THE BRITISH PERIODICALS FARMERS' GUIDE. LEONARD SCOTT & Co.,

No. 54, Gold Street, New York,

No. Trivite to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural Work, called THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE."

PRACTICAL AGRICULTURE."

By Henry Stephens, F. R. S., of Edinbergh, Author of the Book of the Farm," &c., &c., assisted by Jorn P. Nostror, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.
This highly valuable Work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 spleedid Steel Engravings, and more than 600 Engravings on Wood, in the highest style of the Ari, illustrating almost every implement of husbandry new in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their bighest perfection; in sport, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The Work is being published. In Semi-Adouthly Numbers, of 64 pages each, exclusive of the Steel Engravines, at the solid at 25 cents each, or 35 for the entire Work in Numbers, of which there will be at least 28.

The British Periodicals Re-Published are as follows, viz.

The North Britis Review, (Liberal.)
The Watinister Review, (Liberal.)

Binckwood's Edinburgh Maganias, (Tory.)
Although these Works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is fhoir tite-rary character which gives then their chief sules, and is that they stand confessedly far above all other journals of their class. Blackwood, still inder the masterity guidance of Christopher North, maintains its antened calibrity, and is, at this time, unusually attractive, from the sermi. Works of Buiwer and other literary notables, written for that Magnzine, and first appearing in its columns tota in Great Britain and in the United States. Such works as "The Cautones" and in My. THE COURIER.

TUESDAY, MAY 20, 1851.

The intelligence brought by the arrival of the Cambria, represents England, and a large portion of the Continent, as being at the present moment wholly absorbed on the subject of the Great Exhibition which was formally opened by Her Majesty on the 1st instant, in the presence of 30,000 persons.

The interesting letter from our Lon-

don Correspondent, published in yester-day's issue, gives as full an account of this wonder of the present day, as could have been embraced in such a communication. The subject of the Papal Encroach

ment has lost nothing of its interest since the adjournment of Parliament, and still continues, we observe, throughout the whole British realm, to agitate large portions of the public mind. A great meeting has been recently held in Liverpool, expressive of the deep sense entertained by its Protestant population against the ecclesiastical usurpation of foreign power. Such a meeting, however, in the present stage of Lord John Russell's Bill, can effect but little towards satisfying the demands of the British nation

Winchelsea, is to be regarded as a statement of facts, an imperious necessity calls for the intervention of some principresent moment, to advert to the policy or impolicy of Protectionists. The advocates of the Free Trade system are not without arguments for the support of their principles—and, "sufficient for the day is the evil thereof." We subjoin the Resolution offered by the Earl of Winchelses, and on some other occasion shall revert to this subject :-

whall revert to this subject;—

"That the long-continued and still increasing distress of the agricultural interest; the summit gated difficulties of the Colonial interest; the deep depression of the shipping interest; the diminished and continually declaims profits of trade and of every branch of industrial pursuit; the reduction of the wages of labor, and the diminution of employment in many parts of the United Kingdom; the increase of crime, and the desertion of home and country by continually augmenting bodies of the most industrious and valuable portions of the British population—present indisputable evidence that decangements exist in the social system of the country, which are sapping the foundations of its prosperity, and, if not speedily remedied, must end in wide-spread disaster, discontent, and ruin."

valuable portions of the British population—present indignatable evidence that derangements exist in the social system of the country, which are sapping the foundations of its prosperity, and, if not speedily remedied, must end in wide-spread disaster, discontent, and ruin."

It will be seen by the above Resolution, that "unmitigated difficulties of the Colonial interest" are referred to. What is here understood by Colonial interest, is perhaps not without its application to the policy which is now, or hereafter may be, adopted by the Provincial Government of Canada. The subject of muture prosperity of the Province, may at least be contemplated by its friends and its opponents. Objects of magnitude are best seen at a distance. The question put by the mover of the above Resolution in his introductory remarks, "Why, should the production of Foreign countries be admitted to compete with "Why should the production of Foreign countries be admitted to compete with us in our own markets, unless those productions are equally taxed with our own ?" is entitled to a respectful reply. To admit them without taxation, will be giving them an undue advantage over our own." We should be happy to receive the opinions of some of experienced mercantile gentlemen on

Canadian Enterprise. Among the articles from Canada, now being exhibited at the Great Fair in London, we notice, with much pleasure, that our London Correspondent, in his recent letter, alludes to a Pianoforte from Carada, which he says "takes a high position in tone and construction." The instrument here referred to, we feel assured, can be no other than that manufactured in this city by Mr. J. W. Herbert. We saw and touched this beautifully finished exponent of sweet sounds. before its departure from Montreal, and predicted for it a high rank among similar Instruments which might be exhibited at the Great Fair in London. Success to Canada! Success to the Manufactory of Messrs. J. W. Herbert & Co., Montreal!!

THE NUBIAN MINSTERLS.—These celebrated felodists give their second entertainment this evening. As we have not yet had the pleasure of hearing them ourselves, we subjoin the following notice of the last performance given by them in Toronto, from the Globe :-

On Monday evening the Nubian Minstrels gave their final entertainment in the Temperance Hall, which was pretty well filled. The performance was better as a whole than on any of the previous evenings. The Lecture on Psychology was exceedingly amusing. The principal item in the musical department was a violin solo, one of Bill, can effect but little towards satisfying the demands of the British nation. The present Ministry are without that united Legislative action necessary to carry through Parliament that specific and stringent enactment which the Protestant people of England demand as a security for the future preservation of their religious faith. It must be reserved for the deliberations of a future and more efficient Ministry. The opposing elements which this exciting question has stirred in Ireland, are now busily at work, and the most fruitful sources which originate them are found in the determined opposition of the Irish Prelates of the Church of Rome.

The subject of the Papal Aggression has recently acquained with the tastes and habits of the people, is very sanguine in the most fruitful sources which has recently acquainted with the tastes and habits of the people, is very sanguine in the must full department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one of Strause's Waltzes, played on one string in the musical department was a violin solo, one o

The evening before leaving Rome, Mile Hays sang the Sopreme part in Rossini's Stabet-Mater at the Pelazzo Rospoli, in a style which for pathes and beauty is said to have been unequalied in the Eternal City for many years.

Caroline Duprez, (the promising daughter of the

composer, having made so favorable an impression at Tripler Hall lately, is expected soon to give a Maretzek's new opera company at Boston, have ereated the greatest enthusiasm, particularly Bettini the fine tenor, in the part of Edgardo. This company will soon be here to give a few operas in Astor place, and then open their summer season at Castle Garden.

We are exceedingly happy to state that the Chambly Canal will be re-opened to-morrow, for the passage of ressels. Too much praise cannot be awarded to Mr. McDonald, the Engineer, cherged by the Board of Works, with the deepening of the Canal, for his perseverance and energy in prosecuting the work under difficulties and obstacles which his indefatigable exertions have surmounted. The requisite depth of water having been obtained, we trust to see an additional impetus given to the growing trade with our neighbors; which of late has exhibited such satisfactory and cheering prospects of a steadily increasing business interests. MANCHESTER, April 29.

The news by the American stamer last night, of considerably further comparative receipts of cotton into the American ports, confirming the more extreme views held by many people of a large yield of last year's crop, have exercised a great influence upon the market to-day in Manchester by affecting the estimates which people were disposed to make of the ultimate piece of cotton and goods. Under these circumstances, there has been an irregular market, some people giving way to a feeling of panie, whilst others have acted with a degree of firmness, under the conviction of the Manehester fabrica, and the entire absence of stocks in the hands of first producers.

On the find instant, at Philipsburg, Mr. ABEARAM HUMPEREY, aged 77.
It is with feelings of deep and sincere regret that we to-day record the decease, at Philipsburg, on the filt instants of Mr. ABEL SHITH, one of the olders and most respected inhabitants of the County of Massisquoi, where he has constantly resided for the last 35 years. Mr. BRITH was well and favorably known in the District, where his uniformly upright conduct and unpretending stering integrity of purpose, in all the various relations of life, had attached to him a large circle of acquaintances and friends, who testified their respect for his memory and appreciation of his worth by their attendance at his interment; his remains were followed to the last earthly resting place, by a very numerous concourse of the lin-habitants of Philipsburg and neighborhood. We cannot conclude our obitsary more appropriately than in the words of the worthy Rector who officiated on the melancholy occasion, that the deceased man was one of "the noblest works of God,—an honest man."

months previous notice.

LECTURES, CONCERTS, BALLS, AND MEETINGS OF THE CITIZENS.

Had we a handsome Theatre, we might be favored some day with a visit from the incomparable Songstress, Jenny Lind, and we would have some additional attraction for our American friends during the travelling season. We have no Concert Room, no properly constructed Lecture Room, nothing in the shape of a decent Ball Room—and last, not lesst, (there are stirring times ahead.) we require a comfortable place to resort to, where we can sit down and calmly listen to the story to be told to us by the future Representatives of our improving City. Had we a Theatré, we would be prepared for all such emergencies. At a moderate cost, a temporary floor could be laid, in a very short time, connecting the base of the lower Boxes with the Stage, thereby giving ample space for "the merry dance," or a public meeting of Citizens. We are 50 years behind "our neighbors."

a victim of the Heart Disease and Nervous Affections, which have been growing on me ever since, intil I produced your Forest Wine and Pills, although I had wasted acveral hundred dollars for medical attendance. During the less two years I was obliged to been my house nearly all the time, and gave in businees in admediance of my ill health. I had nearly lost all hope of recovery, my complaint was of that class under which "nature sinks and life he mrs a burthen." Seeing your Forest Wine advertised I concluded to give it a trial, and before finishing, the third bottle I felt like a different person, and was able to resume business again, entirely cured, by taking ave bottles. For the benefit of these afflicted with similar complaints you are at liberty to publish this. Yours, &c.,

JOHNSON BURKE, Waverly Place, N. Y.

Dn. Halbry:—A bottle of your Forest Wine and box of Pille, which I procured of Mr. James Carr, (your Agent for this place,) has done wonders for me. I had been in a state of declane for more than a year, afflicted with a drastful cough, pain in the breast, general schillty, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months? my friends told me I had the Consumption; and despaired of my recovery. I could not obtain any permanent relief from any medicine I had taken, or my physician; until your Wine and Pills were procured. The first done of the Pills brought up from my stone were perfectly black. I then commenced taking the Forest Wine three times a day, my appetite began to return immediately, my cough left me, and in less than two weeks I was almost well. I now enjoy better health than I ever did before, having increased twenty five pounds in seven weeks. Your Forest Wine and Pills are highly valued in HEMPSTEAD, Dec. I, 1847. a now enjuy setter nealth than I ever did before, having increased twenty five pounds in seven weeks. Thirty drops has, in fifteen minutes, cured Wind on the stomach. The following Certificate, voluntarily given by Mr. E. G. Mussey, a respectable and well-known citizen of Cohose, New York, is an evidence which must remove all doubts of the great efficacy of the Forest Wine in GENERAL DEBILITY, NEU-RALGIA, AFFECTIONS OF THE SPINE AND KIDNEYS:

This is to certify, that I have used Dr. Halsey's Forest Wine in my family with the most entire succest. My wife was badly afflicited with Neuraligia, a fibetions of the Spine and Kidneys, and general Debility. She found speedy relief, and regained for health, by the use of the Forest Wine.

Dr. G. W. HALSEY:—DEAR 318,—My wife last autumn was reduced to a low state of Debil.ty.

My family Physician advised her to take your Forest Wine. Accordingly I went to Mr. Terry's, your Agent for this town, and procured a bottle of the which reathered her in a very short time to perfect t, which restored her in a very short time to perfect health-

HENRY DONALDSON.

The testimony of upwards of three hundred individuals; some of whom were afflicted with dreadful disorders; and considered incurable, may be seen at Dr. Halsey's principal Office. The following are some of them residing in this city:

Mr. Aar.n S. Smith, 167, Prince Street, Office in Wall Street; was long severely afflicted with a discase of the hidneys and bladder. The best medical shift amswered no purpose. He tried the Forest Wine, and it met his case, and he was completely sured by the use of four bottles and a box of tely sured by the use of four bottles and a box of

Mr. June Bell, Merchant, in Pearl Street, was for four years a martyr to severe Rheumatic Pains, and could find no relief and he used the Forest Wine and Pills, and recovered by taking six bettles and less than a box of the Pills.

The remarkable efficacy of the Forest Wine is very striking in the case of the Hen. 8. 1. Brown, of Virginis, who was cured in a few hours? time of a severe attack of Baliona Diarrhosa and general prostration of bodily energy. On the arrival of this gentleman in New York in March, he was so weak and nervous, from the effects of his illness, that he could not write, and required assistance to enable him to walk to his apartnent. The Wine was sent for, and he recovered by the use of less than a bottle of the Wine and a single dose of the Pills.

The Forest Wine and Pills are recommended as an efficient and certain cure in all the following complaints—

BOGLE'S AMOLE, A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the Amele, or "soap plant," of Californa, an article used by the natives of that country for weaking; and thus the use of strong alkait, so Barriel to the skin, is a voided. Its vegetable and detergent properties have the genrest and most sourishing effects on the skin, —It stocks and silays irritation, and has a first, thick, evenany lather, which does not dry on the face. It is a decided insury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dreaming case of the "rough and ready" traveller, or the toilet of the most flatishing connotineur. A COMPOUND FOR SHAVING.

REDUCED RATES OF PREMIUM-HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of any other Assurance Company t anascting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so tors to REDUCE the RATES originally rewhich have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may append his year a lead to other the which they may proceed by sea or land, to other parts of North America without affecting their Interest in

their respective Policies.
