LAW RESPECTING NEWSPAPERS

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrearages are paid. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their papers to be discontinued. If subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

Arrival of the Persia.

New York, March 20.
The Persia has arrived—no tidings of the Pacific. The general news is unimportant. The Peace Conference was progressing favorably—the preliminaries have been signed.
Emperor Napoleon in address to the French Legislative Body, spoke in cordial terms of English Alliance, and stated that he hoped for peace, but it was necessary to be prepared for peace or war.
Brokers circular, reports Wheat declined sixpence—Flour two to three shillings, and Corn one shilling on the week without much business. Sugar active, and 6d. dearer per cwt. Provisions unchanged.

LEGISLATIVE SUMMARY.

MARCH 18.

Several Bills were under consideration in the House this morning.
The Bill to incorporate the St. Stephen's Gas Light Company passed in Committee.
The Railway Bills were taken up a few minutes after eleven o'clock Mr. J. A. Harding was the first speaker. He did not say whether he would condemn or support the scheme. He was alive to the importance of Railways, but did not believe in the payment of such a large sum to Jackson.

Mr. Boyd spoke one hour in opposition to the scheme and in favor of the principle of taxing the wild lands. He also advocated the necessity of doing something for the St. Andrews and Quebec line.

Mr. Brown entered into a lengthy history of the progress in Railways to this Province, from the commencement down to our present position, and spoke for some time in support of the scheme before the House.

Mr. Gray spoke for two hours in opposition to Baring's proposition and in favor of carrying out the arrangement with Jackson & Co.

Debate to be resumed at eleven o'clock to-morrow.

Hon. Mr. Tilley, will probably, be the next speaker.
House adjourned at six o'clock.

MARCH 19.

Several bills of minor importance disposed of this morning.

Mr. Cutler's bill to prevent certain persons from holding seats in the Assembly, stands as the order of the day for Tuesday next.

Railway bills taken up a few minutes after 11. Mr. McAdam, made a short speech in favor of the scheme.

Hon. Mr. Smith spoke for nearly an hour in support of the proposition, and in justification of the course pursued by the Government respecting the arrangement with Jackson & Co.

Mr. Street spoke one hour and three quarters in condemnation of the present railway scheme; he expressed himself favorable to the proposal made by Jackson & Co., on a previous occasion.

Hon. Mr. Johnson spoke for upwards of two hours in support of the scheme, and contended that it was a great misfortune that the Province had ever been galled into the agreement with Jackson & Co.

Debate to be resumed at the usual hour to-morrow.

The bill to incorporate the town of Woodstock has passed the Legislative Council with certain amendments.

BOARD OF WORKS.—We take the following extracts from the Report of the Chief Commissioner of the Board of Works, for 1855:—

There are, so far as I can ascertain by estimation, for exact measurement did not appear necessary, not less than 1630 miles of Great Road within the Province, on which sums of money—which may truly be termed vast—have from time to time been expended.

Many of the Roads are laid out with judgment and skill, and well constructed, and appear to have been under careful supervision; others, on the contrary, have been carried over high hills which might have been avoided, thus making the travelling difficult and in some cases dangerous.

There are 415 considerable Bridges on the Great Roads of the Province, besides a multitude of small ones, severally costing less than £25.

By the present arrangement there are 48 Supervisors, whose services cost the Province not less than £2500 annually, in the shape of Commission or per centage on the amount expended.

FIRES AND LOSS OF LIFE.—Montreal, March 13.—Mr. Gardner, an infant child, and two women were burned to death in the house of Mr. G., which was consumed by

fire in St. Paul Street, Quebec, on Wednesday morning.

The residence of Thornton Smith, at Smithville near Quebec was destroyed by fire yesterday. The loss amounts to \$12,000; no insurance. The family barely escaped.

THE RESULTS OF RECRUITING.—Some time in March last, the Hon. Joseph Howe, then in this city as recruiting agent of the British Government, entered into a contract with Capt. Brownlow of the barque Louisiana, to carry three hundred recruits to Halifax for \$2,700, and a second three hundred for \$2,400, but subsequently abandoned the project.

Capt. Brownlow, however, having been at some expense in refitting his vessel, held to the agreement, and kept his vessel some days at the wharf, and subsequently down the bay, ready to fulfil his contract. The man not being forthcoming he presented his claim for \$2,700. The matter was referred to arbitrators, Capt. Dunham for Capt. Brownlow, and Thomas Tilden, Esq., for the British consul. They could not agree, Capt. Dunham claiming \$1,500 and Mr. Tilden deeming compensation to the extent of the actual loss to Capt. B. sufficient. A third party, Captain French being called in, agreed with Capt. Dunham, and the British consul thereupon paid the amount. So Capt. Brownlow at least has profited by the attempt at enlistment by British agents.—N. Y. Com. Advertiser.

FINANCIAL.—Money continues abundant and is increasing far beyond the wants of the business community. Probably there never was more idle capital in New York, than at the present time, and the prospect is that the accumulations will go on increasing until the time arrives when the vast amount of merchandise imported this season must be paid for. Such payments will doubtless cause some reaction.

The large amount of gold to be paid out by Government in June, in settlement of Texas claims, together with receipts from California, will insure a comfortable state of things for a long time to come. Millions of dollars may now be had from our banks at 6 per cent. Some of the large private Banks can obtain all they use at 5 per cent. Very little paper is yet discounted by Directors below seven per cent. Short gilt edged paper is scarce, and is largely taken "between boards" by some of the large institutions at 6 per cent.—N. Y. Independent.

The seven principal railroads running out of Boston have conspired to cut off "dead heads" of all descriptions; and first on their list they place editors of newspapers, and then follow railroad and freight agents, &c. We believe this will be a movement more in favor of the people than the corporations. When newspaper editors are in a better position to tell what they know of railroads, the safety of passengers will be much increased. There is no reason, however, why any class of persons should go free on railroads; and so far as newspapers are concerned it would be much better for all parties to break up the practice. On some roads, the real "dead heads" have been the directors and managers. —[Newport Herald.

'How sharp your toe-nails are,' as Paddy said when he caught the hornet.

'That's a flame of mine,' as the bellows said to the fire.

'Liberty or death,' as the rat said, when his tail was caught in the trap.

'This is a grate prospect,' as the prisoner said when he looked out of the window of his cell.

A Vermont owned a very fine trotting horse whose extraordinary speed he illustrated by the following anecdote. "I was driving him one day in a dearborn," said he, "and I overtook a stranger who was walking the same way, and I asked him to get in and ride with me, so he got in, and I just spoke to my horse, and he started off at a middling good trot, presently the stranger asked what graveyard it was, we were passing. Oh! said I, it's nothing but mile-stones."

LIFE A LIBRARY.—Life is arbitrary, composed of several volumes. With some these volumes are richly gilt; with others, quite plain. Of its several volumes, the first is a Child's Book, full of pretty pictures; the second is a School Book, full of ink, and dog-eared; the next is a Thrilling Romance, full of love, hope, ruin and despair, winding up with a marriage with the most beautiful heroine that ever was; there is a House-keeping Book, with the butcher's and baker's bills increasing every year; after that comes the Day-Book and Ledger, swelling out into a series of many volumes, presenting a rare fund of varied information, and jangling like a cash-box with money; these are followed up with a grave History, solemnly travelling over the events of the

Past, with many wise deductions and grave warnings; and last of all comes the Child's Book again, with its pages rather soiled, and its pictures by no means so bright as they used to be. To the above Library is sometimes added the Banker's Book, thick with gold; but it is a very scarce work, and only to be met with in the richest collections.

FESTIVAL OF ST. PATRICK.

Last Monday evening, the members of the St. Patrick's Society and their guests, about eighty in all, celebrated the festival of the Patron Saint of Ireland, by supping together at Stubbs' Hotel. The chair was filled by Mr. Robert Armstrong, the President of the Society; in the absence of the Vice President, Mr. John A. Morrison, (now in England), his chair was filled by M. H. Perley, Esq., the senior member of the Society. The sister Societies of St. George and St. Andrew were represented by their Officers, as well as by several of their members—and we are assured that a more genial or happy celebration has seldom been such.

The usual loyal and appropriate toasts were given and duly honored, not forgetting the Army and Navy, their recent successes in the Crimea, and the gallant Allies of England in the war. The health of the Lieutenant Governor was drunk with great enthusiasm, a happy allusion having been made to the admirable despatch of his Excellency relative to the Liquor Law, which meets with general approbation.

The full band of McCart was in attendance, and played admirably during the evening; the festivities were greatly enlivened by some capital speeches, and by quaterns, glees, and songs, from a number of talented singers who were present on the occasion.

The Society claim that no previous festival in this City has equalled this festival of St. Patrick, either in the excellence of the music or the superior character of the singing.

It would be doing great injustice to Mr. Stubbs, if we omitted to mention, that the Supper provided by him was of the very best description, comprising every luxury and delicacy that could be procured either here or in Boston, all cooked and served in first rate style. We are not ourselves cognizant of the fact, but we presume the wines were excellent, and the whiskey punch undeniable, the Society having made provision for the exigency long since. The supper gave unbounded satisfaction, and Mr. Stubbs was highly complimented by the Society of its excellence. Altogether, the entertainment was highly successful, and passed off with the greatest harmony, good feeling, and perfect enjoyment.—[St. John Courier.

LATER FROM CALIFORNIA.

Arrival of the Northern Light.

New York, March 14.
The steamer Northern Light, from San Juan, arrived at this port last night. She left San Juan on the 5th inst. and Havana on the 9th. She brings \$262,000 in gold dust, and a large complement of passengers. Principal consignees—Chas. Morgan, \$100,000, Drexler & Co. 10,000. The seizure of Walker, of the Transit Company's boats is confirmed. The new charter has been granted to Edmund Randolph.

San Francisco, Feb. 20. A violent shock of an earthquake was felt in this city on the morning of the 15th. The people were aroused from their sleep and hundreds rushed frantically into the streets in their night clothes. The shock lasted some 25 seconds, and was preceded by a rumbling sound like distant thunder. No material damage was done. The fore wall fell from one brick store. The plastering was more or less cracked in a good many buildings, and in some instances slight fissures are created in brick walls. It was the most severe shock of which we have any account in San Francisco.

FURTHER CALIFORNIA NEWS.
By the Northern Light.

New York, March 14.
From Japan.—The clipper schooner Page arrived at San Francisco on the 13th, from Japan, bringing news of a terrible earthquake which occurred there on the 11th of November at 10 o'clock, P. M., which destroyed 100,000 dwellings, 54 temples and 30,000 inhabitants. A fire broke out at the same time in 30 different places in the city. The earth opened and closed over thousands of buildings with their occupants. The shock was severe at Simoda. Although the distance from Jeddo to Simoda is but 60 miles, it appears that an official account of the earthquake had been received at the latter place at the time of the sailing of the schooner Page, Dec. 19. The news was obtained through the Dutch interpreter.—The Japanese attach but little importance to the catastrophe. The inhabitants of the city were forewarned of the disaster, and many of them escaped. The buildings of Jeddo are chiefly of one story and constructed of very light material. The temples of worship, however, are lofty, and in some in-

stances are constructed of heavy masonry.

There had been 78 arrivals at Hakodadi since the port was opened to foreigners.—Several whalers had arrived during the season, but their names could not be ascertained. There were no Japanese goods to be obtained at the port of Simoda. The bay of Hakodadi was covered with ice on the 24 of Jan.—Snow was three feet in and around Hakodadi on the 6th.

CALIFORNIA.

The report of the engineer who made the preliminary survey for a railroad from Sacramento to Benicia has just been published.—The distance is 90 miles, and it is estimated that the road can be constructed for \$3,000,000. A survey is about being made for a railroad from Stockton to San Francisco, and a project of a railroad from Marysville to Benicia is also exciting a good deal of attention at the former place.

Business at San Francisco was becoming more steady. The receipts of dust had increased, and money was easy at 1 1/2 a 2 1/2 per cent.

FROM OREGON.

San Francisco, Feb. 20.—By a letter received from Col. McCracken from Salem, on Thursday last, we learn that the Indians in the south are still occupying the field. A party in the Grave Creek Hills had surprised 150 volunteers of Bailey's, Gordon's and Chapman's companies in the night, killing Mr. Gage of Umpqua, and Mr. Gardner of Eugene City, and dangerously wounding A. M. Taylor, of Lane county. The Indians ran away without any loss.

They had attacked a settlement on the South Umpqua. More Indian depredations are reported to have been committed on Cow Creek, in which two men were killed and one wounded.

Meessrs. Jones & Ferguson, produce commission dealers in New York, suspended payment on Saturday. Their liabilities are about \$250,000, mostly owing to Banks and merchants in the interior of the State. They have been recently heavy speculators in grain.

THE DUTY OF EDITORS.—There is a good deal of quiet satire as well as truth in the annexed paragraph, copied from an exchange.—Our experience has made us acquainted with a host of persons, who would like us to play the hero for their own especial benefit:—

"There are a great many people in the world who like to blow up their neighbors in a quiet way—who want to fight somebody or something, and like, at the same time, to keep back in the bush. They wish something said, some alleged abuse denounced, but don't let anybody know that we said it. Please to grind our axes for us, but don't let it be known that we are interested in it. Do it merely for the public good. And so you will establish a great character for independence, and so on. Such is the talk often addressed to publishers of papers.—Such is the inducement held out, and such is the language when properly translated."

ENGLAND'S GOLDEN SUN.—There is a story told of Madam Catalani, that, when a lady by the banks of the Lake of Como was drawing an invidious contrast between the English and Italian climates, the pride of the opera put her hand in her pocket, drew forth an English sovereign, and said—"Ah! my dear, behold the true sun of England: it will shine under any sky."

AUSTRALIAN ACCOMMODATION.—A very considerable hotel keeper, at Gelong, advertising his "Barton XXXX," concludes the advertisement in the following manner:—N. B.—Parties drinking more than four glasses of this potent beverage at one sitting, carefully sent home, gratis, in a wheelbarrow, if required."

TOLL.—A couple of gents passing through a toll bar where a female attended, asked how much she charged to let them through? She pointed out a line on the beard—"Asses, two-pence."

KNOWLEDGE AGAINST PREASURE.—Pleasure is a shadow, wealth is a vanity, and power a pageant; but knowledge is ecstatic in enjoyment; perennial in fame, unlimited in space, and infinite in duration. In performance of its sacred offices it fears no danger, spares no expense, omits no exertion.—It scales the mountain, looks into the volcano, dives into the ocean, perforates the earth, encircles the globe, explores sea and land, contemplates the distant, ascends to the sublime. No place too remote for its grasp, no Heaven too exalted for its reach.

A gentleman on board a steamboat with his family, on being asked by his children "what made the boat go," gave them the following very lucid description of the machinery and its principles:—"You see, my dears, this thingumob here goes down

through that hole and fastens on the jigsaw-

ree, and that connects with the crankum-crankum, and then that man, he's the engineer, you know, kind o' sits up the—what-do-you-call-it, with his long poker, and they all shove along, and the boat goes ahead."

THE LIZARD AND THE SNAKE.

Glancing bright in the sunshine, a most beautiful butterfly fluttered in the air, in the very middle of the open window. When we first saw it, it was fitting gaily and happily amongst the plants and flowers that were blooming in the balcony, but it gradually became more and more slow on the wing, and at last poised itself so unusually steadily for an insect of its class, that even had Maria not spoken, it would have attracted my attention. Below it, on the wall, with head erect, and its little basilisk eyes upturned towards the lovely fly, crouched a chameleon lizard; its beautiful body when I first looked at it, was a bright sea-green. It moved into the sunshine, a little away from the shade of the laurel bush, which grew on the side it first appeared on, and suddenly the back became transparent amber, the legs and belly continuing green. From its breast under the chin, it every now and then shot out a semicircular film of a bright scarlet colour, like a leaf of a tulip stretched vertically, or the pictorial fin of a fish. This was evidently a decoy; and the poor fly was by degrees drawn down towards it, either under the impression of its being in reality a flower, or impelled by some impulse which it could not resist. It gradually fluttered nearer and more near, the reptile remaining steady as a stone, until it made a sudden spring, and in the next moment the small many wings were quivering on each side of the Chameleon's tiny jaws. While in the act of gorging its prey, a little fork, like a wire, was projected from the opposite corner of the window. Presently, a small round black snout, with a pair of little fiery blazing eyes, and a thin black neck glanced in the sun.—The lizard saw it. I could fancy it trembled. Its body became a dark blue, then ashy pale. The imitation of the flower, the gaudy fin, was withdrawn. It appeared to shrink back as far it could, but it was nailed or fascinated to the window-sill, for its feet did not move.

The head of the snake approached, with its long forked tongue shooting out and shortening, and with a low hissing noise.—By this time about two feet of its body was visible, lying, with its white belly on the wooden beam, moving forward with a small, horizontal, wavy motion, the head and six inches of the neck being a little raised. I shrunk back from the serpent, but no one seemed to have any dread of it. Indeed, I afterwards learned, this kind being good mousers, and otherwise quite harmless, were in the country. I looked again; its open mouth was now within an inch of the lizard, which, by this time, seemed utterly paralyzed and motionless; the next instant its head was drawn into the snake's mouth, and by degrees the whole body disappeared as the reptile gorged it; and I could perceive, from the lump which gradually moved down the snake's neck, that it had been sucked into its stomach.—Naval Novel.

Holloway's Pills have cured a Liver Complaint of ten years' standing.—Mr. Hurlew, of Newport, Nova Scotia, for ten years suffered from a liver complaint, attended at times with violent purging, at others with constiveness, a flat stomach and indigestion, these were caused by the impurity of the blood, and general derangement of the system. He used Holloway's Pills for ten weeks, which effectually cured him, giving him an excellent appetite, enabling him to enjoy any kind of food, and restored him to such health as he had not enjoyed since he was a boy.

DR. R. B. PATTERSON, SURGEON DENTIST.

Respectfully informs the inhabitants of Saint Andrews, that he has removed his Office to the new building, nearly opposite the Bank and Telegraph Office, Eastport, where he will be happy to wait of all who may require Dental operations. Artificial teeth, from one to an entire set, inserted on pivots or plates; all operations performed on the most approved principles, and warranted to give entire satisfaction. Dr. P. will occasionally visit St. Andrews, timely notice of which will be given. [March 4. 56]

Notice.

THE Subscriber intending to close his business for the Season, requests all persons indebted to him to pay their several amounts due by the 30th day of this month, otherwise they will be put in train for collection.

E. D. SPEAR, INDIAN DOCTOR.

18 Kneeland street, 60 N. W. Mass.
RECEIVED a great success, which has ever attended the Indian Practice of Medicine, as practiced by E. D. SPEAR, M. D., excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from ingredients which are believed to have originally been received from the Indians one hundred and seventy five years ago. No other remedies deserve the name of Indian.

DR. SPEAR'S GREAT INDIAN MEDICINE.
(For names and description see his "Family Physician"—to be had, free, of his office, or sent to order, prepaid on receipt of a paper postage stamp.)

Are certain cures for
Asthma, Ague and Fever, warner's itch, Bont, Bronchitis, Cancer, cancer, Colds, Consumption, Coughs, Croup, Dropsy, Debility, Diarrhoea, Drunkenness of the Bowels, all humors in the blood, Giddiness, Headache, Indigestion of the Stomach, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Night-blindness, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scall Head, scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.

Dr. Spear's Family Medicines have become very celebrated, and it is now admitted that his treatment of Fevers, Croup, Eruptions, Uterine irregularities and Suppressions is far superior to every other treatment for these complaints.

DR. SPEAR, is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.

Dr. Spear will accept a case in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.

Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.

Dr. Spear consults with patients at his Office No. 18 Kneeland street, upon all conditions and diseases of the system, free of any charge.

Stammering Cured!

DR. BRONSON, AND C. C. BEERS, ARE happy in announcing that STAMMERING can be PERMANENTLY CURED by Medicine and Vocal Gymnastics. It is first treated as a Nervous Disease, (like St. Vitus' Dance, Epileptic Fits, &c.) and then the habit, incident to the disease, is corrected by exercises in Elocution. Mr. Beers has been an inveterate stammerer for thirty-five years; has attended many institutions for the cure of stammering, and expended hundreds of dollars without any permanent benefit, but cured himself, 18 months ago, and has ever since remained cured. With the same success, we have cured others, to whom we would gladly refer any applicants—not having failed in a single instance. Being satisfied from reason, experience, and observation, that stammering is the effect of a Nervous Disorder, and can be perfectly cured by the above means, a course of two or three weeks, we assure all suffering from these gratifying results, and guarantee a permanent cure, or refund the small fee paid in advance. Those desiring further information on these subjects, (including terms, &c.) can obtain it from our New Work, just issued, on Stammering, its Effects, Causes and Remedies: Illustrated by One Hundred Engravings: Price, One Dollar; on the receipt of which the Book will be sent without expense, and the money is paid will be credited in the bill for Treatment: Board, etc. furnished on reasonable terms.—Address BRONSON & BEERS, 190, Washington-street, Boston, Mass.

SECOND DESPATCH.

(Via the Frederick and Quebec Line.)
New York, March 20.

The Persia arrived at her dock at 8 this morning. The Persia and the Quaker City arrived at Liverpool together on the morning of Saturday the 21 inst. Both steamers were detained off the bar for want of water for some hours.

The Quaker City sailed from Liverpool at 10.30 on the night of Wednesday. She took out the report of the signing of the preliminaries of peace; but subsequent information would imply that the plenipotentiaries had merely appended their names to the Parliamentary formalities. She also conveyed the speech of the Emperor Napoleon in the Legislative Assembly, in which he spoke in cordial terms of the English alliance, and while he hoped for peace, it was necessary to be prepared for either peace or war.

The Persia brings nothing to add to the above, excepting a general rumor that negotiations proceed satisfactorily.

THE CONFERENCE.

Nothing is really known of the proceedings of the negotiations. The "Emancipation Belge" publishes a communication purporting to proceed from Paris, which says that the first four points were decided on Thursday, and that the discussion of Saturday to be very warm, and was in fact between Baron Brunot and the English plenipotentiaries, during which Count Orléans remained quiet, but at last he broke his long silence, and said as follows:—"Peace must be restored to the civilized world. We are all great enough to pass over certain details in the treaty of Adrianople, and to let it belong to the future. We accept the rectification of the limits proposed for Bessarabia, and for the Asiatic Provinces, we adhere to the condition about not re-establishing the fortress of B. marmara, and desire that the Isles of Andalus shall be a menace for no one. There is no doubt we will give up Nicolaeff without compensation, and the city of Kars to our ancient ally the Sultan."

The "Emancipation" goes on to say that this language caused, as well it might, a profound sensation; so profound that the plenipotentiaries remained silent, no doubt with joy. One of them found his utterance so strong as to be able to say:—"After we are all agreed let us sign." The signatures were at once affixed, and the plenipotentiaries shook hands and parted. The Emancipation unaccountably adds, that on the following day, Monday, the Emperor's speech would contain the announcement about peace.

This story is regarded about Paris as something similar to that of the first taking of Sebastopol, and has already obtained the appellation of "Canard à la Tartar."

Despatches from Berlin speak of a similar statement of things, and it is expected that a combination exists both in Paris and Brussels for the fabrication of news with a view to Bourgeois speculations.

THE CRIMEA.—Delegates from the two armies had met to regulate the details of the armistice.

BALTIC.—From Hamburg, March 5th, it is stated that two Russian war steamers accompanied by three gun-boats, have got out of Swaborg by breaking the ice. These ships have appeared in the Baltic.

THE FALL OF KARS.

The papers relating to the fall of Kars have been laid before Parliament, published in the Blue Book. They embrace the whole subject of the war, the defence and fall of Kars, the conduct of Lord Stratford, the proceedings of the Allied Generals, and the Policy of the Allied movements. The Book discloses some singular circumstances. On the 14th of July, 1855, Gen. Simpson forwarded to the Government the particulars of a conference attended by Gen. Pelissier, Gen. Marmora, Admirals Lyons, Bruat, Stewart, and Gen. Simpson, at which Omar Pasha endeavored to induce them to send a portion of his troops from the Crimea to Asia. Omar offered to proceed with the 25,000 men whom he brought from Eupatoria to Asia for the purpose of relieving Kars. All the Generals and Admirals were unanimous in rejecting his proposal, and he still maintained his opinion, he left for Constantinople to lay the plan before the Sultan. In order to connect Omar's proceedings, the General wrote thus to Lord Stratford de Redcliffe:—"Use your power, influence to cause our opinion to prevail over that of His Highness, for great public interests are at stake, and serious consequences might result from his success."

Omar Pasha's plan was to make a powerful diversion from Redoubt Kaleh, with the view of menacing the communications of the Russians, and compelling them to raise the siege of Kars. This project found favour in the Turkish Councils at Constantinople. Lord Clarendon also seems to have approved of, at least, a trial of the plan, and attributed the opposition made to it to the Turkish Government. He (Clarendon) therefore wrote to Lord Cowley at Paris in these terms:—"I regret that the French Government should oppose the expedition, and its British Government would doubt whether it were wise, even if they had the right to do so, to object to the adoption of such a course by the Porte, since the aid made by the withdrawal of Omar Pasha's troops from the Crimea might be filled up by sending Gen. Vivian's contingent to either Balaklava or Eupatoria."

On the 4th of August, Lord Cowley replied by telegraph:—"The French Government will not oppose the project."

expedition to Asia Minor under Omar Pasha provided that the numbers of the Turkish contingent before Sebastopol are not diminished."

On the same day Lord Clarendon telegraphed to Lord Redcliffe:—"Omar Pasha can go to relieve Kars, provided he does not diminish the Turkish troops before Sebastopol or disturb the garrison of Yanikale."

General Williams, meantime, continued to note after note to Lord Redcliffe, and at length he complains that he had written fifty-four despatches and fifty-four private letters, and the only reply he received was a request to try to "recover some Russian Ladies who had been carried off by a Turk! Desire Vivian to hold himself in readiness to go to Eupatoria with his Turkish contingent." Napoleon seems to have interposed some new objections.

On the 29th of August, Lord Cowley again writes to Clarendon, and says the Emperor has no objection to the removal of the troops from Balaklava, and to their being replaced by a hero, provided that the allied commanders have no objection, but he will not take upon himself the responsibility of saying more.

On the 10th Dec. General Codrington writes to Lord Stratford:—"Laurie Marshall Pelissier in the general tone of your letter, expressing to him the great object it seemed to be to get the Turkish troops to Trebizond, and that it done at all it should be done at once, and offer my assistance, if I could by communication with the Government navy to further this object. The answer was that he could not consent to their leaving Eupatoria without the express sanction of the Emperor of the French."

At length Lord Redcliffe vouchsafed the following explanation:—"It remains for me to say a word respecting my silence towards General Williams. It has in truth continued longer than I intended. It originated in my anxiety not to occasion disappointment by announcing measures that might or might not be carried into effect. I know that during the winter season little comparatively could be done, and I preferred under the pressure of business flowing in abundantly from other sources, to give my correspondent an answer to full, rather than keep up a succession of partial communications."

The British ship Morning Light, (built by Messrs. Wright, of St. John's) Cape, Gilles, sailed from Mobile on the 8th with the largest cargo ever taken out of that port by any one vessel. This cargo consists of 5,859 bales of cotton, with a large lot of logwood. The weight of these bales is 3,002,545 lbs., an average of very nearly 512 pounds to each bale.

IMPORTANT MEMORANDUM.—In the correspondence submitted to the House by Messrs. in reference to the Liquor Law, appears a memorandum, of communication from His Excellency to His Council, dated April 10th, 1855, from which we make the following extract:—"Should the Executive Council, advise the Lieutenant Governor to give his assent to the Bill, they will of course be prepared to assume the responsibility of enforcing it."

On the other hand, should the Executive Council be of opinion that the measure is not in accordance with the wishes of the People of the Province, and should they advise His Excellency to withhold his assent from the Bill, His Excellency will be prepared to act upon that advice, and to take the sense of the People of the Province with respect to the measure, in the manner which the Constitution prescribes."

Upon the receipt of the above memorandum the Council at once, and unanimously (with the exception of Mr. Stevens, who was absent through sickness) advised His Excellency to give his assent to the Bill. Messrs. Ritchie, Johnson, and Smith supported the Bill in the House, but when they were told that an appeal would be made to the country if they advised it, they found the pill too bitter to swallow, and by their advice the Bill became law!

The search for the Steamship Pacific.—Sandy Hook, March 29 54 p.m.—There is no probability of the steam propeller Arctic getting in near enough to board her tonight. She is under sail, very slow. She sent the report of her cruise ashore at the Highland, and after making some enquiries again proceeded to sea. She has been cruising between Sable Island and lat 37°, but saw no vestige of the Pacific or any other wreck. All well on board.

NEW YORK FLOUR MARKET, March 21.—Flour eastern Common to extra State \$6 75 to 7; Upper Lake \$7 25 to 7 50; common to good Ohio, \$7 12 to 7 25; Southern steady, \$8 12 to 9; do to 9; fancy and extra \$8 12 to 9.

The ship James Baines had arrived at Liverpool, with 90,000 ounces of gold from Melbourne.

Joseph Salter, Esq., was re-elected Mayor of Moncton at the annual election on Monday last.

PROPOSED RAILWAY TO INDIAN TOWN.

We are informed that Wm. K. Reynolds, Esq., to whose enterprise and business ability we in a great measure owe our Suspension Bridge, has in contemplation to form a company for the construction of a line of railway from this City to Indian Town. The whole distance by the proposed route is stated to be about a mile and three quarters. The grade of the road to be the same as that of the contemplated European and North American Railway.

A Bill is now in course of preparation, which, we understand, was to have been before the Grand Jury to day, preparatory to its being submitted to the Legislature. The project is a feasible one, and has been long talked of by some of our citizens—it being admitted on all hands that, between this City and that place, there is simply sufficient to justify the undertaking. We are glad to see that a movement in the matter has been made by Mr. Reynolds—a gentleman whose qualities eminently fit him to carry out such an enterprise to a successful result.—*Courier*, 22d inst.

The Standard.

WEDNESDAY, MARCH 26, 1856

The business of the Legislature drags its slow length along; the ordinary routine business generally occupies the House—each morning until about 12 o'clock, after which the debate on the Government railway measures (which commenced on the 19th inst.) is taken up, and from present appearances, it is not improbable the Session of the Legislature may be extended to the 1st May next. From the telegraph report of the speeches there appears to be no union of sentiment on the Railway Bills, and it is feared that the Session will be allowed to pass by, without one measure being adopted.—The St. John and Shediac Railroad has more friends in the House than any other scheme; but the majority appear anxious to confine Jackson & Co's contract to complete the Line, in preference to their surrendering it on the payment of \$46,800 sig., in addition to \$43,200 already paid them.

The Bill to repeal the Prohibitory Liquor Law, is still before the House.—Mr. End introduced the bill is not anxious to bring on the discussion for a short time; there appears to be a disposition on the part of the non-prohibitionists in the House to place the onus on the Government of having the Law repealed; and one member of the Executive declared that he would vote for its repeal, were he doing so, even to sink the Government.

The bill introduced by Mr. Boyd, for a Public Cemetery for St. Andrews, will, no doubt pass the Legislature.

PUBLIC MEETING.—We have been requested to remind the Rate Payers of the Parish, that the meeting for the Election of Town and Parish Officers will be held on Tuesday next, when it is hoped that those interested will be present, and take part in the proceedings. Three respectable and well-qualified persons must be chosen to fill the responsible office of Revisors of Electors for Members of Assembly.

THE MECHANIC'S MACHINIST, AND ENGINEER'S PRACTICAL BOOK OF REFERENCE.—By Charles Haslett, Civil Engineer.—New York: Stringer & Townsend.

The author has presented us with a copy of this useful book, which can be carried in the pocket and contains an amount of valuable information not to be had in any work heretofore published—in fact it is "a practical pocket guide to all classes of Mechanics and Engineers." The tables have been prepared with great accuracy and may be relied on; as a book of reference to mechanics it is invaluable. That part of the work devoted to Railroad Engineering, will be found not only interesting, but of great service to gentlemen engaged in that pursuit, containing formulae for the various methods of running and changing lines, locating side tracks and switches, &c. &c. Tables of radii and their logarithms, natural and logarithmic versed sines and external secants, natural sines and tangents to every degree and minute of the quadrant, and logarithms of natural numbers from 1 to 10,000.

PROBINCIAL PARLIAMENT.

LEGISLATIVE SUMMARY.

March 20.—The bill to alter the division line between the Parishes of Chipman and Waterbury in Queen's County, was postponed for 3 months. The House proceeded to the consideration of the Railway Bills at 12 o'clock. Mr. End introduced the scheme in 1854; he stated that he was appalled by its magnitude.

Mr. Kett followed also, in opposition and took the ground that the condition of the Province would not warrant such heavy undertakings; the only line to which he was favorable was that from Shediac to the Bend. Hon. Mr. Tilley delivered a speech of nearly 2 hours and a half in length; he reviewed the arguments that had been used by the opponents of the scheme, and defended the course pursued by the Government respecting Railways. He believed that if the bill were not passed, we should be without Railroads for some time. Debate to be resumed on Saturday. Mr. Gray and others anxious to adjourn House until Monday.—Not acceded to.

Bill to incorporate Victoria College passed the Legislative Council.

March 22.—No business done this morning owing to absence of Members on committees. A bill relating to the Atlantic Telegraph Co., was presented by Mr. Gray, and referred to a committee; more petitions presented for and against the removal of the Shiretown of Kings.

Bye road committee met this morning; estimates not yet before the House—amount appropriated said to be less than that of last year.

The House resolved itself into consideration of the Railway Bills at half-past 2 o'clock; a short discussion took place, a motion was made to postpone till Monday, amendment by Mr. Gray that bill be not taken up again till 21st March, which was lost, only two voting for it—original motion carried.

No business of importance transacted, several bills presented; a long discussion took place upon the proposal of certain amendments to the Railway Bills—progress reported.

March 24.—After transaction of routine business this morning progress was reported on the Bill to incorporate the Trustees of St. David's Church in the city of St. John. The bill relating to the European & North American Railway, was taken up a few minutes before 12 o'clock. Mr. Steadman spoke for upwards of one hour in support of the scheme and in justification of the arrangement with Jackson & Co.

Mr. Wm. spoke briefly in condemnation of the scheme; he considered the undertaking too heavy for the Province.

Mr. H. spoke in a short speech in favor of the scheme, and secured members at making it a second trial of the Government.

This was contradicted by Mr. McPherson, who spoke for one hour and a half in opposition to the construction of Railways on the St. John & Shediac.

Mr. Allen spoke for half an hour in support of the first Bill; he was not favorable however to all the details of the scheme.

Mr. Hayward condemned the scheme, and believed its effects would be felt by future generations.

House adjourned a few minutes before 6 o'clock.

PROVINCIAL RAILWAYS.

The railway debate was commenced on Monday by the Attorney General in a very long speech, during which he labored hard, showing evident symptoms that he had an uphill fight and a bad cause to sustain. On Tuesday, the debate was continued; the speakers during the day being Messrs. Harding, Boyd, Brown and Gray. The latter gentleman in spoke about two hours in opposition to the Government scheme, and advocated the completion of the Shediac railway by Messrs. Peto & Co., under their contract, but according to the terms proposed by Sir Morton Peto in his letter to Mr. Ritchie of June last.

We believe we can say, in all sincerity and truth, that this is the plan which would give greatest satisfaction in this community. There is a very general feeling against breaking up the existing railway contract, and paying a further sum of \$47,000 sterling to Messrs. Peto & Co., especially after their offer to go on and complete the work, the Province taking the position which the Railway Company ought to have occupied, but which it cannot fill. The opinion is universal among business men that the terms imposed by Messrs. Barings are altogether too expensive, and that the restrictions they impose are too stringent, besides being degraded to the credit and standing of the Province. If after we have expended \$200,000, the Messrs. Barings refuse to go further, what can we do? We may be left with several unfinished railways on hand infinitely worse off than we are now, and that is quite bad enough.

The Government railway scheme is altogether too large and too expensive; and much as we desire railways we have no wish to see the Province rush into such a manner, that instead of securing the end desired, it may be without any complete railways for many a long year.—*N. Brunswick* 20th inst.

FATAL CASUALTY.—We are informed that Ebenezer, son of Mr. Jacob Wiggins, of Grand Lake, Queen's County, came to his death about a fortnight since while engaged in hauling logs out of the woods in that vicinity.

It appears that the deceased, who was alone, was driving three horses with a sled heavily loaded with logs, and it is supposed that one of the logs got out of place, and in his efforts to replace it, he fell and it rolled off the sled upon him, as his lifeless body was found beneath it. The melancholy death of this young man, who was in the 20th year of his age, is deeply regretted by his family and his friends, by whom he was much esteemed.—*Courier*.

A Bill to repeal the export duty on Hackmatack Knees, passed the Legislative Council on the 13th inst., by a vote of 10 to 5.

The Bill to extend the Charter of the order of the Sons of Temperance, was thrown out by the Legislative Council on Thursday, by a vote of 10 to 7.

A despatch from Copenhagen, states that the Great Belt is free from ice.

Married.—On the 19th February, at St. Mary's Church, Bryanston square, London, by the Rev W. H. Shore, brother-in-law of the Bride, Richard George Davies Lloyd, Esq., son of the late R. J. Lloyd Esq., of Elmonston House, Cheltenham, to Elizabeth, eldest daughter of the late Charles S. Putnam, Esq., of Fredericton, New Brunswick, barrister-at-law.

Died.—O. Sunday last, 23d inst., after a short illness, Mr. R. S. Gray, aged 76 years,—one of the best patriots of this Town.

At Woodstock, on the 11th inst., after a short illness, Charles Keichum, Esquire, in the 68th year of his age.
At St. John, very suddenly, of apoplexy, on the 17th inst., Ann, relict of the late Abel F. Esary, formerly of Fredericton, and daughter of the late George Henderson, of Chatham, Miramichi, aged 56 years.

Stammering Cured!

DR. BRONSON, AND C. C. BEERS.

ARE happy to announce that STAMMER-
ING can be PERMANENTLY CURED by
Medicine and Vocal Gymnastics. It is first treat-
ed as a Nervous Disease, (like Typhus, Dances,
Epileptic Fits, &c.) and then the habit, incident
to the disease, is corrected by exercises in Elo-
cution. Mr. Beers has been an inveterate stam-
merer for thirty-five years; has attended many
institutions for the cure of stammering, and ex-
pended hundreds of dollars without any perma-
nent benefit, but cured himself, 18 months ago,
and has ever since remained so: With the
same means, we have cured others, to whom we
would gladly refer any applicants—not having
failed in a single instance. Being satisfied from
reason, experience, and observation, that stam-
mering is the effect of a Nervous Disorder, and
can be perfectly cured by the above means in the
course of two or three weeks, we assure all in-
terested of these gratifying results, and guaran-
tee a permanent cure, or refund the small fee
paid in advance. These desiring further infor-
mation on these subjects, (including terms,
gratis, &c.) can obtain it from our New
Work, just issued, on Stammering, its Effects,
Causes and Remedies: Illustrated by One Hun-
dred Engravings: Price, One Dollar; on the
receipt of which the Book will be sent without
expense, and the money then paid will be cred-
ited in the bill for Treatment. Board, etc, fur-
nished on reasonable terms. Address BRONSON
& BEERS, 190, Washington-street, Boston, Mass.

European Intelligence.

SECOND DESPATCH.
(Via the Fredericton and Quebec Lines.)
New York, March 20.

The Persia arrived at her dock at 8 this morning. The Persia and the Quaker City arrived at Liverpool together on the morning of Saturday the 21 inst. Both steamers were detained off the bar for want of water for some hours.

The Quaker City sailed from Liverpool at 10.30 on the night of Wednesday. She took out the report of the signing of the preliminaries of peace, but subsequent information would imply that the plenipotentiaries had merely appended their names to the Parliamentary formalities. She also conveyed the speech of the Emperor Napoleon in the Legislative Assembly, in which he spoke in cordial terms of the English alliance, and while he hoped for peace, it was necessary to be prepared for either peace or war.

The Persia brings nothing to add to the above, excepting a general rumor that negotiations proceed satisfactorily.

THE CONFERENCE.

Nothing is really known of the proceedings of the negotiations. The "Emancipation Belge" publishes a communication purporting to proceed from Paris, which says that the first four points were decided on Thursday, and that the discussion of Saturday to be very warm, and was in fact between Baron Brunow and the English plenipotentiaries, during which Count Orléans remained quiet, but at last broke his long silence, and said as follows:—"Peace must be restored to the civilized world. We are all great enough to pass over certain details in the treaty of Adrianople, and to me it belongs to tear it. We accept the rectification of the limits proposed for Bessarabia, and for the Asiatic Provinces, we adhere to the condition about not establishing the fortress of Bismarck, and desire that the lives of Alsace shall be a menace for no one. There is no doubt we will give up Nicolaeff without compensation, and the city of Kars to our ancient ally the Sultan."

The "Emancipation" goes on to say that this language caused, as well it might, a profound sensation; so profound that the plenipotentiaries remained silent, no doubt as strong as to be able to say:—"After we are all agreed let us sign." The plenipotentiaries shook hands and parted. The "Emancipation" unfortunately adds, that on the following day, Monday, the Emperor's speech would contain the announcement about peace.

This story is regarded about Paris as something similar to that of the first taking of Sebastopol, and has already obtained the appellation of "Canard à la Tartar."

Despatches from Berlin speak of a similar statement of things, and it is expected that a combination exists both in Paris and Brussels for the fabrication of news with a view to Bourse speculations.

The Crimea.—Delegates from the two armies had met to regulate the details of the armistice.

Baltic.—From Hamburg, March 5th, it is stated that two Russian war steamers accompanied by three gun-boats, have got out of Swenborg by breaking the ice.—These ships have appeared in the Baltic.

THE FALL OF KARS.

The papers relating to the fall of Kars have been laid before Parliament, published in the Blue Book. They embrace the whole subject of the war, the defence and fall of Kars, the conduct of Lord Stratford, the proceedings of the Allied Generals, and the policy of the Allied movements. The Book discloses some singular circumstances. On the 14th of July, 1855, Gen. Simpson forwarded to the Government the particulars of a conference attended by Gen. Pelissier, Gen. Marmora, Admiral Lyons, Brant Steward, and Gen. Simpson, at which Omar Pasha endeavored to induce them to send a portion of the troops from the Crimea to Asia. Omar offered to proceed with the 25,000 men whom he brought from Eupatoria, to Asia, for the purpose of relieving Kars. All the Generals and Admirals were unanimous in rejecting his proposal, and as he still maintained his opinion, he left for Constantinople, to lay the plan before the Sultan. In order to counteract Omar's proceedings, the General wrote thus to Lord Stratford de Redcliffe:—"Use your powerful influence to cause our opinion to prevail over that of His Highness, for great public interests are at stake, and serious consequences might result from his success."

Omar Pasha's plan was to make a powerful diversion from Redoubt Kaleh, with the view of menacing the communications of the Russians, and compelling them to raise the siege of Kars. This project found favour in the Turkish Councils at Constantinople. Lord Clarendon also seems to have approved of it, at least, a trial of the plan, and attributed the opposition made to it to the Turkish Government. He (Clarendon) therefore wrote to Lord Cowley at Paris in these terms:—"I regret that the French Government should oppose the expedition, and the British Government would doubt whether it were wise, even if they had the right to do so, to object to the adoption of such a course by the Porte, since the void made by the withdrawal of Omar Pasha's troops from the Crimea might be filled up by sending Gen. Vissian's contingent to either Balaklava or Eupatoria."

On the 4th of August, Lord Cowley replied by telegraph:—"The French Government will not oppose the projected

expedition to Asia Minor under Omar Pasha provided that the numbers of the Turkish contingent before Sebastopol are not diminished."

On the same day Lord Clarendon telegraphed to Lord Redcliffe:—"Omar Pasha can go to relieve Kars, provided he does not diminish the Turkish troops before Sebastopol or disturb the garrison of Yanikale."

General Williams meantime continued to alter note to Lord Redcliffe, and at length he complains that he had written fifty-four despatches and fifty-four private letters, and the only reply he received was a request to try to "reconvert some Russian ladies who had been carried off by a Turk! Dearest Vivian to hold himself in readiness to go to Eupatoria with the Turkish contingent." Napoleon seems to have interposed some new objections.

On the 29th of August, Lord Cowley again writes to Clarendon, and says the Emperor has no objection to the removal of the troops from Balaklava, and to their being repaid by others, provided that the allied commanders have no objection, but he will not take upon himself the responsibility of saying more.

On the 10th Dec. General Codrington writes to Lord Stratford:—"I wrote Marshal Pelissier in the general tone of your letter, expressing to him the great object it seemed to be to get the Turkish troops to Trovazud, and that if done at all it should be done at once, and offer my assistance, if I could by communication with the Government navy to further this object." His answer was that he could not consent to their leaving Eupatoria without the express sanction of the Emperor of the French.

At length Lord Redcliffe vouchsafed the following lame explanation:—"It remains for me to say a word respecting my silence towards General Williams. It has in truth continued longer than I intended. It originated in my anxiety not to occasion disappointment by announcing measures that might or might not be carried into effect. I know that during the winter season little comparatively could be done, and I preferred under the pressure of business to flow in abundantly from other sources, to give my correspondent an answer in full, rather than keep up a succession of partial communications."

The British ship Morning Light, (built by Messrs. Wright, of St. John's) Capt. Guller, sailed from Mobile on the 5th, with the largest cargo ever taken out of that port by any one vessel. This cargo consists of 5,859 bales of cotton, with a large lot of lumber. The weight of these bales is 3,002,545 lbs., an average of very nearly 512 pounds to each bale.

IMPORTANT MEMORANDUM.—In the correspondence submitted to the House by Messrs. Pelissier in reference to the Liquor Law, appears a memorandum, or communication from His Excellency to His Council, dated April 10th, 1855, from which we make the following extract:—"Should the Executive Council advise the Lieutenant Governor to give his assent to the Bill, they will of course be prepared to assume the responsibility of enforcing it."

On the other hand, should the Executive Council be of opinion that the measure is not in accordance with the wishes of the People of the Province, and should they advise His Excellency to withhold his assent from the Bill, His Excellency will be prepared to act upon that advice, and to take the sense of the People of the Province with respect to the measure, in the manner which the Constitution prescribes."

Upon the receipt of the above memorandum the Council, however, and unanimously (with the exception of Mr. Stier, who was absent through sickness), advised His Excellency to give his assent to the Bill. Messrs. Ritchie, Johnson, and Smith supported the Bill in the House, but when they were told that an appeal would be made to the country if they advised it, they found the pill too bitter to swallow, and they found the Bill became law!

The search for the Steamship Pacific.—Sandy Hook, March 25th 54 P.M.—There is no probability of the steam-propeller Arctic getting in near enough up-bayward to sight. It is under sail, very slow. She sent the report of her cruise ashore at the Highlands, and after making some enquiries again proceeded to sea. She has been cruising between Sable Island and lat. 37°, but saw no vestige of the Pacific or any other wreck. All well on board.

NEW YORK FLOUR MARKET, March 21.—Flour easily: Common to a fair size \$6 75 to 7; Upper Lake \$7 to 7 25; common to good Ohio \$7 12 to 7 25; Southern ready, mixed to good, \$7 75 to 8; fancy and extra \$8 12 to 9.

The ship James Baines had arrived at Liverpool, with 90,000 ounces of gold from Melbourne.

Joseph Salter, Esq., was re-elected Mayor of Moncton at the annual election on Monday last.

PROPOSED RAILWAY TO INDIAN TOWN.—We are informed that Wm. K. Reynolds, Esq., to whose enterprise and business ability we, in a great measure, owe our Suspension Bridge, has in contemplation to form a company for the construction of a line of railway from this City to Indian Town. The whole distance by the proposed route is stated to be about a mile and three quarters. The grade of the road to be the same as that of the contemplated European and North Am-

erican Railway. A Bill is now in course of preparation, which, we understand, was to have been before the Grand Jury to day, preparatory to its being submitted to the Legislature. The project is a feasible one, and has been long talked of by some of our citizens—it being admitted on all hands, traffic, &c., between this City and that place are simply sufficient to justify the undertaking. We are glad to see that a movement in the matter has been made by Mr. Reynolds—a gentleman whose qualities eminently fit him to carry out such an enterprise to a successful result.—*Courier, 22d inst.*

The Standard.

WEDNESDAY, MARCH 26, 1856

The business of the Legislature drags its slow length along; the ordinary routine business generally occupies the House each morning until about 12 o'clock, after which the debate on the Government railway measures, (which commenced on the 19th inst.) is taken up, and from present appearances, it is not improbable the Session of the Legislature may be extended to the 1st May next. From the telegraph report of the speeches there appears to be no union of sentiment on the Railway Bills, and it is feared that the Session will be allowed to pass by, without one measure being adopted. The St. John and Shediac Railroad has more friends in the House than any other scheme; but the majority appear anxious to continue Jackson & Co's contract to complete the Line, in preference to their surrendering it on the payment of £46,800, in addition to £43,200 already paid them.

The Bill to repeal the Prohibitory Liquor Law, is still before the House.—Mr. End the introducer of the bill is not anxious to bring on the discussion for a short time; there appears to be a disposition on the part of the anti-prohibitionists in the House to place the onus on the Government of having the Law repealed; and one member of the Executive declared that he would vote for its repeal, were he doing so, even to sink the Government.

The bill introduced by Mr. Boyd, for a Public Cemetery for St. Andrews, will no doubt pass the Legislature.

PUBLIC MEETING.—We have been requested to remind the Rate Payers of the Parish, that the meeting for the Election of Town and Parish Officers will be held on Tuesday next, when it is hoped that those interested will be present, and take part in the proceedings. Three respectable and well-qualified persons must be chosen to fill the responsible office of Revisors of Electors for Members of Assembly.

THE MECHANIC'S MACHINIST'S, AND ENGINEER'S PRACTICAL BOOK OF REFERENCE.—By Charles Haslett, Civil Engineer.—New York: Stringer & Townsend.

The author has presented us with a copy of this useful book, which can be carried in the pocket and contains an amount of valuable information not to be had in any work heretofore published—in fact it is "a practical pocket guide to all classes of Mechanics and Engineers." The tables have been prepared with great accuracy and may be relied on; as a book of reference to mechanics it is invaluable. That part of the work devoted to Railroad Engineering, will be found not only interesting, but of great service to gentlemen engaged in that pursuit, containing formulas for the various methods of running and changing lines, locating side tracks and switches, &c. &c. Tables of radii and their logarithms, natural and logarithmic versed sines and external secants, natural sines and tangents to every degree and minute of the quadrant and logarithms of natural numbers from 1 to 10,000.

Provincial Parliament.

LEGISLATIVE SUMMARY.

MARCH 20.—The bill to alter the division line between the Parishes of Chipman and Waterbury in Queen's County, was postponed for 3 months. The House proceeded to the consideration of the Railway Bills at 12 o'clock. Mr. End condemned the scheme in toto; he stated that he was appalled by its magnitude.

Mr. Kerr followed also in opposition and took the ground that the condition of the Province would not warrant such heavy undertakings; the only line to which he was favorable was that from Shediac to the Bridge.

Hon. Mr. Tilley delivered a speech of nearly 2 hours and a half in length; he reviewed the arguments that had been used by the opponents of the scheme, and defended the course pursued by the Government respecting Railways. He believed that if the bill were not passed, we should be without Railroads for some time. Debate to be resumed on Saturday. Mr. Gray and others anxious to adjourn House until Monday.—Not acceded to.

Bill to incorporate Victoria College passed the Legislative Council.

MARCH 22.—No business done this morning owing to absence of Members on committees. A bill relating to the Atlantic Telegraph Co., was presented by Mr. Gray, and referred to a committee; more petitions presented for and against the removal of the Shiretown of Kings.

Bye road committee met this morning; estimates not yet before the House—amount appropriated said to be less than that of last year.

The House resolved itself into consideration of the Railway Bills at half-past 2 o'clock; a short discussion took place, a motion was made to postpone till Monday, amendment by Mr. Gray that bill be not taken up again till 31st March, which was lost, only two voting for it—original motion carried.

No business of importance transacted, several bills presented; a long discussion took place upon the proposal of certain amendments to the Revenue—progress reported.

MARCH 24.—After transaction of routine business this morning progress was reported on the Bill to incorporate the Trustees of St. David's Church in the City of St. John.

The Bill relating to the European & North American Railway, was taken up a few minutes before 12 o'clock. Mr. Stedman spoke for upwards of one hour in support of the scheme, and in justification of the arrangement with Jackson & Co.

Mr. Wilson spoke briefly in condemnation of the scheme; he considered the undertaking too heavy for the Province.

Mr. H. H. way made a short speech in favor of the scheme, and secured members of making it a second trial of the Government.

This was contradicted by Mr. McParlin, who spoke for one hour and a half in opposition to the construction of Railways on the St. John River, and in favor of the line from St. John to Shediac.

Mr. Allen spoke for half an hour in support of the first Bill; he was not favorable however to all the details of the scheme.

Mr. Hayward condemned the scheme, and believed its effects would be felt by future generations.

House adjourned a few minutes before 6 o'clock.

PROVINCIAL RAILWAYS.—The railway debate was commenced on Monday by the Attorney General in a very long speech, during which he labored hard, showing evident symptoms that he had an uphill fight and a bad cause to sustain. On Tuesday, the debate was continued, the speakers during the day being Messrs. Clarendon, Boyd, Brown and Gray. The latter gentleman spoke about two hours in opposition to the Government scheme, and advocated the completion of the Shediac railway by Messrs. Peto & Co., under their contract, but according to the terms proposed by Sir Morton Peto in his letter to Mr. Ritchie of June last.

We believe we can say, in all sincerity and truth, that this is the plan which would give greatest satisfaction in this community. There is a very general feeling against breaking up the existing railway contract, and paying a further sum of £47,000 sterling to Messrs. Peto & Co., especially after their offer to go on and complete the work, the Province taking the position which the Railway Company ought to have occupied, but which it cannot fill. The opinion is universal among business men—that the terms imposed by Messrs. Peto are altogether too expensive, and that the restrictions they impose are too stringent, besides being prejudicial to the credit and standing of the Province.

After a session have expended £800,000, the Messrs. Peto refuse to go further, what can we do? It may be left with several unfinished railways on hand infinitely worse off than we are now, and that is quite bad enough.

The Government railway scheme is, altogether too large and too expensive; and much as we desire railways we have no wish to see the Province rush into them in such a manner, that instead of securing the end desired, it may be without any complete railway for many a long year.—*N. Brunswick 20th inst.*

FATAL CASUALTY.—We are informed that Elzezer, son of Mr. Jacob Wiggins, of Upper Lake, Quere's County, came to his death about a fortnight since while engaged in hauling logs out of the woods in that vicinity. It appears that the deceased, who was alone, was driving three horses with a sled heavily loaded with logs, and it is supposed that one of the logs got out of place, and in his efforts to replace it, he fell and it rolled off the sled upon him, as his lifeless body was found beneath it. The melancholy death of this young man, who was in the 20th year of his age, is deeply regretted by his family and his friends, by whom he was much esteemed.—*Courier.*

A Bill to repeal the export duty on Hackmatack Kites, passed the Legislative Council on the 13th instant, by a vote of 10 to 5.

The Bill to extend the Charter of the order of the Sons of Temperance was thrown out by the Legislative Council on Thursday, by a vote of 10 to 7.

A despatch from Copenhagen, states that the Great Belt is free from ice.

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price \$1 25, 83c. 67c.

We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for. (Parian Recorder.)

No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer.]

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weakened down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE; and the IRRITABLE, of all climates, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy for the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Jaundice
Asthma	Liver complaints
Bilious complaints	Lumbago
Blisters on the skin	Rheumatism
Bowel complaints	Retention of Urine
Colic	Scrofula, or King's Evil
Constipation of the Bowels	Sore Throats

A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!

Holloway's Ointment.

THE GRAND EXTERNAL REMEDY!

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS.

No remedy has ever done so much for the cure of diseases of the Skin, as this Ointment. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot. Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chicgo-foot
Bad Breasts	Chilblains
Burns	Chapped hands
Bunions	Corns (soft)
Bite of Mosquitoes	Cancers
Cold and Sand Flies	Contracted and Stiff Joints
Coco-balls	Fistulas
Elephantiasis	Glandular Swelling
Gout	Lumbago
Scurvy	Rheumatism
Sore Heads	Tumours
Tumours	Ulcers
Wounds	Scaids
Yaws	Sore Nipples.
