The copy filmed here has been reproduced thanks to the generosity of:

Department of Rare Books
and Special Collections,
McGill University, Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Department of Rare Books
and Special Collections,
McGill University, Montreal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

of the needs of the travelling public. The location is particularly convenient for passengers on the river steamships, ocean liners, or those going to or from Quebec.

Sanitation has been given special attention and all guests may rely upon enjoying absolutely healthy surroundings in a right temperature with proper ventilation.

Here is to be found the very centre of the tremendous development with which Canada is astonishing the world. So many

phases of interest does the city present that it may be described as a happy combination of New York, Paris and Petrograd, with a dash of New Orleans added to give piquancy.

A singular distinction that Montreal enjoys is that although near a thousand miles from the open sea, is a great ocean port, to which come the big Atlantic liners of the Canadian Pacific Steamship Service and other ocean lines.

Place d'Armes Square

A Soldier of the Carignan-Salières Regiment 1665

The Place Viger Hotel, which is a fire-proof structure, occupies an historic site facing the pretty park-like square from which it takes its name, this square in its turn being named in honor of the memory of Commander Viger, the first mayor of Montreal. It is an imposing structure designed by Mr. Bruce Price in the quaint style of the French Renaissance, partaking of the type of the old Chateaux found on the banks of the Loire.

for excellence and comfort rather than ornate display.

Montreal has many attractions for visitors. There are plenty of historic spots to interest. One is the Chateau de Ramezay which is only a few minutes' walk from the Place Viger.

The Chateau de Ramezay is a museum containing many interesting relics. Two tablets on its walls set forth its history: "Chateau de Ramezay. Built about 1703 by Claude de Ramezay, governor of Montreal. Headquarters of La

In 1775 this chateau was the headquarters of the American Brigadier-General Wooster and here in 1776, under General Benedict Arnold, the Commissioners of Congress—Benjamin Franklin, Samuel Chase and Charles Carrol of Carrollton—"held council." Here Franklin set up his printing press and printed "The Gazette," which still continues as a Montreal daily paper.

S.S. Missanabie

THE Canadian Pacific Railway Co. embraces a system reaching from Liverpool to Hong Kong, more than half way around the world. The palatial Atlantic Steamships, the luxurious train service, the splendid Great Lakes Steamships, and the magnificent hotel system, together with the Pacific Steamships and British Columbia Coast Service, all operated by this one Company, enable it to offer a service complete in every detail. The company's trains are noted for their equipment, the line for its roadbed, construction and scenery, and the employees for civility and attention to the passengers' requirements.

The latest additions to the Atlantic Service, the cabin steamships S.S. "Missanabie" and "Metagama," will be welcomed by all who desire good service and comfortable appointments at a moderate cost.

The natural advantages of the Canadian Route, less than four days at sea and the splendid scenery of the St. Lawrence River, the excellence of the accommodation provided on the C.P.R. Steamships and Railways, under one management, make the C.P.R. route between Europe and the Orient the most attractive.
