PROBS: Winds shifting to easterly; fair; showers by night.

MANY ACCIDENTS IN TORONTO YESTERDAY

Two Boys Were Injured While Playing, One Man Hurt in Motor Car Collision, Machinist's Hand Was Lacerated, and One Man Was Picked Up Unconscious.

Percy Frith of 162 Spruce street, 10 years of age, was knocked off a wagon yesterday afternoon on which he was riding near Balm Beach, on East Queen street. He sustained a compound fracture of the left arm and was taken to the General Hospital.

Cyril Allison of 963 Logan avenue, 22 years of age, was riding a bicycle in the Don Valley yesterday afternoon when the chain on his wheel broke. He fell and received several severe injuries, mainly to his face and his left cheek so lacerated that nine stitches were necessary to sew it up. He was treated at the General Hospital also.

Nathan Caplan of 37 Augusta avenue, while riding in a motor car, came in contact with a street car near the corner of King and Yonge streets yesterday afternoon. He was taken to Grace Hospital, and although no serious injuries were found, the doctors there have decided to take an X-ray photograph. This morning one will be made. He is suffering much pain.

Edward Smith of 78 Duces street, a machinist, had his finger and hand badly cut and lacerated at his place of business yesterday afternoon. He was taken to St. Michael's Hospital.

Frank Barner of 57 East Adelaide street was taken to St. Michael's yesterday afternoon in an unconscious condition. He was picked up near his place of business on Adelaide street, and although the doctors at the hospital worked over him they could not bring him to sensibility for a long time. Eventually he recovered consciousness and is now in a fair way towards recovery.

John Lewis, 712 Lansdowne avenue, the street car conductor who was injured Monday night at the corner of Dupont street and Palmerston avenue, and who was later taken to Western Hospital, is in a very precarious condition. It is thought that he will not live.

TOOK MONEY FROM PURSES

Louis Seigel Caught in the Act—Would-be Burglar Captured—Foreigner Used a Razor.

One of Toronto's best known thieves, Louis Seigel, giving his present address as 283 Victoria street, was arrested yesterday afternoon in Eaton's departmental store for relieving women in elevators of the money in their chate-laines. Miss Egan of 591 College street saw him take money from another woman's purse. She notified Sergeant Guthrie, who promptly arrested Seigel.

George Badgeley of 155 West Richmond street went into the cellar of the house owned by Mrs. Margaret Talbot of 123 West Wellington street with the gas meter man. Mrs. Talbot went into the cellar and saw Badgeley carrying everything he could lay his hands on. She screamed. Another boarder answered her calls for help and between them they managed to hold the would-be thief until Detective Cronin appeared.

John Amisat of 64 William street for stealing \$24.80 from Alexander Barrie of 64 Parauy street was arrested yesterday afternoon by Detective Newton. Amisat was working for a construction company. He had \$15 due. He told Barrie and three other friends that he had \$24.80 owing him. They gave him the money and took his time-sheet in payment. They took it to the cashier. He told them that Amisat had had \$15 coming, but that this amount had been paid out to him. They immediately had him arrested.

Tommaso Autobello, 10 years of age, of 62 Walton street, slashed Joseph Dapostolka on the face and throat with a razor. Detectives Strohm and Older arrested Autobello yesterday afternoon for the assault.

Oscar Wilson of 206 Simcoe street, a bell boy at the King Edward Hotel, was arrested yesterday afternoon for alleged entering of improper returns of money received from guests. Detective Croggy made the arrest.

STRATHCONA ON THE CANAL BILL

Says President Taft's Interpretation of Treaty Works an Absolute Wrong Upon All Other Nations—Would Hamper the Cheapering of Transport on Light Goods.

LONDON, Aug. 27.—(C. A. P. Cable).—Lord Strathcona, interviewed on the question of the signing of the Panama Canal bill by President Taft, deprecated too much public discussion, pending further development. "If the treaty," he said, "had been passed as originally intended, so every nation should have free unrestricted use of the canal, it would be of great benefit to every country. It would have facilitated and cheapened the transport of passengers and of light goods which form so large a proportion of the traffic of railways."

"If these discriminating provisions, however, in favor of the States should come into opposition, they would seriously hamper other nations which carry so much of the overseas trade. We look upon it as an absolute wrong, especially Great Britain, that this interpretation should have been put upon the treaty."

"The foreign office, doubtless, will put the matter before the American people in the proper light, and we have assurance that a very large body of American opinion is not satisfied that it should be left as it now stands."

Having failed in their attempt to organize a branch of the International Longshoremen's Union, the majority of the striking dockworkers at Toronto harbor made up their minds to ask to be taken back at the former rate, 25 cents an hour. Two deputations waited on the steamship companies asking that the old gang be set to work again. The men now being employed were satisfied, and could not be discharged in a body without notice. A number of the strikers may have to wait some time before being taken on again.

Men's Grievance. The men's grievance is with both the small pay and the irregular hours. In Hamilton and Montreal and Duluth, they claim, the pay is higher, and a still higher rate is paid for extra time. Sunday pay in Montreal is at the rate of 75 cents an hour.

No Discrepancy. Steamship officials admit the discrepancy in rates, but point in explanation to the difference in the nature of the work done.

"Skilled freight-handlers such as those in Montreal would laugh at the truckloads these men grumble about," declared an official connected with the Inland Lines. "Instead of heavy iron and four, these fellows are working with boxes of general merchandise, while a good freight-handler will carry 500 pounds of flour on his truck, four 20-pound boxes is considered a good load here."

SWANSEA POLES ARE ARRESTED. Prime Movers in Sunday's Drunken Orgy and Fight Were Taken Into Custody Yesterday.

Four Poles, who are alleged to have been the prime movers in the drunken row in the Polish colony at Swansea on Sunday morning last, were taken into custody by County Constable George Simpson and County Constable McMullen yesterday afternoon. They appeared in the county court an hour later on charges of disorderly conduct. Magistrate Fridson remanded them on bail until Friday. The men gave their surnames as Lychinski, Grabavaski Brothers and Istoraki. County Constable Simpson is determined to rid the district of these unlawful foredooms.

Decidedly Cool. "What are the prospects for the next couple of weeks?" was the question put to the weather man by The World last night. "I'm afraid to be too free with my predictions," he answered. "The recent storm certainly cleared things up for the time being, but the reaction has left the elements in a very unsettled state, and the best I can offer is that it may be decidedly cool."

Good weather is promised for the early part of today, but showers are expected to arrive before night.

HYDRO-ELECTRIC IN TOMMORDEN

Ontario Commission Will Superintend Cost of Construction and City System Will Control the Supply.

The Ontario Hydro-Electric Commission are willing to finance the construction of the distributing power lines in Tommorden, Woodbine or any other populous area in York Township, and the Toronto Hydro-Electric department will take them over and supply customers. If this proposal is adopted at the next meeting of the York Township Council, the work will be immediately taken in hand.

Berlin Factory Asks Hydro For Estimates on 2280 H. P.

BERLIN, Aug. 27.—(Special).—Hydro-electric power got another boost today when the Canadian Consolidated Rubber Co. sent in a request to the Berlin Light Commission to estimate in supplying them with 2280 H.P. for their new rubber tire factory. The request for power is no doubt the largest ever received by any municipality since hydro power came into use, and the light commission will consult with the power commission before giving an estimate.

The amount required by the new tire industry is more than twice as much as is now used by the entire City of Berlin. In order to provide this additional demand it will not only be necessary to provide additional space at the local power plant, but also at the hydro sub-station, which is only equipped to provide about 1500 H. P. When this additional power is added to Berlin's load it will mean a great reduction in cost to consumers here.

STRIKERS WOULD RETURN TO WORK

Failing to Organize Branch of International Longshoremen's Union, Majority of Men Wish to Return at Former Rate of Pay—Deputations Wait on Employers.

Having failed in their attempt to organize a branch of the International Longshoremen's Union, the majority of the striking dockworkers at Toronto harbor made up their minds to ask to be taken back at the former rate, 25 cents an hour. Two deputations waited on the steamship companies asking that the old gang be set to work again. The men now being employed were satisfied, and could not be discharged in a body without notice. A number of the strikers may have to wait some time before being taken on again.

Men's Grievance. The men's grievance is with both the small pay and the irregular hours. In Hamilton and Montreal and Duluth, they claim, the pay is higher, and a still higher rate is paid for extra time. Sunday pay in Montreal is at the rate of 75 cents an hour.

No Discrepancy. Steamship officials admit the discrepancy in rates, but point in explanation to the difference in the nature of the work done.

"Skilled freight-handlers such as those in Montreal would laugh at the truckloads these men grumble about," declared an official connected with the Inland Lines. "Instead of heavy iron and four, these fellows are working with boxes of general merchandise, while a good freight-handler will carry 500 pounds of flour on his truck, four 20-pound boxes is considered a good load here."

WESTERN MEN PRAISE LAND TAX

At Union of Canadian Municipalities Convention Its Benefits to Cities Are Pointed Out.

WINNIPEG, Aug. 27.—(Special).—There was no frost on the Canadian prairies west last night. For the most part, temperatures were well above forty. The freezing point was just touched at Swan River and a few other northern Manitoba points. Weather continues cool, and where heavy rain fell during last week-end snow is needed before harvesting can be resumed.

To-night is full moon and until that is past some anxiety will be felt on account of frost. The slow, cool ripening weather is undoubtedly making towards very high grades, and the crop should be exceedingly profitable to western farmers, providing the three dangers threatening its successful making can be overcome. These are early frosts, shortage of binder twine and shortage of labor. Of the three the latter just now presents the most serious aspect.

There appears to be a total absence of loss from frost up to date and very little from hail, rust or other causes. In all districts heard from cutting has commenced under the most auspicious conditions, the percentage cut ranging from five per cent. in the east to twenty per cent. in the north and as high as fifty in the south. The east and north are from six to twelve days behind the south in the commencement of cutting, but even at that the crops this year appear to be from fifteen to twenty days ahead of last year.

The Lake of the Woods Milling Co. received the first car of new spring wheat today, shipped from Altona, Man. This is just four days later than the date of shipment of the first car last season. The wheat was grown by M. Friezen, and is a very fine sample of No. 1 northern.

"Wallingford a Winner." Those who have had the pleasure of seeing J. Rufus Wallingford in "Get Rich Quick Wallingford," the noted comedy success at the Princess this week, pronounce him a winner at this sight. In fact, the play is one of the best comedies ever seen in Toronto.

BRANDON ORDERS INVESTIGATION OF POLICE

BRANDON, Man., Aug. 27.—(Canadian Press).—Resulting from certain charges brought against the local police by leading members of the Social and Moral Reform League, the city council has appointed Judge Cumberland to probe allegations of Social and Moral Reform League That Men in Department Cannot Check Vice Because of Chief's Instructions.

The resolution appointing Judge Cumberland was passed at a special session of the city council and mentions the names of every member of the police force and Magistrate Bates as well. It states that it has alleged that the chief and his force have been negligent in the performance of their duties with regard to the trial and prosecution of bawdy houses, gambling houses and prostitutes in this city. It has also been alleged, the resolution says, that the police do not perform their duties owing to the influence of the chief of police over them in connection with the above matters.

COOL WEATHER BETTERS GRADES

But Danger of Frost Is Causing Anxiety in West—Labor Scarcity Assuming Very Serious Aspect.

WINNIPEG, Aug. 27.—(Special).—There was no frost on the Canadian prairies west last night. For the most part, temperatures were well above forty. The freezing point was just touched at Swan River and a few other northern Manitoba points. Weather continues cool, and where heavy rain fell during last week-end snow is needed before harvesting can be resumed.

FIRST OCCASION WHEN CADETS OF EMPIRE WERE REVIEWED

Laying St. Alban's Corner-Stone

The Duke of Connaught, Bishop Sweeney and the Rev. Canon Dixon.

Duke of Connaught Saw Parade of 2000 Boys From All Parts of British Dominions, and Congratulated Them and Exhibition for Their Loyalty and Excellent Appearance.

With every appearance of old soldiers, their lines as straight as arrows and every man in step, over 2000 cadets from Canada and the overseas dominions marched past the Duke of Connaught yesterday. It was the royal review and probably one of the most unique attractions of its kind that ever before happened in Canada, or even the British Empire. Before several thousand people in the grand stand, these boy representatives from England, Ireland, Scotland, New Zealand, Australia, Newfoundland and Canada were lined together in a small-sized army and in company form walked by Canada's royal governor-general. And his royal highness was exceedingly pleased with the spectacle. After the review the juvenile soldiers, divided into two battalions, were lined in the front of the flying royal standard, near which the duke stood, and there they were addressed.

"It is a unique occasion, probably the first that has ever occurred, on which cadets from every portion of the empire have been on parade together," said his royal highness. Judging by every word spoken by him the boys could not have hardly presented a better appearance.

The coming of the ducal party thru the west end gate was heralded by the approach of an automobile bearing George H. Gooderham, M.L.A., J. G. Kent, president of the Exhibition, and W. K. George. Presently a limousine appeared, carrying the three members of the royal party. A box in the centre of the grand stand had been decorated for the distinguished guests, and leading from the gate a canvas carpet had been laid along the enclosure to the box.

As the motor car swung into the grounds the royal standard was hoisted to the top of the pole. The 46th Highlanders' band struck up "God Save the King." The cadets, whose line stretched for almost a quarter of a mile, gave the royal salute, coming to "present arms." And hundreds of men stood at attention and removed their headgear. As the party came on to the green sward fronting the stand the crowds cheered. Their royal highnesses were accompanied by six staff officers, including Col. Hemming, Lt.-Col. Lowther, Major Shanley, Capt. Buckley, Capt. Bullen and Lt.-Gov. Sir John Gibson, in uniform.

After being inspected by the duke the cadets marched by in company form. Possibly the feature of the review was the appearance of the Mounted Saskatchewan Cadets, a fine body of boys, who know how to ride. They led the procession on their 18 horses, all fine specimens of horsemanship. The mounted cadets were just what one would picture of the true type of westerners. They were all husky, appearing more like men than boys, were dressed in neat khaki uniforms and wore the wide rough riders' hats. Generous applause greeted them.

All Fine Youths. Then came the English boys in khaki, then the Irishmen, attired in their flashy green uniforms, and then the Highlanders from Scotland. Following these three corps, troops from all parts of Canada marched by, they comprising the rest of the first battalion.

The second battalion consisted of cadets from Australia, New Zealand, Newfoundland and seven other corps from various parts of this Dominion. There was a shade of difference in the style of marching and the New Zealanders seemed to be the best. Every man in their corps is well set up, all are about the same height and their knowledge of the military game was clearly shown. But every corps received a liberal amount of applause.

Half a Million Increase. Robert Clewley, customs officer, said last night to The World that there was practically \$500,000 more in bonded goods this year than last. This is a marvelous increase over last year and was unexpected by even such an optimistic manager as Dr. Orr. These goods come from England, United States, France, Germany, and others. "It is any wonder then that we can hardly keep up with the changing conditions," said H. H. Rogers. "We are spreading out every year, making more accommodation, and then we cannot secure enough."

More Room Now. Last year the live stock breeders, at least some of them, were rather dissatisfied with things generally, owing to the lack of space for their cattle. As a means of meeting this demand temporary sheds were built during the off-season and possibly when all the live stock is in the grounds for the judging during the next few days there will not be sufficient space. Most of the cattle and horses arrived to-day and in point of numbers and quality they are in advance of the best past years in the history of the Exhibition. The cattle judging will begin at 9 a.m. tomorrow with the Ayrshire and the Holsteins. The judges will be W. W. Ballantyne of Stratford and A. Cairns of Byron, Ont.

Pioneers Gathered. Near the site of the old Fort Rouille stands the log cabin of the York Pioneers and New Zealanders do not

EXHIBITION VISITORS. The merchants of Toronto always prepare for the annual visit of their friends beyond the city by getting together the best possible display of goods they sell. The Dineen Company, 140 Yonge street, believe that it has succeeded in eclipsing anything ever undertaken in previous years. You will find in the showrooms an exceptionally complete collection of native and foreign furs and a display of garments which cannot be duplicated anywhere in the world. Visitors should remember that Canada is the largest fur-producing country on the map and that Toronto is its largest distributing point. Ask for a new catalogue.

Baseball: Leafs Win and Lose Hustlers Drop Two Trotting: Derby Horses Earn \$10,000 at Readville

Split Double Bill With Birds Baltimore Won Second Easily

Fitzpatrick Won First Game With Timely Single—Gaspar and Mueller Hit Hard in Second Game—International Scores.

The winning streak is broken. After Toronto captured the first of the double-bill with a 5-to-0 score, making it thirteen straight wins, the Baltimore Birds came and gave the Leafs a real old-time lacing in the second fixture. The Birds hit the ball to all corners of the lot, and the tally stood 12 to 1.

It took some pulling to grab the first, and that, after going alone with a nice lead for Toronto, the Birds caught up, and it was up to little Eddie Fitzpatrick to send across the winning salvo. This was sent in a pinch and delivered in telling fashion, driving in two runs.

Gaspar and Mueller were the victims of the Baltimore swiftness in the second encounter, while Maxwell twirled the Leafs to victory in the first game. This was sent in a pinch and delivered in telling fashion, driving in two runs.

Everything was smooth sailing for six innings, and it was in the next session and that it was up to little Eddie Fitzpatrick to send across the winning salvo. This was sent in a pinch and delivered in telling fashion, driving in two runs.

The Leafs started when Holy-footed Lord's roller and McConnell were to be dropped the throw of second for the force. Brock scored Schmidt with a single, Dalton threw to second to get Taylor, but it was wide, and both moved up one point.

The Leafs started when Holy-footed Lord's roller and McConnell were to be dropped the throw of second for the force. Brock scored Schmidt with a single, Dalton threw to second to get Taylor, but it was wide, and both moved up one point.

TROTTING DERBY GOES TO GREENEY

Thrilling Finish in Grand Circuit Feature on Opening Day at Readville—The Eel Wins Free-for-All Pace.

READVILLE, Mass., Aug. 27.—Greeney, 2004, owned by John Mulvey, a farmer boy of Waxahachie, Texas, and driven by John P. Fleming, another Texan, won the fourth renewal of the American Trotting Derby at the opening of the Grand Circuit meeting here today in a thrilling finish.

At the drop of the flag Billy Burke made a dancing break that cost him valuable ground in the leaders, Cassie Dome, Woodford Todd and Ben Zoelock on the 400 foot mark, got away good and were leading the field.

Entering the home stretch the five leaders, Cassie Dome, Wanderer, Kenyon W., Jack London and Greeney were within a length of each other, and at the finish Greeney, close behind, won by a narrow margin.

The Wanderer beat Jack London on the home stretch in the 2.10 class, and Ben Zoelock won the 2.15 class handily. The Puritan for free-for-all paces, worth \$100, was in doubt till the end of the fourth heat, when Dan Denmore came and looked very dangerous, allowing the Canadian hero, The Eel, to win.

At Windsor, Aug. 27.—The entries for Wednesday are as follows: FIRST RACE—Union Jack, Miss Nell, Theo Cook.

WEDNESDAY MORNING, AUG. 28, 1912

A GIGANTIC CORPORATION

The Canadian Pacific Railway Company, by its latest annual report, discloses assets to the amount of \$228,199,545, and a surplus of \$72,885,886. That these are conservative estimates may be gathered from the fact that the gross receipts of the company for the year ending June 30 amounted to \$148,000,000. Of this sum the railway, steamship and other earnings of the company amount for \$123,219,541, from which after paying all operating expenses, fixed charges and dividends, there resulted a cash surplus of \$17,550,513. Land sales brought into the coffers of the company \$10,710,143; dividends on investments, including stocks and bonds of other railway companies, yielded \$7,860,790. The company paid to its holders of common stock a dividend for the year of 10 per cent. There can be little doubt but that the assets of the company are worth one billion dollars and that its surplus is not less than \$300,000,000, largely made up of money in bank, government securities and other liquid assets.

This great corporation besides the country like a colossus. It is in the railway business, the steamship business and the hotel business, the express business, the telegraph business, the irrigation business and the business of colonization. It is said that one-twelfth of our population are directly or indirectly dependent upon the Canadian Pacific Railway Company for income, employment or subsistence. The company received land grants and other grants from the government of Canada under a contract by whose terms it was intended that the annual profits of the company over and above 10 per cent of the cost of construction of the railway, should be devoted to improving its system and lowering its rates. The western people are complaining that the vast profits of the company are being invested for and distributed among its stockholders; that its freight rates are inadequate and its freight rates extortionate and discriminatory. The company has more money than it knows what to do with, and yet it is proposing to increase its capital by issuing \$200,000,000 in new stock, thus adding \$200,000,000 per year to the burden laid upon those who must pay passenger and freight rates. No argument can change the essential fact that the stock will be worth in the market \$150,000,000, and that \$200,000,000 of this sum will go to the stockholders as a take-off or bonus. The company is not hard up. It does not have to stand a share of 33.3 per cent in order to raise ready money. It certainly will not suffer if the government does not act upon this application for permission to increase its capital, and until the matter has been referred to and discussed by parliament. We cannot agree with The Financial Post that this subject is too high and sacred to be "bubbled about in parliament."

THE LIFE BLOOD OF THE EMPIRE

In its July and August numbers The British Review of Reviews discussed the imperial organization of imperial emigration under the caption of "The Life Blood of the Empire." It makes a strong plea for systematized emigration from the congested mother country to the overseas dominions under such supervision as will prevent misunderstanding of their conditions and secure that only those who are fit, capable and adaptable shall be moved to the places offering more favorable opportunities than are afforded in the United Kingdom. Particular stress is laid on the number of children in Britain now under charge of the boards of guardians and the benefit that would follow if these boys and girls were prepared for emigration. Property educated for their task, these children would prove invaluable assets to the new British nations and would later become worthy and useful citizens. No doubt can exist that under proper safeguards the emigration of young people of suitable age would be of great advantage to the mother country and the overseas dominions. With the necessary preliminary education and training they much more easily adapt themselves to their new environment. Sir John Taverner, agent-general for the Australian State of Victoria, suggests that a farm near London of about a thousand acres might be secured and established as a preparatory agricultural school, where boys could have a couple of years' training. He is sure the various governments would be only too glad to take whatever number of boys this farm could send out, and says that hundreds of farmers in

his own state would be only too glad to take boys on the lines of policy carried out by the Victoria Government. The system inaugurated by him some three years ago, he testifies, has worked remarkably well. Most of the Australian states have now adopted a very advanced immigration policy and have been very successful in securing old country emigrants. In 1902 only 4866 persons left Great Britain for the Australian Commonwealth; in 1911, the total immigration was 55,758. So marked has been the increase this year that it has attracted serious attention, and all the more because a superior class of emigrant has been secured. The Australian states are paying the passage fares for approved persons and some have established training farms where nine months' free residence can be had and facilities provided and instruction given in the specialties of Australian agriculture. New Zealand is also active, and it is evident Canada will have much more formidable competition for the most desirable class of British emigrant than has yet been encountered.

STANDARD OIL ASSASSINATION

There is a strong odor of kerosene all around the bi-partisan attempt to wreck the political fortunes of Theodore Roosevelt. First, Senator Penrose of Pennsylvania makes a violent assault upon Col. Roosevelt and his charges are hurriedly sent for investigation to the committee on privileges and elections. Before this committee appears, like magic, John D. Archbold, whose business is handling politics and politicians for the benefit of the Standard Oil. Archbold testifies that he contributed \$100,000 to the Roosevelt campaign of 1904, with the understanding that it would be gratefully remembered by the president. Archbold and Penrose attempt to besmirch the ex-president, then Archbold sails for Europe, and the committee deadbeats until Oct. 1. We are told that it is impossible to reassemble the committee and thus afford Col. Roosevelt an opportunity to testify in his own defence. The members of the committee, who were much in evidence on Saturday, could not be located on the following Monday, or for that matter on the previous day, although the senate was in session all Saturday night and for many hours Sunday morning. Only the vaguest information as to the whereabouts of the senators is vouchsafed to the public. Thus, for example, we are told that "Senator Oliver has gone to Canada."

The Republican and Democratic stand-patters have combined to destroy Theodore Roosevelt and the new progressive party. That they used and were used by the Standard Oil Company did not appear to them as objectionable. The scheme was to make a sensational charge against Col. Roosevelt and prevent his answering the same for six weeks during which he would rest under a cloud of charges, insinuations and misrepresentations. But why should the Standard Oil Company, which has always delighted in secrecy, suddenly come out in the open and proclaiming its own infamy, endeavor to brand Theodore Roosevelt as its ally, tool and confederate? Why should Penrose risk his political existence by denouncing Roosevelt as existing in the same category with himself, the recipient of Standard Oil money for which a return was to be made by some official misconduct? Is it not plain that the great trusts of the country, which control the two old parties, are fairly frightened by the rise of a new party, which appeals to the people and pleases to make any compromise with the manufacturers of great wealth. The Standard Oil conspiracy will fall in its purpose, as completely as did the Becker conspiracy to stifle disclosures by the killing of Rosenthal. The investigation into the Standard Oil methods will go on; it may destroy many men now prominent in public life, but it will not hurt the progressive party. Meanwhile, Theodore Roosevelt is more than fortunate in having the country understand that while the Standard Oil Trust is indifferent as to the fate of Taft and Wilson, it is determined at whatever cost, even the risk of ruin, to keep him out of the White House.

HYDRO DEMONSTRATION

Electric Thrashing Machine Will Be Operated Today Near Cooksville. The Hydro-Electric Commission has purchased two thrashing outfits, for the purpose of demonstrating the extra utility of electric power on the farms. One of these machines will be operated on J. W. Wright's farm in Pett, north of Cooksville, today. It will be taken to Blair and Deon, in Waterloo, next week. Demonstrations will be given during the autumn in various districts, including Norwich, St. Thomas, London, Stratford and Clinton.

Where to Buy Victoria Records

Buy your Victrola Records from Ye Olde Firme of Heintzman & Co., Limited, 193-195-197 Yonge Street. Their handsome Victrola, demonstrating parlors and record hall are the largest and finest on the continent and you are welcome to visit them at any time. A complete assortment of all new records will always be found on hand.

Take Steps to Stop Epidemic

BUFFALO, Aug. 27.—(Can. Press.)—The steady increase in the number of cases of infantile paralysis in this city calls to-day for the establishment of a rigid quarantine over every house in which the disease has appeared.

PROPER METHODS EMPLOYED IN IRELAND

Prof. W. R. Graham of the O.A.C. Found That Co-Operation and Care in Picking and Marketing Are the Reasons for the Success of the Poultry and Dairy Business. Prof. W. R. Graham of the poultry department attached to the Ontario Agricultural College, has returned from a visit to Europe, where he has been studying the methods of poultry raising, egg marketing, packing, etc. He gave great stress to the co-operative systems brought into operation in Ireland and Denmark. He states that the rapid progress in every phase of efficiency in Ireland will eventually give that country a large place in the market. Dr. Graham speaks very highly of the educational system employed in Ireland and makes special mention of the fact that the authorities pay a great deal of attention to the quality of the produce supplied to the local markets. Prof. Graham attended the International Poultry Experts' Association's convention in London, which is held for the purpose of collecting all data procurable for the further development of improved poultry.

Relative Returns

When discussing the relative returns to the producers on both sides of the Atlantic, the professor stated that the price compares very favorably, as they are both getting very fair returns, but where the Irish farmers succeed is the fact that the local co-operative societies have large distributing centres in all the large towns and cities throughout the country. They also give a great deal of attention to the quality of packing as well as to the quality of eggs sent to market, and the sequence is that higher prices are obtained for the extra care taken in the selecting and packing. While in Ireland Dr. Graham held an investigation into the local milk supply, and in one section of the country, within a radius of eight miles, he saw 3000 cows of the milking shorthorn type. These animals were producing an average of 5500 pounds of milk per year each for the co-operative society, which owned them.

Zam Buk advertisement for sore feet, chafed places, blisters, etc. Includes text: 'Sore Feet. CHAFED PLACES. BLISTERS, ETC. Are your feet hot, sore and blistered? If so, try Zam-Buk. As soon as Zam-Buk is applied it cools and soothes injured smarting skin and tissue. Its rich, refined herbal essences penetrate the skin; its antiseptic properties prevent all danger of festering or inflammation; from cuts or sores; and its healing essences build up new healthy tissue. For stings, sunburn, cuts, burns, bruises, etc.—just as effective. Mothers find it invaluable for baby's sores! All Druggists and Stores—50c. box.'

WANT TENDERS ON BRICK AND STONE

School Board Will Aim at Beautification When Erecting New Technical School—Architect Says Stone Bill Will Cost 25 Per Cent. More—Estimated Cost to Be \$700,000.

The advisory industrial committee of the school board have decided to ask for alternate tenders calling for both brick and stone walls in the building of the new technical school. When the revised structure plans were presented before the committee by the firm of Ross & McFarlane, the architects, yesterday afternoon, several members of the committee raised the objection that a building with brick walls would look too much like the average run of school buildings, and would not be distinctive enough in appearance. Mr. Ross, the senior member of the firm of architects, who appeared before the committee, stated that the building of the exterior walls of stone would cost twenty-five per cent. more than brick but considered it would be worth the difference, and it was on his suggestion that the committee decided to ask for alternate tenders calling for both. R. D. Fairbairn considered it would pay the city to expend an additional one hundred thousand or a hundred and fifty thousand dollars more if it meant the difference between an ordinary building and a structure that would be beautiful and a credit to Toronto. With the proviso that they would ask for alternate tenders, the plans as set out by the architects were adopted. This is with the understanding that minor changes can be made at a later date if so desired. The plans, which have already been published, call for a building to be erected at a cost of \$700,000.

USE HYDRO ON GRAND VALLEY RY.

Negotiations Now Proceeding for 200 Horse Power—Petitioners Urging Electrification of Galt-Elmira Branch. GALT, Aug. 27.—(Special.)—It is quite probable that within a short time cars on the Grand Valley Railway, at least as far as Paris, will be propelled by hydro electricity carried from Niagara Falls over Ontario Government wires. Negotiations are now pending between the railway company and the hydro-electric department of the town for a supply of 200 h.p. The class of current is the only obstacle. The practicability of hydro-electric power for street lighting purposes has been effectively demonstrated by G. P. and H. and Preston and Berlin Railway, the first in the province to utilize the new energy. Petitioners largely signed urging the electrification of the Galt and Elmira branch of the G. T. R. have been forwarded to the railway company's headquarters. The advantage of electricity over steam on short lines has been amply proven in scores of experiments. President Chamberlin will investigate the question.

MR. ARMITAGE RETURNS

Rector of St. Mark's Church Welcomed by Large Congregation. The Rev. W. Leslie Armitage, rector of St. Mark's Church, Parkdale, who has recently returned from his vacation, is being welcomed by his usual large congregation. It is needless to mention that he has lost nothing of his eloquence on his vacation, as anyone who heard his tribute to the late General Booth on Sunday evening last must have fully appreciated it.

HYDRO IN YORK

Provincial Commission Will Finance Extension, Civic Department Operate. General Manager Sweeney of the Toronto Hydro-Electric Department stated yesterday that the Ontario Hydro Commission would finance the building of the power distribution lines to York Township and that the Toronto department would undertake to operate the service. The outlook from a business standpoint in these districts, is very bright, especially in Todmorden and that section immediately north of Danforth avenue.

DONKEY ALWAYS BRAYS BEFORE CROSSING TRACKS.

"As little sense as a donkey," is a favorite expression of contempt, but sometimes the four-footed creature shows intelligence far greater than the two-footed species. There is a donkey in Laredo, Texas, one of the best of the Southwest. He is a donkey whose daily performance is entitled to special mention. The donkey is attached to a water cart, a two-wheeled cart, and each time as it nears the track the donkey stops and brays vigorously. No amount of persuasion can get the animal across the track until it has stopped and given notice to trains on the right of way that it is coming.

Applications with testimonials and references to be made to: A. H. T. COLQUHOUN, Deputy Minister of Education, Department of Education, Toronto, August 23rd, 1912.'

At Osgoode Hall advertisement. 'Divisional Court, Before Falconbridge, C.J.; Britton, J.; Kelly, J. Pearson v. Adams; J. H. Cooke for plaintiff; J. M. Godfrey for defendant. Appeal by the plaintiff from the judgment of Falconbridge, J., dismissing with costs plaintiff's action brought to restrain the defendant from erecting an apartment house on Maynard place, Toronto, in alleged breach of the provisions contained in the grant to the defendant's predecessor in title, which stipulated that the lands were to be used only as a site for a detached brick or stone dwelling-house. Judgment—Appeal allowed with costs and injunction granted perpetually restraining the defendant, Britton, J., dissenting.'

LETTER BLOWN FORTY MILES. 'On his farm two miles east of Leasboro, Ill., a farmer the other day found a letter which it is believed had been blown from Bush, Ill., a distance of 40 miles, during a tornado which almost destroyed that town in April. The letter is post-marked Pittsburgh, Pa., and bears the return card of a savings bank. The contents consisted of a letter and four drafts, aggregating \$140. Italian stamps worth \$3.50 and United States stamps worth 30 cents. The letter and drafts were written in Italian.'

Pumps Vim Into The Weak and Debilitated advertisement. 'YOUR VISIT TO THE EXHIBITION WILL ENABLE YOU TO CALL AND EXAMINE MY BELT. I CHARGE YOU NOTHING FOR CONSULTATION. Pumps Vim Into The Weak and Debilitated. IF YOU ARE WEAK OR LACK THE HEALTH AND STRENGTH OF THE BODY THAT YOU SHOULD HAVE MY FREE BOOK CONTAINING GOD NEWS FOR YOU. My book explains why it is probably your own fault that you remain weak and why you are becoming weaker each day. It tells you how I have cured cases which have been given up as hopeless, and wherein you may gain wonderful benefits from the very outset. It is a book used only as a guide for the WEAK. IT IS GOLD TO YOU! yet it will cost you nothing but a post-card or a stamp in writing for it. Now, do not pass this up and say, "It is like the rest of them; I am disappointed and discouraged," but get this book now and be surprised, joyous, at the prospect of a SURE, PERMANENT, HOME CURE. I do not offer you any makeshift assistance. I am not content to give you merely a brief period of relief. Dr. McLaughlin's Electric Belt WILL CURE YOU PERMANENTLY. To men who are run down, weak and puny, and who have lost the force of vitality, who are gloomy, despondent and unable to battle with the cares, and feel generally as if they needed to be made over. If that means you, come to me now. WEAK BACK CURED. North Toronto, Ont., May 5th, 1912. Dr. McLaughlin: Dear Sir—I have worn your Belt for three months and am pleased to say that the improvement has been most gratifying. My back is no longer troubling me. The Belt did its work well. Yours truly, WALTER H. GALLIENNE, 10 Ranelagh Ave., Bedford Park. Electricity is life to the nerves and organs of the body. They cannot live without it. Get back the power and make yourself a man among men. Nature will cure you if you give her the right kind of assistance. The reason your nerves are weak is because they are not properly fed. I don't mean that you don't eat enough. Nerve force is a food that comes from electricity. When your supply of bodily electricity has become depleted, the result is weakness and various complications. FREE BOOK—Cut out this coupon now and mail it. I'll send this book without delay, absolutely free. Call if you can. Consultation free. DR. M. C. McLAUGHLIN, 237 Yonge St., Toronto. Please send me your book free. Name Address Office Hours—9 a.m. to 6 p.m. Wed. and Sat. until 8.30 p.m. T-3-13'

SOCIETY

His Honor the Lieutenant-Governor leaves today for Ottawa to attend the Dominion Rifle Association Meet and will be the guest of Col. Burland.

His Royal Highness the Governor-General, accompanied by the Princess Patricia, performed two interesting ceremonies yesterday morning when he laid the foundation stone of St. Alban's Cathedral and afterwards opened the beautiful new Wellesley Hospital on Homewood place. After the service at St. Alban's, His Royal Highness inspected the St. Alban's School cadets and the princess was presented with a sheaf of beauty roses tied with ribbons to match, which was very effective with her gown of deep blue braided nylon over palest pink satin and large blue hat with feathers to match, and a cluster of small roses.

The royal party also included Miss Pelly and Col. Lowther, the former in rose color and a black hat with biscuit feathers. At the hospital the grounds were in perfect condition and gay with flowers and flags, while most of the smart equipages in town lined the surrounding streets and a huge crowd was gathered in front of the building, a number being stationed at the windows of the reception room, which is hung with delightfully pretty chintz. At the close of the prayers and speeches the royal party was escorted over the perfectly appointed building, which was then thrown open for public inspection and called forth much admiration from the visitors who could not help but be delighted with all the arrangements, which are the last word of modern science.

Mr. and Mrs. Fred Hammond are shortly leaving for England, where Mr. Hammond intends going into business.

Miss Emily Eland, Louisville, Ky., is the guest of Mrs. Glanville, Cliff road, Parkside.

Dr. Gordon, president of Queen's University, Kingston, has returned from a trip to Australia.

Miss Constance Turnbull, Hamilton, has been making a short stay at Roach's Point, has returned home.

The Misses Mary and Ethlyn Grant are visiting their aunt, Mrs. Bakeman, in Vancouver, and will stay with their brother in Victoria before returning home in October.

Mrs. Christopher Baines and Miss Baines have returned from England.

Miss Edna Stewart, who has been visiting her aunt, Mrs. James, at St. Paul and Chicago on her way home.

Miss Stern is visiting Mrs. Blair Robertson in Vancouver.

A number of enjoyable little teas were given yesterday afternoon in the women's committee tea room at the Exhibition, where the pretty green and white decorative scheme and small tables with drawn work cloths made a delightful setting for the well-gowned members of the executive and their

guests, while a magnificent view of the sulphure lake is obtained from the long windows and large balcony. Mrs. Orr's guests of yesterday included Mrs. Woods, the graceful wife of the Scots Guards bandmaster; Mr. and Mrs. Oliver and Capt. Fullerton, who is in charge of the Australian Boy Scouts and came in late with Dr. Orr. At the centre table a large party was seated, in which the Bishop of Toronto, Mrs. Sweeney and Mrs. Geary were noticed. Mrs. Dignam also had a few friends to tea, and Mr. and Mrs. Goullock, with their daughter, were in another party.

Mrs. J. D. Ross and Miss Ross, Vancouver, who are paying visits in town, will go on to Montreal before returning to British Columbia.

Miss Eleanor Davidson, who has been visiting her cousin, Mrs. Hamilton Burns, has now gone on to Bradford, where she will make a lengthy stay before returning to Montreal.

Miss Evelyn Dignam is visiting Mrs. E. W. Day, Edmonton, for several days. She will act as bridesmaid to Miss Elsie Day in her marriage to Dr. Arthur Rooney, which takes place early in September. Miss Dignam will also visit Vancouver before returning home.

Mr. and Mrs. Alfred Hawes left yesterday afternoon for New York.

Mrs. Gaurley is visiting her sister, Mrs. Lumsden, in Vancouver.

Mr. and Mrs. Harry Gamble are visiting Mr. and Mrs. Willie Hope at St. Andrew's-by-the-Sea.

Sir Lyman and Lady Melvin-Jones, the Rev. T. and Mrs. Crawford Brown, arrived in Montreal on Sunday.

Miss Alice Turner and Miss Ethel Turner, who have been spending a fortnight in Boston, are expected back the end of the week.

Mrs. Harpton Walker and Miss Walker have returned from England.

The president and Mrs. Albert Ham are leaving for Montreal on Wednesday, September 4, from four to six o'clock, to meet the council and members of the Canadian Guild of Organists, at 361 Jarvis street.

The Hon. J. D. Hazen arrived in Montreal this week by the Royal Edward.

Mr. and Mrs. Joseph R. Miller are spending the summer in the Rockies.

Mr. Randolph Macrae is spending a couple of weeks in town from Winnipeg.

The marriage of Miss Isabel Polson, second daughter of Mr. and Mrs. N. C. Polson, to Mr. Harold Wilkie Davis, fourth son of the Hon. E. J. and Mrs. Davis, Newmarket, Ont., will take place this morning at the residence of the bride's parents in Kingston.

Mrs. W. B. MacLean is returning from

The Ideal in Hair Goods

We ask your patronage on the sole ground of reliable goods and honest values. It is our policy to use only the highest grade of hair and to spend on it the full time necessary to manufacture it in proper style. Thus our goods are ideal—you can absolutely depend on their reliability.

Our Men's Toupee is the strongest made Toupee in the world. If there was anything better we would have it. We guarantee a perfect fit.

Ladies will find our stock of all kinds of hair goods particularly attractive just now.

We hold the Canadian Agency for the Nestle Permanent Wave, the process by which a lady's hair is waved and stays waved for from six to twelve months. Call and get full particulars—we know you will be interested.

THE PEMBER STORE

127-129 Yonge Street Next the Arcade Toronto

Miss Marion Stanbury is staying with her cousin, the Misses McClure, at Longueuil, Que.

The marriage of Miss Irith Helene Kerr to Mr. George Mattland Scott takes place quietly at three o'clock this afternoon in St. Stephen's Church.

Mr. Harry Beck returned home by the Royal Edward this week.

Dr. G. Sterling Ryerson has returned from his holidays on the Kawartha Lakes. Mrs. Ryerson is still at Sturgeon Point.

The Hon. Adelaide and Mrs. Turgeon left Point au Pic yesterday for Quebec, and from there will accompany Sir Wilfrid and Lady Laurier to British Columbia.

A linen shower was given by Miss E. Maude Hunter, 31 Gifford street, on Friday evening, Aug. 23, in honor of Miss Lottie Campbell, who is to be married early in September.

Mr. and Mrs. J. T. Small, E. W. Mitchell, J. C. Royce, Mrs. F. W. Winter

and George Milburn are at the Royal Muskoka Hotel.

K. M. Van Allen, Miss Van Allen, Dr. J. W. S. McCullough, Dr. J. McCord, E. E. Lennox are at the Royal Muskoka Hotel.

Miss Reeves and Miss Florence Reeves, Yarmouth road, have returned home after a vacation spent in Boston and Waltham, Mass.

Miss C. G. Tipp and Miss Tipp of Wellesley street are in Chicago and Rochester, Minn.

Dr. Edmund E. King and family have returned from their summer home, "The Pines," Hastings, Ont.

Mrs. M. E. Oliver of 252 Davenport road has returned from Old Orchard Beach, Me.

Judge and Mrs. George H. Thompson are spending a few weeks in Toronto as guests of the judge's mother, Mrs. Thomas Thompson, 137 Crescent road. They expect to return home to Cranbrook, B.C., next week.

Where to Buy Victrola Records. Buy your Victrola Records from Y. O. De Firmo of Heintzman & Co., Limited, 183-185-187 Yonge street. Their handsome Victrola demonstrating parlors and record hall are the largest and finest on the continent and you are welcome to visit them at any time. A complete assortment of all newest records will always be found on hand.

LOTS OF MELONS ON FRUIT MART

Peaches Also Were Plentiful, But Melons Sold as Low as 15 Cents a Basket.

Peaches and melons again, but mostly baskets. That is the way the market at the Toronto Fruit Market looked yesterday. The peaches were of all varieties, from Triumph in six-quart baskets selling at 30c, to big fancy St. John's, which brought as high as \$1.25 for a ten-covered eleven-quart basket. There was a good market for them, too, and the supply was greatly diminished by closing time. The melons arrived in quantities in the morning and kept coming all day. Wet weather brings them to the point when an hour or so of sunshine makes them saleable. So many baskets were placed on sale yesterday that the market was glutted. Fifteen cents a basket was accepted without argument for fine ripe fruit, which could not be kept over for to-day's business.

California Malaga grapes were 15c a bushel, selling at \$1.75 the case. The orange prices are expected to steady now, as the shipments are becoming more and more plentiful as the Canadian home harvest nears the close of oranges at present on the market sell at about 4c.

Melons are a bit cheaper and corn is down to 12c the dozen ears. Cucumbers took another drop. The market for narrows is still dead.

For the 20 baskets as follows: Blueberries, \$1.25 to \$1.40 a basket; Canadian apples, 20c to 40c a basket; peaches (Triumph) 30c the 6-quart basket; 20c to 30c the 10-quart basket; 10c to 12c the 11-quart basket; plums, 20c to 30c; pears, 40c to 60c; American pears, \$1 to \$1.25 a case; peaches, \$1.25 a case; melons, 15c to 25c the 11-quart basket; cucumbers, 25c; beans, 20c; tomatoes, 20c to 40c; potatoes, \$1.25 the 90-lb. bag; onions, 20c a basket; corn, 12c the dozen ears; celery, 25c the basket; beets, 20c; egg plants, 65c; Malaga grapes, \$1.75 the case; lemons, \$2.25 a case; oranges, \$4 to \$4.50 a case; Spanish onions, \$1.75 the case.

The Nursery

I wonder if I have given you the impression that country life is absolutely ideal. As a place in which to bring up children I am inclined to think it is. I believe I have stated several times that given proper treatment a child should be physically perfect—especially when he has the advantage of living in the country; and I think I pleaded that every child be allowed to spend at least part of every summer away from the crowded city.

If the resort you choose is near a body of water, the children want no better heaven than a sandy beach and a safe bathing place. The spot at which we spent our resting time was such as this, and you know without me telling you what a time the kiddies had—even the babe about which you read occasionally still talks of "stones in the water." One day at dinner the farmer's wife electrified us by announcing, "That boy has fever again." We stared at her, then at each other, then at the boy—a big fellow of eleven—but no person said a word. Quite unconscious of the consternation she had caused, Mrs. Macintosh continued, "You had better keep him out of the water. He's been in too much. I guess I know all about fever again; all our folks had it regular every spring and fall. We got it catching frogs in a pond every day coming home from school. That boy looks like he has a chill now"—so he had, poor child, he didn't know what awful thing "fever again" might be—and in a little while he'll have a fever and he'll be like that for weeks."

"That sounds like malaria to me," I said. "Is that what you mean?" "Perhaps, but we never called it anything but fever." Thinking over it now, the word must be a corruption of "fever and ague," but at all events it means plain malaria.

Children are very susceptible to the disease, even babies, altho the symptoms differ from those in adults. It has been proved that the bite of a certain mosquito infects a person with malarial poison. Such a mosquito abounds in low, damp, stagnant places. Sometimes, when the child is weakened by attacks of summer complaint develops malaria some time after the summer is over. The poison remained in the system quite a while before it manifested itself.

The baby symptoms are: Loss of appetite, drowsiness, fretfulness, restless nights and a general run-down condition. Later, perhaps after some

weeks, a high fever develops and the mother in alarm consults her physician. Next day we shall deal with the treatment for malaria.

MOTHER HELPS GIRL'S BETRAYER

Negro Gets Girl of 15 Years Into Trouble and Is Protected by Par-ent.

Harold Rolling, the young mulatto, charged with seducing Olive Scully, 15 years old, at Lloydtown, was brought in custody yesterday before Magistrate Clay at the county police court, and committed to the fall sessions for trial, bail being fixed at \$100. County Crown Attorney Greer prosecuted, and T. C. Robinette, K.C., appeared for the defense. Mrs. Scully, the mother of the complainant, desired that the prosecution should be withdrawn as she was willing to marry her daughter, but the court insisted on the law taking its course.

Special Committee to Meet Today to Visit Proposed Site.

To discuss the plans and specifications for the municipal abattoir a special meeting of the committee appointed to deal with this matter will be held in Dr. Hastings' office at two o'clock this afternoon. The committee will afterwards take a trip out to deal with this matter with the proposed location for the market. It is expected that a number of definite recommendations to council will be the outcome.

The largest cave in the Mammoth Cave in Kentucky. This consists of a succession of irregular chambers, certain of which are traversed by the Echo River.

The highest active volcano is Popocatepetl, near Puebla, Mexico; it is 17,500 feet above sea level, and has a crater 2000 feet wide.

Special Low Rates for Western Fair, London, Ont., Via Canadian Pacific Railway.

In connection with the Western Fair at London, the Canadian Pacific will issue return tickets at single fare for the round trip, from Toronto, good going Sept. 6 to 14, inclusive, also a special excursion rate of \$2.55, from Toronto, Sept. 10, 12 and 13. All tickets good returning until Sept. 18. See that your ticket reads via Canadian Pacific. For full information apply any C.P.R. agent on city office, 35 East King street.

Every woman should see the Hydro display at the Exhibition

(West Entrance Industrial Building)

YOU will enjoy the beautiful Hydro-Electric Lighting of the Exhibition grounds, but to appreciate what cheap power means to you in your own home you must see our exhibit of electric devices. This includes:

Electric Fireless Cooker
The greatest improvement in cooking devices yet invented—performs culinary miracles.

The Electric Range
—as superior to the gas range as it is to the old open fireplace.

Electric Table Utilities
—Toasters, Grills, Egg Boilers, Chafing Dishes, Coffee and Tea Urns, etc.

Electric Washing Machines
that really clean the clothes without rubbing them to pieces. "A boon to sore backs."

Hydro-tested "Gladirons"
—gladly loaned you on 30 days' trial. Leave coupon below at the booth.

Electric Sewing Machines
that will stitch all day and never put one in your back—beautiful work, too.

The Utility Motor: For the Ice Cream Freezer, Knife Sharpener, Silver Polisher, Coffee Mill, etc., etc.

Ask every question that occurs to you — our demonstrators and attendants are entirely at your service. They will be delighted to show you everything.

IF THIS IS YOUR BIRTHDAY

Consider well where you place your money and avoid losses. Changes and travel are of doubtful advantage, and careful attention to accustomed tasks is the best course for you. Those born today will have the fault of carelessness, and the desire to keep up appearances will lead them into foolish extravagance. They will choose their friends from among showy people and will be inclined to be climbers rather than to appreciate more valuable things.

Thousands of people chew Chiclets who would not use any other chewing gum. Dainty morsels of the finest chewing gum, crisply coated with the pearly peppermint. Not the horse-mint or the swamp-mint—but Mentha piperita—the peppermint—the true mint—delicately fragrant, cooling and salutary.

Chiclets REALLY DELIGHTFUL

The Dainty Mint Covered Candy Coated Chewing Gum

Chiclets for Dry Mouth and Throat.—In the dry climate of Canada, singers and public speakers find Chiclets a perfect specific in keeping their mouths and throats moist and preventing huskiness of the voice. Chiclets are used freely by everybody. The refinement of chewing gum for people of refinement.

Look for the Bird Cards in the packets. You will find one beautiful bird picture in each packet of Chiclets. Send us any fifty of these pictures with ten cents in stamps and we will send you—free—our splendid Bird Album.

For sale at all the Better Sort of Stores, 5c the Ounce and in 5c., 10c. and 25c. Packets.

Bank Clearings--Rally in C.P.R.--Toronto Ry. Down to 141

GER MARKET
 Quiet
 Sudden Rise in Crown-Charter
 Again - Cobalts

POSITION OF TORONTO IN BANK RECORD
 Toronto stood last week in order of aggregate bank clearings last week, thus maintaining its customary position. Montreal ranked 2nd, a loss of two places, being surpassed by Pittsburgh and San Francisco for the first time in several months. Winnipeg moved up from 15th to 12th, and from their respective positions, and Vancouver came 14th, clearings having increased to a considerable extent, 92.3 per cent. The following table shows the detailed position of the cities of the continent, the record for the week and the comparative figures for the corresponding period of 1911, also the percentage gain:

City	Week, 1912	Week, 1911	% Change
New York	\$1,528,000,000	\$1,528,000,000	100
Chicago	778,000,000	778,000,000	100
Boston	417,000,000	417,000,000	100
Pittsburgh	378,000,000	378,000,000	100
St. Louis	362,000,000	362,000,000	100
San Francisco	302,000,000	302,000,000	100
Montreal	278,000,000	278,000,000	100
Philadelphia	262,000,000	262,000,000	100
Toronto	262,000,000	262,000,000	100
Baltimore	242,000,000	242,000,000	100
Winnipeg	232,000,000	232,000,000	100

Detroit	212,000,000	212,000,000	100
Cleveland	202,000,000	202,000,000	100
Vancouver	202,000,000	202,000,000	100

BEARS ARE NERVOUS
 Charles Head and Co. to J. E. Osborne: There was short covering in the market, with the result that prices advanced materially, despite the fact of active outside participation. Apparently, the bear party was nervous because of the resiliency displayed, and the fact that there will be triple holiday on the 29th, and the fact that the market is a purchase on all weak spots, as it has been over the week, and the market is ready to give way to fair rallies. At the same time, a policy of discrimination in commitments is advisable, the copper to our mind being most attractive.

SHORTS BID UP PRICES
 Erickson Perkins and Co. (J. G. Beatty) wired: Stocks were very firm all day and scored top prices in the last hour for some of the standard issues. Shorts became nervous in afternoon and bid up the general list. Union Pacific showed a better tone on expiration of greatly improved earnings reports now on. The market which worked somewhat higher, but on any sharp bulge we would take profits. Much of today's buoyancy was doubtless due to relief on the part of the government of congress. There is a little time for breathing before the presidential campaign becomes active, and the standard news of large crops and trade expansion we would not be surprised to see a moderate all-around rise in stocks.

TIGHTENED CHECKS TRADING
 Speculation Dwindles to Small Volume in Toronto Market - Prices Generally Steady.

Under such influences as tighter money, the holiday season, and the attraction of the exhibition, speculation in the Toronto Stock Exchange has dwindled down to very small volume. This is of course quite natural at this time of the year, and is consequently causing no surprise among close followers of the situation, particularly in view of the approach of the crop moving season. On account of the enormous harvest in the west, it would be quite within the bounds of reason to anticipate a material stringency in money during the next two or three months, and in consequence brokers are adopting a very cautious attitude in regard to the market, which has been only heightened by the firming of money rates during the last week. The local market yesterday moved pretty much in accord with its action at the opening of the week. Scant prices changes were recorded in the general favorites, with however, a slightly easier undertone characterizing the list on the whole. Thus Toronto Railway, which broke on Monday at 142 1/2, declined still further, selling off to 141, two points below the previous close, on the incoming of small liquidation. The local market yesterday moved pretty much in accord with its action at the opening of the week. Scant prices changes were recorded in the general favorites, with however, a slightly easier undertone characterizing the list on the whole. Thus Toronto Railway, which broke on Monday at 142 1/2, declined still further, selling off to 141, two points below the previous close, on the incoming of small liquidation.

BIG DIVIDENDS DUE ON "MARCONI"
 LONDON, Aug. 27.—The Stock Exchange Gazette says that rapid progress is being made by the Marconi Wireless Telegraph Co. of England, and that the company is hardly likely to pay less than 50 per cent in dividends this year. The recent agreement made with the government regarding wireless stations around the globe is regarded by the directors as most favorable for the company's interests. Last year the company paid 10 per cent in dividends. The shares advanced materially in value some months ago in anticipation of larger dividends.

UPTURN IN "SOO"
 Canadians will be interested in the sharp upturn in the Soo in Wall Street yesterday. The stock opened at 130, and advanced nearly four points to 134, closing at its high level of the day. The earnings of the road have been remarkably good of late, and the upturn movement in the stock has been inspired on that account.

A DOUBLE HOLIDAY
 On account of next Monday being Labor Day, both in Canada and across the border, the Toronto, Montreal and New York Stock Exchanges will observe a double holiday, Saturday as well as Monday. The Chicago Grain Exchange and the Winnipeg Grain Market will hold their regular sessions on Saturday.

CANADIAN MARCONI
 Canadian Marconi sold at 35 for a broken lot on the Toronto Stock Exchange curb yesterday, a decline of 35 cents a share from the last previous sale made just a week ago. The highest price at which the stock has ever sold was 110 1/2, attained last April during the "boom." Last year the quotation was around 31.50.

PERKINS WILL NOT RESIGN.
 NEW YORK, Aug. 27.—Gen. W. Perkins denies that he contemplates resigning from the U.S. Steel and International Harvester boards.

WALL ST. NOTES FAVORABLE NEWS
 New York Market on Up Grade - Sharp Recovery in C.P.R. - Divers Factors Affect Sentiment.

NEW YORK, Aug. 27.—The congressional recess, further confirmation from high official and unofficial quarters of the brilliant crop outlook and unabated demand for steel, iron and copper, the general strength to today's stock markets, London's higher range for our securities was also a favorable influence, albeit the better enquiry for Americans at that end probably had its origin at that end. Opening prices showed gains in all the standard issues, with one and two point advances, respectively, in St. Paul and Canadian Pacific, the latter being especially strong abroad on buying attributed to Berlin. Hariman and Hill stocks as well as the entire granger group manifested an upward tendency. Among the industrials United States Steel mounted to its best price of the year, and practically all the tobacco issues rose three points or more. Later came a demand for various minor specialties, including Colorado Fuel common and preferred, with a twenty point gain for the latter. American Beet Sugar, the Pittsburgh Coal, American Can, Mexican issues, and the local traction, were followed by a further intimation of a recovery, with the general rise well maintained, except in certain issues where evidence of realizing for profits was not lacking. On the whole copper was less a feature than in any recent season. London bought moderately here of Amalgamated and Steel, but its sales of Pacifics probably offset these purchases. Discounts hardened abroad again, with further intimations of an early advance in the bank rate. Firmness was reflected in prices on the Paris and Berlin exchanges. The local bond market was its best, reflecting little of the strength shown by stocks. Total sales par value were \$1,500,000. United States Government registered two advanced one-quarter per cent on call.

PEARSON LINE SHOWED A LOSS
 Dr. F. B. Pearson's merger of railroad and lumber properties effected through the Mexican Northwestern Railway, operated last year at a loss of \$24,800 (Mexican) on account of the internal troubles which beset the public of Mexico. As the previous surplus amounted to but \$319,400, the new year started with a deficit of \$540 to the credit of the company. The total loss of \$22,536, against \$2,182,156 the previous year, and net decreased \$238,274, or 23 per cent.

JOHN BULL'S BANK ACCOUNT IN YEAR 1911
 LONDON, Aug. 27.—A statement issued by the treasury shows that the total amount deposited in the post office savings bank last year was £1,142,331, which, with £168,590,215 brought forward in January, and £4,092,331 paid in interest, made a total sum deposited in the bank of £22,003,078. Repayments were made to the amount of £46,656,568, including warrants issued for £93,293, but not cashed at date, making a balance due at the close of the year to all depositors, inclusive of interest of £176,618,508. The sum of £7,592,171 was remitted to the commission for the reduction of the national debt, making a net sum of £92,783,138 lodged with the commissioner since 1861. Management charges and expenses during the year amounted to £531,852. Total liabilities of the bank, money due to depositors, and on account of expenses remaining unpaid amounted to £176,618,508.

BOOM COMING IN RAND STOCKS?
 LONDON, Aug. 27.—Considerable attention is being paid to the position of the Rand mining companies, and predictions are being made of a revival of interest, and a consequent boom in the gold mining stocks in the fall. The situation of the gold industry in South Africa is increasingly good. For four months in succession the total net profits of the industry have run into five figures, the amount for June being £1,063,634. The dividends for the half year were excellent, and wasteful competition on native labor has been supplanted by a co-operative arrangement. Moreover, the big Rand houses are stating to be laying their plans for a big autumn movement.

FIREWORKS IN C. P. R.
 A sharp recovery in C. P. R. was the most outstanding feature of the New York market yesterday. Opening in New York at 27 1/2, a gain of two points over the previous close, it advanced to 29 1/2, retaining 27 1/2, and closing at that figure. At that level the stock stood a full 7 points above the low price on Monday. Foreigners were reported to be buying the shares, and the manner in which the quotations responded probably inspired short covering in Wall Street, which was the result of a decline had been used to put out stock.

RUBBER BOOM GOES FURTHER IN LONDON
 LONDON, Aug. 27.—Money was plentiful and discount rates were halfter today. Carry-over rates showed little change at the commencement of the general settlement on the stock exchange. American shares ranged from 4 to 4 1/2 per cent. Business for the new account was brisk and the boom continued in rubber shares, also they closed a fraction below the best. Copper shares and Canadian Pacific were active and dearer, and home rails hardened, but consoled sagged.
 American securities opened steady. Fair buying orders were executed during the early trading and prices advanced from 1/2 to 3/4 per cent. Canadian Pacific gained three points on New York and Berlin support. Prices sagged on Wall Street offerings in the early afternoon, but the market hardened on covering later and closed steady.

EXCHANGE OF SHARES OF THE RIO DE JANEIRO TRAMWAY, LIGHT & POWER COMPANY, LIMITED, THE SAO PAULO TRAMWAY, LIGHT & POWER COMPANY, LIMITED, AND SAO PAULO ELECTRIC COMPANY, LIMITED.
 Notice is hereby given that a dividend of one and three-quarters per cent. for the quarter ending 30th September, 1912, being at the rate of seven cent per annum, upon the Paid-up Capital Stock of this Company, has been declared, and will be payable on and after the first day of October next to shareholders of record at the date of business on the 15th day of September, 1912.
 By order of the Board,
 V. B. WADSWORTH, Manager.
 Toronto, Aug. 20th, 1912. 43587

THE STANDARD BANK OF CANADA
 Established 1873
 HEAD OFFICE TORONTO
 It is an advantage sometimes to keep a bank account in the name of two persons, so that either one may make withdrawals. Such an account is called a "joint account." We shall be pleased to furnish particulars.
