And They Were Put in His Hands By the Gladstone Policy.

OUTLANDERS' MASS MEETING
Took Place on Saturday and There Was No Interference by the Burglars.

THE CRISIS ADMITTEDLY GRAVE

Transvaal Armed to the Teeth With the Most Modern Appliances of Warfare.

Johannesburg, June 11.—At the mass meeting of Uitlanders held here yesterday for the purpose of confirming and supporting the proposals of Sir Alfred Milner, the British High Commissioner, a resolution was adopted declaring that "no settlement will be satisfactory which does not provide for the recognition of equal Parliamentary rights for all."

President Kruger's proposals were considered wholly inadequate to satisfy the demands of the emancipated Uitlanders. Sir Alfred Milner was indorsed as the irrefragable minimum acceptable. The meeting was orderly and was attended by 5000 Uitlanders. The Government issued a notice advising the enfranchised Burglars to allow the meeting to proceed without disturbance.

CHAMBERLAIN AND MILNER
Are Both Blamed for Going into the Conference Without Sufficient Information.

New York, June 11.—Henry Norman, in his cable letter to The Times today, refers at length to the critical state of Transvaal affairs. In part, he says:

"Secretary Chamberlain and Sir Alfred Milner are both reproached to-day for having entered upon the conference with President Kruger at Bloemfontein without assuring themselves in advance that some agreement could be reached. Chamberlain is accused of a misunderstanding of the situation. Upon receipt of the petition, Mr. Chamberlain sent to Sir Alfred Milner a letter in which he expressed his surprise at the Transvaal Government, which, although kept in the secret, is known to be in possession of information as to the true state of the situation. Before presenting it, however, one more effort for peace was made by the British Government. It failed, and the world would have been shown that the British Government has done its best to secure an amicable settlement. Any arrangement by negotiation having been impossible, Chamberlain's ultimatum will be delivered immediately. This is what has happened. The new situation has arisen, the new situation being the substitution of a demand from Chamberlain to the Transvaal Government, which the superior power consented for the time to overlook this relationship."

England says: "In Mr. Chamberlain's 'Colloquy' speaking, the situation is now this: 'England has said, 'Will you?' Transvaal has replied, 'I will not.' England has now said, 'I will not,' and an armistice is yet to come."

In considering this grave crisis, the following facts are recalled: The Uitlanders in the Transvaal are four-fifths of the population and pay nine-tenths of the taxes. They are a law-abiding, industrious, pastoral community in one of the richest regions of the world. They have no share in the spoils of the Transvaal, and they are being deprived of their children above the third standard can only be educated in the degrading and expensive manner of the Transvaal. Their children are being educated in the degrading and expensive manner of the Transvaal. Their children are being educated in the degrading and expensive manner of the Transvaal.

Armed to the Teeth.
The Transvaal is armed to the teeth with all the most modern appliances and munitions of war. Johannesburg itself is dominated by a vast array of armaments. The British armaments are being used to oppress the Uitlanders. The British armaments are being used to oppress the Uitlanders.

Boers Intensely Ignorant.
The Boers are so intensely ignorant of the world that, because they defeated at Majuba Hill 500 British troops placed in an impossible position by the impudence of their commander, they believed themselves to be a match for the British Empire. A Dutch Minister in Cape Colony last week declared publicly that 100 Boers could defeat 100 English. The policy of the British Government is good-will between the two races in South Africa. War would mean crushing the Dutch and the Government of the British Empire. The British Empire would be divided into the political parties of England will be the Government of the British Empire. The British Empire would be divided into the political parties of England will be the Government of the British Empire.

War Would Paralyze Mining.
War, too, would paralyze for a considerable time all the gold-mining industries of the Rand, and would, indeed, possibly inflict irreparable injury, for the Boers would doubtless wreck the Government of the British force could cross the frontier. Furthermore, it would be extremely difficult to get the British force to cross the frontier. Furthermore, it would be extremely difficult to get the British force to cross the frontier.

Kruger Holds a Strong Hand.
It will be seen, therefore, that President Kruger holds a hand admirably adapted for bluffing. He knows this better than any body, and he will bluff to the very last moment. His bluff, however, would probably so excite his ignorant people that they would be sure to follow him.

TEN PAGES—MONDAY MORNING JUNE 12 1899—TEN PAGES

AN UNHEALTHY CHAMBER.

THE PRESIDENT'S STEP TO-DAY.

Vice-President Shaughnessy to Ascend to the Top Rung of the Canadian Pacific Ladder.

Sir William VanHorne Will Fill the Position of Chairman of the Board to be Created by the Directorate To-Day.

Arise Thomas G. Shaughnessy, president of the Canadian Pacific Railway Company. There will be great changes done in Montreal to-day, where the regular monthly meeting of the C. P. R. directorate takes place, and where a full attendance of the board has been called.

Some weeks ago The World announced that Sir William VanHorne would, in the near future become chairman of the Board of Directors and that the able vice-president would assume the office of president in the C. P. R. The board meeting to-day will be the first in which Sir William VanHorne will fill the position of chairman of the board to be created by the directorate to-day.

When the board meets to-day, the position which will also be created to-day, that of the most eventful railway changes that have ever taken place in Canada, has at length arrived, and it is understood that at the board meeting to-day Sir William will lay down the president's mantle and that Mr. Shaughnessy will be unanimously placed at the head of Canada's great trans-continental highway.

A Position to be Created.
Sir William VanHorne will, as already announced, maintain his connection with the executive as chairman of the board, a position which will be similar to the office held by the well-known chairman of the VanHorne lines in the United States, Senator Chauncey Depeew.

A Well-Earned Promotion.
The well-earned promotion of Mr. Shaughnessy to the presidency of the Canadian Pacific will, of course, necessitate other changes, and it is probable that this, as well as other appointments, will be held for a little while in abeyance.

Came to Canada in 1882.
In 1882 Mr. Shaughnessy was appointed to the position of general purchasing agent of the Canadian Pacific Railway. The World has heard it stated on more than one occasion by practical railroad men who know that Mr. Shaughnessy saved the Canadian Pacific Railway Company millions of dollars in the first few years he was with the big Canadian concern. He revised contracts, as well as the system of buying and gave careful attention to prices, because he knew the proper value of a paper of steel as well as an express train. It is also said that he saved the company immense sums on construction contracts.

Rapid Promotions.
Two years later, in January, 1884, he was appointed assistant to the general manager. In 1889 he was appointed assistant president. It might be remarked that Mr. VanHorne had also been chairman of the directors in the C. P. R. In 1884, on the retirement of Duncan McIntyre from the vice-presidency, Mr. VanHorne was appointed to fill that position. Then in 1888 when Lord Mount Stephen retired from the presidency, Mr. VanHorne went into the position, which had been filled with a K. C. M. G. six years later.

When They Got Together.
A word here might be of interest. In 1887 William VanHorne, who was general superintendent of the Chicago and Alton, accepted the same position on the Chicago and North Western and St. Paul. At that time Mr. Shaughnessy held his high position and both men worked under the same Board of Directors. A year later, in 1888, Mr. VanHorne was elected a director and promoted to the position of vice-president, which position he held until to-day.

PRESIDENT LOUBET HAD HIS VENGEANCE

Went to See the Grand Prix and Was the Hero of a Great Demonstration.

SAW THE RACE, THEN LEFT
Policemen Were Stationed Every Dozen Yards Along the President's Route.

AND MILITARY WERE EVERYWHERE

A Remark Derogatory to Loubet Started a Riot in a Restaurant and Damage Was Done.

Paris, June 11.—President Loubet had his revenge for last Sunday's outrage at Auteuil. When he drove to Longchamps to-day to attend the Grand Prix he was the hero of a great popular demonstration, expressing itself in one form or another along the whole route from the Elysee Palace to the race course. He remained only a quarter of an hour, just long enough to witness the race, and, having congratulated the owner of the winner, returned to the palace, where he arrived without special incident.

The revolutionists and Socialist organs summoned their readers to assemble along the route of the president's motor car. The president and his party and from the hour of noon thousands of demonstrators set out from Montmartre, Belleville and other working-class quarters, in big organized bands, all wearing a sun with artificial flowers in the buttonhole and marched across Paris, taking up positions along the Avenue de Champs-Elysees and the Avenue du Bois de Boulogne.

A Tremendous Ovation.
They gave Mr. Loubet a tremendous ovation, continuing their cries almost until they reached the Elysee Palace. The president did not hear a discordant cry although there were one or two scuffles before and after he passed. The police and gendarmes were sent out from Montmartre, Belleville and other working-class quarters, in big organized bands, all wearing a sun with artificial flowers in the buttonhole and marched across Paris, taking up positions along the Avenue de Champs-Elysees and the Avenue du Bois de Boulogne.

At the moment of his departure, the president was surrounded by a vast number of demonstrators, who were shouting and waving their flags. The president and his party were surrounded by a vast number of demonstrators, who were shouting and waving their flags.

FURNITURE DEPARTMENT REMOVED TO THE THIRD FLOOR.

TRIED TO CUT HIS THROAT. James Marshall, Despondent. Owing to sickness, slashed his neck with a razor. The ambulance was called about 8 o'clock on Saturday night to 175 Baskerville street, where it was reported that James Marshall, who lives at that address, had attempted to take his life by cutting his throat. Arriving at the house, the ambulance driver found Marshall lying on a bed upstair with blood coming from a large cut in his neck. Dr. Norman Allen was in attendance, and he ordered Marshall's removal to St. Michael's Hospital. The would-be suicide pleaded hard with the constable and doctor to allow him to remain where he was and die. Of course, they would not hear of it, and Marshall was taken to the hospital in a serious condition. Marshall is 64 years of age. He has been suffering from stomach trouble for the past five years. Being unable to work through illness, he became despondent at times. The last two weeks he had been confined to his room with the trouble. On Saturday afternoon Mrs. Marshall went out to purchase some provisions, leaving her husband in bed. When she returned about 6 o'clock she found him lying on the bath room floor very weak from loss of blood. By his side lay a razor and a large

T. EATON CO. LIMITED 190 YONGE ST., TORONTO.

BIRDS AND TUBERCULOSIS. English Doctors Claim That Germs of the Disease Lurk in the Feathers of the Pigeon. London, June 11.—A bill now before the Local Council provides that all owners of cavity birds and other feathered pets see to it once every month from the Health Department certificates of the freedom of their birds from tuberculosis. The bill was framed at the urgent instigation of a number of phthisis experts, headed by Dr. A. Tucker Wise. Numerous cases of consumption have been shown to originate from the deadly tuberculosis germs which breed with such prolific fecundity in the wing and tail feathers of these supposedly harmless fowl. Handbills have already been issued by the Health Department, warning the owners of canaries and other songsters against this avian infection. Particular stress is laid on the danger of feeding birds from the mouth and allowing them to place their bills on the lips. Investigation has shown that the mucus membrane in the throat of the canary is more adapted to the rapid growth of phthisis germs than the most carefully prepared cuttings.

CASUALTIES OF THE WAR. Col. Lippincott Reports 506 Killed and Wounded During March—1029 Since Outbreak.

Washington, June 11.—Among the reports submitted by General Otis concerning the operations of the army in Manila is one from Col. Henry Lippincott, chief surgeon of the army, for the month of March. Col. Lippincott says: "The long list of engagements between our troops and the Filipinos continuing through the month resulted in the following casualties to our command: Killed: Officers, 6; enlisted men, 71. Died from wounds: Officers, 2; enlisted men, 14. Wounded: Officers, 35; enlisted men, 483. Total casualties for the month, 506. Total casualties since outbreak, 1029."

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 88 YONGE-STREET, Toronto. Daily World, 2c per year. Sunday World, in advance, \$2 per year.

THE PACIFIC CABLE. The cable informs us that the British Government has modified its views on the Pacific cable project. It will not be the Government as now inclined to utilize British credit in providing the necessary capital. This information is no doubt correct. The changed policy of the Government was foreshadowed a few days ago, when the Duke of Devonshire, formerly the Government, presided at a meeting of the Empire League, at which a resolution was carried expressing the hope that all obstacles preventing the Mother Country from participating in the project would be removed. It may be taken for granted, then, that the British Government has adopted a new policy on the cable project, but just what interest it proposes to take in the matter the cable does not definitely inform us.

ROCKS GETS IT IN THE FACE. Warned by the Magistrate Not to Go Home, Rocks Does. John Rocks in a very short period has had more than his share of Police Court notoriety. He has been drinking heavily of late and has been a burden to his wife and family that she has been compelled to bear. After several remands he was finally committed to the workhouse on an order of protection from the court. Rocks was lucky enough to have a brother who was willing to pay his fine and the prisoner was released.

A PURELY CIVIL CONTRACT. Senator William A. Mitchell presented a letter to Secretary Hay, requesting that the action of the Ontario Government in prohibiting the export of sawlogs be made the subject of remonstrance to the Government of Great Britain. Mr. Mitchell takes the ground that the Government of this province has a contract with the citizens of the United States and he further alleges that the courts of the Dominion are not open to these American citizens, that the privilege of going into Canadian courts to test the validity of Mr. Hardy's law is denied them. Senator Mitchell's contract is the one between the Ontario Government and the American lumbermen is purely a matter of civil contract. Furthermore the lumbermen are not denied access to the Canadian courts. The Ontario Government must live up to its contracts just the same as private individuals or corporations.

FRANK CURRIE'S SUICIDE. Hung Himself in His Brother-in-Law's Barn at Bothwell. Bothwell, Ont., June 10.—A young man named Frank Currie committed suicide by hanging himself in his brother-in-law's barn this afternoon. He was just recovering from an illness caused from injuries received in a gasoline explosion some time ago. His wife and family are in Roseland, B. C.

A Money-Maker. Many home and foreign newspapers are giving extra attention to a recent important discovery in medicine obtained from the vegetable kingdom which has been found to annihilate all appetite for alcoholic drink in a few hours, even in the most inveterate cases. It is a tonic in effect, non-depressant, non-accumulative, antiodic and sedative in action, absolutely without unpleasant results, and indicated for either sex or age. Many well-known physicians are endorsing this new discovery as being the only physical cure for alcoholism yet discovered which leaves no evil after effects. The option and machine craves also yield to this new medicine, and the beneficial results from its use in aggravated cases of melancholia, nerve exhaustion, nervous and general debility are extremely satisfactory. A strong argument in favor of this welcome help to unfortunate victims of these troubles is that the medicine can be carried in the pocket and taken in absolute privacy, thus dispensing with the publicity, loss of time and expense of an institution treatment.

TORONTO SHOULD BE SELECTED. We are given to understand that the horseless vehicle is about to invade Toronto with a rush. It is said that either Peterboro or Toronto will be selected as the factory for constructing them. We trust that the gentlemen who are behind the enterprise will not side-track Toronto, as they did on the occasion of the establishment of the electric trolley in Peterboro. The men who organized the Canadian Electric Company were Torontonians, and their loyalty to this city should have induced them to locate their factory in Toronto. It is practically the same people who have organized the horseless vehicle company. The factory should be located in Peterboro has an advantage to offer which cannot be obtained in Toronto. It is Toronto capital that is going into the business, and it is Toronto that should be selected as the site for the factory.

PROPOSED MILK TRUST. The establishment of a milk trust in Toronto might not prove an evil by any means. If the trust would be satisfied with reasonable profits it could afford to give the people cheaper milk, or at any rate a

superior article for the same money that consumers are now paying. The milk business of most cities is conducted on a wretched plan. There is no proper inspection of the milk or of the cows, while the distribution of the milk to consumers is much more costly than there is any occasion for. Probably twice as many men and wagons are engaged in the delivery of the milk as there need be. Two or three dozen men cover the same street or district, when two or three would perform the service equally as well. If a trust could succeed in eliminating competition and duplication from the milk business it would effect a saving which alone would prove superior to the present system. With the business concentrated it would be easier to establish an efficient inspection of the milk and the cows. As a rule we are not in favor of trusts, but we recognize that in the case of milk it is quite possible that a trust could give the people a better, cheaper and more sanitary service than they are now getting. But the trust would have to be subjected to rigid inspection and regulation.

SERVICE SHOULD BE EXTENDED. It is to be hoped that the Council will grant the petition of the people living in the vicinity of Munro Park by extending the water service to their summer cottages. Nine-tenths of these people are property-owners in the city. They pass only two or three months at the summer house, and for the brief period that they desire the water. The old argument that the city should not help to build up the suburbs at the expense of the city does not apply in this case. As a matter of fact the occupation of this territory by residents of Toronto, during the summer months, takes it out of the market and prevents people from occupying it all the year round, thereby escaping city taxation altogether. Thousands of citizens visit Munro and Victoria Parks daily and they have a right to expect that these places should be supplied with pure water. The extension of the city mains to the eastern suburbs is almost altogether a Toronto question. Incidentally a few residents of the township may be benefited by deciding on a policy of extension, but practically all the residents of Toronto alone who are affected by the extension are in the double rates in laying the mains and if double rates are charged, there is no reason why the petition of the east end residents should not be granted.

An Invitation

The pleasure of your company is requested at the opening of the new "Slater Shoe Store," 123 Yonge Street, on Wednesday, 14 inst.

It has been found necessary, owing to the increased demand for this famous shoe for men, to open a branch store in this city.

At the opening on Wednesday next there will be an exhibition of the different stages of building "The Slater Shoe" from the leather to the finished article. To see this is to spend a most instructive quarter of an hour—will teach you how shoes are made—show you the hidden parts—lay bare the secrets of strength and workmanship.

An electric display every evening. This is a most bewildering display of color blending in electric illuminating.

A famous city orchestra will render some choice selections afternoon and evening.

Then there are the shoes. They are worthy of a share of your inspection—new stock—latest shapes and styles—men's, boys', youths' and little gents'—all sizes and widths—leathers and colors—every shoe made on the model of a real foot—Goodyear welted. On every "Slater Shoe" the name and price is stamped in a Slate Frame, which is the registered trade mark.

Two "Slater Shoe Stores" in future for Toronto. 89 King Street West and 123 Yonge Street—both up to date and equipped to meet unlimited foot wants. The only stores for "Slater Shoes."

89 King St. West and 123 Yonge St.

J. G. GIBSON. Manufacturer and dealer in every kind of Granite Monument Work, has a large and selected stock of Imported Granite Monuments. Which he will sell very cheap. Call and see him. 130 Cor. Parliament and Winchester Sts.

LOSING ITS INTEREST NOW.

That Alaska Boundary Question is Not

Bothering the People of

Great Britain.

HAVE FAITH IN SECRETARY HAY.

Good-Will on Both Sides, They

Think, Will Be Finally

Reached.

New York, June 11.—The London correspondent of The Tribune says: "The question of the Alaska boundary has not been discussed with any real interest by the English press; one journal has published a map showing the two boundaries claimed, but the essential facts of the dispute are not understood by the public here. Negotiations are still in progress here over a modus vivendi, but as there are so many other questions before the British Government, it is not in haste to commit itself to any settlement which Canada does not sanction. The impression prevails in diplomatic circles here that the State Department is more anxious for an agreement than the Foreign Office, and that a modus vivendi, when arranged, will be evidence of American conciliatory temper; whereas Canada really blocks the way to complete adjustment of all the questions at issue between the two countries and the Foreign Office is content to be a sub-agency of the Ottawa Government in Anglo-American diplomacy."

They Believe in Hay.

The Tribune publishes the following from its London correspondent: "The American-Canadian question has ceased to attract attention, the general view being that it is inconceivable that with good-will on both sides an arrangement will not be reached. The publication of the protocol has already produced a good effect, but undoubtedly this calmness is largely due to the fact that the negotiations are with Secretary of State Hay. He left upon the British public the impression that he was not only a very able but also an absolutely fair minded man, and the people here feel confident that he would not compromise injudiciously upon any conclusion not rooted in justice or necessary for American interests."

Charged With Being Disorderly.

Thomas Kerfoot of 156 Cherry-street was taken into custody by P. C. Welch on Saturday night. He is charged with being disorderly on Milne-street.

COUNTY NEWS

Annual Meeting of Industrial Schools Association of Toronto Held at East Toronto Saturday.

Some of the Upper Tens in England Will Address a Gentleman as "Old Fellow."

YORK COUNTY COUNCIL TO-DAY. WHEREAT LADY ARNOLD LAMENTS

Other Interesting Items Gathered Yesterday From All Over the County of York.

Toronto Junction, June 11.—(Special.)—In the baseball matches played on Saturday afternoon, the Lakeviews defeated the Maple Leaf team of Carlton by a score of 9 to 4 in a five innings game. The Leafs scored 16 against the Whiteaways' 17, and the Carlton Club defaulted to East Toronto. At Lambton Mills, the Methodist Book Room and Publishing House lost to the Lambton Mills team by 27 to 9.

Being the fiftieth anniversary of the day when the Diocesan Church sent out their first missionary, it was observed in the church here as a jubilee day, and the children sang songs and recitations bearing upon the missionary cause.

Popular evangelists MacIntosh and Taylor are holding tent services on Dundas-street. The Christian Endeavor of Victoria Presbyterian Church will hold their annual picnic to Reservoir Park on Tuesday.

North Toronto. Enquiries were being made in the town yesterday for Mr. Edward Manning of Price-street, near the C. P. R. crossing. He has been missing from his home since Friday last. The missing man is over 60 years of age and has been unwell for some time with fever. No notice was taken of his absence until yesterday, as it was thought by his friends that he had gone to an acquaintance's in Davison.

The surroundings of the Town Hall have been much enhanced by the planting of a number of evergreen shrubs.

Mrs. George Mackenzie of Deer Park is seriously ill at her home.

Sherwood Lodge, S. O. E., are preparing to hold a garden party again this year, the first of last year having been most satisfactory.

A fine property, consisting of two acres of land and a large brick residence at the corner of Crescent-avenue and Yonge-street, Eglington, has been sold to the Salvation Army. It is said that Miss Eva Booth will take up her residence here.

Richmond Hill. Friday night last was a red-letter date for the Ancient Foresters of Richmond Hill and the neighboring courts, for on that evening they were visited by Chief Ranger Baird of Court Harmony, Toronto, accompanied by about 30 other members of the court and six members of the Executive Council of the order, namely: Major Snelgrove, of Colborne, Dr. J. H. Hamilton and E. L. Griffiths and William Williams of Toronto. The visitors journeyed to Richmond Hill by a special car and were met on their arrival by Mr. McMahon, D. C. H., and a host of other Ancient Foresters, and escorted to the hall where the performance of the necessary Foresteric business the visitors were banqueted. Major Snelgrove, D. C. H., presided at the banquet by special request. In response to the toast of "The Executive Council" the members of that body responded and eloquently of the splendid progress of the order, especially since Dominion Incorporation a year ago. They also voted a resolution which would ensure the financial stability of all fraternal organizations. During the evening vocal and instrumental music selections were rendered and the visitors returned to the city by special car from first to last a great success.

County News. Samuel Hoover, aged 18 years, son of S. L. Hoover, lot 24, con. 7, Markham, died at the residence of E. B. Duncan, Stouffville. He was taken ill with appendicitis on Saturday, June 3, and died at 10 o'clock on Tuesday. He was a student on Wednesday last. He regained consciousness for a few moments only, when he passed away about 5 o'clock, never regaining his senses. The funeral took place on Friday last.

T. Jackson, councillor for the Township of Scarborough, is going to give a grand garden party at his residence, of which further notice will be given in a few days.

York County Council. The members of York County Council will commence their session in the Court House on Adelaide-street to-day. The session promises to be an interesting one from the many questions to be brought up, and to deal with, notably the appointment of and defining of duties of the York Constables, also a question of promotion of members in the Public Schools. On Wednesday the warden's excursion to Niagara Falls will be held.

OFF-BICYCLE TO HIS DEATH

Michael Hayes, the Well-known Hotel-keeper, Meets a Fatal Accident on Saturday.

Mr. Michael J. Hayes, proprietor of the Union Hotel, corner of Bathurst-street and Farley-avenue, met a shocking death on Saturday afternoon. Mr. Hayes was riding his bicycle west on Queen-street and at the corner of Adelaide-street ran upon the dead strip to avoid another cyclist. In doing so he ran between two wagons and was thrown to the ground underneath the wheels of one of them.

He was picked up and conveyed to the Emergency Hospital in the ambulance. He was in an unconscious condition and was suffering from a fracture of the skull and a bad gash in his chin. Despite medical aid he passed away about 10 o'clock, never regaining his senses. Coroner Johnson, after looking into the case, decided an inquest unnecessary.

Deceased, who was 37 years of age, was born in Toronto and had resided here ever since. He first started life as a printer and worked on The Globe and The Sentinel. Later on he managed a hotel for his mother and 12 years ago took over the business for himself.

Mr. Hayes was highly respected and a member of the C. M. B. A., Knights of St. John, A. O. H., O. C. H. C., Hotel-keeper, St. Mary's Literary and Athletic Association.

Besides a widow, three children are left. Mr. John Hayes, foreman of The Globe composing room and the late Patrick J. Hayes are the deceased and Mrs. William Halloran is a sister.

The funeral will take place to-morrow morning at 9 o'clock to St. Mary's church and thence to St. Michael's Cemetery.

Members of the above lodges will attend in a body.

Trolley Chances Trolley. A collision took place near Munro Park on Saturday evening, when a crowded trolley crashed into another one ahead, the trolley being on Eastern-avenue, was so badly bruised that she had to be cared for by a doctor. After remaining unconscious for some time she was taken home. Several other passengers were slightly injured and all were greatly shocked. The rear car refused to work, hence the crash.

G. S. Davis, a Grand Trunk brakeman, while at work in the Bathurst-street yards Saturday afternoon, was caught between the dead blocks of a train. His left arm and hand were badly crushed. He was taken to the Emergency Hospital.

Charged With Theft. Henry Moore of 115 George-street was taken into custody on Saturday night on a charge of theft. He was charged with stealing a coat and wood yard at 27 Elliott-street, the complainant. He alleges that the prisoner collected \$2 for him and did not make a return of the amount.

BIG DAY FOR THE FIRE FIEND

Mount Allison University at Sackville, N. B., Burned on Sunday Morning.

ONLY BEEN IN USE TWO YEARS

Said to Have Been Well Insured—Prof. Tweedie Lost His Library and Other Valuables.

Sackville, N.B., June 11.—The immense new residential building of Mount Allison University was completely destroyed early this morning by a fire, which started at or near a furnace, which was used yesterday to burn refuse. A portion of the contents was saved, but the valuable library, lecture notes and college prizes were lost, and the housekeeper, Mrs. McDonald, was left homeless. The building cost \$60,000 and has been occupied about two years. The loss is said to be well covered by insurance.

Fire in Rossland. Electric Light Wires Thought to Have Caused Destruction of the Masonic Hall.

Rossland, E.C., June 10.—The Masonic Hall was destroyed by fire last night. Electric wires are said to have caused the blaze. The loss is estimated at \$12,000. Insurance \$12,000, in Phoenix of England.

Fire Engine Capsized. Going to a fire at the war depot one of the engines of the fire department was overturned by a fire engine trying to turn the corner of Columbia-avenue, and the driver narrowly escaped being killed. The crowd promptly righted the machine and it went on to the fire.

Dwelling Burned at Colborne. Colborne, Ont., June 10.—The dwelling house situated on the north side of Durham-street, owned by the late Mrs. Brown, and occupied by William Corman and Alfred Brown, was burned this evening about 8.30. The fire is supposed to have originated from a defective chimney. The contents were insured for \$500 in the Commercial Union. Part of the contents were saved.

A Blaze at Lucan. Fox's Banking House Damaged in the Upper Storeys.

Lucan, Ont., June 11.—The third and fourth stories of the Fox's Banking House were slightly damaged by fire on Saturday afternoon. The fire started in the building and gotten under control before reaching the roof. Smoke and water did considerable damage to the structure. After several hours of hard fighting the flames were subdued, but not until many thousands of dollars' damage had been done. The building was not entirely destroyed. Loss not yet known. Business will be stopped for some time. Origin

MONTREAL BOUNDARY CREEK MINING COMPANY LIMITED.

CAPITAL STOCK \$2,000,000. 2,000,000 SHARES. PAR VALUE \$1.00. 500,000 SHARES IN TREASURY.

OFFICERS:

HON. A. W. OGILVIE, President. W. BARCLAY STEPHENS, Vice-President.
W. JACQUES, Secretary-Treasurer.

DIRECTORS:

HON. A. W. OGILVIE, Senator of Canada, Montreal;
W. BARCLAY STEPHENS, Esq., Manager Western Loan and Trust Company, Montreal.
HON. RICHARD TURNER, of Whitehead & Turner, Quebec.
JAS. G. ROSS, Esq., of P. S. Ross & Sons, Montreal.
W. L. HOGG, Esq., Manager The Investment Co., Limited, Montreal.
HERMAN YOUNG, Esq., of H. & J. Young, Quebec.
T. W. HORN, Esq., President Luxfer Prism Co., Toronto.

TRUSTEES: THE INVESTMENT COMPANY, MONTREAL.

This Company has recently purchased the well-known mining properties, viz: "Sunset," "Crown Silver" and "C.O.D." situated three miles from Greenwood City, in Deadwood Camp, Boundary Creek District, British Columbia. These properties adjoin the famous "Mother Lode" and are located in one of the richest mining districts in British Columbia.

The properties are unencumbered and the Company has about \$12,000 cash, on deposit to its credit at the present time, and without any outstanding liabilities.

The work done upon the "Montreal Boundary Creek Mining Company's" properties is very extensive, and shows an immense body of ore carrying most encouraging values in gold and copper. Upon the "Sunset" alone the following work has been accomplished: a shaft has been sunk to the depth of 200 feet, and 1175 feet of tunnelling done. At the 100 feet level an ore body 70 feet wide was uncovered, which has been proven to be permanent.

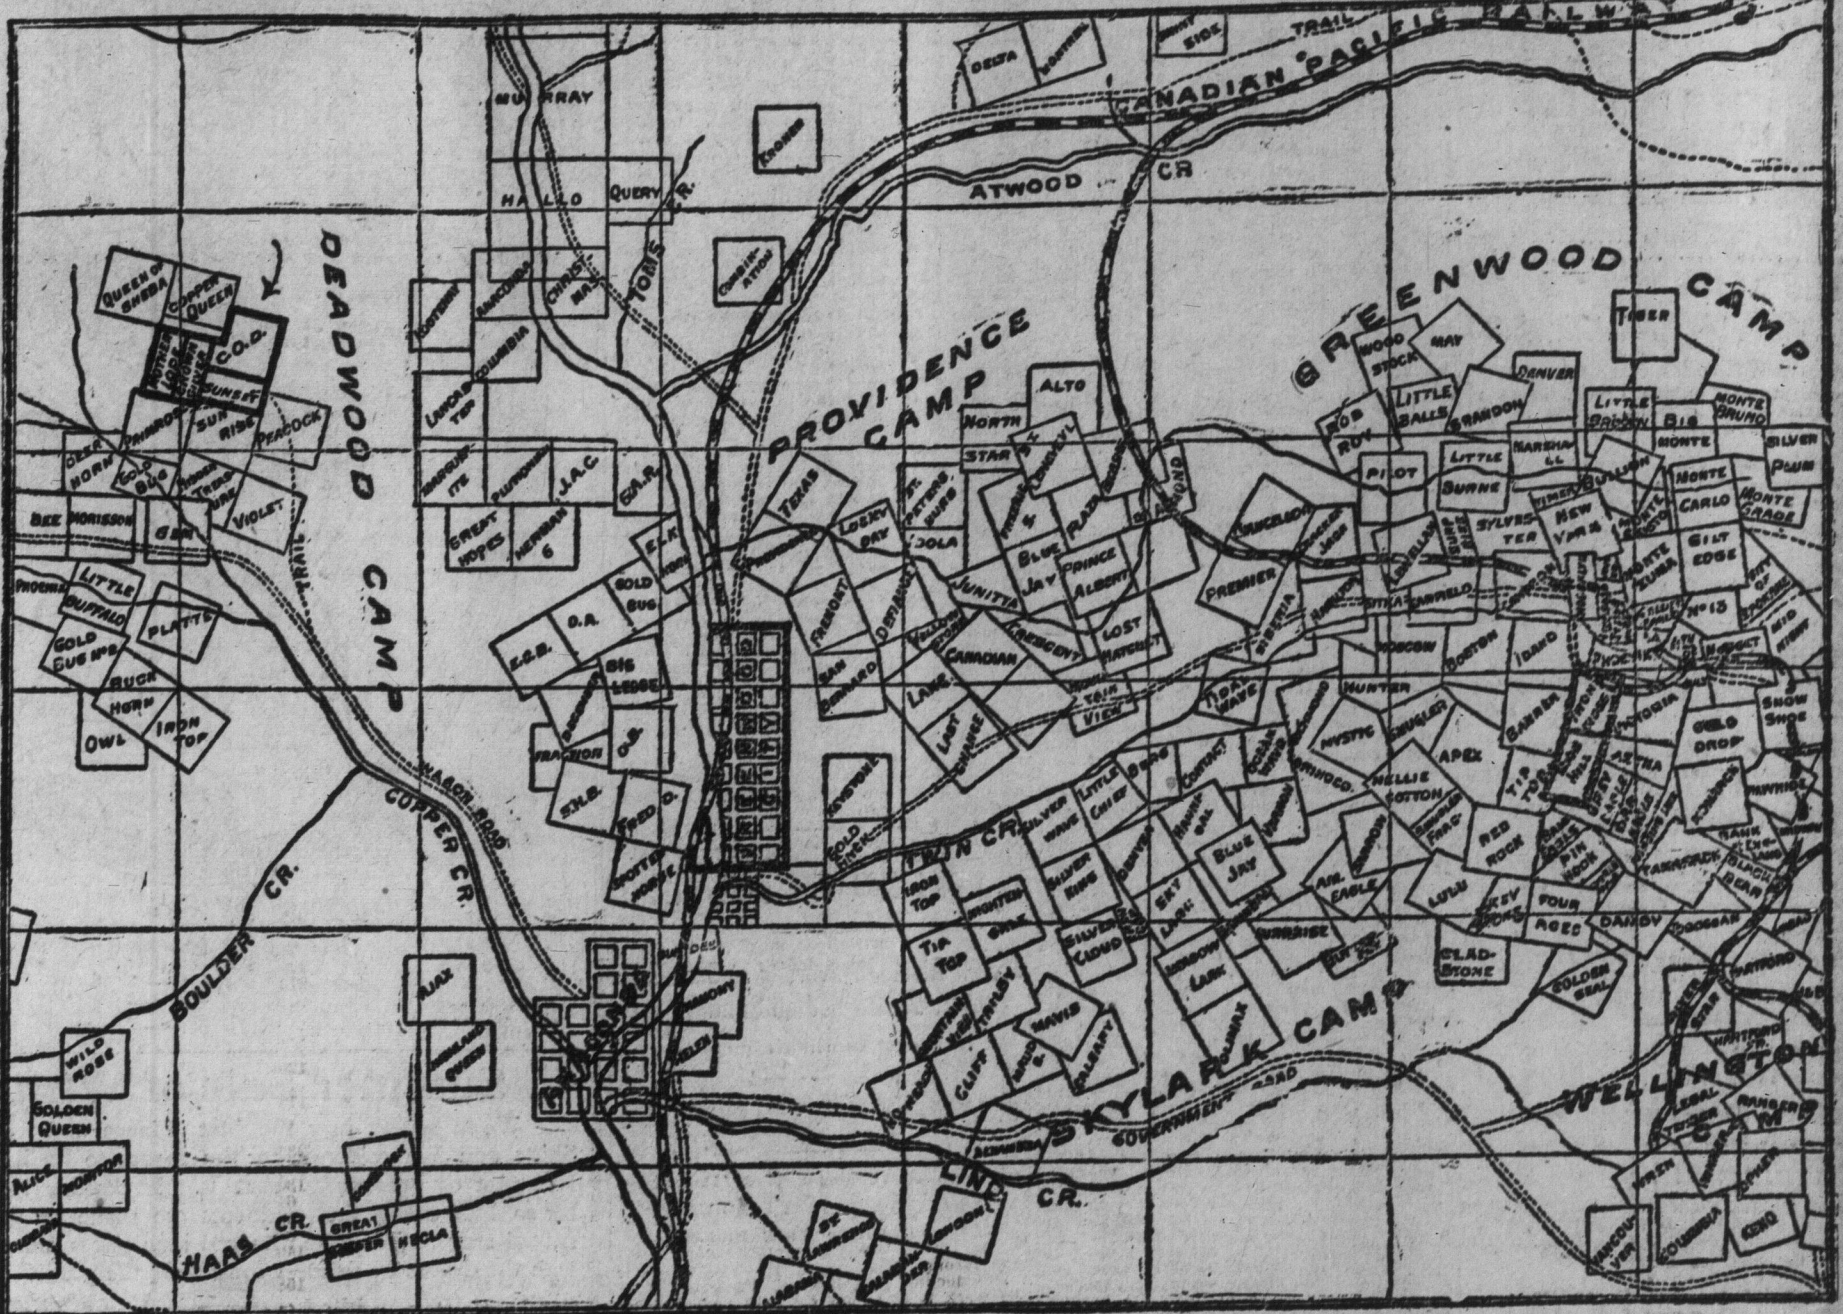

The Canadian Pacific Railway will run across the Company's property, thus affording splendid shipping facilities.

The Company has purchased one of the largest mining plants in the Boundary Creek district which will be in operation within 3 months. The limited amount of stock now offered to the public at 25 cents per share is part of the Treasury Stock, the proceeds of the sale of which will be devoted entirely to equipping the Company's properties with the necessary mining machinery, the mines now being beyond the development stage.

Applications for stock will be received by us and we shall be pleased to give all information in our power to intending applicants.

BRITISH IDEA OF B. C. MINES

Development in East Kootenay and the Slokan—Bonds and Sales Being Made.

WEEK'S STOCK TRANSACTIONS.

Property in Boundary Country Transferred—Saturday's Closing Quotations on Exchanges.

All Canada is interested in the attitude of British capital towards our mines. In its leading editorial of last week, "The London Mining Journal" says: "As far back as 12 months ago, it was predicted that we were on the eve of a British Columbia 'boom,' but it has not made its appearance yet. It is, of course, within the bounds of possibility that the event may take place this year, but it would be rash to state that there is the least indication that we are on the eve of the 'boom' now and in fact there is less evidence of this than there was 12 months ago. For ourselves, we do not expect to see any great activity in British Columbia until the autumn, even if we see it. For this apathy—for it is hardly exaggeration to call it so—there cannot be any special explanation. It may be that the attention of the public is claimed elsewhere, and that it has no inclination at present to turn in too many directions at once. For instance, the ever-changing restless state of affairs in the Transvaal and gold fields are suffering from neglect. However, their turn should come presently, even though they may have to wait for many months. In the meantime British Columbia, though still in the incipient stages of its development, is progressing slowly but surely, a fact that is forcibly demonstrated in the pages of the report of the Minister of Mines for 1898. Altogether, the mineral prospect for the past year was sufficient evidence to prove what the colony is capable of, if more capital were forthcoming to exploit it."

In East Kootenay.

Development operations are progressing favorably in East Kootenay. Mr. E. J. Walsh, according to the Fort Steele Prospector, confirms the strike of rich ore reported last week on the Big Chief mine. The ledge is said to be 15 feet in width, and the ore is turning out very rich, free gold being visible to the naked eye in many places. The group has been bonded to a Canadian syndicate for \$100,000. This property is situated on Boulder Creek, a tributary of Wild Horse Creek. The controlling interest in the Chickamaug, Stone, Mabel, Oregon and Riverside attention claims on Fall River, near Fort Steele, has been sold by W. E. Johnson to Charles T. Deas, of the town just mentioned. It is said that Peter Lewis and Mortiz Thoresen of Spokane are interested with Mr. Thies in the deal.

Activity in the Slokan.

Up to the middle of May the silver-lead mines of the Slokan District, in British Columbia, had shipped 12,000 tons of ore. Of this, the Payne shipped nearly 5,000 tons, the last chance over 2,000. The Queen Boss about 1,200, and the White Water over 900. The Boston mine of the Slokan is shipping ore to London, Eng.

High Sutherland has taken up his bond on the Evening Star No. 8, Eclipse No. 2 and the Unknown group. The price of the Properties was \$41,000. It is said that \$120,000 has been offered for the Monitor mine, near Three Forks, and that there is \$100,000 worth of ore in sight in the mine. The owners are: George

Petty, A. R. Finland, Miss E. J. Kendall and Ernest Harrop. Work is being actively pushed on the Queen Boss, Palmetto, Revo, Good Enough and Electric Bells. Montreal Men Buy Mines. A deal was consummated last week by which the Madison group of three claims near Kaslo, B. C., the property of J. C. Eaton, was sold to McCaig, Rykert & Co. of Montreal. Only three weeks ago W. W. Warner, who has been working the property under a lease, struck an ore chert in the No. 3 tunnel on the Argenta claim which showed 10 inches of grey copper, giving an aggregate assay value of \$200 to the ton. A contract was let to Mr. Warner to run 100 feet on No. 4, which is now in 25 feet, and for 400 feet on No. 5, which will be started at once. All these tunnels are being driven on the ledge. Sixteen men will be put to work immediately, working three shifts. W. W. Warner engineered the deal for Mr. Eaton and Mr. Bernard McDonald expected for the purchasers. It was a cash transaction, of which the consideration is said to be \$20,000.

Deal on for the Cascade.

The Cascade, B.C. Record reports a rich strike on the Cascade claim. The property is owned by S. J. Brailo and J. D. Brough and others. It is developed by a 40-foot shaft, which shows up a 4-foot ledge. The bottom of the working is all in quartz, and assays from \$25 to about \$10 to the ton. The property has been bonded to Mr. J. B. Ferguson of Vancouver.

Sales of a Week.

Messrs. T. G. Williamson & Co., mining brokers, have compiled the following returns of sales in the Toronto Mining Exchange during the past week, with highest and lowest prices. The sales aggregate 227,700 shares, as compared with 292,410 sold during the previous week. Golden Star was again in the lead, with sales of 227,700 shares, closely followed by Van Anda, with 35,000 shares. Hammond Reef, Dardanelles and Smuggler were also in good demand.

The Montreal Boundary Creek Mining Company. Buchanan & Jones report that the Montreal Boundary Creek Mining Company stock placed with them is being rapidly taken up, almost entirely in large blocks, for investment. As no applications for less than 1000 shares are accepted, the small-trader speculator cannot touch it. Mr. C. D. Porter, co-buyer for the Kansas City Smelting & Refining Company, says that he considers the Boundary Creek District the greatest copper district in America, the ledges being immense, the ore being self-fluors, and the formation being such that they will go to unlimited depth. He also says that the mother lode, which adjoins the Crown Silver location of the Montreal Boundary Creek Mining Company, and which is owned by the British Columbia Copper Company, has shown steady improvement with depth, and that the Boundary Creek District has much larger bodies of ore, carrying higher grade of copper than the Rossland mines.
