MINISTERS AWAY TO EUROPE TODAY

Attendance at League Assembly Will Be Incidental.

French Treaty, Belgian and Czecho-Slovakian Trade, and Foreign Loans Will Receive Attention.

(Special to Times) Ottawa, Aug. 22.—Reciprocal trade arrangements between Canada and Belgium and Czecho-Slovakia, as well as a revision of the French treaty, will be taken up when abroad, by Hon. W. S. Fielding, who sails from Quebec today with Hon. Ernest Lapointe. Mr. Fielding's attendance at the assembly of the League of Nations, will be more of an incidental character.

Considerable correspondence has been exchanged with these countries in recent months, in respect both of trade, immigration, and other matters, and prospects are said to be promising for such conventions as will be mutually beneficial.

The French Treaty. In regard to the French treaty, a broadening out is aimed at. It is planned that Canada should receive the same favored treatment as is embodied in the existing agreement between France and the United States. One of the main outputs of France for which preference is sought, is light wines. The volume of business possible in that line, however, is restricted by the fact that only two provinces—Quebec and British Columbia—import wines as beverages.

Foreign Loans. The finance minister will also take up the Roumanian and Grecian loans. Greece has paid some but little interest. Roumania has defaulted in interest but has offered a new bond issue of long term maturities. The assurance of interest practically accepted this proposal on the ground that it could not be worse and may be better than the arrangement now in vogue. The assurance of interest being paid, is strong. Mr. Fielding is accompanied by tariff commissioner Russell, and E. B. Viets, counsel of the finance department.

Premier King is acting as minister of finance during the absence of Hon. W. S. Fielding, and Hon. Jacques Bureau has been appointed acting minister of marine and fisheries during the absence of Hon. Ernest Lapointe.

PREFER TRADE WITH CANADA

Jamaican Insurance Man in Toronto Looks to This Country For Market.

Toronto, Aug. 22.—Although the natural market for all products from Jamaica is the U. S., the majority of the Jamaicans themselves would prefer to have closer trade relationships with Canada because of its being a British colony, according to statements made yesterday by J. H. Kilborne, representative in Jamaica of the Confederation Life Association.

Mr. Kilborne, who is at present in the city attending a convention of the insurance men, has spent his life in Jamaica. All his statements are made from first hand information. He pointed out that now as never before Jamaican business men and traders were looking to Canada for a market for their goods.

WILLIAM'S MEMOIRS

Low Priced, Large Circulation Expected—The Principal Headings.

Berlin, Aug. 22.—Former Emperor William's forthcoming memoirs will have a wide circulation in Germany if low prices and extensive advertising are made of the appearance of the volume next October and is offered to book orders for it in paper cover, for one hundred marks, which is slightly less than fifteen cents in Canada, at the current rate of exchange.

SUN YAT SEN IS AGAIN TO FORE

Deposed Chinese President Figures in Reorganization of Government.

Shanghai, Aug. 22.—Sun Yat Sen, deposed president of China, who recently fled from Canton, has leaped to the front as a pivotal figure in the re-organization of the Chinese government with receipt of a telegram from Wu Pei Fu, dominant military figure of North China, flatly endorsing Sun's recent manifesto and pledging his support to Sun's policy for rebuilding the federal government machinery.

The Telegraph and Times inshell team will play the East St. John Rogers tonight at seven o'clock on the South End.

A New Situation in The Rail Strike Negotiations

Big Five Brotherhoods on Matter of Seniority Rights.

Answer of Rail Presidents to Be Determined Tomorrow—Trainmen and Firemen On Southern Railway Walk Out.

(By Canadian Press) New York, Aug. 22.—The shop craft strike entered another phase today when rail presidents from western states began to arrive for tomorrow's conference of the Association of Railway Executives, where they will vote their answer to measures proposed by the big four brotherhoods as a practical means of settling the seniority question and ending the strike.

This will mark the third assembling of rail chiefs within the last month, at each of which the problem of strikers' seniority rights has risen to block the path of settlement.

At the first two meetings plans submitted by President Harding were partly accepted, but with reservations and conditions which eliminated them as a basis for calling off the strike.

Tomorrow the railmen will face a new situation, the entrance of the big five brotherhoods into the negotiations where, as mediators, they have made plain their attitude toward seniority rights as applied to their fellow workmen, the striking shop craft men.

MOORE WALK OUT

Louisville, Ky., Aug. 22.—Official notice of a walk-out of the "Big Four" brotherhood of trainmen on the western division of the Southern Railway Company from Danville, Ky., to St. Louis, Mo., was received late yesterday by officials of the company here, following a second strike of firemen at 12:30 o'clock in the afternoon at Princeton, Ind. Orders were given for the annulment of trains between Louisville and St. Louis until further notice.

Chicago, Aug. 22.—Walkouts by trainmen on the Southern Railway resulting in tie-ups in North Carolina, following a week of investigations of alleged wreck plots, marked the progress of the rail shippers' strike, which is expected to be hung suspended pending the New York meeting tomorrow of rail brotherhoods, mediators for the striking shopmen.

Eight companies of state troops were on duty about the shops of the Southern Railway at Spencer, N. C., where 1,700 men are out, and about the post office at Salisbury, three miles from Spencer. The troops at the post office were requested by Postmaster Boyden, who alleged that open threats had been made to lynch a post office clerk.

At Atlanta thirty-five United States deputy marshals were on duty in the Southern Railway yards, and yesterday a negro was perhaps fatally injured and nine others severely beaten.

A party of men was reported to have attacked J. P. Feaster, a boilermaker at Birmingham, late last night near the Louisville and Nashville shops.

Trade on the Louisville-St. Louis division of the Southern will be tied up completely at 12:01 o'clock Thursday morning unless a settlement is reached between representatives of the Big Four brotherhoods and an agreement on the roads is reached.

At Huntington, W. Va., a second attempt to dynamite a Chesapeake and Ohio railroad bridge was frustrated when a truck carrying dynamite exploded from the trestle. They left a box of dynamite and forty feet of fuse.

Linenmen for the Missouri and North Arkansas railway discovered an obstruction on the tracks near Harrison, Ark., and removed it ten minutes before a train passed.

San Bernardino, Calif., remained in a high state of excitement over renewed outbreaks in the Achison, Topock and Santa Fe yards. A striking electrician was killed and another striker perhaps fatally wounded in a running pistol fight with a negro waiter employed at the commissary inside the Santa Fe enclosure. According to police the negro said he employed a pistol at five men who followed him from the shop gates. A strong guard was thrown around the jail where the negro was held.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hombmann, "what do you think of making use of 'white coal' to produce a smoke screen that will conceal the operations of the enemy?"

"It 'ud be a good 'un like an ostrich sticking its head in the sand to hide itself—wouldn't it?" responded Hiram.

"Such is the verdict of the maharajah of Ralpipa, said to be the richest man in India, who sailed for his home after a visit in America.

The prince, who is only 27 years old, came here to stay 10 days. He was fascinated, however, mostly by American women and remained a month. He found so much entertainment here that he said he would not return to his home until he had seen the women of the American polo players.

STRONG ATTACK ON FORMER PREMIER

Civil Service Delegate Brands Mr. Meighen's Statement as Fabrication—Denies 100 Per Cent. Salary Increase—Congress Journal Criticized

(By Canadian Press) Montreal, Aug. 22.—Ex-Premier Meighen's statement to organized labor in reply to the latter's plea for a reorganization of the civil service was labelled "a complete fabrication," as an official publication of the Congress Journal, in accordance with the true facts of the case, by Delegate Tunney of Ottawa, representing the unionized government employees at this morning's session of the Dominion Trades and Labor Congress.

Contrary to Mr. Meighen's statement, declared Mr. Tunney, "we have not been granted a board of appeal against decisions of the civil service commission."

He said that the statement was a fabrication, and that the salary increase of 100 per cent. was a matter of fact, many of us have only received increases of five dollars in two years, and furthermore, patronage has not been eliminated from the service owing to the present basis of the civil service commission.

A plea by J. W. Wilkinson, Vancouver, that organized labor should give a more generous support to the "Congress Journal" as official publication of the congress, precipitated the first spirited debate of the convention.

The six men now under arrest accused of having or transporting explosive without a permit were arraigned yesterday and had their cases adjourned until September 6. They are Robert Lacey, former president of the Central Labor Council of Buffalo, and five other employees of the traction company. It is reported by the police that three of the prisoners have made confessions implicating the others.

SLIGHT TROUBLE ON THE MAJESTIC

New York, Aug. 22.—The Majestic, largest ship afloat, which left Southampton for New York last Wednesday, had to be delayed because of a slight trouble on the engine room.

PLANE ARRIVES AT NASSAU

Nassau, New Province, Bahamas, Aug. 22.—The United States seaplane piloted by Lieut. Hinton, which left West Palm Beach yesterday morning on one leg of its journey from New York to Rio Janeiro, arrived here at 1:35 o'clock yesterday afternoon.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. E. J. Fisher, director of meteorological service.

Operators and Workers Meeting Today at Sydney

Expect Today's Session Will Be Only Preliminary.

Those at the Conference—U. M. W. Executive in Secret Session, Discussed Question of Minimum Wage.

(By Canadian Press Staff Correspondent) Sydney, N. S. W., Aug. 22.—A preliminary conference between officials of the U. M. W. District 26 looking to a settlement of the Nova Scotia coal strike began at the British Empire Steel Corporation's general offices here at noon today.

It was stated that this first meeting was regarded by the both sides as merely a preliminary, and adjournment until Wednesday was expected. The conference will be satisfied if they get a few of the rough spots ironed out of the situation this afternoon.

At the conference will be D. H. McDougall, E. P. Morrill, H. J. McCann, A. S. McNeil and F. W. Gray for the company; President Livingstone of the U. M. W. executive will be accompanied by Col. G. S. Harrington, their legal adviser; and it is considered practically certain that D. A. Cameron will be present on behalf of the provincial authorities.

LIQUOR DUMPED IN RIVER; FISH ON MERRY SPREE

Jewett City, Conn., Aug. 22.—Here is fish story for which, in effect, the state police vouch.

Confiscated liquor, valued at \$15,000 was poured into the Assawaugus River, with the fish suffering from what, in the old days, was known as a hang-over.

Pickered and shiny minnows frolicked along side by side. Huge black bass floated down stream on their backs and were easily picked up by hand. The Wauregan Mill race was so choked with a drunken congregation of fishy creatures that they had to be scooped up by the hundreds before the power machine could function properly.

OFFERS \$100 A MONTH FOR HER FRIEND'S HUSBAND

Two Couples Badly Mixed Up In California Tangle—All Aware of Bargain and Evidently Have No Objection.

San Francisco, Aug. 22.—An offer by Mrs. Edith Huntington Spreckels Wakefield, first wife of the late "Jack" Spreckels, California millionaire, and herself prominent in San Francisco society, to "buy" another woman's husband from her for \$100 a month for the rest of her life, came to light here today and is admitted by all persons involved.

The husband whom Mrs. Wakefield is credited with having offered to "buy" is Rodney Kendrick, a newspaper artist. The wife, who is ill and admits she is considering the offer, said she already had given her wedding ring to Mrs. Wakefield.

Mrs. Wakefield said she, too, planned a divorce. Mrs. Kendrick said she would time ago told Mrs. Kendrick that I loved her husband and wanted to marry him. I promised her she would have a home with Rodney and myself as long as she lived.

The wife said: "Mrs. Wakefield wrote me a letter five or six weeks ago, when I was in a sanatorium, asking me to come to her home. She told me that she was in love with my husband, and that my husband both told me that it was a bargain and they left in her car for a camping trip in the Lake Tahoe district."

THREE SAID TO HAVE CONFESSED

Trial of Men in Buffalo Dynamite Case Set For Sept. 6—1,000 Sticks of Explosive Stolen.

Buffalo, Aug. 22.—Police investigating the recent attacks with dynamite on the trolley company here learned that one thousand sticks of the explosive had been stolen from a magazine near Lockport in Niagara county. Much of it is still unaccounted for.

AUSTRIAN CRISIS EXPECTED SOON

Austrian Government Said To Be Forcing Events.

May Appeal to League of Nations For Fusion With Germany—Union With Italy Also Advocated.

Vienna, Aug. 22.—Chancellor Seipel's sudden visits to Prague, Berlin and Rome are said here to mean the determination of the Austrian government to force events and bring the country's situation to a precipitate head rather than continue in a drifting policy.

It is understood that the chancellor will flatly inform the premiers of these three countries that a collapse is morally certain and is near at hand. He will point out the danger of this eventually to the three neighboring states and ask them what action they are prepared to undertake, when the crash comes.

Upon Seipel's return to Vienna he is expected to convolve the national assembly and is expected to present before it the assembly's approval to appeal to the League of Nations for the fusion of Austria with Germany or for the voluntary partition of the country.

A Serious Situation. Should this programme be carried out, it is believed in the best informed foreign quarters here that a most serious situation would result, inasmuch as all the openly discussed plans for partition have failed to find an answer to the question of what would become of Vienna.

On the arrival of the morning express, bringing mainland members, the U. M. W. executive went into secret session at the Vidal Hotel. They discussed the irrefragable minimum upon which they are prepared to effect a settlement with the operators at the conference today.

The night passed quietly in the coal field with no reports of disturbance or damage to property. The almost continuous three day rain has kept the bulk of the strikers indoors, although the pickets under semi-military discipline carry on as usual.

McKenzie Returns. Ottawa, Aug. 21.—Hon. D. D. McKenzie, solicitor general, who represents north Cape Breton and Victoria, part of the coast till the strike is adjusted, Sydney Mines and several plain fields are in his constituency.

The unemployed men, however, served an ultimatum that if their demand for reduced prices were not granted, the police will not be able to stop them a second time from giving vent to their despair.

CITE RECORD OF THE C. G. M. M.

English Shipping People Interested in Announcement Regarding Australian Steamers.

(Canadian Press Cable) London, Eng., Aug. 22.—English shipping circles are paying some attention to the Australian treasury announcement that the commonwealth line of steamers will be placed under independent control. In this connection the Times speaks of the precedent created by Canada, which, however, suffered substantial losses last year.

Considering the objections on principle to government trading which is strongly held in business quarters, the Times says "there has been singularly little adverse criticism of the Canadian scheme. Probably this is largely due to the management trying to open new trade routes, and to the marked readiness to co-operate with the shipping companies which have been long in existence."

RUSSO-FRENCH NEGOTIATIONS ARE REPORTED DEVELOPING. London, Aug. 22.—The Riga correspondent of the Times says it is reliably reported that serious Russo-French negotiations are developing in Berlin. Paris and Moscow and that the appointment of M. Tchitcherine as Soviet envoy in Paris is almost certain.

LABORITES TOLD THAT \$50,000,000 IS AVAILABLE FOR RELIEF WORK

London, Aug. 22.—(Canadian Press)—The national government and the municipalities between them have directly found fifty million pounds for relief work. Minister of Labor T. J. MacNamara told a deputation of laborites, who reiterated the accusation that the department lacked practical sympathy towards unemployment. This sum is in addition to the relief accruing from the operation of unemployment insurance.

The minister also pointed out that credits totalling £16,250,000 had already been sanctioned to relieve unemployment.

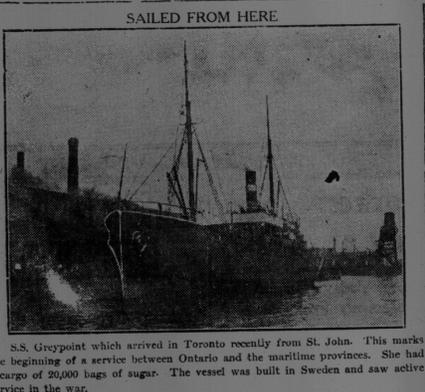

RAILWAY MEN AT OTTAWA MEETING

Many Questions of Interest To Workmen To Be Taken Up During Week.

Ottawa, Aug. 22.—(Canadian Press)—The sessions of the Canadian Legislative Board of the Brotherhood of Locomotive Firemen and Engineers, opened their seventh annual meeting here yesterday, about one hundred delegates are present from different parts of Canada.

Among the questions to be taken up during the week's duration of meetings are: Industrial dispute act of 1907, its application, interpretation and amendments; Amendments to immigration act with a view of dealing with Asiatic immigration, deportation and the bringing in from Europe of immigrants under present industrial conditions; Amendments to the railway act; The powers of the board of railway commissioners; The dual payment of income tax by Canadian railway employees engaged in international service, both Canada and United States collecting income tax from such men; Political action by railway employees in regard to the Hanna order; The appointment of railway employees on the new Canadian National Board; The supporting of the nominee of the organizations which met in Montreal a few weeks ago in regard to the C. N. R. board; The nominee is T. M. Spooner, of Winnipeg, general chairman of the firemen of the Canadian Northern road; Unemployment insurance; Compensation for government employees should be divorced from the present situation of coupling up with the inter-colonial provident fund; Increasing the scope of the mother's pension act; Compensation for accidents on a state insurance plan; Safety appliances, the regulation of excessive hours of labor, more rigid inspection of locomotive boilers, equipment of mechanical stokers, power grate shakers, automatic fire box doors, electric lights on locomotives and more inspectors.

RECORD FOR STATE LOAN IN INDIA. London, Aug. 22.—(C. P. Despatch).—According to a despatch from Reuters' correspondent at Calcutta, India is not in such a poverty-stricken condition as is depicted by several extremist journals, judging from the result of the government's new loan. More than £30,000,000 has been subscribed, constituting a record for state borrowing in India for a single year.

S.S. Greypoint which arrived in Toronto recently from St. John. This marks the beginning of a service between Ontario and the maritime provinces. She had a cargo of 20,000 bags of sugar. The vessel was built in Sweden and saw active service in the war.

THE BRITISH DEBT

Financier Declares it Could Be Paid Only in Sound Securities.

London, Aug. 22.—The Times continues to devote much attention to the question of Great Britain's debt to the United States.

HOCKEY MAGNATES REACH AGREEMENT

Inter League Professional Matches Arranged—Late News of the Sport World.

Vancouver, B. C., Aug. 22.—An arrangement which will provide inter-league professional hockey games periodically during the season was entered into yesterday between the magnates of the Western Canada Hockey League and the Pacific Coast Hockey League here.

CONDENSED NEWS

Amendment to the U. S. transportation act to prevent wage decisions of the railroad labor board becoming effective for at least 150 days after such decisions are made was proposed in a bill yesterday by Representative Dickinson, Republican, Iowa.

PERSONALS

TRUE BILLS IN ALL FOUR CASES

This afternoon the grand jury brought in true bills in the cases of the King vs. 26th officers, the King vs. 26th officers, the King vs. 26th officers, and the King vs. 26th officers.

MISSING AIRMEN ARE LOCATED

Calcutta, Aug. 22.—Captain Norman MacMillan and Captain Mallin, who left here Saturday for Akab, Burma, in continuation of the round the world flight, abandoned by Major W. T. Blake, because of illness, were forced to land on account of engine trouble and shortage of gasoline at Lakshipur Char (Lakshipur, Cachar) says a message received today by the Calcutta Statesman.

SEAPLANE PASSES

Halifax, N. S., Aug. 22.—Major A. B. Shearer left for Roberval, Que., in a seaplane, at 8.15 a. m. Atlantic standard time. He proposes to take photographs of Windsor, N. S., en route, and will land at Fredericton in order to re-fuel.

CHARGE WITHDRAWN

The case of George J. Fletcher, brought here from Halifax in connection with a charge of fraudulently converting to his own use funds amounting to about \$800, while in the employ of the International Business Machine Company, came up again this morning.

JAMES I. BARNES

Barnes, Commissioner of the last thirty-five years, died at the home of his daughter, Mrs. E. M. Cleveland of 281 Broadway, at the age of seventy-six years. He was born in Sackville, N. B., coming to Bangor from his native place. He was a saw filer and was widely known.

Engagements Announced

Fredericton (Gleason)—Mr. and Mrs. Fletcher Jones, Hatfield Point, announce the engagement of their only daughter, Alma Vivian, to Clarence R. D. Wetmore, St. John, the marriage to take place in September. John L. Graham Welsford, has announced the engagement of his eldest daughter, Mabel Frances, to Charles C. Alley of 206 Douglas avenue the wedding to take place early in September.

AUSTRALIA AS COTTON RIVAL OF AMERICA

Melbourne, Aug. 22.—Under the capitalist system Australia is supporting twice as many people as it did 100 years ago, according to Prime Minister Hughes who in a recent survey of the condition of the Commonwealth prophesied that 100 years from today Australia's 5,500,000 inhabitants will have swelled to 100,000,000.

"Australia is the greatest food producing country in the world," said Mr. Hughes, "and its agricultural possibilities in certain fields are barely started."

As an instance Mr. Hughes mentioned that Australia was suited for growing a very fine cotton, with a superior staple to that of American cotton, and he pointed out that Australia had available an area for the culture of this crop in excess of the area devoted to it in America.

SHE HAS RAISED A FAMILY OF TEN

Dr. Fowler's EXTRACT OF WILDSTRAWBERRY NEVER FAILED HER

Mrs. Ervin W. Stairs, East Waterville, N. B., writes: "I have raised a family of ten children and have always used Dr. Fowler's Extract of Wild Strawberry for summer complaint, and it has never failed."

Four years ago when the cholera was about, some of my neighbors called in the doctor, but could get no relief. I told them about "Dr. Fowler's" and after taking it they were soon well again. I also used it for two of my own children at the same time when they were passing blood, and a few doses soon made them well."

If you want to be on the safe side ask for Dr. Fowler's Extract of Wild Strawberry, and insist on getting what you ask for. There are many imitations on the market, so be sure and get the original "Dr. Fowler's" price, 50c a bottle, put up only by The T. Milburn Co., Limited, Toronto, Ont.

for lameness

LOCAL NEWS

The Nevins will case, which was to have come up before Judge H. O. McInerney in the probate court yesterday afternoon, was postponed until Thursday, August 31, as one of the witnesses, Harry W. King, was out of the city.

The contract for re-wiring the epidemic hospital was awarded yesterday to the Vaughan Electric Company, their tender being the lowest, \$1,600. Five tenders were received.

A party of musicians from the local theatres gathered at Bond's restaurant last evening and enjoyed a social get-together. After catering had been completed, speeches and songs comprised the remaining part of the programme. The party broke up at a late hour.

The band concert which was to have been given by St. Mary's Band in King square last evening, was postponed until Wednesday night on account of the inclement weather. The same programme which was slated for last evening will be given on Wednesday.

Announcement is made by the Boston & Maine Railroad that on Sept. 9 train No. 109, which leaves Boston at 7 a. m. for South Lawrence, Haverhill, Dover, Portland and St. John, will be discontinued. This train arrives in this city at 11.50 p. m., daylight time.

Although the public schools of the city and some of the surrounding districts will not open until September 6, all the other schools throughout the province will open on Monday, August 28, as authorized by law.

Frederick Dunn of Hammond River, who was shot on Saturday evening, receiving the accidental discharge of a gun in the thigh, died yesterday in the General Public Hospital. He was a Scotch lad seventeen years of age.

Announcements of awards by the St. John Ambulance Association have been made as follows—Miss Purdy's class at Rothesay, first aid certificates, Miss McArthur and Miss Ruth Thompson, and medallion, Miss Catherine McAvilly. Jack Redfern's class at Sunny Brae, employees of the woolen mills at Humphreys, first aid certificates, Miss Ella Polleys and Miss Amelia LeBlanc.

John B. Belding, Mrs. Belding and two children, of Sissomus (B.C.), spent the week-end with Mr. and Mrs. H. W. Belding in their cottage at Public Landing and returned to the city yesterday, leaving again last night for their home. They will break the journey at Toronto to visit Niagara Falls. On their return from Halifax last week they spent part of a day at Norton, part of another at Hampton, and several days with Mr. and Mrs. Guy Smith at Renforth.

Capt. J. D. MacKenzie, who commanded the steamship Canadian Commander, which grounded off St. Pierre while en route to London, Capt. MacKenzie went with the C. G. M. M. Ltd., when it first opened service and has worked his way from the smaller steamers of the fleet to the largest.

E. V. Morrow, manager for the Burroughs Adding Machine Co. for Nova Scotia, has been transferred to Calgary and will go there about the first of September. Morrow was formerly in charge of Halifax in their car last week, arriving at the home of Mrs. Morrow's sister, Mrs. Guy Smith, at Renforth, on Saturday night. On Sunday Mr. Morrow ran out to the home on his parents on the Kennebecasis, above Gouda Point. On his return to Renforth the car caught fire and was so badly damaged that he had to tow back to his father's place, and he and Mrs. Morrow left by train yesterday morning for Halifax. They will come this way again en route to Calgary. Mr. Morrow was formerly accountant at Oak Hall and an active Knight of Pythias. He is a member of the Halifax Rotary Club.

FIND MAN'S BODY IN SWAMP

Dead Six Months—No Evidence of Crime, Police Say.

New York, Aug. 22.—The body of a man was found in a swamp at the foot of Kingsland avenue in the hamlet of Princes Bay, Staten Island. Police said the body had been there for at least six months.

The body was headless when discovered by Miss Ada Webb of Princes Bay, but the skull was later found by police a few feet away. There was no means of identification.

The man wore a brown coat, a green felt hat and overseas shoes. Detectives of the homicide squad, who investigated the case, announced there was no evidence of a crime.

DIES FROM HAIR IRON FIRE

Mrs. Felix McGill Victim of Burns at Long Beach.

Long Beach, L. I., Aug. 22.—Mrs. Felix McGill, 24, wife of the groundskeeper at the Lido Golf Club, was burned fatally when her dress caught fire from an electric hair iron.

Her husband hearing her screams, rushed into the room and found her clothing in flames. McGill succeeded in putting out the flames with blankets and was burned about the hands. Mrs. McGill was unconscious and was hurried to the hospital, but died as she was being taken to the operating room.

ACCUSED OF POURING HOT WATER ON WIFE

Children Say Father Did It When He Found Only Pie For Supper—He Is Held Without Bail.

New York, Aug. 22.—After charging the police for six days, Chester Blaszkewicz, a laborer, of 12 Bianco Place, Jamaica, was arrested and arraigned in the Jamaica police court, charged with having scalded his wife, Clara, thirty-six, with a kettle of boiling water last Monday night. The specific charge was felonious assault, which will be changed to homicide in the event of the death of the woman, who is in a critical condition in St. Mary's Hospital, Jamaica. Magistrate Miller held the laborer without bail for examination Monday.

In court the prisoner said he did not know the water was hot.

The three children of the couple, Stanley, thirteen, Michael, eleven, and Charles, nine, yesterday were taken into custody by the Queensboro Society for the Prevention of Cruelty to Children. The children told the police that their father demanded a meal late Monday night. The mother, not feeling well, was lying on a couch. Charles, the youngest of the children, said he told his father there was some pie in the house, but nothing else. Blaszkewicz then took the kettle of water, which was boiling on the stove, the children say, and poured it over their mother's face, shoulders and chest.

On Wednesday her husband called at the hospital and demanded her release. He was told she was in a weak condition and needed much care. He replied she would get that care and would be taken home in an automobile. The hospital

WOMEN OF MIDDLE AGE

A Trying Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Detroit, Michigan—"During the Change of Life, I had a lot of stomach trouble, and was bothered a great deal with hot flashes. Sometimes I was not able to do any work at all. I read about Lydia E. Pinkham's Vegetable Compound in your little books and took it with very good results. I keep house and am able now to do all my own work. I recommend your medicine and am willing for you to publish my testimonial." Mrs. J. S. Laverne, 2051 Junction Avenue, Detroit, Mich.

Queer Feelings at Middle Age

Sheboygan, Wisconsin—"I was run-down, tired and nervous. I could not sleep at night and all kinds of queer thoughts would come to me. Finally, I gave up going to the doctor and a friend told me of Lydia E. Pinkham's Vegetable Compound. After the first bottle I could sleep better and I have kept on improving ever since." Mrs. B. LANSER, 1639 N. 3rd St., Sheboygan, Wisconsin.

Let the Compound Help You

The critical time of a woman's life usually comes between the years of 45 and 50, and is often beset with annoying symptoms such as nervousness, irritability, melancholia, heat flashes or waves of heat appear to pass over the body, cause the face to be very red and often bring on headache, dizziness and a sense of suffocation.

Another annoying symptom which comes at this time is an inability to recall names, dates or other small facts. This is liable to make a woman lose confidence in herself. She becomes nervous, avoids meeting strangers and dreads to go out alone.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women at this time. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. Let it help carry you through this time of life. It is a splendid medicine for the middle-aged woman. It is prepared from medicinal roots and herbs and contains no harmful drugs or narcotics.

Lydia E. Pinkham's Private Text-Book upon "Aliments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

GILMOUR'S

68 King St.
Clothing, Tailoring, Haberdashery

authorities at that time did not know that the police were looking for Blaszkewicz. The woman was released and it was later learned that she was not taken home, two miles from the hospital, in an automobile, but was forced to walk that distance.

Mrs. Blaszkewicz became worse and on Friday was again taken to the hospital. Toxic pneumonia has developed, it was said at the hospital, and her condition is extremely critical.

The police say they learned from a relative of the man that two years ago he served a term of six months in a jail in Newark, N. J., for being habitually drunk, and some years ago was sentenced to a six-year term in Norwalk, Conn., for threatening to shoot a policeman who arrested him for abusing his wife. He has been out of work for months, the police learned, and his wife, working in a restaurant, has been supporting the family. They have been married fifteen years.

This Leaves The Arms Free From Hairy Growths

(Toilet Talks.)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered detelone and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get detelone.

A large brass tablet erected to the memory of past grand masters of the Loyal Orange lodge in this province was unveiled with an impressive ceremony

WASTE NO MORE TIME.

Should the city make the New Brunswick Power Company an offer for its plant?

This question has been discussed by this week with a feeling that a second distribution system should be avoided if reasonably possible. In the first place the company has made the city an offer which would give its property a value of almost \$4,000,000, with the certainty that the city would have to spend about half a million more, and then would not own the property; for it is only a quibble to say the city would own the plant before the \$4,000,000 of securities were straight when he said the city under the Bodell scheme would merely be a tenant of the company.

THE YOUNG TURKS.

Enver Pasha is dead. His turbulent life ended in battle. Kemal Pasha and Talaat Pasha had died before him, victims of the vengeance of Armenians after they had fled from Constantinople. These three had led Turkey into the war on the side of Germany, and they more than any others were responsible for the Armenian massacres. Talaat Pasha, the first to fall, declared at the outset of the war that the only way to settle the Armenian question was to destroy the race, and he acted on the theory, 10 degrees Fahrenheit when charging is taking place. The usual type of battery gives the greatest efficiency on an eight hour basis although some special types of battery are rated on a four hour basis. It is necessary to put from 15 to 20 per cent. more energy into a battery than is taken out, therefore, a battery having a capacity of 60 ampere hours should be charged at a rate of 10 amperes for 8 hours. When fully charged the specific gravity of a lead-acid cell is approximately 1.280 and when discharged about 1.160.

THE IMPROVING ROADS.

The recent statement by Hon. Mr. Veniot that more than one hundred miles of highway will be improved this year under the federal aid system shows how well the province is progressing along this line. The missing links are being attended to on routes that would give continuous good roads from the Quebec and Maine borders through the province to the Nova Scotia border, and when the work is completed there will be a rapid increase in motor tourist traffic. All that is needed is to have the fact known that the roads are good and the people will come, as they have come in growing numbers in the last two seasons. Not only the branch roads overlooked. Mr. Veniot says he has been told frequently that our branch roads are better than those in Quebec, Ontario or Maine. The minister also announces that he hopes next year to have 1,600 miles of main trunk roads under the patrol system. This is greatly needed, and is the only guarantee that roads made good will be kept in good condition. The lack of a proper patrol on the Westfield road has been a striking example of how an excellent piece of work may run down through lack of care. A proper patrol system would be a money saver for the province. One of the depressing facts the department has to face is the utter indifference of people to the condition of the road in front of their own farms. They might in half an hour save a bit of road from being ruined, but shrug their shoulders and say it is up to the government.

The Times quotes today the provisions of the law relating to the taking over for hydro-electric development purposes of the property of land-owners at Musquash. It gives the lie direct to those who in the interests of the New Brunswick Power Company have sought to convey the impression that it would be to the land-owners' interest to have the contract for hydro signed by St. John. That signing has nothing whatever to do with the case. The land-owners will get what the courts decide, as the Times has on several occasions pointed out, and they will get it entirely regardless of whether St. John takes the power or lets it go elsewhere.

A good many more than a third of the names necessary to recall the mayor are already fixed to the petitions. They include the names of business and professional men and men of all classes, and the women voters are also represented. There is no mistaking public sentiment in regard to the recall.

It is rumored that American manufacturers are looking into the matter of establishing a hardwood manufacturing industry in this province. There is an abundance of this wood in York, Carleton and other northern counties and only capital and skill are required to make it the basis of a profitable industry.

The coal situation shows signs of clearing up, both in Nova Scotia and the United States. Today may end the strike in the anthracite regions.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis.
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 84 THE STORAGE BATTERY IN RADIO CIRCUITS.

The secondary or storage-battery is a very important item of equipment in radio receiving circuits employing the vacuum tube as a detector, amplifier or oscillator. It should be noted that a storage battery consists of two or more storage cells, a cell being a single unit consisting of positive and negative plates immersed in a chemical solution.

The storage battery used to supply current to the filament of a vacuum tube is commonly known as the "A" battery. This battery has a potential of approximately six volts and may consist of cells of either the lead-acid or the nickel-iron-alkaline type. A battery having a capacity of 60 ampere hours is a very very practical size for use with vacuum tubes. The capacity is determined by the amount of active material in the cells, that is, the size of the plates and the number of them. The vacuum tube in receiving circuits requires for its proper operation a potential of 5 volts and a current ranging from 0.5 to 1.5 amperes to 2.1 amperes, the correct value of current for the tube being recorded on the container in which the tube is purchased.

If a battery of the lead-acid type is used and the charging is done by the operator rather than at a service station the following simple but important precautions should be taken. The temperature should not be allowed to exceed 110 degrees Fahrenheit when charging is taking place. The usual type of battery gives the greatest efficiency on an eight hour basis although some special types of battery are rated on a four hour basis. It is necessary to put from 15 to 20 per cent. more energy into a battery than is taken out, therefore, a battery having a capacity of 60 ampere hours should be charged at a rate of 10 amperes for 8 hours. When fully charged the specific gravity of a lead-acid cell is approximately 1.280 and when discharged about 1.160.

If facilities are at hand for charging the battery, the best service will be obtained if the specific gravity is not allowed to fall below 1.200 before being put on charge. If it is necessary to have the battery charged at a service station more of the energy can be used before recharging but in no case should it be fully discharged. The fully charged voltage of a lead-acid cell on open circuit is approximately 2.1 volts while the voltage when discharged is about 1.8 volts.

If a battery of the nickel-iron-alkaline type is used the voltage of a completely charged cell should be 1.2 volts, while the voltage when discharged is 0.9 volts. Chemically pure water should always be used to replace the amount dissipated by evaporation and the level of the solution should be maintained from one-half to three-quarters of an inch above the top of the plates. In misdrops at a time—NEVER pour the water into the acid. If a form of rectifier is used operated from the house lighting circuit—NEVER take hold of the terminals of the rectifier when it is connected to the lighting circuit as the half wave pulsations, if allowed to flow through the body, may cause serious injury. The top of the battery should be kept dry and when charging the lead-acid type the caps on the cells should be removed.

Reper charging and reasonable care of a battery will result in good service and a life of approximately four to five years.

INSIDIOUS ATTEMPT TO CONFUSE ISSUE

Explanation by Chief Engineer of N. B. Electric Power Commission, Exposes Desperate Tactics of Friends and Agents of Power Company Regarding Land Claims at Musquash.

In view of the insidious attempt by friends and agents of the New Brunswick Power Commission to create the impression that certain holders of Musquash land are anxious to see the hydro policy carried out because it will mean greater profit for them, the Telegraph yesterday asked C. O. Foss, Chief Engineer of the New Brunswick Electric Power Commission, just what the procedure is in regard to the taking over of the land necessary for the water power development. Mr. Foss produced the New Brunswick Electric Power Act, which is clear and specific, and which says:

The Lieutenant-Governor-in-council, upon the report of the commission recommending the same, may commission shall have the right, without the consent of the owner to create a right of way over any land and take and use the same before the compensation therefor is paid, or before any proceedings are instituted to determine the compensation.

In other words, as Mr. Foss explains, the owners of land taken over by the commission in connection with the Musquash development will receive for their property the price fixed by the court of last resort. This will be the case no matter who the individual or individuals owning property there, are.

Furthermore, Mr. Foss pointed out, "the question of land damages has nothing whatever to do with St. John getting or failing to get the full benefit of the Musquash current. The land has been taken by the commission and it will be paid for. The price will be the price fixed by the courts."

BUILDERS' HARDWARE

Good Builders' Hardware is one of our specialties—we buy it carefully—we choose discriminately because we realize that it pays to put good hardware into a home.

We are prepared to furnish all your building needs, including: Door Hardware, Sash Hardware, Fire Brick, Fire Clay, Sheathing Paper, Prepared Roofing, Calcined Plaster and other building material.

Let us give you an estimate—we will do our part in keeping the cost down.

Mrs. Green Addresses The Women

Mrs. Faith Green addressed a meeting of representative women in the board of trade rooms yesterday afternoon and was accorded an enthusiastic reception when she spoke of the plan to film "Blue Water," Frederick William Wallace's story, in a setting of New Brunswick scenery.

"LADIES MUST LIVE" VERY FINE PICTURE

Imperial Presents Another Great Film by Producer of "The Miracle Man"—Belva, Hoover and St. John Swimming Events, Too.

Both shows at Imperial Theatre last night were crowded with people who liked good movies. The magnet was George Loane Tucker's very well dressed and true to life society drama, "Ladies Must Live." It will be recalled that Mr. Tucker, who died a few months ago, was the creator of that wonderful spiritual story "The Miracle Man," so to present another of his fine pictures meant capacity business.

A Comfortable Baby Never Cries

Most of Baby's discomforts are due to skin troubles. Baby's skin is as sensitive as a rose petal. So think what suffering is caused by the friction of damp diapers which rub the skin all raw, by prickly heat and all of the other rashes that keep Baby unhappy.

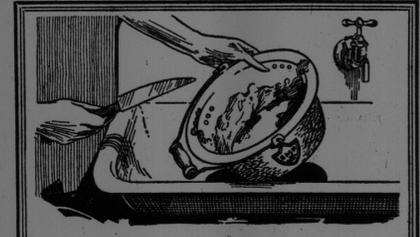

Cuticura Talcum Is So Refreshing. A few grains of this exquisitely scented powder dusted on the skin soothes and cools, and overcomes heavy perspiration. It is an ideal face, skin, baby and dusting powder and makes the peace of other perfumes for the skin.

You Needn't Be Afraid of Hurting the Enamel

HOT water and soap will keep SMP Diamond and Pearl Ware perfectly clean. But take a steel knife to scrape the pot if you want to. It's quicker, sometimes, than leaving it to soak. You can't scratch SMP Diamond or Pearl Ware with a knife any more than you can scratch a plate.

SMP Diamond or Pearl WARE "A Face of Porcelain and a Heart of Steel"

Scratch-proof, rust-proof, acid-proof. Coated with the wonderful SMP enamel over pressed sheet steel. You'll recognize them on sight. Diamond is blue and white outside and milk-white inside, with three coats of enamel. Pearl is grey and white, with two coats. Be sure of the trade mark, "SMP" and the word "Quality," in the pointed shield.

The Sheet Metal Products Co. of Canada Montreal Toronto Winnipeg Edmonton Vancouver Calgary

New Styles and Heavier Garments

Hint of Coming Autumn. New fall coats, suits and skirts have arrived at this store and show a tailored quality much to be admired. Fabrics hold a surprise for you too—and fashion has turned many a clever trick in the designing of garments you will love to wear.

Big Belted Coats

Mostly made from heavy plaid backed materials or soft piled fabrics that supply plenty of warmth without much weight. For the most part these coats are mannishly tailored with small collars, inverted pleat at back, roomy pockets, horn or leather buttons and loose raglan sleeves. Many of them are lined to the waist.

Fur Trimmed Coats

Are again in demand for more dressy wear. Soft Velours and Duveltyns in fawn and brown shades are most popular and are fashioned with large collars or collar and cuffs of dyed opossum, natural raccoon or nutria. You will consider them very rich and good looking.

Concerning Fall Suits

Tweeds are also in high favor for early fall suits and considered very smart and practical for street wear. They are showing in light and medium dark mixtures in two and three piece styles. Some are made with cape and dress; others with regulation coat and skirt.

Fall Skirts Are Pleated

Wool Sponge Skirts in plaids and stripes fashioned with long fringed girdles are decidedly attractive for autumn wear; and heavy wrap-around skirts in light shadow stripes with fringed hems and trimmings of large pearl buttons are as jaunty as can be.

DECLARES MONEY A CURSE; GIVES UP ALL HE HAS

Brighton, Eng., Aug. 22—"Money is a curse and the root of all evil. I will never touch another penny as long as I live." This was the extraordinary resolution made by a Brighton man, who, of his own free will, has become penniless and is determined to live without money.

ST. JOHN'S HEALTH CENTRE INSPECTED

Arthur McBride, president of the Federal Council of Child Welfare, yesterday made a tour of inspection of St. John's new health centre, in company with Mrs. Richard Hooper, the provincial vice-president of the council and Miss H. Meiklejohn, the director of public health nursing services. Mr. McBride is spending his vacation with his family at their summer cottage at Duck Cove. He was delighted with the health centre building and inspected every portion of it from cellar to attic. He was inclined to envy St. John for being able to secure so eminently suitable and convenient a place in which to house its health centre departments.

MISS MEIKLEJOHN CHOSEN CONVENOR

Miss H. T. Meiklejohn, director of public health nursing service for the province, has been appointed convenor of the checks in favor of the local teachers for last term in the vicinity of \$20,000. Five per cent of each grant is deducted to provide a fund for teachers' pensions.

RECENT DEATHS

Rev. Mark Bailey Shaw. Rev. Mark Bailey Shaw, B.A., B.D., of St. Bernardine (Cath.), died recently. He was one of the most brilliant members of the 1886 class of Acadia University, and at one time was quite well known to Baptists of the maritime provinces. At one time he was a missionary in India. He was a brother of Rev. Dr. Avery A. Shaw. Mrs. (Dr.) John W. MacKay. New Glasgow, Aug. 21—The death occurred on August 19 of Mrs. (Dr.) John W. MacKay, a prominent New Glasgow woman, daughter of the late Graham Fraser, the founder of the Nova Scotia Steel and Coal Company. She is survived by her husband and one daughter, Mrs. R. F. Walton. The death of Mrs. R. F. Walton, wife of Councillor R. F. Walton, occurred at her home at Oak Point on Sunday. She is survived by her husband and one daughter, Mrs. R. F. Walton. The funeral will take place on Wednesday afternoon at 2:30 o'clock. Capt. A. E. Payson. Capt. A. E. Payson, formerly well-known in St. John, died on Sunday at Westport (N.S.). He leaves his wife, two sisters and a brother. The funeral will take place today.

HUNG 80 FEET IN AIR SUSPENDED BY TOES

Smokestack Painter Also Had Bucket of Creosote Paint Dashed Over Him. New Orleans, August 22—John B. Thomas, sixty years old, smokestack painter is in a hospital here seriously ill from the combined effects of having hung suspended by his toes eighty feet in the air for half an hour and having a bucket of creosote paint dashed over him. Thomas was sitting in a rigger's chair attached to a block and tackle when he was overcome by heat. Falling backward his toes caught in a piece of rope. A bucket of creosote paint upset and poured over him. A helper climbed from the top of the stack and lashed Thomas's feet to the rigging, being unable to pull him to safety. Twenty-five minutes after the accident extension ladders from a fire company were raised and Thomas was rescued from his perilous position.

SEIZE \$2,000,000 WORTH OF NARCOTIC DRUGS DURING LAST TWO YEARS

Vancouver, B. C., Aug. 22—Narcotic drugs to the value of half a million dollars have been seized by the authorities in Vancouver city alone during the last two years. This does not include the cost price of "lay-outs" of all sorts, taken by the drugs squad here. Consisting chiefly of orientals, 281 persons have been arrested in the last two years under the Drugs act. The drug squad here consists of only two detectives and practically all the arrests and seizures made are credited to them. The museum at the police station is filled with strange and varied instruments of the drug addict. Pipes and pills, needles and eye-droppers and the "snuff-box" litter the chamber of horrors.

Fall Coats and Wraps of Usual Beauty

An interest showing of the new Fall Coats and Wraps in the latest designs. A coat of black velvetyne has large bishop sleeves with collar and cuffs of mole skin and lined with pearl grey crepe de chine. Another model is of marine blue velvetyne, has straight back with front belt, embroidered in blue and gray silk with mole skin collar and cuffs. Then there are coats of tortoise shell brown broad-cloth with Canadian beaver collar, as well as the new top coats in new colorings and trimmings. Many new styles are shown for all figures and ages.

Prices \$20.00 to \$75.00

EACH RAILWAY UNIT
MERE LINK IN CHAIN

Weakness of United States Transportation System Vividly Shown in Crisis When Breakdown of One Line May Cause Continental Tie-up.

(Toronto Globe) When Canada embarked upon the policy of constructing and operating their railway systems as transcontinental units to use an old saying she builded better than she knew. In the early days of railway development in Canada the idea of uniting both sides of the continent—east and west—with hands of steel was something that politicians talked about and promoters visualized when seeking government subsidies. It was a dream then. It is a reality now. How practical is worth considering. With the railroad systems of the United States more or less paralyzed because of a strike, which affects some more than others, and renders it impossible to give an adequate, regular and dependable service, the fact that in Canada there are only two systems providing an uninterrupted service from tide water to tide water is something that should be regarded by the Canadian people with more than casual satisfaction. Transportation is the nervous system

and that line was involved in a strike. Imagine the utter confusion, the loss to the farmers of the west, the tying up of millions of money in wheat which could not be brought to market, or the seaboard, for export, the complete dislocation if not paralysis of the commerce of the country because one link in that transcontinental chain had broken. That is a comparison which the Canadian people can make with advantage today in view of the railroad situation in the United States. There is no through line in the United States from, say, New York to San Francisco, Los Angeles, Seattle or Portland. No matter how a traveler may decide to go he must first change at Chicago. From Chicago to California there is only one line, the Santa Fe, which operates a through train. The other systems comprising the chain operate through Pullman cars, but these are routed over two or three systems. Similarly, from New York to Portland or Seattle the traveler must first change at Chicago and then to two other lines to reach the coast. The Atlantic port of the Canadian National is Halifax, the Pacific termini Prince Rupert and Vancouver. The Atlantic ports of the Canadian Pacific are St. John, Quebec, and Montreal; the Pacific termini, Vancouver. The transcontinental service nominally starts from Montreal, but steamship specials are made up and wait for the arrival of steamers at either St. John or Quebec. When the Canadian National is consolidated with the Grand Trunk there will be a thorough system, under unified management, from the Atlantic to the Pacific. In the case of the Canadian National (by routing trains over the National Transcontinental) not a mile of that line is located outside of Canada. With regard to the Canadian Pacific, the route to St. John is shortened by crossing the State of Maine, but this division is entirely under Canadian management and the train operatives are members of the Canadian brotherhoods, and not parties to any labor disputes with the management of American systems. The advantage of this unified control is already being appreciated by travelers from the United States who desire to cross the continent. With a dozen transcontinental trains operating through Canada each day there is no lack of accommodation, and up to the present there has been a happy absence of labor disturbances, which, in spite of those who oppose consolidation, is really a transportation asset well worth while.

IOWA STRIKE OVER
HOPE FOR ILLINOIS
SETTLEMENT TODAY

(Canadian Press Dispatch.) Des Moines, Ia., Aug. 21—Iowa coal mines will resume operations Wednesday on the basis of the national agreement reached at Cleveland. The supplemental settlement was signed here

"Old friends are best"—RED ROSE TEA has a multitude of them—often three generations in one family.

RED ROSE COFFEE is always packed fresh in doubly sealed cans.

this afternoon by officers of the Iowa Coal Operators' Association and officers of District 13, United Mine Workers of America. The agreement provides that all company men and miners shall report for work Wednesday morning and that firemen and others required to get up steam shall report tomorrow evening. Hope in Illinois. Chicago, Aug. 21—Hope of a possible settlement of the Illinois coal strike within twenty-four hours was expressed tonight by both miners and operators following a conference of the joint wage scale sub-committee. Both operators and miners will meet tomorrow morning. After the two meetings the miners and operators will go into joint session to discuss as a committee of the whole the report of the entire wage scale sub-committee. On this meeting both operators and miners said, and placed the hopes of a final settlement. Frank Farrington, president of the Illinois miners, predicted a speedy agreement. He declared that the miners had not receded from their stand of "the Cleveland agreement or none" so this was taken to mean that the operators had modified their arbitration demands. Montana Agreement. Billings, Mont., Aug. 21—Montana coal operators and miners signed a strike settlement agreement here this afternoon. The pact re-establishes former wages and working conditions, effective for one year. Resume in Pennsylvania. Pittsburg, Pa., Aug. 21—Miners employed by the Valley Camp Coal Company in Westmoreland county, voted late today to return to work tomorrow and

cutters were sent into the mine tonight to prepare for the workers. The meeting was the third held by these miners in the last few days. After the company signed the Cleveland agreement, the miners returned to work but quit the next day. The reason for this action, as given out by local leaders was that the men preferred to stay on strike until other companies signed the Cleveland pact. Officials of the United Mine Workers announced tonight that work would be resumed tomorrow in four mines at Curtsville. WANT FANS IN DEATH HOUSE. Slayings at Sing Sing Awaiting Execution Suffer From Heat. Ostling, Aug. 22—Several of the twenty-seven murderers in the Sing Sing death-house are complaining of the heat which, because of cramped quarters and poor ventilation, has caused great suffering, and have asked that electric fans be installed there. Luther Boddy, colored desperado, who is to die in ten days for the murder of Detective Sergeant William Miller and Francis Buckley in Manhattan, was suffering more than any of the others. Each prisoner remains in a small cell night and day, except for fifteen minutes, when he is allowed in the yard to exercise. Rutger Warder, convicted of the murder of Henry Werner at Lion, N. Y., who has spent the longest term of any prisoner in the death house, is one of the sufferers. Some of the attendants expressed the belief that some of the condemned men who have been worrying over their fate, may go insane from the heat unless they get relief.

TO MARK BOUNDARY
BETWEEN DOMINION
AND NEWFOUNDLAND

(Canadian Press Dispatch.) Ottawa, Aug. 21—Whether the boundary between Canada and Newfoundland is within a mile or two of the coast line of Labrador, or only at the hinterland, is the question which will be argued next winter before the privy council. The justice department is finishing up its case and Newfoundland is pressing for an early hearing. Rt. Hon. C. J. Doherty is acting as counsel for the dominion government. The claim of Newfoundland is that they own Labrador into the interior. The dominion claims that the territory is part of Quebec, save for a fringe of land along the shore sufficient for fishing settlements.

CANT WED FATHER AND SON.

Mayor of Marion Won't Let Woman Follow Gypsy Law. Marion, Ohio, Aug. 22—Gypsy laws are not recognized in President Harding's home town. This was demonstrated when Frank Ellis, Sr., of Chicago, and his son, Frank Jr., of Cleveland, appeared in Mayor George W. Neesley's court here and both claimed the same woman as his wife under the gypsy law. Mayor Neesley disregarded their claims and turned the woman over to Frank Stanley of Chicago, who claimed her as his sister. Stanley left with the woman for Chicago, accompanied by her two children by a marriage before she turned gypsy. The children's father is said to be dead. The gypsy band of which the Ellises were members was ordered out of town.

FARMERS WARNED AS TO RAINMAKERS

Some Devices to Control the Climate Disapproved by Department of Agriculture.

New York, Aug. 22—Devices to make rain, to stop rain, to ward off frost, to regulate heat and to make the wind blow at the will of the farmer have been offered to the farmer at fancy prices by experimenters in various parts of the country so often that special warnings have been issued by the Department of Agriculture against some of them.
The contract of "Rainmaker" Hatfield to deliver rain at Medicine Hat, Alberta, for the price of \$4,000 an inch and the claims that he fulfilled the contract and made a huge profit have caused other promoters to enter the climate-controlling industry. Because it was generally a wet year, there has been reported only a very small demand for cloud-compelling inventions. Frost-fighting devices were discussed as follows in a statement by C. C. Marvin of the United States Weather Bureau:
"One device, consisting of an air-plane propeller mounted horizontally on a twenty-five-foot tower, was given a thorough test in an orchard in Southern California and was found to be absolutely worthless, as far as raising the temperature was concerned.
"A funnel-shaped machine which drives heated air over the tops of trees was also tested during the same season and found to be of even less practical value, if such a thing were possible. Quite a long experience has demonstrated the economic practicability of adding heat to the air through the use of fifty to one hundred small fires to the acre."
Professor D. W. Hering of New York University, who has made a study of the history of rain-making devices and similar inventions, has found only one weather-controlling device which actually works, and this is a cannon which breaks up threatening halibromes. This is described as follows in an article by Dr. Hering in The Scientific Monthly:
"After various haphazard experiences of viticulturists, one of them an Austrian, Albert Sigray, invented a form of cannon in 1896 which would readily and effectively be used for the purpose of repelling and breaking up such storms.
"This cannon somewhat resembles the old bell-mouthed blunderbuss in form, with a chamber at the breach for a cartridge containing only powder and a funnel-shaped tube, like the cone of a megaphone. Housed in little shackles on the hillside, these are ready for use at short notice, and since they are distributed among the many adjoining vineyards, a whole battery of them can be brought into action promptly. The grapes are maturing and the vineyards are in their most vigorous growth from July to September, just at the time of year when halibromes are most frequent, and when workmen accordingly are alert in watching for signs of danger.
"Whenever the storm is seen to be gathering, the cannons are brought out and directed against the threatening cloud. Signals are sent from vineyard to vineyard, and upon the first appearance of the destructive halibrome the counter bombardment begins. From the mouth of the cannon issues a mass of heated gas, smoke and sparks which is directed violently against the lowering cloud. The smoke rings are like those discharged from the smokestack by the puffs of a locomotive, but with far greater energy of propulsion.
"Like a Gas Attack in War.
"In a sense, this was anticipating the war, for it was a veritable gas attack in the realm of the aeronaut. The theory of the action is not very definite or well assured. Whether the rings of smoke disrupt the clouds of whether sufficient local heating of the air causes warm air to rise and intercept the hail, converting it into rain or preventing the congealing of water vapor into hail, is uncertain; but there seems to be sufficient evidence of the efficacy of the plan in dispersing the clouds and checking the storms of hail. The cannons literally shoot it away."
Rain production will probably be accomplished in time, according to Dr. Hering, who said:
"Weather control by artificial means, however, it not regarded as unscientific, and meteorologists are not hopeless of accomplishing it. At the time of the Dryden experiments, the psychologist Elmer Gates was demonstrating in his laboratory at Chevy Chase, Md., the production of rain electrically. Electrifying the air at one spot (like a limited area of the earth's surface) causes expansion by the mutual repulsion of particles; the air becomes less dense and rises, the currents thus set up encounter colder air in the upper regions and the moisture is precipitated."
The Dryden experiments were efforts made in 1892 to produce rain by the concussion of explosions. They were hailed as a success for a time, because they were apparently favored by lucky accidents.

chandise, smuggled from Texas, had been unloaded and part of the return cargo of liquor was on board. Twelve cases of whiskey are said to have been taken, with several cases of wines and other liquors.
The Mexican Treasury Department has confiscated the airplane, automobile and liquors. The airplane will be taken to Mexico City for use in the national aviation school.

LIFE SPAN IN ENGLAND SAID TO BE GROWING TO BE GROWING

London, Aug. 22—The expectation of life in this country has largely increased since the period of 1884-1884, according to the annual report for 1921 of the chief medical officer of the ministry of health, Sir George Newman. At that period the expectation at birth was: For males, forty years, and for females forty-two years. The present figures are fifty-one for males and fifty-five for females.
This, with some reservations, means that a baby born now has a chance of living twelve years longer than its grandfather. The reduction of mortality is most marked, however, in early life. The life-expectation of men of forty-five is but little better today than it was seventy years ago. Sir George Newman, in his report, indicts alcohol and faulty industrial environment as the chief causes of this adult mortality. He points out, too, that respiratory diseases, pneumonia, bronchitis and tuberculosis are the chief causes of death.
"It is absolutely within our power to prolong the days of human life and enlarge its capacity," Sir George says. "The length of life in this country is such less than it should be, and there is no inherent reason why as much as three years should not be added to the average lifetime of Englishmen of forty-five."
To secure this, he says, the maximum emphasis should be laid on the need of developing and fortifying the physique and powers of resistance, first of the child, and then of the adult.
The body should be well bred, Sir George continues, well nourished, kept clean within and without, trained in healthy living in fresh air and exercise, and excessive and overstrain should be avoided. The health, capacity and resistance of the body is the only sure defence against early mortality, in Sir George's opinion.

AIR RUM SMUGGLERS CAPTURED IN MEXICO

American Plane, Loaded With Liquor, Is Seized by Customs Officials at Nuevo Laredo.
Washington, Aug. 22—An American airplane, loaded down with fine liquors destined for the United States, has been captured by Mexican customs officials at Nuevo Laredo. The owner and pilot of the machine, said to be named Irving Davis, was taken with the machine.
This capture, it is said, helps to clear up the mystery which has enveloped quantities of whiskey and other liquors. Mexican and American customs authorities have known that smugglers were busy along the Rio Grande River, but in spite of their efforts capture of smugglers have been few and of minor importance.
The Mexican authorities at Nuevo Laredo sent several agents across the border on "special duty" in Texas, with orders to learn whether American airplanes were smuggling merchandise into Mexico and returning with cargoes of liquor.
The airplane was seized after there-

HEROISM LEADS TO HIS RELEASE

London, Aug. 22—The thrilling story of Thomas Gray's heroism in attempting to save a drowning prisoner of Peterhead Jail has had a sequel in keeping with his courage—he has won his own freedom from prison. Gray, a convict in Peterhead jail, under life sentence for the murder of a Glasgow woman, had served fifteen years of his sentence when the incident in question occurred. About a month ago Thomas Gray, Alfred Coates and other Peterhead prisoners were engaged loading stones beside a water-logged quarry hole at Slighly, when Coates leaped into the hole, which contained fifty-five feet of water. Coates had been sentenced to ten years of penal servitude, and was mentally defective, and his sentence evidently was pressing on his mind. Gray at once threw off his coat, plunged in after Coates, gripped the drowning man, and made heroic efforts to save him. Those peering down into the hole were witnesses of a desperate fight, in which the issue was life or death. So violent were the struggles of Coates that both he and his would-be rescuer were drawn under the water. Gray was compelled to relax his hold and come to the surface.
Thus Coates went to the doom he sought, and Gray—thoroughly exhausted, gripped the drowning man, and made heroic efforts to save him. Those peering down into the hole were witnesses of a desperate fight, in which the issue was life or death. So violent were the struggles of Coates that both he and his would-be rescuer were drawn under the water. Gray was compelled to relax his hold and come to the surface.
The dolls are said to be dressed in the glowing colors of the Orient and the manufacturers place a receptacle in them capable of holding from a pint to a quart.
In future, customs officials announce, all dolls will be thoroughly shaken.

RUM SMUGGLERS USE DOLLS

Japanese Makers Florida New Device For Travelers From the Orient.

San Francisco, Aug. 22—Japanese dolls of the most innocent variety are the latest liquor smuggling devices of travelers from the Far East landing in the United States Pacific ports, according to Mrs. A. H. Douglas, wife of Commander Douglas, of the Huron, here today from Shanghai.

NARROW ESCAPE FROM DEATH IN AUTOMOBILE RACE CRASH

Brooklands, England, Aug. 22.—A remarkable escape from death occurred in the 200-mile light car race, an event in the programme of automobile races taking place here, when J. Chassagne of France was wrecked at the turn of the road by a bursting tire. Chassagne's car overturned and shot over the banks. In spite of this, Chassagne and his mechanic emerged with only a few scratches, though the French driver had both boots torn off.

PERISCOPE WILL BE USED IN CAMPAIGN ON BOOTLEGGERS

Portland, Ore., Aug. 22—A periscope is employed by the police here to ferret out bootleggers. Sergeant Deisner, in command of the police morals squad, is expecting big results. The periscope was manufactured by Aubrey Chamberlain, one of the liquor sleuths, and he and his partner, Patrolman Melton, are going out this month to break all existing records in the apprehension of bootleggers. Chamberlain will set up his periscope

in a room adjoining the suspected bootleggers, he said. He will be completely out of sight, but will be able to see all that is going on in the next room. If he spies a bottle of liquor or sees the bartender serve drinks from a hidden bottle, he will signal his partner, and together they will rush the place.

disappointed at the lack of support pledged to him when he assumed office has renewed his plea to Sun Yat Sen to co-operate with Peking in an eleventh hour attempt to prevent the militarists obtaining complete control of the Government.

LIFE UNDERWRITERS MEET

Toronto, Aug. 22—With an expected registration of 1,500 to 2,000 the sessions of the third international convention of the Life Underwriters began here today. The delegates are from every province in Canada and from the larger cities of the U. S.

UNIQUE HAS A LOVELY PICTURE

Wonderful synopsed strains float through the darkened atmosphere. They seem to breathe the spirit of a little girl, neglected and misunderstood, finding all life's things in a second-hand way and not finding a helping hand anywhere to better things. It belongs to a second act. This is the impression one gets from "Second Hand Rose" in its showing at the Unique Theatre. As the piece is played the Universal picture based on it carries the story into one's heart with a dramatic intensity unequalled before in any of Gladys Walton's Universal starring vehicles. It is a role unique for separated only by a narrow sand-pit. Fishermen in the vicinity were delighted, especially as the fish appeared to be already cooked, but their pleasure in the water bubble and boil, thus killing, and in a way, cooking the fish. Lucia, is a small lake said to have been formed by a volcanic phenomenon in the time of Cicero and Horace and they extolled its oysters and mussels.

GAS KILLS FISH IN LAKE

Eels, Mulletts and Bass appear on Surface of Water Near Naples.

Naples, Aug. 22—(Associated Press)

—Thousand of dead eels, gray mullets, sea bass and other fish have come to the surface in the past few days on Lake Lucina, near the north shore of the Gulf of Naples, from which it is separated only by a narrow sand-pit. Fishermen in the vicinity were delighted, especially as the fish appeared to be already cooked, but their pleasure in the water bubble and boil, thus killing, and in a way, cooking the fish. Lucia, is a small lake said to have been formed by a volcanic phenomenon in the time of Cicero and Horace and they extolled its oysters and mussels.

CHITCHERINS TURNED BACK

On Way to London, Stopped At Belgian Border, Over Matter of Passports.

Herbenthal, Belgium, Aug. 22—M.

Tchitcherin, Russian foreign minister, and several Soviet colleagues proceeding to London on the Cologne-Ostend express, were refused access to Belgian territory today and forced to return to Cologne, as they had failed to obtain the visa of the Belgian consul in Cologne.

The Soviet minister argued that his party was only passing through Belgium, with no intention of stopping, but the frontier officials were obdurate and the Russians had to leave the train.

ASKS SUN YAT-SEN TO RESIST MILITARISTS

Li Renverser Plea as Warlords Defy Government Verdict on Collapse
Peking, August 22—The attempt to revive popular government in China is on the verge of collapse, according to a survey of conditions brought to the attention of the foreign legations.

Military leaders are openly defying the Government, Cabinet Ministers are refusing to assume the responsibilities of the third international convention of the Life Underwriters began here today. The delegates are from every province in Canada and from the larger cities of the U. S.

SOCIAL SERVICE CONVENTION SOON

Opens at Campbellton on Sept. 3—St. John Dates, Sept. 17 and 18.

A series of conventions under the joint auspices of the Social Service Council and the Temperance Alliance of New Brunswick is planned for the first half of September.

These conventions ought to result in much good in forming and awakening public opinion to the vital importance of temperance and to the various social problems vitally concerning the citizens of New Brunswick alike men and women.

The speakers which these conventions bring insure practical treatment of the subjects to be discussed are:—

Prohibition versus Government Sale. Mental Defectiveness in the Province: The extent, the causes, the consequences, the cure. Child Welfare: Delinquency and Dependency.

The Enforcement of Laws Bearing on Morals, especially the Temperance Act. The Care of Prisoners. Public Health and Recent Progress in Social Welfare.

The places and dates are:—

Sept. 3, Campbellton; Sept. 4, Bathurst; Sept. 5, Chatham; Sept. 6, Newcastle; Sept. 7, Hillsboro; Sept. 8, Sussex; Sept. 9 and 10, Moncton; Sept. 11, Fredericton; Sept. 12, Perth; Sept. 13, Woodstock; Sept. 14, St. Stephen; Sept. 15, St. John; Sept. 16, St. John.

At each week day convention there will be two sessions. At 2:30 and eight p. m.

On Sundays the visiting speakers will occupy two pulpits each will address a mass meeting at an hour not conflicting with the regular church services.

Among the outstanding figures of the convention are Major E. B. Gaylor, dancing instructor at Culver Military Academy, who is in his eighty-first year, and Louis Kretlow of Chicago, who is in his seventy-eighth year. Both men are still active and up-to-date dancing instructors.

LOCAL NEWS

No definite announcement has yet been made as to who shall receive the three scholarships for public health nurses, which will be awarded during the next month. The Red Cross has given one, the St. John Women's Institute another, and the Provincial Institute the third.

The applicants must be trained nurses, and high school graduates, as called for by the Toronto training school, where they are to be sent. Several names are under consideration for the honors.

A special meeting of the Bricklayers' and Plasterers' Union was held last night in their hall with Albert Haines presiding. George T. Thornton of Boston, second vice-president of the International Union of Bricklayers, Masons and Plasterers, spoke to the meeting. Frederick Scudder was elected to attend the next meeting of the international union at Springfield, Mass., on the second Monday in October. Mr. Thornton will be in Fredericton before returning to Boston.

The number of births recorded in the city for the first seven months in 1922 was 764. For the same time last year it was 768. There has been a decided lessening in the infant mortality rate and a great deal of this is due to the distribution of milk by the local Council of Women. More than 150 children have been supplied and the list now being cared for is sixty-five. The V. O. N. have charge of this work and the babies are looked after by them.

SUES FOR PRENATAL INJURY

Girl Six Weeks Old Asks \$25,000 Through Father.

New York, Aug. 22—A six weeks old child, through her father, yesterday brought suit for \$25,000 in the Hudson County Court, Jersey City, against a taxicab company for injuries alleged to have been received before she was born.

Through her father, Samuel Gargallo, the infant, Anna, alleges that, as a result of an automobile accident while her mother was riding in a taxicab of the Hudson Taxicab Company, 227 Hudson street, Jersey City, she was black and blue from bruises at the time of her birth and had a paralyzed right arm.

Her father also asks \$10,000 damages for future loss of the child's services and for medical expenses incurred, he says as a result of the accident.

The mother, it was said, was only slightly injured when the taxicab in which she was riding collided with another car.

ASK REMOVAL OF BAN ON DANCING

Will be Recommended to Methodists, Says Chairman of Convention—The Effect of Styles on Steps.

New York, Aug. 22.—Short skirts, long steps, long skirts, short steps, in dancing. This was the conclusion reached by the dancing masters, from all parts of the United States and Canada, who met in convention yesterday. Just what these new short steps will be will come up for discussion later, but they will involve "more dignity and less of agility in leg movement."

Two organizations are holding their conventions at the Commodore this week, the American National Association of Dancing Masters and the International Association of Dancing Masters. Dancing reform will be among the matters discussed.

R. C. Grant of New York, who presided, said the movement had been carried on with marked success last season. He said it will be recommended to the Methodist Church to drop its ban on dancing.

Some New Ones.

Miss M. Wals, Philadelphia's only police woman and municipal censor of dancing, has two new dances which she is going to demonstrate before the convention, and which she calls the "American tangy" and the "college trot."

A class from the American National Association will also give a demonstration. Among the outstanding figures of the convention are Major E. B. Gaylor, dancing instructor at Culver Military Academy, who is in his eighty-first year, and Louis Kretlow of Chicago, who is in his seventy-eighth year. Both men are still active and up-to-date dancing instructors.

WRONGED HUBBY USES HIS FISTS

Spring Valley, N. Y., Aug. 22—Edward A. Hoagland, who is poor in this world's goods, vented his fury when he entered a grim physical encounter with J. Vroom Roscoe, a wealthy New York business man, on a short time ago, eloped with Hoagland's wife Edna from Westwood, N. J., where they had hung together in a church choir.

After the two men had been parted Roscoe sought medical assistance.

Hoagland, witnesses say, was accompanied by friends and relatives to a sequestered house where Mrs. Hoagland had sought refuge from the scornful gestures of a conventional world. It is said Hoagland had intended offering forgiveness.

When he found Roscoe there, however, the force of his emotions brought this love tragedy to an amazing climax. Neighbors, some at dinner and others at prayer meeting, were brought to their doors by the shouts of the men and the screams of the women.

According to some who say they saw the proceedings, one of the women in Hoagland's party, which arrived in two motor cars, pointed a finger at Mrs. Hoagland when they saw her on the porch and said:

"Sinners, we have come to give you what you deserve. You will go up in the mountains, will you? So this is where your love nest is. But we have found you."

THE WHEAT CROP

Winnipeg, Man., Aug. 22.—(Canadian Press)—Reports received from Canadian Pacific Railway agents throughout the west, indicate this year's crop will approximate 31,000,000 bushels, according to the weekly crop report of the C. P. R. agricultural department. The past week has been a favorable one for harvesting, the report states. Cutting is general in the prairie provinces. At several points cutting is completed and threshing well started.

CAPE TOWN NAMED AS NEXT MEETING PLACE OF PREMIERS

Cape Town is suggested as a suitable place in which to hold the next conference of Dominion and British prime ministers as there is a prospect that the Prince of Wales may visit South Africa next year. The Cape Times strongly advocates this. It points out that Cape Town has a geographical advantage in being halfway between Great Britain and Australia, and says it is obvious not a good thing for the dominion prime ministers to go to London for the imperial conferences.

The Cape Times, in suggesting the imperial conference be held next year in South Africa, urges that the dominion premiers' knowledge of Great Britain is far greater than of the dominions, and also that the great racial problems of the future can be found in South Africa in actual existence as nowhere else in the British dominions.

Further, the cry of empty lands for white settlers is as insistent in South Africa as in Australia and Canada.

These facts, the Cape Times asserts, point to Cape Town as the most expedient place outside of London itself for the next conference of the British and dominion premiers. Strong influences it says, will doubtless strive to keep that meeting in London but it hopes that the heads of the various dominion governments will be determined to have it elsewhere.

No British prime minister of the first rank has been out of Europe since 1914 and the holding of the imperial conference at Cape Town, the Cape Times adds, would enable them to escape for a while from the official ruts of Downing street.

Syracuse, N. Y., Aug. 22.—Announcement was made yesterday that the St. Louis Nationals have released Pitcher Sidney Benton to the Syracuse International League Club. He is the eighth St. Louis player to report here within a month.

WAR HEROISM WINS \$700,000 LEGACY

Captain George C. Douglas British Veteran, Will Lose Share of Estate — Trustees Interpret.

Minneapolis, Aug. 22. — Five years' service in the World War, wounded at Ypres in 1916 and again in 1917, and a citation for bravery by Field Marshal Lord French will make up for the failure of George Camp Douglas to make \$2,500 in two consecutive years, as provided by the will of his father, Walter D. Douglas.

The trustees of the estate, valued at more than \$2,000,000, have agreed that the war hero shall get his one-third of the estate, according to State Senator Charles H. Fowler, his guardian. The state will be divided in November, when the younger of the two sons will be one thirty-five years old. The father, chairman of the board of directors of the Quaker Oats Company, was drowned when the Titanic sank in 1912. In the following year, after small estates had been paid, the estate was left to the widow, Mrs. Mahala Dutton Douglas, and the two sons, George Camp Douglas and Edward Bruce Douglas, each to receive one-third. Each of the sons was to earn \$2,500 in two succeeding years before he received

Its Rich Delicacy and genuine all-round goodness makes Salada the choice of millions and its sales are ever increasing.

SEAPLANE JOY RIDE INJURES TWO MEN. Curtiss Bookkeeper and Mechanic Escape With Bruises as Craft Turns Turtle.

Atlantic City, N. J., Aug. 22. — A \$6,000 seaplane of the Curtiss Flying Station crashed into the bar opposite the Inlet Pavilion and turned turtle. The two occupants, who were bruised and scared, but escaped scarcely injured, were Frederick Henry, twenty-four years of age and a former navy flyer employed in the Curtis station as a bookkeeper, and James Moran, a mechanic.

LAUDER SIGNS CONTRACT. Feted Scotch Comedian Opens U. S. Tour October 2.

New York, Aug. 22. — William Morris has closed a contract for the appearance of Sir Harry Lauder at the Lexington theatre for one week, beginning Monday, October 2. This will be in the inauguration of a twenty weeks' season which will take the Scottish entertainer to the Pacific coast. At the close of his engagement in San Francisco in February he will sail for Australia, returning in the early fall, and opening the tour of 1923-24 at Vancouver.

GOVERNMENT GAINS BOTTOMLEY'S SEAT

London, Aug. 22. — South Hackney, where Horatio Bottomley, now serving a term of seven years in prison, had a majority of 8,816 at the last parliamentary election, has returned a Coalition Unionist candidate. The figures were: Captain Erskine Bole, Coalition Unionist, 9,116; Holford Knight, Labor, 9,044.

400 PINOCHLE BID TOO MUSH. Bidder Goes to Hospital After Making It—Opponent Held.

New York, Aug. 22. — A bid of 400 in a pinochle game resulted in the arraignment of Samuel Down, thirty-five, Brooklyn, in the Bridge Plaza Court before Magistrate Ellipier. Down was held in \$500 bail for examination on Monday.

Down, Jacob Friedman of 135 Starr street, and another man were playing pinochle in Friedman's home Friday night. Everything went well until a hand was dealt and Friedman exclaimed: "400."

"You'll never make it," Down commented. Friedman played the hand and made it with ten points to spare. Just what happened afterward the police did not definitely learn. Friedman was hit on

the head with a heavy cup and rendered unconscious. The cries of neighbors brought Detective Hemminger of the Stagg street station, who arrested Down. Friedman was taken to St. Catherine's Hospital.

FULL-BLOODED INDIANS WILL SEEK NATIONAL A. A. U. TITLES

New York, Aug. 22. — The presence of full-blooded Indians competing for National A. A. U. titles is expected to lend added interest to the National A. A. U. track and field championships, which will be held at Weequahic Park, Newark, N. J., on Sept. 8, 9 and 11. Secretary Frederick W. Rubien announced that the Haskell Institute of Lawrence, Kan., and the Phoenix Indian School, Phoenix, Ariz., were planning to nominate athletes for the title meet. A. Paterson, long distance running star of with an ordinary band. Now they want cabarets."

BAR NEW DANCES AND SAXOPHONE FROM CANADIAN INDIANS' ISLE

Sarnia, Ont., Aug. 22. — Indian squaws, with eloquent shoulders, and braves whose feet have learned the tricks of the Broadway dance palaces, must go back to the old-fashioned, simple waltz, says an edict of the Council of Walpole Island. Chief Redknife, who is, incidentally, manager of the island band, has protested against the invasion of the saxophone on the island. "They want to dance all right," says the Chief, "and no one wants to work the next day. Once they were satisfied with an ordinary band. Now they want cabarets."

CLAIMS "SENIORITY" IN JAIL. Indian Bootlegger Warns Oklahoma Sheriff of His "Rights."

Guthrie, Okla., Aug. 22. — Hearing on much about the value of "seniority rights" from striking railroad shopmen, who are serving sentences in the county jail here for violation of Federal Court injunctions, an Indian bootlegger presented demands to the sheriff on his release. The Indian, an Osage with an unpronounceable name, insisted that Sheriff Robertson make careful note of his terms in jail so that when he returns next summer he will not lose his "seniority rights."

The Indian has served terms here for bootlegging regularly during the last three years.

BASEBALL

Frederick Wins.
Frederickton, N. B., Aug. 21.—Frederickton won from the Houlton, Me., baseball team this evening, 9 to 4, making it fourteenth games in a row without a defeat. The game was called at the end of the eighth inning because of darkness. After the game, Johnny Bolater, who leads the Frederickton club in batting, was presented with a gold watch, the presentation being made by ex-Mayor W. S. Hooper.

St. Stephen Defeated.
East Millinocket shut out the St. Stephen team last night, 10-0. Paul was wild, and allowed sixteen hits.

Rain Interferes.
Rain caused postponement of the game between the Boston Travelers and St. Peter's last evening. These two teams, however, will appear this evening in an exhibition game for the benefit of the health centre fund and a close contest is expected.

Auburn Defeats Moncton.

The Auburn team defeated Moncton last night, 2-1, in six innings. The grounds were in bad condition due to heavy rain.

GOLF

Championships at Amherst.

Four St. John players in the maritime women's golf championships at Amherst failed to enter the first division or qualifying sixteen, and so were placed in the second or third divisions. Mrs. Shirley Peters, Miss Audrey McLeod and Miss Catherine McAvity made second division, and Miss Raymond went into third division. Miss Edith Baudt, the maritime champion, made a score of ninety-three, best for the day. Mrs. Bouvryman, Amherst, was second.

RING

All Star Show.

Michigan City, Ind., Aug. 22.—Floyd Pittsman, promoter of the Jack Dempsey-Bill Brennan heavyweight contest, which Governor McCray refused to allow, announced that he would stage an all-star boxing show at his arena on Labor Day.

Bout Stopped.

Quebec, Aug. 22.—The feature contest of the boxing bouts at the Imperial Theatre here last night, which brought together Tex McEwan, the Ottawa heavyweight, and K. O. Samson of Philadelphia, proved a disappointment, inasmuch as the boxing commission stopped the bout in the tenth round.

Wills Knocks Out Jackson.

Newark, N. J., Aug. 21.—Harry Wills, negro heavyweight, of New Orleans, tonight knocked out Buddy Jackson, of Newark, after two minutes and four seconds of fighting in the second round of a twelve-round match.

**BROWNS GO DOWN
ANOTHER NOTCH**

Now Game and Half Behind
Yankee — Detroit Wallops
Red Sox Pitchers — Late Sport.

New York, Aug. 22.—The St. Louis Browns continue to pound the ball hard, but succeed only in fattening their batting averages while their struggle to stay near the front runners in the American League race grows weaker. They outbit the Athletics in the last of the four game series but lost 7 to 6. This loss of the Browns placed them a game and a half behind the leading Yankees, who were idle. The Browns today will engage the Red Sox at Boston, while the Indians open a series with the Yankees at the Polo Grounds.

Detroit had another of its heavy hitting days in Boston, gathering nineteen blows of four Red Sox pitchers and winning 16 to 8.

**HANSEN TO PITCH
FOR ST. PETER'S
THIS EVENING**

One of the season's biggest events for the baseball fans will be the game in St. Peter's Park tonight between the St. Peter's team and the Boston Travelers, one of the anapient teams which has been seen in St. John this season. Ray Hansen is to pitch for St. Peter's. He is out to do his best, and that best is mighty hard to beat. The Boston Travelers have learned of his prowess and are bringing into the field their pride "Lefty" Geary, who is a twirler of deadly aim. The game is sure to be a good one and the whole of the gate receipts are to go to the funds of St. John's new health centre, a cause which has the whole-hearted support of everybody. It is to be a gala night altogether, and the Carleton Cornet Band will parade through the city from the head of King street, down King, along Dock and Mill to Main, up Main to Douglas street and to St. Peter's Park. The forty-eight members of the band served overseas and remained together overseas for nearly five years, dispensing music wherever Canadians were engaged.

**RAUB TAKES DRASTIC
STEPS TO GET DOWN
TO FOOTBALL WEIGHT**

New Brunswick, N. J., Aug. 22.—Howard Raub, captain of the Rutgers College football team, planned for a trip half way around the globe during the summer vacation as a purser's clerk, or something of the sort, on ocean liner. That is, he planned it, until Coach George Foster Sanford planted him on the scales one day and gasped for him Raub tipping the beam around 21 pounds. Sanford's orders were slow but to the point. "Take off some of that if you want to play football," he quoted as saying. Here's how Captain Raub has been doing it: During July he shoveled coal as a fireman in a rubber plant here; during July he worked for the City of New Brunswick mending roads and paving street, a pi and shovel being part of his tools; at this month he is slinging around bags of coal and merchandise on a D. & I. coal boat. Raub declares he learned a heap about calories and vitamins.

**FIELDS BALL IN RIVER
AND GETS HIS MAN
AT THE THIRD CORNER**

New York, Aug. 22.—In the co-ed Kerenske baseball circuit in Illinois players must be swimmers in addition to other accomplishments if they desire to hold the spotlight. In a recent game between Champaign and Newman played at Newman a Champaign batsman hit the ball a slinging wrap and scored out of the lot into the river. Outfielder Dennis of the home team, knowing the river well, was right on the trail of the horseshoe. He plunged into the stream, salvaged the ball and threw it to third in time to nip the runner, who had figured that he would make an easy home run.

885 of Them Under Contract
To Do Farm Work — No
Labor Shortage Says Consul.

Panama, Aug. 22.—The steamship Bermuda, passing through the Panama Canal yesterday, bound for Jamaica, had on board 885 Chinese laborers, said to be under contract to do farm work there. Haligianians, as residents of Halifax are called in Canada, are talking about their "Oxford." The heads of six universities in the Maritime Provinces (New Brunswick, Nova Scotia and Prince Edward Island, to name them in the order of their geographical location) have held several meetings to promote the union of their several institutions.

**THE DUKE OF YORK
WILL BE PRESIDENT**

London, Aug. 22.—The Duke of York, who is a captain in the Royal Air Force, has consented to become president of the General Council of the International Air Congress which is to be held in London next June. The congress is to discuss the technical and scientific development of aeronautics. Lord Welb is a vice-president.

**HOMICIDE VERDICT
IN GARY INQUEST**

Gary, Ind., Aug. 22.—"Deliberate homicide" was the verdict of E. E. Evans, Lake county coroner, who has been investigating the wreck of the Chicago express train which was derailed near here Sunday, killing two Gary members of the crew and injuring several others. The coroner said he found that thirty-seven spikes were removed from the tracks by persons unfamiliar with use of a crowbar.

**NEW "OXFORD"
FOR HALIFAX**

What New York Times Says
of The Proposed Amalgamation.

The New University Would
Rank in Importance With
The Foremost In-
The Foremost Institutions
of Learning in The World.

(New York Times)

Halifax, N. S., is soon to be the seat of a great university which will rank in importance with the foremost institutions of learning in the world. Already Haligianians, as residents of Halifax are called in Canada, are talking about their "Oxford." The heads of six universities in the Maritime Provinces (New Brunswick, Nova Scotia and Prince Edward Island, to name them in the order of their geographical location) have held several meetings to promote the union of their several institutions.

The last meeting was held in the present month, and it is virtually certain that the suggestion of this union, which emanated from the Carnegie Foundation for the advancement of teaching, will be adopted as soon as the minor obstacles to a basis of agreement are swept away.

The suggestion for the union came from the Carnegie Foundation after it had completed a survey of the educational resources of the three provinces. The investigation was carried on by Dr. William S. Learned of the staff of the Foundation and Dr. Kenneth C. M. Sills, President of Bowdoin College. What-ever faults were found in the system of elementary and secondary education as well as the shortcomings in the higher institutions of learning were pointed out.

The situation regarding educational facilities, the extent to which they are used, and the difficulties under which some of these institutions labor have been incorporated in a report.

The Carnegie Foundation has not so far made public what financial support it is willing to give to the furtherance of such a plan, but it is obvious, since it names the amount that will be required—\$4,000,000—and since that amount cannot be looked for from the institutions which are to enter into the union, that it will advance a sum sufficient to insure the success of the project.

It is proposed, then, to unite the following institutions: University of King's College at Windsor, N. S.; Dalhousie University at Halifax; Acadia University at Wolfville, N. S.; Mt. Allison University at Sackville, N. B.; St. Xavier's University at Antigonish, N. S.; and the University of New Brunswick at Fredericton, the capital of New Brunswick. The name of the new institution has not been decided upon;

species. Some of these flower from year to year, others occasionally, while others bloom but once and die soon after. The four large plants now growing in front of the entrance to the garden building belong to the common species, Agave americana, generally believed to be a native of Mexico. A common variety, much cultivated, has leaves with white or yellowish margins.

Century Plant in Bloom.
Brooklyn Botanic Garden Specimen Belies Legend of Rare Blossoming.
New York, Aug. 22.—A century plant is in bloom in the Brooklyn Botanic Garden. It stands in the center of a circular grass plot between the two lily pools just west of the conservatories. The erect shoot bearing the flowers is about fifteen feet tall. From a distance it looks like a bare pole with several candelabra on top. As a matter of fact, however, the pole is not quite bare. It bears small, bract-like leaves. This flower-bearing shoot has been growing for fully three months and during the last of July the flowers fully appeared. They have a homely, greenish appearance and a slightly fetid odor which successfully entices insects. A large variety of which may usually be seen hovering about the candelabra-like flower clusters. The popular notion that "the century plant" blooms once in a century is entirely erroneous. About 800 species are known, mostly natives of the dry Mexican tablelands, although each island of the West Indies has its own peculiar

LOCAL NEWS

NEW MOUNTED POLICEMAN.
Harry Bettle, a former member of the city police force, was sworn in on Saturday as a policeman to serve mounted duty in the vicinity of Rockwood park. He takes the place of Policeman Donahue, resigned.

IS IMPROVING.
Friends of Mr. and Mrs. Joseph Quinn, Main street, will be pleased to learn that the condition of their son Clement, who was operated on last Saturday for appendicitis, is improving.

THE RECALL PETITION.
A lady living in West St. John called up the Times this morning to ask where she could find one of the petitions for the recall of the mayor. She wished to sign and added that several others living near also desired to do so.

FOR THE HEALTH CENTRE.
It is expected all records for attendance at St. Peter's grounds will be broken tonight at the great game of baseball, the proceeds of which are to go to the new Health Centre for St. John.

EXCURSION POSTPONED.
The river steamer Majestic was to have taken a moonlight excursion up river last night to Public Landing, where a dance was to have been held, but owing to inclement weather it was postponed until next Monday evening.

POLICE COURT.
One man, charged with drunkenness this morning was fined \$8 or two months in jail. In the course of a somewhat prolonged arraignment conditions as he considers them to be here the magistrate characterized St. John as "a city of bunas, loafers and drunks."

FINED FOR SPEEDING.
J. G. Willett was fined \$10 this morning in the police court for speeding in Douglas avenue on August 19. He was reported by Policeman McBrien, who said the accused had been going twenty-five miles an hour. Mr. Willett said he had not had a speedometer on his car.

ALL DOING WELL.
Andrew Bell, Jr., of Apohaqui; Henry F. LeBlanc of Moncton and Edward W. Nutty of this city, who have all sustained serious injuries recently, were reported from the hospital this afternoon to be resting comfortably. Mrs. Charles W. Moore of Rothesay, who underwent a serious operation recently, was reported to be doing well.

IS BOUND OVER.
A case against Abraham Reicker, charged with threatening to do grievous bodily harm to Charles Lynch, was concluded in the police court this morning. Reicker was bound over to keep the peace in three sureties, his own for \$400 and two others of \$200 each. The magistrate gave him some good advice and offered to give him more if necessary. L. McC. Ritchie of Porter & Ritchie appeared for Reicker, and E. J. Henneberry for Lynch.

POWER BOAT CRUISE.
The officials of the St. John Power Boat Club are planning a big cruise to the Narrows on the Washademoak. They will leave their harbor at 2 o'clock Saturday, September 2, and will return Monday (Labor Day). They will take an orchestra along and are planning on holding a big dance Saturday evening. The officials have also under consideration the advisability of inaugurating an annual cruise starting next year.

BURIED TODAY.
The funeral of Mrs. Henry McDonald was held this afternoon from her late residence, 102 Queen street, to the Church of St. John the Baptist, where service was held by Rev. J. J. McKeown. Interment was in the New Catholic cemetery.

The funeral of Ira B. Kierstead was held this afternoon from his late residence, 183 Paradise Row, to Fernhill. Rev. F. H. Bone conducted services. The pall bearers were John Bennett, L. A. Belyea, John Stammers, Geo. W. Morrell, W. W. Case and Dr. R. W. Baker.

TWO ARRESTED.
Two arrests have been made in connection with the recent trouble at Spoon Island quarry, owned by B. Mooney & Sons of this city. Constable Robert Smith carried out some investigations some time ago and made a report on the situation to the attorney-general. He later received instructions to make arrests and left yesterday morning for Gagetown. Fred Thompson and John Peterson were taken before Magistrate Peters at Gagetown yesterday afternoon charged with cutting the guy ropes attached to a granite block, blowing up a boiler with dynamite and destroying a gasoline engine. They were remanded until Monday.

MCALONEY-MCDONALD.
A very pretty wedding was solemnized in Portland Methodist church on Wednesday August 16, when Rev. H. B. Clarke united in marriage Mrs. Jennie McDonald and Elmer McAloney. The bride was given away by John McDonald, her father-in-law, and was supported by Mrs. M. Stevens. E. J. Garnett assisted the groom. The bride wore a charming gown of white satin trimmed with beads and a bridal veil with orange blossoms. She carried a bouquet of carnations. The bride's going-away suit was of navy blue gabardine, and she wore a black lace hat. The party returned to the bride's home, and refreshments, music and dancing were enjoyed. A great many beautiful and useful presents were received.

A NEW CHURCH FOR WESTFIELD.
Contract For Methodist Building Awarded to W. S. Stephenson.
Tenders for the building of the Westfield Methodist church were closed last night and the contract for the work was awarded to W. S. Stephenson, of Westfield Centre. Four tenders were received.

The church building will be 82 by 45 feet, and an adjoining Sunday school building, 18 by 86 feet, of up-to-date architecture. The school, or lecture, building is to be completed and the church is to be finished outside but not inside this season. The plans for the building were furnished by Max Price, of Buxton Borta, Florida. The tender was for the work only as the material will be supplied. Work will commence at once.

TRUE BILL IN TONGE CASE

Prosecution Completes Evidence in Matter of Alleged Shooting — County Court Cases.

The August sitting of the St. John County Court opened this morning, His Honor Judge Armstrong presiding. Four criminal cases were presented to the grand jury, but they made only one return up to noon, finding a true bill in the matter of John H. Tonge. This is a charge arising from an alleged shooting near the home of the defendant in the Black River road in June last, and it is alleged that in so shooting he attempted to do grievous bodily harm to Mrs. Alice F. Fitzpatrick. She is defendant in another case at this session of the court, being charged with arson. The grand jury were dealing with the case of the King vs. Sewell on adjournment for lunch.

The prosecution finished its case against Tonge this morning. Evidence was given by Mrs. Fitzpatrick concerning the alleged shooting. A small clothes-pin basket was presented, broken and damaged, said to show the effects of the shots. She said she was washing clothes at the time. The gun from which the shots were fired was pointed in her direction. There had been differences of opinion between her and Mr. Tonge. Mrs. Ada Kerr corroborated the evidence of Mrs. Fitzpatrick as to the shots having been fired by Tonge. J. L. Magee and Wm. Howe were called, but knew nothing of the case. The defence will commence this afternoon. W. M. Ryan appeared for the prosecution, and J. A. Barry for the defendant.

The civil docket follows:

Jury.
Keith vs. Stocker—C. S. Hanington, Dominion Bank vs. Butler—Barnhill, Sanford & Harrison.
Gunn's, Ltd., vs. Flanagan—Barnhill, Sanford & Harrison.
Gunn's, Ltd., vs. Field—Barnhill, Sanford & Harrison.
Carlin vs. Dooly—E. J. Henneberry, Reicker vs. Dunn—Teed & Teed.

Non-Jury.
Quinlan vs. McDonald—K. A. Wilson, Zurecky vs. Ryan—K. A. Wilson, Logan vs. Boyce—K. A. Wilson, Mackin vs. McDermott—K. A. Wilson, Foster, executor, vs. Baig—Porter & Ritchie.

P. E. Tabor and others to P. J. Nordy, property in Norton.

JOHNSTON-CLIMO.
A wedding of much interest was solemnized at noon today in St. John's (Stone) church, when Rev. R. P. McKim united in marriage Miss Florence Cameron Climo, youngest daughter of Harold Climo, 63 Dorchester street, and Roland Golmer Johnston, son of Mr. and Mrs. J. Cardy Johnston, King street east. The bride was charmingly attired in a suit of navy blue velour with picture hat to match and a squirrel scarf, and carried a bouquet of white roses. Miss Marjorie Johnston, sister of the groom, was bridesmaid. She wore a dress of brown Canton crepe and lace with picture hat to match, and carried a bouquet of pinks. The groom was supported by Harold Hooper, Harold Climo, Jr., and Bruce Johnston were ushers. Following the ceremony, Mr. and Mrs. Johnston left for Millidgeville, where they embarked for a two weeks' yacht trip on the river. Among the out-of-town guests were Mr. and Mrs. C. F. Lee of Moncton and Bruce Johnston of Winthrop. The groom went overseas with the Canadian Mounted Rifles, and is a lieutenant in the 28th New Brunswick Dragoon. From his associates in the dragoons he received a silver service and tray. Mr. Johnston is employed as attorney with the Workmen's Compensation Board. The board presented the happy couple with a fine upholstered chair, and the staff of the office gave them a silver service and tray. Many presents were received, which testified to the popularity of the young couple.

TWO CHARGES.
Kenneth Chittick was charged with allowing his car to stand in Brunswick street from ten to eleven o'clock on August 18. He was reported by Policemen Storey and Lobb. He said he had been on business. The case was postponed until tomorrow.

Arising out of this charge was one laid against Chittick by David Shortie in which he was accused of calling the latter a vile name. Chittick denied the charge. The case was postponed until at once.

Big Reductions On Wilton Rugs

Although rug prices have long since reached bottom and our latest quotations plainly indicate an upward trend, we are reducing the prices of patterns of which we have only one or two sizes left, in order to make room for fall stock now arriving. And so we are offering Wilton Squares of best quality at prices which will not be equalled for many a day, if ever. While these particular patterns last, you can have a first class English Wilton in 9x12 size as low as \$57.00. Other sizes in proportion. If you have had any thought of purchasing a new rug, it will pay you to anticipate your requirements, for the same qualities cannot be duplicated at anywhere near these special prices.

Our immense stock is always at your disposal for information or price comparison.
