May, only ten days before the mutiny at Meerut started the world from its security.

The politicians of that day could see no deeper than the alleged grievance of the cartridges, supposed to be lubricated with animal fat. Far deeper lay the seed of animosity and revolt. The annexations of Lord Dalhousie, and especially that most recent of the great kingdom of Oudh, had filled the whole native world with a sense of intense burning grievance, which had ready precedence to the rumors of further encroachment upon national and religious rites. The agency of the mysterious "chapatias" (small cakes of unleavened bread) passed from hand to hand, until the direction of

CHAMPION FITZSIMMONS.

CORBETT, AFTER COMING TO, RUSHES LIKE A MADMAN AT THE CHAMPION OF THE WORLD, BUT WAS RESTRAINED.

He Puts Jim Corbett to Sleep in the Fourteenth Round. The Fatal Blow Was Left Hand-er Over Heart and a Right on Jaw.

The Scene in the ex-Champion's Dressing Room After the Fight. "It Was an Awful Blow and I Thought it Would Kill Me," Said Corbett.

A Graphic Description of the Big Fight, Together With a Detailed Account of Each Round. Mrs. Fitzsimmons Becomes Excited and Calls Names to Corbett and Officials.

Billy Smith Beaten by Green and Flaherty Succumbs to Hawkins. Fitzsimmons Has Fought His Last Battle and Will Now Retire from the Ring.

Carson, March 17.—Under a clear sky and a valley, 5,000 feet above the sea, circled by snow-topped mountains, which glistened in the bright sunlight, making a picture such as was never before seen on an occasion of the kind, James J. Corbett went down to defeat today before Robert Fitzsimmons, who became the champion heavyweight pugilist of the world.

At the opening of the fourteenth round and last, Corbett looked the most fit and strong and was displaying more science and continued to pound the Australian and keep up the incessant blows. And then came the final blow and the end. The blow which ended the fight was a left-hand punch delivered just below the heart. It was all the more effective from the reason that Corbett was leaning backward when it came.

touches on the arena. Half an hour after the gates were opened there were about 1,000 people comfortably seated. They put in the time gazing with interest on the platform where Corbett and Fitzsimmons were to fight for supremacy.

The floor of the ring was of pine boards, closely drawn together and sprinkled liberally with rosin. The boards were unpadding, and comments on the probability of the fighters knocking their heads against the hard surface in case of a knock-down were frequent.

JOHN L. SULLIVAN'S appearance was the signal for an outburst of cheers. But beyond a broad smile, the ex-champion paid no attention to the demonstration.

As the day wore on the warmth of the sun increased. There was no wind and the weather conditions were perfect for the fight. No one seemed to have any definite idea of the hour when the fighters were to go on, but it was understood to be 10 o'clock.

Frank V. Dunn of Boston, in behalf of John L. Sullivan, will challenge the winner of this contest for \$5,000, and he will put up \$1,000 as a deposit. He said the money was up in the hands of the New York World. This was greeted with cheers, and Sullivan called for. When he reached the ring he said:

"Gentlemen, there is no necessity of me saying anything more. I mean what I say. I am going to try one more battle. There is one fighter left."

This speech was greeted with shouts of "Good boy, John." Then there were calls for Sharkey, but he was in the back-ground. Billy Madden then entered the ring and said:

"I have deposited \$2,500 with Warren Lewis of New York for Joe Gomez to fight the winner of this fight, giving him his own time inside of one year. Also have checks for \$2,500 for Sharkey to fight winner, which will be deposited at once."

At 10 o'clock there were about 5,000 people, and the crowd seemed to have stopped coming. About a dozen good looking, well dressed

WOMEN, WERE IN THE CROWD. A few wore veils, but the majority braved the gaze of the men.

Corbett did not start from his camp as soon as expected, and did not reach his dressing room until after Fitzsimmons.

At 11:15 Siler told the men to get ready. They said they were all ready and Siler told them to come in. Fitzsimmons came from his dressing room at 11:57, in blue and pink dressing gown. Julian led the procession and the other three followed.

At 12 o'clock said: "While the contest for the world's championship is taking place, please keep order, as there are ladies present."

Siler was announced as referee. The official time-keeper was Muldoon; seconds for Fitzsimmons, Rober, Hickey, Julian and Stekauer; time-keeper, Louis Houseman. For Corbett, seconds, MoVey, White, Delaney, Woods and Donaldson; time-keeper, Colville. Fitzsimmons was then introduced and Corbett next. Corbett got the loudest applause. Fitzsimmons then stripped and put on his gloves, which were light pea green in color. Cor-

DIVINE AFFECTION.

GOD COMFORTS HIS PEOPLE AS A MOTHER HER CHILDREN.

A Mother's Stipulation of Instruction—A Mother's Favoritism—A Mother's Way With Little Troubles—A Mother's Way of Putting a Child to Sleep.

EV. DR. TALMAGE, in this sermon, chose an affectionate subject of the Divine love, which is seldom considered, to an unusually large audience.

The Bible is a warm letter of affection from a father to a child, and yet there are many who see chiefly the severe passages.

When I see God especially busy in troubling and trying his children, I know that his Christian character there is to come, some special good.

On one of his expeditions to Greenland, Nansen collected many samples of dust from the surface of the snow in the ice-floes.

Nansen's dust. Important suggestions offered by Parties Found on the Ice.

ST. PATRICK'S DAY.

The Services in the Various Catholic Churches.

Entertainments in All Sections of the City, Fairville and in Memramcook.

St. Patrick's day was quietly observed on the 17th. The day was a very fine one and the shamrock occupied a conspicuous place on the hat or coat of hundreds of citizens.

Solemn high mass was celebrated at the cathedral at ten o'clock. Rev. A. O'Neill was celebrant, with Rev. F. McMurray and Rev. A. Robb as assistants.

At St. John the Baptist church Very Rev. Monsignor Connolly, V. G., celebrated high mass and also preached the sermon. The collection for the orphans amounted to \$21.75.

In St. Peter's church solemn high mass was celebrated by the Very Rev. E. M. Weigel, C. S. S. R., the choir singing the Mass of the Holy Angels. Father Peane delivered the customary sermon.

The entertainments in the various parts of the city and Fairville that night were all largely attended.

The Sun's Memramcook correspondent telegraphed that night an excellent large and appreciative audience were present in the college hall that evening to witness the first production of "Paul, the Cripple, or Love at Last."

Rev. Ed. Savage of Sussex preached an able and eloquent sermon on the life and labors of St. Patrick.

Work on the Coast railway, which will run from Yarmouth to Lockport, is progressing very satisfactorily.

Work on the Coast railway, which will run from Yarmouth to Lockport, is progressing very satisfactorily.

CHAMPION FITZSIMMONS.

(Continued from Page Five.)

was soon over. There was one exchange of blows, a clinch and a knock-out. Flaherty going down as though he had been shot. It was all over in one minute and four seconds.

BILLY SMITH BEATEN BY GREEN. The fight between "Mysterious" Billy Smith and George Green, welter-weights, followed immediately after the Hawkins-Flaherty bout.

Round 1—The men clinched immediately and Smith commenced his work on Green's ribs. On the breakaway Green punched Smith in the stomach.

Round 2—Smith rubbed at Green and a clinch followed. Round 3—Smith rubbed at Green and a clinch followed. Round 4—Smith rubbed at Green and a clinch followed.

THE FIGHT IN THIS CITY. Fitzsimmons wins in the fourteenth round. The fight between Fitzsimmons and Corbett was a very interesting one.

San Francisco, March 18.—James J. Corbett remained in his rooms at St. Nicholas hotel today, and spent most of the time trying down. He rose early and had a hearty breakfast.

The star of the evening, however, was D. McJannet in the role of Nicholas, a beggar. Mr. McJannet made his first appearance on the stage in the role of Nicholas, a beggar.

After the play the latest farce, "Daddy's Only Foolin'", was put on, and kept the house in a continual uproar.

The play on the whole reflects much credit on St. Patrick's academy, and especially upon Mr. McNamee, C.S.C., the author of the play, who trained the boys.

The play on the whole reflects much credit on St. Patrick's academy, and especially upon Mr. McNamee, C.S.C., the author of the play, who trained the boys.

In the early part of the fight I played for his jaw and I must say that he kept it out of the way in mighty good style. I reached it several times, however, and I knew that I would sooner or later get care.

Regarding his future movements, Fitzsimmons said: "I have not decided just what I will do, but one thing is certain, and that is I will not fight any more for at least two years."

Notice the slender column of mercury in your thermometer. Today it is longer than it was yesterday; tomorrow it may be longer still, or much shorter.

Speaking of a recent illness of her own Mrs. Hagar Percival says that she pronounced her ailment to be "nervous debility."

"In July, 1890," says the lady, "I felt strangely weak and out of spirits. I could scarcely persuade myself to eat anything, and when I did the food caused me much distress in the stomach and pain in the chest."

"Better and worse I suffered in this manner for about three years, no treatment affording any relief."

"One day," he declares, "a friend of mine, Mr. Charles Swan of King street, told me of a medicine from the use of which his sister had derived great benefit under like circumstances."

"I don't want to say anything more about the fight," he said to an American representative, "hold on, though, just say this, will you say I was beaten fairly and honestly and that I have no kick coming—no complaint to make—and don't represent me as sick or dying or even ill."

The men who came out of the woods from Kibbourn's camps Saturday say there is as much as three feet of snow in that section of the country. Today's storm will add greatly to that—cleaner, Monday.

A BRAVE WOMAN.

For Eight Hours She Steered Her Husband's Ship, While Captain and Two Mates, All That Were Left, Managed Vessel.

Terrible Experience of an American Ship Which Left Hong Kong Last July.

New York, March 21.—The long overdue American clipper ship, T. F. Oakes, which left Hong Kong on July 4, 1896, with a general cargo for this port, and which had been given up for lost, was towed into port today by the British tank steamer Kasbeck.

The Oakes left Shanghai the 17th of last May, and after completing her cargo at Hong Kong, sailed from that port. The crew apparently in the best of health, with the exception of Captain Reed, who had been illing for some little time, but who under the careful nursing of his wife, thought himself on the high road to recovery.

One by one the other sailors were obliged to quit work, until on March 1st only the second and third mates, the cabin and his wife were left on board.

On the 15th her machinery became disabled in a terrific N. W. gale, and for twenty-four hours she drifted to the southeast. She encountered heavy field ice and numerous large bergs on the banks and had to go two hundred miles south to clear it.

The Dominion line steamer Scotia arrived today from Liverpool. She met with fresh gales from the west and southwest up to Tuesday, the 16th, when a heavy west north-west gale was encountered with very high seas.

TRURO. Truro, N. S., March 20.—The death occurred last night, March 19th, of Mrs. George A. Fraser. The deceased was a widow of the late Geo. A. Fraser of Halifax, and the late John A. Thompson, well known shipbuilder of St. John.

EN ROUTE FOR DORCHESTER.

G. W. McLean, sheriff of Shelburne Co., N. S., arrived on the Prince Rupert Friday afternoon, having in charge two prisoners for Dorchester. The men are Horace Nickerson and John Hopkins of Barrington, N. Y., who have been convicted and sentenced, the former to fifteen years and the latter to seven for robbery and arson at Captain Walter L. Smith's store at Doctor Cove, N. S., last September.

See that you get what you ask for. See for 40 doses.

ALL THREE NOT GUILTY.

The trial of Perkins, Williams and King, charged with robbery, was finished on 16th inst. at the circuit court. The offence was alleged to have been committed on board the schooner Nellie Doe, at Lower Water, on Feb. 9.

The complainant, Wm. McHenry, the watchman of the vessel, in his evidence said the prisoners went down to the vessel and demanded money. One of them, he said, had a knife, which he held up to the complainant's face, remarking at the same time that it was his.

The defence put the prisoners on the stand, assuring them that there was nothing in it, King, he said, took it out of his hand. Another witness named Wolfe, who was with McHenry in the cabin when the men boarded the schooner, said he did not go on deck till McHenry called him.

The jury found the three not guilty and King and Perkins were discharged. Williams, it will be remembered, was found guilty of another offence the other day.

THE EQUITY COURT.

In the matter of Claude Cameron, an infant—In August, 1892, James Stratton obtained an order for sale of the defendant's real estate. By the order of ex-Judge Palmer a lot of land in Victoria had been ordered to be sold, and the guardian of the infant was to enter into recognition with sureties to the satisfaction of the plaintiff.

THE WEEKLY SUN.

ST. JOHN, N. B., MARCH 24, 1897.

"FARTHEST NORTH."

When the announcement was made last August that Nansen had reached Norway after three years' absence, having got nearly two degrees nearer the North Pole than man had ever been before...

An agreeable feature of this narrative, unfortunately almost unique, is the absence of tragedy. For three years the thirteen members of the party were in polar waters.

Nevertheless the perils and vicissitudes which were met, and the obstacles overcome, were not less than those in any previous journey of exploration.

The other fortunate element in the case was in the personnel of the expedition. The whole of Scandinavia was laid under tribute.

men. Then Nansen was capable of directing the scientific work of the expedition. He could make and mend sledges and canoes, drive a dog team, and live on dog meat.

The story of the sledge journey, as told without embellishment or attempt at rhetorical effect, is a story of achievement, which is not likely to be exceeded in the future history of polar navigation.

The expedition is considered a successful one, though Nansen did not reach the pole. In fact, he did not feel any assurance that he could accomplish this much.

The results of the expedition include a much more perfect record of Arctic phenomena. Soundings were taken regularly. The direction of currents and the temperature of water at various depths were recorded.

THE NOVA SCOTIA ELECTIONS. The Nova Scotia assembly which was elected three years ago this month has been dissolved, and the elections are ordered for next month.

Annapolis. Strong tickets are in the field in Inverness and Cumberland. The opposition is perhaps taken somewhat by surprise, but there is yet time to complete an effective organization.

FREDERICTON.

No. 4 Company, R. R. C. I., Receive Orders to Proceed to Halifax—John Stewart May be General Superintendent of Atlantic Division of the C. P. R.

REGULARS FOR FREDERICTON.

A reporter called on General Moore yesterday and asked him if there was information regarding the rumored temporary exchange of some of the Canadian infantrymen from Fredericton to Halifax and an equal number of men of the Royal Berks from Halifax to Fredericton.

General Moore stated that the report was correct. The arrangement was that a company of the British regulars would be sent to Fredericton, while a company of the Fredericton men would come to Halifax.

Asked how long the men thus exchanged would remain at their new quarters, the commander of the forces said he thought for a few months. As to the date of the proposed change, it would take place in the first part of next month.

The matter is therefore settled beyond a doubt, and Halifax will have a company of the Fredericton men for a few months, while Fredericton will have a company of the Berks.—Halifax Chronicle.

SCHOOL CONCERT AND PIE SOCIAL AT HOLDERVILLE.

A very fine musical and literary entertainment, conducted by the teacher, Miss Annie M. Hayter, was given by the school children, assisted by the young ladies and gentlemen of this place, on Thursday evening last.

Richard Roche, a recent arrival from St. John, was robbed of his watch and chain, soon after he got here. He was employed at Manchester, Robertson & Allison's.

BOSTON LETTER.

Newspapers Protesting Against Anti-Canadian Legislation at Washington.

A St. John Man Robbed of His Watch and Chain, and a Halifax Gun Buncoed Out of Ten Dollars in Cash.

Prof. Saunders of Ottawa Describes the Parks at St. John, Charlottetown, Halifax and Truro—The Death Roll of Provincialists—Latest Quotations in the Lumber and Fish Markets.

(From Our Own Correspondent.)

Boston, March 20.—The policy of the new republicanism toward Canada, and all things Canadian, which seeks to choke off trade and prevent ordinary laboring men from crossing and re-crossing the line, is being roundly condemned in this country, and many of the newspapers, some of them republicans, too, are protesting against the prevailing fad of the Washington politicians of discriminating against the Dominion.

The Maine authorities are still working in the hope of providing four bridges across the Eastern Maine residents across the St. John river. An effort is being made to have the bridge at Fort Kent and Van Buren free from tolls.

The following former provincialists died in Boston and vicinity this week: Alice Jones, aged 29, formerly of Fredericton; Mrs. Patrick Kerwin, native of P. E. I.; Annie P. Gallagher, formerly of St. John; Peter Ryan, aged 29, Mrs. John D. Muir, 48 years old, and Amariah Hamilton, 37, all formerly of Halifax.

The lumber business has been rather quiet this week, although reports from Canada say that considerable lumber is on the way to this country. Building operations in this city have been backward owing to unfavorable weather, but the demand for spruce is increasing all the time.

The Boston Advertiser, a staunch republican daily, and the organ of Congressman William E. Barrett, of this city, has published a sensational article of the 20th inst., in which it said of the coal duties: "Canada offers us reciprocity in coal. It is beneficial to every producer of coal, as well as consumer, in this country, save the mine owners at Washington."

Richard Roche, a recent arrival from St. John, was robbed of his watch and chain, soon after he got here. He was employed at Manchester, Robertson & Allison's.

A Halifax man named Edgar, while on his way from Halifax to Boston, was buncoed out of \$10 at Portland, Thursday by confidence men.

The shipping trade at Portland has not been quite so brisk of late. Following Canada, the produce was handled early in the week: To Liverpool, 25,488 bushels peas, value, \$15,293; 18,998 bushels oats, \$5,455.

MANCHESTER'S TONIC Condition Powder. A Preparation put up by qualified Veterinary Surgeons and compounded from the purest drugs and Medicines. It is obtained without cost the most popular and useful horse medicine of the day, it not only Cures Distemper, Swelled Legs, Hidesound, Bots and Worms, but also cures all the ailments which are met with in the horse's body, making him strong and fit to carry his full load.

VETERINARY DEPARTMENT.

Conducted By J. W. Manchester, V. S., St. John, N. B.

McE—I have a brown mare that is running from the nose and is swelled under jaw. My neighbors told me it is distemper, but would like your advice as to the trouble and treatment.

E. J. S.—Have a mare, eight years old, that had a colic three years ago. She took lams in one hind leg about a month ago. The leg is swelled to the body and very large around the hock joint.

W. A.—The trouble is lymphangitis, and as such a long time has elapsed since the seizure it will be difficult to cure. Give a good sharp purgative, one ounce of Aloes Barb., half ounce soda. Mix in cold water and give as a drench. Then take of Potash Nitrate, 2 ounces; Nux Vom. Pulp, 4 ounces; White Veratrum, 1 dram.

O. M. P.—I have a horse, six years old, that is very thin. I am feeding about 15 pounds wheat bran daily. He is fatigued in the stall and rubs his teeth against the manger; makes water every two hours and his bowels rattle a good deal. He has no life.

J. A. W.—I have a young farrow pig not doing well. It has fallen in flesh, does not eat much and seems stiff in the legs. What would be good for him?

R. W. Baird—About five weeks ago I had a horse took suddenly lame in the hind leg. I think from a stub, as there was a hole in the frog. Could feel something hard in the frog. It has discharged a good deal and a ring has formed around the hoof. Kindly advise.

Baldness is often preceded or accompanied by grayness of the hair. To prevent both baldness and grayness, use Hall's Hair Renewer, an honest remedy.
