## ENTIRE GERMAN CAMPAIGN AGAINST RUSSIA HAS GONE TO PIECES AND RUSSIANS WIN EVERYWHERE

### Extraordinary Photographs of Great North Sea Battle Sent to The Toronto World

These remarkable photographs were taken by a British naval officer during the recent engagement in the North Sea. The upper left hand photograph shows H.M.S. Lion steaming at full speed in pursuit of the German ships. The battle cruiser is heavily listed to port and about to turn turtle. The battle rigger is shown at the extreme left, having been swept away by a British shell. At the extreme right is the stern of the British destroyer which discharged the fatal torpedo, speeding away. The lower photograph shows the Blucher, disabled by gunfire, awaiting the final torpedo which has been discharged by the destroyer in the foreground but which has not yet struck home. This photograph was snapped just after the destroyer had signalled "Look out, we are going to torpedo you," and just an instant before the upper photograph was snapped.

## DISORDER AFTER HEATED DEBATE OVER NEW CHIEF

### Ald. McBride Wanted to Have Former Report Struck Out

### MAYOR SOUGHT ORDER

### Meeting Broke Up in Confusion When Clock Struck Eleven

Toronto's city council broke up in disorder last night. It adjourned automatically because the clock struck eleven. The climax came as the result of a session spent largely in throwing jibes. It is not within the memory of the oldest inhabitant that such an occurrence has taken place before in the history of Toronto city councils. Ald. McBride had held the floor about 20 minutes when the clock chimed. He had been discussing his motion that the appointment of Deputy Chief Noble be struck out of the board of control's report before it was adopted by council.

Said Noble was a Grit.

He said that every vote for Noble was a Grit vote. Ald. Maguire gave the information at this point that Noble was not a Grit. Ald. McBride came back with a statement to the effect that if he was not a Grit he turned one when he wanted the job. The same as Ald. Maguire did when he wanted to get his brother a job adding "and he didn't know how much he got for it either."

Here, the mayor called for order. He asserted himself by saying, "I am mayor of this city."

To this Ald. McBride was heard to say, "God help the city."

For about ten minutes confusion reigned supreme and would have continued longer had not the automatic adjournment come into effect through the authority of the clock.

Spoken Ever Heard.

"This recommendation goes thru we will have a man at the head of the department with about ten charges against him," said Ald. McBride in his discussion, "a man who Mr. Geary is to prosecute and it will be the spiciest thing ever heard in Toronto. If we send the recommendation back we will have to retain John Thompson as head of the department, and we need him in that position to give evidence, but the people who want Noble voted out, want Thompson voted out, so that he will not be called on."

"It is a much easier thing to dismiss a deputy than it is to dismiss a chief," said the alderman.

"When you make his chief you increase his salary, and when the time comes the same influence will be used to keep him in as has been used to put him in by seeing that the charges made are not serious enough to put him out. It is a ridiculous thing to make a man head of a department when he is under a judicial investigation ordered by this council."

**Legal Department Busy.**

The legal department has been put to work on the case, a detective has been put to work and council is trying to place a man in an important position with these charges over his head. We have no right to drive a man in that it will take ten times the force to drive him out. Every influence will be used by those who want to put him to keep him in."

It was at this point that the aldermen stated that every Grit had voted against him in, and the confusion commenced when Ald. Maguire took exception.

**Another Meeting.**

Last night's trouble means that a special meeting of council will have to be called to finish up the business and to adopt the report of the board of control, with any necessary amendments, which was not done.

### Drastic Resolution Passed at Runnymede Regarding Nickel

### HUGE PROFITS MADE

### Claim That Nickel Company Made Four Million Last Year

At a meeting of the Runnymede Liberal-Conservative Association held in Cook's Hall, a resolution favoring the refining of nickel in Ontario, was passed as follows, and Secretary D. W. Proctor instructed to forward copies to the government and to Dr. Forbes Godfrey, M.L.A. for West York:

"That whereas today we find the Dominion of Canada in a peculiar position, in that an area covering 550 square miles in the Subury district is a great storehouse of nickel; this mineral originally belonged to the crown; in the year 1896 the colonial secretary under instructions from the imperial government, wrote the Dominion Government that it retain control of the nickel mines. The reply sent back to the imperial government was to the effect that these mines had passed out of the hands of the government and were owned and controlled by private corporations:

"And whereas all munitions of war used by the German army and navy are hardened and made efficient by nickel mined in and exported from the Province of Ontario;

"And whereas the International Nickel Co. in the year 1914, had the enormous profit of \$4,000,000, while less than \$25,000 found its way into the treasury of Ontario;

"Therefore we do resolve that we, the officers and members of the Runnymede Liberal-Conservative Association, hereby petition the government to immediately take action to have all minerals mined in Ontario retained in Ontario;

"And we most emphatically protest against a statement made by Premier Hearst, that he did not care what became of the nickel after coming from the mine."

### French Government Denounces Infamous Torpedoing of Amiral Ganteaume

### NO STRATEGIC REASON

### Women and Children Among Crowd of Refugees Aboard

Canadian Press Despatch.  
PARIS, Feb. 10, 5.15 p.m.—The French Government today made public the result of the inquiry ordered by the minister of marine into the torpedoing of the French merchantman Amiral Ganteaume, on Oct. 26, 1914, and gave to representatives in Paris of the neutral powers, copies of the memorandum. The vessel, when struck by a torpedo fired by a German submarine, had on board 2900 refugees from Belgian and French coast towns.

The report says the attack was committed by a German submarine without daring to show its colors, and without warning or stopping. It asserts that the attack was made on an undefended merchantman carrying women and children and old men, who were refugees. The attack, it is contended, was without military or naval utility or strategy, and was only "the murder of inoffensive individuals."

The report reports the methods of the German submarines and says the government of the republic believes it is acting in the common interests of the civilized world in bringing these facts to the attention of the other governments.

### FIRST TIME IN ACTION

### Two Brothers and Two Sisters Survive Him in Toronto

Canadian Press Despatch.  
OTTAWA, Feb. 10.—The following casualties in the Canadian expeditionary force were announced by the militia department tonight:

Killed in action: Pte. John Russell, P. C. L. I. Next of kin: Mrs. J. Russell, 1715 Twenty-Eighth avenue, South Calgary, Alberta.

Private John B. Blakeley, P. C. L. I. Next of kin: George Blakeley, 24 St. David street, Toronto.

John B. Blakeley was a single man and lived with his two brothers and two sisters at 24 St. David street. He was born in Enniskillen, Ireland, in 1883 and had been in Toronto one year. He was for twelve years a private in the Duke of Cornwall's Light Infantry, but had never before seen active service. When the call was made for recruits he enlisted in the Princess Patricia's regiment. Before he went to England he was employed as a butcher with the Harris Abolitor Co. His brothers and sisters received a message from Ottawa yesterday afternoon telling them of their brother's death.

### Terminal Company Finances Project and Will Begin Work on Large Scale

There is good authority for the statement that the Terminal Company, having in charge the erection of Toronto's new Union Station, has completed the financing of the project and that work will start on a large scale in the spring.

Owing to the absence from Toronto of Mr. Leonard, who with Engineer Ambrose is in the east completing details of the underwriting and clearing up matters in connection with the construction work, no official confirmation of the report that the company is about ready to proceed with the work could be obtained, but it can be accepted as certain that Toronto's period of waiting is about over.

Special Cable to The Toronto World.  
LONDON, Feb. 10.—The Daily News has received a telegram from Takeu Jonecu, one of the best known Rumanian statesmen, a former premier and leader of the Conservative Democrats, dated Bucharest, Wednesday. It says:

"I have expressed in the English and French press my strong belief in regard to Rumania's future action on the side of the triple entente. Nothing has occurred to change my former declaration. Indeed, my belief is firmer than ever. The present calm in public opinion springs from a deep belief that action is certain. Naturally, I cannot fix dates, but I may say that the presence of Austro-German troops near her boundaries has not weakened Rumania's determination. Statements in the Austro-German press about a change in favor of Austria and Germany are devoid of foundation."

Special Cable to The Toronto World.  
PETERSBURG, Feb. 10.—Russia has finally established her superiority as a fighting power over Germany, and the turning point on the Russian side has now been reached. While the German soldiers and minor commands continue to fight with a courage and determination that is almost superhuman, it is evident to those who are in a position to know all that must be known before a trustworthy opinion can be formed that the German plan has gone to pieces. The bottom has fallen out of their offensive campaign and all that the Germans are now seeking to accomplish is to cover the failure of their strategic plan, or possibly the absence of any adequate plan by frantic rushes at frightful cost in every direction the steady forward movement of the Russians in East Prussia, their great advance over the difficult territory north of the lower Vistula, their advance along the Carpathians, all occurring simultaneously, are an indication unmistakable to a soldier's eyes.

Russia to Dictate War.  
News has reached here of another of those fateful councils of war that have been held in Berlin by the emperor. It is too late for either the Russian commander-in-chief or the Anglo-French generals to give away any chances, and nothing else can now repair matters for the Germans. They are mastered on this side and further proceedings for another few weeks will go as Russia will.

Unity of Purpose Lost.  
The war can only be won by unity of purpose. The Germans, confident in their arrogant supremacy, despised the fundamental truth months ago, namely, when they succumbed to a soldier's eyes.

VETO DECEIT NOT ESSENTIAL DECLARED

Presidential Term Could Be Profitably Lengthened to Seven Years

LECTURE AT VARSITY First Series Under Marlett Foundation Delivered Before Large Audience

Interpersed with personal studies and speeches gathered in the course of an extended political career, William H. Taft, ex-president of the United States, addressed a large audience at Convocation Hall last night on the subject of "The Presidency of the United States."

It was particularly opportune, President Taft said, that such a lecture should have its inception at this time, for the reason that public celebrations were being begun to commemorate the centennial of the signing of the Declaration of Independence between the United States and Canada.

Power of Veto. The power of veto of the president was dealt with in a manner that did not absolutely prevent legislation. "He thought that the people could be trusted to such an extent that the power of veto was not essential, and that the voters would be depended on to press displeasure about unsatisfactory enactments."

Impersonal view was expressed that the term of the president could probably be lengthened to seven years, with no second term possible. "That would dispense with the necessity of the last 18 months of office. The president might be brought in closer touch with the congress. The second term of a president was less effective than the first, for the reason that most of his legislation was held up. This came very near being an unmitigated blessing, as according to Senator Root's report, there were 65,000 different enactments passed during the last two years of the first term, but this gave a breathing spell to useless legislation."

Quoting a remark made by former Speaker Cannon, Taft doesn't know anything about party; if he were Pope he would wear three or four Protestant cardinals. The speaker aroused much laughter.

Room for Reform. The advantages of a budget was voiced by Mr. Taft, who said that to make one possible all the appropriation bills would have to be brought in by one committee, instead of several, as at present. "There is room for reform in this as well as in other particulars. My remarks were not one that comes gradually and with a great struggle. Only then do we appreciate it most."

The executive powers of the president, his consulting with the heads of departments, issuing commissions were also discussed. The bi-weekly cabinet meetings were said to be purely informal. A historical touch was introduced with the description of Washington's cabinet of four and the strife which the "father of our country" pacified. Personal whims could not be justified, although there were many party obligations which had to be fulfilled.

York County and Suburbs of Toronto SHOULD JAIL FARM FLAGRANT CRUELTY AT STOCK YARDS

Two Calves Shipped With a Carload of Hogs—One Partly Eaten

Interesting Legal Problem to Be Submitted to Hon. W. J. Hanna

Since the city purchased a thousand acres for the jail farm on Yonge street, the question of tax exemption has become a serious one in York County.

Unusual Case. "As a rule the law applies very fairly in the case of church, schools and ordinary charitable institutions," said Warden Jonathan Nigh to The World yesterday, "but I don't think that it is intended that one municipality should plant an institution exempt from taxation in another municipality and then develop it into a business enterprise."

Of late years it has developed greatly and to the detriment of the city view the possibilities of the tax exemption regulations with considerable apprehension. They feel that they may be invaded at any time by some large college or charitable or corrective institution, which will reduce the assessment and at the same time increase the necessary expenditures.

Another matter which the committee will take up with the government is the question of fixing a load limit for motor trucks. The carrying power of these vehicles has increased so rapidly that some load limits will have to be fixed or a great many substantial bridges equal to ordinary traffic will have to be rebuilt.

NUMEROUS QUERIES ON WAR SUPPLIES

Opposition Members Show Lively Curiosity on Many Points

TRANSPORTATION COST Murphy Wants Information on Movement by Rail and Steamer

By a Staff Reporter. OTTAWA, Feb. 10.—That the opposition members intend to lay in a stock of information regarding war contracts which may prove useful for purposes of criticism, is becoming more and more evident. Today notice was given of another batch of questions.

Hon. Charles Murphy inquires as to the amount paid the C.N.R. for transportation, express and all other charges to the Valcartier Camp.

He also desires to know the names and salaries of those employed to administer the Canadian Patriotic Fund. He requests the fullest information regarding the names of the vessels, the owners, the brokers and the agents.

Pensions of Dependents. Hon. Frank Oliver brings up the question of pensions of the dependents of those of the Canadian contingents who may be killed or disabled. He asks what the government intends to do.

Further questions are being asked regarding the purchase of medical supplies in Ottawa for the troops. Mr. Oliver asks for a list of the names of all about J. E. Powell, who received a large order, his place of business, the sums paid, etc., also all about civilian contractors who are doing business in Ottawa.

The Holy War has gone very flat in Egypt. It is one of the things no "tollah" can understand. There may be a slump in the diamond market, but we are still making rings—round the Germans.

Two Calves Shipped With a Carload of Hogs—One Partly Eaten

Police Magistrate George Syme was presented with an illustrated address and a handsome electric reading lamp at a joint meeting of the Runnymede Liberal-Conservative and Scout Plaina Ratepayers' Associations in Monday Avenue Methodist Church on Tuesday evening, when about 150 people sat down at the banquet prepared by the ladies.

Shortly afterwards a car shipped from E. Kaaka at Kilmoryn, containing two calves, with no intervening partition. The condition of the latter animals was terrible, one of the calves being dead and partly eaten by the other when the car was opened at West Toronto. Kaaka will appear on a charge of cruelty also.

The West Toronto Cricket Club held a well-attended meeting last night in St. James' Hall, when several new members were welcomed. The club now contains some excellent material for next season's games.

ADVOCATE CIVIC LINE ON SPRINGHURST AVE. Ossington District Ratepayers Discussed Transportation Last Night

At the monthly meeting of the Ossington District Ratepayers' Association in McMurrich School last evening the proposed Springmount-Dovercourt car line was much discussed.

J. J. Jarvis said the total cost of the line under discussion would be about \$40,000, and this figure would include everything. "I would undertake to do the work myself at this price under contract," said Mr. Jarvis, "and would consider it satisfactory."

Mr. Blackburn claimed that if the work could be done in any way he would be glad to do it. The Gooderham bill would empower them to build the line if a sufficient number of people supported the proposal.

GERMANS DEFEATED IN WHOLE CAMPAIGN Grand Duke Nicholas Wins Out at All Points on Enormous Front ANOTHER WAR COUNCIL Kaiser Wants New Plans Made—Germans Routed in Carpathians

GERMANS CRUSHED AT BALI-GROD. Canadian Press Despatch. PETROGRAD, Feb. 10.—Details of a dramatic and desperately fought fight in the Carpathian Mountains, in which the Russian charges are described as most ferocious, and without precedent in history, reached Petrograd today.

According to these reports, repeated attacks on the part of the German troops were finally repulsed by the Russians, and the German dead lay in great numbers in front of the Russian positions. The losses are described as enormous, and unquestionably the fighting was waged with the utmost ferocity by Germans and Russians alike.

The scene of the fighting was at Bali-grod, which is 30 miles south of Sanok, in Galicia. German troops were present in very considerable numbers. It is claimed semi-officially by the Russian state department that the forces in the Carpathians have been augmented by 200,000 Germans, and that German officers are now directing the Carpathian movement.

The German plan, insofar as it can be observed here, now seems to be to abandon gradually their aggressive on the Beza and in the Vistula region, and to transfer their troops to points where there is greater opportunity of piercing the Russian defensive. The fighting in the Carpathians would appear to be a part of this procedure.

Concentrating their forces in the night of Feb. 7, the Germans early in the morning launched a series of doubtless rapidly developed into one of the fiercest attacks in the history of the Carpathian campaign. The first line almost totally annihilated, the Germans pushed forward their heavy artillery, and were successful in gaining a strategic elevation. But from this position they were almost immediately driven back by a Russian bayonet charge. Attack and counter-attack followed each other in rapid succession, and towards evening the Germans, in great numbers, appeared to be in permanent possession of the heights.

# Parliamentary Government and Democratic Rule Menaced by German Autocracy.

OTTAWA, Feb. 9.—In the house of commons tonight in the debate on the address, W. F. Maclean, M.P. for South York, discussed the war between the empire and Germany from the standpoint of the danger to parliamentary and democratic government in English speaking communities as well as other nations should German autocracy in any way triumph.

Mr. Maclean (South York): I do not know whether a private member should venture into this discussion, and especially after the experience of this afternoon. Nevertheless, I do intend to say that it is my opinion, both on my own account and in respect of the constituency that I represent, to do anything and everything I can to uphold the hands of the government in action on behalf of this country in this great struggle, and we are prepared to do anything and everything possible to secure, first of all, the rights of ourselves and the rights of the allies, and then to bring about peace.

What is the situation in Europe at this time? I intend to look into the situation from a somewhat different angle, perhaps from the angle of Canada and the angle of America rather than from the angle from which most of us have been looking at it, and that is the supreme danger to this American continent as a democracy. It is this, that if Germany were to triumph, if we were to neglect our duty or to fail to play our part in this fight, we would be in danger of losing our parliamentary institutions. Just for a moment I want to trace the history of the parliamentary or democratic government that we enjoy in the mother country and in America.

Three hundred years ago almost to this very year, England began to feel the misgovernment that came from an irresponsible and arbitrary government, and while he at first expected no great trouble resulting from his arbitrary conduct, still the people of England, finally rose against him and the movement for responsible parliamentary government was begun. His son lost the confidence of the people of England, and was executed, and on the day that Cromwell came to power parliamentary government was established in England and great changes were made. There was a revolution, a backward movement for a time, but after the interregnum there was an act passed by parliament, called the Act of Succession, and the important point about that is that for the first time the king of England was given a parliamentary title to his crown. Various measures of progress were made in the next and the last century which eventually ended in the fact that we had almost complete parliamentary government with one thing lacking, and that has been accomplished by this present parliament in the mother country. Now the house of commons is supreme and the responsible house of lords has been made to respect the voice of the people expressed in the house of commons. Today, in the present time, three hundred years, we have absolute and unlimited parliamentary control in the United Kingdom of Great Britain and Ireland, and the people rule.

Gradually that principle has been extended to the continent beyond the seas, to Canada, to Australia and to South Africa. We have now practically a free constitution, free parliament, free government, free rule of the people prevailing in almost all portions of the empire, certainly within the dominions, and nowhere in any greater degree than in the mother country. All that has taken three hundred years to accomplish, and the final result is that we have almost complete parliamentary government with one thing lacking, and that has been accomplished by this present parliament in the mother country. Now the house of commons is supreme and the responsible house of lords has been made to respect the voice of the people expressed in the house of commons. Today, in the present time, three hundred years, we have absolute and unlimited parliamentary control in the United Kingdom of Great Britain and Ireland, and the people rule.

## MILITARY TACTICS INSIDE TORONTO

Local Forces Marched to Northern Section to Stop the "Enemy" PRACTISED ATTACK Cedarvale, the Scene of Supposed Invasion, Favorable for Operations

Night tactical operations were gone thru last night by the infantry of the second contingent. The manoeuvres were held at the extreme northern edge of the city in Cedarvale, near Eglington avenue and Kennedy road. It was the first undertaking of the kind yet performed by the overseas contingent. It was also probably the first time that Toronto troops have held such manoeuvres in the history of the city. The start from Exhibition camp was made at 7.30. The officers were mounted on ready mounted horses and the men on foot. The attack was practised by companies, with fixed batteries. The enemy was represented by flags previously placed in position at strategic points. Cedarvale was found to be favorable ground for the holding of the night operations. It is 500 acres in extent and the northern half of it is far enough away from the city's lighting system to be dark enough for the carrying out of night operations. The manoeuvres occupied several hours. It was after midnight before the troops were back at the camp again.

The promotion to captain (prov.) of Lieut. C. B. Lindsay, 14th Battalion was announced yesterday afternoon.

Notification was given in yesterday's camp orders that the consent of wives in the case of men who are actually enlisted for overseas service is not necessary to the date of marriage, for the reason that at the time of marriage the wife must know that she is marrying a soldier.

An official statement regarding the remounts purchased by the government for the second contingent mobilized at Exhibition camp was made yesterday afternoon. It shows that 1627 horses for riding and draft purposes were bought.

All units in camp not yet mobilized against typhoid fever will be treated tomorrow and on Wednesday of next week.

Belgians Collect Again. Another detachment of Belgians are concentrating at the camp prior to leaving to join their countrymen at the firing line. Eleven more Belgians are now at the ground.

Steps are to be taken at once by commanding officers in camp to intensify the training of the personnel of their units in first aid. This will be done by lectures and demonstrations, to be given by medical officers of the contingents. Particular attention will be given to the use of the first field dressing. The course will be taken by every non-commissioned officer and man of the contingents, and will consist of at least three lectures.

Daughter of General Booth. Mrs. Ethel Booth, daughter of the late General Booth, will speak to the troops in camp at the dairy hall tonight. Arrangements for her visit are being made by Fred Smith, physical director of the Central Y.M.C.A. Soldier's Turn Game. More than 100 soldiers who have entertained the troops at the nightly concerts in camp for several months past, were guests last night at a game of "Soldier's Turn" given entirely by the soldiers themselves, and held in the dairy hall, under Y.M.C.A. auspices. The game was presided over by the Service Corps president. Over twenty members of the contingent contributed to the program, features of which were the singing of the "March of the French" by Private Brookes of the Army Service Corps, and a fencing contest between Private E. Thompson and Private J. Brown. Mr. E. P. McKissock of the Y.M.C.A. military department.

Thirty-one recruits were added to the 4th Machine Gun Battery last evening.

Pay is Raised. Official advice has been received from Ottawa that the pay of the Canadian permanent forces is to be raised from 50 cents a day to \$1.10, and thus be the same as the pay of the volunteer soldiers of the Canadian contingents. The members of the Royal Canadian Dragoons come under the permanent forces, and about 150 men in Toronto will benefit. The troops in Bermuda will also receive the increase. It is believed that the increase will be put into effect immediately.

Capt. Morrison of the Eaton Machine Gun Battery has received authorization from Ottawa to proceed with the organization of the complete corps for forty motor cars. The Eaton Machine Gun Battery, 15th Battalion, has already been proceeded with and nearly all of the 281 men required have been procured. This number includes 23 officers.

Fifteen are Secured. Fifteen out of the 40 men needed for the telegraph operator division of the first contingent have been secured by Capt. E. D. Dunn, who has charge of the signaling instruction at the Exhibition Camp. The 4000 troops at the camp have been quartered there for three months and during this time two pairs of boots

## NEUTRAL FLAG USED BY LINER ORDUNA

Cunard Steamer Flew Stars and Stripes at Foremast Near Queenstown

CAPTAIN NOT TO TALK Customary to Fly Flag to Indicate Country Whither Bound, Say Officials

Canadian Press Despatch. NEW YORK, Feb. 10.—Officials of the Cunard steamship company admitted tonight that the steamer Orduna, which arrived in this port from Liverpool today, flew "a neutral flag" for a time while she was clearing the Irish coast. This statement was made after a number of passengers on the ship had declared that the Orduna had flown nearly 34 hours on Jan. 31 the new stars and stripes while passing thru the Irish Sea.

These passengers asserted that the American flag was flying aft, indicating the nationality of the vessel. On behalf of the line a denial was made during the day that the Orduna had flown the flag except at the foremast.

PROF. ANDERSON PRAISES "CAESAR"

Roman Film Spectacle Will Be Shown at Garden Theatre Next Week

After seeing the historical picture Julius Caesar at the private exhibition at the Garden Theatre last week, Prof. G. E. Anderson of the University of Toronto sent the following letter to Manager Brick:

"Permit me to convey to you a word of appreciation of the photo-drama 'Julius Caesar,' which I had the opportunity of witnessing at the Garden Theatre, College street, recently.

"Sameness of staging, historical accuracy and thoughtful attention to detail make this one of the most notable of the Klein productions. The presentation by the local theatre was also excellent, the orchestra being particularly worthy of commendation.

"The dramatic events in the life and tragic death of the first of the Roman emperors form a fascinating page in the world's history, and Mr. Klein's representation of these is especially worthy of the patronage of the public."

This is just one of the many favorable expressions uttered on the picture which will be shown at the Garden Theatre all next week.

RUSSIAN PIANIST AN ART COLLECTOR

Mark Hambourg is Proud Possessor of Veritable Treasure House

Mark Hambourg, the great Russian pianist, who is paying a short visit to Toronto, is an ardent advocate of "hobbies"—especially his hobby encourages intimacy with art.

When seen at the Hambourg Conservatory yesterday he said: "I believe that musicians especially should make or acquire the collection and preservation of art treasures. This 'hobby' of mine, as we call it, has always meant to me an absolute essential in my work and in traveling continuously as I do, I have a splendid opportunity of picking up some rare pieces."

Mark Hambourg's beautiful old-London home in Cumberland terrace is pronounced by all who have enjoyed his hospitality as a "veritable treasure-house"—so many are the rare collections within its walls. Among these are one of the largest and most complete and altogether representative coin collections. Of late the collection of gems has been abandoned in the eager quest for rare specimens of English glass. During a recent visit to Jersey, a curiosity shop which contained some rare examples of the glass was completely bought out—and thus the collection grew.

When at home in London all the spare time of the great musician is spent in wandering thru one or other of the famous old antique shops in search of some exquisite little gem of art.

"When the interested listener—inspired with a goodly amount of patience—has heard if any specimens were taken from Canada, a generous smile accompanied the answer.

"In Canada I prefer making a collection of old coins rather than a little of the Indian work, which is typical and quite interesting, but here it is the people that I enjoy most. Toronto is a wonderful city and for this reason we musicians all love Toronto."

AFFECTION MANIFEST FOR BRITISH PEOPLE

Mr. Justice Riddell Represented Government at New Orleans Peace Celebration

In describing the celebration, which also included that of the 100th anniversary of the battle of New Orleans, he stated that the British flag was draped together on all occasions. The peace spirit predominated, and a feeling of unity was maintained. It was estimated that the number of British soldiers who were present at the celebration was 10,000.

Presbyterians Decide That Church is Losing Heavily by Families Leaving Country

Rev. J. H. Edmondson, Presbyterian home mission secretary, has received a request for co-operation from the committee on church life and work of the Presbyterian Church in the United States in the organized movement for keeping track of Presbyterians who leave the United States for Canada or go to the States from the Dominion. The request says: "It has been estimated that our church is losing more members yearly by removal than we receive on profession of faith. During the year there were reported removals of 15,300 Presbyterians, and the number of persons and over 72 per cent, were located and called upon."

RECORD SHIPMENT FROM CANADIAN VEHICLE FACTORY

The Grand Trunk and Grand Trunk Pacific Railways have just handled the largest single shipment of motor cars and carriages ever made by a Canadian Vehicle Factory. The McLaughlin Carriage Company, Limited, shipped this week 45 carloads—a solid train—of their McLaughlin automobiles and carriages for Winnipeg, Regina, Saskatoon, Moose Jaw, Edmonton and Calgary, over the Grand Trunk System Lines.

Business conditions in Western Canada, the McLaughlin Company believe, are founded upon the solid basis of agricultural production and they see every sign of increased instead of diminished demand for their products. The vehicles in this train would make a procession three miles long, and the Grand Trunk authorities are giving them a fast run over their lines.

Talk on Why Women Should Vote Before Toronto Women's Press Club

The Toronto Women's Press Club was entertained by Mrs. L. A. Hamilton at her residence, 22 St. Joseph street yesterday afternoon. When a large number of the members heard a splendid address by Mrs. Lang on "Why Women Should Vote." Mrs. Lang, in speaking of the active work being undertaken by women in the war, Mrs. Lang stated that there are now three hospitals in the field, not only equipped by women but fully staffed with women, who acted in the capacity of doctors, nurses, orderlies and attendants, performing the full duties of hospital routine with success and efficiency.

MISS MARY GOULDEN, WHO IS WITH THE "MILITONES" THEATRICAL COMPANY, TO PLAY

soon at the Grand, has received an interesting letter from the front. It comes from Corp. A. Keane, who is with the Army Service Corps of the British Expeditionary Force. He says, in part: "We count ourselves lucky if we get a roof over our heads to sleep on; we would not know what to think of a real bed. The first night over here we camped in the mud, and there was small comfort of any kind, either for officers or men. Picture me digging a small trench under the tent; this is to draw off the rain. All this, however, is child's play to what they have to put up with at the front, and I only remark on it because it happens to be new to me. Some of our chaps have started collections of souvenirs already—German, Belgian and French buttons.

MISS MACDONALD WEDS GEORGE K. GAINSFORD

Daughter of Sir Hugh and Lady Macdonald Was Quietly Married in Winnipeg

Special to The Toronto World. WINNIPEG, Feb. 10.—The wedding of Isabella M. Macdonald, daughter of Sir Hugh and Lady Macdonald, to George K. Gainsford, son of Mr. and Mrs. George Gainsford, was solemnized at five o'clock this afternoon at St. Mary's Presbyterian Church. Rev. F. J. O'Donnell officiated. The church was decorated with palms, but no reception was given owing to the ill health of Lady Macdonald. The bride, who was given away by her father, wore a neat tailor-made of midnight blue and wore roses and lily of the valley. After the marriage the happy couple left for St. Paul, where they will spend a short time. On their return they will reside at 163 Evanston street, Winnipeg.

TORONTO TO HAVE FINEST DRIVEWAY

Will Encircle City for Thirty-Five Miles, Says Commissioner

PLANNING OF PARKS

Discussion on Playgrounds Brings Out Many Important Local Facts

Charles E. Chambers, park commissioner, delivered an address before the members of the bureau of municipal research yesterday afternoon. His subject was: "Parks Administration in Toronto." "The city is at present divided into the eastern, central and western sections, each in charge of a superintendent, to whom the foremen are responsible, and they in turn to myself, so you can see that this ensures a close touch," said Mr. Chambers in his opening remarks, "and within a short time a northern section will be well under way."

"It is the intention of the department to have a city nursery, from which all our street trees and park plants will be nurtured. The present park space covers 1,800 acres divided into 46 parks. 11 playgrounds cover 12 1/2 acres. "We have divided the city into 14 districts in our scheme of development, and Toronto still needs 250 acres of park land according to the basis of one-fifth of a district to the maximum of population. As to the boulevard scheme that is contemplated I will say that Toronto will have the finest driveway of its kind on the continent when it is completed."

NEW ROADS BUILT IN NORTH ONTARIO

Altho Retrenchment Became General, Outlay Was Larger Than Usual

IMMIGRATION SMALL

Influx of Strangers Has Been Greatly Reduced During the Year

But for the outbreak of war and the coincident cutting of government outlay, New Ontario was destined to receive by far the biggest expenditure on good roads which has occurred in recent years. As it is, the mileage constructed is in excess of that of last year, and the total outlay in general improvements is also much greater. In all, 468 miles of new roads have been built on the colonization basis, and 1,891 miles made over with the assistance of municipalities. The expenditure involved was \$483,072.46.

The comparison of these figures with those of 1913-14 shows general increases. The contributions from both government and municipalities have been increased, and work was proceeding steadily when the order for retrenchment became necessary. During the year the Sudbury-Coniston trunk road, linking up two important centres with a standard highway, was completed; the Soo-Sudbury road was brought a stage nearer completion, and the Coniston-Garson trunk road, four miles in length, was opened to traffic. The \$90,000 grant for those specialized highways was not exhausted. The expenditure on immigration proper was the smallest in several years. The total was \$101,609, some \$30,000 less than the year before. Whereas \$24,600 was advanced to assist immigrants in 1913-14, only \$4,650 was turned to this purpose in the year just closing. A great falling-off in the influx of strangers is also noted. The scarcity of available farm labor in the British Isles cut down the immigration from 11,000 in 1913 to 5,618 for last year.

None of Buyers Received Deed for Purchases, English People Losing Heavily

A dozen investors and shareholders in real estate subdivisions handled by the firm of McCutcheon Bros. Limited, were called before Magistrate Denison in special police court yesterday, in the preliminary hearing of the charges of conspiracy to defraud laid by Dr. H. N. Weaver of London, Eng., and others, against Gordon D. M. J. H. and C. M. McCutcheon and Marshall Cooke, members of the firm. In every instance witnesses declared they had been unable to secure a deed for their purchase, merely receiving a receipt, none ever got returns from investments. Heavy Profits Promised. Dr. H. N. Weaver, London, Eng., the plaintiff, swore that in London, when the proposition to invest in the Mayfair syndicate was put before him, profits of no less than 40 to 400 per cent. were named as probable. He invested £100, and found he was then liable for an additional £200. He was informed of a switch of the Mayfair property, valued at £130,000, for property said to be opposite the C. N. R. in Calgary, and worth \$100,000. The doctor got nothing for his money and heard nothing more of profits; neither was the Calgary property opposite the C. N. R. station, and its valuation was false. A syndicate of "English investors" sank \$130,000 into the Mayfair subdivisions.

Property Undesirable. Mrs. Hannah Allen, who resided for three years in Edmonton, was examined as to the real value of the Mayfair properties. She knew it well, she said; it was very undesirable property, because it sloped so much, and no person out west would ever build a house there to have the waters of the river running thru the property sweep it away. Witness was shown a map of the subdivision, and pointed out half a dozen lots which were bound to be flooded every year when the river rose in the spring. She declared \$750 per lot very high for the locality. William Coulter said he bought two blocks of "Mayfair" for \$750 each, sold to him by E. J. Wilson. He was promised a deed after his third payment, and altho he made that payment long ago had never received the document. C. M. Wyse of Merrifield agreed to buy 12 1/3 shares in Mayfair, Limited. He was to pay \$500 cash and S. J. Kilpatrick, Brookville, secretary-treasurer of the Brookville Investors, Limited, testified to purchasing ten shares of Muller Park, just outside of Edmonton, valued at \$10,000. Kilpatrick declared their rig became stuck in the mire several times on the way out to the property. The hearing will resume at 11 o'clock today.

Another Roadside. Alexander Travis purchased \$500 worth of Mayfair property, for which he received a receipt on July 11, 1912. Travis produced advertisements in which Mayfair was held up as another roadside and comparable to the best sections of Toronto, and Montreal. Held Up for Installments. Byron D. Armstrong also was unable to produce a deed for his purchase of \$1,500. Armstrong, under threat of suit from the McCutcheon brothers, had paid his third and fourth installments. Two hundred per cent profit had been held up to him as bait. Edward G. Wilson, who thru Dr. Little became agent for the firm and sold considerable of the property to his friends, told the judge of the property he was to sell, as represented to him by the brothers. He had never personally investigated the property.

Asian Hills testified as to the forming of a syndicate in Galt for the vending of the property in Great Falls, Montana. Arthur Poinnington, Bowmanville, said he was elected president of the Highlands and Montana Investments, Ltd., a concern promoted by McCutcheons. He personally put money into property at Great Falls and was told he could surely unload in the spring of 1914. "But we didn't," he added. Thomas Brown, also of Bowmanville, president of the Anglo-American Investments, Ltd., told the court of the promoting of that concern to sell Great Falls property. He was told the real estate was in a city and that the land could be handled and sold in six months, when their syndicate would receive a good profit. They paid \$28,000, half down, on 80 acres.

REFUGEES IN FRANCE ARE IN DIRE STRAITS

Nearly Six Hundred Thousand in Need of Food and Clothing

Canadian Press Despatch. NEW YORK, Feb. 10.—The war relief clearing house for France and her allies, which has its office in this city, today received a cablegram from the American Relief Clearing House of Paris, announcing that in 300 villages, towns and communities of France there are 550,000 refugees in great need. Of this number 31,000 are in need of money, 41,000 need food, 245,000 need clothing, and 219,000 are in need of general assistance. It was stated which was that pure woolen yarns of good quality, and clothing, old or new, for men, women, children and babies, were the articles most urgently needed.

THIRTY THOUSAND ALIENS REGISTERED

Less Than Two Thousand Interned in Prison Camps of Canada

By a Staff Reporter. OTTAWA, Feb. 10.—The minister of justice informed Mr. Sinclair in the house today that the number of aliens of enemy nationality paroled or interned in Canada since the outbreak of the war was 20,324. Of these 15,429 have been paroled after registration and 1904 have been interned in prison camps. By provinces the registrations are as follows: Quebec, 8845; New Brunswick, 5200; Nova Scotia, 1200; Manitoba, 5521; Saskatchewan, 415; Alberta, 2585; British Columbia, 1510; Yukon, 55. It was stated by the minister of the interior that the amount received by the government for oil leases in Alberta during the years 1913 and 1914 was \$1,465,130. The premier told Sir Wilfrid Laurier that the minister of justice would move for the appointment of a committee to revise the electoral law. BILINGUAL QUESTION IN DOMINION SENATE

Senator McHugh Says Division Among People Must Be Regarded

Canadian Press Despatch. OTTAWA, Feb. 10.—A debate on the school and language question is fore-shadowed in the Canadian Senate. Today Senator Davis, of Montreal, gave notice that on Wednesday next he would, seconded by Senator McHugh, move the following resolution: "Considering that one of the main objects of the establishment of the senate was the protection of minorities, this house, without derogating from the principles of provincial autonomy, cannot but regard the division which seems to exist among the people of the Province of Ontario over the bilingual question and believes that it is in the interest of the Dominion at large that all such questions should be considered on generous and patriotic lines and settled, so as to preserve peace and harmony between the different national and religious sections of this country, in accordance with the views of the fathers of confederation and with the spirit of our constitution." Senator Dorrville introduced a bill designed to require joint stock companies to file lists of their shareholders. Senator Belmont re-introduced his bill designed to prevent the pollution of navigable waters. On motion of Hon. Mr. Loughheed

BUDAPEST MUNICIPALITY BUY HOGS FOR PEOPLE

Canadian Press Despatch. VENICE, Feb. 10, via London, 10.50 p.m.—It is stated that as a result of the high prices of food in Budapest, and in order to protect the public, the municipal authorities of the Hungarian capital have purchased several thousand hogs which will be fattened and killed and the meat sold to the people at the cost price. The Vienna city council is said to be arranging to follow the example of the Budapest authorities.

Speaker Landry and Senators Choquette, Sheehy, Fenner, Gagnon, McKay (Montreal) and Casgrain, were named to represent the senate at the funeral of the late Sir Francois Langlois.

THURSDAY MORNING, FEB. 11

A Genial Visitor

Mr. Taft will always be a welcome visitor in Canada, and he is heartily welcome in Toronto, which appreciates his humanity, and is able to overlook his errors of statesmanship...

He has come over to tell us how to conduct oneself as a president.

It is unfortunate that none of us over here are eligible for the position, or we might take advantage of his suggestions and make an effort to get into line for putting them into practice...

Apart from his special mission, Mr. Taft is a big and big-hearted, friendly person, and he is as well disposed towards us as a neutral can be.

Mr. Taft has said in that letter all that we could desire, and said it with perfect neutrality and regard for international law.

He pointed out to the professor that to interdict the supply of arms to the belligerents would seriously affect the United States should that power ever, as Mr. Taft adroitly puts it, be drawn into a war against our will...

This next discrimination did not appeal to the pro-German professor to whom the letter was addressed, and he suppressed it in his publication...

Another German Blunder

Incredible as it may seem, it is reported that a party existed in France ready to accept peace terms before the end of the war...

But Germany, from accomplishing her purpose, only committed another diplomatic blunder by making it plain what her intentions really were.

Germany's vast ambition overleaped itself. It disclosed its object too soon, and with a brutal frankness that was in itself the most distinct of warnings.

NO MORE GOLDEN EGGS FOR BILL

Britain's Food Supply. Much concern is expressed in Great Britain over the constant increase in food prices since the war began.

It is of less importance that the regulation of the intermediaries engaged in the transportation and distribution of food.

Immediately upon the declaration of war the British Government commandeered many vessels for the transport of troops and war material of all kinds.

They included quite a number of the faster ships engaged in bringing "perishables" to British ports.

Hence the demand for government control of freight rates. It is met with the reply that any attempt to do this would simply result in the shipowner diverting his ships to neutral ports.

That does not appear to be a formidable obstacle, and were it really presented the government still has the power to take over whatever boats are necessary to maintain the national food supply at reasonable prices.

FAIRBROTHER AN ALIEN?

Editor World: I note enclosed statement concerning your husband's name, nationality case and decision of A. J. Russell Snow, K.C., that he is to be regarded as a German.

Aside from this particular question of refining and controlling the nickel in Canada, I think the most important question today regarding companies, is this law which allows outside holding charters in a foreign country.

Being a broken as you know, I have had some experience of this matter, and upon several occasions upon making certain enquiries from a Maine corporation, which is a holding company.

My son has lived in Germany all his life up to date, and to demonstrate the thorough organization of municipal and state registration laws of the country, on the breaking of war between the two countries, he was arrested immediately and incarcerated in the common jail of his city for 88 days.

I would name other English families living in Germany for three or four generations, who are today British subjects.

THE CANADIAN WAR

Considerable success has attended the issue of "The Canadian War" which has reached its seventh number.

Without proof to the contrary, thru my own experience and that of others similarly situated, I am sure that England is the only country that recognizes and upholds the rights and claims of subjects during unlimited descent of generations.

Dovercourt Barons will hold a burlesque hockey match Thursday night at 7:30 at Clinton street rink. Bring a broom.

Patent Valve Non-refillable

**What Whisky Connoisseurs Want**

is a bottle that is "easy" to empty—and hard to refill.

The new patent "non-fill-again" bottle in which White Horse Scotch is served can't add to the perfection of its quality—but it does guard that quality against substitution.

The house that serves you White Horse in the new bottle is a good house to patronize—because it never serves you anything but White Horse out of a bottle-bearing our label.

#### NORWAY BOWLING CLUB BANQUET.

Norway Bowling Club held their annual banquet in St. John's parish hall, Woodbine avenue, on Tuesday evening. Sixty covers were laid and a fine program followed. The chairman, Jas. W. Atherton, president of the club, made the visiting representatives of the various clubs vary much at home in a very able manner. Toasts were responded to by the following enthusiastic followers of this grand game: Rev. W. J. Baynes-Road, A.M., Robbins, J. A. Macdonald, K.C., J. A. Carscadden, Alex. M. Strotton, Chas. D. Lannox. Prizes were also presented to Harold Hird, winner of the singles, and Alex. M. Strotton and Wm. Coates, winners of the doubles. Messrs. Fred Hamer, Ed. Griffiths and H. S. South provided the music. One of the amusing features of the event was the presentation to Robt. Smith, one of the popular members, of an Iron Cross.

#### S.O.S. RESUME TRAINING.

Sons of Scotland F.C. will resume training in Rhodes Avenue Presbyterian Church on Thursday, Feb. 11. All last season's players are requested to be present. Any new players wishing to join this all-Scottish club should write John Lindsay, secretary, 37 Strathcona avenue.

#### BIO ENTRY FOR THE SWIMMING CHAMPIONSHIPS.

The entries for the Ontario Y.M.C.A. swimming championships at Central Y.M.C.A. on Saturday close today, and already a record entry list had been received, swimmers representing Buffalo, Brantford and Varsity having entered, as well as Central's best. The reserved seat section is all but sold out and present indications point to a record crowd.

Preud to Tell About It.

Men who would not wear ordinary ready-made clothing on a gift will probably tell you that they always wear Semi-ready tailoring. There's only one genuine "Semi-ready" and the hand-tailored garments being offered below the cost of the cloth in them are absolutely good—not a hair nor fault in them," said the manager of the Semi-ready Store at 142 Yonge street. "I challenge any merchant tailor to produce as fine tailoring."

3.95 Four Big Bargains in Women's and Misses' Winter Suits 2.95 Isn't This a Godsend?

We'll get some winter yet, all right. A year ago today it was nineteen below zero here in Toronto! However, we make you very short prices on these suits, for the short season you may have to wear them. They're not extreme styles, might be all right next season, but the policy of this Store is quick clearance every season, so here goes a lot of Women's Suits, with the marked prices ranging from

Thirteen to Twenty-five Dollars

No suit in the lot will cost you more than \$4.95, and you may choose a beauty for \$1.95. In the olden days, when our familiar pious ancestors could not account for a piece of great good fortune, they called it a GODESEND. You can't understand our selling these high-class suits for so little money. Don't let that prevent your getting one. Call it a Godsend if you like, and be here at near 8.30 as possible.

Lot No. 1 Consisting of serge, tweeds and fancy weaves. Colors navy, black, gray, brown, tan and black and white; styles are Norfolk, cutaway and plain tailored. Skirts quite wide; some with pleats. These suits were formerly priced \$13 to \$15. Friday at 1.95. Sizes 34 to 40.

1.95 Women's, sizes 32 to 38. Misses', 16, 18 and 20 years.
