## ASKS LEGISLATURE TO END HER SUFFERINGS DUPLICATES TERMS

Woman Who Suffers Intense Agony Asks That Physicians Be Permitted to Give Her a Merciful Death.

New York, Aug. 31.—Mrs. Sarah Harris, 33 years of age, a sufferer from paralysis for three years, dictated from her bed at the Audubon Sanatorium today an appeal for an act of the Legislature, which would make it lawful for physicians to end her sufferings by a merciful death. For three years Mrs. Harris has not been able to move hand or foot, because of a spinal [Canadian Press.] maindy which keeps her constantly in intense pain. The superintendent of the sanatorium said today that Mrs. Harris might

Weather Probs: Fine

Store Closes Today (Saturday) at 5 p.m. Monday (Labor Day) Store Will Be Closed

> Today will end the Summer Early-Closing Schedule and, fortunately, the month ends with Saturday, thereby enabling the employees of this store to get away early this evening for another week-end double holiday.

# Store Will Resume Regular 6 o'Clock Closing Next Week

On Tuesday we will resume regular hours of business from 8 a.m. to 6 p.m. every day (Saturdays included).

The passing of Labor Day marks the real beginning of fall business, the returning home from the lakeside or summer home, and the sound of the school bell once more reminds us of the approaching fall and winter season, which means much preparation and planning. While you were at the summer resort or on your vacation our buyers were searching the European fashion centres for the newest fall and winter merchandise, the greater portion of which is already displayed on the different floors in the various sections throughout the store.

With the imports which have passed through the receiving room this week, added to the already fine assortments in dress goods and suiting section and in ladies' ready-to-wear section on second floor, your choice will be well and easily made from next week's displays.

See Monday's Paper for Tuesday's Sale Announcements

#### LONDON, SATURDAY, AUG. 31. LIEUT .- COL. AIKINS' GREAT "SCOOP."

Lieut.-Col. J. A. M. Aikins, K.C., M P., Brandon, Man., has returned to England from the continent of Europe with the news that Great Britain and Germany are already at war. To be sure the "overt" blow has not been struck, "but when it is," says Mr. Aikins, "all may be over in three months or three days."

In the meantime there are some reassuring signs. The cables are still in working order, under British control, but are silent on the subject of war, except for the Aikins dispatch. Passengers on the incoming Atlantic steamers had not heard of it when they left the old sod, Mr. Asquith is playing golf in Yorkshire: the Chancellor of the Exchequer and the Attorney-General at last accounts were "taking the waters' in Germany, and had not been arrested as spies. Is this only another proof of the unpreparedness of the Asquith Government over which the Maritime League sheds so many tears? What of the score of Union-1st members of Parliament, among them such front-benchers as Walter Long and F. E. Smith, who are holidaying in the far west of Canada, 5,000 miles from the seat of war? These wayfaring members of the party which regards the German scare as an asset, left home with light heart and have not been summoned back. Our own Minister of Marine left the shores of England ten days ago, in an easy frame of mind. #### CANADA'S OVERFLOWING WHEAT CROP.

It is becoming a very practical and Interesting, indeed pressing question, what is to be done with the increasing wheat crop of this country in the next few years. Who will buy?

Last year our total production of even in Saskatchewan alone, will lothian. amount to four hundred million bushels. Great Britain's total annual purchase is only about two hundred millions, of which only forty-three millions were imported last year from this country; in 1910, forty-six millions; in 1909, forty-eight millions. Our exportation to Great Britain has thus been decining of late, rather than advancing. The export of flour to Great Britain was, in 1911, nearly two million barrels, representing, say, about seven million bushels of wheat. Fifty mil-Britain's demand from us in the form of flour and wheat in normal years.

The United States, which might have been made at once a good customer, bought only 242,660 bushels of wheat, and 25,967 barrels of flour, from Canada in 1911, a heavy decline from 1910, not more than 350,000 bushels of wheat all told, an almost get the tomato cans hid from the Thirty Residents of Chelsea Gent." i. e., "Henry Cockeram, Gentlenegligible quantity. To other countries we sold 1,900,000 bushels of wheat in 1911, more than in 1910, but less than in 1909, and 1,100,000 barrels of flour, a gain: total, about six and a half million bushels of wheat. Countries like Germany and Austria are too near to Russia to need a large supply of grain

Our exportation of wheat totalled, then, last year, about fifty-seven million bushels. At the end of Decembushels in the hands of Canadian twenty million bushels were needed honest living. for seed, and allowing a waste of thirty millions, through bad weather, and lack of storage and transportation, we may suppose that Canada's home consumption of wheat amounted last year to about eighty million bushels, a very large amount compared with Great Britain's two hundred and sixty millions. But what will be done with the increased output of 1912? The production is clearly advancing faster than the home and foreign demand together. Either there will be still greater waste or a marked lowering of

Great Britain's demand, diminishing in the last three years, cannot be depended on to increase very materially. She must go on importing heavily from India and Australia, to whom she exports more than to Canada, and

from Russia and Argentina, with whom also her trade is very large. The one customer that we can count on for vastly increased purchase, if we States. It works out mathematically, and is beyond any argument. Last year a deluded majority in Eastern Canada | the diplomatists say. voted against satisfying the manifest need of the west, and of the whole Dominion, in refusing to ratify the Taft-Fielding pact. But it will not be long; before immediate pressure of facts will drive the simple arithmetic of the grain situation into every Canadian head, however thick padded with prejudice of one sort and another against

#### THE ANNEXATION PROJECT.

It is surprising that the proposal of amalgamation with the city finds opposition in Ealing, Pottersburg, Knollwood Park and Chelsea Green. The residents there, especially the owners of vacant land, have less ground for opposition than the property-owners within the present city limits. The suburbs, if annexed, would enjoy all the conveniences and advantages of the city. They would get better fire protection, a waterworks service, and street railway extensions. While their Dull I was, but plain as day taxes would be somewhat higher than at present, they would pay less than other sections of the city, and they would receive more in proportion to their payments. If these suburbs wanted local improvements, which would give a higher value to their lands, all the ratepayers of London would contribute.

Any opposition at all would naturally be expected to come from city ratepayers. The differential rate of taxation-15 mills on the dollar for fifteen vears-would give the new suburbs an advantage over the districts within the present city limits, where there is plenty of vacant land for building. The new streets would fall on the general tax rate. The new sections would have extensions. As the geographical centre of the city would be shifted a long way eastward, the police and fire brigades would have to be considerably increased. On the whole the balance of precocious miss, "two of my front benefit seems to be largely in favor of

It Would Be Proper.

Dear Miss Grey: Is it proper for a man, meeting a young lady socially a number of times, to ask if he may call, or must he wait until she invites him? IMPATIENT. A.—Ask if you may call, and if you make yourself agreeable she will ask you to call again.

Dressing Hair.

Dear Miss Grey: Please tell me some new ways to dress the hair. F. E. W. A .- A pretty way for a young girl to dress her hair is in three coils done low in the neck. This is a very girlish style. If your hair is long, another pretty way to arrange it is to divide it in half and make two braids. Then coil the braids over the ears or put them around the head. It is hard for me to give advice to one whom I have never seen on how to arrange her hair, so I would suggest that you sit in front of your mirror and do it several different styles and then adopt the one

Tan and Freckles. Dear Miss Grey: Can you tell me some way to prevent tan and freckles?

A .- It is much easier to prevent tan and freckles than it is to remove them. When you tan or freckle easily pro-tect your skin from the rays of the sun by first covering the face with a good cold cream, rubbing it well into the skin and then taking it off with a soft cloth and dusting with plain rice powder. Never go out into the sun without wearing a hat or shading your

Cook Cornstarch Cornstarch Jelly For Invalids.

Mix in a tumbler, 1 teaspoonful of ornstarch with a little cold water. Pour sufficient boiling water on it to form a clear jelly, stirring it well all the time the water is being poured on. Then add a cupful of cordial and a little sugar.

#### Soup Balls With Cornstarch.

Blend 2 tablespoonfuls of cornstarch with half a pint of milk. Put it into saucepan and add 1 tablespoonful of butter. Bring to a boil and boil 5 minutes, stirring all the time. Take it off the fire and allow it to cool slightly Add a well-beaten egg, 1 tablespoonful of fine bread crumbs, half a teaspoonful of salt, a quarter of a teaspoonful of pepper and 1 tablespoonful of chopped parsley. Form into small balls with a spoon. Pour into boiling water and poach for 3 minutes.

#### Cornstarch Omelet.

Separate the yolks of 2 eggs from the white. Beat up the yolks in a small basin and add a pinch of salt. Blend 1 tablespoonful of cornstarch with three-quarters of a cupful of milk and add the yolks to it. Season with pepper and salt and fold in the stifflypeaten whites. Put half a tablespoonful of butter into the pan. Let it get hot, then pour in the mixture slowly Shake the pan gently over the fire. When the omelet is set and the underside slightly browned, put it in the oven till the upper side is browned. Add 1 tablespoonful of cooked, chopped chicken or cooked ham, tongue o kidney. Double over and put on hot dish. Serve at once

#### Dry-Clean.

To dry-clean corsets, lay corsets on table, as flat as possible, and rub with pumice powder, using a firm piece of flannel. Moisten the powder and apply where there are very dark marks, leave as a paste to dry and roll up till next day. When dry, brush with clean brush. This powder will also take greasy marks out of a dellcate silk dress.

#### Mend Gloves.

Sometimes a kid glove tears just when it is needed for wear. If there isn't time to sew them, paste a strip of court plaster on the underside to hold the torn edges together. The rip will scarcely show. The gloves will wear well without further mending for a long time.

Varnished Floors. Use cold water only in washing var-

# FORTUNE SMILED ON SILCOX AND HE BEAT HIS OLD PALS

Former London Pitcher, on Mound for Guelph, Holds Tecumsehs to Six Hits and Two Runs-Fitzpatrick Pitched Good Ball-Fox Played a Great Game.

FBY JINX.1 The Barrett Bingless Brigade got rid of one of the remaining few at the local observatory of pleasant pastime yesterday afternoon in most exasperating fashion. It was ladies' day, and one of the largest gatherings of millinery seen at the park this season occupied the grandstand. And to cop it all, th old-time ladies' day hoodoo was back on the job working overtime. Mr. Needham and his near-cellar occupants were the main gazaboos, with Mr. Tommy Silcox, late of these parts, occupying the bright spot in the glow. "Sil" had his first chance at his former team-mates since he was chased by the local management a few weeks ago, and he came out of the conflict unscathed with the figures dancing a 5 to 2 tune in his favor. Talk about rubbing it in, eh? The former pride of the home folks was there as large as life, and he let his

one-time team-mates down with a measly six bingles.

But it was not all due to Mr. "Saliva" Silcox. No, not all of it. The local pill-peddlers turned a few tricks that for plain and fancy boneheadedness had it on a billiard ball in forty different aspects. They just could not bear to see Mr. Silcox lose his game, having failed to get rid of the habit to help him win. It almost seemed as though both teams were trying to make it a big day for Tommy, and he was handed all the bouquets when it came to

sufficient for a run, but there are times was a short one, and Dinsmore fielded it quickly. Fitzpatrick is a slow runner, or at least a slow man to get start-He has to cover about two bases before he hits his stride. He was only at third when Dinsmore got the ball. Manager Barrett was coaching, and ties offered. There was nothing of an should have known better than to let exciting nature again until the eighth, "Fitz" go the distance. He should have when the Indians managed to put a tripped him up and sat on his neck man across. Fox got hit by the pitcher, said "dig," and "Fitz" dug. And with him died any chance the locals had of annexing Mr. Silcox's goat for this season

Frank Fox Was There.

Outside of the Silcox performance, one ing sight-seeing for the fans was the work of Frankie Fox, who, owing to a bad finger, was swerved from third base while Linneburn cavorted around the three-ply deck. A squint at the box score will show that Frankle had ten chances without a slin-up, and he taking notice of the things he was doing in the middle infield. Everything was coming Frankie's way, and it was no place for a man with an invalid digit. But Fox was right on the job every time, and he pulled off some real handsome fielding stunts, his catch of Brady's fly in the fourth, when he had ing to inject as much ginger into Fox third base but look on, green with envy, while Foxy was having his busy mo-

Rochester Was Beaten Again By Mc Ginnity's Crew-Buffalo Beat the Birds Twice.

Toronto, Aug. 31.-Welcoming the change from the "two-a-day" of the past week to the commonplace one game, the Kelleys took just one hou and twenty minutes to chase the Providence Clams back into their cyclone cellar yesterday. The plain, unvar nished statistics are 7 to 3. But that is not all. Somehow for the past three is not all. Somehow for the past three baseball seasons the fans have been St. Louis Southpaw Pitches a accustomed to saying "How did Ro-chester do?" It is said that Jim Mc-Caffery says that in his sleep. From Teronto standpoint Rochester did very handsomely, thank you. McGinnity's Indians walloped 'em. Wyatt Lee was foreman of the job. It seems that bugbears like Lee have their uses Kelley and McCaffery sent McGinnit, and Lee an illuminated letter of thanks and congratulation last night, for didn't the trimming of the Hustlers and the victory of the Leafs out us four games to the good? Red Sox Beat Athletics in Second of Series-Naps Beat White Sox, and Senators Also Win.

Detroit, Aug. 31.-As a place for pitchng a no-hit game, Navin Field sems to e a wonder. Two have now been twirled in the American League, and both of them on the Tigers' home park. Earl Hamilton, the St. Louis southpaw, let the Detroiters down without anything resembling a hit, yesterday afternoon, and while Stovall's star twirler was unable to hold the Tigers scoreless, he deserves credit for pitching one of the finest games ever seen here. The only feat equal to his was George Mullin's no-hit, no-run contest pitched against St. Louis on the afternoon of July 4. The sentimental interest attached to George's great come-back does not hold good in Hamilton's case, though he returned the big Tiger twirler's compliment in a queer fashion. Th

It was perhaps their community of ideas that brought him and Mr. Hemmerde into association. This was followed by an association of a different kind. In collaboration they produced "Breaking a Butterfly," one of the most successful dramas of a season. To his cause Mr. Neilson brings the invaluable gift of a very unselfish enthusiasm. Though brought up in the hard school of the world behind the scenes, he has remained an idealist. I should add that people who knew him in his earlier days, still speak with enthusiasm of his remarkable gifts as a stage producer, his knowledge of color, of effect, and of organization. Many of the greatest productions at Covent Garden were brought out under his skillful guidance: women in Lancashire subscribe more other Ulsterman, the redoubtable Perhaps his experience in this world to their union than your men," and Richard McGhee, of whom more anon. has helped him largely in politics; only those outside politics fail to appreciate how much the effectiveness of a cause is helped by the dramatic in stinct of the moment, and the act word that the moment demands.

Mr. Hemmerde is a fighter; seeks as most men would avoid a big and difficult battle. For instance, he gave up a safe Welsh seat to have the rollicking fun of a contest with Lord Charles Beresford at Portsmouth; he was beaten, but before he had finished the fight, he had battered sides of even so tough an old battleship as Lord Charles.

Another figure is of a very different type. Alderman Raffan, the nember for the Leigh division, is a curious -combination. He is a Welsh Scotchman. Born over the border, he went in search of fortune, after the manner

MINARD'S LINIMENT FOR SALE

#### JAPS WANT MANCHURIA

Pekin, China, Aug. 30.—Dr. Sun Yat Sen in the course of an interview today openly expressed fears that Japan would take aggressive action in Manchuria, and showed pessimism concerning China's ability to save the eastern provinces. He said it was necessary for the Government's safety to remove the Chinese capital owing to the probability of Japan taking Manchuria, and thus coming within close striking distance of Pekin.

Should hostilities between Japan and China break out, Pekin's capture would be certain, he said, and such an event would de-moralize the people and practically end the war. Nanking or Wuchang, he thought, could be more easily defended.

In reply to a question the first provisional president of the republic said that Japan was China's greatest enemy. When asked if the powers would permit the occupation of Manchuria, he replied that no individual power was strong enough to object effectively. Japan's power in Oriental waters, he declared, was similar to that of England in the North Sea.

Dr. Sen's words plainly indicated that China has no faith in Japanese promises.

#### CABLE RATES ARE TO BE REDUCED

ead of British Postoffice Co-operated With Dominion To Secure Fairer Schedule.

London, Aug. 30.-L. P. Pelletier made the following statement today to the Canadian Press before sailing for Canada: When I first arrived in London I said one most important object of my visit was to try to obtain a reduction in cable rates. I then promised to make a public statement before I left. These rates, in my opinion, are unfair, and should be ganized to carry on colonization work considerably lower. Moreover, as I could clearly see, these ne- who may take land in the townships Consequently, I then turned my mind in another direction, and told the principal negotiator on the company's side I was doing so. Whilst I was working for something better than the cable companies seem disposed to grant, Mr. Samuel, who had more power in his hands with his landing license, and who could to a certain extent command the situation, reopened alone the negotiations with a view to bringing the cable companies to a point where some of the rates at least would be reduced by

far, and his hopes of further progress in the early future.
Not All Lowered. With regard to some other rates, all I can say now is it has been decided so far that some of the rates will be reduced, and such reduction will be made within a fortnight or so, but all the rates will not be lowered. Mr. Samuel being unavoidably away, I do not care to announce today what are the reductions now decided upon, and, on the whole, the public will be in a better position to appreciate the known altogether and not Mr. Samuel will wire piecemeal. me all the reductions which are to be made. As the last word to be used in this matter of rates, our liberty of action remains unimpaired for many reasons, and, amongst others, pecause our sister overseas dominons with whom we all desire to act

in full co-operation and in concert-ed action, will have to be consulted about the future course of events. Meanwhile, everybody will be happy to hear at last that some reductions will be made in the anticipated rates to which a long complaining public has so far been subjected.

Mrs. Mulford says she has letters in which Moller called her "dearest love," "Little Bella," and "My Best Darling." She says she spent \$2,000 trying to force Moller to marry her, and had to pawn her jewelry, so that she is obliged to go to work now to make enough to pay her passage to England. Young Renfrew County Farmer Charged With Causing Death.

# A PLEA OF SELF-DEFENCE

Says He Must Have Stabbed During Melee, But Did Not Intend To.

Cobden, Renfrew County, Aug. 31 .-Shortly after midnight Peter Collins, young farmer of the district, was arrested on a charge of murder in causing the death by stabbing of Grant Appleby, a student of the Ontario Veterinary College, Toronto. who was spending his vacation at the home of his parents, Mr. and Mrs. Thomas Appleby, Ross Township. The affray took place last evening right in front of the Appleby residence, and was the sequel of quarrel of the night before.

The fatal row occurred shortly after 6 o'clock, and immediately afterwards Collins disappeared. It was thought he was fleeing from justice, but he did not know that the man was dead until he was told at the house of his brother and said it was in self-defence.

Collins' Story. The story told by Collins is that he was on his way to the farm of James Logan and that as he approached the Appleby home the two Applebys, Grant, the victim of the killing, and his brother Reuben, came at him to "lick" him. He says he was filling his pipe and had his pocketknife out in doing so. In the melee, he says, he must have stabbed Appleby, though he did not do so with the intention of killing him. That Collins received very rough handling shown by his condition. One eye is blackened and almost closed. His face is bruised in several places, and he is cut on the back of the head. He explains the bruises on his face by saying that Appleby had a clevis in his

hand, which served the same purpose as knuckle irons. Owing to the condition he was in he went to the house of his brother, William Henry Collins, a mile and a half from the scene of the killing, and it was there that he was informed that the

man was dead. Constables Mulligan and Anderson, who had been scouring the country all evening, called at the brother's house after midinght. They found Collins praying, and he made no resistance when arrest-He will be taken to the Pembroke ail this afternoon to stand trial.

#### **CHORUS GIRL SHOT** NEAR HAMILTON, ONT.

Chicago Man Was With Her and Husband Is Charged With Shooting.

Hamilton, Aug. 30.-Agnes Cartello, chorus girl, 27 years of age, who recently finished a spring and summer engagement with the Ziegfeld Moulin Rouge Company at the Moulin Rouge, New York city, was shot in the left breast, while riding in an automobile on the stone road leading to Toronto, between Bronte and Oakville, at 12:45 o'clock this morning. She was not seriously injured owing to the fact that a steel in her corset deflected the bullet and forced it upwards.

The man who did the shooting was, she said, Clarence Abenstein, her husband, who is a comedian, and who was riding in another automobile. The woman's companion was a man named David Gillespie, said to be a Chicago broker, and a chauffeur, whose name could not be learned.

The husband sped away after the shooting, and has not been heard of since, and the woman and her companion left for Buffalo after receiving medical attention from Dr. W. B. Hopkins, of this city, whither they came at 2 o'clock this afternoon. She said that she and her husband had never been happy. She accepted the invitation of Gillespie to accompany him on his auto trip from Chicago to Toronto to attend the exhibition, and at Terre Haute, Ind., received a telegram from her husband saying that he was going to follow her and kill

There Will Be Plenty of Currency This Year to Move the Western Crops.

Ottawa, Aug. 31.-Figures have become available as to the country's resources for dealing with the demand for currency which will be occasioned by the western crop. Last year the demand was very great and recourse had to be had to the four-dollar Government notes, which have proved an unpopular form of currency. This year the resources of the banks and the Government combined in the way of currency will be over thirty mil-

lion dollars in excess of last year. In the autumn of 1911 the banks largest offerings today, but as a rule—Receipts, 100 head; active and \$1 lower, the prices were the same as on Thursday. Cucumbers were sold at prices ranging from 10 to 15 cents per dozen and tomatoes were quoted at 25 and 30 cents per basket. Green corn was very plentiful, and the prices paid were 10 to 12½ cents per dozen ears. Jarrots and parsnips sold at 20 and 40 cents per dozen. Onions were quoted at 25 and \$30 cents per dozen. in Two Local Churches. Rev. Mr. Henderson, founder of the Shantymen's Christian Association, is to be in the city tomorrow, Sept. 1, and he will tell the story of the work in the morning at the First Presbyterian Church and in the evening at New St. There are many thousands of men employed in the forests of Ontario, who are beyond the range of usual church services, and very many of them would not care to enter a church if they were in a town, yet their need of the message of the Saviour's love and sacrifice is as great as that of the heathen in Africa or the down-sunken dwellers in the slums of

he great cities. is their great need that has led to this special work for the men of the lumber camps in winter, and the railway construction camps in summer. The work is a good one, and it is greatly appreciated by the men. Many of the foreign ers who speak no English are grateful for the Gospels in Russ, Finnish, Swedish for them The story which Mr. Henderson has to tell is one to stir the hearts of all true men and women, and we trust there will

be large audiences to hear him.

#### UNSELFISH SERVICE

No one can be true to his

home duties unless he is true

to the duties that lie outside of his home. It is well for us to think of this when we are tempted to misuse a certain overworked adage. "Charity begins at home," we say. Yes, charity begins at home; but it ceases to be charity if it stays there. No one ever shirked the fluty of showing love for those entside his home because of his fidelity to the demands of love within his home. There is always some other reason; and that other reason is always sel-6 hors; never unselfishness. There who love their own best are those who most love others. we are not serving sacrifimay the needs of those who for from our own circle, we may be sure that our own dear ones are being injured by this neglect.-Great Thoughts.

THE FAIR IS SO DIFFERENT from all other Fairs that have gone before, and different even than last year or the year before

THAT THERE IS LITTLE COMPARISON, for the Michigan State Fair this year embodies more innovations and features than were ever seen in one Fair before. THE PRODUCT OF THE BRAINS OF MEN WITH IDEAS who started out to State of Michigan and of the country a Fair that would startle

AND THE MANAGEMENT OF THE MICHIGAN STATE FAIR believes that it has provided for the people of Michigan an event that will rank above any other State Fair in the land.

NO IDEA THAT WAS WORTH WHILE HAS BEEN OVERLOOKED, and the result is a Fair that is educational alike to the country folks as well as the city folks, and

TO THE YOUNG PEOPLE IN PARTICULAR it is especially interesting from every standpoint. The family will find the Fair for 1912 CLEAN AND INTERESTING IN EVERY WAY and replete with interest in its every department, including the

MANY NEW AND INTERESTING FEATURES, which include departments of sterling importance to the people of the entire State. FOR INSTANCE, TAKE THE BOYS OF OUR STATE, whose interests must be studied, as it is the boys who will be the men of the future.

THE BOYS' STATE FAIR SCHOOL IS FOR THE BOYS OF THE ENTIRE STATE OF MICHIGAN. One boy has been chosen by examination from each county of the State to attend this school at the Fair without

THE MINIATURE MODEL FARMS FOR THE CITY BOYS who have been farming all summer to bring forth the crops for Fair time will prove interesting to all. There are thirty boys from the Boy Scouts AND THE CHILDREN WILL HAVE AN AMUSEMENT ROW that will occupy the site of the Midway of last year, where they will find everything interest them.

THE MIDWAY HAS BEEN MOVED TO one corner of the grounds and cleansed of all questionable attractions, making it attractive alike to men, women and children. THE CHILDREN AND GROWN UPS WILL BE INTERESTED TOO in the great fireworks display showing the FALL OF OLD MEXICO, the fort of Chapultepee and Mount of Popocatapel—fireworks that show history, including also "THE BATTLE OF THE SKIES."

UNTIL THREE YEARS AGO THE MICHIGAN STATE FAIR was operated much on the plan that is followed by other State Fairs in America.

DISPLAY EXHIBITS WERE MADE THEN, BUT NOW the exhibits show the actual manufacturing of goods, the making of butter and cheese, the building of good roads and demonstrations that must prove more interest-

EVERYONE KNOWS OF THE GREAT ROAD BUILDING WORK for that has been a feature at the Michigan State Fair for two years and will be continued on a larger scale than ever this year.

BUT FEW KNOW OF THE PROCESS BUILDING in which every exhibit will be seen in active operation—manufacturing articles native to Michigan manufacturing. AND THERE'S ANOTHER FEATURE-THE NAVY EXHIBIT; for the United

States Government will show everything of interest from the United States Navy, including models of all sorts of vessels. THERE'LL BE AN AUTOMOBILE SHOW OF COURSE, for the automobile

show building will be filled with the very latest in the product of two score manufacturers. THE NIGHT HORSE SHOW IS ALWAYS INTERESTING for the finest show

horses in the world are always seen here. AND THE GRAND CIRCUIT HORSE RACES ALL THE WEEK have an entry list that promises a carnival of grand sport and record breaking.

THE AUTOMOBILE RACES WILL BE MORE INTERESTING THIS YEAR for Louis Disbrow with his 200 horse power special racing car, which holds all records and which is built in the shape of inverted boat, will be seen against records with competitive events for scores of entries. will be seen against records with competent PRODUCE AND STOCK and THERE'LL BE THE EXHIBITS OF FARM PRODUCE AND STOCK and

# Use Fibre Board Don't Plaster

Here are the reasons why you should use Fibre Board instead of lath and plaster.—Plaster holds up the job. It's use means a delay of weeks in construction work-waiting for it to dry. Then a further delay of months before you can decorate, paint, or paper the walls. Besides, - every building settles enough to crack up plaster badly, if it does not bring it tumbling off.

When you use Fibre Board, there is no delay in the construction of your building. Once on - it's on to stay, because it yields to a settling building. It's first cost is it's only cost, while anybody who can use a hammer and a saw can apply it.

My friend remembered it very well. But he explained to me it was not in the outside of his office out in an inside partition which ran through the office. Then he gave me his version of its invention. Formerly the colonel had transacted his business in open office, but something happened one day. Before 11 o'clock, as has been said, the colonel was usually

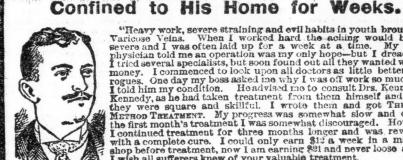

in the mood for business. Spanked the Colonel.

But one day a big raw-boned Highand Scotchman arrived at 4 o'clock in the afternoon after having walked through the bush twenty miles to make a payment on his farm. He found the olonel very crusty-earlier in the day he would have been civil and later he would have been mellow, but then he was half-cocked and very crusty and talked to the Highlandman as a sergeant would to the last and most awk ward member of an awkward squad. But the Highlander was in his own way a man of spirit. It made him fighting mad. He could have killed the colonel. As it was he contented himself with whacking him over his knee and spanking him soundly. It was a means of protection and supplying food at the same time. But the news of these men gathering in Westminster, each with a gun, was misconstrued by the authorities in London, and at the command of the chief magistrate of the city a detachment of regulars were sent out to break up the meeting and arrest the eaders. Revolution That Will Make Recent One Seem Play Is Growing Apace.

EASIER TO PULL DOWN

Well-Balanced Policy of Evolution Lacking and Trade Is Paralyzed.

Pekin, China, Aug. 30.-The troubles of the new Republic seem to be growing apace. Chinese papers take a gloomy view of the outlook, particularly as regards the south. Here administrative affairs are reported to be in a state of inextricable confusion. According to one journal, "the country is arousing itself to a pitch of revolt empared with which, when it breaks out, the bloodiest days of the revolu-tion may pale into insignificance." In indorsing this view, the North Herald remarks that everywhere the sweeping reforms of the past few months have been viewed with apprehension, because it was patent to all foreigners that they were instituted without adequate foresight, knowledge or definite constructive policy. The determination to obliterate all signs of the old regime at any cost is the only definite policy that has existed, and now that the initial destruction is virtually completed, it is found to be far easier to pull down than to build up.

Outside Help Needed. It has been urged repeatedly that a onsidered, well-balanced policy of volution alone could effect the salvaion of the country and its people; that sponsible outside assistance is indispensable; and that those who pos-sess the power to make or mar the Republic must be content to progress step by step. The President also takes this view, but he seems to be quite unable to put it into practice.

The south today is a seething cauldron, while no one dares to prophesy what any day will bring forth in Central or Northern China. In the south, as in the north, the key of the situation is finance. At the time that Canton declared her independence large numbers of bank notes, for which there was no silver reserve, were printed and issued. Now, that there is greater financial stringency, the people are beginning to realize that these notes are only of the value of so much pa-

dear, I want to show you my new Hoosier Cabinet. You have no idea the hundreds of steps it saves me. You of steps it saves me. You see when it is closed it takes up very little room, and everything is out of sight, away from the dust. Just away from the dust. J a minute, while I open it.

There, isn't it a beauty? Yes, when I pull out this table top it locks so I can actually sit down at my work. When the top is drawn out when the top is drawn out this way it gives me even more work room than my old kitchen table, and do you know, the table is pure aluminum. It can't rust and nothing sticks to it. It is just fine for kneading dough.

#### KILLED HER DAUGHTER

At the Rouen assizes, France, recently. Marie Gauthier, 41, a widow, and the mother of three children, was sentenced to death.

Her crime was a ghastly one. She had insured the life of her eldest daughter-called after her, "Marie"for £200. The girl, who was 21, was about to be married. Last March she was found hanging in an outhouse. At first it was thought that the girl had committed suicide, but soon it was whispered that Mme. Gauthier had murdered her daughter to get the in-

surance money.

Then the two boys, Albert and Jules

### CHANCE FOR THE POETS

Richard Carle Is Seeking a Lyric for His New Musical Comedy.

New York, Aug. 30 .- Richard Carle, the leading comedian in "The Girl From Montmartre," now at the Criterall completed, but the lyrics-that is, as the first dollar I earned. Yours truly, the song words-are still unborn, Mr. Carle, believing that there are a number of undiscovered lyric writers in New York, has decided on an open competition which any poet is privileged to enter.

The name of the piece is "The Wise Guy." It concerns itself with a lanky, middle-aged banker, from up-state, who allows himself to be fooled repeatedly by a number of parasites and others who seek to bunco him out of the fortune that he has acquired, but on whom he finally turns the tables. The subject of the song Mr. Carle as chosen for the compositions is the title of the piece, "The Wise Guy." He asks that three stanzas of four lines each, treating the subject comically, be submitted to him at the Criterion Theatre on or before Sept. 1. The winner will become the officially appointed lyric writer for the whole play. Mr. Carle is the author and co-author of a number of plays. He wrote "Mary's Lamb," in which he starred for two seasons, and assisted in the authorship both of "The Tenderfoot," and "The Mayor of Toklo."

[Special to The Advertiser.] Sarnia, Aug. 31 .- The tangle over the vaterworks has at last been straightened out, and at last night's special meeting of the council it was decided, by a vote of 10 to 7, to install a system which will be operated by steam. It is believed that this will be more reliable in every way then an electrically operated plant.

The new system will cost approximately \$250,000, and the necessary bylaws will be prepared at once and will be submitted to the ratepayers about the niddle of October. Work on the construction of the new system will be started as soon as possible if the bylaw s sustained The council also decided to extend

#### INDIAN CRUEL TO HORSE

Sent Down for Driving Animal With Sore Shoulder

Ira Summers, a Muncey Indian found himself in difficulties in police court on Friday when he was sentenced to serve fifteen days in default of payment of a \$5 fine because he drove a horse with a sore shoulder. Summers had left a load of hay on the market to attend court, but did not inform the magistrate to this effect until Market Clerk Maker broached the subject. Summers was according ly allowed out to sell his load, and agreed to pay to the market clerk the amount of the fine upon receiving pay ment from his customer.

The Indian explained that he was driving for a man named Williams, but admitted that while he knew the horse was in bad shape he had driven it limping for fifteen miles. The charge was laid by Mr. Adam McGuire of the Humane Society.

A smaller machine, illustrating the efficiency of their lighter bearings has also created considerable interest, and the thread belt thrown over the line shaft and driving a counter-shaft with pulleys, as well as a pyramid of bearings, is a very convincing demonstration of the ease with which shafting equipped with these bearings is
