# Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- ☐ Coloured covers/  
Couverture de couleur
- ☐ Covers damaged/  
Couverture endommagée
- ☐ Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- ☐ Cover title missing/  
Le titre de couverture manque
- ☐ Coloured maps/  
Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- ☐ Bound with other material/  
Relié avec d'autres documents
- ☐ Tight binding may cause shadows or distortion  
along interior margin/  
La reliure serrée peut causer de l'ombre ou de la  
distortion le long de la marge intérieure
- ☐ Blank leaves added during restoration may  
appear within the text. Whenever possible, these  
have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.
- ☐ Additional comments:/  
Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages/  
Pages de couleur
- ☐ Pages damaged/  
Pages endommagées
- ☐ Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- ☐ Pages detached/  
Pages détachées
- ☒ Showthrough/  
Transparence
- ☐ Quality of print varies/  
Qualité inégale de l'impression
- ☐ Includes supplementary material/  
Comprend du matériel supplémentaire
- ☐ Only edition available/  
Seule édition disponible
- ☐ Pages wholly or partially obscured by errata  
slips, tissues, etc., have been refilmed to  
ensure the best possible image/  
Les pages totalement ou partiellement  
obscurcies par un feuillet d'errata, une pelure,  
etc., ont été filmées à nouveau de façon à  
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

|                          |                          |                                     |                          |                          |                          |

| <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 12X                      | 16X                      | 20X                                 | 24X                      | 28X                      | 32X                      |

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## ECLIPSES OF THE SUN AND MOON, IN 1853.

There will be two Eclipses of the Sun, and one Eclipse of the Moon this year :

1st. An Eclipse of the Sun on Monday, June 6th, in the afternoon, invisible in New-Brunswick, but visible in the Southern States. The Northern limit of visibility is a line leaving the Pacific coast some 150 miles South-eastward from San Francisco, passing near Santa Fe, and thence to the Atlantic Ocean; leaving Little Rock and Milledgeville on the right hand in the region of visibility, and Huntsville, Augusta, and Charleston on the left, where the Eclipse will not be seen. This Eclipse will be central and annular on the meridian in longitude  $119^{\circ} 54'$  west from Greenwich, and latitude  $0^{\circ} 38'$  north.

2d. A small Eclipse (2.45 digits) visible on the Moon's Northern limb, on the evening and morning of the 20th and 21st of June.

3d. An Eclipse of the Sun on the 30th of November, at the time of New Moon, invisible in North America, excepting that a small Eclipse may be seen on the Sun's Southern limb, along the peninsula and gulf of California, and the Isthmus of Darien. It will be visible in some measure throughout South America as far as about  $46^{\circ}$  of South latitude. It will be central and total on the meridian in long.  $110^{\circ} 18'$  west from Greenwich, and lat.  $11^{\circ} 20'$  south.

## APOGEE AND PERIGEE OF THE SUN.

The Sun is in  
 Perigee December 30, 1852 } distant from the Earth - - { 93,573,000 } English  
 Apogee July 3, 1853 } { 96,773,000 } miles.  
 Perigee January 1, 1854 } { 93,577,000 }

Venus (♀) will be Morning Star until May 13th, then Evening Star until February 28th, 1854.

## EXPLANATIONS OF CHRONOLOGICAL CYCLES.

*Dominical Letter*—The Sunday Letter. *Golden Number*—A Number which increases annually by 1, till it comes to 19, when it begins again at 1. Its use is to find nearly the day when the Moon changes, &c. *Epact*—The Moon's Age, or nearly that, at the beginning of the year. *Solar Cycle*—A period of 28 years, which increases annually by 1 to 28. *Roman Indiction*—A revolution of 15 years, observed by the ancient Romans. *Number of Direction*—This never exceeds 33, and is of use in finding Easter Sunday. *Julian Period*—A cycle of 7980 years, successively following one another.

| NAMES.    | Mean diameter in English miles. | Mean distance from the Sun in miles. | Mean distance from the Sun, the distance of the earth being unit. | Period of revolution round the Sun in days. | When discovered. | By whom discovered. | Where discovered. |

## LIGHT HOUSES IN THE BAY OF FUNDY.

*Board of Commissioners for the several Light Houses in the Bay of Fundy.*  
—Robert W. Crookshank, John Ward, I. Woodward, John Wilson, Esquires;  
Admiral the Hon. W. F. W. Owen, Lieutenant Charles Hara, R. N., and  
John James Robinson, Esquire, R. N.

Isaac Woodward, Esquire, Surveyor of those Light Houses in the Bay of Fundy  
belonging to New-Brunswick, and also of those belonging to Nova-Scotia, which  
are partly supported by this Province.

*Gannet Rock Light.*—This Light is intended to warn vessels of their approach  
to a very dangerous range of shoals and ledges, which extend from the Old Pro-  
prietor to the Seal Islands off Machias, a distance of about twenty miles. It is a  
flash light—WHITE—twenty seconds dark and forty light in each minute. The  
Light House is painted in stripes, vertical, black and white.

### *Bearings and Distances by Compass from the Gannet Rock Light House:*

This Light bears from the Light House on Brier Island N.N.W.  $\frac{3}{4}$  W. 22 miles.  
From the Gannet Rock to the Old Proprietor, E.  $\frac{1}{4}$  S. distance 7 miles.  
From the Gannet Rock to the Black Rock off White Head Island, N.E.  $\frac{1}{4}$  E. 7 miles.  
From the Gannet Rock to the South-west Head of Grand Manan, N.N.W.  $\frac{3}{4}$  miles.  
From the Gannet Rock to the Northernmost of the Murr Ledges, N.W.  $\frac{1}{4}$  N. 2  $\frac{1}{2}$  miles.  
To the Southernmost of ditto, called St. Mary's Ledge, W.S.W. 2 miles.  
From the Gannet Rock to Machias Seal Island, W. and by N.  $\frac{1}{4}$  N. 12  $\frac{1}{2}$  miles.

Between the Northernmost and Southernmost of the Murr Ledges, there is a  
range of dangerous rocks and shoals, many of them always above water, and which  
extend Westward from the Light House about four miles: from this range, farther  
Westerly, about six miles from the Gannet Light, lies a dangerous breaker, called  
the Bull. This may be avoided by keeping three remarkable headlands near the  
S. W. end of Grand Manan open.

From Brier Island Light to the Old Proprietor, N. and by W.  $\frac{1}{4}$  W. 19  $\frac{1}{2}$  miles.

The Blonde Rock from the Southernmost point of Cape Sable Seal Islands, S.  
and by W. 3  $\frac{1}{2}$  miles distant.

*Machias Seal Island Lights.*—There are two fixed WHITE lights upon the  
Machias Seal Islands, elevated about 45 feet above high water, and bearing from  
each other E. S. E. and W. N. W. distant about 200 fathoms, by which circumstance  
of two Light Houses at the same station, they will be immediately distinguished  
from all other lights upon the coast, British or American. Both the buildings are  
painted White. The following are the bearings, by compass, from them, viz:—

To the Southernmost Murr Ledge (St. Mary's) E. S. E. easterly.

“ Gannet Rock Light, E. by S.  $\frac{1}{4}$  S. 13 miles.

“ Northern Head of Grand Manan, E. by N.  $\frac{1}{4}$  E.

“ North-East Rock, distant 2 miles, N. E. by N.

“ Little River Head, N. by W.

“ Libbey Island Light House (American,) N. W. by W.

Vessels standing to the Northward, between these Lights and the Gannet Rock,  
should tack or haul off the moment they bring these Lights into one, as they will be  
then not more than three-fourths of a mile from the Murr Ledges, if more than five  
miles to the E. of the Lights.

[It is recommended that the Ships' Compasses should be well compared and ad-  
justed (particularly in new ships,) before they leave Partridge Island, as serious  
errors have frequently occurred from want of attention on this point; and as the  
variation in the Bay of Fundy is seventeen degrees Westerly (or 1  $\frac{1}{2}$  points,) it will  
be found by the latest published Admiralty Charts, that the course from Partridge

TABLE OF THE SOLAR SYSTEM.

Island down the Bay, South Channel, between the Old Proprietor and N. W. Ledge, is S. W.  $\frac{1}{2}$  S., but the course to be steered must depend on the direction of the wind on leaving Partridge Island.]

**Head Harbour Light.**—Next in order, after passing Grand Manan, and the plain White Light (American) on West Quoddy Point, is Head Harbour Light. This is placed on the North-East extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels also, at all times, to enter Head Harbour. It is a fixed White Light. The building is painted White, with a red cross on it.

**Point Le Preau Lights.**—Upon this projecting head-land two lights are placed, one above the other in the same house, and distant twenty-eight feet. Both Lights can be seen from every point of the compass where they may be useful—both are fixed and White. The Light House is painted red and white, in stripes five feet broad each, horizontally.

**Partridge Island Light.**—This Light, at the entrance of the River and Harbour of Saint John, having been established above fifty years, requires no particular notice, further than that it is a fixed White Light, and the Light House is painted red and white in vertical stripes. The Light was enlarged in November, 1846.

**Beacon Light.**—Within Partridge Island, and upon a spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. Upon this Tower a Light is established, which is eminently useful to the coasting trade of St. John, and to all other vessels having pilots on board, as it enables them to enter the Harbour at all hours of the night. A fixed White Light. The house is painted white and black in stripes vertically.

**Quaco Light.**—A revolving White Light is placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. The Light can be seen from any quarter where a vessel can approach. The Light House is painted white and red in horizontal stripes.

**Cape Enrage Light,** on the point of that name in Westmorland, nearly opposite Apple River Harbour, N. S. The house is about 120 feet above the tide mark, and is painted white. A plain White Light.

#### LIGHT HOUSES IN THE BAY OF FUNDY BELONGING TO NOVA-SCOTIA.

**Cape Sable Seal Island Light.**—The first Light on approaching the Bay of Fundy is on the South Point of Seal Island. This is a plain White Light, elevated about eighty feet above high water mark, and may be seen on approaching the Island from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called **BLONDE ROCK**, lies  $3\frac{1}{2}$  miles S. by W. by compass, from the Light House. Between this Rock and the Island there are some dangers; the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

**Yarmouth Light**—on the West side of Yarmouth Harbour.—A plain revolving Light.

**Brier Island Light.**—The Light House on Brier Island is situated about half a mile N. E. from the N. W. point thereof. A plain White Light.

**Peter's Island Light,** at the South entrance of Westport, on the East side of the Bay of Fundy, shows **TWO WHITE LIGHTS**, horizontally placed, (to distinguish it from Brier Island Light,) at an elevation of 40 feet above high water mark. This Beacon is intended to lead vessels into Westport, or through Grand Passage, and will be seen on the approach from Seaward and St. Mary's Bay, until shut in by S. W. point of Brier Island, bearing from it S. 54 deg. W., and Dartmouth Point, on Long Island side, S. 25 deg. E., and on the North side, (coming out of the Bay,) between N. 11 $\frac{1}{2}$  deg. E., and N. 25 deg. E. When in the Passage, or

fair-way through, the Light will be seen all round, and can be passed on either side; but the Eastern Passage is the deepest and widest, and is recommended to strangers. The best anchorage is on the Brier Island or Western side of the Harbour.

*Digby Gut Light*—is placed on the West side of Digby Gut, from Brier Island North-Eastward. The coast is very bold, and not indented; the Light is, therefore, chiefly intended as a guide into Digby Basin. A White Light.

*Black Rock Light*, on the South Shore of the Bay of Fundy. Fixed Light.

*Horton Bluff Light*, in the Basin of Mines, 95 feet above sea level, high water—rise and fall, 40 to 45 feet. The Building is square, painted White; stands 60 feet from the Bluff, and shows a White Light, which may be seen in clear weather over the greatest part of the Basin of Mines, (after passing Cape Blomidon,) and above the Five Islands and up Windsor River, until intercepted by the continuation of the Bluff to the Southward of it.

*Apple River Light*, on the North side of the entrance to Apple River, in Chignecto or Cumberland Bay—Two fixed Lights, horizontal.

*Latitude and Longitude of Light Houses belonging to New-Brunswick.*

The Buoy is in  $7\frac{1}{2}$  fathoms at low water springs—Bell, nineteen feet above water.

**DIRECTIONS FOR ENTERING THE HARBOUR OF SAINT JOHN.**

Vessels entering the Harbour two hours before low water, or two hours flood, or at low water, in passing on the East side of Partridge Island, should give the Spar Buoy (moored near the rocks off the East end of the Island,) a small berth on the larboard hand; then haul up N. W. by N. until they pass the Red Iron Buoy on the starboard hand, moored on the South-west end of the Foul Ground, half-way between the Beacon and the Island lights; then steer for the Beacon light, and give it a small berth on the larboard hand, and N.  $\frac{1}{2}$  W. will take them into the Harbour.

Vessels should not attempt to pass on the West side of the Island, at low water, with any sea running, but in all cases keep the Island close on board.

**NOTE.**—It would be advisable for small vessels, in going up, if met by reverse wind or tide, and not more than half way from the Beacon light to Sand Point, to drop below the Beacon light and anchor inside of the range of it and the East end of the Island, to avoid a strong current, and to be out of the way of large vessels and Steamboats passing up and down the Harbour.—They should be careful, also, always to anchor near the shore, and not in the middle of the channel, to avoid large ships.

## SIGNALS

*Made at Partridge Island, on the approach of Vessels to the Harbour of Saint John.*

- One Ball, close, for one square-rigged vessel.
- One Ball, half-hoisted, for two square-rigged vessels.
- Two Balls, close, for three square-rigged vessels.
- Two Balls, separate, for four square-rigged vessels.
- A Pendant of any colour, for five square-rigged vessels.
- A Pendant under a Ball, for six square-rigged vessels.
- A Pendant over a Ball half-hoisted, for seven square-rigged vessels.
- A Pendant under two Balls, close, for eight square-rigged vessels.
- A Pendant between two Balls, separate, for nine square-rigged vessels.
- A Flag of any colour for ten or more vessels.

[The above are hoisted at the East or West Yard-arm, according to the quarter the vessels first appear in; and when their rig can be made out, the following descriptive colours will be hoisted at the mast-head:]

- A Union Jack for a Flag Ship, with or without a squadron.
- “ with a Red Pendant over, for a two-decker.
- “ with a Blue Pendant over, for a Frigate.
- “ with a White ditto, for a small armed vessel.
- A Blue Pendant, for a Merchant-ship or Barque.
- A Red ditto, for a Merchant Brig or Brigantine.
- A White and Blue ditto, for a foreign square-rigged vessel.
- A White ditto, without a Ball, for a topsail Schooner or Sloop.
- A Flag, blue and white horizontally, a neutral fleet.
- A Pendant, white and blue, a neutral Man-of-War.
- A Blue Flag, a neutral Merchant-ship.
- A Red, White, and Blue Flag, an enemy's fleet.
- A Red, White, and Blue Pendant, an enemy's Man-of-War.
- A Union Jack, over neutral or enemy's signals, the vessel is detained, or a prize.
- A White Flag over any signal, the vessel bears a flag of truce.
- A Red Flag, pierced white, for a Steamboat from Digby.
- A Blue Flag, pierced white, for a Steamboat from St. Andrews or Eastport.
- A Red Flag, with a white square, for a Steamboat from Portland or Boston.
- A Ball at the masthead, the vessel is on shore, or in distress; should immediate aid be necessary, guns to be fired.

In thick weather, a gun will be fired at Partridge Island in answer to each gun heard at sea. There is a Fog-bell on the Island, which is rung in foggy weather to warn vessels of their approach to the shore.

When the vessel requires a Pilot, her descriptive Pendant will be shown at the Yard-arm instead of a Ball.

### TIME FOR GOING THROUGH THE FALLS,

NEAR THE CITY OF SAINT JOHN.

The Falls are level, or it is still water, at about three and a half hours on the flood, and about two and a half on the ebb, so that they are passable four times in twenty-four hours, about ten or fifteen minutes at each time. No other rule can be given, as much depends on the floods in the River St. John, and the time of high water or full sea, which is often hastened by high Southerly winds. For a few days in the Spring of the year, the height of water in the River Saint John renders the passage of the Falls extremely difficult.

## AGRICULTURE FOR THE MONTH.

The first and most important thing for the farmer in this month is to attend to his horses, cattle and swine. Let them be housed at night, and in stormy weather. See that the stables are cleaned, the yards dry and well-littered, the sheds warm and yet well ventilated. If hay is scarce, and labour cheaper than fodder, it may be cut and mixed with chopped straw, corn stalks, meal, bran, grain or roots; take care, at all events, that no fodder is wasted. Cut up a few potatoes or turnips for sheep, and mix a little salt with them. If there be sufficient snow, haul home wood for fuel and fences. Logs may be taken to the mill and made into boards for future use. Repair your tools, vehicles and implements, when obliged to stay in-doors. Thrash grain, clean seeds, and take farm produce to market. Take oats to mill. Take every opportunity of chopping and preparing new land for a crop. This is also a good time for breaking steers and colts, and for making tenons and mortices in fence stuff.

## AGRICULTURE FOR THE MONTH.

Continue to attend to the stock: remember that by keeping animals warm, you economise the food which would otherwise be applied to sustain the heat of the body. Curry the cattle and horses. Lice, which accumulate on over-crowded cattle, may now be destroyed by tobacco-juice, snuff, lard, fish-oil or soft soap. Hens will lay all winter, if their houses be impervious to cold winds, and if with their grain they receive a supply of gravel and old mortar. Continue the hauling of fuel and fencing-stuff; cut up as much of the former as possible, and pile it away under cover for summer use: this seems novel, but the farmer will understand, though the lumberman may not. Finish the thrashing of grain, and stow it away beyond the reach of rat, mouse or weevil. Prepare for making maple sugar. Take advantage of this season for hauling peat, swamp-muck, sea, river or pond mud, for making composts of.

## AGRICULTURE FOR THE MONTH.

Make maple sugar. No trees of less than twelve or eighteen inches diameter ought to be tapped: they should be bored with an inch auger; all the vessels used should be perfectly clean; the sap should be first strained and reduced by boiling nineteen-twentieths of its bulk, then clarified by white of egg, boiled and strained again; boil again, and then pour it into pans till it grains; after this, dry it by placing it in wooden drains filled with gimlet holes. Look well to the cattle, and give those with young an extra feed or mash occasionally. Manure may be hauled from town or elsewhere. Take every opportunity of hauling wood, and of carting manure to the fields. Let the yards be cleaned at regular times and new littered. Early lambs for market should appear in March, but very great care is required to preserve them.

## AGRICULTURE FOR THE MONTH.

The farm should be platted and each field assigned its crop for the year. Manure should be all got out while the hauling is good. The cattle should not be allowed to wander on the road, field, or meadows, which does no good to themselves, and much injury to the land. Let the drains be overhauled and cleared out. Continue the cutting, splitting and piling of wood. Prune and remove dead limbs and branches of fruit trees, bushes and shrubs. Scrape off moss from apple trees, and cut off black knobs on the plum trees. All kinds of fruit and forest trees may now be safely transplanted. Transplanting must always be done before the leaves are out or after they have fallen; if a tree is covered with leaves when it is transplanted, the evaporation by their surface is so great, that the vital moisture of the plant would be all dissipated before the roots had begun to absorb water from the soil. Break up the garden and sow the early vegetables. Commence ploughing in dry situations and on sod land as soon as the frost will allow.

## AGRICULTURE FOR THE MONTH.

Set about ploughing the land. Early spring ploughing is the best for sod land, as the frost both pulverizes it and kills the weeds. Sow grass and plant the root crops. Steep and sow the grain crops. Corn may be sown after the grain crops and clover. Turn out the sheep and cattle, but not before the land is tolerably dry and the young grass has appeared. Cart out the remainder of the manure, and clear up the farm-yards. Manure will waste as much in the heap in one season as in the ground, and for the first you get nothing, for the other a great deal. Towards the close of the month the meadow lands may be top-dressed with compost, gypsum or other manure. Mark spots for future drainage. Beets, mangold-wurtzel, and Swedes may be sown with advantage after the other crops. Peas, beans, onions, turnips, carrots, parsnips, potatoes, radishes and spinach may be sown in garden and fields. Cabbages, cucumbers, cauliflower, lettuce, radishes, tomatoes and peppers may be planted out. Hedges and shrubs may be trimmed.

## . AGRICULTURE FOR THE MONTH.

Finish sowing and planting. The seed-end of potatoes, cut rather deep, will yield the best crop. Ruta-bagas, or Swedes, may be sown after the potatoes. Four or five lbs. of seed are not too much for an acre—that will allow some for the insect and some for the land. Transplant so as to fill up spots where crops seem to fail. Hoe, or set the cultivator going among the corn and root crops. Weed the garden, the grain and root crops, otherwise it will be fifty times more troublesome later in the season and next year. Weedy fields may be ploughed for summer fallow. Buckwheat land ought to be prepared. The earlier the chopped land can be well burnt the better. Prune, trim and transplant trees. After transplanting, the soil should be rendered mellow and rich by *mucking in* for a considerable distance around; choose a moist or rainy day for the operation. Remove or destroy insects, lice and caterpillars on fruit-trees. Plant out cabbages. Transplant wild plants, bringing with them a portion of the natural soil.

## AGRICULTURE FOR THE MONTH.

Hoe and weed corn, potatoes and all other crops; run the cultivator through them when the opportunity offers. Buckwheat and even turnips may be sown as late as July. Make early preparations for harvesting; repair barns, vehicles and tools. Get the best tools in the market: a man may earn the extra cost of a good scythe or cradle in a single day's work. Procure a horse rake, by means of which one man with a steady horse can do the work of seven or eight men. Clover should be cut while it is in full bloom. Timothy and red-top do not ripen till a fortnight after clover: they should be cut while the seed is in full milk, and before it is so ripe as to shake out when handled. Weeds should be cut down or rooted out before seeding; transplant cabbages and turnips in field or garden; gather flowering herbs, and dry quickly in the sun.

## AGRICULTURE FOR THE MONTH.

Finish hoeing and weeding, and prepare for grain harvest. Wheat, oats and barley are generally out in this month: the best are to be set aside for seed, and allowed to ripen fully while standing. The grain intended for consumption should be cut while still soft, for not only is the flour better, but there is much less loss and waste in harvesting the crop. Lowland hay may be cut and made into stacks. If there is time, it is much better, at once, to get the low meadow hay beyond the reach of the river than to wait till winter. Make drains where required; gather seeds and herbs; destroy weeds wherever they are to be seen; remove balls from potato vines, if thought necessary. Fall wheat may be sowed. If grain harvest be finished, full ploughing for next season may be begun. A good farmer will be ploughing all summer long. Don't burn too soon, or the trouble will be greatly increased. Great care should always be taken to extinguish fires on new land; besides the real danger to all parties, the penalty, on conviction, for not doing so is £3.

## AGRICULTURE FOR THE MONTH.

Carry on the harvesting of grain, corn and root crops. Neglect not fall ploughing for a single day. Draining ought to be gone on with: let the drains be from 30 to 36 inches in depth, and placed about 20 feet apart. Grain may now be field thrashed. Do not take up potatoes until the vines have been killed by the frost, and are perfectly dry; keep them from sun and wet, and allow them to dry before housing; let them be stored away in barrels or bins well protected from air. Early apples may be gathered by hand, wiped, and put away into bins or barrels, taking care not to bruise them: they should be kept in a dry, cool cellar, or upper room, where the temperature is not below the freezing point: should they, by any means, get frozen, they should be kept covered, so as to let them thaw gradually. Trees may be budded in this month. N. E. farmers generally sow grass seeds (not clover) as early as possible after the summer crop. This is, likewise, a good time for the cow to go to the bull. Rams, again, should be removed from the sheep until the end of November or December.

## AGRICULTURE FOR THE MONTH.

Continue draining, fall ploughing, and securing corn and root crops. When potatoes are to be stored in the field, a dry, sandy spot should be chosen, on which they are to be laid in heaps, then put a layer of straw over them; thatch them carefully, and cover the whole with earth; two small orifices should be left, the one at the top, and the other at the bottom; these should be closed with a wisp of straw, and opened occasionally, to permit the access of fresh air. If the soil of the field is a wet clay, a ditch ought to be dug round the spot where the roots are to be laid. Turnips may be either stored in a root house, or in pits three feet in breadth, and covered with straw and earth as above. Cull out the choicest animals for breeding and for use; sell or fatten the remainder. Trees may be set out for the ensuing spring as soon as the leaves have fallen, and the buds are fully formed. Small seedlings, however, are best transplanted in the spring. Fruit trees may now be propagated by layers or cuttings.

## AGRICULTURE FOR THE MONTH.

Preparations must now be made for a long and severe winter. The summer vehicles and implements should be dried, cleaned and stowed away. The fences should be put in order, so that none of the fields may be exposed to the poaching of cattle, sheep or hogs. The farmer should walk about daily with a hammer and pocket full of nails, patching and repairing the barns and sheds where they require it. The yard should be well bedded with turf, peat, muck, straw, sawdust, weeds, or other vegetable matters; at the same time it should be so constructed, that the soluble parts of the manure, which are the best, should not be lost. Finish digging and storing of roots and the fall ploughing. One good ploughing of clay land in the fall is worth two or three in the spring. Husk the corn; make cider; examine and make cuts for the drainage of surface water: underground drains are preferable to surface cuts. The children should be kept close at school, and the farmer should never forget that more attention is due from him toward the improvement of his children than to that of the land or stock.

## AGRICULTURE FOR THE MONTH.

Stock now require increased attention: they should be stall-fed for the winter, if possible, or put up in yards with a warm aspect, and with sheds attached, whereto they can resort in stormy seasons: they should be supplied with plenty of water and salt, and fed about three times a day, and curried regularly. The sow may be taken to the boar in this month, and the ram allowed to return to the flock again. Let the farmer keep out of the woods, for farming is not a branch of lumbering, nor are active lumberers likely to make thrifty husbandmen. Once for all, let the farmer forswear the woods. He may now thrash grain, and take his produce to market; the good wife ought to have her quota ready of cheese, butter, fowls, hams, sausages, mittens, socks, cloth, wool, and feathers; these are all as good as money in town. Let all accounts be settled and debts paid, and the crops for each field arranged for the ensuing summer.

The Collegiate or Grammar School of York receives an annual allowance of £375 (besides the services of a French Teacher) from King's College, and is placed under the control of a Committee appointed by the College Council.

The supervision of the other Grammar Schools is vested in Boards of Directors and Trustees, appointed by the Lieutenant Governor in Council. The Government allowances are, £150 to the Saint John School, and £100 to each of the others, on condition that the inhabitants pay the farther sum of £50 to the Teacher.

The general management of the Parish Schools is, by Act of Assembly, vested in the Lieutenant Governor and Executive Council, and a Superintendent, as a Board of Education. The Government allowance to Male Teachers is £30 per annum for Teachers of the First Class; £24, Second Class; and £18, Third Class; and to Female Teachers—First Class, £22; Second Class, £18; Third Class, £14 per annum.

## RATES AND PUBLIC CHARGES IN THE CITY, &c.

**HARBOUR MASTER'S FEES.**—On vessels of 30 tons, and under 50, 2s. 6d.; of 50, and under 75, 3s. 9d.; of 75, and under 100, 5s.; of 100, and under 150, 6s. 6d.; of 150, and under 200, 7s. 6d.; of 200, and under 300, 10s.; of 300, and under 400, 12s. 6d.; vessels of 400 tons and upwards, 15s. Decked vessels under 100 tons, owned and registered at St. John, and all British vessels under that tonnage, trading within the Bay of Fundy, arriving from ports to the Northward of Cape Cod, or the Westward of Cape Canso, or from any Port in Nova-Scotia, to pay annually as follows:—Under 30 tons, 3s. 9d.; of 30 tons, and under 50, 5s.; of 50 tons, and under 75, 7s. 6d.; of 75 tons, and under 100, 10s.

**RATES OF ANCHORAGE.**—For every decked vessel under 50 tons, 3s. 9d.; vessels from 50 to 100 tons, inclusive, 5s.; 100 to 150, 6s. 3d.; 150 to 200, 7s. 6d.; 200 to 250, 8s. 9d.; 250 to 300, 10s. And all vessels of greater burthen in like proportion; and for all decked vessels trading within the Bay of Fundy, there shall be paid, yearly, on the first arrival after the first of April, according to the tonnage and amounts settled by the aforesaid scale.

**RATES OF PILOTAGE.**—For bringing any ship or vessel into the Harbour of St. John, and mooring her in a safe place or berth, or securing her alongside a wharf, the rates annexed to the several distances:—

*First distance*—from Partridge Island to Musquash Head, bearing North West, 5s. per foot; *second distance*—from Musquash Head to Point Lepreaux, bearing North West, 6s. 3d. per foot; *third distance*—from Point Lepreaux to North Head of Grand Manan, bearing North West, or North Channel bearing South East, 7s. 6d. per foot; *fourth distance*—from the North Head of Grand Manan, or North Channel, to Machias Seal Island, bearing South, or Brier Island, South-South-East, 8s. 9d. per foot; anywhere outside the aforesaid distances, 10s. per foot.

For removing and taking any ship or vessel out of the Harbour, 5s. per foot. In cases where pilots shall be detained on board of vessels under and by virtue of the Quarantine or Health Laws of the Province, they shall be entitled to demand from the masters of such vessels 10s. per day, for every day of such detention, in addition to the allowance aforesaid. Coasting vessels going from one part of the Bay of Fundy to another, (except square-rigged,) steam-boats, or vessels drawing under six feet of water, are not compelled to take pilots; when employed, they are to be paid according to the above rates.—For removing any ship or vessel from one place to another, within the Harbour, and properly securing her, for vessels not exceeding 100 tons, 7s. 6d.; over 100, and not exceeding 200, 10s.; over 200, and not exceeding 300, 15s.; over 300, 20s.

**RATES OF WHARFAGE, established by Act 54 Geo. III. cap. 9.**—For every decked vessel, or vessel of the description called wood-boats, not exceeding 50 tons, 1s. 6d. per day; 50 tons, and not exceeding 100, 2s. 6d.; 100 tons, and not exceeding 150, 3s. 6d.; 150 tons, and not exceeding 200, 5s.; 200 tons, and not exceeding 300, 7s. 6d.; 300 tons, and not exceeding 400, 10s.; 400 tons and upwards, 12s. 6d.

**Rates of Wharfrage in Parish of Portland and City of Saint John.**—By an Act passed on the 4th April, 1842, the following rates of Wharfrage are established in the City of Saint John and Parish of Portland:—For every decked vessel or wood-boat of the burthen of 30 tons and under, 1s. 6d. per day; above 30 tons, and under 50, 1s. 9d.; 50 tons, and under 60, 2s.; 60 tons, and under 70, 2s. 3d.; 70 tons, and under 80, 2s. 6d.; 80 tons, and under 90, 2s. 9d.; 90 tons, and under 100, 3s.; 100 tons, and under 120, 3s. 6d.; 120 tons, and under 150, 4s.; 150 tons, and under 180, 4s. 6d.; 180 tons, and under 200, 5s.; 200, and under 220, 5s. 6d.; 220 tons, and under 240, 6s.; 240 tons, and under 260, 6s. 6d.; 260 tons,

and under 280, 7s.; 280 tons, and under 300, 7s. 6d.; 300 tons, and under 320, 8s.; 320 tons, and under 340, 8s. 6d.; 340 tons, and under 360, 9s.; 360 tons, and under 380, 9s. 6d.; 380 tons, and under 400, 10s.; 400 tons, and under 450, 11s. 3d.; 450 tons, and under 500, 12s. 6d.; and 1s. 3d. for every additional 50 tons.

**RATES OF SLIPPAGE AT THE CORPORATION SLIPS.**—All decked vessels, same rates as for wharfrage. Wood-boats and other boats or undecked vessels having standing masts, and all scows, and not lying at the wharves on either side of Slips, to pay the following rates:—Every wood-boat of sufficient burthen to carry 10 cords of wood or under, 1s. 6d.; ditto ditto, upwards of 10, and not more than 15, 2s. 6d.; ditto ditto, upwards of 15, and not more than 20, 3s. 9d.; ditto ditto, upwards of 20, 5s.—The above to be paid each trip; and if any such vessel remains over six days, an additional duty to be paid of from 2s. 6d. to 5s. daily, according to the burthen. Other boats and vessels without decks, and having fixed or standing masts, and all scows, to pay 1s. 6d. each trip, and 1s. 6d. additional per day, if suffered to remain over three days.

**PORT WARDENS' FEES.**—For every survey, 7s. 6d. to each Warden attending; attendance upon every public sale, 10s. per day to each Warden; for every certificate (except for branch pilot), 7s. 6d. to each Warden; for examining candidate for a branch pilot, and signing certificate, 5s. to each Warden—to be paid by person requiring service to be performed.

**FEES FOR MEASURING COALS AND SALT.**—For every chaldron of coal, 5d.; for every twenty bushels of salt, 2d.

**INSPECTION OF FLOUR AND MEAL.**—For every barrel, 1½d.; for every half-barrel or bag, 1d.

**INSPECTION OF PICKLED FISH.**—For inspecting, culling and branding each barrel, when the quantity inspected for one individual does not exceed one hundred barrels, the sum of 6d.; when the quantity inspected exceeds that, 5d. per barrel; tierces and half tierces in like proportion.

**CULLING DRIED FISH.**—For every quintal culled, 2d.

**GUAGING AND SEARCHING OIL.**—For a cask of 150 gallons and upwards, 1s. 6d.; do. do. 100 gallons, and under 150, 1s. 3d.; for all casks under 100 gallons, and barrels, 1s. each.

**GAUGING WINE, &c.**—For gauging and marking a pipe or pancheon, 6d.; for a hogshead or other cask of smaller dimensions, 4d.

**INSPECTING LIME.**—For every hogshead, half-hogshead, or barrel, 3d.

**ASSAYING WEIGHTS AND MEASURES.**—For each weight, 1d.; for each measure containing more than one gallon, 2d.; for all smaller measures, 1d. each; for every yard-stick, 1d.; for every scale beam, patent or other beam or balance, 4d.

**INSPECTING FIREWOOD.**—Threepence per cord, or one penny per load, if sold by the load.

**RATES OF WEIGHING AT THE PUBLIC WEIGHING MACHINES IN ST. JOHN.**—For every load not exceeding 1000 lbs. weight, one shilling; and one penny for every additional hundred weight—payable half by the seller, and half by the buyer.

**MARKET TOLLS.**—Beef, per quarter, 2d.; calf, sheep, hog, goat, lamb, kid, or shoit, 2d.; tub, pail, or jar of butter, 1½d.; firkin, 3d.; every 10 lbs. of roll butter, 1d.; cheese, ½d.; load of potatoes under fifteen bushels, 3d.; ditto, over fifteen bushels, 6d.; load of oysters, in shell or tubs, 6d.; turkey, goose, or dozen of pigeons, ½d.; pair of ducks, fowls, or partridges, ½d.; bag of flour, meal, oats, peas, or beans, ½d.; ham or shoulder, ½d.; eggs, per dozen, ½d.; and all other articles in like proportion.

**FISH MARKET DUES.**—For every salmon, 1½d.; codfish, pollock, bass, or shad, each, ½d.; halibut, not exceeding 20 lbs., 1d.; and for every 20 lbs. additional, 1d.; every lobster, ½d.; dozen of haddock, 1½d.; every one hundred of gaspereaux, alewives, herrings, or other small fish, 1½d.

| For the cartage of any article or articles, not exceeding half a load, - - -                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 0 6        | 0 7½  | 0 9   | 10½   | 1 0   |

The *First District* comprises all that part of the City between the south line of Pond-street and north line of Duke-street, which lies to the westward of the east line of Mill-street, Dock-street, and that part of Prince William-street between the north line of the brick building belonging to the estate of J. K. McKee (northward of the Market-square), and the north line of Duke-street, and including King-street to the westward of the west line of Germain-street. The *Second District* comprises all that part of the City between the north line of Union-street and south line of St. James'-street, which lies without or beyond the first district, to the westward of the east line of Charlotte-street. The *Third District* comprises all that part of the City which lies without or beyond the second district, to the westward

of the east line of Sidney-street. The *Fourth District* comprises all that part of the City lying without or beyond the said third district, to the westward of the east line of Carmarthen-street. The *Fifth District* comprises all that part of the City lying without or beyond the said fourth district.

**PUBLIC PORTERS AND HAND-CART MEN.**—For loading, carrying and housing any goods, or any other articles, on any hand-cart, from the Market Slip in King's and Queen's Wards, or from any other place within the limits of the first district, to any other place within the said several five districts, the rates or prices are as follow:—For the first district, three pence; second district, three pence half-penny; third district, four pence; fourth district, four pence half-penny; fifth district, five pence.

**HACKNEY COACH FARES.**—For conveying one passenger from any public stand to any other part of the City, or from any one part of the City to any other part thereof, *one shilling*; and for every additional passenger *exceeding one, six pence* additional; if the carriage be detained at any place, by any passenger, or any agreement be made by the hour, to pay at the rate of one shilling and three pence for every half hour it may be so detained or employed.

**RATES OF FERRIAGE ACROSS THE HARBOUR OF SAINT JOHN.**—Foot passenger, 2d.; child under twelve years, 1d.; horse, 3d.; ox, or other large animal, 3d.; elephant or camel, 1s. 3d.; single waggon, not loaded, 2d.; single waggon, with horse and one man, 6d.; single waggon, with horse, load, and man, 7d.; double waggon, not loaded, 7d.; double waggon, with horses and man, 9d.; double waggon, with horses, load and man, 1s. 3d.; barrel, 1d.; bag containing two bushels, 1d.; firkin, keg, or box of the same size, 1d.; cask of lime, 2d.; pipe, hogshead, or puncheon, whether in waggon, cart, sled, or other vehicle, or not, except containing Molasses, Vinegar, Rice or Sugar, 9d.; every cwt. of Iron, Steel, or Copper, whether in waggon, cart, or other vehicle, or not, 1d.—Carts, sleds, drays, and carriages, same as waggons; and all other things in proportion.

**FEES FOR LICENSES.**—To Auctioneers, £21 per annum; to Aliens and others, to carry on trade or business, from £1 to £15 per annum; to Tavern-keepers, not to exceed £10 per annum; Hawkers' and Pedlars' Licenses, to sell goods, wares, or merchandize, (except provisions,) £20 per annum; License to Fish Hawkers, £1 per annum; License for Public Exhibitions, according to agreement, but not to exceed £25.—Some of these amounts are exclusive of the Fees of Office to the Mayor and Common Clerk, ranging from 7s. 6d. to 22s. 6d.

**ASSIZE OF BREAD.**—Bread to be baked in four pound, two pound, one pound, and half-pound loaves, marked with the first letter of the Christian and surname of the baker, and S. to denote superfine flour; F., fine; M., middlings; R., rye; MX., mixture. Flour and meal to be good and wholesome. A Penalty of Five Shillings for every infringement of the law.

#### FEES FOR SURVEYING LUMBER, under Act 8 Vic. cap. 81.

|                                                                   |                                            |
|-------------------------------------------------------------------|--------------------------------------------|
| For every ton of forty cubic feet of square timber, - - - 0s. 4d. | For spars under nine inches, each, 0s. 2d. |
| For every thousand feet of Saw Logs, 9d.                          | Do. over nine, do. 0s. 4d.                 |
| Do. do. Deals, Plank, Scantling, or Boards, - - - 1s. 0d.         | Lathwood, per cord, - - 1s. 3d.            |
| For Masts under seventeen inches diameter, each, - - - 1s. 6d.    | Pine Shingles, per thousand, - 0s. 6d.     |
| Do. over seventeen inches, do. - 2s. 0d.                          | Cedar, do. do. - 0s. 6d.                   |
|                                                                   | Hogshead Staves, do. - 3s. 0d.             |
|                                                                   | Barrel do. do. - 1s. 6d.                   |

To be paid by the first buyer after survey, if purchased within four months; if not within that time, Surveyor to be paid by person who employed him.

It thus appears that the increase of population in New-Brunswick has been greater than that in Maine by 7.29 per cent.; than that of New-Hampshire, by 11.79 per cent.; and than that of Vermont, by 16.07 per cent.; and it has exceeded their aggregate and average ratio by 10.86 per cent.

The ratio of increase in Massachusetts during the same period has been 34.59 per cent.; and this exceeds that of this Province by only 11.10 per cent.

Comparing the ratio of increase in the population of New-Brunswick with that of the four Northern and adjoining States of the Union, it appears that the ratio for the Province exceeds theirs by nearly two per cent.

# THE RAILWAY SONG OF NEW BRUNSWICK.

1. Hurrah! the morn is break-ing, In gold and purple light, Hur-  
 rah! glad hope is wak-ing, And hearts and eyes are bright, A  
 glo - rious bri - dal calls us, New-Brunswick weds the world. Spread  
 FOR. wide, spread far your ban-ners, Be cross and star un-furl'd. Ex-  
 FOR. alt the migh-ty cho-rus, FOR. Ex-alt each heart and hand, Great  
 joy shines bright-ly o'er us, And crowns our own lov'd land.

2  
 Hurrah! these glad espousals,  
 Bring honour'd guests from far,  
 Strangers no more, but brothers,  
 In strife of love to war.  
 Then hail! the wealth that dowers,  
 Our poor but lovely bride,  
 Hail! to the gallant company  
 That throng this altar's side,  
 Prompting the mighty chorus,  
 Exult with heart and hand,  
 Great joy shines brightly o'er us,  
 And crowns our own lov'd land.

3  
 Hurrah! the vows are spoken,  
 The marriage lines are seal'd,  
 Hurrah! the bells give token,  
 How gladly they are peal'd.  
 Come wealth, come skill, come labour,  
 The brawny and the free,  
 Rejoice! these glad espousals  
 Are wage and work for thee.  
 Then swell the mighty chorus,  
 Exalt each heart and hand,  
 Great joy shines brightly o'er us,  
 And crowns our own lov'd land.

4  
 Hurrah! Hurrah! the thunder  
 Of flaming car comes on;  
 The Patriots' faith hath triumph'd,  
 The laggard's heart is won.  
 A world's wide arms will fold us,  
 Our commerce crowd the seas,  
 Green fields and busy workshops,  
 Are ours at last;—and these  
 Will join in this glad chorus;  
 Lift high each heart and hand,  
 Joy! Joy! that this great bridal,  
 Doth bless our own lov'd land.

# SONG OF THE EXHIBITION.

strong of arm and the cunning hand These glorious guerdons be.

*p*

2  
Swart labor bold and brown,  
With health and with hope aglow,  
Our artisan and our husbandman  
Their peaceful trophies show.  
From forgo, from bench, from mine,  
From river and lake and sea,  
From the strong of arm and the cunning  
These glorious guerdons be. [hand

3  
The arts in glad array,  
The glories of woman's skill.—  
Ho ! good and fair in a union rare,  
We hail them with right good will.  
From loom, from lathe, from frame,  
With spoils from the land and sea,  
From the gentle taste and skilful hand,  
These glorious guerdons be.

4  
We sing, we exult to sing,  
The wealth of our own free land;  
Ho ! sons of toil, ho ! our glad free soil,  
See your trophies on every hand.  
God bless the bench and forge,  
The mine and the gen'rous sea,  
The corn and fruit of the glorious land,  
Whence all these treasures be.

### BRITISH AND AMERICAN STATISTICS.

**POPULATION OF GREAT BRITAIN IN 1851.**—England and Wales, 17,122,763; Ireland, 6,515,794; Scotland, 2,870,784; Islands, (British Seas,) 142,916—Total, 27,452,262. Population of London in 1851, 2,361,640.

**BRITISH REVENUE AND EXPENDITURE** for the year ending January 5, 1851.—Receipts, \$164,954,400; Expenditures, \$251,159,370.

**POST-OFFICE IN GREAT BRITAIN.**—The gross receipts of the British Post-office for the year ending January 5, 1851, was \$11,323,420; cost of management, \$7,303,925; net revenue, \$4,019,490. The estimated total number of letters in 1850, was 347,069,071; number of money orders, 4,439,713; and the amount of them, \$42,472,490.

**PROGRESS OF THE UNITED STATES.**—The following figures present, in a small space, an impressive picture of the progress of the United States in the last half-century:

| Year.    | Area, sq. miles. | Population. | Post-office. | Post-roads.  | Post-office Expen. | Revenue.  |
|----------|------------------|-------------|--------------|--------------|--------------------|-----------|
| 1800 - - | 739,000          | 5,305,925   | 903          | 20,817 miles | \$213,994          | \$280,804 |
| 1817 - - | 1,869,000        | 8,000,000   | 3,459        | 52,089       | 916,515            | 1,002,937 |
| 1830 - - | 1,929,000        | 12,866,920  | 8,450        | 115,176      | 1,932,708          | 1,850,583 |
| 1842 - - | 2,370,000        | 17,063,353  | 13,733       | 149,732      | 5,674,752          | 4,546,849 |
| 1851 - - | 3,220,000        | 24,000,000  | 19,796       | 196,290      | 6,024,566          | 6,727,866 |

**UNITED STATES REVENUE.**—Total Receipts 1851, \$52,312,979; total Expenditure, \$48,005,878.

**RAILROADS.**—The number of Railroads in operation in the United States, on the 1st of January, 1852, was 263, measuring 11,565 miles in length, and constructed at an estimated cost of over \$300,000,000. The number of Railroads in course of construction was 74, measuring 11,228 miles. Total number of Railroads, 337, and total number of miles in operation, and in course of construction, 22,893.

**RAILROADS IN GREAT BRITAIN.**—The total length of Railroads open and in use in Great Britain, on the 1st of January, 1851, was 6,621 miles; authorised and in course of construction, 5,382 miles; giving a total of 12,003 miles. Total number of persons employed on Railroads, open and unopen, 118,859. Number of passengers conveyed on railroads in the half-year ending December 30, 1850, 41,087,919.

**MAGNETIC TELEGRAPH.**—According to the Mechanics' Magazine for February, 1852, there are already in the United States and Canada, more than 12,000 miles of wire, involving a capital of more than \$3,000,000. To work these lines, costs annually 720 tons of zinc worth \$57,600, more than a million pounds of nitric acid worth \$117,800, and \$27,000 worth of mercury, besides a considerable value in sulphuric acid, &c.

## THE CABINET, AND OTHER GOVERNMENT OFFICERS.

(Those marked thus (\*) are members of the Cabinet.)

*First Lord of the Treasury*—\*Earl of Derby.

*Chancellor of the Exchequer*—\*Right Hon. Benjamin Disraeli.

*Secretaries of State: Home Department*—\*Right Hon. Spencer Walpole; *Foreign*—\*Earl of Malmesbury; *Colonial*—\*Right Hon. Sir J. Pakington, Bart.

*Under Secretaries: Home Department*—Sir William H. Joliffe, Bart., and Horatio Waddington, Esq.; *Foreign*—Lord Stanley, and Henry Unwin Addington, Esq.; *Colonial*—Earl of Desart, Herman Merivale, and T. F. Elliot, Esquires.

*Secretary at War*—Right Hon. William Beresford.

*Chief Secretary for Ireland*—Right Hon. Lord Naas.

*First Lord of the Admiralty*—\*Duke of Northumberland. *Secretary*—Aug. Stafford, Esq.

*Lord High Chancellor*—\*Lord St. Leonards.

*Lord Chancellor of Ireland*—Right Hon. Francis Blackburne.

*Lord Chief Justice of the Queen's Bench*—Lord Campbell; *Lord Chief Justice of the Common Pleas*—Sir John Jervis; *Lord Chief Baron of the Exchequer*—Sir Fred. Pollock.

*Master of the Rolls*—Sir John Romilly.

*Attorney General*—Sir Frederick Thesiger; *Solicitor General*—Sir Fitzroy Kelly.

*Attorney General for Ireland*—Right Hon. Joseph Napier; *Solicitor General for Ireland*—James Whiteside, Esquire.

*Lord Advocate of Scotland*—Right Hon. John Inglis.

*Judge Advocate General*—Right Hon. George Bankes.

*Lord President of the Council*—\*Earl of Lonsdale. *Lord Privy Seal*—\*Marquis of Salisbury.

*Lord Lieutenant of Ireland*—Earl of Eglinton.

*Chancellor of the Duchy of Lancaster*—\*Right Hon. R. A. Christopher.

*Chief Commissioner of Works, &c.*—\*Right Hon. Lord John Manners.

*President of the Board of Trade*—\*Right Hon. J. W. Henley.

*Vice-President of the Board of Trade, Paymaster General of the Forces, and Treasurer of the Navy*—Lord Colchester.

*Master of the Mint*—Sir John F. W. Herschel, Bart.

*Postmaster-General*—\*Earl of Hardwicke.

*President of the Board of Control*—Right Hon. J. C. Herries.

*Commander-in-Chief*—General Viscount Hardinge, G. C. B.

*Master General of the Ordnance*—Lieut. General Lord Fitzroy Somerset, G. C. B.

## USEFUL HINTS IN AGRICULTURE, &amp;c.

**CUT FEED.**—The question is often asked, whether much is gained by cutting up hay, straw, &c.; to feed neat stock. Something depends on circumstances. If your hay is of the best quality, your cattle will eat the whole without cutting, and save you the labor. But if your fodder is mostly poor, or if it has been injured in making, you will do well to cut it short, and mix something with it to make it more palatable.

We have had coarse fodder cut fine, and sprinkled with water, and by adding a little meal, and mixing the whole together, our cattle have been wintered at less expense than on merchantable hay. Cows in milk live well on it, and it seems to be the way of disposing of a quantity of hay that is not good. Straw also may be disposed of in this mode. When all the coarse fodder is cut short, there will be no long manure; a shovel will enter a heap, and when spread, a harrow will bury it sufficiently.—*Ploughman.*

**MILCH Cows.**—The winter treatment of cows should be well looked to. Moderately warm, and well ventilated quarters, regularity in feeding, and watering, succulent food night and morning, clean beds and occasional saltings, are necessary for their health and comfort.—*Working Farmer.*

**VALUE OF CARROTS FOR MILCH Cows.**—J. W. Lincoln, of Worcester, Mass., is always doing something for the benefit of farmers. Some writer declared carrots were only useful to tickle the palate of a pet cow. Hereupon Mr. Lincoln took issue and proved by actual experiment, that a peck of carrots a day to a cow, increased her milk upon no day less than a quart, and some days more, and of improved quality, while the consumption of hay was lessened; so the carrots not only made milk, but satisfied the hunger of the cow. These experiments were varied and continued sufficiently long to prove their value.

Feeding carrots to horses has also been proved valuable. Two bushels of oats and one of carrots, are better than three of oats. Land suited to the growth of this crop, deep ploughed and subsoiled, properly manured, will give a thousand bushels to the acre. Greater crops than that have been often raised. The white Belgian are considered best to yield. We prefer the orange carrot.—*The Plough.*

To preserve meadows in their productiveness, it is necessary to harrow them every second autumn, apply top-dressing, and roll them.

**TRANSPLANTING EVERGREENS.**—The roots, while out of the ground, should be kept moist, and they should never, for a moment even, become dried during the process of transplanting. Hence a rainy day is recommended, in all cases, and especially where the roots are denuded.

**PRESERVING FRUITS WITHOUT SUGAR.**—At the New-York State Fair at Rochester, last fall, there were exhibited thirteen bottles of fruits so preserved by William R. Smith, of Wayne Co., viz: five of cherries, two of peaches, one of strawberries, three of different varieties of currants, one of blackberries, and one of plums. They were examined by a committee, and found of fine flavor; and the committee expressed the opinion that the art of preserving fruit in this manner is practicable and valuable, and that the fruit, when carefully put up, can be made to keep as long as may be desirable.

The method of preserving them is thus given to the New-York State Society by Mr. Smith. They are preserved by placing the bottles, filled with the fruit, in cold water, and raising the temperature to the boiling point as quickly as possible; then cork and seal the bottles immediately. Some varieties of fruit will not fill the bottle with their own juice. These must be filled with boiling water, and corked as before mentioned, after the surrounding water boils.

**TO KILL LICE ON POULTRY.**—Boil onions several hours, thicken the water with meal, and feed to the poultry.

The virtue of prosperity is temperance; the virtue of adversity is fortitude.
