#### WIPE GOES THROUGH PAN William Chapman of Denfield was TOMIME OF DABBING HER elected president of the Ontario CHEEK WITH HER HANDKER brotherhood of threshermen at this morning's session in Ulster hall for the third consecutive term. E. S. Downe of Shedden was elected vicepresident, and Birrell Harris, secretary-treasurer.

The legislative committee of the association was instructed to take the necessary measures to have a lien act applicable to threshermen in Ontario put on the statute books. There was a good deal of discussion on this point, but the large majority of those present were strongly in of the introduction of such legisla tion. Several threshermen instanced cases where they had incurred serious financial loss owing to refusal o inability to pay on the part of their customers for threshing done, and declared themselves heartily of the proposal. It is hoped that this legislation may be obtained and made active in time to become operative for this year's threshing in Ontario Sam Oakes of Strathroy proved stalwart in opposing the measu maintaining that by careful consideration of all farmers in a neighbor hood the bad payers could be elimi nated from the places at which a thresher would consent to work. The opinion of the meeting in general, however, was that the lien law would provide a much-needed weapon in the hands of the threshermen in the case of bad payers.

A hint of politics was dropped into the meeting when Mr. Oakes, who has a record of 46 years of threshing in Ontario, declared that the tariff was largely to blame for the difficulties of the thresher, who was forced to buy high-priced manufactured articles nd to sell his services to a man who was in a similar position. He con-ended that free trade would be an aqualified boon to the farmers and nt time.

Threshermen's Mutual Fire Insurance Company will in future be issued for a three-year period, according to a decision to this effect made today. The legal adviser of the company naving told the meeting that this was hossible, it was decided on as a bene-it to members. The annual picnic of the brotherhood will be held on the London. # DEATH MYSTERY

Jury Unable To Decide If Poisoning Was Suicide or Accident.

NO ONE IS BLAMED

The death of Lee Jin Ng, brilliant Chinese schoolboy, who was found at his home, 450 Hamilton road, on Thursday morning, February 5, with an empty carbolic acid bottle at his side, will go down on official records as one of the city's few mysteries The coroner's jury was unable last night to ascertain from the evidence at a special probe, whether the tragedy was an accident or a case of suicide and found no one was responsible in any way for the death of the 14-year-old boy.

The jury's verdict, returned after about ten minutes of deliberations, reads as follows: "That Lee Jin Ng came to his death in this city at his late home, 450 Hamilton road, between 9 p.m. Wednesday and 7 a.m. Thursday. The cause of death was carbolic acid poisoning. Whether the said poison was taken as medicine or with suicidal intent, the jury is unable from the evidence to determine. Rumors of ill-treatment of he deceased by his father have not been verified by the evidence.'

Rumors Shattered. The inquest was called because of reports that the Chinese youth had been ill-used since coming to Canada from his native home in China a little more than two years ago. ### Explains Reports.

That a genuine interest in the welfare of his Chinese boy neighbor had prompted him to report to Major Bradshaw, chief probation officer, that he thought the father was abus ing and ill-treating the son, was the statement of Norman Devine, 843 Hamilton road. Under rigid cross-examination he admitted that he was allowed enough time to play, he told the jury. Huron & Erie President De clares Canadians Overburdened With Levies.

At the 61st annual general meet ing of the Huron & Erie yesterday afternoon, the shareholders elected the following directors: T. G. Meredith, K.C., Hume Cronyn, George T. Brown, George H. Belton, H. E. Gates, A. H. M. Graydon, N. R. Howden, Honorable Major-General S. C. Mew burn, K.C., C.M.G., and Philip Pocock.

At a subsequent meeting of the directors, T. G. Meredith, K.C., was elected president; Hume Cronyn, first vice-president, and George T. Brown second vice-president.

The president, in his remarks, said "May I again draw your attention to the rising tax bills which the Huron & Erie, in common with other financial institutions, is annually called upon to meet. It will be noticed that during 1924, over \$57,000 of Huron & Erie profits had to be devoted to the demands of the dominion and provincial governments-more than \$1 in every \$10 of our earnings. In addition, the Canada Trust Company, which is owned by Huron & Erie shareholders, dispersed nearly \$17,000 in government taxes during 1924.

"The widespread and growing outcry throughout Canada against the increasingly oppressive burden of inome and other sums of taxation being imposed by our governments will, I hope, speedily compel more economical administration of public affairs, and result in a substantial reduction of the present levies.

"Unceasing vigilance on the part of your directors, officers and inspecting staffs has maintained the invest-ments of the Huron & Erie upon a high plain of security."

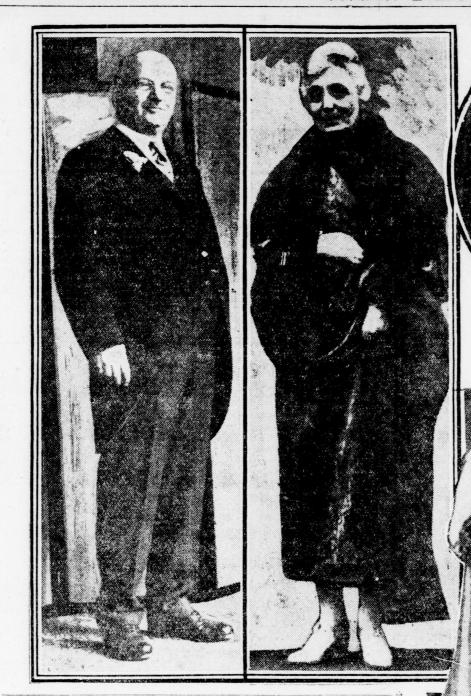

#### Hume Cronyn Speaks.

The vice-president, Hume Cronyn in his remarks, stated: "The confidence of the public in this old institution can be demonstrated in no better manner than by pointing out that during the past five years our deposits and our debentures issued to Canadians have increased by no less a sum than \$8,800,000, the average annual increase being over \$1,700,00 "The experience of the past year

Harry Finan Is Sentenced To Six Months by Supreme Court Judge.

Special to The Advertiser.

Sarnia, Feb. 11.—After three hours' deliberation, the supreme court jury, late this afternoon returned a verdict of guilty in the case of Harry Finan. 30, of this city, charged with manslaughter in connection with the death of Henry Broughton, Sarnia township, vegetable grower. Justice Mowat imposed a sentence of not less than six and not more than twelve months in jail.

The case had commanded considerable interest in the county, as Broughton, who was president of the Lambton Independent Vegetable Growers' association, was particularly well known. On October 14, last, Mr. Broughton, while crossing the inter section at Lochiel and Christina streets, was struck by Finan's car, and died several days later from his injuries. In the witness box this morning, Finan admitted that he had consumed moonshine whiskey on the morning of the accident.

To grope through a world of darkness is bad enough in itself. But to be helpless in that dreary world is still worse. There is no way of making the blind see, when medical and surgical aid fails. But there is a way to make their dark world more interesting. And this is what the Canadian National Institute for the blind is doing. It sends out paid in structors to go into the homes of the blind folk and teach them how to make baskets and other articles. It then accepts all the completed work.

SECOND MIX FAST

A mere handful of fans saw the second series of the Manufacturers loop get off to a start at the arena last night, when the C. N. R. handed the Standard Drug, first series winners, a 3 to 1 defeat in a nip and tuck battle and the McClary outfit got off on the right foot by swamping the Bell Tele-

phone, 6 to 1. Of the two games, the Druggist-Railroad mix was the better, some whirlwind hockey being displayed by both outfits. Herb Smith, the netminder for C. N. R., was mostly responsible for the railroaders' win, for had an on night, and kept the avalanche of shots in the corner. The yellow jackets played championship

yellow jackets played championship hockey all through, and swept down on the C. N. R. net in twos and threes, but could not beat Smith.

The game started with both teams breaking fast and getting a bunch of free shots that had both goalles turning in heroic work. McGeoch left the druggists weakened when he served time for tripping Pigeon when the railroaders' wing was away for a counter. Jo-Jo Stirrett and Gillies staged a combination, and the latter uncorked a shot that joited Baker. At 10 minutes Grainger, the C. N. R. red-headed defence drew first blood on a smoker from the corner, after a pretty solo rush the corner, after a pretty solo rush down the rails. Then Smith began to put in some ex-

down the rails.

Then Smith began to put in some extra work, turning aside the whirlwind attack of the druggists, who unloosed all the tricks in the bag in an effort to even the count. At 14 minutes Logan broke away from a mass at the C. N. R. net, and got in a hard shot that glanced off Baker's stick into the net. The railroaders continued to set the pace in the next canto, and had Bev Baker pulling the acrobat stunt in efforts to clear. Johnnie Burgess drew the fans' approval with his checking tactics that broke up attack after attack. At seven minutes Logan grabbed a loose puck out of a melee in front of the druggists' net and poked it in past the unsuspecting Baker. McLaughlin went to the box for going in on Smith, and Logan followed him with a few rushes later for bumping McGeoch. Jo-Jo Stirrett saw the boys doing time, and decided to join them, getting the desire by bumping Pete McGeoch to the ice when he was all set for a shot at Smith.

The last period was uneventful except for the one goal by McMillan, which kept the druggists out of the white-wash column. It came at 14 minutes. for the one goal by McMinan, which kept the druggists out of the white-wash column. It came at 14 minutes,

was not as fast as the second game, and very little clean combination efforts were in evidence. Practically all the winners' talkies were registered on long shots, while the lone Bell tally, chalked up by Bus Baker in the second, was of the same variety.

The first McClary goal came at seven minutes in the first period, when Robson scored after a solo excursion up the side. Bryant made a nice save when Arthurs was right in on top of him. The stovemen found little difficulty in going through the Bell defence.

To start the second canto Robson got in close for McKinnon's pass, but missed out when he shot wide. Kenny and Chapple got away well on a combination effort and beat the McClary defence, only to have Hynd save. Wicox got in a wicked drive from outside which shook Hynd all over. At five minutes Archie McKay counted on a long smoker from outside, which beat Bryant cleanly.

The rattle of the can is heard Bryant cleanly.

The third period had been under way two minutes when Baker hung up the Bell counter after going up alone. At nine minutes Robson added one more to the McClary total, when his drive from away out got past Bryant for an easy goal. In about another minute Roy McKay chalked up another by picking up a loose puck in front of the Bell twine and slipping it past Bryant. At it minutes R. McKay beat Bryant again, this time on a long shot. Just before the final bell rang Robson got the sixth McClary tally by hoisting the disc over Bryant's head from a wild scramble in the goal mouth.

The tattle of the can is heard around the pro circuit. Art Ross of Boston has dropped George Varroll, the big down-east defence player, who originally was signed with Montreal, Bernie Morris and Bobbie Benson, these two latter coming from the west, being bought outright by Maroons and traded to Boston for Alf Skinner. As the latter is still with Maroons, it can be figured Montreal, then managed by Cecil Hart, got the better of the trade.

When the late Jack Darragh was at the zenith of his brilliant career he was known as the "pinch hitter" of hockey. Numerous games were terminated by his brilliant rushes, and his wonderful performances in this regard are part of Ottawa hockey tradition. Cyrus Denneny, veteran two morticals.

He Chooses Them All.

Few questioned Paavo's speed before the Colombes games. It was admitted he should capture at least two first places and that a third would be almost certain if he selected the right events—if, for example, he followed the Kolehmainen program which involved only distance running. None, however, believed three victories were possible when Paavo's program was learned. Four victories were out of the question.

Paavo was considering only is country when he mapped out the program. Willie Ritiols's return to Finland after several years in America assured that country a long-distance runner of high quality, one who could win the 10,000-metre run and the steeplechase. That released Paavo from those events. There were THE UMPIRE SPEAKS.

Paavo from those events. There were Kolehmainen, Kyronen and Stenroos for the marathon run. That meant this longest of Olympic races would not need Paavo. The present situation of the pair materials the pair indicates the missian to New York is partly broken to hockey. The game has been played there

on and off for twenty years. The Crescent A. C., composed of Canadian players, held forth for many seasons. New York has seen pro hockey at the old St. Nicholas rink, a rendezvous for Canadians stranded on the Great White Way. Pittsburg played pro hockey openly at one time. They used to jump

clean from the range country around Houghton, Mich., to De Quesne Gardens to play schedule games. The addition of more American pro clubs will play no more havoc with

the pro teams than have the attractions of U. S. "amateur" teams to Canadian players with a penchant for touring. It undoubtedly will stimulate a result of the cold spell which set in last night.

BIG SIX ALL-STARS.

Goal-Dolson, Stratford. Right Defence—Ashley, Preston. Left Defence—Starkings, London. Center-"Doc" Carson, Stratford. Right Wing-N. Himes, Galt. Left Wing-Kelterborne, Niagara Falls. Subs-Hiller, Kitchener; Lowrey, London. Sub. Goalie-Murray, Galt. Pat Haffey of Niagara Falls pick them: Goal, Murray, Galt; left de-

fence, Kitchen, Niagara Falls; right defence, Fraser, Niagara Falls; center, "Doc" Carson, Stratford; right wing, N. Himes, Galt; left wing, Kelterborne, Niagara Falls; subs, Frank Carson, Stratford, and Lowrey, London. Happy Campbell of Stratford picks them as follows: Goal, Dolson, Stratford; left defence, Kitchen, Niagara Falls; right defence, Starkings,

London; center, Bill Carson; right wing, Herrington, Niagara Falls; left wing, Hinsperger, Kitchener; subs, Frank Carson, Stratford; Hiller, Kitchener; sub. goal, Murray, Galt. Any one of these teams would in a season develop into a machine on

a parity with those super-teams, the Falcons and Granites. A notable feature of most of the pickings is that Doc Carson grabs off center ice on every choice. Murray of Galt might conceivably have the McDonald, chairman; jump on Dolson. A significant feature of the Galt record is that they have been scored upon less than any other team in the league. Probably the

pickers are overlooking Galt's defence men, but on the other hand, they are perhaps attributing this fact to Murray's good goaling, and the persistent back-checking game played by the Galt forwards, which makes the whole team a defensive weapon. Why Kitchen should go on two choices isn't exactly apparent. He's essentially a rusher. He's young and has a wonderful shot, and is a won-

derful prospect, but he lacks many qualities which he will develop later, and which should make him an all-round star of the future. Ashley hasn't the speed of Kitchen. But, whereas Kitchen is mostly a single threat man offensively, Ashley is as good a forward as he is a defence man, and any time he goes up, the opposition will always have a whole front line to oppose. There is not much argument where Starkings is concerned. He has all the qualities of Kitchen in speed and shot and is much better de-It's the wings that bring the wrinkles. Kelterborne can hardly be left

off a first-string selection. There are plenty of fans who think he's all flash. He hasn't any terrific shot, but he can step in through a defence on occasion as smart as the best of them, and he's a good check. N. Himes, who constituted pretty much all of Galt's offensive threat in himself, should get a place, because he's a sturdy checker, a tricky stickhandler and has a good bean around the goal.

On the sub list you come to Father Time and Youth. Hiller is old as hockey players go, yet there are few players in the business who know more about the game, or have more hockey brains. He may have notched down slightly, but he's a master checker, and sitting on the bench as a sub he'd know just where to go for a weakness if there had been any shown. Lowrey earned his mention against Stratford. Any youngster who can goot out single-handed almost and take a game from Stratford shouldn't have to wait until he grows a beard for recognition of some sort.

None of the choices fell on Pierre Bellefeuille. Bellefeuille is a slow starter, and he was stopped this year just when he was getting on his way. Give him a center player who can' engineer attacks like Carson, and he might easily be the outstanding star he was touted to be.

Full House Seen For Game With Kitchener Tomorrow.

#### IN GREAT SHAPE

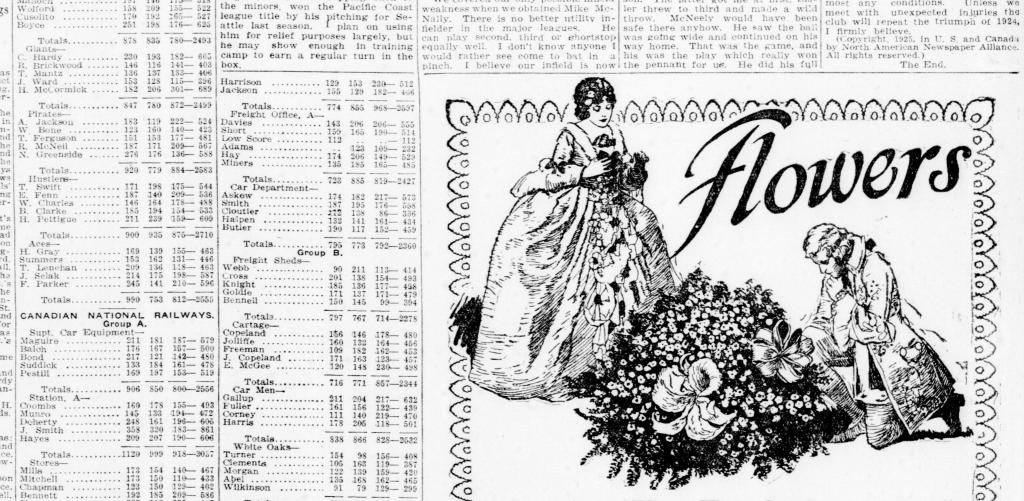

The sawed-off 75's put in a strenuous drill yesterday in preparation for their meeting with Kitchener here Friday night. This game promises to attract one of the season's big jams at the arena. The youngsters are in great shape after their hard battles with Paris and more confident than they were when they went into the round. The close going improved their team play and confidence, and that was what they needed.

## Local Market

AS WHEAT FALLS

This morning's market showed signs of recovering from the slump of the past week, brought on by the rainy weather and the resultant muddy condition of county roads. Hay is still the leader, but vegetables and dairy produce are fairly active.

Dairy butter has declined a few cents in price in the past two days, but the market is now fairly steady. The wholesale price ranges from 33 to 35 cents a pound, while the retail figure is between 35 and 38 cents.

Strictly fresh eggs are bringing 60 cents a dozen and are meeting a good demand,
Eight loads of hay passed over the weigh scales this morning, but supplies have been so steady in the last two weeks that the market has weakened. Prices range from \$12 to \$15 a ton.

wheat prices downward nearly 12 cents during the last thirty minutes of trading, pit brokers were thrown into panic to execute stop-loss orders. This morning prices had advanced almost 5 cents from yesterday's closing figures, when the break plunged the market into a state of confusion.

The May future went to the low mark of \$1.87, but gained one cent before the finish. Both July and October futures slumped precipitously, the former closing at \$1.83% and the latter at \$1.44 for respective losses of 12% cand 7%c from the break of the day.

It was one of the most spectacular sessions in the history of the Winnipeg exchange, and when it was all over the traders were on the point of exhaustion from their frantic exertions.

The coarse grains suffered drastically in the general bearish movement.

The only interesting thing in the afternoon was the promise of the prime minister that he would have something to say about the claim of Home Bank depositors after the debate on the address is concluded.

Neither Mr. Mackenzie King no any of his cabinet has let it be known officially or unofficially what attitude the government has adopted on this question. Dr. Anderson saw in the protective policy the only solution for Canada's industrial problems. He urged a higher tariff on United States fruit, "commensurate with its price." If fruit from the United States continued to enter Canada under a high tariff, then at least the country would have an increased revenue, but he thought that the more likely effect would be to preserve the home merce.

good as the Galt game here a week ago. The Stratford girls played good hockey last year, and the same team is practically intact.

The fans who witnessed the Galt-London mingle were impressed with the development the girls' game has made since its last appearance here. The awkwardness so apparent in stick-handling in other seasons was almost an absent qantity last Saturday. The skating was much improved, too. Most girl players, once started, have to keep on going no matter what happens to the puck. Both teams last week stopped up quickly and worked in reverse quite as well as they did ahead.

Accommends Daily Use of Magnesia Te Overcome Trouble Caused by Fer. menting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meets with no more fear of indigestion.

Big Banquet with Delight.

Those grouchy dyspeptics who throw a fit when food is fried can get back in the good graces of the family circle by the simple expedient of Stuart's Dyspepsia Tablets. One or two at meal time not only aid digestion but stop acid fermentation, clear away the gassizess, lift off the bloated feeling, end heartburn and make the stomach carry with ease the foods that used to apparently cause dyspeptic despondency.

These tablets sweeten the stomach of a dyspeptic by giving it the alkaline effect as in health. Thus, whether you eat corned beef and cabbage, pork sausage, mince pie, buckwheats, baked beans, or other table terrors, you laugh at all fear and once again enjoy the freedom of a good eater in good company.
