29TH YEAR

PROBS: Moderate to easterly wind, fine, warm thunderstorms in southwestern counties

HERE TO SPEED TRAVELER'S HOLIDAY

Weather Will Be Fine and Warm and Program of Events is Varied Enough to Suit All Tastes.

Whether, brother? Where are you going with your wife and family, or with the girl you love best, to-day? Consider the "probabilities."

Moderate to fresh winds, mostly easterly; fine and warm. Local thunderstorms in southwestern counties. Are you going for an exciting ride in the romantic streets of this beautiful city in one of R. J.'s excellently appointed vehicles? To-day can be spent pleasantly by the man whose capital is only ten cents. He can go (to the) it will be necessary to leave his home (for a ride on his back and rest. If he penetrates far enough into the forest he can even have peace and sleep. He is about Sunnyside or the Humber? Boating is one of the joys of life if indulged in properly. Humber Bay is a delightful place on which to paddle or row. It is, to a large extent, sheltered, by points on either side, and it is not in the southwestern counties. If you are not an adept boatman the shore slopes gently and by going along within 200 feet of land it is possible in most places to walk on the water. The boat is capsize. A delightful afternoon can be spent in taking a trip along the shore either to Long Branch or to Toronto Island. Then there is the Humber River. It is an ideal place to go, the beware of an upset, even near shore, as the banks are treacherous and slope suddenly into deep water. Can you swim? Swimming can be indulged in, in perfect security, at either Sunnyside or the island, at the places appointed.

For the Sports.
Are you a sportsman? Like lacrosse? Scarborough Beach for you. Do you happen to be a baseball fan? Island, 10 a.m. and p.m. Golf? Lambton. Water sport, Parkdale C. C. Athletics? Odd-fellows, Exhibition, and Kew Beach. Foot or Lee-avenue. Bowling? Special to Lorne Park. Swimming? T.S.C. will swim across the bay. Want anything more? Make it yourself then.

If you are going out for a "bait" you can get your money's worth at the island or Scarborough Beach. Try the Chute the Chute, or the "Pigeon" take a girl along as that is three-quarters of the fun.
Have you the rover's instinct? Hamilton is not so bad and a trip on the lake is fine; worth going to Hamilton for. While there you can view the Kinross house or the glorious "mountain" on a clear day the whole city, the bay and the lake can be seen from the summit. The bird's-eye view is worth climbing for. If you cannot afford to ride, Burlington Beach is also a nice place.
Niagara Falls is the finest sight on earth. People travel from the antipodes to see it, so it must be worth looking at. There is no reason why everybody in Toronto should not see it some time. A good line of steamers runs to Lewiston, and the Niagara River alone is worth traveling a thousand miles to see.

Across the Lake.
St. Catharines will repay, in enjoyment, a visit. It is a pretty city. The boat ride is delightful. The island is Port Dalhousie. The port is not much of a place, but the locks are interesting objects, especially when a boat is going thru. If you have plenty of nerve on tap jump on board a vessel and ride down the locks. The ride does not call for the nerve; it is needed when the ship's officers ask you why you are there. However, if you get permission it will in all probability be granted as they are gentlemen who "go down to the sea in ships."

Obow Beach is an interesting place, in which to spend the day. Fast trolley cars run to Lockport, Rochester and Buffalo from there. There is also an amusement park.
Have you been longing for the theatres to open? Once again the deplorable of the joys and sorrows of life are with us. Shea's Theatre opens to-day and so does the Majestic.
Both Hanlan's Point and Scarborough Beach are offering special attractions. Have you decided once a place to go yet? If not, stay at home. You may travel a thousand miles and find nowhere so desirable as Toronto, nor so full of pleasant and attractive entertainment.

Knights of Columbus.
The Knights of Columbus will inaugurate a new lodge in Toronto to-day. A large delegation of the members of the order will arrive from Montreal and other Canadian points early this morning.
Among the guests at the King Edward is Harriet, the wife of the late Earl of the Argentine Republic at Ottawa, who is accompanied by his wife and child. Mr. Justice Harvey and wife of Edmonton are also at the King Edward.

Invite King Edward.
WINNIPEG, Aug. 1.—A committee of the Selkirk Centennial Exposition for 1912 wanted on Earl Grey Saturday night presented their invitation to King Edward to open the fair and, falling him, the Prince of Wales. Earl Grey and party left for the west to-night on route to the Yukon.

Where to Spend the Day

Lacrosse—Toronto v. Tecumseh, Scarborough Beach, 2 p.m.
Baseball—Toronto v. Providence, 10.30 a.m. and 3 p.m.

DOG HAD RABIES BIT LITTLE GIRL

Brantford City Council Sends Daughter of Bert Martin to Pasteur Institute.

BRANTFORD, Aug. 1.—(Special.)—The municipal authorities at a conference Saturday evening decided to send the 2-year-old daughter of Bert Martin to the Pasteur Institute, New York, for treatment.

She was bitten over three weeks ago by a mad dog. The dog's head was sent to Ottawa, and a telegram was received Saturday stating that the dog had died from rabies. The child was badly bitten in both legs.

Altho the wounds have all healed over, it was decided by Acting Mayor Rossall to take precautionary measures at the city's expense.

Makes a Hero of a Coward at One Cut

Dr. Bonnier Announces It is Necessary Only to Sever a Small Nerve.

PARIS, Aug. 1.—"Such emotions as fear and melancholy are conveyed by a small nerve which springs from the human brain near the medulla oblongata, the top of the spinal cord."

So announces Dr. Bonnier, a distinguished surgeon, who adds that he has removed this nerve and so relieved greatly persons suffering from melancholia and timidity.

If you are going out for a "bait" you can get your money's worth at the island or Scarborough Beach. Try the Chute the Chute, or the "Pigeon" take a girl along as that is three-quarters of the fun.

Black Man's Skin Changes to White

ROCHESTER, Aug. 1.—Jacob Thomas, a remarkable colored man, died to-day in Le Roy.

Thomas' color in the last twelve years changed from the darkest hue of the negro to white, so much so, that he would be passed in the streets as a white man.

IS STRICKEN IN CHoir DURING CHURCH SERVICE

James Pattison, Prominent Fergus Merchant, Dies From Hemorrhage of the Stomach.

FERGUS, Aug. 1.—During church service this morning, James Pattison, a leading merchant of Fergus, and a member of St. Andrew's Presbyterian choir, took a hemorrhage of the stomach and was carried from the choir in a dying condition, passing away almost instantly.

Several in the congregation fainted and the service was discontinued. Mr. Pattison is the only son of a widowed mother. He was at one time a member of the council, is a director of the Fergus Horticultural, the Agricultural Society, a prominent Mason, and leading Conservative.

Killed in Runaway.
VANCOUVER, July 31.—Benjamin Friedman, manufacturer of the Robello Cigar Factory, was killed this morning by his horse running away. The horse swerved into the curb and in attempting to balance the rig Mr. Friedman leaned too far out of the rig and his head hit a telegraph pole. He died in the ambulance on the way to the hospital.

Falls Under Train.
MONTREAL, Aug. 1.—The 23-year-old son of Mathew Moody, manufacturer of Terrebonne, fell under the Quebec train last evening and was killed.

Drowned in a Slough.
WINNIPEG, Man., Aug. 1.—Henry Iers, a farmer of Pirdale, Manitoba, was drowned yesterday while bathing in a slough.

WHO KNOWS WM. ROBERTS?
Friendless Scotchman, Thought to Be Well Connected, Dies at St. Michael's.
Wm. Roberts, a sectionman, 30 years of age, of St. Michael's hospital yesterday morning, and the officials of that institution are anxious to find his relatives, if he has any in this country, and it is believed he came from Paisley, and it is the impression that he was well connected.

TARIFFITES ARE SANGUINE OF VICTORY

Col. G. T. Denison, Returning From England, Reports Impression of Situation and Opinion of Chamberlain, Milner and Kipling.

"I saw Mr. Chamberlain at his home," said Col. Denison last night at Heydon Villa, on his return from England. "and found him in much better health than I expected. Mrs. Chamberlain said he walked regularly at least half a mile every day in his grounds. Mr. Chamberlain's mind is just as clear as ever and he is full of the question of tariff reform."

Col. George T. Denison is home again. The Douglas champion of British imperialism has been renewing acquaintance with Rudyard Kipling, Lord Wolseley, Lord Roberts and Rt. Hon. Joseph Chamberlain. The colors of Toronto friends will be delighted to see that the ocean trip and well-earned vacation have added a ruddy hue to the familiar countenance of the esteemed civic magnate.

Germany England's Carriage.
The feeling respecting the relations of England and Germany, said Col. Denison, was one causing concern. The opinion prevailed among such men as Mr. Kipling that the trade rivalry was similar to that between Athens and Sparta, or Rome and Carthage, and that sometime it would have to be fought out.

He was struck by the large number of people out of employment in England, and the evidence of pauperism. While the farmers were a little more hopeful the general trade conditions appeared to be rather worse than observed during his last visit to England three years ago.

France Prospering.
"I spent three weeks in France," said the colonel, "and everywhere I went, from Calais to Tours, I was struck by the evidences of general prosperity. Every portion of the country was highly cultivated. There were no waste lands there, and it could not help putting the French prosperity down to the protection accorded agriculture. It may have been due to accident, but I did not see signs of a lack of employment, or pauperism, and very few beggars."

The only public function which Col. Denison attended while in England was that of the Comptrollers' Club, presided over by Lord Milner. Mr. Kipling and about 150 others were present, including several journalists from various parts of the empire. Mr. Kipling made an address in which he took a serious view of the situation as related to the tension with Germany, and in keeping with his poem, "The City of Brass."

How Render Surest Help.
Col. Denison gave his views on the duty of Canada in connection with imperial defence, expressing the sincere hope that the representatives of Canada would let the representatives of Canada know in what way the Dominion could render the most help—not what would best suit any political party. Then the Canadian people would be very likely to see that the government did the right thing to do.

Tariff Reformers Expect Change.
In consultation with Lord Milner, Mr. Chamberlain and other tariff reform leaders, he found the greatest confidence that there would be a complete change at the next general election.

The impression seemed to prevail that the old Liberals who inherited the traditions of the old Whig party would unite with the Conservatives to oust the Asquith government. Public opinion as indicated by the by-elections was that a small Socialist tail was trying to trouble the Liberal party.

**MEXICO AGAIN ROCKED
MORE SEVERE THAN FIRST**

Many Buildings Cracked and in the Provinces Widespread Disaster is Reported.

MEXICO CITY, Aug. 1.—Mexico City was again severely shaken by an earthquake Saturday. A shock more severe than any yet experienced rocked the city for one minute and 40 seconds at 12.43 p.m.

No great damage was done, the innumerable public and other buildings were cracked. The national palace suffered considerably.

Reports from Governor Dominio Flores of the State of Guerrero, declared that in Acapulco the largest and strongest buildings were razed by the force of yesterday's tremors, and there has been heavy property loss throughout the section.

BRITANS IGNORE INVASION TALK

German Balloon and Naval Activity no Longer a Nightmare—Rest in Political World.

CHICAGO, Aug. 1.—T. P. O'Connor's letter to the Tribune says: Politics in Britain has been quiet for the last week owing to the suspension of the gigantic fight in the house of commons over the budget, but the week nevertheless was not uneventful. It began in a bad fit of aeroplane monomania, but the scaremongers show a diminution of their power in frightening the masses, as no body suggested even the danger of an invasion by balloon.

Another eloquent sign of the loss of the influence of the scaremonger of a few months back is that Asquith and Balfour in the debate in the house of commons on the defenses of the empire, agreed that an invasion of England in force by Germany or any other power was quite impossible so long as the British navy retains its present supremacy.

The presence of Botha, ex-President Steyn, and other heroes of the Transvaal war listening to the debates from the gallery of the house of lords on the measure recently passed for the unification of South Africa, with everybody praising the Transvaalers, and Lord Milner sitting in grim silence, was one of the most dramatic contrasts in British politics.

The Transvaalers everywhere were received with warm welcome.
The Irish land bill made some progress this week, but now is postponed for three weeks. It now is certain the bill will not be rejected by the house of lords, but may be so mutilated as to make impossible an acceptance by the Irish party.

The bill will not reach the house of lords till the first week in September, and the fighting at close quarters begins therefore at the end of September.
The general political situation at the end of this week is favorable to the government. Lloyd-George and the budget were victors at all the by-elections.

The budget has been the most invigorating tonic the Liberal party has received for many years, and to-day, after four years of office and in spite of the many butlets by the house of lords, the Liberal ministry is stronger than ever. This is an unusual occurrence in British politics, where the fourth year usually finds the ministry of whatever party, going rapidly downhill.

20,000 HOUSES BORN IN OSAKA

Area of Four Square Miles, With City's Best Structures Swept and Many People Suffer Hunger.

OSAKA, Japan, Aug. 1.—Confusion still prevails here as a result of the Saturday disastrous fire. Thousands of persons are homeless and hunger is staring many of them in the face.
A system of relief has been organized by the municipal authorities, but it is inadequate. Outside cities and towns are assisting.

The number of casualties has not yet been determined, but hundreds of injured persons are crowding the hospitals.
The latest estimates are that 20,000 buildings were destroyed, including banks, the stock exchange, the museum, government edifices, and factories.
Losses are given roughly at several million yen. It is feared that consequently some of the insurance companies will fail.

The confagration lasted more than 25 hours. The streets of the city are very narrow, and the houses mostly of wood construction.
Under a strong breeze therefore the buildings were easy prey for the flames. The firemen fought valiantly against the odds of lack of water and wind, and many of them fell unconscious.

The belongings of the people who were able to save anything from their burning homes are piled in great heaps along the railroad tracks from Osaka to Kobe, where they were removed early Saturday morning when the fire broke out.
All day Saturday and far into the night the male populace assisted firemen and the troops in quenching the confagration. An area of over four miles square, containing some of the city's handsomest structures, including the Buddhist temple, the largest in the world, was burned over before the fire was controlled. The stock exchange, one of the most important of this country, was entirely destroyed.

This loss, it is believed, will tend to dislocate the business of Osaka, which, with its manufacturing concerns, is one of the chief commercial cities of Japan.
The emperor is deeply concerned over this disaster.

MACHINE GUN MELTS PARADE

Striking Miners of Glace Bay March Into Formidable Array of Militia, But "Retreat in Good Order."

GLACE BAY, N.S., Aug. 1.—(Special.)—The great procession and picnic by strikers, planned by the U.M.W., took place on Saturday. On Friday action was taken at Dominion and Glace Bay to prevent the procession from being pulled off, the fact of Saturday being payday and that a large gathering on that day would be dangerous to the place, being used as an excuse for such action.

The United Mine Workers were at first inclined to consider this objection and make a modification of their plans, but later they alleged that it had been discovered that the draft of the bylaw passed at the emergency meeting of the Dominion town council and the requisition sent to Mayor Douglas were both prepared in the office of the Dominion Coal Co., so they decided to proceed with the program as announced.

Proceedings were commenced by speeches from the leaders of the U. M. W. The men were exhorted to believe in a gentlemanly manner, to respect law and order, and to respect the officers of the law, all of which the men carried out to the letter.
After the speeches the men formed up and marched up Commercial-street to Senator's corner then, turned up the street leading over Chappell Hill and out to Bridgeport and Dominion.

The procession as it moved along carrying Union Jacks and banners with various mottoes was quite imposing. Estimates placed the number of men walking in the procession at nearly 3000.
Everything went smoothly until the procession reached Bridgeport. There on a mound near the railway crossing stood a company of soldiers at attention with fixed bayonets and a machine gun also commanded the highway. A little further on where the road turns to the westward and crosses the line of the Town of Dominion a formidable array of military were drawn up supported by a Maxim placed in position to take the U. M. W. workers.

When the procession came near to the first military position the order was given "right wheel, countermarch, and without the slightest demonstration the big procession headed a way back to the westward and across the town hall area speeches were made by Messrs. McDougall, Boufford, McCullough and McLennan. Strong language was used when discussing the fact that a body of peaceable citizens assembled for lawful purposes were held up on the highway and threatened with slaughter by Maxims and rifles, at the instance of the Dominion Coal Co. The proceedings closed by singing God Save the King, and the crowd dispersed to their homes.

10 DEAD; 60 INJURED IN TROLLEY COLLISION

Two Electric Trains Come Together Head-on on Spokane Railway.

SPOKANE, Wash., Aug. 1.—Ten persons were killed and at least sixty were injured in a head-on collision of two electric trains on the Spokane and International Railway late Saturday afternoon.

The week occurred at Coldwell, Washington, a station between Couer D'Alene, Idaho, and Spokane. Both trains were going at the rate of about 15 miles an hour. They crashed together without warning.

The heavily laden coaches were crushed, and the men and women in them were thrown from their seats, some being hurled to the tops of the coaches, while others were sent flying thru the windows. Several coaches left the tracks, and passengers were caught under the pile of broken wood and steel.

A partial list of the dead includes: Will Allen, Wenatche, Wash.; Walter Dalquist, Spokane; A. T. Whitney, an attorney of Memphis, Tenn., and an unknown woman and son.

TARIFF REPORT ADOPTED.

WASHINGTON, Aug. 1.—The house last night adopted the conference report on the tariff bill. The measure is expected to be passed by the final vote, and Chairman Payne was the central figure of an enthusiastic and congratulatory crowd of colleagues.

DONS TO SUBURBS SON SEEDS OF PELLET

Official Spain Claims Barcelona is Calm, But Another Story Says Sanguinary Combats. Still Continue.

PARIS, Aug. 1.—Altho official Spain minimizes the Catalan insurrection and insists that the revolt has been crushed, a far different story emanates from the frontier.

Refugees and travelers declare that the revolt is still rampant, and that desperate combats continue at Barcelona, where 50 revolutionists are reported to have been wounded in a conflict which occurred as late as Saturday night.

Information concerning the actual situation in Barcelona and the rest of the province is rarer to-night than ever before. Altho some of the news from the frontier is from revolutionary sources, and, therefore, open to suspicion, more reliable intelligence leads to the belief that altho Barcelona is calmer, the insurrectionists have taken to the suburbs and the outlying country, where they are sowing seeds of revolt and inflaming the populace to maintain the struggle to the bitter end.

Provoking Bands.
Barcelona Province is in the hands of prowling bands of workmen, heavily armed, who occupy the railroads and highways to prevent communication, and who refuse entrance to new comers. Casan de la Selva in the hands of the revolutionaries, and at Palamis, where the monastery was fired upon and the monks tortured, the situation is described as critical and the lives of foreigners endangered.

The opinion in semi-official circles here concerning Spain's internal condition is pessimistic and the belief is expressed that the trouble is not yet over. Official Madrid announces that Barcelona is tranquil, but qualifies this statement with the words: "This is especially as in the centre of the city."

Convoy Ambushed.
From Melilla comes the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves from the attack of lack tribesmen.

Rumors are afloat that a general strike will be launched to-morrow at Madrid, and that strike is being organized in the Basque region. All persons subject to military duty are forbidden to leave Spain under grave penalty, and elaborate measures are being adopted to forestall a possible outbreak in the other provinces of the country.

Official Version.
MADRID, Aug. 1.—An official statement issued here says that the latest reports from Barcelona are that the fighting at Barcelona is unknown, but that the Madrid garrison is still in hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but that the Madrid garrison is still in hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but that the Madrid garrison is still in hostile.

Pastor Russell's Sermon

People's Pulpit, In This Mountain—Text: "And in This Mountain Shall the Lord of Hosts Make Unto All People a Feast of Fat Things" (Isaiah, xxv, 6).

ST. JOSEPH, Mo., Aug. 1.—(Special.)—The Bible Students' Convention is in session here. Pastor Russell of Brooklyn, N.Y., addressed the convention today. One of his discourses follows: "As you are all undoubtedly aware, the word 'mountain' is used in the Scriptures as the symbol for kingdom. Earthly governments are represented as mountains and hills, while the Lord's government is represented as being established 'in the top of the mountains.' It is this mountain or Kingdom of God that is referred to in our text. It has not yet been established in the earth, and hence the blessed work foretold in our text is not yet realized. We still properly say, 'The Kingdom come; thy will be done on earth as it is done in heaven.' True, a beginning has been made. For more than eighteen centuries since our Lord's ascension, and the bestowment of the holy spirit at Pentecost, the church has been in process of selection, and the church is sometimes styled the kingdom, because its members when glorified will constitute the kingdom class—the bride who, with the heavenly bridegroom, will share the kingdom honors and services for the world.

A Feast in This Mountain.
The here announcement of the Kingdom of God would strike mankind variously in proportion as the character of the Kingdom and its work might be understood or misunderstood. Thus to-day to many the mention that the Kingdom of God is nigh at hand would carry the thought of a wreck of matter and the crush of worlds. Not only our Second Adventists believe, but the creeds of practically all denominations of Christians recite, that our Lord's second advent and the establishment of the Kingdom will signify to mankind the end of probation, the end of hope, and usher in to all except the elect few a great burning day.

Far too long we have allowed these traditions of men to becloud our judgment, to come between our hearts and the great blessings set forth in God's word as now due to the church and to the world. It is very proper that those who are living in alienation from God in wilful sin should realize that the establishment of His Kingdom will mean a reign of righteousness which will be strictly opposed to their pernicious ways—opposed to every form of immorality, opposed to every form of injustice and iniquity, opposed to every form of trickery and sham, and false pretense. But surely Christians who are seeking to live in harmony with the divine will, who are looking for the neighbor, for the brother, for enemies, have every reason to look forward, to long for, to hope for the coming of the Kingdom of God, the most desirable thing possible to be imagined. Indeed it is thus described in Bible language: "The desire of all nations shall come." (Haggai II, 7).

However much the few, favored by present conditions, may be pleased to have them remain in the masses of mankind, if they were but converted from ignorance and superstition and brought to a knowledge of the truth as God's word presents it, would be glad and rejoice in the salvation which is to come to the world thru God's Kingdom. The god of this world hath blinded the eyes of understanding of mankind and put darkness for light, and under the terror

of the words "doom's day" has obscured the glorious blessings which belong to the day of the establishment of the Kingdom of the Lord (1 Cor. xiv, 4). True, the kingdom of the heavens will be introduced, the Scriptures tell us by "a time of trouble such as never was" before and never will be afterward; a time of trouble which will involve all nations, and peoples, and kindreds, and tongues, and every part of the world; a time of trouble from which there will be no escape except for those who have made the Lord, even the Most High, their refuge and habitation (Psalm xli, 9). But then, even that psalmist of trouble the Lord proposes shall be overruled so that it will constitute a channel of blessing to mankind by preparing their hearts for the message of divine love and grace, centered in Christ and His redeeming work at Calvary.

Blessed the Hungry.
There are many hungry hearts in the world; many whose bodies are well nourished have famished hearts which cry out for love and sympathy. He who reads the hearts, who knows what is in them, has prepared this feast which will surely satisfy every legitimate, righteous desire. Those who already are the Lord's people, and who have already feasted at the bountiful table spread for the Church, can appreciate to some extent the bounty that will be spread before the world in this great feast foretold thru the Prophet, in our text. There will be several differences, however, between our present feast and that one for the world.

(1) The present feast is merely a feast of promises which must be partaken by the exercise of faith. The feast described in our text will be a very actual one; the realities of the blessing of restitution, of health, of strength, mental, moral and physical, will there be bountifully supplied, to be partaken of freely by all who appreciate them.

The Destructive Work.
The Lord thru the Prophet, after describing the feast of blessings and refreshments, portrays the destruction of things injurious to mankind, saying: "And he will destroy in this mountain the face of the covering cast over all people—the veil that is spread over all nations" (verse 7). This veil is none other than the veil of ignorance and superstition which hinders mankind from seeing that the

Creator is their friend, that righteousness and truth are to their advantage, that the ways of the Lord are righteousness altogether. The dawning of the new dispensation, the reign of righteousness, will scatter the clouds and the darkness, the veil of ignorance, and let into the hearts of mankind "the light of the knowledge of the goodness of God as it shines in the face of Jesus Christ our Lord." What a wonderful change, and how glad mankind will be, not only to have that feast prepared, but also to be rid of the darkness which would bind them from appreciating it and coming to a knowledge of the Lord and His grace!

Still More to Follow.
The Prophet proceeds to describe further, saying, "He will swallow up death in victory." For several thousand years death has had the victory, and the human family have been swallowed up by it. The Scriptures describe the six thousand years of earth's history as a period of the "reign of death." It is conservatively estimated that death has swallowed up twenty thousand millions of humanity, and that ninety thousand millions will be buried in the grave during the next century. The Lord tells us thru the Prophet that with the establishment of His Kingdom will come a wonderful change, and that, "He will swallow up death in victory, and shall cease. None shall die there except for wilful sin. How glorious a time! All of our sorrows are more or less intimately associated with the reign of sin and death. How we may well rejoice in the new dispensation, high divine wisdom has planned and divine love will execute for the releasing of our race from this dying prison, permitting them to return to the liberty of the sons of God, freedom from death, freedom from sin.

Wipe All Tears Away.
We remember our Redeemer's tender words, "Come unto me all ye that labor and are heavy laden, and I will give you rest." Those of us who have accepted His gracious invitation, obtained from Him the rest of faith, found that it meant to us the wiping away of our tears, the cancellation in a large degree of our troubles. We then, should be able to understand the next statement of the Prophet in our text, "The Lord God will wipe away tears from off all faces. It is the same message given to us in Revelation, where the same Kingdom, under the figure of the New Jerusalem, is brought to our attention. It will be the Heavenly Father who will wipe away the tears, not directly but indirectly thru His Son, the Redeemer. More and more as we come to an understanding of the grace of God, as illustrated in His divine plan of the ages, we come to realize that "all things are by the Son"—that the two, while distinct, are also inseparably united in the work of relief which has already begun in the Church, and which ultimately is to extend to the world during the Millennium.

Tears are the marks of sorrow, pain, suffering; and the poetic statement that "God himself will wipe away the tears of mankind is a beautiful and powerful illustration of how the power of the Highest is shortly to be employed, and in His blessing, its uplifting, the wiping away of its tears and sorrows. When we remember that there are no tears in heaven, and that the joys of that blessed state are because of its sinlessness, our hearts overflow with thanksgiving as we catch the poetic thought included in the assurance that all sin, and all tears and marks of sorrow, will forever pass away in that happy day. Truly we may be glad and

rejoice and give honor to our God as we see His righteous dealings with our race manifested—as the clouds and shadows flee away and permit the sunshine of divine love and grace to take their proper places, before the eyes of our understanding. That this signifies universal salvation. Other Scriptures show us that while universal opportunity for salvation will be accorded, none except those who avail themselves of it by a hearty acceptance of the Divine arrangement, and a hearty obedience to the laws of the Kingdom—these only will get the great blessing of life eternal; only their tears will forever be wiped away. All others, wilful sinners, will be destroyed in the "Second Death."

Campaign by Trolley.
BOSTON, Aug. 1.—(Special.)—A four weeks' tour of Massachusetts by trolley is planned for Saturday afternoon and evening was a memorable event in the history of this young and growing branch of the church.

From 3 o'clock till nearly midnight the grounds were thronged with the youth and beauty of the district irrespective of religious denomination, and throughout there was a sense of delightful sociability.

Rev. Father Player, who is temporarily in charge of the mission, was here, there, and everywhere, as also were the members of his parish, looking after the comfort of the visitors.

Excellent service was rendered by the Mimco Industrial Band, while Hoffman's Orchestra furnished music for dancing.

A number of the members of the Knights of St. John were present and gave an exhibition of fancy drill. The grounds were beautifully illuminated with Chinese lanterns, and throughout the day probably 1000 people visited the grounds.

A feature which caused endless merriment was the race for the greased pig, which ultimately fell a prize to the alertness of Fred Goodchild, of Port Credit. A number of fancy articles purloined for sale brought good prices. A luncheon luncheon was served by the ladies, and during the afternoon there was a fine program of athletic and sporting events.

BALMY BEACH.
They Turned First Sod of What Will Be Fine Anglican Church.
BALMY BEACH, Aug. 1.—(Special.)—A notable event in the history of the Anglican Church in Balmy Beach was the turning of the first sod on Saturday afternoon of the first sod in connection with what will be a fine edifice, at the south-west corner of Birch and Queen-street.

Anglicans Turn First Sod at Balmy Beach—North Toronto Notes—County News.

NORTH TORONTO, Aug. 1.—(Special.)—Locally a good deal of interest has been aroused by the statements in The World from day to day about the early history of the Metropolitan Railway and the steps leading up to the present franchise.

At the present time, and when cheap and rapid transportation is the great need of North Toronto, it is imperative that the conditions are strictly adhered to.

Before the Metropolitan horse-tram cars ran on Yonge-street the people were served by the Stibbard bus line, whose efficient performance proved a strong competitor to the new enterprise, and the company immediately found the privilege of running as far as the town hall was not enough, as the buses could not take their passengers further, consequently they immediately became busy in securing the privilege to extend their tracks as far as a point three hundred feet beyond the Eglington Methodist Church.

As a result, on June 20, 1885, the company were granted the right under the terms of a new agreement. The chief clause of interest to the public in this agreement is clause 13, which reads: "No higher fare than four cents per mile shall be charged for the conveyance of passengers the full distance only on the extension."

Fortunately the competition between horse cars on rails and horse buses on a well-kept macadam roadway determined the minimum charge to the public, and this minimum charge has remained over these two sections.

If Yonge-street were asphalted would Stibbard be permitted to again continue the competition by running power buses? If Yonge-street were double-tracked, would there be room, and if there was room, would it be safe when these enormous cars are permitted to run at a speed of 20 miles an hour, occupying, say, from 22 to 24 feet of the centre, or the best portion of Yonge-street?

Councillor Parke, the suffering from a slight setback on Saturday, is thought by his attending physicians to be making fair progress.
