distinct form of nervous disease pro-duced in Canadian nen by worry erwork in caring for the home. This

is only too true. It is why we see so many ladies pale weak, languid, and suffering from hear, hes and innumerable weaknesses. They cannot stand the strain upon their nervous system. Many of them have found the means to sustain their failing strength, to give color to the cheeks, and new life and vigor to the body, in Paine's Celery Compound. This pure and scientifi remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. F. Cooper, 60 St. Hypolite St., Montreal, was for a long time troubled with nervous headaches, long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived.

Is the cheapest and best heating apparatus for country dwellings ls the cheapest and gest heating apparatus to could workingly.

Being cased with brick it does not damage roots in cellar, the heat being carried up stradily into rooms during the night even after the fuel has burned low. This Furnace being made of PLATE STEEL is most durable, and being simple in construction does not permit of smoke or gas escaping, while it has a great advantage over more complicated Furnaces, by the interior being kept free from soot. This is the reason why it will radiate as much heat after being used for some time as it will when first set up. There is great economy in tuel, and much labor saved in cutting the wood; in fact, it will burn wood that cannot be split or used in any other way.

-The government of Russia has determined to abolish the practice of exiling political prisoners to Siberis. This step is taken, it is said, chiefly in consequence of the effect produced broughout Europe and in Russia itself by the Magazine articles of Mr. George Kennan, whose journey through Siberia was assisted by the government, though his arti-cles gave great offence, and have been as far as possible suppressed. The change is also said to have been ctrongly supported by the minister of the interior.

Mr. Amdon came in and reported

of a happy and successful future.
The blow was dreadful to such a lad as he—so merry, so active, so promising.

Hal Goodwin was just Ted's age—seventeen—a healthy, strong limbed fellow—with a heart as big as his body. The two had been fast friends, but when Ted became a helpless object of pity Hal's friendship rose to a strong, controling affection. He could not be reconciled to his friend's 'hard lack,' as he called it.

'Now, what is it?' saked Hal, as they were seated by the window. 'Maybe I worry you, or tire you, Hal, with my complaining,' 1e
Men be went to Ted's house the next morning Ted was so absorbed in music that Hal's entrance was un noticed, and he sat down quietly so as not to interrupt him.
