CRIPPEN'S FIGHT FOR LIFE ON GIRL ACCESSORY AFTER FACT VAST CROWD ATTENDS CASE

British Authorities Decide That Ethel Leneve Had No Foreknowledge of the Slaying of Belle Elmore---Prosecution Announces That Signs of Poison and Operation Were Found on the Mutilated Portions of the Murdered Woman's Body.

[Associated Press Cable.] London, Sept. 6.—The trial of Dr. Hawley Crippen, charged with the

murder of his wife, Belle Elmore, the actress, opened here today. Ethel Clara Leneve, the doctor's typist, who accompanied him in his flight to Canada after the disappearance of his wife and who has been held on the same charge, was also brought to the bar today, but the crown stated that it had been decided to confine the allegations against the girl to being an accessory after the act. This relieves Miss Leneve of any foreknowledge of the crime and is in line with the belief of her family and friends that she did not share Crippen's confidence up to the time that his wife dropped out of sight and was said by him to have died in Califor-

EXCITEMENT INTENSE.

The excitement in the Crippen case, which was intense during the search for the doctor, has by no means worn out, as was shown by the crowd which gathered in the vicinity of the Bow street police court when the trial was opened today.

Travers Humphrey appears for the public prosecutors, while Solicitor Arthur Newton represented Crippen. Mr. Humphrey's made a long opening address, in which he reviewed the case from the time that suspicion was aroused against the husband by the unsatisfactory explanation which he offered from the disappearance of his actress wife to his return to London and the arraignment of the doctor and Miss Leneve, charged with murder.

SIGNS OF POISON.

In the course of his remarks the prosecutor definitely stated that the physicians who made the post-mortem examination of the mutilated parts of the body unearthed in the cellar of the Crippen home, had discovered the presence of large quantities of hyoscin, a colorless liquid poison, and also detected evidences that an operation had been performed. It had been known that the authorities had been working on the theory that Belle Elmore, or properly speaking, Cora Crippen, had been in the hands

of one having at least a rude knowledge of surgery and another that she had been poisoned. The official announcement of these alleged discoveries, however, have not been made before. At the time of the arraignment of the two persons, Mr. Humphrey said,

that the Government's evidence against the typist pointed only to her as being an accessory after the fact. Both Crippen and his wife were born in the United States, he at Cold-

water, Mich., and she at Brooklyn. Her maiden name was Cora Belle Makoniaski. They were married in New Jersey, and subsequently came here, where Crippen was a patent medicine agent and engaged in the dental business. Miss Leneve was employed by the doctor as a typist, and, it is alleged, that he became infutuated with the girl.

Crippen and Miss Leneve fled to Canada on the steamer Montrose and

were arrested as the vessel was approaching Quebec, TWO WOMEN AND A MAN.

present at the last hearing.

Speaking of the relations between Crippen and his wife, Mr. Humphrey said that the affection apparently was on the surface, according to Crippen's own statement, as the result of Belle's outburst of temper. The prosecutor spoke of Mrs. Crippen as Belle, the name used by Crippen when referring to his wife. The two, the prosecutor continued, had occupied army officer, who was arrested yesterseparate rooms for four years. For at least three years Miss Leneve had been Crippen's mistress, which might account for the wife's anger. In January, Miss Leneve was feeling her position in relation to Crippen acute-

ly and expressed considerable jealously of Mrs. Crippen, In a written statement made to Huspector Dew when the investigation first opened Crippen said that Belle was living in the protection of another man when he married her in Jersey City. The doctor also spoke of Bruce Miller's alleged acquaintance with his wife while he was in America, and frequent threats which Belle had made to quit him and go with another man who occupied a better position in life.

After an illness extending over some months, Mr. Adam T. McMahen, senior member of the firm of Mc-Mahen, Granger & Co., died at his rese idence, 609 Colborne street, shortly before midnight, last night. His death was not unexpected, his family being with him when the end came. McMahen had been unwell for some months. Last fall, the illness caused him some uneasiness, and it began to tell on his fine physique. However, he seemed to improve during the winter, and it was not suspected that his con-

lition was so serious. Early in the spring, however, he began to complain, but though he suffered considerably, he stuck to his work, both at the warehouse and at the city hall. In June, his friends noticed that he was declining rapidly, and he was urged to take a holiday. A trip up the lakes was recommended, obliged to abandon the boat at the Soo. He was brought home in a very weak condition. A number of prominent physicians were called, but all

The term club house gives little idea of the marvellous scope of the new building. Rather it is a miniature town with full equipment for most of life's interests under one roof. Joy riders receiving unpleasant communications from the police will have no need to rush down town to secure legal advice, for a lawyer will be on the premises all day long, for the sole purpose of aiding members in their difficulties with the authorities. Also included in the premises will be accommoda-tion equal to the finest hotel, a photographic studio, ladies' restaurant, business offices, telephone exchange, barber's shop, manicuring and chiropodist establishment, post and telegraph offices, swimming bath, Turkish baths, racquet courts, rifle and revolver range, gymnasium and assembly hall.

The wonderful records achieved by Turner in 1908 and 1909 paled before the 13,000 guineas fetched by Corot's delightful "Birds'-Nesters," in the Young sale. The remarkable prices obtained throughout this sale afford an encouraging commentary on the value of the George Salting bequest, which was bought chiefly from this collection. The rapid rise in avor of the painters of the Corot school in recent years has brought considerable profit to those whose earlier appreciation of their works led them to col-

The Problem of the Fall Suit How Easily Solved Today and How Reasonably Too

Once you have decided that you want a Fall Suit, the most of the worry is over, it's so easy nowadays to make selection. It hasn't been so long ago since a woman stopped in on Monday at her dressmaker's, and a man at his bootmaker's, in order to get something to wear the following Sunday, and got it perhaps a few weeks later. It's so different now. Your Suit is ready waiting before you leave your order, dozens of the very latest styles to try on, and know that you are perfectly suited, and the very day you decide for a new Suit you may have it to wear.

Today will mark the beginning of the most attractive display of fall and winter styles we have ever made. We invite every woman in London and vicinity to view this showing of new fall fashions in LADIES' TAILORED SUITS, COATS, DRESSES, SKIRTS, WAISTS AND

Our Suits Are Specialized

In selecting our styles in Ladies' Ready-to-Wear Suits for fall, dozens are rejected where one is chosen, from as many different manufacturers; in examining and comparing we find one who makes a specialty of a Suit at a certain price. We spot these amongst the different ranges, for instance we get from one maker who specializes Suits to sell at \$25.00, from another who makes a specialty of one particular line of Suits to sell for \$12.50. These we pick out right along the line at all prices from the different wholesale ladies' tailors, securing the lines that are specialized by the different makers, making the best assortment that is possible to find in one collection.

FROHMAN SAYS **CHURCH IS WEAK**

He Wants Theatres to Preach Sermons On Sundays.

New York, Sept. 6 .- Charles Frohman, who has hitherto been notable among theatrical men as a stout op-

ponent of Sunday theatres, has announced that he is planning a campaign to obtain a modification of the New York State law prohibiting dramatic productions on Sunday. He explains that his scheme is in no way out of harmony with his previous policy, but that in common with a number of other social workers, including Jane Addams, of Hull House, Chicago, he feels that the church is not successfully coping with moral and ethical problems. He asserts that people are, however, perfectly willing to be preached at, provided that they can at the same time be amused. formed by the late Baron Schroeder, Mr. Frohman proposes, therefore,

LONDON, TUESDAY, SEPT. 6, 1910 BIR WILFRID'S WESTERN TOUR.

The tour of Sir Wilfrid Laurier is generally regarded as an event of national significance, and will probably be expatiated upon by future writers important from several points of view, an ideal city. but we believe that it marks the beginning of a new epoch when the country, and its political currents are the greatest that has been. so changeable that in order to understand and to be understood its first citizen must visit its various centres of population and meet the people face to face. The rapid peopling of our great west has brought about a similar ne- but greatly increased in volume. It becomes of vital importance that they should study sectional needs and ideals on the spot, and for this purpose they must be prepared to go upon extensive tours. To toils of travel and speech-making no adequate idea can be gained of Sir Wilfrid's labors on this epoch-making journey. He has endured the statesman's burden splendidly, however, and thing. his first-hand acquaintance with the new and pressing problems of the west will mean much to the country at large. But he has established a precedent,

HOW MANY REALIZE THE MARVELLOUS VALUE OF FRUIT

IN CURING MANY DISEASES?

Wonderful Success of "Fruit-a-tives" -The Famous Fruit Medicine.

Fruit juice consists of about 91 per cent water, 8 per cent of sweet matter, and only 1 per cent of an intensely bitter substance. Careful experiments show that it is this bitter principle, which is the active or medicinal material of fruit juice.

Under certain conditions the bitter principle can be made to replace or transform some of the sweet atoms in the juice, thus making a new compound which is much more active medicinally than the ordinary juice.

Many fruts were analyzed, and it wa sfound that the juices of apples, oranges, figs and prunes gave the best results. These fruit juices, having been made more active by the secret process of changing the sweet principle it's into the bitter, are combined with hats off in Supreme Court Justice Goff's ronics and antiseptics and made into tablets. These tablets are the famous "Why do you wear your hat in the fruit medicine - "Fruit-a-tives" courtroom? Are you different from any known in every part of Canada for other attorney?" asked the justice in their wonderful curative qualities in diseases of the Stomach, Liver, Bowels, Kidneys and Skin.

"Fruit-a-tives" is the only medicine in the world made of fruit juices. Fifty cents a box, six for \$2 50, or trial size 25 cents.

As the enamelled metal bed is to the wooden bedstead, so the 'Ideal" Guaranteed Metal Bed is to ordinary metal beds. If it were not above the average in every detail, the "Ideal' Guarantee would not be on the footrail.

For while any metal bed is sanitary, sensible, practical, the "Ideal" Metal Bed is all these and more besides. The Guarantee label means satisfaction to the buyer.

Because "Ideal" Metal Beds retain the snowiness of their enamelno chance of its turning yellow or dingy. Take it down or set it up without risk of breaking it, and with no need for a mallet and much muscle—the parts fit snugly. Forty inspections make us so sure of that that we can afford to guarantee it to you.

Maybe you will be asked a little more for "Ideal" quality—perhaps forty cents more. But that cannot weigh against the certainty the "Ideal" Guarantee gives you of genuine value—and of the same quality in material and workmanship, even though you pay but three dollars for your "Ideal" Metal Bed. Hope of West Lodge Had Delightful Time Down the River.

Hope of the West Lodge, 216, I. O. G. T., held their first picnic at Springbank yesterday, and to say they had a good time is putting it but mildly. hundred members and friends left the raised. lodgeroom at noon exactly. All arrangements were perfect. Sports committee, under Bro. Provan, and the catering was done by the sisters under Sister Disc. The sports were entered into with zest, and proved very exciting, every event being keenly contested. The baseball match was terrific exhibition, the score mounting so rapidly that the winners left off counting at 40, while the football match between four soccer teams kept one guessing as to the result, which eventually was decided by the close margin of one goal, and one point. Every lady in the crowd had a try at 243% kicking the football, this contest being won by Sister Mrs. Provan, Sisclose after as second and third. Race results were as follows:

LAUDS INSURANCE LAW

President of Life Underwriters' Association Calls It World's Best.

Toronto, Sept. 5 .- "Our legislators appear to have grasped the idea that legislation in a country like ours, bidding for nationality, should be such as will foster and encourage such a great and beneficent business as that of life insurance. Above all, however, both legislative bodies in our country have New York, Boston, Chicago, and other gone on the great principle—a prin- cities. Looked at from a Canadian standpoint, one is at a loss to understand the attitude of the commissioners in acting as servile imitators of the Armstrong bill. As a Canadian I want to state that upon the whole I am proud of the business and social civilization of our country. It is only fair to state that a good example for the people was set by the able handling of the matters by the min-
