CANADIAN FOOD CO'Y,

TORONTO.

These delicious and health-giving Foods are prepared by an entirely new process by which the GRAIN is first thoroughly cleansed from impurities—so injurious to the stomach—then PEARLED, COOKED, DESICCATED, and CRUSHED thus rendering them the most wholesome and palatable of all foods, very highly commended by physicians as being important articles of daily diet. The very short time required to get them ready for the table makes them the favorites of every housekeeper.

The special features of this Company are its **Tontine Investment** and **Semi-Tontine Investment Policy**, and its **Commercial Endowment Policy**. It also issues annuities, and all forms of Life Policies.

The first two secure a large return for the money invested, while the latter yields maximum insurance for minimum outlay.

By the last the great protection of life insurance is furnished for payments called for only as deaths occur.

Pay as you go, and get what you pay for, as in fire insurance. This plan places reliable life insurance within the reach of the masses at an estimated cost of about 50 per cent. of the lowest ordinary life rates.

It is the best plan for those who want insursnce only, and easiest for agents to work.

This Company's Policies are printed in clear, large type, in plain, simple language, and are as liberal in their conditions as it is possible to have them, consistent with safety and equity to the policy holders generally.

Observe the following points, viz.:

(*a*) **The Policies are indisputable after three years from date of issue.**

(*b*) Travel without permit in any part of the world **will not invalidate the Policy**, which becomes subject to an extra premium only where an extra risk is incurred.

(*c*) Surrender Values are allowed upon its ordinary policies after they have been in force three years, either by Paid-up Policies or in Cash; loans are made on the Policy after it has been in force three years.

(*d*) The age of the insured will be admitted at any time by the Company on reasonable proof, but if not so admitted, any error in the age **will not invalidate the Policy.**

The following letter speaks for itself:

WM. McCABE, ESQ., NEW YORK, March 23rd, 1882.

Managing Director, North American Life Assurance Co., Toronto.

DEAR SIR,—As requested by you, I have examined your "Book of Estimates" in relation to Tontine Savings Fund Policies as issued by your Company.

The assumed rates of mortality, interest and expense, upon which the estimates of probable results have been based, are less favorable than the experience among Canadian Companies would have justified, while the estimates of surplus are far within the results actually realized by other Companies issuing Tontine Policies, and hence may be anticipated with confidence. In brief, these estimates are, in my opinion, both safe and conservative.

Very respectfully yours,

SHEPPARD HOMANS, *Consulting Actuary.*

The Great North-Western Telegraph Company

OF CANADA.

Operating the Lines of the Montreal and Dominion Telegraph Companies.

MILES OF LINE, 34,000. NUMBER OF OFFICES, 2,000.

ERASTUS WIMAN, *President.*

H. P. DWIGHT, *General Manager.*

HEAD OFFICE, - - TORONTO, ONT.

This Company is now working the lines of the Montreal and Dominion Telegraph Companies of Canada. At its commencement the Company's property and operations were confined entirely to the Province of Manitoba, but during the past year its scope and influence have been vastly extended. The ample provisions of the charter of the Company were made available for the purpose of consolidating the conflicting telegraph interests of the Dominion, which, through ruinous competition, had been seriously impaired. The low rate for telegraph tolls which prevailed for the two years previously had so weakened the power of the telegraph companies to pay interest on the capital invested, and at the same time maintain the property in an efficient condition, that the prospects seemed most serious for all persons interested in this kind of investment. An arrangement was, however, effected, by which the rival companies were combined under one management, resulting in the introduction of large economies on the one hand, and the establishment of a uniform rate of 25 cents for telegraph tolls on the other. Investors in telegraph property were thus assured of a fair return for their investment, and the public provided with a more efficient service.

This Company has a close alliance with the Western Union Company, and thus secures for its customers prompt and easy communication with every point on this continent, to which the vast net work of wires amounting to 340,000 miles owned by the Western Union Company extends. The various important inventions, secured by patents in most cases, which the Western Union Company now control, have also been placed at the disposal of, and will hereafter be used by this Company.

A new departure, and one of which the public have already shown great appreciation, is the facility granted for sending Money Orders by telegraph between the principal offices in Canada, and also between this country and the whole of the Money Transfer Offices of the Western Union Telegraph Company.

Mr. H. P. Dwight, formerly Western Superintendent of the Montreal Telegraph Co., is the General Manager of the Company.

INTRODUCTORY.

The publishers take much pride in presenting this Directory of the City of Toronto for 1885 to their patrons, and claim that the work is the most complete and accurate of its kind published in the Dominion. Since the issue of 1884 two new wards have been added to the city, what was known as Brockton, forming St. Mark's Ward, and St. Matthew's Ward comprising what was formerly Leslieville and Riverside, adding thus to the population of Toronto some 3,000 souls. We find by actual count that the Toronto Directory proper for this year contains 39,409 names (after deducting the names of business firms), which multiplied by 3 (a very low estimate) makes the population of Toronto proper 118,227. Take from this, 3,000 gain by St. Mark's and St. Matthew's Wards, and we have 115,227, or an actual growth since 1884 of some 6,000.

Following are the names appearing in each year's publication for the last ten years :

Year.	Names.
1876	16,929
1877	18,979
1878	19,354
1879	20,226
1880	21,919
1881	23,166
1882	23,879
1883	33,592
1884	36,359
1885	39,409

The publishers again issue a street map of the city with this volume, and were induced to do so by the fact that the names of a number of the old streets had

been changed, and by the desire to show the additional two wards with the names and locations of the streets therein. This has been an additional expense voluntarily made for the benefit of subscribers, and ought to meet with a just appreciation.

Hereafter a map will be issued with the Directory every other year.

In conclusion, we beg to tender our thanks to the many who have kindly assisted us in the procuring of data for the miscellaneous directory commencing on page 901, and which will be found unusually comprehensive.

Respectfully,

R. L. POLK & CO.,

Publishers,

VICTORIA CHAMBERS, 9 VICTORIA STREET.

JOHN CALLICOTT & SON,
MANUFACTURERS OF
SUPERIOR HORSE RADISH,
PICKLES, SAUCES, &c.

We warrant our Prepared Horse Radish to be free from Turnips, Parsnips, or White Radish, which many use as a substitute for Horse Radish. It is recommended by the leading physicians as the most healthy of all preparations for the system and a preventative of rheumatism. We are growing Horse Radish extensively, and do guarantee all sent out by us to be PURE, and will pay $50.00 to any one proving it to be otherwise.

Directions and Instructions for Telegraphing Fire Alarms.—Keys are left with the occupants of buildings in the vicinity of each fire alarm box. The members of the police force also possess keys. The following will be observed when a fire is discovered: Go to the box, open the door and pull the hook down as far as it will go, firmly and without jerking, and let it slide back; if the alarm is not immediately heard upon the small bell within, or upon the tower bells, go to the next nearest box and repeat the operation. Key holders are cautioned not to open the box except in case of fire; to not give an alarm till certain of a fire; to not give an alarm for a fire seen at a distance; to pull down the hook but once in giving an alarm; to not let the key go out of their possession except when demanded by proper authority.

High Schools of Ontario.

Each of these schools (which form the Intermediate link between the Public Schools and the Universities), is managed by a board of Trustees appointed jointly by the county and town councils. In cities the trustees are all appointed by the city council, except where there is only one school in the county. The head master must be a graduate of a British or Colonial University, and obtain a certificate of fitness from the Education Department. Besides fees, local rates or contributions to the extent of the Government grant must be raised.

An extra grant is provided for masters taking certain meteorological observations, and giving preparatory scientific military instruction. Pupils attending these schools are prepared for matriculation in the Universities.
