MONTE CARLO AN INNOCENT PLACE IN COMPARISON

Kansas Senator Attacks Chicago Board of Trade for Wheat Speculation.

Smith Centre, Kas., Oct. 14—Senator Arthur Capper last night declared that the Chicago wheat gamblers have caused the Chicago board of trade, Europe's outside club at Monte Carlo being innocent and innocuous by comparison.

Since July 15, when trading in futures was resumed by the exchange, he declared that grain speculators have sold or oversold this year's crop five or six times. He asserted that only about one per cent of the trading in futures were bonafide for actual delivery.

"Because speculators are forcing down the price of wheat," said Senator Capper, "the farmer who sold his hops and little at a heavy loss while meat sells for war prices, is again made the goat, and the wheat speculator collects him more for wages and equipment than any other he ever produced, sees the fair price of his product cut virtually in two with no real benefit to anybody except the brokerage firms who collect the commission."

"These losses," the speaker said, "amounting to nearly one dollar a bushel in the farm, primarily being sustained and the speculators aided by the unrestricted influx of duty-free Canadian wheat, under the Underwood tariff and abetted by difference in exchange values, amounting to about thirty cents a bushel in favor of the importer."

ON TRAIL OF AUTO IN THE STEVENS MURDER CASE

Said to Have Passed Through Levis Yesterday and Quebec Keeps Look-Out.

Quebec, Oct. 14—The two young men who are wanted for the murder of Miss Minnie Stevens, whose body was found in the River at Edmundston, on Tuesday, are said to have passed through Levis yesterday. They were in a motor car bearing a Massachusetts license number plate. The car attracted special attention because it did not have any mud guards, but at the time it was seen in Levis the police of that place did not know it contained the two suspects.

The local police are on the lookout for the car and it is expected they may be able to locate its occupants within the next four hours.

Robert Crawford, provincial constable of this city, has been sent to Edmundston by Attorney-General Byrne to investigate the circumstances surrounding the death of Miss Minnie Stevens.

BIG THEFT OF FRENCH WAR MONEY

Disclosure of Stealing of Army Funds in 1918 Is Just Made.

Paris, Oct. 14—The theft of several million marks, valued at \$800,000 francs, from the treasurer's office of the army post office in Paris, in September, 1918, which the army had not missed, has been revealed by the arrest of four alleged members of a gang that quietly carried off the bags of money which had been left in a corner of the cellar.

Albert Grandin, formerly an orderly in the office, said, according to the police, that he found a few bags of money in the cellar and waited until there were several million marks, "enough to make it worth while." He and his brother Gaston and two women are now in the hands of the police, and others of the gang are being sought. The band suffered severely by reason of the exchange of marks, the police say, realizing only 1,500,000 francs.

PILGRIM DELEGATES ARE HONORED IN NEW YORK

New York, Oct. 14—Delegates from Great Britain, Canada and the Netherlands to the tercentenary celebration of the landing of the Pilgrims and the meeting of the first legislative assembly were guests of honor at a meeting here last night.

Lord Rathcreghan, an Irish peer, who heads the British delegation, asked for the co-operation of the United States during the reconstruction period and declared that France "with your assistance and our assistance" will recover within a few years.

The name of Rev. F. S. MacKenzie, of Sydney Mines was reported to the Presbyterian College in Montreal in nomination for the post of professor of systematic theology and apologetics at Robertson College, Alberta.

Country Is Agitated Over New Sugar Order

Newspapers Criticize Board of Commerce Price Fixing—The Question of Beet Crop and Other Phases of Situation.

An order was issued last evening by the Board of Commerce at Ottawa which provides that wholesalers must sell granulated sugar to retailers at price which will enable them to re-sell at twenty-one cents a pound, and retail, except put paid, a profit of two cents a pound. Refiners are restrained from selling sugar otherwise than to wholesalers, manufacturers or retailers, and the dealers are restrained from buying sugar otherwise than from such wholesalers.

Wholesalers are restrained from selling sugar to other than manufacturers or retailers and such manufacturers are restrained from buying sugar otherwise than from such wholesalers.

Toronto, Oct. 14—While the restrictions on sugar will be a hard blow at the householder, who have been looking anxiously forward the last few days to cheaper sugar, the larger buyers in this city appear not to be alarmed at the new situation. One reason for this is that they have large stocks on hand, and another is that they expect beet sugar to supply the Canadian market at a much lower price than the cane sugar refiners will ask pending the arrival of the new cane crop from Cuba and the consequent reduction in price.

Hugh Blair, of the wholesale grocery firm of Eby, Blain Co., said he thought the refiners were entitled to some consideration in view of the prohibition of sugar exportation when the market was rising.

W. C. Miller, secretary of the Retail Merchants Association here, expressed the view that the new order would prevent a panic in the Canadian sugar market and that while it might appear that the board's action would mean high prices, such would not be the case in actual practice, as cheaper sugar was bound to come. It was desirable, however, that the decline should be gradual.

Press Comment.

Toronto World: "Reason there may be for showing our domestic refiners some consideration, but the government should state its position and deal with the situation as a question of public policy. It cannot pass the buck to the Board of Commerce. People are aroused on the sugar question to a great pitch of indignation through the government's refusal to keep them at bay with the Board of Commerce as a buffer would be as difficult as Mrs. Partington's effort to keep back the Atlantic Ocean with a broom and a mop."

Lord Rathcreghan, an Irish peer, who heads the British delegation, asked for the co-operation of the United States during the reconstruction period and declared that France "with your assistance and our assistance" will recover within a few years.

The name of Rev. F. S. MacKenzie, of Sydney Mines was reported to the Presbyterian College in Montreal in nomination for the post of professor of systematic theology and apologetics at Robertson College, Alberta.

of very certain unpopularity. The Board of Commerce was created to restrict profits, not to curtail losses. The government should intervene against the board of commerce, and pay decent regard to consumers. The embarrassment of the refiners evokes sympathy, but not to the extent of pulling their chests out of the fire.

Toronto Globe: "The action taken ostensibly by the Board of Commerce in respect to the importation of sugar has removed any lingering doubts as to whether the government's chief concern was for the masses or the classes. Purchase from American refiners is not especially barred. However, it will work out that way, as the effect will be to prevent Canadian purchases of the large quantities of sugars which have been bearing the American market and reducing prices over the border."

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbush, "it is charged that a municipal council voted against one of the candidates because he used the word on the back of his neck as a color button."

"That ain't so," said Hiram. "But some folks didn't hev even as good an excuse as that fer the way they voted."

"And yet," said the reporter, "an intelligent use of the franchise is the only remedy of a country."

"Yes sir," said Hiram. "You hev schemers at the top and ignorance or bigotry at the bottom, you hev gone hev crooked politics."

"What is the remedy?" queried the reporter.

"Let 'em hev more politics between elections," said Hiram. "If I hev my way no boy or girl 'ud hev school till they knowed what a municipal council, an 'legislator' an' the parliament at Ottawa was fer—an' what it hed to do with. Then I'd hev the older folks git together in the school houses an' other places an' hev talks on government an' what it meant to the people in the country, the city, the province, an' the Dominion."

"In other words," said the reporter, "you would have an intelligent electorate."

"Yes sir," said Hiram. "That's the cure fer the fever that plays on ignorance or bigotry. Git the people together, men an' women, an' make 'em understand what government is fer—an' how it's up to them to make it good or bad. An' make everybody vote or take the vote away from 'em—By Hen!"

SHORT OF MONEY FOR SOLDIERS

London, Oct. 14—Down on the outskirts of Windsor, on the roadside in a pasture field, last night grazed a horse in the middle of it. We used every precaution we heard was employed to protect Sir Barton and Man of War in shipment. We upholstered the car with a foot of blankets, and we put straw in four feet deep. Then we put his trainers with him and guaranteed that no one tampered with the horse. We reached Windsor, turned out the horse, loaded the horse and made delivery with no interference.

Great Coal Strike Is Now Likely For Monday

Only Some New Intervention Can Prevent It—Majority of 453,670 Votes Against Basic Production Line Proposed by Owners.

London, Oct. 14—The United Kingdom today was faced with perhaps the most ominous industrial crisis in its history due to the decision of the coal miners to allow the strike notices to become effective on Saturday night following their rejection of the compromise offered to their demand for a two shilling per shift increase in wages.

It seemed certain that unless the government or the mine owners conceded the demands of the men or made fresh and attractive offers, more than 800,000 miners would not return to the pits Monday, thereby throwing hundreds of thousands of workers in other industries out of work and paralyzing the work of the country.

Official returns from the national miners' ballot concerning the datum line proposal of the owners showed an overwhelming majority in favor of the rejection of the datum line. At this morning's council conference of the miners' delegates, who met to consider the decision, a small minority held out for submission of the claims of the men to arbitration, but this was brushed aside.

No sooner had news of the decision of the miners been received in the Cleveland steel district, in Yorkshire, than the iron and steel manufacturers began preparations for closing the works. It is expected that if the strike materializes most of the blast and steel furnaces will become idle immediately.

The government, while saying little for weeks, has been actively preparing to handle the situation in the event of the strike being called.

The triple alliance, the railwaymen, transport workers and miners, probably will meet immediately and it is expected the alliance or some other trade union will make efforts to set up mediation machinery. The action of the miners came as a great surprise, as it was generally anticipated that they would again suspend the strike.

London, Oct. 14—The coal miners' delegates, at a meeting this morning in connection with the crisis resulting from the rejection of the owners' wage proposal, decided that the notices of a strike given some time ago should expire on Saturday.

This means that the great coal mining strike which has been feared will begin next Monday, unless there is some new intervention to prevent it.

The official figures of the ballot taken by the miners' delegates upon acceptance or rejection of the basic line of production offered by the owners beyond which an increase of wages would be granted, was given out today as follows: For acceptance, 181,423; against, 453,670.

Today's meeting was presided over by Robert Smiles. A statement was issued announcing the decision of the executive committee that by virtue of the Irish strike notices being allowed to expire on Saturday.

Toronto, Oct. 14—Attorney General W. E. Ransay will not make any move to prevent the Self-Determination League for Ireland holding its proposed convention in Ottawa this week-end. He made this clear in a written statement in answer to a deputation from his riding.

Referring to a suggestion that the meeting might lead to a breach of the peace he states that this was a matter for the Ottawa authorities to consider. He stated that there was a lack of evidence as to this being true.

As to a contention of the deputation that the meeting would be held at the capital of the country, a false impression as to Canada's views on the Irish question might be given to other countries, Mr. Ransay suggests that it is a matter to be submitted to the federal government in Ottawa, not to the provincial government.

Winnipeg, Oct. 14—It is said that George Herbert, local constable, had knowledge that the bank robbery here was progressing half an hour before the bandits made their escape and that though he had a shot gun and a revolver in the house, he made no effort to stop the burglar. Herbert declared the reason that he did not go out to arrest him was because his wife wanted him to stay in the house with her. Local residents it is said, urged him to go to the scene but he refused. He admitted that he was afraid.

SOCIEY WOMEN ROBBED IN TAXI ON WAY HOME

Wives of Six Prominent Chicago Business Men—Some Save Jewels.

Chicago, Oct. 14—Six women, wives of prominent manufacturers and business men here, were held up and robbed early today, in a taxi cab, of jewels valued at \$4,500, and several hundred dollars in cash, but five of them saved the greater part of their jewelry, worth more than \$80,000, by dropping it on the floor of the car while the first woman was surrendering her jewelry.

The bandits, they said, were two young men who hopped on the running board of their taxi cab as they were leaving a social function at the home of a friend. The bandits ordered the driver of the car to drive to a lonely spot, and upon reaching there ordered the women to hand over their jewelry.

The women who were held up were Mrs. J. P. McLaughlin, wife of the president of the Chicago Board of Trade, Mrs. J. P. McLaughlin, wife of the president of the Chicago Board of Trade, Mrs. J. P. WILL NOT PREVENT LEAGUE MEETING

Ottawa Police Commission Decision re Self-Determination Convention.

Ottawa, Oct. 14—The Ottawa police commission will not, because they legally have no power to do so, take any steps to prevent the meeting of the Self-Determination League for Ireland on Saturday in St. Patrick's Hall here.

This decision was made by the commissioners yesterday. A delegation from a citizen's committee sought to have the meeting prohibited on the grounds that it was of a seditious and distasteful nature and one which might lead to trouble, not to say bloodshed.

Toronto, Oct. 14—Attorney General W. E. Ransay will not make any move to prevent the Self-Determination League for Ireland holding its proposed convention in Ottawa this week-end. He made this clear in a written statement in answer to a deputation from his riding.

D'ANNUNZIO ON ADRIATIC MATTER

London, Oct. 14—Gabriele D'Annunzio, in command of Fiume, is quoted by a correspondent of the London "Times" as saying with respect to the Adriatic situation:

"I shall immediately occupy any territory held now by the Italian army and navy should the government consent to my disposal to do this, and it is known positively that Italian forces occupying the territory of Istria and Dalmatia will refuse to obey the government and will accept my leadership. In any case I will set within six hours after the news reaches me."

"In that event I am certain that if the Jug-Slavs attack me all Italy will rise as one man and defend Adriatic supremacy and force the government to support me."

D'Annunzio is reported by the correspondent to have 6,000 fine troops—thirty airplanes, one dreadnought, two cruisers, five destroyers and ten small craft.

NEW YORK PHYSICIAN TELLS WHY MORE ORGANIC PHOSPHATE MEANS MORE NERVE VITALITY

The Nerves, the Blood, the Bones of Over 40 p. c. of American Men and Women Need Organic Phosphate and Need It Badly.

A Vigorous Healthy Body and Keen Active Mind Belongs to Those Who Have Plenty of It.

When will weak, played-out, thin puny and ambitious people learn that there is nothing much the matter with them and that all they need is a few grains of the right kind of phosphate every day for a few weeks to make them as energetic, vigorous and forceful as of old? Every month, thousands of people are learning that lack of sufficient nerve vitality is the underlying cause of many diseases. Your nerves control your body and without an abundant supply of nerve force life is worry, fear and disappointment. Phosphorus is one of the vital elements of every living cell in your body and there are millions of them. Nature's way is to supply phosphorus to these cells with the food you eat in the form of phosphates. But to millions of people modern foods do not supply enough organic phosphate, so there you are.

And just for the lack of this same organic phosphate which every druggist sells under the name of Bitro-Phosphate 40 per cent. and over of the men and women of America are today crying in the wilderness for health and strength and a chance to live a cheerful, vigorous, helpful life. "Nerve weakness, both physical and mental, is indeed a curse to the nation," says a well-known New York physician. "Feed your nerves the food that makes nerve force; that helps to rebuild every run-down, starving cell in your body. If I had my way Bitro-Phosphate should be prescribed by every doctor in the land," says Frederick M. Kelle, M.D., Editor-in-Chief of Physicians' "Who's Who," a nationally-known author of medical text books and a brilliant physician. Later on Dr. Kelle says: "It is not difficult to detect women who have plenty of nerve vitality, nerves that are rich in organic phosphate" (this is equally true of men); "the women are usually cheerful, magnetic and pleasing; they have youth and vigor at 50 and even 60 years and are bubbling over with vitality. You don't find them pale, weak, nervous or haggard looking at 40 or complaining of this or that ailment." Every day thousands of men and women who are losing their youth before their time; whose mental and physical powers are so limited that total discouragement is near, are learning that Bitro-Phosphate, a simple organic phosphate that every druggist dispenses, is all they need to re-establish nerve vitality, strength and keenness of mind.

State Honors Canadian.
Albany, Oct. 14.—New York state paid its highest honor to Canada when the board of regents, at the closing session of their fifty-sixth annual convocation in Chancellor's Hall, conferred the degree of doctor of laws upon General Sir Arthur W. Currie, president of McGill University. General Currie was commander-in-chief of the Canadian expeditionary forces. He is the sixth man to receive the honor of the degree. But to millions of people modern foods do not supply enough organic phosphate, so there you are.

and. "The war has deprived several million of them of any chance of marriage at home. In Canada, matrimonial opportunities will be continuously good, as the country expands and develops with incoming settlers. But perhaps the Montreal servant-grabbing scene frightened away good prospects. While alterations are being made to our building, we can supply just the same with the BEST and LATEST BOOKS. P. People in St. John who are acquainted with local music certainly are appreciative to our distinct advantage in being able to induce Mr. G. H. Scott to organize and participate in our regular evening programme. Having experience, as he has, in most of the amusement resorts and bands in St. John, his skill and experience blend well in producing for Diana Dance Room the very best Dance Music in Eastern Canada. The other pieces of the orchestra were all selected judiciously—even going out of town to make up the desired combination. Surely with longer dances and better music, few will hesitate when they feel the call of the dance, for with that desire the Diana idea will fascinatingly attract itself. Real music—wonderful music—inspiring, unforgettable. If you are not acquainted with Mr. Scott, visit us tomorrow. If you are, you cannot stay away.

OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and oddments for new, delicious dishes.

There is nothing better than Oxo for building sturdy boys and girls.

TWO INTERESTING SPEAKERS HEARD BY CANADIAN CLUB

The members of the Canadian Club who dined at Bond's last evening heard two entertaining speakers—men who had something to say and said it well. The first was W. H. Ramsall, a distinguished United States speaker, whose topic was "Universal Peace." He strongly supported the league of nation movement and an international tribunal to keep peace in the world. The second speaker was Hon. Jambie Fazel Masandarni, professor of philosophy in the University of the Shah at Teheran, the Persian capital, who described the situation in his country from a British viewpoint. The professor spoke in his native tongue, but his excellent address was interpreted by Ahmad Solim, a student and educationalist of ability, whose home is in the Holy Land. Mr. Solim's repetition of the professor's address in English was done in a clear and impressive manner.

Horace A. Porter introduced the speakers and announced that Sir Robert Borden would be unable to address the club at an early date, but that Theodore G. Roberts would probably be a speaker next week, word to this effect having been received by C. W. Romans, the secretary. Grace was said by Rev. R. P. McKim, rector of St. Luke's church.

STREETS AND HOUSING.

The work that is being done by the city council in Prince William street and City Road is the subject of universal favorable comment. These thoroughfares are being put in excellent condition. Nor will it be either costly or difficult to keep them in that condition. The policy of making permanent streets justifies itself. The city is making good progress in this respect, and if the policy is pursued for a few years a long-standing reproach will be removed.

MONEY WELL SPENT.

The Toronto Globe, referring to the legislation providing for motorists' allowances in Ontario, says: "The people of this new province will not grudge the payment of taxes spent to remove such a reproach to society as a mother compelled to break up her home and separate from her children in order to earn her living."

WORK FOR BOY WELFARE.

The Rotary Club has accepted the initiative in a movement to arouse a more general interest in work among and for boys. This is in line with the policy adopted by the International Conference of Rotary Clubs. During the last two years clubs in many cities have interested themselves in some phase of boys' work, but now all clubs are doing so, and the result cannot be other than of great community benefit.

ONE AUTO VICTIM EVERY 31 MINUTES

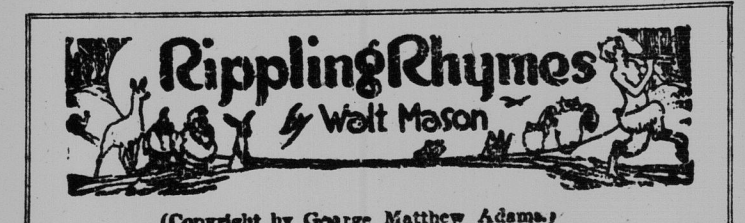

American Fatalities for 1920. Estimated at 110 for each 1,000,000 inhabitants. Atlantic City, N. J., Oct. 14.—Public opinion must be thoroughly aroused through systematic and persistent safety education before there can be any appreciable diminution of the great toll of life now being taken by vehicular traffic in America.

PROHIBITION.

There has been a good deal of discussion in the United States over the question of prohibition and its effects, and there has been a disposition on the part of the opponents of the law to argue that because it is violated in the great cities it is not a success. The fact that arrests for drunkenness in New York were more in number in the second three months after the law came into force than in the first three was cited as proof that the law was not effective.

Rippling Rhymes by Walt Mason. I've lived about a hundred years, and as I lived I looked around; and in the course of time, my dear, some chunks of wisdom I have found. I've found that kindness always pays; it smooths the path we have to tread, and takes much anguish from our days, and hails us when we go to bed.

CANADA—EAST AND WEST

DOMINION HAPPENINGS OF OTHER DAYS

WESTERN RIVERS.

In spite of the fact that the province of British Columbia is confined largely between the mountains and the sea and so has a comparatively small depth, it is fact the streams of the province have estimated water-power resources of about \$200,000,000 horse power, or almost one-third of the computed value of the river powers of the dominion. Of this, however, only about one-tenth has been developed yet.

KING'S STAND ON TARIFF QUESTION

Liberal Leader's Reply to Meighen Statement. Policy of Downward Revision in Interest of Producers and Consumers, Aiming at Freer Trade, Especially in Necessaries.

Kamloops, B. C., Oct. 14.—(Canadian Press)—Previous to the opening of a meeting here last evening, the attention of the Hon. W. L. Mackenzie King was called by a Canadian Press correspondent to a statement made by Premier Meighen last night in St. Catharines, Ont. in which he said it was difficult to obtain from Mr. King an answer to his standing on the question of tariffs.

TO PROTECT SHIPS ON THE GREAT LAKES

Wireless Compass Stations Are to Be Established at Several Places. Chicago, Oct. 13.—Wireless compass stations, similar to those which have been in successful operation on the North Atlantic coast for more than a year, are to be installed along the Great Lakes. These stations, operated by the navy department, enable the operators to give to ships lost in a fog their position within a narrow radius of accuracy.

FORMER KAISER SPEKS TO JUSTIFY HIS ACTS

Berlin, Oct. 10.—The former Kaiser in his Holland retreat is writing a "political testament," the central idea of which is justification of his course as ruler of Germany in the eyes of the world. The "testament" is not to be published until after his death. Professor Theodore Schiedemann, aged historian and personal friend of the former Kaiser, is assisting him in the assembling of data and is also aiding in the editing. The testament seeks to justify all of Wilhelm's personal and political acts.

Harrison F. Lewis, Quebec, migratory bird warden for Quebec and Ontario; William McLaren, of Esquimalt, B. C., returned soldier, dockyard foreman, Naval Service, Halifax.

RECENT WEDDINGS

Last evening at 90 Newman street, John Wetmore Vincent, of the city of St. John, was united in marriage to Miss Ella May Mott, daughter of James Mott, of Queens county. The ceremony was performed by Rev. Dr. David Hutchinson in the presence of relatives and invited guests. The bride was given in marriage by Charles Hilyard Gallop. After the wedding refreshments were served and the bride and groom were wished all happiness. They left this morning by the steamer Majestic for upriver parts after a brief honeymoon will return to the city and reside in Newman street.

HITS THE AVERAGE ENGLISH HOME

Bread Price Being Advanced Four Pence — Newspapers Stirred Up Over It.

London, October 14.—The English working classes and small salaried people are faced with another crisis in the cost of living. The London Master Bakers' Association has announced that beginning on Monday the price of bread will be increased from one shilling to one shilling four pence for a pound loaf, and it seems probable that the rest of the country will follow suit.

The main reason assigned by the newspapers for the increase is that the government, which maintained bread subsidies, bought wheat when the prices were high and does not wish to bear the loss on the market, which has fallen.

The question is much agitated by the press, and some of the newspapers are making a campaign against an increase, citing the lowered food prices in the United States.

COLLEGE FOOTBALL

U. N. B. vs. Acadia on Nov. 3 — Against Mt. Allison on Oct. 27.

Fredericton, N. B., Oct. 14.—Lou Siderski of Gleece Bay, who has been referee in many intercollegiate Rugby contests in the maritime provinces, is not acceptable to Acadia for the U. N. B.-Acadia fixture here on Nov. 3. Acadia's answer was that the choice must be confined to the list of official referees selected at a conference in Truro. Siderski was not named then because it was thought that he was in Montreal and would not be available. At present it does not look as if U. N. B. will run a special train to Sackville for the Mt. Allison game on the 27th. It is a \$1,400 proposition. It is probable that the team will go on the 26th, accompanied by a small band of supporters.

U. N. B. will have the disadvantage of no workout against a team before tackling Mount Allison. Moncton is to meet Mount Allison in Moncton on Thanksgiving day. St. John has no center team, and King's College wants too much money to come for the holiday.

FOUR FOR SEAT IN ONTARIO HOUSE

Toronto, Oct. 14.—Four candidates are promised for the by-election in Northeast Toronto for the Ontario legislature to fill the seat vacated by Hon. Dr. H. J. Cody. James Higgins is a Labor candidate. Major A. C. Lewis, Government nominee. John Galbraith yesterday filed papers as an independent and tomorrow night the Liberals will select probably Major W. H. Kippen, D. S. O., M. C. with bar.

Do You Count the Cost of Your Tea?

Good tea is really very cheap per cup, less than 1/4c. for the very finest.

The duty on tea coming into Canada from British possessions is 7c. per pound, and 10c. per pound from other countries.

You pay just as much duty on a pound of poor tea as on a pound of the very best—such as Red Rose Orange Pekoe Tea.

You can therefore get much better value in a superior high quality tea than in poorer, cheap teas, because you pay the same duty on the poor as on the best.

This extra value is appreciated by most people, as the increasing sales of this fine quality, mountain grown Red Rose Orange Pekoe Tea clearly prove. Ask for it by the full name.

Sold only in our new sealed airtight cartons.

WOMEN WORKERS

In almost every line of war activities the women of this country have done well and have taken their rank for doing work that released thousands of men for overseas service. Some women have been over-ambitious and, at the expense of their health, have filled places once occupied by men. Every woman who, because of overwork has brought on some ailment peculiar to her sex, should depend upon Lydia E. Pinkham's Vegetable Compound to restore her health and strength, as this remedy has restored multitudes.

THE EDMUNDSTON TRAGEDY.

The inquest into the death of Miss Minnie Stevens, whose body was found in the Madawaska river on Monday afternoon, was held last evening in Edmundston, but was postponed as the evidence was not all taken. Doctors L. Forté and Sormany, who made an autopsy on the body, said that the skull had been fractured; there were signs of finger marks on the throat and the fingers and lips were bitten and cut. It is reported that two young men in a netting boat bearing a Massachusetts number left town hurriedly after the discovery of the body. An Edmundston young man's name has been connected with the tragedy, but he said he is prepared to go before the coroner's jury and exonerate himself.

BAD BREATH IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset. It isn't necessary to take internal medicine to cure Catarrh. There is a far better method. Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed. The only successful vapor treatment is CATARRHOZONE, which has no effect on the rest of the body. The rich, piny essence of Catarrhozone heat and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys infection. Catarrhozone brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis. Once tried, Catarrhozone is always used. Nothing so pleasant, so simple, so quick to relieve, so absolutely sure to permanently cure. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 50c; sample trial size 50c; at all dealers.

MEAT SCARC AND VEGETABLES SOAR

Paris, Oct. 14.—Because of the scarcity of meat, the Government has ordered that, beginning tomorrow, meat shall not be served in the restaurant after 2 o'clock in the afternoon. With the announcement the price of vegetable diners shot up until they are now as costly as meat. The order, while not entirely unexpected, savors rather too much of a war-time decree to be rehashed in postbellum days. Conditions are, however, such that for the time being the people of France will in all probability, with the spirit which marked their conduct throughout the war, abstain from the use of meat, in accordance with the Government's decree, even though the soaring of vegetables make the new regulations doubly severe.

Roumania, Serbia and Czechoslovakia, has been the subject of a controversy between the president and Senator Spencer, Republican, Missouri. The senator has declared in a political speech that the president had promised Roumania and Serbia that "if any nation ever invaded their territory he would send the American army across the seas to defend their boundary lines."

Mr. Wilson, in a telegram to the senator on Oct. 5, said that this statement was "false." In reply, Senator Spencer called for the official record, saying that the statement to which he had referred was in the "stenographic notes" of the eighth plenary session, in which the president was reported to have said: "You must not forget that it is force that is the final guarantee of the peace of the world. If the world is again troubled the United States will send to this side of the ocean their army and their fleet."

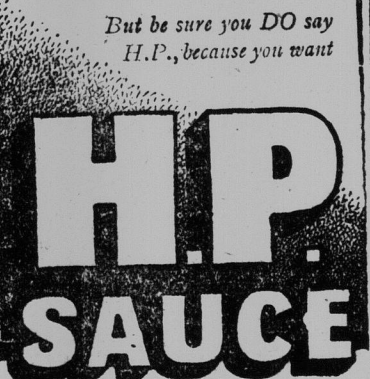

The president's words, as given in the official version made public today, follow: "How can a power like the United States, for example—and I can speak for no other—after signing this treaty, if it contains elements which they do not believe will be permanent, go three thousand miles away across the sea and report to its people that it has made a settlement of the peace of the world? It cannot do so. And yet there undulates all of these transactions the expectation on the part, for example, of Roumania, and of Czechoslovakia, and of Serbia, that if any covenant of this settlement are not observed the United States will send her armies and her navies to see that they are observed."

The official version of the full text of the president's address was furnished to the White House last week by Fred A. Carlson of Chicago, who was an official stenographer with the United States peace delegation and who wrote that he would "be glad to swear to the accuracy" of the transcript.

MANY DEATHS FROM CHOLERA IN WEST CHINA
 New York, October 14.—(Canadian Press)—Carpenters are unable to build enough coffins for the cholera victims in West China, according to letters received by the American Baptist Foreign Mission Society here from Dr. Joseph Taylor, its representative in Cheng-tu. The letter, dated August 10, says: "The cholera is raging in Cheng-tu. People are dropping dead in the streets and the supply of coffins has run out. Although carpenters are working day and night, the dead have to be buried in trenches."

"The people look upon the scourge as a visitation of the Supreme Being who is punishing them for their sins. Add to this pestilence a state of war in the province and it would seem as if the cup of sorrow for these Szechuanese is filled to overflowing. It may be necessary to postpone the opening of the Union University, as the cholera is on all the roads which our students have to travel."

Simply say H.P. to your grocer—he will hand you a bottle of the most appetising sauce in the world.

ADVOCATES FUR FARM.
 U. S. Department of Agriculture Urges Conservation of Animals.
 Washington, Oct. 14.—Farming of fur-bearing animals and establishment of large sanctuary tracts as a means of preserving the nation's fur supply are advocated by the department of agriculture. The department pointed to a recent statement of the biological survey that unless fur-bearing animals are rigidly conserved the time is not far distant when many of the more valuable species will be exterminated and furs will be worn only by the very wealthy. Muskrat, skunk, fox and mink are among the animals which, according to the department, can be successfully bred in captivity or under conditions of semi-domestication.

CRY FOR POLITICAL REFORM IN CHINA

Last Session of Diet Was Noisy One - Clamor for Extension of Franchise to Young Men.

(Associated Press Correspondence.) Tokyo, Sept. 2.—Public opinion, as voiced in the Japanese press, is far from satisfied with the character of the proceedings in the session of the Diet just closed and is particularly condemnatory of the failure to take better advantage of opportunities to push constitutional development.

A review of the session of the House of Representatives shows that it was noisy, even riotous in nature, that, besides the question of granting universal suffrage, it devoted itself to matters of a transitory or personal nature and that with the exception of the well-known liberal, Yukio Ozaki, there was no party attack on military or political influence which is still regarded as being all powerful in Japan.

The Herald of Asia, an influential weekly edited by Japanese in the English language, says the present condition of the Japanese government in Japan falls far short of general expectations, but it is not so pessimistic as to believe in the absolute failure of the democratic movement.

The setting of a price of no less than \$2.50 a bushel for wheat is probably the only means now open to the government to counteract the ill-effect of the abolition of the wheat board according to H. W. Wood, president of the United Farmers of Ontario.

Rev. Dr. Biederwolf Says Quarter of American Ministers Do Not Maintain Family Worship in Homes.

(By Associated Press.) Tokio, Oct. 13.—Failure of home life and not the failure of the church was held to be responsible for the social unrest, the sin and crime and shame that attend the modern world, by the Rev. W. E. Biederwolf, D. D., of Chicago in an address before the World's Sunday School convention here last night.

"A wise teacher of ancient times said 'Give me a single domestic grace and I will turn it into a hundred public virtues,'" declared Dr. Biederwolf, "and I wonder, if we were to attempt to witness the story of the deplorable legacy to which we have fallen heir if it would not be to strike the history of fallen men and desecrated shrines and, to little extent, of an apostate clergy."

"The nervous, feverish rush of modern life is evidenced by the moral absorption in material interests. Modern life is a dash through a crowd. A man hardly has time to stop and tie his shoe string. It is a race to keep pace with steam and electricity."

"The disruption of the family unit," the latter was caused said Dr. Biederwolf, "first by the prevailing method of education which practically removes boys and girls from immediate and continuous parental influence in spiritual things for a period running between the ages of seven and 21 and second, by the excessive pursuit of pleasure."

"Legitimate as this desire is, when all one's pleasures are found outside the home circle the family life from the standpoint just now under consideration must consequently suffer," he concluded.

Other speakers at the Congress were the Rev. John T. Farris, D. D., of Philadelphia, who discussed possible co-operation between secular and religious educational agencies and the Rev. Rufus W. Miller, D. D., of Philadelphia who stressed the responsibility in guiding the religious education of youth.

He Had Work Enough. Old Ebenezer was whitewashing his barn on morning with a brush that contained very few bristles. Colonel Judd happened to pass, and said: "Why don't you get a brush with more bristles in it, Ebenezer?" "What for, colonel?" asked the old man. "What for?" shouted the colonel. "Why, Ebenezer, if you had a brush with more bristles in it you could do twice as much work."

RESTRICTIONS ARE PLACED ON ALL PATENT MEDICINE

Remedies for Certain Ailments Prohibited Entirely—Clause Regarding Testimonials.

London, Oct. 14.—(By Canadian Press)—The British proprietary medicines bill, which has just been published, provides for the registration of patent medicines and appliances and of the owners thereof, and places stringent restrictions upon the sale of articles so registered. A patent or proprietary medicine is defined as one "which is held out by advertisement as of use for curative or remedial purposes, and which is either sold under a trade name or manufactured by a secret process."

The manufacture or sale of "remedies" for certain ailments is prohibited altogether. These include cancer, consumption, lupus, deafness, fits, epilepsy, diabetes, paralysis, locomotor ataxia, Bright's disease, and rupture. The bill prohibits the sale, and advertisement for sale, of "remedies" or appliances purporting to be effective for the prevention, cure or relief of these and certain other complaints. Further provisions of the bill forbid the sending of advertisements of one kind of remedy in packages containing another, and it is also forbidden to the owners, vendors, or agents of registered remedies to invite correspondence regarding ailments, or to treat or offer to treat sufferers, or to publish false testimonials, or to suggest that proprietary medicines or appliances are recommended by duly qualified practitioners without giving their names and qualifications and, if alive, their addresses. The Minister of Health is given authority to remove from the register any remedies or appliances held to be injurious, but the owner has the right under the bill, of appealing to the High Court. The bill does not apply to Scotland or Ireland.

In this connection it may be noted that the British dangerous drug bill, prepared as an outcome of the International Opium Conventions, passed the committee stage in the House of Commons on July 27. This bill places restrictions upon the importation and exportation of opium, cocaine, morphine, and other dangerous drugs.

PREPARE PLANES TO CROSS PACIFIC

New York, Oct. 14.—(Canadian Press)—Great aeroplanes, with a cruising radius sufficient to enable them to cross the Pacific ocean, are now under construction and will probably be available for use by the United States navy department early next spring. It is announced by the Manufacturers' Aircraft Association.

Eight torpedo seaplanes with a cruising radius of 400 miles, the association announces, will be stationed at San Diego, Cal., where they will co-operate with the United States Pacific fleet and coast defenses. These plans, brought from Cleveland aboard twenty-three cars, comprised the largest shipment of fighting

aircraft in the United States since the armistice.

Each of the torpedo planes has a total gross weight of 11,510 pounds including pilot, navigator and gunner, each machine will carry a 1,650 pound torpedo, 420 pounds of bombs, two machine guns, various instruments and accessories, and fuel for four hours' flight.

"Cops" Lawful.

Baltimore, Oct. 14.—(Canadian Press)—The ancient game of craps, otherwise known as "African golf," is not unlawful, provided the dice are not loaded, a local police magistrate has ruled. Fourteen colored men who were hauled before the court for "rolling the ivory" were set free when the judge found the little cubes were honest.

FIVE FOOT WIFE BEATS HER SIX FOOT HUSBAND.

Wallington, N. J., Oct. 14.—(Canadian Press)—To such a degree has the feminist movement triumphed in this town that Andrew Rasmun, six feet three inches, was compelled the other day to have his wife in the recorder's court on a charge of assault. Mrs. Rasmun is five feet two inches tall.

When Andrew returned late from a lodge meeting, he told the court, his wife met him with a barrage of flatirons. He produced as exhibits one flatiron and two black eyes. The court warned the woman to "lay off" Andrew.

"Next time he comes home late I'll do it again," replied the female of the species.

Low-priced, yes; but of smart appearance

INGERSOLLS, famous for the low prices at which they are sold, are not only the strongest and hardest watches made—but they're as seemly and smart in appearance as you could wish.

Why even the Maple Leaf—\$3.25—the lowest-priced Ingersoll, is really handsome. No thicker than watches that cost a whole lot more, with good lines and a dial that is simple and artistic.

Then when you move up to the Waterbury at \$7.00 you find a small—twelve-size—jeweled watch of distinction and charm, still thinner than the Maple Leaf and with refinement of finish and design that pleases the most critical eye.

As for Reliance—"the Ingersoll with a college education"—he's an aristocrat. Slim, seven-jeweled, with bridge movement, Reliance is the kind you pull out of your pocket not only to tell time by, but to exhibit to your friends. Yet this slender, patrician timepiece costs but \$9.25 in nickel case, \$14.50 in gold filled.

There are many other Ingersolls—the Eclipse, a thin watch at \$4.75; and its twin, the Eclipse Radiolite that tells time in the dark, price, \$5.50; the Midget Radiolite, \$6.25, for women, a "cutie" watch that appeals especially to the feminine taste; the Wrist Radiolite at \$6.75; and the Radiolite Two-in-One, \$4.25, a Maple Leaf in a case that makes it into a desk or bureau clock which, like all Radiolites, "tells time in the dark."

All these Ingersolls possess the faithful, sturdy time-keeping qualities that have made Ingersoll a synonym for accurate performance under all sorts of conditions, and all these Ingersolls also have the good looks, the pleasing appearance and the refinement which upset the logic that "you can't have everything."

You get everything in an Ingersoll—and you get it for less than seems possible. It is possible because of the huge number of Ingersoll sales—5,000,000 watches a year. Get your Ingersoll today.

Country Planning Subject of Convention — American Civic Association Assembles Experts.

Country planning will be the chief topic under discussion at the sixteenth annual convention of the American Civic Association, to be held at Amherst, Mass., October 18, 19 and 20 in connection with the fifth anniversary celebration of the Massachusetts Agricultural College.

Other organizations to co-operate include the American Country Life Association, the Massachusetts State Department of Agriculture, and State Grange, and the Massachusetts Federation of Planning Boards. Addresses will be delivered by authoritative speakers on every aspect of country planning from the national, state, and city parks, to community planning for village and rural districts and plans for the farm, in an effort to combat the alarming drift of men and women from the food-producing country to the food-consuming city.

At the opening session on Thursday morning the principal address will be made by J. Horace McFarland, president of the American Civic Association on the subject "Preserving the Civic Integrity of our National Possessions." Other speakers will be Stephen Mather, director of the National Park Service; Col. William B. Greeley, chief of the United States Forest Service, and George C. Diehl, highway commissioner of the American Automobile Association. Mrs. Thomas G. Winter, president of the General Federation of Women's Clubs, Minneapolis, will speak Thursday afternoon on the subject of "The Woman in the Rural Community."

The Garden City. In the session Friday morning Thomas Adams, a town planner from Canada, will speak on "America's Garden City and How It Can Be Established in the United States." One way of meeting the nation-wide need for increased housing facilities will be presented in this plan, which has already been effectively utilized by Great Britain to solve the problem of congestion. George B. Ford of New York City will give an illustrated address on "The Reconstruction of the Devastated Village of France," and the subject of "Planning the Industrial Village" will be presented by Prof. James Ford of Cambridge.

Dr. Albert Shaw, editor of the Review of Reviews, will speak Friday evening on "Organizing the Country to Compete With City Life." The sessions on Saturday will be devoted to planning for rural districts and individual farms.

An effort will be made to protect the lakes of Yellowstone National Park against proposed encroachments of power companies, and to prevent the denuding of the redwood groves of California for lumber.

FUR PRICES SHOW SLIGHT DECLINE

(New York Evening Post.) Furs are somewhat cheaper this season as compared with the market a year ago, but the decline is so slight as to be almost negligible, and is most marked in the medium and lower grades of fur. Prominent furriers of this city do not hold out any promise of any further reaction or anticipate any marked decline. The conditions of the fur trade, they say, are disturbed and most uncertain and production has been almost at a standstill since June 29, when the workers went on strike. Although a few small shops compromised with the unions and some of the so-called "family" shops

have continued to work in furs, manufacture has been enormously restricted. Moreover, furriers contend that the cost of maintaining an open shop, which entails special provisions for the safety of the workers and the expense of getting them to and from work, has been another factor in the complication that adds to the overhead of production and tends to keep prices up. Pelts are acknowledged to be cheaper in many instances, especially where a small dealer has an accumulation of certain lines which he feels that he cannot afford to hold with the uncertainty of getting them made up. In such a case he is willing to part with his surplus stock at a figure below the market value. But this depreciation is not general and cannot be felt appreciable in the trade as a whole. Retailers Suffer Loss. An executive of a well known Fifth avenue firm, when interviewed today, resented the statement frequently made that the manufacturer had borne the loss

AK TABLETS FOR All Pain

Headaches Neuralgias Colds and La Grippe

Women's Aches and Illnesses Rheumatic and Sciatic Pains Ask your Druggist for A-K Tablets

In the reductions that have been made. He insisted that the loss has fallen heavily on the retailers who have cut their profits in the desire to stabilize the trade and bring about more normal conditions.

No furrier anticipates any radical changes in prices, but marked improvement is forecast by next winter. Under production and the cost of strikes are believed to neutralize any present lowering of prices in pelts or other favorable conditions. Among the popular furs which show a decline in prices are fox, mole and Hudson seal, while the dyed rat fur of many varieties, which figure as French seal,

etc., also have fallen somewhat. But such fur as Alaska seal is not only at a high level, but shows a tendency to rise. Readjustment, which is only the beginning of a much larger movement towards stability of conditions, is really the term, rather than reduction, for any change in price which has already taken place. When production reaches something like its normal conditions furriers antici-

ate a lowering of prices, but no great slump in the market, and greater stability rather than sweeping changes in either rise or decline in the price scale.

METHYLATED SPIRITS (Denatured Alcohol)

DURING the last session of parliament, the Inland Revenue Act was amended so that the sale of Methylated Spirits (denatured alcohol) is no longer controlled and carried on by the Department of Inland Revenue.

Our Distillery at Corbyville, Ontario,—the largest Industrial Alcohol plant in the British Empire—is fully equipped and thoroughly organized to serve manufacturers who use Methylated Spirits or Denatured Alcohol.

We will be pleased to place at your disposal the advice of our chemists in regard to the use of specially denatured alcohol. One of these formulas may prove more suitable in your business than that which you are now using.

We also manufacture Ethyl Alcohol, Cologne Spirits, Fusel Oil and Non-Potable Alcohol. All orders received by us will be given the prompt and careful attention that only an organization such as ours can give.

SPORT NEWS OF A DAY; HOME AND ABROAD

BASEBALL

Wild Time in Cleveland
Cleveland, Oct. 14.—Cleveland paid a tribute to its world champion baseball team in a public demonstration last night in Wade Park, attended by approximately 50,000 people. So great was the enthusiasm that the crowd became uncontrollable and broke through ropes marking off the stage where city officials and the Cleveland American League baseball players sat, smashed chairs, pushed several persons into a small lake, and vociferously expressed its joy over the winners of the world's series.

Baltimore Defeats St. Paul
St. Paul, Minn., Oct. 14.—Baltimore's International League champions yesterday defeated St. Paul, title winners in the American Association, 6 to 5 in their minor league championship series.

For Another Big Race
Cincinnati, Oct. 14.—Matt Winn, general manager of the Kentucky Jockey Club, yesterday wired Sam Riddle and Willis S. Sharpe Kilmer an offer of \$50,000 for a race between Man of War and Exterminator, at one and one-half miles.

Grand Circuit Meet
At the grand circuit meet in Lexington yesterday, Crystal Knight won the

218 pace, purse \$2,000, in straight heats, best time 2:07 1/2. Captain Mack won the 2:09 pace, purse \$1,000, two out of three heats, best time 2:08 1/2. The Ashland 2:11 trot for a purse of \$2,000 was won by Bonnie Bell, two out of four heats, best time 2:04 1/2. Harvey's Tide won the 2:07 trot, two out of three heats, best time 2:07 1/2.

HOCKEY

Moncton in Eastern League
Halifax, Oct. 13.—Nova Scotia amateur hockey league will be organized at a meeting to be held Nov. 1, at Truro. This announcement was made last night by a local player who is promoting the league. Officials of the Crescents have already announced that the club will be represented with Colonel Stan. Beaulieu, president of the Wanderers, intimates that his club will also have a fast team in the league.

Springhill, Amherst and New Glasgow have been invited to enter teams in the league, and there is a possibility that Moncton will be asked to enter, and should the New Brunswickers consent, the league will be known as the "Eastern."

As far as can be learned all above teams are in favor of amateur hockey, although they will attempt to have black-listed athletes made eligible for competition. It has been pointed out that with some of the veterans and former professionals back in the amateur game the league will be a huge financial success the first season, and that the money could be expended to make the league stronger for future years.

American Association
Calumet, Mich., Oct. 14.—The American Hockey Association will be reorganized this year with Calumet back in. Calumet refused to join the league last year and this action weakened the association considerably. The make-up of the circuit is not definitely known, but it is believed it will include Calumet, Houghton, the two Soos and possibly St. Paul. The entry of the latter city seems to be conditional on the formation of a league on the Iron ranges, possibly including St. Paul, Duluth, Hibbing and Eveleth. If this league is formed, arrangements will be made for a post-season series between the two circuits.

Oak Hall's Stupendous Store Wide Sale Now in Full Swing!

Although only starting this morning hundreds have already taken advantage of and become tremendously enthusiastic over the many real bargains.

Everything marked at a substantial reduction; nothing left out. An exact reproduction of our famous January and July events.

This stupendous sale is due to no panic feeling on our part, nor is it due to any radical break in manufacturing prices.

The plain honest facts are these: For the past four years it has been necessary to order consider-

ably more merchandise than we needed, to be assured of getting sufficient for our requirements, as manufacturers were behind in productions and only shipping about 60 p.c. of their orders.

This year our buyers followed the same plan anticipating the same conditions. These conditions changed, however, manufacturers are now shipping 100 p.c. of our Fall orders and furthermore are shipping orders that should have been shipped a year or more ago—and at the old prices.

These conditions give us more merchandise than we can consistently handle, therefore, in order

to make a quick selling of this large unexpected quantity, we have adopted this stupendous store-wide mark-down sale, giving our customers a real opportunity to fill in their entire winter's requirements at tremendous savings.

You know our July sale, you know our January sale. This stupendous mark-down sale is on the same basis—everything reduced. Don't hesitate to take advantage of it. Remember we are operating on the lowest possible margin of profit. You get the benefit of much lower prices on each individual purchase.
