Post-office totally destroyed. Mrs. Williams, dry goods, loss \$3,000; no insurance. Parker and Butler, loss \$2,000; no insurance. Masonic lodge furniture partly destroyed, loss \$150. Odd-fellows lodge furniture, totally destroyed, loss \$200. Jas. Baldwin, loss \$500; building damaged \$500. Two horses were burned. They were owned by Nelson McWilliams. A barn owned by Mr. A. McWilliams, Exchange hotel, and it is evident an incendiary was at work, as there was light on the place.

THE WINNIPIC TRIBUNE.
A scene in the Legislature on a Motion for Inquiry.

WINNIPEG, Man., June 15.—In the legislature last night Mr. Greenway moved that a committee be appointed to inquire into the pecuniary affairs of Col. Kennedy, the registrar.

In making the motion he stated that he had been asked by the conservative party to press the matter, but had determined to do his duty. The conservatives opposed the motion and he had to withdraw it.

He then moved that the registrar be asked to furnish a list of the names of all persons who had been appointed to the office of registrar since the last election. The registrar refused to do so, and the matter was referred to a committee.

THE BRIGHT BANQUET.
The Veteran Radical on Obstructionists in Parliament.

LONDON, June 15.—John Bright, in responding to the speech of Lord Granville at the banquet given to the former at Birmingham last night, dwelt upon the necessity of extending the freedom of trade and franchise and the redistribution of seats in the house of commons.

He said he hoped the victory would be supported in carrying out a policy of wisdom and moderation. He expressed his confidence in the obstructionists in the house of commons, who he said, allied with the Irish party, were doing their utmost to make it impossible for the house to do any work.

THE FRENCH IN MADAGASCAR.
Official Report of the Bombardment of Antananarivo.

PARIS, June 15.—Admiral Pierre, commander of the French fleet in Madagascar, in a report of the bombardment of Antananarivo, says he demanded the surrender of the place, but received an evasive reply.

Five vessels were damaged in the town, three of which were mounting thirty guns. They were quickly silenced. The French maintained no loss of men. They occupied the town and are collecting customs.

PORTLAND TO ABOLISH HOUSE OF PEERS.
Lisbon, June 15.—The Government bill abolishing the hereditary chamber of peers and creating a senate has been submitted to the bureau of the cortes. Gen. Pereira de Mello, prime minister, has been instructed to re-organize the cabinet.

UNITED STATES NEWS.
Reports received at Chicago estimate this year's crop at 100,000,000 bushels.

All the children captured by Crook in his recent raid will be taken to Indian schools in the eastern states.

Mechan, who while ward of the penitentiary at Jersey City, allowed a prisoner to escape for ten dollars was yesterday sentenced to nine months at hard labor.

BRADSTREET'S WEEKLY REPORT.
New York, June 15.—The general business situation throughout the United States fully maintains the improvement noted last week.

Special telegrams to Bradstreet's from leading business centers point conclusively to this, while revealing as well a number of reports of lack of commercial strength.

The Pacific coast is enjoying an unwonted degree of business prosperity, and in the northwestern states the movement of general merchandise is satisfactory.

What is lower, owing to larger stocks, small home demand, and practically no foreign demand in connection with better weather. Corn is less attractive owing to a fair demand. Provisions are weak and lower, caused by a steady receipt of hogs at the west, and a general distrust of prevailing prices in the absence of any notable request. Pig iron is unchanged in price, but a better feeling prevails.

THE CALL TO ROME.
Rome, Ill., June 14.—Bishop Spalding corroborates the statement that the archbishop of the United States has been commissioned to assemble at Rome in October to arrange a program for the plenary council to be held in America.

The business of the council will only pertain to ecclesiastical affairs in this country and involving Irish officers in this country are not in the program. This was the pontifical intention for three months ago, when Bishop Spalding was in Rome.

The establishment of a catholic university in this country is immature.

A Week's Failures.
New York, June 15.—There were 165 failures in the United States reported during the past week, 17 more than the preceding week, 61 more than the corresponding week of 1881.

The middle states had same week of '82, and 105 more than in 1881. New England 31, southern 28, western 49, Pacific coast and territories 21, Canada 23.

SATURDAY MORNING, JUNE 16, 1883.

CHIEF JUSTICE COLERIDGE'S
ADDRESS TO THE JURY.

An Impartial and Unprejudiced Address to the Jury.

LONDON, June 15.—Changing the jury in the case of the transmitter yesterday, Lord Chief Justice Coleridge said the crime with which the prisoners were charged was one of the gravest and heaviest possible. He would not describe the calamities which the explosion might have caused, as he desired that both the jury and himself should consider the facts of the case with judicial calmness.

Society could not exist if the offense charged against the prisoners was not within the grasp of the law. When it was proved, there should not be the slightest peevishness on the part of either judge or juror. The grand jury said that although it was not required by the evidence of the approver, should be corroborated by a large amount of American money had been found on Dr. Gallagher when arrested. That fact tended to confirm the statement of Lynch that Gallagher was one of the chief organizers in America and London of the conspiracy. Although Dr. Gallagher's sister had been called as a witness, there was no attempt to prove that the money had been earned in the ordinary course of business. Lynch's evidence had been confirmed in several other important points, and he believed it was generally trustworthy. It was most important that society should be made aware of the fact that aliena should not be convicted of homicide grave a crime unless on the clearest evidence.

DOWN ON THE DYNAMITE.
Opinions of the English and Irish Press on the Old Bailey Sentences.

LONDON, June 15.—The Times says the sentences passed on the dynamite conspirators are severe, but considering the heinousness of the offence, they have not received more than their deserts. All the London journals express approval of the sentences.

The News says the sentences were deliberately declared against society, and have no right to complain of the consequences.

A Dublin despatch says: The Freeman's Journal, referring to the conviction of the dynamiters, says: "The microbes got what they richly deserved. It is hoped that all others caught in the same diabolical business will meet the same treatment. Such a mode of warfare is only calculated to bring odium on the people and nation in whose cause such acts are claimed to be committed."

HANGING TOO GOOD FOR HIM.
The Horrible Crime for Which Jordan Coppis Was Executed.

Stirling, June 15.—A special from Stirling published yesterday, and seriously wounded his wife and son for the purpose of ransoming his daughter near Rookford, Coosa county, on Monday night, was captured by a posse and put in jail Wednesday. That night he was taken from the jail by a crowd of 500 and hung. The crime was the most heinous ever perpetrated in this country.

At the meeting of the trades and labor council last night, Mr. Moore in the chair, credentials was accepted from Messrs. Wilson and Severn of the female shoe operator's society, and A. Malone from the iron moulder's union.

Mr. O'Donoghue, in the absence of the chairman, read the following report from the legislative council, Toronto, June 14, 1883.

D. D. Hay, Ontario Special Immigration Commissioner.

At a regular meeting of the council a letter dated May 9, bearing your signature, addressed to Mayor Bowser and his reply were read and discussed.

At the meeting of the council on the 11th inst. in all in accord with the view implied in the answer to the committee on legislation, with instructions to deal with the whole matter on its merits.

The motion was carried. Mr. G. B. Kirkpatrick moved, seconded by Rev. Dyan Hague, that this syndicate be referred to a committee to be appointed on the 1st day of next month to report on the subject, but this motion was not carried.

Resolved: That his lordship the bishop be authorized and requested to appoint an organizing agent for the carrying out of its objects.

The Rev. Dyan Hague, as second, spoke eloquently on the subject and showed the great importance of the matter, and the great need of appointing an agent.

The Rev. Canon Curry was not indifferent to the temperance question; he did all he could to further its efforts, but did not believe in dominion alliance.

The next question was the great Lantry vs. Dumoulin case—which occupied the rest of the evening and most of the afternoon. A great deal was said on the matter, but no definite conclusion was reached.

It seems that a certain number of canons have been convened in the locality where the case, and though all search has been made it has not yet come to light.

The Rev. J. P. Lewis was of opinion that not even a reward of \$5000 would discover the case had been decided.

A great squabble ensued, which was rapidly becoming, to say the least, unedifying, when his lordship the bishop intervened.

AN ANGLICAN SYNDICATE.
Last Day—The Langtry-Dumoulin Case—The Rev. Canon Curry's Speech—The Rev. Canon Curry's Speech.

At the meeting of the syndicate yesterday the number of members had greatly decreased, only half the seats being filled, and the number of ladies being reduced to three.

The Archbishop of York, Canon Donohue, Prof. Wilson and Mr. Hoyle were appointed as a committee to answer the memorial of the Toronto ministerial association.

Mr. Warrell brought forward a motion to introduce a canon in the synod with reference to vestries and church wardens of free churches (churches in which sitting is free), which after a good deal of deliberation was referred to a committee to be appointed on the 1st day of next month to report on the subject, but this motion was not carried.

Resolved: That his lordship the bishop be authorized and requested to appoint an organizing agent for the carrying out of its objects.

The wind was about east yesterday. The North Star arrived at the N. R. R., light, from Kingston.

The Olympic, Dundee and M. E. Ferguson arrived with stores.

The propeller Ocean arrived with merchandise from Montreal.

The Acadia is in with 261 tons of coal from Charlotte for Bailey.

The J. G. Worth brought 636 tons of hard coal for Bailey from Charlotte.

The Erie Steamer, at Nairn's with coal, will have her last trip to-day.

The J. J. Worth leads mail for Oswego at Adamson's elevator this afternoon.

The Marquis is at Adamson's, and will not get off before Monday or Tuesday.

The steamer Erin brought in the mail from Liverpool, and will have her last trip to-day.

The Arcadia from Montreal called at Sylvania's about 3 o'clock yesterday afternoon on her way to Prince Arthur's Landing and Duluth. This is her second trip up. She took in quite a few passengers.

The E. H. Sutherland is at the Toronto Quay and Bruce elevator waiting to finish. She brought 16,000 bushels of wheat from Hamilton, and called here to take 4000 bushels more. She has had to wait for two days to do it. The captain says, "I have Canada for you; if one of them grain handlers would go over to Chicago they would starve in two weeks." She ought to clear to-day.

LOCAL NEWS

Bicyclists and drivers will look out for a hole in the book payment on Bleeker street near Clarendon street.

Elizabeth Walsh was arrested last night on a warrant charged with threatening to burn one John Perry's house.

Ann Quinn was arrested last night on a warrant for being drunk on Queen street. She lives at No. 6 Macdonnell lane.

There seems to be a continual demand for labor and the emigrant officers are kept busy replying to inquiries from those in search of help.

Margaret Hughes, alias Sarah Jane Wyman, was kicking up a general dust on Soandina avenue last night by throwing stones. She hit a person named James Arnot, who had her arrested.

About half-past 10 o'clock last night an elderly gentleman whose name could not be learned, met with a heavy fall in alighting from the street cars at the corner of Queen and Yonge streets.

John Williams, a resident of nowhere, got drunk yesterday. He was the raisin of Margaret Mitchell, 128 Chestnut street, who charged him with throwing a teacup and cutting her head.

Messrs. J. S. Robertson & Bros. have purchased a stock of letter cases and pocket books which they will sell for one-half the wholesale price. These goods are very fine and are a great bargain.

Mr. James Barnes of Parkdale, not of Raine of Toronto, as was stated in our paper, was appointed deputy grand master, P. O., at the annual meeting of the Canadian order of Oddfellows at London, Ont., the other day.

The Q. R. band gave their second promenade concert at the Granite rink last night. There was a fairly large attendance but not so large as might be expected. An excellent program was well rendered and frequently applauded.

William Carter, who was up on Thursday morning on a charge of drunkenness, was arrested again last night on complaint of his wife. His wife keeps a boarding house on Wilmer street, and four of her boarders left on account of her husband's drunkenness and disorderly conduct. On Thursday he was fined \$2 and costs and ordered to keep away from her.

Governor-General's Body Guard. There was a good attendance of ladies and gentlemen at the invitation of the officers of the Body Guard to witness the evolutions and feast-arms in the barracks square of the new garrison yesterday.

Among those present were: Major Gray and Lieut. Beatty, Lieut. Col. Alger and Lieut. Major and Mrs. Dawson, Capt. Mansley, Major Lewis, Mrs. O'Leary, Capt. Munson, Capt. Harris and Lieut. Major and Mrs. Draper, Lieut. Mouton, Lieut. and Mrs. McGee, Messrs. Gidley, Smith, A. Morris, Sheriff and Mrs. Jarvis, Jas. Beatty, M. P. and Ladies, Mr. Geo. W. and Miss Beaudry, Messrs. Morrow and Fahy, Dr. Monchouse.

The men acquitted themselves very favorably, and in the contests of cutting with swords the prizes were A. Troop, Sergt. Bailey, B. Troop, Sergt. Major Smith. Major Devison with the assistance of the officers and eastern William made drunk and very pleasantly. The band of the corps furnished some excellent music.

A Good Opportunity. Messrs. W. A. Lee & Son have had placed in their hands for sale that fine piece of land fronting on Dundas and Louis streets and L'Oratoire avenue containing 35 lots, situated almost opposite the land purchased by the Ontario and Quebec railway for their workshops. The location is a very desirable one and would be a good investment.

Human Police. The attention of the police and the public medical officer is called to a four-roomed house on Clarence street, where from 25 to 44 human beings are living. They are Irish immigrants, five of them being young married couples, and the rest men, women and children.

The Duke's Murder. USIONTOWN, Pa., June 15.—Hon. Wm. Playford is preparing a petition which will probably be presented to the court tomorrow, asking the release of James Nutt. There is much speculation as to the action the court will take.

Don't Be Deceived. For billow-cream and milk-leads or labial constitutional Devlin's Aperient Antibilious Mixture stands unequalled. Large bottles 50c. For sale by G. B. Smith & Co., 355 Yonge street, Toronto.

A Delicacy at London Breakfasts. From the St. James Gazette. Plovers' eggs have not been so plentiful this season (in consequence of the backwardness of the spring) as in some former years, and at some fashionable breakfasts these delicacies are said to have cost £1 per dozen! It is a curious fact that the eggs of the "green-crested lark" have from the earliest times commanded what may be called a fancy price; while the finest eggs of our domestic fowls may be purchased for eighteen pence a dozen, plovers' eggs will be charged on some days quite as many shillings. Enormous quantities of these eggs are consumed during the London season, or so long as they can be procured, either at home or abroad, and instances are not wanting in which, when the eggs of the plover are not obtainable, the eggs of other birds are sold as the real article.

A very large business is carried on in plovers' eggs as early in March to the middle of June; and so great has become the demand that the most distant fairs are searched in order to add to the supply. Formerly enough for London used to be got in the counties of Kent, Essex and Norfolk; now they are brought from distant parts of Scotland, as well as from Ireland and from Holland. There are generally four eggs in a plover's nest, and in some seasons as many as seven hundred nests have been despoiled in a district; and the stock of birds must really be numerous that can keep up, season after season, such a supply of eggs as we know is required in London alone.

Wheels and Skirts. From the Philadelphia Record. Bicycling is the ascendency. The recent models of the various clubs have attracted alike the attention of the interested and the curious. Devotees of the sport are becoming more and more enthusiastic. The members of the cycling clubs are now said to number nearly seven thousand. The pastime, aside from the pleasure of spinning wheel, will prove pleasant highways and byways on a bright day, is pronounced healthful, vigorous, as a rule, having commended the exercise as extremely beneficial. As yet, in this country at least, the male

portion of humanity have the sport nearly, if not quite, to themselves. Women on the other side of the Atlantic have, however, assumed the moral courage to mount the tricycle, a machine with three wheels, and they frequently acquire a great proficiency in the management of the steel steed as their more studious companions. The tricycle is particularly popular with English ladies, many of whom are said to have traversed this manner five hundred miles during the last cycling season, greatly to the benefit of both mind and body. As might have been expected, the question of what to wear upon these excursions in an all-absorbing topic. It is clear that the present style of women's dress is inconsistent with this sort of exercise, and any proposed reform as an adjunct to tricycling will be eagerly discussed, and that the "rational dress" movement, and that the "wildcat skirt" of Lady Habbington may yet have its day. Even men were not blind to the necessity for a change in their own attire, and have very sensibly adopted the small clothes of their ancestors. That point in their case being decided, they are at liberty to devote their undivided attention to the machines they have purchased.

In the meantime the inventors are puzzling their brains with devices whereby the greatest speed may be attained with the least exertion; and, surprising as some of the results of their genius have already been, it is safe to assume that cycles are as yet in their rudimentary stage.

Himalayas (the abode of snow from the Sanscrit "hima," snow, and "alaya," abode) is the most elevated and stupendous system on the globe. The tea plant can be cultivated along the entire southern base of the Himalayas to an elevation of 8000 feet, but the best is produced at from 2000 to 3000 feet above the sea, and the best only is sold by the Li-Quor Tea company at 50 cents per lb.

A NOTED BUT UNWITTED WOMAN. (From the Boston Globe)

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who has been called the "Dear Friend of Women," as some of her correspondents love to call her. She is a woman devoted to her work, which is the relief of a life-sufferer, and is obliged to keep six lady assistants to help her answer her letters, each bearing its special burden of suffering or joy as relief from it. Her valuable Compound is a medicine for good and not evil purposes. It has personally investigated it and prescribed by the best physicians in the country. One says: "It is the best medicine I have ever used. It will cure entirely the worst form of falling of the uterus, Leucorrhoea, irregular and painful menstruation, Ovarian Trouble, Inflammation and Obstruction, Floodings, all Displacements and the consequent neuralgic pains, and is especially adapted to the young of life."

It permeates every portion of the system, and gives life and vigor, restores faded complexion, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Depression, and Indigestion. That feeling of bearing down, coming up, or weight on the back, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law of nature, and is never known to do harm. It is sold by druggists. Any advice required to obtain copies, can be obtained by addressing Mrs. W. A. Lee & Son, 10 Adelaide street, Toronto.

For Kidney Complaint of either sex this compound is unsurpassed as a remedial agent. "Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its own sphere and leads far beyond the Compound its popularity. All most respect here as an Angel of Mercy whose sole mission is to do good to others."

Full details, etc., in the "Ladies' Friend," a Factory at Stanstead, P. Q.—Northrop & Lyman Toronto, general agents for Ontario.
