The appointments and ruisine of the Arlington are unsurpassed in Canada and the rates are moderate street cars pass the door every minute. The ocation is central and convenient.

Mr. Beck and the Bank Teller.

EDITOR WORLD: In your issue of the 6th inst you state in the case of Beck v Dominion Bank, that Beck refused to give up the \$82 that was overpaid by the smart teller, who it would be thought (with the assistance of glass eyes could see farther than to make a second mistake in the same cheque.

Now, sir, as a witness I should like it understood that he said nothing of the sort but told both the tellor and the manager that he would look over his money, and also that he was willing to refund any that was overpaid and I am seconding Mr. Beck in saying that I should like to see the mistake recilled in your earliest state.

Nov. 11. 1200 Queen street west.

Your Children

Are constantly exposed to danger from Colds, Whooping Cough, Croup, and diseases peculiar to the throat and lungs. For such ailments, Ayer's Cherry Pectoral, promptly adminis-tered, affords speedy relief and cure. As a remedy for Whooping Cough, with which many of our children were afflicted, we used, during the past winter, with much satisfaction, Ayer's Cherry Pectoral. For this affection, we consider this preparation the most efficacious of all the medicines which have come to our knowledge.—Mary Parkhurst, Preceptress, Home for Little Wanderers, Doncaster, Md.

My children have been peculiarly subject to attacks of Croup, and I failed to find any effective remedy until I commenced administering Ayer's Cherry Pectoral. This preparation relieves the difficulty of breathing and invariably cures the complaint.—David G. Starks, Chatham, Columbia Co., N. Y.

I have used Ayer's Cherry Pectoral

I have used Ayer's Cherry Pectoral in my family for many years, and have found it especially valuable in Whooping Cough. This medicine allays all irritation, prevents inflammation from extending to the lungs, and quickly subdues any tendency to Lung Complaint.

—J. B. Wellington, Plainville, Mich. I find no medicine so effective, for Croup and Whooping Cough, as Ayer's Cherry Pectoral. It was the means of saving the life of my little boy, only six months old, carrying him safely through the worst case of Whooping Cough I ever saw.—Jane Malone, Piney Flats, Tenn. Ayer's Cherry Pectoral,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; all bottles, \$5

J. FRASER BRYCE PHOTOGRAPHER.

107 King-st. West. Toronto CITY FOUNDRY FINE SEAL MANTLES

The old established foundry of J. R. ARMSTRONG & CO.

THE TOWNSHIP FATHERS,

Profine Touch of a Whipping Post-Thousands are Leshing Their Brain.

There is recently some discussion in reference to the restoration of the lash for certain classes of criminals. While the spirit of the age is opposed to corporal punishment by the courts, and objects to the plying of the lash to the human body, yet there are thousands upon thousands of people in the Dominion who are applying the lash to their brain and nervous system in such a way that their fine physical frames, naturally sound constitution, vicerous mental powers are upon the high. vigorous mental powers, are upon the high road to breaking down. They live upon their

road to breaking down. They live upon their nerve and they are wearing it out.

Do you feel irritable, are you absent minded, preoccupied, unable to remember the familiananes of some friend or place, with a pain of tightness in the head, watering eves, poor sleep, dyapeptic troubles, and a tired, listlesfeeling? These are a few of the warning that your pervous system gives of the apfeeling? These are a few of the warning that your nervous system gives of the approaching paresis, paralysis or insanity. This is the way that thousands have trod. Happily others have used Prof. Phelps' grea discovery, Paine's Celery Compound, anthis marvelous preparation has strengthenes their nerves, filled their system with vitality and brought health and happiness to take the place of sufficing and misery.

Under the use of this wonderful restorative, which is purely vegetable and therefore harmless, the dull eye has grown bright, the pale cheek has become rosy, the brain clear, the muscles strong, gloom and depression have been lifted from the mind, weakness and exhaustion have given place to strength and buoyant fhelings, and perfect health has been restored. Like nothing else, it is a scientific, health-giving remedy that cures all nervous diseases, gives vigor to the physical organs, and removes all possibility of heart disease, apoplexy, paresis, and the other awful disorders which so frequently end diseases of the nervous system.

## ONTARIO COAL COY. LEHIGH VALLEY COAL.

POSITIVELY THE VERY BEST IN THE MARKET. 30,000 tons of this brand of coal used by the Waterworks department of the city of Toronto during the past three years. The records show more gallons of water pumped per ton of coal than the department ever pumped with other grades of coal. We give more heat per ton of coal than possible tor any other grade to give.

we also furnish only the best grades of soft coal for grate use. In steam producing coal we handle exclusively the unexcelled brands, known as Reynoldsville, Soldier Run and Sunday Creek. Best quality of Beech and Maple and Pine Wood always on hand.

General offices and docks Esplanade east, foot of Church-st. Telephone No. 18. Up-town office, No. 10 King-street east. Telephone No. 1059, Branch office corner Bloor and Bordenstreets. Telephone No. 3623. Branch office No. 725 Yongestreet: Yard and office 1069 Queen-st. west. near subway.

From June 1885 to June 1886 we sup-THREE BANKRUPT STOCKS plied the Toronto Water Works 8604 tons of our coal, which pumped an average of 421,479 gallons per ton. The results obtain-OWN & CO'S ed from Lehigh Valley Coal supplied to the same institution from June 1887 to June 1888 was only 362,871 gallons per ton of coal, and after engines and pumps were thoroughly overhauled under the supervision of the present engineer and put in better condition than ever before, from June 1888 to June 1889 the results obtained were only

415,992 gallons per ton of coal.

The total average of the coal supplied by us was as above 421,479 gallons per ton of coal. The total average of the coal supplied since our contract up to June 1st, this street West, we have established a most complete year, has been 398,971 gallons per ton of

The quality of our coal speaks for itself.

TO THE DRY GOODS TRADE THE CONFEDERATION LIFE ASSOCIATION will be prepared, should a suitable tenant be found, to arrange in its new building for a large first-class dry goods store. The site is at the N.E. corner of Yonge and Richmond-streets, with a frontage of 68½ feet on Yonge-street by 110 feet on Richmond-street (with a ship entrance in rear). This is probably the best central position for the purpose in Toronto, being at a point that is reached by all the main lines of street railway but having a fine open street on the South side for carriages, free from the dangers and annoyance of Street railways. Apply to J. K. Macdonald, Managing Director, Confederation Life Association.

Toronto, November 11th, 1889.

BEAR BOAS LARGEST STOCK IN CANADA.

Factory, 54 Yonge-street,

Toronto Electric Light Co.

Introduction of a New and Perfect System of Incandescent Electric Lighting. RECOGNIZING the prejudice that has arisen against systems of Electric Lighting which employ currents of extremely high tension (not that they are in themselves unlesirable, but that the public mind is kept in a state of acitation against them by interested exponents of low-tension systems), the electricians of the old Toronto Electric Light Co. set themselves to work to devise a system Co. set themselves to work to devise a system which should be less cumbersome and costly han the straight meandescent, and at the ame time free from the objections which may be ured against the high-tension, alternating led entirely without danger, and the use mpensating devices in the converters, we mabled to supply to the consumer lamps ring an electro-motive force of only-five volts, or less than half that red by the Edison system. As the s require to be but half the resistance, allow over double the current to passigh them, and consequently produce a trand steadier light. This system will nown hereafter as the

Low Tension Alternating Compensator System of the To-

ronto Electric Light Co. sing an initial tension of between three and ur hundred volts, which is not in the slighttdegree dangerous to handle, but which, sfore reaching the presumese of the consumer, reduced to a pressure of forty-five volts, a mision which could not be perceived by the lost sensitive. Apparatus now being constructed will out in operation in a week or two. In the neantime it would be wise for intending contenting the content of the content
