### PROPERTY HAS NO KNOWLEDGE OF A. J. SMALL

Enormous Crowds at Toronto When the Hearing Was Started.

**DOUGHTY TELLS WHY HE FLED TO STATES**

Declares He Had Nothing to Do With Vanishing of Theatre Magnate.

Toronto, Dec. 30.—John Doughty, charged with the theft of \$100,000 in Victory bonds and also conspiracy to murder Ambrose J. Small, meeting newspaper editors and other prominent citizens at a luncheon at the Hotel Windsor this afternoon. He was subsequently committed to trial by Magistrate G. Demson, on the charge of the theft of the bonds to the value of \$100,000.

From far and near came the curious seekers, journalists, artists, men of letters and men of affairs, men of letters, waiting and waiting for a chance to enter the court.

Groups Were Enormous

At two p.m. the corridors were crowded and as policemen backed the people into two main masses, when at last the doors swung open there was a rush for seats. Thereafter the doors were kept closed.

Mrs. Small There

Among the interested spectators in the crowded court were Dr. W. B. Dewart, Frank E. Hughes, K.C., and Mrs. Small herself, executor of Mr. Small's estate.

Comment, I. F. Holmuth, K.C., who referred to "not guilty" Mrs. Clara Brett Martin was also present on behalf of Doughty's sisters.

Detective Mitchell stated that he had been searching for Small since December, 1919. He told of the arrest at Oregon City on November 22, 1920. Doughty had said: "The bonds are all right." Later at the Elk Lake Club, Oregon City, Doughty said: "The bonds are in Toronto."

Promised to Get Bonds

At the hotel in Windsor Doughty had signed the following statement: "I had been employed by Mr. Small as stenographer, and my chief work was corresponding and fixing theatrical contracts, over a period of eight years."

"On the evening of December 2, 1920, I left the Grand Opera House about 6:10 o'clock, to the best of my recollection. I believe my neighbors, Douglas Doughty, and George Lovett, who resided with my sister, arrived about 6:45 p.m. I also made my home with my sister at Kingswood Road. We then sat supper and I packed my traps to go to Montreal, leaving the house after 9 p.m. Mrs. Lovett, her nephew, Douglas, my sister, Jean Doughty, and myself were in the auto. We went direct to the Grand Opera House for some letters in connection with Mr. Small's tenancy. I had almost finished before leaving the office previously. I had a letter or two to read, taking them all with me, and making them of the letter box."

Find the Victories

Minute details of the finding of the bonds were given by Detective Mitchell. In company with Inspector Guthrie and Wm. Doughty, a brother of the accused, he had gone to the home of Doughty's sister, Mrs. Lovett, on Kingswood Road. William and John Doughty told him where to search. He found \$100,000 in bonds, unswapped, with the interest coupons still attached, behind a partition. Another \$5,000 worth were in a closet. Doughty himself was downstairs all the time. Subsequently he came up. (Continued on page 3)

Montreal, Dec. 30.—A threat to murder T. W. Boyd, of the sporting goods firm of T. W. Boyd and Sons, 27 Notre Dame street west, this city, unless \$500 was forthcoming, was admitted this afternoon by Leo Beaulieu, 20 years of age, of 702 Notre Dame street west, on his arrest by detectives.

Mr. Boyd, who has never seen Beaulieu in his life prior to the threat, was notified by letter some days ago that unless he inserted an advertisement in a local paper that he was willing to hand over \$500 to "X" he would be in danger of his life. Consulting with detectives Mr. Boyd was advised to do this and later he received a letter saying that a messenger would call at his store for the money.

Messenger a Boy

The messenger, a boy who was innocent of the whole affair and who had been hired to take the message, duly called and was given a parcel purporting to contain the money. This the boy handed to a man at the corner of McGill and Wellington streets, and a detective who had been following the lad, at once arrested the man and brought him back to the boys' store.

Asked why he had picked on Mr. Boyd for his scheme, he replied that he once bought something from the store and so remembered the name and address. Beaulieu will be arraigned tomorrow.

Came While Family Slept.

It is supposed she surreptitiously pushed the catch in the snap lock of the door and came when the occupants were all asleep and let herself into the house. ### ROGER HORNSBY IS NOT FOR SALE

St. Louis, Dec. 30.—Branch Rickey, manager of the St. Louis Nationals, today reiterated that Roger Hornsby, star infielder, is not for sale. The announcement followed one made in New York last night that an offer by the Giants of \$200,000 and four players for the local star, had been turned down.

### WATERS BACK ON JOB

St. Louis, Dec. 30.—The 700 union waiters who went on strike here October 1 in an effort to enforce demands for the closed shop yesterday began returning to work under the open shop plan. A depleted treasury caused the men to discontinue the strike.

### CANADIANS DEFEAT ESKIMOS

Edmonton, Dec. 30.—In the opening game of the Alberta big four hockey season here last night, the Calgary Canadians defeated the Eskimos, inter-provincial champions of last year, by a score of 5 to 3.

### MINES SHUT DOWN

Gloucester, N. S., Dec. 30.—Colliers No. 5, 10, 14, 15 and 16 of the Dominion Coal Co. are idle today, owing to the shortage of shipping. Yesterday's output was large, totalling 11,822 tons.

### LIQUOR COLORED WATER

Lexington, Ky., Dec. 30.—Puzzled prohibition agents here are trying to solve the mystery of forty cases of confiscated "liquor" yesterday proved to be colored water. They say government seals on the flasks apparently have no liberty tampered with, and that they show no other sign of having been filled.

A SATISFACTORY SITUATION

When Sir Henry Drayton introduced his Budget proposals last session, he made the announcement that it was his intention to, if possible, make the revenue and expenditure balance, and there would not be any more loans.

The situation at present seems to be that not only will Sir Henry be able to accomplish his object, but he will be able to pay off some \$74,000,000 of treasury bills which fell due last October.

The preliminary figures for the eight months are as follows: 1919 1920 Revenue \$218,027,000 \$296,094,000 Ordinary expenditure 202,536,000 238,349,000

THE AMERICAN TARIFF BILL

During the last few years prices for farm produce on both sides of the line have been remarkably good and the farming community in both Canada and the United States have made some easy money.

As a result an Emergency Tariff Bill to apply for ten months, has been rushed through the Ways and Means Committee of the House of Representatives, by a vote of 196 to 85.

There is thus a departure from the ordinary slow process of tariff revision. But the first rush is over and the bill will now have to await more deliberate consideration.

When the Wall Street Journal advises Canadians to do more of their shopping at home, and less in the United States, it is time for Canadian buyers of unnecessary imported articles to rub their eyes, and wake up.

Perhaps it is to improve the saying "Little children should be seen and not heard" that modern girls decree their "little ones shall hear" but not be seen.

DRIVING BISHOPS OUT OF PALACES

Just as we added lavishly to the ranks of the rich, so the aftermath of war has contributed largely to the population of the newly poor. The latest, unwilling candidates for honors in these ranks are the bishops of England.

But the war can be blamed. It is not so much the cost of living, which affects everybody, that is worrying the bishops, but the taxes which are levied on the cost of the war.

The average income of a bishop is about \$25,000 a year, and a residence. It would be more valuable if the residence were not included. The bishop could choose the house he had been living in before, or he could buy a comfortable one in the country.

Bishops Are Evacuating. The Bishop of London some time ago gave up his mansion in St. James' Square. The Bishop of Exeter also left his palace.

Under the new law, which the unions seek to bind their members more and more tightly to prescribed hours and kinds of labor, it is not to be permissible for the railway porter or signal man to employ his spare time and add to his earnings by doing work which other unions consider may have effects "detrimental to their wages."

South Africa and the Empire. General Smuts' arrangements for fusing the South African and Unionist Parties in order to defend the imperial connection are progressing favorably. He has met the executive of the United Party, and the latter has endorsed his plans.

THE LAUGH LINE. Nobody—a prominent woman's husband. A Veracious Epitaph. On a tombstone in New Jersey—"Julia Adams, Died of This Shock, Aged 19 years."—Boston Transcript.

THE POSITION OF QUEBEC. The Liberal party has always fallen back upon Quebec as its great stronghold, and is now pinning its hopes to practically a solid representation from that province after the next election.

### The Glasses Age

The proper time for a person to begin wearing glasses is just as soon as using them will be beneficial to the eyes. It may be in childhood, in youth, in middle life. Only an examination of the eyes by a competent optometrist can determine that time. Whatever it is, wearing glasses soon as needed assures good sight.

When you come to Sharpe's for the examination we do not prescribe glasses unless you should have them for your own best interests.

If you don't need them, we are as pleased over the fact as you are.

The wedding march was played by Mrs. L. J. Laird. The wedding ceremony was performed by Rev. L. J. Laird, the young couple standing under an arch and hill of evergreen and holly. Many beautiful gifts were in evidence, testifying to the popularity of the young couple. The ceremony was followed by a dainty buffet luncheon served, after which Mr. and Mrs. Robinson left for Sussex, where they took the evening train on a short honeymoon trip. On their return they will reside in Sussex.

## Turnbull Estate Gives Land To City

F. L. Potts to Sell the Fishing Rights—More Applications for Grants.

The Millidgeville Avenue matter was advanced another stage yesterday when the Common Council approved the plan prepared by the road engineer and just as soon as the necessary arrangements can be made with the Turnbull Real Estate and the DeBury Estate can be completed the work will be commenced. Commissioner Frank reported that the Turnbull estate had offered to transfer to the city about one and a quarter acres of land free of charge, provided the work of straightening out the road was gone ahead with, and the DeBury estate would sell a small piece of land belonging to them for \$25, as they could not in their capacity as trustees give it to the city.

On the recommendation of the Mayor it was decided to have the work done under the supervision of the Public Works Department and to give the first opportunity of employment to ratepayers of the city.

**Apply for Grants.**  
 Applications for grants were received from the St. John Art Club and from the Natural History Society. These will be taken up with the other grants.

A communication from the civic employees' union asking the Council to consider the schedule as submitted some time ago was laid on the table. On motion of Commissioner Frank it was decided to publish at the city expense, the statement prepared by the Mayor showing the amount of the total assessment which the City Council was responsible for the expenditure of the Newman Brook sewer and presented a plan for the deepening of the natural history foot and the building of an archway over it as the first step toward the trunk sewer. Commissioner Bullock brought up the question of land damage and it was decided to get further information before taking any further steps.

It was decided to engage F. L. Potts to sell the fisheries on Tuesday, January 4th.

## Wesley D. McBeth Killed On Steamer

Struck on Head by Broken Boom—Coroner's Inquest Last Evening.

The jury empaneled by Coroner H. A. Porter to inquire into the death of Wesley Duncan McBeth, the coalhandler killed on the steamer Thomas J. Drummond, at Long Wharf, yesterday morning, after viewing the remains and hearing the evidence of those who witnessed the accident, found that McBeth's death was due to a fractured skull caused by the breaking of the boom of the steamer. They were unable to determine from the evidence whether the boom was broken or broken by the boom. The jury was composed of D. G. Stockford, foreman; H. J. Keyes; Stanley Bastin; James A. Little; Jean K. Parsons; W. V. Hatfield; W. Norman Earle.

The inquest was held in the Court Chambers in Germain street.

Michael P. Donovan, the first witness, said that when he found there was a man short on the Thomas J. Drummond, he asked McBeth if he had a coalhandler's card, and as he did not he told him he could go to work but would have to knock off if anyone protested. McBeth went on board and was just taking off his coat when the boom fell and knocked him to the deck. He was picked up and carried to the ambulance.

Riord P. Dunham, foreman, stated that the boom was a brand new one that he would have risked his life on, and he could not account for its breaking, as an empty tub was being lowered at the time.

**Fractured Skull.**  
 Dr. C. J. Campbell, intern at the General Public Hospital, stated that he examined McBeth on his admission to the hospital. He said he was unconscious at the time and bleeding from the mouth and nose. His skull was weak and the bones of his pulse crushed. Death took place about 9 o'clock and was due to fracture of the skull and injury to the brain.

John Montague, assistant foreman with John T. Cullinan, stevedore, said that he helped rig the gear on the Drummond and was doing that class of work for twenty years and considered the Drummond's gear perfect.

### ECONOMY AND MERIT

Combined in Hood's Sarsaparilla, the  
Blood Medicine.

In spite of the increased costs and  
great scarcity of important roots,  
herbs, etc., the standard of quality  
and the quantity of Hood's Sarsaparilla  
has been faithfully maintained, and  
is today the same as when this medi-  
cine was first perfected and offered to  
the public.

A bottle of Hood's Sarsaparilla will  
improve last three or four weeks,  
while others last but a week or two,  
and some even less time.

Hood's Sarsaparilla is effective as a  
blood-purifier and skin medicine and  
also after the Pin, Grip, fever and  
other debilitating, blood-poisoning dis-  
eases. It purifies the blood, creates  
vigorous, and makes the taste

### COMMITTEE TO AID IN SOLVING AUTO TAX PROBLEM NOW

Sir Henry Drayton Suggests  
Plan by Which to Overcome  
the Difficulties.

Ottawa, Dec. 30.—Two commit-  
tee representatives of automobile  
dealers, and one representative of  
automobile manufacturers—are to be  
appointed to discuss with Sir Henry  
Drayton, minister of finance, the situa-  
tion created in the automobile trade  
by cancellation of the luxury tax on  
cars. Sir Henry this afternoon met  
a large delegation of automobile  
dealers, who presented their case to  
him, asking for a refund of luxury tax  
paid on cars in stock when the tax  
was cancelled. It was Sir Henry's  
self who, in the course of his general  
reply suggested appointment of the  
two committees.

No Case of Refund.

Sir Henry gave no definite promise  
as to what action would be taken by  
the government, although he remained  
of the delegation, no notice was ordi-  
narily given of changes in taxation,  
and he said:—"I do not recall any  
case of a refund having been made."  
He reminded the delegation that when  
the tax was imposed, no tax was col-  
lected from auto-dealers in connec-  
tion with machines for which con-  
tracts had been given.

### TRAGIC VIGIL ON BANKS OF RIVER

Parents Pace Restlessly up  
and Down Peering Into  
Water for Son's Body.

Pittsburg, Dec. 30.—A vigil as sim-  
ple and tragic as any ever kept has  
been kept at the river bank in  
Pittsburg. The vigil was held for  
the body of a young man who was  
killed in a canoe accident on the  
Ohio River.

For three weeks Mr. and Mrs. E. J.  
Taylor, of Portville, Penn., have kept  
their watch of grief over the river in  
front of their home. Mr. Taylor, who  
was drowned December 3, when a huge  
timber fell from the Thirty-third  
street bridge, upon which he was em-  
ployed, and knocked him into the  
river. The father and mother imma-  
diately came to Pittsburg to search  
for the body of their boy. Dragging  
the river proved in vain and although  
Mr. Taylor obtained a permit to dy-  
namite the river, ice made this impos-  
sible. Day after day the couple have  
walked the banks of the river peer-  
ing into the cold water. The young  
man's employers, the American  
Bridge Co., have helped in the hunt.  
But the father and mother in their  
love and sorrow cannot leave the  
search to others. Mr. Taylor, who is  
a coal operator, has given up his  
business to remain in Pittsburg until  
he has found the body of his son. Ad-  
vertisements placed in all the papers  
by the Taylors offer a liberal reward.  
"Expenses means nothing," said Mr.  
Taylor today; "we want the body of  
our son; nothing else matters. Mrs.  
Taylor will remain here until the  
body of our boy is found."

The wife of the drowned man came  
to the city with her husband's par-  
ents and is now resting in Marietta,  
Ohio.

### Manly Strength Self-Help Book Free

It matters not who, any man,  
young or elderly, needing more vital  
strength, who is not quite the man  
he should be, who feels himself  
weakened as a result of past prac-  
tices and excesses, can, beyond the  
shadow of a doubt, hope for self-  
restoration of his lost or weakened  
powers if he will along to make a  
fair, square effort along certain  
perfectly natural lines (of which he  
can easily learn), and will lead that  
sort of a decent existence which  
Nature demands that all of us  
should lead, if we are to prove up  
to the normal standard of a vigor-  
ous manly capacity, as we see it  
exemplified in the best men of the  
world today.

Just what I believe you yourself  
should do or should not do where  
more manly strength may be desired  
is told in a perfectly plain, common-  
sense, practical, every-day sort of a  
way through the medium of a little  
72-page illustrated book of advice  
that I publish and am now sending  
free, sealed by mail, to men who  
over the world who write for it.  
This little compendium of self-help  
has, I hope, been of more lasting  
benefit to my fellow men than any  
similar publication of its kind be-  
fore used. Over one million copies  
"have been distributed since my first  
announcement that they would be  
sent free of charge. Therefore,  
reader, please use the coupon be-  
fore sent, which entitles you to this  
wonderful little free book, a copy  
of which will go to you in a per-  
fectly plain, sealed envelope by re-  
turn mail. Remember there is ab-  
solutely nothing offered for sale in  
the whole booklet, excepting in that  
part which speaks of my little in-  
vention, the Sanden Vitalizer, and  
you are not expected to get one of  
these appliances unless you want  
your mind it is what you want.  
The book is absolutely independent  
of all else, and is a free gift in  
every sense of the word. It carries  
with it no obligation on your part  
of any kind whatsoever. Please  
send your name and address.  
SANDEN, Author.

Real, sturdy, vigorous manhood  
never counted for more than it does  
today. If you are strong, vital,  
manly, the whole world appreciates  
you; if you are a weakling, well,  
it is a dark time, this age of ours,  
for the one who must stand aside  
for my mind a vigorous, strong,  
manly man is one of the world's  
greatest inspirations "in the world"  
because the very force of his char-  
acter and manhood makes itself felt  
wherever he goes or wherever he  
may be. What he does he does  
well, and his reward is in propor-  
tion to the strength and sturdiness

REAL MANHOOD ALWAYS WINS  
of his manly energy and to the  
alertness of a brain which is fed by  
the vital energy of the man it be-  
longs to.

It seems to me that any man, un-  
less he is bowed down by extreme  
old age or by some consuming mal-  
ady, may increase his physical and  
vital strength by doing what he  
wants to and is willing to make the right  
sort of a conscientious effort in the  
right direction and along right lines.

We manufacture a little mechan-  
ical appliance called the Sanden  
VITALIZER (referred to above),  
and all about which it will pay you  
to learn, because every day you  
may want to use one.

This little Vitalizer is not expect-  
ed to do its work unaided, but is  
meant to act as a powerful assistant  
to Nature and to the man who wants  
more vitality or vigor and is willing  
to do his part in regaining it.

You simply buckle the Vitalizer  
comfortably on your body at night  
when you retire to bed. It starts  
its work at once. It sends a stream  
of a certain silent, penetrating pow-  
er which we call Vital Force into  
the body, your kidneys, liver, stom-  
ach, bladder, nerves and blood while  
you sleep. Men everywhere have  
said it takes that nervous weakness  
or pain out of the small of the back  
in short order—sometimes from  
first night's use, and that often  
strength and manly vigor is restored  
in 60 to 90 days.

With special attachments, the  
Vitalizer is also used for rheuma-  
tism, kidney, liver, stomach, and  
nerve disorders, etc. If, after reading  
the free booklet, you decide that  
you would like to wear the Vitalizer,  
we shall be pleased to make special  
arrangements for you to have one  
to use. If in or near this city, we  
should be glad to have you call,  
otherwise please write for book.  
Hours 9 to 6. Satisfaction guaran-  
teed in every case.

## BUTTER AND EGGS DOWN FIVE CENTS ON LOCAL MARKET

### One Dollar Per Case Drop in Oranges — Turkeys Are Very Scarce Now.

The week of so-called quietness precedes the new year taking the market quiet and firm. What little activity there was, was chiefly displayed in wholesale meats and in country produce.

Only one change was recorded in wholesale groceries that being a reduction of from 15 to 25 cents in granulated cornmeal now quoted at from 14.60 to 14.75 per sack.

In wholesale meats veal and pork were firm, veal going up a cent and pork 2 cents per pound. Mutton was a drag on the market at from 6 to 10 cents per pound.

Butter, eggs and poultry were weaker in the city market. Butter dropped five cents a pound and eggs five cents a dozen. Chickens and geese were down, but duck and geese held firm. Turkey was very scarce. A dealer was offering the addressed bird in all the beauty of its winter plumage at forty-six cents per pound.

In wholesale fruits (California oranges) dropped a dollar a case. There were no other changes in fruit.

Wool (washed) was quoted at 17 cents and unwashed at 12 cents per pound. Rendered tallow was off a cent at 8 cents per bushel.

There was no change in oils, hay and feed or fish.

## TRANSPORT STOCKS LEADING FEATURES IN IRREGULAR DAY

### Atlantic Gulf and Crucible Steels Establish New Lows for the Year.

New York, Dec. 30.—Transportation shares were again the conspicuous feature of the irregular stock market today although the movement in that group lacked much of the confident accumulation and resiliency of the preceding session.

This may be due in a measure to the erratic and occasionally heavy course of such issues as Atlantic Gulf and Crucible Steel, both establishing new low records, though Crucible recovered in the later trading.

Several other shippings, also secondary steels, oils and miscellaneous specialties, were under intermittent pressure, presumably as a result of further selling to adjust the year's tax payments but such offerings were relatively small.

Conditions Are Unchanged.

Fundamental or basic conditions, in their application to trade and industry were unaltered. The day's judgment was repeated the time-worn commodity of curtailed production, lower commodity prices and increase of unemployment.

The money market followed its recent monotonous course, call loans holding at 7 per cent, with virtually no offerings of time funds. Dealings in foreign exchange were negligible and the only international development of financial interest was the low point of the Bank of England's liability reserves.

Price movements in the stock market were most confusing in the last hour, with such a Reading and Northern Pacific reacting sharply and Atlantic Gulf continued to sink, making a net loss of 5 1/2.

One Stock a Gainer.

On the other hand, American International closed at a gain of 5 1/4. New York Airbrake 2 and leading rubber issues 2 to almost 3 points. Leaders of steel, equipment and oil divisions advanced at variable recessions, excepting United States Steel, which gained almost 1 point. Steels amounted to \$1,100,000.

Trading in bonds was very extensive, approximating the largest turnover of the year. Railway convertible issues of the better quality, variety were in favor of substantial gains, but Liberty bonds and industrials were easier.

Total sales, par value, aggregated \$36,900,000.

Old United States bonds were unchanged on call.

## HIGHER PRICES PREVAILED FOR MONTREAL STOCKS

### Papers, Breweries, Cannery and Asbestos Securities Show Substantial Gains.

## GOSSIP AROUND THE MARKETS

The coal mines of the Province of Alberta will produce approximately 6,750,000 tons of domestic, bituminous and anthracite coal this year, a volume greater by 500,000 tons than the output of 1918, which had previously held the record for the Alberta fields.

The Berlin Bourse is to be closed one day a week to check speculation by the public. Anticipation of a reversal of America's policy toward Germany with the new Administration is taken as a "bull point."

Germany has notified Rumania that it is ready to return 200,000,000 gold francs and 200,000,000 Rumanian notes and securities deposited in Germany Rumanian banks before the war. This is said to be the price demanded by Rumania for resumption of diplomatic relations with Germany and it is believed it will be followed by Rumania releasing a large amount of gold in Rumanian banks.

Children's Festival Greatly Enjoyed

Unusual Number of Talented Young Entertainers Gave Programme at Imperial

It has been remarked several times recently that St. John possesses an unusual number of talented young entertainers, and yesterday afternoon's Children's Festival, held under the auspices of the King's Daughters, emphasized this fact. The Imperial Theatre was well filled with a delighted audience, and Mrs. G. Wilford Campbell, who arranged the programme, was highly congratulated upon the success of the affair. In some respects, the programme was a model of the kind of thing the young people showed great talent and ability.

Among the splendid numbers, special mention must be made of the dances given by Miss Angela Gregory of West St. John; the jazz band of the Free Kindergarten children, and the drill in which the Wiggins' boys spent a Christmas and New Year's greeting in human form. The proceeds of the concert are for the work of the City District. If possible a contribution toward the Farfallo Home at Fredericton will be made. At the close of the entertainment, the performers were treated by the organization. C.P.O.S. Grampian Here From Antwerp

Arrived Yesterday Morning With 1,100 Steerage Passengers - Had Rough Trip.

The C. P. O. S. Liner Grampian from Antwerp with 86 cabin and 1100 steerage passengers docked early yesterday morning. The trip across was the roughest ever experienced, according to reports of the officers. After two days out the ship ran into boisterous weather and was tossed about to the discomfort of all. Christmas at Sea. Special preparations were made for celebrating Christmas at sea. The cabins were artistically decorated and a special menu, served by the chief steward. Most of the passengers were not feeling like celebrating but those who were able to get about enjoyed the efforts put forth for their entertainment by officers and crew. Forty Rejected. The immigration officials were busy all day yesterday examining the steerage passengers. About forty of them were rejected and sent back aboard ship. Those rejected were Polish. Two saloon passengers, man and wife were also refused admission to this country. There were two steerages on the Grampian and they were ordered back by the authorities. Steamer Pretorian From Glasgow. Docked Yesterday Morning With 113 Cabin and 292 Third Class Passengers. The Pretorian from Glasgow, with 113 cabin and 292 third class passengers, docked at 3 o'clock yesterday afternoon; the Grampian moving out to make room for her sister ship. Rough Weather. The Pretorian experienced much the same disagreeable weather as reported by the Grampian. The liner was eleven days making the trip. A special Christmas party was provided by the officers for their guests at sea and a most enjoyable time was had on that occasion. Cotton Mill Employes. The Pretorian brought from Scotland several young ladies who are coming here to accept the employ of the cotton mill at Milltown. A representative of the company was at the docks to look after the interests of the young ladies and see them safely transferred to Milltown. Three special trains were despatched by the C. P. R. with passengers from the two steamers for Western Canada. GEORGE SHEPHERD WAS ARRESTED. Taken in Custody at Portsmouth, N. H., for Using St. John Man's Name Illegally. Using the name of Leo Feiner he telegraphed to Mrs. Feiner in New York for \$25. She wired her son in Portsmouth and the Portsmouth police do the rest. When searched at headquarters the name of Feiner was found pasted in Shepherd's hat. A second man from Buffalo was taken into custody shortly afterward, but he was able to satisfy the officials that he was not connected with the case.
