Move to Dethrone Levee Defeated by Vote of 9 to 5

While Admitting Chairman Had Shown Bad Judgment, Majority of Trustees Held That His Years of Service Should Be Considered—Love Feast Followed Rejection of Resolution.

L. S. Levee will continue to sit as chairman of the board of education, and, in so doing, he will not be forced to defy the wishes of a majority of the board, which last night, by a vote of 9 to 5, rejected Trustee Fairbairn's resolution calling upon the chairman to vacate the office.

The result of the test of strength was a surprise. The issue as it appeared to the public was whether Mr. Levee would decline to accept the board's suggestion that he retire. That the motion itself would be voted down, was an unlooked-for event.

The Fairbairn Resolution. The Levee problem was tackled early. Secretary Wilkinson had scarcely read the final amen of the prayers before the desire of many hearts present was consummated and Trustee Fairbairn moved the following resolution, which was seconded by Trustee Noble:

"Whereas this board did unanimously pass a resolution asking the city council to refer certain charges made by the Toronto Saturday Night against the chairman of this board, to the county judge of the County of York;

"And whereas the resolution reads: That if these charges are true, the member so charged is not a proper person to be a representative on this board, and whereas such charges are a decided reflection on the honor of this board;

"And, as the chairman publicly thanked the mover of this resolution, thereby consenting to the motion, and whereas the judge has given his decision that these charges have been proved, and whereas the chairman, when already acquitted by the court, has publicly stated that he would not resign the chairmanship of this board, and further did publicly state that he would not resign the chairmanship, even if the entire board voted for such a resolution.

"Therefore, it resolved: That this board be placed on record as opposed to this action on the part of the chairman, and in the view of our former resolution, and of the judge's decision, we hereby request the chairman to tender his resignation, and vacate the chair."

And then the board began cautiously—very much so it seemed—to tell the old chairman what they thought, and did not think of his action in re Psyche.

Denied Personal Feeling. Trustee Fairbairn, speaking to the motion, said: "I have not been asked for legal opinion on this matter and have learned that the chairman cannot be ousted on this account, at the same time in this matter in one way or another. And this opinion should have regard to the previous action of the chairman, and also to his refusal to vacate the chairmanship. I have no personal feeling in this matter. I deal with it entirely as one of great public interest. I do believe that the chairman was and is thoroughly convinced in his own mind of the correctness of his attitude in retaining his position as chairman. That, in my opinion, makes the position worse and more dangerous still."

Trustee Conboy: I intend to vote against the resolution introduced by Trustee Fairbairn. While I believe a great mistake for Mr. Levee to allow school teachers to be canvassed by his agents still I by no means regard it as at all a crime. Enough has already been said about this matter, quite enough has been done. Let us not forget that the chairman has a long, useful and honorable record as a member of this board. In my opinion it should be recognized in a more fitting manner.

Trustee Lewis: I am sorry that the chairman didn't at first see fit to resign the chairmanship. I believe, however, that the results of the recent investigation, I cannot see how any member of this board can justify himself in refusing to vote for the resolution.

Opposed to Vote. Trustee Hiltz wished he were in Quebec fishing. He had to confess that this was the first occasion on which he had ever dreaded to vote since becoming a member of the board. "Let us not forget," said Trustee Hiltz, "that Chairman Levee has behind him a record of 11 years as a member of the board, during which time he has proven himself most fearless in the discharge of his duties. I believe that we have had a very good chairman in that, in the face of the findings of the Judge, in the interest of the people and of Trustee Levee himself, the only wise and politic thing for the chairman to do is to resign. For his own sake he should say 'Here is the chair—I resign it with pleasure.'"

Offense Not Heinous. Trustee McEwen expressed himself utterly opposed to the action of the chairman regarding the canvassing of teachers. Yet, for all that he did not regard the offense as such a very great one. In view of the storm of comment and condemnation that had been provoked the mistake was not likely to be repeated.

Trustee Mack: I will vote against the resolution, but will certainly not condone the offense that called it forth. Our solicitor declares that no crime has been committed and that the chair-

FEARS BEING DRAGGED INTO BRITAIN'S WARS

Sir Wilfrid Laurier Says Treaties Other Than Commercial Should Be Left to Discretion of Imperial Government—Colonies Will Be Consulted Before Next Hague Conference, Says Sir Edward Grey.

(Canadian Associated Press Cable).

LONDON, June 1.—The imperial conference Premier Fisher moved a resolution regretting that the dominions were not consulted prior to the acceptance of the terms of the declaration of London, that it was undesirable for Great Britain to adopt the incidental fact that large part of the trade of the empire was in these articles, that it was undesirable for Great Britain to adopt the provisions of the neutral vessels.

He attached the most importance to the first part of the resolution, being the fact that the dominions were not consulted in regard to matters which might result in war, it would imply the necessity that there is no take part in the war. He thought on the whole it would be better to leave the matter entirely to the discretion of the home government. The declaration itself was an immense step in advance. It was the first step towards arbitration between nations, which Canada entirely favored.

A Dangerous Principle. LONDON, June 1.—(C. A. P. cable.)—The Morning Post says that Laurier, in favoring the declaration of London as a step in the right direction of abolishing navies by substituting arbitration, does not seem to realize that in any case the international prize court, which caught his fancy only comes into operation after acts of war are over, not before war is declared.

The London Express says that Laurier's argument that the home government should never be bettered by the necessities of the empire is very dangerous as an imperial principle. It spells disintegration, not federation.

government if it had to consult the dominions. If a dominion insisted on being consulted in regard to matters which might result in war, it would imply the necessity that there is no take part in the war. He thought on the whole it would be better to leave the matter entirely to the discretion of the home government. The declaration itself was an immense step in advance. TAXI DRIVER NOT TO BLAME

Coroner's Jury Exonerates George Ratcliffe for James Bell's Death.

"We, the jury, find that James Bell came to his death from shock and internal injuries due to his being run over by a taxicab. From the evidence given we find that there is no blame attached to the driver."

FIRE A MILE WIDE

Raging Thru Section of British Columbia, Near Arrowhead.

NELSON, B. C., June 1.—Word has just been received from Arrowhead, C. 150 miles north of the city, that a fire, one mile in width, that started early to-day and is at present raging thru that section. Fifty fire fighters from Arrowhead have been fighting the flames the greater part of the day, but are unable to cope with the situation and assistance has been asked for from Revelstoke and surrounding towns.

A NEW BANKING COMBINATION.

Do not be surprised if a new big banking combination does not arise out of the Canada Life affair of yesterday.

Who Wore This Suit?

Detective Plunk has got the goods on Arthur Robideau. The goods consist of a tweed suit, stolen from Percy W. Loree, 203 Jarvis-street, and sold by Robideau. The suit also another suit, which Robideau is said to have sold. It is a dress suit made by Adler, Johannesburg, South Africa. Detective Plunk is anxious to hear from the owner of the traveled clothing.

Climax of Split Between Cox and Walker Interests

Hon. J. M. Gibson, Senator Lougheed, Duncan Coulson and Robert Bickerdike, M. P., Fill Four Vacancies on Canada Life Directorate—How Factions Were Gradually Developed.

An important change has taken place in the board of the Canada Life Assurance Company. Mr. Z. A. Lash, K.C., Sir Edmund Walker, Mr. H. B. Walker, Hon. Wm. Gibson, and Mr. Chas. Chaput have resigned, and the following gentlemen have been elected: Hon. J. M. Gibson, lieutenant-governor of Ontario; Hon. Senator Lougheed of Calgary; Mr. Duncan Coulson, president of the Bank of Toronto, and Mr. Robert Bickerdike, M.P., of Montreal, vice-president of the Banque d'Hochelega.

The resignation of the directors mentioned followed on the Canadian Life Assurance Company. The board is now constituted as follows: Hon. George A. Cox, president; Mr. J. H. Plummer, vice-president; Hon. J. M. Gibson, lieutenant-governor of Ontario; Hon. Senator Lougheed of Calgary; Mr. Duncan Coulson, president of the Bank of Toronto; Edward W. Cox, general manager; Hon. J. M. Gibson, lieutenant-governor of Ontario; Hon. Senator Lougheed of Calgary; Mr. Duncan Coulson, president of the Bank of Toronto; and Mr. Robert Jaffray, secretary.

Imposing Display of Naval Strength

LONDON, June 1.—The admiralty has issued an official dispatch of the formation of the fleet at Spithead on June 24. Within the position covering eight square miles will be gathered the British warships and about sixty ocean liners and yachts.

The British vessels will be assembled in five long lines, the foreign vessels forming the sixth line. Beyond the limits of the official review ground will be anchored hundreds of other yachts, merchant ships, and pleasure steamers, forming an imposing display of British shipping.

INJURED AVIATOR CONTINUED FLIGHT

The Suffering Pluckily, Stuck to It and Reached Rome—Beaumont Ready for Last Stage.

ROME, June 1.—Andre Beaumont and Roland Garros, the two aviators who have fought each other every mile of the way for supremacy in the great Paris-Rome-Turin race are to-night in the Italian capital. The other competitors have met with mishap after mishap, and some of them are still far back in France.

Beaumont, who arrived here yesterday, is resting preparatory to essaying the third and last stage, from Rome to Turin, a distance of 200 miles. Garros, who is in bad physical shape, the wrecking of his aeroplane near Pisa yesterday, resulted in quite serious injuries to the aviator, but at 10 o'clock this morning he pluckily clambered into the seat of the new machine and swept away along the Mediterranean coast at high speed. A great crowd had gathered to witness his coming, but Garros almost collapsed when he landed. He said that he felt very ill, and he hardly walks.

Beaumont, who is suffering greatly from his fall. His right shoulder had been injured and the hurt was aggravated by the exertions of today's flight. It was apparent that he was suffering acutely.

Beaumont, hearing of his arrival, rushed to greet him. The vast crowd burst into cheers when the two friends appeared on the balcony grasping hands. It is probable that Beaumont will start on the last leg of the journey before Garros, who, if he continues to-morrow, will do so only by reason of sheer grit.

Frej, the German representative, who also was injured by his aeroplane near Pisa, is still awaiting a new machine before starting from that place.

Vidar succeeded in making an excellent flight from Nice to Genoa in a little more than three hours. He seemed in a fair way to reach the capital, but was compelled to land at Ceppo, about 35 miles beyond Pisa, on account of motor trouble. In making the ground, the loss of his aeroplane was not hurt. He hopes to make repairs so that he can start to-morrow morning.

Kimmerling, who has a long list of misfortunes to his score, left Brignole for Nice this evening, but almost immediately collided with a tree. His machine was damaged and Kimmerling, discouraged at the run of ill-luck, said that if he met with another mishap to-morrow he would abandon the race.

Bathiat arrived to-night at Lyons, having been delayed by another breakdown.

A BOOM YEAR.

Now it begins to look as if this year 1911 is to be Canada's greatest boom year.

Business is remarkably good all over, and the Canadian wheat is likely to have an output of two hundred million bushels of wheat—almost double of any previous year. It will keep the three railways busy to handle it.

The Canadian banks will all have to double their capital, and the Canadian cities and towns are going ahead in a remarkable way. The farmer will have plenty of money to meet his obligations.

Even the United States may have a year of material prosperity, in spite of the political uncertainty. The Toronto may be carried off her feet with the rush of business.

TRIMMED AND WHISKERS WILD.

Senator Cox always has his whiskers neatly trimmed; Sir Edmund Walker never has his. Mr. Lash is also a man with a beard that needs more attention. E. R. Wood takes after the Senator.

MORE DEMOCRACY.

Not so many years ago only an aristocrat or an associate of aristocracy could win the Derby. Now a Hebrew diamond millionaire wins a couple of years after the success of the Tankee Irishman, Richard Croker, who carried it off with Orby. The house of lords will receive a large injection of democracy in the same way.

ST. BASS AND SIR JAMES.

The two most prominent and popular sons of Ontario to-day are the man who left Toronto last night for the coronation and the good horse St. Bass, that ought to improve his record of last week in Toronto at the meet in Montreal, beginning on Saturday.

MAY A PROBATIONER SOLEMNIZE MARRIAGE?

Important Question Raised in London Conference—Difference of Opinion Exists.

STRATFORD, Ont., June 1.—The question of the right of a specially ordained probationer to solemnize marriage, was up before the London conference again to-day, when the name of R. E. Laskin of Walton was proposed for special ordination.

"I would ask if this includes the right to marry persons," said Mr. Douglas of Goderich.

"That is a matter of just a little doubt and I think it would be well for our men to be cautious," answered Acting President Ford.

Rev. A. R. Kellam of Putnam thought the conference should give a decision.

Rev. Walter Rigby, St. Clair, read from the discipline of the church regarding and held that this made clear that a specially ordained man was given the power.

The whole thing depends upon the meaning of election to conference," said Rev. A. K. Bird. "It is not a matter of laying on of hands alone. Until you vote a man a member of the conference he is not a regular minister and he has no power to solemnize marriage."

Rev. Stephen Bond of Toronto disputed this, holding that an ordained man was a minister, whether received into a conference or not.

Rev. F. E. Macott of London pointed out that the Latter Day Saints allowed local preachers, men of neither education nor training, to solemnize marriages and they were apparently legal. The Methodist Council would settle itself if it did not give this right to its specially ordained men.

"It is not necessary to decide this now. We can decide it some other way," said Chairman Ford.

"How can it be settled any other way?" asked Rev. W. H. Graham of Stratford. "Either this conference must settle it or it will have to be taken to the courts as a stated case to be decided."

"The general conference should certainly make this point clear," said Mr. Ford, and the matter was dropped. Principal Warner of St. Thomas was elected president on the second ballot. J. E. J. Millard of Hensall was elected secretary on the first ballot.

HEAVY SUCCESSION DUTIES.

May succession duties totaled \$86,249.70. A year ago the May duties were but \$26,385.33. The succession duties received by the Ontario Government, since Oct. 29, are \$210,557.36. For the same period last year, they were \$221,180.56. Dr. Andrew Smith's estate paid \$33,443.55.

INCENDIARIES IN VANCOUVER

Labor Trouble Blamed by Contractors for Fires.

VANCOUVER, June 1.—Three houses within three blocks of each other in South Vancouver were burned this morning by incendiaries. There is no doubt of evidence of the fires having been thus started. Contractors declare that they know of no reason why the places should have been burned. Non-union workmen were employed erecting the buildings, which had just been completed. The suggestion is advanced by non-unionists that the present labor fight is responsible for the firebrands' operations.

SHOT HER ACCIDENTALLY

Mrs. J. B. Phillips Will Make Plea for Husband.

J. B. Phillips, the St. George-st. civil engineer, charged with shooting with intent to kill his wife on the night of May 24, was arraigned in police court yesterday morning. He was remanded a week without plea or election.

T. C. Robins, K.C., counsel for the accused, says that his wife, who is slowly recovering from the effects of her wound, will take the stand in her husband's defence to swear that he did not intend to shoot her, but had the revolver in his hand and was startled so that his elbow struck against a door and exploded the cartridge in the revolver. Seeing that he

had so accidentally shot her, the wife says that he then turned the revolver against himself and inflicted his own wounds.

ADVISES BOYS TO WRESTLE

Strong Man With Howe's Circus on Physical Training.

He is stopping at one of the leading city hotels, resting from a recent slight accident. He is a circus man—one of the scores of stars carried by Howe's Great London Circus, which will appear in Toronto, Monday, June 5. A circus man and yet he doesn't talk "shop"; he talks sense. Young men in general, and high school boys in particular, listen to what this circus strong man has to say with reference to physical culture and the art of wrestling.

"It seems a pity that so many athletes ignore wrestling. The art is so old that nobody knows when, or where, or how it had its genesis.

"If the public schools, particularly the high schools everywhere, would include wrestling in their curriculums, there can be no doubt that such a course would go far toward raising a standard of physique and health in future generations. The splendid general health and admirable physical development of the Japanese, who have for centuries practiced a system of exercise, the chief form of which has been wrestling, was brought prominently in the eye of the world during the recent war with Russia and speaks volumes in eloquent praise of the noble art of wrestling.

"Yes, youth and young men ought to lay as much stress upon the development of the body as upon that of the mind. It is always saddening to look at a brilliant intellect housed in a withered and emaciated body; for we know that no matter how favorable the conditions, that body must die long before it ought to; and that therefore that bright mind can never contribute its proper quota towards the enlightenment of the world or the betterment of mankind. When life ceases in the underdeveloped form of clay, it ceases untimely and is pathetically incomplete.

"And so, all young men ought to develop the body. And, inasmuch as wrestling is unquestionably the best method for such development, it should be given both precedence and preference over all other forms of athletics. Tell the boys to wrestle."

JUNE BRIDES WERE MANY

Cupid Was in Ascendant at Union Station Yesterday.

The Union Station was yesterday the scene of several newly wed couples departing on their honeymoon.

The gatemen were besieged all afternoon and evening by bridesmaids, friends and relatives of departing couples. They were overflowing with nice words and in every case melted the heart of the official and thru the gate they flew to introduce the different couples to the other passengers, much to the delight of the on-lookers. The pavement was literally covered with confetti from 3 o'clock in the afternoon until after ten at night.

TAROLEMA CURES ECZEMA

Psoriasis, Barber's Itch and all Cerm Skin Diseases

TAROLEMA contains the combined oils of Coal-Tar, extracted from crude Coal-Tar by a special process, without distillation. The main feature in connection with this preparation is that quality and not quantity is the prime factor in its efficacy as a healing agent. Applied every other day, using very little of the ointment each time, the most deep-seated Eczemas usually disappear in from two to three weeks.

TAROLEMA ALSO CURES ITCHING PILES.

As a treatment for Itching Piles it is unsurpassed, the relief with the first application being almost instantaneous; after the second or third application the irritation entirely ceases.

For sale at Drug-gists, 50 cents per pot, or direct from the Manufacturers, THE CARBON OIL WORKS, Limited, 118 Sherbourne Street.

Just Turn the Faucet

and enjoy an inexhaustible supply of hot water. The **RUUD AUTOMATIC GAS WATER-HEATER** is different—essentially better than all other water heaters. The difference is a pronounced betterment in hot-water service. Imagine for a minute an ideal hot-water service. Wouldn't it begin and end at the faucet?

The "Ruud" Automatic Gas Water Heater

has done just this. It has reduced the hot-water problem to a turn of the faucet—it's as easy to get scalding hot-water now as cold water—you don't even need a match. The Ruud differs from ordinary water-heaters in efficiency. It is independent of the kitchen range—a luxury in summer time—stands in your basement—self-operating and safe. Baseball Toronto 10 Rochester 2 Polo Defenders Trotting And Pacing Win First At Dufferin

Note and Comment

The time for the miles made respectably by the Dufferin Trotting Club yesterday at the Dufferin Driving Club's track is worthy of note.

The baseball champions never looked dangerous in the opening game of the season at Hamilton's Point, and in fact appear less formidable than they were.

No. 2 of the Canadian Cricketer has more than one admirer, and the publishers are more than satisfied with the results achieved on nearly every issue.

At Brighton, England, on May 21, the cricket match between Sussex and Nottingham ended after a splendid struggle.

Score records, Lloyd's Weekly, points out are apt to be somewhat deceptive, and the performances achieved on nearly every issue would be quite impossible of accomplishment on larger enclosures.

TWO HOMERS FOR JORDAN LEAFS WON THE FIRST

Johnny Lush Pitched a Great Game and Aided With the Bat—Leafs Were Much the Best.

Toronto and Rochester met yesterday at the island for the first time this season, and the Leafs were returned the easiest kind of winners by 10 to 2.

There were many plays of brilliant fielding during the contest, but none outshone the consistently clever pitcher, Lush.

Rochester started well, getting a run in the first inning. Moran and Miller both secured well-placed singles, and were advanced by Simmons's sacrifice.

The Toronto World

FOUNDED 1830. A Morning Newspaper published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond streets. TELEPHONE CALLS: Main 505-Private Exchange Connecting All Departments. \$2.00

FRIDAY MORNING, JUNE 2, 1911

NO DISTRICT DISCRIMINATION.

It is scarcely fair of the assessment commission to discriminate against one district or another when a general plan of annexation is being developed. The suggestion that the Swansea district is "a nasty one to handle," or that "the city is not going to get much out of it," is entirely beside the mark.

Toronto should take the fat and the lean together in the territory that must evidently come within the municipal jurisdiction. Everything south of Eglinton-ave. between the Humber and the Scarborough township line must eventually be absorbed. Immediate territorial jurisdiction would help to solve in advance many of the problems that must arise in the portion of this area now outside the city.

There ought to be a little more team play in the city hall. The tendency of the various departments to have individual and inharmonious policies is not profitable for the city. The board of control is understood to be in sympathy with the Guild of Civic Art proposals, and the parks department is favorably disposed towards the boulevard scheme. If the assessment department is to upset the policy of other departments, then the sooner there is a central authority to align the several departments, the better.

GILBERTIAN HUMOR AND WIT.

Much is being said about "Gilbertian humor," in connection with the death of Sir William Schwenck Gilbert of "H. M. S. Pinafore," "Patience" and "Mikado" fame. The "Bab" ballads laid the foundation for the Gilbert tradition when the author was a briefless barrister. His drawings attracted as much attention by their quaintness as his verses by their peculiar humor.

But one does not find a word about the source of Gilbert's peculiar topsyturvy humor. He came by it honestly, and naturally, having inherited it from his father, William Gilbert, a writer who should not be forgotten. A very good example of his whimsical humor is to be found in "King George's Middy," which first appeared in "Good Words for the Young," forty years ago. The illustrations to the tale were by "Bab" himself.

"DRAPING THE CHARTER."

Friendly societies have a custom of "draping the charter" when any member passes away "from this darkness to that light." As a result, in society lodges with a large membership the charter is always draped. In any of the society lodge rooms there are always half a dozen of the charters on the walls enveloped in crepe. Is it not time that this custom was abolished? It ceases to be a compliment when the crepe hangs there without intermission. The trappings and habiliments of woe are a little overdue.

GERMAN COLONIZATION.

Germany's remarkable industrial expansion consequent on her adoption of a protective policy and her progress along other lines of national activity, by providing openings for her increasing army of workers, has caused a marked decrease in the volume of emigration. With a population now esti-

mated at about 65,000,000, its density is 290.4 persons to the square mile, as compared with 241 persons to the square mile in the United Kingdom, 288 in Belgium and 109 in Holland. Germany is therefore considerably less densely populated all over than her two small western neighbors, although in certain areas they are exceeded, and room can still be found for at least a half more persons than are now found in the fatherland. Nevertheless, the problem of colonial expansion under the German flag has already arisen and must ultimately be solved.

In an editorial last week The World commented on the reasonableness of this ambition. Germany came late into the colonization field and on her arrival found that all the more desirable locations in the new world had already been pre-empted or access to them prohibited. Such opportunities as were available were accepted, but out of the million or so square miles of Germany's overseas possessions—mostly in East and Southwest Africa—only portions of the latter are fitted to become the home of a European race. This particular colony is further handicapped by the lack of harbor accommodation, the only advantageous seaport belonging to the British crown. Germany's aspirations, therefore, are little likely to be satisfied if her colonial expansion is restricted to the colonies now flying her flag. Sooner or later they will come into conflict with the present owners, and the question is, where will the outlet be found?

The German Government has a natural objection to its citizens emigrating to foreign lands and assisting to build up states that will ultimately become its industrial and commercial competitors. Brazil and Argentina, both contain a large German element, the former especially, where many districts are German in language and customs. But for the barrier presented by the Monroe doctrine there is little doubt that German influence would have become predominant and might ere now have led to active interference with its existing form of government. The only other available field for the establishment of German colonies is Asia Minor, and it is common knowledge that the German Government have for some time been claiming and exerting an increasing measure of control. Germany cannot forever be circumscribed in her colonial ambitions, and how these can be satisfied is the main question British statesmen have to answer.

CLIMAX OF SPLIT BETWEEN COX AND WALKER INTERESTS

Continued From Page 1.

Chaput, Hon. William Gibson is supposed to be en route to the coronation. All of these gentlemen, who could be reached, denied the existence of any personal or political feeling. Mr. E. R. Wood is taking a ten days' sabbat at Atlantic City. Those who attended the meeting were: Hon. Geo. A. Cox, E. W. Cox, Hon. Robert Jaffray, A. Brown (Hamilton), A. Bruce, K.C., Toronto.

A well-known business man who has an intimate knowledge of all the parties talked as follows last night: "Once Byron E. Walker, now Sir Edmund, and Senator George A. Cox were great friends and worked together in many things, but especially in connection with the Bank of Commerce and the Canada Life Assurance Company, which some years ago passed into the control of the senator. But for a reason which has never yet been divulged, some kind of a breach occurred, the net result of which was that the senator ceased to be president of the bank of Commerce and Mr. Walker, who was the general manager, became president as well; or, to use the words of the street, the Walker interests put the senator out of control of the bank as far as being president was concerned. Not long ago Mr. Walker was made a knight and the senator who had long been named by the public for such recognition, was passed by."

"And whatever was the cause of divergence then still continues, with the latter result that the Walker element on the board of the Canada Life have withdrawn and have given as an excuse the determination of the senator and his friends to maintain Mr. E. W. Cox as the sole manager of the company. "Breath Widened. "It will be noticed that this antagonism, in so far as it is active, comes from the Walker side, namely, they displaced the senator in the management of the Canada Life. Another marked divergence is that Sir Edmund Walker and Mr. Laan were very strong in their pronouncement against reciprocity, whilst the senator remains an ardent friend of Sir Wilfrid Laurier and of that scheme. And as a matter of fact, two days after the well-known manifesto of Sir Edmund and his friends was printed, the senator came out with a special manifesto practically an answer to that of his former associates. "How far this antagonism extends in the number of associated companies in which both parties are interested, no one can say at the present moment. It may be very significant or it may blow over with the present incident. There are those who predict that still other surprises are in store for the public. "It is not likely that there are to be any immediate changes in the insurance world or anything in the nature of a merger, the retirement of Mr. Bradshaw from the Imperial Life is still unexplained. "Another feature of the insurance situation is that the Sun Life of Montreal purposes coming to Toronto for a more aggressive campaign and it is almost certain that it is this company which has purchased the Catto building in King-street, and that it will soon erect a fine office structure on that site."

AT OSGOODE HALL ANNOUNCEMENTS.

June 1, 1911. Judge's chambers will be held on Friday, June 2, at 11 a.m.

Masters' Chambers. Before Caldwell, K.C. Master. Langdon v. The Molsons Bank—E. C. Cattanech for defendants J. Parker for plaintiff. Motion by defendants for order for security for costs. Judgment: Having read the material it would seem that the motion was prima facie justified. The affidavits in answer as to the conversation and the plaintiff's own affidavit that he is only temporarily in Saskatchewan and that Windsor is his permanent place of residence, bring the case within O'Brien v. M.C.R. Motion dismissed, with costs in the cause.

Smith v. Dingman—J. A. Macintosh for plaintiff. G. Gray for defendant. Motion by plaintiff under C. R. 602 for judgment. Enlarged until June 5. Boyd v. Richards—A. M. Boyd for plaintiff. J. E. Parsons for defendant. Motion by plaintiff for an order giving leave to add one Adolphus T. Tucker as party plaintiff. Order made on filing Tucker's consent. Costs to defendant in any event. Service of amended writ dispensed with. Statement of claim to be delivered in a week.

Boyle v. McCabe—C. Kappel for plaintiff. R. G. Smyth for defendant. Motion by plaintiff for an order for commission to take evidence in San Francisco and to take evidence on appeal by defendant from order refusing order for security for costs. Nolan v. Bank of Nova Scotia—McDougal v. Nolan. H. Spence for bank. W. H. McGuire for plaintiff in second action. A. E. Knox for Nolan. Motion by the bank for leave to pay into court \$2500 and to stay of the first action. Order made staying the first action until determination of security for breach of agreement. The hands of the bank meantime. Costs reserved.

Thomson v. McGivern—J. H. Spence for defendant. E. C. Cattanech for plaintiff. Motion by defendant for an order staying action until personal representative of Thomas H. Stinson, deceased, is added as party. Resisted.

Adams v. Chapin—F. Aylesworth for plaintiff. J. H. Spence for defendant. Motion by plaintiff for an order for a commission to take evidence at Bangor, Maine. Motion enlarged until June 5.

Vokes v. Priest—Fleming (Mulock & Co.) for plaintiff. Motion by plaintiff for leave to add one C. B. Williams as a party defendant. Order made.

Single Court. Before Teetzel, J. Leslie v. Hill—N. B. Gash, K.C., for plaintiff. Motion by plaintiff for an injunction. By arrangement between counsel motion stands for trial.

Leblanc v. Leblanc—R. W. Hart for plaintiff. No one contra. Motion by plaintiff for judgment pursuant to terms of report. Judgment for plaintiff for \$2500 and costs. Costs to defendant. Found due by report of His Honor Judge Vallin.

Trial. Before Falconbridge, C.J. Beath v. Townsend—R. R. McKesock, K.C., and J. S. McKesock (Sudbury) for plaintiff. W. R. Wadsworth for defendant. An action by plaintiff, vice-president and director of the Golden Rose Mining Co., to recover from defendant, president and director of the company, \$10,000 shares of stock in said company and \$375 of moneys claimed as due from defendant to him. Judgment: The preponderance of evidence in plaintiff's favor is overwhelming and plaintiff must have judgment for 900 shares of defendant's stock in the Golden Rose Mining Co. (The claim for \$375 has been settled and I do not find plaintiff entitled in this action to any sum in respect of the brick of gold extracted from the mill runs), with full costs. Twenty days' stay.

Black v. Townsend—R. R. McKesock, K.C., for plaintiff. W. R. Wadsworth for defendant. An action to recover \$3019.20 for moneys and expenses of plaintiff, paid and made at defendant's request, for \$20,000, for breach of contract. An injunction, as provided in the judgment, is granted. There will be judgment for plaintiff with costs and reference to the master to find and report as to moneys paid and expenses incurred under paragraphs 5 and 6 of statement of claim, as to moneys lent, as to claim for camp tools, etc., as to damages for breach of agreement, etc. F. D. and costs reserved. Twenty days' stay.

JEWISH FESTIVAL TO-DAY.

At daybreak this morning commenced one of the greatest festivals of the Jewish Church, when all the Jews throughout the world celebrated the anniversary of the presentation of the law to Moses upon Mount Sinai, 3220 years ago. At the services in the synagogues of the city special music will be sung and sermons relevant to the occasion will be preached. The synagogues will also be profusely decorated with flowers and the ten commandments will be read from the scrolls of the law.

THE SMALL DEPOSITOR

is more and more appreciating not only the convenience, but the advantages of a deposit account against which he may issue cheques. He has found that it is not a certain individual, but a firm, no one knowing how much may stand behind it. Again, it is a salary, or a pension, or personal expenditures, besides incidentally exposing their aggregate. The spending impulse is sometimes chilled by noting the contemplated purchase in black and white, and the many who bring a new job in making the balance grow, an incentive to their untold before.

EXPECT A LANDSLIDE. Conservatives Confident of Victory in Nova Scotia Elections.

OTTAWA, June 1.—(Special.)—With the provincial elections in Nova Scotia only two weeks off, most encouraging reports are coming in to opposition headquarters here on the chances of a Conservative victory. Word arrived to-day that a landslide was quite probable in favor of the anti-government candidates. The Island of Cape Breton is expected to return a solid Conservative representation to the new legislature, and from all parts of the province word is being sent that, if only the vote can be got out the Murray administration is doomed. It is significant that the Nova Scotia government has avoided the question of an issue in the campaign and the feat is to be lost or won on the sole question of the administration record of the government.

HONOR FOR ED. BAYLY. He is President of New Civil Service Association.

Ed. Bayly of the attorney-general's department was yesterday afternoon elected as the first president of "The Civil Service Association of Ontario." The members of the inside service, including Osgoode Hall, held their adjourned organization meeting in the main corridor in front of the entrance to the chamber. Scores of claims were placed there from the various departments. C. C. James, deputy minister of agriculture, who had acted as chairman of the provisional committee, presided. Addresses in what the association could do in the interests of the service along social and literary, athletic and business lines were given by various representative members, and a constitution adopted. The association elected a president as named, and the following additional officers: Vice-president, T. W. Gibson; sec.-treas., Gordon A. Brown; philas., E. Harley, J. A. C. Cameron, W. T. Vall, E. R. Rogers and C. C. James.

CONGREGATIONALISM GROWS

Churches in Canada Increased by Thirty-three in Five Years.

Congregationalism is growing in Canada. At the annual meeting of the Canadian Congregational Union of Canada, speaking at Olivet Church last night, gave an inspiring report at the 25th anniversary meeting of the Woman's Mission Board.

Addresses of Welcome were made by

Rev. Dr. Margaret, chairman; Rev. Dr. Schofield, and Rev. D. Braithwaite.

Mrs. Amy E. McGowan, Stratford, who will go to Japan as a missionary. In October, gave an earnest address on "The Call to Service." She rejoiced that the number of volunteers for the foreign field was increasing. Volunteers only, not conscripts, were quoted for mission work, and as the needs of this world were made known, the army of volunteers splendidly increased.

FOREIGN QUARTER BOGEY TO HAPLESS CENSUS MAN

Fearful of Tax Impositions, Many Were Exceedingly Coy—Jewish Birthdays Complicate Troubles.

The first day of the census enumerators' task is over. It was a weary and tiresome job, according to some of them. They met with scores of difficulties and troubles in general, which they had not so much as dreamed of before.

Those having the good fortune to be assigned to a locality in which the people spoke English returned with a smile, but the poor fellow who labored from early morn till late in the evening trying to extract statistics from foreign "in the ward" had an entirely different task and one which could not really be considered congenial to a man with even a good temper.

The foreign element quaked in their boots when they saw the huge sheets of paper under the enumerator's arm. The non-English-speaking people have queer ideas about statistics and fear that the Englishman has something up his sleeve further than he is willing to speak about.

Greater troubles still were encountered when immigrants were approached, some hardly knowing the word English and so ignorant as to not even know the name of the place, month or year in which they were born.

Jewish Birthday Puzzle.

The Jews do not consider the actual day on which they were born their birthday, but they choose some feast day, and this may be several weeks afterwards. Again, they do not count their years the same as we do. Their New Year's comes in November and according to their reckoning this is the 5671st year, instead of 1911. They claim to number the years from the creation of the world, and their records in the book of Genesis.

The following table will greatly assist the enumerator working in St. John's Ward:

Table with 2 columns: Jewish month, Corresponding English month. Tishri, October; Cheshvan, November; Kislev, December; Tebet, January; Shevat, February; Adar, March; Nisan, April; Iyar, May; Sivan, June; Tamuz, July; Av, August; Elul, September.

The Jews have the following holidays and the birthday may often be attached to one of them: Rosh Hashana, the new year; Yom Kippur, day of atonement; Succah, feast of tabernacles; Purim, the story of Esther; Pesach, feast of lights; Seder, the first night of Passover.

In June (Sivan) Shavuot, the Hebrew month only having 28 days. They mark seasons come in the same months by having more days in the leap-year.

The enumerators make an average of five cities per night and some of the men yesterday made as high as \$8 and \$9. One man laboring in the difficult locality had 154 names on his list at 10 o'clock. This netted him about six dollars.

AFRAID TO SLEEP

For Fear They Will All Be Burned in Their Beds. BERNIE, Man, June 1.—Driven into concerted action by recent acts of lawlessness, the residents of this village, at a mass meeting, decided to appeal to the attorney-general of Manitoba for relief. Asserting that neither life or property are safe, they have asked the department to investigate various cases of burglary, arson, housebreaking and petty thefts, and the petition states that the people of this village are afraid to sleep for fear they will be burned to death in their beds.

TO-MORROW STATUTORY HOLIDAY.

York County and Suburbs

ENGINEER JAMES GETS OFFER OF THE POSITION

North Toronto Official May Accept Lucrative Salary — Works Committee Meets.

NORTH TORONTO, June 1.—(Special).—The longest and hardest working sessions in the history of the town council was that of to-night, when the board of works, under the chairmanship of Mr. Burnaby, kept pouncing away until nearly 11 o'clock, and this was later succeeded by the fire, water and light, under the chairmanship of Mr. Reid, who kept the members bustling until the witching hour of midnight. Verily these North Toronto legislators are untiring workers and have carried their work home with them.

W. E. Burnaby came on the scene to a modest request for permission to sit on a 40-foot street, but this was strictly outside the authority of the committee and nobody near the town will be so stupid as to be prepared to give and take, and council finally capitulated to the extent that Mr. Burnaby's request was granted in getting his project thru. But it will be a 50-foot street and the opening up of it will be a good thing for the town as well as for Mr. Burnaby.

Then they took up and wrestled with a knotty question with respect to the severance tender for the extension of the northern section, declined to go on with their work, claiming that there was a clerical error of \$100 and stipulated to bidders and rock in the excavation work. Engineer Murray advised the acceptance of the tender.

Construction order, that no action was taken along this line. The committee, however, did not object to the order, and the demand of Reid & Co., and Clerk Norman will to-day write them that unless the contract is gone on with the marked cheque accompanying the order, the \$100 will be forfeited.

Then they dealt with Engineer James, increasing his salary from \$1200 to \$1740. This was done in view of the enormously increased work of his department, practically taking all the time of the engineer to supervise the town and citizens. He is a strict disciplinarian and a man of high character, and this the committee were very anxious that the engineer should be in close touch with. There was no objection.

They discussed for a short time the old standby by the parallel road through the Mount Pleasant Cemetery and the new from the solicitor like and the new from the solicitor like and the new from the solicitor like.

Some time ago it was understood that Mr. Starr, representing Toronto Township, had secured a form of agreement and submit it to Mr. Davidson, representing the trust. This he did, but Mr. Davidson took such exception to the agreement that it was so much that he proceeded to re-draft a new one. This in turn was submitted to Mr. Starr, but he was not satisfied with it, and Mr. Starr looking after the interests of North Toronto, that they have decided to get Mr. Davidson to meet with the trustees and the trustees to meet with the trustees and the trustees to meet with the trustees.

When the fire and light committee came back on deck they had first to deal with the fire and light committee, and then with the fire and light committee, and then with the fire and light committee.

Philip Little, a well-known dairyman, living on Victoria-avenue, suicided shortly after 5 o'clock this morning by hanging himself in the stable a short distance from the house.

Little had, as usual, risen early to assist in milking the cows and was assisted by Charles Vach. While the latter was engaged in milking Little secured a length of window cord, and throwing it over a beam, swung himself clear of three bags of oats, on which he stood to adjust the rope. His wife coming in later, saw the body swinging and gave the alarm. It was at once cut down and medical help secured, but they failed to restore him. Little is said to have been greatly worried of late by several reasons, and a close watch was thought to be kept on his movements. The funeral takes place on Saturday afternoon and the members of the Sons of England Lodge will meet at his late residence at 2:30 o'clock and take charge of the funeral exercises.

The annual exercises and games of St. Clement's College, here this afternoon attracted a great crowd. Edgar A. James, town engineer, and every other kid in Ontario is using the name of the King's birthday to break home the Sunday World.

Gen. M. E. Route to Russia. LETHBRIDGE, Alta., June 1.—Gen. H. the famous harness racing stallion which the Earl of Russell bought for \$75,000, San Falarow of Calgary, for \$75,000, went thru the city to-day via the Great Northern Railway, on his way to New York, and thence to Russia.

THE DEFENDERS STARTED OFF IN A MANNER that seemed to fulfil expectations. Whitney gathering the ball in mid-field and with the help of the two Westburys driving the first goal inside of two minutes of play. Then the Englishmen came back hard, crowding the Americans back to their own goal line, where Lieut. Edwards shot the second goal practically on his own initiative.

The eye of the challengers did not seem to be open to the insidious riding of their opponents until the second period was well along, when Lieut. Edwards again emerged from a mêlée and, dodging Milburn, kept the ball in the third goal of the afternoon and the second for England, and the score was scored during the third or fourth period, but the play flickered back and forth before the American goal post until Milburn, in his anxiety to win his goal, crossed Capt. Cheape and the American score was cut down to half a point.

The defenders began to play desperately and the visitors accordingly, and this was particularly noticeable in the fifth period, in which Lieut. Edwards, fourth before the American goal, shot two more goals and brought the score up to four goals to a half goal in favor of England.

Before the fifth period was changed, however, Milburn, had started the American rally, while Capt. Cheape had been peering in for crossing the goal, and the going rang with the score of 1-1 in favor of the challengers. The sixth period saw the English English horseflesh, the little stable from which "Fifteen" came, taking only one goal, enough to bring the score to two or three periods, and the game was over.

The score was tied, and, eventually, fortune swung over to the American side of the field, while the end of England suffered again, when Capt. Wilson crossed L. Waterbury. The Americans were still desperately defending their own goal when the final bell rang, and both teams shook hands in the friendliest manner.

Summary. First Period—United States, Mr. Whitney, 1-2; England, Lieut. Edwards 1-0. Second Period—England, Lieut. Edwards 1-0. Third Period—No goal. Fourth Period—No goal.

AMERICAN POLO EXPERTS BEAT ENGLISH 4-2 TO 3

Challengers Were Ahead One Time 3-1-2 Goals—Play Second Game Next Monday.

NEW YORK, June 1.—The American grip on the international polo cup was given a lively shake to-day by the bold tactics of the challenging English cavalry officers, who in the first of the matches for the trophy outplayed and outdid the Meadowbrook four for three-quarters of the match, only to be out-riden by the second match, which the Americans finally stood four and one-half goals to three in favor of the United States.

As the Americans were five to one favorites the strength of the English team astonished the big crowds that ranged the sides of the Meadowbrook polo field, and for over an hour and a half there was almost continuous excitement and applause by the greatest polo audience of recent years. The American country has never since mixed in with social New York and Long Island, and a fair sprinkling of English life.

A greater throng is expected on Monday when the second match will be played, for neither team cares to renew hostilities on Saturday after to-day's hard struggle.

Meadowbrook scored five goals, principally thru the great riding of Devereux Milburn, while Lieut. A. Noel Edwards of the famous Ninth Lancers drove the ball four times between the American goal posts, but three fouls for crossing cut each score, the Americans by a half, and the Englishmen by a full goal.

Suffered From Over-confidence. It was a keenly contested game and played faster than was anticipated after yesterday's heavy rain. Through three-quarters of the sixty minutes of actual play, the pace was set by the English officers to the amazement of all but a very few present. The ease with which they scored goals, especially in the fifth period, brought on what seemed to be over-confidence on the part of the Englishmen, for in the seventh, Milburn, with his hunter-like mounts dashed up into the game, leaving H. Payne Whitney to defend the goal. His drop-kick play turned the tide, and his two goals, with that of L. Waterbury, brought the final American success.

Up to the time of the rally in the sixth period, the much-talked-of teamwork of the first team was utterly lacking, while the two Waterbury quarters of the sixty minutes of all but a very few present. SYNOPSIS OF CANADIAN NORTHERN WESTERN LAND REGISTRATION

ANY person who is the sole head of a family of any male over 18 years old, may homestead a quarter section of arable land in the Northwest Territories, Saskatchewan or Alberta.

The applicant must appear in person at the local office of the Registrar of Sub-Agency for the district. Entry by proxy may be made at any office of intending constables, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and buy a house worth \$300.00.

W. W. CORRY, Deputy of the Minister of the Interior, N. B.—Unauthorized publication of this advertisement will not be prosecuted.

Lunacy on Increase. MONTREAL, June 1.—Lunacy appears on the increase in Montreal. During the past month the civic authorities have been called upon to remove 60 insane persons to the asylums. This is an unprecedented number for any month in the city's previous history. The number recorded in June in the past varied between 15 and 20 per month.

Permanent Pavements. KINGSTON, June 1.—(Special.)—City Engineer Craig expects that the construction of permanent pavements throughout town roadways will be commenced by July 1.

WASHINGTON, June 1.—By 48 to 24 the senate adopted a resolution to reopen the investigation of charges of bribery in connection with the election of Senator Lorimer of Illinois. The resolution directs the regular elections committee to make the enquiry.

The Great London Shows Enlarged. Bigger and better than ever, Howe's Great London Circus will soon be with us at Dufferin Park on June 5. Every department has been enlarged. Five hundred arena performers; over a hundred cages contain the Million Dollar Zoo, and the show is completely filled with new and absolutely different novelties.

The Great London Shows consolidated last year a mammoth institution. When she has seen it from end to end, outside and inside, and has formed an inventory of what has been seen and learned for a very nominal fee, how much real pleasure and benefit it has been, he can easily understand why a big three-ring circus, of the high standard of the Great London Shows, occupies the enviable position in the amusement world that it does.

The far-famed Dublin Dangle Greys, \$25,000 prize winners, were also presented in conjunction with the big show.

South African Veteran Dead. KINGSTON, June 1.—(Special.)—Gunner Emile Lamoureux of A battery, 2nd South African Infantry, died of rapid pneumonia. He was out on the harbor Saturday afternoon in his boat, apparently in the best of health. Deceased was thirty-nine years connected with a battery. He distinguished himself during the South African war.

Mormons Pass Thru City. A party of sixty Mormons passed thru Toronto yesterday en route for Salt Lake City, where they will be distributed throughout the country, in order to proclaim the gospel they hold. They were willing to tell of the ill-treatment they claim to have endured.

FRIDAY MORNING

WHY MR. RANDALL ISN'T SURE

But at Picturesque Sitting of Court on the Island Evidence Was Interesting.

Amid surroundings that might be encountered at a backwoods court, Judge Winchester and Corporation Counsel Drayton yesterday continued the enquiry into the waterworks department in the "Beak House," or, rather, shack, where Waterworks Engineer Randall eats and sleeps when he is not riding the water wave.

Nevertheless, after a short inspection of the works in the morning, Mr. Drayton started to work to examine Mr. Randall, assistant engineer, and a very willing witness. Although Mr. Randall has only been at the work since Feb. 7, he declared he came over when the trouble occurred on Dec. 15.

He knew nothing more until Feb. 7, when Mr. Fellowes came and told him that the water went down. Then they went to the island to make an investigation. Mr. Randall said he kept a diary from that time on.

The diary was produced when Mr. Drayton returned but was not altogether satisfactory to the counsel, as a copy that had been submitted to Judge Winchester did not quite tally with it. Mr. Randall explained that this was the fault of his secretary.

After Mr. Drayton had been shown some broken bolts taken from the pipe at the break, he pressed Mr. Randall for an opinion as to the cause of the accident.

"I have not the slightest idea as to how it broke," said the latter. "I don't want to offer any opinion. But I think the pipe must have cracked when the pumps continued to draw out the water and air after the pipe had been closed with sand, causing a vacuum.

There was no sand at the mouth, and I think if there had been, it would have broken. At any rate, it wasn't ice that broke the pipe. There were one or two live pipes near the break."

"We could supply lake water now," said Mr. Randall, "but we have been tried to keep the pipe shut off until it is entirely clear."

George McKay, one of the divers who helped lay the present intake, was back in 98, was called. He said that up to 1900 he made yearly inspections of the pipe, and had always found it all right.

When they were working on the western channel," he said, "I used to see sand coming east along by the close as thick as porridge. That was in the spring."

After his evidence was taken it was decided to adjourn until to-morrow, when Diver Mackenzie and other important witnesses will be examined at the same place.

WEEK-END CATTLE MARKET WORE A STEADY ASPECT

Butcher Cattle Steady—Sheep Lower—Lamb Steady—Hogs Higher at \$6.60

The railroads reported 80 carloads of live stock at the city market, for Thursday, consisting of 380 cattle, 2200 hogs from 380 to 580, 800 calves and lambs, 17 calves, and 3 horses.

The quality of cattle was again good. Trade was steady to strong, but no general prices were paid, than was granted.

Butcher Cattle. George Rowntree bought during the week 170 cattle for the Harris Abattoir, as follows: 80 yearling steers, \$5.50 to \$5.75; cows, \$5.25 to \$5.40; bulls, \$4.50 to \$5.

Stockers and Feeders. The demand for stockers and feeders all week was greater than the supply.

Milkers and Springers. There was a fair trade for milkers and springers, but prices for the bulk were down \$5 to \$7 per head lower, as many of the drovers look for a higher price.

Veal Calves. The bulk of the calves sold at \$5.50 to \$6.00, with a few choice new milk veal calves reported at \$7.50 and even, but these high prices would have no effect on the buying in a general way.

Sheep and Lambs. The market for sheep and lambs sold from 20c to 60c per cwt. lower. Sheep, ewes, \$1 to \$1.75; lambs, \$1.50 to \$2.50; spring lambs, \$1 to \$1.50; American yearlings, \$2.50.

Hogs. The market for hogs was again firmer. Selects fed and watered at the market sold at \$1.50 and \$1.50 to drovers.

Representative Sales. H. P. Kennedy, 1600 York, having over 200 cattle to fill orders during the week, found time to dispose of the following: 100 yearling steers, \$5.50 to \$5.75; cows, \$5.25 to \$5.40; bulls, \$4.50 to \$5.

George Bell of Sunderland and A. Talbot of Scarborough were on the market. The live stock reported at the World yesterday had an interview with Mr. Galbraith of Scarborough, who is associated with Mr. H. P. Kennedy in some real estate operations.

Commercial Reports

Sharp Advance in Grain Prices

Bullish News Predominates Crop Reports from Western States Less Encouraging, and Unexpected Bull Market Develops—Values Higher at Winnipeg.

CHICAGO, June 1.—Bullish buying force appeared in the wheat market today and put prices up with the help of a statement from the winter wheat section of the condition in the winter belt as of June 1, 1911, which showed a month's crop to be 1 1/2 times the normal yield.

At the close the advance varied from 1c to 1 1/2c higher than last night's closing. All the other leading staples, too, showed a net gain, corn, 3/4c to 1c; oats, 1/2c to 3/4c; and provisions, 1/2c to 3/4c.

At the close of the day the question was sharply raised as to whether a new "corner" was being attempted, although the reports of the May crop were not heard. During the day July ranged from 91c to 91 1/2c, closing firm, 91c up to 91 1/2c.

Corn was well supported all day, lightness of country offerings furnishing one of the main reasons. Another cause was the condition of the surplus was officially reported to be so small as to leave nothing for export, and the market was sharply higher. Country sold very little and the east bought in a measure to hear.

Receipts at Primary Centrais. Receipts of wheat in car lots at primary centrais, with comparisons, were as follows: Today, 100,000 bushels; last week, 100,000 bushels; last month, 100,000 bushels; last year, 100,000 bushels.

European Grain Markets. The Liverpool market for wheat and higher on corn. Berlin closed 1/2c higher on wheat. Budapest fell 1/2c higher, Paris fell 1/2c.

Winnipeg Wheat Market. The Winnipeg market for wheat and higher on corn. Winnipeg closed 1/2c higher on wheat. Winnipeg closed 1/2c higher on wheat. Winnipeg closed 1/2c higher on wheat.

Montreal Grain Prices. MONTREAL, June 1.—Business in all lines of grain over the cable is dull, but there is a fair demand for cash for local consumption at steady prices.

ST. LAWRENCE MARKET. Receipts of farm produce were 300 bushels of grain and 18 loads of hay. Two hundred bushels sold at 42c per bushel.

Market Notes. Joshua Ingram bought 12 dressed hogs at 20c per cwt. dressed hogs, at \$5.50 to \$6 per cwt. 40 spring lambs, at \$4 to \$5.

Chicago Markets. J. P. Eckel & Co., Manufacturers Life Building report the following fluctuations on the Chicago Board of Trade:

Wheat—Close, Open, High, Low, Close. July, 84 1/2, 84 1/2, 84 1/2, 84 1/2, 84 1/2. Aug., 84 1/2, 84 1/2, 84 1/2, 84 1/2, 84 1/2.

Hay and Straw. Clover of mixed hay, \$12.00 to \$15.00. Straw, loose, \$1.00 to \$1.50. Hay, mixed, \$1.00 to \$1.50.

Fruits and Vegetables. Onions, sack, \$3.50 to \$4.00. Potatoes, sack, \$3.00 to \$3.50. Carrots, per bush, \$0.50 to \$0.75. Cabbage, per cwt., \$0.50 to \$0.75.

Poultry. Turkeys, dressed, lb., 15c to 16c to 18c.
