CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co's
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Large Tract of Timber In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Com-
pany of Halliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The stock lists that are being sent out by the manufacturers of pine lumber are a good indication of the position of the market. They show very clearly that there is practically no good lumber in mill yards that has not been contracted for, and that the stock of the lower grades is considerably broken and much lighter than when the mills closed down. There has been an exceptionally large winter demand, and when sawing operations are resumed the yards will be practically cleaned out. The buying of the coming season's production has been heavy. One manufacturer reports that all the dressing, cuts and better that he can manufacture this year has been con- tracted for at an advance of 10 per cent. over the prices of last spring. In in- dividual cases the price of certain stock is being marked up. This is regarded as an evidence that further advances will be made by manufacturers as a whole in the near future. It is contended that the greater cost of provisions for both men and horses must result in increasing the value of lumber. Ottawa valley manufacturers, in addition to their usual British contracts, have made large sales of white pine to the United States. The market for red pine, how- ever, is still heavy and uncertain owing to the large stocks held, but some relief will no doubt be afforded by the light operations in that timber this winter.

Implement and furniture manufac- turers are reported to be buying more hardwood lumber than for some time past, and in some lines there has been a slight appreciation in values. Maple continues dull of sale and in large supply, but in the other classes of hardwoods stocks are not exceptionally heavy.

The shingle situation is extremely in- teresting at the present time. The stock list of a large Georgian Bay manufac- turer shows that his supply of shingles has become completely exhausted. This is the case with many others, and it is a question where the supply for the spring trade is to be obtained. The Eastern States will this year depend more upon Canadian shingles than ever before, as the new product of Washington will not be ready for the market until late in the spring. Higher prices for both pine and cedar shingles seem evident between now and midsummer.

QUEBEC AND NEW BRUNSWICK.

The spruce market is holding its own, and while prices are not advancing it is believed that there will be an upward movement towards the opening of navigation. The Eastern States have taken so much spruce lumber that manufacturers feel less dependent upon the British mar- ket. A contract has been let within the

past week for harbour improvements at Three Rivers, Quebec, estimated to cost \$750,000. This work will call for a large quantity of timber, and will be com- menced at the opening of navigation. Other important public works are to be carried out this year in Quebec province.

Very little chartering has as yet been done by shippers, although the present low rates should be an incentive to close contracts. It is said that arrangements have been made by Hon. J. B. Snowball, of Chatham, to ship a quantity of Mira- michi deals by the Donaldson steamers which will sail from St. John, N. B., dur- ing the remainder of the season to Glas- gow.

GREAT BRITAIN.

Lumber prices in the British market have undergone no important change since the close of last year. In the better qualities of pine and spruce deals and in all grades of whitewood there has been a slight advance. Whitewood especially is finding a ready sale and is commanding ten shillings per standard more than it did in December. This has resulted in more liberal buying of spruce, the stock of which has become considerably re- duced. First quality pine is low in stock and holders of broads are asking higher prices. Red pine deals in regular sizes are firm, but undersized are weak and selling about £1 lower than at the close of December. American pine deals have continued to improve in value, the latest advance being about three pence. Ad- vices from Great Britain state that this upward tendency is likely to continue un- til prices reach a materially higher basis.

There has as yet been very little buy- ing for the coming season, importers ap- parently preferring to wait further develop- ments before contracting for their supply. Agents for spruce shippers are now going the rounds and are said to be asking an advance of 10 shillings per standard over last year's first open-water prices, where- as buyers do not seem disposed to pay more than 3 shillings above the old figures consequently there is somewhat of a deadlock. The square lumber market is firm with little doing.

UNITED STATES.

The advanced prices that are being asked for lumber in the Lake Superior district has apparently not retarded the demand, as the shipments from Minne- apolis during January were greater than for the corresponding month of last year. Practically all the dry lumber at the head of the lakes is sold, also the greater por- tion of the cut of the coming summer. Buffalo concerns have recently bought heavily of good lumber at Duluth and Marquette. At Tonawanda the market is stronger than at any other time since the holidays, and prices have advanced slightly on certain grades. There is an exceptional demand for No. 1 cuts in 1 1/2 and 2 inch. In Chicago, while the great- est demand is for No. 1 boards and strips, there is a strong request for No. 1 pine piece stuff and box lumber, at very satis-

factory prices. Eastern spruce is also stronger, owing to the scarcity, while there has been a material improvement in hemlock. At a meeting of the manufacturers of Wisconsin last week prices on nearly all items in the hemlock list were advanced on edollar per thousand, while at a recent meeting of Michigan producers higher prices were adopted as the basis of future sales. In Michigan there is a decided scarcity of 2 x 4 and 2 x 8 in 14 foot lengths, and for long stuff one dollar more for every additional foot over 16-foot is being obtained. At By City and Saginaw the base price for hemlock piece stuff is \$11.

STOCKS AND PRICES.

The Huntsville Lumber Company, Huntsville, Ont., expect to cut 750,000 feet of deals for the British market market this year.

Smith Bros., of Central Blissville, Sunbury county, N.B., are getting out 2,000,000 feet of logs this winter for their mill on the South Branch.

The Saginaw Lumber & S&t Company has sold 2,500,000 feet of white pine lumber for next season's delivery. The stock is to be manufactured at Sandwich, Ont.

Extensive lumbering operations are being carried on this winter in the eastern part of the province of Quebec. Price Bros. & Co. are making 125,000 logs on the St. Marguerite River, and 30,000 to 40,000 on the River aux Canards. The Saguenay Lumber Co., of Escoumains, is making over 125,000. Maurice Tremblay is getting out 50,000 to 60,000 on the Black River at St. Siméon, and H. R. Dougall about 100,000 on the Manicougan. A quantity of railway sleepers are also being made on the North Shore, especially at Mille Vaches, Port-Neuf and Laval.

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Co., in their monthly timber market report, dated 1st February, say:

There is little of importance to report during the past month. Saw millers report having had a good start, but sellers have been rather quiet. The stock of spruce and white pine is small, and there is a tendency toward higher values. An advance in price has also taken place in pitch pine, but the stock is still too large to warrant a continuance. Trade, however, cannot be said to be too promising, shipbuilding orders being very scarce, and other allied trades are only moderately employed.

White pine—Wancy.—There is little change in the position of the market, what stock there is being very firmly held. Prices are little altered. Quotations.—1st class wood, 35 6d to 38 8d; 2nd class, 25 2d to 28 8d per c. ft. Square.—Little business is reported, but prices remain firm. Quotations.—45 to 50 feet average, 28 8d to 34 2d. G. F. A. wood, 25 to 28 4d per c. ft.

Red pine.—No business is reported.

Quotations.—1st class wood, 25 1d to 28 3d; 2nd class, 20d to 22d per c. ft.

Elm.—Business has become very quiet and stocks are heavy; there is a large percentage of grey and soft wood which is very difficult to dispose of.

Oak.—There has been a few small enquiries—long wood is scarce.

Ash.—Business has been a little more active, but there is no advance in prices. Quotations.—17d to 23 per c. ft. according to scantling.

Birch.—Business has been moderate and prices are steadier at about 2d over the inch.

Pine—Fir—Are all very low in stock, and prices are good. Broad are quoted at £27 10s to £28 17s 6d. Undersized, £19 5s to £20 12s 6d per St. Pet. Std.

Second.—There has been little business, but prices are firm. Quotations.—Broad and regulars, £19 5s to £22. Undersized, £13 15s to £15 2s 6d per S. Pd. Std.

Thirds.—Have been in good request—the stock in first hands is now small. Quotations.—£12 7s 6d to £13 8s 1d for regulars. Undersized, £9 12s 6d to £10 6s 3d per St. Pet. Std.

Fourth.—Stocks are light. Regulars are firm at £9 19s 4d to £10 6s 3d. Undersized, £8 5s to £8 18s 9d per St. Pet. Std.

Red Pine.—At present there is little demand, but prices for regulars are firm—oddments, however, are weaker in price. Quotations.—9 in. and up, £11 13s 9d to £13 13s. Oddments £7 4s 4d to £9 19s 4d per St. Pet. Std.

Quebec Spruce.—A brisk business has been done and prices are firm. Quotations.—£6 10s 7d to £8 18d 9d per St. Pet. Std.

N.B. BIRCH.—Logs are in moderate demand. Planks, however, are still very plentiful and prices are low.

N.B. DEALS, BATTENS AND BOARDS.—The stock is a small one, and with the low stock of 4th Quebec pine prices are well maintained.

N.B. SPRUCE.—Continues in good request, prices are inclined to be stiffer, present quotations being £6 10s 7d to £9 5s 7d per St. Petersburg standard.

THE BOSTON MARKET.

The spruce lumber market continues firm, though it is still in the midst of the quiet season. It is possible that some lots of random might have to be sold a little below quotations, if shipped on to the market here with instructions to sell. Frames are very firm, though not specially agitated at this time. Prominent dealers look for high prices on spruce as soon as buying sets in: Ten and 12 inch dimensions, \$20; 9 inch and under, \$18; 10 and 12 inch random lengths, 10 feet and up, \$19 to \$19.50; 2x3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, \$16 to \$16.50; all other randoms, 9 inch and under, 10 feet and up, \$17 to \$17.50; 5 inch and up merchantable boards, \$15 to \$16; matched boards, \$18 to \$19; out spruce boards, \$13; bundle furring, \$16 to \$17.

Hemlock lumber is firmer, with Pennsylvania very firm: Boards, 12, 14 and 16

feet, \$14 to \$14.50 for good eastern; random, \$13 to \$13.50; Pennsylvania, No. 1, \$16 to \$17; No. 2, \$14.50.

White pine is in fair demand, with prices very firm: Uppers, 1 inch, \$72 to \$73; 2 1/2 and 3 inch, \$77.50; 4 inch, \$81.50; selects, 1 to 1 1/2 inch, \$66 to \$67; 2 inch, \$68 to \$70; 2 1/2 to 3 inch, \$73 to \$76; 4-inch, \$75 to \$80; fine common, 1 inch, \$55; 1 1/4 to 1 1/2 inch, \$60; 2 inch, \$55; 2 1/2 and 3 inch, \$65 to \$67; 4 inch, \$70; barn boards, \$23 to \$32; coffin boards, \$27 to \$32.

There is a fair movement going on in hardwoods. Quotations are well sustained: Quartered oak, \$56 to \$65; fancy, \$70 to \$75; plain oak, \$40 to \$47; black ash, \$40 to \$50; white ash, \$45 to \$55; cherry, \$90 to \$130; maple, \$32 to \$40.

Shingles are scarce, with prices very firm at the advance. Washington red cedar are further advanced: Extra cedar, \$3.25 to \$3.30; clear, \$2.85 to \$2.95; second clear, \$2.35 to \$2.40; sup, \$2.10 to \$2.20; extra No. 1, \$1.75 to \$1.80; Washington and British Columbia red

cedar, 16-inch, five butts to 2 inches, \$3.45 to \$3.50; 18-inch, \$4.25 to \$4.50.

Clapboards are scarce and nominal, with prices very firm: Extra spruce, \$35 to \$36; clear, \$33 to \$34; second clear, \$29 to \$32; extra No. 1, \$20 to \$23; pine extra, \$50 to \$52; clear, \$45 to \$48; second clear, \$40 to \$42.

Laths are quoted at: One and five-eighths inch, \$2.90; 1 1/2 inch, \$2.50.

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals, etc., at an auction sale held by Foy, Morgan & Company, London, England, on January 29th:

DRY KILNS of large capacity.

New Mill Erected 1901.

Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C.; and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have prompt attention.

We want our share of your shingle business, and can guarantee you satisfaction in every particular.

Spicer Shingle Mill Co., Limited,

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world.

Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.
