SPRING HILL MINING COMPANY,

INCORPORATED UNDER LAWS OF NOVA SCOTI Capital \$400,000, with power to increase to \$1,000,000. SHARES \$50.

LIABILITY OF SHAREHOLDERS LIMITED TO THE AMOUNT REMAINING UNPAID ON THEIR STOCK.

2,600 Shares are offered by public subscription. \$5 per share to be paid on application; \$15 per share on allotment, 1st July, 1872; \$15 per share on 1st September, 1872, and \$15 on 1st November, 1872; or the whole may be paid on allotment, with deduction of interest at 6 per cent. per annum, on all payments in anticipation of the date when they become due.

DIRECTORS, &c.

Hon, ALEX ANDER MACFARLANE, Senator, Wallace, Nova-Scotia, President. How. ROBERT BARRY DICKEY, Senator, Amherst, N. S. CHARLES H. M. BLACK, Esq., Merchant, Halifax, N. S. LT. COL. CHARLES J. STEWART, Amherst, N. S. ALEXANDER ROBB, Esq., Proprietor Amherst Iron Foundry, Amherst, N. S. TREASURER-JAMES S. HICKMAN, Esq., J. S. Hickman & Co., Merchants, Amherst, N. S. SECRETARY-WM. J. MOFFAT, Esq., Barrister, Amherst, N. S. B NKERS-Bank of Nova Scotia, Amherst Branch; and Bank of New Brunswick, St. John, N. B.

OFFICE-Mr. W. J. MOFFATS Office, Amherst, N. S.

The Company have acquired, by purchase, three leases from Government of Nova Scotia to Hon Alex. Macfarlane, of one square mile each, of the richest coal deposits in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, 1926. Royalty 10 cents per ton of 2,240 lbs.

Five seams and upwards, of varying thickness from 2½ to 13 feet, are known to exist within these areas, which comprehend (exclusive of a portion of the General Mining Association reserve) nearly all the coal yet discovered in this well known district. Of these, one, known as the 11 feet seam, has been opened, and several hundred tons raised these, one, known as the 11 feet seam, has been opened, and several hundred tons raised that a a verage of 10 feet from the surface, and preserving a thickness of 10 feet for two-thirds of that distance. The slope has lately been carried down to the depth of for two-thirds of that distance. The slope has lately been carried down to the depth of 95 feet, exhibiting a marked improvement in the quality of the coal, described by Sir Wm. Logan, from specimens near the outcrop, as "an excellent coal, superior to any Wm. Logan, from specimens near the outcrop, as "an excellent coal, superior to any yield from this seam alone, half a million tons annually during the lease. The larger soam has been exposed by a trial pit within the areas; the smallest of 2½ feet, is believed to contain a valuable gas coal, and it is a fair geological inference that all these beds of coal will be found in their proper position. Thus several distinct colleries may be leased to individuals or companies.

A hyperch railway of 34 miles has been surveyed, and steps are being taken for its

be leased to individuals or companies.

A branch railway of 3½ miles has been surveyed, and steps are being taken for its construction to connect the property by a down grade with the Intercolonial Railway, at a point 21 miles from the head of the Bay Fundy and contemplated Bay Verte Canal, and 13 miles from a shipping place at the mouth of Maccan River, half a mile from the Intercolonial, where vessels drawing 13 feet of water may load. Until the opening of the Intercolonial, between Truro and Amherst, next autumn, the coal will be hauled 4

the Intercolonial, between Truro and Amherst, next autumn, the coal will be hauled 4 miles to Black River Station.

From the nearness of the outcrop to the surface, and the seams lying on high and descending ground, securing easy drainage, it is considered that these seams may be most economically worked.

The freight of a ton from the head of Bay Fundy to Boston or New York is about 75 cents less than from Picton or Sydney—of itself a good profit, while the difference to St. John is fully \$1 00.

The Spring Hill coal is well adapted for house, steam and smelting purposes. Situated within 37 miles by rail of the lodes of brown hematite and micaceous iron ore of the richest quality, known as the Acadia iron ore, of Londonderry, it is difficult to assign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a coal unusually free from sulphur. The large proportion of carbon renders it eminently adapted for manufacturing coke, which, with the coal itself, must be extensively used in the iron and steel works at Londonderry, as well as the Machine shops being erected for the Government railways at Moncton.

The portion of the Intercolonial between Truro and Amherst is now being ballasted The portion of the Intercolonial between Truro and Amherst is now being ballasted Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly be worked in the same way, and the local demand between these points, already large, is steadily increasing.

be worked in the same way, and the local demand between these points, streaming is steadily increasing.

Vessels bringing flour from the St. Lawrence to St. John, Yarmouth, and other lower ports, through the Bay Verte Canal, when completed, may have return cargoes of coal to Quebec, Montreal or Toronto.

From all these sources of traffic, in addition to the Western part of Nova Scotia, the New England ports and New York, it is assumed that an unlimited market will be afforded.

Additional means of shipment will be afforded by the contemplated railway to Parrsboro—a port open at least ten to eleven months in the year—for which the Nova Scotia Legislature have provided large subventions.

The estimated cost per ton for raising, handling, and putting on board ship, say at mouth of Maccan river, is about as follows:

F	Catting and raising, including weighing, settled, settled, and raising, including and royalty
	Cost on board\$1.10 Freight to St. John
	Cost
	If Dictor and Sydney coal can be shipped to Boston and New York at paying pr

it cannot fail to be highly remunerative to send a better article from Spring Hill, with an advantage of 75 cents in freight. The local traffic would yield a high rate of Taking the low average of only 80 cents per ton, inclusive of repairs of machinery, &c., and assuming only 100.000 tons as the annual production at first, we have a gain of 20 per cent. on the capital, which might be much augmented by the rent of other seams, as suggested. From the exceptionally high character of this coal, and the facilities for raising it cheaply, this quantity, it is confidently believed, might cre long be doubled or trebled, and a large rate of profit secured even with considerable increase of emital.

TESTIMONIALS.

Extracts from Reports of Messrs. Woodhouse and Jeffcock, Mining Engineers, London and Derby, G. B., (January 2, 1866) The Coal Field which we have carefully examined, and which is the subject of this Report, is situate in the county of Cumberland, in the province of Nova Scotia. It is generally described as the "Springhill" Coal Field, but in reality it is a part of the great Cumberland Coal Field.

The first or upper seam we found to be a bed of remarkably good coal, presenting a very

low Complete in every Departments Choice, Export, Chinquacoucy, Featemand, &c. For sale by june 15 J. & W. F. HARRISON.

Professor Henry Y. Hind, M. A., in his recent Report of Springhill Coal Field, thus sums up "Thickness of large Springhill seams 13 feet and 10 feet 3 inches. Quality of Springhill seams of the very first class. Distance of these from Parrsboro by rail, 26 miles. Known outcrop of springhill main seam, 11 feet, on which operations could be immediately commenced, about 2 class. miles;
"The main seam, or what is supposed to be the main seam, has been traced for a distance exceeding one mile and a half in a northerly direction, on the Macfarlane areas."
In Professor Selywyn's, F. G. S., Beport laid before Parliament, Session 1872, he thus refers to Mr. Scott Barlow's operations at Springhill: "The evidence, so far as it goes, appears to show that in a distance of about eight hundred yards, horizontal measurement, agges the strike of the measures; thee are eight seems of workable thickness, as under, in descending order. No. 1, 13 ft. 6 in.; No. 2, 6 ft. No. 3, 7 ft. 4 in.; No. 4; 12 ft. 3 in.; No. 5, 2 ft. 6 in.; No. 6, a drop, thickness uncertain; No. 7, 4 ft., shaly coal; No. 8, 2 ft.; Total, 42 ft. 7 in." APPLICATIONS FOR SHARES must be made in the annexed form, and forwarded to the Bankers, or to the Secretary at the Company's Office, where the By-Laws may be seen.

FORM OF APPLICATION. (Addition to be signed by applicant desiring to pay all the instalments on allotment.)

I desire to pay up my subscription in full on allotment, with deduction of interest at 6 per cer er annum on all payments in anticipation of the time they become due.

Persons wishing to subscribe for Stock in the above Company, or those desiring further information respecting the property, will please apply, by letter or in person, to E. N. SHARP. At No. 23 Prince William Street.

The Paily Tribune.

ST. JOHN, N. B., JUNE 24, 1872. The Premier of New Brunswick and his "Pledge."

We do not think it would involve the slightest sacrifice of dignity for Hon. Geo. L. Hatheway, Premier of New Brunswick, to notice the statement that has been made by French papers in the Province of Que bec in reference to a pledge said to have been given by him.

It has been distinctly stated by these French journalists that Mr. Hatheway when in Ottawa, -at least, while in the Legislature, the School Act would be so minority. This statement has been pub ished broadcast throughout the Dominion; it is believed to be correct by a large body of people; and it is calculated to create an impression unfavorable to the stability of belief and purpose of the Legislature of our

THE MINISTER'S OATH.

BY JULIAN HAWTHORNE.

CHAPTER I.

About thirty-five years ago a committee of the most respectable and popular citizens of Amasset conceived and brought about a grand ball, commemorative of the 19th of April. It took place in a large hall devoted to all occasions of public assemblage, where the respectable and popular citizens of the first time, to have an inkling of it.

"If you are talking nonsense, Harry, it's quite time you stopped. I won't hear another word. It you mean what you say to all occasions of public assemblage, please take me back to the room, for I am engaged for the next dance."

Hew Muniswers of every thing is at an end between us!" This delivered with impressive deliberation.

Elellow, or anybody else, every thing is at an end between us!" This delivered with impressive deliberation.

Ellen looked the young man straight in his flushed face with a composed smile. Under the circumstances, a contradiction from Mr Hatheway would seem to be due both to the Government and the people of the Province. The People, the Press and the Legislature stood by the Government, and kept them in their places in spite of the tremendous influences brought to bear against them at the last Session. All they engaged for the next dance." Government or any of its members. The more for conductors! positively made and so widely made is beunpleasant reports.

Laura Honey has re-appeared on the stage at San Francisco.

Joe Jefferson, who was obliged to leave the stage on account of disease of the eyes, will be able to resume shortly. He had a successful operation performed by two several in number and cumulatively powers.

Laura Honey has re-appeared on the stude hinders as it to coasionally makes, there is in this sampling of the music of the world enough to mark the Festival as the most noted of the age.

The Crazy Ducks.—Those crazy claimamount will readily be subscribed in St.

John.''

We take the following items from Nova themselves is their reception by the Critic from New York. This gentleman, who is several in number and cumulatively powers. tion of non sectarian Education. Nevertheless, there are many who do believe it, and who point to the triumph thus achieved over what they are pleased to call the "bigotry" and "intolerance" of the majority in New Brunswick. They also point to the unfortunate Colley resolutions, which really censured our Legislature for its action; and between the declaration of the New Brunswick of Momoners and the reported declaration of Mr. Hatheway, they hold that great headway has been made in the fights against our schoel Act.

Under the circumstances, a contradiction Mr Hatheway would seem to be due both to the Government and the people of the Province. The People, the Press and the Legislature stood by the Government and the people of the Province. The People, the Press and the Legislature stood by the Government and the people of the Province.

BLACK DOUBLE CASHMERE, for TALMAS, BLACK CORDED TRIMMING SILKS,

PRINCE ARTHUR AND THE PAIR OF SOCKS .- COLORED GROS GRAIN SILKS, On Tuesday afternoon, after lunching and BLACK CORDED RIBBONS. Liverpool, Prince Arthur unexpectedly popped into the bazaar and encouraged the ladies presiding at the twelve stalls by impartially making a purchase from each. LINEN VESTING. EVENING TIES, From the Mayoress he purchased a very SHIRT STUDS. WORKING CANVAS, handsome fancy box, at the same time ac- BER: IN WOOLS. YARNS, and cepting a bouquet from one of the young ady assistants; from Mrs. J. G. Morris he bought a gipsy doll, from Mrs. Adamson a card basket, and from Mrs. G. H. Hors fall a great and gorgeously attired doll, in fact quite an aristocrat in dolldom. On being handed his purchase, the Prince remarked, "This will do very nicely for my sister in-law" (evidently alluding to the Princess of Wales,) and, turning laughing- DROWN LINEN SUITS; ly to Lord Setton standing by, remarked. 'You had better carry this, Sefton." His lordship, however, declined the responsibility, jocularly replying, "O, no, I never could carry babies." But the incident which created most sensation among the ladies, who had been reading the revived ladies, who had been reading the revived rumor as to his Royal Highness being affianced to the daughter of an Irish duke, and who were naturally on the lookout for any omens, was the result of an invitation to the Prince to try the "lucky bag." The Prince paid his money like a prince and a gentleman, dipped his hand into the bag and drew out a ticket for a pair of baby's socks. The ticket was duly honored, the sacks were handed to the Prince, and, laughing goed humoredly, he put them in his pocket, and passed on his way rejoicing.—[Liverpool Courier, May 23.

AN ARISTOCRATIC BANK .- The banking house of Coutts & Co., of London, of which the principal partner is a lady, the well-known Lady Burdett Coutts, keeps the accounts of Queen Victoria and many of the English nobility. The Queen's passbook is inlaid with gold and bears the royal arms, and is kept in the highest style of Penmanship by a clerk who attends solely to this duty. The sons of noblemen seek positions in the bank as clerks, and none but college graduates are received. They are expected to be models of good conduct and correct deportment, to dress in the modest but elegant style of gentle men, and not to wear mustaches during bank hours.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues; throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Pectoral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which best the Throat and Chest of Childhood, Cherry Pectoral, is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts specilly and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected. Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists, SOLD BY ALL DRUGGISTS EVERYWHERE.

H. L. SPENCER, Medical Warehouse 20 NELSON STREET, ST. JOHN, N. B., General Agent for Maritime Provinces. Nursery Rhymes, No. 9. A very lean pig, on a windy day,
Stood alone by a garden gate;
He couldn't get in. for the gate was locked,
And sadly he moaned o'er his fate.
Then he wiped his eyes with a carl of his tail,
And gracefully stood on his ear.
And a trembling tear coursed down his spine.
Till his face turned the color of cwir.
His snoot grew flat, and gray were his locks,
When a knot-hole round he espied:
And he sat on the silken folds of his paw,
And peered through that loop hole wide.
He saw the sun in a golden beam, He saw the sun in a golden beam, Glint its rays on a bucket of mash, And his porcine feelings welled up in his breast And he went through that hole with a dash Then his optic fell on some CATTLE SPICE, As he glanced o'er the garden green; And he smacked his lips and distended his With a relish uncommonly keen. He loaded his skin till it cou'dn't hold more And his sides began to expand His face got cheeky; stout grew his limbs, And he left for his native land. Government Savings Banks. PUBLIC NOTICE is hereby given that Government Savings Banks will be opened on the 1st of July, 1872, at the undermentioned places in the Province of New Brunswick, and in charge of the following agents:— And he left for his barree fand.

He resched the hole at the side of the gate
And jumped for that circular crack
When his febrile pulse felt a normal shock
And he fell on the broad of his back.

And the Coroner set on the fat remains
Of that porker in his pride;
And this was the verdiet the Jury gave;
Died from a swelled inside."

HOOP SKIRT FACTORY, 79 King Street.

HALL'S
VECETABLE SIGILIAN
HAIR
RENEWER.

ITS EFFECT IS MIRACULOUS. It is a perfect and wonderful article. Cures baldness, Makes hair grow. A better dressing than any "oil" or "pomatum." Softens brash, dry and wirry hair into Beautiful Silken Tresses. Above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not doe the hair, but strikes at the root and fills it with new life and coloring matter.

The first application will do good: you will see the NATUKAL COLOR returning every day, and

BEFORE YOU KNOW IT,
the old, gray, discolored appearance of the hair the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

See that each bottle has our private Government Stamp over the top of the bottle. All others are imitations.
