The copy filmed here has been reproduced thanks to the generosity of:

Harold Campbell Vaughan Memorial Library  
Acadia University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Harold Campbell Vaughan Memorial Library  
Acadia University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

MEMO:

By the authority vested in me, I hereby require and direct you, and all other persons belonging to Her Majesty's Naval Establishments at Halifax, strictly to conform to and obey the several instructions herein contained.

*Vice-Admiral and Commander-in-Chief.*

To

*The Naval and Victualling Storekeeper  
and Accountant, and the respective Officers  
and others of Her Majesty's Naval Estab-  
lishment, at Halifax.*

GENERAL INSTRUCTIONS FOR THE GUIDANCE OF THE ENGINEER IN CHARGE OF THE FACTORY AND BORNE FOR SERVICE IN YARD CRAFT, No. 3; OF THE BOATSWAIN PERFORMING THE DUTIES OF BOATSWAIN OF THE YARD; OF THE CARPENTER PERFORMING THE DUTIES OF FOREMAN OF SHIPWRIGHTS; AND OF THE FOREMAN OF WORKS.

---

1. They are to be constant in their attention to their duty at all times when required, whether by day or by night; and where such provision has been made, making the houses allotted to them their constant residences, they are not to be absent for a day, or for any less period, without the knowledge and consent of the Naval Storekeeper.

2. They are invariably to be present when the people are mustered into the Yard, except when sick or absent on duty, in which case this and all other duties specially devolving on them, are to be performed by their respective leading or senior men as the case may be.

3. They will receive daily from the Naval Storekeeper such orders respecting the manner in which the men under them are to be employed on that or the following day, and for which purpose they are to attend at his office at 9.30 A. M., or at any other hour he may appoint, as may be found most convenient to the service.

4. They are to keep diaries or a daily account of the men under their superintendence, distinguishing the number employed on each service agreeably to the prescribed form, for the purpose of enabling them to make up the exact expense of workmanship on each separate ship or service, to be furnished to the Naval Storekeeper to be carried into his collection of expense books.

5. In the event of any workman sustaining a hurt in the performance of his duty, the Officer under whom he is employed is to furnish the Naval Storekeeper at once with a report of the circumstance, that proper steps may be taken to entitle him to compensation.

6. The Officers are responsible for the good order of the buildings, &c., placed under their care—an immediate report of any defects being made in writing to the Storekeeper—and when the Yard closes they are to see that the buildings, &c., have been properly closed up, and are left secure from accident by fire or any other cause, and report the same on Form H 188.

7. In the winter the Yard laborers from all departments, are when necessary to be united under the Boatswain of the Yard or the Foreman of Shipwrights as the Storekeeper shall direct, to clear away the snow both inside the Yard and along the wall outside, and if requisite to prevent the necessity of employing extra labour, the Yard artificers are to be employed on this work.

8. Leave of absence will be granted to any person provided his services can be spared, to be obtained by submission to the Naval Storekeeper by the respective Officers in the "Leave Book" for that purpose; but no artificer or workman shall be suffered to go out of the Yard during Dockyard hours without a pass, signed by his immediate Officer and countersigned by the Naval Storekeeper.

9. One hour's leave will be granted to workmen in cases of urgent family affairs, or to attend a funeral of a member of their family, or that of a fellow workman. A pass being obtained as above directed.

10. In the absence of the Naval and Victualling Storekeeper and Accountant, the first Clerk of the establishment is hereby authorized to carry out all the duties connected with the Yard which appertain to that officer.

11. In the event of fire the Officers will be guided by the regulations which have been issued for that purpose, and which are to be found exhibited in the workshops and at the gate.

12. In addition to the foregoing the Officers will carry into effect, so far as in their power, the spirit of the general instructions which have been issued by the Lords Commissioners of the Admiralty for their guidance, for the maintenance of good and proper discipline, and the avoidance of everything which may tend to the prejudice of the public service.
