

MURDER TRIAL.

Not Guilty is the Verdict of the Jury in the McLaughlin Murder Case - Prisoner Discharged.

The Accused Testified on His Own Behalf and was Cross-examined by Hon. N. A. McKewen.

ST. ANDREW'S, Oct. 11.-Parker McLaughlin, son of Peter McLaughlin, aged 16, related the exploration of the Scott road and the finding of foot prints and a bag, and blood stains, as stated by the other witnesses.

going to St. Stephen, said, will you get on me when going? "I will have some strawberries for you and you take my watch to town to get it fixed."

some cruel. I called Harry Scott's attention to some tracks. I went to where the truck and the stump were and the side of the stump was torn off.

OTTAWA.

General O'Grady Will Not Go to Halifax.

Admiral Bedford Declined to Send His Two Afloat Unless Colonel Biscoe Had Command, So the General Will Stay Away.

OTTAWA, Oct. 14.-Although the imperial authorities have decided in favor of Major General O'Grady-Hely to command the troops at the Halifax review, he will not be present, and probably under the circumstances is a possibility of his remaining at home.

FREDERICTON.

Rumor That Recorder of Deeds, A. D. Yerxa, Will Resign.

Funeral of the Late Mrs. W. T. Lee - New Joint Stock Company - Thursday to be a School Holiday.

FREDERICTON, Oct. 14.-Thursday next will be a holiday in the public schools here, the trustees having declared such on account of the visit of their Royal Highnesses to St. John on that day.

There is a rumor in circulation to the effect that recorder of deeds, A. D. Yerxa, for a few weeks past and at present at Boston visiting his daughter for the benefit of his health, is not unlikely to resign in the near future.

Funeral of the late Mrs. W. T. Lee will be held at the residence of the deceased, 100 St. John street, on Thursday, the 17th inst., at 10 o'clock.

A new joint stock company, to be known as the "New Brunswick Land and Lumber Co.," has been organized in this city.

The remains of the late Mrs. W. T. Lee were brought here for burial by the C. P. R. train this morning.

On the 14th inst. the remains of the late Mrs. W. T. Lee were taken to St. Ann's church, where service was solemnized by Canon Roberts, assisted by Rev. Mr. Bodell.

GRAND MANAN.

A Board of Trade for the Island Established.

Weir Fishing is Improving, and Net Fishermen Are Doing Well - Confirmed by Bishop Kingston.

GRAND MANAN, Oct. 3.-A board of trade for Grand Manan is now an assured reality. Prominent business men have taken the scheme in hand.

All the people are getting interested in the scheme, explaining its objects and the benefits to be derived therefrom.

On the 8th of Grand Manan, principal of the North Head schools, was chosen chairman and C. W. Duke was chosen secretary. In an excellent speech Chairman Girwood stated the object and aims of a board of trade.

He read a letter from F. O. Allison, secretary of the St. John Board of Trade, also extracts from the act of incorporation and the by-laws of that association, explaining its objects and the benefits to be derived therefrom.

Mr. Girwood also stated that a board of trade was organized for the island of Grand Manan. The question was spoken to by a large number of families and it was unanimously carried that a board of trade be organized for the island of Grand Manan.

WESTERN HORSES SOLD.

The success of the recent sale of western horses resulted in another lot being put at auction Saturday.

The adventures of former purchasers did not prevent a large crowd from attending and buying. As far as appearance goes the horses put up for sale Saturday were about the same as the previous week's lot, and they ranged in age from colts to animals of unknown years.

There were few venturesome people who wished to examine the teeth of the animals, no doubt there will be plenty of opportunity to do that after purchasing. The prices obtained were very fair. Colts were sold from twelve to sixteen dollars.

Full grown horses ranged all the way up to thirty-seven dollars. The average price would probably be about twenty-five dollars. The horses were not removed by their new owners until after the auction was over.

Madame Clouatre's Story will interest a sorrowing woman somewhere in Canada.

French Canadian Lady Gives for Publication a Chapter in Her Life, in the Book 'The Woman Concerned May Read Her Statement and Know the Truth.'

VALRACINE, Que., Oct. 11.- (Special.)-Madame Pierre Clouatre of this place has had it her duty to make public certain facts, and to this end she has given for publication a statement which she has signed with her hand, and to which her husband has also affixed his signature confirming the truth in every detail of the story told.

It is only fair to Madame Clouatre to explain that in making public this part of her life's history, she is actuated only by the purest of motives, and that by doing so she may help another.

For years this good lady suffered much with kidney disease.

Her loving husband, sick at heart to see his wife suffering so much, tried everything he could hear of, but all to no purpose.

At last he read an advertisement of Dodd's Kidney Pills. He sent at once and procured two boxes.

PINCHED AND PUNY

South American Nerve is the antidote for the ills which are induced by humanity's "mad rush" for an existence. The "eat and run" way of living is accountable for more of the pinched and puny faces than any other cause under the sun.

Dyspepsia, indigestion, constipation, sick-heads are the prime causes for broken-up nerves. Nature forgets the strain that we would compel to live under and has resorted to medical science the favorite formula.

South American Nerve—and its daily joy is to put back the bloom of perfect health in the faces of millions who do honest toil.

HALIFAX, N. S., Oct. 13.—Your correspondent today interviewed James Ross of Montreal, who is in Halifax, regarding the story that Canada would build a challenger for the America's cup.

Mr. Ross said: "Though very much interested in yachting, I have not given this matter much consideration, and I do not think there is anything in the story. We have not in Canada the facilities for building a yacht which could successfully compete for the cup. What has been done in this line in previous years did not require the skill and workmanship that a competitor of today would require."

A boat designed in Canada and built in Great Britain would not be a Canadian boat. Asked as to the possibility of such a scheme being carried out, he said: "No, if it were I would be sure to be aware of it. Further, I do not think at all events, that any action could be taken in the matter until it is known what Lipton intends to do. He should set the matter at rest at the present time as far as Canada is concerned, at least."

GOVERNMENT PROTEST

Against the Governor General on Three Grounds—Trouble and Fun Ahead.

MONTREAL, Oct. 13.—When the Duke and Duchess of York were in Montreal, and the discussion was kept on the absence of the names of Mayor Prefontaine and Mayor Parent of Quebec from the list of honorees, while Mayor Howland of Toronto was included, the statement was made by a close friend of Mayor Prefontaine that he had not been given his due, and that the people would soon say something to talk about in the same connection. Not much importance was attached to the statement. It was well known that the mayor was much disappointed and it was thought he had let this get the better of his discretion.

In fact, little importance was attached to the whole matter, as it was considered that the distribution of honours was a matter of routine. A cabinet quarrel, until La Patrie editorially said that some things remained to be settled which could be settled after the Duke and Duchess had departed. Since that utterance was made there has been some discussion, and the ministers have been questioned, only to deny that they knew what La Patrie was driving at. But now that the London Chronicle has set the ball rolling, tongues have loosened, and white, of course, no authoritative ministerial utterance is possible under the circumstances, yet it is pretty well established that the report is correct, and that the Laurier government has sent a protest against Lord Minto, based on three grounds. The first is that the cabinet's recommendations for honours were mutilated, and completely ignored, by the governor general. The second charge is that members of the cabinet and their wives have been ignored at certain functions.

The third and most serious charge is that Lord Minto imagined he was the whole thing in the reception of the Duke and Duchess, and that as such he has undertaken to spend the people's money as he thought best without taking into consideration the advice and wishes of those responsible to the people concerning such expenditure.

La Patrie published the cable item from London on Saturday without comment. Lord Braquiere is mentioned by the Chronicle as Lord Minto's successor here. Twelve years ago he was clerk in the Bank of Montreal here, and married Miss Debaratz, daughter of the well known publisher. When he came into the title he left the service of the bank and has since resided in England. He came here from Woodstock, where he previously resided. It is not probable that he will be appointed to the position, which has been held by some most noted men in public life.

EXCEEDED HIS EXPECTATIONS.

SYDNEY, Oct. 13.—Sir Christopher Furness, in an interview tonight, when asked for his impressions of the steel works, said: "Saturday I visited the plant of the Dominion Iron and Steel Company, and must say that what I saw there far exceeded my expectations. I know of no better site in England, in fact anywhere, than you have in Sydney for steel works, and the plant is built on such an economic basis that it can produce the production of steel cheaper than anywhere else."

Sir Christopher visited Glace Bay and Louisbourg. Of the collieries of the Dominion Coal Company he said that the facilities for transportation throughout Canada. The present outbreak is traceable to the United States. Dr. Boyce of Toronto states that there were 1,000 cases of smallpox reported in Ontario during the first nine months of this year. Six were fatal and forty are not yet convalescent.

The department of militia received information today through Dr. Montsambert, director general of the public health, that smallpox prevails in the following places in Nova Scotia: Halifax, Lunenburg, Kentville, Black River, and in the Province of New Brunswick, and at a place between Canning and the Bay of Fundy. The number of cases existing at these points is not known, but this information has been telegraphed.

THE MANUFACTURE OF GIN.

The process of gin manufacture is simple. A mash is prepared of malted barley and rye-malt, in the proportion of one-third barley and two-thirds malt, with four parts of water at a temperature of 160 degrees. After infusion cold water is added, and when the heat is reduced to 50 degrees, or one third of the whole is run into the straining vat, in which one half saler oil is added. Fermentation speedily ensues, and in two days is complete, although nearly one-third of the saccharine matter in the liquor is undecomposed. The second feature of the process is the small fraction of yeast employed. The mash is distilled in a retort, and the spirit is collected in a number of bottles and salt, as sometimes happens, is added. The final product is run off into large underground cisterns lined with porcelain tiles, where it can be kept indefinitely.

A curious find was made at the jail yesterday by the workmen who are constructing the annex. Tearing out one of the cells in the old building, they found a mass of bones, the skeleton bound at the end in the shape of a tent, stuffed inside with shavings and small lumps of coal. The whole had been soaked with kerosene, and from where it was found it looked as if it had been placed there by one of the prisoners with the idea of setting fire to the jail. How long it had been there is not known. It was found in a crevice under the floor.

BIG LUMBERING CONTRACT.

Eug. Brown, George Gordon and Paul Brown have contracted with the Parragob-Lumber Co. to cut and manufacture fifty million feet of lumber, on the timber lands lately acquired by the company in Hants County. The contract extends over a period of seven years, and the output for the coming winter is to be about six million feet.

REIGN OF TERROR

Prevails at Nome—Hold-ups and Robberies Frequent—Another Severe Storm.

PORT TOWNSEND, Wash., Oct. 12.—Reports from Nome, Alaska, by the steamer John S. Kimball state that a reign of terror prevails at Nome. Hold-ups and robberies are of nightly occurrence. Men are being snatched and robbed in broad daylight when caught in lonely places. Since hold robberies are frequent and several mines have been robbed of from \$500 to \$2,000. Business houses have been robbed and even women walking in the streets have been made victims. On Sept. 29 two masked men entered the store of Mrs. S. M. Hovey and at the point of a pistol forced her to give up \$500.

The Discovery claim on Avail Creek has again distinguished itself. On Sept. 14, 1,500 lbs. of nuggets was picked up and on the 25th it yielded others weighing 1,720. Nome will have winter communication with the outside world by means of a stage line. Norman R. Smith, who is at the head of the stage line, arrived at Nome on Oct. 11, bringing with him fifty horses and a large number of dogs. He proposes carrying the water to rest stations from Nome to Illuana Bay, a distance of 800 miles, carrying passengers, mail and express. Along the route there will be 35 relay stations. Illuana Bay can be reached by steamers during the entire winter.

The Kimball brought 350 passengers and 100 tons of freight. PORT TOWNSEND, Wash., Oct. 12.—According to advices received here by the steamer John S. Kimball, Nome is being visited by a severe storm, which commenced on the night of Sept. 25 and continued for three days with increasing fury. As a result very little light was anchored off Nome at the time the storm was raging. The delay in getting lighters afloat so that they can be used in discharging the large number of steamer discharges is a great loss for the vessels to get out before navigation shall close.

The only loss of life as a result of the storm thus far reported occurred while the schooner was abating. The schooner Deering sailed in and Capt. Geo. Stevens, of the schooner Prosper, which was wrecked on the night of Sept. 25 and a man named Tracy Robertson attempted to adhere to a small boat. The boat capsized and both men were drowned.

WEDDED IN MONTREAL.

The marriage took place quietly on Wednesday evening at seven o'clock at the Church of St. John the Evangelist, Montreal, of Miss Pauline Winslow, youngest daughter of the late John Coffin Winslow of Woodstock, N. B., and niece of C. M. Rowlett, of St. John and T. Byron Winslow of Fredericton, to Percival H. Sanderson, third son of the late Charles E. Sanderson. The ceremony was performed by the Rev. Arthur French in the presence of relatives and intimate friends of the bride and groom. The bride, who wore white silk and chiffon embroidered in silver sequins, little veil caught with orange blossoms, and carried white roses, entered the church with Mr. Doucette, and was given away by her mother. Little Miss Vera Frances Ings, who was maid of honor, was in white silk and lace, and carried white violets. Allan C. Rankin was best man, and the usher were T. Sanderson and Stanley B. Clift. Mr. and Mrs. P. Sanderson have left on a trip to Buffalo and Salt Ste. Marie, and on their return will reside at 83 Hutchinson street, Montreal. The bride was the recipient of a number of handsome presents.

SMALL-POX PATIENT DEAD.

Joseph Barton Died in the Epidemic Hospital Friday Afternoon.

At 1.30 o'clock on Friday afternoon Joseph Barton, the small-pox patient at the epidemic hospital, died. He was taken from the epidemic hospital on the evening of September 30th to the hospital, where it was discovered that he had small-pox. The schooner, which was lumber laden for Boston, was put in quarantine.

Mr. Barton was about thirty years old and was a native of Mattland, N. S. He joined the Myra B. on her last trip from Boston and is supposed to have contracted the disease there. The board of health will probably look after his burial.

No new cases have developed either on the schooner or in the West End house, and it is expected that the quarantine will be lifted the first of the week.

BAD RAILWAY SMASHUP.

NORTH BAY, Oct. 13.—Four trainmen were killed and one injured in a wreck last night, two miles east of Mackay's station. An east-bound cattle train and a west-bound freight, both running thirty miles an hour, collided. Both engines were demolished and many cars broken up into match-wood, a large number of cattle being killed. The train men who lost their lives were James O. Phillips and George Thomas, firemen, North Bay; H. Allen, brakeman, North Bay; and Louis Morel, brakeman, Mattawa. The bodies of the victims were buried under the debris and were removed with great difficulty. Both engineers, Geo. Elliott and Adolph Christian, escaped by jumping. Elliott being badly shaken up, Morel was a married man and leaves a family. Allen served as a sergeant in the first South African contingent.

Danger Next Door.

Perhaps it's diphtheria, or scarlet fever. Keep your own home free from the germs of these diseases. Prevent your children from having them. You can do it with our Vapo-Cresolene. Put some Cresolene in your vaporizer, light the lamp beneath, and let the vapor fill the sleeping room. Have the children sleep in the room over night, for it's perfectly safe, yet not a single disease germ can live in this vapor. Ask your doctor about it. A Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which would last a lifetime, and a box of Cresolene, complete, 25c.; extra supplies of Cresolene 5c. per ounce. Illustrated booklet containing physicians' testimonials free on request. Vapo-Cresolene Co., 150 Fulton St., New York, U.S.A.

BULLER'S OUTBURST.

LONDON, Oct. 11.—The storm raised by General Buller's outburst yesterday on the South African situation continues to grow.

The speech is the one topic of discussion, and there is general anticipation that disciplinary measures will follow unless General Buller himself takes the advice of such a conservative supporter of the government as the Standard, and resigns.

The tone of the press is generally one of surprised amazement at his indiscretions. The people of England have generally stuck to him throughout, and his wife's social influence has been most powerful and has even reached the court.

LONDON, Oct. 11.—Sir Redvers Buller's speech yesterday is commented upon by all the papers today as an amazing self-condemnation, as altogether ungratified and inexplicable, unless there are still further revelations to be made justifying his course of action.

LONDON, Oct. 11.—Sir Walter Pater, agent general for Natal, speaking in London tonight, referred to the unfortunate utterances of Sir Redvers Buller and said: "It must be ever remembered to Gen. Buller's credit that he saved South Africa for Great Britain."

Under the skilful guidance of the general hostess Mrs. Prewelling, conversation and refreshments in turn occupied the attention of the guests, and a very enjoyable evening came all too rapidly to its close.
