OVER THE WIRES.

Another Railway Accident Eight Killed

CZOLGOSZ ON TRIAL

More Smallpox --- Illegal Moose Hunting---Yacht- ing Disaster.

Will be Careful in Future.

LEADVILLE, Col., Sept. 21.—An Italian at the Elk mine remarked yesterday that all kings and presidents should be killed and that it was the right thing to kill McKinley. Three hundred miners gathered at the shaft house, waited until the follow appeared, placed a rope around his neck and started for a railroad trestle. He was badly choked and driven out of the camp by the miners with draw revolvers.

A big Robbery.

HAMPTON, Sept. 21.—Last night night McAllister's shoemakers' shop was again burglarized, and four hundred and sixty-two dollars stolen from a trunk. He has just left for St. John to see Detective Ring.

Eight Persons Killed.

BUCHARES, Roumania, Sept. 21.—The em- press for Vienna collided this morning at Polota with a petroleum train, killing eight persons and injuring nine. The petroleum train, which dashed into the rear of the ex- press, was descending an incline at the time. Eighteen petroleum cars were set on fire and the express train was completely de- stroyed.

Shore Line Railway.

ST. STEPHEN, N. B., Sept. 21.—The Shore Line Railway was sold at auction to-day. Russell Sage, of New York is the purchaser and the price \$25,000.

No Camp at Sussex.

WOODSTOCK, Sept. 21.—It seems that the Tenth Field Battery and the Brighton En- gineers will not be allowed to go in camp, at present at all events. It was hoped that there would be a camp at the same time as the exhibition. However, Dr. Neilson, the chief medical officer of the militia, has pro- nounced definitely against a camp at pres- ent. He says in a letter that in view of the number of cases of smallpox in Carleton county, and that not withstanding the pre- cautions taken danger still lurks in many households and in the clothing of individ- uals, he cannot recommend that a concentra- tion of the militia of this county should take place until at least two months after the stamping out of the last case. This would seem to settle the matter for the present at any rate.

Small Pox.

HALIFAX, Sept. 22.—The Gloucester fish- ing schooner Goodwin arrived here last night with two men suffering from small- pox. They were landed at the Quarantine Station, where the vessel will be detained with the rest of the crew.

The Fredericton Exhibition.

The Fredericton exhibition, which closed Friday night, broke all records in the mat- ter of attendance. The financial results, it is understood, are quite satisfactory.

Illegal Moose Killing.

KINNEY, Moose Head Lake, Me., Satur- day.—The committee of inland fisheries and game are much disturbed over the unusual number of cases of illegal moose killing which have been brought to the notice of the police. During the last few weeks no less than a dozen moose have been found dead from the bullets of vandals in various parts of the state. drastic measures are deemed necessary to stop the slaughter and bring the offenders to justice. Chairman Leroy of Augusta of the committee is here, in company with several game wardens, in- vestigating.

He goes elsewhere in a few days.

Railway Accidents.

COMO, Col., Sept. 23.—A runaway freight train on Kenosha Hill, on the South Park Railway, caused the death of Webster Rail- ing, the Engineer, and injured eighteen employes of the railway. As the train crossed the crest for the plunge down the spiral descent in Platte canyon, the brakes failed to work and the emergency call for hand brakes startled the crew and employes. Instantly laborers and brakemen were scrambling for the brakes, as they knew their lives depended on quick action. In the meantime the train had gained in speed and at sister curve, where the men could look straight down at the town of Webster, the train flew off the track and pitched down 300 feet into the gulch.

Yachting Disaster.

ST. JOSEPH, Mich., Sept. 23.—Evidence that lead to the belief that some unknown pleasure sailing yacht is now helplessly adrift in Lake Michigan, or that the craft has foundered and the crew perished during the heavy gale that prevailed on the Lake for the last week, was brought about by the finding of a broken spar by the life-saving crew of this city last night. Attached to the spar was a complete set of iron trucks and wire rigging. It is a question as to whether a yacht under such circumstances could make port in safety.

SPORTSMEN.

Northumberland County Is the

SPORTSMEN'S PARADISE.

All The Guides Are Busy And There Are More Parties Coming.

This year bids fair to exceed all previous records in regard to the number of sports- men visiting our resorts and the number of heads secured. The season is just fairly open but already twelve parties have re- ceived hunting licenses from our hustling and accommodating game commissioner, John Robinson, jr.

Many of the parties enumerated below were here last year and some are having their first experience in New Brunswick game districts and those from whom we have heard are enthusiastic at the prospects before them and all speak of the highest terms of the guides and men they have been able to secure. The only draw back is the scarcity of good guides. All the registered guides have their time fully spoken for dur- ing the remainder of the season. This speaks well for the increasing popularity of North- umberland county. With one or two ex- ceptions these parties outfitted at New- castle.

The following is a list of the parties with names of guides and territory that is being hunted.

T. G. Strong and T. R. Strong, of New York city with Edward and John White as guides and Allan Matchett cook, are hunting on the South Branch of the Big Sevege.

Geo. F. Dominick Jr. and Dr. Herriok of New York with Carol Bersing and Geo. Mc- Kay, guides and John Street cook, are hunt- ing on the North Branch of the Big Sevege and Peopdy lake district.

A. C. Neale, of New York with Syrus White as guide and Chas. White, cook is hunting on the Little Sevege.

Ross Buchard and E. Hotchkiss of New York with John Wamboldt and Geo. Shultz as guides are hunting in this county. This is Mr. Burchard's third season here and he is quite enthusiastic over the country.

Lambert Snyden, and Geo. B. North of New York and S. T. Wintz of Philadelphia, with W. C. Bartlett of Doaktown, guides and James Lyons cook are hunting on Cain River.

Wm. Storer of Colorado, with Frank Bartlett, guide, Ernest Lyons, cook and Peter Lyons packman is hunting on the south branch Renous. This party outfitted at Doaktown.

H. A. Pitman, W. B. Long, of Boston with Duncan and Hiram Manderville, guides and Thos. Underhill, cook are hunting on what is known as the North Pole. They got their complement of game the first day in the woods, but are going to remain in for a while longer to enjoy camp life. They saw numerous moose and caribou and Mr. Pitman secured a record head.

Fred Talbot of Providence, R. I., is hunt- ing on Bartholomew River, with Joseph Grady as guide and John Underhill, cook. They outfitted at Blackville.

Perhaps the most distinguished visitor to Northumberland this year is the well-known artist, Carol Rungiers of Brooklyn, N. Y. Mr. Rungiers is probably the most cele- brated Natural History artist on this contin- ent and is on the Miramichi in the interest of "Recreation", the well known sporting magazine of New York. He is hunting on the North Branch Renous with David Manderville as guide.

Edwin B. Holmes, and E. A. Slack, of Brookline, Mass., are hunting in the B.J. Mountain district with Arthur and David Pringle, guides and Lyon Thomas cook.

S. C. Stanley of Boston with Norris Man- deville guide and Jeremiah Mullin, cook is in the Mains lake, Little South West district looking for game.

D. N. Bayden of Joston, with John G. Con- nell, guide and Wm. Norton cook has been hunting at the F. F. F. club at Bartibogus plains and succeeded in shooting a hand- some caribou. He has gone to Tabusintac after a moose.

E. T. Gunn, and A. H. Wheeler, of New York, with Ed. Menzies and Ed. Way, as guides and Arch Stewart as cook, were in the North West Miramichi and in five days succeeded in getting a moose and two caribou. They are two college students and had to hurry home for open- ing, but they expect to come back in Nov- ember if possible.

Defaulter Captured.

QUEBEC, Sept. 23.—The police have ar- rested here an English defaulter named Williams, who was the trusted employee of a large biscuit concern at Riding, Berkshire. Williams came out on the Lake Megantic. No money was found on him and only \$12 in the position of his wife. Though he had- ded under the name of Wallace, Williams admitted his identity. He is now in goal here, and his wife remains in town awaiting the outcome of the case.

BASE BALL.

An Interesting Game Last Wednesday.

TAILTWISTERS VICTORIOUS

Lots of fun for Spectators, Some lively Plays—An- other Game talked of.

The game of ball between teams of young men of the town last Wednesday afternoon was very successful in every way. Not a hitch to mar the fun and a crowd of good natural spectators who were bent on hav- ing a good time and we are sure everyone enjoyed the game.

At 2:30 the teams lined up, the Tail- twisters at the bat and from the first the game was fast and furious and rounds of laughter and applause greeted every batter as he either made a miss or a hit.

In the last half of the game Frank Masson pitched for the Hoboes, K. Kitchen having pitched the first. R. T. D. Aiken, pitched the whole nine innings for the Tailtwisters.

In running to catch a fly, Masson and Crocker who was catching collided and Crocker's mask severely cut Masson's face and he was out of the game for one inning.

The score by innings was as follows:—

Tailtwisters, 1 2 3 4 5 6 7 8 9 Innings.
Hoboes, 3 5 3 2 5 4 0 6 total 33.
Hoboes, 8 0 4 1 0 2 3 5 5

There is talk of another game in the course of a week and no doubt it will arouse as much interest as the last one.

British Scouts Lose Heavily.

Gallant Officer, Lt. Col. Murray Killed.—Captured Gun Re- covered.

LONDON, Sept. 22.—The war office has re- ceived the following despatch from Lord Kitchener, dated Pretoria, Sept. 22:—

"Kritzing, while endeavoring to force a passage of the Orange River near Her- chell at 1 o'clock Friday morning, rushed the camp of a party of Lovat's scouts. He failed to cross the river but the scouts lost heavily. Lt. Col. The Hon. Andrew Murray and Capt. Murray, his adjutant, were killed. Deeply regret the loss of Col. Murray, who throughout the war had led Lovat's scouts with great gallantry.

Under the cover of darkness the Boers managed to carry off a gun. They were promptly followed up and the gun was re- covered in a smart engagement, in which Kritzing, lost two killed and 20 taken prisoners."

Lord Kitchener also reports that the British captured by the Boers in the am- bush near Schepers Nek, Sept. 17, have been released and that the British casualties in the recent Vlakfontein engagement when the Boers captured a company of mounted infantry and two guns, were one officer and five men killed, 23 men wounded, and six officers and 109 men taken prisoners. He announces that the prisoners have since been released.

He further reports the capture of two commandoes, one consisting of 50 men under Commandant Koops, who were taken to- gether with their entire transport, west of Adenburgh, and the other consisting of 54 men, including L. J. Botha who were taken with 48 wagons and their belongings, 45 miles southeast of Carolina.

LONDON, Sept. 23.—In London, the speech of President Loubet when proposing the health of the Czar and Czarina at the lun- chon at Betheny Saturday, is in no way re- garded as an indication of any intention on the part of the Russian emperor to inter- vene in South African affairs.

Even in Paris reflections seem to have convinced many papers that there was very little in the words and that beyond a con- firmation of the Franco-Russian alliance little has been achieved by the visit of the Russian sovereigns.

Lord Kitchener's latest despatches, al- though they contain good news as well as bad, have done little to reassure the pub- lic concerning the state of affairs. The loss of Lt. Col. Murray, a brother of Lord Man- field, is keenly felt. There is little doubt that further details will show it was a se- rious affair.

According to the latest advices from Cape Colony, the situation there is very serious, owing to the sympathy and aid which the Dutch are giving the Boer com- mandoes. The British find it additionally difficult to obtain news of Boer movements.

At Pretoria the strength of the Boers in the field is now estimated at 11,000. If these figures be correct the Boers must be constantly getting recruits. Their supply of arms and ammunition seems to be inex- haustible.

In Boer circles in Holland, it is as- serted that everything is prepared for a Dutch rising in both Cape Colony and Natal.

A most alarming letter from Cape Town is published today by the Daily Express. The writer says:—

The Boers are overrunning Cape Colony. They are both on the coast lines and within 40 miles of Cape Town. Even the intelli- gence department does not know how many colonial rebels have taken up arms in the last fortnight.

"The town guard of Cape Town has been ordered to hand in the magazine rifles and ammunition," ostensibly because these are wanted at the front. Martin-Henry have been served out instead."

In conclusion the writer declares that "the Dutch element in the colony is in re- volt and it is useless to disguise the fact."

The Assassin's Trial.

BUFFALO, Sept. 21.—Justice Lewis and Titen, who were assigned to defend Czolgosz, have just announced that they will accept and that they will be ready to proceed with the case on Monday morning.

ANARCHIST'S HARBOR.

London The Favorite Resort.

LONDON, Sept. 15.—Another question now is, Will the government respond to the general expression of public feeling that something must be done for the suppression of anarchism, or will it prove just a flash in the pan, as has been the case on previous occasions when life has been threatened or taken, or when a dynamite outrage has thrown the world into a ferment?

One thing may be said: On this occasion everybody seems more in earnest that something must be done to stamp out anarchism if possible, though as an anarchist is reported to have said to a newspaper reporter the other day: "Stamp us out fools! You may stamp out men, but you can't stamp out ideas. The idea of anarchy will always live."

NO GREATER HARBOR FOR ANARCHISTS.

It may or may not be known that there is no greater harbor for anarchists in the world than London, their chief resorts being the foreign cafes in Soho and Leicester square.

There is also a small fraternity in Whitechapel, chiefly composed of Russian Jews. There they meet in a place called Liberty Hall to discuss their plans.

Ask that well known detective, Inspector Melville, and he will tell you that there are in London more than fifteen hundred people who may be classed under the head of anarchist's.

Though they are not quite all members of the federation, they are people who are in sympathy with those terrible theories of destruction and the renovation of society as at present constituted, but it is only the extreme section who would lend themselves to acts of violence.

Many of these men are clever artists, engineers, watchmakers, tailors and boot makers. The organization, in Inspector Melville's opinion, is most defective.

When the notorious Manuel Garcia withdrew from the business and began to be suspected by other anarchist's, collective action almost ceased.

Then came the days of Ravachol. Comprising papers found in Paris assisted Melville's staff, and a good many of the hottest anarchists over here were cowed into emigration, principally to the United States.

At the present moment about two hundred represents the fierce, dangerous element of anarchists in London. Yet there is, perhaps, no place safer than London from anarchistic outrages, because, as their foreign brethren point out to the anarchist colony here, to take any sort of action here against royalty would be to kick away the last plank, since it is only in England that there is now any hope of an asylum.

EFFECT UPON UNBALANCED MIND.

Nearly every anarchist, however, who has the slightest taint of danger in him is known to the specially appointed Melville staff. They themselves are aware of this.

It will be remembered that Sipido's attack on the King, when he was Prince of Wales met with the sternest disapproval of the anarchist headquarters in London, which are in the neighborhood of Southampton row.

For the very same reason very little is felt in Scotland Yard of the anarchists doing anything to upset the coronation.

What however, is always dreaded by the authorities is that lectures like those of Louis Michel and writings like those of Emma Goldman may upset the mental balance of a neophyte anarchist who is anxious to attain notoriety, like Sipido or Czolgosz.

Curious as it may seem to hear since the attack on President McKinley Americans in London have developed an acute interest in the district of Soho.

It is no longer Westminster Abbey, the Tower, the Hippodrome, that claims their first attention. The wily anarchist, in whom Americans previously felt but a shadowy interest, as something European and remote, has suddenly jumped to the front, and Soho, with its tortuous slums, within the last few days has become the centre of romance to American visitors in London.

Young women from Boston and Chicago piloted by their friends, may be seen gliding intrepidly through the dingy streets and courts of the foreign quarter. Every unshaven Frenchman and unwashed Italian is mentally set down as a desperado of the most abandoned type.

I have heard about a certain wealthy American who went to a private detective agency office and offered to pay £50 (250) down if he could be introduced to a genuine meeting of anarchists. He was willing to assume any disguise and submit to any conditions. When it was explained to the daring adventurer that things could not be managed here in that simple way, he went his way very crestfallen.

DIED LIKE A HERO.

Commander of The Sinking Cobra stood on The Bridge With Folded Arms.

LONDON, Sept.—19.—The corrected figures as to the loss of life on the torpedo boat Cobra show that she had 79 souls on board. For 57 no hope is held out but torpedo boats and cruisers have gone at full speed to the scene of the disaster, which is the most serious the British Navy has suffered since the sinking of the Victoria.

Lieut. Bosworth-Smith, the Cobra's commander, stood up on the bridge with folded arms as impressive as if on parade and went down with the vessel.

Teacher—Johnny it is very wrong for you to say such a thing about one of your young playmates.

Johnny—Hub! That ain't half as bad as what I ain't sayin' about him.

He—I got up against a trolley accident coming home this evening.

She—You don't say.

He—Yes, I got a seat.

Johnny—Hub! That ain't half as bad as what I ain't sayin' about him.

TRAGEDY OF THE SEA.

LOSS OF A TORPEDO DESTROYER.

With Forty or Fifty of Her Crew.

LONDON, Sept. 19.—The torpedo boat destroyer, the Cobra, has foundered in the North Sea as the result of an explosion. The vessel was en route from the yard of her builders, the Armstrongs of Newcastle, to Portsmouth, and carried a navigating crew of from fifty to sixty men. It is reported that all were lost with the exception of about a dozen persons.

The first intimation of the disaster was the arrival of a fishing boat at Yarmouth with six bodies which she had picked up in the vicinity of the spot where the Cobra was last seen. According to the fishermen, the Cobra was sighted by the lightship off Dowsing sands yesterday morning enveloped in steam and soon afterward disappeared.

The men on the lightship supposed the Cobra had sailed away, until the evening, when they perceived bodies floating in the water and signalled to the fishing boat to investigate the disaster. A despatch from Middleboro says twelve survivors of the crew of the Cobra were landed there this morning and confirm the first report that all the others were drowned. The British admiralty has received information that the explosion occurred after the Cobra struck a rock and that she sank immediately.

The Cobra like her sister boat the Viper, was a turbine engine vessel. She had just left the yard of her contractors and was undergoing a boiler test. About one year ago the torpedo boat destroyer Cobra beat the record of the Viper, and won the title of the fastest vessel in the world.

BOERS WIN A VICTORY.

CAPTURE 200 MEN AND THREE GUNS.

Gen. Botha Threatens to Invade Natal.

LONDON, Sept. 19.—The Boers have captured two hundred British troops and three guns at Scheepersnek.

PIETERMARITZBURG, Natal, Sept. 19.—In view of the imminence of the re-invasion of Natal by General Louis Botha with a force of 1,500 men, a special issue of the Gazette has called out a number of men of the Natal corps to muster here to-day.

LONDON, Sept. 19.—A despatch from Lord Kitchener, dated Pretoria, Sept. 18, announces that the Boers on Sept. 17, ambushed three companies of mounted infantry with three guns, commanded by Major Gough, in the vicinity of Scheepersnek. After severe fighting the British were overpowered and lost their guns, the sights and breech locks of which were first destroyed. Two officers and fourteen men were killed and five officers and 25 men were wounded.

Five officers and 150 men were made prisoners. Major Gough, who escaped during the night, reports that the Boers numbered a thousand men and that they were commanded by General Botha.

Gen. French reports that commandant Smuts, in order to break through a cordon, rushed on a squadron of the 17th Lancers at Elands River Poort killing three officers and 20 men and wounding one officer and 30 men. The Boers who were dressed in khaki and were mistaken for British troops, lost heavily.

FRNCH SOLDIERS POINTED THEIR RIFLES AT THE CZAR.

Sensational Incident Occured while Emperor Nicholas Watched the

COMPIEGNE, Sept. 19.—Emperor Nicholas passed a day full of interest. The morning was spent in witnessing the final operations of the grand western manoeuvres, at which the Czar, for the first time came in contact with the French army, operating under war conditions and not merely in parade uniform.

Operations began at ten o'clock. The skirmishing army corps early developed an attack upon Fort Festines, the minor fort. The Czar and Czarina with M. Loubet and others, mounted the earthworks inside and watched a whole army corps advance to the assault.

The enemy approached in heavy lines under cover of the shells of their artillery to which the forts responded. The position was finally carried at the point of the bayonet. It was a highly theatrical operation.

During the assault the infantry had reached the edge of the moat and were pouring fire into the fort when some of the attacking party aimed in the direction of Emperor Nicholas, who stood watching the

vanguard sliding down poles into the moat and fixing the scaling ladders. One of the generals noticed the direction in which the rifles were pointed and, hastening to the scene pushed the muzzles aside, exclaiming: "Don't fire in the direction of the Czar."

The closing phase of the operations, when the entire force of 40,000 men were in action, was viewed from an eminence near Fort Vitry. The operations concluded at two o'clock.

The Russian Emperor chatted cordially with General Andre, the Minister of War. At Gen. Andre's suggestion the Czar allowed himself to be cinematographed. The Czarina also photographed him with President Loubet and the French Ministers and officers.

The president and his Imperial guests reached Rheims by five o'clock. Here the party visited the beautiful Gothic cathedral. The Czar entered the edifice. He was met at the porch by Cardinal Langenieux, Archbishop of Rheims, in scarlet robes, who was attended by the Vicar General, attired in velvet and surrounded by the clergy.

S. Kerr & Son ODDFELLOWS' HALL.

ALMOST MIRACULOUS CURE OF MR. THOS. WARREN,

BY PAINE'S CELERY COMPOUND

A POPULAR DRUGGIST INDORSES THE LETTER.

The Wells & Richardson Co., Limited. Dear Sirs,—Ten years ago I was laid up with a bad cold contracted at the time of the big flood here. The cold developed into inflammatory rheumatism, and I was laid aside for nearly six months. I recovered, and was able to work for a time, when I was again seized with the terrible disease. I kept getting worse, and suffering the most intense agony. My elbows were partially drawn out of place, and my knees were swollen to nearly double their natural size.

Words fail to express what I suffered, and for days at a time I could not get out of bed nor move myself. During all this time I was under the care and treatment of one of our best physicians, but he did not seem to be able to relieve me and I kept getting worse.

Believe that the doctor's medicine was not producing any good, I decided to give it up and allow the disease to take its course. I grew weaker and weaker every day from the pain, and felt that there was little hope for me.

Having read about Paine's Celery Compound I decided to give it a trial. After the second week I began to improve, and on the 20th May I was able to resume work. I have been working every day since, and am quite well at the present time. I continued the medicine until the middle of August, when I had used in all six bottles. Its effect was magical and permanent, and I consider it a wonderful medicine. I would advise any person who is afflicted with rheumatism to give Paine's Celery Compound a trial.

Yours respectfully, THOS. WARREN, Cornwall, Ont.

Gladys—Now, just for instance guess how old I am.

Cleverton—I don't know, but you don't look it.

EVENTS of the WEEK

HUNTINGTON, Ind., Sept. 17.—J. A. Wildman, the United Brethren minister, was tarred and feathered by a crowd of citizens last night.

Sunday night he rose in a prayer meeting in church and exclaimed: "While I want to give all honor that is due Mr. McKinley, still when he was living he was nothing but a political demagogue."

At this juncture a number of people became so indignant that they rose and left the church. Wildman has no regular charge.

FORT PERRY, Ont., Sept.—Fire broke out in the Sproule bakery yesterday, and before two hours a row of brick stores with fifteen tenants, including the Standard printing office and Western Bank, was a mass of ruins. The loss is pretty well covered by insurance.

BROCKTON, Mass., Sept. 18.—The alleged carelessness of a freight hand on the N. Y., N. Y. and Hartford R. R. was to-day responsible for the death of six passengers on the express train which left Boston at 1.08 p. m.; injuries to 25 others and the wreck of two passenger coaches.

The accident occurred at Avon Station, on the main division, and was caused by a misplaced switch which allowed a long, heavy freight to run into the express, which was running forty miles an hour.

DETROIT, Mich., Sept. 20.—Referring to a despatch sent out from Petoskey, Michigan, stating that the father of Leon Czolgoz, slayer of the late President McKinley, was an accessory to the shooting of Henry Molitor, the lumberman, of Rogers City, Henry Clothier, of Alpena, Mich., who says he was the complaining witness in the Molitor conspiracy case at the time, says in a signed statement to the Free Press that the elder Czolgoz was not implicated in the crime. Furthermore, he states that no one of Polish birth was connected with the affair.

HONOLULU, Sept. 20.—United States Judge Estee has decided that the constitution of the United States was extended to the Hawaiian Islands by the Newlands resolution, sustaining the decision of Circuit Judge Gear and reversing the supreme court of Hawaii. The decision was rendered in the case of a Japanese convicted of manslaughter without the indictment of a grand jury and on a verdict of nine trial jurors. An appeal from Judge Estee's decision will be taken to the United States Supreme Court. The decision, if it shall

stand, will have a very important effect. There are 25 or 30 prisoners in Oahu who were convicted illegally and were sentenced under the ruling of the court, and all may have to be tried over again. Some of the cases are old ones in which the witnesses cannot be found. Large sums collected by the Hawaiian government in tariffs also may have to be refunded.

NEW YORK, Sept. 20.—Counterfeit coins, dimes, quarters, half dollars and dollars, together with moulds and the alleged makers of the queer goods, were found by detectives last night in a house on 25th street in this city. The police think they have made an important capture, as a great quantity of counterfeit money has been in circulation recently. The prisoners and Giuseppe De Luca, alias Don Peppino Raffoni, whom the police say is an ex-convict and notorious counterfeiter, and Angelo Anca. When the detectives made the raid both men made a desperate resistance. Luca fired a revolver point blank at one of the officers but the bullet went a little wide.

WILLEMSTAD, Island of Curacao, Sept. 16.—The Dutch cruiser Somersdijk arrived here last evening from La Hacha, bringing in a number of Dutch refugees, who say that fighting occurred Sept. 13 and 14 in the suburbs of La Hacha, by which the Venezuelans and the Colombian Liberals were defeated by government troops. They say also that the Venezuelan general Echeverria, commanding the four Venezuelan gunboats which had been cruising along the coast of Maracaibo, was taken prisoner at Curuzo with a number of other Venezuelans, and all were threatened by their Colombian captors with death by shooting.

All the persons able to leave La Hacha have done so. The town is in a state of terror and disorder. The refugees say the "General Pension" is without ammunition for her larger guns and cannot engage the Venezuelan gunboats. The Colombian General Castillo is chief commander of the Liberal forces on the Peninsula.

ST. PETERSBURG, Sept. 20.—The Journal of Commerce and Industry today semi-officially reports the following regarding the grain crops of Europe and Russia.

The winter grain is quite satisfactory in the southwest, where there was sufficient rain in the summer.

In the North Caucasus, Finland and a portion of the Western Provinces, it is above average. It is not quite satisfactory in the southeast, that is beyond the Volga and near the Azof Sea.

It is said to be very bad in the Volga valley, Russian Poland and many districts of the Baltic provinces.

In the other provinces it is about as usual with local exceptions. The summer grain is everywhere poorer than the winter grain.

It is better in the southwest than elsewhere, the entire harvests there being above average. It is unsatisfactory and for the most part bad in the rural provinces and the Volga valley. It is satisfactory in the Don valley, but bad in the west and portions of the Baltic provinces.

In Poland it is generally good. In the remainder of the country it is satisfactory.

BADLY RUN DOWN

SYMPTOMS THAT MAY LEAD TO SERIOUS RESULTS.

The Experience of Thos. Coda, of Essex Co., Nerve-Sensitizing, who He Felt Unfit to Stand and Hard Work. From the Review, Windsor, Ont.

Mr. Thos. Coda, of Pike Creek, a small village in Essex county, is known almost everywhere in that section. He is a son of Mr. John Coda, mill owner, and a prominent politician in this locality. A representative of the Windsor Review, who had known that some time previously Mr. Coda was in poor health, recently met him looking anything but as well as usual, and asked him what was the matter with him. "Dr. Williams' Pink Pills," promptly replied Mr. Coda. When asked if he would give the particulars for publication, Mr. Coda said "certainly, if you think it worth while; but there is nothing very wonderful about my case. I was simply badly run down; my nerves seemed to be all shattered, and I was unable to stand hard work. In fact work of any kind left me badly used up. There did not seem to be any organic trouble, it was just a case of being run down and worn out. I felt myself gradually getting worse, however, and I began taking medicine. I tried several advertised remedies, but they did not help me, indeed some of them did me more harm than good. Just then I read of a case much like mine cured by the use of Dr. Williams' Pink Pills, and I purchased a few boxes. Very soon I noticed a decided improvement in my condition and in the course of a few weeks I was feeling my old time self. I can now eat heartily, do a good day's work with no unusual fatigue, and in fact feel thoroughly renewed in health and strength. Naturally I think Dr. Williams' Pink Pills a great medicine for those who are weak or ill."

If you are feeling run down, and easily tired, you need a tonic to put you right to make you feel bright, active and strong, and the only always reliable tonic is Dr. Williams' Pink Pills for Pale People. Give these pills a fair trial, and you will find that their curative powers have not been over-praised. Sold by all dealers in medicine, or sent post paid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

He thinks he's popular, eh?

Does he? Why whenever his name appears in the paper he fancies the public reads it this way John (cheers) Henry (applause) Muggins (loud and continued cheering.)

Hix—There wasn't a dry eye in the house after the curtain went down on the second act.

Mrs. Hix—Probably not, but there seemed to be the usual number of dry throats.

ON MAGNETIC HEALING.

Much is spoken and written, during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching, burning, stinging of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

I've noticed, Uncle Allan Sparks said that the more you say about mosquitoes and anarchists in print the more they seem to be stirred up to action.

A FOOD FOR BRAIN AND MUSCLE.

Whether it is brain fog, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system it reaches every part of the body and overcomes weakness, irregularities and disease.

A Salesman's Story

"Yes sir," this is Standfield's Unshrinkable Underwear, pure wool and guaranteed not to shrink. There are other goods marked "Unshrinkable" but they are mostly of foreign make and are either part cotton or do shrink.

"Standfield's" however, are made entirely from the best Nova Scotia wool, by the Tread Knitting Mills Co., the largest manufacturers of high-class knit underwear in Canada; they guarantee them to us: "Your money back if they shrink, or we will give you a new pair of the same size and style as the original." We are sure you will get your money's worth in Standfield's Unshrinkable Underwear. It is sold by Dry Goods and Fancy Goods Stores, and every dealer for them.

LUMBAGO BACKS STRAIGHTENED

Don't lie around the house losing time and money because your back is stiff from lumbago. Do as thousands before you have done. Buy a large bottle of that unusually good liniment, Polson's Nervine, and rub it frequently over the sore part. It gets at the pain, drives it out, and restores you up in no time. Nervine is quick to relieve; never fails; never harms. Try it today. 25 cents.

He—Is dat a dimple in yo' chin?

A GOOD CORN REMOVER.

A marvel of cheapness, of efficacy, and of promptitude, is contained in a bottle of that famous remedy, Putnam's Corn Extractor. It goes right to the root of the trouble, there acts quickly but so painlessly that nothing is known of its operation until the corn is shelled. Beware of substitutes offered for Putnam's Painless Corn Extractor—safe, sure and painless. Sold at Druggists.

Has Spicer heard from his daughter since she eloped?

Well, we wanted the debt and unrest.

YOU HAVE CATARRH.

You have had it along time. Probably it is getting worse, but will you neglect it. Neglect it despite the fact that this is the best season of year to cure Catarrh. It's easily and permanently cured by the very pleasant, medicated air treatment, "Catarrhazone." You must know the name, for everybody is talking of its wonderful cures. Catarrhazone is the only remedy that promptly, effectively, always cures Catarrh. Doctors recommend it, and druggists sell it in two sizes, 25c. and \$1.00.

IF YOU CATCH COLD.

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly irritates. Then the very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way results in lung troubles that are called by this serious name. It is in the irritated bronchial tube that the germ of consumption finds lodgement and breeds.

Great numbers of people disregard a cough at first, and pay the penalty in neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well known remedy, and it is the surest and quickest cough cure known to-day. It does not deceive by dragging the throat. It soothes the irritated parts and heals them, then the cough stops of own accord. The action of this medicine is so simple that it seems like nature's own provision for curing a cough. Every druggist has it. 25 cents. Be sure to get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

What a strange animal, with such a flat tail. I wonder if it could be a beaver.

No it is just an old tomcat. Some one dropped a flatiron on its tail while he was serenading.

YOU FEEL ALL USED UP

You're discouraged and disgusted—not enough energy to think, less to go to work upon. The reason? You are run down, your blood is poor, your nerves are like Indian Rubber—not like steel, as they ought to be. Use Ferrozone and the tired feeling will go, for it makes plenty of rich red blood that feeds the brain and nerves. The desire to labor comes back and you enjoy it. You don't get tired, because you have used Ferrozone. Neglect not a day longer. Ferrozone will cure you.—A. E. Shaw.

WHY DO WE NOT LOOK NORTHWARD?

It is so refreshing to find anything with the spirit of goodfellowship re Canadian affairs, in an American Journal that we gladly give space to this most timely, sensible and well edited article from the Philadelphia Post:

The revival of interest in our relations with Canada is not surprising. The remarkable thing is that it has not come sooner. "Pan-Americanism" turns its eyes so exclusively to the southward that it forgets that a quarter of the area of the two Americas lies north of the Great Lakes.

Canada is the second of the American republics in extent, the fourth in population, and the second in wealth, commerce, enterprise and industry. Of course, she is called a part of the British Empire, and her people are enjoying thrills of delicious excitement just now over the visit of the heir to the British throne, but she is a republic for all that, and a much more democratic one than Mexico or Venezuela. So when we are making plans for the republican family in America, why should we not count in Canada?

The Canadian imports and exports exceed those of any other country in the Western Hemisphere except the United States. The Canadians are better customers of ours in the aggregate, than any other people in the world except those of the United Kingdom, Germany and France, and in proportion to population the Canadians buy far more from us than even the inhabitants of those countries. We sell to Canada more than to all the other American republics combined, with China and Japan thrown in. Yet our diplomatists perspire over Pan-American Conferences to improve our relations with Chile and Peru, and laboriously tug in the Concert of the Powers in China, while we take so little interest in our vast Canadian commerce that we can hardly bring ourselves to take the trouble to reassemble the Joint High Commission whose work might double it.

When we are so anxious for markets, why not develop this one? At present the Canadian who wants to buy goods in the United States has to pay a fine of thirty-three per cent. for not buying in England; yet in spite of that handicap we sell more to the Canadians than the English do.—What might we not do if the advantage were on our side!

Our relations with Canada must and will be intimate in spite of ourselves. We can keep aloof from Mexico if we choose, for Nature is not trying to force us and the Mexicans together. But we cannot keep aloof from Canada. Americans and Canadians navigate the Great Lakes together. They draw power alike from Niagara. They share the summer pleasures of the Thousand Islands. American money passes without question at the Canadian resorts, and the Canadian postal authorities find it necessary to paint notices on their letter-boxes in Montreal, announcing that none but Canadian stamps should be used on letters mailed in Canada. American farmers find an advantage in sending their grain to market by Canadian railroads and canals, and Canadian railroads feel the need of American winter terminals.

In the Pan-American agreement it is a case of the United States first, Canada second and the rest nowhere. If the Dominion were an independent country, separated from us by five thousand miles of sea, we

should be subsidizing steamer lines and calling on our consuls for reports on the most hopeful methods of capturing its markets. Nearness and the flimsy thread of the British connection have obscured our vision. But while we are lamenting the threatened injury to our trade with Russia, let us remember that the little colony of Canada buys from us eight times as much in a year as the whole Russian Empire, and that we sell to every Canadian two hundred times as much as to every Russian.

SAMUEL E. MOFFETT.

One of the difficulties in dealing effectively with anarchism arises from the rooted aversion of the English and the Americans to interfere with the liberties of the people, and especially with the freedom of speech. Seeing, however, that nearly all the crimes committed by anarchists in England and the United States are the work of foreigners, there is an easy way out of difficulty. Foreigners have no right to abuse the hospitality of England and the United States by inciting ignorant and stupid people to crimes of violence. The other day a man was expelled from Germany on the simple but all-sufficient ground that he was an objectionable foreigner. We can deal with the objectionable native difficulty when it arises.—Montreal Star.

Freedom of speech means to speak that which is right, freedom of act means to do that which is right also. The great aim of organized society or government is to conserve these rights and was chiefly instituted for this purpose. No one ever had the right to say or do that which was wrong. If law has any meaning it means to compel those who do wrong to do right.

An Exchange says:—The heartiness of the Canadian reception to the Duke of Cornwall causes great satisfaction, which is reflected by the English press. Sir Wilfrid Laurier is regarded as the most representative of colonial statesmen, and there will be much disappointment if he does not attend the coronation next year. Public opinion of the Duke of Cornwall has steadily risen during his circuit of the Empire, but the speeches made by him in Canada are regarded as the most sagacious of the entire series.

Talking about objectionable foreigners; Emma Goldman is a Russian who entered the United States twenty years ago, and has been preaching political doctrines offensive to the immense majority of the American people ever since, with a brief interruption six years ago, when she was sent to jail for 12 months for inciting the anarchists. Now her infernal teaching has borne fruit, if Czolgosz is to be believed, in the murder of the chief ruler of the nation, and one of the most harmless and amiable of men.—Montreal Star.

Yes, but Geo. said that God told him to kill Garfield and General Grant said on the evening of the assassination, "if this man proves to be an anarchist I go for stamping out anarchy, or if a socialist I go for stamping out socialism." But Geo. proved to be a member of the young Men's Christian Association and an oracle of Republican party and had made campaign speeches for it and yet Grant did not insist on extermination of

THE ROYAL TOUR.

A New Experience—The Duke and Duchess run the Slides.

OTTAWA, Sept. 22.—The royal party left Rideau Hall at 10.30 this morning for their trip down the lumber slides. At Rideau Hall they boarded an electric car built specially for their trip. It is a magnificently furnished car, 50 feet in length. On either side is the British coat of arms in gold. The interior is finished in antique polished oak, the ceiling being of bird's eye maple. There are numerous plate mirror bookcases, etc., and the car contains 14 large easy chairs upholstered in olive green plush. The car is capable of speed of 50 miles per hour and is the first electric car ever provided exclusively for the use of royalty. A number of police were on board the car, but there was no military escort. The car proceeded via Sussex, Sparks Bank, Wellington and Queen streets to Oregon street, the head of the timber slides. There six cribs were in readiness for the royal party and suite. The cribs were of square pine timber 20 feet by 30 feet. In the middle of each a square platform was erected with two seats of deal lumber across it. Of course the seats were handsomely furnished with rugs. J. R. Booth, Canada's lumber king, was in charge of the royal crib. The royal party went down the slides on the third crib. Along the sides of the slides were large crowds at every point of vantage to cheer the future King as he dashed down through the rushing waters. At the foot of the slides the royal party paddled down the Ottawa river to Rockcliffe Park, a distance of about 3 miles. Indians and old river men manned the canoes, six in each canoe. At Rockcliffe a special detachment from the Governor General's Foot Guards and the 43rd Regiment were drawn up to receive the Duke. There were 100 men in each detachment. Capt. McLean was in command of the Guard and Capt. Delaronde of the 43rd.

At Rockcliffe the royal party visited a mode shanty built there especially for the occasion. It was built just as the old-time shanties were, not a nail being used in its construction. The cooks, choppers, etc., were at work just as if in the forest.

The royal party were also given an opportunity to take a meal such as the shanty men live on, baked beans, etc. Later there was an exhibition of log rolling and river sports and a war canoe race for the championship of Canada, the competing crews being Ottawa, Britannia, Carleton Place, Brockville, Y. M. C. A.

SOUTH AFRICAN WAR.

Indignation at the Government's Course.

LONDON, Sept. 21.—While Mr. Kruger and Dr. Leyds are drawing up petitions to President Roosevelt and the Czar, asking them to intervene, the fighting Boers are helping themselves in South Africa by celebrating the expiration of the period in which Lord Kitchener proclaimed they must surrender by four notable successes. The situation is singularly like the opening of war two years ago. The names of the same places are recurring in the despatches. Utrecht, where Major Gough was entrapped was the scene of a similar ambush, some eighteen months back. Action Homes, where the Boers yesterday reappeared, is eighteen miles southwest of Ladysmith, prominent in the early hostilities, and the Natal colonials are mustering for the defence of the Tugela as when General Buller invaded Natal in 1899. In Cape Colony fighting is again going on south of Stormberg, in territory traversed by raiders and their pursuers half a dozen times. The government's publication of these reverses causes an outburst of exasperation against the conduct of the war by the ministry. The great ministerial journals accuse the government of trying to run the war "on the cheap" by not providing Lord Kitchener with men.

THE HAGUE, Sept. 21.—Baron Von Lynden, the minister of foreign affairs, has forwarded to the legations and members of the council of the court of arbitration a copy of the Boers' appeal for arbitration, with a notification that he intends to bring up the appeal for consideration at the first meeting council. The date of the meeting is not fixed.

MARITIME SULPHITE MILL CASE.

This morning the matter of the Maritime Sulphite Fibre Co. (Ltd.), was before Judge McLeod, under the Winding-up-Act, for the appointment of a liquidator, or liquidators. L. J. Tweedie, the provisional liquidator, presented his report. H. H. McLean appeared for the Bank of Montreal, which claims all the property under a mortgage. The validity of this mortgage is contested by the unsecured creditors. W. Pugsley, appearing for some of them, said that he was instructed to favor the appointment of L. J. Tweedie as official liquidator. A. H. Hanington and R. A. Lawlor, representing other unsecured creditors, endorsed the position taken by the Attorney General. H. A. Powell, also representing unsecured creditors, claimed that the Bank of Montreal was aware that the company was insolvent when the mortgage was taken, and it was as a result invalid. In regard to the appointment of an official liquidator, Mr. Powell thought another liquidator, one entirely disinterested, should be appointed.

His honor said that he would give his decision as to the appointment at half past three this afternoon.

The liabilities of the company amount to about \$750,000 without reference to the bondholders. The amount of the assets depends upon the mortgage given the Bank of Montreal.—St. John Star.

The Assassins' Trial.

BUFFALO, Sept. 23.—The trial of Leon P. Colquhoun for the murder of President McKinley began at 10 o'clock this morning. Long before that hour the streets near the city hall were the objective of many curious people. They were willing to take chances on being admitted to the court room, even though they knew that there were but 150 seats available. The various entrances to the great building with the exception of that on Franklin street, were closed and guarded. Policemen were everywhere and rigid discipline was the order of the day. Squads of blue-coated men were stationed on every landing, and in double line far outside the place of entrance, to keep back the crowds, while in a station not far away were a number of reserves ready to reinforce them should the feelings of the people become aroused to the extent of an attempt at rioting. Mounted officers paced slowly around every side of the structure, and no one was allowed to stand on the sidewalk for a moment, so that at no time was the crowd large.

After paying upwards of one million and three-quarters in death claims, the Order had a surplus in the insurance department of \$1,062,000 at the end of August last, all of which is invested in gilt-edged securities in Canada, or is on deposit in the best monetary institutions of the country. Not a dollar of the money collected for this insurance fund is or has been used for the expense of management. The death rate per 1,000 of membership in 1898 was 4.36, in 1899, 4.43, in 1900, 4.88, and since the organization of the society, the average death rate has been only 4.35.

The Sick and Funeral Benefit Branch is a very popular department and upwards of 22,000 of the members of the society are participating in this feature of the order. The benefits are \$3.00 per week for the first two weeks of illness, and \$5.00 per week for the following ten weeks, altogether \$56.00 during any one year, besides a funeral benefit of \$50.00. In case of continued illness, \$56 is paid each year in sick benefits. The fees, monthly in advance, are as follows:

During the year 1900 over \$65,000 were paid out in sick and funeral benefits. All physically and morally qualified males, between the ages of 18 and 45 years, who are not disqualified on account of occupation, are accepted for membership.

BOWSER'S LATEST THEORY.

He Recomes a Divisionist, but Does not Prove a Success.

When Mr. Bowser sat down to his cigar and newspaper the other evening, he took a pamphlet from his pocket and was soon so absorbed in perusing its pages that Mrs. Bowser had to ask him twice what it was before he answered.

Never mind. You wouldn't understand it, anyway.

Is it a collection of family recipes? she persisted.

Of course not. What would I be doing fooling around with family recipes?

Is it hints on hogs and chickens?

He glared at her over his spectacles for a minute and then resumed his reading, and it was not until a quarter of an hour later that he suddenly slapped his leg and exclaimed:

By the horn spoon, but I'm seeing things in a different light than ever before! The chap who wrote this knew what he was talking about.

And will you now explain what it is? she asked.

It relates to politics. There is to be a new party in the field next year. This pamphlet goes on to state why there should be a new one, and I'll be hanged if I don't agree with every word of it. Yes, sir, I'm seeing things as they have never occurred to me since I cast my first vote.

And what is to be the name of the new party?

The divisionists probably; but, whatever it is, it is sure to sweep the whole country. We cannot be kept down any longer.

Since when have you been kept down, as you call it, Mr. Bowser?

Never you mind about that, but get ready for one of the biggest land-slides ever known in this country. It never was right and never will be right for one man to be worth \$10,000,000 and another to have to work for \$2 a day. All men should be equal. All property should be divided up. There should be no rich and no poor. I tell you there are truth and justice and reason in every line of this book, and I am glad I got hold of it.

Are you going to change your party?

I am, and I announce it right here and now. Yes, sir, I'm a divisionist, and if they want any speeches from me during the campaign I am at their service.

I should think your adventures with politics last fall would have been enough to cure any further longing, she replied with a sigh.

What's that? What do you mean by that? he demanded as he rose up.

Didn't your party throw you down after you had spent about \$50 for beer?

Never—never in this world! After I had got the ball rolling I retired to make room for the younger men. The idea of my party throwing me down!

Itching, Burning Skin, Cracked Hands, Sore Ear.

Two Illustrations of How Dr. Chase's Ointment Cures Itching Skin Diseases and Eruptions.

Mr. James McNamee, 25 Elgin St., Ottawa, Ont., writes:—"I suffered with salt rheum for upwards of ten years, the skin on my hands cracking and breaking so as to make them useless. After trying all sorts of remedies in vain, I became discouraged and thought my sufferings would never end. Last spring I used Dr. Chase's Ointment and in a short time was perfectly cured."

Mr. B. Nicholson, Manor House, Winnipeg, Man., states:—"For several months I had been troubled with eczema on my ears, and for weeks I doctored with a prominent Winnipeg physician, but to no avail. I was induced by a fellow sufferer to try Dr. Chase's Ointment, and am happy to say that the first application gave instant relief. I am completely cured, and have had no return of this troublesome disease."

There is no limit to the healing qualities of Dr. Chase's Ointment. It is remarkably quick to relieve and positively cures each and every form of itching skin disease. 60 cts a box, all dealers or Edman & Co., Toronto.

Well, perhaps it didn't, but you got robbed and battered in a saloon and some men had to bring you home. If I were you—

Stop right there, woman! shouted Mr. Bowser as he brought his fist down on the stand between them. I never got battered nor robbed, and I was never brought home drunk. I simply participated in the opening of the campaign, and you know it as well as I do.

O, that was it!

Yes, that was it, just as I am going out this evening to participate in what may be called the opening of the campaign of the new party. They have a meeting only three blocks away to effect an organization. I do not care to take an active part, but I wish them to know that I am on the side of the oppressed. I'd like my name to be first on the list.

Hadn't you better read the pamphlet clear through before committing yourself? asked Mr. Bowser as he walked back and forth.

I've read enough to satisfy me that I've been wrong for the last 30 years, he replied. I have always felt that there was a right path; if I could only find it, and it is here at last. By ginger, but it won't take us long to upset the existing order of things and give everything a fair show! As they will probably get me on the platform to make a speech and perhaps want me to help draft a party platform, you needn't sit up for me.

Mrs. Bowser had no more to say and Mr. Bowser found his hat and cane and set out. At the gate he was joined by a fellow divisionist a man who had been on the point of applying for something in the basement door. His original idea was abandoned for a better one, and he struck Mr. Bowser for a quarter.

Of course not, was the reply. Why should I give you a quarter? I'll bet you haven't done an hour's work in the last six months. You go on!

And you go on, too! answered the man. There'll come a day when a bloated bondholder will have to shell out and divide up, and don't you forget it.

At the corner was another divisionist, and he blocked the way and bodily demanded 15 cents for supper and lodgings.

Don't you know that it's against the law to solicit alms on the street? sharply queried Mr. Bowser.

I'm not soliciting alms, was the surly reply. I'm only asking for my fair share. I tell you, old man, things in this world have got to be divided up. They're holding a big meeting down here and whooping her up to beat the band. Are you going to cough up?

Mr. Bowser had to menace him with his cane to clear the path, and before he reached the hall he encountered a third and a fourth and was addressed so impudently that it made his blood boil. At the door of the hall he found several people who knew him by name and received something of an ovation, but he had scarcely finished bowing his thanks when an individual crowded forward and confidentially suggested:

Say, cap, it would be a nice little thing to buy a keg of beer before the speaking begins.

I'm not in that line, was the reply. Then what are you here for?

A second man crowded up and asked for the loan of a dollar, and a third thought they ought to ex-

change hats to even up things. Another suggested cigars for the crowd, and the first comer returned to the subject of beer.

I—I don't exactly understand this thing, said Mr. Bowser as they elbowed him around. I have been reading a pamphlet, and I am favorably impressed with its arguments and theories and are here to assist in the organization of a new party if you will kindly let me pass in. Yes; the arguments are very conclusive. I don't know when I have read anything that appealed to me more strongly. As the pamphlet says, no man should be richer than his fellow man, and no man—

Then divide up with us! shouted a dozen voices in chorus.

O, but that's different. We are here to effect an organization and start the ball a-rolling. We are here to—

We want beer and cigars.

I say we are here to—

To divide up. Somebody take the old croaker by the back of the neck and shake a barrel of money off him!

Mr. Bowser might have got out of it for a \$2 bill, but he wouldn't stand bulldozing. The result was that a score of men began elbowing him about, and of a sudden he made a dive for and opening and reached it. As he went out he headed for home at his best speed, and hard on his heels was a crowd of 50 enraged divisionists.

Mrs. Bowser and the cat heard the rattle and clatter and went to the door, and just as it was opened Mr. Bowser appeared. He had lost his hat and cane, and his eyes were bulging out and his ears working.

He didn't stop to open the gate, but with a mighty leap he cleared the fence and was in the hall with the key turned in the door when the first of his pursuers fell up the front steps.

Did you set the ball rolling and then retire? asked Mrs. Bowser of the panting man who hung to the hall tree to get his breath.

It was two minutes before he could reply, and then he pointed up stairs and hoarsely said:

Woman, to your room! In the morning I will settle with you for this 16th attempt to assassinate me.
