great, being due to a complication of diseases incident to his advanced years, he never murmured or complained, accepting the inevitable with that complacency which in his long and useful life was characteristic of him and which was a deep source of consolation to the wife and family now upon to mourn the loss of an nate husband and father. The late George Nash was a native of Elizabethtown. He was born near New Dublin June 13th, 1828, and was

DEATH OF GEORGE NASH

Mr. George Nash, one of Athen

therefore 79 years of age at the time of his death. Over half a century ago, Feb. 23rd, 1853, Mr Nash married Miss Elizabeth Blanchard of Farmersville, who now with a family of five children survive. They are Mrs E. Billings of Brockville, Mrs C. C. Slack, Mrs G. W. Beach, Mrs J. H. McLaughlin, all of Athens, and Dr. C. C. Nash, Bath.

After their marriage Mr and Mrs Nash removed to Maud's Mills in Kitley, where he followed farming for several years, subsequently taking up his residence in Athens 47 years ago last December and residing in the same house for that period. For a number of years Mr Nash engaged in lumbering extensively, carrying on operations at Newboro and Pike Falls, eventually retiring on a well earned competence. Of a quiet, unostentatious disposition

Mr Nash never sought public prefer-ment, but his advice was eagerly asked and freely given to his fellow citizens on the many and intricate questions appertaining to the welfare of the community in which he spent so many years of useful life. His loss will be deeply felt and his place in the village hard to fill. In religion Mr Nash was a Methodist and in politics a Liberal.

The funeral service is being conducted in the Methodist church this (Wednesday) afternoon by the Rev. S. J. Hughes.

The A.H.S. Staff

After careful consideration, the trustee board have filled the two vacancies on the staff of the A.H.S. by engaging Miss May Cummer of Parry Sound to teach the Science department and Miss E. A. Duncan, B.A., Toronto University, to teach Moderns. Both these ladies are experienced teachers and their successful records and first-class testimonials commended them to the favorable consideration of the board.

On Monday the board received notice from Mr. W. C. Dowsley, M.A., Classical Master, now reading departmental papers in Toronto, that he purposed severing his connection with the taff of this school. Needless to say, this notice was received with surprise and sincere regret by the board, a feeling that will be shared by all interested in the school. Mr. Dowsley's record as a teacher in Athens has been such as to win high favor with the trustees, other members of the staff, and with the students. We understand that Mr. Dowsley contemplates taking a position on the staff of Brockville Collegiate Institute.

SUNDAY CHEESEMAKING

Replying to the president of a cheese poard who asked the Department of Justice for an opinion with reference to the law touching the important subject of the care of milk and manufarture of cheese on Sunday, the Hon. A. B. Aylesworth replied as follows:

Ottawa, July 5th, 1907. Dear Sir,—I have your petition for an amendment of the Lord's Day Act to permit the manufacture of Saturday night, and your representations will certainly have careful conly declared to be a work of necessity which any person may do on the Lord's Day. There is also a provision permitting unavoidable work on the Lord's Day to save property in danger of destruction or serious injury, and it These are not eaten with much relish, occurred to me that very possibly a court would consider the necessary work of continuing cheesemaking to a proper termination after midnight of Saturday would fall within one, or down, and there is nothing else so both, of these provisions. I remain,

Yours faithfully, A. B. Aylesworth. Died at Calgary

On Monday of last week a telegram was received at Athens announcing that on Sunday, in the hospital at Calgary, Alta, Marion Ferguson eldest daughter of Mr. and Mrs. William Ferguson died aged about 11 years.

Death was due to typhoid fever.

Mrs. Ferguson and family were for a time residents of Athens, but left last ime residents of Athens, who is a winter to join Mr. Ferguson, who is a On Monday of last week a telegram oldest and most highly esteemed citizens, passed away on Tuesday morning last, after an illness of about three years duration, which was borne with

remarkable fortitude and resignation. Though at times his sufferings were time residents of Athens, but left last winter to join Mr. Ferguson, who is a C.P.R. locomotive engineer with head quarters at Strathmore, near Calgary. Dr. Moore and Mr. G. M. Pierce, uncles of the deceased, met the remains in Brockville on Thursday and the funeral service was conducted at Mallorytown on the afternoon of that day. The grief-stricken family have the heart-felt sympathy of many in this

Court of Appeal

On Thursday evening last His Honor Judge Reynolds held a court in the town hall to hear appeals from the village Court of Revision. Mr. H. H. Arnold appealed against the assessment on his store property, his residence and his mother's residence, on the ground that it was two high and

out of proportion to the assessment of other similar properties.

Mr. T. R. Beale appeared for the village and received testimony in supother similar properties.

Mr. T. R. Beale appeared for the village and received testimony in support of the assessment from three members of the committee appointed to

advise the council in respect thereto.

Mr. Arnold presented his case very clearly and forcibly, but called no

witnesses to support his contention, and his appeal was not allowed.

Mr. S. A. Taplin had fyled an appeal that was calculated to let in a little light on the subject of income taxation, but unfortunately his appeal could not be heard.

This concluded the business of the

THE McINTOSH FIRE

Briefly, last week, the Reporter announced the heavy loss by fire sustained by Mr. Hockey, a tenant of the old McIntosh homestead, in the destruction of the barns.

In commenting on the fire, an occasional correspondent of the porter says :-

"Some report that a tramp was noticed in the shadow of the woods the afternoon previous to the fire others speak of evidence of a lunch having been eaten in the barn-and so on. When we know it was not caused by an explosion or lightning, it is neither wise nor just to be suspicious without clear indication.

"One thing we do know-that the good people of this locality are far above the reach of suspicion, and Mesdames Rumor, Gossip & Co. ought to be made to hold their tongues, or be punished. There are many ways in which a fire may occur and not

involve any one in blame. "As we passed the scene of desolation, yet smoking, the metal remains of a new binder and a number of other valuable agricultural implements could be seen, also the smouldering remains of 25 tons of first class old hay. "Mr. George McIntosh of Harriston s now here investigating the fire.

"The local record around our globe furnishes an unbroken daily chain of disasters and losses that is truly heart. rending and appalling—all by fire and storms. The 'bitten glove' is thrown to Science and takes all her time to pick it up.

"W. S. H."

Killed by Lightning

A colt belonging to Mr. Moulton, who lives near Delta, was killed by lightning on Saturday, July 20, dur. ing the storm. Along with other young stock it was being pastured on Mr. Jonas Bruce's farm near Toledo cheese continuing after 12 o'clock on and was killed there. A strange thing about it is that in the same pasture two weeks before Mr. Moulsideration. But I may point out ton had another colt killed by lightn-that under the statute as it now sta. ds ing. Within a year he has lost five that under the statute as it now sta. ds ing. Within a year he has lost five the caring of milk and cheese is special head of stock by lightning.

AT THE BIG

Summer Sale

The goods and not the talk about them, makes this sale. It isn't because of large type and big space in the newspapers, it isn't because of persuasive argument, it isn't because of any special public preference for this store. It isn't for any of these reasons that this sale is in records of sale far beyond anything in our history. It is because of the high quality of the goods and the extreme low prices that the chief July activity centres here.

Men's \$10 \$9 and \$5.00 \$8.50 Suits, Sale Price

TWO BUSY STORES-AND - SMITH'S FALLS

LESSON VI.—AUGUST 4, 1907. The Tabernacle.— Exod. 40: 1-13, 34-38.

Commentary.—I. The tabernacle (vs. 1, 2). 1. the Lord spake—For six or eight months the people had been making the tabernacle according to the pattern which Moses had received in the mount, and now the Lord gives directions concerning its erection. "When God talks with us we should listen. Not a syllable of the divine message should be lost. Let us be misers in gathering year, lacking fourteen days, from the year, lacking fourteen days, from the year, lacking fourteen days, from the tacking the tack first day—The 1st day of Abib or Nisan, a year, lacking fourteen days, from the time they had left Egypt, and more than eight months since the worship of the golden calf. shalt thou—Nothing was left to human ingenuity. If it had been, it would have been wrong.—Torrey. set up—Each part had been made ready but not yet put together. All the parts of the tabernacle of God, the mystery of redemntion, will present one harmonious redemption, will present one harmonious whole.—Adamson. tabernacle—The tabernacle consisted of three apartments, ernacle consisted of three apartments, the outer court, the sanctuary, and the holy of holies. The entire enclosure was 100 cubits by 50 cubits, or allowing 18 inches to a cubit, 150 feet by 75 feet. It was surrounded by fine twined linea screens, hung by silver hooks upon pillars of brass. The tabernacle proper was situated in the western half of this enclosure, and was covered by a large enclosure, and was covered by a large tent spread over it, thus protecting it from sun and rain. It had two apart-ments. The first, situated toward the from sun and rain. It had two apartneuts. The first, situated toward the
east, was called the sanctuary or holy
place. It was 30 feet long and 15 feet
wide and contained the altar of incense,
the table of shew bread, and the candlestick. The other apartment was called
the holy of holies. It was 15 feet each
way, thus being a cube, and its only
14); not in a home, but in a tent, as
the the partiagrehs who confessed they were

palace, but in a place of warfare, like a soldier, the other apariment was called the holy of holles. It was 15 feet each way, thus being a cube, and its only article of furniture was the ark of the covenant. The open court in the front of the tabernacle proper was 75 feet each way, and contained the laver and altar of burnt offering. tent of the congregation of the congregation.—The of offering tent of the congregation of the characteristic of the tabernacle, the tent of meeting fixellinosin, thus putting the two words in apposition. It was the place where fool met his people.

If The furnishings (vs. 3-8), ask of the testimony—This was an exleng chest in length and 2½ feet in width and depth. Its lid was called the "mercy-seat" and was overlaid within a golden rim around it. There were two cherubim above the mercy-seat, one at each end. Within the ark were placed the stone tables of the law, a pot of manna and Aaron's rod that budded. cover the ark.—"Screen the ark.—"R. V. This veil or curtain hung between the holy of holies and the holy place, suspended from four pillars. 4. the table—This occupied a place on the north side of the sanctuary. It was made of acacia wood, overlaid with pure gold, and had a rim of gold around it. It was 3 feet in length, 1½ in breadth, and 2¼ in height. the things... upon it—The table was provided with dishes and spoons for the frankincense, and with flagons and bowls. Upon it were laid each week twelve loaves of bread, representing the twelve tribes of Israel. The loaves were arranged in two piles, and were renewed every Sabbath. The stale loaves were earned by the priests in the sanctuary. the candlestick—This was set in the south side of the candlestick is not stated. the lamps—The seven lamps which were placed on top of these were supplied with pure olive. The loaves were arranged in two piles, and were renewed every Sabbath. The stale loaves were earned by the pries

a feet in height. It was made of acacia make as careful preparation for prayer-wood overlaid with pure gold, and had four horns of gold, one at each corner, III. The tabernacle entrance. 1. Only

It had various utensils (chap. 27, This alter pointed to Christ as the

great sacrifice for sins. The laver-This was put between the tabernacle and the altar of berntoffering. It was made of brass, with a pedestal of brass, and was filled with l of brass, and was filled with Here the priests washed their

hands and feet when preparing them-(30, 17-21.) It was also used for washing certain parts of the victims (Lev. 1, 9.) "The laver signifies the purity need-

ed for worship. from the world. III. The tabernacle consecrated (vs. 9-

9. The anointing oil-This was a particular oil compounded for the purposes here stated and for no other. The Lord had eiven Moses careful directions both as to the oil and the manner in which it was to be used (30, 22.33.) It was not to be used upon foreigners, or for the purpose of anointing the flesh, but it was to be holy. Anoint the tabernait was to be holy. Anoint the taberna-cle, etc.—The ceremony of anointing with oil denoted the setting apart and consecration of an object to a holy use." To-day we need the heavenly anointing. Shall be holy—The Holy Spirit is the great agent of sanctification. His puri-fying work is here typified by the an-ointing oil. God's true church is a holy church (Eph. 5. 25.27).

of the fiesh and spirit which is urged upon us by the apostle in 2 Cor. 7: 1. 13. The holy garments—The attire of the eight-hour day.

priests, and especially of the high priest, was very elaborate, and is minutely described in chapter 28. "The priests did not wear their sacred dresses outside of the tabernacle." Anoint him—The anointing of sacred persons signified that they ewre set apart to the service of God. The holy anointing oil is an emblem of the Holy Spirit. Sanctify him—The work of consecration was not complete until a ram had been slain and some of its blood had been put upon Aaron's right ear, hand and foot, and sprinkled upon his garments.

his garments.
V. The cloud filling the tabernacle (vs. Tabernacle—The tent is here distinguished from the tabernacle, and is to be understood as the outer covering of curtains, while the tabernacle proper was the dwelling within 36, 37. Went onward—journeyed not—When the cloud moved they moved. The cloud was the symbol of the divine presence. God was their constant guide. The cloud served three distinct purposes: 1. During the day it was a pillar (Exod. 13, 21) leading the way before them. 2. During the night it became a pillar of fire giving light to every part of the Israelitish camp. 3. It was a covering, protecting them from the scorching rays of the sun. See Num. 9, 15-23; Psa. 105, 39, 1 Cor. 10; 1, 2.

PRACTICAL APPLICATION.

1. The tabernacle a type. 1. Type of

1. The tabernacle a type. 1. Type of Christ who "dwelt" tabernacled among men (John 1, 14; 2, 21). Christ not only took on Him the nature of men;

had seven arms. The height of the candlestick is not stated. The lamps—The seven lamps which were placed on top of these were supplied with pure olive oil (27:20) from oil vessels. Seven signifies perfection. So the Christian is to give out a clear, perfect and constant light.

5. The golden altar (R. V.)—This was set in the sanctuary just before the ark of the covenant. It was square, being 1½ feet in length and breadth, and 3 feet in height. It was made of acacia

four horns of gold, one at each corner, and a rim of gold around its sides. For one door (vs. 6-12.) No other way to the incense—Incense only was burned thereon. Incense was a type of the prayers offered for us by Christ our Whosoever will (Rev. 22, 17.) 4. Faced 6. Altar of the burnt offering—This stood in the centre of the open court in front of the tabernacle. It was 7½ feet in length and breadth and 4½ in height.

It was made of acada wood covered with brass, and had priest once a year, on the annual day of atonement." "So gloriously did the cloud appear about the tent, and so wonderfully did the divine glory fill the

interior of the sacred dwelling, that Moses could not enter. IV. The Tabernacle materials. Gold (v. 5.) Glory (Rev. 21, 21-24.) Silver (Exod. 26, 19-25.) Redemption (I Pet. 1-19.) Brass (Exod. 26, 11.) Judgment (Num. 21, 6-9; John 3, 14; Rev. 2, 18.) Linen (Lev. 6, 10.) Righteousness (Rev. 19. 8.) Wood (Exod. 26, 29.)) Humanity (Gen. 22, 6.) Goat's hair (Exod. 25, 4.) Separation (Matt. 25, 32; Heb. 7, 20.) Ram's skin (Exod. 26, 14.) Death (Gen.

21.) Separated (Exod. 33, 16; Lev. 20, 26.) Peculiar (Deut. 14, 2; Exod. 19, 5; I. Pet. 2, 9.) Guided (Psa. 78,52; John 16, 13.) Loved (H. Chron. 2, 11; Gal. 2, 20.) Blessed (Chron. 31, 10; Eph. 1, 3.) Strengthened (Psa. 29, 11;

Phol. 4, 13.)

VI. The tabernacle priests. Washed (v. 12.) Clothed (v. 13.) Anointed (v. 13.) Sanctified (v. 13.) We are to be priests to God. We are to be cleansed from sin, clothed with the robe of rightcousness, anointed by the Holy Spirit and set apart for the service of God. Holiness becomes God's house, holiness becomes God's people and God's priests. If you are to be holy God must make you so, and only God can keep you so. But you have your part to do as well as he. Believe God loves you and longs for you, that he may bless the god to have fired the matter and the Cadenheads British Government and the Cadenheads of Kingston, who was shot by a soldier at Fort Brady. He states, however, that he sees no likelihood of any international complications, as all the British Government and the Cadenheads British Government with the vaters of Cadenhead, of Kingston, who was shot by a soldier at Fort Brady. DISASTROUS FIRE AT CITY OF OTTAWA.

Sash and Door Factory, Planing Mill, Fire Station, Hotel, Store, Etc., Burned.

An Ottawa, Ont., special despatch says: The New Edinburgh portion of the city, which is adjacent to the Government House, and lying to the east of the Rideau River, was visited by a disastrous fire this morning. The total loss is put at \$300,000. Of this amount about \$250,000 will have to be borne by the W. C. Edwards Company, of which firm Senator Edwards is the head. The W. C. Edwards sash and door factory, the planing mill, the library bureau of the Canada factory, in which the W. C. Edwards Company is largely interested, several piles of valuable lumber, Blackburn & Russell's mica warehouses, Foley's Hotel, No. 6 fire station, C. J. Neale's grocery store, and the main office of the Edwards Company are all burned to the ground. Several other buildings, including the fine residence of the Blackburns,

The W. C. Edwards & Company main lumber mill lies on the west side of the Rideau River, which at this point is connected with a bridge, over which the street cars run along Sussex street to and from Rockliffe and Esplanade. The lumber piles destroyed were principally hardwood. Altogether about two mil-lion feet of lumber was burned.

lion feet of lumber was burned.

Gordon Edwards was seen, and he places the loss of the firm at nearly \$300,000, upon which there is about \$200,000 insurance. The hotel, the fire station and the grocery store were not valuable buildings. The wind was blowing northeast, and in this way the main mill was saved. Had the wind been in a westerly direction the whole mill, which is one of the most modern and best equipped in the Dominion, would have been totally destroyed. Some very fine new machinery was placed in the planing mill yesterday. The lumber piles are burning machinery was placed in the planing mill yesterday. The lumber piles are burning themselves out on the edge of the Ottawa River, where it is joined by the

RUSSIAN WOMAN HANGED

Refused to Plead for the Mercy of the Czar -Tried to Kill Officials

Moscow, July 29.-With the observance of the greatest privacy, Madame Fromkina, who in March last attempted to assassinate General Rheinbot, the ex-prefect of police, and who in May made an attempt to murder the inspector of the political prison here, wounding him with a pistol, which had been mysteriously smuggled into her cell, was hanged in this city at sunrise

The authorities made every effort during the past fortnight to persuade the woman to plead for the mercy of the Emperor, but this she obstinately

refused to do. Her parents interceded with the throne in her behalf, but their efforts

vere unavailing. Madame Fromkina was not charged with actual murder, but accused of making several ineffectual attempts to kill officials. It is believed that her mind was unbalanced, and that she suffered from hysteria.

This is the first time a woman has been executed in Russia since Anna Benedictova was put to death at Cronstadt last October for complicity in a plot to blow up a public building.

DESERTER WAS IN PLAIN VIEW

WHEN GILLETTE FIRED THE FATAL SHOT.

inquest Begun at Sault Ste. Marie Yesterday-No International Complications Likely to Arise.

Sault Ste. Marie, Mich., despatch: E. S. B. Sutton received appointment yes-terday to look after the interests of the British Government and the Cadenheads

man was in front of the Dunbar property, and within plain sight from the spot from which the shot was fired about 300 or 400 feet away. After firing this pay.

shot Gillette ran on down the walk to the Dunbar property and into the Dun-bar yard, where he took his second shot at the man just as he was about to go out of sight behind some buildings. This is the story as it develops from

the testimony of the three witnesses, and further explanation was given by Gillette when he went with the jury and Hodgson, the alleged deserter, was present at the inquest, but he was not called upon to participate in any way.

Miss Cadenhead, the victim of the shooting is a relative of the Malloch family of this city.

Market Reports The Week.

TORONTO FARMERS' MARKET.

TORONTO FARMERS' MARKET.

The receipts of grain here continue small, consisting to-day of only 100 bushels of sats, which sold at 51c per bushel.

Hay in moderate receipts, with prices firm, there being sales of 15 loads at \$17 to \$13 a to \$16 for old, and at \$13 to \$14 for new. Straw is nominal at \$13 a to \$1. To \$18 a to \$1. To 0 00 0 16 1 00 10 25 7 50 9 50 8 00 10 00 10 00 16 00 TORONTO LIVE STOCK MARKET.

TORONTO LIVE STOCK MARKET.

Receipts of the stock at the city market, as reported by the railways, were 114 carloads, composed of 1,504 cattle, 1,771 hogs, 2,973 sheep and lambs, with about 300 calves. A few lots of good cuttle were on saic, but the bulk of offerings were of the common to medium qualities.

Slow and dul was the condition of the cattle market to-day. Receipts, commencing at the Junction on Monday, have been so liberal this week that buyers have been able to fill their orders at lower rates than any week this season, and the market to-day was slow at the decline. The market is all the way from 200 to 40e lower than a week ago, the most decline being on the common and medium grades.

Exporters—Few exporters were offered, and those reported sold around \$5 to \$6.25 per cwt. But dealers stated that had there been cattle of good enough quality they would have brought \$5.60 pes cwt. Export buils sold at \$4 to \$4.60 per cwt.

Butchers—Choice picked lots sold at \$4.90 to \$5.15; loads of good at \$4.50 to \$4.90; fair to good.cows \$3.75 to \$4.25; common cows \$2.40 to \$5 per cwt.

Feeders and Stockers—H. Murby reports large receipts of stocks this week, chiefly weighing from 500 to 800 pounds, and of an inferior quality. These kind sold at low prices, but will go considerably lower yet. Mr. Murby bought about 100 head to-day at prices ranging from \$4c\$ to \$36 for steers with some quality, and \$3.65 to \$3.80 for steers 900 to 1,000 pounds of good quality.

Mich Cows—The demand for milkers and

quality,
Milch Cows—The demand for milkers and
springers was a little better, but prices were
not any higher. There is a fair demand for
springers of good quality that will come in
about October. Prices ranged from \$25 te \$57.50 each.

Yeal Calves—Prices for yeal calves were lower, in sympathy with the beef cattle. Quotations ranged from \$3.50 to \$5 per owt. Prime new milk-fed calves would bring \$5.50

per cwt.

Sheep and Lambs—Export ewes sold at \$4.50 to \$4.75; bucks \$3.75 to \$4; culls \$2 to \$3.75 per cwt.; lambs \$6.75 to \$7.50 per cwt., or, in ether words, 6%c to 7%c per lb.

Hogs—Prices unchanged at \$6.90 for selects and \$6.66 for lights and fats.

FLOUR PRICES. Flour-Mantiboa patent, \$4.60, track, To-ronto; Ontario, 90 per cent. patent, \$3.50 bld for export; Manitoba patent, special brands, 85; second patent, \$4.40; strong bakers' \$4.30.

Bradstreet's Trade Review.

Montreal: If there has been any Montreal: If there has been any change in trade conditions here during the past week it has been more a change of sentiment regarding the future than one of actual conditions. That is to say, that collections in the western country and, indeed, to some extent in all Canada, having shown some improvement, the outlook for the future is regarded as more favorable than ever. It would re favorable than ever. It would appear that although summer trade was late in setting in, its volume will not be behind that of previous years. A splen behind that of previous years. A splendid retail trade is now moving in all directions. In dry goods this is particularly the case. The re-order business for summer lines is brisk and fall and winter trade is exceedingly heavy. Some lines of trade report an astonishing expension over the business done last year. Innes of trade report an asconising expansion over the business done last year. This is the case with the ready-made clothing trade. In the matter of ready-made cloaks it is said business has been 50 per cent. heavier than ever before. e is also a very gratifying improve ment in the quality of the trade doing All lines of iron and steel are in bris of the trade doing lemand. Mills and car foundries are demand. Mails and car foundries are working to expacity and prices are firm. The boot and shoe industry reports great activity in preparation for fall business. There is a good business in groceries. Sugars are quoted ten cents ower, but are expected to again ad-

Winnipeg: There is generally a goo Winnipeg: There is generally a good tone to trade throughout this part of Canada. The excellent condition of the crops is having a good effect upon the general sentiment of business. In all parts of the country the expectations are for a heavy yield of grain and the quality of the crop is expected to be officials after the afternoon session of are for a heavy yield of grain and the the inquest had adjourned, and took them over the scene of the whole affair. Vancouver and Victoria: Summe

trade has been exceedingly heavy along the Coast. Industrial activity in the interior and the northern part of the rovince has resulted in an excellent de mand for all lines of wholesale goods. Collections also have been fair to good. The shipping trade is showing steady growth. Prices of commodities generally hold firm. There is still some complaint about the scarcity of labor.

Hamilton: An excellent volume of sum

mer business continues to move here, and the outlook for fall trade is exceedand the outlook for fall trade is exceedingly satisfactory. Collections are generally fair. Country produce is coming forward well and values hold firm.

London: The activity in local trade holds up well despite the disaster which visited the retail district recently. Manufacturers and wholesalers report an excellent demand for goods. Collections there improvement.

show improvement. Ottawa: There has been some improve ment in collections here during the past week. Trade continues to show a good tone and the outlook for fall and winter is excellent. Crop's in this part of the country generally promise well.

WANTS HIS HEAD.

CLAMOR FOR THE EXECUTION OF A FRENCH MURDERER.

Brest, uly 29.—In the course of the Brest, uly 29.—In the course of the increasing popular clamor for the carrying out of the death sentence imposed last Tuesday upon a man named Silielant for the murder of a little girl under particularly strocious circumstances, especially as it has been discovered that the Chamber of Deputies has passed an appropriation of \$5,200 for public executions. It was thought when Sileilant was sentenced that his execution was impossible because of the lack of this appropriation, but now it is known that the appropriation passed the Chamber of Deputies during the confusion of the closing days of the session by a majority of 13. This fact escaped public notice at the time. at the time. The time allowed by law for Soleilant to appeal from the death sentence expires to-morrow at midnight.

SEA SERPENT ON LAND.

Great Water Python Terrorising Nebraska People.

New York, uly 29.—The Herald has received the following despatch from Valley, Neb.; A great water python, forty feet long, twelve inches in dia-meter and with a head the size of a around about Ages Lakes, several miles

east of here. east of here.

Joseph Anderson and W. Nightingala, while walking through high grass nearthe lake yesterday, attempted to step over what they thought was a large log. It was the snake. While Anderson had a foot on either side the great snake lifted its head, throwing Anderson twenty feet. The serpent then made a rush for the lake, holding it head six feet above the ground, hissing like a stears engine. In its way it broke branches of trees three and four inches in diameter. trees three and four inches in diameter A big snake hunt is being arranged.

MILKMAN REBUKED.

Recorder Dupuis Says Dirty Vesseis Are Killing the Infanta.

Montreal, July 22. "Lock at all poor children he and others are spoting to the comstery," was the reprod on ployed by Mr. Recorder Durais to day when counsel for Louis Kutzmas, and when counsel for Louis Kutzmas, mak-nan, of 216 St. George street, asked for elemency for his client, saying, "this is a poor man, your Honor." Kutzman was charged, in the words of the com-plaint, with selling milk, "the vehicle for contagion or infection, inasmuch as the miver cans and measures employed were

mixer, cane and measures employed were dirty."

Mr. Recorder Dupuis further told Mr. Recorder Pupuls further told Kutzman that he was letting him off easy. "Cases such as yours," he said, "will in future be dealt with in such a way that the offenders will suffer the utmost severity of the law." Kutzman was fined \$20 and costs or one month in initial

INSTANTLY KILLED,

Mr. J. G. Fellows Run Over in G. T. R. Yard at Midland.

A Midland despatch: Midland received another shock this morning by an accident in the G. T. R. yards. Mr. J. G. Fellows was working on the G. T. R. track as a section hand, and stepping off one track to allow an engine to pass he stepped in front of the car, which off one track to allow an engine to pass he stepped in front of the car, which was an instant later struck by an engine coming from the opposite direction. The unfortunate man was knocked down with his body across the track, and one wheel passed over the centre of the body, killing him instantly.

OCEAN SHOOTING PIRE.

A Remarkable Phenomenon Reported From Tonga Islands.

London, July 29 .- A femarkable nomenon is reported from Sydney in a despatch to the Daily Mail. Advices from the Tonga Islands, dated July 5, state that seven distinct columns of fire, smoke, steam and black pumics stone, all within an area of two stone, all within an area of two limbs, have been visible for a fortnight from Togatabu, the largest island of the group. The columns, which appear to arise from veritable holes in the sea, are estimated to be 250 feet in height.

are estimated to be 250 feet in height. The ocean is very deep as this spot.

There is a continuous roor and frequent explosions occur, gurice being thrown onto the Island of Nukualofa, thirty miles distant. The Tongs Government Gazette reports that land is forming round the scene of the eruption and it is believed that a new island is in course of formation.

CLEVELAND IN DARKNESS.

City Swept by Storm Which Destroyed Large Amount of Property.

Cieveland, Ohia, July 29.—Many lives were imperilled and thousands of dol-lars of damage was done by a storm at Cleveland to-day. While the city was enveloped in almost total darkness for fifteen minutes, trees were uprooted, small buildings blown down and all the loose and lighter structures along the lake front and at the amusement parks were blown from their places and smashed to pieces.

Lightning struck numerous buildings,

the Sheriff street market house was sot on fire by lightning, and considerable damage done. A number of persons were struck and stunned.

struck and stunned.

It is reported that two small versels laden with oil were completely wrecked on the lake near the city, but no trace of wreckage can be found.

GRANT FOR LORD CROMER.

Proposal Before British Commons to Vote Him Quarter Million.

London, July 29.—In the House : nerman presented a Royal message proposing a special grant of \$250,000 to Lord Cromer, who recently resigned the post of British Agent and Consul-General in Equation of his services. al in Egypt, in recognition of his services to that country. Wm. K. Radmond, Nationalist, announced the intention of opposing the voting of this This carriage is engaged, sir."
The speaker was a stout elderly lady, with a florid complexion, piercing black eyes, and very white hair. She was well dressed in a travelling costume of black serge and had an air of importance and decision.

"I beg your pardon," said the intru der, with a glance at the rugs, books, baskets, scent-bottles, and newspapers which strewed the seats, indicating that the compartment had been for some time in reseasion of the decuments.

in possession of the occupants.

"I beg your pardon," and he tried to open the door with the intention of retreating; but the lock was stiff, and while he attempted to turn the handle, a shrill whistle sounded and they were offer.

they were off.

"I am exceedingly sorry for my intrusion," he said, with a sort of smile in his eyes, which abundant beard and moustache prevented from showing on moustache prevented from showing on his lips, and he took a seat next the obdurate door, as far as possible from the lady who had addressed him. His voice, though deep and harsh, was never theless refined. It seemed to attract th attention of another lady, who was com-fortably ensconced in the opposite cor-ner, and nearly hidden behind a news-

Pray do not trouble yourself about

"Pray do not trouble yourself about it, "she said, smiling. "Twenty minutes will end our journey." She lay down her paper as she spoke, and looked with calm scrutiny at the offender.

As their eyes met, the smile died out of his, and was replaced by an expression of intense, displeased observation. Yet the face and form which attracted his notice were pleasant to the eye and sugnotice were pleasant to the eye, and suggestive to the imagination. A pair of velvety brown eyes gazed at him frankly, wide opened and clear of their long lashes, a delicate, but firm, red-lipped mouth was still slightly parted, and a straw lock or two of ripe chestnut-colmouth was still slightly parted, and a stray lock or two of ripe chestnut-col-ored hair curled, tendril-like, over the edge of a dark velvet toque, which matched an admirably fitting tweed tramatched an admirably fitting tweed tra-velling dress, artistic in its simplicity. Nevertheless, the lady was no regular beauty; decidedly tip-tilted nose, and a colorless, though clear, soft complexion, were drawbacks which some dear friends considered insuperable; while others, less cound in Judgment, pronounced these de-fects infinitely more charming than sound in judgment, pronounced these defects infinitely more charming than faultlessness of feature. She was not very young either; that is, she had left her teens behind her, and might have been five or six-and-twenty; there was the composure of some experience and an assured position in her quiet pose and steady eyes.

and steady eyes.
"The trains are so crowded at this "The trains are so crowded at this season, and there is so little time allowed for changing, that one is glad to jump in anywhere," said the stranger, who did not seem in the least embarrassed by a sense of being unwelcome. And the white-haired lady with some district and much animation exclaimed:

dignity, and much animation, exclaimed "These Scotch lines are exceedingly ill-managed. The guards are most negligent and the insufficiency of porters most an-noying. I have never found travelling more unpleasant than in Scotland."

suppose the staff is seldom quite il to the demands of the busy time, said the intruder, mechanically, as he watched the newspaper behind which the young lady had again sheltered herself, as if on the qui vive for another glance

asserted the first speaker, with a "can you deny it?" air, and then the two

not prepare you. Their unwelcome comgazed at her as if lost in contemplation; but there was nothing admiring or presumptuous in his eyes, and when she suddenly raised hers, he look-when she suddenly raised hers, he look-when she suddenly raised hers, he look-when she suddenly raised hers, he look-"Well, and how have you been carrying ed away immediately. His notice did not appear to disturb her.

"I fancy we are almost at our jour-ney's end. I see a few houses and a spire or two," she exclaimed, presently. spire or two," "Well, so far, I don't see much beau ty!" cried the other lady. "I suppose that long, melancholy stretch of green, with the hillocks between it and the sea, are the links Sir Frederic told us of! There are some men in red coats standing about," and she began to fold the the papers and collect the books. the papers and collect the books. few minutes later the train slack

ened speed, and came to a standstill, tickets were collected, and they were slowly propelled into the little shed-like station, which was the unworthy haltplace for the ancient, learned and picturesque city of St. Cuthberts—the the favorite bathing place of the neigh-boring county families, of Edinburgh lawyers, and even of successful Caledonweary with the battle of life in distant London town.

"Ah! there are Sir Frederic and Miss cried the white-haired lady, he took little heed. standing up and waving her hand. The next moment they had stopped, and a gentleman, a fashionable, good-looking ding good evening to Miss Onslow and man, picturesquely got up in knicker-bockers and a deerstalker's hat, was opening the door, and greeting the new | ton to dine with Mrs. Bayley and her arrivals with great warmth, an unmistakable look of pleasure in his sleepy

"You are quite half an hour behind time; it is past six! But that is nothing new on this line. How do, Mrs. Bayley? You are looking better than ever!

It is quite reviving to see you both."
While he spoke he assisted the ladies to alight. Their companion was at the further side of the carriage from the platform, and when he got out he dis covered his fellow-travellers the centre of an animated group, while a smart lady's maid and a broad-faced German courier proceeded to collect and remove the various properties which littered the

The man who had been so nearly ejected from it, stood still with a puzzled look for a minute, then he followed the two servants to the luggage van, and, while securing his own portmanteau, read the name on the boxes they were claiming—"Mrs. C. Fane, St. Cuthberts, via Dundee."

via Dundee."

"Oh, here you are! I fancied you were left behind at that infernal junction," exclaimed a stout, red-faced, country gentleman looking man, coming up behind him. "Here, give the baggage to this fellow, he belongs to the hotel, and come along with me to the club; I should like to introduce you to the captain before we dine. He'll be so taken up to-morrow I may not get a taken up to-morrow I may not get a chance, and-

"Never mind, Dalrymple," returned the other, slipping his arm through friend's, "I want to have a talk you before you introduce me to any one. Let us go and secure rooms and or-der dinner; when I have said my say and had your advice, you may take me

where you like."

"Very well! But what's wrong with you?" asked Dalrymple.

Yielding to his friend's pressure, he walked briskly towards the new Royal Crescent Hotel, which crowned an abrupt bill between the terms and the estates. hill between the town and the station. Meanwhile, the ladies so warmly wel-comed, were chatting with their friends.

comed, were chatting with their friends.

"Dearest Mrs. Fane, how very good
of you to come round all this way to
see me!" cried Miss Onslow, a bright,
eager-looking girl, not pretty, but ladylike and pleasing. "I scarcely hoped
you would grant my request."

"I was very glad to come," said Mrs.
Fane, kissing her kindly, but glancing
round to see what had become of their
fellow-traveller. "I fancy this is a nice

"It is, indeed. Let me introduce my dear uncle, Dr. Methvin, to you." She motioned to a thin, gray-haired old gentleman, with a massive head and a kindly face, who bowed and raised his

fellow-traveller. "I fancy this is a nice

hat, greeting his niece's friend with old-fashioned but well-bred cordiality.
"We have been fortunate in securing a pleasant suite of rooms for you, and as scon as we have inducted you we hsall leave you to the repose you no doubt need," he said.

"I was greatly surprised to hear you had appeared in these remote regions," said Mrs. Fane to Sir Frederick, when

"Well, I am rather surprised to find my-self here. It is some seven or eight years since I visited this scene. You know I am a Drumshire man; but, alas! parted with all my interest in the county long ago—threw the cargo overboard to keep the ship afloat in stress of weather.

"Well, I am glad you are here. You must be our guide, philosopher and friend in this strange country."

were silent for some time.

The younger lady presently lay down her paper, and sat in though with downcast eyes. Seen thus, there downcast eyes. Seen thus, there towards Dr. Methvin. The him you will was a pathetic look in her face, was a particle work in the state of knowledge for which her sparkling, intelligent expression, when speaking or smiling, did but devoted friends."

"Then I am right royally provided," said Mrs. Fanc, as she moved on between Miss Onslow and her uncle, fol-

on the war since we parted?" asked the former, turning her keen black eyes on er companion.
"I have been keeping within my en-

some telling coup before we part. How stances. He has never had a chance of deucedly well she'll looking!" with a nod in the direction of Mrs. Fare. "I don't know what it is in her, but I never lost my head in the same way about anyone else, and yet there are times when I hate her!"

"Oh, if you go into heroies, I'll have nothing to do with you. Common sense and fixed purpose are the only levers to the seat of a university, lift you out of your difficulties." "And your help, most thorough-going of allies," he added. "If all goes right, you'll find I'll keep faith faithfully."

"You had better," replied Mrs. Bayley, with a pleasant smile, but a sharp, warning look from her black eyes, of which

"Horrid nuisance! I can't," he re-turned. "I am staying with a thirty

Consumption is less deadly than it used to be.

Mrs. Fane held up a warning finger, and went on: "I want to find out who he is. He came into our carriage at that tiresome Lochty Junction, and Mrs. Bayley tried to turn him out. He is a Bayley tried to turn him out. He is a very tall, gaunt-looking man, very dark—or sunburnt—with nearly black hair, and sombre, angry eyes. H ehas rather a ghastly scar across the side of his brow and cheek-bone, just missing his left eye."

"What an appalling object!" exclaimed Morton, laughing.

"No; he was not exactly ugly," said Mrs. Fane, laughing, too. "He is rather distinguished in style. He has a thick, short, dark-brown beard and long moustache and looks like a soldier. You can't mistake him. Do find out who he is, for his voice is oddly familiar to me—at

his voice is oddly familiar to me at least sometimes; but I cannot recall him

to my memory."
"I will do my best. You know the place is crammed with strangers for the meeting, so I may not succeed in seeing

meeting, so I may not succeed in seeing your incognito."

Unpacking, dressing, and dining filled up the time till it was almost nine o'clock, and while Mrs. Bayley settled herself in the easiest chair she could find, with a cushion that supported her head nicely, took up a "fortnightly," which she did not read, Mrs. Fane stood in a wide, projecting window, and watched the moon rising over the sea.

Mrs. Fane was not a widow, nor was

Mrs. Fane was not a widow, nor was she separated from her husband. But, years before, she and her young lord parted—why, no one knew. He went to India, where he was rarely heard of; she retained her fortune, and lived chiefly

Soon Sir Frederic Morton's entrance broke in upon her meditations. Coffee followed and then a long and lively conversation ensued. Mrs. Bayley slumbered peacefully over a profound article on "The Feeling Intellect." and Mrs. Fane was virtually alone with her guest. Nevwas virtually aione with her guest. Nev-er had he been more interesting, or talk-ed so delightfully. From satirical sketches of the people he had met since they parted in Paris, he passed gradually into a graver, softer mood. He spoke of himself, and his past follies with manly regret, and betrayed sanigations after regret, and betrayed aspirations after better things which surprised his toler-ably experienced hearer, and almost per-suaded her that a true, wise friend might pierce through the stones and rubmight pierce through the stones and ruo-bish which choked the outlets of his bet-ter nature, and release the imprisoned well-spring of higher things within him, especially if that friend were a woman. St. Cuthbert's great festival, the autumn golf meeting, when the medal is played for, had never attracted larger numbers or presented a brighter aspect

than on this memorable day-memora ble, at least, to some of our charac The first ball had been struck off at The first ball had been struck off at ten o'clock, and the morning's play had sufficed to winnow the competitors, and scatter the chaff of indifferent players. Public interest was now concentrated on the trial between the two successful players, who had scored equally, and were to try their skill again after lunch-

It was a splendid, mellow, sunny Sep "I was greatly surprised to hear you and appeared in these remote regions," said Mrs. Fane to Sir Frederick, when she had courteously thanked the old professor for his attention.

"Were you?" elevating his eyebrows. ted with gaily-dressed groups of people, stretched between gently rising uplands, partially wooded, and a broad belt of sands, fringed by little curling lovingly, to kiss its edge and steal back again, the air pure balmy, and just tinged with the delicious, briny frag-rance of the sea, gave bloom to the

friend, the captain of the club. A second time they walked round the course and watched each drive, each skilful stroke in the more diffficult task of putting. At length, amid loud cheering.

young Kenneth Morton was declared the winner, having made the round in eighty-three, an unusually low score. Every one crowded to congratulate winner, who was a great favorite, and as soon as Mr. Dalrymple had con-gratulated him on his success, and claped him on the shoulder, he introduce

his friend. "I am glad Colonel Carrington had first experience at golf circum "I hope you will join our ranks," re-

plied the young man, courteously.
"There's more play in the game than
you would think." "I see that," returned Carrington. "Where's your father, Kenneth?"

"He has just gone into the club-house "Come along, then, I want to intro-duce Carrington to him; he is quite a stranger here, and I am obliged to leave by the next train.

"I'm sure my father will be delighted," young Morton was beginning, when other and more noisy sympathizers claimed s attention.
"Come on," said Dalrymple, "I haven't

much time to spare. If I can catch old Leslie Morton he'il do all you want and lestic Morton hell to all you want and set you in the right way."

"I am infinitely obliged to you." Carrington began, when he suddenly interrupted himself, "Look Darlymple, do you see those ladies coming down the steps, from the club? They were my

ling companions vesterday."
George! And that man in the dark kniekerboeker suit, walking beside the lady in gray, is Sir Frederic Morion —no end of a scamp, unless he is terribly belied; as to the lady, you don't see such style every day. She moves like a thor-

Carrington made no reply. His eyes same searching, questioning glance he had first fixed upon her. She was talking and laughing easily with Sir Frederic, and looking brighter and better than the day before. Her dress was, perhaps, the simplest of the many tribities donned to do began to the day.

Hudson Bay

like a cutglass chandelier, evidently drew her attention to Carrington—for she glanced in his direction, but made no sign of recognition.
"It was the elderly one in black that

tried to turn you out of the carriage, hey?" said Dalrymple. "Well, she looke a jolly dame."

Still no answer from his companion, who turned, and looking after them, saw that they were joined by a young lady, and the old clerical-looking gentleman who had met them at the train.

"Yes," returned Carrington, after a pause, so long that Dalrymple scarcely remembered to what he was replying.

"I dare say she can be remarkably jolly, but I don't fancy her."

"Very likely; men seldom like the——Hallo! here's our noble Captain. I'm right glad, Morton, your boy won—won cleverly, too." Then after a little technical talk," Dalrymple presented his friend.

"Carrington was a great chum of mine in India," he said, "before my poor bro-ther's death called me back to be a laird. He has been staying with us up in the Highlands, and came on with me to see the golf meeting. I am obliged to re-turn to-night; but he will stay a few

and too often a precious little life is lost after only a few hours' illness. The mothers who keep Baby's Own Tablets in the house feels safe. The occasional use of Baby's Own Tab-

cheek and vigor to the step.

Mr. Dalrymple and his companion had been on the ground in the morning, and had returned in the afternoon, as the former was feverishly interested in the play of young Morton—the son of his friend the certain of the club. A see the seed of Baby's Own Tablets or Baby's Own Tablets of Baby's Own Tablets of troubles, or if the trouble comes unawares the Tablets will bring the little one through safely. Mrs. George Rob. Aubrey, Que., says: "I have used Baby's Own Tablets or Ta ach and bowel troubles, with the best results. I feel quite safe when I have the Tablets in the house." SCIENCE NOTES. The French cavalry recruit goes

through a long course of instruction be fore he is considered competent to get Old-age insurance is compulsory in Germany, and the cost of carrying the

insurance is shared by the Government and the employer.

It is claimed that only one out o 250,000,000 passengers on English rail-road trains meets with an accident.

The railroad rolling stock of England would form a train 1,800 miles long, ith 22,000 locomotives. In Stockholm one person in six is elephone subscriber

It is claimed that municipal ownership of telephones is a failure in England. Spanish telephone companies have an elaborate scale of charges scheduled acsording to the character of the busi-ness. Clubs are charged the maximum. The Spanish Government encourages telephones by taxing the companies from 10 to 35 per cent. of their net reve-

the prescent time France is trou led with an over-production of wine. Tantalum, the new metal, which is be ent time, was discovered about two years ago by a Swedish chemist, and was so named because of the tantalizing diffficulties he experienced in its deve

opment.
The total coal resources of the Southern States are estimated at 600,000,000. 000 tons, or more than one-fourth the estimated coal reserve of the entire

country.

The average earnings of an English train per mile is about \$1.35, and the total yearly receipts per mile are a lit-tle more than \$23,000. There are a thousand acres of sub-

marine coal mines being worked around Cape Breaon. The character of the soil overlaying these diggings enables them to be worked without interference from the water from above.

wore a costume of soft. pearly-gray to is generally easier to tell what we woollen stuff, the drapery bordered with work believe than what we do.

venture that would be "snowed up for ten months of the year and iced up the other two."

The Hill charter plans to feed the freight of Dakota and Minnesota into the Saskatchewan to Hudson Bay. Builders are at work on the southern end of this project now.

Another of these six Hudson Bay charters is owned by the new Canadian transcontinental line—the MacKenzie-Mann road. Of the 400 miles needed to connect Churchill with the railreads of the Saskatchewan the MacKenzie-Mann road has aiready eighty miles built, a railread with trains running, not "just an iron tonic for the cows," as the funny capers have adways described roads to Hudson Bay.

Two other projects have been galvanized into life by the schemes for a Hudson Bay route. For years Canada has talked of a deep water canal up the Ottawa from the St. Lawrence to the Great Lakes. Suddenly surveyers are set to work estimating the cost of a canal that would connect Lake Superior with ocean traffic. The cost, it may be said, is estimated at \$125,000,000.

Then around Hudson Bay is a vosat unorganized territory—Keewatin, about the size of Germany. The western provinces of Manitoba and Saskatchewan suddenly awaken to the fact that cach wants an extension of its boundaries across Keewatin for a seaport on Hudson Bay.

Roughly speaking, Churchill, which will be the scaport of the Hudson Bay routes, is just 1,000 miles from Oregon, New York is near 191,300.

Says Premier Laurier, in answer to a request for a road from ex-remier Greenway.

The. Canadian Government has sent two special expeditions (in 1885 and 1897) to test the navigation of the Straits, and one general expedition to navigate the northern waters (1903-4), but the question has become so terribly political—so much a question of east versus west—that the official reports on the expedition are more noteworthy for what they have unsaid than for what they say.

The Gordon expedition of 1885 and the Wakeham of 1807 definitely established these facts: Hudson Bay is open all the year round; a open current flows through the Straits winter as well as summer, but owing to lee drive this current of the Straits is closed to navigation after November, and is not open again till June—that is, there are always five months when the Straits can be navigated, sometimes six. There was also discovered just inside the eastern entrance to the Straits a splendid landlocked harbor, or haven of setuge—Port Burwell—shel-

discovered just inside the eastern entrance to the Straits a splendid landlocked harbor, or haven of refuge—Port Burwell—sheltered from all winds but the south.

A. P. Low's expedition of 1903-04 made a still more important contribution to the data on the Straits. Prom actual experience and from the testimony of old Hudson Bay navigators Mr. Low established the fact of—two open currents always flowing in the Straits; one along the north shore, inland westward, bearing the ice drift of Greenland, so that the ships entering can go with the ice drive; one along the south shore, outward eastward, bearing the refut les of Hudson Bay, so that the ships going to see can also go with the ice drift: in both cases snips can navigate the Straits with the low drift, not against it. In fact, the difficulties of the old navigators seemed to have seen that they did not know these currents and attemped to sall against the drive. But wrecks or no wrecks, the Hudson Bay route is coming. If the Straits are not fit for navigation they will be made fit.

The Fraternity Peril.

No intelligent person who studies our educational system at the present time can doubt that the fraternity movement is another of the perils of modern education. Boys like to be men. They like to become men as quickly as possible; and, unfortunately, it seems more natural fo rthem to imitate the defects and vices than the sterling qualities of those whom they admire. Among the il-lustrations of this general truth is the rage for secret organization which has recently taken possession of our coun-try from ocean to ocean. Boards of education in cities have been compelled to take action. Superintendents schools and principals of high schools, as well as high school teachers, almost without exception declare that these

fratermities are seriously injuring the young people of the schools where they are found. Everywhere that the subject has been fairly developed, so far as we can learn, the boards or education are prohibiting these organizations. The fraternities are appealing to the courts and the courts are sustaining the boards of education; and we may hope that the movement already checked may be destroyed. But that the fraternity movement is a peril no one can doubt. It is unfortunate that the presidents and professors of colleges have seemed to be far less intelligent, or less careful

permitted to do, without let or hind rance, what the boards of education and the faculties of high schools are seeking to prevent. The same snobbery, the same petty persecutions, the same tend-encies toward smoking, drinking, gambling and licentiousness, which have caused the high schools to reject the fraternity, are clearly evidenced in the fraternity city of the colleges. Yet the governing boards of the latter seem to be ignorant. ignorant, unwilling to do the thing which the situation requires.—From an article in The Home Herald.

THE OAT CROP.

An Insect Pest Attacks It in Huron

come on the oat crop. Many of the blades have turned brown and present a withered and dead appearance. is general and is quite distinguishable from the road. Some ascribe one cause and some another. Some attribute the blight to frost and some to the rav ages of the wire worm. But a gentle man who has made a close examination bays it is due to little insects or lice which have settled on the leaves and which have sucked the moisture out of them, but that the stalks and roots are quite sound and healthy. He attributes the appearance of these insects to the warm, dry wee, of the plant and says that the recent heavy rains will destroy them. If this heavy rains will destroy them. If this theory is correct there need be no feare for the crop on this account, for so long as the stalk and root are healthy there will be an unimpaired crop.—Seaforth Expositor.

Booth's Impressions of Japan. General Booth, who has fust returned

from the far east, has given his impressions of Japan and its people to the press. The general, in the course of an interview, said: "I like them (the Japanese) for their naturalness, thoughtfulness, and preparedness to consider anything you may put before them. I like them for their burning passion—such as swept the Russians off the field of battle. It was not all skill that beat Russia. But." he added, "in their ascendancy they are going too far in westernizing themare going too far in westernizing selves. The west is to them a paradise They even have their suffragettes. But drink and gambling are the two demons drink and gambling are the two demons that are waiting to pounce upon them, Japan has lessons to learn from us and we have lessons to learn from her. She is full of contradictions. There the children do not go to school without their breakfast. There you will see none without shoes and stockings. You never see a child or a woman that is not decently dressed. Everywhere the men are cently dressed. Everywhere the men are struggling into civilization by means trousers." With reference to commercial progress, the general said: "There are features about the Chinese and the Jap-anese which are bound to make them the conquerors of the world; but they will do it by peaceful methods."

Harvest the Weeds

Mr. James Moulton has renewed his youth and is very cheerful—is delighted to turn off more work this Dear Sir,-It is a long time since 1 season than in the previous five. Though in his 83rd year, Mr. Moultroubled you with any of my com-plaints, but I am compelled now to ask ton has done all the mowing and rak-ing on his place. He is a fine type of an octogenarian and in

you to help remedy my grievance.

In meandering around this lovely village, of which we are all so proud, I passed by our beautiful rown hall and ot an octogenarian and is able to thoroughly enjoy the society of old friends and all the pleasures that be-long to his time of life. passed by our beautiful town to thorns, ound the yard grown up to thorns, briers and, last but not least, that horrible weed, the burdock. Now, sir, whose duty is it to see that the grounds are kept neat and respectable? Are not our city fathers growing lax in I. N. Barber of Lena, Man., writing their duty when they do not see that this property is attended to properly? Our public streets, in many places, are West, after visiting friends here, and not much better Is it not compulsory Now, as there is a certain amount of on all owners of property to have all noxious weeds cut down that grow on anxiety East as well as here respecting the crops, allow me to give your read-

or in front of their property?

If the publishing of this letter may ers an opinion of one on the ground. The season was cold and backward on bring about a reform in this respect, I shall be much pleased and will remain the start, and lack of moisture later certainly had its effect. At Winnipeg, on our way home and before, they had

BLACKLEG AND ANTHRAX

A LOYAL CITIZEN.

Fortunately, these are not common diseases among our dairy herds, but either is almost invariably fatal, and it is reassuring to learn that the scientists at Ottawa have been preparing to deal with any cases that may arise. A circular letter recently issued

Killarney. As we neared Lena it was looking better, as they had had a few local showers that kept the grain By the aid of science, cattle raisers are now enabled to protect their stock against these maladies. As the human family is vaccinated against small pox, in the same manner cattle are rendered immune from Blackleg and Anthrax. The Department of Agriculture at Ottawa, through the Health of Ani mals Branch, is now in a position to supply preventive vaccine for each of these diseases at the nominal cost of five cents per dose. Until recently, by special arrangement with extensive manufacturers in the United States, these products were secured at a reduced cost, and were placed in the hands of Canadian cattle raisers at ten cents per dose for Blackleg vaccine and fourteen cents per dose for Anthrax vaccine. It is due to the fact that these preparations are now being made at the Biological Laboratory in con-nection with the Health of Animals Branch that they can be supplied at

five cents per dose.

The vaccine for Blackleg may be administered by any intelligent person by means of an instrument supplied by the Department at fifty cents

Anthrax vaccine, which is also sup-lied at five cents per dose, is more difficult to administer, requiring a qualified veterinarian to treat an animal

Cattle raisers who have fear of an attack of either Blackleg or Anthrax would do well to apply to the Veterinary Director General at Ottawa for the proper preventive treatment.

Local and General

Miss Jennie Purcell returned home Friday after a stay of forty days in St. Vincent de Paul Hospital, Brock ville, where she was given surgical treatment by Dr. Cornell. REMARKABLE INVENTION

FOR THE

HE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored thoughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear Cap three or four minutes daily.

60 DAYS' FREE TRIAL!

The Company's Guarantee

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medica Board on the subject of Alopsecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots), without resorting to any irritating process, the problem of hair growth would be solved. Later on when the EVANS YACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable. An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free

THE FALL FAIRS

We may as well make up our minds to reckon the sun spots in, on a very generous scale, when we cast up the chances of the future for our planet. Earthquakes and volcanic eruptions spasmodically devastate limited regions of the earth's surface, but the am spots, with the exceeding slowness and inevitable sureness of the mills of the gods, bring onward the doom of the whole world.

This is apparent from the fact re-wealed by experiments with the elec-tric furnace that the peculiarities of the light emitted by sun spots are explicable only by the lowered temper-ature of the spots and from the further fact that these same peculiarities exist in the light of certain stars, which for a variety of reasons are believed to be more advanced in age and cooler than our sun. The inference is unavoidable that sun spots must be considered as sun's power of radiation. He is yet close to the noon point, probably a littie past it, and henceforth, as his afternoon declines, sun spots will become more and more numerous and greater and greater in area, or else the cooling process now manifested by their presence will assume a more general form affecting the whole of the solar disk. And as this progresses the vivifying heat will be withdrawn from the earth, with consequences which we can re

A problem affecting the more imme diate future is that of the manner in which a sun passes through the various steps of obscuration. It is disquieting to watch the behavior of some of the stars a little more advanced than the

ecause, measured by the span of hu-

sun in age. We should hope that the sun will never imitate, for instance, Betelgeuse, one of his older and larger brothers, for Betelgeuse undergees, several times a century, changes of radiation which would quickly put the earth out of commission as a fighting planet if

curred in the sun.-New York To run a grave national risk for the sake of protecting some thousands of tourists from tile very transient discomforts of seasickness would indeed. nax of dementia, For through goods traffic the tunnel might be of dvantage to the continental farmer and manufacturer. In view of the prohibitive foreign tariffs it would, be of little use to British trade. We can-not abandon British insularity because some distinguished soldier has assert some distinguished soldier has assert-ed that the channel tunnel could be easily defended against 200,000 by fif-ty. On military grounds a bridge-across the channel would be preferable from every point of view to a tunnel under the water. No coup de main could se-cure a bridge against the action of the British navy. Modern engineering skill is certainly equal to the construction of such a bridge.—Ignotus in National

> tinguishing tenets of any particular HE GAINED HIS POINT.

> > and related an incident that amuse

"In a play produced in the provinces

deep dyed scoundrel remarked to the leading man before the curtain rose: "I say, old chap, I've got my fiances out in front tonight with her father and mother. Now, of course they don't know anything about our business, and I'm afraid it would rather hurt me with them if I received a blow and got away in the usual cowardly fashion.

"But, my boy, the management will

"" "Well, I'll pay the fine."
""Oh, yes! That's all very well for you, but what do I get out of 12? Bothing but a bad name with the pow-

extra, or, better yet, you hit me as usual, and I'll hit back! They'll fine

me up with the character I play. Out-siders are so funny that way."
"So the compact was made, and that night when the here eried, 'Sir Damiel Despwater'—or something of that sort—base offspring of a noble race, take that? Sir Damiel not only 'took that,' but gave it back with such force that 'the pit in cheers note at him,' includ-ing his relatives to be by marriage, and he walked off the stage is triumph, "I am sarry to add he last his situe."

SEALED TENDERS addressed to the undersel signed, and endorsed "Tender for addition to Rideau Hall, Ottawa." will be received at this office until Wednesday, August 7, 1967, inclusively, for the construction of an addition to Rideau Hall, Ottawa.

Plans and specification can be seen and forms of tender obtained at this department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Bach tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works. equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfieted if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

By Order.

By Order. FRED GELINAS.

Department of Public Works. Ottawa, July 16, 1907.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.

FRANKLIN'S GARB.

The Philosopher Often Taken For a Quaker, Though He Was Not One. Benjamin Franklin was often taken or a Quaker, but the philosopher did not belong to the Society of Friends. Franklin, being a simple citizen of Philadelphia, wore clothes of a fashion set by the Quakers, a plain gray or drab suit. He continued to wear this ostune while he was in France. Once when his court suit was not ready be ppeared in his "republican" garb be-bre Louis XVI. He became the fashn in France and indeed in nearly all curope, and it was at one time the tterateurs to dress a la Franklin. The orman historian. Schlosser, describing

Franklin's appearance in the French rawing rooms, speaks of "the simplicty of his external appearance, the friendly meekness of the old man and the apparent humility of the Quaker."
In touth, the humility and the meckness vere mostly matters of appearance, articles for the household. and the Quaker aspect was only an asect. Franklin was brought up by his vite inspection of the values offered. arents in Boston in the Congregation-I church and was intended by them or the ministry. When he went to "hiladelphia, he says in his autobiogaphy; he paid his "annual subscription o the only Presbyterian minister neeting we had in Philadelphia." But he distinctly avows his disagreement with Presbyterian doctrine and later was quite as ready to welcome and as ist Whitefield, the Methodist, with whom he also openly disagreed. Later still, he took a pew in an Episcopal church, but he was never a commu nicant Episcopalian. He says much about religion in his autobiography, explains how he became a deist in his youth, but abandoned the doctrine because it was not useful in making men

good. His own creed he declares to be

(Philadelphia Record.) The most stringent regulations for the in-section of slaughter houses and places ere meats, poultry and fish are prepared for use and sold as food are included in the new rules made public by the Bureau of new rules made public by the Bureau of Health yesterday. So many safeguards, in the nature of sanitary restrictions and pre-cautions, are placed around the sale and pre-paration of meats, fish and game that in the future, even in the summer months, householders will run but very slight dan-ger of purchasing tainted or impure meats if there is any scrious effort made to strict-ly enforce them.

ger of purchasing if there is any serious effort made to strictly enforce them.

The first section of the new rules, which were prepared by Director Neff with the assistance of Chief Abbott of the Health Burseau, is taken up entirely with slaughter house regulations, which provide that all houses, as well as stores and shops where meats are sold must be licensed and conducted under the supervision of inspectors from the Health Bureau. Any of the large number of inspectors, whose duty it will be to make frequent trips to all places where meats are sold, are given authority to enter and inspect the buildings for the purpose of making complete examination of the premises at any time that they see fit. The owners of the places of business can make no alterations or changes without a special permit, which will be granted after the proper officials pass upon the proposed improvements.

No one is permitted to live in any build-

ficials pass upon the proposed improve-ments.

No one is permitted to live in any build-ing in which animals are slaughtered. In All buildings will have to be specially fit-ted and equipped for slaughtering purposes, and appliance making it possible to keep the house clean must be supplied. The floors must be clean and washed frequently, while the walls of the rooms in which meat is stored must be tight and emoch and free from projections or crevices for the accumu-lation of likh.

the walls of the rooms in which meat stored must be tight and emooth and free from projections or crevices for the accumulation of fith.

The cooling and storage rooms and ice boxs must be completely shut off and supplied with a system of ventilation for fresh outdoor air. All the rooms in which meat is prepared, cured, packed, stored, handled or exposed must be lighted and ventilated. All parts of the building must be painted or whitewashed and kept in a thoroughly sanitary condition. The inspectors are empowered to have taken from the buildings any old tables or dools that for any reason cannot be kept in a cleanly or sanitary condition. All wagons, trucka, and drays, as well as all knives, cleavers and other tools, must be elected daily.

Dressed carheases cannot be transported through the streets exposed to view and to contamination by dust and insects, but all carcases must be completely enveloped in wrappers of canvas while in transit. The clothing of operatives must be washed daily, while employees will be required to keep their hands clean while handling meats.

The regulations governing meat shops provide that they shall all be kept scrupiously clean, and that during the summer months all doors and windows opening into such shops shall be effectively protected against the entance of files by the use of screens. No meats shall be permitted to stand or hang in the open air exposed to insects or sirect dust or other contaminating influences, but must be under glass or fly netting, and in summer properly leed to prevent spoiling. All blocks and stands must be kept clean by frequent scrapings and washings, while scales, knives and iomplements must be cleaned at the close of the day's business. Meat cutters must be cleanly dressed and free from contagious diseases; while no refuse, scraps, bones, rancid fat or decaying flesh shall be kept in the ice-box with fresh meat. The custom of wrapping meats in old newspapers or in wrapping paper that is soiled og that has been used for other pursones is expressly pro

for sale.

The regulations governing pork packing, smoking, canning, pickling, sausage making sad sorapple making provide that all establedments used for these purposes shall be constructed so as to admit of the maintenance of proper sanitary conditions in ev-

ance of proper anitary conditions in every department.

Offensive features such as butchering, hog solding and soraping, fat boiling and smokling, or any other process likely to thint or contaminate fresh mests shall be confined to separate apartments.

The making of sausage in a killing room is specially interdicted, while the cleansing of entrails for use in sausage making in the same room in which the sausage is ground is also forbidden.

The regulations governing fish houses provide that boxes, stalls or other recepticles shall be of impervious material and kept clean. The floors, ceilings and walls of the shop must also be cleaned frequently, and in cases where fish are cleaned or dressed, a metal-sheathed box must be placed to eatch the refuse, blood and drippings. The floors of the shope are to be flushed and of the shop must also be cleaned frequently, and in cases where flot are cleaned or dressed, a metal-sheathed box must be placed to catch the refuse, blood and drippings. The floors of the shope are to be flushed and enrubbed daily. Outdoor ish markets must be screened against files and other insects and from dust and, other struct refuse at all times.

The regulations government tries (except British possessions) have to pay 30 per cent.

The postal savings bank is meeting with the popular favor of the Filipino employees of the public printing plant are under cultivation now 517,000 acres, but were the producing 11,005,000 bushels. The crop is concentrated in a few southern States.

The regulations governing poultry shops and killing places provide that live poultry must not be kept in the same stores or shopmon with milk, meats or groceries; nor shall trates used for shipping live poultry be permitted in the Store-rooms. Rooms used for thipping hive poultry be permitted in the Store-rooms. Rooms used for thipping poultry must be kept clean. If as many as 300 fowls are killed each week a speckal killing room must be provided with impervious floors and walls and with such special equipment as is necessary to conduct the business in a sanitary manner.

Minard's Liniment Cures Colds, etc.

ENGLISH EMIGRANTS.

A FEW HINTS TO THEM BY ONE OUT HERE.

Mr/Percy R. Bartlett, of Bullion, Cariboo British Calumbia, sends the following interesting letter to the editor of the Birmingham Dally Post: "I have before me your issue of April 5th last, cent out to me by friends in Birmingham, and I wish to answer 'A Midland Man's' complaint about Canada. I have been out some four years. I landed in Montreal an utter stranger on a Thursday; I was introduced on the dock to some Canadians, who invited me to go round to their office, and one of them took a day off to show me the city and to put we in the way of work, which through his influence I got at once. They could not do enough for me in Montreel: nothing was too much trouble for a Capadian to take to help along a new Englishman. I decided to come West, and arrived at Vancouver, also friendless. I got an introduction to a manager of a saw mill, and meeting him a few days later he asked me if I was not working yet; I said I was not, so he said I had better come and work for him till semething better turned up. I started on Monday, and on Taursday he came to me and told me to go and apply to a man who wented an electrical ply to a man who wented an electrical engineer, and say he sent me. I got the job right away. These are mere incidents out of the many of the way Canadians help along a new chum from England. But this is the whole point: work, take arr job that is offer of you, show there can you mean work,

where. A single state of the street of the s we want here are men with grit and de-termination to get on, and, moreover, who are not afraid to take off their coats and work. The Canadians have not got one-half the contempt for the Englishman out here that I and a lot more English have. A seems the dump-ing ground for all the tired men they have in England. I met three Englishing ground for all the tired men takey
have in England. I met three Englishmen (Cockneys) in Edmonton last
spring, sent out by some charity; they
could not find work! Why, work was staring them in the face; but that was with pick and shovel and would not do for Mr. Englishman, even at 9s a day, though they admitted £1 a week was the most they got in London. They were, like 'Midland Man,' going back to run down Canada, instead of running down themselves as being useless. An English man is sure of a good chance out here if he is a man; if not, neither his fellow-Englishmen nor Canadians want him here. I know I could not hold the re sponsible position nor get one-third the salary in England I do here, because over there I would be too young."

"Rock of Ages, Cleft for Me."

There is no greater hymn, perhaps, in the language; there is none more universally familiar. It has been the comfort of thousands in their last hour; when years ago a ship sunk in the Bay when years ago c ship sunk in the Bay of Biscay, a man who was saved was asked what the passengers were doing. He said that the last he heard was "Rock of Ages," sung by all who could sing. In multitudes of cases, in joy and in sorrow, in times of danger and amid scenes of peace, it has been the language of the heart.

And yet, familiar as it is, and precious

language of the heart.

And yet, familiar as it is, and precious as it is, possibly there may be those to whom it is not quite clear what Toplady meant by the figure in the first two lady meant by the figure in the first two lines of the hymn. In Isa. 26. 4 is the expression. "exerlasting strength." but the marginal reading is "rock of ages." It is probable that the real meaning has been brought out with beautiful clearness since reading of the circumstances under which the lines were written. There is not far from the place where Toplady used to zerve as curate in charge, a great rock rising up by the side of the road. In the midst, as it were between two massive towers. as it were between two massive towers, is a deep cleft. One day, in passing, be was driven into the shelter of this cleft to escape the fury of a thunder-storm and it was while walting there, it is said, that he composed his great wmn.-Selected.

Collision Not Inevitable.

"If two cars go in opposite directions at great speed on the same track what is the result?"
"Collision."
"Not necessarily. You know they

might be going away from each other."

HOW to make Deposits by Mail

Go to the Post Office or Express Company and get an order, payable to the Union Trust Company, Toronto. It will cost you less than if you lived right in Toronto and paid street car fare down town.

Write us a letter stating that you wish to open a Savings Account, en-close it with the Order in an envelope, put on a two cent stamp and drop it in the mail.

4% Compounded Quarterly

On its receipt by us a Pass Book, with the amount properly credited therein, will promptly be sent you.

You will then be fairly started in the right way to accumulate money for future use or a "rainy day." We accept deposits from one dollar upwards. Funds are withdrawable by cheque at any time.

Our booklet E sent free on request, gives full information on Banking by Mail at 4 per cent. interest. Write for it to-day.

The banquet took place at an Eighth street restaurant and there were 150 guests, mays the San Francisco Chroni-cle. A notable feature was the fact that the wives and children of the guests sat down at the same table with the heads of families. A most elaborate menu, comprising birds' nest soup, steam stuffed duck, Foon Yon Ha, sharks' fins and other rare and costly Celestial lishes were served.

The banquet cost the happy father \$1,800. During the evening quite a number of prominent members of the San Francisco Clearing House called at the restaurant to offer their felicitations to him. The hair-cutting ceremony, which was observed with picturesque rites, symbolizes that Fong Hock's heir s now a family factor.

BLOCKS JUSTICE.

DEPUTY CHIEF STARK, OF TORONTO, ON TRIAL BY THE POPULACE.

Petitions Are Often False-Interesting Paper Read Before the Convention of Police Chiefs-Ouebec Next! Meeting Place.

A Montreal despatch: After hearing several papers read during the afternoon and deciding unanimously to hold the next convention at Quebec. the Chief Constables' Association of Canada adjourned to allow the members to attend the police games in the afternoon.

Inspector Stark, of Toronto, read an interesting paper on "Trial by the Populace," in which he enumerated the difficulties which undue interference by the public causes the police authorities in their efforts to suppress crime.

"Moral sunsion and punishment," id he, "are the two methods of dealphilanthropists must deal with the first method, while the police authori-ties have to use the second. The difficulties thrown in the way of punishing criminals by maudin public senti-ment, aroused by capable criminal proved a serious As criminal is arrested and a capable criminal lawyer is secured to defend him. If the criminal has a friend at all, that friend seeks the incriminal lawyer is secured to women whose life was saved was Miss Muence of political people, whether municipal, provincial or federal. An effort is made to obtain bail privately. If the judge and clerk of the court are what is known as "dead easy," a cash bail is put up out of the fruits of the crime, and the criminal disappears, never to be seen in that neighborhood

'If, however, the magistrate is experienced, the application for bail is renewed in open court, with the usual grand stand play, denunciation of po-lice methods, and an appeal to the public uttered all the time with a ju-dicious eye on the press stand. Then the public gets in, the criminal at last believes himself to be a victim, a mar-tyr, railroaded to conviction by perjured police officers, aided by a preju-deed judge and jury. Even if a con-viction is secured a petition is circu-lated. Politicians of high and low degree, ministers of religion and other reputable citizens injudiciously sign these petitions, and a terrible pressure, supported often by sensational papers, is brought to bear on the Ministers of the Crown, and frequently a criminal is let loose. The trouble with these petitions is that, being prepaced in prithey set up facts that are altowate, they set up facts that are alto-mether incorrect, and suppress others, that are most pertinent, Political pressure is brought to bear from all sides, and it is a strong man indeed who can resist the combination.'

Several of the delegator discussed the several of the delegator discussed the paper. Lieut.Col.Sherwood declared that the right of petition could not be suppressed, as it was at the basis of the British constitution. He suggestions ed, however, that some means might be found to reach those who signed such petitions when they contained such statements This would make people more careful about signing such documents, and then a person drawing up such a petition would exercise more

Chief Sleeman, of Brantford, read a paper on the necessity of neatness in the men on police duty, while Inspector Thompson, of the Ontario Juvenile Courts, read an interesting account of the working of the Juvenile Offenders' Act in Ontario,

A. E. Williams, chief detective of the Intercolonial system, who was present, was elected a member of the association.

Then came the fight for the convention next year. The vote was almost two to one for Quebec and it was made unanimous.

"Thought is in the soul, which permestes the entire physical being. The brain is a great heat producer, but it has little to do with the function of thinking. We

to do with the function of thinking. We think with our fingers or with our toes whenever we use them."

Dr. Simms declares that such world-renowned scientists as Sir William Hamilton, of Edinburgh University, and Professor Von Hartmann, of Berlin, agree with him in his theory.

VICTORIA FIRE.

CONFLAGRATION WIPED OUT THE "TENDERLOIN."

istrict Was Not an Imposing One-Loss Estimated at \$150,000—Squad of Royal Engineers Did Good Work.

Victoria, B. C., July 29.—The fiercest fire in the history of Victoria raged at the northwestern section of the city yesterday between the hours of 3 p. m. and 8 p. m, and in that time, before it was got under control, completely gutted ninety dwelling houses, two churches, a school house, and twenty small cabins. No lives were lost. The estimated damage is \$150,000.

The fire broke out in the Chine quarter near the waterfront in the rear of a blacksmith's shop. A strong southwest wind was blowing and flames spread rapidly, houses catching at irregular intervals, sometimes as

far as 200 yards apart.
Owing to an inadequate supply of water the fire brigade was totally unable to cope with the flames, which never showed signs of subsiding until hut off by the open country.

By 8 o'clock further damages were

By 8 o'clock further damages were averted, although masses of ruins con-tinued to smoulder for many hours afterwards. Over an area of half a mile house old goods littered the streets, where

thousands had collected, rendering what help they could.

The car service was paralyzed in consequence of the power station being cut off. Over 500 people are homeless and are billeted in the various

hotels of the city.

The burned district is bounded on the west by Shore street, on the south by Herald, as far east as Blanchard, thence it jumped to Pioneer, but in this block only a few residences were SUPPORTED A WOMAN IN THE The south side of North ed the next boundary, while on the north it extended to Pembroke street, burned area is part of Chinatown, and not a single house in "the tenderloin" remains standing.
The residential portion also suffered
considerably. This is the second fire The Shipwrecked Passengers Sang Portland, Ore., July 29.—Miss May-Belle Watson, of Berkely, Cal., the 18-year-old heroine who supported a drown-ing woman for two hours after the wreck of the steamaking Calumbia. which has swept this section of the

city, the other occurring about three years ago.
With the heavy wind blowing the year-old nervine was after the wreck of the steamship Columbia, was one of the passengers arriving here on the George W. Elder.

Miss Watson with three companions succeeded in entering a lifeboat, but it had hardly been lowered when the Columbia sank, the occupants being thrown into the water.

With the heavy wind blowing the cinders were carried great distances, and it was not long until the fire was raging half a mile away from where it started. Volunteers rendered valuable assistance, and in many instances all the furniture in the house was saved. In some cases, however, the efforts of the volunteers were with reward.

into the water.

"When I came to the surface," said Miss Watson, "some persons were singing 'Nearer, My God, to Thee, and other hymns. I had never swam a stroke in my life before, but somehow I had confidence enough to try. I had gone but a little way when a woman ros ebeside me and caught me around the neck. I had to support he with one arm and had to be dragged to a plength of time. Several firemen were overcome with the efforts of the volunteers were without reward. Before the goods could be removed from the street, the fire was upon them and they had to be abandoned.

The heat was something terrible, and it was impossible to remain anywhere withing the support had to be dragged to a plength of the volunteers were without reward. Before the goods could be removed from the street, the fire was upon them and they had to be abandoned. me and caught me around the neck. I had to support her with one arm and swim with the other. Several men passed us, but would offer no assistance. I struggled along as best I could until I was picked up more than the neat zone for any length of time. Several firemen were overcome and had to be dragged to a place of safety.

Great credit is due the firemen for the splendid manner in which

splendid manner in which they acted, under adverse circumstances. Everything possible was done, but the fate of this section depended on water and without moved.

Mayor Scott was also sent for by the quench the fire.

quench the fire.

JAP RESIDENT-GENERAL SUPREME IN ADMINISTRATION OF COREA.

Synopsis of the Provisions of a New Convention .. Between Japan and Corea.

Paris, July 29.—The Brest correspondnew convention between Japan and
Corres was signed to day at 1 nm after.

The convention which will now be sub-Corea was signed to-day at 1 p.m. after no small opposition by the Corean Court The provisions are believed to be briefly as follows:

First. Provides that administration of Corea shall secure the guidance of the Japanese resident-general.

Second. That the enactment of all laws and ordinances, also all important state affairs, shall receive the approval of the

mended by the resident general shall be obligible for office in the Corean Government.

Fifth. That a distinct demarkation shall be drawn between administrative and iudicial affairs.

Luba and Chiloz, as well as some French officers, were present, Rear Admiral Stockton proposed the health of the Emperor of Japan and of the Japanese navy. In reply, Capt. Takanoutchi, of the Tsukuba, toasted President Roose-

and judicial affairs.

Sixth. That foreigners shall be employed only upon consent of the resident-

mitted to the Privy Council of Japan, will be published here this evening. Of No Importance.

Paris, July 29.—There is a great and ent of the Matin sends an interview with the Japanese Vice Admiral IJiun, who is quoted as saying: "It is true that a question has arisen at San Francisco, but it is purely local, having no importance whatsoever to the outside world. It would be wrong to hold the Washington Government responsible."

high and responsible officials shall receive the approval of the resident-general.

Fourth. That only persons recommended by the resident-general shall be eligible for office in the Corean Government.

Jape Kept on Board.

Tokio, July 29.—(Afternon.)—The dinner given by Rear Admiral Stockton on the American cruiser Washington last night, at which a number of Japanese navel officers from the cruisers Tsukuba and Chiloz, as well as some French officers, were present, Rear Admiral Stockton on the American cruiser Washington last night at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the American cruiser Washington last night, at which a number of Japanese on the Corean Government.

velt and the American navy.

The Japanese sailors are still confined to their ships, and will not be granted general.

Seventh. That the first clause of the shore leave until the departure of convention of August 22, 1904, providing

American squadron this afternoon.

SUNDAY CHEESE.

PERMISSION TO WORK ON SUNDAY MORNINGS RECOMMENDED.

> Dairy Branch, Parliament Buildings,

Dear Sir,-We beg to inform you that we have, under your instructions, made careful and thorough enquiry into the question of Sunday work in connection with the manufacture of cheese through the thirty-two instructors employed by this department. From our own perso al knowledge of the situation and as al knowledge of the situation and as result of the enquiries made, we feel that we are pretty fully informed as to the present situation. In Western Ontario, out of 218 factories, 68 are manufacturing cheese on Saturday night. In Eastern Ontario, less than one-quarter of the Saturday night and manufacturing it into choose. In the majority of cases where milk is taken in on Saturday night, it is found impossible to properly complete the work before twelve o'clock. The work the work before tweive o'clock. The work is, therefore, continued for a period of from one to four or five hours in the beginning of the Sunday. If those factories that are at present doing some work, it would, in nearly all cases, be necessary that the milk be retained at the homes of the patrons as the factor. necessary that the milk be retained at the homes of the patrons, as the factor-ies at present have not proper facilities for holding over until Monday morning this milk and then handling it with the Sunday and Monday morning milk. The difficulty now met with in the hand-ling of the milk at the home of the pat-rons is that the patrons have not stor-age or ice precessary for the purpose. In

all other factories where Saturday night delivery does not take place, or necessary for the patrons to make butter at home or to hold the Saturday night's milk over, along with the Sunday's milk, until Monday morning.

It wil be seen that, in the future, to handle the milk at present made up on Saturday night and Sunday, either the factory must be reconstructed or equip-ped with better facilities, or the pat-rons must put in additional appliances at home and provide ice supplies.

age or ice necessary for the purpose. In all other factories where Saturday night

If the law against doing any work in cheese factories during any of the hours of Sunday were strictly enforced at once, there would, of necessity, be a very large waste of milk on the farm in addition to the increasing of the Sun-

day work on the part of the producer to a very large extent. Having considered the question from all standpoints and obtained opinions from many persons interested in the question, we beg to recommend that, for the present year, permission be granted to continue the Saturday night work in cheese factories until not later than 5 a. m. Sunday morning. In this connection, we might state that, in the great majority of cases, the work can easily be completed by 2 a. m. but in some cases beyond the control of the maker,

cases beyond the control of the maker, it may be found impossible to make up the cheese at so early a time. Further, we would suggest that early notification be given to the dairymen of the Province (owners, of cheese factories, makers and patrons) that it will be ne-cessary next year to fully comply with the requirements of the Sunday Obserwance Law and that they should now make arrangements whereby either the patrons of factories shall now begin to make provision to keep the milk at home under proper conditions or utilize it at home, or that the factories shall make such provision as may be necessary to enable them to handle the milk on Monday morning. Respectfully submitted, (Signed),

C. C. James, Deputy Minister of Agriculture.

Geo. A. Putnam.

Director. Dairy Instruction.

G. G. Peblow.

Chief Instructor. Eastern Ontario.

Honorable J. P. Whitney, Premier.

AUTHOR OF "MOLLY DARLING." Death of Col. S. Hays, Celebrated Song-Writer.

Louisville, Ky., July 20.—Col. Will S Hays, the veteran river editor of the Hays, the veteran the call of the Courier Journal, song writer and poet, died at his home here yesterday of vertigo, caused by a stroke of paralysis suffered in the Iroquois Theatre fire in Chicago, Dec. 30, 1903. He was 70 years old. Col. Hays always claimed the au old. Col. Hays always enabled the atthorship of the original words of "Dixie," and that he was responsible for the arrangement of the music. Col. Hays' most famous song was "Mollie, Darling," the sales of which reached two million copies

in Europe and America.

SHRINE OF ST. ANNE.

Large Increase in Number of Pilgrims Carried by Rail.

Montreal, July 29.—The Canadian Pacific and Grand Trunk gave out to-day the returns of the pilgrimage traffic up to date. They have been bigger than anything previously recorded. The Shrine of St. Anne de Beaupre is the point of attraction. It grows in popularity every

The Grand Trunk claims an increase of thirty per cent. in the number car-ried. Last year the number of pil-grims to the village shrine on the banks of the St. Lawrence numbered nearly 200,000. It is believed that the total

million.

The Canadian Pacific gives as the full number carried over their system to the shrine 14,000. Between 5,000 and 6,000 were from the city of Montreal. It is expected that before the close of the on the total will aggregate 22,000.

MILL EMPLOYEE'S DEATH

Fell Into a Vat of Acid—Bone and Shirt
All That's Left.

Brockville despatch: Speculation regarding the recent mysterious disappearance of Sylvester Makuski, aged 25 years, employed in the sulphite mill of the Union Bag and Paper Company at Ballston, is now at an end.

A search revealed one bone and a piece of his shirt in the digester.

Makuski was employed shoveling chips into the 18-inch opening of the large digester in which the chips are mixed with sulphurous acid. He went to work at 7 o'clock in the morning as usual, and continued to work until 11 o'clock at night for another employee. He did not night for another employee. He did not return, and his father reported the disappearance at the mill

BETTER THAN SPANKING

Spanking does not oure children of bedthis trouble. Mrs. M. Summers, Box W. S. Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or pight.

MARINES LAND IN SICILY.

Preparations by the Authorities to Quell Revolts at Palermo. Rome, July 29.-Three hundred mar-

day from the battleship Sardegna. The authorities are thus preparing to cope with any further disorders that may arise from the recent arrest of Nunzio Nasi, ex-Minister of Public Instruction, on a charge of embezzlement. Nasi is popular in Sicily, and his arrest has been followed by several demonstrations.

Artillery has been mounted in the streets of Paler mo, and other warships will b

The ranks of the followers of Nasi were swelled yesterday and to-day by the coming in of the adherents of other political leaders, and the situation throughout Sicily is causing great apprehension.

AN ECHO OF THE TWELFTH.

Three Men Pleaded Guilty to Obstructing the Police.

Toronto despatch: The six defendants Toronto despatch: The six defendants who were charged with obstructing the police at different points along the line of march of the Orange procession on July 12 last were brought before Magistrate Denison this morning. Three were sent for trial and three pleaded guilty. Those sent to the Sessions were John W. Hugginson, Wm. White and Wm. Corrin. Thomas Richardson, John Curtin and Samuel Wardrobe were each fined \$3 and costs or 30 days in jail.

WINNIPEG DEBENTURES.

3,000,000 Issue is Disposed of at 94 Flat.
