be no alarm among the depositors and note-holders, as the bank is able to meet VIENNA, April 21.—The conditions of affairs at Stry among the people who lost their homes by the great fire is most piti-holders. The agencies at Stellarton and their homes by the great fire is most pitiable. Most of the victims are without food or means and are rendered desperate by the thought of starvation. Farmers in the vicinity have been visited by most of men, who have first demanded food and then, if refused, stolen it. The owners of force, are now compelled to harrigade.

The agencies at Stellarton and Amherst are also being transferred, and the business of the Pictou Bank for some time at least will be confined to the head office at Pictou. John McKeen has been placed in charge of the agency of the Bank of Nova Scotia at Amherst in place of the SWEEDISH TURNIP SEED. then, if refused, stolen it. The owners of farms are now compelled to barricade their homes as the only way to gnard them from being plundered by the mob, which on account of hanger is becoming nuccontrollable. Numerous struggles for food resulting in bloodshed have taken place. All the public archives of Stry were destable to the processary which for many years has done a very which for many years has done a very troyed by the fire. It will be necessary to ask grants of money from the Lemberg profitable business. All the losses and Diet and Reichstrath to relieve the distress bad debts have been made at the head Diet and Reichstrath to relieve the distress of thousands of destitute people. Search for the remains of persons who lost their lives during the conflagration has been proceeding as rapidly as circumstances would allow. Thus far 68 bodies, charred so as to make recognition difficult, have been taken from the ruins. There have been 20 deaths in the fields since Sunday of invalids, young and old, who were taken out of the town to avoid the flames.

We presume that it is the intention of the Opposition in the House of Commons, to bring forward whenever opportunity offers, this session, votes of want of confi-wisely deemed it the most prudent offers, this session, votes of want of confidence against the Government, on every conceivable subject, the object being, doubtless, to make capital for use in the general elections. Without rhyme or reason, on Tuesday night last, Mr. Laurier flashed quite unexpectedly one of these motions. It had for its burden the old story of helf-lived griggeness in time the lusiness. This will give additionally the continuous description. the old story of half-breed grievances in tinue the business. This will give addithe Northwest, and he arraigned the tional assurance to the creditors of the the Northwest, and he arraigned the Government in his usual style for an hour or two. Mr. White replied to the ex-minister in a forcible way, and marshalled some cold facts against the impassioned rhetoric of that lively young member for Quebec East, in a way which convinced nearly everybody that argument was wholly on the side of the Government. Mr. Mitchell made a charateristic speech, and Messrs, Mills and the property of the convinced nearly extension of business by this arrangement was wholly on the side of the Government. Mr. Mitchell made a charateristic speech, and Messrs, Mills and teristic speech, and Messis. Mills and the head office itself.—Halifax Herald.

Davies also took a hand in the debate, which had only the effect of killing time. The public appears to have had enough of this Riel business. The subject is worn out, and all that could be said, for worn out, and all that could be said, for and against the man and his cause, has been said. It is now surely time, to call a halt. A vote was taken on Mr. Laurier's motion, and it was voted down, the Government scoring a victory by a majority of 42. A few recalcitrant Conservatives, who still remain without the fold, unreconstructed and unhappy, voted with the Liberals. They are likely to experience a change of heart after Easter, when they can put their conduct down to a prolonged fish diet, and plead for forgiveness.

MONTREAL, April 25.—A very curious outbreak took place Saturday afternoon at St. Vincent dePaul Penitentiary, Quebec, the convicts revolting against the authority of the guards. The first sign of insubordination occurred in the stone shed where about forty convicts were working under the supervision of six guards, when suddenly a man named Vian, who was sentenced to seven years for escaping from prison, put up his hands and immediately the convicts stopped working, seized the guards, simultaneous ly relieved them of their revolvers, and bound them. The revolt soon spread to another shed, where the same process was repeated. Chief Warden Laviolette

A TERRIBLE CALAMITY.

PITTSFIELD, Mass., April 20.—At six o'clock this morning the village of East Lee was inundated and devastated by the breaking away of the dam at Mud Pond breaking away of the dam at Mud Pond reservoir, Mountain Lake, about two and a half miles from the village. The pond covered many acres of swamp and was increased from its original limited size by extensive dams, built by a club of manufacturers. It is a storage place for the extensive dams, built by a club of manufacturers. It is a storage place for the water for East Lee village, whose half dozen paper mills are situated on its stream. The village got its first news of the accident by seeing the flood pour down its streets, the water being from four to six feet deep and bearing with it trees parts of houses and harms fences. trees, parts of houses, and barns, fences, wagons, and every form of moveable pro- MONTREAL IMBEDDED IN MUD. perty. SUTHERLAND & CREACHAN ESTEY'S I It Picked me Right Up. SHEDIAC, N. B., March 22, '86 During the fall of '8 During the fall of '85 my system was completed by run down. I had no appetite, and what little I did eat caused me great distress. I was so weak that I could hardly do my daily work. I saw Estey's Iron and Quinine Tonic highly recommended for cases similar to mine, which induced me to try it. After taking I bottle of it I felt much better, and now after I have used 3 or 4 bottles I feel as well as aver I did, I te picked me right up, and I cannot recommend it too highly. Yours truly, HERRY GAY, Fireman I. C. R. perty. The people fled in the slopes of the valley along which the torrent was pouring, and saw their houses moved and tossed about like chips on a river. The flood passed East Lee and went on down the road destroying gardens, lawns, fences, and movid smaller buildings, though it had not the power to utterly wieck large mouses. The damage done will foot upmany thousand dollars. As soon as possible the people went up the line of flood toward the pond, and found the ruin worse as they approached the starting point of the torrent. Three or four houses were wrecked and much stock is lost. Explerers have already found the bodies of nine persons and are scarching for others. The scene is one of wild desolation and destruction, and the whole town of Lee is in a state of excitement.

Later news just received from East Lee "HOMELIGHT" OIL.
