THE COURIER. WEDNESDAY, JUNE 25, 1881.

We perceive by our exchanges that very great regret is expressed by all parties for the undignified and unparliamentary language used in both Houses of the Provincial Legislature.

Mr. Morin's personal character is by far too amiable and indisposed to be much influenced upon a noisy and rude set of men by his to provide over, and apart from political prudence, he means, from absolute timidity or fear of giving offence, to shrink from using his authority, even when his own feelings and sense of propriety tell him that he ought to repress rudeness which he yet allows to pass unrebuked.

The city has been quite in gala dress for some days back. On Sunday the procession of the Fete Dieu was interrupted by the rain which continued to pour down with almost no interruption during the whole morning.

The Courrier published last night the following account of the late Mr. Morin's illness and death.

Mr. Morin's illness was not a sudden one. He had been suffering from a general debility of the system for some time past, and his health was gradually declining.

The funeral of Mr. Morin took place on Monday morning at 10 o'clock. It was a very simple and touching ceremony, and was attended by a large number of friends.

It is well known that the country has not yet recovered from the effects of the late war, and the Government is endeavoring to improve the condition of the country.

The Government has decided to grant a subsidy to the Montreal and Quebec Railway, in order to encourage the construction of the line.

The Montreal and Quebec Railway is a project of great importance, and it is hoped that it will be completed in the near future.

Several lines of steamships are running between Montreal and Quebec, and the service is very regular.

The Montreal and Quebec Railway is a project of great importance, and it is hoped that it will be completed in the near future.

The Montreal and Quebec Railway is a project of great importance, and it is hoped that it will be completed in the near future.
