It is supposed that each person will be required to pay three annual Premiums before his Dividends will be redeemed. This teature in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Premiums, after a few of the first years have elapsed, or take up notes given for Premiums.

assist in the payment of the Annual Prepiums, after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to fifty dollars, or thore, on Policies running five years or longer, may be paid one half by Note; to remain a debt on the Policy becomes a claim.

This Company was organized in December, 1846, and its prosperity has hitherto been unparalleled. It is now in the third fiscal year of its existence; and numbers (October, 1849) nearly so the housand members; with a constantly increasing accession. Its losses have been small, compared with the numbers which might have existenced, according to the Tables of Mortality upon which Life Insarance is predicated. By unparalleled success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy holders than by any other Company in the United States; averaging more than 60 per cent. annually.

THE COURIER

WEDNESDAY, JUNE 12, 1850.

The Montreal Courier is discussing the question—" Can Mr. Sanborn an Antersationist Member, consistently against the Ministry I? The Courier says:—" The events still fresh in spots minds consented with his election, leave as soons to question the first, that he accepted a special mission; and that, however he may cain his consciouse by minuted searchtions. Mr. Samborn must feel that he was elected Members, the Courier of Samborn brooks avowedly upon American grounds; and was opposed by the Ministry, profesly becames he received Americans support." Samborn sufficient oredit for descriment. He may conceive that, in upholding the Ministry, he is doing more by the promotion of American thou then by helping as deprive them of office. We'll be bound Mr. Samborn is a shrewd fellow, and knows what he is about.

Sanborn, by his vote, affirmed his attachment t the principles upon which he was elected, and made up the ominous number of seven, who had

od to assert the truth. His name will and with the minority in the history of this Colony, as one of those who had the courage to defend the principles of constitutional liberty; but if we accord him full praise for decision and resolution in presence of a venal majority of the Legislative Assembly, he has not the less exposed himself to the imputation of deviating from his implied duty, when he thought fit to eulogize, as the ablest men in the Colony, a Ministry devoice of any principles of action, enfeebled by internal discord, over-bearing towards the unprotected, cowards when bearded by the bold—a Ministry held together by the ignorable motives of avarice, and, with the exception of the "Hyena," notorious for a parsimony in fit keeping with the disre-putable example of Lord Elgin. The doctrine of expediency, which alone could warrant Mr. San-born's unlooked-for Ministerial tendency, may claim some excuse, if invoked to avert nations peril; but it is repudiated by men of honor, and no politician who resorts to such expedients need count apon the permanent respect or confidence of the community. In England, when men of am-ple fortune and finished education enter the Imperial Senate, they are restrained as much by the traditions of their families, as by a deference to public opinion, from those sudden political conversions which signalize the poverty and corruption of our Assembly. A man like Mr. Sanborn, who emerges from the mass, invested with none of the ses honorably obtained by long services ad unswerving fidelity, derives his important solely from his constituents; they alone confe power he should guard with scrupulous fidelity. To praise a Ministry who had persecuted his conelected to advocate, exposes Mr. Sanborn to the imputation of being a weak or a dishonest man. If the Ministry are hypocritically opposed to Annexation, he should scorn an alliance which dignifies falsehood; and if, being at heart Annex tionists, the Ministry accept the volunteer championship of Connectionist office-seekers, they add reachery to falsehood. At page 47, No. 31, of the Blue Book, we find, under the head "Special Services," some rather extraordinary items of expenditure. officials of the Law Courts might have been anticompelled to mollify, but the proposition is suggestive of two considerations. Retrenchment means some hing more than lopping off the subordinate calaries; it means, according to public interpretation, that the principle should be applied, in the first instance, to the Governor's income, and descend, step by step, from one office holder to another, until it reaches that class whose incomes will permit no curvaliment. The public desire that every man should have "a tair day's wages for a fair day's work," but they are not disposed to suffer the extravigance and profusion with which of five holding members in the Assembly vote each other a viaries disproportionate to their services, or the means of the Colony. Lafontaine's scheme of retreachment, in so far as it has been disclosed, disturbs incomes to which, in some instances, the occapants have almost a prescriptive right. It volunteers no offer on the part of the Cabinet to Liwer their own official incomes, and the scheme indirectly invests the Ministry with fresh sources of patronage, readering the subordinate clerks beneafarth Jependent upon the Government. It is a well founded complaint, that the excessive extent of patronage wielded by the Ministry? is dangerous to defend the police in the part of the Colony. It is the doctrine of European the colony. It is the doctrine of European the colony of the means of the part of the Colony. It is the doctrine of European the colony of the means of the colony of the means of the colony of the means of the colony. On Sunday last the "Germania Society kindly volunteered their assistance to the choir of St. Patrick's Church, on the occasion of a collection being taken up with a view to the liquidation of the debt remaining upon the organ. The Church was well fitted, and those sublime strains, which the greatest masters of the Divine art have dedicated to the enhancement, of the splendour and impressiveness of the Roman Catholic ritual, were heard with rapturous attention.

The vocal portions of the service were selected from the sacred compositions of Haydn and Mozart; the regular choir of the Church acquitted itself with great credit and effect; the accompaniments were performed by the "Germania Society:"-to say that they were well performed would be but a weak expression, and we may safely venture to say that Sacred Music was never before heard to such perfection in Canada. A appropriate intervals during the Service, selections from choice religious compositions were performed by the "Germania Society." We may particularize the Aria "Cujus Animam," arranged from Rossini's " Stabat Mater," which was performed during the collection, and which will not soon be forgotten by those who had the good fortune to hear it. We feel sure that selections of a similar character might be introduced with success into the Society's Concerts; we are not though in its day was no doubt a "beauty," would hardly pass for one now. It is what is called a formed during the collection, and which will not aware of any good and sufficient cert Music should be purely secular.

We understand that, thanks to the "German Society," a very handsome amount was conributed at the collection. On Monday evening, this Society gave their fourth Concert to as respectable and well filled a

house as we remember to have seen in the Theatre Royal, and were listened to with increased in Royal, and were listened to with increased inlerest.

TO MERCHANTS, DRUGGISTS AND

DEALERS IN OILS, PAINTS, &c. W. E., the Undersigned, beg to inform you that we are manufacturing a NEW OIL for lubricating Machinery, intended to supersede the use of Sperm and other O.ls used for that purpose. Its qualities have been tested for several months in Manufacturing Establishments, Steamers, and upon Railroads, and the use of it has given general satisfaction. Our price is 70c. per gallon. Any orders you may be pleased to send will be duly attended to.

1,—After about three months trial of your

New linven and rootmanpen, assimous, no tale roles wing reasons:

1. It wears quite as long as Sperm Oil.

2. So far as i have tried it, it keeps the Journals equally cool as Sperm Oil.

3. I have no complaint from our men about cleaning the Engines, and presume it is equally as easy to clean an Engine by using your Oil as it is in using Sperm Oil.

4. I can see no reason why it is not equal to the best of Sperm Oil for lubricating Machinery.

5. There is in my opinion a very great saving to all parties in using your Oil for lubricating Machinery.

6. I believe it will stand cold weather better than any Sperm Oil.

The Valuable Properties of Coffee.

Lord Booss may "It comfortest the brain and helpeth the digestion." Many other writers, both French and English, describe it valuable properties. They say it relieves headschet; and Doctor Thorion, in his Loctures on Botany, says. "Those periods who regularly drink Coffee, can never be subject to putric fever; in fact, a cup of Good Coffee, and nothing can be more tefreshing to the man who studies, or the laborious mechanic." Admitting that the important qualities described in the above quotations are contained in Good Coffee, it is then of puramount importance to the public of Cumda to know where they can obtain the article in the most pure and best prepared state, and as there can be no doubt that to procure the ESSENCE of COFFEE in the highest state of perfection, the Berry must be carofully roasted and ground. SAMUEL COCHRAN begs to direct the attention of the Public to the process adopted by him in the Rossing and Grinding of

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was phanself afflicted with this complaint for opwards of THERTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now differed to the public, and he was cured in a very short time, after his recovery had been accomposable, but almost the possible, by any human means.

FEVER AND AGUE.

For this accurge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED. Bilious Fevers and Liver Complaints.

Bilious Fevers and Liver Complaints.
General Debility, Loss or Aperice, and
Demans or Females—these medicines have been
used with the most beneficial results in cuses of this
description:—Kisu's Evin, and Scaopula, in its
worst forms, yields to the mild yet powerful action of
these remarkable Medicines. Nonre Swears,
Nanvous Damary, Nanvous Complaints of all
