The copy filmed here has been reproduced thanks to the generosity of:

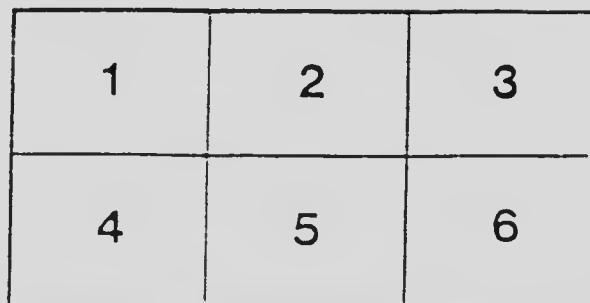

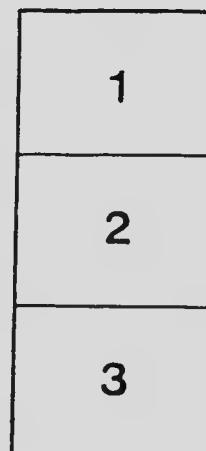

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BULLETIN No. 307

UNFERMENTED GRAPE JUICE

J. U. VINCENT, Esq.,
Deputy Minister
Inland Revenue,

OTTAWA, March 11, 1915.

SIR,—I beg to hand you a report dealing with one hundred and eleven samples (111) of Unfermented Grape Juice as sold in Canada. These samples were purchased by our inspectors in October, November and December of last year.

Our last systematic inspection of this article was made in 1908, when work upon seventy (70) samples was reported (Bull. 166). Since that time Grape Juice appears to be in larger demand, if one may judge by the number of places in which it is offered for sale.

The present collection represents twenty-one (21) different brands, as below:—

Brand.		Number of Samples.
Bass Island	Bass Island Vineyard Co., Sandusky, Ohio	2
E. D. S.	E. D. Smith, Winona, Ont.	12
Fremont	The Fremont Grape Juice Co., Fremont, Ohio	4
Glassco's	Glassco's Limited, Hamilton and Oakville	2
Imperial	Hagar Bros., Welland, Ont.	1
Liggett's	United Drug Co., Toronto, Ont.	5
P. Leos	Peter Leos, Collingwood, Ont.	1
McLaughlin	J. J. McLaughlin, Limited, Toronto, Ont.	2
Noyes	Grape Juice Co., Niagara Falls	1
Pelee Island	Pelee Island Wine and Vineyard Co., Brantford and Pelee Island, Ont.	1
Randalls Gold Medal	Randall Grape Juice Co., Jordan, Ont.	2
Red Wing	Puritan Food Products, Fredonia, N.Y.	8
Royal	Ontario Grape Growing and Wine Mfg. Co., St. Catherines, Ont.	1
Royal Purple	J. Hungerford Smith Co., Rochester, N.Y.	1
Schuhles	Schuhles Pure Grape Juice, Highlands, N.Y.	1
Shirriffs	Shirriffs, Toronto, Ont.	7
Sterling	T. A. Lytle Co., Toronto, Ont.	4
Top Notch	Armours Co., Ltd., Chicago, Ill.	1
Walker	The Grape Products, North East, Pa.	9
Walker	Walker Grape Products Co., Erie, Pa.	3
Welch	Welch Grape Juice Co., Westfield, N.Y.	10
	Total.....	28

ing to the large amount of work in ~~at~~ years here, and to the labour involved in making a complete analysis of this article, I have not considered it necessary to make a full examination of every sample; but a sufficient number of samples of each brand has been examined, to form a basis for judgment.

The results show that, for the most part, Unfermented Grape Juice is true to name, and is rendered marketable by sterilization and hermetic sealing. With very few exceptions the alcohol content is below the legal limit of two per cent (2 p. c.) volume; and in many instances, mere negligible traces are found. Exceptions are Nos. 63536, 63931, (Peter Island) and 63967 (Sterling).

The other legal requirements for grape juice are as follows:—

Specific gravity, between 1·0400 and 1·1240 at 20°C.

Total sugars between 7 and 28 per cent stated as reducing sugars.

Ash between 20 and 55 centigrammes per 100 cubic centimetres; phosphoric (as P₂O₅) between 15 and 70 milligrammes per 100cc. With very few exceptions, these limits are met by the samples now reported. The exceptions, which in all cases are small, indicate additions of sugar or water or both to the grape juice.

I beg to recommend publication of this report as Bulletin No. 307.

I have the honour to be, Sir

Your obedient servant,

A. MCGILL,

Chief Analyst.
